TAFT DEFINES A PROGRESSIVE

ATTACKS THOSE WHO "FAWN" UPON THE PEOPLE AS IF THEY WERE INCAPABLE OF ERROR

UPHOLDS THE CONSTITUTION

Popular Government Under Constitution Vindicated in America as Never Before

By United Press. Chicago, Ill., March 9.—Defending his administration as progressive in deeds, President Taft tonight opened his campaign in the West with a discussion of the Progressive movement that reached the conclusion, "progressive is what progressive does."

The President spoke at the banquet of the Swedish-American Republican League.

The President defended himself from the charge that his attitude on public questions showed a "disturbance of the American people" and attacked those "who constantly fawn upon the people as if they were incapable of error."

After "pointing with pride" to the achievements of the Republican party in the past fifty years, the President said:

"I agree that a party may serve the public well and then cease to be useful and that it is in its performance in the immediate past and the probability of its performance in the immediate future that we are to find a reason for its continuance in power.

"In the history of politics from time to time new phrases are coined to characterize new issues and new movements. One of the terms which has come to constant use today is progressive. Men differ as to what progressive policies are, but perhaps we can reach a definition that will suit everybody by tracing the history of the progressive movement and its ultimate objects."

The President traced the congregation of wealth and the great industrial developments that caused it for two decades prior to 1909. He then reviewed the awakening of the people to the fact of the privileges and undue power of the corporations and of the measures to protect the people. These measures he called progressive.

Continuing he said:

"The progressive movement has assumed the character of a crusade and many radical remedies were suggested, the carrying out of which would only be less destructive than the threatened course of the disease. There are many who had long attacked our institutions as the basis of injustice and inequality and their voice became louder and more distinct and was listened to with greater favor than ever before in the history of the country. The growth of socialism in this country is a noteworthy incident in showing the extreme to which many would go in the solution of the problem which I am discussing.

"There were many who were present socialists but who saw in the present structure of our government and especially in the checks and balances intended by the framers of our constitution to secure deliberation and calm action on the part of the people in real destruction to the reforms that were deemed necessary in order to maintain the proper control of capital and privilege by popular will and to secure equality of opportunity. Progressives of this stripe attained a great popular support and were able for a time at least to give the impression that others who were equally imbued with the necessity for governmental reform but who thought it might be attained without destroying the structure of our government and without effecting the guarantees of life, liberty and property, were reactionary and unsympathetic with the cause of the people. The bitterness of the attacks they made on responsible persons, the lack of restraint that they manifested in the public made to view the situation high minded and as honest as any of (Continued on Page Five)

WHITE SOX WIN FIRST ENGAGEMENT

Buffaloes Defeated by Harry Lord's Detachment of Chicago Players—Score Was 6 to 3

By United Press. Houston, Texas, March 9.—A detachment of the Chicago White Sox headed by Harry Lord defeated the Houston club this afternoon by the score of 6 to 3. It was the first engagement of the budding season for the Chicago players but judging from the way they moved around the gymnasium work at Waco has proved beneficial. Lord relied on the pitchers Benz, Delhi and Scott. Scott worked the last three rounds and fanned seven men. He used more speed than his brother twirlers and was hit safely but once. Two men pitched for the locals, Smith beginning the work. He was wild in the first inning and his lack of control was costly. Errors behind Smith played a large part in the scoring done by the Sox in the second.

The afternoon was cold and chilly and less than 500 spectators saw the game. Most of these were forced to wear overcoats. A foul tip crushed against the index finger of Catcher Allen's hand, broke the digit and will cause the Buffalo backstopper to remain on the hospital list for two weeks to come.

Al Newman, Rath, Lord and Collins raked in two hits each. The only hit for extra bases were made by Knaupp for Houston and Borton for the White Sox.

Batteries—Benz, Delhi, Scott and Kuhn; Smith and Peebles and Allen and Burch. Umpire—Campbell.

CHILDRESS HAS THE OIL FEVER

CITIZENS OFFER A BONUS OF \$10,000 FOR FIRST OIL WELL BROUGHT IN

START DERRICK MONDAY

Copper Company Will Drill With Rotary—Citizen's Company to Start Drilling Soon

Special to The Times. Childress, Texas, March 9.—Representative business men of Childress this morning raised \$10,000 as a bonus to be paid to the first company that will bring in an oil well. The condition being that the well must be located within seven miles of Childress and produce 100 barrels per day for thirty days, pumper or flowing.

The Copper Company will begin erecting a derrick Monday. The Orient Drilling Company have the contract. The derrick will be 88 feet high and the contract calls for 3,000 feet. A rotary will be used.

The Citizens Development Co., will begin drilling sometime this month. They will contract for 3,500 feet. William & Doolen are contemplating a well, work on which will begin immediately. They have holdings two miles east of the city.

Surface oil can be found in nearly all wells sunk around Childress and prominent oil men say indications are good. Some 10,000 acres have been leased during the past month.

Jim Land was offered a cash proposition for 640 acres near Childress. A flow of oil occurs in a creek on his place. He has not accepted the proposition as yet.

Among the big donors to the \$10,000 bonus fund are: S. P. Britt, president of the City National Bank; Guy Wade, secretary of the bonus committee, land owner; W. L. Underwood, banker; C. E. Crews, banker; A. J. Fires, capitalist; H. J. King, capitalist; and numerous other moneyed men of Childress. All communications should be addressed to Guy Wade, Childress, Texas.

Governor Will Appeal Alamo Case

By United Press. Austin, Texas, March 9.—Touching on the action of the district court at San Antonio in granting an injunction to the Daughters of the Republic of Texas restraining the Superintendent of Public Buildings and Grounds and others from proceeding with the work of restoring the Alamo, Governor Colquitt said this afternoon: "We are going to appeal the case at once to the court of civil appeals at San Antonio and also requests that it be advanced and the same action will be taken in the supreme court so that the matter can be determined as quickly as possible."

After some hesitation the Governor added: "We want to do our full duty about the Alamo, and if we do not succeed in the work of restoration it will not be our fault but that of the court's and the Daughters of the Republic."

Don't imagine that people are going to call you a liar every time they think it.

"Famine Day" In American Churches Is Part of Plan to Raise \$1,000,000 For Starving Chinese.

One million dollars has been fixed as the sum that ought to be raised in America in aid of the 6,000,000 perishing in China threatened with starvation. As part of the plan of the relief committee March 10 will be observed as "famine day" throughout the United States. Ministers of every denomination will on that day bring before their congregations the alarming situation. The work of the relief committee is under the direction of George Mooser.

DEVELOPMENTS ARE EXPECTED

DRILLS MAY FIND OIL SAND THAT IS BELIEVED TO BE AT A GREAT DEPTH

BALING FLUSCHE WELL

One of Same Sands Found in Rogers Well Has Been Found in This Well

After many weeks in which there has been little development in the Petrolia and Electra oil fields, the coming week promises to see some definite developments. At Electra there are several wells that are down below the two thousand foot mark searching for the sands that have been found at about twenty-two hundred feet in the Rogers well south of the railroad track and in others. One of these is Flushe well being drilled by Sid Webb and associates north of Electra. In this well the first of these sands has been found and Saturday afternoon the baling was started and it will soon be known whether there is enough oil in this sand for profitable pumping.

At Petrolia the Developers' Oil Co. is down over seventeen hundred feet drilling through the gas sand. The gas is being held back and the drill will not be stopped today and it is hoped to find oil within the next hundred feet.

The Stein well being sunk by the Producers Company at the eastern edge of the Petrolia field is reported down in the neighborhood of three thousand feet. The Skelly well is also going down nicely. The week will be an important one in this field. A freakish thing is reported from Electra (the word freakish is not used disparagingly). The Producers Company has just drilled in a well on the Stringer lease that is said to be good for better than three hundred barrels in the 1050 foot sand. Offsetting this well the Corleana Petroleum Company drilled dry as powder at the same depth. This well, however, is being drilled deeper.

"Stuffy" Melnis' broken wrist, which kept him out of the world's series last fall, is entirely healed. He is working out with the Athletics at San Antonio, and looks fit.

Taft's Day of Politics

By United Press. Chicago, Ill., March 9.—Pleased with the events of the day which he regards as of vital importance in his campaign for a renomination, President Taft went to bed at midnight tired but happy. He shook hands with several thousand Chicago voters made speeches to many thousands, more and had been cheered by enthusiastic Republicans. After covering something like fifty miles in an automobile and making speeches in the southern and western suburbs of the city driving through the settlement districts of the foreign colonies and making an address to the business men of the city at the Union League Club, the President appeared enthusiastic at the banquet of the Swedish-American Republican League tonight where his key note address was delivered.

DEMOCRATS FORM ROOSEVELT CLUB

Historians Who Call Themselves Democrats Stricken With Rooseveltphobia

By United Press. Houston, Texas, March 9.—A meeting was held in Houston today by a number of Democrats who propose to organize a Roosevelt club. It is claimed that there are several hundred Democrats in Houston and Harris county who are favorable to the nomination of Roosevelt and who will assist in sending Roosevelt delegates to the county and district conventions. One of the leaders in the organization explained that members of the club would do this work without surrendering their Democracy in local affairs. Leaders in the move include J. R. Montgomery and Guy McLaughlin.

WEATHER FORECAST
Rain and warmer Sunday;
Monday warmer.

NEW YORK GIANTS WIN FROM TEXAS GIANTS

It Required Ten Innings, However for Them to Turn the Trick—Score 10 to 5

By United Press. Dallas, Texas, March 9.—It took ten innings for the New York Giants to win from the Dallas Giants here this afternoon. At that Dallas outbid the New Yorkers ten to five. McGraw and his men will play here again tomorrow. The day was cold and damp, but the park was comparatively dry considering the amount of rain that has fallen.

McGraw used Munsell, Fullenwider and Farrell, Farrell going the extra inning. A fielding feature was a one handed catch by Center Fielder Forsythe of Dallas. None of the New Yorkers seemed to extend themselves, although Johnson got a three bagger. Shuman of Dallas also annexed a triple.

Score by Innings:
R H E
New York 300 0100 000 1-5 5 0
Dallas 100 200 001 0-4 10 2
Batteries—Munsell, Fullenwider, Farrell and Paulett; Kinney, Brown, Daniels and Gibson, Walden and Bralley. Umpire Wilkinson.

Bible Class For Mutes
By United Press. Waco, Texas, March 9.—Mrs. O. M. Weatherly, wife of the city recorder, through not a mute, will conduct a Sunday Bible class for mutes, as she understands the sign language thoroughly.

CLASH EXPECTED NEAR TORREON

OROZCO RUSHING TROOPS TO THAT PLACE—GOVERNMENT CONCENTRATING FORCES

A BATTLE THIS WEEK

Rebel General Himself Will March to Torreon Tuesday at Head of 4,000 Men

By United Press. El Paso, Texas, March 9.—With General Orozco rushing his troops to Torreon and the Madero Government concentrating all of its available force in northern Mexico, at that point, it is conceded by both sides tonight that one of the greatest battles in the history of Mexico will be fought in the Laguna district during the coming week.

Already Orozco has sent 2,000 men to Torreon. He announced in Chihuahua today that he would follow on Tuesday with four thousand more and there are in Juarez and at Casas Grandes more than fifteen hundred other rebels all of whom will be sent to Torreon.

The government forces at Torreon under Col. Emilio adora, brother of President Madero, number more than 5,000 men, it is claimed by federal officials and 3,000 more are en route from the south and west. Orozco is having two cannon made in Chihuahua to use in the assault on Torreon. He claims to have \$500,000 on hand to finance the campaign and has gathered 3,000 expert Indian sharpshooters to go with him Tuesday.

Governor's Request For Troops Is Granted.

By United Press. Austin, Texas, March 9.—Governor Colquitt late this afternoon made public a telegram he received from Major General Wood advising that two troops of cavalry will be detailed to the vicinity of the trouble reported between Texas ranchmen and Mexicans in the western part of the state during the latter part of February.

According to the message, the troops will move from San Antonio. The text of the message follows: "Secretary of war directs me to inform you that orders have been issued today sending two troops of cavalry from San Antonio to the vicinity of Catuillo and Sanderon. These troops are sent in response to your letter and an enclosure to Representative Burleson of Texas, February 29th."

It appears requests were made by the authorities at Catuillo and Sanderon to the governor for aid and the Governor took the matter up with General Duncan and also with Representative Burleson with the result indicated.

Orders Received at San Antonio.

By United Press. San Antonio, Texas, March 9.—Orders were received by General Duncan tonight to send an additional troop of cavalry besides the two troops ordered today to the Mexican border. The troops leave Tuesday for Eagle Pass, Laredo and Sanderon.

ROOSEVELT WILL TAKE THE STUMP

COL. MAKES ANNOUNCEMENT AFTER RECEIPT OF TELEGRAM FROM GOVERNOR STUBBS

HE WILL ANSWER TAFT

Colonel Says if Primaries Are Permitted "We Will Win Nomination"

By United Press. Oyster Bay, March 9.—"I have made up my mind that I shall have to make some speeches." This was the announcement of Col. Roosevelt tonight after he had received a telegram from Gov. Stubbs, of Kansas, telling him that there were then a million voters in the Western States who refused to become interested in the campaign.

"I had hoped that I could keep out of going on the stump," the Colonel said, "but they are pressing me hard. I don't know yet where I shall, or when I shall start, but it will be soon."

It was regarded as likely that the Colonel would begin his trip within the next ten days. His managers have suggested addresses in Ohio, Indiana, Michigan, Kansas, Pennsylvania and the New England States.

Despite a driving rain and a biting wind, Col. Roosevelt rode for two hours this afternoon.

Returning to Sagamore Hill he made it plain that he will answer every statement made by President Taft in his Toledo speech last night. He will probably make his reply editorially in The Outlook although pressure is being brought to have him make it in a speech in the very near future.

The Colonel was deeply interested in the Michigan and Illinois situations and stated that if the direct primary plan is allowed in those states he will be able to prevent President Taft's nomination at Chicago.

"And if they do not give us the primaries there," he said, "we still have a fighting chance of winning."

Roosevelt displayed much amusement on the publication of a story that Andrew Carnegie had defrayed the expense of his African hunting trip.

"I am certainly discovered," he said, "and I hope that many similar disclosures will be made by my enemies from now on."

He then displayed a copy of his book in introduction to which he gives Carnegie credit for assisting in the expedition.

CHAIRMAN MACK PREDICTS VICTORY

By United Press. Chicago, Ill., March 9.—Our party is presenting a solid front for the first time in sixteen years, while the Republican party are beginning a Kilkenny factional fight.

This is the political situation as summed tonight by Chairman Samuel E. Mack who was here tonight for a conference with John E. Martin, sergeant-at-arms of the Baltimore Convention.

"New York will have no candidate for the Presidential nomination," he continued, "our delegation will probably go to Baltimore unopposed and will be ready to do what seems best. Reports from the South and West indicate that there will be many intricate delegations and it will be a close race between Wilson, Harmon, Underwood and Clark."

BRONCHOS SLAUGHTERED BY THE ATHLETICS

World's Champions Lit on Texas Slab Men and Pounded Out Seventeen Runs

By United Press. San Antonio, Texas, March 9.—Cornelius Maguillie's world champions played a real baseball game here this afternoon, the first bona fide contest of their San Antonio training season. It was a slaughter for the Bronco team of the Texas League—not exactly at the ratio of 16 to 1 but almost that. It was 17 to 5. There weren't many particular features except that the Athletics lit on the Texas pitchers mightily. One Johnny Baker didn't get any home runs but he banged out a triple which was of some satisfaction. Mack sent young Danforth, a Texan into the box after Brown had gone a matter of four innings.

Extra Special For One Week

10 pieces and as many designs in Embroidery Flouncing, 54 inches wide, they would be cheap for twice the price. Very handsome patterns, beautifully embroidered onto very fine lawn. We had expected to sell this lot at 50c per yard and they are actually worth it, but to give a little sensation we will say for one week, yard.....29c

Corset Cover Embroidery

HAPPENINGS IN THE CITIES

New Home Secretly Furnished by Wife

INDIANAPOLIS.—To be taken into a strange home by his wife and to be told, while he admired the elegant furnishings, that he was the owner of the property, was the unusual experience the other afternoon of John E. Keller, manager of a department in a local store. Until then Mr. and Mrs. Keller resided in the Meridian flats. They now reside at 2535 Talbott avenue in a home that was chosen by Mrs. Keller and completely furnished by her without her husband's knowledge.

The clever deception used by Mrs. Keller to keep her husband ignorant of her plans to surprise him would have baffled a detective even if he had been suspicious of her intentions. The culmination of her plans so started Mr. Keller that he declared that he felt his "brain was fuzzy."

"A short time ago," said Mr. Keller, "we decided to give up our apartment at the Meridian flats and to place our furnishings in storage that we might engage a smaller apartment. I came home one night from the store and a part of the furniture was gone. My wife informed me that she had stored

the furniture in 'the nicest little place imaginable.'

"The next evening when I returned more of the furniture had been taken away and I thought nothing of it, as my wife seemed to have taken the moving of our property in charge. The following afternoon she suggested that I walk with her to Talbott avenue to inspect a home that was for rent."

"She told me to wait and that she would call at a neighbor's house for the key. When she got the key the whole family came to the porch and smiled at me. Not understanding the situation at the time I thought they acted strangely, but said nothing about it."

"I put the key in the lock, opened the door and was surprised to see that the house was furnished."

"Look here," I said, "you've got me in bad. This house is furnished and occupied. Some one will be coming after me in a moment."

"My wife replied that there surely could not be a mistake, and continued talking to me, at the same time pushing me through the door. I felt as if I were breaking into some one's house, but what could I do?"

"Moving day had occurred in the experience of at least one married man without his knowing anything about it."

The change of residence made by Mr. and Mrs. Keller was on their ninth wedding anniversary.

Jilted Philosopher for Man With Money

PHILADELPHIA.—Guy Carlton Lee, widely known throughout the country as a lecturer and a philosopher, sat in the St. James hotel the other day contemplating a marriage license which he had procured, thinking he was to marry Dr. Hildegard H. Langsdorf of Carlisle, Pa.

He was taking one last look at the marriage license prior to returning it to the bureau with the notation: "Not used. She married another."

Dr. Langsdorf became the bride of John L. Ayer of Chester, Pa., a wealthy young man who doesn't have to do anything but spend his money. They were married the day before at Media after a race between the two men for the hand of the bride.

In his downcast way Lee told all about it. He said he had lost and he felt grieved.

"I love Dr. Langsdorf, dearly," he said, "and I thought she was going to marry me. She seemed to doubt it, but I wouldn't take no for an answer."

"I came to Philadelphia with the understanding that Dr. Langsdorf would follow me. She did. I went to the marriage license office and obtain-

ed the license. Then I met her at the train and showed it to her. She didn't say much, but I didn't see her again."

After leaving Lee, Dr. Langsdorf went directly to Chester, where she met John L. Ayer. They went to Media and got the marriage license and later married. They did not take their friends into their confidence and no person seems to know where they have gone.

The happy bridegroom, who maneuvered Lee, has had previous experience in the matrimonial game. According to the license, he was divorced for desertion seventeen days ago in Prince George county, Md. He is 48 years old.

The bride is 44 years old and is well known as a contributor to medical journals.

Old Man Gives Pointers on Skating

DETROIT.—For the first time in 46 years, Charles Thompson, a California fruit grower aged 72 years, put on a pair of skates, a few days ago, and caused the crowd of youngsters at the Hamtramck skating rink to gasp in wonder and astonishment at his performance.

Thompson, who lived in Detroit before the Civil war, is visiting relatives in Hamtramck, near the Holbrook school. In search of diversion, and in an attempt to discover a few of the old landmarks of their boyhood, he and his host started for a walk. About the first thing they encountered was the municipal skating rink, crowded with small boys.

"I believe that I am not too old yet to go in for that," said Thompson, stroking his flowing beard.

"Shouldn't wonder if you weren't."

Charlie. Like to see you try it," said his companion.

A pair of skates were produced and Thompson put them on. He rose shakily to his feet, his knees trembling. A small boy skated up, and proffered assistance.

"Come on, Mister, I'll help you start. There! Steady now! Stroke, mister; right-left—now you're going. Gee, stroke slower; don't go so fast, you'll fall. Hey! Where are you going, anyway. I can't keep up to you. Leggo! Leggo, I say." And the small boy was left behind, gazing in astonishment at the figure eight and the "Dutch rolls" which the old man with the flowing beard cut.

After nearly an hour Thompson returned to his admiring friend.

"I can't go like I used to," he said. "My knees are a trifle wobbly and my ankles are gettin' weak for this kind of sport."

Thompson owns a large farm at Farmerville, Cal., where he raises prunes. He lived in Detroit before the Civil war and saw service on the Cumberland river during that struggle.

With 1,283 Letters He Finds Brother

MINNEAPOLIS.—To meet his brother, whom he had never seen, in order to find whom he had written 1,283 letters, addressing every man named Lundy that he learned of anywhere in the world, C. A. Lundy, 4341 Twelfth avenue S., left the other day for Ferrysville, Wis., where he will spend some time.

Twenty-five years ago John Lundy and wife and the little boy, who is now C. A. Lundy, 31 years old, came from near Bergen, Norway, and settled near Lanesboro, Fillmore county, Minnesota. There Mrs. Lundy died shortly after.

John Lundy married again, after a time. C. A. Lundy went to live with another family who brought him up. Martin Lundy came into the world. John Lundy died and his widow married again and became Mrs. E. Anderson. C. A. Lundy knew there had been a little child born to his father and stepmother, but his stepmother had left Minnesota and had married somewhere out of the state and he neither knew where, or what her

name had become after her second marriage. Martin Lundy is now 20 years of age.

Week after week Mr. Lundy took his letters to the postoffice, and week after week he opened replies, but from nowhere did he learn of a Lundy that was his brother until after a number of years. Then he heard of the Ferrysville man, wrote and found his brother. He ceased writing letters thereafter and has been waiting several years for an opportunity to go to Ferrysville and greet his brother in person, which opportunity came today.

Mr. Lundy may spend some time in Ferrysville before returning to Minneapolis.

CASS TARVER HERE TOMORROW NIGHT

Young Anson Giant Will Give Exhibition at Lydia Margaret Theatre

Wichita Falls is to see the Texas "White Man's Hope" Big Cass Tarver, the Anson boy, who is astonishing all the devotees of the fistie game with his brawn and brains and bigness, is to be at the Lydia Margaret Theatre Monday night, where he will give an exhibition of what he can do with the padded mitts.

The exhibition is in no wise a prize fight, nor even a boxing match; he will not have a sparring partner and no attempt will be made to pull off any sort of a mill. He will simply be there to show what he is and what he can do, and what is possible in the full development of a well built, well-trained athletic man. It will be an exhibition that ladies as well as men will enjoy and one that will inspire every youth to care for his physical welfare.

SYSTEM GETS BLACK EYE. Committee Finds Scientific Management Plan Not Adopted to Government Shops

By United Press.
Washington, D. C., March 9.—Sustaining protests of thousands of Government workmen in navy yards and arsenals, a black eye was given this afternoon to the so-called Taylor scientific management system by the special management committee of the House in its final report. That the Taylor system is not fit for adoption in its entirety in any government workshop in the country is the committee's conclusion. Chairman Wilson, of the House labor committee, Representatives Redfield, of New York, and Tilson, of Connecticut, comprised the committee. Employees of the Watertown Mass Government arsenal struck when the system was installed. Strikes at the Rock Island Illinois arsenal and the Washington navy yards were threatened. The system "speeded up workmen" by using the piece system instead of flat day wage.

"Because there are some loafers," says the report, "is no reason why other workmen should be compelled or induced to work up to the very edge of a breaking strain to hold their positions."

"In the margin between the work of a loafer and the maximum work of men lies the proper day's work. It cannot be determined by a stop watch. The workmen would be less than a man if he did not resent the introduction of any system which deals with him the same way as a beast of burden."

ABE ATTELL IS NOT GONE YET

Wonderful Little Fighter Fought Uphill Battle Against Tommy Murphy Yesterday

By United Press.
Coffroth Arena, Daly City, Cal., Mar. 9.—Abe Attell is not gone yet. Although beaten by Tommy Murphy, of New York, who had a full ten pounds the better of the weight, the wonderful little fighter who for years was without a peer in his class this afternoon fought an uphill battle and until the last two rounds of his 20 round bout was a possible winner.

In the 18th round Murphy, who had been pulling started in earnest and from the first minute of that round Attell was on the toboggan.

His face streaming with blood and staggering, Attell came in breast to breast with Murphy and put up such a fight as even his admirers have never seen him make before. He fought thus until the final gong and though beaten, is still one of the most dangerous fighting machines in the ring, and one if they meet again who will give Johnny Kilbane a chance to show the best he has to show for his right to the title he won.

END OF CALLAGHAN RULE IS IN SIGHT

Citizens League Committeemen Named for Vacancies in Bexar County Organization

By United Press.
San Antonio, Texas, March 9.—A clean cut victory of the anti-Callaghan forces in Bexar county politics was registered today at the meeting of the Bexar County Democratic Committee. By a vote of 19 to 7, anti-Callaghan committeemen were named for each vacant position on the committee and the balance of power on the committee now rests wholly and unreservedly with the Citizens' League. This victory is taken to mean practical election of the entire Citizens' League ticket next fall and the end of Callaghan rule.

CAN PEOPLE ELECT A CITY MARSHAL

Former City Council Has Attempted to Take Away From People their Right to Name Public Servants

The offices of city marshal and city engineer are omitted from the list of city officials in Mayor Noble's notice of the election on April 2 posted today.

The officers named in the mayor's proclamation are: Mayor, City Secretary, two Aldermen, City Attorney, City Tax Assessor and Collector.

J. W. Pond is named as presiding judge for the election. The judges are J. J. Manley and J. L. Downing and the clerks, A. L. Huey and W. W. Brown.

It is said that Mayor Noble's omission of the city marshal or chief of police from the list of elective officers results from the action of the Council several years ago in abolishing the office of city marshal and creating the office of chief of police and making the latter office appointive instead of elective. The statute plainly says that the offices of city marshal and city engineer shall be elective and whether the action of the Council in making the change referred to will stand a test is a matter of conjecture.

Anyway, five candidates are making the race, and the one who receives the highest number of votes will like to demand his commission and "ir-

his demand it is probable he will be backed by a large majority of the citizens.

A special meeting of the Council is being talked of to recreate the office of city marshal and make it elective as the law provides. Several members of the City Council are known to favor this action.

Heine Came Across.

By United Press.
New Orleans, La., March 9.—Heine Zimmerman, late hold out champion of the Cubs could not be fired off the squad tonight even if President Murphy were to cut the entire salary clause out of his contract. Edgar Lennox and Young Orr, the recruits were both being touted by the veterans as sure shots for the far corner of the Cub diamond. As a result the former holdout has notified Manager Chance that he will play the position if there will be no playing at all.

"Go to it Heine," was Chance's reply and a merry battle between the veterans and the recruits is on. The quad went through a grueling practice today.

Single Tax For China.

By United Press.
Peking, March 9.—On the eve of his inauguration as president of China, Yuan Shi Kai tonight declared that the single tax, which he proposed to have adopted would do more to promote the prosperity of his country than any step that he had ever taken. Yuan is convinced that this system will aid wonderfully in restoring the confidence of the people sadly shaken of late by the mutinous outbreaks.

IMPLEMENTS-IMPLEMENTS

We handle the largest and most complete stock of Farm Implements in Northwest Texas. In purchasing the stock of Wagons, Buggies and Farm Machinery of the Panhandle Implement Company we took over the exclusive sale of these goods in this territory. ¶ We bought this stock cheap. This accounts for the exceedingly liberal prices we are making. ¶ Our purchases, while always in carload lots, have been exceedingly great. Our warehouses are full of all the leading makes of machines and tools used by the farmer. ¶ Why buy inferior grades of machinery when the best can be had for the same money?

We have the famous Studebaker Wagons, truck or delivery, Bain Wagons, Studebaker and Moon Bros. Buggies, Canton Plows, Canton Listers and Canton one and two-row Planters and Cultivators. ¶ We have a large supply of the Oliver Chill Supply Company's Implements consisting of Riding and Walking Plows, Listers, one and two-row Planters and one and two-row cultivators. Our supply of extras is inexhaustible. ¶ Get our prices on Shelf Hardware. Our line is superior in quantity, quality and cheapness in price. The stock includes Harness, Collars, in fact everything used by farmers, ¶ We have a few Cream Separators which we are selling at exceedingly low prices.

GROCERY AND PROVISION DEPARTMENT . . .

We have the largest and busiest provision supply house in the Northwest. Not only can we supply your wants at the lowest prices, but we buy your produce and pay for it the highest market prices. Come to our Store. Look at our goods. Allow us to make you prices.

WE CONTROL THE OIL AND GAS ON 30,000 ACRES OF LAND

We are Drilling at Electra, Texas within the Proven Limits
We are drilling at Newtonville, Ala south of the Fayette Gas Field

F. B. YEILDING, Treas.
ALBERT STRADFORD, Secy.
E. N. HAMIL, Attorney

Wichita Falls, Texas, March 10th, 1912

Dear Sirs:-

Our well was 650 feet deep on receipt of last report. We will get the oil sand at 1050 feet. We are drilling 114 feet from a good producing well. We should drill one well each month to the 1000 foot sand.

We are drilling at Newtonville Ala., South of the Fayette gas field on one lease of seven thousand acres.

There are a number of wells drilling in Wichita and Archer counties, and any of these wells will in a measure test up some of our "wild cat land."

Now let us see what kind of a chance you have if you buy stock in our company:

- 1st. We are drilling within the proven limits at Electra, Texas.
- 2nd. We are drilling on one lease of seven thousand acres South of the Fayette gas field.
- 3rd. A number of companies are helping to test our lands in Alabama and Texas. It would only take a "little something" to happen to make our stock now selling at 25 cents per share, terms 20% cash and 20% per month to be worth \$1.00 per share.

Type of Children Who Went to Washington to Induce Federal Probe of Lawrence Strike.

Photos by American Press Association.
With a view of inducing congress to take action with reference to the conditions which brought about the strike of the textile operatives at Lawrence, Mass., a number of children of strikers were sent to Washington. The strikers desire a federal inquiry into the wages paid to workers and the conditions under which operations are conducted in the Massachusetts mill district. The upper picture shows strikers' children before Lawrence free soup kitchen.

Wichita Falls, Texas, March 10, 1912

Nearly every day there is something occurring that goes to increase the chance of Col. Roosevelt walking off with the Republican presidential nomination. This time it is the announcement that Senator Heyburn is against him. There never was a more lucky man than Roosevelt.

For some of the city offices there are as many as four candidates. The Socialists have a regular ticket, and it may be expected that the members of that party will vote solidly for the candidates it has put up. Ana, if they do it is not at all unlikely that they will elect some of the officers. The Times, several weeks ago, while it deplored the fact that politics had been injected into municipal affairs suggested that it might not be a bad idea for the Democrats of the city to organize and nominate a ticket. They would have been perfectly justified in taking such a step under the circumstances, but the suggestion was not accepted, and now it will not be a matter of great surprise should the Socialists succeed in electing one or more officers to be elected. In some instances there are as many as three candidates, all Democrats, running for the same office, and if they divide the vote equally or nearly so, it gives to the Socialists the opportunity they have been looking for—that of putting into office one or more of their members. As men, and as citizens the candidates for office on the Social list ticket, are alright, but it is what they stand for in a political way, the Times is opposed to, and the Times is not in favor of electing to official positions anyone who proclaims himself a Socialist. What it has in mind when it suggested that the Democrats of the city organize and put out a city ticket, is about to take place and those who advised against such a move may have occasion to be reminded very forcibly of the mistake they made.

DID CLARENCE HAVE AN AXE TO GRIND

The fact that Clarence Ousley was foreman of the grand jury that last week indicted Rev. J. Frank Norris for perjury leads one to wonder why he was foreman of that jury. In the first place he is the personal friend and promoter of Mayor Davis of this city, who is prosecutor of the preacher. He is the man who castigated him before a great audience as a liar and a scoundrel. In the next place every editor in Texas is exempt from jury service. Hence it looks very much like Ousley volunteered as a grand juror for the purpose of finding an indictment against Norris. It would have been in better taste if Ousley had wanted Norris indicted that he should have let some juror who was not exempt from service do the work. The indictment smacks loudly of spite and prejudice and if it is found to be true the proceeding should be most severely condemned and the perpetrators punished.—Hall County Herald.

The first indictment found against Rev. Norris has been found defective and to count it, the same grand jury that indicted him before, which has been re-convened, has returned a new indictment,—one that the county attorney thinks will stick, or hold good, and Rev. Norris was re-arrested on Friday on the new indictment. He gave bond as readily as before, and while the case has not been set, it is the understanding that the case against him will not come up for trial before April 1st. Mr. Ousley, if he has acted in the manner in which the Hall County Herald intimates, will show to the world that he himself has been guilty of some things which he has not been slow in charging other editors of newspapers with, whose reputations for being citizens will not suffer in the least when contrasted with that of his own. I. of that they have allowed their prejudices to blind them. However, we should not be too quick to judge. It might have been that Mr. Ousley only agreed to waive his exemption from jury service in order to lend dignity to the proceedings.

Owing to the difference in weight, people now invest in fake mining stock instead of buying cumbersome gold bricks.

Don't be too modest. People never criticize an old hen for cackling after she lays an egg.

GET BASES ON BALLS

Jimmy Sheekard of Chicago Secured 147 Passes.

Previous Record of 116 Was Held by Miller Huggins of St. Louis—Pitcher Marquard Whiffed Largest Number of Batemen.

Jimmy Sheekard of the Cubs was the most patient waffer in the National league last season, according to official statistics prepared and issued by Secretary Heydler as a sort of supplement to the conventional averages. The Cub left fielder was given 147 bases on balls in 156 games last season, and that not only was far ahead of any other player, but outdid the previous walking record of the league, held by Miller Huggins. That was 116 passes in 151 games in 1910.

The generosity of National league pitchers last season resulted in a total of 4,279 bases on balls. St. Louis pitchers were most liberal, issuing 592 free trips to first, but the Cub hurlers were close behind them, with a record of 585 passes issued. Cincinnati was third with 578, and Brooklyn was last with 425.

Besides Sheekard, who led the Cubs, the best wafers on each team were Bates of Cincinnati, 103; Huggins of St. Louis, 96; Knabe of Philadelphia, 94; Devore of New York, 87; Sweeney of Boston, 77; Hummel of Brooklyn, 67; Wagner and Byrne of Pittsburgh, 67 each. Some of Wagner's passes were thrust upon him.

National league pitchers struck out a total of 4,796 batsmen during 1911. Previously announced official dope showed that Marquard of New York whiffed the largest number of bats-

Jimmy Sheekard.

men, 237, which beat Alexander of the Phillies by ten. Brooklyn pitchers led the league in strike-outs with a total of 683 to their credit. St. Louis pitchers came next with 650, and Cub hurlers were third with 617. The other totals were: Cincinnati, 594; Philadelphia, 588; Pittsburgh, 583; Boston, 577; New York, 506. Marquard, therefore, came within sixteen of striking out half the men fanned by the Giants' slab staff last year.

Coulson of Brooklyn and Bescher of Cincinnati were tied for the lead in whiffing. Each of them struck out 78 times. Luderus was third with 75 strike-outs. Carey struck out 76 times; Devore, 69; Schulte, 68; Ingerston, 68, and Hauser, 57 times. Of the players who took part in 130 or more games, Sweeney of Boston was the hardest man to strike out. He was set down on strikes only 26 times. Joe Tinker was next to Bill with only 31 strike-outs against him. Mitchell was fanned 34 times; Larry Doyle, 32 times; Murray, 37 times; Meyers, 33 times; Wagner, 34 times, and Knabe

Rube Marquard.

and Oakes, 35 times apiece. All these played in 130 or more games.

Secretary Heydler introduced another innovation in keeping records, showing the number of times men reached first base on errors. During the season, 1,106 runners profited in that way, according to his figures. Boston was luckiest in that particular, having a total of 171 men reach first on errors by opponents. Philadelphia was second with 164, Pittsburgh was next with 154, and Chicago batsmen were unluckiest of all. Only 129 Cubs were handed their lives at first on errors. The other club totals were Cincinnati, 151; St. Louis, 147; Brooklyn, 141, and New York, 139.

It's easier to buy experience than it is to sell it.

The Times was in error Friday when it reported that the members of the City Council were unanimous in favor of the city installing its own plant to furnish street lights. As a matter of fact there has been no test of the sentiment of the Council on this subject and it is very doubtful whether even a majority favor such a move. Speaking for himself Councilman Gardner Saturday declared that he did not favor it, and did not think it likely that any such step would be seriously contemplated.

Builder of the Monitor Will Be Honored on The Fiftieth Anniversary of Naval Battle.

Photo of Ericsson copyright by Review of Reviews company. Photo of Worden copyright by Patriot Publishing company.

The Swedish American Republican League of Illinois will celebrate the fiftieth anniversary of the battle of the Monitor and the Merrimack on March 9 with a banquet at Chicago. John Ericsson, builder of the Monitor, was a native of Sweden. John Lorimer Worden, who commanded the Monitor, President Taft, Governors Dineen and Eberhart and Congressman Foss will be the speakers.

TWO CANDIDATES FOR ALDERMAN

(Continued from page 1)

been most fortunate in the selection of her coucilmen.

There will not, in all probability, be other candidates for these two positions, other than the two nominated by the Socialist party under E. M. Winfrey, T. W. Scott and G. R. Seaman. Three candidates were named by the Socialist party under the impression that three were to be elected, but the Times understands that only two will go on the ticket, as to which two that will be the Times is not informed. The first named, Mr. Winfrey, is perhaps better known to the people of this city than the two others, owing to the fact of his long residence here. Mr. Scott is a carpenter and was a candidate for alderman a year ago, but was defeated. If the Times remembers correctly, Mr. Seaman is a machinist. All are good men.

TAFT DELEGATES FROM NEW MEXICO

Progressives Hold Own Convention and Elect Delegates Pledged to Roosevelt

Santa Fe, N. M., March 9.—The two day Republican state convention closed here this afternoon, when the standpatners, who controlled elected eight delegates and eight alternates to the Republican National convention in Chicago, instructed to vote for the renomination of President Taft. A separate convention of the Progressive Republican and elected delegates to Col. Roosevelt.

FAMOUS PLAYER OF PITTSBURG PIRATES

Artist Cesare Sketches Honus Wagner Running Out a Hit.

By HOMER CROY.

J. H. Wagner, alias John Henry, alias John Peter, alias Hans, nee Honus, the man who made Pittsburgh famous, was discovered at Steubenville, O., and now once a year that city gets out its steam calliope and the town hall straggled banner, makes speeches and has a children's chorus, that ever strode the strand. The first time he bunched up his shoulders, juked out his neck and staid on a dead run for first base, two ladies fainted and a little girl by the name of Lillie cried for half an hour. After that, before Hans started for first, the police always went ahead clearing up the track and warning nervous ladies on the bleachers to look the other way.

From Steubenville he was check-boarded to Warren, Pa., from there to Paterson, N. J., and from there he jumped into the king row at Louisville under Pullman. For seven seasons he has led the National league batsmen, and for 14 years hand-running has been keeping it over 300. Whenever it gets very much below 340 he gets nervous and calls in the doctor every afternoon to look at his tongue.

When Honus Honus has his baseball togs off he lives at Carnegie, Pa., where the people want to have an iron fountain made in his honor to be placed just opposite the town hall, representing the Flying Dutchman with an ash stick poised ready to line out a three-bagger, with cool sparkling water gushing from the end of his bat.

Autoligo is his hobby, and he owns one of the best cars on four wheels. His favorite indoor sport is giving his auto a gulp of gasoline. He reads every paper in the east that has an automobile page, and he writes for so many catalogues that the postman on Railroad avenue, Carnegie, has round shoulders and a nervous, worried expression. He knows the family and baptismal name of every automobile manufactured and can tell the make of a car by the smell of the gasoline.

He owns a chicken farm with 200 hens settling around the 300 mark, and in the hatching season he sits by the incubator night and day with a book on poultry tucked down on his knee and in his hand a catalogue of automobile accessories. He has 27 blooded dogs, owns part interest in a circus and has never told his age. The Hope Diamond of the Pirates is one of the wealthiest players in the business, having so much money that whenever one of his tires goes pop! when he is out on the road he laughs all over to think it didn't happen at home where it might have frightened one of his fat pullets and made her run her weight off. The Adams of the Diamond from Carnegie has never married and his worst dissipation is chewing a toothpick after meals.

Taft Defines A Progressive
(Continued from page 1)

them, were only symptoms of a physiologic situation that must pass under the calming lapse of time and the public gaze to view the situation with a knowledge of the facts and with that common sense and spirit of fairness that ultimately always has prevailed among the people. We all believe in popular government. The history of this country under the constitution under which we have fought three foreign wars and withstood the shock of the greatest civil war in history and have still retained the blessing of well ordered liberty is enough to show the almost divine foresight of those who framed the federal compact. It has shown itself adapted to thirteen struggling states with a population of but three million people a century and a quarter ago and now to a stable government of ninety millions of people occupying a continent.

"I am aware of the exposure to criticism," the President continued, "which the suggestion that the American people may make mistakes by hasty action and lack of deliberation may expose me. I am aware of the ease with which such a suggestion can be tortured into an expression of distrust of the American people. I am aware that a body of the people does not differ in certain traits from the individuals who make it up and that people like to be flattered as do individuals—I know that as a whole people do not any more than the individuals enjoy having their own defects pointed out to them. The truth is, though the man who tells the need of the danger that may arise from impetuous and hasty action pays a higher tribute to them than the one who constantly laments upon them as if they were incapable of error. The most abiding complaint that can be paid the American people is to point to the fact that in the Constitution which they framed and have maintained they have recognized the danger of hasty action by themselves adopting checks and balances.

"The truth is that in this latter century we have vindicated popular government in a way that has never been indicated. We have taken from all of the countries of the world, those who would come to us seeking prosperity. The pride that I have that this is a popular government is as deeply imbedded as any feeling that is in me. I would be the last man to exclude from the direction of the ship of State the will of the American people. That is the ultimate source of authority and it does not in any way minimize my faith and my love of popular government that I insist that the expression of that popular will shall be with the deliberation to make it safe and sound. I fully and freely admit and assert that when the American people have had time to learn all the facts and have time to consider their bearing, their deliberate judgment is a wiser and better guide to be followed by the State than the judgment of the experienced statesman, the most learned jurist, the most profound student of history. In this proper sense the voice of God than any other human decision.

The President then proceeded to give his ideas of what a progressive should be.

"Having thus defined what a progressive means," he continued, "my next proposition is a paraphrase of the old maxim 'handsome is as handsome does.' An administration which should be successfully progressive in deeds is entitled to the approval of the people. The present administration in what it has accomplished in legislative and executive sessions is a position to point to many real steps of progress both in the way of avoiding an unnecessary disturbance of business in the way of regulating the use of corporate capital for individual use and preventing its abuse and the preservation for the people of what belongs to it as well as in ameliorating the legal steps of certain clashes of the people and increasing the functions of the government for the benefit of the whole people."

To show this the President reviewed at length the activities of the Taft administration and reviewed the progress in railroad and anti-trust legislation and renewed his recommendation for a federal incorporation act, the provision of railroad safety appliances and recommended compensation and employers liability acts now pending. He pointed out that the administration has followed out the line of conservative legislation and recommended by his predecessor.

Discussing the judiciary the President renewed his commendations in his Toledo speech last night for an independent tribunal to try judges on charges. He also repeated his discussion of the proposed recall of judicial decisions.

I HAVE SOME Special Bargains TO OFFER IN City Property

1. A business brick building on Ohio avenue.
2. 50x150 foot lot with house, on Scott avenue.
3. 50x150 foot lot on Seventh street; close in, corner lot.
4. 50x150 foot lot with brick building, on Indiana avenue.
5. 70 ft. by 150 ft. residence lots on Bluff Street; one a corner lot.
6. 2 Resident Lots on Seventh street 50x215 ft.
7. 4 Room House on Burnett street, all conveniences; lot 70 foot front.
8. 17 Room House; all new, on Scott avenue, close in.

These prices are all based on hard times and now that we are just on the beginning of a bright year and the chances for a great oil field, which will more than double the population of Wichita Falls in a very short time, you cannot miss making money on any of the above. Call at once and get my prices and terms.

ATTEMPT TO BURGLARIZE THE PHILLIPS HOME

About 11 o'clock Friday night burglars attempted to enter the home of P. E. Phillips who resides at 1006 Austin street. Mr. Phillips, who is a traveling salesman, was away from home and Mrs. Phillips being aroused by the barking of a dog which she keeps in the house, telephoned to Rev. Dr. E. R. Hamlin, who resides next door to come over and when Rev. Hamlin arrived at the Phillips home he found the front door open. This door had been shut and locked by one of the children and in order to see that this had not been neglected, Mrs. Phillips before retiring for the night, had gone to the front door to assure herself that it was locked.

The police department were telephoned and responded immediately, but while there was evidence that some intruder had entered the house by unhooking the door, whoever he was made good his escape and left no clue behind for the officers to follow.

There was nothing missing and beyond the fright to Mrs. Phillips occasioned by the visit of the night intruder.

TOO MUCH RAIN EARLY FOR FARMING

Preparatory Season Half Over Yet Big Leaguers Not Fairly Started to Get Into Form

United Press.

New York, March 9.—The South—home of sunshine and balmy breezes proved a failure for spring baseball training. "Fit and ready" will not be the cry of managers when the season opens a month hence. Everywhere the jinx—J. Pluvius—holds the fort. Never since the major leaguers journeyed southward to condition themselves for the hard campaign in the north has such weather been experienced. Managers are in despair. From all baseball camps comes the cry that, with the training season half over the men are not well started.

Managers realize that indoor exercise is not conducive of conditioning a player. Only hard, open air work can accomplish it. Pitchers afraid to try out their arms, lack of snap in field work; batting practice a standstill—all these are attributed to the havoc created by the rain at the various grounds.

The players are also fretting over their inactivity. The easy life of the winter has shown the need of hard work and they are anxious for it—not only to condition themselves but also to work off the "Charley horses" and the stiffness that usually appears after the first few hours of training.

Two weeks more and the teams will start north. Managers are praying for old ad to come out of hiding. A fortnight's work in sunshine will do much toward realizing every manager's hope of a team of well trained athletes to start the season. But the outlook tonight is dubious.

BOARD AND ROOMS

ROOMS AND BOARD—In private family, home cooking. Rates reasonable. 208 Lamar. 253-6tp

STAMPFLI DECLINES TO BECOME CANDIDATE

Feeling deeply grateful to the friends who have solicited me to become a candidate for alderman, after considering the matter more fully, have determined that I can but serve the people of Wichita Falls in my present capacity—that of chief of the fire department, and it be the wish of the new administration to be elected in April, will again offer my services at its disposal. Many of my friends have urged upon me the fact that I could not serve as alderman and fire chief at the same time, and that they prefer that I remain as fire chief. I have yielded to their wishes in that respect and will therefore not be a candidate for alderman.

Again thanking those of my friends who have manifested their confidence and esteem in me by circulating a petition to have me become a candidate for alderman, I feel it my duty to decline the honor at this time.

Sincerely,
V. E. STAMPFLI

"Hack" Engle says the only way the youngsters can win the second base job with the Boston Red Sox is for them to toss him off a bridge.

Indiana Scientists Who Originated the Now Famous "Home Treatment" Offers \$1.00 Treatment Free to Sick and Ailing.

In order that every reader of the Wichita Times who needs treatment may have an opportunity to test this celebrated medicine, the now famous Indiana scientist has come to the front with an offer to give absolutely free a full size \$1.00 package to five hundred persons to prove the wonderful claims which have been made for it. In making this offer the scientist said: "I know that there are many people who have been suffering for years with some chronic disease and many of them have spent large sums of money seeking a cure. I know that these people hesitate about investing money in medicine because they have despaired of ever getting well. Thousands have told me that story, and many thousands of the same people have told me afterwards that my treatment had cured them after doctors and everything else had failed. I want to show these despairing people that all the newspaper talk about my treatment is absolutely true. I want to prove to a limited number—no matter what the disease, no matter how long they may have suffered,—that my treatment really and actually does accomplish the wonderful results that have been reported."

People who suffer from Rheumatism, Kidney Trouble, Stomach Trouble, Liver or Bowel Disorders, Catarrh, Bronchitis, Asthma, Chronic Coughs, Weak Lungs, Lumbago, Piles, Urinary Disorders, Female Weaknesses of any kind, the weak, worn out, broken-down and despondent will be delighted at the effect of a few doses. This wonderful treatment creates a fine appetite and helps the digestive organs to carry on their functions as they should. It strengthens the kidneys, too, and drives rheumatism poisons from the blood as if by magic. That is why people who try it become so enthusiastic. Any reader of the Wichita Times who will try this extraordinary medicine that has created so much excitement by its cures can obtain absolutely free a full \$1.00 treatment by simply filling in the coupon below or writing a letter describing their case in their own words, if they prefer, and mailing it today to James W. Kidd, Ft. Wayne, Indiana. No money need be sent and no charge of any kind will be made. As this offer is limited, you should write at once, in order to be sure to receive your free treatment.

Coupon A-106 For Free Dollar Treatment

Dr. Jas. W. Kidd, Wayne, Ind.

HIS EMPLOYMENT AGENCY BOGUS ONE

This is the Charge For Which F. E. Shofner Was Indicted at Houston

By United Press. Houston, Texas, March 9.—When Judge Burns adjourned the federal court late this afternoon until Monday, but a few of the witnesses for the prosecution in the case against F. E. Shofner, charged with using the mails to defraud had been examined. Many have been summoned and they are from all sections of the United States.

Operating under the name of the American Opportunity Company Shofner is declared to have professed to deal in high class men and jobs. Literature sent out told of alluring positions with handsome salaries and in many instances witnesses testified to having made sacrifices to come to Texas with the expectations of stepping right into lucrative jobs for which they had paid handsomely. Something, however, always intervened to prevent the realization of the desires. Shofner's business appears to have thrived wonderfully from a financial viewpoint, until repeated complaints to Uncle Sam resulted in his indictment on many counts. Another week will probably be consumed in the trial if all the witnesses present are placed on the stand.

SENATOR PERCY REFUSES TO RESIGN

Declares Resolution Adopted by Legislature Born of Factional Hatred

By United Press. Washington, D. C., March 9.—In a fervid statement Senator Percy (Democrat of Mississippi) tonight attacked the legislature of his State for having passed a resolution demanding that he resign his seat in the Senate. He refused to resign. "The resolution is your reply," said Percy, "to the speech delivered by me in the Senate in December, in which I challenged you to request an investigation into my election to the U. S. Senate."

"Not daring to ask the investigation or to make any allegations which might lead to it you passed the resolution born of malignant factional hatred merely intended as a gratuitous insult to me. Regardless alike of the truth and the interest of the State you represent, desiring to perpetuate partisan strife and to wound me, you are willing to impair, or destroy my ability to serve that state in the United States Senate. Your resolution cannot injure me but your action should strip you of the respect of every decent, patriotic Mississippian.

"I shall pay no heed to your resolution; I did not receive my commission from you; I will not lay it down at your behest; but shall continue to do my duty to the people of Mississippi in the United States Senate as God gives me power to see it, conscious that my course will meet the approval of the brains and manhood of my State."

SUFFRAGETTES INAUGURE THE HUNGER STRIKE

Assault Wardresses Who Attempt to Make Them Work and Refuse to Eat

By United Press. London, March 9.—The situation so far as the suffragettes in Holloway prison, is concerned, is tonight admittedly giving the authorities grave concern. With a dozen of the militant suffragettes including Alice D. Wright, the American girl, in solitary confinement for assaulting wardresses, who tried to make them work, the woes of the officials have been increased by the women starting the hunger strike. It is known that when Mrs. Emmeline Pankhurst was brought into court on Thursday to answer to the conspiracy charges, she confided to friends who managed to speak to her, that she planned the hunger strike.

She was then pale and apparently on the verge of hysterics and it has since been learned that from the time she was arrested she has refused food. Her companion, Mrs. Mabel Tuke, secretary of the Social and Political League, who has been locked in the cell with her also refused food. How many others joined the movement cannot be learned but it is believed that more than half the prisoners now in the big institution have done so to force the hand of the government.

CALLAHAN'S SQUAD DEFEATS SAND CRABS

By United Press. Galveston, Texas, March 9.—By a score of 8 to 4, the White Sox under Jimmy Callahan won today from Galveston, thereby having the honor of winning the first game played on the Beach Park. Maloney's men were decidedly at a disadvantage due to the fact that bad weather has prevented them from playing together and in addition today is the first day on which they have been able to work in the park. The Sand Crabs showed up in good form especially at bat making 10 hits to the Sox 7, and having but two errors to Chicago's 1. In the fourth and fifth innings the Sand Crabs landed on Callahan's pitcher, Mr. Hanson, and with singles and doubles drove in four runs, chasing him from the box.

The score by innings:
R H E
Galveston 000 220 000—4 10 2
Chicago 212 002 001—8 7 1
Batteries—Morton, Gordon and Bower and Williams; Walsh, Hanson, Lange and Sullivan.

WILL PASS FOUR MILLION MARK

By United Press. Austin, Texas, March 9.—The Texas cotton crop for this year will easily reach 4,000,000 bales according to the figures and estimates of the State Department of Agriculture. This will be one of the largest crops ever produced in the history of the State. The department today made public the number of bales ginned during the month of February, which show the total number to be 264,198.

This makes a total of 3,906,447 bales thus far ginned this season and according to advices received there will be not less than 100,000 bales ginned during this month, which will make the total run over the four million mark. The total crop last year was 2,921,665 bales.

It is alleged that she would drive up to a suburban grocery store in a buggy, send in a list of goods wanted amounting generally to about \$25 and when they were brought out she would think of something else desired and when the clerk had gone to get it she would drive off. Her identity is alleged to have been established by tracing her conveyance.

A search of her home is declared to have revealed a bountiful supply of the necessities of life, many of the articles being identified by merchants on the witness stand.

SEEKING LOW RATES FOR FIGHT

By United Press. Chicago, Ill., March 9.—Jack Curley, promoter of the Johnson-Flynn heavyweight battle arrived here today for the purpose of opening negotiations with the railroad officials for reduced rates on the principal roads of the country to the scene of the fight. Curley says that the arrangements for the fight are going forward satisfactorily and that he expects to pull off the big battle some time in July either in Nevada or New Mexico.

HOLDS COMMON LAW MARRIAGE NOT VALID

Ruee of Ft. Worth Woman to Avoid Testifying Against Safe Blower Failed to Work

Dallas, Texas, March 9.—After Judge R. B. Seay of the criminal district court had held that a common law marriage was not valid a jury in his court Saturday afternoon returned a verdict finding John "Irish" O'Malley guilty of safe blowing and assessed his punishment at two years in the pen. During the morning Willie Epps, who claimed Fort Worth as her home, went through the form of a common law marriage with O'Malley in an effort to keep from testifying but she was forced by the court to tell all she knew about the safe blowing. Willie Adams, who was convicted Friday on the same charge and "Memphis" Jones, the third member of the gang escaped jail Saturday morning and have not been recaptured. Three other prisoners escaped the same time.

4 NEW CASES IN HARRIS COUNTY

By United Press. Houston, Texas, March 9.—Four additional meningitis cases were reported in Harris county today. Fifty students of public schools who were exposed to a case have been suspended until the meeting of the school board Monday.

SOUTHERN POINT OF NATION

The most southern point of mainland territory in the United States is on a sharp bend of the Rio Grande river about 20 miles southwest of Brownsville. The government official survey shows that its latitude is 25 degrees and 9 minutes, which places it below the most southern part of the peninsula of Florida, but not as far south as Key West. The spot is marked by a group of picturesque Mexican ranch buildings with their thatched roofs. Growing upon the land are groves of wild palm trees which lend to the beauty of the tropical scene. The distance between Brownsville and the mouth of the Rio Grande in a direct line is approximately 22 miles, but the river has so many curvatures that its course between the two points covers 110 miles, according to the survey of the international boundary commission, which is composed of the representatives of the United States and Mexican governments. Before the river empties into the gulf it makes a sharp bend to the south, and this rounded peninsula forms the most southern mainland of the country. Most of the territory between Brownsville and the Rio Grande's mouth is covered by a dense wilderness of chaparral. The soil is of primitive richness, caused by the periodical deposits of silt from the stream's overflow. Owing to the inaccessibility of the little Mexican ranch, which holds the distinction of marking the most southern spot, the place has been visited by very few Americans.

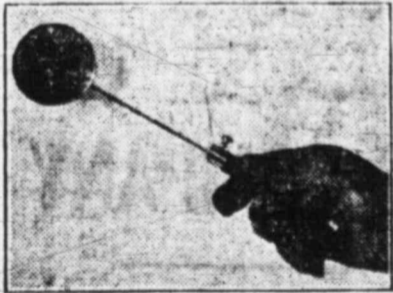

WHERE MANITOU SPEAKS

A familiar landmark near Hayton, Wis., is the old "Council Elm" that stands at a bend in the Manitowoc river a short distance below Hayton. The Pottawotomie Indians who once occupied this region regarded the tree with awe and veneration, believing it endowed with special attributes by the Manitou or Great Spirit. Under its shade all important councils of the tribe took place. As a meeting place for representatives of the different northwestern tribes who wished to enter the Pottawotomie territory, it must have witnessed some strange scenes. Each spring and fall all the Pottawotomie clans were wont to gather at the spacious camping ground near the tree. For days the beating of drums, the chanting of barbaric songs and fantastic dances occupied the attention of the savages. Among the many Indian legends concerning the tree one of the few that has survived is to the effect that the Manitou speaks to his people in the rustle of its leaves and the sigh of the winter wind through the bare branches.

MULE AND BEAR FIGHT DUEL

The story of a duel to the death between a mule and a bear comes from Chambersburg, Pa. The mule came out victorious. Aroused by a commotion in his barn, Dan Shawley, lumberman and farmer, found the bear in combat with his pet mule. Contrary to the established custom the mule was using his front feet in the battle and peppering bruin a regular tattoo over the head. One savage slap by the mule broke one of the bear's front legs and the bulky animal fell prostrate. Then the mule reversed himself and let loose the death dealing assault from his hind quarters. The bear died shortly after Shawley reached the scene. It weighed 262 pounds and showed the marks of eight bullet punctures.

FORTUNE IN A SMALL DISC

In the radium institutes like the one recently opened in London there is nothing more wonderful to the visitor than the little square or circular trays of metal containing specks of radium in shellac varnish whose rays hold such vast possibilities in the future of mankind's struggle against disease. The disc illustrated contains 70 milligrammes of radium, worth \$1,350. The trays when applied to the patient are covered with metal caps or screens which lessen or intensify the power of the rays according to the nature of the disease. In the basement of the London institution is a strong room holding the largest stock of radium in the world. The scale-room where these tiny black specks of radium are weighed is a broad, lofty, white-tiled room absolutely vibration-proof.

DOG TO THE RESCUE

An exciting incident occurred at Atlantic City one morning recently when Joseph Gallagher attempted to swim around Young's old pier accompanied by a large shepherd dog. When off the end of the pier he was seized with cramps and cried for help. The dog seized Gallagher's jersey in his teeth and held him up. Gallagher's cries attracted the life guards, who attempted to beat the dog away, but the animal would not release his hold until he was hit over the head with an oar. Gallagher sank and one of the life guards dived after him. He and the dog were rescued.

The Rochester champions will open the International league season on April 18, in Providence.

THERE'S A DIFFERENCE IN LUMBER

So much difference, in fact, that any casual observer can notice it. However, there is no difference in the price, and it pays to buy only the best, especially if you are building a home. We can show you the best quality of lumber and building material that can be bought anywhere. If you're going to build we'll be glad to furnish an estimate free of charge.

CAPTAIN ROGERS' SLIDE

Bald Mountain or Rogers' Rock on the west shore of Lake George rears its ponderous bulk of granite to an almost perpendicular height of 1,100 feet, being matched by a similar bulk and height on the east, half a mile away. Here Captain Rogers and his small army of snowshoes were defeated by a large army of French and Indians. The small remnant were scattered through the forest at the top of the mountain, and a party of Indians tracked the marks of the snowshoes of the refugees. When Rogers became aware that he was likely to be driven over the precipice, he made his way to the brink, threw his pack and accoutrements down the slide to the lake. He then turned his snowshoes around and, after stealing along the edge of the hill, made his way down the lake, picked up his pack, reversed his snowshoes and sped southward to the Narrows, where he was met by Captain Stark with reinforcements and provisions. The Indians followed Rogers' tracks to the brink, where, seemingly, were two tracks to the precipice. They concluded that two white men had slid down to the ice below. While gazing, they saw a mile away the form of Rogers. But considering him under the special protection of the Great Spirit, they made no further pursuit.

Gorge of the River Arnon

The gorge of the River Arnon is one of the chief points of interest about the Dead sea, for it can boast the finest natural scenery in Palestine. The vari-colored sandstone sides of the canyon rise perpendicularly to a height of 300 feet in places, and at some points are only 20 feet apart. Should there be any truth in the assertion that Germany is coveting the Dead sea and its neighborhood, here, surely, her tourists would find a veritable Mecca, to which pilgrimages of pleasure would be made.

DEATH FORETOLD IN DREAM

A fatal accident that was foretold in a dream was described at an inquest at Oak Hill, near Birmingham, on the body of a miner named Benjamin Westwood, who was killed at the Fly colliery, says the London Chronicle. His brother, William, said that on Tuesday night he had a dream, and in it he saw his brother killed. He added: "I did not go to work on Wednesday morning, for my dream made me so ill that I was unable to leave my bed, and have been unable to do any work since." "In my dream I saw a considerable quantity of coal fall from the roof onto my brother, knock him down and kill him, and from what those who witnessed the accident have told me, my dream was fulfilled. I did not go to my brother's house to warn him, as I was too ill to leave home."

"GOLDEN GATE" NAMED HERE

Joaquin Miller, the poet of the Sierras, has erected several interesting memorials on his estate near San Francisco, and among them is the tower here pictured. It stands on the spot from which General Fremont first saw and named the Golden Gate, the strait that connects the Pacific ocean and the Bay of San Francisco. The tower faces due west and has an unobstructed view of the strait. To the spectator, looking from it, the sun seems to set at the Golden Gate.

LIGHTNING CALCULATORS

The clerical staffs of many of the big insurance companies have of late years been considerably reduced by the employment of mechanical calculators. One of these, the invention of a German, is a compact little affair resembling a music box. It may be made to perform almost instantaneous the most portentous sums. In addition, subtraction, multiplication by one or two factors, division, squaring and cubing. It is required, for instance, to multiply 531,975 by 924. The first factor is set by touching little knobs representing 531,975. To multiply by the other factor you turn a handle four times, push a long slide one place and turn the handle twice, then push the slide another place upward and turn the handle nine times. The long multiplication is now done without the possibility of error so far as the machine is concerned and the dial shows 491,644,900. In the same mechanical way may be done all the other arithmetical processes.

Broad Minded
Old Age is Not Essential to Company of Men
By CLAIRE WRIGHT

A youthful ideal of a husband, has not met with its counterpart in my choice of a husband, therefore I shall draw the curtain against the narration of its shattered fragments. He shines within his own sphere, not mine.
In later life I am capable only of looking backward over experience's tried path in order to mold an ideal upon a pedestal-founded on shifting sand, for age forbids my desire for another mate even if I were free to select such a one.
Although my husband has proven unworthy of my ideal my interest in life's environments is still active. My intent is to delve into subjects tending to the uplifting of humanity. This statement appeals to me:
"I have never married, but I have reached the age where I can cultivate any man I like without unkind things being said (one of the compensations of age), and I find nothing more interesting in life than companionable men."
It sounds with a golden ring of freedom from the trammelled path of womankind in general. A woman who has the fortitude to give public expression to her convictions, without fear of adverse criticism, has reached the acme of life's perspective, as her stable mind perceives it, and not with the deflected vision of a warped mentality.
Women as a rule are filled with an over-abundance of fear, as to others' comments if she gives vent to her innermost opinions, especially in reference to sociability or the association of the sexes. Even though a husband be of the sensible type and free from the demon jealousy, if the wife dare to step aside from the beaten path of Puritan ideas and manifest an inclination to welcome the companionship of intelligent men, aside from her husband, and even if they be his friends also, she is the target for innumerable flings of censure, especially by her own sex.
With only a few exceptions I have always found that men maintain their respect toward me with a gentlemanly attitude, and in appreciation of said consideration by them and conjunction with my husband's unusual sensibleness and absence of evil thoughts, I am glad to repeat the same sentiments expressed by my co-writer. However, I contend that advanced age is not an essential to be obtained before a woman of firm character may enjoy the companionship of men with impunity.
Woman's weapon of defense in the presence of men in all walks of life, is based upon her own mode of conducting herself and not upon the actions of men.
Mr. John T. Granger of Washington, D. C., arrived in Wichita Falls last night and is stopping at the Westland. Mr. Granger come here to look after his interests in some valuable oil lands lying near Electric, and will probably be in the State for several days.

STOCK MARKET UPWARD TREND

SUBSTANTIAL PROGRESS IN ALL IMPORTANT ISSUES CONTINUED THROUGH WEEK

PRES. TAFT'S UTTERANCE

Are Looked Upon As a Hopeful Sign By Those On the Bull Side

New York, Jan. 9.—Financial America in its issue Monday will say: The upward movement which started in the stock market just before U. S. steel and common and Union Pacific sold ex-dividend, made substantial progress all through the past week with prices of nearly of the all important issues moving up about five points. The way the market acted was hopefully construed in many circles which have been of late over-anxious in seeking foreign encouragement in Wall street affairs. It was assumed in these circles that this upturn meant a decided and substantial change in the speculative situation and various arguments were advanced to impress upon the public mind the belief that the activity and strength displayed was but the forerunner of another bull campaign such as was recorded in the Presidential contest of 1908.
Those who are in earnest on the bull side regard recent utterances of President Taft as a basis for a coming upward movement and attached particular importance to dispatches quoting the President as stating it is his purpose to do everything in his power to protect business interests

PRICES UP IN GRAIN MARKET

BEAR FIRST IN MARKET SATURDAY BUT WERE QUICKLY ROUTED BY ACTIVE BULL INTERESTS

A SCRAMBLE TO COVER

Government Report Showing Small Reserves in Hands of Farmers

Chicago, Ill., March 9.—After waiting most of the week for the government's bulletin on the farm reserve grain issued yesterday, the market took a sharp turn upward when the bulls determined that the report was a strong argument in favor of their side of the market. Small quantities of grain remain on the farms. In today's early trading the bears were the first in the market and attempted to ignore the government reports. The upward movement began later and there was a general scramble of the shorts to cover. The short covering took place at the highest figures of the day. Foreign markets were not affected by the government report. Wheat futures showed an increase for the week in May of 1-2 and in July of 1-3.
The situation in the corn trade was very similar to that in the wheat pit. The market started on a decline but the bulls quickly entered the trading and offerings were snapped up in corn and the bears forced to seek protection. An enormous business was done in corn during the week. May futures closed 7-8 higher and July 3-4 higher than a week ago. The trade in oats was narrower and

steadier than in other grains and the bulls were more careful in their rush today in all lines with the exception of oats. Both May and July futures show a decline of 1-8 for the week.
The provision trade was less active. Slight advances were registered today in all lines with the exception of lard. Both May and July futures show a decline of 1-8 for the week ago.
Plant

FURNITURE FACTORY MAY COME HERE

San Marcos People Willing to Meet Tentative Offer for Removal of

J. R. Marlow received a telegram last night from the stockholders who control the furniture factory at San Marcos, Texas, accepting a tentative offer made by Mr. Marlow for the removal of the factory to this city. The offer as made by Mr. Marlow is for the removal of the plant to this city and a re-organization of the company. The present stockholders taking thirty-five thousand dollars of the stock and citizens of Wichita Falls twenty-five thousand dollars. A loan of forty thousand dollars was also proposed.
The company manufactures tables, desks, show cases and other high class furniture and if brought here would give employment to about sixty-five people.
Mr. Marlow went to San Marcos to investigate the plant and the standing of the stockholders is enthusiastic over the proposition and believes that if the people of Wichita Falls respond to the proposition it will prove one of the best they have ever had offered them.
Another meeting of the manufacturers committee of the Chamber of Commerce will probably be called tomorrow to take up the matter.

We Want Business
and we won't say a word if you crowd the filthy lucre into our jeans until it breaks our one suspender into a thousand pieces. We would like to have you burn our telephone up bodily, wear out every sidewalk that leads to our classy business bungalow and run our deeply colored porter until he gets a caucasian complexion. We would like to get pinched for cruelty to cash registers. We would like to get the habit of letting you have a few things every day. This does not mean that we have never had any business, not on your life Mabel, we have been throwing bottles at the wall for years and have always been able to square ourselves with the grocery man and the butcher. This is merely a timely hint that when you want somebody to jump around some, grab the wire and we will do the rest. Our stock is complete and our delivery boy is ball bearing, insured against hot boxes and always gets there.

It's So Easy to End Catarrh.
Go to Foosehee & Lynch and say I want a HYOMEI outfit—take it home—open the box—pour a few drops of HYOMEI from the bottle into the little hard rubber inhaler—breathe it for five minutes and note the refreshing relief—breathe it four or five times a day for a few days and catarrh and all disgusting symptoms will gradually disappear.
HYOMEI contains no opium, cocaine or other harmful drug and is sold on

FIRE MYSTERY WILL BE PROBED

Fort Worth, Texas, March 9.—The Forty-Eighth District Court Grand Jury, to be convened by Judge R. H. Bunk Monday morning will take up the probe into the mystery surrounding the burning of the First Baptist Church, the attacks upon the pastor, Rev. J. Frank Norris, and the firing of his home.
The same room where the Sixty-Seventh District Grand Jury labored six weeks, and listened to the testimony of one hundred witnesses, the new body will exert all of its inquisitorial power to lift the cloud that so far has obscured the series of crimes and baffled the skill of the best detectives in the court.
Judge Buck said Saturday that he would unquestionably include in his charge and instruction to the grand jurors to take up the investigation of the mysterious fires and the attack on Dr. Norris.
"I have not fully prepared my charge," Judge Buck said, "but until the grave mystery that now confronts Fort Worth is solved, it will be the duty of every grand juror impanelled to do his utmost to discover the guilty person or persons and bring them to justice."

STRIKE MAY END MONDAY

Lawrence, Mass., March 9.—The great textile strike resulting in brutalities that aroused the nation will probably be settled Monday.
It was persistently rumored tonight that the five big independent mills here would post notices Monday morning granting an increase to all their employes and providing that no adult laborer shall receive less than \$8.12 per week. In some cases this would mean an increase of 75 per cent. The basis if general settlement with the trust mills, it is said, will probably give increases as high as 15 per cent to unskilled and as high as five per cent to skilled laborers.
From Rotan to Rowell.
By Associated Press.
Waco, Texas, March 9.—One or more eastern publications state that the Katy will build from Rotan to Rowell, N. M., a distance of nearly three hundred miles. This would make the Texas Central over five hundred miles long.
Pitcher Toney, of the Cubs, the fellow who lifted the end of a bat-leship, or something like that, has joined Heine Zimmerman in the holdout division.

BE SURE YOUR SINS WILL FIND YOU OUT

This is Theme Announced by Rev. J. Frank Norris for Sermon Sunday Night
By United Press.
Fort Worth, Texas, March 9.—While there have been no startling developments the last two days in the case of Dr. J. Frank Norris of the burned First Baptist Church, charged with perjury, significance was given to da yto his announcement that tomorrow night at Byers opera house he will preach on the subject, "A Certain Detective, or Be Sure Your Sins Will Find Ye Out."
Many believe the accused preacher tomorrow will endeavor to make the startling disclosure which he has threatened to give against, he says, those who plotted against his life.
His trial will likely commence on April 1. The grand jury is investigating the burning of his home on March 2.

DR. GARRISON, DENTIST
Specialist on Diseases of Gums and Teeth
First National Bank Building

The walls of the burning buildings have fallen and a number of men have been injured. One body has been taken from the debris and several persons are in the hospitals.
At 1 a. m., the firemen seemed unable to cope with the fire and it was still spreading.

HEATED SPEELLS MARKED PENSION BILL DEBATE.

By United Press.
Washington, D. C., March 9.—Heated spells marked the debates in the Senate on the omnibus pension bill. The omnibus has capacious accommodations for soldiers who are favored by Congress with pension increases. Senator Hoke Smith of Georgia attacked the bill and gave statistics to show that men who fought the battles fared worse in many cases in the matter of ension, than others who never stood in a battle.
Curtis, of Kansas, denounced the pension record of the Cleveland administration when Smith was Secretary of the Interior. Bryan (Democrat of Florida) fired a broadside at the practice of passing private bills. His resource to a Michigan cavalryman who served but 43 days and who has drawn more than \$2300—in pensions aroused Senator Smith of Michigan, who made an eloquent defense of the soldiers of his state. He said it was equal to impudence for Bryan to criticize them.
Bryan intimated that Smith's manners were not gentlemanly and then the bill was passed.

SPEAKER CLARK ADDRESSED KENTUCKY LEGISLATURE

By United Press.
Frankfort, Ky., March 9.—Speaker Champ Clark addressed the Kentucky legislature today. He declared the tariff and the question of trust control will overshadow all other issues of the coming presidential campaign. He said: "It's been given out that President Taft proposes to veto any tariff bills we pass. We welcome the issue. We don't believe it can be winked at, postponed, minimized or shunted out of the way."

COOK CONVINCED AMUNDSEN REACHED POLE

Declares Arctic Trust Will Attempt to Start Controversy Between Norwegian and Capt. Scott

By United Press.
New York, March 9.—Dr. Frederick A. Cook's hat is in the air. He threw it up tonight for Captain Amundsen, convinced that the sturdy Norwegian had succeeded in reaching the South Pole.
"And if I find out that Capt. Scott's expedition was at the bottom of the earth, I will throw up my hat for him too," exclaimed the doctor. Captain Amundsen is a great personal friend of mine. We were together in the Antarctic for two years and I know him like a book. When he says he did a thing, he is telling the truth. I am also acquainted with Captain Scott, and I believe he, too, may have been successful.
"It is quite likely the two men were at the pole at the same hour, without either knowing of the other's presence. The explorers may have been twenty miles apart, each taking observations and determining as nearly as possible his position and each deserving of credit for having conquered the farthest south."
"Actuated by the Arctic Trust, however, a movement will be started to raise a controversy between the two men. Critics will say Scott's expedition had the more scientific value. They will say the Englishman had the best instruments; that he took hourly observations while Amundsen took them only three times a day. All that sort of junk is pipe dreams. You can't locate the pole to a point, but there are a lot of people who will be only too glad to detract from Amundsen's glory."

Decision Not Made Public
By United Press.
Austin, Texas, March 9.—It will not be before Monday before the fate of J. B. Compton, the young man now under sentence of death at Laredo in connection with the murder of Levy-tansky, a wealthy jeweler there, a short time ago, is known. The board of pardon advisors this evening made its report to the Governor, but whether or not the board recommends a commutation of the death sentence to life imprisonment was not made public.

The Gateway to Wichita Falls—Twenty-Six Passenger Trains From Seven Directions Enter and Leave This Station Every Twenty-Four Hours.

SOCIETY

SOCIAL CALENDAR

The Friday afternoon Bridge Club will meet on the afternoon of March 22nd with Mrs. Wiley Blair on Tenth street.

The next meeting of the New Bridge Club will be held at the home of Mrs. Lucian Frith, on Ninth street, Wednesday afternoon, March 20th.

The New Century Club will meet next Wednesday afternoon with Mrs. W. M. McGregor on Scott avenue.

Mrs. Hartsook will entertain the next meeting of the Art Literature Club which will be held at her home on Eleventh street next Tuesday afternoon.

Mr. and Mrs. R. E. Huff at their home on Brook street, will entertain the members of the Forty-Two Club Tuesday evening.

The Musician's Club will meet on the afternoon of March 21st with Mrs. Wade H. Walker, on Scott avenue.

The next meeting of the Thursday afternoon Sewing Circle will be held with Mrs. J. O. McDowell, on Lamar avenue, March 14th.

The Unity Club will hold a meeting Monday afternoon with Miss Ester Goralline at her home on Travis avenue.

A meeting of boys who intend to take part in the proposed Y. M. C. A. home talent circus will be held in the Y. M. C. A. Monday afternoon beginning at four o'clock and a similar meeting for men who intend to take part will be held at the same place beginning at 8 o'clock in the evening. It will be attempted to secure a man whose especial business will be to organize affairs for the circus.

The San Jacinto Mother's and Teacher's Club will meet at the San Jacinto school Friday, March 22nd beginning at four o'clock in the afternoon.

The members of the Y. M. C. A. are invited to attend an entertainment to be held in the basement of the Kemp and Kell building next Thursday, the affair being in honor of the Red Heart side, led by Miss Nellie Ward, which secured one hundred and six new members in the recent contest against sixty-eight new members secured by the White Heart side. The entertainment will be held under the auspices of the White Heart side.

The Tuesday afternoon Bridge Club will meet March 12th with Mrs. W. B. Shepperd at the home of her mother, Mrs. D. B. Walker, 700 Scott avenue.

The next meeting of the Major Francis Grice Chapter D. A. R. will be held on the afternoon of the first Saturday in April.

It is not an assured fact just where the next meeting of the Five Hundred Club will be held.

Mrs. O. W. Bean has returned from an extended visit to relatives in Los Angeles, San Francisco, and other points in California. She reports having enjoyed a most pleasant trip.

Miss Aileen Waggoner, a student of Polytechnic College in Fort Worth, arrived here yesterday afternoon to spend Sunday with her parents, Mr. and Mrs. T. J. Waggoner, on Floral Heights.

Mrs. Frank Kell left this morning

ENJOYS FIRST WINTER IN CAPITAL

Mrs. Ira C. Copley, wife of the new congressman from Aurora, Ill., who is spending her first winter in Washington.

can do the work of that position better than any one else who wants it. Also under civil service law no one could be turned out of a position because he had refused to give money or to do political work of any kind for political party. This reform is to provide a way in which government positions can be filled by people who know their work thoroughly, and are competent and honest, and to prevent those who are well fitted from being turned out of their positions for any save a just cause.

"As the law now stands any man running for office can promise to give subordinate offices to his friends, or members of his family as a reward or a bribe for helping to elect him to office. Civil service reform holds that appointments are rendered, but given to those who are best fitted to hold office.

"Whenever the opportunity to speak comes, I would be disobedient to the honest call of womanhood were I to keep silent the great good that will come from keeping State eleemosynary institutions out of politics.

"To secure for our youths and our unfortunates an honest, efficient public service, to eliminate the demoralizing element of patronage through personal favoritism in our eleemosynary institutions.

The time is now ripe for we Texas women to demand the complete divestment of our State institutions

A large number of costumes will be needed, some of the best talent in the city will be secured, and it is planned to include nearly the whole membership among those who will perform. It is probable that in case the circus proves to be the success which it is intended to be, performances will be given in some of the nearby towns and funds for the association raised in this manner.

A meeting will be held Monday afternoon at four o'clock in the Y. M. C. A. for the purpose of securing as many boys as possible to take part in the circus, and a similar meeting will be held for the men, beginning at eight o'clock in the Y. M. C. A. Monday evening. All of the men and boys of this city who wish to take part in the circus are expected to be present at one of these meetings.

Literary Art Club.
The Literary Art Club met Tuesday, March 5th with Mrs. A. F. Kerr, on 12th street. The meeting was called to order by the president, and Miss Jessie Kerr favored us with several musical selections, after which the subject for the afternoon was taken up. "American Paintings of the Twentieth Century" being the subject. Mrs. Kerr opened the program with M. J. Iwill as the artist and pastelist, which gave us more light on this noted artist's pictures.

Mrs. Harry Robertson followed with an interesting account of E. A. Burbank's experiences in Indian painting. Burbank had first to overcome the superstition of the Indian chiefs before getting their consent to have their profile painted. They then decorated themselves in their war costumes which enabled him to paint his most noted pictures.

Mrs. Gebhardt followed with a paper on Frederick Remington's life and works, and a print of each painting illustrated her subject. Remington was a noted animal and cowboy painter, spending his life on a ranch studying subjects for his pictures.

Mrs. Harris gave us an interesting paper on the celebrated painter of Texas cattle, Frank Reaugh. Her paper also gave us vivid descriptions of cowboy scenes and ranch life, there being nothing prettier than the tired cattle quenching their thirst at the little stream in the shade of the overhanging trees.

Miss Ward concluded the program with a paper on "My Four Favorite American Painters, Their Life and Works." Her favorite being Winslow Homer, born in Boston in 1836. He never found it necessary to go abroad to study for material for his subjects. He found plenty of material to portray the vigor and mightiness of nature in the Atlantic, and scenes on the coast of Maine of the rugged men and women who find a livelihood from this treacherous mistress. Homer is today the strongest American painter who makes his home in his native land, the next artists mentioned were John Sargent, Cecilia Beaux and McNeil Whistler.

The meeting was turned over to the hostess, and little Miss Kerr and Wilmer Pilgo served us with a delicious salad course.

The club adjourned to meet Tuesday, March 12th with Mrs. Hartsook on 11th street.

PRESS REPORTER.
Complimentary Event.
A charming compliment was paid Miss Lena Metlock, Tuesday evening by Mrs. R. E. Alexander who gave a beautifully planned shower in her honor. Red and white were the colors developed in the decorations.

At Wichita Falls Churches

IN SOCIETY'S REALM

(Continued from page 1)

After several piano selections by Mrs. Hood and Miss Antram, Little Mary Alexander came in carrying a large box which she presented to the bride-elect. When the presents were viewed the wadding march was played and all marched to the dining room in the center of the lace covered table rested a cut glass punch bowl. Guest places were marked by tiny hearts that of the honor guest was two hearts entwined. Appropriate toasts were given and all drank to the health of the bride-to-be.

The invited guests include: Mesdames Hood, Pribbie, Donald, Utt, Wilton, Matlock, and Quillin; Misses Morris, Fatheree, March, Winter, Michael, Harwell, Cooper, Barry and Matlock.—Nocona News, Friday, Mar 8th.

Mr. and Mrs. Piner Avis upon their return from their wedding trip during which they will visit Galveston, San Antonio and New Orleans will be at home with the groom's grandmother Mrs. White, Ninth and Burnett streets. They will return in about ten days.

Mrs. J. W. Harrison entertained in formally at Forty Two Friday afternoon at her home, 1617 Ninth street. There were two tables of players and a series of interesting games were played following which fruit salad, wafers and coffee were served. Those present included the Mesdames Boyd Orr, Brown, Webb, Bolding, Christensen and the hostess.

New Century Club.
A meeting of the New Century Club was held last Wednesday afternoon at the home of Mrs. Frank Kell, on Burnett street, and the afternoon was devoted to a program on "Texas Day." Mrs. C. B. Montgomery being leader for the afternoon.

The subjects taken up and discussed during the meetings were as follows: Roll call, "Noted Authors of Texas," club; "Statesmen of Today Compared With Those of Earlier Day," a paper by Mrs. J. C. Guest; "Texas Journalist: Belo, Sterritt, Knox, Gary, Ousley and Sweet," Mrs. W. M. McGregor; "Poets of Texas," Mrs. I. A. Farris; "Press Writers and Texas Humorists," Mrs. T. T. Reece; discussion by the club, "Our State Holidays and Why We Observe them."
The program having been finished a salad course was served to those present, and the club adjourned to meet again with Mrs. W. M. McGregor on Scott avenue next Wednesday afternoon.

Meeting of the United Clubs.
On the afternoon of Saturday, March 2nd, the members of the United Clubs assembled at the high school building to dispose of the current business which had accumulated. No friction of any character disturbed the happy friendly greetings of this representative body of women who seem determined to successfully accomplish the object of these series of meetings, namely to prepare for the reception of delegates from other cities who will attend the convention of the Federated Clubs soon to be held in this city.

A stranger, had one been present would conclude that the organization was one of long standing, so enthusiastic are these ladies drawn together by a common impulse to forward the entertainment of the convention, which begins here April 20th and will last until May 2nd. The chairman, Mrs. J. C. A. Guest, called the meeting to order, and the report of the committee was discussed and unanimously adopted; Mrs. Kemp reporting for the entertainment committee, Mrs. J. T. Montgomery for the home committee, Mrs. T. L. Toland for the finance committee, Mrs. R. C. Smith for the train and Mrs. A. Nichol for the registration.

Mrs. T. C. Thatcher has been appointed chairman of the committee or places of meeting for the United Clubs. Mrs. J. C. Berney has been selected as secretary of the United Clubs. Mrs. T. T. Reece treasurer, and Mrs. Ed Howard, and Mrs. T. R. Boger compose the program committee. From the discussion on "How Wichita Falls Can Best Entertain the Convention," it was proven that our club women are patriotic in sentiment, proud of their city, and thoroughly alive to its best interests.

AVIS-MATLOCK
Thursday afternoon of this week at the home of Mr. and Mrs. G. M. Utt, Mr. Frank Piner Avis and Miss Lena D. Matlock were married, Rev. R. R. Hamlin of Wichita Falls performing the ceremony.

Upon the arrival of the guests at the Utt home, they were graciously received at the door by Misses Annie Thurston and Obie Fatheree and conducted into the parlors, where after all had assembled Misses Fern Justin, Mattie Antram and Hilda Fladon sang "Lohengrin's Bridal Chorus." Just before the entrance of the party into the hall where the ceremony was held, and immediately following Mrs. C. A. Hood played the wadding march to the strains of which the bride entered on the arm of her sister, Mrs. G. M. Utt, and marched down the hall between a balustrade trimmed in bamboo and sweet peas. The minister was located at the extreme end of the hall under an arch made of bamboo and sweet peas. Here the bride was accompanied by the groom who was accompanied by Mr. John Thomas of Wichita Falls who acted as best man. The ceremony was one of very pretty and exceedingly impressive, the marriage vows being sealed with a plain gold ring.

After the ceremony all present offered congratulations while punch was served by Misses Emma Carmichael and Evelyn Coffield to the guests who were present.
The many presents were arranged on the table in the dining room and no exaggeration is meant when the statement is made that it was probably the largest and most expensive gift offering ever given, any couple in this city.

Mr. and Mrs. Avis left on the afternoon train for San Antonio and other points where they will spend several weeks before returning to Wichita Falls where they will make their future home.
Mr. Avis is a son of Mr. and Mrs. Jim Avis and a grandson of Mrs. C. C. White, the family being well known to all the old settlers of Montague county having lived for years in Montague, where the groom was born. He is in the hardware business at Wichita Falls, entering this business about a year ago after having served the First National Bank at that place in a very responsible capacity for seven continuous years.

He is well known all over North Texas and has a host of friends who congratulate him on having won Miss Matlock as his life partner.
Miss Lena Matlock is a Nocona young lady and is the oldest daughter of Mrs. C. E. Matlock, and is one of the most refined and intelligent young women that Texas affords; her friends here are legion, and she also is well known and has a host of friends at Wichita Falls, where she has been for the most of the last three years. Friends here and at Wichita Falls extend to Mrs. Avis their best wishes.

YOUR SELECTION
 OF A GOOD BANK
 is important—not only for the present, but also for the years to come.
 The right bank connection will be a material help to your every day business.
 This Bank has a successful record of safe, conservative banking from the date of its organization.

WE INVITE YOUR BUSINESS

Several Things
 There Are Several Things to Be Considered in Selecting Your Bank.

FIRST—Strength, financial strength.
 SECOND—Care with which the Bank is managed.
 THIRD—The Banking experience of its Officers.
 FOURTH—The ability of the Bank to properly and promptly handle all your business.

To those wishing desirable banking relations, we offer our services, as an old established, permanent, conservative and accommodating bank, promising courteous treatment and careful attention to all business entrusted to our care.

top of it. These candies were soon extinguished and all enjoyed the cake, ice cream and fruit, which was served by Jewel Amason, and Esther Hale. After refreshments, childish games and romps were indulged in until the time came for departure. Those present were Maud Brothers, Jewel Brown Myrtle Knapp, Audrey Ferguson, Helen Gebhardt, Marie Glenn, Evelyn Harde man, Esther Hale, Freda Isley, Lela May Lawler, Theima and Beth Roberts, Merle Stinson, Ethel Walker, and Master Charles Hale. All these joined in wishing Miss Hale many more happy birthdays, and in declaring both Miss Sula and Miss Jewel the best of hostesses.

Little Folks Birthday Party.
 Mary Presley very charmingly entertained her little friends last Tuesday afternoon from three until five o'clock at the home of her parents, 160 11th street, the occasion being her fourth birthday.

After playing games and amusing themselves in other ways, the guests were served with cake and punch by Miss Lena Gardner, who assisted by the entertainment of the young folks. Little Mary received many beautiful presents, which in after years will remind her of a very pleasant occasion.

Those present at the birthday party were Misses Virginia Miller, Le-raine Deltay, Mary Blair, Lucile Smith, Mary Presley, Virginia Robertson, Mary Ashmore, Mildred Martin, Kathleen Phillips, Beula Gardner, and Lucile Rountree.

Mrs. Imogene De Hay has returned to her home in Fort Worth, after a pleasant visit to her sister, Mrs. Judd Presley on 11th street.

Y. W. C. A. Meeting
 A called meeting of the Y. W. C. A. membership campaign committee was held Friday evening at 7 o'clock with the president, Mrs. M. M. Addicks, on Tenth street. Luncheon was served to the following members. On the White Heart side: Miss Francis Smith, Miss Childers, Miss Trimble, Miss Kate McSpadden, Miss Oliver, Mrs. Jenne and Mrs. Addicks. On the Red Heart side: Misses Nellie Ward, Montgomery, White, Allen, Mary Bryan, Clara Campbell, Mrs. Lea and Mrs. J. F. Reed.

After refreshments the ladies adjourned to the parlor and a business meeting was held. Mrs. Reed opened the meeting with a prayer, after which the president took charge of the meeting and called on the chairman of the Red and White Heart sides to give in their report as to the campaign came to a close that evening.

Miss Francis Smith of the White Heart side reported 68 members for her side and Miss Nellie Ward of the Red Heart side, gave in a report of one hundred and six members. It was a very friendly contest and when it was found that the Red Heart side had won the White Hearts gave us their congratulations and promised us a pleasant entertainment on next Thursday evening, March 14th to be given in the basement of the Kemp and Kell building in honor of the "victorious" side. All members of the organization are given a most cordial invitation to be present. As the ladies enter they will be asked to register their names and birthday and will be handed a Red or White Heart which they are to wear during the evening.

Open Meeting D. A. R.
 The Major Francis Grice Chapter, Daughters of the American Revolution recently organized in this city, held an open meeting Tuesday afternoon at the home of the Regent, Mrs. S. H. Burnside, on Seventh street, in honor of the state regent, Mrs. A. V. Lane, who was here from Dallas for a few days as the guest of Mrs. Burnside. Mrs. Lane talked most entertainingly to the chapter, giving the members

much valuable instruction along the lines of work which will engage their attention in the future and her talk quite won the hearts of all present. At the conclusion of her talk, on behalf of the chapter, Mrs. Burnside presented the distinguished guest with an arm bouquet of American Beauty roses.

The parlors and dining room of the Burnside home were beautifully decorated in the National colors and a color scheme of Red, White and Blue was carried out to the last detail, including the refreshments of brick ice cream and cake.

During the afternoon, a number of ladies of the city who are eligible to membership in some chapter of the Daughters of the American Revolution had who will in the near future become active members of the Major Grice Chapter, called to meet Mrs. Lane.

The organization of a local chapter Daughters of the American Revolution marks an important era in the social history of Wichita Falls. Standing as the organization does for patriotism and all high ideals, the influence which it exerts will undoubtedly be far-reaching and up-lifting. The members and officers of this the youngest chapter in the State of Texas, are as follows:

Regent—Mrs. S. H. Burnside.
 First Vice Regent—Mrs. J. L. Jackson.
 Second Vice Regent—Mrs. Wiley Robertson.
 Recording Secretary—Mrs. G. H. Harrington.

Treasurer—Miss Minnie Young.
 Historian—Mrs. Wiley Blair.
 Registrar—Mrs. D. L. Whitney.
 Mesdames R. L. Miller, W. M. McGregor, Moore, Mary Carter Darnell, Guy Grove, Woodward, Maer, R. A. Thompson, Kate Hawkins Ward, H. M. Hughes and Misses Minnie Young, Katherine Darnell and Kitty Campbell comprise the other members of the chapter here.

New Bridge Club
 A meeting of the New Bridge Club was held last Wednesday afternoon at the home of Mrs. E. P. Greenwood on Floral Heights, but on account of the fact that so many of the members of the club are out of town, and because others are observing Lent, there was not a large number of ladies present. M. J. C. Mytinger was awarded the favor of the afternoon at the end of the games and a salad course was served to the ladies as refreshments. The next meeting will be held with Mrs. Lucian Frith Wednesday afternoon, March 20th, at her home on Ninth street.

Those present were Mesdames J. Binford, L. M. Hayale, D. T. Whitney, Luther Webb, J. C. Mytinger, H. O. Craven, T. B. Smith, Edgar Norton, E. P. Greenwood, Mrs. Hattie Mrs. Daniel and Miss Tressa Lee.

Mr. and Mrs. O. F. Marchman will leave Monday for Dallas, where they will make their home in the future. They have made many friends here during their two year residence in this city, who will regret to learn that they have decided to move away. Mrs. A. E. Anderson and two daughters, Misses Gracie and Alleen, left last night for Fort Worth, on a few days' visit to relatives. Rhea Howard, of Dallas, arrived here last night to spend Sunday with her parents, Mr. and Mrs. Ed Howard on Lamar street.

LABOR NOTES.

Christiania, Norway.—A number of reports upon various phases of Norwegian governmental activity designed to benefit the people have been published in daily consular and trade reports. Among these were reports upon the Borg (Dwellings) Bank, through which the government makes liberal low-rate loans to the working people for building homes; the municipal employment bureau, conducted by the city government in the interest of both workmen and employers of labor; government aid to the dairying industry, and some others. Just now the government, in co-operation with

the city authorities, is establishing in Stavanger a domestic science school, intended to afford a complete course in housekeeping to young girls over sixteen years of age.

Vienna, Austria.—The Metal Workers' union in Austria has issued a report on the activity of the union since its commencement. In the three years from 1908 to 1910 it appears that 28,000 workmen (25 per cent) fought out their movements with complete success, 70,000 (63.5 per cent) were partially successful, and 12,500 (11.5 per cent) were beaten. In these three years the union spent \$195,000 for strike support. Improvements in wages and reductions of hours were secured, but the effect of the increase of wages is more than wiped out by the rapid increase in the cost of living.

Washington.—Seventy days was set as the limit for the taking of testimony in the contempt cases pending before Justice Wright in the District supreme court against President Samuel Gompers, Vice-President John Mitchell and Secretary Frank Morrison, of the American Federation of Labor. The prosecuting committee has 30 days in which to take evidence against the labor leaders, the defendants will have a like time to offer their defense and then the prosecution will have ten days for rebuttal testimony. It is probable that a decision in the case will not be handed down until some time next spring.

Chicago.—B. J. McMahon, representing the Glass Bottle-Blowers' Association, asked the assistance of the Chicago Federation of Labor in procuring the passage of an amendment to the city ordinance dealing with the sale of milk bottles. Under the present law, one company is given a monopoly of the sale of milk bottles in Chicago, because it controls the patent under which they are made. Hundreds of glass bottle blowers have been thrown out of work.

Manchester, England.—The Dock Laborers' union held a meeting recently and passed a resolution declaring that after January 1 next they would refuse to work with laborers who had not the National Transport Federation's ticket. The union officials in Manchester say there is no doubt that the resolution will be carried into effect at the New Year, but they do not anticipate any difficulty will arise.

Berlin, Germany.—A conference was held recently by the employers in the cloak and suit making and children's clothing trades in Berlin, who met the representatives of the fifty thousand female home workers and three thousand tailor intermediaries who have been on strike since November 23. It is stated that there is a prospect of settlement.

London, England.—The Labor Co-partnership association now embraces 111 societies in Great Britain. The capital of these workmen's societies approximates \$10,000,000, and their trade amount to nearly \$22,000,000 per annum. The last return shows that \$13,295 was divided among the workers as their share of the profits.

Birmingham, Eng.—At the Birmingham quarterly iron and steel meeting the market was pronounced the best within the last three years, and an optimistic feeling generally prevailed. Many manufacturers are refusing orders, and others report themselves very busy, while no one complains of lack of orders.

Washington.—Wages paid to women in the laundries in Russia are from \$4 to \$8 a month, with room and board included, but the living quarters are in the cellar, and the food of the coarsest kind. Mechanics in these laundries command, under the same conditions about 70 cents a day.

Pittsburg, Pa.—More than \$3,000,000 was spent in the last two years by the United Mine Workers of America to keep men in Missouri. Nova Scotia received the largest amount of the strike benefits, the total reaching well over \$1,000,000.

Milwaukee.—When M. Zahn, business manager of the Milwaukee Wool, Wire and Metal Lather's union, began to learn the trade, wages were 20 cents an hour, with unlimited hours. "I have seen the wages increase year by year," he says, "and today they have reached 50 to 56 cents an hour, with an eight-hour workday."

The GREATEST PLAY I EVER SAW AS TOLD TO Hugh S. Fullerton

BY HUGH JENNINGS.

an animal is a hog is no reason why his food should not be carefully selected. It actually pays in dollars and cents, to do so. Come to our store and inspect

Manager of the Detroit Tigers, Who as Shortstop, for the Baltimore Champions, Was Considered One of the Greatest of Players.

It is a pretty hard thing to pick the greatest play a man ever saw, especially after taking part in and seeing perhaps three or four great plays in each—but the one I always recall as the greatest, the one that even now stirs my nerves to recall, is the one that Billie Keeler made in Washington in 1895, when he and I were playing together on the Baltimore Orioles.

The game was close—and we needed a run because Boston was giving us a hard fight for the pennant. We had the game won by one run in the ninth inning. In those days the Washington club, although a tall-order, always gave us the fiercest fight of any of the clubs, the natural rivalry between the two cities stirring them up to fight us to a finish.

In that ninth inning a runner was on third and two were out. Bucky Freeman hit the ball on a line toward the right field bleachers, and hit it so hard that at the crack of the bat it sounded to me like a home run—another victory for Washington and second place for the Orioles. The right field bleachers had a low fence in front of them and over the top of this fence they had strung barbed wire to keep the crowd from climbing over onto the field. The ball that Freeman hit was going on a line straight for the wire barrier. At the crack of the bat Keeler started toward the bleachers and tore across at terrific speed. No other outfielder could have covered the distance. Without stopping or hesitating he leaped for that ball with his ungloved hand, shoved his arm between the two top

SHORT MEDICAL TALKS

BY T. H. P. DUNCAN, M. D.

LECTURE NO. 14, "BUGS"

The Common House Fly Kills Annually More Children Than All Other Causes Combined

If the weather will only clear up, the sunshine will usher in spring with its joys and flowers, laziness, fishing and FLIES. I think this little lecture if read and heeded will save many lives here in Wichita Falls as well as big doctor bills and untold suffering. This lecture is not about CHRONIC DISEASES, but a common pest. The HOUSE FLY, or as the etymologist would say "musco domesticus" whose tuneful buzzing melody is a derg to mankind.

Investigation has proven the statement at the head of this lecture to be true, that the fly is the principle cause of the high death rate among children. Destroy the fly and you have destroyed the principal cause of "Summer Complaint in children" and Typhoid Fever. I think I am safe to say that 50 per cent of Typhoid Fever is due directly or indirectly to the common house fly. There is scarcely any germ that has not been found upon the legs or in the excrement of flies. Germs causing lock jaw, fevers, consumption, boils, skin diseases, stomach and bowel trouble. Upon the legs of one fly may be carried enough germs to inoculate a hundred people. How are these germs transmitted? Just study the fly for a moment, his habits, and his diet. He is a cosmopolitan sort of creature—he can eat anything and live any place. He feasts upon the garbage pile. Old ulcers, sores and excretions are dainty dishes for him. Stables, toilets, trash piles are to him a joy, and after dining sumptuously upon rot, carion, refuse and filth, he comes right in and gets stuck in the butter, falls in the milk, tries a little sugar, sticks his feet in the molasses and buzzes merrily over and spots the cake and bread. He believes in the simple life, the joy life, the gay and festive life and you and your children must pay for it. It's a fight here and elsewhere. Our health, happiness and life depends largely upon the destruction of this common pest. Every one is duty-bound to exert every effort for its extermination.

How is this to be done? First, elect competent and progressive men for city, county and state offices. Secondly, appoint competent and up to date physicians upon boards of health—men who "do" things; men who are schooled in bacteriology, hygiene and sanitation and give them the power to clean up ANY and ALL KINDS OF FILTH WHEREVER FOUND. Lastly, do your part. It's yours and you that are benefited; it's your loved ones who are endangered. It is your business to keep clean—keep your house and yard clean and watch your neighbors to see that they do the same. Flies breed in almost any place. In mulching piles, stables, trash piles, in old bottles, old cans, under old papers, "dirt behind the doors," in old barrels, boxes—any place where there is warmth and moisture.

A fly deposits on an average of 120 eggs each. They hatch in 6 to 10 hours, producing a white maggot, which in 4 or 5 days mature into our common fly. The life cycle is about 10 days. One pound of filth will support 1200 maggots. In our warm climate the rapidity with which they multiply is appalling. It is up to you. Unless you do your part a loved one may pay the penalty. Now is the time to act.

Remedy—Screens on every door and window. Nets for children when asleep. Fly poison, fly paper. Have a fly spatter and kill every fly in the house (cost 10c at Sommers' Notion Store) or any other store. Burn all trash, cover all manure piles. Throw lime in dark places. Use crude oil freely in barn yard, trash barrels, cess pools, toilets. Every garbage barrel should be covered. Decayed vegetable matter burned. Let air and light into dark places and sunshine will come into your life. Spend a dollar and save a hundred dollars how to keep clean. If you will only do it. We doctors will get less business but we don't care—if you get too healthy we'll quit the blooming business and go to work.

T. H. P. DUNCAN, M. D.

Take Notice Socialists

Wichita Falls, March 6, 1912. The socialist party of Wichita County, Texas, in receipt of blank petitions "To the Honorable members of the Democratic State Executive Committee," to place upon the ballots in the Democratic primary to be held in July, 1912, the question whether there shall be submitted to the people a Constitutional amendment authorizing specific and direct legislation embodied in what is commonly known as the "initiative and referendum," also what is commonly known as the "recall," giving the right to recall any public official through petition and election therefore, etc.

The petitions, of course, are being circulated all over the State—the required number of signatures will be secured and that generous and accommodating body—the Executive Committee will most graciously grant the important request.

Many unthinking lovers of pure Democracy will eagerly sign these petitions, believing that the initiative, referendum and recall will most certainly be elected. If submitted, and fondly hope, thereby, to secure many needed reforms through the beloved old party, when the proposed amendment shall have been made and ratified and thus avoid the necessity and inconvenience of aligning with a reform party but—listen! The object of the said generous committee in submitting this question will not be to elect or reject this measure, but to get the Socialists and their sympathizers attracted by this bait to vote in the primary and thus bind themselves hand and foot, to support the nominee in the general election. That's all the initiative, referendum and recall, "public ownership of public utilities," and "the labor ownership of the tools of production," are measures proposed in the Socialist platform, all of which are denounced and opposed by the bosses of both the Democratic and Republican parties.

The Socialists are unanimously agreed on these questions, and the honest business men and toilers are looking upon them to sincerely and speedily put into tangible force these wholesome measures which have for their object the elimination of political treachery, legal robbery and capitalist tyranny.

If you desire to sacrifice your rights to vote for whom you please, or otherwise falsify your solemn pledge, walk up to the ballot in July, vote the Democratic ticket and show your boss that you spurn freedom and despise liberty.

Written by committee appointed by local 1149 Wichita Falls, Texas, Mar. 3, 1912.

J. J. MANLEY, S. J. KNIGHT, Committee.

Y. M. C. A. Book Reception Notwithstanding the fact that the weather was very cold and a slow rain was falling, the book reception at the Y. M. C. A. Thursday evening was not a failure.

The committee appointed by the Y. M. C. A. to receive were present at intervals from 4 to 10 p. m. All guests were received with great grace and seemed to spend a pleasant evening being entertained with dominoes and a game of indoor baseball. Nearly 100 volumes of books were given to the library and many more have been promised. Several nice sets of standard literature among them and no doubt they will be sent in soon.

The Y. M. C. A. appreciates the books contributed and will appreciate all that may be contributed later. A nice set of twenty-nine volumes of Collins' works was contributed and highly appreciated.

Something very noticeable was that although the public was invited to bring in books there was not a poor volume to be found in the lot, and that speaks for the intellect of the community.

No books will be loaned until a larger collection is obtained and the books are catalogued. Men and boys from the ages of 12 years up are welcome to the use of the books in the library and will be given free access to the current literature which now covers a very large field.

DR. GARRISON, DENTIST Office Equipment Clean and Sanitary First National Bank Building

The Wichita Falls Water & Light Co.

Offers its patrons the services of a triple plant, guaranteeing at all hours of the day or night a service that no single plant can give—In addition to this, we make prices the same to everyone, charging each one in proportion to the service rendered.

For the Business Section of Wichita Falls We Quote the Following Prices:

- For the First 100 K. W. Seven Cents per K. W. For the Second 100 K. W. Six Cents per K. W. In Excess of 200 K. W. Five Cents per K. W.

Special prices to users of large quantities of electricity either for light or power purposes.

Prices on electric sign advertisements have been reduced fifty per cent.

The fact that we have a triple plant throughout thus obviating any possibility of a shut down, and guaranteeing light and power at all times should appeal to every user of electricity.

Our Mr. F. P. St. Clair will be glad to give you estimates at any time.

A FEW THINGS THAT LIFE INSURANCE DOES

- 1st. It answers the question whether or not a man will live long enough to provide for his family. To the extent that money can represent a man's productive power it doesn't matter when the properly insured man dies. 2nd. It cultivates aggressively the principle of self-respect and individual responsibility, which are the very essence of our civilization. 3rd. It prevents the social defaults which premature death otherwise brings—defaults which are quite as disastrous to society and frequently as dishonorable as those which occur in banking and general business. 4th. It meets, as nothing else does or can, the demands for capital of a society rapidly developing and offering the faith and earning power of unborn generations as security for money which must be spent now. 5th. It is a banker for millions of people—a banker who cannot be ruined through panic, but who allows every depositor to draw on him at any time to the extent of his cash credit. 6th. It joins business to a constructive sociology; it puts the man of small means into touch with a statesmanlike plan; it enters the realms of imagination and takes us at least to the threshold of a new social order.

Wichita Southern Life Insurance Company Home Office 510-511-512 Kemp & Kell Building

Senors Mendon and Conte, sport editors from Havana, will meet the Cincinnati team in Columbus, Ga., and remain during the training trip in order to watch the work of Marsans and Almeida, the Cuban players. Some critic once said that Cy Young had every dollar he ever made playing baseball. When asked recently how much he was worth Cy said, "I have made over \$100,000 playing baseball, but have spent more than half of it foolishly." George Edward Waddell, leave the room this instant.

"2nd WEEK OF OUR REMOVAL SALE" GREAT SALE OF BRASS AND IRON BEDS

Choice of Any of These Beds for \$1.00 a Week

Here is a Sale

that carries a money-saving message in to every home in Wichita Falls—a sale of strictly high-class Brass and Iron Beds—the very styles and designs you would prefer above all others—and they go to you at astounding reductions from usual prices.

How It Happened

When our buyers were in the northern markets for our new spring stock—they found some of the best makers of brass and iron beds with a tremendous over-stock on hand—and willing to close out the entire lot—for spot cash—at a decided sacrifice.

We Saw Our Opportunity

to open the spring season with a bargain treat to our patrons and we jumped at the chance to secure this desirable assortment at so low a price. We took them all—four solid iron beds—and now they're here—ready for you tomorrow morning.

All These Beds

are in the newest and most desirable styles—high-class in every detail of construction—and absolutely perfect in every way and the assortment is so very large and complete that you are sure to find the exact size and style that you prefer—and at a saving that you simply can not resist.

Sale Begins Tomorrow

—and it is going to be one of the biggest and most interesting bargain events ever offered our patrons. If you need a handsome bed for your own use—a spare bed for the guest's room—or an inexpensive bed for the servant's room—it will pay you to take full advantage of this event.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. BELLERS, Director of Evening Department, The Moody Bible Institute of Chicago.)

LESSON FOR MARCH 10.

JESUS THE HEALER.

LESSON TEXT—Mark 1:29-45. GOLDEN TEXT—"Himself took infirmities, and bare our diseases."—Matt. 1:17.

Forty-one times St. Mark makes use of what is a distinguishing word in his gospel, "straightway," or its equivalent, "forthwith," "immediately," etc.

Jesus, as was his custom, had been worshipping in the synagogue, and while there he had performed a great work of healing inasmuch that his fame spread throughout the Galilean country; and forthwith as they enter Peter's house there is presented another, difficult case, "Simon Peter's wife's mother being sick of a great fever." It is a noticeable fact in the life of Jesus that he had his own particular intimate circle of friends with whom he loved to hold fellowship, the home in Bethany, and this home belonging to Simon Peter, are illustrations.

Why does God permit sickness and sorrow to come to those who are manifestly his most intimate friends? To those who love him most?

Surely all suffering is not caused by sin directly, for many innocent ones suffer for the sins of the guilty; much is allowed "to manifest God's glory;" some suffering is to test our faith, refining us as by fire; and some that be left to God's inscrutable wisdom, for surely we can allow him to do some things without explaining his acts to men. Note, however, that Jesus' compassion caused him at once to show forth a beautiful example of the sort of personal work he would have us do.

What the Act Teaches.

Now note that the evidence of the cure is here also for "she ministered unto them." It must have been a complete cure, else how could she go at once about her household duties? This act teaches us not only the fact of the cure but also that other lesson spoken of by James in his epistle, viz., that the best method of showing our faith is by our works. God justifies the believer through faith in his Son, but we are judged righteous before the world by our works. By her loving ministrations to those of her household, and to Jesus who was their guest, this ancient mother-in-law showed her gratitude and love for this act of compassion on the part of God's Son. God bless the mothers-in-law and stop our gossip.

At the close of this busy day we can in our imaginations see the crowd of the city gathered about Peter's door. "At even, when the sun did set they brought unto him all, etc." One of the most charming and wonderful things about the Scriptures is that it says so much in so few words. It can't feel himself a part of the crowd gathered at the close of that day, eager and anxious to see this new healer, and urgently, eagerly, presenting their loved ones that he may perform his healing ministrations ere the shades of night shut him from their sight, or perchance he begin a journey on the morrow. The record is significant in the use of the word "all" in verse 32, and "many" in verse 34.

The next morning, "a great while before day," Jesus goes apart for prayer. How much we need God's presence and wisdom which can be obtained only by "going apart" to the place of secret communion, especially in the day of our greatest success and popularity. The danger of material or other success is to turn man's thoughts away from God. As man contemplates the prowess of his own arm or the achievements of his own brain the temptation is to trust himself and not to trust God. Jesus knew the tests of service before Him and the need of vital contact with his Father. Having gained this through this early morning watch, he was ready to reply to Peter's unconscious test when he referred to Christ's popularity by saying that others had need of him. I must preach to them also, for this came "into the world."

Chief End of Christ's Ministry. The completion of a great mission gave Christ no time to consider the popular acclaim, or longer to pause at Capernaum, though there were doubtless others who needed his ministrations. Healing of the body and the relief of human distress is not the chief end of Christ's ministry. He came to establish a kingdom and must preach the good tidings, for "therefore was I sent." Social service is indeed God-like, but Jesus tells us plainly that the soul is of more value than the body. (Matt. 6:33).

Three great lessons can be emphasized: First, Jesus' busy life of going about doing good; second, that his compassion was genuine as shown by the frequent personal touch, and third, the lesson of missions, especially medical missions; and in this connection the lesson of leprosy, as a type of sin, loathsome, contagious, incurable.

Emphasize the drawing power of Jesus. Has he drawn you to his side? Also, that it is manifestly the duty of those who have been drawn and healed to minister unto others, and lead them to salvation.

The Rochester champions will open the International league season on April 18, in Providence.

First Showing of New Spring Goods

DRESS GOODS

The completeness of our lines in the new dress fabrics and our very moderate prices for them can not fail to appeal to every woman. Silk Foulards, so much in favor, are here shown in all the new weaves and colorings at the following prices: 50c 89c and \$1 00 per yard.

Red Seal Dress Gingham	12 1/2c yd.
Best Madras Shirtings	10c 12 1/2c and 15c yd.

A two years' careful study of the wants and demands of the discriminating buyers of Wichita Falls and the surrounding section has taught us that if we would retain the generous patronage accorded us during that time we must continue to offer the very best qualities obtainable and in such assortment as will satisfy the most varied tastes. To that end our buyers have selected the latest styles and patterns obtainable in the Eastern markets and these goods are just opened, none having been in our house over two weeks. In no instance have we sacrificed quality to price, but in the contrary we are confident that every purchaser will concede that unusual values are here offered at minimum prices. We believe that our reputation for honest values and fair dealing is sufficiently well established in the Wichita Falls section to merit your careful consideration of the offerings here shown and we cordially invite your early examination of same.

NOVELTIES and DRESS ACCESSORIES

Ladies' fancy neckwear, side frills, jabots, Dutch collars, Windsor ties, etc., at 25c to \$1 25.

Good quality of hair switches in all shades, 18 to 36 inch at prices from \$2 50 to \$6 50 each.

Ladies' 16 button silk and kid gloves at 85c to \$1 50 for silk, and \$3 00 to \$3 50 for kid, both in all leading shades.

C. J. Barnard & Co.

Corner Seventh and Indiana

We also show in this department a full line of Brassieres in sizes 34 to 46 inches at 50c 75c \$1 00 and \$1 25.

J. L. Powell Land & Oil Co.

J. L. POWELL, Manager

Dealers in All Kind of Real Estate

Wichita Falls, Texas, March 3, 1911

To My Friends of Wichita Falls and Surrounding Country:

Dear Sirs:-

I am again back in the real estate business and my motto will be the same that it has always been, fair and impartial treatment to all.

My business will be buying, selling and trading farm lands all over Texas; I will also handle City property and oil leases.

Again assuring you that I will be glad to have you give me a call, and in case that you have anything to trade or sell or that you are in the market to make an investment, it will pay you to see me as I am a member of one of the largest Real Estate Exchanges in the South, which means in short, a trade maker.

Thanking my old friends for the many past favors and assuring all strangers that I will be glad to have them give me a call, I am,

Yours very truly,

J. L. POWELL OIL AND LAND CO.

With baseball leagues springing up nearly every day fans in Texas and Oklahoma should be well fixed in the national pastime next season. Among the leagues already organized are the Texas, Mid-Continent, Texas-Oklahoma, South Central, Oklahoma

State, Texas-Louisiana and Mid-Coast.

President, Ebbets, of the Brooklyn club, can take things easy until the opening of the season, as he has no holdouts among the Superbas.

STRANGE WAYS OF EARNING MONEY

HIGH COST OF LIVING HAS SPURRED HUNDREDS OF EAST SIDE RESIDENTS TO UNUSUAL METHODS

FAKIRS ARE INCREASING

Scarcely Day Passes But That "New Method of Making a Living Is Not Conjured Up

New York, March 9.—Spurred on by high cost of living and the inability to get work, hundreds of residents of the East Side have been forced to invent new ways of earning money.

The strange ways employed are as numerous as the foreign tongues in that congested district.

Any time of the day or night one may see men and women pushing strange-looking carts through the streets. From the top a smoking stove-pipe extends and in the interior is a roaring oven where potatoes and apples are constantly baking. These delicacies are disposed of for 1 and 2 cents a piece. Recently a call was issued for the formation of a "baked potato peddlers' union." Three hundred responded and a working agreement was established whereby prices were to be maintained and the members ordered not to invade each other's routes.

Old time residents of New York say that never in the history of the city had there been so many street fakirs at work. If cold weather is on tap, there are men on every street corner in the down-town district ready to supply you with mittens, or "ear bobs." If it is raining they have cheap umbrellas for sale.

A number of men and boys earn their living by selling for a dime a little pamphlet to foreigners telling them how they may become American citizens.

On Division street just off the Bowery, is the "curb market" for old clothes, where dozens of saleswomen congregate. All kinds of wearing apparel, from babies' shoes, with the soles and toes badly worn, to fur coats that have seen better days, are on sale and thousands of families depend upon these vendors for much of their clothing.

James McPhee, who was rendered unfit for manual labor by an accident for which he was not to blame but who could not recover damages, for several years has supported a wife and three children by trapping sparrows which he sells to gun clubs for live targets.

Another man catches wharf rats which he sells to the zoos and menageries as food for snakes.

One firm on the East Side owns several hundred street pianos which it rents for a flat sum to strangers and on a commission basis to regular patrons. In the congested sections, the street piano furnishes about the only melody to break the monotony of the polyglot babble that rises above the discord of metropolitan traffic.

Poverty and dancing seem to go hand in hand in that section. The little children of the slums can execute fancy dances that would put to shame many of those who have been reared in luxury. Wherever a street piano is heard, a large number of children will be found, going through all sorts of graceful steps. It is largely from

the ranks of these, that the never ending supply of "broilers" are picked up by theatrical managers.

Another enterprising East Sider has a secret method of driving cockroaches out of office buildings and apartment houses. He guarantees his work but he guards his secret very closely and makes a very comfortable living out of it.

A Mulberry street Italian who failed to make a success out of regular candy making, conceived the idea of molding all kinds of table decorations out of glucose and sugar and his wares are in great demand for dinner parties.

Another jobless man invested his savings in a miniature "merry-go-round" which he hauls around on a small wagon and runs with a gasoline engine. The children of the East Side enjoy it as much as if it was one of the "razzle dazzles" at Coney Island.

They are always thinking up innovations, these East Siders, and scarcely a day goes by that one does not see some new method of making a living that has been conjured up under the pressure of necessity.

YEARLY CANDIDATE FOR CITY MARSHAL

The Times is authorized to announce Charles P. Yearly as a candidate for city marshal, subject to a vote of the people at the election to be held in April. Mr. Yearly has had several years' experience as a peace officer both in the city and county and his record as such is well known to all. The Times asks that his claims for this office be given fair consideration by the voters at the polls.

CONTRACT LET FOR BARNARD'S HOME

Jones & Orlopp, the architects will this week let the contracts for the new home of C. J. Barnard, which is to be erected on Broad, between Ninth and Tenth streets. The Barnard home will be of brick and will contain nine rooms and bath. It will be modern throughout, and will be as near fire proof as it is possible to build a residence, even the interior walls being of brick construction and calculated to resist any ordinary flames.

Announcement

We have secured the services of Mr. John Steffin, of Chicago, to once more take charge of our bakery department. Mr. Steffin was in charge of this work when we first opened for business and made such a reputation for our goods that we are sure our patrons will be glad to know he is back with us. From now on we will furnish the very best bread, cakes, pies and pastries of all kinds and are sure you will be pleased with them. Heler & Oster, The Corner Grocery, Eighth and Indiana. Phone 245-132c

We are making a study to try to get everything you need in the grocery line. Also will try to give you everything that can be had in the way of vegetables.

EAGLE & WILSON.

Lower Reaches Are Booming
By Talbot Press.

Houston, Texas, March 9.—As the result of North Texas rains the lower reaches of the Brazos and Trinity rivers are reported booming with some prospects of an overflow.

BROOM CORN CENTER HERE

ERECTION OF WAREHOUSE HERE WOULD DIVERT SHIPMENTS FROM WICHITA, KAN.

THIS IS LOGICAL POINT

Chamber of Commerce Will Probably Discuss Matter at Meeting Tuesday.

Charlie Payton, chief clerk in the traffic department of the Wichita Falls Route, calls attention to the opportunity now existing for this city to become a large broom corn concentration point, and add another to its line of flourishing enterprises.

By a concentration point is meant warehouse facilities where the corn can be sorted and classed and reshipped out to the various sections using the different kinds of corn.

At present 90 per cent of the western broom corn is raised in Southwestern Oklahoma and in parts of the Panhandle of Texas. This is now shipped to Wichita, Kansas, where it is sorted and baled, and from there shipped to the east and southeast.

In his position with the railroad, Mr. Payton has noted the trend of most of the shipment, and believes that the product could be brought here and handled much cheaper than is now the case from the Kansas city. In addition, it would mean the employment of considerable help here, as the work of sorting and handling requires much labor. It would also make business for the local railroads and bring a considerable amount of money to the city, as the corn would mostly be paid for here.

It is only a matter of a few years when the broom straw shipments will be made via Galveston and a great part of the crop must pass through Wichita Falls on the most direct route to the gulf. Owing to its proximity to the broom corn regions and the fact that it is on the line of the most direct routes for shipment, this city is the logical concentration point.

The matter will probably be taken up by the Chamber of Commerce at its next meeting and steps may be taken toward the building of such warehouses.

A. J. HUMPHRIES FOR CITY MARSHAL

A. J. Humphries last night announced his candidacy for the office of chief of police of Wichita Falls, subject to the vote of the people on April 2.

Wichita Falls has no citizen of better repute for square and honest dealing than Andy Humphries and if there is any thing wrong with him the people above had plenty of time to find it out as he has been a resident of Wichita Falls the greater part of the time since the fall of 1881. He got here before the railroad and his reputation has never been smirched, so far as The Times knows.

For the past three years he has been employed as a merchant policeman and has gained experience that he believes will be valuable to him as city marshal. If elected he promises an impartial discharge of the duties of his office. The Times gladly presents his claims to the people.

Taft's Brother in Texas.
Houston, Texas, March 9.—Chas. F. Taft, brother of President Taft, accompanied by his daughter and Messrs. W. F. Wiley and Joseph Garretson, Cincinnati newspaper men, passed through here tonight enroute for a two week's visit to Gregory. The party declined all political expression.
