ATHENAEUM CLUB MEETS IN REGULAR SESSION TUESDAY

The Athenaeum club met Tuesday under the leadership of the new president Mrs. A. B. Davis, who has automatically and officially ascended to the presidency of the club since the resignation of Mrs. J. T. Hutchinson, who so recently tendered her resignation as president. Through fully capable and promises of one of the best record years of the club under the leadership Mrs. Hutchinson, well-liked and popular, felt that she could not do her full duty toward the club, considering her rather full and heavy work calendar in her college work and other interests.

With as much regret as losing Mrs. Hutchinson the club as fully and enthusiastically tendered the new president, Mrs. Davis a warm reception and which will be accomplished under the new leadership.

The meeting was pleasant and profitable under the leadership of Mrs. N. F. Payne and topics, showing study and careful preparation, were given by Mrs. H. D. Maxley, Mrs. Gus Ford, and Mrs. A. E. Davis.

A reading, "The Southern Storm," given by Mrs. Goodman, from "The Partisans" was given in her usual pleasing way, and Mrs. E. L. Robinson gave a piano number, "Spanish Caprice," in harmony with the other parts of the program.

Announcements will be made later concerning the Christmas plans of the club in realization of the "Empty Stoking Crusade," being sponsored by the club.

ARMISTICE DAY PARADE FEATURED WEDNESDAY

The parade featuring the Armistice Day celebration was witnessed by many spectators, and was the outstanding feature of commemoration of November 11, by those left in the city after the large crowd of ball fans went to Abilene to see the ball game featured there between the Tech and Abilene Christian College.

A car bearing the city officials led, followed by a float bearing a huge reproduction of the Statue of Liberty. This float, all in white, was beautifully made up with animated statues representing Truth, Justice, Purity and Honesty, grouped at the foot of "Miss Liberty."

Following this came the Marines and overseas soldiers, bearing a stretcher, containing a wounded comrade with the cadet band from the Tech immediately behind.

The float bearing the "Gold Star" Mother was impressive with the mother or somberly draped in silent black yet a look of pride and patriotism showing above all depicting the assurance of having done her "duty."

The Legion Auxiliary followed with the Camp Fire Girls marching just behind.

The third float representing the Red Cross with the "Greatest Mother in the World" pictured was perhaps the most touching as it shows past, present and future work, all in one.

The Salvation Army, bearing the placard, "Over There then, Over Here

Want Ads

WANTED — Poultry, paying highest cash prices. North of Post Office. Rucker Produce Co. Phone 11. 11

FOR SALE — Slightly used Fordson tractor with fenders, Oliver D-75 two-disc plow, Anaco cultivator, Oliver 2-row go-devil, Oliver No. 46 two-row lister with planting attachments complete. Will sell on terms with property security. T. B. Duggan, Conley Building. 11

Yookum County, 1-2 or whole section, \$1250 acre, \$1645 acre bonus, \$5.85 acre state, 3 per cent \$1.90 cash per 1-2 section.—C. E. Padgett, Brownfield, Texas. 19-1p

PERFECT 61-ACRE TRACT

Fronting half mile on south side of R. Q. M. Highway and main line Santa Fe R. R. at Roundup, 18 miles northwest of Lubbock, at \$5000 an acre, \$1250 cash, balance running 35 years at 6 per cent interest. Fine location for filling station and store. No better or smoother tract on the Plains. See J. E. Mosby at 1086 Broadway, Lubbock, Texas.

FOR TRADE—Ninety-six acres improved farming country land for land anywhere on the south plains. Also ten acres well improved northeast Oklahoma land for similar trade. Either town or farm trade acceptable. C. E. Lovelace, Lubbock, Route A. 41

Now!" was indeed timely and suggestive enough that reaping benefit should be felt both in money and cooperation.

The last units marching were boys scouts of America and the American Legion, most all of whom were in their uniforms.

TEA AT MRS. WOLFFARTH'S ANNOUNCED FOR MONDAY

The ladies of the Missionary Society who are planning a tea honoring Mrs. White, Mrs. Richardson and all new ladies of the Church, both in the Missionary Society and the Mary Heim Auxiliary, have asked that announcement be made that instead of Mrs. Craven's house, Mrs. G. C. Wolffarth's home at 2304 Broadway, will be the scene of the pleasing occasion. Please bear in mind, Monday, November 16, from 3 to 5 at Mrs. Wolffarth's 2304 Broadway.

GIRLS ENJOY TRIP TO ABILENE

The special Thanksgiving train to Abilene, where the Tech-A. C. C. ball game was witnessed, was especially enjoyed by some of the young high school students, who report a splendid and exciting time. Among them being, Misses Mary Snyder, Elizabeth Adams, Nadine Young, Kate Boyd, Grace Jennings, Geraldine Smith and Louise Wolffarth, accompanied by Mrs. Wolffarth.

MRS. W. N. COPELAND CONVALESCENT FOLLOWING ATTACK OF FLU

The many friends of Mrs. W. N. Copeland, long-time resident of this city, but recently of Rossville, will be sorry to hear of her illness of a week of more from an attack of flu that has made her quite ill, but is im-

proving rapidly at this time. She is at the home of her daughter, Mrs. G. M. Costy, 802 Avenue L.

LEGION AND AUXILIARY BANQUET A GALA AFFAIR

At 7 o'clock Wednesday evening in the commodious rooms of the new Texas Utilities building, the American Legion and auxiliary entertained with a banquet for all ex-soldiers and their lady friends and the R. O. T. C. of the Tech college.

The banquet was served cafeteria style to about 100 guests and no small praise should be given to those who were responsible for its success.

Following the banquet tables were arranged for "42" and bridge, and tables were passed to determine partners for the games, during which time music furnished by the Calloway family orchestra who so generously donated their time and talent, was greatly appreciated, as was the octuphone Victrola, and over by Mr. Zik of the H. S. Pharmacy company. These two musical features of the program very materially added pleasure to the occasion.

At a late hour some of the guests departed but those remaining went in a body to the station and met the Tech special from Abilene, there claiming any ex-service men and taking them to the banquet room, fed them generously and held a short pleasure meeting for their benefit.

NEW YORK.—It cost P. F. Nolan, socialist, seven cents to find that New York did not want him as an alderman. He avers this expenditure was for three stamps and a cigarette.

LONDON.—The Earl of Iveagh, who is 78 years old, and has a traveling kitchen on his game preserves, is entertaining King George at Hunting de Luxe.

6% FARM LOANS

Unlimited Funds Available for Lending on Improved Farms on the South Plains at All Times

Amortization (Federal) plan, giving you 33 years time to repay the loan, no stock to buy, no association to join, no liability for loans or interest of others, not necessary to live on your land, and no commissions or membership dues to pay. In short EVERY ADVANTAGE of the federal plan but the red tape.

Superior also to the 3, 5, 7 or 10-year loans which cost you from 7 to 10 per cent interest, and must be renewed. The plan we offer allows you to pay part or all of principal on any interest date after five years. Hence you have all the advantage of a short term loan and yet can let the loan run 33 years, if you desire, with your debt less at all times, a fixed interest rate of only 6 per cent, and NEVER have to renew.

If you are the owner of improved farm lands suitable as security and have a good reputation, your farm will be inspected promptly and liberally by appraisers who know our country and our values, and you will not be required to put up a deposit in advance to guarantee expense of inspection.

This agency has loaned over a million dollars to land owners on South Plains farms. Many of these farms in your community. Hundreds of satisfied land owners are our best references.

We represent one of the strongest joint stock land banks in the country. Backed up by assets of over four hundred millions of dollars it is in position to make your loan promptly; guarantee that the money is ready at all times, and does not start interest until the money is paid out.

If you have a loan that is coming due—if you are paying high interest on a land debt that can be taken up—if you are buying or selling a farm and money is needed—if you need a loan on farm land for any reason—get it here just like your neighbors are doing.

You want SERVICE—you can get it here. You want prompt and liberal inspection of your farm—you can get it here. You want a square deal—you can get it here. Ask any land owner in your community who has placed a loan with us.

POULTRY

COMMERCIAL GRADES FOR MARKET EGGS

William H. Lapp, of the Iowa Agricultural college, in a circular gives the following description of the ordinary commercial egg grades:

Extras—These are eggs weighing from 24 to 28 ounces to the dozen and are uniform in size and fairly uniform in shape and color. They must be free from heat or germ development. The air cell must not be larger than the size of a dime.

First—These are eggs weighing from 22 to 24 ounces to the dozen, uniform in size, and fairly uniform in shape and color. They must be free from heat, with an air cell not much larger than that of an extra. The shell must be sound and clean.

Seconds—These are made up of light stains and dirties, headed and stale eggs, also small eggs or any others not classified above but edible.

Checks—These are slightly broken eggs.

Cracks—These are generally classed with checks.

Leakers—Leakers are broken eggs where the liquid is escaping.

Rejects—These are the eggs unfit for food.

In securing eggs that will class as "extras" or "firsts," Professor Lapp suggests that the following points be kept in mind:

1. Take pride in the eggs you sell.
2. Keep a flock of good standard bred stock. Hatch only large, select eggs.
3. Keep nests clean and plenty of them.
4. Do not keep eggs in a place above 60 degrees temperature.
5. Keep litter in house clean.
6. Separate males from flock as soon as hatching season is over.
7. Do not market small, inferior eggs. Use them at home.
8. Do not wash dirty eggs if they are intended for market.
9. Keep eggs covered when taking them to market.
10. An egg is generally good quality when it is produced. Don't help to deteriorate the quality. Market eggs often.

One difficulty in the way of the Iowa farmer in working for higher grades on eggs is that in a great many cases higher grades are not rewarded by proportionately higher prices, due to the undiscriminating attitude of some local buyers. The co-operative egg selling associations of Minnesota and Missouri have found that the quality of the eggs handled goes up very promptly after the returns for the first lots have been received. As soon as farmers are sure that they are going to get premiums for their high quality, their percentage of "extras" and "firsts" goes up markedly.

Necessary to Have Eggs Clean in Fowls' Nests

It is necessary to have the eggs clean in the nests, because washing eggs takes time and also removes the natural bloom. One common cause of dirty eggs is the habit of pullets roosting in the nests. This can soon be broken up by going through the houses just after roosting time and removing such birds to the roosts. Spending a few minutes in the houses just at sundown to frighten the pullets from the nests will teach them to select another roosting place themselves. Then they are most apt to go back to the regular roosts each night.

Walking on dirty dropping boards is another cause of dirty eggs. Some poultrymen nail strips of two-inch mesh wire under each roosting section. This permits the droppings to fall through to the boards but keeps the hens from walking on the boards. They have to hop from perch to perch and then down into the litter and will have cleaner feet when going on the nests in the morning. The mesh of the wire may be fine enough to catch any eggs laid during the night and save them from breaking.

Poultry Facts

Provide plenty of oyster shell in addition to grit.

Sunshine keeps chicks growing rapidly. Give them plenty.

A chicken doesn't drink very much at a time, but that's no sign that it doesn't need any water.

Tuberculosis in poultry causes an unthrifty condition, especially in the older birds. They get poor and thin, lose flesh rapidly in most cases, and many of them get lame.

If one is not careful on mash feeding, there is danger of getting the chicks off feed by giving too much.

The first six weeks of a chick's life is the most critical period. The largest per cent of losses occurs during this time.

Plenty of shade should be provided for growing chicks. When allowed to range in an orchard or cornfield, they will not only find ample shade and green feed, but will benefit the trees or corn by destroying bugs and worms.

MR. AND MRS. GEORGE E. BENSON, and son George, Jr., and Mr. and Mrs. Harry Morris went to Borden county yesterday to visit with Mr. and Mrs. Arthur M. Clayton on the Clayton ranch.

SLASH IS MADE IN AUTOMOBILE LEVIES WHILE OTHER ITEMS OF GENERAL POPULARITY EFFECTED

CIGARS, JEWELRY, SMOKERS ARTICLES AND NUMBER OF OTHER LUXURIES FEEL WEIGHT OF PRUNING KNIFE OF FEDERAL TAX COMMISSION

(By Associated Press)

WASHINGTON, Nov. 10. (AP)—Reduction of the automobile taxes and repeal of many of the special excise levies was voted today by the House Ways and Means Committee.

Under a provision approved by the committee, which is writing a new tax bill, automobile pleasure cars would be taxed at three per cent instead of five per cent and the levy on automobile trucks, wagons, tires and accessories would be wiped out.

The tax on all grades of cigars was reduced and the levy on alcohol was cut in half.

Other taxes which the committee would repeal are those on jewelry, camera lenses, photograph films and plates, firearms and ammunition, smokers' articles, coin operating machines, works of art and mah jongg sets.

Theaters May Gain

No change was made in the taxes on admissions and dues, although the committee voted to exempt legitimate theaters housing the spoken drama from the admission tax if the treasury seems it advisable.

The following occupational taxes, which apply on proprietors were repealed: Brokers, including pawnbrokers, ship and customs house brokers; billiard rooms and bowling alleys; shooting galleries, riding academies, automobiles for hire, tobacco manufacturers and yachts and motorboats.

It was also agreed to reduce from \$2 to \$1 the annual tax on physicians who dispense narcotics and to cut from 50c to 25c the tax on each deed or conveyance amounting to \$500.

Government Loss Light

The total amount of revenue which the government would lose as a result of the changes would amount to slightly more than \$100,000,000 annually.

Chairman Green said and would wipe from the statute virtually all so-called sin taxes.

Many of the levies which the committee voted to repeal yielded less revenue annually than it cost the government to collect the tax, Chairman Green said.

Alcohol Cut

In reducing the alcohol tax, the commission would cut the rate of \$2.20 a proof gallon to \$1.65 a gallon, effective as of January 1, 1927 and to \$1.10 a gallon effective January 1, 1928.

The cuts ordered in the taxes on cigars are as follows: Small size from \$1.50 to 75 cents a thousand; class A from \$4 to \$2.50; class B from \$6 to \$4.50; class C from \$9 to \$7; class D from \$12 to \$10.50; class E from \$15 to \$13.50. It was estimated this could take \$12,000,000 annually from tax burden on the industry.

MR. AND MRS. SAM M. DENMAN have returned to Lubbock and will make their home here. They are former Lubbock citizens, having been living in Fort Worth for the past

ALBERT TAYLOR LEFT THIS morning for Dallas where he will spend several days attending to business matters.

Now See What \$35 Buys

Not every store can offer you suits like these for the money. The Hemphill Price policy of confined buying means greater values for us—better ones to pass to you.

We don't scatter our buying shots—a few suits here and there. Three good makers do our work. By giving them lots of business they give us best prices. Better for you and us in the long run.

Now see what's here in these \$35 new season suits. Styles that can't be bettered at any figure. Even the best tailors aren't ahead of these new things for winter. Fine suits that keep you smartly dressed at low cost.

Featured are the "season ahead" wider shouldered coats with small hips; fuller trousers. Well styled double breasted; and singles too, in Lavender Greys—Royal Grenadiers—Sherbrooke Shetlands and Scotch Jack Flannels.

'FARM WITH FARMALLS'

How's This for a Real Cultivating Outfit?

The Texas FARMALL Is the Gem of ALL WORK—The Boon to the Cotton Farmer!

The FARMALL'S speed, flexible power, and adaptability to all work enables one man and his all-purpose outfit to plow, till, plant, and cultivate 200 (and even more) acres of intensively farmed land with extraordinary success. With this efficient combination of power and machines the average man can produce many times as much as is possible with old-time, mule-drawn outfits. With such modern equipment you can cut your production costs to the bone, and so earn a better living and be more independent about it.

The McCormick-Deering Texas FARMALL embodies many of the most important features of regular McCormick-Deering tractors. Foremost among these are the sturdy engine and the power take-off. In addition, the FARMALL offers perfect adaptability to all Texas row crop operations. It was built for your work. Come in and let us show and demonstrate this money-making outfit to you.

TEXAS NEWS BRIEFS

By Associated Press

DALLAS.—Highwaymen were rampant on roads near Dallas last night. Three couples were held up and robbed of a total of \$33 and two watches, and a fourth hold-up was attempted. This brings the number of hold-ups in the same vicinity in the past week to eight. Motorists were accosted in each instance and spark plug wires were disconnected as in the case of previous robberies.

DALLAS.—Mrs. G. D. Dorris, 52, may lose the sight of one eye from injury sustained when a hot curling iron tore the eyeball Sunday. She was curling her hair.

PLAINVIEW.—The congregation of the First Baptist Church yesterday held its first services in the new \$51,000 church building now under construction. The services were held in the basement owing to the incompleteness of the structure.

FORT WORTH.—Officials of the American Legion here have been requested by war veterans bureau at Washington to investigate the case of W. H. Harkins, former air lieutenant, no waiving a sentence in Huntsville prison for forgery in Tarrant county. He recently was adjudged of sound mind by a jury at El Paso and friends who operated in the Panhandle asylum. It is claimed he has a blood clot on the brain, resulting from an airplane crash while he was in the army.

WACO.—Joe Truss, blind, 55 years old, died today from injuries sustained Friday night when struck by an automobile in East Waco. The accident occurred at the same spot where his wife was killed in a similar manner months ago.

WACO.—Stopping on the road 12 miles north of Waco to repair a tire a man named Yraini, who lives at West, was struck by an automobile and died of injuries while being brought to Waco.

SAN ANTONIO.—Forced to flee in their night clothes, more than twenty patients of the W. C. Farmer Sanitarium escaped Sunday morning when fire destroyed the main building of the institution and seven of the cottages in which patients were housed. Those unable to leave their beds were removed by attendants as the flames leaped from the main building to the cluster of cottages.

SAN ANTONIO.—Nearly 400 Masons from various points in Southwest Texas are here for degrees from the 4th of the 14th. Conferring the degrees will consume the first three days of the week and on Thursday will be a grand annual reunion. Practically all Masons from the Rio Grande valley are expected.

ELECTRA.—While trying to warm himself before an open grate early Sunday, the nightclothes of Judge William Williams, aged about 70, caught fire and burned him so badly that he died a short time after. Williams, a second cousin of Sam Houston, lived in Electra since 1908. His only brother lives in Oklahoma.

BROWNSVILLE.—Local civic leaders will attend a meeting at Donna tonight called for the purpose of discussing means for securing completion of a deep water harbor at Point Isabel. Permanent organization of the Rio Grande Harbor Association is expected to be formed.

URBANA, Ill.—"Hey! Can't you read that 'Keep Out' sign?" barked Bill, groundskeeper of Illinois Memorial Stadium, when John Phillip Sousa tried to keep inside the structure during secret practice.

DENVER, Col.—Basalt, a little town in the mountains to the west is so

prosperous it has asked the state public utilities commission permission to provide water to its residents free of charge.

SAN ANGELO.—Chay Chisholm, West Texas Utilities company employe was rendered unconscious when the radius rod on the automobile he was driving, broke and swerved the machine into a culvert Sunday night. A broken rib and severe lacerations to his arms resulted. He will recover.

SAN ANGELO.—Banqueting of all ex-service men by the Woman's Auxiliary of the American Legion tonight will open observance here of the seventh anniversary of the signing of the Armistice.

SHERMAN.—J. L. Scarborough, insurance man, escaped with his life this morning and with what appear to be minor injuries when his automobile was carried 100 feet by a locomotive in a collision at the Brooks street crossing of the H. and T. C. Railway. The closed car was literally torn to pieces.

SHERMAN.—Local high school authorities are making investigations to determine whether there is any basis for protest made against eligibility of Welch, star football player, by Oak Cliff before the interscholastic league. In scholastics the team is declared to rank with the best in the state.

AMARILLO.—Impressive funeral services were held yesterday for "Uncle Jimmy" Roberts, pioneer cattleman and the man who broke up the notorious Millette gang of cattle thieves which operated in the Panhandle area ago.

AMARILLO.—Bishop James E. Dickey, of Waco, who will preside at the Northwest Texas Methodist conference to open Wednesday at Canyon, preached to a union meeting of 5,000 Methodists here yesterday.

'Waterfall Heart' Shown To Doctors In Texas Meeting

DALLAS, Nov. 9 (AP).—A "waterfall heart," one of the rarest things known to medical science, was exhibited at the medical clinic of the Southern Medical association convention here today. A man who had lived in fear of death for years only to learn that the lead marmar in his heart was due to a harmless mechanical construction appeared before several hundred physicians attending the convention. The case was reported by Dr. George L. Carlisle of Dallas.

The sound made by the man's heart is that of a rush of water over a precipice so violent that the chest wall trembled under the impact. The condition is due, Dr. Carlisle explained, to failure of a small blood vessel to close after birth. The man's 53 quiet life for years but now heaves 150-pound red cakes in an ice plant.

This was but one of hundreds of interesting cases at the clinic which continued throughout the day. Several hundred doctors from throughout

the south are in attendance. "This type of heart disease is very important," said Dr. Carlisle, referring to what he termed the "waterfall heart." Because unless the physician puts the proper interpretation upon the case a patient may be made to lead a useless, barren life, in constant fear of death from this death, when as a matter of fact there is nothing for the patient to fear.

HOOVER BELIEVES RADIO MUST BE GUARDED

WASHINGTON, Nov. 9 (AP).—Radio, full grown to its stature of a vital force in American life, has developed problems which must be solved with governmental co-operation, Secretary Hoover declared today in an address opening the fourth annual national radio conference.

More than 500 delegates, representing national and international interests in the radio field, were on hand to hear the secretary present to the conference, meeting at his call, his views on the vital problems of ether congestion by the multiplication of broadcasting stations and suggestions for their solution.

"We must face the actualities frankly," he said. "We can no longer deal on the basis that there is room for everybody on the radio highways. There are more voices on the road than can get by and if they continue to jam they will all be stopped. While declining any fixed view as to the best solution, Mr. Hoover declared there must be "federation responsibility" in traffic control on one side of the problem and on the other he suggested a large share of the control of the community itself as to who shall serve it in broadcasting.

"In other words, the ideal situation," he said, "as I view it, would be traffic regulation by the federal government to the extent of allotment of the wave length and control of power and the policing of interference, leaving to each community a large voice in determining who are to occupy the wave lengths assigned to that community."

The secretary also warned that a growth of "obtrusive" advertising in connection with broadcasting problems would in the end defeat the best interests of radio enterprise itself.

Lattimore Chosen As Special Judge

AUSTIN, Nov. 10 (AP).—Governor Ferguson today designated Judge Hal S. Lattimore, of Tarrant county, to try 16 criminal cases, in which Judge Robert H. Hopkins, of Denton county, verified his disqualification.

Judge Hopkins will preside over the Fort Worth court while Judge Lattimore is trying the Denton county cases.

COPENHAGEN.—The Finns are having their troubles enforcing prohibition. The minister of education says much alcohol is being smuggled and manufactured.

U. S. WILL HAVE FRIGID WINTER

At Least That Is the Opinion Of Renowned Scientist After Long Study

(By Associated Press.)
WASHINGTON, Nov. 11.—A winter for the United States with heavy snow fall and long continuing cold waves, broken by warm periods of brief duration is predicted by Herbert J. Browne, widely known ocean meteorologist.

An abnormal condition, he holds, is pointed to by many factors including the record breaking cold in many sections of the country this fall, beginning with the first snows in the northwest on September 18, four days before official close of summer. The winter, he believes, will be followed by a late spring.

Primarily the predictions are based upon a study of ocean surface temperatures as determined by the amount of sun's heat reaching the earth. This solar radiation for more than three years has been below normal.

That he is supported by a number of prominent scientists is demonstrated, Mr. Browne contends, by the published views of Dr. Rutger Sernander, professor of botany in the Swedish National University at Uppsala. This scientist predicts the return in Scandinavia, and at least some sections of northern Europe of the "fimbul winters," that is three winters without intervening summers to the extent at least of a condition disastrous to the crops of northern Europe.

BOILERS PRODUCE HIGH PRESSURE ON 'COLD' GAS

SNYDER, Tex., Nov. 9 (AP).—A vast reservoir of "cold," non-inflammable gas has been discovered in the oil fields of this section and is being used to operate machinery and pumps.

The gas is said to insure the most economical operation in the history of oil production. Small wells, which otherwise would require more oil for their boilers than they could produce are now operating at a profit.

For a time the gas mystified oil men and chemists, but it finally has been analyzed as an air containing about 92 per cent nitrogen.

One of the strange sights here is to see boilers producing pressure without fire. The gas is run into the boilers and in two minutes a pressure of 125 pounds is attained. From the boiler the "air" is carried under pressure through the usual steam lines to the pumps and machinery.

The air has been used to drill three different wells within a radius of three

Always On the Job

THE Light and Power Service is providing for the needs of many thousands of new customers every year. In this city and community the job of taking care of added population is to meet needs for more equipment and more investment all the time.

It is by this constant building—which must be safely ahead of the demand for more service—that the Light and Power Service is most valuable to the community. This alone makes growth possible for the city and community and aids in the development of industries and commerce.

The Light and Power Service meets a daily need as no other agency can.

City growth and Light and Power go hand in hand. Your own company has been largely responsible for the existing good service and low rates.

to Chairman Frank V. Lanham, of the Highway Commission, she instructed him to take every step toward contesting such right of the Attorney General.

The letter was sent in answer to one from Chairman Lanham explaining the suit of the Attorney General against the American Road Company, which was a reply to the governor's query relative to Moody seeking to recover \$550,000 from the company, the cancellation of the company's surfacing contracts and forbidding the company to do business in Texas.

Governor Denies Right.
The governor said she must deny the right of the Attorney General to either institute this suit or to prosecute the same.

"Based upon the statement of the chairman of the commission and the Attorney General's petition there is no just cause for the bringing of the suit," he letter reads.

"Therefore, under the powers conferred upon me by law, I direct that the State Highway Commission file the proper pleadings in the court where said suit is pending, contesting the right of the Attorney General to prosecute this suit and such other pleas as will be necessary to protect the interest of the state and insure the completion of the contracts with the American Road company in accordance with the terms and interpretations thereof, as the Attorney General's office is unable to explain their authority.

In this letter Mrs. Ferguson also said:

Slaps Newspapers.
"From the glaring headlines in the newspapers and the wagging tongues that have been working overtime an insidious deception of the people has been attempted in a wild desire to make somebody believe that fraud and corruption exists in the highway department."

Galveston Ruling Given.
GALVESTON, Texas, Nov. 12 (AP)—The first court of civil appeals handed down a decision today reversing and rendering the Harris county highway injunction case, in which cancellation of the Sherman Youmans maintenance contract was sought. The court held that only the state could sue for cancellation.

The opinion was written by Chief Justice Pleasant. An injunction can be granted to restrain the payment of any amount not earned under the terms of the contract between the highway commission and Sherman & Youmans, the court held, and taxpayers and citizens can maintain such a suit. Cancellation may be sought only by the state, the opinion further held, also holding that the state is not a party to the suit.

An injunction has been granted by the Harris county district court, restraining the payment of \$74,000 to the company for maintenance work. The

WILL BE BACKED BY AUTHORITIES OF THE COLLEGE

CONTINUED FROM PAGE ONE

and, after the game, and would also be sufficient time for the students of the college to parade.

"Much enthusiasm has been demonstrated, and it is expected that the entire faculty and a large portion of the student body will make the trip," Mr. Stangel said. "The Howard Payne game is not only the farthest game scheduled, but is probably the Matadors' hardest game. Howard Payne was the football champion in the T. I. A. A. last year, and has virtually as a hard scrap all the way through, regardless of the outcome, and this fact is responsible for the great interest held by those connected with the Tech college.

"Although the trip will be a student special, it is expected that many fans among the townspeople and business establishments will also go, and plans are being made to provide for the comfort of all those who make the trip."

At a rousing pep meeting Tuesday night just prior to the leaving of the Abilene special, Mr. Stangel addressed the student body, citing some reasons why the trip would be a success, and also the importance of the greater part of the student body going. It is an admitted fact among the football boys, the student body and the faculty, that they would almost rather beat Howard Payne than to have the present unblemished record of the football crew to this stage of the season.

Arrangements have been made for those students desiring to make the trip to sign for their tickets in the book store in the Home Economics building at the college. All others who are not connected with the college may make reservations either at the college, or at the Santa Fe depot.

The Howard Payne tilt is the last foreign game of the Matadors this year, and is second to the last game of the season. It is also indisputably the hardest game of the entire schedule.

CIVIL WAR RAGES IN CHINESE NATION

By the Associated Press.
PEKING, Nov. 12.—Some of the members of the cabinet have resigned and several supporters of Marshal

Tsang Tso Lin, the Manchurian war lord, have fled the capital.

Christian General Wins.
SHANGHAI, Nov. 12. (AP)—With an apparent censorship in effect, the North China Daily News learns from private sources in Peking that the chief executive, Tzu-chi-tai, is practically a prisoner in the hands of Feng Yu-Hsiang, the "Christian general." The report coincides with a news agency message from Peking.

Japs Discuss Case.
LONDON, Nov. 12. (AP)—Anticipating a coup by Feng Yu-Hsiang, the "Christian general" in Peking says the Evening News, Tokyo correspondent the Japanese cabinet was called in extraordinary session today to consider the situation of Japanese lives and property in the Chinese capital. It is reported, the correspondent adds, that the navy is prepared for any emergency, with fast cruisers ready to move at a moment's notice.

Coal Mines Exact Heavy Life Loss

PITTSBURGH, Nov. 12. (AP)—Heavy loss of life in the coal mines has caused the state department of mines to put into service 10 automobiles rescue trucks. In September, 52 miners lost their lives in the underground workings of the state. Twenty-seven were caught under falls, 11 met death in mine car and mine motor accidents; 16 were electrocuted or killed by explosives; two were killed by mine machines and two were listed as miscellaneous.

Two Houston Men Accident Victims

HOUSTON, Nov. 12. (AP)—Two of the three men injured when a high pressure still exploded Wednesday at the Sinclair refinery near Houston, died last night. The dead are Donald L. Crawford and Leon H. McCann, both of Houston. The third man injured, J. F. Fink, is not in dangerous condition.

Crawford and McCann were enveloped in a flood of blazing oil from the still, while Fink was overcome by escaping vapors.

Anti-Klan Leader Given Pen Pardon By Mrs. Ferguson

AUSTIN, Nov. 12. (AP)—Leland G. "Cyclone" Baker, whose letterhead described him as being the state organizer of the Anti-Klan Association of Oklahoma, and who has been serving a three-year sentence on the Shaw prison farm in northwest Texas, was granted a full pardon today by Governor Miriam A. Ferguson.

Lumberman Begin San Angelo Meet

SAN ANGELO, Nov. 12. (AP)—A half hundred lumbermen from Snyder to Sonora, and from Brownwood to Midland, arrived here yesterday for the 1st annual convention of the West Texas Retail Lumbermen's Association. The session got under way shortly after noon.

Thomas Sayles, Abilene, president, and other officers, will continue in office until the 1924 convention, having been elected June 30, when the organization was perfected here.

In his annual address Mr. Sayles cited the difference in the interests and the problems of the lumbermen in West Texas from those in other parts of the state.

BIBLE CLASS HAS FIRST MEETING IN CITY

The word of the Lord had free course and was glorious last Wednesday night at the first meeting of the Lubbock Bible club, held in the First Christian church. Rev. Jennings presided and introduced the speaker of the evening, A. L. Page, who spoke on the general theme, "The Eternal Existence of the Christ of God," the name best known and the person least known. Scriptures were given to show that Christ, the second person of the God head, was the creator of everything that was made, in heaven and on earth, visible and invisible. It was a new thought that God the father was not the creator. Taking the first chapters of John, Hebrews and Colossians, I, John 5:7, John 5:58, Gen. 1:5, Ex. 3:14, 15, attention was directed to the fact that Christ not only created, but upholds everything by His power, that He is the Jehovah of the Old Testament, the God almighty that appeared to Abraham and is referred to in Rev. 1:8, the voice, or word of God, by which things were caused to exist, and the same; yesterday, today and forever, of Heb. 1:3. "The expressions, 'the angel of the Lord,' 'the angel of God,' and 'the angel of the covenant' are Old Testament expressions referring to some phase of Christ's activity on earth before the incarnation. The 17th of John was quoted as proving that Christ and the father, enjoying His love before the foundation of the world. John 1:14 states that the word, that walked and talked with Adam and Eve in the garden of Eden, became flesh and tabernacled upon this earth for some 33 years in order that He might redeem that which He had formerly created, and which had rebelled and turned aside after Satan. Truly Lubbock never heard it after this fashion before! Wednesday nights should be set apart for Bible study.

Mr. Page stated his appreciation of the large crowd that greeted his exposition of the glorious person and work of Christ. Rev. Jennings announced that the meetings would be held regularly on Wednesday nights,

at 7:30 o'clock, and that it would be necessary to come early in order to get a good seat. It is freely predicted that overflow congregations will be the rule in a very short time. Mrs. Page will speak next Wednesday night on "God's Eight Dispensations," the Bible in one lesson, to be illustrated with a chart. The teaching is non-sectarian, in the power of the holy spirit, and is free to all men and women. Come and see, and be fed.

OPERATIC STARS TO BE HERE PRAISED

There is no one in the managerial field who has such a faculty for selecting artists thoroughly suited to the parts they are called upon to perform as William Wade Hinshaw. It is therefore quite certain that the company he is sending to this city in Donizetti's comic opera, "The Elixir of Love," is just about as good as he could be, and each and every performer is of stellar rank.

To begin, he has engaged as his prima donna Hazel Huntington, and he might have searched all over the United States, as well as abroad, without being able to find another so well suited in all respects to the part of the village belle, Adina, a character which such renowned artists as Nellie Melba and Marcella Sembrich have included in their repertory. Miss Huntington, an American singer, born in Minnesota and trained in New York, is a coloratura soprano, of exceptional accomplishment, with a voice of truly remarkable range, and creates a fur-

ore by her birdlike feats of vocalization wherever she appears. "Divinely tall and most divinely fair," young, beautiful, accomplished, she wins all hearts, and her visit here is likely to be memorable.

Eleanor La Mance, who sings the attractive role of Claretta, is an admirable foil to Miss Huntington, with her rich contralto voice and robust style of singing and acting. Miss La Mance has sung both in grand and light opera, and is a much esteemed concert vocalist. She too, is American, it being Mr. Hinshaw's policy, all things being equal, to give the preference to native born and trained singers. This is to be understood when

It is remembered that Mr. Hinshaw himself is American through and through, who received his musical training in the country of his birth, and who rose to be a leading bass-baritone at the Metropolitan opera, New York.

CIRYALSOOGNE France.—A war time shell in a field killed three curious little girls on Armistice Day.

ANGORA.—Mustapha Kemal has started a dinner dance fashion. He made all the Turkish ladies uncover heads and faces in front of the diplomatic corps.

With Lubbock We Are Growing

- Lights and Power are two factors that are essential to the building of a city. Without them—without a good light and power service—the citizenship of the town or city would realize a great handicap.
- Furnishing lights and power for Lubbock, by The Texas Utilities, is an assurance to the people of the city of a superior kind of service—of a light and power service that builds ahead of the city and is a great aid to its growth.
- Each year brings need for more equipment, more facilities to be purchased by this company in order to supply the demand for the service we render, and each year we are glad to meet the demands.
- It means a greater city, a more complete serving of the citizenship—and the co-operation of Lubbock people in our undertaking has proved their appreciation for the aid in development that we have given.
