**1916 NEEDLE CLUB**  
Members of the 1916 Needle club and several guests were delightfully entertained in the attractive home of Mrs. George Tickle in Main street, with Mrs. Fred Spikes as joint hostess, on Wednesday afternoon.

Chrysanthemums in pretty colors were indeed pretty throughout the receiving rooms.

Dainty needle work and pleasant conversation utilized the hour after which a delicious refreshment course of sandwiches, potato chips, pickles and coffee was served to Mesdames J. H. Kimmel, Temple Ellis, John Moore, F. V. Brown, T. E. McCoy, K. Carter, R. D. Moxley, Perkins, Bullock, Patterson, and Johnson.

**TROOP FIVE OF THE BOY SCOUTS ENJOY HALLOWEEN PARTY**  
Mrs. John L. Vaughn delightfully entertained members of Troop Five of the Boy Scouts on Friday evening honoring her sons, Leroy and John Henry.

Scout Master Adrian Merrill proved an excellent leader for the evening's games.

Halloween decorations were developed throughout. Interesting ghost stories and riddles telling proved a delightful diversion. Prizes were awarded Jimmie Roberts and Roddy O'Neal six winners in a prize race.

At the close of the evening's entertainment pop corn balls, apples and candy were served to Jimmie Roberts, Henry Roberts, Raymond Bay-  
rier, J. Roy Merrill, Roddy O'Neal, Charles O'Neal, Jack Christian, Jack Sims, Cecil Davis, Stanley Noah, Leroy Vaughn, John Henry Vaughn, Leroy Paulger, Carroll Thompson, Jordan Cunningham, Junior Douglas, Carroll Kelley and Adrian Merrill.

**PEEWEE AND SUNOWA CAMP FIRE GIRLS ENJOY EVENING**  
The attractive home of Mrs. G. M. Cosby was opened Saturday evening to the Pee-wee and Sunowa Camp Fire girls and their friends.

The guests arrived in costume and found everything ready for their entertainment. Halloween decorations so effectively used formed an appropriate background for the ghosts and witches good times. The fortune teller arrived amidst ringing bells and causing a bit of commotion when she seated herself and asked if they wished to have their palms read, when each guest was blindfolded and her palm was painted red, causing much fun and laughter.

Halloween games were enjoyed until a late hour when apples and all-day suckers were served.

**NEW BIBLE CLASS WILL ORGANIZE IN CITY**

The torch of civilization, the great leavening influence of society and, indeed, the world's progress in all realms all find their primary in God's Word, all emanate from the Old Book. Therefore the supreme end of humanity today is to know more about the Word. A Lubbock Bible class is to be organized Wednesday evening at 7:30 o'clock at First Christian church, 16th street and avenue J. It is purposed to conduct a non-denominational Bible study class weekly under the able leadership of Mr. and Mrs. A. L. Page, Bible teachers who have just recently moved to Lubbock. Mr. and Mrs. Page have been teaching God's Word and conducting Bible conferences for 15 years in California and Texas points. They have just finished a two-weeks meeting at Anton and a four-weeks conference at Slaton. Bible clubs have been formed at these places. The Anton club meets every Monday night and the one at Slaton every Friday night.

Membership in the Lubbock class is open to men and women of all faiths, or none; there are no dues or expenses, embarrassing questions are not asked and the only requisite is to attend whenever possible and be willing to listen to the exposition of God's word. Persons attending will be trained to handle the Word of Truth aright, and should become better Sunday school teachers and Christian workers, thereby able to render better service to their pastors and respective churches. Denominational differences will not be discussed or argued; only the plain,

**50 Couples Have  
Good Time At Elk  
Dance On Saturday**

About fifty couples, nearly all of  
whom were young married people, en-  
joyed the regular weekly dance held  
last Saturday night at the Elks hall.  
Frank Walker, manager of the Texas  
Tech Trumpeters, the orchestra which

has been playing the dances here, said  
this morning.

According to Walker the dance was  
a Halloween affair and several kinds  
of horns and noise-making instru-  
ments were passed to the dancers as  
prizes. The consensus of opinion of  
the people here who have been at-  
tending the dances seems to have been  
that last Saturday's dance was one of  
the best ever held at the Elks hall.

ELTCTRICITY Solves Many Problems. Electric current is one of the world's greatest and most useful commodities. To a certain extent, industry depends upon electric power—adequate, constant, economical power. The power situation in Lubbock has been met by the services of electricity as provided by the Texas Utilities Company. Electric power for the user eliminates many costs and much bother. There is no fuel question for him. There is no investment in power plants, no fireman and engineer, no smoke, dirt or ashes. A placing of the switch and the power is there at his command. An interval when the power is not required, and the costs are instantly stopped. This Company is prepared to consult and advise as to power application, both large and small. The services of its engineers are available, and its power service is highly desirable. ### OFFICIAL MAKES CLAIM OF FRAUD IN HIS DEMANDS

CONTINUED FROM PAGE ONE  
The defendant is alleged to have received \$55,632.70 and to have spent \$27,618.76, representing a profit of \$28,014.94; that on maintenance alone there was a profit of \$66,015.35 on a gross income from the state for maintenance of \$112,030.25. The company is alleged to have received a total of \$1,333,269.05 for resurfacing which, it is claimed, cost the company \$394,248.54, and on which work, they are alleged to have made a profit of \$539,049.21 between April 1 and October 1. For the construction of Texas highways in Parker county the company is represented to have received \$270,620 on work which cost the company \$159,973 showing a profit of \$110,646.

**Fraud is Claimed**  
"It is now shown," the petition reads, "that the above-mentioned contracts were made in fraud of the State of Texas and the people thereof and were and are beyond the power involving upon the highway commission of the State of Texas and not now and never have been binding upon the State of Texas and ought to be cancelled. As disclosed by the terms of said proposals and attempted acceptances the highway commission agreed to pay to the American Road company for asphaltic surfacing of designated highways the sum of thirty cents per square yard. Said price was not then and is not now a reasonable price for said work as was known or should have been known to the contracting parties, and the said members of the highway commission who acted in the attempt to make said contracts, were wholly without authority to impose upon the State of Texas and the people thereof the excessive and unreasonable burden represented by the attempted obligations of said asphaltic surfacing contracts."

Continuing, the petition says: "It is now shown that there was no competitive bidding solicited or had regard to the attempted letting of such contracts. Frank V. Lanham, prior to his appointment as chairman of the highway commission of the state of Texas, was for many years engaged in the business of constructing, maintaining and improving public highways and the said E. S. Heyser and Whitaker Brodnax are and were at the time of the aforesaid agreement, were experienced highway contractors and they each and both of them knew, or ought to have known, that the prices agreed upon between them for the work of surfacing such highways in Dallas and Tarrant Counties and the work of constructing such highway in Parker County and prices generally agreed upon for the performance of the work then contracted for, were unreasonable, exorbitant, grossly excessive and unconscionable and that such knowledge or notice upon the part of said Frank V. Lanham or the said E. S. Heyser, or said Whitaker Brodnax constituted said purported

### WHEELER ASKS AN ACQUITTAL IN OIL CASE

WASHINGTON, Nov. 5. (AP)—Senator Burton K. Wheeler, democrat, of Montana, prosecutor in the Senate Daugherty investigation, asked the District of Columbia Court to dismiss indictments charging him with conspiracy to defraud the federal government in connection with oil prospecting permits in his home state. Two principal grounds for the motion were advanced: That the senator was acquitted by a jury in the federal courts in Montana, on a charge based on identical allegations of facts, and that the District of Columbia courts have no jurisdiction over the offense charged or sought to be charged.

**Argue This Month**  
The plea of formal acquittal and the demurrer alleging lack of jurisdiction probably will be argued the latter part of this month. Should the courts sustain the plea of formal acquittal of the demurrer the case would be ended so far as the present indictment against Senator Wheeler is concerned and the prosecution here probably would not be renewed. Should the court overrule the demurrer and plea, however, Senator Wheeler still could avail himself of a plea in abatement charging irregularities in obtaining the indictments in the District of Columbia. If this should be denied the case then would come to trial on its merits.

The plea of former acquittal set forth in details the counts against Senator Wheeler in Montana and alleged that the same transaction was involved in the indictment returned in the District of Columbia. The indictment here charged the Montana senator with conspiring with Edwin S. Booth, former solicitor of the Department of the Interior; Gordon Campbell, Montana oil operator, and James F. McGowan, to defraud the United States out of 10,000 acres of oil lands in the public domain in Tule County, Montana.

# Tech Matadors Meet Wayland College Here Tomorrow At Fair Park In Sixth Game Of Season; Wayland Coming Strong

With the scalp of three opponents dangling from their belts, and tie counts with two other T. I. A. A. contenders, out of a total of five starts this season, the first on record for Texas Tech, the Matadors yet undefeated, are now planning to receive their sixth caller when they meet the Wayland College grid crew on the Fair Park grounds here Thursday afternoon.

According to reports drifting into Matador headquarters, various clubs throughout the state are beginning to watch with a great deal of interest the performance of the formidable machine assembled by coaches Freedland and Hitchbottom the first year, and past records will bear out the statement that the Matadors will certainly bear watching for they now threaten to make a clean sweep of the season's schedule, which includes two or three of the hardest hitting T. I. A. A. clubs in the state.

The most remarkable feature of the performance of the Tech crew is the fact that the coaches started from rock bottom, with an entirely unknown squad with potential strength sufficient to warrant entry into big time football in the southwest. Many of the boys who made regulars in the Matador machine finished high school last year and are now in their first year at college. This is in itself a record achievement, for very seldom, if ever, does a first year man have a chance to break into the limelight of football until after he has passed the "fish" stage.

More than one cause might be cited for this, however, at Tech, for only freshmen and sophomores are being admitted at the college this year. It is an admitted fact, though, that there are plenty of men in the Tech who have had experience in college football to make up a first string crew, but the coaches operate on the policy that it is not experience alone that counts, but the ability and willingness to hustle and show results.

The contest tomorrow is looked upon by fans here as one of the easiest on the entire schedule, and if season's records could be accepted as an absolute authority, this decision could not be questioned. But there are many things that might combine to make a sharp change out of the dozens of previous and the results of the game itself, and this alone, is what counts toward a win.

Wayland College went down in defeat at home last Saturday before the attack of the Clarendon College Bulldogs. It is noted that Tech had previously beaten the Bulldogs here 12 to 7, which gives heavy odds to the Matadors for the coming clash. But by the law of averages, it is hard for any club, regardless of its strength, to continue to maintain an unbroken string of victories, and it is also admitted that fact that Wayland College will be after the Tech with all they might possess.

Overconfidence in a football crew is a thing to be discouraged among all things, in the opinion of coach Freedland, and although the Matadors have never shown any tendency along this line they are advised to be always on their guard against it. In line with this, some of the boys admitted after they returned from San Angelo where they beat Sul Ross last Saturday, that they had learned a lesson in regard to this. They entered the game believing that it would be easy, and that they would not have to exert themselves to win, but toward the latter stages of the first half came a realization of what they were up against, and delivered.

The game here tomorrow will be called at 2:30 at the Fair Park. It is understood that many Plainview people will be in attendance in an effort to carry the Wayland College colors to victory.

a very convincing manner.

Baylor Bears Follow.

Since the Rhoadicks are to be followed by the tough Baylor Bears, on November 14th, the Mustangs cannot afford to be crippled up very much, and the excellent manner in which the club came through the Texas game put the Pony members in a very good humor. Ox Key, who played a masterful game at end, and Howard Wade, flashing half back and line buckler, were the most severely heaped but they will be able to get down to the hard hitting Fresh team from their injuries responded to the hot water treatment late Monday, most of the soreness coming out at that time. Participants in Saturday's brawl with the Texas U. outfit got off light Monday, talking only lumbering up exercises while the reserves and second stringers were put through a grueling scrimmage against freshmen. Plenty of competition was furnished the reserves by the freshmen, using the Arkansas plays, and the second string men found it almost impossible to stop them while the reserves and second stringers were put through a grueling scrimmage against freshmen. Plenty of competition was furnished the reserves by the freshmen, using the Arkansas plays, and the second string men found it almost impossible to stop them while the reserves and second stringers were put through a grueling scrimmage against freshmen.

**Ends Work in Back Field.**

Dug Dawson and Ox Key, the two flashing Pony ends are being worked out this week in formations that may see them running in the backfield. Key, perhaps the rangiest man on the club, has the makings of an ideal backfield star, and if he shows up as well in practice against the freshmen this week as he looked in signal drill Monday, he will undoubtedly be given an opportunity to strut his stuff against the Ponies.

Tickets for the Arkansas game are meeting a steady demand at the downtown ticket office in the Adolphus Pharmacy, while many reservations from out of town patrons of the Ponies are being made for the Thanksgiving Day game against Drake in Dallas. Tickets for this game against Drake, in Dallas, will be sold at the Adolphus Pharmacy next Monday morning, when the Baylor University sale opens at that place. Reservations mailed to the S. M. U. office in the D. A. C. will be taken care of at once, and out of town patrons may be assured of obtaining good seats.

## Mustangs To Face Razorbacks On Saturday

Special To The Journal

DALLAS, Nov. 4. — Ray Morrison was not so gloomy as he might have been Monday afternoon, when his scrapping Red and Huc Mustangs departed to Owenby Oval for practice following their "victorious" tie with the University of Texas Longhorns here Saturday. Only one or two slight injuries, mostly bruises of the sort common to hard playing football players, were left to remind the Mustang mentor that the club had gone through a strenuous tussle, and made the matter of getting ready for the tough University of Arkansas Porkers in the third game of the conference schedule a much easier matter.

Morrison faces a tough job this coming week end, and he realizes it perhaps more than any one in Dallas. For the past four years Arkansas has been a real thorn in the side of the Mustangs, and this season, after having gotten away to a poor start, the Razorbacks give promise of coming to Dallas in the best condition of the year, ready to trample the Ponies in

# PROMINENT CITY MAN DIES AFTER 14 DAY ILLNESS

## WAS LEADER IN LUBBOCK CIVIC AND FRATERNAL WORK MANY YEARS

Chris Harwell, well known local man and pioneer of the South Plains of Texas whose efforts possibly have meant as much in the development of the state as any individual in the state, passed peacefully into the Great Beyond at the West Texas Hospital here at 2 o'clock Wednesday morning after a short illness brought on by a stroke of paralysis fifteen days ago.

The stricken man had lingered between life and death since Sunday afternoon, when he lapsed into unconsciousness for the first time since he was confined to his bed with the stroke, and although every means known to medical science was resorted to in an effort to save his life, he proved unavailing. He was wholly paralyzed on his left side, and the right side was partially paralyzed.

His last moments were peaceful, and he died peacefully at 2 o'clock Wednesday morning after a short illness brought on by a stroke of paralysis fifteen days ago.

appreciated men in this city or county, always being ready to offer an assisting hand to the unfortunate. His work along charity lines was of wide scope, but he went about this in his usual unassuming and quiet manner, and very few people ever knew to what extent he offered his assistance along this line.

He is survived by a brother and sister, G. C. Harwell, of Hoop, New Mexico, and Mrs. J. M. Harwell, of Farmers Branch, near Dallas, several nieces and nephews, the most of whom live in Texas, and a host of friends and admirers throughout the entire state.

Funeral services, as announced here Wednesday, will be held at the First Presbyterian church, at 2:30 with Rev. Jack M. Lewis, pastor, officiating. The remains, which will lie in state at the parlors of the Rix Undertaking Co., will be accompanied to the services by a board of directors, including the Masonic Lodge, which deceased loved so well, and followed the services at the church the Masons will take charge of the body and will conduct the final rites at the cemetery.

The following pall bearers have been announced for the ceremony: Active — E. L. Robertson, W. C. Grimes, Douglas Pounds, Joe Boyd, S. C. Wilson, Geo. Carter, Edwin Wolf, and L. L. Allen.

Honorary — Dr. R. J. Hall; Rev. W. H. Dodson, Slaton; Ray Grisham, W. A. Myrtle, R. D. Moxley, John Dillard, H. G. Love, G. C. Wolfarth, Geo. M. Bales, O. E. Radford, Albert; C. E. Maegen, J. Harvey Moore, R. A. Sowder, W. H. Blodsoe, Roscoe Wilson, W. H. McKittrick, Slaton and M. E. Merrill.

The stores of the city will close from 2:30 to 3:45, during the time that the body is passing through the city en route to the cemetery, the Journal was advised Wednesday afternoon by the secretary of the Retail Merchants association.

huge battleship, Mrs. Frank Lattin, living on a lonely ranch, hit the wound with a razor, tightly bound the limb above the wound and drew the poison out with her lips. She then walked four miles to a neighbor's home where she secured a car and brought her child to Artesia. Due to the mother's heroism the little child has a good chance to recover.

SAN ANGELO.—Sale of Texas 1925 crop of fall mohair totaling 350,000 pounds has been completed with the exception of 250,000 pounds in storage at Uvalde and 125,000 pounds stored here. Peak prices were 57¢ for goat hair and 70¢ for hair off kids. The price was about 2½¢ per pound higher than last year's average.

MUNDAY.—The New Munday cotton compress began operations here this week. Plenty of warehouse space is provided and the compress will operate as a bonded warehouse. C. J. Tye is in charge of the plant.

CHILDRESS.—Contract has been let here for a new \$145,000 high school building. The new building will be complete and modern in every respect and will be a credit to the city and county. George Part of Amarillo was the successful bidder.

COMANCHE.—The Pecan Bayou Highway is rapidly becoming a reality. This highway has secured the right of way and is now ready to open it to the public. Mills county has already surfaced most of their section of the highway with an oil composition and the survey is progressing rapidly through San Gab.

BRADY.—The McCulloch County Wolf Club has caught 427 wolves in the past three years and has paid bounty on them. In addition a number of wildcats and other predatory animals were taken. This cleans out the predatory animals of this section and makes possible an extension of the sheep and goat industry.

SLATON.—President I. R. Kelso of the Texas Utilities company, with a party of sixteen directors of the company and eastern bankers, opened a tour of West Texas. They will cover the entire plains section inspecting the company's property and looking over possible extensions of their holdings.

BAIRD.—Callahan County will have the service of a full time agricultural agent. The Commissioner's Court has approved the plan.

# Body Of Corsicana Man Is Shipped Home For Burial

The body of W. B. Gray, of Corsicana, who died at the home of his son, Edgar Gray, in the Balger Lake community Saturday night, left here Sunday night, accompanied by two sons, for Corsicana, where burial will be made Thursday.

Mr. Gray died suddenly Saturday night of heart failure, while sitting on the edge of a bed in his son's home engaged in conversation. He was nearly 74 years old, and had just finished eating a hearty supper after a day of odd jobs in helping his son about the farm during his visit there.

Funeral services have been postponed until Thursday, to permit the arrival of a daughter of deceased from her home in Wyoming, according to E. B. Sanders, of the Rix Undertaking company, who handled the body. Interment will be made in the cemetery at Corsicana.

NEW HAVEN, Conn.—When a self-styled red-blooded Harvard graduate asks a Lawrence Lowell man why the football team does not win, Harvard's president recalls that all blood is red when it has not been through the brain. He told this at a meeting of educators in Yale in deploring college students' lacking of desire for intellectual development.

NEW YORK.—Herbert Kamp, retired manufacturer, fighting a plea for alimony, says he has to support two sons-in-law, including a marquis.
