

VISITS NATIONAL GUARD — Lieut. Fred Adams, right, commanding officer of Brownfield National Guard unit, Monday guided new unit advisors through the company's equipment room. They are, from left, SFC Jake Trupiano, sergeant advisor; Capt. Eugene Peale, unit advisor for the 2nd battalion, 112th Armored Cavalry, and Lt. Col. C. L. Miller, senior unit advisor for the 112th. The officers, recently appointed to their posts, visited the Brownfield unit to get acquainted but did not inspect. (NEWSfoto)

IN COMMISSIONER CASE BEFORE JURY

Bitter Objections, Tensions Are Rife

Permanent injunction proceedings against Mrs. Anna Bell Lay Harrison go into the third day today in a trial that has produced tension and bitter objections thus far.

County Judge Herbert Ches-shir went on the stand shortly after 3 p.m. Tuesday and appeared as a witness at various times throughout Wednesday morning. His testimony was punctuated regularly by objections from Calloway Huffaker, attorney for Mrs. Harrison.

Shortly before noon Wednesday, Judge Louis B. Reed, who is presiding over the trial in 106th District Court, ruled a deed of trust and declaration of homestead signed by Mr. and Mrs. Harrison could be admitted as evidence over the objection of Huffaker.

The trial, which will determine whether Mrs. Harrison or Eulice Farrar will be commissioner of Precinct 3, is expected to last into next week if it continues its present pace.

Some 17 witnesses have been subpoenaed to appear for Mrs. Harrison. Witnesses for Terry Commissioners Court are unknown. However, about 16 witnesses testified for the court during temporary proceedings held here in September.

The proceedings were brought about when Judge

TERRY'S ENTRY — Pictured above is Miss Stella Sue Moore, Terry County entry in the annual South Plains Maid of Cotton contest to be held Nov. 18-19 in Lubbock Municipal Auditorium. The daughter of Mr. and Mrs. Jim H. Moore of Route 4, Stella is this year's 1957 Terry County Maid of Cotton. She's 20, and weighs 120 pounds, is 5 feet 8 inches tall, with black hair and hazel eyes. Miss Moore is a Brownfield High School graduate and has a degree from Draughon's Business College in Lubbock. (LOWE'Sfoto)

VOLUME 20 TEN CENTS BROWNFIELD, TERRY COUNTY, TEXAS, THURSDAY, NOVEMBER 14, 1957 NUMBER 74

10th Birthday Marked By Brownfield Guard

Ever on the alert and prepared for extreme emergencies — war being only one — Brownfield's unit of the Texas National Guard this week concluded observances which marked the 10th year of its organization.

Federal recognition was accorded Howitzer Company, 2nd Battalion, 112th Armored Cavalry Regiment, on Oct. 17, 1947. Tremendous efforts however had gone into the organization of the unit for several months prior.

Since that time, a full decade ago, "How" company has been commanded by the following officers: Capt. W. Graham Smith, Lt. L. O. Greenfield Jr., Capt. Sam Privitt, Capt. W. B. (Bill) Glick, Lt. Jerry Stoltz, Lt. Victor Herring and Lt. Fred Adams (present commander).

Back only three months from their last annual summer training encampment, soldiers of the Brownfield unit already are preparing for the two-week stint next year.

With the exception of their stay at Fort Polk, La., in 1950, the Brownfield guardsmen have made nine summer camps at Fort Hood in Central Texas.

Rainbow Girls Slate Chili Supper Friday

Brownfield Assembly 264, Order of Rainbow Girls, will hold a chili supper from 5 p.m. until 8 p.m., Friday in Brownfield Junior High School cafeteria.

Tickets now are being sold by the girls. Price: \$1 for adults and 50 cents for children.

Purpose of the event is to raise money to send representatives to the spring's Supreme Assembly next spring in Seattle, Wash. In addition, girls will attend the event from Canada, England and Hawaii.

In addition to the chili, the girls also will serve beans, crackers, coleslaw, coffee cakes and doughnuts. Assisting them will be the assembly's advisory board, with Mrs. Wayland Parker as chairman.

Singing Convention To Be Held Sunday At Nazarene Church

The man who has been president of the Terry County Singing Convention for the past 25 years, G. M. (Mac) Thomason of 620 East Main, said Monday that the group would meet at 2 p.m., Sunday in Church of the Nazarene, Tate and Second streets.

Thomason, who recalled that the convention was organized by Mrs. J. M. Montgomery were to be held at 2 p.m., today in Brownfield Funeral Home Chapel, with the Rev. Boyd Pearce of Immanuel Baptist officiating. Burial will be in Terry County Memorial Cemetery.

Mrs. Montgomery, 81, died Monday morning in her home on Route 1, where she and

Terry Pioneer Dies Monday; Final Rites To Be Held Today

Final services for Mrs. J. M. Montgomery were to be held at 2 p.m., today in Brownfield Funeral Home Chapel, with the Rev. Boyd Pearce of Immanuel Baptist officiating. Burial will be in Terry County Memorial Cemetery.

Mrs. Montgomery, 81, died Monday morning in her home on Route 1, where she and

Cubs Are Set For Andrews

By CHARLIE MAPLE
NEWS Staff Writer

bearing upon the district champion.

Termed Important Game
Should Andrews win the tilt, a Cub victory over Kermit next week still would be necessary for a three-way tie for the title. A Cub victory over Andrews would eliminate the Ponies but a win next week still would be necessary if Brownfield wants a share of the title.

As a result, a jammed stadium is expected to be on hand for the game. Both teams have to win this week, or else.

Running from the split-T, Coach Glen Frazier's Mustangs employ an accurate passing attack to go along with a strong

Band Club Sets Sales

Brownfield High School Band Boosters Club will stage a bake-sale Tuesday in Piggly Wiggly, and will hold a rummage sale Nov. 23 on the courthouse square.

Purpose: To buy an air conditioner for the school band room.

The boosters club comprises parents of band members, and the organization completed plans for the two sales during a business session Monday afternoon, with Pres. Mrs. Grady Goodpasture presiding.

BHS Band has been invited to enter a marching contest next Thursday in Jones Stadium at Lubbock. Although the event will start at 5 p.m. the Brownfield band will not appear until about 7:30 p.m.

Husband-Wife Team Scores Highest In Football Contest

A husband-wife team were high winners in the Football Contest of Nov. 9. With nine correct selections each, they were Mr. and Mrs. Albert Johnson of 805 East Lons.

Actual score: Cubs 22, Monahans 0. Johnson called the Cubs 21, Monahans 6. His wife called it: Cubs 20, Monahans 13.

Low man this week was Edson Wilder of 913 East Tate, who called four winners.

Woman picking the lowest number of winners was Joyce Warden of 804 East Reppto, with six winners. She called the game: Cubs 26, Monahans 14.

Brownfield firms sponsoring this year's annual contest are Jack Bailey Chevrolet, Knight Hardware, City Cleaners, Farm & Home Appliances, Jones Theatres, Terry County Printing, Crites Humble Service, Jones-Copeland Insurance, Boston's Super Dog Drive-In.

Expansion Program In Schools Sought

Expansion of Brownfield school system's physical plant will come under scrutiny when trustees meet Monday night.

A study of the system's overall needs will be considered, as well as a petition presented Monday, in which 196 Brownfield residents requested the trustees to improve present athletic facilities.

In addition to the petition, the school board also will consider the need for more classrooms and other facilities.

7 P.M., TODAY IN VETERANS HALL

API Session Is 'First' for Brownfield

The manager of the retail division of Cameron Lumber Company, A. C. (Cullen) Akins of Odessa, will address the South Plains Chapter, American Petroleum Institute, at 7 p.m., today in Veterans Hall.

Tickets to the event, first time to be held here, are being sold for \$2.50 each in the Brownfield Chamber of Commerce.

Akins, with Cameron for the past 10 years, has served for 30 years in various capacities within the oil industry in the Permian Basin.

He is a past president of Downtown Lions Club of Odessa, and past chairman of the Black Gold District, Boy Scouts of America.

Akins is a member of the Odessa Chamber of Commerce, Methodist Church, Odessa Country Club, executive committee of the Odessa Chuck Wagon Gang, and past president of the Odessa Toastmasters Club.

STATE'S TOTAL USE SECOND ONLY TO CALIFORNIA

Texans Run Up a Whopping Annual Bill of \$350 Million For Production, Delivery of 19 Million Acre-Feet of Water Daily

(EDITOR'S NOTE: This is the fourth in six articles concerning one of Texas' major problems: water. The series was prepared by the Water Education Committee of the Texas Society of Professional Engineers, and the NEWS believes them to be of utmost importance to its readers.)

Texans run up an annual water bill of \$350 million for the production and delivery of 19 million acre-feet—or 17.1 billion gallons of water a day!

The state's total water use is second only to California's (primarily because of irrigation needs) and twice that for similar usage in New York.

Reports the Texas Society of Professional Engineers in a series of articles on Texas water problems:

Demand for all uses equals the entire flow of Texas rivers during a drought year, but one-half the water used comes from underground sources — sub-surface reservoirs which are being depleted when withdrawals exceed rates of natural recharge by rainfall.

Irrigation is the state's major

water glut. Satisfying the thirst of the fertile soil in irrigated farming areas demands an average daily 10.2 billion gallons. Second biggest water user — industry — consumes only a little more than half as much, or 5.7 billion gallons a day.

By contrast, all public water supplies use 1.05 billion gallons and rural areas about 0.17 billion gallons on a daily average for domestic and livestock purposes.

Water uses vary widely across the vast state, due greatly to the sweeping variety of climatic conditions.

Per capita water requirements are much greater in arid West Texas than in humid East Texas. In addition to increased need for irrigation and domestic uses in the arid west, evaporation from West Texas reservoirs is frequently greater than the total amount put to beneficial use from almost any specific water system.

Since Texas streams no longer meet water demands placed on them and ground water is used in large quantities — particularly in the Panhandle,

San Antonio and Winter Garden areas, and along the Upper Coastal plain — coordination of ground water development and spacing of wells in accord with amounts of water available are becoming increasingly important.

The TSPE Water Committee concludes that comprehensive planning for proper development of both underground and surface water resources is, in fact, necessary if all areas of the state are to receive maximum economic benefits.

More than 150 reservoirs have been built in Texas to supply water for municipal, irrigation, and industrial supplies. Major ground-water reservoirs—in the Panhandle, Edwards Plateau, Winter Garden and upper coastal regions, for example—are under hydrologic study as means of stabilizing resources development.

The Texas Board of Water Engineers and the U. S. Geological Survey are supplying important basic data on water resources through cooperative surface and ground water investigations.

ABOUT COTTON

Letter To The Editor

Editor, Brownfield NEWS:

This has been a difficult cotton year. A violent spring with late plantings, and a cold wet fall have delayed our crop, reduced our yields, increased our production of immature and spotted cotton, and will cut heavily into our profits.

These events emphasize the crying need for immediate action to step up research and education for early maturing varieties and improved practices to reduce the losses we suffer.

Cubs, Andrews Tilt Tickets Now on Sale In The Courthouse

Tickets to the Cubs' final home game, with Andrews, will be on sale at Raymond Simms office in the courthouse until 11 a.m. Friday, according to Mrs. J. D. Miller, athletic auditor.

The auditor reported the tickets will be moved to Cub Stadium at 5 p.m. for those who desire to avoid the last minute rush. Ducats are \$1.50 for reserved seats, \$1.25 for general admission and 25 cents for students.

"This will be our last home game this season," said Mrs. Miller. "I'd like really to fill the stadium — especially because Andrews is likely to fill their side."

Pre-game ceremonies for the 2-AAA District game will start at 7:45 p.m. and kickoff will be at 8 p.m.

Championship aspirations of the two teams hinge upon the outcome of the tilt. The Mustangs must win to remain in contention and the Cubs must win to gain a clear shot at the title when they meet Kermit next week.

Robert Mayo Rites Held Here Tuesday

Funeral services for a former resident who was killed Saturday night in a traffic mishap north of Canyon, Robert Lee Mayo, were held Tuesday in Brownfield Funeral Home Chapel.

The Rev. E. L. Cave of Brownfield officiated, assisted by the Rev. A. J. Franks of Northside Baptist Church. Burial was in Terry County Memorial Cemetery.

Mayo, 42, is survived by his mother, Mrs. Cora Mayo of Lubbock; two sisters, Mrs. W. F. Smotherman of Route 1, and Mrs. Estelle Hicks of Lubbock, and two brothers, Odell Mayo of Sweetwater and William Mayo of Floydada.

The U. S. Soil Conservation Service in Plains, and Etheledge is assistant county agent.

Annual payroll of the Brownfield unit, most of which is spent in Terry County, is in excess of \$20,000.

The 112th Regiment comprises three reconnaissance battalions, the 1st and 3rd being generally located in the Rio Grande Valley, and the 2nd in West Texas.

Further, each battalion comprises three reconnaissance companies, a headquarters company, one medium tank company and one howitzer company.

Headquarters of the 2nd Battalion is in Pecos. Company "F" is in Lamesa; "D" in Snyder, and "E" in Midland. The battalion tank company is located in Monahans.

Many Subjects Studied
Commanding officer of the 112th is Col. F. R. Weston, who maintains his headquarters in San Antonio. Lt. Col. Richard Slack headquarters in Pecos.

Here are a few items which Brownfield guardsmen study as "specialized" subjects: howitzer drill, fire direction center procedure and survey, motor and vehicle maintenance and repair, radio operation, telephone installation and wire construction, cooking and supplies.

As do all soldiers in all times everywhere, the "How" boys must be proficient in military law and courtesy, camouflage, small arms firing and marksmanship, and some 15 other subjects.

"AND THEN THIS . . ." — The quintet, all members of Howitzer Company, Brownfield's unit of the Texas National Guard, studies a giant working model of the .30-caliber machine gun. Instructor is SFC Olan F. Herring of 407 North Fifth. Others are, from left: Pfc. James Hall of 1311 East Main, Sgt. John Gary of Union; Pfc. Augustin Montemayor of Tahoka, and Specialist Ernest Escalante of Brownfield. Scene is typical of the training picture each Monday night in the unit's armory, Veterans Hall on Seagraves Highway. (NEWSfoto)

General Motors Executive Outlines Future Goals of Truck And Pickup Production; Desires of The Trucker To Be Considered

The GMC Truck & Coach Division has embarked on a far reaching engineering development program for GMC trucks that will bring "super-trucks" onto the super-highways of the future, it was disclosed today by Philip J. Monaghan, vice president of General Motors and general manager of the division.

Monaghan told a press conference audience that the GMC truck engineering department, expanded 22 per cent in the past year and now one of the largest in the corporation, is tying together new truck engineering concepts of great economic significance.

For the immediate future, said Monaghan, the new 1958 light and medium duty GMC trucks offer outstanding values with new styling, a new V-8 engine, a stronger chassis and a new automatic transmission for the medium duty models. They will be introduced in dealer showrooms the week beginning November 11.

For the long-range future, said Monaghan, GMC was making a complete reassessment of the product with a view toward incorporating into it everything of value, in a single design pattern, now known to our

engineering world.

"Many new engineering developments in trucks have been introduced in the postwar trade, and truckers have bought them as they were offered — automatic transmissions, power steering, air suspension, new brake systems, new mufflers, and on down the line," said Monaghan. "Yet in the piecemeal delivery of these developments, first in one part of the truck, and then in another, we have been forced to adapt our truck design so many times that each succeeding change as good as it is has made the pattern somewhat less than a planned blending of

all the parts and pieces."

It would appear, he said, from what is heard from many sources in the trucking industry, that what is needed is "a complete and radical departure from traditional truck design as we know it today."

The truck operator is thinking of obtaining new trucks that will cut down on his operating costs, increase payload and increase cubage which add more revenue to offset some of the rising costs over which he has no control, Monaghan said.

"We are in the business of designing and manufacturing trucks where even a small improvement means literally millions of dollars in cost savings

for the operator, greater ease and efficiency of goods shipment by the shippers, and a decrease of the hidden costs of transportation of goods purchased by the consumer," said the GM executive.

"The significance of any kind of progress at all in truck design might best be stated in the dollar sign symbol . . . limiting the statistics to the 1,460,000 truck units used by private, for-hire and exempt commodities carriers today."

If we can improve gasoline and Diesel fuel mileage by 1 mile per gallon for this entire group of so-called highway trucks, an annual savings of 800-million dollars could be effected.

If we can reduce the mileage between major overhauls by 100,000 miles, there is a savings potential upward of 325-million dollars.

COMMANDING OFFICER — Brownfield's unit of the Texas National Guard is "Howitzer Company" of the 2nd Battalion, 112th Armored Cavalry Regiment. Commanding the regiment is Col. Frederick Weston, who headquarters in San Antonio.

No. 1

\$80,000 in military equipment. Primary weapon of "How" company comprises six self-propelled 105-mm howitzers, used to provide artillery support for the reconnaissance companies of 2nd Battalion.

Other armament include eight 50-caliber machine guns for anti-aircraft protection, eight 3.5-inch bazookas — the only way to destroy an enemy tank, at times, several 30-caliber machine guns, M1 rifles, pistols, carbines and .45 automatic "burp" guns.

Training in the use of all the foregoing arms is the primary plan of the unit, year in and year out. Each soldier must fire the "familiarization" course each year with the rifle, and must qualify every three years with the weapon assigned to him.

"How" company has an excellent record for marksmanship. Lt. Adams having won a "first" on the regimental level and two "firsts" in 4th Army-wide firing at San Antonio.

Other officers who have served the Barowfield unit in the past years have been Lt. J. A. Martin, Lt. T. A. Hicks, Lt. H. L. King, Lt. Virgil Short, Lt. Don Price, Lt. Darwin Carroll and Warrant Officers Bill Blankenship and Daryl Walker.

Present officers, besides Lt. Adams, are Lt. B. O. Northcutt of Pecos, a Texas Tech student who is liaison officer for the 2nd; Lt. Don Powell, reserve officer who was transferred only this week to the unit; Lt. Bill Dittmore, executive officer, and Lt. Bob Etheledge, training officer.

\$20,000 Annual Payroll
Adams is a Brownfield postal employee — he's the only man left who attended that first summer camp 10 years ago. Powell and Dittmore are with

Last Rites Are Held For A. Z. Couch, 78

Funeral services for A. Z. Couch, 78, were held here late Sunday in Northside Baptist Church with the Rev. A. Warren Stowe and the Rev. Howard Smith officiating.

Couch, a retired farmer who moved to Terry County in 1931, died Nov. 3.

Survivors include his wife, Anna of 317 West Buckley; one son, Kenneth of Silver City, N. M.; three daughters, Mrs. J. N. Bley of Plainview, Mrs. W. C. Lambert of Aspermont, and Mrs. E. H. Davis of Brownfield.

Burial was in Terry County Memorial Cemetery under direction of Brownfield Funeral Home.

BROWNFIELD GUARDSMEN — Trio standing comprises, from left, Lt. B. O. Northcutt, Lt. Don Powell and Lt. Bill Dittmore, all with the Brownfield Texas National Guard unit. Seated is Sgt. Glenn Kirkpatrick, administrative assistant. Northcutt, a Texas Tech student from Pecos, is liaison officer between the howitzer company and 2nd Battalion headquarters; Powell and Dittmore are with the U. S. Soil Conservation Service in Plains, and Kirkpatrick is the unit's only fulltime employee. (NEWSfoto)

No. 4
ganized 36 years ago, April 17, 1921, said that "Excellent singers would be here from Lubbock."
The singing group held its organizational meeting on the second floor of the old Union school, and elected as the first president, J. M. Green. Raymond Sims, present Brownfield school district tax assessor-collector, was the group's first secretary.
Said Thomason: On that day in 1921, the second floor of that old Union school sagged, there were so many people attending. Attendance still remains fairly decent, but radio, television and other factors have dealt the convention a mighty blow."

running game. Ronnie Brice, the quarterback, does most of the passing, often long lofts for scores.
Coach Cox said Andrews, without a doubt, will be the toughest team the Cubs have met this season. "Our boys really will have to want to win to take this one," he said.
Cubs Are Ready
The Cubs, though bruised and sore after last Friday's tilt with Monahans, appear to be in good shape for the Andrews clash. Barring injury or illness, the team should be in their best physical and mental shape thus far this season.
Cold wind and moisture kept the Cubs inside for light work and skull practice Monday but with the coming of sunny weather Tuesday, they moved outside for a spirited hard-hitting session.
Special emphasis was placed on blocking assignments, timing and defending Mustang attack. No changes are expected in the line which threw up a stingy defense last week. Leon Hinson will continue as starting wingback.
The Friday tilt will mark the final home game for the Cubs, who go to Kermit for the 22nd of the season finale. Ducats will be on sale at the courthouse

fer in varying degrees year after year.
It also emphasizes the importance of intensifying our efforts with the U. S. Department of Agriculture to analyze thoroughly the methods of making cotton price quotations and setting quality premiums and discounts in the loan.
Present methods do not reflect properly the real money values of many of the qualities, particularly light spotted cottons, and since this area produces the largest percentage of

until 11 a.m. Friday and then moved to Cub Stadium at 5 p.m.
C. G. Griffith, Quarterback Club president, urged Cub fans to fill the stadium Friday night. Andrews fans are expected to fill the northside for the tilt.

such cotton, we are carrying the brunt of the burden.
As you know the Plains Cotton Growers program includes activity in both the above items. Progress already has been made in expanding the research effort by cooperating with and supporting cotton research at public and private agencies, and by securing additional funds and personnel from the USDA, for cotton work.
We also have gathered a considerable body of facts supporting our campaign to get light spotted cotton properly recognized in the market quotations and loan schedules. We are working with our Congressmen George Mahon and Walter Rogers, and others, to have the USDA make a complete survey of this situation.
None of these objectives is easy or simple, and only through united effort can the goals be reached. You can help by giving PCG your continued support and encouraging others to back it in this and other important efforts. If you are a farmer discuss it with your neighbors and your ginners. If you are a business man, remember most of your business depends upon the farmer's income.
Your PCG represents you in many meetings and hearings in both trade and government circles, to promote and protect

No. 2
Texas Water Board records show 86 reservoirs of 5,000 acre-feet or more capacity have been constructed in Texas for municipal, industrial and irrigation uses prior to 1957.
Together, they have a combined capacity at spillway crest of 25,500,000 acre-feet. Of this, 11,800,000 acre-feet are classified as storage for municipal, industrial and irrigation use.
The U.S. Bureau of Census 1954 reports show 284,642 stock tanks on 117,626 Texas farms. And the U.S. Soil Conservation Service has constructed more than 150 flood detention structures in the Trinity, Brazos and Colorado River basins.
The TSPE Water Committee notes that river authorities, cities, water districts, federal agencies, private agencies and others are planning construction of more structures to impound and use water.
Many of the developments planned do not recognize existing water use projects or fit in with overall plans for major river basin development, says

No. 3
her husband had lived since moving to Terry County 34 years ago.
Her survivors include her husband; four daughters, Mrs. Joe Patterson and Mrs. G. W. Ammons of Brownfield, Mrs. G. S. Rosamond of Wasco, Calif., and Mrs. Harold Gibson of Ruidoso, N.M., and four sons, Amos Montgomery and Jessie Montgomery of Las Unas, N.M., Roy of Wasco, and Sylvester of the committee.
Some of the projects will be economic failures without such coordination, and water which they make available will not meet anticipated demands, in the committee's views.
Texas, therefore, observes the TSPE group, should provide for water resources planning by the State Water Board in accordance with the basic principles adopted by Gov. Price Daniel's water advisory committee at a meeting in Austin last Sept. 9.
Next: Underground water in Texas.

AMERICA'S BIGGEST CAR VALUE—ON SALE TODAY!

NEW 1958 MERCURY

Shown (above) are Colony Park Station Wagon, Monterey Phaeton Coupe; (center) the Montclair Phaeton Sedan.

Only car to bring you Sports-Car Spirit . . . with Limousine Ride

Mercury introduces the year's biggest advance in car performance—a combination of the superb control and handling ease of a sports car—plus the room, ride, and comfort of a limousine.

ANNOUNCING AN ENTIRELY NEW FAMILY OF MARAUDER ENGINES WITH UNIQUE COOL-POWER DESIGN. The great engineering advances of "Cool-Power" Design include new In-block Combustion, Water-flow Intake Manifold, 3-stage Cooling, and Cool-head Valves. Power and fuel once lost to heat and friction are put to work for you. There are three new Marauder V-8's with 312, 330 and 360 hp. They are all teamed with a new high-economy rear axle to give you more power, more mileage from less fuel.

ADVANCED TREND-SETTING STYLING—WONDERFUL NEW DRIVING AIDS. Mercury continues its leadership—not only in styling, but in features. For example, new Super-Safe self-adjusting brakes. New Multi-Drive Merc-O-Matic in the Park Lane series. And you can get features like a Speed-limit Safety Monitor, automatic power lubrication, and many others. We invite you to attend the first showing.

4 SERIES OF MERCURYS TO CHOOSE FROM IN '58. PRICES START JUST ABOVE THE LOWEST. The Monterey series has 5 models within easy reach of buyers of low-priced cars. For only a few dollars more, Mercury's six Montclairs give you many additional luxury features. There's a choice of six station wagon models in 3 price ranges. For magnificence unlimited, there are 3 models in the entirely new Park Lane series. And, even here, prices are surprisingly modest.

AT BREAKFAST — Monday was Veterans Day, observed throughout the nation, and marked here by the traditional sunrise breakfast of the Howard-Hanson Post 269, American Legion. The trio shown above was among the men attending. From left: Joe J. Weatherman of 206 East Tate, Korean War vet; Wallace Hef-

BEHIND AMERICAN BUSINESS SCENES

Union-Management Tug-of-War Begins As Auto Industry Sets For Negotiation of New Contract; Workers Want Short Week

By REYNOLDS KNIGHT
Economic Analyst

NEW YORK — The auto industry is going to be battling on two fronts next year, with its traditional tug-of-war with the union being complicated by an attack from a quite unexpected quarter.

Shortly after the United Auto Workers Union indicated its intention of asking for a shorter work week and more take-home pay, the auto makers got a challenge from an important segment of non-automotive industry. Ernest G. Swigert, president of the National Association of Manufacturers, has asked the auto industry to accept a strike rather than agree to the shorter work week demands.

Swigert contends the shorter week will be used as a device to gain more overtime pay, and that the combination of more wages and less work will speed-up the inflationary spiral. He points out these demands of labor are not the problem of Detroit alone but of industry throughout the country.

The U.A.W., whose contracts with the major auto companies expire next May, didn't wait for the auto industry to answer Swigert.

It charged him with being a "coat-holder" in exhorting the auto industry to fight the union, and said he exhibited "a shocking lack of information about the nature of labor-management relations in the 20th century."

'PEDIGREED' PEN—Industry continues to develop new ideas and new products. A deluxe "pedigreed" ballpoint pen whose purchasers' names will be registered by the manufacturer has just been introduced. Sheaffer has named its new ballpoint "The Registered White Dot." It will be available in limited supply, said president Walter A. Sheaffer II, because "these new ballpoints are precision hand-crafted by a few highly skilled workers." Production is based on a ratio of one pen to every three dealers.

"We could mass-produce the new ballpoint," he pointed out. "But that would defeat our purpose of providing an exclusive, hand-produced quality writing instrument that should make an ideal gift for the 'special' people on most Christmas gift lists."

THINGS TO COME — The inventors and merchandisers are thinking of women these days: there is fishing tackle that has just been designed for the feminine angler, both reels and rods in matching pink and aqua. Then there is a new nail polish applicator that involves a small brush within the polish container. When the container is tilted, the brush slides out with enough polish for one finger nail. Ironing shirts is fast becoming a lost art. Thirty to 35 per cent of one shirt firm's spring line will be drip-dry.

'BRAIN MIXES FEED — One of the toughest problems in the animal feed industry — the making of feeds meeting rigid nutritional standards at the lowest possible price, from a range of ingredients purchased on changing and unrelated markets—has been solved electronically.

The technique, developed by scientists of Nutrena Mills, Inc. and its parent company, Cargill Inc., makes use of an expanded IBM-650 computer and the mathematics of "linear programming" to resolve some hundreds of millions of possibilities.

J. C. North, president of Nutrena, says: "Actually this means that we get the one best formula from some four million practical possibilities."

One of the company's larger-volume feed types, Nutrena egg feeds, is now in production from formulas derived electronically; and held under constant electronic scrutiny, North said. Other formula feeds, designed for swine, cattle, poultry and other animals, will be subjected to electronic analysis as quickly as they can be "programmed" for the computer, he said.

SHOE OUTPUT, PRICES UP — Producers of shoes are moving against the grain. Sales and output are both climbing and manufacturers see a rise in prices at the retail level. If current estimates are correct shoe production for the year will hit a new peak of \$98 million pair.

Four factors are apparently the cause of this bright picture. One is the rise in style-consciousness among women; this has increased their per capita consumption.

Another is the charge in age distribution in the nation's population, with an increase in the number of young people: they outgrow them if they don't wear them out in a hurry. An additional factor is the general growth of population. And finally, even the higher level of consumer buying — not usually

FROM NATIONAL SAFETY COUNCIL

KeyStone-Fleming Fleet Receives High National Award for Safety Performance

National honor for outstanding driver safety performance were won by the KeyStone-Fleming as a result of participation in the 25th annual National Fleet Safety Contest conducted by the National Safety Council.

The KeyStone-Fleming fleet of 19 vehicles and 17 drivers was awarded 2nd place in the petroleum division of the contest at ceremonies Thursday in the La Salle Hotel in Chicago.

The award was based on the company's performance from July 1956 through June 1957, a period during which it operated 408,892 miles and achieved the outstanding accident rate of only .244 accidents per 100,000 miles of operation.

Under contest rules all accidents except those occurring when the company vehicle is properly parked must be counted. Before winners finally are determined, their records are personally inspected by an auditor appointed by the National Safety Council.

Winners also were honored at a Victory Luncheon sponsored by General Motors Corporation in the hotel's grand ballroom. Principal speaker was the Rev. Dr. Carl S. Winters, minister of First Baptist Church, Oak Park, Ill., and a nationally known lecturer.

More than 2,000 fleets operating in excess of 237,000 vehicles and traveling 5,078,743,000 miles competed in the contest, largest of its kind in the world. The combined average rate of 1.51 accidents per 100,000 vehicle miles—down 4 per cent from the previous year, was achieved despite an increase of half a billion vehicle miles. Contestants experienced 200 fewer accidents along with the increase in mileage to produce the rate reduction.

In presenting awards to the more than 60 winners representing all branches of the motor transportation industry, E. G. Cox, chief of the Section of Safety, Bureau of Motor Carriers, Interstate Commerce Commission, congratulated the winners and other contest participants on steadily improving their safety record. He termed the achievement a substantial contribution to the safety of our streets and highways.

Washington Irving, creator of Rip Van Winkle, was at one time U.S. minister to Spain. Nearly half the emigrants coming to the United States in 1905 were Italian.

Andrew Jackson was a jack of all trades—planter, trader, merchant, soldier and statesman.

New Hunting Alibi to Aid T.B. Patients

A new alibi to appease the Little Women promises to become popular among Texas big game hunters this fall.

"It'll be gone for a few days, honey; have to get a deer hide for the tuberculosis convalescents!"

But there is a pretty grim angle to overshadow that light-hearted touch. Because thousands of t.b. patients are counting on the generosity of hunters, locker plants, truckers and other agencies to provide them with the processed deer hides which contain almost magic qualities for the convalescents.

Technicians explained to Sportsmen's Clubs of Texas, a new member of the hide collecting force, that the soft, pliable buckskin has an amazing therapeutic value.

Motor freight lines again will transport the hides when they are cleaned, tied and salted, with the attached address: "Austin Taxidermist Studio, 2708 Fredericksburg Road, Austin."

Also, there should be the notation: "Charity, For TB Patients."

The Studio proprietor, L. M. Rathbone, for several years has handled the hides for shipment to the tannery.

Public donations, which are income tax free, help pay the cost of processing. Checks should be forwarded to "Bucks for Buckskin" Volunteer Council for State TB Hospitals, Box S, Capitol Station, Austin.

While production and sales have grown, so have costs. Leather costs especially have gone up sharply and it is this increase that producers see being passed on to the consuming public.

BITS O BUSINESS — It must have been a cool summer: more than a billion dollars' worth of electric fans are stuck in warehouses. Some people have probably been perspiring — in addition to the fan makers, that is. . . average prices on the New York Stock Exchange for September registered the biggest drop for any month since September, 1931. . . The rise in oil imports has the government worried and a spokesman has warned importers their operations are being subjected to close scrutiny.

Jessie G. PTA Hears Guidance Counselor

Dr. Robert J. Hoey, supervisor of guidance and counseling, in Brownfield schools was a speaker for a meeting of the Jessie G. Randal PTA Monday at 7:30 p.m. in the cafeteria.

Dr. Hoey speaking on "Guidance With Meaning," stressed the need of the parents, cooperation in the education of the child. He brought out the parent's responsibility in assisting the child to get into a field by which he can make a living and at the same time be happy.

A report on the Halloween carnival was given.

George H. Giddings Subject Of Article

The current issue of Southwestern Historical Quarterly, published at the University of Texas by the Texas State Historical Association, contains an article on "George H. Giddings and the San Antonio - San Diego Mail Line."

Authors are Mrs. Emmie Giddings W. Mahon of El Paso, granddaughter of George H. Giddings and a history teacher in the El Paso public schools, and Chester V. Kielman of Austin, a University of Texas graduate student and TSHA staff member.

Protect Your Equipment

"AT TODAY'S PRICES, you can't afford to leave implements outside the year around," say farmers throughout the country. "They have to last a few years longer than ever before."

Therefore, yesteryear's sights of tractors and combines corroding in open fields or under trees are becoming less common.

The pole building provides much better protection than trees and at very little cost when compared with waste caused by depreciation of implements.

It is a modification of the farmers' standby, the pole barn, which costs less to erect than other types of construction and yet is sturdy and flexible.

Pole buildings can pay for themselves in a handful of years by providing longer service life of implements. The buildings will last much longer than a few years if they are erected with poles and lumber commercially treated with permanent-type preservatives such as pentac, which protects wood from termites and rot.

These buildings can be multi-purpose structures and can be easily converted to other uses. Combination bar-corn crib-impliment buildings have been built. Tool rooms, garages, or grain storage sections can be provided within the building.

Contractors specialized in putting up pole buildings quickly and efficiently are available in most parts of the country. For the farmer who wants to put up his own buildings, pentac-treated poles and lumber as well as other necessary materials are available from building supply dealers.

Plans are readily available from the U. S. Department of Agriculture, state agricultural colleges and many of the metals manufacturers.

MGM PRESENTS
Jailhouse Rock

The big new "M-M" series, called "M-M", which will be on to the 1958 line, will have a more discriminating upper-medium range, general manager Lincoln and vice president Motor Company.

Striking styling is truly big car size. The Park Lane from 1958 car. It is 220 inches long, seven inches longer than Mercury car, wheelbase of 125 inches, more than the Monterey.

The Park Lane is a newly-designed 4-door sedan with 430 cubic inch engine and a new 1 Multi-Drive automatic transmission as standard giving it a significant performance advantage. Power Super Mar with three two-bar

Loop Pioneer Rites Held

Funeral services for Hill, 79, a Loop resident, were held at the Church of Christ at 11:30 a.m. today.

Hill, a retired engineer, died shortly before noon at the home of a daughter in Denver City. He had several months.

Survivors include his wife, Mrs. Matha Hill; two daughters, Mrs. Kelly of Loop; two sons, Kelly of Loop; a daughter, Mrs. C. F. Lubbock.

Burial was in Lubbock under direction of the funeral home.

The biggest and most luxurious Mercury ever built—the new Park Lane series—was designed to appeal to the more discriminating buyers in the upper-medium price bracket. Striking styling features and big car size—220.2 inches long and 125-inch wheelbase—distinguish the Park Lane. Mercury will offer 20 models for 1958. The Park Lane series includes a convertible, a phaeton coupe and a phaeton sedan, pictured here.

DISCRIMINATING BUYERS SOUGHT

Park Lane Marks the 'Super Mercury'

The big new "super Mercury" series, called the Park Lane, which will be a new addition to the 1958 line of Mercury cars, will have three models, each designed to appeal to the more discriminating buyers in the upper-medium price field, as revealed by James J. Vance, general manager of the Lincoln and Mercury Division and vice president of Ford Motor Company.

Striking styling features and its truly big car size distinguish the Park Lane from any other 1958 car. It is 220.2 inches long—seven inches longer than the other Mercury cars—and it has a wheelbase of 125 inches, three more than the Montclairs and Montereys.

The Park Lane is powered by a newly-designed Mercury Marauder 360 horsepower engine with 430 cubic inch displacement and a new Merc-O-Matic Multi-Drive automatic transmission as standard equipment, giving it a significant performance advantage. A 400 horsepower Super Marauder engine with three two-barrel carburetors is optional.

Multi-Drive offers three ranges, for normal smooth acceleration; high performance range and hill control or low range for heavy pulling and for engine braking on hills. Cruising range has a hill-holder action to prevent the car from rolling back when stopped on a grade.

The frame for the Park Lane is bigger and sturdier. Important improvements in the suspension include heavier springs and bearings. The front suspension upper arm has a new threaded bushing, lubricated for life with a lithium-base lubricant.

Its power brakes are self-adjusting, thus eliminating the need for manual adjustment and assuring even braking and straight line stopping.

Exciting trim styles, fabrics and appointments are selected carefully to give the maximum interior comfort and luxury.

Mercury's new air cushion suspension, which has air springs replacing steel springs to provide the ultimate in ride comfort, is optional. Heater on the Park Lane features climate dial control—a vacuum powered fresh air and heater control which adjusts the vent openings for maximum driver comfort.

A host of major features which are associated with luxury in motoring are standard equipment in the Park Lane. These include power steering power brakes, back-up lights, dual exhausts, windshield washers, padded instrument panel, and deluxe steering wheel.

Mercury's new speed limit safety monitor which gives a warning signal when speed exceeds a previously selected setting is optional.

Mr. and Mrs. Ralph Hedrick of 402 East Reppito will be vacationing the next week in San Antonio and other points in Texas.

Loop Pioneer Dies; Rites Held Sunday

Funeral services for E. J. Hill, 79, a Loop resident since 1921, were held at the Loop Church of Christ at 2 p.m. Sunday.

Hill, a retired farmer, died shortly before noon Saturday at the home of a daughter in Denver City. He had been ill for several months.

Survivors include two daughters, Mrs. Matha Streetman of Denver City; and Mrs. Cleo Kelly of Loop; two sons, H. C. Kelly of Childress, and H. L. Kelly of Loop; a brother, S. C. Kelly of Casper, Wyo.; and a sister, Mrs. C. H. Sumner of Lubbock.

Burial was in Loop Cemetery under direction of Brownfield Funeral Home.

SAYS HEALTH COMMISSIONER

Soft Drinks, Candy Machines Offer Only Tooth Cavities To Children

Ridding school lobbies and cafeterias of soft drink and candy vending machines would be one of the most important contributions school officials could make toward better dental health for children, says Dr. Henry Holle, State Health Commissioner.

While the full relationship between diet and dental cavities has not yet been firmly nailed down, researchers are in agreement on this: sugar-including that in candy and soft drinks—is a distinct factor in the process of decay.

Practically all pastries and confections contain quantities of sugar. A candy bar may have five to 20 teaspoonsful; a piece of cake has 15; a bottle of pop three to five.

We Americans consume 10 times as much sugar per person as our great-greatfathers did 100 years ago. We use three times as much as we need for energy requirements.

Not only does sugar intake provide fertile food for acid-producing bacteria, but it also spoils the youngster's appetite at mealtime.

Saliva furnishes a buffering action against ordinary amounts of sugar taken into the mouth at mealtime. But if a person nibbles on candy or cookies several times daily between meals, saliva cannot cope with acid building.

This applies to adults as well as to the children, but it is more meaningful to youngsters since habits they learn in youth carry over into maturity.

The significance of a diet low in refined carbohydrates has been pointed out in recent university studies. Dental patients kept on such a diet for a certain period of time show a sharp reduction of acid-producing bacteria in the mouth.

Tom Green County Tuberculosis Association and the Salvation Army. He is a graduate of Texas Tech and is married and has two sons.

Martin has held his present position since joining the company in 1953, and has been in the telephone business since 1928.

Porter joined General's predecessor, the Two States Telephone Company in Texas, in 1937 as a clerk. In 1945, after serving 3½ years in the army, he was made commercial and traffic supervisor. In 1950 he became Texarkana district manager and was made division manager in 1953. Porter attended high school in Vivian, Louisiana, and business school in Texarkana. He is married and has one son.

General Telephone Announces Changes Of Area Personnel

Several organizational changes in General Telephone Company of the Southwest will become effective December 1, 1957, it is announced by E. H. Danner, president.

Mark Cooper, public relations assistant, has been named public relations director for the company's five state area of Texas, New Mexico, Oklahoma, Arkansas and Louisiana. He replaces F. E. Hightower who will become eastern division manager in Texarkana.

C. A. Martin, general traffic manager, is being transferred to New York where he will be traffic engineer for General Telephone Service Corporation. L. L. Porter, eastern division traffic manager in Texarkana, will replace Martin.

Cooper, whose offices will be in San Angelo, is a graduate of Eden High School and attended San Angelo College, the University of Oregon and the University of Texas. Before joining General, Cooper was owner-manager of a mail advertising service in San Angelo.

He is active in civic affairs and currently is serving as president of the San Angelo Community Theatre and as vice president of the San Angelo Symphony. He is a former president of the Advertising Club and is 1957 Chairman of publicity for the March of Dimes. Cooper is married and has two sons.

Since joining General in 1946 as a clerk, Hightower has been assistant secretary and assistant treasurer and immediately prior to becoming public relations director in 1955 was a revenue requirements representative.

Hightower is immediate past president of the Texas Junior Chamber of Commerce and has been active in civic affairs, serving on boards of the San Angelo Community Council,

After successfully concluding treatment for their dental ills, these same patients were able to return to a diet with moderate amounts of carbohydrates and yet remain relatively free of dental disease.

The State Health Department now has a service whereby saliva specimens may be submitted to be checked for decay-causing organisms. When the laboratory analysis is completed, the Department will recommend a diet designed to overcome those organisms. The service is available only through practicing dentists, and is intended for adults and children highly susceptible to dental decay.

Some people are able to eat lots of sweets and still be immune to dental disease. The answer seems to be that something in the months of such people is lethal to acid-producing bacteria. An estimated three percent of the American population is caries-immune.

Walk into almost any public school in Texas and chances are you will see bright-hued dispensers of dental decay. Until they are replaced with milk dispensers, our talk of good dental health for children is meaningless.

The word alphabet comes from "alpha" and "beta", first two letters of the Greek alphabet.

AO Group Studies Scholarship Aid And Christmas Projects

Mrs. E. Y. Wilder was director for the program Tuesday afternoon when Alpha Omega Study Club met in Selma Jane Brownfield Clubhouse.

Mrs. Tommy Hicks presided during the business meeting. Mrs. V. L. Patterson gave a report on constitution and by-laws of the club. Changes are to be voted on at a later session. Mrs. P. R. Cates gave a financial report.

Members voted to allow each one desiring to contribute to a scholarship fund for a girl attending Texas Tech to be sponsored by 7th district of Alpha Omega Alpha Club. Club members also may contribute to a fund for a Christmas project at Boys Town near Amarillo.

Mrs. Cates, hostess, served refreshments to Mmes. Perry Bear, Marion Bowers, Lee Brownfield, Ben Christopher, Jack Cleveland, M. J. Craig Jr., E. H. Farrar, A. J. Geron, Grady Goodpasture, Jake Gore, Tommy Hicks, Roy Harris, M. L. Copeland, Arlie Lowrimore, M. R. Paddock, Patterson, Britt Pounds, Frederick R. Smith, James Thurman and Wilder.

NEW TRANQUILIZER FOR ANIMALS

At one time or another all farmers and pet owners have faced the problem of having to handle a vicious or unruly animal. Mechanical means of restraining sick or unmanageable animals without hurting them have always caused difficulties for the animal and owner. Now the problem has been reduced tremendously by the use of a new tranquilizer called Trilafon, available through your veterinarian, which is effective in large and small animals.

Trilafon quiets the unruly animal without causing the discomfort or injury which is usually caused by physical or mechanical restraining procedures. Often the owner and attending veterinarian suffer bites or injuries in attempting to calm and treat sick or injured animals.

Persons who have handled animals injured in accidents will appreciate the powerful calming activity of the new drug.

In addition to its calming and "chemical restraining" properties, Trilafon is an excellent drug to prevent vomiting. It has also been found helpful in treating stomach upsets during worming procedures and in other cases where small animals cannot retain food or medication.

Consult your veterinarian when you have an unruly or unmanageable animal. He will advise you as to the best use of a tranquilizer in each case.

Mr. Farmer — This Is For Your Information!

Grain On the Ground:

Grain piled on the ground should not have anything put under it. Grain will keep longer on the bare ground without heating.

Heating Grain — Solution:

Any Grain on the ground that starts heating should be hauled in immediately. There will not be any further discount for grain heating. We will protect any grain on the ground on the account of not being able to handle wet grain fast enough to keep damage down from having to pile it on the ground.

Drying Is Problem:

We have enough drying equipment to dry this crop, but it will just take a little longer to dry this crop . . .

Plans Set for Irrigation Meet; Starts Thursday

Final plans have been made and irrigation authorities throughout Texas are looking toward a successful Irrigation Conference at the first state wide meeting of this kind, scheduled in Lubbock this week said W. A. Van Blarcom, president of Texas Inter-Industry Irrigation Council.

Some of the top irrigation authorities in the nation will be included on the program of this first conference.

This meeting will be of utmost interest to farmers, agricultural leaders and the irrigation equipment industry. It will be held at the Lubbock Hotel with registration scheduled at 10 a.m. Thursday. Dr. Ivan Wood, irrigation consultant from Denver, will be one of the featured speakers.

Dr. W. N. Williamson, assistant director of Texas Agricultural Extension Service, College Station; C. I. Wall, president of Pioneer Natural Gas

Co., Amarillo and Dr. E. N. Jones, president of Texas Tech. Lubbock, will preside over the Conference sessions.

A banquet will be held at 7:30 p.m., Thursday, at which time Tom McFarland, manager of the High Plains Underground Water Conservation District, Lubbock, will preside as Master of Ceremonies.

Jack Z. Anderson, administrative assistant to President Eisenhower, will speak on "Irrigation Farming — A Key to

Better Living," at the banquet. Although planned and sponsored by the Texas Inter-Industry Irrigation Council, a state organization, the meeting is drawing National attention and attendance is expected from throughout the Nation, officials said.

High Plains farmers and business men are invited to attend any or all of the conference, stressed Van Blarcom.

Jamaica means, literally, "well-watered."

Challis News

By MAE HENDERSON
NEWS Correspondent

The Women's Missionary Union met Monday in the church for a round table Bible study and discussion. Mrs. Slater led the study.

Those taking part in the study were Meses. C. S. Carroll, W. J. Henderson, Wayne Bagwell, L. P. Price, J. L. Lungford, and E. R. Slater.

Those visiting in the L. R. Bagwell home over the weekend were her brother and family, Mr. and Mrs. A. L. Stephens, of Stephenville.

Mr. and Mrs. C. S. Carroll and Mr. and Mrs. John Garner attended the funeral of Mr. J. W. Carter of Plainview Saturday.

T/Sgt. and Mrs. E. S. Henderson and boys of Hobbs, N.M., and Mr. and Mrs. Kenneth Evans and daughter, Beverly Dan, of Roswell, N.M. visited Mr. and Mrs. W. J. Henderson and other relatives and friends over the weekend.

Mrs. Edna Chisum, daughter of Mr. and Mrs. Corley, received surgery in the local hospital Monday.

Mr. and Mrs. Ernest Moore, Gerald and Carolyn of Arizona visited her parents, Mr. and Mrs. L. P. Carroll over the weekend.

Mr. and Mrs. Junior Johnson of Lubbock visited in the L. P. Price home over the weekend.

Mr. and Mrs. Wayne Bagwell and family visited recently with her parents, Mr. and Mrs. E. L. Hogg, of Lamesa.

Pastor and Mrs. Frankie Rainey were dinner guests in the E. R. Slater home Sunday.

Visiting in the home of Mr. and Mrs. M. D. Stephens Sunday were Mr. and Mrs. A. L. Stephens, Laverle, Linda and Margaret, Mrs. Tom Stephens of Stephenville, Mr. and Mrs. Diane Bearden, Mr. and Mrs. W. J. Scott, and Patsy, Mr. and Mrs. L. R. Bagwell, Billy and Bobbie Jo, Mr. and Mrs. Wayne Bagwell, Janice and Donald, Mr. and Mrs. D. Stephens and Delbertie, Mr. and Mrs. Glen Reid and children.

Those attending the family reunion in the L. P. Carroll home Sunday were D. S. Carroll, Janelda, Jackie and Don, Mr. and Mrs. C. S. Carroll, Linda and Lynn, and Mr. and Mrs. Ernest Moore and family of Fredeonia, Ariz.

The J. L. Langford family visited their son and family, Mr. and Mrs. L. V. Langford, Sunday.

Mrs. McCutcheon was hostess Tuesday to the Meadow-Challis HD Club members in the home of Mrs. L. P. Price. Mrs. Price read the devotion-

DON DUGGER CELEBRATES — Gary Don O'Briant, the honoree, Kimberley May, Stevie Harding, Paula Woods and Randy Erwin. From left in front: Sandy Erwin, Diana Webster, Brenda Sue Heathcoat and Benny Sedler. Seated in extreme front is Jackie Steele. (NEWSfoto)

Miss Brenda Beck, daughter of Mr. and Mrs. Frank Beck of 310 North Bell, was honored with a seated, personal coffee Wednesday in the home of Mrs. A. B. Pounds of 502 East Tact. Miss Beck is bride-elect of Dale Travis of 1004 East Tact.

BRIDE-ELECT OF DALE TRAVIS

Miss Brenda Beck Honored at Shower

The bride's chosen colors of blue and white were used. A white Madeira cloth covered the table. A silver candelabrum with four pale blue tapers centered with an arrangement of white carnations tied with blue ribbons formed the centerpiece.

A silver tea service was at one end of the table. At the other end were Cokes nestled in crushed ice in a crystal punch bowl. Blue napkins and a crystal plate with dainty coffee rolls completed the table arrangement.

An arrangement of white carnations with blue streamers was also beside the register.

al. Roll call was answered with each member telling "the most useful gift I ever received."

During the business meeting several plans were made for the benefit of club members.

Refreshments were served to Meses. W. J. Moss, Wanda Doak, R. D. Moore, L. C. Pettigrew, Price and Loyal Henson. The next meeting will be with Mrs. Moss on Nov. 19.

Mrs. Pounds greeted guests. Mrs. Shirley Reed poured. Miss Eileen Griffin registered the guests.

Mrs. Beck, mother of the bride-to-be, and Mrs. Virgie Travis, mother of the prospective groom, were both in attendance. Prizes for the three games directed by Mrs. Ben Monnett were a set of nested strainers, set of wooden mixing spoons and a set of canister scoops. They were presented to the honoree. She also received a hostess gift of lingerie.

Hostesses were Meses. Pounds and Monnett. About 20 attended.

Mr. and Mrs. Chapman Are Parents of a Son

Mr. and Mrs. C. W. Chapman of Millsap are the parents of a son born Nov. 4 in a Weatherford hospital. He weighed 7 pounds 8 ounces.

The Chapmans are former residents of Brownfield. She was Miss Veldene Casebeer before her marriage. Grandparents are Mr. and Mrs. A. E. Casebeer of 521 South Fourth and Mr. and Mrs. J. D. Chapman of Stephenville.

Alfalfa is native to Asia, did not reach this country until 1850.

Pool News

PRIMM DRUG GRAND Opening

Thursday — Friday — Saturday . . . Nov. 14 — 15 — 16

Brownfield's Newest and Most Modern Drug Store

C. C. PRIMM, Co-Owner — Mr. Primm is celebrating 21 years of service to Terry County. He has been a resident here since 1923, worked in a drug store until 1936 when he went into business for himself. He continued serving the people of Terry County as a druggist until fire destroyed his building and business about five months ago. . . "I want to invite everyone to come in and see our new and modern drug store during this Grand Opening," said Primm.

BONNER LYTLE, Co-Owner and Manager — Mr. Lytle is a native of Quanah, Texas, but has lived many years in Lubbock and Lorenzo, coming here from the latter. He has 22 years experience in the drug store business and has assumed the role of managing partner with Primm in this store. Mr. and Mrs. Lytle (Johannie) and two daughters, ages 7 and 10, reside at 1109 East Reppito. Lytle is a registered pharmacist and cordially invites everyone to come in and get acquainted with him during this Grand Opening.

CERTIFIED WATCHMAKER — Fred Nicholson, lifelong resident of Terry county and a certified watchmaker with 7 years experience, will once again be serving you with all your jewelry and watch repair needs. Nicholson has worked for Primm Drug 5½ years. He specializes in expert watch and jewelry repairs. Fred, along with his wife, Margie, and two daughters, ages 11 years and six weeks, live at 601 East Broadway. Fred will be more than glad to show his complete line of watches, including Hamilton, Bulova, Sutter and Universal . . . and other famous-name jewelry.

COSMETICS AND BEAUTY CONSULTANT — Mrs. H. M. (Virgie) Pyeatt, longtime resident of Terry County, is once again associated with Primm Drug. She has worked for Primm since 1942 and once again will be on hand to help the ladies in choosing the cosmetics and beauty aids best suited for their complexion. Included in the nationally advertised brands of cosmetics and beauty aids are such famous names as Max Factor, Dorothy Gray, Lenel, Revlon, Tussy, and many others. Come in and look over our complete line of beauty aids.

PRESCRIPTION DEPARTMENT — Primm Drug boasts one of the most modern and complete pharmacies in the southwest. You will find the latest drugs and compounds in stock along with the services of Bonner Lytle, registered pharmacist, to make sure your prescription is compounded exactly as your doctor orders it. We invite you to bring your prescriptions to us for the best in medicines at the most reasonable prices.

DOOR PRIZES . . .

1st Prize — 199.95 Kelvinator Electric Laundry Dryer . . . 2nd Prize — 69.95 52-Pc. Set Community Plate Silverware . . . 3rd Prize — 21.50 Sunbeam Electric Skillet. Plus many other prizes to be given away Saturday night at 7:30 . . . Be Sure to Register . . .

Come in and Register — No Purchase Necessary — You Do Not Have to Be Present to Win.

EARLY STEPS NECESSARY

'Buck Teeth' Can Be Corrected By Action

AUSTIN—Chances are one in five that your youngster is in need of a major teeth straightening job. Studies show one-fifth of the nation's children suffer from "malocclusion" or improper alignment of teeth, says Dr. Henry Holle, State health commissioner.

A generation ago, parents of young children with teeth that did not come together properly were usually advised to "let them alone and nature will correct the situation."

Today we know children will not "outgrow" it. We know it is a condition to be carefully watched so corrections can be started at the proper time by a dental specialist known as an orthodontist.

Although the public now is just becoming aware of the health significance of malocclusion, experience has taught dentists that crooked teeth contribute to decay, faulty speech and malnutrition.

One of the worst results of malocclusion is the psychological stress borne by the child who is singled out for ridicule because of "buck teeth."

A child with facial deformities such as those caused by misshapen teeth may develop traits of indecision and begin

to doubt his ability to cope with problems in his environment, say psychiatrists.

What causes teeth to erupt irregularly? Dentists agree that heredity is probably one important cause. Another is persistent thumbsucking and abnormal pressures against the jaw. Living bone, contrary to popular thought, is not hard and unyielding. The entire jaw structure can be molded by gentle, persistent pressure.

In the case of thumbsucking, dentists believe that if the habit can be broken before age 5, there is a good chance the teeth may return to normal position without harmful effects.

Another cause of malocclusion is prolonged retention of primary or "baby" teeth. Permanent teeth that follow are then prevented from arranging themselves properly.

On the other hand, when primary teeth are lost too early, adjoining teeth may tend to tip and "migrate," crowding into spaces where permanent teeth erupt normally.

There are different methods of bringing teeth into proper alignment. Sometimes it may be necessary to extract teeth to make room. In some cases

Christmas Coffee Is Scheduled on Dec. 6 By Study Club Here

Junior Woman's Study Club met Monday afternoon in Selma Jane Brownfield Clubhouse with Mrs. Bill Blakenship, president, presiding.

The finance committee gave a report of the last rummage sale and announced another for Saturday. Date for the annual Christmas coffee was set for Dec. 6. Mrs. Buddy Orr led the program.

Centerpiece for the table was a "horn of plenty" filled with fruits. Ducks on the piano and other hunting scenes completed the decoration arrangement. Mrs. E. B. McBurnett Jr., hostess, served hot apple cider and apple sauce cake.

Members attending were Mrs. Blankenship, Orr, Harley Rodgers, L. G. Moore, Alton Martin, Leo Wenzel and McBurnett.

Clinical Conference Is Set at Houston Nov. 14

The University of Texas M. D. Anderson Hospital and Tumor Institute and Postgraduate School of Medicine will sponsor a clinical conference on melanoma November 13 at the Texas Medical Center here.

Melanoma is a type of tumor.

The M. D. Anderson Hospital and Tumor Institute also is sponsor, with the New York Zoological Society, of the fourth conference on the biology of normal and atypical pigment cell growth. That conference will be held here November 14-16.

a plastic or wire appliance may be fitted to the teeth to guide them into position by pressure.

Dentists can only estimate how long orthodontic treatments will take, depending on the age of the patient and the extent of the deformity.

But there is no question about this point: the sooner professional attention is given to the condition the better the youngster's chance of avoiding the fate of a "buck tooth."

DISCUSS STADIUM PLANS—DeWitt Weaver, athletic director, shows Charles E. Maedgen Jr., stadium expansion program organized to finance the \$1,700,000 venture.

Fort Worth Rodeo Has Top Producers

The 1958 Southwestern Exposition and Fat Stock Show rodeo will be produced by two of the nation's top men in the hooves-n'-horns circuit.

Verne Elliott, who for more than 30 years has put on the Fort Worth rodeo, will work with a new partner, Harry Knight of Fowler, Colo., to produce the 1958 show Jan. 24 through Feb. 2.

Elliott, who lives in Platteville, Colo., recently bought a quarter interest in the Cremer Rodeo Company, which is owned by Knight and Gene Autry, Western movie and television star.

Knight, once a champion rodeo bronc rider, and Autry purchased the famed Cremer rodeo stock several years ago.

In addition to the Fort Worth Show, the Cremer Company was signed to produce the annual Madison Square Garden Rodeo in New York, the Boston Gardens Rodeo in Boston and the International Exposition rodeo at Chicago this year.

The Fort Worth rodeo will feature Annie Oakley, the singing, riding and shooting heroine of television.

Prince Albert, consort of Britain's Queen Victoria, died of typhoid fever in 1861.

Atmosphere surrounding the oxygen, 79 per cent nitrogen.

Texas Egg Law To Go Into Effect in February

The New Texas Egg Law which goes into effect late in February, will seek to check misleading advertising on cartons and containers.

A nine member board of directors was appointed by Governor Price Daniel to formulate and administer the rules and regulations of the law. At the board's first meeting in Austin recently, one of the first concerns was to protect the consumer from confusing claims on egg cartons in the market place.

Under the law, all egg cartons must be plainly labeled as to grade of the egg, or the word "ungraded" must be clearly visible. In addition, no misleading claims such as "fresh" or similar wording can be printed on cartons containing eggs below the grade A.

The board contends that certain types of descriptive advertising on the carton can make the customer think the eggs are something more than they actually are.

The board members do not intend to hamstring commerce by unfair prohibitive measures, but the consensus of the nine men was that a line should be drawn between harmless descriptive phrases and outright misleading wordage on the package.

The result was that a resolution was passed which gives the board the right to approve or disapprove cartons in which eggs are sold. This measure is aimed at protecting the consumer and the producer. The buyer will not be distracted by fancy claims on the package and the producer will be protected from unfair competition.

Egg packers and carton manufacturers are invited to submit their packages to the board for approval if they feel some inspection may be necessary.

Cartons should be sent to: Texas Department of Agricultural, Capitol Station, Austin, Texas. The board will meet once a month to consider current business matters and approve or disapprove carton designs.

Members of the board are: Tom Booth of San Antonio; F. F. Seiber of Burton; Dewey Stringer of Houston; D. W. Reneau of Seguin; George Belk Jr., of Robstown; T. D. Craddock of Hamilton; Frank Ehrlich of Childress; Marvin Gilbreath, of Weimar, and Jim W. Whitaker of Paris.

Carnegie Class Gives Award To 2 Members

The Brownfield Dale Carnegie Class BH-1 met Monday at 6:30 p.m. at The Party House.

Each member demonstrated an activity in his talk. Receiving award as best speaker was Ina Sexton. Most improved went to Mary James and greatest achievement went to Claude Merritt.

Guests were Charles Whitson of Lubbock and Joe Satterwhite. About 50 attended.

Prize Lists Mailed By Fat Stock Show

More than 5,000 livestock premium lists for the 1958 Southwestern Exposition and Fat Stock Show are being mailed to livestock exhibitors throughout the nation, potential exhibitors and other interested persons.

The Fort Worth show will offer \$188,374 in prize money for entries in the livestock division, the horse show and the rodeo. Premium lists for the horse show will be mailed at a later date.

The Southwestern exposition will be held Jan. 24 through Feb. 2. Persons interested in obtaining a premium list or entry blanks may write the Stock Show at P.O. Box 150, Fort Worth 1, Texas.

Deadline for cattle, sheep and swine entries in the livestock judging is Dec. 15. Horse may be entered until Jan. 1.

Quarter Horse Sale Set To End Fat Stock Show

About 100 Quarter horses will be auctioned off Feb. 2 during the second annual sale of the 1958 Southwestern Exposition and Fat Stock Show.

The sale is under sponsorship of the National Cutting Horse Association and is approved by the American Quarter Horse Association. All entries, stallions, mares and geldings, will be foals of 1954 through 1957.

All animals will be sold at

Cotton Growers To Produce More Seed

Texas cotton growers have some 183,000 tons more cottonseed to sell this year than they did in 1956. University of Texas Cotton Economic Research scientists report.

The report, based on October crop conditions, predicted the increase for the 1957-58 season would remain steady. "If conditions for the rest of the season"

alter (with no performance demonstrations), Walter Britten will be auctioneer. The sale is scheduled at 3 p.m. on the last day of the stock show, which opens Jan. 24 and continues through Feb. 2.

remain unchanged.

Seed available for sale in the High Plains country will be about 74,000 tons greater than in 1956-57. A 94,000-ton increase was noted in the Rolling Plains; a 44,000-ton rise in the Blacklands; a 4,000-ton increase in East Texas, 5,000 more tons in the Gulf Coast and Interior Coastal Plains, and 3,000 more tons in the El Paso and Pecos country.

Only decrease in cottonseed for sale is predicted for the Lower Rio Grande Valley and adjacent areas. This section's cottonseed production will be about 51,000 tons less than in the 1956-57 season.

First commercial advertising was done orally or with pictures because writing had not yet been developed.

The 4-H Picture

By **BOB ETHEREDGE**
Assistant County Agent

Terry County 4-H Council met Saturday to discuss several Christmas parties and the annual Achievement Awards program.

The group determined that Dec. 10 would be date of the Christmas party for all 4-H boys and girls of 12 years and younger. Those of 13 years and older will attend a Yuletide party on Dec. 17.

New council members are Stanley Farrar and Diann George of Brownfield Junior High School club, Fred Sedgwick and Sherry Hulise of Wellman, Bennie Spain and Kenneth McDouglas of Meadow, Diane Montgomery and Lynn Dill of Union, Linda Henson and Pete Green of Terry County Joint Club, Carol Stewart and Jimmy Murphy of Jessie G. Randal club, Dane Clare of Colonial Heights, Jan Holder and Doug Crabtree of West Ward fourth grade, and Janie Davis and Mike Cummings of West Ward fifth grade.

The Achievement Awards program probably will be held in January, the council said.

Purpose of the council is to give each club in Terry representation in the 4-H activities which take place throughout the county. Council delegates represent more than 400 boys and girls who are active in the club work.

Plans have been made to write a 4-H "oculum" in the Thursday edition of the NEWS each week concerning 4-H activities on a countywide basis.

Socialized Medicine and Heart Topics of Meeting

The socialized medicine question and new treatments for heart disease will be two major topics to be discussed at the University of Texas sixth annual Pharmacy Refresher Course Nov. 15-16.

Texas pharmacists will gather to review latest developments in diuretics, marketing trends, and the interprofessional relationships of doctors and pharmacists.

Marco Polo was first to call Japan the Land of the Rising Sun.

PAYS DUES — Warren G. Moore, right, commander of Texas Department of American Legion, presents a card to Gov. Price Daniel indicating 10 years' continuous membership in the Legion. Gov. Daniel paid Comdr. Moore his 1958 dues in cooperation with the annual membership campaign which ended Monday.

Texas Hill Country Now Turkey Haven

Turkey hunters may be headed for good shooting in the near future on the Edwards Plateau.

With the end of six years of drought and many years of unwise land use, wild turkeys at last are increasing their flocks, according to the November issue of Texas Game and Fish, the official magazine of the Game and Fish Commission.

In "Something to Gobble About", by Jack Thomas and Houston Green, biologists, the comeback of Texas' largest game bird is explained.

Until this year, there had been a steady downward trend of the turkey population on the Plateau since 1938. The heavy spring rains developed not only feed but also foliage the turkeys needed for protection from predators. Suitable weather during nesting season also contributed to the turkey increase.

Unwise cedar clearing, which destroyed one of the favored feeds of turkeys, has been curtailed to some extent by better public understanding of the harm being done to the turkey population.

In mid-July a report on percentage increase in turkey populations in the Plateau counties showed Bandera County leading with a 378.3 per cent increase. Kerr County had a 203.7 per cent increase; Edwards County, 84.9 per cent, and Medina County, 35.9 per cent.

Church Auditorium To Be Dedicated on Sunday

Brownie Troop 9 met Monday afternoon in the parlor of First Methodist Church to make plans for Christmas.

Mrs. Paul Blackstock served refreshments to Linda Leach, Carolyn Jones, Sheryl Powell, Jamie Rodgers, Carole Cates, Margaret Blackstock, Vernay Landers, Jane Weiss, Lynda Reece and Vickey Walker.

Mr. and Mrs. Harold Linville of Route 3 spent the weekend as houseguests of Mr. and Mrs. Leebert Thomason of Farmington, N.M.

Freedom of the Press, Here and Now

Everywhere that a tyrant's heel has ground most brutally, there has sprung up an "underground" movement. And its heart always is a printing press. For the urge that dwells deep in a freedom-loving people to know the truth is hard to kill. In fact it cannot be killed — not even by the best-organized despotism in history.

The many stories of underground presses that have come down through the ages of trial and error by many dictators is an inspiration to the men and women of America's press.

We know that the truth can actually be printed and circulated under the very heel of a tyrant's boot. But a far better way of keeping people informed is through their own free press which operates not in some dark cellar, but on main street, right next door to the grocer, the postoffice, the drug store. ** To preserve that freedom is the first obligation of the American people and the American Press. It is our only hope of maintaining our other cherished freedoms.

1716 SAN ANTONIO STREET... GREENWOOD 7-2023... AUSTIN, TEXAS

**NEW
58 FORD**

Proved and approved around the world!

Now At Portwood Motor Co.

The whole wide world was its test track! Yes, the 58 Ford is the car that circled the world and conquered every conceivable kind of driving condition from mountain snow to desert sand to monsoon mud. This is graphic proof of the stamina and dependability and driveability that are yours in the 58 Ford!

And what about Ford's style for 58? Well, the French summed it up in one word — "magnifique!" From Honeycombed grille to Safety-Twin taillights the 58 Ford is a steel-sculptured beauty that'll win your heart like it won hearts around the world.

Power? Ford's got it aplenty! And it's economical power, too. Three brand-

new Interceptor V-8's feature Precision Fuel Induction to squeeze the utmost from today's modern fuels. Team an Interceptor powerhouse with Ford's versatile, all-new Cruise-O-Matic Drive and you can have savings of up to 15% on gasoline.

And there's so much more that's new in the 58 Ford... Magic-Circle steering, for example, to make your steering feather-easy... and optional Ford-Aire Suspension for the newest in a true air ride to really cushion road shock — give you the best ride ever!

But don't just take our word for it. Come in and see and try the 58 Ford. Do it today!

IN BROWNWOOD CEREMONY

Rachel Laureles Weds

Miss Rachel Laureles and P. C. Garcia were united in marriage Sunday, Oct. 27 at 2 p.m. in the sanctuary of First Baptist Church of Brady.

Professor J. Rivas of Brownwood and Howard-Payne College read the marriage vows.

NOW IN LUBBOCK — Pictured above is Don Bonnett, former Brownfield resident who now lives in Lubbock. While here for the past two years, Bennett was agent for Metropolitan Life Insurance Company. He now is the company's assistant manager in the Lubbock office, and only recently returned from New York City, where he attended a three-week course sponsored by the firm. While here, Bennett, his wife, Elaine, and daughter, Regina, 4½ lived at 1208 North Atkins. They attended First Methodist Church. (NEWS-photo)

The Rev. Daniel Castro of Mason pronounced the marriage exhortation. The Rev. R. Sanches of Brady worded the benediction.

Traditional wedding music was played by David Groves at the organ and Miss Mary Helen Trevino of San Antonio at the piano. Domingo Regalado from Socorro, N.M., sang "Because" to begin the ceremony and the "Lord's Prayer" as the benediction hymn.

Miss Laureles is the daughter of Mr. and Mrs. John Laureles of Brady. The groom is the son of Mr. and Mrs. Cuellar Garcia of Brownfield.

The wedding reception was held at the home of the bride. Miss Hope Reyes was in charge of the bride's book. Out-of-town guests included Professor and Mrs. Rivas, Miss Teresa Martinez of Coleman and Pablo Bermudez of Cuba.

The couple will make their home in Brownfield.

Teddy Joe Hardys Are New Parents in Abilene

Mr. and Mrs. Teddy Joe Hardy are parents of a son, Teddy Joe Jr., born in Abilene Saturday at 8 p.m. and weighing 6 pounds 15 ounces. Teddy Joe Sr. is attending Hardin-Simmons.

Mr. and Mrs. Ted Hardy of 414 East Buckley are the paternal grandparents. Mrs. Hardy returned from Abilene Monday after a week's visit.

Jamestown, Va., was originally built on a peninsula which has since become an island.

Columbia's Zany 'Operation Mad Ball' Has Three-Day Run At Regal Theatre

Columbia pictures' zany "Operation Mad Ball," hilarious G. I. story filmed entirely off limits, will be shown today, Friday and Saturday at the Regal Theatre. Stars are Jack Lemmon, who garnered an Academy Award for his Ensign Pulver role in "Mr. Robert"; television's highly original and imaginative comedian, Ernie Kovacs, in his motion picture debut; Kathryn Grant, Arthur O'Connell, Rosalind Russell's reluctant lover in "Picnic"; and the irrepressible Mickey Rooney.

"Operation Mad Ball" is set in France, shortly after the war's end. It's the story of an attempt by Lemmon, and his

Good Diet Important During Cold Months

Sensible eating during the virus-filled winter months is one of the practical ways to help ward off colds and other ailments. Naturally illness itself calls for a physician's aid, but doctors are among the first to advocate high nutritional standards as a preventive measure.

This means serving plenty of milk, fruits and vegetables, whole grain products, and meats.

Be sure the children receive their daily quota of a quart of milk and that adults drink three glasses daily, they say. Part of this, of course, may be used in cooking.

When meat or fish is not on the menu, try to include eggs and cheese as a protein substitute.

GI cohorts to promote a big winging with the Army nurse before they are separated.

Since the nurses are office, and regulations forbid enlistment and officers to fraternize, Lemmon is put to considerable ingenuity in carrying out his out-thrust project. Before he finished, he has involved fellow GI's the Army nurses, and German prisoners of war and French civilians in his increasingly complicated stagemans.

Stumbling block in the way of his Master Plan is his outfit's adjutant, a stuffy, regulations-bound officer who is Lemmon's rival for the same delectable Army nurse. Kovacs makes a delightful motion picture bow as the martinet officer who is continuously outwitted by Lemmon, and his fellows; Kathryn Grant is the beautiful nurse.

Arthur O'Connell plays the commanding officer who detects his adjutant and Mickey Rooney is seen as the master sergeant in charge of transportation who routes a bewildered general around with casual ease, in order to insure that he, at least, doesn't interfere with "Operation Mad Ball."

Cadillac
PROUDLY PRESENTS FOR 1958

MOTORDOM'S MASTERPIECE!

An entirely new Cadillac classic in styling, luxury and performance!

Seldom in Cadillac history has there been an announcement as significant as the message you are now reading.

For this is the announcement that introduces the finest motor car ever to bear the celebrated Cadillac name.

Certainly, one glance at its extraordinary grace and symmetry will tell you instantly that it is motordom's masterpiece in styling.

Its new sweep and stature, its remarkable new rear fender design, its dazzling new grille and four-headlamp system, and its tasteful use of chrome and color . . . all mark it as a singularly beautiful and majestic creation.

Surely, one look at its new Fleetwood coachcrafting will

convince you that this is motordom's masterpiece in luxury.

There are exciting new fabrics and leathers . . . wondrous new beauty of appointments . . . and a whole host of new passenger conveniences.

And, unquestionably, a single journey behind the wheel will reveal why this is motordom's masterpiece in performance.

There is a spectacular new high-performance engine . . . an even smoother, more responsive transmission . . . and, as an option at extra cost, the marvel of Cadillac air suspension.

It's all new—it's all wonderful—and it's all waiting for you today in our showroom.

We urge you to see and drive the 1958 Cadillac soon.

Union Takes District Crown; Final Game Set Friday

Mobeetie Will Be Bi-District Foe

With the 2-B Six-Man title sacked up, the Union Wildcats travel to Bula for the final district encounter with the Bulldogs at 7:30 p.m. Friday. Bula was dropped from contention last week when they absorbed their second district defeat.

Bula, the defending champion, was rated as likely to claim the title again this year until injuries and illness depleted the squad.

Union Stronger
Meanwhile, Union, playing their second year in the district, became stronger as evidenced by statistics released this week.

Led by Wylie Kay and Alfred Newsom, the 'Cats have run roughshod over eight opponents for 3,122 yards and 372 points while allowing only 1,350 yards and 122 points.

Though Kay and Newsom were the major ball-carriers and scorers, Coach Kenneth Sams utilized his reserves often and got good results in most instances.

Normally a ground team, Union also passed occasionally. With Newsom and Kay doing most of the throwing, the Wild cats completed 25 of 49 passing attempts for 349 yards and a 51 per cent average.

BOLD NEW PONTIAC

BOLDEST ADVANCE IN 50 YEARS!

The Golden Jubilee Car
MAKE IT A SPECIAL POINT TO SEE THIS ONE!

The best ideas of the industry's hottest engineering team went into this Golden Jubilee Pontiac . . . newly created from the frame up to celebrate the 50th Anniversary of Pontiac and General Motors. The revolutionary advancements you see here mark a decisive break with the past . . . and conventional car design. Why not be among the first to drive the bold new Pontiac and discover a brilliant prophecy of the next big change in cars!

Circles-of-Steel SAFETY

Pontiac's completely new body construction surrounds you and your passengers with girder steel protection—above, below, fore and aft. You drive with wonderful new peace of mind!

Aero-Frame STABILITY

Here is the biggest basic construction change since the early days of motoring. Pontiac's revolutionary new frame design is lighter, stronger, more stable than the conventional box type used on other cars.

Quadra-Poise ROADABILITY

Lean back and relax—only the wheels know where the bumps are! Pontiac's new chassis geometry ends dive, sway and bounce to bring you the smoothest ride, easiest handling you've ever known!

Ever-Level Atr Ride*

The most perfect suspension system ever designed—and Pontiac's revolutionary Aero-Frame is specifically designed for it! Air cushions on all four wheels literally float you over the bumps . . . keep the car perfectly level regardless of load or road!

Tempest 395 PERFORMANCE

Try the jeweled-action response of Pontiac's brand-new engine! Scores of exclusive engineering innovations make this hefty power plant a miracle of smoothness . . . choose from four horsepower ratings—including Tri-Power Carburetion* and Fuel Injection*.

New Direction STYLING

Here's a fresh new look in automobile styling—and only Pontiac has it! From classic grille to bold rear end, Pontiac makes a decisive break with the fads and frills! Despite its 4 1/4 inch lower silhouette, there's more room inside than ever!

NEWS Sports Editor

UNION SALUTE . . .
Of Huddle and Terry County salutes the Union Wildcats this week. They took their district without much trouble (clinching it last week) and tackle the defending champions Friday in the season windup.

The 'Cats will tackle Mobeetie in Bi-District the week of the 17th. Though a definite site has not been picked at this writing, Coach Kenneth Sams is attempting to entice the Panther lads to come down here to play the game in Cub Stadium either the night of the 21st or the following Saturday afternoon.

The size of the crowd will go a long way toward settling whether they come or not. We hope they will come here because we think Terry's sports fans will enjoy the tilt.

We go on record to say fans probably will like six-man football more than 11-man because it is wide-open and gives the spectator a chance to see where every play is going. If the tilt is scheduled here, we urge everyone to attend. These youngsters have done a bang-up good job in representing the county this year. Let's make it a big crowd.

To give you an insight into what they have accomplished, the NEWS is publishing the statistical record for the first eight games played by the Wildcats.

ANDREWS HERE . . .
The Andrews Mustangs will be in town Friday to flex their sometimes strong, sometimes impotent muscles.

Though picked to run away with the district and state AAA laurels in early season ratings, the Mustangs have shown little with the exception of last week's Ector victory.

We aren't kidding ourselves, the Ponies are tough. This game means life or death to them, as well as the Cubs, if they are to have a chance at the crown. They will be fighting to keep that slim chance alive.

However, the Cubs have even more to lose should they let the Ponies get away from them. If the Cubs win, they would have a clear shot at the title when they meet Kermit next week. If they lose, the best for which they can hope is a tie should they upset Kermit.

We don't think Andrews has met a line as tough as Brownfield since early season—if the Cubs continue to play the way they have the last few games. To win, it will take a combination of good offense and defense like the Cubs displayed last week against Monahans. Here's hoping.

ERRATA . . .
A review of the films taken Friday disclosed that of Huddle has pulled another Boo-Boo. The first TD we credited to Rabbit Wright actually should have been given to the running terror, Mike Browning. We are sorry to have goofed and we hope the record is straight.

It also was brought to our attention that Spade, who play-

ed Wellman Friday, is not the Bulldogs. Our information source said they actually are the Longhorns. Some days you just can't win!

HUDDLE'S HUNCHES . . .
One place we did win, however, was on last week's predictions—if you will pardon us patting ourselves on the back. We hit a perfect seven for seven though we would have liked to see Wellman and Tech make us wrong.

Our predictions, with actual scores in parenthesis, went like this: Brownfield over Monahans, 20-13 (22-0), Andrews over Ector, 26-13 (48-0), Kermit over Pecos, 33-12 (20-14), Meadow over Wilson, 20-14 (32-21), Union over Pettit, 26-13 (48-13), Spade over Wellman, 28-12 (36-12) and Tulsa over Tech, 13-7 (3-0).

We under-rated most of the winners' scoring punch but did hit several of the loser's scores. Guess that it is better than missing completely — especially the winning team.

The perfect record brought the season's total up to .745 for the season—almost respectable in most parts. We hope to improve on it again this week. Here we go.

Brownfield over Andrews, 14-12. Though the Cubs are rated solidly as the underdog in most circles, we are picking this for the week's upset.

Kermit over Ector, 34-13. This could go higher if the Yellow-Jackets want to try to heat Andrew's record.

Pecos over Monahans, 21-18. This should be a toss-up but we will go along with the Eagles in comparing the two teams' showing here.

Meadow over New Home, 23-14. A loss here would knock out all chances for the Broncos' title dreams. Whiteface will have to be upset to make the dream a reality.

Union over Bula, 34-19. If this game is any closer, it will be because Coach Sams will be trying to rest his regulars and have his reserves more experience. A tune-up for bi-district.

Snayer over Wellman, 36-13. Another battle of cellar-dwellers. This will be the 'Cats' last chance to claim another win.

H-SU over Tech, 34-20. If the Raiders could not take Tulsa, we don't think they can do it to Simmons. We think it will be too much Ford this time.

Tax Man Sam Sez:

A lot of folks who work at one place and live at another have trouble with Internal Revenue over where their home is. A man who has voted in Wise County during all of his adult 30 years is rather surprised to find out that his tax home is in Fort Worth when he has a full-time permanent job in Fort Worth.

Generally speaking, for tax paying purposes, and especially for computing travel expense, your tax home is where you work not where Mom and the kids stay.

Football Review To Feature Matty Bell

Matty Bell, SMU director of athletics, recalls outstanding moments in his 35-year football career on Channel 13 at 7:30 Tuesday on The Humble Company's Football Review.

Other features on the same program show the fundamentals of the split T and option and how coaches use movies to

prepare for football games. The program's regular football highlights described by Kern Tips will be taken from the Texas A&M-Rice, Arkansas-SMU, Texas-TCU and Texas Tech-Hardin-Simmons games.

The Tech-HSU tilt will be broadcast from Lubbock on

Testimonial Dinner Is Slated for Sen. Johnson

Senator Lyndon B. Johnson, democratic majority leader, will be honored at Houston Dec. 4 with a testimonial dinner which is expected to attract 1,000 friends of the Senator, together with state, national and local dignitaries.

A committee, headed by J. S. Abercrombie, independent oil operator, and Jesse Andrews, Houston attorney, has been formed to plan the event.

"To give all of Senator Johnson's friends the opportunity to attend, tickets are being made available on a 'first-come - first-served' basis, at \$7.50 per plate," said Abercrombie.

Dinner tickets have gone on sale and are available by writing 3401 South Main street, Houston.

The committee is planning the event as a non-partisan expression of appreciation to Senator Johnson for the work he has done on behalf of the State of Texas and the nation.

"The committee feels that this testimonial dinner will afford an opportunity to express, in a small way, the people's gratitude for Senator Johnson's service," said Abercrombie. Detailed plans for the dinner, which will be held in the Rice Hotel Crystal ballroom, are being worked out now, according to Andrews.

"We are hopeful that it will be an evening long-remembered by all who attend and a truly-memorable occasion for Senator Johnson."

Saturday, starting at 1:45 p.m. Bob Walker and Eddie Hill will give the play-by-play over Lubbock's KFYO and KTFY here.

The Senator has served in Congress since 1937 and was elected Senator in 1948.

In the 1954 Senate he became Majority Leader, the youngest man ever to hold this key position. Throughout his 20-year Washington career, Senator Johnson has served on an Armed Forces committee of either the House or the Senate, and is recognized as one of the senior authorities on national defense matters.

He is a native of Johnson City.

Permits Issued For Hunting Antlerless Deer West of Pecos

Surplus deer harvest agreements have been signed on four ranches west of the Pecos, for the taking of antlerless deer this season, according to the assistant director of wildlife restoration.

There will be 80 permits from these four ranches, but several other ranches are also expected to sign up before the season opens Nov. 20. The hunt is for the regular season, Nov. 20-27 inclusive.

Ranchers signing are Mrs. E. A. Mueller, Fort Davis, 15 permits on 14,800 acres in Jeff Davis County; T. A. Beard, Box 569, Alpine, 20 deer of 2,456 acres in Culberson County; C. E. Miller, Box 524, Fort Davis, 25 deer on 32,000 acres in Jeff Davis and Presidio Counties; C. F. Cox, Box 135, Sanderson, 20 deer from 20,000 acres in Brewster County.

Hunting of these antlerless deer is authorized under regulatory authority, where there is a surplus of deer on the range. Ranch owners have agreed to the hunt to balance the herds, according to P. B. Uzzell, game commission biologist at Alpine.

Applications should be made direct to the ranchers. They are authorized to issue the permits, as approved by the commission. Ranchers will set their own charges for hunting on the land.

Some moisture continues to fall in the Trans-Pecos area, but cool weather prevents much growth in vegetation, according to the biologist.

Sp/3 Bobby A. Norman of Fort Bliss is a visitor in the home of Mr. and Mrs. John Badgwell, 1003 East Hester. Norman, a brother of Mrs. Badgwell, has recently returned from Bordeaux, France, where he has been stationed for the past two years.

Java is one of the most densely populated countries in the world.

590 Hunters Named To Receive Permits

Notices are being mailed to 590 lucky hunters whose names were drawn last week for participation in three public hunts, according to the Assistant Director of Wildlife Restoration of the Game and Fish Commission.

There were 7,782 applicants for these permits.

Notices going out will contain information as to the area to be hunted and the day the permit is valid. They are being processed as fast as possible.

Alencon, city in southern France, is famed for the manufacture of beautiful laces and embroidery work.

Notices also will be sent to all who mailed in applications.

GMC Money-Makers available in models from 1/2 to 45 tons

It's here and you're invited! Come take your

First look at a smart performer

TODAY we're proudly displaying the 1958 GMC Money-Maker. And we think you'll find it the handsomest hustler you ever handled.

An eager 200 horsepower swings a top load like a cargo of feathers. Turning ease is like power steering's.

A fast-ratio cruising axle gives you an overdrive's road pace and gas savings. Foam-rubber seats cradle you in a roomy cab. Boulevard styling carries out the feeling of luxury.

But this beauty is built like a pocket battleship. You'll see that in its massive spring hangers. In rear springs with the highest deflection rate of all light-duties.

You can sit solidly on an unhooked end of its tail gate—and you can't crinkle the roof or door panels with a smack of your hand.

You'll get the same quality instrument panel as on the big, \$10,000 GMC heavy-

duties. A radiator mounted on a bulkhead integral with the frame. A steering column, braced like a mast.

These and more tell the inside story of GMC stamina. Come in and see for yourself. Why not do it today?

THE SOLID LOOK—Beautiful but rugged, GMC's full family of fine trucks also includes Truck Air Suspension models, Super Tandems and America's No. 1 Diesel. From a half-ton to 45 tons, every GMC is a Money-Maker!

ONE FALSE MOVE, AND YOU LOSE FACE FOR ETERNITY, LITTLE ONE! ARE YOU THE ONE WHO PUT THIS EGG ON MY HEAD?

DON'T DO ANYTHING RASH, FLY-BOY, OR YOU'LL LOSE YOUR ONLY MEANS FOR ESCAPE FROM NORTH KOREA!

YOU SPEAK ENOUGH!

I'M NO SQUARE, BUDDY. I GOT MY TRAINING WITH INTELLIGENCE DURING THE WAR! MEET HO CHUNG, ROK COUNTER-SPY!

OKAY, HO CHUNG, THESE LOOK LIKE THE MCCOY! SO WHY DID YOU DROP ME IN THE FIELD?

TO SAVE YOU FROM YOURSELF! I COULDN'T KEEP YOUR GIRL FRIEND FROM BEING CAPTURED! SO I TOOK SECOND BEST... YOU!

SO AFTER YOU KNOCKED ME OUT, HO CHUNG, KITTY WAS CAPTURED?

CHECK! I DRAGGED YOU INTO THE BUSHES AND WATCHED. SHE WAS TAKEN AWAY IN GENERAL TAI FEI'S CAR, UNHARMED! I HID YOU IN THE ATTIC...

... AND SENT TROOPS ON WILD-GOOSE CHASE! SEE, EVEN NOW THEY TAKE AWAY MISS HAWKES' PLANE!

BUT WHERE HAVE THEY TAKEN KITTY? WHAT WILL THEY DO WITH HER...?

MOST LIKELY SHE IS PRISONER AT MERRYBAY HEADQUARTERS OF GENERAL TAI FEI'S PLANE... THAT I MUST FIND OUT!

BUT, HO CHUNG, IF KITTY IS BEING HELD IN THE GENERAL'S HEADQUARTERS, HOW CAN YOU GET ANYWHERE NEAR IT?

AH, SINCE THE WAR I HAVE BUILT UP PROFITABLE BUSINESS IN KRASING DUCKS! BIG-BRASS MOST FOND OF FRESH DUCK EGGS! CATCH, JOHNNY?

A SHORT TIME LATER...

FARMER CHUNG MOST GENEROUS TO LOW-RANKING SERVS! YOU ARE ALWAYS WELCOME, COMRADE!

YOU ARE INDEED MORE WORTHY THAN THOSE WHO BUY MY DUCK EGGS, COMRADE!

MEANWHILE IN GENERAL TAI FEI'S OFFICE...

HAVE THE PRISONER, MISS HAWKES, BROUGHT IN!

HE! THERE'S A GOOD-LOOKING GUY WITH NO DATE!

HO, BOY!

HOLD IT, MAC! I SAW HER FIRST!

OH, YEAH! I SAW HER FIRST!

BUT I'LL ADMIT YOU SAW HER BETTER!

DID THE MEN PAY ATTENTION TO THE LECTURE ON INTERNATIONAL TENSION THIS MORNING?

I'LL GO SEE, SIR.

BUT THE LECTURE WAS OVER TWO HOURS AGO!

I KNOW, SIR. LET'S GO TO THE BARZACKS AND PEEK IN.

YES, SIR, THEY PAID ATTENTION.

BOY, THIS IS A ROUGH PLACE!

YOU'D BETTER WATCH YOUR HAT AND COAT! TRY TO HOLD ON TO YOUR HAT AND COAT!

YEAH! I'M NOT GOING TO TAKE MY EYES OFF THEM ONE SECOND!

BROWNFIELD, TEXAS

CUBS ON THE MOVE — Brownfield's offense worked like a well-oiled machine throughout most of Friday's tilt with Monahans, which the Cubs won handily, 22-0. In the right photo, Little Mike Browning looks for an opening on the first period

slant off tackle. T. O. McAuley provides the opposition here after Browning shook off one tackler (On ground). In the left photo, Ellis Cox (with ball) gains good yardage around right end early in the final period with the aid of a solid block

by an unidentified Cub. Cox picked up about 19 yards on this sweep. (NEWSfoto)

LOOSE BALL — Mont Muldrow (27) dashed Ellis Cox (top of the pile). Big Johnny Jones in to save the ball for the Cubs on this play (51) is coming up at right to lend a hand, when the pigskin was jarred from the grasp of (NEWSfoto)

TROUBLE COMING — Ellis Cox appears headed for trouble as a swarm of Monahans Loboes converge to stop him on this end sweep. Leon Hinson (48) tries to clear the way but was about a step too late. The Cubs won, 22-0, Friday before about 2,500 chilled homecoming fans. (NEWSfoto)

Duck Population Jumps In the Red River Valley

Many more ducks have moved into the Red River Valley, particularly in the Fannin-Lamar County area, according to the wildlife biologists of the Game and Fish Commission.

Opening season in the area was disappointing to most of the hunters. Cool, rainy weather since, however, has changed the situation. Jake Blocker,

old-time hunter of Paris, says that many more ducks have moved into the area. Blocker said he recently saw about as many waterfowl in the old river lakes as he has seen in the past 25 years. He reported that both mallards and teal are in the flocks.

Queen Isabella, Columbus' sponsor, always insisted her name be beside her husband's on public proclamations.

JOHN DEERE TRACTORS Set 6 New Power and Economy Records
In Official Nebraska Tests...

720 SERIES—Tremendous 5-plow capacity (58-plus h.p.) with outstanding fuel economy and general-purpose tractor versatility. Gasoline, LP-Gas, or Diesel engine; general-purpose and standard models.

620 SERIES—Husky 4-plow power (48-plus h.p.) to whip tough jobs, to handle heavy loads and save time. Gasoline or LP-Gas engine; standard and general-purpose models.

520 SERIES—Full 3-plow power (38-plus h.p.) that ranks up with many larger tractors in work output, with many smaller tractors in first cost and operating economy. Gasoline or LP-Gas engine.

Never before in the history of the Nebraska Tractor Tests has any group of tractors set so many new records for power and economy as the new John Deere "520's," "620's," and "720's."

1 The "720" Gasoline, LP-Gas, and Diesel Models broke the horsepower record to become the most powerful row-crop tractors ever tested.

2 The "520" Gasoline Model developed more horsepower hours per gallon of fuel on the drawbar than any other gasoline tractor tested except the new "620."

3 The "520" LP-Gas Model set a new economy record, developing more horsepower hours per gallon of fuel on the drawbar than any other LP-Gas tractor ever tested.

4 The "620" Row-Crop Gasoline Model set a new economy record, developing more horsepower hours per gallon of fuel on the drawbar than any other gasoline tractor ever tested. Same engine available in "620" Standard.

5 The "620" Row-Crop LP-Gas Model developed more horsepower hours per gallon of fuel on the drawbar than any other LP-Gas tractor ever tested except the new "520." Same engine available in "620" Standard.

6 The "720" Row-Crop Diesel Model set a new all-time tractor fuel-economy record, the fourth John Deere Diesel to hold this record in unbroken succession since 1949. Same engine available in "720" Standard.

*See level (calculated) maximum horsepower based on 100% and 20.92 in. dia.
