

## Investigation Continues In Killing of Local Man

West Texas officers were continuing their investigation today into the slaying of a 20-year-old Brownfield man Friday near Silverton.

The victim was Benjamin Wayne Bearden, Halliburton Oil Well Cementing Company employee.

Charges of murder were filed Saturday against Lynn Hollis Bunch, 33, a one-legged Marine Corps veteran of World War II, who is a vocational agriculture teacher at Silverton.

Bearden's funeral was held Sunday in Lamesa's First Methodist Church, and burial was in Lamesa Memorial Park. He is survived by his parents, Mr. and Mrs. Otto Bearden of Patricia Community, south of Lamesa; wife and son Bryan, Brownfield; two sisters, Mrs. Glynn Bunch of Silverton and Mrs. Edna Curlee of Brownfield.

Bunch still has refused to give a signed statement about the shooting to Dist. Atty. John Stapleton of Floydada, and to Texas Rangers Jim Paulk of Lubbock and John Lynch of Memphis, officers in charge of the case.

The accused however did tell officers that the shooting was an accident. He took Bearden's body to Briscoe County Hospital about 8:30 p.m., Friday, with assistance of Leo Flemming, a Silverton resident he flagged down on the highway where the alleged murder took place.

An autopsy revealed that Bunch had shot his brother-in-law four times with a 12-gauge shotgun, about 8 p.m., Friday, 9 miles south of Silverton. Bunch was divorced some time ago from Bearden's sister, and remarried her about two weeks ago.

Bunch and Bearden left the victim's home here about 6:30 p.m., Friday, riding in a Silverton High School FFA pickup truck, with Bunch driving, investigating officers said.

Flemming explained that when he arrived at the scene of the shooting, Bearden's body was lying beside the truck parked on State Hwy. 207. Bearden's wife told officers that Bunch had arrived earlier at her home in Brownfield before her husband returned from his work. She said she called her husband, and he came home to talk with Bunch.

Bunch said the shooting occurred when he and Bearden struggled over the semi-automatic shotgun, said officers. Bunch also has said that he was standing outside the truck and had started to place the

weapon inside the cab when Bearden grabbed the barrel and one shot was fired.

Investigating officers said that Bunch claimed he "blacked out" after the first shot was fired and had no knowledge of firing other shots. His shotgun was found in the truck when Bearden was taken to the hospital.

The shotgun holds three shells, when two cartridges are loaded in the magazine and one is in the chamber, officers explained.

The autopsy, performed Saturday in Lubbock, indicated that Bearden's body was struck by at least four charges from a shotgun.

Mrs. Bearden, mother of one son, had petitioned for a divorce from her husband several months ago, and the couple had been separated until about two weeks ago.

Bunch, the husband of Bearden's sister, and father of four children, had received a divorce from his wife several months ago, but they were remarried last week.

Officers also said that they learned in questioning friends and relatives that Bunch and Mrs. Bearden once had discussed marriage.

**SEE THEM?** — Although barely discernible, there really are two good lower, front teeth in the mouth of 17-day-old Rodolfo Longoria, son of Mr. and Mrs. Paul Longoria of 918 North Second. Rodolfo, who surely will be called "Rudy" for short, was born in Hill Clinic. He was delivered by Dr. Wayne C. Hill, who explained: "This is the first time in my medical career, that one of my babies has been born with teeth." The event is not an absolute rarity, but excites some interest when it does occur. Rudy has a 7-year-old brother, Vale, who's a first grade student in Jessie G. Randal. His father is employed by Brownfield Printing Company. (NEWSfoto)

## Terry Voters To Decide On Water Program, Assistance

A PROGRESS REPORT...

### Survey Continuing

By MARVIN WHITMIRE  
SCS Soil Scientist

(EDITOR'S NOTE: The following article is a progress report to give Terry residents information on what has been accomplished in the conversion from the Soil Conservation Service's Farm Plan Soil Survey to the Standard Soil Survey which was initiated here last fall.)

Conversion of Terry Soil Conservation District to the Standard Soil Survey is progressing on schedule. The change-over should be completed by the end of 1960, the projected date of completion.

Approval for TSCD to make the change was received in September 1956 and field work began in November.

A total of 10,010 acres were field-mapped during the last two months of 1956. An additional 50,813 acres were mapped in the first six months of 1957 and 40,017 acres have been covered since June.

Approximately 100,840 acres have been surveyed in the last 11 months—some 18 per cent of TSCD. Surveys to date primarily have been conducted in the southeast portion of the county.

The survey requires close observation of the land for various types of soils in the district. See No. 2 Page 2

### W. C. Knox Winner In Lucky Neighbor Event

Winner here in the annual Lucky Neighbor Contest was W. C. Knox of 501 East Lake.

Knox won a \$10 cash award in a drawing Tuesday by members of the oil industry here. He had registered with Schmidt Grocery on Plains Hwy. The grocery store owner won \$5.

The contest is sponsored each year by the industry in connection with Oil Progress Week here.

Customers register during the prescribed period at any Brownfield service station, thereby earning a chance at the drawing.

### Gomez Man Injured In Tuesday Mishap

A 43-year-old Gomez community man suffered serious injuries when his pickup was struck by a car near Johnson Tuesday afternoon.

W. R. (Bill) Schoefield, driver of the pickup, is in Treadaway-Daniell Hospital with possible internal injuries and broken ribs. Driver of the car, Jerry Roseberry, Texas Tech student from Plains, was treated and released Tuesday afternoon.

Investigating officers said Schoefield, who had just left Johnson Gin, apparently unhooked from a cotton trailer and started to turn across the Johnson Road when Roseberry, who was driving south, hit him broadside. The mishap occurred about 12:30 p.m.

Hospital attendants said Schoefield "rested comfortably" Tuesday night.

### Eugene Lynn Taken From Critical List

Eugene Lynn, 15-year-old son of Mr. and Mrs. J. L. Lynn of 908 Tahoka Road, shows continued slow improvement in his recovery from severe head injuries suffered in a September accident, according to Lubbock West Texas Hospital attendants.

Lynn, who was involved in a car-scooter collision here, has been removed from the critical list and "is improving very well," report hospital attendants.

Terry County voters will go to the polls Tuesday to accept or reject any or all of three proposed amendments to the Texas Constitution.

Most interesting of the trio apparently is House Joint Resolution No. 3 authorizing:

"Issuance of \$200,000,000 in bonds by the State of Texas to provide assistance in local development of water resources."

HJR No. 2 calls for increasing authorized state expenditures for old age assistance, aid to the blind and aid to dependent children from the current \$42 million to \$47 million per year; and increasing the limit on payments from state funds per person for old age assistance.

Another House Joint Resolution, No. 37, seeks to make the five per cent contribution rate to the state employees retirement system applicable to an employees whole salary; and adding more employees who may be included in the retirement system.

No. 3 would establish the Texas Water Development Board, which would be authorized to raise money by the sale of State Water Development Bonds, and to loan this money to municipalities and other local government subdivisions for their use "in the conservation and development of the water resources of this State."

The foregoing could include reclamation and navigation districts, and interstate compacts to which Texas is a party. The amendment would authorize the Board to issue up to \$100 million. By a two-third vote in each House, the Legislature could issue an additional \$100,000,000.

See No. 5 Page 2

### Union High School's Homecoming Is Set

Union Parents Club met Wednesday in the school cafeteria. Final plans were made for annual homecoming, set Nov. 8.

Registration for homecoming will begin at 3:30 p.m. Supper will be served at 5:30. Game time for the Union-Pettit tilt is 7:30. Mrs. M. G. Garty, Union School, will take names of those desiring supper at the school.

Those attending the meeting were Mmes. Gary, Rufus Dill, Doyle Moss, Leo Huddleston, Harvey Smith, Leo Herring, W. W. Cheatham, Claud Montgomery, Andy Foster and Mutt Tyler. The next meeting is set for Nov. 13.

### Friends of Library Continue Campaign For Members Here

Friends of the Library continued their campaign this week—it'll end Nov. 19—to enlist new members in the organization.

Primary aim of the group is to secure a free public library in Terry County.

Organized Sept. 6 of last year, the Friends elected the following officers: Mrs. Frank Wier, president; L. G. Smith, vice president; Mrs. Cornelia Peters, secretary, and Mrs. Virgil Bynum, treasurer. Board members are Morgan Copeland, Mr. and Mrs. John Cadenhead and Mrs. O. D. Kennedy.

Said Mrs. Peters: "There is a strong need for a more advanced public library available free to the citizens of Terry County. That is our main purpose in a membership campaign at this time."

The Friends seek at least 400 new members for the 1957-58 year. Cost: \$1 annually for each person.

### Football Winners

Winner of the Oct. 26 Football Contest: Bob Hoey of 1213 East Cardwell, who picked 13 correct winners out of a possible 15.

Hoey called the score: Tech 27, Arizona 20. He also named the Cubs to win over Pecos, 19 to 6.

Low man in the weekly event was Edson Wilder of 913 East Tate, who called 7 correct.

High woman in the contest for Oct. 26 was Mrs. R. J. Clements of 608 East Tate, with 12 correct calls. She scored: Tech 28, Arizona 7, and Cubs 19, Pecos 14.

Low woman for the week was Wanda Clark of 620 East Broadway, with 6 correct winners out of the 15.

### Brownfield Baptists To Fort Worth Meet

Five Brownfield residents will be among the 15,000 persons expected to take part in a four-day series of Baptist conventions Nov. 4-5-6-7 in Fort Worth.

They are the Rev. and Mrs. Warren Stowe of 905 South Fifth, Mrs. Oscar Decker of 505 East Lanny and Mrs. Bill Conlee of Route 1, all representing Calvary Baptist Church. The fifth person is Dr. Jones Weathers of First Baptist.

Purpose of the conventions is to conduct the annual business of the Woman's Missionary Union of Texas, the Texas Baptist Brotherhood and the Baptist General Convention of Texas.

### Handsome Yearbook For South Plains Is First Ever Printed

Some 37 cities and towns throughout the South Plains were spotlighted as the first annual South Plains Parade of Progress, a yearbook outlining the area's potential, was distributed this week.

Parade, published by Robert G. Wilson and edited by Harold E. Reagan, is a condensed, concise work pointing out the

JACK A. SUTTON JR.

### Field Director Will Address Fellowship

The Christian Men's Fellowship will gather at 7 p.m., Saturday in First Christian Church to dine on barbecued venison and to hear the national field director of CMF.

The director is Jack A. Sutton Jr., of Indianapolis, Ind. The president of First Christian's CMF, Joe Satterwhite, has described Sutton as a successful business and professional man, who speaks with understanding to men of varied interests.

"He is an outstanding leader and dynamic speaker who is sought after throughout our nation," said Satterwhite.

Guests have been invited from Brownfield, Plains, Seminole, Post and Lamesa.

Mr. and Mrs. James King and Nancy of 315 East Buckley spent the weekend in Austin. They attended the Rice-TU game while there. They also visited in Plainview this week. Recent guests in their home were Mr. and Mrs. Joe Buckley of Lovington, N.M.

**TODAY IS DAY** — Pictured above are three Brownfield residents to whom Oct. 31 has a double meaning. Observing their birthdays this Thursday are, from left, Mrs. Prentice Walker, Sammy Dean Murphy and Mrs. L. M. Ellington. Mrs. Walker, who lives at 617 East Tate, was born in Ballinger, and as a child was teased about her

birthday being on Halloween. Her two children, Jimmy and Jill, always have taken a dim view of the situation. Said they: "We never got to have a Halloween party. It was always mother's time to celebrate." Even though Sammy's parents, Mr. and Mrs. Dean Murphy of 1008 East Lake, lived in Brownfield when he arrived two years

ago, Sammy was born in Lubbock, and was called "Spooky" until his mother, fearing that the name might stay with him for life, began calling him "Sammy." Says Mrs. Murphy: "His father still calls him Spooky, but his real name is Sammy Dean. We named him after his grandfather, Sam Murphy (707 East Main). I knew we

had to make a change when even his relatives forgot his real name." Mrs. Ellington was born in Grove City, Pa., and lives at 415 East Cardwell. Says she: "Having a birthday on this particular day of the year, I was always assured of a celebration. Instead of the trick-or-treat things nowadays, we'd

make a real jack-o-lantern. Put in someone's window, with a string attached, it could make a really frightening noise." Her two children, Leonard of Brownfield and Mrs. Ellison Carson of Lubbock, always have teased their mother about the coincidence of her birthday and Halloween. (NEWSfotos)

## Cubs Set For Ector Eagles

Fresh from their first win of the season, the Cubs again will attempt to pluck a few Eagle feathers when they meet the Ector Eagles at Odessa at 8 p.m. Friday.

The tilt will initiate the first meeting of the two schools. Ector began competition only this fall.

With a district win under their belts, the Cubs showed more fire and spirit this week as they prepared for their Odessa invasion.

Practice sessions were hampered this week because three coaches were ill and two others appeared to be on the verge

of illness. Farris Nowell and Don Hendley are in Treadaway-Daniell Hospital and Bill Curry is in bed at home—all with the flu. Charles Keese and Elroy Payne appeared ready for a like fate.

Eagles inexperienced Curry reported this week's opponent, though owning an unimpressive record, has the ability to break loose and spring surprises occasionally.

"They are young and inexperienced but they are gaining experience rapidly and becoming more dangerous," said Curry. See No. 4 Page 2

**THE WINNER** — The '57 Chevrolet behind the trio in picture above was given Tuesday to Johnny Raybon of 1008 Old Lamesa Road, winner in the drawing at Kyle Grocery. Raybon, right, accepts the keys from owner Kyle Graves. With them is Jack Bailey of Jack Bailey Chevrolet Company. A 15-foot Amana freezer was won by Mrs. A. M. Bird Jr., former resident now living at Fort Stockton. Other

winner in the huge drawing: Dan Reynolds of 905 East Repetto, five-piece set of Samselite luggage; and (winners of stainless steel cooking sets) Florence Chapman of Box 181, city, Mrs. C. L. Buckner of Box 788, Martha Eldridge of Brownfield, Larry Cabe of Route 2, Leo Crabtree of 1204 Tahoka Road, and J. W. Nelson of 602 South C. (NEWSfoto)

K & S BLUE STAMPS

**AUXILIARY SISTERS** — The quintet pictured above comprises past and present presidents of District 7, Women's Auxiliary, Veterans of Foreign Wars. The women took part Saturday and Sunday in the fall encampment of the district, hosted this year by Hand Bros. Post Post 6794 of Brownfield. From left: Mrs. R. O. Moore of Post 2466 at Lubbock, Mrs. J. B.

Oliver of Post 3905 at Tahoka, Mrs. J. L. Leibfried of Post 5073 at Lorenzo, Mrs. Fred Kincaid of Post 2466 at Lubbock, and Mrs. E. H. Blumberg of Post 7212 at Spur, who is the current district president. The women sold tickets here during the two-day event for chances at a huge quilted rug, proceeds to be used in the district's cancer program. (NEWSfoto)

**FALL ENCAMPMENT** — More than 100 Veterans of Foreign Wars and auxiliary sisters took part Saturday and Sunday in the annual fall encampment of District 7, hosted this year by Hand Bros. Post 6794 of Brownfield. Among those present were, from left seated: Doyle Willis of Fort Worth, senior vice commander of the Texas Department, VFW; H. B. Virgil Crawford, judge advocate of the Brownfield post; Ernest S. Hogg of Post 4950 at Lamesa, senior district vice commander; Mark Smith, commander of Post 2466 at Lubbock, and Thad Patterson, past district commander and member of Post 8575 at Seagraves. From left standing: H. L. Edmiston of Post 4506 at Levelland and deputy inspector of the district; Ray

Moore, post commander of No. 5073 at Lorenzo; Jack Aldrup, commander of Hand Bros. Post; Coy Allen, district junior vice commander and commander of 4506 at Levelland, and Johnny Randall, commander of Post 7212 at Spur. Others here were Cecil R. Shonyo of Lubbock Post 2466 and deputy service officer; Bob L. Pool, district senior vice commander and member of 6797 at Post; Joe B. Oliver, of Post 3905 at Tahoka and district chaplain; Nick Vukard of 6797 and deputy chief of staff; Eustace H. Blumberg of 7212 at Spur and national aide-de-camp, and N. T. Connor of Lubbock, District 7 commander, who presided during the two-day event. (NEWSfoto)

**No. 1—**

industrial and agricultural market available in this area. Included in the book is a seven page spread covering Brownfield and the immense growth it has enjoyed since 1936. In addition to spotlighting the city's churches, schools and thriving businesses, Parade outlines the economy that has made Brownfield grow — agriculture and oil. The Brownfield story says, in part, "It is truly a city with a bright future, with the continuous flow of new families, businesses, industry and farming pouring into the city every day. Progressing from a small prairie frontier town some 30 years ago to a thriving modern community today with the development of oil wells, irrigation in the vicinity, industry and excellent cotton and other farm products, the bustling and friendly city anticipates a 1960 population figure of close to 14,000. With all the many wonderful advantages found in Brownfield today, this estimate might well be placed in the conservative category." The yearbook will be distributed to eastern industries and other concerns seeking to move into the Southwest. The book will give these organizations a thumbnail sketch of some of the opportunities in this area. Carlsbad Caverns are visited by a half million people annually. First tree school in U.S. was established at Dedham, Mass., in 1649.

**No. 2—**

tract. Thus far some 49 different soils have been observed here. Each type of soil is designed by special numbers and symbols to differentiate it from any other soil. Soil information is transposed to the field sheet, an aerial photograph of the land, with linked lines separating the soil boundaries are obtained by observations and measurements made in the field being mapped. The 49 soils which are being mapped come from larger groups within the scheme of soil classification. These groups are designated as "series." TSCD has 18 soil series involved in the survey. Upon completion of the survey, which is being conducted throughout the United States, persons interested in obtaining information about soil in a particular area will have a central source. In the past, information was obtained by individual surveys.

**No. 3**

service area. Under these circumstances we requested this slight increase." In other business, the council annexed portions of two additions to the city. Some 46 building sites were annexed in the Bel Aire Addition on the southeast side of Brownfield. Approximately 100 sites from the Gillham-Powell Addition were annexed on the east side.

**No. 4**

The squad lists seven seniors on the roster. The group is predominantly juniors with a generous sprinkling of sophomores. Though not a powerhouse now, the Eagles likely will be tough in future years. Curry said Ector's "Golden Boy" seems to be fullback Frank Cook, who carries the ball most of the time. "He weighs close to 200 pounds and has tremendous power driving into the line," he noted. Coupled with Cook's power, Curry said the Eagles have a "better-than-average" passer in Quarterback Gary Everett. Dee Williams, left halfback, provides the speed for the team. Ector runs from a straight-T with an unbalanced line most of the time. Curry noted they occasionally set up a flanker.

**Has 1-4 Record**

The Eagles possess a 1-4 record for the season. Their only win was registered three weeks ago against Lakeview of San Angelo. Ector has lost to McCombs, 14-0; Artesia, 21-0; Birdville, 20-6; and Monahans, 22-19. The latter was their first District 2-AAA competition.

The Cubs came out of Friday's Pecos game without any aches or injuries. A check of the squad revealed that everyone is in good condition and have no after-effects despite the cold weather.

Tackle Charles Lee suited up without pads this week for the first time since the Plainview game. Though it is not likely he will see action Friday, Lee probably will be back in the

lineup soon.

This week's practice sessions primarily were devoted to defense, timing and passing. Joe Oswald and Ken Willis, the quarterbacks, were hitting the ends with regularity.

Showing spirit and hustle, the Cubs vowed to add the second scalp to their district belt Friday.

Absentee ballots will be tallied by Dennis Q. Lilly, Mrs. R. V. Moreman, Cliff Jones.

World's largest lumber mill is at Lewiston, Idaho.

**LEAVING SOON FOR AMARILLO**

**District Superintendent, Wife Honored**

The Rev and Mrs. Vernon Henderson of 604, East Tate were honored Monday with a reception in the parlor of First Methodist Church. They are leaving for Amarillo where he will take over his duties as pastor of the San Jacinto Methodist Church on Sunday.

Mrs. Jess Smith and Mrs. G. S. Webber greeted guests at the door. In the receiving line with the honored guests were the Rev. and Mrs. James E. Tidwell, Mrs. Thomas Burrows of Seminole, Mrs. Roy LeMond of Grassland poured.

Orchid mums centered the table laid with a cutwork linen cloth. A silver tea service was used to serve the spiced punch and cookies.

The Rev. Mr. Henderson has been serving as first superintendent of Brownfield District. Members of WSCS of the district presented the honored guests a set of dishes. Officers of that organization gave them a lamp.

Guests also attended from Ropesville, Seagraves, Tahoka, Grassland and Seminole.

**Pledges, Husbands Feted By Chapter**

Chicago is the country's greatest rail center. Some 1,770 trains arrive and depart daily.

Summer temperatures in Maine average from 60 to 70 degrees.

**FAIR WEATHER RESULTS** — With the return of clearing weather, Terry farmers again began rolling the country's bumper sorghum crop to the elevators. Above are a few of the many truckloads of grain waiting to dump at Goodpasture Grain Company. T. A. Wartes said the company unloaded 60 carloads on Monday and that trucks were lined up from the elevator to the Rustic Theatre. Moisture content, slowly dropping since the rains, was about 15-16 per cent Tuesday. (NEWSfoto)

**IT'S SAMSONITE** — The five-piece set of Samsonite luggage in picture above was won Tuesday by Dan Reynolds, left, of 905 East Reppto. With him is Kyle Graves, owner of Kyle Grocery, which held the huge drawing. Others taking part in the Tuesday festivities at the store were Mayor Arlie Lowmore, Sheriff James Fulford, Chief of Police James Tippit and Jack Bailey, owner of Jack Bailey Chevrolet. Main prize was a 1957 four-door Chevrolet sedan won by Johnny Raybon of 1008 Old Lamesa Road. Six residents were named winners of stainless steel cooking sets, and Mrs. A. M. Bird of Fort Stockton won a 15-foot Amana freezer. (NEWSfoto)

**Study Club To Have Rummage Sale; Talk Heard About Library**

Brownfield Junior Woman's Study Club met in Seleta Jane Brownfield Clubhouse Monday afternoon.

Mrs. Frank Wier, chairman of Friends of the Library, was introduced by the president, Mrs. Billie Blankenship. Mrs. Wier discussed the work of her group.

Mrs. Alton Martin read the minutes and Mrs. Don Hewitt gave the treasurer's report. Mrs. Hewitt, finance chairman, presented the budget for the year and announced the club would sponsor a rummage sale on Saturday.

Other chairmen giving reports were Mrs. Harley Rodgers-social, Mrs. Leo Wenzel-publicity and Mrs. Rogers-for the membership chairman.

Mrs. Bob Campbell gave "The Landmarks of Literary England". Mrs. Martin gave "The World's Most Fabulous Jewels".

Refreshments of cookies, nuts and punch were served from a table covered with a crocheted cloth with centerpiece of fall flowers. Crystal and silver appointments were used. Mrs. Don Hewitt was hostess. Those attending were Mmes. Wier, Blankenship, Rodgers, Martin, Campbell, Wenzel and Hewitt.

NEWS EVENTS? CALL 2188

An American symbol of classic design, the new Continental Mark III models open a new era in the luxury car field. For the first time since the introduction of this prestige-leader of American cars, Continental in 1958 offers a full line of models including a four-door hardtop sedan, a unique retractable top convertible, a regular sedan and a two-door hardtop coupe, all in the traditional and elegant design of past Continentals. A new, high compression engine rated at 375 horsepower at 4800 rpm powers the new Continental which pioneers an all-new integrated body and frame construction in the fine car field.

AT PORTWOOD MOTORS IN NOVEMBER

**Classic Lines Coupled With Luxury Featured in Continental Mark III**

The Continental, an American automobile of classic design, expanded line of four models, sign, opens a new era in the luxury car field in 1958 with an expanded line of four models. They will be introduced in dealers' showrooms in November.

For the first time, Continental will offer a four-door sedan, a four-door hardtop, a soft top convertible as well as the well-known two-door hardtop. All models advance the traditional design of the Continental Mark II.

Cast in the same classic mold as its predecessors, the Continental Mark III has clean sweeping lines, the same unmistakable roof line, the lattice-type grille, the long, low hood, the distinctive wheel covers and identification nameplates.

Of the new models, the soft top convertible is the first in the industry with a reverse slanting all-glass rear window, which opens and closes by a power operated switch located

**NEW** DRIVING PLEASURE FOR 1958

The All New 1958

**LINCOLN**

Entirely new in every Continental-inspired detail of design, engineering and luxury, the 1958 Lincoln Premiere introduces classic, sculptured lines, a long, low hood topped by a horizontal grille and canted dual headlamps. A 4-door sedan, a 4-door hardtop and a 2-door hardtop coupe comprise the Premiere series, each powered by a new, high compression engine rated at 375 horsepower.

Be Our Guest . . .

**FIRST SHOWING**

of the most magnificent motorcars of our time  
 . . . setting new standards of classic elegance

The Lincoln Premiere Coupe

**THE NEW LINCOLN FOR 1958**

. . . now styled and crafted in the Continental tradition

You are invited to see the most magnificent Lincolns ever built - inspired by the new Continental Mark III, and crafted in the tradition of every Continental ever built. Longer, lower, and more spacious than any Lincolns before them, these cars have the clean, timeless character of the Continental in every classic line. Inside,

there is an elegance not found in any other motorcar. The engine is new, the transmission is new, the suspension is new. And for an extra measure of lasting quietness, they are the only cars in their class with single unit body and frame construction. By all means, see these new Lincolns.

The Continental Mark III Sedan. Continental prices are now within the reach of every fine car buyer.

**THE NEW CONTINENTAL MARK III**

. . . classic elegance in its finest form

Here - in four incomparable new models - is the greatest Continental of them all.

As you would expect, the new Mark III has advanced new features: a retractable rear window, for example, in all models including the convertible.

It has uncommon luxury: exemplified by leathers imported from Bridge of Weir, Scotland. And in the

Continental tradition, the engine is so smooth you can balance a coin on the hood.

And because this car is built in the newest, most modern automobile plant in the world, with the highest standards of craftsmanship, the Continental Mark III is now priced just slightly above the fine car field.

You're invited to inspect the new Continental Mark III.

"The Lord is my light and my salvation; whom shall I fear? the Lord is the strength of my life; of whom shall I be afraid?"

# Find the strength for your life...

## WORSHIP TOGETHER THIS WEEK

"I have never known a man to have faith in himself," goes an American adage, "unless he *first* has faith in God."

It takes such courage to face life . . . greater courage than any of us has alone. It takes such strength to accept success humbly, to overcome setbacks . . . greater strength than any of us has alone.

And yet the world is full of unacclaimed heroes and heroines . . . men and women who have, in the course of their lives, faced seemingly insurmountable obstacles and griefs. Faced them, and conquered them.

If they were the kind of people who *talked* about themselves, they'd tell you . . . "I never could have done it without the help of God."

The strong Faith they called on to help them can be yours. Build such a Faith for yourself. Make it the firm foundation of your family's security and happiness. Begin this week to worship together at your Church or Synagogue. *There* you'll find the strength for your life.

**State Water Program Can Help Us All**

Voters in the state will go to the polls Tuesday to accept or reject: House Joint Resolution No. 3, a proposed amendment to the Texas Constitution authorizing: "Issuance of two hundred million dollars in bonds by the state of Texas to provide assistance in local development of water resources." The water amendment will benefit you . . .

**BECAUSE** it can help develop \$600,000,000 in water storage projects.  
**BECAUSE** the program is self-supporting and will not increase taxes.  
**BECAUSE** hard-pressed communities will receive a financial boost.  
**BECAUSE** Texas' belief in local self-government and control is given effect.  
**BECAUSE** safeguards are

established to prevent abuse.  
**BECAUSE** no single project can gobble up the state assistance.  
**BECAUSE** it will not disturb vested rights in surface and ground waters.  
**BECAUSE** dam sites will be developed to the greatest possible extent.  
 Selling of modern accident insurance in the U.S. did not begin until 1864.  
 More than half the population of Delaware lives in Wilmington.

**THE SQUARE**  
**What's New?**  
 By Weldon Callaway

One of the newest and best things to hit Terry County in a good while is this beautiful weather. The farmers are really "making hay while the sun shines," grain is coming in, along with some cotton. Said one farmer: "If we don't get it now, we may not get it at all, because the heavy frosts and freezes won't wait forever."  
 The public is in for a treat today . . . you can see the new Chevrolet at Jack Bailey's . . . the new Lincoln at Portwood's . . . the new Dodge and Plymouth at Craig Motors . . . and the new DeStoto and Plymouth at Sunset Motors. Also, you still have plenty of time to drop in at Tudor Sales to see the 1958 Buick . . . all of these are handsome cars and you will be warmly welcomed at all the above-named dealers — so drop by today and look over what's new in the automotive

**TRAVEL TO COTTON CENTER**

**Union Wildcats Going For Seventh Victory**

The Union Wildcats will travel to Cotton Center Friday in an attempt to claim their seventh victory of the season. Cotton Center, though a small team, is aggressive and displays good blocking and hustle, according to assistant coach John Gary. "They had a better club than Southland, but lacked the break-away speed for the victory," he said. The Elks lost, 48-31.  
 Mainstay of the Elks' Wing-T attack is Don Fisher. Gary said he is a fine ball carrier and a pretty fair passer. The Wildcats scout also noted the Elks are especially strong on end sweeps because of a good blocking line.  
 Coach Kenneth Sams said he has been working the "Cats" against the Elks' attack and defense this week in preparation for the District 2-B Six-Man battle. "Cotton Center will be one of the strongest teams we have played this season," said Sams. "They probably will give us a rough time."  
 Alfred Newsom, who was injured slightly last week against Smyer is reported to be doing very well now. "He'll probably see some action Friday night," said Sams.  
 The game is slated for 7:30 p.m. at Cotton Center.

**Large Heliport Is Operated By Humble**

On the marshy flatland of Grand Isle in the southernmost reaches of the Louisiana delta country is the world's busiest civilian heliport.  
 Igor Sikorsky, who built and flew the first workable helicopter, calls this whirlybird nest the outstanding operation of its type today.  
 The heliport is the base of Humble Oil & Refining Company's offshore airlift, transportation hub for the company's operations off the Louisiana coast.  
 Comparisons show the scope of this airlift. Last year, while the next largest U. S. commercial heliport service was carrying 33,000 passengers between the three New York area airports, Humble's whirlybirds gained the Elk attack and defense this week in preparation for the District 2-B Six-Man battle. "Cotton Center will be one of the strongest teams we have played this season," said Sams. "They probably will give us a rough time."  
 Alfred Newsom, who was injured slightly last week against Smyer is reported to be doing very well now. "He'll probably see some action Friday night," said Sams.  
 The game is slated for 7:30 p.m. at Cotton Center.

*It looks and feels like flight on wheels*

**IT RUNS** on gasoline and rolls on wheels. But beyond that, all similarity between this 1958 Buick and any other car you've ever known comes to a decisive end. This B-58 Buick is literally born of aviation principles — starting with a greater use of aluminum than ever before, and going on from there. With this stunning automobile you're in the forefront of styling's freshest advance. With it you boss the B-12000 engine — command through a transmission that's the big talk of the automotive world — feel a modern miracle in buoyancy of ride, plus the never-before wonders of Buick Air-Poise Suspension.\* With it you can drive with more magnificent advances in automobile design and engineering than history shows in any single year. This B-58 Buick is ready now in look and line and lift and life to thrill you to a tingle. Go see — now on display at your Buick dealer's.

**AT KYLE GROCERY FESTIVITIES** — The male quartet pictured above took part Tuesday in the huge drawing for prizes at Kyle Grocery. From left: Deputy Sheriff William Gordon, Sheriff James Fulford, Mayor Arlie Lowrimore and Chief of Police James Tippit. With them is 12-year-old Minnie Charters, who drew the ticket which won for Johnny Raybon a 1957 four-door Chevrolet sedan. She's the daughter of Mr. and Mrs. A. C. Charters of 401 North 11th. For her efforts, she was paid \$10 by Kyle Graves, owner of the grocery firm. Raybon lives at 1008 Old Lamesa Road. (NEWS- foto)

**STAR** — The Hoosier from Indiana, Herb Shrier, will share top starring roles when singer Julius La Rosa. Performance times: 7 p.m. and 9:30 p.m., all three days, including a day and Saturday in Lubbock Coliseum. Other 3 p.m. matinee Saturday.

**WSCS Will Attend Session in Tahoka**

"Week of Prayer and Self-Denial" was observed when WSCS met at First Methodist Church Monday morning. Mrs. J. H. Carpenter led the program with the assistance of other members. A sack lunch was served at noon. Those leading the noon prayers were Mrs. Oliver Grote, Shorty McNeely, Joe Johnson and Minnie Williams. According to Mrs. J. C. Criswell, president, a number of the members will attend the district meeting of WSCS to be held in Tahoka Friday. Speaker for that meeting will be Mrs. W. B. Landrum of Little Rock, Ark., a field worker for the Woman's Division of Christian Service of the Methodist Church.

**AND A CAMERA IN THE BARGAIN!**

**Savings & Loan Initiates New Program For Systematic Savings by Residents**

Whoever heard of it! Residents of Brownfield and the area are being given an exceptionally fine little camera just to open a savings account at Brownfield Savings and Loan Association. "The only stipulation of the program," says J. O. Gillham, president of the association, "is that it be a new account in the amount of \$10 or more. Present savers also will receive a camera free when they bring in a new saver." "The idea," continued Gillham, "is to increase interest in the individual value of a sound, planned savings program, regardless of age.

"People save because they are intelligent. They know that many of the good things in life must be bought and paid for. The only way many of us can acquire these things is to plan and save. "Reasons for saving are as varied as the personalities of the savers themselves, usually to build for the future, marriage, purchase a home, finance a vacation, educational fund or a business opportunity. "Often, however, the individual does not understand fully why savings should be placed on a 'planned' basis. His first thought is to save all he pos-

sibly can and this is certainly not the case. Moderation should be practiced in a savings program as well as in other things. If a person assumes

a reasonable attitude toward saving and does not try to deprive himself of a reasonable amount of entertainment and enjoyment of life, then he can set aside a modest amount of his regular income and realize a good, sound program. "The point that cannot be overemphasized is that it is not so much the amount that is saved but the regularity by which it is saved. A small amount from each pay check, along with the interest it earns, rapidly grows into a sizeable amount. The savings plan for an individual should be modest and within his reach. Once the plan is initiated and followed for a period of time, it results in a savings habit... most desirable for a successful program. There certainly should be nothing haphazard about it." Gillham pointed out that the officers and staff of Brownfield Savings and Loan Association are available to help anyone work out a personalized program, suited to his individual needs.

**'Taxes and Freedom' To Be Discussed Tuesday**

A panel discussion on "Taxes and Freedom" will be held by Maids and Matrons meeting Tuesday at 4 p.m. in Seleta Jane Brownfield clubhouse. An analysis of the current tax situation will be given followed by a discussion period with all participating. Panel members will be Burton Hackney, Bill McGowan and Mrs. Leo Holmes. Morgan Copeland will serve as moderator.

**Ken Tuttle Celebrates Birthday Last Saturday**

Kennie Tuttle was honored Saturday with a birthday party given by his mother Mrs. John K. Tuttle of Route 4. After playing games the guests were served refreshments of chocolate cake and punch. Celebrating with Ken on his first birthday were Jackie Lynn Homes, Buddy and Shirley Beth Bartley, Rhoda Kay and Rene Lawrence from El Paso and Vicky and Ricky Proctor from Denver City.

**No. 6**

on the driver's armrest. The soft top is completely automatic and folds down behind the rear seat. More quality and quietness will be built into the Continental by means of a single unit type of construction which is accomplished by welding the body and frame into one unit. Continental Mark III styling emphasizes length and lowness with discrete chrome treatment. Overall length is 229 inches, while overall height is 56.5 inches. Interior dimensions are increased due to the new type of construction which allows the individual to step down into the car. Canted dual headlamps provide distinctive front end styling. This flared concept is extended along the silhouette of the car where it matches the slightly flared effect of the rear quarter panels. A sculptured front quarter panel accentuates the distinction of the vehicle's silhouette, while a smaller sculptured panel covers the rear wheel. Set between the canted headlamps is a latticed-type grille fronted by highly protective bumpers that wrap around slightly at either side. A gold anodized Continental nameplate in script is placed on the left side of the grille. A reverse slanting rear window is power operated by the driver who has control of all windows in the car by virtue of a master control switch. Power windows are standard equipment in the Continental. In addition, the driver can lock out the power windows, precluding tampering by small children. The latter is an optional accessory. The long, down-swept rear deck lid flows into a wide oval-shaped grille with a latticed-type design matching the front grille. Set into the center of the rear bumper area are six lights including tail lights, stoplights, turn signals and back-up lights.

Two Seminole men narrowly missed serious injury when their car hit two highway signs, overturned and burned on the south edge of Meadow early Wednesday morning. Albert C. Banks, 28, and his brother, Wayne, came through the mishap unscathed, reported investigating officers. Argentina, Brazil and Chile are known as the A.B.C. Powers.

# Injured Meeks Ready

Texas Western will try for its sixth straight victory Saturday, but the Miners will have to beat an old jinx as well as Hardin-Simmons University. The Miners are unbeaten in five games, but they play the Cowboys at Abilene—and they have never won on the Cowpokes' home field. Texas Western last week scored its most decisive victory of the year by thumping New Mexico A&M, 42 to 12. They have defeated North Texas State, West Texas, New Mexico University and Texas Tech as well. Coach Ben Collins' team should be in good physical condition for the crucial game. Two starters left the field last

## "Down Wellman Way"

Hi there! WHS had a two-day vacation last week, but only a few enjoyed it because of the rain and bad weather in general, the buses couldn't make their

runs until Wednesday. This weather we have been having lately hasn't been helping the sickness much either. But things are almost back to normal now and nearly all of us have recuperated, but to those of you that haven't—hurry up and get well!

week with injuries, but both are expected to be ready to go next week.

Tackle Dan Boyd of Abilene had a slightly injured ankle, as did halfback Jimmy Bevers, but both were recovering well early in the week. Second team halfback Jackie Meeks of Brownfield suffered a hip injury, but he, too, is expected to be ready Saturday.

The Miners will fly to Abilene Friday afternoon, and will hold a brief workout at the game site. They will return Saturday night after the game.

A victory would put Texas Western one step closer to renewing its Border Conference championship. The Miners have won two conference games.

End Dick Forrest, Texas Western's team captain and all-Border Conference player, was voted "Miner of the Week" by TWC players after the conference champions defeated New Mexico A&M, 42 to 12, Saturday night. Forrest played a tremendous defensive game, and caught one pass for 20 yards.

The night of Oct. 18 was cold and rainy at Three-Way, but regardless of the weather the Wildcats brought home a 34-7 victory over the Bulldogs. The pep-squad missed the trip to Three Way due to the bad weather and flu, but better late than ever. Here's three cheers for the Wellman Wildcats!

We want to thank Mrs. Akers, Carroll Parker, and Billy Rich for the help they gave us in planning and decorating our float for the harvest festival.

Bertha's mother, Mrs. E. L. Smith, has returned from the hospital at Seagraves. She is recovering from the flu.

Bette Brubaker is back in the hospital at Brownfield again (just couldn't stay away from there, could she. No kidding, Bette, hurry up and get well, but stay that way this time!

Tommy Loe is back at school again after a rough bout with the flu. Good to see you back, Tommy!

The football pictures arrived Tuesday and we all agree that the Wildcats look exactly the "all stars" that they are to us.

The 1958 annuals went on sale Wednesday, so you had better hurry and get your order in. The price is \$3 per copy.

The FHA hayride was postponed until a later date due to bad weather.

The FHA operated the concession stand during the girls basketball game Thursday with

**DELPHIANS RUMMAGE** — First rummage sale of the year by Delphian Study Club was held Saturday on courthouse lawn. Delphians in charge were, from left, Mrs. Paul Ward (facing camera), Mrs. Buddy Norris (holding white jacket) and Mrs. E. E. Preston. The Delphians netted more than \$50 in the ven-

ture, and will hold another sale soon. Rummage sales are popular means of raising money by various clubs here during the harvest season. Best customers are the many transient workers here to pull cotton. (NEWSfoto)

## Tech Win 'Streak' In Danger Saturday

Texas Tech, finally into the win column, could easily get Hammer-Clyde Bolen, Georgia Faught-Gale Ribble, and Sue Harlin-John Sellers. See you next week!

its "streak interrupted" by Oklahoma State University at Stillwater Saturday afternoon.

With its best team since 1945 OSU (formerly Oklahoma A&M) will be favored to take its first victory over Tech since that year. Two of the recent engagements — in 1954 and last season — wound up in 13-13 deadlocks.

The series, started in 1935, reads 7-4-3 in Tech's favor.

OSU, observing Homecoming Saturday, is 3-1-1 for the season. The Aggies lost a close 12-0 decision to Arkansas, then came back to beat North Texas State, Wichita, and Tulsa before being tied by Houston. They were idle last week.

Twenty eight lettermen — compared with only nine for Tech — from last season bolster the Aggies, who have outstanding punting and a good aerial game.

Hard tackling and general heads-up play have been credited with Tech's 28-6 victory over Arizona in Tucson Saturday night.

Arizona scored first on a 96-yard drive; but the Raiders, sent Ronnie Rice across from 21 yards out, and Jerry Bell passed to Jimmy Knox from the 10 to go ahead in the second period. Floyd Cole rammed over from the 2 in the third, and Mickie Barron climaxed scoring with a 60-yard dash in the final quarter.

## "JUNIOR HIGH NEWS"

On Oct. 24, the sixth grade elected class officers and favorites. They are as follows: Janie Flores-president; David Hill-vice president; Dottie Oliver-secretary and treasurer; Ruby Sedgwick and Steve Goza-reporters. Dottie Oliver and David Hill were elected class favorites.

The sixth grade is going to have a Halloween party today at the home of Keith Crowder. It will start at 7 and last until 10:00 p.m.

## "ELEMENTARY NEWS"

Jimmy Hartman has a new baby sister and Glen Wilson has a new baby brother. Jimmy and Glen are both in the first grade.

Louis Gutierrez, another first grader, had a birthday Tuesday.

All of WHS joins with us in expressing our most sincere sympathy to Adrienne Caldwell and her family in the passing away of her father, Mr. Frank Caldwell.

**SET UP TRUST FUND** — Mr. and Mrs. Ted Ferguson of Amarillo are shown on either side of Dr. Carl Bates, pastor of their church in Amarillo. Wayland Baptist College at Plainview will share to the extent of \$25,000 in a trust fund set up this week by Mr. and Mrs. Ferguson, who have deeded ownership of a 640-acre farm near Hereford to the Baptist Foundation of Texas. The gift is valued at more than \$200,000.

## Brownfield Flutist Is Member of Sul Ross College March Band

Cecil Blankenship, a graduate of Brownfield High School, is a member of the Sul Ross College Band selected by the Battle of Flower's Association to be the feature band at the Band Festival program during Fiesta Week in San Antonio.

Playing the flute, Cecil is in his second year of band work at Sul Ross. Son of Mr. and Mrs. C. A. Blankenship of 609 North Atkins, he is a sophomore student majoring in secondary education.

Last year the feature band was the Official U.S. Field Band of Washington, D.C. This is the first time that a band from Texas has been invited to perform as the feature band at the festival.

Seventeen local high school bands and 15 out-of-town bands selected from the state are invited to participate at Alamo Stadium on the night of April 24, 1958.

The Sul Ross Band will perform in a 20-minute solo exhibition of high-stepping precision marching and playing. The band has been acclaimed by many high school and college directors as the finest marching unit in the Southwest. Joe Bellamah is director.

Mr. and Mrs. C. E. Ellison and children, Elaine and David, of Lubbock, are spending a few days with their aunt and uncle, Mr. and Mrs. J. R. Hissom of Magnolia Camp.

During one session of Congress 46,000 bills and resolutions were introduced.

**VOTE SET FOR NOV. 5**

**Passage of Water Amendment Urged by Governor Price Daniel**

AUSTIN, Oct. 30, (Special) — Gov. Price Daniel today urged all eligible Texans to go to the polls on Nov. 5 and vote for the water development amendment which is Proposal Number 3 on the ballot.

"The urgent need of dams and reservoirs in the state is evident to everyone," Daniel stated. "Proposal Number 3 will make possible such projects. It is a self-financing plan and the water amendment does not call for and will not necessitate any tax."

Daniel pointed out that all of the state's public officials are backing the proposal. "Furthermore the amendment has been endorsed by a multitude of state associations and other organizations, newspapers, manufacturers and chambers of commerce."

Actively supporting the water amendment are the East Texas Chamber of Commerce, West Texas Chamber of Commerce, South Texas Chamber of Commerce, Rio Grande Valley Chamber of Commerce, the AFL-CIO, and Texas Manufacturers Association.

amendment, which is third on the Nov. 5 ballot, is a one-time opportunity for Texas and all Texans to have what is greatly needed and without taxes. For this is a self-financing program that not only will pay itself out, but eventually may mean millions of dollars in revenue to the state.

While discussing the water amendment the Governor also tossed in his recommendations of the other two proposals appearing on the Nov. 5 ballot.

"It is my sincere hope," he concluded, "that Texas voters also will approve the two other proposals—the old age pension increase and the state employees retirement plan."

Daniel will make a statewide TV and radio broadcast on the night of Nov. 4 in support of all three amendments. He will make a special broadcast to the aged citizens of Texas, in behalf of the old age pension measure on Friday afternoon, Nov. 1, and will urge all to go to the polls and cast their votes for all three amendments.

"Here is Texas' opportunity of a lifetime," the governor added. "Here at our finger tips is a potential \$600,000,000 for water projects to be paid out of revenues."

Texas' chief executive also cited the flood damages and the tremendous loss of lives and property that have resulted from uncontrolled waters.

"Why should Texans continue to suffer millions of dollars in property damage every year? Why should good water that can be used by cities, by industries and by agriculture be allowed to flow unrestricted off our rich lands and on into the Gulf of Mexico?"

"The recreational advantages that would follow the addition of more lakes and reservoirs naturally will be of interest to hunting and fishing enthusiasts as well as those who enjoy boating and other outdoor sports, but most important to the state are the financial aspects of the program. And they are vitally important," Daniel stated.

Then, as if to answer all questions, he summed up his remarks with the statement that "the water development

increase and the state employees retirement plan."

Daniel will make a statewide TV and radio broadcast on the night of Nov. 4 in support of all three amendments. He will make a special broadcast to the aged citizens of Texas, in behalf of the old age pension measure on Friday afternoon, Nov. 1, and will urge all to go to the polls and cast their votes for all three amendments.

**LEGAL NOTICE**

**NOTICE TO BIDDERS**

Notice is hereby given that the Honorable Commissioners Court of Terry County, Texas, will receive bids until 10:00 O'clock A. M. November 11, 1957, at the usual meeting place in the Courthouse at Brownfield, Texas, for the purchase of one 115 horsepower Diesel powered, Tandem drive Motor Grader, equipped with 14-foot Moldboard, Hydraulic Steering Booster, Steel Cab, Cab Heater, Four (4) 1400 x 24 tires rear, and Two (2) 1300 x 24 tires front, and rain traps, delivered F.O.B. ### Brownfield Student Enrolled This Fall At Hardin-Simmons

Seven Brownfield students are among the 1,500 attending Hardin-Simmons University in Abilene this fall. They are Mrs. Marilyn J. Miller Sharp, daughter of Mr. and Mrs. S. W. Miller of 102 East Buckley; Joe Lynn Sharp, son of Mr. and Mrs. Virgil Sharp of 1312 North Atkins; John W. Rodgers, son of Mrs. W. O. Rodgers of Three Point Trailer Court; Don R. Nicholson, son of A. R. Nicholson of 1312 West Main; Teddy Joe Hardy, son of Mr. and Mrs. D. T. Hardy of 415 Buckley; James O'Brandon, son of Mrs. Earl McCullough of 1215 West Lake; and Barbara W. Brandt, daughter of Mr. and Mrs. C. M. Ware of Route 1.

Visitors to the Midland flower show last Tuesday were Mrs. Ernest Latham, Le Fulton, Fred Turner, Joe Jackson and J. R. Hissom.

J. O. Mitchell, Mid-Continent Supply employee, was treated Monday at Treadaway-Daniell Hospital for a leg injury. He has been released.

First telegraph line in Texas was built at Marshall in 1854.

dace visited in the J. H. Dallas home Sunday.

Eleven members of the Ladies Bible Study class of the Church of Christ gathered at the church Tuesday morning to hear the lesson taught by the minister. The study was the sixth chapter of the Book of Romans. The following were present: Mrs. Williamson, Mrs. Ditto, Mrs. Ferguson, Mrs. Collier, Mrs. Peeler, Mrs. Bruce, Cheshir, and Elder Killian.

A group of men including C. E. Ross, Terry Redford, Clovis Kendrick and Money Price from Brownfield, and Claude Hearne and Elmer Roberts Roberts from Seagraves, took special train at Fort Worth for Lansing, Michigan to bring back new Oldsmobiles. Mrs. Ross carried the party to Fort Worth and while there attended the North Side Baptist church where Brownfield's former pastor, Rev. Rogers, is now preaching.

Homer Winston, Jack Hart and W. M. Lewis leave Thursday on a fishing trip down on the Rio Grande.

Judge W. W. Price, Mrs. Price and Mrs. M. G. Tarpley attended the Baptist Revival conducted by Rev. B. B. Crimm in Lamesa.

Miss Mildred Adams, daughter of Mr. and Mrs. W. M. Adams of Brownfield, has enrolled in Mary Hardin-Baylor this week to begin her year's work.

Buddy Gillham visited his mother in Amarillo Sunday.

Graham Smith, owner of the American Tailor Shop, is installing a new boiler.

**NEED SOME SHOES MISTER** — Larry Simmonds, center, son of Mr. and Mrs. Lewis Simmonds of 312 South Second, helped the Terry Amateur Radio Club in their rummage sale on the courthouse lawn Saturday morning. Other "salesmen" were, from right, Don Simmonds, Mrs. Lewis Simmonds and Mrs. B. W. Young of Route 3. (NEWSfoto)

### EDIFICE TO HONOR BISHOP MARTIN

## McMurry Dormitory Pledges Nearing Goal

McMurry College officials cleared another hurdle this week toward the construction of a \$500,000 dormitory on the Methodist school campus.

Bids for the erection of the new building, Bishop William C. Martin Hall, were opened by the school's finance committee Tuesday.

And while an Abilene contracting firm, Shiftlett Brothers, appeared low with a bid of \$473,095, college officials have postponed awarding a contract pending a recommendation by the finance committee and the Board of Trustees.

The trustee panel scheduled a called meeting Wednesday in First Methodist hear the finance committee's church here to hear the finance committee's recommendation and to study the apparent low bid submitted by the Shiftlett Brothers firm.

Dr. Harold G. Cooke, McMurry president, asserted in a session with the finance committee here Tuesday that "we're within \$100,000 of our pledges for the construction of the new dorm."

Dr. Cooke said approximately \$375,000 has been pledged. "Based on my 15 years experience with McMurry College," he stated, "we have been collecting about 97 per cent of our pledges."

The proposed new dorm is to be erected north of President Hall and will face east on Campus Drive.

The new building is the first to be named in honor of Bishop Martin. A popular figure in national church circles, Bishop

### Kappa Zeta To Have Rummage Sale Here

Kappa Zeta Chapter of Epsilon Sigma Alpha Sorority met with Mrs. J. L. Kemper of 1102 East Cardwell Thursday evening.

Plans were made for a dinner honoring pledges and husbands. Secret sisters were revealed and new ones drawn. The club voted to have a rummage sale Saturday if weather permits.

Refreshments were served to Mmes. Gene Homesley, Bill Dugger, Floyd Jordan, Johnnie Benson, John Andrews, Harvey Carson, Alvin Johnson, Jack Freeland, Chick Clark, Lee Freeze, John Badgwell, Clifford Niles and Leo Wenzel, Maxine Wotipka and Miss Sue Whitson.

Alaska is the largest peninsula on the North American Continent. Acre originally meant the amount of land one man could plough in a day.

### REMEMBER?

## 19 Years Ago Here

On Wednesday evening, Mr. and Mrs. G. N. Couchman celebrated their golden wedding with a six o'clock dinner. Friends present were: Mr. and Mrs. G. R. Day, Mrs. H. C. Zorns, Mr. and Mrs. R. L. Webb, Miss Edna Brock, and Mr. and Mrs. Redford Smith.

Misses Louise Smith, Elizabeth Upton and Agnes Mason, spent the weekend in Fort Worth attending the Frontier Fiesta.

Clyde Cave is in Dallas this week buying new stock for his two stores.

Mrs. Roy Herod, Mrs. R. B. Parish and Mrs. R. A. Brown will be hostesses to the Cent-Tex harmony club on Tuesday. Mrs. M. G. Tarpley is to be leader and study of early American music is to be continued. The club is to meet in Mrs. Herod's home.

Mr. and Mrs. Roy Herod and son Billy Mack spent Sunday in Snyder with Mr. Herod's parents, and left Billy Mack for a several days visit with his grandparents.

Maids and Matrons Club met with Mrs. Ike Bailey Tuesday afternoon.

Mr. and Mrs. Gordon W. Dickinson and daughter Can-

**QUALITY PLUS ECONOMY**

**THE "RW" DISK HARROW**

Simplified design is a big secret of providing quality with economy in the John Deere "RW" Disk Harrow.

The "RW" is a rigid wheel-type disk harrow built to handle the same disking jobs with the same efficiency as many higher-priced units. In plowed ground, stubborn stalks, tough stubble, the "RW" fills the bill completely. It's a harrow that does outstanding work in all ground conditions, with the rubber-tired wheels serving as depth gauges in soft ground and with built-in weight pans to accommodate extra weight in tough conditions or wherever additional penetration is desired. See us soon for details.

**TO BE SHOWN AT CRAIG MOTORS**

**Sweep-Wing Dodge Again Will Feature Safety, Economy And Dependable Performance in 1958 Models Displayed Here**

Significant advances in safety engineering, fuel economy, and engine performance, plus "sweep-wing" styling, distinguish 1958 Dodge passenger cars, which will make their debut in dealer showrooms early in November.

"This is an automobile designed to maintain the brisk pace of this year, and then forge ahead to new records during 1958," declared M. C. Patterson, Dodge president.

"Public acceptance of the 1957 Dodge has been truly overwhelming," he said.

"Sweep-wing '58 will capitalize on that acceptance by combining the proven, years-ahead advantages of Dodge styling, riding comfort and handling ease with the traditional Dodge emphasis on safety, economy sure, dependable performance."

Dual headlights, mounted side-by-side under bold, jutting fender hoods, provide greater safety for after-dark driving, and set the pace for an all-new grille design on the 1958 Dodge.

The inner lamp of each dual unit is designed exclusively for high beam operation, the outer lamp for low beam, with a secondary function of providing fill-in light for the "brights." The result is a better lighting pattern, covering more of the right-hand side of the road and extending farther ahead.

The dual units are standard on all 1958 Dodge cars.

Complementing the dual headlight styling is a strikingly different grille design built of stainless steel.

Looking over the low, clean sweep of hood on all 1958 Dodge convertibles and Lancer hardtops is the compound-curved "picture" windshield, which wraps around not only at top and bottom, but across the roof line, offering unobstructed visibility at the corners and sides, as well as at the top.

Unlike conventional "wrap around" windshields, which in reality wrap around only at the bottom, the Dodge "picture" windshield offers true control tower vision. Curving smoothly into the thin roof, it blends functionally and fashionably with the fast lines of Dodge sport models.

All Dodge windshields offer greater glass area than those of other cars in the class.

A completely new line of engines, headed by the rugged Ram Fire V-8, powers all 1958 Dodge cars. Combining light weight, compactness, quiet operation and economy, the Ram Fire V-8 is standard on all Custom Royal and station wagon models in the 350-cubic inch version.

A 361-cubic inch version of the Ram Fire is available on all Dodge Eights with the D-500 engine package.

Ram Fire "350" uses a single four-barrel carburetor for high efficiency and low fuel consumption. Lighter in weight than any engine of similar size, it requires less space under the hood, and is easier to service. Featuring a 10-1 compression

**Truck Pulls 32 Percent Grade**

Sloper than any grade on any federal highway in the nation is this 32 percent test hill which a new 1958 Dodge truck with 25-foot trailer is climbing. The T700 tandem tractor, powered by a 218-horsepower engine, has a maximum gross vehicle weight rating of 32,000 pounds and gross combination weight rating of 55,000 pounds.

ratio, it is of a deep block design. The new off-center rubber mountings effectively reduce engine noise and vibration.

The 325 cubic-inch Red Ram engine, standard in Coronet and Royal models, provides improved fuel economy through better burning of the fuel-air charge. The compression ratio is 9.0 to 1, and the new combustion chamber design increases efficiency and gasoline mileage.

The Getaway Six, a 230-cubic inch engine with compression ratio of 8.0 to 1, is available on Coronet models.

To provide pulling power at either or both rear wheels at all times, the "Sure Grip" differential will be available on all 1958 Dodge cars. With the new differential, power automatically is directed to the wheel with the most traction, eliminating wheel-spinning on ice, or in snow, mud and sand.

A completing new power steering gear called Constant Control is available on all 1958 Dodge models equipped with Torque-Flite or Power-Flite automatic transmissions.

A suspension system regarded as the most modern of any American design-Torsion-Aire again is standard equipment on all 1958 Dodge models. Horizontal steel torsion bars replace conventional coil springs, giving a smoother, more controlled ride, and requiring less maintenance.

Rear leaf springs are mounted outside the frame, rather than inside, increasing the car's stability on curves and reducing sway on turns. Dip and surge on stopping and acceleration have been virtually eliminated.

Offered this year for the first time as a single safety package on the 1958 Dodge are full-time power Steering, Total Contact floating shoe power brakes, padded dashboard and padded sun visors. Other safety features include Life-Guard safety door latches and safety door handles, both designed to secure doors against accidental opening.

The independent emergency brake, an exclusive in the medium price field, adds the safety of two completely separate systems.

A further safety advance is the mechanical push button driving control system used with Torque-Flite and Power-Flite automatic transmissions. In contrast to electrical systems, the mechanical linkage is free from failure, and provides positive transmission control under all circumstances.

New turn signals and parking lights are nestled in a triangular area above and between the headlights. Tail lights also are new, with circular reflectors lower in the fender and a silver-colored reflective wedge extending upward to the tip of the fin. The back-up light is centered beneath the rear bumper.

The lower front grille of the Plymouth for 1958 has been redesigned with a horizontal bar effect identical to the upper grille section.

New Plymouth colors for 1958 are generally softer and more elegant, with 15 solid color options and 44 two-tone combinations. Luxurious new textured fabrics are offered in all lines.

Plymouth's new engine line-up offers six power options, including the new 350-cubic-inch Golden Commando V-8 at extra cost, with a 10 to 1 compression ratio and a horsepower rating of 305. New fuel injection is available with this engine as a limited option.

Standard V-8 Plymouth engine for 1958 is the 318-cubic-inch Fury V-800 with dual carburetion, a compression ratio

of 9 to 1 and rated at 225 horsepower. Super Pak, with four-barrel carburetion, is available as extra equipment, and a Dual Fury V-800 engine with eight-barrel carburetion is the standard power plant for the high performance Plymouth Fury car in 1958.

Standard on all six-cylinder models is the smooth and economical Power-Flow "6", at 230 cubic inches, 8 to 1 ratio and 132 horsepower.

A compact new Constant Control power steering design, permitting location of the engine compartment, provides Plymouth's full-time effort-free power steering control for maximum safety.

Also new, and available on all Plymouth cars, is a Sure-Grip differential which transfers concentrated pulling power to the rear wheel with the best traction in rain, snow, ice, mud or sand for safer, surer momentum.

Standard equipment with V-8 Plymouths in 1958 is a new automatic economy choke, designed to save fuel in all driving situations where gasoline waste normally occurs, and particularly effective as a fuel-saver in short-trip city driving.

Air conditioned 1958 Plymouth cars have a new outlet for better distribution of cool, dehumidified air and a more powerful blower. Air conditioning is combined with the heating system of the Plymouth, with a single set of controls.

Torsion-Aire ride, Plymouth's top engineering advance of 1957 for non-sway riding comfort and dip-free starts and stops, is also an outstanding feature for Plymouth in 1958, as are the trouble-free push button automatic transmissions, TorqueFlite and PowerFlite and Plymouth's sure, safe Total Contact brakes.

For added convenience and safety, the inside rear view mirror has been relocated, higher above the instrument panel and nearer to the eyes of the driver. In the new location it is less sensitive to changes in the driver's position and affords much improved rearward visibility.

In Nero's time the public slaughter house was one of the most imposing structures in Rome.

**Many New Features On 1958 Plymouth**

Silver Dart two-tone exterior styling trim, sweeping backward and up to the tip of the Plymouth Belvedere 4-door hardtop's familiar fin, is new with 1958 Belvedere models and Sport Suburban station wagons. The contrasting dart is available either in anodized aluminum for a striking new effect, or in compatible colors. Plymouth's outstanding Torsion-Aire suspension system and its trouble-free mechanical push button controls are retained for 1958. Six engine options, a new Constant-Control power steering system providing Plymouth's famous full-time ease of operation, a new Sure-Grip differential and a new automatic Econo-Choke are available on 1958 Plymouth cars being introduced in dealer showrooms across the nation on November 1.

**SHOWING AT SUNSET AND CRAIG MOTORS**

**The 1958 Plymouth Continues Trend Of Advanced Styling In Addition To Six New Engines Offered; Display Set Friday**

Substantial styling advances in keeping with the trend-setting characteristics of the current model Plymouth cars, plus a broad new lineup of six engine options and other important new engineering features will be seen when the Plymouth for 1958 to be introduced here Friday.

"The new Plymouth is improved in appearance, performance, comfort and safety, yet retains many of the outstanding styling, handling and riding features that were so enthusiastically accepted by American car-buyers this year," said John P. Mansfield, Plymouth president.

"While the 1957 model year has been one of the finest in our history, we intend to move even farther ahead with the introduction of finer, more advanced line of new Plymouth cars in November."

Styling features of the new Plymouth include a bright new "Silver Dart" side moulding treatment, sweeping upward at the rear on Belvedere and Sports Suburban models to the tip of Plymouth's familiar high-flung directional stabilizer fins, with optional dart inserts of silvery anodized aluminum or compatible colors.

Another new side trim is available also with Savoy and Plaza models.

Double header dual headlights are standard equipment on all new Plymouths, with the inner beams producing maximum long-range forward visibility and the outer pair providing supplemental fill-in light when used in combination, or efficient low-beam lighting when used alone.

New turn signals and parking lights are nestled in a triangular area above and between the headlights. Tail lights also are new, with circular reflectors lower in the fender and a silver-colored reflective wedge extending upward to the tip of the fin. The back-up light is centered beneath the rear bumper.

The lower front grille of the Plymouth for 1958 has been redesigned with a horizontal bar effect identical to the upper grille section.

New Plymouth colors for 1958 are generally softer and more elegant, with 15 solid color options and 44 two-tone combinations. Luxurious new textured fabrics are offered in all lines.

effort-free power steering control for maximum safety.

Also new, and available on all Plymouth cars, is a Sure-Grip differential which transfers concentrated pulling power to the rear wheel with the best traction in rain, snow, ice, mud or sand for safer, surer momentum.

Standard equipment with V-8 Plymouths in 1958 is a new automatic economy choke, designed to save fuel in all driving situations where gasoline waste normally occurs, and particularly effective as a fuel-saver in short-trip city driving.

Air conditioned 1958 Plymouth cars have a new outlet for better distribution of cool, dehumidified air and a more powerful blower. Air conditioning is combined with the heating system of the Plymouth, with a single set of controls.

Torsion-Aire ride, Plymouth's top engineering advance of 1957 for non-sway riding comfort and dip-free starts and stops, is also an outstanding feature for Plymouth in 1958, as are the trouble-free push button automatic transmissions, TorqueFlite and PowerFlite and Plymouth's sure, safe Total Contact brakes.

For added convenience and safety, the inside rear view mirror has been relocated, higher above the instrument panel and nearer to the eyes of the driver. In the new location it is less sensitive to changes in the driver's position and affords much improved rearward visibility.

In Nero's time the public slaughter house was one of the most imposing structures in Rome.

# CRAIG MOTOR CO.

Invites You to See The '58 Swept-Wing Dodge

NOW ON DISPLAY . . . 719 W. BROADWAY

**ABOVE LEFT: DODGE HARDTOPS GET NEW WINDSHIELD** — The complete line of '58 Dodge two and four-door hardtops will have the compound picture windshields, molded to

wrap around at the top as well as the sides. This Royal 2-door Lancer shows how the swept-back styling effect of the new, larger windshield adds "control tower" visibility.

**ABOVE RIGHT: NEW HEIGHT IN STYLING, SAFETY** — A complete safety group, consisting of power steering, power brakes, padded dashboard and sun visors, is available on all 1958 Dodge cars. This Custom Royal 4-door Lancer also features the compound picture

windshield, standard on all hardtop and convertible models. The push-button Torque-Flite transmission is an added convenience, and the safety Torsion-Aire ride is standard on all models.

## Dodge Offers Five Station Wagons

**DODGE OFFERS FIVE STATION WAGONS** — In '58 Dodge will offer five separate station wagon models for your selection. The 4-door

Sierra, shown above, will be offered in standard and custom models, while the 2-door Suburban will be offered in the standard line. Also two models of the Sierra Spectator with its rear-facing third seat.

**NEW STYLING DRAMATIZES DODGE CONVERTIBLE** — Featuring new treatment of rear fins and grille, and dual headlights, the 1958 Dodge, like this Custom Royal convertible,

offers the sleek, trim look of "Swept-Wing" styling. The new, quieter, more economical Ram Fire V-8 is standard equipment on all Custom Royal models.

## Also Showing the New Dodge Trucks . . .

**DODGE PICKUPS CAN DOUBLE FOR PASSENGER CAR** — The new Sweptside 100 Dodge Pickup for '58 has the style to do double duty as a passenger car. Its bold new styling is emphasized by twin headlights, liberal

chrome trim and massive chrome bumpers. It is powered by a 204-horsepower V-8 engine. It can carry 1,675 pounds. Loading height is less than 24 inches.

INTRODUCING NEW

# Swept-Wing 58

So advanced it leaves the rest behind!

On display for the first time today is a car that stands apart in any company. It is very low, very daring, beautifully proportioned. Its unusual sureness of handling and control reflects the latest engineering advances. To own it is a new adventure.  Swept-Wing 58 by DODGE

Craig Motor Co. • 719 W. Broadway

**Beauty Going Your Way  
1958 CHEVROLET: Fore and Aft**

Effectiveness of the 1958 Chevrolet styling is shown by this front-rear view of the Impala, luxury models in the Bel Air series. The gull-wing sweep at the rear is a perfect complement for the feet, flowing lines that begin with the fine-grid concave ribs of the grille. In addition to complete body redesign, the latest Chevrolets offer such features as Level Air suspension of all-round coil spring suspension, a more rigid frame and body and an unusual new V8 engine. Impala top an offering of 17 models.

**AT JACK BAILEY'S THURSDAY**

**New Impala Featured  
In Chevrolet's Lineup**

Dramatic new styling and outstanding engineering advances mark the 1958 Chevrolet which makes its bow at Jack Bailey Chevrolet this week.

Labeled "the car of the year" by newsmen and technical writers who have attended private showings, the new model will be unveiled Thursday.

Also on public display for the first time will be the rakish 1958 Corvette and the latest in the Chevrolet truck line.

The 1958 Chevrolet is new from bumper-to-bumper and from frame to roof line. The all-new features include:

A completely re-styled car which is longer, lower and wider and emphasizes flowing sculptured lines from the dual headlamps to soft flared rear fenders.

An X-shaped frame which allows a lower silhouette but retains ample head room and increases leg room and luggage space.

Two suspension systems for a more luxurious ride along with remarkable handling, stability and durability. Sturdy coil springs, front and rear, are standard. A new "Level Air" system which automatically adjusts to all load weights is optional.

A 348-cubic inch engine which is new from fan to flywheel. Designed primarily around a new combustion chamber, the optional Turbo-Thrust V8 offers greater torque for improved mid-range performance.

Chassis-body design integration to supply exceptional structural strength and greater rigidity.

Forward-mounted steering linkage which provides more responsive action and reduces road vibration to the steering wheel.

Some idea of the fresh newness of the Chevrolet line is suggested by the new body

groupings and identification.

In recognition of the growing popularity of station wagons, an exclusive five-unit series of this body type has been established.

The Bel Air series is continued, but adds among its six models a sumptuous sports coupe and convertible under the Impala nameplate, introduced on a "dream car" at the General Motors Motorama in 1956.

In the middle range of the low-priced car bracket is a Biscayne series, with two sedans. The bottom end of the price spread will be occupied by three models making up the Delray series. In 1957 comparable series were known as Two-Ten and One-Fifty, respectively.

Roominess and quality of the new line, says the company, will be immediately apparent.

Over-all lengths have been extended a full nine inches to a new measurement of 209 inches. The wheelbase is up two and one-half inches to 117-1/2. Roof lines have been lowered up to 2-1/2 inches, yet design skill has retained ample passenger headroom.

In looks, the cars have an air of liveliness. Because of the thoroughness of the transformation, stylists and engineers were able to correlate their ideas into a single unit of bumper-to-bumper progress.

Dual headlamps, a grille with fine grid concave ribs and a low, flat hood unbroken by ornamentation, distinguish the frontal view. Varied two-tone color patterns, a judicious use of chrome moldings and decorative panels give each series an individuality and supply the latest examples of the industry's new art of "sculptur-amic" styling.

The rearward treatment also is unique. Avoiding sharp fin protrusion, rear fender lines sweep outward from the body

then curl around the tail light ensemble to form a shape which stylists likened to a graceful gull-wing in flight.

Chevrolet is quick to explain of the 1958's were not inspired alone by a desire for beauty. The form complements advances in chassis engineering that promise to heighten im-

measurably driving and riding enjoyment.

Important in the broad gains along the mechanical front is the adoption of coil springs at the rear wheels as a standard fixture. Long a front-end feature on Chevrolets, the coil-cushion shocks far better than previous suspension systems,

As optional equipment, the company additionally pioneers in its field a new "Level Air" suspension, employing for the first time rubber bellows at all four wheels. Through an interconnected air supply and exhaust system with leveling valves, this suspension assures precisely the same resistance

to shock regardless of car load. Another distinct contribution to comfort is an X-shaped, wasp-waist frame. The frame is 30 per cent more rigid. Frame brackets permit the mounting of shock absorbers to the frame rather than the underbody. It makes possible added leg

room without sacrifice in road clearance. As a fourth advantage, the design lends itself to greater integration with the body design.

The new Turbo-Thrust engine is still another highspot that illustrates the magnitude of the engineering job behind the 1958 Chevrolets. Predominant is a

completely new combustion chamber design which assures uniform combustion. The shape of the chamber, located entirely in the cylinder block, permits positioning of the larger valves for high volumetric efficiency.

FISHING AND HUNTING AUTHORITY

**THE Sportsman's Corner**

Since most upland seasons precede the deer season, try it in your deer area. You'll get to know the terrain, spot deer signs before herds are spooked by deer-hunting pressure.

You can add to your outdoor fun with one or all of the four Coleman Outing Pails, the Snow-Lite Cooler, folding camp stove, the Floodlight Lantern and the folding Pak-Table...

The world's record walleye and the record large-mouth bass are the same in weight: 22 1/4 lbs.

News from Red Wing Shoes: a new family of "Irish Setter" Sport Boots. They feature exclusive "oro russet" leather uppers, sweat-proof leather insoles, mail-less construction, and wedge crepe soles...

out bulk or weight. Millions of tiny individual cells do the trick... Fred Bear's hunter's kit, consisting of fine hunting knife, small file and whetstone, went over so big with his friends that now they're being made available to everyone.

The Woodstream Shooter's Vest Style #203, by American Pad and Textile, is great for warm weather, skeet or trap shooting. Can be worn over any jacket to transform it into a shooting coat...

Deer hunters: there's a big package being served up to you in November Sports Afield, on newsstands October 28. Read "How To Get Your Deer Opening Day." It's packed with info. Also there's a 48-state deer forecast which will help you decide whether to hunt in your own state or a neighboring one.

A toy balloon may be fitted over the muzzle of a gun to keep the snow out.

The new 41st Edition of the Lyman Reloading Hand Book, said to be a "bible" for 20,000,000 hunters, can be obtained at your sporting goods dealer for only \$2... It's not too early to start thinking about Christmas gifts, and one good idea is the Remington Model 870 "Wingmaster" Shotgun. Fast, light, streamlined...

If you're planning to drive the Alaska highway, you'll be glad to know there is no closed season for sport fishing.

Wigwam Socks will give you snug, cushioned-foot comfort on your hunting trip. In all wool, Nywool, and Foot Hugger s-t-r-e-t-c-h styles. They're "STA-SIZED" to hold their shape and size...

**MOST PAINS COME DURING THE CHILDHOOD**

**Despite Sulfa Drugs, Antibiotics, Earaches Still Occur; Do Not Try To Correct Them Without Doctor, Says Authority**

Severe infections of the ear are not as common as they were before the appearance of sulfa drugs and antibiotics. But while the severity and frequency of these infections have been reduced, earaches still occur.

Most ear pain comes during childhood, the reason being that small children have shorter passages for infections to reach the ear. When they get colds, they do not blow the nose or clear the throat as adults do. This results in an

accumulation of mucus which may congest narrow passages and start an ear infection.

Infections of this type begin when bacteria reach the middle ear. The pain—intermittent at first, then constant—is a sign that this has happened. In this condition, pain may be followed by drainage.

The start of drainage may mean the end of pain because the pressure has been relieved. Pain subsides only when pressure and infection have been brought under control.

As bacteria multiply and produce their poisons, the body's natural defenses rise to fight the infection. Blood vessels expand to carry more blood to the ear. Serum passes from blood vessels into the middle ear to try to neutralize the invading bacteria. White blood cells, normally present in the body, increase in numbers to destroy bacteria.

In mild infections the bacteria may be overcome before reaching the middle ear and there will be no middle ear involvement. In situations like this, the condition often subsides within 24 hours.

**Farmers Are Urged To Be On Lookout For Witchweed Plant, An Enemy of Corn**

A cluster of small reddish flowers on low-growing weeds may spell death to a corn crop in a matter of days.

Witchweed, a parasitic plant that primarily attacks corn, plus a few other crops, has been found in the United States.

The witchweed accomplishes its work with a vast network of fast-growing roots which entwine with roots of the host plant. This mass of witchweed root chokes off the food and water supply of its host, starving it and making fruitation almost impossible.

Children with acute running ears should be taken to a physician for examination and treatment. While infection of the mastoid part of the ear bone is not as common as it once was, due to newer drug therapy, it still occurs. The mastoid part of the ear bone is connected to the middle ear. Its cellular composition resembles a honeycomb. The cells contain air and each has a thin lining membrane.

**Lamar County Man Improves Pastures With Heavy Liming**

About one-eighth the amount of lime is being used in Texas as the agricultural authorities say is needed.

Lime serves a fourfold purpose in the soil. It gives the correct soil acidity, furnishes available calcium for plants and animals, increases the efficiency of manures and fertilizers and improves the growth of beneficial soil organisms.

An infection in the middle ear may spread to the mastoid air cells and cause them to become infected. This infection may destroy bone tissue and form an abscess in the mastoid which can be relieved only through surgery.

Earache in children may stem from causes other than infection. Nasal blocking due to the congestion of a cold, or large adenoids may be responsible. Blocking of the eustachian tube prevents air from approaching the middle ear during swallowing or yawning.

So Sharp, following the advice of the county agent, took soil samples and followed the recommendations, except that he made a little heavier application of lime than was recommended.

He actually applied about 2 1/2 tons per acre. Following the application of lime, 200 pounds of 16-20-10 was applied, and the area was seeded with a mixture which he had resulting from screening of oats, rye grass, lespedeza (Kobe), and some wheat.

**Mrs. Earl Carroll Took High Score Prize when the Tuesday Night Bridge Club met with Mrs. Robert Browning at 401 South Third.**

Mrs. W. F. Frymire took consolation and Mrs. Billy Hamilton floating prize. Refreshments of sandwiches, cake and coffee were served.

Attending were Meses. Carroll, Hamilton, Frymire, Joe Whiteside, B. M. Coppock, George Burt, J. W. Fitzgerald, Johnnie Harrison, Ray Tippit, Gene Smith, and Lester McPherson.

Don't ignore an earache and don't probe into the ear to relieve distress or the sense of pressure. Let your physician decide the cause and the method of correcting it.

A good growth resulted and the area was grazed consistently for several months. The stock was then taken off. They were later turned back on the area and ate the heads off the grain. Now, there is an excellent stand and growth of lespedeza which is being grazed by beef cattle.

**CANDIDATE FOR A LAWSUIT**

IF A DELIVERYMAN falls on your property, if your dog bites a neighbor, if your youngster's baseball strikes a friend, if a guest stumbles on a toy... a liability claim could ruin your future.

Why take a chance when insurance is so inexpensive. See us!

# It's To Odessa Friday Night for Those Brownfield CUBS!

**GANG TACKLE COMING** — An unidentified (37) move in to make sure of the stop. The Cub lineman sets to stop Pecos' hard-running quarterback, Travis McLain, as Bob Cloe (behind runner), Gary White (50) and Gus Foshee

**VICTORY, 'TIS SWEET . . .**  
 With our two favorite teams registering victories over the weekend, life looks a little better on the sports front for the ol' Huddle.  
 Despite weather and last week's illness, the Cubs came through for their first win — and more important, in district play. Perhaps taking their cue from the Cubs, the Red Raiders also claimed No. 1 the following night.  
 Undoubtedly, Friday night's battle with Pecos provided some of the best all-around Cub play of the season. For three and one-half quarters they moved like they owned the field (Guess they really did) and acted like stingy landlords to the visiting Eagles.  
 We especially were pleased to see the Cub forward wall moving well with good crisp blocking and excellent tackling. Pecos' vaunted runner, Royce Cassell, sputtered most of the night as hard gang-tackling slammed him to the turf with regularity.  
 Mitchell's passing, coupled with a break and a beautiful kickoff return by Dickie Bow-

lin was about all the visitors could muster—and that was a case of too little, too late.

**GRID FARE . . .**  
 Another full slate of games is on tap for Terry Grid fans this week. The Cubs will journey to Odessa in an attempt to pluck the feathers from another Eagle team (Ector).  
 Meadow will host Lorenzo while Wellman and Union are traveling to Nazareth and Cotton Center, respectively. The Broncos should get by Lorenzo easily but the two Wildcat teams are likely to have tough ball games.

**ATTENDANCE . . .**  
 Despite miserably cold weather Friday night, about 800 Cub fans attended the Pecos tilt. The weather was rough but those who did not attend, missed a good game.  
 Considerable comment has been bandied about Cub Stadium—or should we say lack of such? Unless attendance climbs above past records, school officials likely will feel a move to better quarters would not be a paying proposition.

Of course Union has a winning team (6-0) but the small school has about 250 loyal fans that follow it all over the South Plains. That speaks well of their followers.  
**HUDDLE'S HUNCHES . . .**  
 At the risk of seeming to be a "Monday Morning Quarter-See No. 1 Page 3

## Tech Game To Be Aired On Saturday

The most interesting plays from four games played by Southwest Conference teams will be featured at 7:30 p.m. Tuesday on The Humble Company's Football Review.

Kern Tips will describe plays taken from the Texas A&M-Arkansas, Baylor-TCU, Rice-Clemson and SMU-Texas games.

In addition, there will be four behind-the-scenes features on football. These include D. X.

Bible, longtime dean of football coaches, describing the evolution of football rules, Texas Tech's favorite play, and a close-up of what goes on when a team goes into a huddle.

Football Review will be on Channel 13 at 7:30 p.m. Tuesday.

Humble also will broadcast this Saturday's game between Tech and Oklahoma State, beginning at 1:15 p.m. The tilt

## Girl's Basketball Opens As Meadow Cops Two

Girl basketball teams at Meadow High got off to an early start at Meadow Saturday night with two victories over New Deal.

Led by Betty Eubanks' 23 points, the A-team won, 52-33. Linda Hendricks chipped in with 19 points. New Deal's top scorer was Ruby Ashmore with 12. The B-team won, 29-5.

Mitchell's passing, coupled with a break and a beautiful kickoff return by Dickie Bow-

## TEAMED FOR

# Action!

Like a well-balanced football team, Cosden products are at their best when they're working together.

Cosden gasolines — Premium Ethyl or Higher Octane Regular — are skillfully processed through one of the world's most modern refineries to deliver all the horsepower in your engine. They offer new bonus power to span the miles economically . . . reserve strength for fast get-away or quick passing . . . and instant response to your accelerator.

Cosden lubricants — 10w30 or Heavy Duty Motor Oils — keep engine parts working smoothly and freely in any weather.

Get the most from your car. Use Cosden gasolines and lubricants . . . together. They're teamed for action.

By HUGH WILLIAMSON

Now that the dove season is open in the South Zone, more Texans are brightening their shooting eyes.

Hunters know the mourning dove is like a good halfback. He's shifty and he has a deceptive change of pace.

He's not as fast as some birds, but if you can hit a dove you can hit any bird that flies. Here is a shooting stance recommended by expert shooters.

First be sure both feet are solid on the ground, unimpeded by brush. The left knee should be slightly bent.

**Now Do This**

When the bird comes along, swing the gun along his line of flight. Shift your weight from right to left foot, and squeeze the trigger as you pass him, leading the bird just enough.

What do I mean by just enough?  
 I mean that you don't zig

when he zags. Also that you don't speed up when he slows down, or vice versa.

Seems simple, doesn't it? Why not try it sometime? But try it with a lighter gun than your father or grandfather used.

There are two big reasons for a lighter gun. One is that you can swing it more easily as you follow the bird in flight. The other is that those old 12-gauges get heavy along about the end of the day.

And nowadays you can do fine shooting with a "20" because of improved loads.

**Note On Color**  
 Hunters customarily have worn red to make themselves known to other hunters and thereby avoid being shot.

But now comes a color change because optometrists at See No. 2 Page 3

58 FORD  
 COMING  
 NOV. 7

Nothing newer

## AROUND THE WORLD

The 58 Ford has been proved around the world. This is the most dramatic and most grueling test ever given a new car before its public announcement.

The whole world was used as a test track for the 58 Ford. The car drove through England, France, Switzerland, Italy, Yugoslavia, Greece, Turkey, Iran, Afghanistan, Pakistan, India, Malaysia, Thailand, Cambodia, Vietnam, and finally back to the place it started—Detroit, Michigan, U.S.A.

The Ford powered over the great mountain ranges of three continents: from the Alps to the Himalayas and the Rockies. It crossed the great rivers of history: the Thames, the Seine, the Tiber, the Arno, the Tigris, the Euphrates, the Indus, the Ganges.

This car stood at Buckingham Palace, rolled up the Champs Elysees to the Arc de Triomphe, and paused at the Eiffel Tower. It was greeted by the great Paris couturiers at the famous fashion salons where its "sculptured in steel" styling was applauded by the most style-conscious audience in the world.

The 58 Ford rode smoothly down the rugged, beautiful seacoast of Tito's country, to a festival in Dubrovnik, and into Greece to Athens, where this newest classic met such ancient classics as the Parthenon and the Temple of Poseidon.

Into Turkey: and the 58 Ford passed the great white lacework palaces of the Sultans along the Bosphorus and the Golden Horn. Then the Ford went where few but nomads travel, up into the hot days and chill nights of the ancient mountains of Afghanistan. And thence along the route Alexander the Great followed with his chariots to cross the historic Indus river.

On and on the Ford moved, down into the heat of mysterious India, through New Delhi to the Taj Mahal, and to the great pink palace of the Maharajah of Jaipur.

This great new car met the challenge of the monsoons—rains that for centuries have stopped all road movement throughout Indo-China, but didn't stop the 58 Ford. It drove on to Penang in Malaya, and then north to Bangkok.

Further on came Saigon, the Paris of the Orient, at the farthest tip of Southeast Asia. Finally, it powered across the great Rockies and plains of North America and back, at long last, to Detroit, Michigan.

The 58 Ford . . . has been proved and approved around the world. A natural question arises. Why did Ford go to such great lengths with its 1958 model? Why spend so much money and time and go through all the problems of negotiations, customs, border transit, diplomacy in so many countries?

The answer: in the competitive automobile market of today, only the best in all-around value can survive. And this round-the-world test is the most decisive possible demonstration of the best.

The 1958 Ford is value: hard-dollar value. It is also style, power, performance, and a dozen great new features. But above all, it is value.

This is the car you've been waiting for. See it November 7—there's nothing newer in the world than the 58 Ford!

**Science of the Times**  
RELIEF FROM HYPERTENSION

**HYPERTENSION**—high blood pressure—is still pretty much of a medical mystery. Doctors know the immediate mechanical cause of high blood pressure—the constriction of the arterioles, the smallest branches of the artery tree. To force the blood through these narrowed passageways, the heart must work harder, thus increasing the blood pressure.

The question is: what causes the arterioles to narrow? Many diseases can cause artery constriction, and in such cases, high blood pressure is no mystery. In most instances, however, high blood pressure exists alone, or it leads to other diseases. In these cases, the underlying cause is still a matter of speculation.

A wide range of treatments have been used to combat high blood pressure, such as drugs to dilate the blood vessels, special diets and delicate nerve-severing operations. All these methods work in some patients, are ineffective in others.

Recently, a two-pronged approach to treatment of high blood pressure was announced at the Cardiac Clinic of St. Barnabas Medical Center, Newark, N. J. This involves a combination of two drugs, mecamylamine, a drug that blocks the passage of the nerve impulses that constrict the blood vessels; and the tranquilizing drug "Miltown," which acts to ease anxiety and tension, make patients more manageable and, in general, improve their outlook.

Used in this manner the two drugs brought a significant reduction in blood pressure to 35 of 37 patients, in some a reduction to normal levels, as well as a decrease in headaches and apprehension, common symptoms of high blood pressure.

The doctors report that the

tranquilizing drug could not be considered of value in actually lowering the blood pressure, but that in some patients it appeared to add to the effect of the nerve-blocking drug. Its chief value, they emphasized, was in reducing the anxiety that normally accompanies a disease of this kind. In this respect, they added, "Miltown" has advantages over previous drugs used as aids in the treatment of high blood pressure, in that it is not habit-forming and lacks serious side effects.

The nerve-blocking drug, they point out, is superior to previous drugs of its kind in that its effect lasts longer, and that all of it gets into the blood stream to do its work, rather than being absorbed in other parts of the body where it is of no value.

The doctors caution that although the combination is definitely of value in reducing blood pressure and improving the patient's symptoms and outlook, it is too early to predict how this one-two attack on high blood pressure will change the course of the disease.

**Ford Truck Lines Are On Display Now**

DEARBORN, MICH.—Ford, which led the industry in retail truck sales during its 1957 model year, announces significant product advancements in engineering, styling and design for its 1958 trucks.

The new trucks are on display at Ford dealerships throughout the country.

J. O. Wright, Ford Motor Company vice president and Ford Division general manager, described the new line as "another step forward in our policy of accelerating mechanical and styling changes for the benefit of the nation's truck buyers."

"We are completing a sales year that has achieved our greatest share of the commercial market in division history," he said, "and we are betting millions of dollars on the new line developed for the truck user in 1958."

Ford truck retail sales to business firms and individual buyers topped the industry during the 1957 model year, reaching a 33.1 per cent share of this market through July on the basis of official registration figures. It also represents the biggest share of the retail market ever gained by the division.

New safety vision dual headlights are standard on all Ford conventional and tilt-cab trucks. The lights, which give

much more road illumination at night, are integrated in a simply styled, cross-hatch grille.

Headed by the successful Styleside pickup, which accounted for more than 85 per cent of the company's 1957 half-ton truck production, Ford is offering more than 300 models ranging from the versatile Ranchero, through light, medium, heavy, extra and tandem trucks.

**No. 1**

back" we wish we had picked the Cubs and Kermit last week. Guess we had better quit listening to the coaching staff using the crying towel.

At any rate the oil' Huddler again picked five of seven games correctly for another .714 average. The week brought us up to an almost respectable .675 average for the season.

Though we thought the Cubs might win their game, we were caught flat-footed when Andrews failed on three extra points and lost, 26-25.

Still trying to bat 1,000, here we go again this week.

**Brownfield over Ector, 28-13.** Everyone is well and with the extra lift from victory, the Cubs should take it.

**Andrews over Pecos, 26-19.** The ponies don't seem to like

**COTTON STRIPPER**

**SAVES COTTON HARVEST DOLLARS AS NEVER BEFORE!**

Here's the high-speed, high-capacity cotton harvest machine that can make the BIG profit-difference on your cotton crop. By the bale, by the acre, by the hour worked, this new Minneapolis-Moline 2-Row Cotton Stripper pays you dollars you never thought you could make on cotton! MM cotton stripping lowers labor costs, protects you from untimely labor shortages.

**LOOK AT THESE NEW ADVANTAGES!**

- Mounts in units . . . not in parts
- Easy-to-lubricate bearings reduce service time
- Big capacity 16-inch elevator directs cotton to all parts of the wagon . . . you don't need an extra man to build the load
- Overshot blower mounted on elevator aids distribution
- Handles row widths from 36 to 42 inches
- Hydraulic height control of stripper units
- Separate hand levers control height of each stripper and angle and height of plant lifters
- Thorough cleaning with 12-inch louvers along the euger trough and the entire length of the elevator.

See all the many new advantages of this MM Cotton Stripper for yourself! Stop in the next time you're in town!

### Aztec-Mayan Rituals Performed At State Fair

Colorfully costumed dancers re-create the mysterious rituals of a vanished race in the exciting Aztec-Mayan Spectacular, free show to be presented twice daily on the Magnolia Midway Stage at the 1957 State Fair of Texas in Dallas, Oct. 5-20. The ceremonial dances are climaxed with the death-defying flight from a 100-foot pole (right) by the amazing "Flying Indians," the Birdmen of Teotihuacan.

### Retirement System Is Antiquated, Says TSA's Manager

On November 5, Texans will go to the polls to vote on three Constitutional Amendments. The first amendment on the ballot concerns a revision of the state employee retirement system.

Speaking in behalf of the issue, J. O. Musick, general manager of Texas Safety Association, said today, "Those who are familiar with the present state employee retirement plan, know that it has long since become antiquated. Under the new system, a far more equitable and realistic approach is taken."

Musick said he believed the Texas Department of Public Safety will receive particular benefits, because the new plan would create a greater incentive for promotion and tenure of service. And, will be an aid in recruiting more competent personnel.

Briefly, Musick listed the other advantages of the plan as being:

1. The employee has the opportunity to select the highest salary he has received for five consecutive years, of the past 10, as a basis for his retirement scale.
2. The amendment eliminates the inequity and controversy between prior service and contributory service. This is a technical distinction, and under the amendment each employee is assured equitable treatment.
3. The amount paid in by lower salaried employees is reduced.
4. Allows a transitory period (10 years) wherein no employee should be deprived of previously accumulated benefits.
5. Reduces the employee's contribution from 5 to 4 1/2 per cent and eliminates the \$3,600 ceiling that is imposed by the old plan.

Of the other two amendments to be considered on the same day, one deals with an increase in payment to needy, aged persons. The third asks for a decision on whether or not the state should create a Texas Water Development Fund for the conservation and development of water resources.

### Fall Noted As Time To Plan for Comfort Of Cows in Winter

Summer is over and the fall season now is underway. Dairymen should begin checking their management to make sure they are ready for the cold weather that lies ahead, advises, A.M. Meekma and J. W. Davis, extension dairy husbandmen.

Cow comfort is one of the more important points to check for the coming months, say the husbandmen. A dissatisfied, uncomfortable cow is not going to perform at her best.

Special attention should be given to good feed and adequate shelter. And remember that contented cows usually make a more contented dairyman.

Determining the best feed to buy is another problem that must be confronted, say Meekma and Davis. Feed prices often change from season to season and deciding which one to buy sometimes is difficult. For help in solving this problem, they advise seeing local county agents for the publication, MP-167, "Which Feed is the Best Buy?"

The specialists also advise dehorning now that the normal fly and screw worm season is about over. Dehorning will have space at the feed rack and in the shelter barn. It also will prevent painful injuries to cows and heartaches to the owner. There is no place for horns in the modern dairy herd.

Any herd can be improved by culling lowest producers, hard breeders, and least desirable cows. Now is a good time to cull those cows that will not carry their part of the load during the coming winter months. It can be unprofitable to carry any "dead weight" through the winter.

Use of "abracadabra" as a "magic" word began in the second century when it was recited to expel fevers, inflammations and agues.

Percentage of accidental deaths in the U.S. has gone slowly downward since 1913 when the National Safety Council was formed.

### Ragtime Virtuoso

Johnny Maddox, America's foremost ragtime pianist, will be featured with the Art Swenson Thirlende, to be presented at the 1957 State Fair of Texas in Dallas, Oct. 5-20. Johnny will bang out his tinkling piano melodies in between the supercharged suicide stunts of the Thirlende daredevils.

## CHANGE TO SHAMROCK 10W-30 MOTOR OIL NOW AND PROTECT THE LIFE OF YOUR CAR'S ENGINE AND BATTERY

The development of Shamrock 10W-30 Motor Oil is based on the fact that the typical passenger car engine operates most of its useful life in the temperature zone between the cold start and normal operating temperatures.

All oils thicken as temperature decreases. The difference between Shamrock 10W-30 and conventional oil is that it thickens less at low temperature. The effect on your car's performance is important.

When you change to Shamrock 10W-30, the improvements you'll notice immediately are: (1) that even on the coldest mornings the engine will turn over quickly and easily, and (2) a marked increase in gasoline mileage.

These advantages are the most obvious, but not necessarily the most important. Frictional wear in the engine takes place at a very high rate during the first few strokes when starting an engine with little or no lubricant on the cylinder walls. 10W-30 reduces this wear, flowing quickly... replenishing the oil film. At high temperatures a thicker lubricant does a better job of keeping metal surfaces apart. Accordingly, 10W-30 being thick at high temperatures gives your engine full protection at this end of the temperature range, too.

With Shamrock 10W-30 in the crankcase you will: (1) extend the life of your car's engine, (2) extend the life of your battery, (3) increase gasoline mileage and (4) reduce the octane requirement. We don't claim miracles for it, but you probably will.

## Shirts Are Top Cotton Production

Shirts are the number one cotton product in the United States, according to figures just released by the National Cotton Council's market research section.

The production of shirts consumed almost 630 thousand bales of cotton last year. In preliminary figures for 1956 released by the Council in a publication entitled "Cotton Counts Its Customers," sheets and drapery and upholstery fabrics ranked next as cotton's largest end uses. Both categories accounted for well over half a million bales last year.

Filling out the top 10 uses in order were men's and boys' trousers, towels, men's and boys' underwear, automobiles, dresses, rugs and carpets and retail piece goods.

Cotton registered substantial consumption increases in such items as women's nightgowns, pajamas and skirts and children's blouses and shirts, dresses, suits, and skirts.

Consumption gains also were registered in sheets, towels and

## Outlook Is Brighter For Egg Producers

Decreased production and the purchase of fewer replacements for next year has resulted in a brighter outlook for egg producers.

The number of chickens raised on Texas farms in 1957 is about one-fourth less than last year, according to John G. McHaney, extension economist.

During the first six months of 1957, production of egg-type chicks from commercial hatcheries in Texas also was about one-fourth less than that during the same period last year.

Many farmers who raised chickens last year are raising none this year. The decrease is greater among the small flocks.

The laying flock on farms next year in the U. S. is expected to be six to eight per cent smaller than a year earlier, say the specialist. During the first six months of 1957, egg prices averaged 22 per cent below the same period in 1956 and farmers bought 19 per cent fewer flock replacement chicks.

Recently, egg prices have shown some improvement and probably will continue to do so into 1958, because potential layers (hens and pullets of laying age plus pullets not of laying age) on farms, August 1, 1957,

machinery belts. But cotton consumption declined somewhat in automobile uses and rugs and carpets. However, the automobile industry still used almost a third of a million bales of cotton in 1956 and more than a quarter of a million bales went into rugs and carpets.

ed by a Co-op become non-rural, due to annexation by an incorporated city or town. Electric Co-ops have usually continued to serve existing customers, as well as others desiring service, within these annexed areas.

But their authority to serve these people became questionable when in a recent law suit the Supreme Court of Texas indicated that such a practice might be illegal.

This decision led to the action of the Legislature in passing House Bill 547,

Under some conditions inhabitants of cities and towns can avail themselves of the services of rural Electric Cooperatives (Co-ops), according to a law passed by the Fifty-fifth Texas Legislature.

As the name implies, these Co-ops are made up of customers and furnish services to their members on a cooperative basis.

Persons residing in rural areas and unable to obtain electrical service from public utilities or municipally-owned plants (central stations) have been able to purchase electricity through such co-ops for a number of years. However, there has been some argument about non-rural customers.

Sometimes rural areas served were seven per cent below a year earlier and 17 per cent below the average.

Egg production during the last three months this year probably will fall below the same period in 1956, points out McHaney, and we will enter 1958 with fewer layers on farms.

Because of these trends, egg prices in the last three months of 1957 likely will be above those of 1956 at the same time. Prices during the first four months of 1958 should be better than for the same period in 1957.

amending our laws pertaining to Electric Co-ops, as a precautionary measure.

The Co-ops are now authorized to engage in rural electrification by any one or more of the following methods:

If an area (rural or non-rural) being served by a Co-op is annexed by an incorporated city or town in which central station service is supplied by the municipality or by a public utility located there, the Co-op can continue to serve those persons who were members on the date of annexation.

Persons in such an area who were not members on the annexation date may become members of the Co-op and thereafter receive electric service, if they cannot get electric service otherwise — through the municipality or a public utility.

Further, even though central station service is now available, persons living in an incorporated or unincorporated city or town (rural or non-rural) who have been receiving electricity from a Co-op can continue to avail themselves of Co-op service, provided central station was not available to them when they began to purchase from the Co-op.

In addition, as in the past Co-ops may furnish electric service to persons in rural areas who are not receiving central station service.

The Co-ops have always been authorized to furnish wiring facilities and electrical or plumbing equipment to their

## Safety Association Lists Safe Driving Rules For Texans

"Slow down at sundown!" warns J. O. Musick, general manager of Texas Safety Association. His appeal came as a part of the safety-after-dark program of TSA for October.

"Since night-time doubles traffic troubles, the driver has to soft pedal the gas pedal — he has to watch out for the lives of others as well as his own."

He emphasized a driver must be alert at all times and expect

members in addition to electricity. House Bill 547 continues this authority and extends it to cover persons in annexed areas who are authorized to receive electrical service.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No persons should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

the unexpected. Sometimes children dart out from behind parked cars, or bicycle riders make turns without signaling, or an animal wanders onto the highway.

Musick also mentioned that when drivers become drowsy or fatigued, they should stop for a short nap or a brisk walk around the car.

"If a driver must stop at night, it is imperative that he always pull completely off the road and leave on his parking and dome lights," Musick said.

He particularly stressed the fact that night driving is different from daytime driving. Motorists must adjust to that difference by putting their guard up when the sun goes down.

"Fourteen per cent of the 2,611 traffic fatalities in Texas, last year, occurred in the three hour period from 5 p.m. to 8 p.m.," Musick said. "Thus, emphasizing the slogan that 'Dark brings death' on the highways."

Academics was the name given to a series of philosophers who taught at the Athean Academy.

## A Timely Tip

Don't be a square when the flames flare in the frying pan or the griddle. Don't just stand with an empty hand. And, like Nero, merely fiddle. Grab a goodly loada bicarb of soda. Jump right on the base of the fire. In nothing flat the flaming fat will harmlessly expire.
