## Verdict Against Harrison

BY NATIONALLY KNOWN NEWS REEL PHOTOGRAPHER

### 'Our Home Town' To Be Filmed

The story of Brownfield in moving pictures entitled, "Our Home Town, Brownfield," currently is being filmed.

The coveted News Photographers Award was given to Graham for his 1947 filming of the Texas City disaster.

He has made about 200 "Our Home Town" films throughout Texas, all through the cooperation of various theatre circuits, chambers of commerce and business interests in the towns photographed. Other towns were filmed in Arkansas, Louisiana and Montana.

When completed, the Brownfield story will be premiered in the Jones Theatres, said Graham, and a 16mm copy of the film will be presented to the Brownfield Chamber of Commerce by Sam Jones, manager of the local circuit.

The chamber will be able to use the film to promote interest in Brownfield elsewhere throughout the South-west and the nation.

Arrived here Sunday, Graham already has filmed various activities at several churches. Other groups which the camera will catch are to be the service

and civic clubs, the schools, City Hall activities and officials, county officials, women's organizations, and the agricultural scene.

The film, when completed, will be retained by the Jones Theatres, in addition to the 16mm copy for the chamber, said Graham, to be used for various purposes in years to come.

In preparing for the shooting, Graham explained that as many local citizens as possible will be included in the story, which will be told by Vincent Connolly, Paramount News narrator.

**Traffic Series Completed**

Graham also has just completed a series of traffic pictures, in Houston entitled, "I Pledge To Drive Carefully." The series has been approved by the Texas State Education Agency in Austin.

The series also was approved by Lewis Spears, consultant on health, safety and physical education for the state agency. The traffic films were sponsored by various banks, insurance agencies and groups and automobile dealers throughout the state.

A three and one-half month dispute between Terry Commissioners Court and Mrs. Anna Bell Lay Harrison, former Precinct 3 commissioner, ended Monday when a jury ruled against her in a permanent injunction suit heard here in 106th District Court.

The jury, comprised of 11 men and one woman, deliberated three and one-half hours before voting favor of Commissioners Court on three questions contained in the Judge's charge.

Affirmative answers were returned on the following questions:

1. Between May 11 and Aug. 5, at any time did Mrs. Harrison fail to reside in Precinct 3?
2. If Mrs. Harrison failed to reside in Precinct 3, did she plan to reside permanently in Lubbock County?
3. If Mrs. Harrison failed to reside in Terry County, did she abandon the home in Precinct 3 as a place to reside?

The decision ended the trial which began last Tuesday. The trial, presided over by Judge Louis B. Reed, was highlighted by three and one-half days of sometimes conflicting testimony amid rising tension and bitter objections from both attorneys.

The dispute arose July 29th when County Judge Herbert Chesshir queried Mrs. Harrison whether she intended to resign from her post after "numerous residents" had asked about whether she lived here or with her husband in Idalou.

Seven days later Judge Chesshir declared the office vacant and appointed Eulice Farrar to the post. A petition for temporary injunction against the deposed commissioner was filed Aug. 19 and a petition in cross-action, with 29 intervenors, was filed three days later for the defendant.

The temporary injunction suit opened in 106th District Court on Aug. 28, producing three days of testimony. On Sept. 29, Judge Reed handed down a decision in favor of the Commissioners Court, restraining Mrs. Harrison from interfering with any action of the court or of Farrar.

Mrs. Harrison still may appeal this week's decision in the Seventh Court of Civil Appeals located in Amarillo. Neither she nor her attorneys have indicated whether they will carry the ruling to the higher court.

Members of the jury hearing See No. 7 Page 4

### AT MOBEETIE

## Union Will Seek Title

Union's District 2-B Six-Man champions will journey to Pampa for a bi-district tilt with Mobeetie at 7:30 p.m. Friday, according to Coach Kenneth Sams.

Though little is known about the Wildcat opponents, Coach Sams said they are a strong passing team and that they are "big and rangy."

The game, to be played in Pampa's Harvester Stadium, will pit the Wildcats' 9-0 record against Mobeetie's 8-2. "It should be a real high-scoring game," said Sams.

The Union coach said he attempted to get Mobeetie to play here on Saturday but "they won the coin toss and wanted to play in Pampa."

Sams urged Union fans to attend the tilt.

**Probable Starting Lineup**

Union	Pos.	Mobeetie
Shults	E	Scribner
Sargent	C	D. Hathaway
Howell	E	Corcoran
Cabe	B	Logan
Kay	B	Simpson
Newsom	B	P. Hathaway

Union Coach: Kenneth Sams  
Mobeetie Coach: Paul Kitchens

## Funeral Rites Held For Terry Farmer

Funeral services for C. F. (Jerry) McNeil, 58, who was pronounced dead on arrival at Treadaway-Daniell Hospital at 6:30 p.m. Monday following a stroke, were held at 2 p.m. Wednesday in Northside Baptist Church.

The Rev. E. L. Cave officiated, assisted by the Rev. A. J. Franks. Burial was in Terry County Memorial Park, under direction of Brownfield Funeral Home.

McNeil, who resided at 607 East Lons, moved to Terry County from Haskell in 1933 and had been a farmer many years.

He survived by his wife; one son, Roland R. of Rt. 1; a daughter, Mrs. W. O. Miller of 1302 East Lons; six brothers, Roy and Earl, both of Brownfield; Claude and Bruce, both of Fort Worth; Lewis of Mountaintain, N.M.; and Harold of Haskell; two sisters, Mrs. P. G. Beauchamp of Route 2, Mrs. Albert Steed of Barstow, Calif.; and five grandchildren.

## Final Rites Read For Luther Allen Agnew

Funeral services for Luther Allen Agnew, 60, of Bronco, were held at 4:30 p.m. Wednesday in Plains Baptist Church. The Rev. Mr. Henson, pastor of Bronco Baptist Church, officiated. Burial was in Plains Cemetery, under direction of Brownfield Funeral Home.

Agnew, who died at 9:45 a.m. Tuesday in Treadaway-Daniell Hospital following a month's illness, had resided in Yoakum County for three years, farming for Anita Field.

He is survived by his wife; a daughter, Mrs. Bessie Agnew of Brownfield; three brothers, Paul of Brownfield; Bud of Hobbs; Earl of Abilene; five sisters, Mrs. R. W. Tunnel of 419 South Second; Mrs. Vera Benson of Lamont, Calif.; Mrs. Gracie Carmichael of Fresno, Calif.; Mrs. Estelle Lightfoot and Mrs. Vivian Reed, both of Amarillo; and six grandchildren.

## BHS Juniors Ready To Present Annual Play on Tuesday

A modern version of Mary J. Holmes' novel, "Lena Rivers," has been named as the annual Brownfield High School junior class play to be presented at 8 p.m. Tuesday.

Cast for the three-act play, which will be presented in BHS auditorium, includes Lena Rivers, (Mary Joe Christian), Granny Nichols, (Neisha Frymire); John Livingston (Dean Eubanks); Mrs. Livingston (Sharon Snedeker); Caroline Livingston (Gretchen Sloan); and Anna Livingston (Brenda Fenton); John Junior, (Johnny Chisholm); Frank Graham (Wayne Wise); Mrs. Graham

### FOR FOOTBALL

## Three Are In Top Place in Contest

With one week left in the seventh annual NEWS football contest, three persons are tied for the top spot with an average of 10 correct per week.

Tied for first place are Marge Williams of Radio Station KTFY, Mrs. Albert Johnson of 805 East Lons and Ted Hardy of 415 East Buckley. Some 25 others have an average of nine correct selections.

Last week's winner was Polly Johnson of 6950 1/2 Hillcrest, Dallas, with 14 correct. She picked Andrews to beat the Cubs, 21-7, and Tech to beat H-SU, 21-14.

High man in the contest was T. A. Hicks of 1212 East Tate, with 14 correct. He picked Cubs 15, Andrews 27, and Tech 24, H-SU 13.

See No. 2 Page 4

### AFTER SURGERY

## Young Nancy Gee Stays In Hospital

Nancy Gee, 6-year-old daughter of Mr. and Mrs. W. A. Gee of 205 East Cardwell, is in Lubbock's Methodist Hospital, where she underwent surgery Monday morning in the amputation of her right leg about six inches above the knee.

Hospital attendants said Wednesday that the young girl was resting as well as could be expected.

Young Nancy suffered polio when she was 1 year old, and has worn a brace on both legs since that time. Decision to operate was made by her parents last week when doctors discovered a malignancy in the right leg.

Gee, known to many persons here as "Wag," is co-owner with Brit Pounds of Green Hut Grill.

Mr. and Mrs. Gee, sitting beside their young daughter's bedside in Lubbock, Wednesday expressed their "heart-felt appreciation for the warm interest shown by the people of Brownfield in our time of stress."

## Shotgun Marksmen Will Vie in Turkey Shoot

Terry shotgun marksmen will be offered a chance to display their skill at the Sheriff's Posse turkey shoot to be held Friday and Saturday at the old Rig Drive-In Theatre, on Lubbock Road according to Mozell Ratliff, captain.

Clay targets will be used for the competition. "Guns and shells will be provided," said Ratliff. "Shooters also can bring their own gun—as long as it is a shotgun."

**TERRY FRIENDS** — In center above is the director of extension for the Texas State Library and Historical Commission, Robert E. Lee of Austin. On the left is Dr. E. O. Nelson of Brownfield, and with them is Joe Burleson of Meadow. Lee spoke Tuesday night to Terry County Chapter, Friends of the Library. Burleson was named as the 10th member of the chapter's board of directors, and Dr. Nelson was appointed program chairman.

### CONCERNING NEW LIBRARY

## Professional Counsels With Friends Chapter

"In this day of scientific developments and social and economic changes, a tremendous burden has been placed on the public library."

So did the director of extension, Texas State Library and Historical Commission, keynote his address Tuesday night before members of Terry County Chapter, Friends of the Library.

Speaker was Robert E. Lee of Austin, 6-foot-plus ramrod of a man who was here to counsel with the Terry Friends in securing more and better library facilities for the county.

Presiding was Mrs. Frank

Wier, chapter chairman who told the audience that the group's current membership drive had gained nearly 400 new Friends.

Although the campaign was brought unofficially to an end with the Tuesday session, Mrs. Wier explained that the chapter still would continue its efforts toward more members. Cost: \$1 a year.

That any new facilities here would in no wise increase taxes—or call for a bond election—was established by County Judge Herb Chesshir, who told the Friends that a reallocation of some county funds would.

## UCT Charter To Be Granted To Brownfield Here Saturday Night

The Brownfield Chapter of United Commercial Travelers will be chartered at 7 p.m. Saturday in First Presbyterian Church.

Here for the ceremony will be a selection of state UCT officers and numerous persons from the area.

The event will mark the end here of several months spent organizing a local chapter of the national fraternal group. Some 75 to 100 new members and their wives are expected to attend the ceremonies, during which a buffet supper will be served.

Top UCT officers slated to be here include the "grand old man of UCT in Texas," Jack Faulkner of Waco, who is the past Grand Councilor for the state and currently a member of the Grand Executive Board for Texas; and

W. H. (Bill) Martin of Tyler, Supreme Sentinel; Tom Morton of Lubbock, Grand Councilor

**TOM MORTON**  
Grand Councilor . . .

for Texas; J. C. Roberts of Pampa, Grand Junior Councilor; Charlie Cannon of Dallas, Grand Conductor; Jake Saunders of Arlington, Grand Sentinel; W. H. (Dub) Harrison of Lubbock, chairman of UCT state youth committee, and William A. Wilbanks of Lubbock, Grand Public Relations Chairman.

The Brownfield charter will be the largest in UCT's history in Canada and the United States.

Charter members here are Jack Bailey, R. J. Clements, J. E. Gillham, Cliff Jones, Sam Privitt, Curtis Sterling, R. H. Casstevens, Phil Gaasch, W. N. (Doc) Lewis, George O'Neal, John Jennings, Harold Crites, Jim Dudley, G. L. Holley, Johnnie W. Harrison, and Mozell Ratliff, R. B. Sampson, D. V. Travis, J. V. Burnett, Carl Hogue, J. M. Massey, Billy Howell, Hugh Thomas, Newell A. Reed, Craig Wilkerson, Lonnie Drewry, Ralph O'Dell, Weldon Callaway, C. B. Knox, Leonard Ellington, R. L. Bowers Jr., and

Claude Hearne, A. E. York Jr., James Adams, Les Short, G. H. Gore, D. L. Pemberton, James A. Fewell, Otis Larnier, W. O. Salmon, M. D. Fairbairn, Donald V. Bynum, Troy Noel, Charles E. Maple, Burton G. Hackney, Paul A. Cozby, James Belcher, R. V. Moreman, Alvin Davis, Sawyer Graham, L. G. Smith, C. W. Fuller, Gilbert Ford, F. B. Raybon, Jerry J. Joyner, Charles S. Kersh, Ray Steele, A. Earl Jones, Sid Lowery, Kenneth Anderson, I. L. Smith, Robert Knight, W. R. Hughlett, S. J. Adams, Frank Page, Robert Wilton, B. Northington, Charles Ralstone and Harold Green.

### SIX-POINT STATEWIDE PROGRAM SUGGESTED

## \$100 Million Annually To Develop Texas Water Resources Would Be in Order, Says Professional Engineers Society

(EDITOR'S NOTE: This is the last of six articles concerned with one of the state's pressing problems: water. The series was prepared by the Water Education Committee of the Texas Society of Professional Engineers. They were presented by the NEWS to its readers because we believe the principles set forth really might solve most of the problem.)

Texas' growth, general welfare and economy depend on development of her water resources to such an extent that a reputable engineering group calculates expenditures of \$100 million a year in that field alone would be in order.

Steadily increasing water demands are due only in small part to population growth alone, reports the Texas Society.

### CROWN HANGS IN THE BALANCE

## Cubs To Test Kermit Friday

By CHARLIE MAPLE  
NEWS Sports Editor

All the chips will be down this week when the Cubs travel to Kermit for a tilt that will decide the championship of District 2-AAA.

Though the Yellow Jackets possess a fine record and are tough offensively and on defense, Coach Doug Cox says the Cubs can beat them if they

play good ball.

A Cub win would throw the district into a three-way tie between Brownfield, Kermit and Andrews, with the playoff berth being determined by a draw or coin toss. A Kermit win would give them a clear-cut title, dropping the Cubs to third.

**Has Speed, Power**  
Cox said the Cubs will have See No. 6 Page 4

AROUND THE SQUARE  
What's New?  
By Weldon Callaway

Maybe, and I do mean maybe, we finally will have some pretty weather. It has been so wet that I have threatened to go back to East Texas where things do "dry-up" once in a while. Seriously speaking, many farmers are over half-way through with their grain harvest and we had quite a few bales of cotton ginned in the past few pretty days we were fortunate to receive.

C. C. Primm and Bonner Lytle, co-owners of Primm Drug, were overwhelmed at the response to their grand opening held last weekend. Some 6,000 adults and children registered for the door prizes — "and we gave away enough coffee to float a battleship," they said.

Knight Farm Machinery has added a new line of submersible pumps to their store . . . the Commander . . . and we See No. 5 Page 4

**MISS CAMERA OF 1962**—Really, now . . . it's actually a kinda . . . sorta gag. When Mrs. Boyd Ball this week opened a new account for her daughter, Ronda, at Brownfield Savings & Loan Association, personnel there couldn't resist the temptation to do just what they did in the picture. One of the six Brownies hanging from 4-year-old Ronda's neck was given to her. The situation is this: Anyone opening a new account of \$10 or more at the association is presented one of the fine cameras in appre-

ciation. Any person with a current account who is responsible for a new account also gets a Brownie, latest and finest in Kodak's line of products "for just taking pictures." Mrs. Ball left the Savings & Loan building with a mother's natural fear in her heart: That 18-month-old Gordon would "take care of that camera." The Balls live at 1209 North Atkins, and he is a gas engineer for Honolulu Oil Corporation. (NEWSfoto)

## READ AND USE THE WANT ADS

### PICKING A HEALTHY PUPPY

by Dr. E. M. Glidow  
Director, Friskies Research Kennels

When you set out to buy that Christmas puppy, it's almost impossible to predict what that little guy will look like when he grows up. But if you've raised a dog from puphood you'll love him whether or not he's a raving beauty.

If you want to know what he will look like when full grown buy a purebred dog which will conform to his breed's standard.

It's also difficult to tell what the state of his health will be. By close examination, though, you can tell something about his immediate health. Have the pup's temperature taken in your presence. If it's above 102° there's something wrong. There's also something wrong if his eyes and nose run, or if he coughs or has diarrhea. If he's generally listless and dull-eyed, try not to fall in love with him out of pity, as he's not in the pink of condition.

If he has patches on his coat it may mean mange, ring-worm or eczema. If he has a rash on his tummy or the insides of his legs, he may have eczema or one of the virus diseases of dogs.

If his legs are misshapen and he is tender on his feet he may have rickets.

The inside of the ears should be clean and smooth and free of inflammation. They should be white and the gums clean and firm.

If his tummy is abnormally large, especially if the hair coat is dull, it may indicate worms.

Charles S. Rhyne was recently elected as the youngest president in the history of the American Bar Association.

### LEGAL NOTICE

#### CITATION BY PUBLICATION

TO: GUADALUPE RAMOZ, Defendant; GREETING: YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Terry County at the Courthouse thereof, in Brownfield, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 16th day of December A. D. 1957, to Plaintiff's Petition filed in said court on the 2nd day of November A. D. 1957, in this cause numbered 4791 on the docket of said court and styled Ynez N. Ramoz, Plaintiff, vs. Guadalupe Ramoz, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: Suit For Divorce as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Brownfield, Texas, this 2nd day of November A. D. 1957.

Attest: Eldora A. White (SEAL) Clerk, District Court Terry County, Texas  
By Lois Blair, Deputy.

### LEGAL NOTICE

#### NOTICE TO BIDDERS

Sealed proposals addressed to the Honorable Mayor and City Council of Brownfield, Texas, will be received at the Office of the City Secretary, City Hall, Brownfield, Texas, until 10:00 A. M. November 5, 1957 for furnishing all necessary materials, machinery, equipment, superintendence, and labor for constructing certain street improvements for the City of Brownfield, Texas, Owner, consisting of the following approximate quantities: 7,234 linear feet of curb and gutter, 17,872 square yards of street paving, together with other incidental items of work.

Bidders must submit a Cashier's or Certified Check issued by a bank satisfactory to the Owner, or a Proposal Bond from a reliable Surety Company, payable without recourse to the order of The City of Brownfield, Texas, in an amount not less than five per cent (5%) of the largest possible bid submitted as a guaranty that the Bidder will enter into a contract and execute bond and guaranty in the forms provided within ten (10) days after notice of award of contract to him. Bids without the required Check or Proposal Bond will not be considered.

The Successful Bidder must furnish bond on the form provided in the amount of 100% of the total contract price from a Surety Company holding a permit from the State of Texas to act as Surety, or other Sureties acceptable to the Owner.

All lump sum and unit prices must be stated in both script and figures. In case of ambiguity or lack of clearness in stating the prices in bids, the Owner reserves the right to consider the most advantageous bid, or to reject the bid. Unreasonable (or "unbalanced") unit prices will authorize the Owner to reject the bid. The Owner reserves the right to reject any or all bids, to waive formalities, and to accept the bid which seems most advantageous to the City's interest.

Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions under which the work is to be done.

Payment for the work performed on this project will be from funds furnished by the City of Brownfield, Texas, in accordance with the provisions set forth in the specifications.

Attention is called to the provisions of the Acts of the 43rd Legislature of the State of Texas, page 91, Chapter 45, (Article No. 5159A Civil Statutes, 1925) concerning the wage scale and payment of prevailing rates of wages as established by the Owner. Said scale of prevailing minimum rates of wages is set forth in the specifications.

### LEGAL NOTICE

#### NOTICE TO BIDDERS

Sealed proposals addressed to the Honorable Mayor and City Council of the City of Brownfield, Texas, will be received at the office of E. D. Jones, City Manager, until 10:00 A. M. November 5, 1957, for furnishing all necessary materials, machinery, equipment, superintendence and labor for the construction of certain Water Works and Sanitary Sewer Improvements for the City of Brown-

### LEGAL NOTICE

field, Texas, consisting of the following principal items of work and the necessary incidentals and appurtenances:

**DIVISION I—WATER WORKS IMPROVEMENTS**—furnishing and installing approximately 2,320 feet of 8", 1,365 feet of 6", 3,735 feet of 4" cast iron water mains and other miscellaneous items such as valves, fire hydrants and appurtenances.

**DIVISION II—SANITARY SEWER IMPROVEMENTS**—construction of one Sewage Lift Station, complete, furnishing and installing approximately 2,320 feet of 10", 2,911 feet of 8" vitrified clay sewer mains in various depths of trench (0'-6" to 16'-18" cut), including the necessary manholes, and other appurtenances, and furnishing and installing approximately 423 feet of 8" cast iron force main.

Bidders must submit a Cashier's or Certified Check issued by a bank satisfactory to the Owner, or a Proposal Bond from a reliable Surety Company, payable without recourse to the order of The City of Brownfield, Texas, in an amount not less than five per cent (5%) of the largest possible bid submitted as a guaranty that the Bidder will enter into a contract and execute bond and guaranty in the forms provided within ten (10) days after notice of award of contract to him. Bids without the required Check or Proposal Bond will not be considered.

### LEGAL NOTICE

ambiguity or lack of clearness in stating the prices in the bids, the Owner reserves the right to consider the most advantageous bid, or to reject the bid. Unreasonable (or "unbalanced") unit prices will authorize the Owner to reject the bid. The Owner reserves the right to reject any or all bids, to waive formalities, and to accept the bid which seems most advantageous to the City's interest.

Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions under which the work is to be done.

Payment for the work performed on this project will be from funds furnished by the City of Brownfield, Texas, in accordance with the provisions set forth in the specifications.

Attention is called to the provisions of the Acts of the 43rd Legislature of the State of Texas, page 91, Chapter 45, (Article No. 5159A Civil Statutes, 1925) concerning the wage scale and payment of prevailing rates of wages as established by the Owner. Said scale of prevailing minimum rates of wages is set forth in the specifications.

Information for bidders, proposal forms, plans and specifications are on file at the offices of Alva J. **Robbery, Assault Suspects Arrested By County Officers**

Three Latin-American farm workers were apprehended here Monday and turned over to Yoakum County authorities on charges of robbery by assault, according to Bill Gordon, Terry deputy sheriff.

The trio is alleged to have beaten two Seagraves men Saturday night and stolen their billfolds, about \$250 worth of tools, and various other articles from the victims' pickup.

Investigating officers said the trio was caught rifling the pickup Saturday. They fled the scene but were caught by the two men.

"Before the victims could alight from their vehicle, the Latin-Americans, assaulted them with mechanics tools, knocking them unconscious and beating the windows out of the pickup," reported Yoakum County officers.

**Are Arrested Monday**  
Gordon and Sheriff James Fulford arrested the Latin-Americans early Monday morning, recovering the stolen articles, blood-stained clothing and one billfold. The other billfold had been burned, they said. Officers said the trio admitted wearing the clothing during the assault.

The suspects, being held in Yoakum County jail, are Gabino Luna, 23, of San Antonio; Estevan Basquez, 20, of Gonzales, and Roberto Garcia, 25, of San Antonio.

Officers said Luna is on probation for a felony theft committed here in 1956.

**Halliburton Driver Hurt When Truck Overturns**

A Halliburton Oil Well Cementing Company driver received minor injuries when his truck overturned near Lamesa about 8 a.m. Monday.

Joe Nash, Brownfield was treated and released at Treadaway-Daniell Hospital following the mishap.

**a Dog's Life**

WHY HUNTING DOGS FAIL TO PICK UP SCENT  
by Bob Bartos  
Prominent Dog Authority

Hunting dogs have their good days and their off days. Don't get angry when yours has one of the latter. Ground and weather conditions affect that high-powered nose of his. There are lots of angles to this scenting business, and if only your dog could talk he'd be very happy to explain why that bird got away. Since he can't talk, let's give him the benefit of the doubt and try to figure out the reasons ourselves.

Dryness may be one cause, though it's seldom dryness alone. Type of vegetation and

**Dog of the Week: BLOODROUND**

Hound dog. Average weight, 90 pounds; shoulder height, 26 inches; coat, short, smooth, fine and silky in texture; color, black and tan, red and tan and tawny; the darker colors sometimes interspersed with lighter or badger-colored hair or flecked with white.

state of development (pollen and bloom) that intensifies competitive odors may be responsible. Therefore, try to be kindly in judgment on the poor dog who has to work in and through a hundred such conflicting smells and pick out of this hodgepodge one particular scent. Excessive heat and weariness reduce the scenting ability of even top-flight dogs.

High winds from any direction may blow away the scent. Excessive cold seems to cool off the tracks followed by dogs.

The most ideal conditions for hunting are damp ground plus cool air and very little wind.

**Feeding Tip:** Carbohydrates and fats supply most of the dog's energy, while protein is used primarily in building body muscle and tissue cells. A high-quality commercial dog food, such as Friskies, supplies between 20 and 25 per cent protein mixtures, providing excellent nutrition for your dog.

**GALVESTON PTA CONVENTION Five At State Meeting**

The superintendent of Brownfield public schools, O. R. Douglas, is in Galveston today where he is taking part in the 49th convention of the Texas Congress of Parents and Teachers.

Also taking part in the three-day statewide meeting, which ends Friday, are Mrs. Roy H. Timmons, president of Brownfield PTA City Council; Mrs. James G. Bragg of Frances Bell Unit, Mrs. L. C. Webster of Colonial Heights Unit, and Mrs. Paul Ward of Junior High Unit.

Supt. Douglas flew to the Gulf Coast city Wednesday, and is expected to return by plane after Friday, final day of the 49th session.

The quartet of Brownfield women left Lubbock Tuesday night on a special train carrying numerous delegates from the Congress' 14th District, of which Brownfield is a part.

Douglas is a discussion leader for one of the convention's sectional meetings. Topics for his group are "Parents and Youths Can Be Partners" and "The Promise of Tomorrow for Every Youth." Theme of the current session is "New Ventures in Partnership."

**RETURNS WITH DEER**

Roy Timmons of 1311 North A returned Monday to Brownfield from the country west of Brady, where he bagged a six-point and an eight-point buck. Timmons hunted with a party from Lubbock.

Federal jobs for women show a sharp gain.

**Mrs Perry Bear Is Hostess for Bridge**

Pleasure Bridge Club met with Mrs. Perry Bear of 1216 East Cardwell Tuesday evening with Mmes. Kenneth Watkins and A. M. Muldrow as guests.

High score prize went to Mrs. Joe Henderson and second high to Mrs. Watkins. Mrs. J. T. Bowman took bingo. Mrs. E. Y. Wilder was appointed to make arrangements for the Christmas party.

Refreshments of black bottom pie and coffee were served to Mmes. Tom Harris, Jack Hamilton, Lee Brownfield, Mike Barrett, Bowman, Joe Hinson, George Weiss, Watkins, Muldrow, Wilder, Grady Goodpasture, Robert Hoey and Henderson.

Dutch bank rate raised to 4 1/2 per cent.

**Two 13-Year-Olds Seized By Officers in Car Theft Here**

Two Odessa youths are in the hands of Brownfield police, charged with the Saturday theft of an automobile owned by S. A. Metcalf Jr. of 814 North Bell, according to Chief James Tippit.

The youths, both 13 years old, were transferred here Monday from Odessa after police recovered the stolen automobile from a caliche pit near Meadow. The vehicle was taken from Newton and Webb Implement Company, 410 Lubbock Road.

Chief Tippit, tracing the pair's route, said they ran away from their home in Odessa and arrived here Friday. "They slept in a vacant house

and broke into another house Friday night before taking the car Saturday," said Tippit.

"Abandoning the car near Meadow, they hitch-hiked into Lubbock and back to Seagraves before they were apprehended Sunday," added the chief.

"After they were returned to Odessa as run-aways, we found out they had taken the car here."

Both youngsters have a long juvenile delinquency record, revealed Tippit.

Federal Tax rebates for 27 American corporations exceeded \$1,000,000 each during 1956, the Congressional Committee on Internal Revenue Taxation reported.

School examinations have been blasted by a British doctor as a "savagery survival" of tribal initiation rites.

# The Cubs' Final District Game Is Friday Night In Kermit

PAGE FOUR Brownfield News-Herald, Thursday, Nov. 21, 1958

**WINNER**  
**SR. CHAPTER CONDUCTING**  
**BROWNFIELD DIST.**

**SENIOR CHAPTER** — The seven boys pictured above, all members of Brownfield Chapter, Future Farmers of America, comprise the first-place senior chapter conducting team, which will compete Dec. 7 in Area II contests at Big Spring. Their advisors are Walter Meyer and Robert Decker, vocational agriculture teachers in Brownfield High School. From left:

Jimmy Sherrin, Gary Moore, Joe Milburn, Jerry Boen, Hilbern Briscoe, Buster Chambers and Ronnie Bartley. Purpose of the chapter conducting contests is to encourage v-a-g students to become proficient in parliamentary procedure and to teach them how a meeting should be conducted. (BHSfoto)

## No. 1—

however, be necessary. Questioning of Lee revealed that Lamesa is spending about \$7,000 a year for its public library, and Floydada, more than \$7,000.

Lee also urged the Friends to investigate the cost of public libraries in numerous other area towns to arrive at a reasonable figure in Terry County.

Texas' bleak position in the nationwide picture of library facilities was painted by Lee thusly: The state library has been without funds until last year. There are no professional librarians available, with only two schools accredited in the training of such personnel, Texas University and Texas Women's College at Denton. Texas ranks 46th in facilities among the 48 states, and 12 per cent of her 254 counties have no facilities whatever.

The director of extension also declared emphatically that "the public library is no frill. It fills an urgent and definite need within the community."

"Our library can be of great use to the businessman, to the high school graduate, to the children and to groups. It also is a place for relaxation."

Lee urged that a book selection committee be organized for an eventual public library here, explaining that the base for selection should not be too broad or too confining.

Refreshments were served to the gathering by members of Girl Scout Troop 5: Yvonne Parker, Ann Patterson, Janice

Nowell, Judy Teague, Barbara Kirschner and Carolyn Cary. Troop leaders are Mrs. Jerry Kirschner and Mrs. Jack Shirley.

During the business session which following Lee's address, the Friends elected a 10th member of their board of directors. He is Joe Bureson, Meadow school principal.

Next meeting of the chapter will be sometime in March, said Mrs. Wier, who appointed Dr. E. O. Nelson as program chairman.

## No. 2

### Grand Prizes Listed

Low woman and low man were Mr. and Mrs. John Jennings of 1201 East Broadway, both with seven correct. Mrs. Jennings picked Andrews to win 21-7, and Jennings said the Cubs would win, 13-7.

This week will mark the end of competition for two grand prizes offered to the first and second place winners by the Brownfield NEWS.

First prize is two tickets to the Cotton Bowl game Jan. 1, rooms at the Baker Hotel in Mineral Wells, \$10 cash for expenses and two tanks of gasoline.

Second prize includes two tickets to the Cotton Bowl and accommodations at the Baker Hotel in Mineral Wells.

The Atomic Energy Commission recently disclosed it had approved a first shipment of radioactive isotopes to Russia for use in cancer research.

## No. 3

(Delma Fox); Durward Belmont (Jesse George); Malcolm Everett (Buster Chambers); Aunt Millie (Dovie Adams); and Old Caesar (John Eldon Jones).

## No. 7

The case were Tracy Cary (foreman) of 921 East Tate, John Hill of Route 3, D. L. Pemberton of 1194 East Buckley, R. E. Colson of 862 East Harris, Clarence Denson of 1002 East Lake, Mrs. R. H. Casstevens of 221 West Broadway, James Thurman of Route 5, Paul Ward of 1218 East Broadway, Joe A. Morris of Magnolia Camp, Olen Evans of Route 1, Spencer Murphy of 305 South 14th and Robert L. Craig of 604 East Reppito.

## No. 4

Water Committee. More important still, says the committee, are the shift from rural to urban economy, industrialization and expanding needs of the farmers.

Unfortunately, but inevitably the peak drain on existing water supplies always occurs in summer months when supply is the shortest, and evaporation losses the greatest.

There is little chance of spacing demands so that they will be felt in flood periods. Hot weather is usually dry weather. And in hot, dry weather (when

stream flow and watershed runoff are at their lowest ebb) come increased irrigation, heavy air conditioner use and general municipal and industrial consumption step-ups.

Expenditure of more than a billion dollars on Texas water development and distribution in the last 10 years has failed to keep pace with needs.

Ten weeks of devastating floods this year (following an eight-year drought) sent 46 million acre-feet of water raging into the Gulf of Mexico (equivalent to an acre of water 7,000 miles deep) and resulted in property damage estimated at over \$100 million.

A substantial portion of these wasted flood waters, says the TSPE committee, could have been stored and put to beneficial use. Adequate planning and orderly development will reduce drought-flood losses to agriculture and industry, observes the TSPE group, pointing out that future generations will judge the present generation's wisdom and skill employed in meeting today's problems.

Pointing to a 1940-1955 population jump of 33 per cent, farm income increase of 221 per cent, new construction jump of 303 per cent, oil and gas production hike of 458 per cent, business activity increase of 488 per cent and factory output spurt of 690 per cent, the committee maintains that state spending of \$100 million a year on water projects to meet water needs could easily be justified.

Availability and worth of future water depend, the TSPE panel believes, on aggressive action now to conserve, distribute and reuse resources with a view toward legal rights of present-day and future citizens.

Toward this end, TSPE and the Texas Section of the American Society of Civil Engineers offer a new slate of recommendations. They include:

1. Endorsement of legislation to carry out the basic planning objectives and the general aims submitted by Gov. Price Daniel to the legislature in special session. That is (a) to strengthen the water planning functions of the State Board of Water Engineers by providing adequate funds, (b) to accelerate the collection of basic hydrologic data and to initiate an urgently needed topographic mapping program and (c) to provide for the purchase of conservation storage by the state in federally-constructed multi-purpose reservoirs. (TSPE's Water Education Committee earlier called on the legislature to authorize coordinated, planned development and to strengthen the

Water Board).

2. Urging that the planning division contemplated by the proposed legislation should be a division of and operate under the direction of the State Water Board.

3. Calling for salary increases for Water Board members in the interest of strengthening the board and assuring harmonious relationship between the agency and the proposed planning engineer.

4. Proposing that planning should be accomplished on the lowest possible level, but that the functioning of the proposed planning division should not be handicapped so as to prevent ultimate proper development and utilization of the state's resources. Such overall planning should require consideration with the individual political sub-division involved as well as public hearings.

5. That sale of conservation storage acquired by the state in a federal reservoir under the terms of the proposed legislation should be to any political sub-division which obtains a permit as provided by law.

6. That the state should be required to dispose of all storage purchased in any reservoir at the earliest possible date, and in no event be permitted to carry on the sale of water on a permanent utility basis.

## No. 6

to contend with another team that possesses speed and power in addition to a shifting type of offense when they meet the Yellow Jackets. Kermit runs off of a straight-T and a spread formation, he noted.

L. Pace, a speedy Negro half-back, provides the break-away threat for Kermit. Power off tackle and up the middle is furnished by the fullback, J. Harrison and the right half, Charles Thompson.

Additional power in the Yellow Jacket attack is provided by Jack Probst, a quarterback that can throw the long pass. Against Ector, Probst lofted a pass to end P. M. McKinney, that covered 71 yards and a TD, 51 yards of it in the air.

In addition to his offensive power, Thompson also is rated as the best Yellow Jacket defender, garnering about 50 per cent of the tackles, according to scouting reports. "He is the

best all-around back I have seen in high school," said Coach Cox.

**Wright Still Out**  
The Yellow Jackets will throw up another big, powerful line—the fourth straight the Cubs have met in the district — averaging 172 pounds per man. The team as a whole averages 170 pounds.

The Cubs began preparations for the upcoming tilt with a lot of spirit and determination despite biting cold win Monday. Undoubtedly Brownfield will go into the game as an underdog — especially since Rabbit Wright remains on the injured list. Though the pulled muscle is mending slowly, Coach Cox said it is not likely that Wright will get into the game Friday.

With the leading ground-gainer sidelined, Cox indicated Larry Meeks likely will receive the starting nod at the fullback slot. "He turned in a good game against Andrews, so he'll probably start Friday," said the mentor.

No other changes have been made in the lineup that has turned in some excellent play in the last five tilts. Starting time will be at 8 p.m. in Kermit's Yellow Jacket Stadium.

**Probable Starting Lineups**

Blfd	Pos.	Kermit
Jones	LE	Wright
Kendrick	LT	Gammill
Muldrow	LT	Ash
Fulfer	C	Batchelor
White	RG	Marlett
Fugitt	RT	Darrow
Cloe	RE	McKinney
Oswald	QB	Williams
Browning	LH	Pace
Hinson	RH	Harrison
Meeks	FB	Thompson

## No. 5

believe it will out-perform all others," said Otis Lerner, manager of the firm. "We are really proud to offer this outstanding product to our customers and once they have seen it and tried it, they too will be well satisfied," he said.

In this issue of the NEWS you will find a condensed statement of condition of Brownfield Independent School District. If you will study this statement you will readily realize why our school taxes, as well as other taxes, are so seemingly high. Look over this statement and I'm sure you will have a better

understanding of the financial problems of our schools . . . it made me feel much better to see that our monies were wisely spent, and I'm sure you will feel the same way.

"Old Tom" the time is drawing nigh—Thanksgiving is just a few days away, and figuratively speaking "your goose is cooked." You, Mrs. Housewife, will find everything you'll need to make your Thanksgiving meal—a success if you shop now at Piggly Wiggly, Kyle's or Furr's . . . their shelves are well-stocked and the prices are reasonable.

Jack Bailey Chevrolet has added another first to their long list of successful automotive services—One Year Warranty on used cars. Not every used car can measure up to the requirements of this warranty, but those which do, and you will find a list of them in today's NEWS, you can be assured that all parts and labor needed to repair it within one year will not cost you "one thin dime." Look over this list of fine used cars and take advantage of this outstanding offer.

We have another used and new car dealer in Brownfield—Woods Motor Co., located at 606 Lubbock Road. They are also the dealer of Cushman Motor Scooters. "We're ready and anxious to meet and serve the people of Brownfield and Terry County, and we will do our best to earn their patronage," said Paul Woods, owner of the firm.

Bryant Tractor Co., Lubbock Road, now is ready to sell and service Oliver farm equipment. They are the new dealer for Oliver Tractors and farm machinery, and will continue to carry a complete line of Dempster farm equipment and pumps.

It's that time again—time to support your Community Chest. If you are asked to work with this group, don't hesitate. You will be doing yourself and your community a great service—both with your dollars and your efforts. You will be helping 10 organizations the easy way when you "Give a Day's Pay."

Is it a little early, or do you too begin to sense the ap-

proaching of Christmas? The local stores are brimming up with a huge selection of Christmas gifts and when you stop to think about it, its only about 35 days til Christmas. Why not shop a little early this year so you can have assurance of a good selection for your favorite gifts . . . and above all, buy now, mail now, for overseas mailing.

## Eugene Lynn Taken From Hospital To Grandfather's Home

Vernon Eugene Lynn, 15-year-old Brownfield High School junior who was injured seriously Sept. 16 in a traffic mishap here, has been taken from West Texas Hospital to his grandfather's home in Lubbock.

Lynn is the son of Mr. and Mrs. J. L. Lynn of 801 Old Lamesa Road, and had been in the Lubbock hospital from the day after the accident until last Saturday.

His father, who is in Brownfield letter carrier, said Monday that Eugene now walks briefly about the house with help, but that he would need several months of recuperation. The elder Lynn also expressed "profound appreciation for the interest which many persons and friends have shown in the welfare of our son."

Lynn doubted that the youth would be able to enter school again this year.

## Rites Are Held For Brownfield Resident

Funeral services for Floyd Lemons, 57, owner of Modern Motel on Lubbock Road, were held Monday at Blackburn-Shaw Memorial Chapel in Amarillo.

Lemons died in the home of Mr. and Mrs. Phillip Arthur in Borger last Friday. He and been ill several months.

Survivors include the wife, Lois; one daughter, Mrs. Rodgers Dale White of Amarillo; three sons, Jimmy of Lubbock, Bobby of Pensacola, Fla., and Jerry of the home.

Masonic burial was conducted in Amarillo's Memorial Cemetery.

### NEW LIGHT-DUTY Apaches

There's new pep and power in every Apache model, whether you choose the Thriftmaster 6, famous for economy, or the short-stroke Trademaster V8\* with a full 283-cubic-inch displacement. Three brand-new Step-Vans make their debut to solve troublesome delivery chores. Rolling in for '58, too, are high-capacity pickups, panels and versatile 4-wheel drive models.

\*Optional at extra cost on all conventional models

From left, Model 3545 Step-Van, 3204 pickup, 3805 panel

Here for '58 in 3 hard-working weight classes!

## NEW HUSTLE! NEW MUSCLE! NEW STYLE!

From left, Model 5409 LCF stake, 6303 chassis-cab, 6103 chassis-cab

### NEW MEDIUM-DUTY Vikings

Nine new medium-duty models add to the versatility of these Vikings, with new cab-to-rear-axle dimensions for improved semi-trailer, dump and van-type operations. Advanced V8's and 6's deliver efficient, hard-pulling power, with the Heavy-Duty Super Taskmaster V8\* packing a high of 175 h.p. High-tonnage options hike GVW ratings to 21,000 lbs.

\*Optional at extra cost on all Series 50 and 60 trucks except Forward-Control models

### NEW HEAVY-DUTY Spartans

The heavy-duty Spartans make hauling history with the most revolutionary truck engine in decades—the Workmaster V8 with Wedge-Head design! Featured on high-usage heavyweights, this completely new 230-h.p. power plant achieves a new high in efficiency! Your Chevrolet dealer is eager to show you many other advanced features, including Triple-Torque Tandem options that boost GCW ratings all the way to 50,000 lbs.!

Model 10503 with tandem axle option (foreground) and Model 10203 chassis-cab

Latest editions of the "Big Wheel" in trucks!

Harvest Recipes From a Country Kitchen Harvest-Time Favorites (Clockwise)

**GRANDMA'S BACON-RICE MUFFINS**

Mix together 1 1/2 cups cooked rice at room temperature and 1/2 cup of milk. Sift together 1 cup sifted all-purpose flour, 3 teaspoons double acting baking powder, 1/2 teaspoon salt and 2 tablespoons beet or cane sugar. Stir in 1/4 cup cooked, finely chopped bacon. Add the milk-rice mixture to 2 beaten eggs. Stir in 2 tablespoons melted shortening. Make a well in the flour mixture. Pour in the milk mixture. Stir with 15 circular strokes just to moisten the flour. Grease muffin pans. Fill two-thirds full. Bake in a pre-heated 400°F. oven about 30 minutes. This makes 14 muffins 2 1/2 inches in diameter.

**DROP DUMPLINGS IN CHICKEN-VEGETABLE STEW**

Put 2/3 cup uncooked white rice, 1 1/3 cups water, 1 1/2 teaspoons salt in a saucepan. Bring to a boil. Turn heat down. Cover. Simmer 14 minutes. Allow to stand off heat, lid on 10 minutes. Sift together 1/2 cup sifted all-purpose flour, 2 teaspoons double acting baking powder, 1/4 teaspoon celery salt, 1/4 teaspoon black pepper. Stir in 2 teaspoons grated onion, 1 tablespoon chopped parsley, the hot cooked rice, 2 beaten eggs. Form into balls 1 1/4 inches in diameter. Add flour if mixture is too moist. Slip into 2 quarts hot chicken stock thickened with

**COUNTRY GARDEN VEGETABLE SOUP**

If desired make stock with a soup bone. Keep in refrigerator. Melt 1 tablespoon cooking fat in soup kettle. Add 1/2 pound ground or stew beef, 2 cups chopped onions, 1 clove garlic, minced. Brown the meat. Add 3 stalks diced celery, 2 sliced carrots, 1 1/2 cups cut up green beans, 2/3 cup uncooked white rice, 1 bay leaf, 6 cups of water or the stock, 2 teaspoons monosodium glutamate, 1/2 teaspoon black pepper, 1/4 teaspoon chili powder, 1 tablespoon salt, 2 teaspoons Worcestershire sauce. Cover. Simmer 45 minutes. Break up 1 #303 can tomatoes. Add to the soup. Simmer 10 more minutes. Thin if desired. This recipe makes 6 quarts of soup.

**HOPPING JOHN (FOR GOOD LUCK AND GOOD EATING)**

Place 1 cup dried black-eyed peas and 2 cups boiling water in a saucepan. Cover and allow

to stand 2 hours. Do not drain. Cut 1/3 pound salt pork or bacon in squares. Brown on all sides in a hot skillet. After the pork is done, add the pork, 1 large onion, chopped, 1 spray of celery leaves, a bay leaf, 1/2 teaspoon salt and 1/4 teaspoon black pepper. Add 2 cups boiling water. Simmer in a covered saucepan until the peas are tender. Remove the bay leaf. Add 1/2 cup uncooked white rice. Simmer until the rice is tender. Add water if necessary. Salt and pepper to taste. Serve with the pork on top and sprinkle with 2 tablespoons minced parsley. This makes 6 generous servings.

**WARM APPLESAUCE CRUNCH PUDDING**

Put 2/3 cup uncooked white rice, 1 1/3 cups water, 1 teaspoon salt in a saucepan. Bring to a boil. Turn heat down. Cover. Simmer 14 minutes. Remove from heat. Ve lid on 10 minutes. Layer the cooked rice, 1/4 cup beet or cane sugar, 1/4 cup brown sugar, 1 teaspoon pumpkin pie spice, 1/2 cup milk, 1 1/2 cups applesauce and 1 tablespoon lemon juice in a greased 1 1/2 quart baking dish. Mix together 1 cup quick cooking oats, 1/4 cup beet or cane sugar, 1/4 cup melted butter or margarine. Spread over the pudding. Bake at 350°F. 35 to 40 minutes or until the top brown and liquid is absorbed. Serve warm with milk or cream. This makes 7 to 8 servings.

**Good Cotton Seed with High Germination May Be Scarce Next Year, Say Ginners**

Good Cotton seed with high germination likely will be scarce next spring, it has been revealed by a survey of Terry ginners.

Numerous late plantings last spring and the extremely wet weather which hit the South Plains has heavily damaged seed as well as the quality of cotton, report the ginners.

The group said cotton going through their gins is soft and of poor quality. As a result, few farmers are catching the seed for planting in 1958.

"If this year's seed is planted, it likely will take up to twice as much as the normal planting," revealed Virgle Travis, owner of Travis Gin here. "It would be an expensive proposition and many of the plants likely will be weak."

**Some Left Over**

Ginners indicated a fair supply of last year's cotton seed will be available after the first of the year but that the supply

will not meet the demand. "We will have to range far afield for a 1958 supply," said Travis. Of seed being caught by Terry farmers, ginners reported dryland cotton is the best. In addition to having the best seed, dryland also is producing the best quality of cotton.

Farmers were warned to run a germination test on seed before planting in order to determine how much seed to plant, the group added. The test should not be made until seed has been in storage at least 30 days, the normal rest period for freshly ginned seed.

**Sweets Make A Treat In A Salad**

IF YOU LOVE SALADS, yet tire of routine recipes, try a cool-day adaptation of a summer favorite and make this salad which combines sweet potatoes and ham. Hearty and spicy, it's seasoned just right with a dressing made from a salad dressing mix.

**SWEET POTATO SALAD**

- 1 package California French salad dressing mix
- Vinegar, water, oil
- 2 cups (1 pound) sliced or sliced cooked sweet potatoes
- 2/3 cup (1/4 pound) diced or sliced cooked ham
- 1/4 cup mayonnaise
- 1/2 cup mixed dressing
- Dash of salt
- 1/4 cup chopped sweet or dill pickle

Combine salad dressing mix, vinegar, water and oil as directed on the bottle or package. Combine potatoes and ham. Blend mayonnaise, 1/2 cup of the dressing and salt. Pour over potato mixture; toss several times. Chill. Garnish with pickle. Makes 3 cups or 2 or 3 servings luncheon or entree salad.

**New Motor Firm Is Now Operative Here**

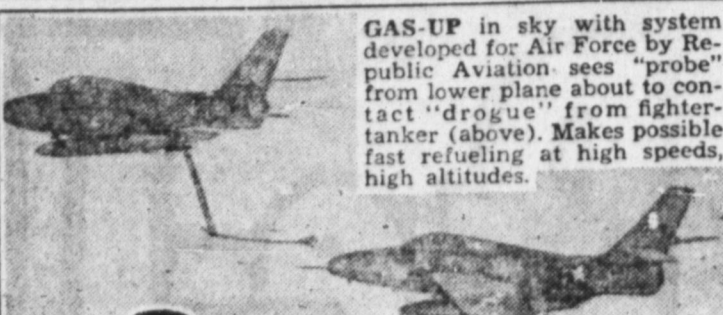

Paul Woods this week opened a new Brownfield business, Woods Motor Company at 606 Lubbock Road, site of the old Pate Collier Gulf service station.

Woods, owner of A&W Root Beer Stand at 201 North First, has been a Brownfield resident since 1953.

Said Woods, "We'll handle new and used cars at our new company, and we are the authorized dealer for Cushman motor scooters and commercial vehicles."

Clyde Trotter will be associated with Woods.

**Wadley Institute Has New Research Machine**

Dr. Joseph M. Hill, head of the Wadley Research Institute and Blood Bank in Dallas, has announced the recent purchase of a Spinco Analytical and Preparative Ultracentrifuge to further scientific research at the Institute.

Purchase of the costly machine, the 275th in existence, was made possible by a gift from Mr. and Mrs. Harry E. Spencer of Irving. The Ultracentrifuge, which offers a new method for the separation of very small materials, is the only such machine in the Dallas-Fort Worth area.

In addition to its medical research value in the separation of various components of the blood, the Ultracentrifuge will be used by scientists at Wadley for the determination of molecular weights.

Dr. Hill said the machine would offer "new approaches and techniques" in the study of leukemia and cancer of the blood and would help to identify the properties which are yet to be seen.

The Ultracentrifuge, which will become a great aid in the development of new therapies, was designed by Dr. E. G. Pickels. It offers a means for driving various rotors at constant speeds up to 70,000 rpm (the average automobile develops 4,000 to 5,000 rpm). The powerful machine is equipped

with preparative and analytical rotors, a refrigeration system for keeping the rotors at reduced temperature and two cameras for the provision of visual study of the blood's components, while spinning at this terrific speed.

The Wadley Research Institute and Blood Bank, founded in 1951 by Mr. and Mrs. J. K. Wadley of Texarkana, has initiated much advanced research into the challenging problems of leukemia and cancer of the blood.

Also, the non-profit institution has set remarkable paces in the fields of service and teaching. As a division of Baylor University's Graduate School, Wadley now awards both the Master's degree and the Ph. D.

Dr. Hill said that all of the research departments at the Institute would be able to take advantage of the new Ultracentrifuge. The departments of research include bacteriology, immunology, hematology, cytology, chemistry and genetics. About half of the Ultracentrifuges in existence are being used in the study of Atherosclerosis (hardening of the arteries). Another fourth are used in the determining of homogeneity and heterogeneity, while the remaining Ultracentrifuges are used for the separation of various components of

**Mrs. R. E. Bayless Injured in Accident**

Mrs. R. E. Bayless, 64-year-old mother of Jim Bayless of 1314 East Repetto, was expected to undergo a second operation this week following an automobile accident last week.

Mrs. Jim Bayless reported the Berger woman was seriously injured in a car-pickup mishap in the Panhandle city.

The elder Mrs. Bayless suffered a broken right ankle, knee-cap, right wrist, left leg and numerous cuts and abrasions.

Bayless is owner here of Bayless Jewelry at 507 West Main.

**VFW Post To Have Special Meet Today**

A special meeting of Hand Bros. Post 6794 will be held at 8 p.m., today in Veterans Hall. Jack Aaldrup, commander of Veterans of Foreign Wars here, urged Wednesday that "as many members as possible attend the session tonight."

Aaldrup went on to explain that some urgent business would be resolved.

**Farmers Union Slates Meadow Session Today**

There will be a meeting at 8 p.m., today in the school cafeteria at Meadow of all Terry farmers and their families who are interested in joining the National Farmers Union.

A similar session was held last Thursday in The Party House, and the beginning of a Brownfield local was initiated.

the blood and for the determination of molecular weights. It is believed that this powerful machine, which can attain centrifugal forces of 250,000 times gravity, will be of great value in the finding of differences in the materials extracted from the blood cells of the leukemia patient as compared to those of the normal human being.

**How to Keep a Free Press FREE**

SELDOM does Freedom of the Press disappear in one annihilating blow.

In countries where the Press has been chained, there was first a period when it failed to realize and resist the beginnings of its end — the first encroachments on its freedom. There were powerful interests which wanted certain facts "kept out of the newspapers." There was pressure here and there to have the truth withheld.

Before the Press of any nation succumbs to tyranny, there always has been a period of failure to speak out.

Here in America there is only the limitation of national security — the necessity to protect and preserve confidential military and scientific information — which can be accepted by a Press that is determined to stay free.

America's newspapers have made, and will continue to make, a conscientious effort to protect that security — at the same time keeping the people informed as fully as possible on all matters concerning their welfare. So long as American newspapers pursue that policy fearlessly, our Press, our people and our country shall remain free of tyranny.

## Cosmetic Chemical Can Stop Water Evaporation

Recently conducted tests on a chemical used as the base of many cosmetics may provide an effective solution to West Texas' water evaporation problems, according to an article in the November issue of West Texas today.

## Winterizing of Home Will Minimize Cost Of Fuel, Add Value

With winter weather already here and more just around the corner, many homeowners are making plans to winterize their homes for increased comfort and economy.

A good place to start this job is with the doors and windows, advises W. S. Allen, extension agricultural engineer. Many windows and doors fit loosely; but can be tightened easily with weather stripping.

Storm sashes can be helpful in reducing heat loss from the house. In northern areas, addition of storm windows, doors and weather stripping can reduce the fuel bill considerably, tests have shown.

Proper insulation in the unheated attic also will cut fuel bills, says Allen. Place the insulation between the attic floor joists. This help reduce heat loss from the rooms below.

With this insulation there should be ventilation in the attic, which means vents should be placed in the gable ends of the house, under the eaves or installed in the roof. There should be about four square feet of clear openings for each 1,000 square feet of attic floor, suggests the engineer.

Storm doors, storm windows and attic insulation not only cut heat loss and save fuel but they also reduce drafts, according to Allen. This means a more uniform heating system throughout the house. Next summer, the insulation in the attic also will help keep the house cooler.

The chemical, hexadecanol, has proved effective in reducing water evaporation by as much as 45 per cent.

Tests conducted by the Southwest Research Institute in San Antonio, under the auspices of the Southwest Water Evaporation Research Council, have shown the chemical to be highly effective when spread over the surface of a lake or other reservoir to form a "lid" that prevents evaporation.

The tests were started over two years ago in an effort to reduce the evaporation that causes a loss of nearly as much water each year as is used in domestic and industrial consumption.

Explaining that the evaporation process occurs when water molecules become highly active as a result of a rise in the temperature of the water, and finally move so rapidly that they leave the reservoir, the scientists state that the chemical cover acts as a "lid" to prevent the molecules from escaping in the form of water vapor.

When spread over the water's surface at a thickness of about one ten-millionth of an inch, hexadecanol becomes completely tasteless, odorless and colorless, the article says. The Public Health Service has certified that the chemical is harmless to human beings and experiments have proven it to be harmless to plant life, animals and fish.

Water which would otherwise be evaporated by the sun can be saved at an estimated cost of half a cent per thousand gallons, researchers say.

If the film is spread apart by a boat, swimmer or wave action, it almost immediately rejoins to continue preventing evaporation.

Secretary of the Air Force James H. Douglas said that the service will get better aircraft by slowing down production rates.

## WINTER LENDS NOTE OF URGENCY IN USING IT

### Asia Influenza Vaccine Now So Plentiful That Doctors And Druggists Can Obtain It at Will and in Almost Any Quantity

Asian influenza vaccine now is so plentiful that doctors and druggists can obtain it at will in almost any quantity, exactly as they obtain any other drug product.

This means that you can now be vaccinated at your own discretion, regardless of your age, job or physical condition, says Dr. Henry Holle, Texas health commissioner.

In the early days of the influenza epidemic, vaccine was so scarce — even though six drug manufacturers were commissioned to produce it and worked 24-hour shifts at the task — that available supplies had to be distributed to states according to population, with populous states getting the lion's share.

Today, however, reports coming from state health departments and from manufacturers indicate that supplies are catching up with demand, so that controls on allocations to states no longer are necessary.

By lifting controls — which have been voluntary from the beginning — manufacturers will be free to ship more vaccine in states where demand is still high, instead of attempting to send equitable shares to each state.

In some communities throughout the nation, including many in Texas, enough vaccine is on hand to permit vaccination of the general public without regard to priority needs. Former priority groups included pregnant women, very young children and oldsters, and people with chronic ailments such as heart trouble.

Well over 40 million units of vaccine has been cleared for release to the nation to date. Heretofore, Texas has received approximately five per cent of the amount released for civilian use, since this state has 5.2 per cent of the national population.

Vaccination is still the only reliable means of preventing influenza, despite a flood of advertisements proclaiming the curative or preventive powers of other products.

Incidentally, two federal agencies have announced their intention of taking prompt action against anyone making false or misleading claims that their products are effective in preventing or treating influenza.

Just because a wave of influenza has passed through your community and you escape don't make the mistake of thinking you don't need a vaccination. Flu sometimes makes a re-entrance, and there is a strong possibility that those it missed the first time will be hit the second.

Vaccination especially is important for older age groups in which chronic diseases are much more common, and, to a lesser extent among pregnant women. Serious complications often follow influenza attacks in these groups.

The fact that winter is here lends a note of urgency to vaccinations.

Hunting is a superb sport most anywhere you go in Canada. But if you have your heart set on upland game birds or waterfowl, the provinces of Manitoba, Saskatchewan and Alberta offer some of the finest bird hunting in North America. You don't have to be an expert in this country, for thousands upon thousands of ducks and geese, grown plump on rich feeding, dapple the autumn skies on their way south. If you are planning a fall hunting trip to Canada, write to the Canadian Government Travel Bureau, Ottawa, for information.

## BETTER SCHOOLS — AND YOU

by HENRY TOY, Jr., President National Citizens Council for Better Schools

### HOW TO STRETCH A TEACHER

Some rainy night when the whole family's home, you might try a new parlor game on them. Have everybody think of all the items in your home that simply didn't exist 25 years ago. There'll be television, of course, and the ladies' nylon, and the home freezer and the pink electric light. There'll also be all the prefabricated things and synthetic materials. Chances are you'll find quite a list right in your own house.

Whatever else went into the manufacturing of these items, there was one ingredient that came before all the rest. Somebody somewhere started experimenting. It might have been a scientist looking for something else when he stumbled across a wonder drug. It might have been a businessman looking for new ways to use waste materials. But it was the first experiment that started the whole thing.

I say "the first experiment" because I know from having worked in the chemical industry that very few products get discovered on the first try. It's more likely that years pass by before the product is perfected for the market.

In case you're wondering what all this has to do with schools, this is an age of experiment in education, too. Take just one problem alone: the teacher shortage. Communities all over the land are coming to the conclusion that we'll have to try new ways of teaching if we're going to teach growing numbers of children with fewer teachers. If we keep on demanding one teacher for every 25 children, there just aren't going to be enough. Half of all college graduates would have to go into teaching to provide that many teachers and we know that isn't going to happen.

So what's happening in experimentation. Some communities are trying out teachers' aides, using auxiliary teachers

the way hospitals use nurses' aides to do the non-professional work. These teachers' aides can monitor study halls, help the children on with snowflakes, pass out examination papers, do many of the non-teaching chores which leave the teacher free to do what he does best: teach.

Other communities are trying television. This way, they say, they can get one expert art teacher, for example, who can go before the cameras and give top-flight teaching to all the students in the school district. I've seen educational television at work in Pittsburgh, where public and private schools alike have it, and I was pretty impressed.

Many organizations are plugging for training college women whose children have grown up to go into the classroom. They say these women know children and children's problems and with some training on how to teach they'd make excellent teachers. Maybe none of those methods is just right to help solve the teacher shortage in your town. All I'm saying is that we're going to have to experiment to find out which method—or combination of methods—will result in the best possible education for our children.

If you'd like more information on these experiments, write the word "teacher" on a postcard with your name and address and send it to me, c/o Better Schools, 9 East 40th Street, New York 16, New York.

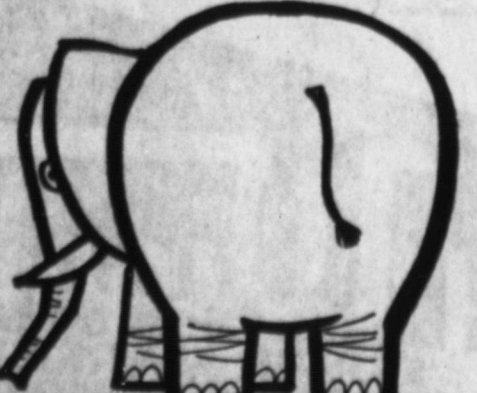

And if you're trying new ideas in your community, I'd like to hear about them.

# Brownfield News

And Terry County Herald... Terry County's Oldest Business Institution

Vol. 20 Brownfield News-Herald, Thursday, Nov. 21, 1957 No. 76

## TO BE MARRIED NEXT THURSDAY

### Miss Ingram Betrothed

Mr. and Mrs. George F. Ingram of Star Route, Welch, are announcing the engagement and approaching marriage of their daughter Miss Gloria Ingram to Jerry P. Bingham of Loop. He is the son of Mrs. G. R. Bingham also of Loop.

The double ring ceremony will be read by the Rev. Joe C. Thompson at 6:30 p.m., Nov. 28 in Ashmore Baptist Church of Loop. Miss Margaret Ingram sister, will be maid of honor. Bridesmaids are to be Miss Barbara Britton of Route 4, and Margie Milburn, Box 67. Miss Ingram is a graduate of Wellman High School. She now is employed by Terry County ASC Office. Bingham is a graduate of Loop High School. He recently returned from a tour of duty in Japan with the U. S. Armed Forces.

GLORIA INGRAM

### Birthday Party Held For Glenn L. Smith

Glenn Leamond Smith displayed four little fingers to show his age when his mother, Mrs. R. E. Smith Jr., of Route 2, honored him with a party in their home Sunday afternoon. Bottles of soap bubbles were given as favors. Mmes. Dora Mae Overman and Bill Benson assisted with the entertainment. Various cookie animals paraded over the top and around the sides of the blue birthday cake with its pink candles. Lettering on the cake read, "Happy Birthday Cowboy."

Punch was served with the cake to Troy Lynn and Tracy Smith, Patricia Kay and Reta

## FOR STATE MENTAL HOSPITALS

### Tau Phi Chapter Seeks Used Clothing

Tau Phi Chapter of Beta Sigma Phi Sorority met with Jo McBride of 1503 East Buckley Monday evening.

Madelyn Noble won the door prize brought by John Lou Callison, who presided over the meeting, and Mayme Terrill called the roll. Mrs. McBride, treasurer, and Nancy Price, service committee chairman, gave reports.

The organization voted to

help the State Welfare Board locally. Those desiring to give used clothing for this work may do so by taking them to Nancy Price of 1104 East Cardwell. Wash clothes were brought to the meeting by members. They will be made into scuffs for Texas Mental Hospitals.

Betty Patton and Mrs. McBride gave the program, "Helps to a Better Marriage." They based their talks on Excerpts from the Bible.

After the closing ritual, cake and Cokes were served by Mmes. McBride and Louise Fleeman. Attending the meeting were Pat Anderson, Caryl Nelson, Callison, Leatha Feagins, Diana Gary, Noble, Patton, Price, Bettye Smith, Ruthette Swift, Terrill and Betty Hipple.

### Mrs. Patterson Is Honoree At Shower

Mrs. W. L. Patterson of 507 East Stewart, the former Miss Delma Gene Rinehart and daughter of Mrs. Daisy Rinehart of 913 East Lake, was honored with a bridal shower given at Seleta Jane Brownfield Clubhouse Thursday afternoon.

Mrs. Joe Bryant, mother of the bridegroom, was in the receiving line with the bride, her mother and Mrs. L. V. Langford. Mrs. Lloyd registered the guests.

Center arrangement for the table was pink and white carnations in a basket. Pink punch and white cake were served in crystal dishes. Pink candles adorned the mantle. Mrs. Ronnie Graham and Mrs. Bill Tankersley rotated at the punch bowl. Members of the house party wore white carnation corsages.

Hostesses gave the honoree a steam iron. They were Mmes. Graham, Bill Tankersley, Turner, Bryon Cabiness, J. B. Jobe, E. S. Tankersley, D. R. Burch, Louise Dawson, H. C. Hinson, Langford and Miss Connie Kuehler.

Gayle Benson, Dewana Mae, Cherrie Lee and Rickey Overman and the honoree's brothers, Dennis Randall and Raymond Jay Smith.

### Miss Kathy White Is Honored on Birthday

Mrs. Arline White of 904 East Lons entertained Saturday afternoon with a party in The Party House honoring her daughter, Kathy, and her nephew, Mark Herring, on their eighth birthdays.

Mrs. John K. Tuttle assisted Mrs. White. Balloons were given as favors. Bouquets of mums and two birthday cakes served as table decorations.

Cake and punch were served to Janie and Ben McNutt, Ralph and Phillip Willingham, Rickie and Rachal Brock, Nancy Ann Warren, Janie Bevers, Kathy Barton, Kathy Vernon, Dawn Pemberton, Judy Graves, Gary and Benny Sadler, Howard Prewitt, Mickie Beck, Steve Nunn, Max Gunn, Richard Avery, Dick Dickson, Jan Dickson and the honorees.

About one-tenth of the land area of Boston is reclaimed swampland.

### The Fourth 'R' Topic Of PTA Talk Thursday

Kenneth Browning, principal of Colonial Heights Elementary School, was speaker when the PTA met Thursday in the cafeteria.

Mrs. Ralph Kerley, president, presided over the meeting. Mrs. Clifford Niles brought the devotional, and Browning spoke on "Human Relations as a Fourth 'R' and as a Basic Skill."

### First Methodist WSCS Hold Regular Session

WSCS met in the parlor of First Methodist Church Monday afternoon with Mrs. J. C. Criswell, president, presiding.

Mrs. Erie Proctor led the opening prayer. Mrs. Leo Holmes had charge of the program "For Such a Time." She also spoke on "World Federation of Methodist Women."

The last three days of March are called "borrowing days" in Scotland.

### Price Takes Award In Carnegie Class

Brownfield Dale Carnegie Class BH-1 met at 6:30 p.m. Monday in The Party House for a lesson in speaking on controversial subjects.

Charlie Price took the award for best speech, Leonard Ellington for most improved and Bill Simmonds for greatest achievement.

Another Carnegie class is in the making. Application blanks are being filled out now. A definite date has not been set for the first lesson, but it probably will be around Dec. 1.

Those desiring blanks to fill out may see Joe Morris of the Magnolia Camp. His phone number is 3774.

### WELLMAN PTA MEETING

Wellman PTA will meet in the high school auditorium today at 7:30 p.m., with the program being given by Wellman Student Council under the direction of N. H. Fields, high school principal.

Simon Bolivar is often called the George Washington of South America.

### Treadaway-Daniell Hospital

Mr. and Mrs. Roy Richard Perkins of Route 2, a daughter, Brenda Louise, born Nov. 10 weighing 5 pounds 14 ounces.

Mr. and Mrs. Clarence Arnold Walsler, 612 North Fifth, a daughter, Brenda Joyce, born Nov. 10 weighing 5 pounds 11 ounces.

Mr. and Mrs. Jessie R. Riojas of Wellman, a son, Jose Angel, born Nov. 11 weighing 5 pounds 13 ounces.

Mr. and Mrs. Oscar S. Lazos of Plains, a son, Juan Antonio, born Nov. 11 weighing 7 pounds 12 ounces.

Mr. and Mrs. Charles Benny Hicks of 205 North Third, a daughter, Teresa Charlene, born Nov. 12 weighing 7 pounds 3 ounces.

Mr. and Mrs. W. B. Anderson, Box 815, Brownfield, a daughter, Ella Faye, born Nov. 14 weighing 6 pounds 11 ounces.

Mr. and Mrs. Faustino Gaiton Gonzales of Asherton, a son, Juan Nicholas, born Nov. 14 weighing 7 pounds 4 ounces.

Mr. and Mrs. Jesus Solane of Route 2, daughter, Jesus Paula, born Nov. 14 weighing 6 pounds 13 ounces.

Mr. and Mrs. Dario N. Mi Cabrera of Box 245, a daughter, Delia Liaz, born Nov. 15 weighing 3 pounds 5 ounces.

**Hill Clinic**  
Mr. and Mrs. Alfousa N. Rocha of Colorado, a daughter, See No. 1 Page 2

### Mrs. Carmen Davis Hurt in Car Mishap

Mrs. Carmen Davis of 522 North Fifth suffered minor back injuries in a two-car collision in front of her home about 4:30 p.m. Sunday.

Investigating officers said Mrs. Davis's car was struck by a car driven by James W. Walker, 16, son of Mr. and Mrs. Guy Walker of 906 East Main. No damage was sustained by the vehicles.

Mrs. Davis, an employee of First National Bank, was expected to be released today from Treadaway-Daniell Hospital.

### Initiation Is Held By Rainbow Girls Here

Miss Dorinda King, daughter of Mr. and Mrs. Thurmon King of 703 East Repetto, was initiated into Brownfield Assembly 264, Order of Rainbow Girls, when they met Monday in Masonic Temple.

The Brownfield organization received an invitation to attend a tea given in honor of Miss Martha Marie Whitfield, Inspector in Texas for Rainbow Girls. The tea is to be from 7 to 9 p.m., Tuesday in Women's Club House at Lubbock.

Mrs. Earl Layman of 905 Tahoka Road, recently elected mother advisor for the Brownfield Assembly, will be installed at the meeting Dec. 2.

Glenda Sue is the name given to the new daughter of Mr. and Mrs. D. R. Foreman of 208 West Main, born last Sunday in Taylor Hospital at Lubbock.

**The one that's really new  
is the lowest-priced, too!**

**Compare! Car for car, Edsel gives you most—  
and is priced the lowest—of all 1958's medium-priced cars!**

The elegantly styled Edsel is the newest looking car you'll see on the road this year. But more important to you as a car buyer, the Edsel is new all over. New all over means the already-famous power of the big, new V-8 Edsel Engines. It means the option of new Teletouch Drive, the most talked-about feature in years. It means the safety of Edsel's self-adjusting

brakes. Even the first genuine contour seats. Yet, with all these important advances, Edsel prices are the lowest in the whole medium-price field! Compare—car for car. You'll find that Edsel is the value of the year. See your Edsel Dealer and prove it. \*Based on actual comparison of suggested retail delivered prices. EDSEL DIVISION • FORD MOTOR COMPANY

# The 4-H Picture

By BOB ETHEREDGE Assistant County Agent

Junior High 4-H Club met Nov. 12 in The Party House. President Danny Thurman presided over the meeting. The boys studied the finer points in selecting pork cuts and weaning pigs.

The girls viewed a demonstration on making cottage cheese cookies. After the demonstrations there were some recreational activities, and then the meeting closed with the 4-H Prayer.

Show in April Boys and girls wishing to

buy pigs for our county show in April will want to get in touch with the county agent's office this week or the next. Since the organization of the swine breeders association in Terry last week, finding pigs to buy may be somewhat easier than last year.

An effort has been made to secure several different breeds this year rather than only three different breeds like last year. Some 30 boys have indicated that they want to buy pigs so far.

### Big Event Forecast

The way things are shaping up so far this year it looks as if our county show in April will be one of the largest ever, livestock numbers wise. The large grain sorghum crop this year has a lot to do with the increased feeding projects, I am sure.

For example, this year 4-H boys and girls have twice as many calves on feed as last year. It looks as if we may have three times as many hogs.

### Angus Steers Increase

Next month I will have reports from all over the county

on feeding results from both calves and swine and will let you know how your neighbor is coming along with his project.

I have noted this year that we have six Angus steers, an increase of two over last year. As most of you know, the grand and reserve champions in our show last year were Angus.

The quality of steers purchased this year is far superior to that of last year. Most calves bought weighed an average of 500 pounds. Several calves were raised in Terry County but most were bought in Yoakum County. Plans for weight day for calves in January are in the making. Will keep you posted as to exact date.

### Stilbestrol is Fed

Several boys and girls feeding calves this year are feeding stilbestrol in their rations. Stilbestrol is an antibiotic added to the feed and cuts down on possibilities of disease and increases weight gain per amount of feed fed.

It will be interesting to note the difference, if any, between the calves fed an antibiotic and those fed a straight ration. Cost of feeding stilbestrol is about 1 cent per day over the

## Immanuel Women in Study of Missions

The Hickerson Circle of Immanuel Baptist Church met Monday afternoon in the home of Mrs. H. E. Sherwin of 602 East Cactus Lane for mission study.

Mrs. Boyd Pearce led a brief business discussion, and Mrs. Sherwin taught from the book, "God and Man in Missions." The women voted to change the time of meeting from Monday afternoons to 9:30 Tuesday mornings.

Those attending the meeting were Mmes. Tom Johnson, Ralph Bailey, Burris, Gadbury, Bench and Pearce.

Amber is used chiefly for making the mouthpieces for pipes.

## No. 1

Ameba, born Nov. 10 weighing 9 pounds 9 ounces.

Mr. and Mrs. Juan DeLeon, a son, Osvelo, born Nov. 10 weighing 6 pounds 9 ounces.

Mr. and Mrs. Minerva Gonzales of Wellman, a daughter, Eva Ovalle, born Nov. 12 weighing 6 pounds 2 ounces.

feeding period. You can purchase cotton seed meal with stilbestrol added for only 50 cents a sack more than regular price for CS or at most feed stores in Brownfield.

## Committees Named By Cotton Council

Memphis, Tenn.—(Special)—Fifteen Texas cotton industry leaders have been named to committees of the National Cotton Council. These were announced by the Council today.

Committees and those named to them for 1958 include: Production and Marketing—Eugene Butler of Dallas, W. O. Fortenberry of Lubbock, Otto Goedecke of Hallettsville, all advisors; and Robert L. Horton of Paris.

Sales Promotion—Mitchell Landers of El Paso.

Foreign Trade—Marc Anthony and Jack J. Stoneham, both of Dallas, Lamar Fleming Jr. of Houston, advisors; R. T. Hoover Jr. of El Paso; Burris

Tailored for comfort, this deep-toned checked cotton robe has wide sleeves, a roll collar, and a looped sash. The robe is an Alexander Shields fashion made up in M & W Thomas cotton.

C. Jackson of Hillsboro, Wilmer Smith of Wilson; and J. H. West of Bishop.

Utilization Research—Alfred Bessell Jr. of Houston and Roy B. Davis of Lubbock.

Special Committee on Domestic Trade Barriers—E. M. Deck of Dallas, advisor.

The committees, which will plan programs and make recommendations to the Council's

full membership, will meet January 10-11 in Phoenix, Ariz. prior to the council's 20th annual meeting there January 13-14.

Mr. and Mrs. Charlie Maple are parents of a son, born last Friday in Methodist Hospital at Lubbock, and weighing 6 pounds 7 1/2 ounces. His name is David Paul. The father is

sports editor of the Brownfield NEWS.

Members of Brownfield District, Halliburton Oil Well Cementing Company, met Friday night to hear discussions of various safety rules within the firm. Speakers were Ted Thornton, safety engineer of Midland, and Maurice Steele of Lubbock.

Turkey calls for hot rolls

Roast turkey and golden brown hot rolls are

natural companions. And, the better the hot rolls... the better

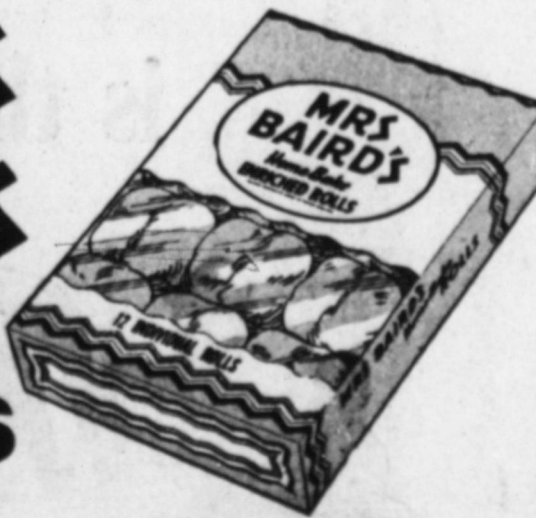

your turkey tastes. But why wait for holidays? You can have

freshly browned rolls hot from the oven at every meal... For

"something special" several times a week... serve the best

quick hot rolls... Mrs Baird's.

## 'Hi-Fi Holiday' Features Fred Waring Singers

In his all-new production "HI-FI HOLIDAY", Fred Waring will present the latest and most sensational achievement in acoustics in modern science. Waring will appear with all the Pennsylvanians at the Lubbock Auditorium on November 23rd.

The "magic touch" that has been added to this season's program is high-fidelity, pitched to new and unheard of level of realism for theatre audiences. Fred Waring realized that the tremendous success of his record-breaking album, **WARING IN HI-FI** (Capitol) was directly due to this advanced sound

improvement. This identical acoustical system has now been adjusted in every detail to the requirements of theatre, music hall and auditorium for Fred's nationwide tour with "HI-FI HOLIDAY".

In Fred Waring's words: "We have at last added the third dimension to music. The tenuous beauty of the violin is sustained gloriously, the crashing sounds of the cymbals have a lasting, shimmering effect, the vibrations of the tom-tom thrill you to your very bones and the depths of the or-

gan have an ocean-like swell that engulfs you. In fact, this new concept of music-creating with its startlingly revealing tonal values is acoustically around you, like a sea of music."

To accomplish this dynamic effect with all its original emotional impact intact, a specialized electronic system and custom-built loudspeakers to preserve the musical balance are installed by engineer-crews previous to the Waring engagement in every city.

Waring, himself a pioneer in advanced radio, television and stage methods, is personally responsible for this novel concept of conquering sound, and at his instigation the staff of University Loudspeakers, foremost authorities on high-fidelity and theatre sound equipment, has provided a specially

designed six channel high-fidelity system for Waring's Hi-Fi Holiday.

Following a pattern set down by Waring, this system enables the orchestra and chorus to literally surround the audience, making every seat in the house, no matter how large that house may be, a choice seat.

Therefore, music lovers have a rare treat in store for them when Fred Waring and "Hi-Fi Holiday" come to Lubbock, climaxing the feature Waring attraction of last season, "MUSICADE".

The Amazon has the largest volume of any river in the world.

The territory of Alsace-Lorraine has changed hands four times in the past century.

The Women's Missionary Union met Monday afternoon at the church. Mrs. Sylvia Clark, president, presided over the meeting.

Mrs. C. S. Carroll gave a book report on "Continent in Commotion." Those attending were Mmes. John Garner, L. P. Price, W. J. Henderson, Clark Neeman, Holcomb and a visitor, Mrs. Abb Fisher.

Saturday and Sunday visitors in the W. J. Henderson home were Mrs. G. W. Harris of Brownfield, Mr. and Mrs. J. T. Henderson and children, Thomas, Gloria, Pat and Lillie Mae from Albany and Mr. and Mrs. M. L. Pate and Sonny, Ronnie and Bryce of Brownfield.

Mrs. E. R. Slater visited with Mrs. Grawunder Thursday evening.

Bob Clements from De Leon spent the weekend in the home of Mr. and Mrs. L. P. Price.

Mr. and Mrs. J. C. Armstrong and family of Ropes visited her parents, Mr. and Mrs. John Garner, Sunday.

Those visiting in the E. R. Slater home Friday night were Mr. and Mrs. W. L. Jimlison from Ropes and Mr. and Mrs. N. L. Witt from the Clouene community.

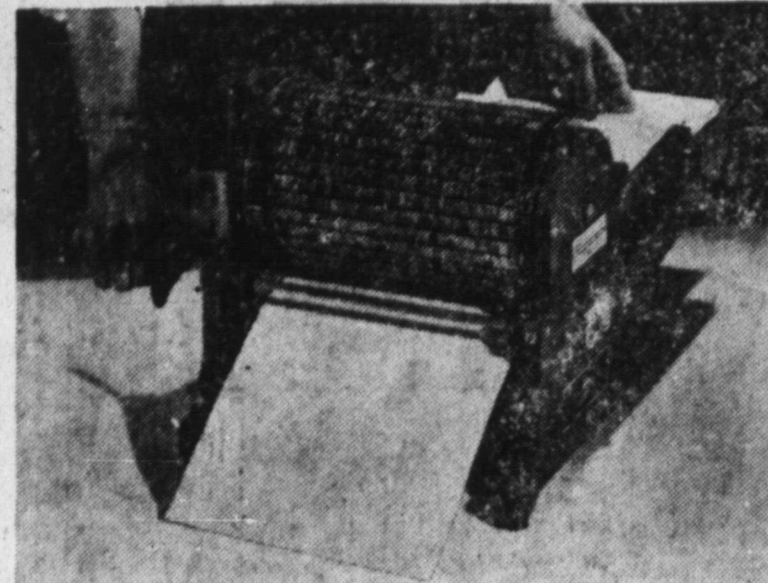

Mrs. D. Stephens and Delberta from Morton visited Friday in the L. R. Bagwell home. Sunday guests in the Bagwell home were the Rev. and Mrs. Frankie Rainey.

The C. S. Carroll family visited his parents, Mr. and Mrs. L. P. Carroll, Sunday.

Mr. and Mrs. Wayne Bagwell and Janice Sue and Donald visited her parents and other relatives in Lamesa over the weekend.

Mrs. Tom Stephens of Step-

## Revolutionary Development In Blind Communications Brings Unlimited Braille Reproduction

Here is the hand operated Multigraph Braille Duplicator. Individual Braille cells are mounted in channels on the drum which is then rotated to duplicate as many copies as are desired. On the right is M. Robert Barnett, Executive Director, American Foundation for the Blind, reproducing Braille material by the new process.

A revolutionary new development in the field of blind communications was demonstrated by officials of the Addressograph-Multigraph Corporation of Cleveland, Ohio at the headquarters of the American Foundation for the Blind in New York City.

The development makes possible, for the first time, the reproduction of Braille material in nearly any quantity at very low cost and at speeds of mechanical reproduction.

A special Braille "type" has been developed which can be set in a hand composing fork, a line at a time, and inserted into channels cut in the drums of standard multigraph duplicators. This makes possible repetitive mechanical reproduction and enables virtually limitless copies of the Braille material to be produced

without sacrificing quality. This means of reproducing Braille will modernize communications among the blind in that now Braille material will not only be within the price grasp of the average blind person but it will be available in any quantity desired.

One of the main obstructions in communications among blind people has been the scarcity of Braille printed materials in the field of education. Now teachers, and even students themselves, will be able to reproduce quickly and accurately, lessons, assignments, teaching aids, texts and examinations.

Two years of research and design study went into the development of the special Braille type which is the key component.

M. Robert Barnett, Executive Director of the Foundation hailed the new process as "one of the most promising and practical solutions we here at the Foundation have seen in the 35 years of our work."

According to Barnett, society has made amazing quantities of books, magazines, and other literary material available to the unhandicapped reader, but blind people have been denied much of this. Now, a new variety and far greater quantities of Braille material will be available to blind people.

"This new Braille duplicating process opens up vast new opportunities for progress in making the blind even more self-sufficient than they are today," concluded Mr. Barnett.

hensville is visiting relatives here this week.

Mrs. Abb Fisher of Brownfield visited her sister, Mrs. Lence Price, Monday.

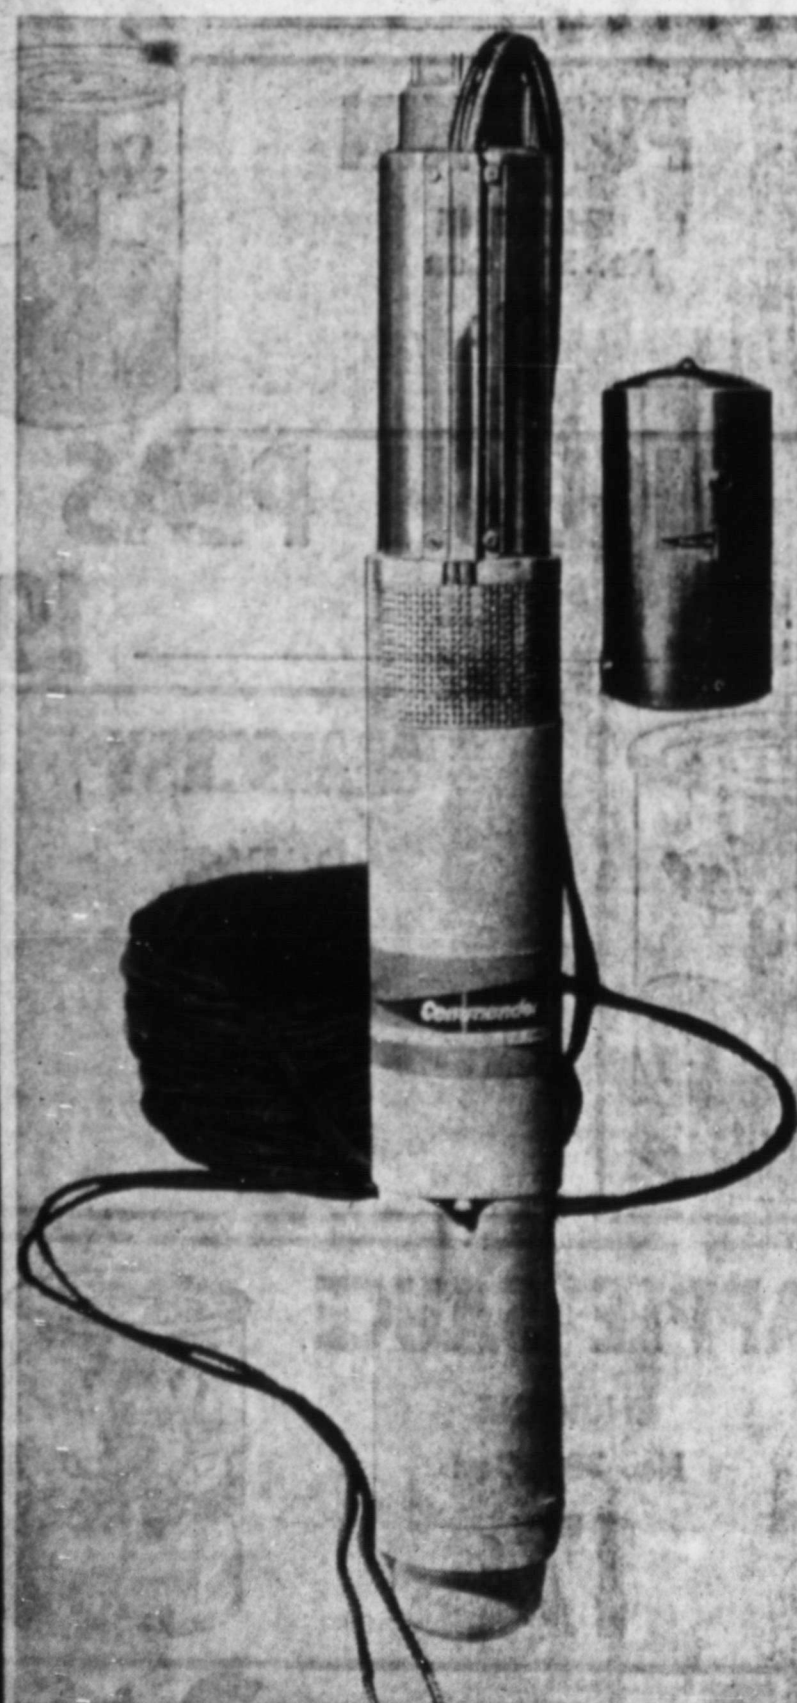

Mmes. John Garner, Mrs. C. S. Carroll and Henderson visited

All the great rivers of Central Europe originate in the Alps.

ed Mrs. Marchbanks Monday afternoon.

**Feeding Tip:** All puppies need vitamin D for the sake of good strong teeth. By feeding your puppy a top-quality prepared dog food, such as Friskies, you're certain he's getting his needed quota of this important vitamin.

## We Are Now The Dealer For "Commander Submersible" PUMPS

For the past five years we have looked for a submersible pump that would work satisfactorily. We have tried many brands. This year we experimented with all of the better lines and found that the Commander — built by the "Tait Manufacturing Co.", Dayton, Ohio, outperformed them all and stayed in the hole best.

### HERE ARE SOME OF THE FEATURES OF THE COMMANDER . . .

- **TOUGH NYLON IMPELLERS** — Tough, abrasion resistant. "Double life" — the first 20 days after the impellers are submerged they expand until they reach a certain definite size. Thus, clearances are "loose" during the initial use of the pump, when there is greatest danger of possible damage from abrasive action of sand or other foreign materials. Hydraulically-balanced — Area on top and bottom of impeller is equal. This factor also reduces bearing load and gives longer life to pump.
- **KARALANTIC DIFFUSERS** — Double-quad design that reduces the distance over which water travels at high speed. Smooth surface that improves efficiency. Stainless steel bearing surfaces.
- **STAINLESS STEEL STAGE CASES** — Corrosion Proof. Micro-smooth surface improves efficiency.
- **CERAMIC SEAL** — Special design. Next to diamond hardness. Each seal is checked for tightness to eleven millionths of an inch, to assure positive protection against leakage. Seal is raised to prevent collection of abrasive matter.
- **BEARING** — Combination of nylon and stainless steel provides the greatest resistance to wear known in submersible pumps.
- **MOTOR** — Dielectric Fluid Filled — Rapidly designed and engineered for Commander Submersible. Better electrical characteristics since no air is used. Will not leak water through pits in can. Better heat dissipation. Hermetically sealed and electrically tested to leak less than 1/100 oz. of Freon gas per year. Pressure equalizing chamber prevents internal pressure in motor. No Thrust Bearing — Eliminated through design of

## Now you can Switch the Pitch a Million Ways

**FLIGHT PITCH DYNAFLOW\*** — last word in travel with your wheels on the ground

**MAYBE** you've felt smooth transmissions before. Maybe you've had obedient response before. **But take it from us — you have never in all your born days known anything like this Buick's Flight Pitch Dynaflow!** This one switches the pitch a million ways — automatically, smoothly, thrillingly. Thanks to a new infinite-pitch stator, you get the most efficient ratio of engine power to rear-wheel turning on the American scene today. The result: an exuberant feeling of aliveness — a new sense of command unlike anything you've known before. **But there's far more than brilliant performance in this '58 Buick.** It embodies more aircraft principles than any other car yet built. It carries a new excitement in styling — a joyous new comfort in travel — a new nimbleness to handling — and the solid satisfaction of a new standard of Buick quality. Want to hear more? See more? Do more? Drop in and guest-drive the glamorous B-58 Buick today.

\*Flight Pitch Dynaflow standard on LIMITED and ROADMASTER 75, optional at extra cost on other Series. Air-Poise Suspension optional at extra cost on all Series.

**New Face of Fashion** — From the new Dynastar Grille to the exciting rear tail towers, this is the freshest style fashion in years — the look of flight on wheels.

**New Miracle Ride Plus Buick Air-Poise Suspension** — To the outstanding Buick ride-engineering comes the new marvel of a ride on 4 columns of air. Leveliest, smoothest, most luxurious ride you've ever known.

**New B-12000 Engine** — As advanced as today's fuels will let auto engineering go — with Buick's new Quadrajet carburetor, up to 10 to 1 compression, new brilliantly responsive power.

**New Air-Cooled Aluminum Front Brakes** — "Air conditioned" by 45 radial fins, these extra-powerful aluminum brakes give smoother, more positive stopping and longer lining-life. (Standard on most models.)

Wednes WHITE THE DE

Friday & Nov. LADD MARCH WELLS

**THREE-DAY RUN AT THE REGAL**

**James Fenimore Cooper's Epic, 'The Deerslayer,' Is Must for All Children**

"The Deerslayer," the first of James Fenimore Cooper's novels of the early frontier and the book which heralded the advent of native American writing, will be seen in a colorful screen translation today, Friday and Saturday when the Twentieth Century-Fox CinemaScope production opens at the Regal Theatre.

Produced and directed by veteran movie-maker Kurt Neumann, the film will star Lex Barker, Rita Moreno, Forrest Tucker, Cathy O'Donnell and Jay C. Flippen along with Carlos Rivas, who appeared with Miss Moreno in the all-time hit, "The King and I."

There are several important factors which should make "The Deerslayer" one of Mr. Neumann's most successful productions. The story ripped from the bloody struggle between the savage Huron and Delaware Indians and the early pre-Revolutionary settlers of the Susquehanna River Valley; its setting, re-created in the only place in American that completely satisfied Mr. Neumann, Bass Lake, high in the rugged Sierra Mountains; and the cast of adventure favorites headed by Lex Barker, Rita Moreno, Forrest Tucker, Cathy O'Donnell and the beloved Jay C. Flippen.

Under his practiced hand, the De Luxe Color production will tell the story of the Deerslayer, a young white-man raised by Indians, and his friend Chingachgook, chief of the Mohicans. How they find and rescue a group of white men and women only to be betrayed to their enemies and then, when all seems lost, saved by the man who betrayed them.

It is also a love story and will show the romance of Chingachgook and Hetty, born of a

**a Dog's Life**  
by Dr. E. M. Gildow  
Director, Friskies Research Kennels

A well-cared-for dog not only lives a dog's life. It's the life of a king. He eats better than humans and certainly better than his poor cousins who are still fed the old-fashioned way... on table scraps.

Rolling up in a single helping of quality canned or dry dog food are all the nutrients, min-

erals, vitamins, proteins, fats and energy that he needs. Ingredients in a typical serving of a prepared dog food will include meat meal and bone meal; processed wheat, corn, hulled barley and oat groats, soybean oil meal; wheat bran; dried skimmed milk; animal liver and glandular meal; dried beet pulp and molasses; fish meal; wheat germ meal; fish liver oil; charcoal, salt, iron oxide and irradiated yeast.

It's practically impossible for the housewife to prepare a comparably nutritious meal from scratch. And why should she when she doesn't have to?

You'll really appreciate the ease with which you can feed your dog when you compare it to the long, drawn-out process involved in feeding the family. For the family fare for a day, you'll have to lug home at least a bagful of groceries which cost four or five dollars. For the pooch, it's a single can for a single day or a box or bag for a number of days, and it costs as little as 15 cents to feed a strapping 45-pounder. Instead of devoting several hours to planning a meal, cooking and the clean-up detail after, it takes merely minutes to open a can or add liquid to the dry-type food.

Some 60 to 70 varieties of amaryllis are native to the Americas.

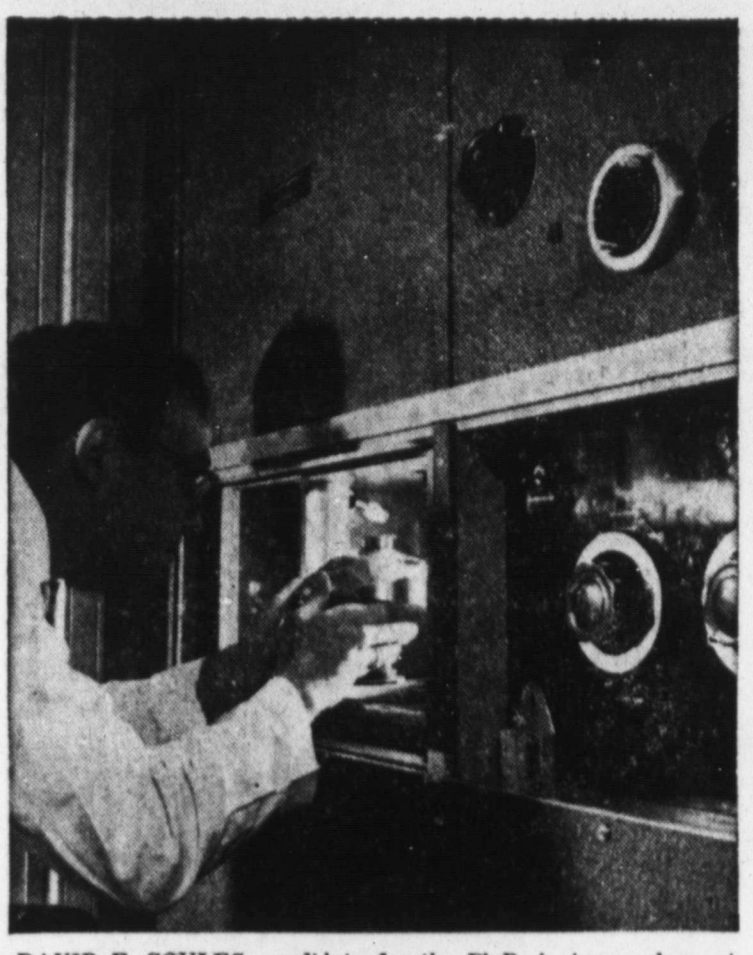

**'Whispering Smith' Returns For Repeat Showing At Rialto**

Alan Ladd, star of "Shane" and one of filmdom's most colorful players of adventure roles, returns to the screen of the Rialto Friday and Saturday as the Technicolor action film "Whispering Smith" plays a repeat engagement.

Co-starred with Ladd in the action-jammed story of railroad hi-jacking in the Old West are Robert Preston, Brenda Marshall and Donald Crisp, with support from William Demarest.

Based on the novel by Frank H. Spearman, the film concerns the thrilling adventures of railroad detective Ladd, whose steel fists and unerring six-guns belied his soft-spoken manner and made him an object of fear for law-breakers and a magnet for women. As "Whispering Smith" Ladd is in his action-filled element as he routs train wreckers and looters and pursues his dangerous job of protecting the lives and property entrusted to the railroad.

Set against this exciting background is a moving personal story—of Brenda Marshall, the woman who didn't wait for Ladd but married his best friend, Robert Preston; and of

DAVID E. SOULES, candidate for the Ph.D. in immunology at Wadley Research Institute in Dallas, demonstrates the Institute's newly acquired Spino Analytical and Preparative Ultracentrifuge. One of 275 such machines in existence, the Ultracentrifuge is used for the separation of various components of the blood and for determination of molecular weights. The powerful machine, which is capable of 70,000 rpm, offers new techniques in the study of leukemia and cancer of the blood. Wadley is the first private institution in northeastern Texas to acquire the Ultracentrifuge.

the bruly Preston, a railroad packed showdown has to face foreman who gets in with the the steely-nerved Ladd with the wrong crowd and in a tension- soft voice.

"All the Way!"**

**Pedestrians' Needs Goal Set By TSA**

"The pedestrian may be wrong, but he doesn't deserve a death sentence." Thus, a safety warning was given drivers today by J. O. Musick, general manager of Texas Safety Association, who spoke in behalf of TSA's current pedestrian protection program.

"Our high pedestrian fatality rate is an indictment of the selfish attitude displayed by many drivers," said Musick. Musick listed the following rules as musts for drivers who want to discharge their responsibilities to pedestrians in traffic:

1. Stop at crosswalks for pedestrians.
2. When stopped at a crosswalk, stay behind the line until signals change.
3. When signals do change, don't charge impatiently forward — give the walker a chance to get safely to the curb.

4. Be sure crosswalks are clear before turning corners.
5. Be extra cautious when approaching blind intersections or lines of parked cars.
6. In cities where "walk" signal is flashed — then proceed carefully.
7. Always keep a sharp eye out for children and elderly people, their movements are frequently unpredictable.

And Terry County Herald... Terry County's Oldest Business Institution

Vol. 20 Brownfield News-Herald, Thursday, Nov. 21, 1957 No. 76

## Cage Clinic Is Saturday

Harley Redin, Wayland Baptist College athletic director, has reservations for more than 200 coaches and players from all over Texas who plan to attend the second annual Hutcherson Flying Queens Basketball Clinic, Saturday on the Wayland campus. The clinic commences at 8 a.m.

Assisting Redin will be Marvin Williams, John Blaine, and W. C. Risinger, Williams coached the 1957 state champion Roosevelt High team. Blaine has had a great coaching record at Dimmitt. Risinger has coached many winning teams at Bula High School.

With the aid of the four-time national AAU champion Flying Queens, Coach Redin will present fundamentals, favorite offenses and defenses, and help

to iron out any problems that the coaches may have with their girl's basketball team.

The Queens will present actual court demonstrations of the various matters to be discussed. The clinic will close Saturday evening with a game between Roosevelt and Abernathy high schools in the Plainview High School Gym.

Seventeenth century courtiers wore boots with pointed toes so long they had to be attached to the knee.

Early Egyptian books were not only elaborately ornamented, but written on perfumed paper.

## MEET SATURDAY AT LITTLE ROCK

### Tech, Arkansas Staffs Need No Introductions

East meets West as far as the Southwest Conference is concerned, but introductions won't be entirely necessary when the coaching staffs meet before the Texas Tech-University of Arkansas game in Little Rock Saturday.

Texas Tech is the newest and westernmost member of the conference, about 500 airline miles from Fayetteville, home of the Razorbacks. Still, there are so many ties that someone could investigate an apparent interlocking directorate.

Both head coaches worked together for four years. Jack Mitchell of Arkansas and DeWitt Weaver of Tech were associates at Tulsa in 1949 and '50 before Weaver took Mitchell with him as an assistant when he assumed the athletic director-head coach job at Tech.

Mitchell coached Tech's backfield two seasons before going to Wichita University as head

coach. John Barnhill, the Arkansas athletic director, and Weaver were together at Tennessee. Barnhill was Weaver's freshman coach and later his line coach. Weaver wound up his Tennessee career as captain and All-Southeastern Conference guard in 1936.

Incidentally, just about the time Barnhill began his coaching career at Bristol, Tenn. High School, a fellow named Beattie Feathers was burning up the gridiron across the state line for Bristol, Va., High School. Feathers, who went on to earn Hall of Fame honors for his tailbacking at Tennessee, is now an assistant at Tech.

Another ex-Tennessean on the Tech staff is Bud Sherrod, outstanding lineman as an end on the 1951 Cotton Bowl championship team.

And speaking of familiar

## Bees Beat Ector, 26-0

The Brownfield B Team broke loose for touchdowns in the first, third and fourth periods here Saturday to register a 26-0 win over Ector in their final game of the season.

Jerry Browning sliced off tackle for 10 yards to break the scoring ice early in the first period after a 35-yard pass play from Leon Clark to Ronnie Goode set up the score. Clark booted the conversion to give Brownfield a 7-0 lead at the half.

Browning added the second touchdown on a 69-yard jaunt over guard, Lenis Roscoe throwing the block that allowed him to go all the way. The boot was wide.

Browning crashed over for one yard and his third touchdown later in the same period to climax a 60-yard drive by the future Cubs. Clark's boot was good.

The final TD was added on a crowd-pleaser in the fourth quarter. The Ector quarterback dropping back to pass, was hit by Ken Donaldson. The ball, which popped into the air, was gathered in by Murray Wells, who never broke stride as he went 60 yards for the score. The try for point was no good. Playing their best game of the season, the future Cubs completely dominated the game without threat by the Eagle B Team.

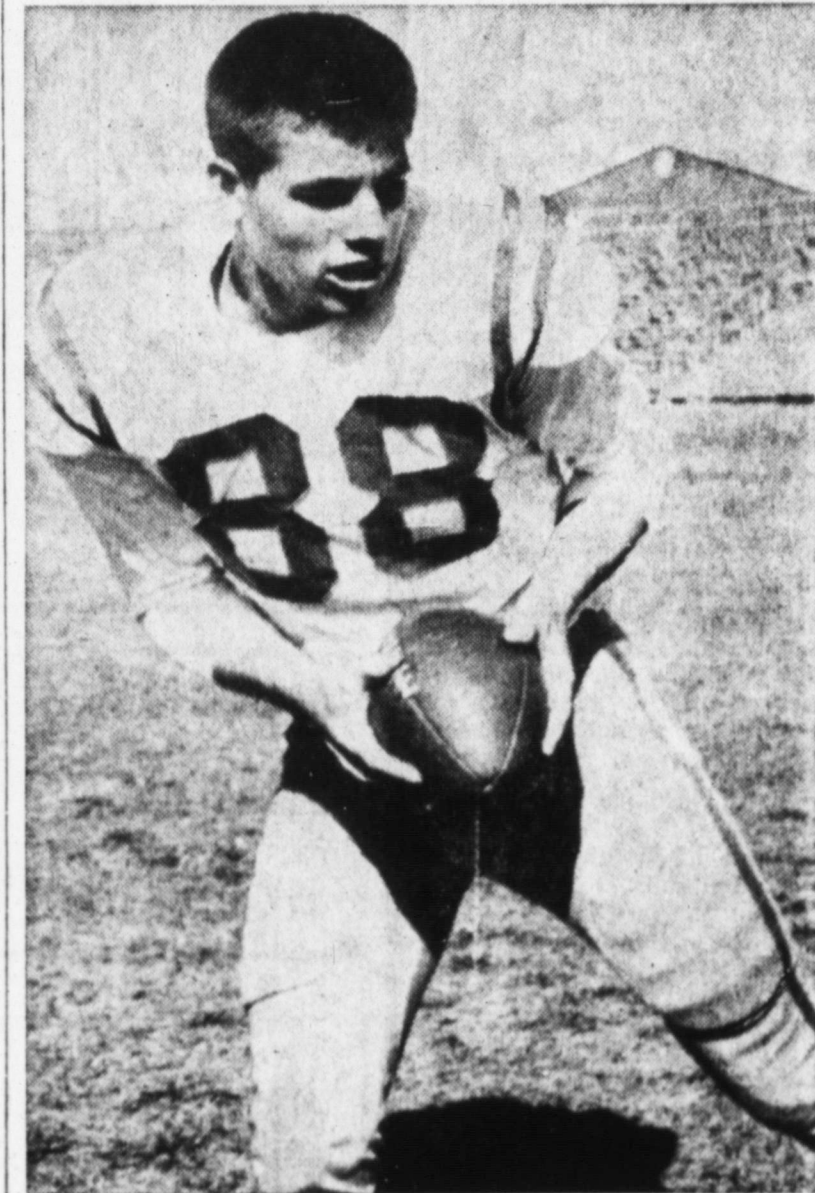

**SCORE BY QUARTER**  
Ector 0 0 0 0-0  
Bfd 7 0 13 6-26

Bounty-jumper was a term used during the Civil War to denote men who enlisted in the U.S. Army to receive the government bounty, then deserted.

faces, don't forget Dixie White, the Arkansas assistant. White was a guard on Texas Tech's only undefeated team, the 1938 eleven. A graduate of Lubbock High School, White is well known in Lubbock.

## ... HAS HUSTLE AND DESIRE'

### Joe Sharp Draws Praise From H-SU Coaching Staff For His Play

JOE SHARP

#### Top End For H-SU ...

"He's a good example of what a football player can do by sheer hustle and desire."

Hardin-Simmons end coach Wayne Millner used these words to describe his left end, Joe Sharp, who is playing his third year with the Cowboys.

Sharp, who went to H-SU as a center from Brownfield High School, was shifted to end after impressing Cowboy coaches with his rangy build and big hands.

The 6 foot, 2 inch, 195-pound end has turned in an outstanding job for the Cowboys in every game this year.

"He's the best all-around end we have," said Millner, a former great end himself for Notre Dame. "He's a great blocker, an outstanding pass receiver, and most of all a great team man. He can play either end position equally well, and I doubt if you can find another end in the Border Conference who can do that," added Millner.

An instance of Sharp's versatility occurred in the Texas Western game. He moved from his right end position to the other side of the line, proceeding to catch three passes for 40 yards and played a stout defensive game as well, noted the end coach.

"He doesn't have the greatest hands in the world," asserted Millner. "But he really fights for the ball. Through constant practice he has developed himself into a top-flight receiver." Sharp is the son of Mr. and Mrs. Virgil Sharp of 1312 North Atkins.

Inspiration for the Bloomer Girls was Mrs. Amelia Jenks Bloomer, 19th century advocate of abolition, temperance and women's rights.

### Meadow's Lassies Lose to Abernathy

Abernathy won two girls basketball games from Meadow Saturday, taking the B game, 46-7, and the varsity contest, 56-55.

Diane Owens had 26 points in the B game while Barbara Turner had 12.

Abernathy led all the way in the varsity game, holding 20-13, 30-25 and 45-37 quarter advantages. Margie Guinn had 23 points, Brenda Shipman 18 and Jodie Phillips 15. Hendricks and Betty Eubanks had 24 and 23 respectively for Meadow.

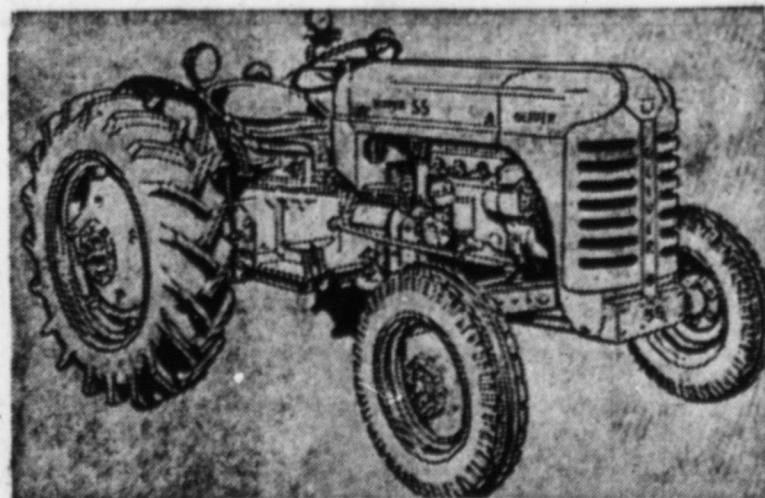

# Bryant Tractor Company IS NOW YOUR Oliver Farm Machinery Dealer for Terry County

## Complete Line of Oliver Farm Machinery

This Oliver power take-off Harvester does a thorough job of stripping at high speed and delivers the cotton to the trailer in a condition that's best handled by the gin without lowering the lint grade. Recommended for harvesting cotton after the leaves are dry, or partially removed by frost or defoliant, and best adapted to handling stormproof varieties. Available with mechanical power lift or equipped to accommodate cylinder of any hydraulic system meeting ASAE standards. See it today at Bryant Tractor Company.

- Top Speed in All Row Widths . . . and at Night!
- Saves Cotton . . . Does an Exceptional Cleaning Job!
- Simple Power Life . . . PTO-driven Transmission!
- Easy to Keep Gathering Units Close to Ground!

Low and compact — less than 51 inches to top of hood, 73-inch wheel base, front and rear tread adjustable from 48 to 76 inches.  
More powerful—designed to outwork all others of its type. Choice of full diesel or gasoline engine.  
Greater versatility — six forward speeds with a new super low of only 1 1/2 miles . . . independently controlled PTO . . . built-in hydraulic system and three-point hitch . . . long-lasting double-disc brakes.  
Come in and see it . . . drive it . . . ask to give it a free work test.

## From The Huddle

By CHARLIE MAPLE  
NEWS Sports Editor

**FUTURE TACKLE . . .**  
In case any of our readers missed us in Sunday's paper, there is an explanation. We spent Thursday night and most of Friday awaiting the arrival of a future Cub tackle.

David Paul arrived at 1:57 p.m. Friday and he and his mother are doing fine. He weighed in at six pounds, 7½ ounces, is 21½ inches long and possesses an excellent set of lungs.

Though a little on the slim side (something his pop can't claim) undoubtedly he will grow up to be one of the toughest tackles in Cub history.

**SIX MAN PLAYOFFS . . .**  
Though Coach Kenneth Sams attempted to entice Mobeetie to Brownfield for the bi-district playoffs, they declined, demanding a coin toss. Ken, having the usual luck, lost the toss so the game is set for 8 p.m. Friday at Pampa's Harvester Stadium.

We feel they could have had a much better gate if they had played here on Saturday but some people just don't listen to reason.

In addition to the fact that there are 16 Six-Man teams in this general vicinity, we feel that Brownfield fans would have swollen the gate a great deal—enough to make it well worthwhile to play here.

The Pampa game will have little to offer Panhandle folks with it being one of four tilts being played at Pampa this weekend, not to mention the numerous other top-notch tilts in the area. We aren't trying to detract from the game or its outcome — we just feel that Mobeetie goofed!

Here's hoping the Wildcats can overcome the Panhandle lads and maybe get the regional tilt here. If so, we urge everyone to attend. We wish the 'Cats luck this Friday.

**DISTRICT FINALE . . .**  
Another game that will be all important to Brownfield and Terry County will be the Cub-Yellow Jacket battle Friday at Kermit.

The blue chips are down for this one and we expect all stops to be pulled as the two teams battle it out. A Cub win would throw the district into a three-way tie involving Brownfield, Andrews and Kermit.

A Kermit win would give them a clear-cut title and the Cubs would have to settle for third in the district—one notch above their pre-season ratings.

Kermit has proved to be tougher than believed early in the season. However, Coach Doug Cox says the Cubs could take a share of the crown Friday if they play good, heads-up ball. If the hopes for tie should be claimed, the district repre-

sentative likely will be determined by a coin toss.

Though we would like to see the Cubs win Friday and go on to represent the district in the playoffs, we feel Andrews cause of their comparative performance. For further information about Kermit, see page one.

**MEADOW RUNNER-UP . . .**  
While we are talking football—we won't be able to do so much longer—we would like to point out that another Terry grid team did very well for themselves again this season, though they did not win their district.

The Meadow Broncos, co-champs of District 4-B last year, fell short this year when Whiteface edged them, 20-13.

The Broncos wound up second with a 5-1 record when no other team could furnish Whiteface a defeat. Though they lost, we commend the Broncos for an outstanding job and wish them even greater success in '58. By the way, they will be firing up for another cage season soon—they went to the state finals last season.

**HUDDLE'S HUNCHES . . .**  
One of the nation's upsets and betting on an under-dog dropped off Huddle's average last week as he picked five of seven for another .714 week. The average dropped to .714 for the season.

The week's grid menu looks pretty sparse with Wellman and Meadow through for the season and Union making the long trek to Pampa.

However, we will make another stab at picking the winners, perhaps for the last time unless the Cubs and Union keep going.

**Brownfield over Kermit, 20-14.** The Yellow Jackets have a lot to win in this game but not as much as the Cubs.

**Union over Mobeetie, 45-33.** With the job the Wildcats have done in this, their second, season, we have to go along with them.

**Andrews over Monahans, 26-7.** Monahans should be back in good shape for this one, but the Paines aren't likely to let a chance at the crown be taken from them.

**Pecos over Ector, 27-19.** We give the edge to Pecos in this battle for the cellar of 2-AAA. It could go either way.

**Arkansas over Tech, 20-14.** Would like to see Tech come off the floor again this week, but don't think it is likely this time.

Tin has accounted for about 70 per cent of the value of Bolivian exports in recent years.

By HUGH WILLIAMSON  
Literally, the weather is great for ducks.

A lot of Texans, you may be sure, have been thinking it over, inasmuch as the duck season opens November 1 and extends to December 30.

Big rains this year have broken the drought along the Gulf Coast, providing plenty of surface water for the birds. Conditions in the marsh areas of the upper coast are the best in 10 years.

There will be an excellent crop of such native waterfowl food as wild duck millet, smartweeds, duck potato, and pondweeds.

Along the lower coast, the duck prospects are also very good. October rain caused habitat conditions to improve rapidly.

Add to all this the fact that the duck breeding season in the North was a successful one, and you have every indication of good duck hunting in Texas during the coming season.

Many varieties of ducks come to Texas with the cool winds

of Fall.

Of the various kinds, the mallard predominates. A grain-eater, the mallard's flesh has a mild flavor. Fish-eating ducks have a stronger taste.

Biggest of the ducks available to Texans is the American Merganser, which may go to four pounds. Smallest is the green-winged teal, averaging three-quarters of a pound.

A duck hunter must know his birds — bag limits vary with the species.

**How To Do It**

What's the secret of duck hunting—or any wing shooting? Well, it takes a steady hand, a clear eye, and good coordination, of course, but it also takes a gun that fits the shooter.

With time and money, you can do business with gun specialists who will fit the gun to your particular needs.

You'll get all kinds of tests, including some in the field. At the end of a year or so you'll have your gun, which will fit you like an old shoe. It will cost you about two thousand dollars.

Most of us don't have that

kind of moola. But we can take our time in selecting a weapon, try it out, borrow a gun from a friend, talk about it, and be sure, before we purchase, that the gun fits.

Then we can go duck hunting, and if all the factors are right we can get birds.

**Practice Helps**

It goes without saying that practice is one of the elements of accurate wing shooting. Some rounds of skeet, before the season opens, should serve to sharpen the eye.

Another item is distance. A beginner is likely to blast away at ducks from afar, but a more experienced shooter will wait until they come closer.

At 12 yards, a duck looks bigger than a turkey. At 20 yards he shrinks to chicken size. At 30 yards, he's more like a pigeon, and at 40 yards, he's down to dove dimensions. Off there at 50 yards—he's an English sparrow, and at 60 yards, he's a hummingbird.

**Too Many Deer**

Game management officials are in some disagreement about reducing the deer population in some areas.

In Kerr County, for example, game commission biologists found that the land is overstocked and overgrazed. They recommended that hunters be permitted to kill doe as well as buck deer this season.

Kerr County commissioners rejected this proposal, and the state commission held with the

Kerr County group, so there will be no legal doe shooting in the county this year.

There is a strong likelihood say the biologists, that many Kerr County deer will die of starvation this winter. There is a different situation in the Engeling area of Anderson County where, on a block of land owned by the state commission, permits will be issued to kill 100 deer of either sex.

An excess of doe was discovered in the area.

**GAL WARDENS?**

Maybe Texas is going to have female game wardens. The notion has been put forward by Sportsmen's Clubs of Texas.

**Pickeler in Texas**

Did you know you can catch chain pickerel in Texas? You can.

That would be at Caddo Lake, where this relative of the northern pike and the majestic muckelunge abounds.

The pickerel lives in quiet, weedy waters and grows to 26 inches or so, and four pounds. A hungry citizen of Caddo's cypress swamps, the pickerel will strike practically anything that moves. He especially likes flashy underwater lures and noisy topwater baits.

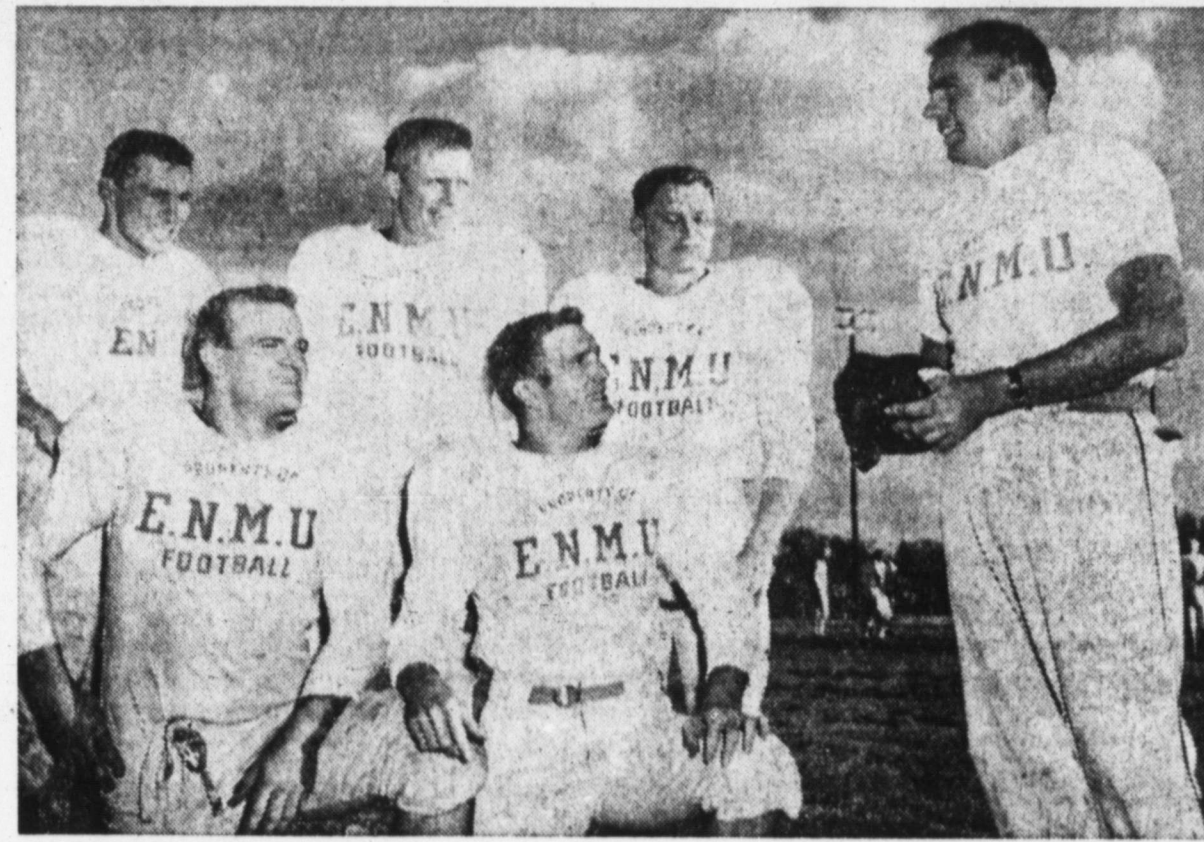

A mystery is where the pickerel goes in midsummer, but a good guess is that he seeks a deep, cool place and remains practically dormant. But in the Fall he perks up, and by November he is really ready for something to eat.

The pickerel, by the way, is a good eating fish. Skin him, remove bones, cut into narrow strips, dip in batter, and fry until well done.

**Skier-Fishermen**

After trouble between fishermen and water skiers on a California Lake, the U. S. Forest Service has set up some restrictions.

Anglers and skiers have

**SEASON ENDED** — ENMU Coach Carl Richardson, right, discusses season results with his Spur, halfback W. H. Condor of Kermit and five senior lettermen. The group was instrumental in providing the school with one of its most successful seasons this year. They are, from left standing, quarterback Curtis Blair of Spur, tackle Gerald Moore of Eunice, N.M., and Jerry Bailey of Brownfield. (ENMUphoto)

agreed to these regulations: Fishermen have the lake all to themselves on Saturdays, with no skiers allowed. Skiing is permitted from 10 a.m. to 4 p.m. other days, within boundaries marked by buoys.

Well, nobody wants to be regulated, but regulation will come to our Texas lakes if the fisherman and skiers can't get along with each other. They can because all it takes is courtesy, thoughtfulness and consideration of the other fellow.

### Adequate Quarters Goal For Game And Fish Commission

Senator Bill D. Wood, Tyler sportsman and conservationist, said he hopes to get Senate committee action on his resolution designed to assure adequate state headquarters for the Game and Fish Commission in the new capital building program.

He said a companion resolution will be presented to the House at an early date, with "substantial supporters."

Senator Wood added that several Senators have expressed interest in his original resolution which was referred to the Senate Game and Fish Commission for consideration.

Senator Wood, who acted in behalf of Sportsmen's Clubs of Texas, said: "It would be tragic if one of our major state agencies, which really should be the showplace for the new statehouse building plans, should be isolated in an ordinary office building."

His resolution cited SCOT's recommendation that: "Any permanent planning should provide for separate natural resource quarters, with emphasis on a Texas Museum of Natural History where the routine business of our wildlife affairs could be constantly stimulated by proper environment commensurate with Texas tradition."

Wood said he envisioned a distinctive Game and Fish Commission headquarters with an elaborate display of game and fish life, both as exist today and as existed in pioneer days. His resolution cited that since the Commission operates exclusive of the general revenue fund, it might be able to finance its own permanent quarters.

The Tyler senator said he understands that the space allocated for the Commission, now located in a single floor of an old downtown Austin building, actually would be less than the present quarters.

This meager raise is a pitiful increase to tack on a starvation allotment, but at least it that Texas voted in favor of the Constitutional Amendment to boost old age pension checks \$2 a month.

Texas, our so-called "land of the big rich," unfortunately still is the "state of the hungry old folk."

But it is encouraging to note shows we Texans are moving in the right direction.

In my recent fact-finding visits in all parts of the State, I have found that our old folks who have so little are the ones who have been hit the hardest by the continual cost of living increases.

Some death certificates list the cause of death as "malnutrition," which usually means the person could not get sufficient variety of food to avoid starving.

We Texans like to brag about everything in our State being the biggest and the best, and that is the way it should be. Yet, we certainly can't brag about the way we take care of our old people.

The average monthly old age assistance grant in Texas is \$45.05 compared to the national average on such checks of \$59.01. Texas is nearly \$15 a month below the national average and ranks 40th among the 48 states. Of all the assistance paid in Texas, over 65 per cent comes from the Federal government, so it is evident this critical problem requires action by our State Legislators.

I believe that our pension average should be raised to at least \$65, and I want to work with all people who want to do something about these measly, miserly pensions.

Everytime there is a movement to raise old age pensions, some selfish interests and unconcerned politicians holler, "It's socialism". This criticism is plainly selfishness. We are strengthening — not softening — the moral fibre of Texas when we answer the needs of those who have done a life's

### NATIONAL DOG WEEK

by Dr. E. M. Gildow  
Director, Fritskies Research Kennels

When you adopt a dog, he takes you for better or for worse. He'll stick by your side through happiness or heartbreak, always eager with a wag of the tail and a hello to let you know he admires you and that you're the most important person in the world. To lonely, elderly people he's a companion, giving a purpose in life that might otherwise be missing. To youngsters, he's a teacher as well as a pal, showing them the meaning of responsibility, of fair play and tolerance. To millions of just plain people, he's an eloquent welcoming committee of one whenever you come home, a silent partner who understands your every mood . . . sympathizes with you in times of trouble and shows his happiness when you're happy.

To commemorate all things that all dogs mean to all people, National Dog Week is being

celebrated September 22 to 28. Originating back in 1928, this Week is dedicated to the worth and welfare of the dog and a better understanding of his status in the American scheme of life.

National Dog Week is now sponsored by the National Dog Welfare Guild, Inc.

The theme of this year's observance is "Combination for Character," the theory being that any child who expresses love for animals will also express love towards people and things.

Aluminum is the most abundant of metallic elements.

work. We will be doing only what is right and decent when we provide our people with enough milk and bread and a little meat.

## Superstition Is No Block To Wayland School Homecoming

Wayland Baptist College defies superstition this year when the 1957 Homecoming Celebration begins 10 a. m., Friday, December 13, with a chapel address by Ernest Craig of El Paso.

Craig, assistant general agent for Aetna Life Insurance Company's El Paso division, is a former Wayland student, dean of men, instructor and coach. Last January he was elected to serve on the El Paso City Council for a two year term.

Unique aspects of this year's homecoming are the coronation of the queen Friday at 7 p. m.; the high school band contest Saturday afternoon; and the dinner for former students at 5 p. m., Saturday. The latter two

events are sponsored by the Association of Former Students, according to C. L. Beard, president. A business meeting of former students will be held during the evening dinner.

Former students will form the judging committee for both the parade floats and the dormitory displays, which will be designed along the theme of "The Fabulous Forty-Eight".

"All My Sons", by Arthur Miller, will be presented by the Wayland Speech Club Friday following the coronation. Henry Eason is the director.

Following the 11 a. m. parade there will be a western-style barbecue Saturday noon on the campus grounds. This will give way to the dedication of an-

other link in Wayland's "Memory Walk", a Future Parade of the children of former students, a talent show and a bonfire.

Activities will be concluded Saturday evening when the four-time national AAU champion Hutcherson Flying Queens and the Wayland Pioneers take on basketball teams from Kansas and California.

Water will boil at less than 212 degrees F. at high altitudes because of the reduced atmospheric pressure.

The term bluestocking to describe a learned woman was first used in Boswell's "Life of Johnson."

## The 58 FORD is here now...

there's nothing newer in the world

With all that's new for a world of difference

There's bold, new styling—new Interceptor V-8 Power—new Cruise-O-Matic Drive—new Ford-Aire Suspension! The 58 Ford is the only car ever to meet a world-wide test and win world-wide approval before its public premiere!

You could search the world over and never find a car to match this 58 Ford's new beauty . . . new power . . . new ride . . . all at the low Ford price. We know! We tried it!

In Paris . . . the most style-conscious fashion critics in the world had a deep, low bow for Ford's latest style creation. In the mighty Himalayas, Ford's new Interceptor V-8 engine with Precision Fuel Induction won the day!

Then there's nothing newer than the true air ride of Ford-Aire Suspension. It's like riding on a cloud! But, you don't have to go to foreign soil to drive this newest Ford. We'll gladly save you the trip. Come in today!

From London to Bangkok . . . the whole world loved it!

The 58 Ford stopped traffic in Trafalgar Square when it passed through on its round-the-world trip. And that was typical of the excitement this Ford caused in Paris . . . Rome . . . Athens . . . Istanbul . . . Calcutta . . . and Bangkok. For this Ford was proved around the world in the toughest "shakedown" cruise in history.

HERE'S NOTHING NEWER IN THE WORLD OF STYLE!

THE WHOLE WORLD SEEMS SMALLER WITH FORD'S NEW INTERCEPTOR V-8 ENGINE!

Smooth as they come . . . smart as they go. The Fairlane 500 takes the 58 styling cake, going away (arriving, too!)

COME IN . . . SEE THE CAR THAT WAS PROVED AND APPROVED AROUND THE WORLD!

# GIVE *to your* Community Chest

November 21 — December 7

Our Goal Is . . . \$15,475

YOU CAN PAY AS YOU PLEASE . . .

- . . . By Draft Monthly, Quarterly, Annually.
- . . . Check or Cash During Campaign.

The health, welfare, and recreational organizations of this community and the people served by them . . . greatly appreciate the splendid support you have given them in the past. With your one generous contribution one time each year, you help all of our charitable groups in giving aid where it's needed most . . . To the young, the ill, the aged, to the cripples, and to keep devastating diseases from healthy bodies like mine and yours.

LET US NOT FORGET . . . This Is Not My Community Chest, or Your Community Chest . . . It Is Ours!

**You Are Giving To Eight Organizations — Not One!**

## GIRL SCOUTS . . .

When you give to the Community Chest you are helping to make better citizens out of little girls who participate in Scouting. We are now a member of the Caprock Girl Scout Council and have access to trained scouting assistance which in turn makes our local efforts more effective.

## BOY SCOUTS . . .

The boy scout organization is well known to all of us and certainly we know what a marvelous training job they are doing. We belong to the South Plains Boy Scout Council and have one full time salaried man living in Brownfield now, Mr. Don Reese. When you give the united way you are helping to train young men with the moral fiber for the future.

## RED CROSS . . .

The American Red Cross is another organization that has been with us a long time and if they were not doing an over all good job, they would fold up! About 30% of the Red Cross allocation stays in the County, and we hope Brownfield will never have a big enough catastrophe to need the national's assistance. The local money is used to assist U. S. Soldiers in getting home during emergencies, etc.

## CRIPPLED CHILDREN FUND . . .

This fine organization assists our local people who have crippled children. They buy crutches, braces, eye glasses, etc. for families who cannot afford these items for their children. They also call on the National Society when the problem is too big for local unit to handle. They also help get scarred tissue removed by getting injured children to plastic surgeons over the state. Your giving the united way gives some crippled child a better chance and a way for a better life.

## SALVATION ARMY . . .

The salvation army is the one organization who assists citizens in our community when they are in need of food, gas to get to the next town, housing when they are cold and out of money, medicine when they are sick, and in many instances help them to find work. These are destitute people who live here or who are passing through. The most of this money goes for food. This is another example of how you help others by giving through the Community Chest.

## HEART FUND . . .

As we all know, heart ailments are taking a terrific toll each year. A lot of money is needed for experimental purposes to determine the causes as well as how to take care of different heart ailments after the attacks have come. The most of this money goes to the national association to be used on research, etc.

## GOODFELLOW FUND . . .

It has been an American tradition for a long time to try to make some under privileged family happy during the Christmas Season by giving them toys, food, etc. If you would like a heart warming experience Christmas, volunteer to help deliver these baskets Christmas day. See the smiles from little children's faces, hear the words from these mothers, and give yourself a thrill you will never forget by helping some poor family have a good Christmas. Your Community Chest is so worthwhile . . . Give generously today!

## VOLUNTEER FIREMAN . . .

This is the first year to include this group in our Community Chest. This money goes towards a retirement and pension fund for volunteer firemen who serve us here in Terry County. This fund provides for a \$25 per month income for volunteer firemen who serve for 20 years and who are 57 years of age. As you know our volunteer firemen draw no salary, yet they pay \$5 per year dues and since that is not enough income to take care of the retirement fund, your community chest felt it their duty to help. There are 8 volunteer firemen who are getting \$25 per month and 1 fireman's widow here in Terry County.

"The Red Feather Symbol Of The Community Chest Stands For Service, Not Charity  
GIVE TODAY . . . 1 DAY'S PAY!"

The Polio Fund and American Cancer Society Have Been Invited to Participate in The Community Chest, but Have Refused to Come In!

**One Day's Pay Is All You Are Expected To Give!**

# TERRY COUNTY COMMUNITY CHEST

## Highlights and Sidelights FROM YOUR State CAPITOL

By VERN SANFORD  
Texas Press Association  
AUSTIN—Texas's lawmakers are striving hard to forge a

to a depression."

Hammond told the 1,500 Farm Bureau members convened at Dallas' Hotel Adolphus "we cannot allow agriculture to trigger an economic setback from which we might never recover."

The state farm leader pointed out "since industry and labor enjoy their tariffs and their wage and hour laws, it is only fair that we have some sort of economic protection for agriculture."

He stated that continued price support legislation must be the core of any farm program—a floor to prevent disastrous price slumps. "After all, we must buy in the captive market of industry and we must pay any price collectively bargaining can obtain," he said.

The Farm Bureau leader told the voting delegates from some 175 organized counties that they had the responsibility of selecting a sound farm program. In reviewing several of the plans currently being suggested to various groups, Hammond cautioned against going away with all government programs.

"It is not fair for agriculture to operate in a pure free enterprise economy while industry and labor enjoy special privileges," he declared. "This would be turning the lambs loose for the wolves to slaughter. On the other hand, we must keep in mind that the law of supply and demand is a basic law, and we must always adhere to its principles."

As for the proposals to bolster farm income by compensatory or direct production payments the Farm Bureau leader urged a careful analysis of possible results. Under such a plan, the government would pay producers the difference between the free market price and a level of parity (most proposals say 90 per cent) set by the government.

"These compensatory payments would be direct subsidies and we could expect that the government would exercise a very rigid control over agriculture because of that," he pointed out.

"Another danger in such a program is that there is always a tendency to limit the amount of payment that any one operator could receive. The net result would be the leveling off of incomes for all farmers and ranchers."

Hammond told the convention delegates that such a program has another built-in fault. "It takes money to pay for it, money that has to be appropriated by Congress," he stated. Can you or I afford to have our incomes dependent upon the whims of Congress?"

He said that he believed that "most folks advocating direct production payments are sincere in their desire to help agriculture. But, we must analyze any program from the standpoint of what it will do to agriculture in the long run."

new tool for dealing with police powers, insofar as school segregation-integration problems are concerned.

Proposed is a "last-resort" law to be used, presumably, in situations where threat of federally-enforced integration is met by strong local opposition. It would allow the school board to shut down the school until "the earliest possible time when peace and order can be maintained without the use or occupation by military forces."

Gov. Price Daniel's call also asked that the law provide (1) that state aid, accreditation, salaries, etc., not be affected by the closing, (2) that school boards may transfer local pupils and (3) that the attorney general be authorized to assist local school districts in contesting integration suits in federal court.

Though Legislative operating funds ran out the weekend, both House and Senate decided against a "crash" program to enact the bill overnight. Strong opposition was not foreseen, however.

**FISCAL HANGOVER** — Lawmakers who return for the next regular session in January, 1959, face a "morning after" atmosphere with a \$12,000,000 headache.

Last summer State Comptroller Robert S. Calvert predicted the state would end this two-year period with a \$6,000,000 deficit. His latest estimate doubles that figure.

Calvert revised his figures after voters this month approved a constitutional amendment upping state pension payments.

Legislators already are skating on the edge of financial embarrassment in their day-to-day operation. Fund for their salaries, expenses, etc., was down to about \$45,000 when the first session ended. With costs running about \$11,000 a day, they were due to start drawing this week on the governor's deficiency fund, earmarked for "calamities."

But the real calamity, as many legislators see it, comes year after next when they will have to find a way to glue the "busted" budget together again. Most agree, gloomily, that it means new taxes.

**NO "THRILL", BUT** — Legislators' comments on the laws passed during the first special session ranged from "monstrosity" to a shoulder-shrugging "better than nothing."

But they did pass — all five that the governor asked.

Spokesman for the governor admitted he wasn't exactly "thrilled" with the watered-down water bill, but that he would accept it. In a public statement Governor Daniel commended the lawmakers for their accomplishments.

Bottle charts are maps showing the courses of sealed bottles thrown in the ocean.

**HEMMED IN** — An unidentified Cub ball-carrier moves for good yardage despite being surrounded by Mustangs tacklers in Friday night's tilt. Bob Cloe, right, attempts to break the carrier loose with a block on Tommy Jackson (23) as Robert Wright (32) leads the play. (NEWSfoto)

## West Texas Clothing Industry Ranks High

West Texas's apparel and related industries now employ approximately 20,000 persons according to an article in the November issue of West Texas today, official publication of the West Texas Chamber of Commerce.

The article, a survey of all apparel factories in the 132-county West Texas region, reveals that there are 193 factories in 63 different cities.

Fort Worth has the largest number of factories with 34. El

Paso had 29 and Waco, with the third largest number, has 12. San Angelo, Amarillo, Abilene, Gainsville, Wichita Falls and Brownwood, in that order, have the next largest numbers of apparel manufacturers.

Articles manufactured by the companies include work clothing, sportswear, children's clothes, military uniforms, millinery products, gloves, professional uniforms, nylon hosiery and a wide assortment of leather goods and accessories.

Some five per cent of the companies have international distribution of their products; one-third have national distribution; one-fourth have regional distribution in several states; eight per cent have state-wide distribution; five per cent have several county distribution and about four per cent sell their products in a completely local market.

Among the articles bought in large quantities from out-of-state companies are women's sportswear, men's work clothing and children's clothes.

## Farm Bureau Head Says Agriculture Must Demand Economic Protection Now

The president of Texas Farm Bureau declared today that farmers and ranchers must demand some form of economic protection as long as agriculture is forced to "buy in the captive market of industry" and has to pay "any price collectively bargaining can obtain."

J. Walter Hammond told delegates to the organization's 24th annual convention that the segments of nation's economy are interdependent. "If one segment lags too much, all must bear the consequences," he stated. "All depressions in our history have been farm-led and farm-fed. When the buying power of agriculture falls behind, workers must be let off in industry. This results in even less buying power and more workers lose their jobs. Thus we have the downward spiral that can only lead
