## ITALY IS FACING A SERIOUS CRISIS

### STRIKERS CARRY ON RIOTOUS CAMPAIGN IN MANY TOWNS—BLOOD IS SHED

## RAILWAY STRIKE STOPPED

This Gives Grounds for Hope for Peace Following Day of Excessive Disorder.

## CESSATION OF RAILWAY STRIKE.

Rome, June 13.—The sympathy of railway workers this afternoon ordered a cessation of the strike throughout Italy. As the strike of railway men is the only serious cause of anxiety in the general strike movement, the tension was greatly relieved.

## GOVERNMENT PREPARED FOR EXTREME MEASURES

Rome, Italy, June 13.—Detachments of troops were ordered today to take control of the railroad stations and tracks in Rome. The seriousness of the situation was indicated in a lengthy explanation given by Premier Salandra in the Chamber of Deputies today. He hinted that the government was prepared to suppress with a stern hand any revolutionary movement.

Preparations for eventualities have been made, he said, and 10,000 men would be concentrated in the disturbed districts today. He said the disturbances which had occurred at Bologna had caused no serious trouble. At Naples, however, the military had killed two strikers and had wounded others. The police suffered twenty-three wounded and the carabinieri thirteen.

The premier asserted the troops in Naples were now endeavoring to quell the disorderly element and it was hoped they would be able to do so without shedding blood. The premier declared the revolt in Ravenna and Forlì to be of an anarchistic character. Rioters are reported to have posted detachments to prevent the troops gaining access to the town.

## ORGY OF DESTRUCTION REPORTED AT RAVENNA

Bologna, Italy, June 13.—Republican socialists and anarchists who formerly have fought each other vehemently joined in a riotous campaign against government authorities at Ravenna. It was learned today, until reinforcements of troops drove the revolutionary leaders into the labor exchange where they are besieged. After a mass meeting, demonstrators were dispatched to the surrounding country to announce the conclusion of the alliance and to instruct the three parties adherent to gather and oppose the authorities.

## Mob Burns National Flag.

Simultaneously the rioters invaded a church, destroyed the sacred objects and removed the confessionals. Benches and pulpits formed a barricade across the street for the strikers. Another mob invaded the constitutional club, where the orgy of destruction continued, the furniture being used to build another barricade on which the national flag was burned.

Cavalry and infantry attacked the barricade while the rioters shouted "Long live the revolution!" On the third charge the revolutionists took refuge in the labor exchange.

## Prefect of Police Killed.

Meanwhile another band moved on the palace of the prefect of police. The prefect was struck on the head and killed. The troops fired on the mob and dispersed. Serious riots are reported from Villa, Mezzano, Glorie, Milanova and Alfonsine.

## ANCONA CONTINUES IN A STATE OF TERROR

Ancona, Italy, June 13.—This town continues in a state of terror owing to further attempts at looting by the strikers. Troops are on guard in the streets and detachments of blue jackets have been landed from the Italian cruisers to assist the soldiers in maintaining order. Cavalry patrols the outskirts of the town. There has been no further bloodshed, however, and the authorities appear to be masters of the situation.

## STORMS FROM KENTUCKY SWEEP INTO TENNESSEE

Two storms swept into Tennessee this afternoon from Kentucky. One storm originated around Bowling Green and swept on to Gallatin, Tennessee; little damage was done, so far as can be learned, though all wires are down between Gallatin and Bowling Green. The second storm came from Burlington, Kentucky, and all wires between Burlington and Hendersonville, Tennessee, are down.

## MINERS ATTACK PARADE OF UNION

### ASSAULT BUTTE MAYOR WHEN HE ATTEMPTS TO QUIET MOB

## ATTACK MINERS' UNION HALL

Union Members Hurl Rocks at Union Parade and Besiege Union Hall.

By Associated Press.  
Butte, Mont., June 13.—Rioting miners intent on wrecking vengeance on officers of their union because of alleged mismanagement attacked Mayor Frank Curran here today when he sought to prevent the wrecking of the Miners' Union Hall. The mayor was hurried to a hospital unconscious.

## Deputies Sworn In.

While the riot was at its height, Alderman Charles Lane made a demand on the acting mayor that he ask the governor for troops. The county commissioners hastily assembled and authorized Sheriff Driscoll to swear in deputies to control the situation. Several hundred miners refused to march today in a parade in celebration of the Miners' Union today. Their protest was against heavy assessments levied for the strike in Michigan and other funds raised by the Western Federation of Miners. They attacked the marchers and hurled rocks at President Rely of the Butte union and his subordinate officials. The latter were rescued by the police and found shelter in the sheriff's office.

## Mayor Attacked.

The mob then attacked the Miners' Union Hall, wrecked its furniture, destroyed the ballot boxes holding the votes cast in a recent union election and carried off the books. Acting Mayor Curran was set upon when he tried to quiet the rioters. He was thrown to the ground and rendered unconscious.

The rioters continued their demonstration in the vicinity of the sheriff's office where all of the union officials remained in hiding.

## RIOTING AT BUTTE CONTINUED LAST NIGHT

By Associated Press.  
Butte, Montana, June 13.—Rioting incident to a revolt of 2000 union men against the orders of their organization continued tonight despite the framed rule and the safe of the Western Federation of Miners down Main Street to keep it out of the hands of the rioters tonight. Four hundred men, took the safe from the federation members and police guard, put it on a wagon, carted it away, and announced they were going to dynamite it.

Trouble began when a parade started in celebration of the establishment of the union. More than 2000 men, because of a heavy assessment refused to recognize the Western Federation any longer. Under the leadership of organizers of the Industrial Workers of the World, the seceders attacked the parade, which was broken up and speaking exercises in a theatre were abandoned. Then the rioters moved on the union hall in the center of the city. Every piece of furniture was demolished and thrown into the streets.

## Eight Zeppelin Airships Have Been Wrecked

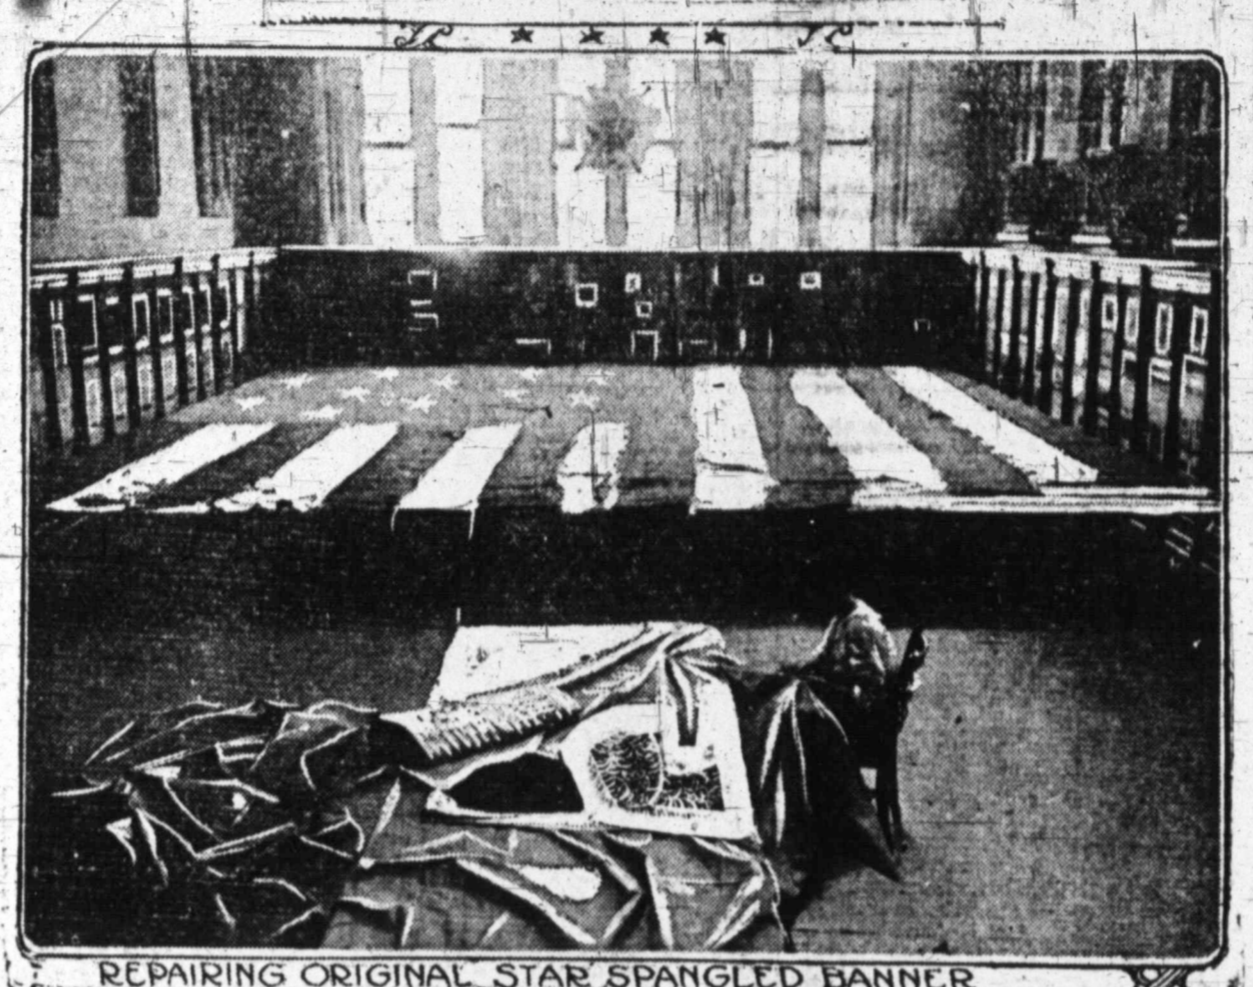

By Associated Press.  
Diedenhofen, Germany, June 13.—Another German army Zeppelin airship the Z-1 broke in two near here today while trying to effect an emergency landing during a storm. A lieutenant was injured. This is the eighth accident to a Zeppelin airship in one of which the entire crew of twenty-eight was killed and in another of which the fatalities numbered fifteen.

## TURKISH ISLANDS ARE ANNEXED BY GREECE

By Associated Press.  
Athens, Greece, June 13.—Formal announcement of the annexation of the Turkish island of Chios and Mitlene by Greece was gazetted today. The Hellenic government thus further emphasized its determination to ignore Turkey's contention that the possession of these islands was necessary for the defense of the adjacent Ottoman territory in Asia Minor.

In diplomatic circles here, it is feared that this action of the Greek government when the tension between the two nations is so great may be regarded as especially provocative by Turkey and force a crisis.

## WILSON TO ATTEND CANAL OPENING

### WILL PASS THROUGH CANAL ON BATTLESHIP OREGON WITH HIS CABINET

## THEN WILL GO TO FRISCO

Secretary Daniels Announces President's Party Will Leave Washington March 5

By Associated Press.  
Washington, June 13.—President Wilson will leave Washington on March 5, 1915 for Panama to attend the opening ceremonies of the Panama Canal at a date to be determined later. He will pass through the canal with the cabinet on the old battleship Oregon and then proceed to San Francisco. Secretary Daniels today made a formal announcement of the president's plans so far as they have been completed, inasmuch as the date of departure is more than eight months off, minor details may be changed but the essential details have been definitely determined. Mr. Wilson will leave the capital the day after Congress adjourns. He probably will make the journey to Panama on a warship. The date of the formal opening ceremony for the canal will be decided before the president leaves here and the exercises will take place soon after he reaches the scene. On the bridge of the battleship Oregon on her famous run around the Horn just before the Spanish war, the president will, with members of his cabinet, make the first official passage through the canal and then proceed to the Panama-Pacific Exposition at San Francisco. The date of the president's arrival there had not been determined today, nor the date of his return East. All that will be arranged later and to what extent is dependent on events intervening.

## Insane Italian Stabs Twenty-Five Aboard Steamer

By Associated Press.  
Punta Delgado, Azores, June 13.—Twenty-five steaming passengers on board the White Star Steamship Canopic were stabbed by an Italian fellow passenger who suddenly became insane and ran amuck while on the voyage from Boston. Five of the wounded are in a serious condition. The incident happened shortly before the arrival here yesterday of the Canopic on her way to Naples.

## LOOKING FOR MAN WHO CAN MAINTAIN PEACE

### CRUX OF PROBLEM HAS BEEN REACHED

### LOOKING FOR MAN WHO CAN MAINTAIN PEACE AND ORDER IN MEXICO

## NO AGREEMENT IS REACHED

### Huerta Delegates Will Oppose Selection of Any Man Active on Side of Rebels

By Associated Press.  
Niagara Falls, June 13.—The crux of the Mexican problem, the selection of a man for provisional president acceptable to all factions in the Mexican and foreign governments generally was reached today in a conference between the mediators and the Mexican and American delegates. Various names were discussed, but there was no agreement. Details of the peace plan are virtually set aside now for the greater task of finding a man who can maintain peace in Mexico, while a constitutional election is held and normal order resumed.

General Carranza's note advising the mediators that constitutional delegates were on their way to the mediation conference with full instructions arrived today. It contains no reference to an armistice and there was nothing to show that the mediators had altered their determination not to admit officially Carranza's representatives unless an armistice was declared. Some other way of dealing with them, perhaps through the American delegates may be found.

## "TOMMY" WILSON AT ALMA MATER

### "KEEP STEP THERE, TOMMY," OLD CLASSMATE COMMANDS THE PRESIDENT

## HE MEETS OLD GRADUATES

By Associated Press.  
Princeton, N. J., June 13.—Greeted unobtrusively by a great crowd of Princeton alumni and undergraduates yelling "locomotive" and singing old songs, President Wilson, Princeton '79 returned to his alma mater shortly after noon today for the annual "alumni day" celebration. For the day the president was "Tommy" to the eighty-five members of the class of '79 who returned for their thirty-fifth graduating anniversary and was just like any other "old graduate" to the remainder of the Princeton people.

## Slapped On Back.

He was slapped on the back, cheered, hurried about and treated little like a president of the United States. Waiting at the station was a crowd of several thousand persons, many of them dressed in fantastic costumes for the alumni parade. Some wore plain dominoes, some were dressed as playing cards and others as sailors. As Mr. Wilson stepped from the train he was handed a hat band with a purple '79 on it and a Princeton button was pinned on his coat. A reception committee escorted the president through the University grounds to '79 hall.

## TWO AERONAUTS HUNG IN A TREE WHOLE NIGHT

### Balloon Smashed into Top of Tall Pine—One of Aeronauts Knocked Unconscious

By Associated Press.  
Portland, Ore., June 13.—Captain John Berry, pilot of the mission balloon Million Population Club and his side aide George Morris, walked into Oregon City at 9:45 this morning. Their balloon was wrecked in a tree in the forest some miles from Oregon City Thursday night, according to a brief telephone report received in Portland from Morrison and Berry was rendered unconscious but was not seriously injured.

## Smashed Against Pine Tree.

The balloon was smashed against a tall pine and collapsed in the branches. Neither of the aeronauts was thrown out but Berry was hurled against the side with such force that he was made unconscious. While rain came down in a deluge and lightning flashed almost continuously, Morris revived his companion as they hung in the tree top a hundred feet above the ground. At length Berry was able with the aid of Morrison to descend the trail rope to the ground.

## Message Sent By Pigeon.

Before they descended Morrison wrote his note asking for aid which he attached to a carrier pigeon arriving here yesterday. Thousands of persons throughout Oregon's mountainous region continued today to search for the other missing balloons the Springfield and the Kansas City 111.

## SLAYER OF BARBER IS GRANTED BAIL

By Associated Press.  
Corpus Christi, Texas, June 13.—H. F. Marr was granted bail in the sum of \$10,000 today. He is charged with killing George Costello, a barber last Wednesday.

## FIRST PROTOCOL HAS BEEN SIGNED

### IT TESTIFIES U. S. WILL RECOGNIZE PROVISIONAL GOVERNMENT

## GENERAL CARRANZA DILATORY

### Awaits Reply From Mediators Before Starting Representatives to Niagara Falls

By Associated Press.  
Washington, June 13.—Further definite results in the Mexican mediation conference at Niagara Falls are looked for by officials of the Washington government early next week, their conclusions being based on communications received from the American representatives who were in touch with Secretary Bryan late today. No word of any actual progress at the joint conference today was received by officials here, but it is stated that mediators and parties to the conference had talked over the character of the proposed provisional government to be instituted in accordance with the protocol signed yesterday by the representatives of Huerta and the United States.

## Attitude of the Constitutionalists Toward Mediation Was Declared

The attitude of the constitutionalists toward mediation was declared to be dilatory in view of the announcement from General Carranza's headquarters at Saltillo that a reply to the latest note of the mediators would be awaited before the representatives of the constitutionalists would proceed to Niagara Falls to confer informally with the American representatives and American commissioners. That an answer was expected from the mediators to the communication stating that the constitutionalist delegates would be sent also was declared by Carranza's agent in Washington.

## First Protocol Signed.

No reply from the mediators had been received tonight. President Wilson just before leaving early in the day for Princeton was notified of the signing of the first protocol which testifies that a provisional government should be established in Mexico to succeed the Huerta regime, such government to be recognized by the United States.

## Always Favored Conference.

According to announcement today General Carranza made it plain that he always had favored the conference in principle and had accepted the good offices of the mediators but that this understanding had influenced him to delay the appointment of representatives. It was said on good authority that General Carranza had requested the mediators to outline to him the questions to be considered in the conference. It was not stated whether the request was complied or whether participation in the Niagara conference would preclude discussion of internal Mexican affairs but the delegates will be thoroughly instructed. This is generally understood among constitutionalist leaders as not giving any indication whatever of abandoning any provision of the plan of Guadalupe and that the plan provides that Huerta and his entire party must be eliminated.

## Carranza Delegates Selected.

The names of the Carranza delegates have been selected and will be made known as soon as the answer to Carranza's last note is received. As to the extent of the powers of the constitutionalist representatives, it is said here on good authority that the Carranza note expressed a willingness to discuss international questions which have arisen.

## SWITCH ENGINE STRUCK WAGON LOAD PICNICERS

By Associated Press.  
Muskegon, Okla., June 13.—Mrs. Alice Cox was instantly killed, J. H. Collins and Annie Collins were, it is thought, fatally injured and Miss Torrey Crawford and Mamie Collins hurt, tonight, when a switch engine in the Midland Valley railroad yards struck a farm wagon containing a crowd of ten persons returning from a picnic. Two other persons were slightly hurt. The driver of the wagon started to drive across the tracks behind a passenger train and the wagon was struck by the switch engine in a parallel track going in an opposite direction. Mamie Collins owes her life to the fact that she fell on the pilot of the engine where she clung until it came to a stop.

## COTTLE COUNTY WILL REMAIN DRY.

Paducah, Texas, via Quanah, June 13.—Cottle county by a vote of practically two to one today chose to remain dry. This proposition was expressed a will good with only three small boxes yet to be heard from. The vote was not available.

### ENGLISH WINNERS IN POLO MATCH

AMERICANS OUTPLAYED AND OUTSPRINTED BY HUNTINGTON CLUB

### THEIR PONIES WERE FASTER

Americans Upset by Brilliant Play From the Start And Never Recover

By Associated Press. Meadowbrook Polo Club, Westbury, L. I., June 13.—The American team went down to defeat today before the English challengers in the first game of the match for the international polo cup by a score of 8-2 to 3. After the first flurry on the opening period the defending four were outplayed and outsprinted by the Huntington Club representatives and the English ponies. The defeat came as a great surprise to most of the 40,000 spectators who had made the defenders ten to seven favorites in the betting.

ever, and the stands rang with applause at the work of the English riders, whose superiority became apparent with the bell in the opening period and it appeared to upset the defending four which never recovered form shown in recent practice games until the closing minutes of the game.

The challengers gave the finest exhibition of team work ever seen in an invading tour. Their stick work was a revelation. The American four were far more weak than was the case last year and in addition were called to face a team that surpassed in skill and speed the combination which just failed to lift the cup in 1913. The absence of former Captain Payne Whitney appeared to break up the perfect combination play for which the "Big Four" has been noted. The Americans over-rode the ball, missed easy strokes and were easily ridden off by English opponents.

English Ponies Faster. The English ponies were faster on their feet and better handled. The play in general was fast and without accident. Not since the "Big Four" defeated the Huntington club, eight to two in the final game of the 1909 series has today's score been exceeded. The game also developed the quickest goal ever made in international cup play when Captain Cheape scored within ten seconds after the throw-in at the beginning of the fourth period.

### NEWLAND REPORTS COMMISSION BILL

### A NUMBER OF CHANGES MADE

Bill Reported in Senate Includes All Corporations Except Railroads in Scope

By Associated Press. Washington, June 13.—Chairman Newlands today reported the Senate Interstate Commerce committee's federal commission bill, as a substitute for the House bill. He said the action of the committee had been non-partisan that he saw no reason for delay in passing the measure. He declared that the bill is not legislative.

### FIGHT THE LURE OF THE BIG CITY

Chautauqua Helps Keep Boys and Girls at Home.

### A GREAT AGENT FOR GOOD.

It Combats Evil by Developing the Lure of the Country—Most of the Degenerates in the Cities Are Country-Born—The Small Town Must Stop This.

If an enemy were to invade this country he would be resisted. We would volunteer just as in the days of former invasions. We would beat the drums and organize companies, regiments and armies and drive out the invader.

and grocery with their checkerboard, stagnation, isolation; a few men in business fighting each other; nothing to fire the imagination. And another thing more powerful than all these—the spirit of disparagement of young people. Here they have grown up and made their mistakes. The town always looks upon them as children and "kids." The young people want it forgotten. They want to be looked up to for what they can do. They want to go to a strange place and start with what they are and no past remembered about them.

The small town must wake up, muster into an army, a home guard army, by all getting together and working for the common good—to offer the young people the bright lights, beauty, animation, opportunity, inspiration, entertainment. The small town must say to the young people: "We will give you all the city can give—more. We believe in you, and we will give you every opportunity to become happy and successful. This is your town, and you must help make it great. You must not desert your own."

## Make this a "RED WING" Summer

I was just comparing notes the other day to see how much grape juice I was selling at the present time as compared with what was sold when grape juice was first produced on the market and I myself was astonished at the very rapid increase in the sale of this summer beverage. With the introduction in this territory of Redwing Grape Juice I expected to see the sale climb faster and faster. Already I have added quite a number of new customers to my list, who have had trial bottles of this new brand and they are now ordering in case lots and they value its economy as well as its delicious quality. Here's the sizes of bottles I carry and the prices. I'll make a special price on case lots:

## THE NATIONAL BANK OF COMMERCE

**A Bank for all the People**

Has ample capital, giving it strength; is liberal and conservative, lending on approved collateral; has installed all modern banking methods known to successful business.

Those desiring a new bank connection or wishing a loan are cordially invited to confer with this bank's officials.

Several changes regarded as most important by the Senate committee. One provides that unfair competition in commerce shall be unlawful and gives the trade commission power to prevent such unfair competition by court order.

Another provides for investigation of foreign trade conditions and their effects on American export trade, and an investigation of the question of combinations among American and foreign producers for the control of prices.

The House bill provides a commission of three members, the Senate one of five members. The House bill gives the commission authority over corporations with a capital of not less than \$5,000,000 while the Senate bill includes all corporations except railroads, which are engaged in interstate commerce. In other respects the bills are practically identical.

The new bill went to the calendar with Mr. Newland's announcement that he expected to call it up for consideration soon.

**ANOTHER LORIMER BANK IS CLOSED SATURDAY**

By Associated Press. Chicago, June 13.—A fifth state bank, the State Bank of Calumet, was closed today by the state bank examiner in connection with the disclosure of conditions in the La Salle Street Trust and Savings Bank. According to the examiner, the State Bank of Calumet was the last in the chain of what was known as the string of the Lorimer-Munday banks in Chicago. In addition, another state bank was forced to ensure a run, and a private bank went into the hands of a receiver. Two ex-senators from the state auditor's office arrived today to assist in the examination of the five banks now in the department's hands. William Lorimer, president of the LaSalle Street bank, was said to be near physical collapse from the strain of the developments of the last twenty-four hours.

**SOMETIMES NEED ISOLATION**

Best of Human Qualities Frequently Come to the Front Under Such Circumstances

Many great human qualities come to their best in a life of comparative isolation. A big tree, an oak or an elm, standing out in an open field has a toughness of fiber, a spread of boughs and roundness of shape that are never seen in a tree that stands in the woods. So people get individually by being much alone. They become self-reliant, more relying on themselves. They gain clear opinions by thinking things over, and thinking them out to their necessary conclusion. They acquire indefatigability of purpose by facing obstacles and conquering them. The pioneers of our country and the fathers of the republic were such men. The projects of great undertakings carried through triumphantly have acquired their power in this way. The country is the natural nursery of such qualities. People are wanted on the farms to raise corn and grow stock for the markets; but they are wanted there far more for the training of manhood and womanhood in moral worth, in religious sensibility, in all the traits of a strong, upright personality. In the future we never heretofore, our cities, with their multiplying wealth and luxury, are likely to send the country for that steady renewal of their better life which shall keep them from relaxing into sensuality and sinking into decay.

**NOT A SPIRITUAL NEED.**

A clergyman was preaching in a strange church one Sunday evening. While at supper at the vicarage afterward a ring came at the bell. The maid entered and said: "Please, sir, there is a man at the door who says he wants to speak to the preacher." The clergyman, thinking he was going to interview some one, got up with alacrity and went into the hall. He had to wait a long time. "Well, my good man, what can I do for you?" he asked, thinking of the other spiritually. "Well, sir, I was thinking, while I was a-listening to yer preaching, as how yer might have a pair of trousers as would fit me!"

## LAST MEETINGS SCOVILLE SERIES

NEARLY SIX HUNDRED CONVERTS IN MEETINGS THAT WILL CLOSE TODAY

## CAMPAIN'S FINAL MEETINGS

Dr. Scoville and Party Leave This Week for Union Meeting at Bethany, Mo.

The closing meetings of the evangelistic campaign that has been in progress at the First Christian church and later in the tent at the corner of Thirteenth and Travis streets will come to a close with today's meetings. Already there have been nearly six hundred converts. During the week which came to close last night there were an even hundred converts. At last night's meeting there were ten.

**Passion Play Lecture**

Dr. Scoville will give his lecture on the Passion play at the tent on Monday night when Mrs. Scoville will sing and Mr. Marty will give cornet solos. Dr. Scoville and the other members of his party will leave early in the week for Bethany, Mo., where a union meeting is now beginning. Mr. Sandy has already left for that place.

**Today's Meetings**

The Sunday school led by Murphy's band will again march to the tent from the Christian church this morning as on last Sunday. The start will be made from the church at 10:30. Dr. Scoville requests especially that all converts attend the morning's service at the tent when he will speak on "The Church as a Divine Institution." Mrs. Scoville will sing at this service and will be accompanied by the band and the orchestra. There will be no meeting in the afternoon.

The night meeting will be held in the tent. Dr. Scoville's subject at night will be "The Book's Opened and the Door Shut." Mrs. Scoville will sing "The Book Will be Opened."

**Last Night's Sermon**

"The Spirit of the Lord is Upon Me" was the subject at last night's sermon. "How many times has God bestowed upon us?" said Dr. Scoville. "How good God is! Salvation is here." "In Indianapolis I knew a little boy left without father and mother in three months time. If your boy or girl is to be left without parents would they be safe in the care of Christ and the church?"

"Jesus, as His custom was, what a thought! Don't you love to see a person whose custom it is to go to church? Let us keep the Lord's day sacred. Why should there be Sunday amusements? Let it be our custom to go to church when Sunday comes. Go regularly. The old Jewish Sabbath was on Saturday, but under the new law we kept the first day and not the last day of the week. Sometimes we can feel the spirit of the Lord upon us and it is easy to preach and sing and pray. This text goes on to say, "He hath anointed me to preach the gospel to the poor." One of our ministers visited an old lady dying in the poor house. Suddenly a smile crossed her face and the minister asked her what she was thinking of. She smiled again and said "Oh, what a difference from the poor house to heaven."

"One day in Chicago I was called to preach the funeral of the baby of a poor working man. The factory would only let him off 30 minutes for the funeral of his child. Good pity us if this commercial age cannot give a laboring man more than thirty minutes to bury his dead!"

"He hath anointed me to bind up the broken hearted." Have you lost a dear one from your old home circle? If so, are you not thankful for the gospel that can bring comfort to the sorrowing ones at such an hour? One day in Hutchinson, Kansas, our company visited the county poor house. We took candy and flowers to the poor old folks. You should have seen how happy they were. We held a little service, had prayer. Mrs. Scoville sang and Mr. Marty played the cornet. The poor old people at the county farm were made happy through the comfort brought by the gospel of Jesus Christ. Let us try and take some comfort to the old folks.

"To proclaim the release of the captive." Those down in sin can be set free through the gospel of Christ. Let the cross of Christ bind up the broken hearted tonight. Don't let your family be divided over the seamless garment of Jesus. Jesus Christ comes to us in sorrow and does not forget the widow and orphan. You will need Christ some day and it will be best for you to come now and claim

your relationship with the Christ. My spirit will not always strive with man. Let us try and make this last Saturday night of the meeting the night of your decision. Come and accept Christ tonight.

## IRISH POTATO CROP IS BETTER THAN EXPECTED.

By Associated Press.

Houston, Texas, June 13.—Reports from over the Irish potato belt show that the yield has been better than expected and that prices of about one dollar per bushel have been obtained at the points of shipment. While some of the crop was rotted by the incessant rains, yields of 100 bushels to the acre of marketable potatoes have been reported in many localities. During the recent hot weather thousands of acres of farming-land have been cleared of grass and weeds and growers generally are again taking on a decidedly hopeful air. The month of June is witnessing the planting of more potato than in years past for that month.

explanation, the work looks so simple and easy before they attempt it... Mr. Seeds took down in his seasonable 210 more little chicks to add to the already big nursery at the cattle farm.

Our records show that one of these girls who have appealed to the sympathy of the public for help, did, five weeks ago, with about twelve weeks practice, earn repeatedly 75c in about six hours, and she did it with apparently little effort.

If there is anything we love better, or admire more than "fairness in the dealings of men" it is to tip the scales in the favor of the working girls, and this we have done in every instance of our transactions with them in Wichita Falls—and our records show it.

Factory work is not the most preferable vocation for our girls. We would like to have them educated and cultured. We would like to have them be musicians, teachers, stenographers, trained nurses, or do some such work until such time as they may be crowned "queen" of their rightful realm.

Then permit this simple request. Make investigation, get full information, hear all the facts before announcing your decision or denouncing anyone. If, after full investigation, the people of Wichita Falls decide they do not need nor want such an institution as ours, say so frankly, and we will quietly fold our tent and silently move away.

large a soul as another, and as large as the rest of them, and I should be as much king in my own domain as any other king, and, being so, I would do what I pleased, and doing what I pleased, I should have my will, and, having my will, I should be contented, and, being contented, there is no more to be desired, and, if there is no more to be desired, there is an end of it, and let the estate be! THE TEXAS PRESS ON BALL AND FERGUSON. If you want a glass of soda water on Sunday, you can get it; if you want a glass of coca cola on Sunday, you can get it not. All of which shows that Texas has been blessed with a set of law givers possessing the most perfect wisdom.—Nacogdoches Sentinel.

A STUDY IN CANT. (By Saveyard in Houston Chronicle) Last night I was reading Macaulay's essay on Croker's edition of Boswell's "Life of Samuel Johnson" and was struck with the passage relating to the great old writer's intolerance of shams and his intense and inveterate hatred of "cant of patriotism" that has disgraced the policies of all tongues and all peoples in all ages and in all climes.

Speaking of the governor's race, who is going to carry Navarro county? Don't all eyes expect to be turned to the Hon. Tom Ball? He is broad-gauged, strong-minded, clean and conservative and of the two aspirants, certainly he is the favorite and, of course, intelligent Navarro county knows split beans from coffee.—Blooming Grove Rustler.

Mr. Ferguson is not the candidate of pro, anti or any side show. He is the whole big democratic show and is running on that ticket alone. He refuses to accept the assistance or money of political grafters, he is running strictly on his own hook and paying his own expenses out of money he saved with his own hands.

Some politicians are expressing great surprise that Colonel R. M. Johnston of the Houston Post is supporting Thomas H. Ball for governor. Colonel Johnston in 1892 supported James S. Hogg for governor to the surprise and chagrin of many. The average politician is unwise and does not know the difference between a democrat and those who are criticizing him and has done more for democracy in Texas than those who are now bitter.

Thomas H. Ball is being honored by a following of leading democrats from among those who differ with him on the prohibition question. The Times is glad to see this, not because we mean that we are glad to see this support of Mr. Ball, but because we are glad to see the separation of the two institutions, because the Ag. Gen. demanded equal division of university's endowment, whereas the university folk felt this demand to be unreasonable.

The Waco-Morning News must be dull of perception, for listen to this: "If Tom Ball cared as little for prohibition as they say he does, they would be supporting him instead of abusing him." Why, are not a number of the anti-pro politicians supporting him? And do you suppose they give him the message to be placed before the people, and in the legislature there are a good many men who are partisans of neither institution. These will have a say.—Dallas Evening Journal.

Ferguson is hard pressed for argument when he charges that Ball is a corporation lawyer and therefore the candidate of the special interests. Ball is a lawyer and was a member of a law firm that had corporation clients. He has added that without corporations could have no electric light companies, no ice companies, no water companies and no railroad companies. These companies are absolutely necessary and are entitled to representation in the courts. They always employ the best legal talent in the country.

guson say that no special interest is supporting him?—Crockett Courier. Let us be fair though the heavens fall. The statement is made by a supporter of Mr. Ball that Mr. Ferguson is for the unregulated saloon. That isn't a just statement. The saloon in Texas is regulated as in no other American commonwealth. It opens at a certain hour and it must close at a certain hour. Certain persons are forbidden to enter its doors. It is hermetically sealed on the Sabbath and on each election day, no matter what the election is for. If it fails to observe the law, it can be suppressed by the State comptroller. Therefore, it is regulated both at home and abroad, so to speak. In many precincts and counties there are no saloons; in fact, the saloon business is almost entirely confined to the larger cities—Galveston, Houston, San Antonio, El Paso, Fort Worth, Dallas, Austin and Waco. Mr. Ferguson is for leaving the situation as it is; that is, the present regulation for the saloon and the present local option law. He says he would as governor veto any liquor measure, come from which side it may. Therefore, to say that he is for the unregulated saloon is to misrepresent his position. Let us be fair though the heavens fall.—Waco Times-Herald.

When the Democrats of Texas make up their minds to cease this business of sending professional peanut politicians down to Austin to make our laws for us, and substitute for them successful, straight forward farmers or business men this state will have better laws. Until they do this, we can't hope for anything better.

WICHITA FALLS BOY WRITES POETRY AT SIXTEEN YEARS. A poet at sixteen years is Carter Howard, grandson of Mr. J. Howard, justice of the peace. The young man recently wrote the following upon present political conditions:

There is no doubt of Wilson's bravery. Well I guess Bryan's fearless too. With the army and navy as weapons There's nothing they couldn't do.

But Mexico has us guessing And we scarcely know which way to jump. But if Huerta was out of there, There would be peace without a bump.

And if Villa and Carranza Were to do the proper thing They would string him high to a pole Without a chance to explain.

It Roosevelt hasn't split the party, And no doubt perhaps today There would be another country Belonging to the U. S. A. But if Columbus hadn't discovered America We wouldn't be here today. And you'll nearly always find it That there is a little bit in the way.

So, by 'by Teddy, if Wilson now And I feel safe to say He'll end it right, without a fight. Because it's Woodrow's way. —CARTER HOWARD. June 8, 1914.

HARVEST HANDS NEEDED AT WOODWARD, OKLAHOMA. Woodward, Okla., June 13.—Within the next few days the wheat harvest in this section will be in full swing. The farmers are experiencing some difficulty, however, in getting sufficient help. Already upwards of one thousand have been put to work from the Woodward office alone and there is room for at least one thousand more. The farmers are paying \$2.50 a day and board and the indications are that employment will be furnished until the fall season as the regular spring crops will follow the harvesting of the wheat. The railroads are co-operating with the farmers and arrangements are being made to take a big bunch out of Wichita Falls, Texas to Woodward and other points around this section on their line Monday. Everybody here realizes that if help is not secured there is danger of a loss on account of the crops not being harvested while in condition.

Every effort is being made to find them and many cowboys have joined the searchers.

VILLA GOES TO AID OF GENERAL MATERA

Constitutionalists Continue to Push Their Campaign in Northern Mexico

By Associated Press. El Paso, Texas, June 13.—With mediation hanging fire and the question of an armistice unsettled, the constitutionalists today continued to push their campaign in northern Mexico. General Villa left Torreon to assist General Matera in his attack on Zacatecas. This move was in accordance with an order issued yesterday by General Carranza, as General Matera seems to have trouble in forcing the federal's position. Americans and Englishmen interested in properties of the Ferral district were preparing today to return to Mexico and begin work.

Investigation of the cases of the Englishman Duncan and the American Bauch, killed in constitutionalist territory, has been removed to Torreon, according to officials statements today.

The Chief Magistrate to Transact Business This Summer in a Tent—A Convert to the Open-Air Life. PRESIDENT WILSON, in embracing another precedent, in some respects the latest evidence of disregard for time-honored custom, is the most radical departure he has made. The Chief Magistrate is going to transact business this summer in a tent. No previous occupant of the White House has done anything of that sort unless you count the occasions when Lincoln visited the Union Army in the field, or when Theodore Roosevelt indulged in a hunting trip. Moreover, such instances as the above are in no sense a parallel to the Wilson innovation, because they were but temporary expedients and served only for a day or two. President Wilson is a pioneer in establishing the executive office under canvas and he has emphasized the novelty of the proceeding by having the tented business establishment set up on the White House grounds at Washington instead of at some seashore or mountain resort where its existence might seem more natural. The shelter of khaki duck in which the head of the nation will wrestle with the problems of State is located in a shady and breezy nook in the rear of the Presidential mansion and only a stone's throw from the permanent Executive Office to which the President has repaired in the event of a severe thunder storm or other interruption to his work. Credit—Eug. Dr. Gagnon.

OUR PRESIDENT'S NEW OFFICE The President's Regular Office at the White House which he has abandoned for his Tent. Interior, showing Working Quarters. Rear of Tent showing the Hedge behind which the Secret Service Guards will be Sheltered. The White House Flower Garden as Viewed from the Presidential Tent. The Chief Magistrate to Transact Business This Summer in a Tent—A Convert to the Open-Air Life. The White House is a lofty hedge behind which the setting afforded by the khaki-colored tent and the green lawn and shrubbery. There are only three pieces—a chair for the President, a work table of generous size, and a distinctive semi-circular settee that suggests a pretentious lawn seat—such as is sometimes installed facing a fountain in the formal garden of an elaborate estate. The outlook from the Presidential tent is most attractive. At the rear of the tent is a lofty hedge behind which the Secret Service men can be sheltered as they stand guard over the Chief Magistrate. In the opposite direction, the occupant of the tent looks out upon the famous White House flower garden which extends to the Executive Office building. Over the roof of the latter a glimpse may be gained of that massive granite pile, the State, War and Navy Department Building, which cost Uncle Sam \$11,000,000 and is claimed to be the largest office building in the world. The flower garden at the White House is one beautiful spot at the mansion which is not open to inspection except to intimate friends of the Presidential family. The garden was first laid out during the Roosevelt administration and is rearranged in accordance with the personal preferences of each successive Mistress of the White House. West Of Gates. Tent life for the President of the United States will not only mean an opportunity for the busy Executive to work in the coolest and most healthful environment in Washington, but it will also afford comparative quiet from the clamor of crowds, the noise, and then surge around the Executive Offices. Only the other day when a Cabinet meeting was in progress, Uncle Sam's "board of directors" all but had to suspend business because of a powerful brass band on a visit to Washington happened to choose that particular time to treat the President to a serenade. President Wilson liked and needs quiet for his more serious work. Time and again during the past year when important business was in hand, he has sought the seclusion of his study on the second floor of the White House and absented himself from the Executive Offices for a day or more at a time. His new tent will enable him to secure something of the same seclusion in summer without being cooped up indoors.

Buy Service—Not Just Glasses

You are not fair to your eyes unless you pay for the service that should be a part of every pair of right glasses. Glasses are something more than just merchandise—Because their use determines their value. You cannot get the right sort of use from glasses unless they correct your visual defect. And they will not do that unless they are built to your special needs. We specialize in examining eyes and fitting glasses. Our optical work is not a side line.

### FRANCES BULLOCK CELEBRATES SIXTH BIRTHDAY TUESDAY

Tuesday afternoon Mrs. W. J. Bullock invited a number of the little girls of the neighborhood to spend the afternoon and help little Miss Frances celebrate her sixth birthday. The afternoon was spent in playing games of various kinds, pleasing to the

expression of the hospitality and a peculiar significance will be noted in this, inasmuch as the bride has planned for a rainbow wedding. The rainbow tints were noticed in the wild flowers which adorned the rooms, being scattered about in rustic baskets in picturesque confusion. And the basket motif also will be featured in the wedding which will be one of the most charming and beautiful ceremonies that has ever taken place in this city. The afternoon was spent most enjoyably and Miss Edith Mathis, younger sister of the honoree, also reacting in an inimitable manner. The dining room was kept closed until time for the presentation of the shower and when opened it presented to the guests a view of much original beauty. The rainbow colors in the flowers used for decorations were repeated in the delicately tinted ribbons which adorned the chair of the bride-to-be. A large rainbow was arranged in the room and Miss Mathis on following up the ribbons found that they all led to the foot of the rainbow. The old myth concerning the end of the rainbow was pretty utilized for a veritable "pot of gold" the dainty articles of the shower proved and she found her hearts desire. Following the presentation of the gifts in this very unique manner refreshments of ice cream and cake, repeating the colors of the decorative scheme were served. (Punch was served by Misses Beas Kell and Bertha Mae Kemp all during the afternoon and various colored mints were passed in cut glass compotes, ties with bridal tulle. Bows of the tulle were also much in favor in the decorations and were used to excellent effect with the flowers. # The Climax of Value Giving

## Is Reached in this Mid-Season Clearance Sale

It will be your greatest June opportunity and our greatest June clearance. Your greatest, because of its money saving value to you, because you will have the valuable opportunity to share in the many unusual offerings that will mark this sale as the climax of June value giving. Our greatest, because we will do a greater volume of business this month than in any previous June in the history of this store.

Why this offering of extra values and in many instances this merciless cutting of prices? There are two reasons—both good ones. **FIRST.**—Many stocks are entirely too large—overloaded in many instances. We overjudged our Spring business and bought too heavy in some things. Now we must unload, and do it in a hurry. Ordinary means will not do this, so we've cut prices right and left in a manner that will inevitably bring the increased business necessary to clear our stock. **SECOND.**—We are determined to make this the greatest June in our history and have made many special purchases which we include in this sale at prices that are most unusual.

This season's choicest first quality merchandise is represented in this sale—regular lines that are reduced in many instances to almost half price. Thousands of dollars worth must be cleared away in these fifteen days. A reading of this page will show you that we've done our part—the rest remains with you.

## Sale opens Monday, June 15—Ends Wednesday, July 1st

Fifteen days of extra value giving in which we expect to do the greatest volume of business in our history for this time of the season.

Monday the number of binders put to work was increased and since that time the work has gone forward at a furious rate. With a continuation of dry weather, threshing is expected to begin about the middle of next week, soon after which wheat will be put on the market. Alfalfa cutting has also been done on numerous farms the past week, the alfalfa being of fine quality in most places. The price of wheat is expected to open at about 70 cents a bushel.

### CAN'T GET MEN TO WORK ON RAILROAD

LABORERS JUMP TRACK WORK IN OKLAHOMA TO HELP IN HARVEST

### NORTHWESTERN NEEDS HANDS

Farmers Offer Better Wages and Railroad Has Hard Time Keeping Sufficient Force at Work

Lack of sufficient labor to repair the tracks will delay putting the Wichita Falls & Northwestern passenger train taken off about ten days ago back into operation. The company has shipped many laborers here from Dallas and Fort Worth only to have them strike out into the harvest fields. The laborers haven't been blamed either for the wages of trackmen are only \$1.50 per day while the farmers have been paying \$2 and \$2.50 per day and giving good country board in the bargain.

As it is the Northwestern has three extra gangs at work and is making the best headway possible but the harvest demands will hold back the work considerably.

The engineer of the Oklahoma railroad commission went over the line a few days ago but his report has not yet reached the Northwestern offices here.

The track is in the worst condition between Frederick and Wichita Falls.

By Associated Press. Copenhagen, June 13.—King Christian has decided that the newest of his numerous residences shall be furnished in American style in every detail. He will not imitate the home of the American multi-millionaire. The style he has selected to copy is that of the simple and efficient equipment of the average American home. He has long been an admirer of the American arts and conveniences of home making and he has insisted that his newest house, which

is situated on the Skaw, will lack none of them. The excuse for so many residences as King Christian has in so small a country as Denmark is his fondness of keeping in touch with his people, which he maintains he cannot do better than by living everywhere.

The king maintains an elaborate entourage, but it is only for the entertainment of visiting sovereigns and diplomats. As for himself he lives in the most simple manner. No ruler in Europe is more easily accessible.

Recently on a visit to Nakov, the king was attracted by a delicious apple pie displayed in a shop window. He went inside to buy a piece and while there bought some cake for a small boy in the shop. Later the shop woman learned the identity of her royal customer and she very promptly hung out a sign announcing that her shop purveyed to the royal family of Denmark.

During the late motor show the king evinced keen interest in the display of American motor cars and when he bought 50 lottery tickets he expressed the hope that he would win an American car.

The Danish policemen are threatening to strike because the new women police are started out at a greater salary than male novices. The women police have been appointed to deal with delinquent and defective women and children and the new appointees are to receive \$300 more a year than regular men police when they first enter the service.

If the strike should occur the police chief will probably use the new women police as strike breakers by putting them on the beats of the strikers.

Pennsylvania has one automobile for each 150 inhabitants, which is quite a good deal more than the average for the whole country.

They do not provide the proper circulation of air and the result is stagnation, and a dangerous possibility of tainted food. ### SIX CLAIMING TO BE HEIRS OF HOUSTON MILLIONAIRE

Inventory of Property of Rich Recluse is Completed Without Will Being Found

By Associated Press.  
Houston, Texas, June 13.—Temporary Administrators Adrelavan and N. Knight of the estate of F. A. Ogden, the defunct millionaire who died suddenly here last Saturday

might placed the finishing touches to their inventory of the property of the decedent which is to be laid before a conference of the heirs on Monday. Nothing is known of the tentative value placed by them upon the estate. The body of the wealthy octogenarian has been sent to Madison, Wis., for burial. Six self announced heirs have already arrived here. The most careful search among Ogden's effects has failed to reveal a will, although still incline to the belief that one exists.

### REGIONAL BANKS WILL SELECT OWN QUARTERS

Treasury Department Has Nothing to Do With Providing Quarters For Regional Banks

By Associated Press.  
Washington, June 13.—Secretary McAdoo and Controller of the Currency Williams had before them today hundreds of letters from real estate agents and property owners in federal reserve bank cities offering quarters suitable for the twelve reserve banks soon to be organized. In many cases sites were offered for buildings to be erected by the government. The same reply has been made all such offers; the treasury department and members of the federal reserve bank organization committee have absolutely nothing to do with the providing of banking quarters for the new institution. Directors will have control of all work.

The five active members of the federal reserve board and the staff they employ at the treasury department in Washington are really the only persons on federal pay rolls who will have a part in the operation of the twelve new banks. Each bank will pay its own employees and handle its affairs quite as independently of government interference as the ordinary national bank.

### MONDRAGON REFUGEE ON AMERICAN SOIL

Fearing Overthrow of Huerta and Consequences To Himself General Leaves Mexico

By Associated Press.  
Vera Cruz, June 13.—Anticipating the overthrow of the Huerta government and fearing its consequences for himself and family, Gen. M. Mondragon, the elder brother of Gen. Manuel Mondragon, who was president Huerta's first secretary of war, now in Paris, took refuge within the American lines here today.

General Mondragon came from Mexico City. He was assured by Brigadier General Funston that he and his family were free to remain. The Mexican general said he would not be surprised to hear of an uprising within the capital and also that the federal garrison had taken part in it.

Brigadier General Funston in his war on high prices of food, is negotiating with the Galveston Chamber of Commerce regarding the shipment here of a cargo of supplies to be entered free of duty.

### CHILDRESS MAN MAY HEAD REPUBLICAN STATE TICKET

(Childress Index)  
The republican executive committee of Texas was in session at Dallas Monday and selected Waco as the place to hold the state republican convention. This is the regular republicans. The progressives, under the leadership of Cecil Lyon, will meet at San Antonio. The regular republicans decided to put out a state ticket and the probable head of the ticket, that is for governor, will be Hon. E. E. Diggs of Childress. There are several others being mentioned but it is said that Mr. Diggs can have the nomination if he so de-

sires. Of course there is no chance for republican success in Texas so long as the party is split. But laying all jokes aside the republicans could name no man in this state who is better qualified for that position or who stands better among his people. Judge Diggs is known throughout this section of the state as an able jurist, a man who is loved by all and a man who has as few enemies as a man in public life could have. We do not know of Judge Diggs' intentions, whether he seeks the honor or not, but should the republicans endorse him for governor the people of Childress will feel gratified of the honors bestowed upon him.

### WILL PUT UP GRAIN ELEVATOR AT CHILDRESS

(Childress Post)  
The Wichita Mill and Elevator Co., of Wichita Falls will at once begin the erection of a first class elevator in Childress. The new enterprise will be located on the right of way in the Robertson Coal Company's yards and this firm will have charge of the business. The elevator will have a capacity of about 800 bushels and will cost something like \$4,000. The Post is glad to see this enterprise built in Childress as it will be of material assistance in marketing the big wheat crop. Our grain dealers say they propose to pay all the

market will stand for wheat and offer every inducement to get wheat hauled here from adjoining counties. Many years ago Childress had two elevators but when the wheat business declined they became useless, one being burned and the other torn down. Now the builders of the new elevator are of the opinion that more wheat will be planted and that the elevator will serve a good purpose every year for handling maize and kaffir corn. The target on the ground to test the accuracy of aeroplane bomb-throwers is 60 feet in diameter. The 15-pound bombs are dropped at an elevation of 65 feet.

## You are Using Ice for Economy as well as Comfort

### REMEMBER THAT

An ice starved refrigerator, like anything that is underfed, is always inefficient, and frequently unsafe, by reason of its weakness.

Some people think they are practicing economy when they try to work their refrigerators on half rations of ice. Don't make that mistake. Keep the ice box of your refrigerator well filled at all times with OUR ICE. Then you will always have some for sudden calls and emergencies, your food will be kept sweet and wholesome, and you won't worry if the wagon happens to be a little late in coming around.

OUR ICE is so low in price you can afford to use it freely. Don't be penny-wise and pound-foolish in this all-important matter of ice. Refuse to stake your health, your comfort, your pocketbook—your whole well being—on the "saving (?) of a few cents.

## Colors Of Many Kinds To Be Seen In fashion For Hot Weather Wear

New York, June 12.—It is in Paris one sees extreme things that are really not acceptable, it is still true that the recognized French woman of society, whether at home or among her friends, is always gowned in perfect taste. Just how her taste stamps the tailored costume, which has been inspired by feminine grace until it is no longer to be recognized as the tailored suit we used to know, it is the smartest of the smart, and worn with a simple linen blouse, these are worn in the afternoon everywhere. White pique waistcoats, with revers and points that show below an evasive basque, is an attractive method of replacing the blouse.

This is worn with a simple skirt, possibly having a tunic, but always

with a very studied cut which does not hide the silhouette. The sleeves are long and button fairly high, while the shoes to be worn with this type of costume are laced or buckled with simple silver buckles.

The handbags are small and in velvet but no longer in the form of tobacco bags. The umbrellas and practical parasols accompany these costumes; they are in silk of solid colors, usually a smoky gray with a leather handle having a monogram of brilliants. This is typical of the approved tailor costume. And no matter where the woman is who wears this dress she is among the most elegantly costumed of women, even if it is at the Demast.

A string of enormous pearls—the larger the pearls the more correct—is usually worn with this costume. It is also very smart to wear two pearl rings on the left hand, one black and one white—but what quality of pearls—white on the right hand is worn a large sapphire or emerald cabochon—likewise marvelous gems.

The hats are small and are no longer pierced by large hatpins; instead, two little jeweled pins, very short, are placed at each side. This is all that is necessary to hold the small toques and the straight cylinder hats which entirely imprison the head.

The tricorne is an excellent type of hat now in favor. It is very small and fits close to the head; placed crosswise, it is charming with a dark skirt and cape with the bretelles crossing on a decorative blouse. The gloves with this costume should be particularly large and without buttons and long, even if the sleeves of the blouse are also long.

The reign of the pleated tunic has invaded the evening. We see charming dance frocks that sway and swing with the rhythm of the dance in the most graceful manner. One such gown had a new long, gathered straight basque, sleeveless, low cut in front and high at the back where it flared with a Japanese collar effect. This basque was of citron colored tulle, and a ruche of the same tulle passes high over the right hip and knotting just above the knees at the left of the front, falls almost to the ankle in two ends. The underskirt of this frock was of the tulle and over it hung the long pleated tunic of silk voile—a fabric that will have a tremendous vogue this and the coming season.

Most truly feminine are the charmingly dresses which are the vogue this summer. Dainty lace frilled ruffles and lots of them are the only trimming of many summer frocks, while lace, with a capital L, is reigning supreme. In fact, women are surrounded with all the delicate and dainty materials which set forth her points of beauty to the best advantage. Despite the talk that suffrage will masculinize the woman, the nearer she comes to that Yaphan the more feminine is her guise and the more becoming her garb.

There is a delightfully fragile lace called Chinese lace. Quaint pagodas and fierce dragons are worked on a cobweb net and curious lanterns are interspersed with conventional flowers faintly outlined with metal thread. Lace flounces of this kind are worn on evening dresses or afternoon gowns; they are, as a rule, arranged in graduated widths and some of the designs are as original as they are effective.

Irish lace is very little used except for children's dresses, where it still holds sway. The vogue is for embroidered net, and some exquisite summer dresses are covered with flounces and draperies of plain creamy net.

Black velvet belts, girde sashes, short tunics attached to a draped bretelle like waist of black velvet, are worn with tulle and lace draped liberally, charmesse and tulle evening frocks. In the guise of aqua waist-liners, black velvet is invading the realm of the tailored suits. This touch of velvet is tending toward the velvet note that will be struck with such force when next winter arrives—but from now until then, who knows!

Although pique is not being used so much for white dresses this year, it is used a great deal as a trimming for dresses of much sheerer quality. Waists of organdy have collar and cuffs of pique. Gowns, a material that has a striped effect somewhat similar in appearance to pique, with an entirely different finish, however, is also used for collars and cuffs and for other trimmings on waists and entire dresses. Figure 1 is an example of the use of one of these materials. The dress itself is of cotton crepe, with collar, cuffs and waist-coat girde of pique. The double tunics each have bands of pique around the bottom.

The magpie colors, which are, after all, most becoming to the majority of people are coming again to the company taking off two of its passenger trains. In response to protests made on behalf of the people of Frederick, the Leader Saturday received the following telegram: "Oklahoma City, June 6. Northwestern claims road unsafe to operate. Commissioner's engineer will make inspection beginning Monday morning. Result of inspection will be furnished you. J. E. Love."

In my second illustration is a dress made unusually striking by its development in black and white striped

lawn. The bodice has raglan sleeves, with collar and revers of white hem-stitched organdy. The amazingly full skirt has an added ruffle, below the panier of the striped material running lengthwise of the goods. This mode of checking the long line of stripes is especially adapted to the very tall woman.

#### OKLAHOMA COMMISSION TO INSPECT NORTHWESTERN (Frederick Leader)

An inspection of the condition of the track of the Wichita Falls & Northwestern railroad was made this week by an engineer in the employ of the Oklahoma corporation commission. The inspection is made as a result of complaints made to the corporation commission relative to the company taking off two of its passenger trains. In response to protests made on behalf of the people of Frederick, the Leader Saturday received the following telegram: "Oklahoma City, June 6. Northwestern claims road unsafe to operate. Commissioner's engineer will make inspection beginning Monday morning. Result of inspection will be furnished you. J. E. Love."

#### ALREADY HUNTING SALOON LOCATIONS IN COTTLE COUNTY (Quannah Observer)

So cock sure are Wichita Falls whiskey dealers that Cottle county will go wet in Saturday's election that several of them have been out to Lazare this week to secure options on locations for saloons as close to the Hardeman county line as possible. Lazare station is in this county and if Cottle county goes wet, the booze will be carried to the next station, four miles away, but no one ever heard of a few miles cutting any figure in getting whiskey and a couple of gallons of water added to a barrel of red liquor will pay the cost of freighting saloon supplies four miles.

#### WHEAT PRICES WILL DROP TO 78 CENTS

The Wichita Mill and Elevator Co., Saturday handled several carload shipments of wheat from outside points. One of these cars was from Tipton, Okla., and the other from Manitou, Okla. The local elevator handled a considerable quantity of wheat Saturday. The quality of all wheat received so far has been good. Wheat on one of the farms where threshing is in progress is reported to be turning out at the rate of 25 bushels an acre. Notices have already been sent out that the quotation on wagon wheat next week will be 75 cents a bushel. This price will prevail at most of the shipping points in this section.

Austin, Texas, June 13.—Commissioner of Insurance and Banking Collier today received a telegram from Amarillo advising that the court of civil appeals had reversed and rendered the case of E. L. He will now proceed to assess these stockholders, the total amount being \$50,000 which money will be used to reimburse the guaranty fund.

**ANOTHER ADVENTURES OF KATHLYN PICTURE**

The ninth installment of "The Adventures of Kathlyn" entitled "The Spellbound Multitude" will be shown Monday at the Majestic. The story is as follows:  
Kathlyn's sister, Winnie, has been crowned Queen of Ailaha, to serve the sinister purpose of the scheming Umballah. By forced marches, Kathlyn, her father and party, reach the city and secure admission to the Coronation ceremony, disguised as animal trainers; but they are powerless to do anything other than observe and plan such action for the immediate future as fertility can suggest. After the ceremonies are over, the little party return to Col. Hare's headquarters and immediately start plans in train for the rescue of Winnie—Kathlyn plans to gain entrance to the royal harem, where Winnie is known to be held as a prisoner. This she expects to do by having Winnie feign sickness and insist upon sending for a female physician. Kathlyn secures the dress of a practitioner, is admitted to the harem and eventually starts to smuggle her sister out and escape through the garden. This seems practical until the suspicious Umballah finds that the physician is none other than Kathlyn herself. He orders her to be immediately seized and confined as a pris-

oner in another room of the harem and held until the conclusion of the festival of the Juggernaut.  
The big feature of this festival is an enormous car containing the effigy of the dreadful idol, that is rolled along, crushing devotees in its path as willing human sacrifices. This gigantic car is trundled along on its way toward the Sacred River, but night coming on, the High Priest and his tolling acrobats are forced to leave the big fabric at the top of a hill. Umballah learns of this and conceives a fiendish plan for driving poor Kathlyn into the earth and everlastingly ending her power to thwart him. He secretly has the heroine taken out of her harem prison and then has her staked down in the path of the car. Happily the keen-eyed Punita has overheard the plot, and she at once informs Col. Hare and Bruce. They rush to the rescue cautiously, but without delay. The staking party have no sooner completed the work and run away in the darkness to start the car on its horrible journey, then Bruce and Col. Hare arrive and pull out the stakes, just as the great car comes crashing down the incline, crushing everything in its path.  
Umballah, on investigation, finds that his plan failed and fearing the rifles of Col. Hare's party, slinks back to the palace purple with rage. His most carefully laid plots appear to go awry and with death in his grasp he seems destined to be continuously routed of revenge. However he has Winnie and that is currently savage satisfaction to him.  
The next scene shows the great Arena in gala decoration, crowded with royalty and the people of Ailaha. It is the greatest affair since the Coronation and attracts a vast throng. Lions, tigers and leopards are shown in the great domed cage and then allowed to run freely through the big arena, and are finally put through their paces by trainers, giving a remarkable exhibition. Then Kathlyn appears garbed as a trainer. A woman trainer is something new to that locality and when Kathlyn appears in this guise, she is wildly applauded by the people. She agrees to face the savage carnivora and make them perform, provided that the Queen of the day be allowed to stand by her. This personage, of course, is her sister, Winnie, and she imperiously demands the right of a Queen to do as she pleases. She, accordingly, descends from the royal box by a rope ladder into the arena. Umballah is furious, as usual; but concludes to end it all by turning all the hungry lions loose in the arena.

**GET THIS BOOKLET**  
A Revelation of Real Automobile Values

You no longer have to pay a fancy price to get the very highest type of Four. The Detroit booklet,—yours for the asking,—tells the facts about motor car values. It shows how power and strength,—the two big requisites—*together with comfort and beauty, can be built into a car for less than a thousand dollars. You will appreciate every word, for it is just good, hard common sense, based on three seasons' experience in making a car that has proved the most remarkable automobile ever designed for hard work and lots of it. Why not drop into our sales-room, or send us your address on a postcard, for a copy with our compliments?*

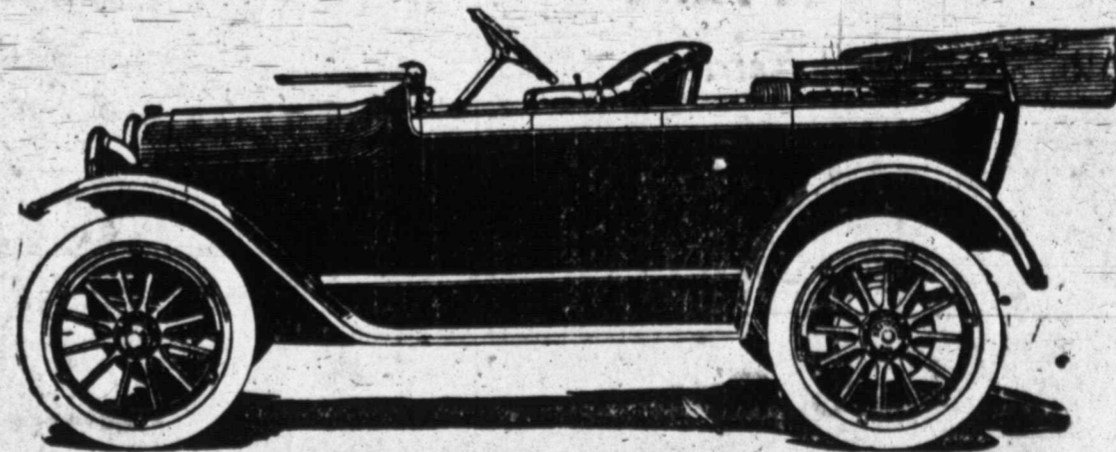

Facts, and not claims, back up the Detroit. The big fact—the one that means everything to you in your search into automobile values—is this: A record covering the twelve months from January, 1913, to January, 1914, and embracing every car in operation (not a chosen few) shows that THE THOUSANDS OF DETROITERS NOW IN USE AVERAGE ONLY \$3.81 PER YEAR AVERAGE FOR REPAIR PARTS.

Another fact: Money can't buy a handsomer design. Not another car in America has the Detroit lines—the charming sweep of the perfect "Venus curve," back from the bull nose radiator and up to the crest of the dash where all the control switches are located at your finger tips. Crowned fenders melt away the old-stoyle angles of the guards. The

belled back, the lighter blue "gunwale" stripe against the raven-blue of the body, the nickel of one-piece windshield and lamps, and the six-inch upholstery, make a combination never before attained in any save the most expensive cars.

Yet looks are not the most important consideration. The Detroit is the best car for you because it was designed primarily for hardest wear, with a view to correcting the four weaknesses that other popular-priced cars had shown when subjected to steady use. The Detroit rear axle is designed to withstand one ton of overload; the 32-horsepower motor balks at no sand, mud or hills; the platform spring suspension makes shock absorbers superfluous; the big brakes laugh at emergencies.

All is described in the free booklet that is waiting for you. Or better yet, get an actual demonstration.

### Mrs. George Bass Stands Chance Of Being Elected President Of Women's Federation At Chicago

MRS. GEORGE BASS

Chicago, June 13.—Mrs. George Bass, chairman of the local committee in charge of the biennial convention of the General Federation of Women's Clubs now in session here, may be a candidate for president. She may win because she is an ardent suffragist. Suffrage is the big question of the convention. According to custom, Mrs. Percy V. Pennybaker, president, is entitled to re-

selection, so as to carry out her policies, but she is not regarded as a suffragist. If Mrs. Bass should be elected it would break another precedent, for it is an unwritten law that no president shall be elected from the city in which the convention is held. In any event Mrs. Bass is one of the prominent figures of the sessions, which will end June 17 and are being attended by representatives from all over the country.

### WICHITA FALLS READY FOR EDITORS

PLANS COMPLETE FOR ENTERTAINMENT OF TEXAS PRESS ASSOCIATION

### WILL OPEN THURSDAY A. M.

More Than Three Hundred Editors and Their Ladies Expected to Attend

Practically all plans for the entertainment of the Texas Press Association which meets here this week have been completed and it now remains for the citizens of Wichita Falls to put the spirit in a welcome that will make the 1914 meeting of the Texas editors one long and pleasantly remembered.

The vanguard of the editors will reach here Wednesday afternoon. This will comprise the officers of the association, some of the members and representatives of Corpus Christi, Beaumont and other cities which are seeking the 1915 meeting of the convention. The larger number of the editors are expected on the night train Wednesday night. The opening session of the convention will be held at 9:30 Thursday morning.

Garden Party For Ladies. Thursday afternoon the visiting ladies will be the guests of the United Clubs of the city at an informal reception at the Elks Club. The day evening while the ladies are being entertained with a garden party at the home of Mrs. J. A. Kemp the gentlemen will be entertained with a smoker at the Elks Club.

Trip To Oil Field. Friday at 1 o'clock the visitors will be taken in automobiles to Petrolia where they will see the oil field and the big gas wells. Arrangements have been made to run one of the big gas wells loose just to show the editors what a real big gas well looks like. The trip to Petrolia will be made down the river, and the return by the other route. Returning the editorial party will be driven directly to the lake where a banquet will be ready. An informal program of toasts is being arranged for this banquet and it will be followed by a ball at the lake pavilion. The banquet will be served by the members of the Civic League.

The business sessions of the convention will probably be ended in time for those who wish to do so to catch the afternoon trains Saturday for their homes. Those who remain will be entertained informally.

Hotels Prepared. This in brief is the outline of the

entertainment plan. What is expected to be one of the features will be the entertainment of the ladies who attend the convention. Wichita Falls ladies have determined to extend to them a hospitality that will more than equal that of the men of Wichita Falls. Reception committees are being appointed to meet the ladies at the trains and at the hotels and help make every minute of their stay delightful.

One of the requirements yet unfulfilled is the offer of automobiles for the trip to Petrolia on Friday. It is estimated that fully 150 automobiles will be required and Secretary Millie is anxious that those owning automobiles who can furnish them for the trip communicate with him at the earliest opportunity.

Large Attendance Expected. Indications point to a large attendance at the convention as all the editors have heard of the fame of Wichita Falls and have been looking forward to the meeting here with pleasurable anticipation ever since it became known that the 1914 meeting would be held here. It is estimated that fully 200 editors, their wives and members of their families will be in the city for the convention.

The hotels are well prepared to handle the visitors but if they should become crowded many private homes will be opened to the visitors.

### "OUR MUTUAL GIRL" AT THE VICTORIA THURSDAY

Another installment of "Our Mutual Girl" will be shown at the Victoria Thursday. An advance notice says:

In reel 15 of "Our Mutual Girl," Margaret an dher aunt spend the morning in the office of the Tribune at 154 Nassau street, New York. Entering the editorial rooms they are escorted by the managing editor into the art department where they find Briggs, the cartoonist at work. Mr. Briggs, famous from coast to coast as the author of the series of cartoons entitled "The Days of Real Sport," draws "Our Mutual Girl" as she sits talking with him. While Mrs. Knickerbocker looks on approvingly, Franklin P. Adams, who signs his initials "F. P. A." at the bottom of his daily "column of persiflage" in the Tribune and who is the author of that scintillatingly clever, volume of verse, "Tobogganing on Paranasus," interrupts the chat and is introduced to Margaret an dher aunt. Mr. Adams professes not to like the cartoon Mr. Briggs has drawn of Margaret, but "Our Mutual Girl" quickly puts him in good humor.

Later in the afternoon, Margaret and her aunt visit "Castle House" in West Forty-sixth street, where Mr. Adams professes not to like the cartoon Mr. Briggs has drawn of Margaret, but "Our Mutual Girl" quickly puts him in good humor.

That evening she goes upstairs to her apartment in her aunt's home and is terrified to find a burglar ransacking her bureau drawers. Her frank heart to heart conversation

with the burglar man, however, induces him to tell her his life story. Margaret learns that he has a sister who is being forcibly detained in an East Side dance hall and she leaves her home at once with him and succeeds in inducing the girl to give up her associates.

SHIPS BINDER BY EXPRESS HENRIETTA TO QUANAH (Quanah Observer) The plug this afternoon was marked up 45 minutes late. The condition is due to the fact that the J. D. Carroll Company ordered two grain binders to be shipped from Henrietta by express, and the loading of them into an express car took considerable time. The urgent need of the binders by express may be judged from the fact that it cost about \$17.45 to bring each of them to Quanah from Henrietta.

### BIRTHDAY OF FLAG TO BE CELEBRATED

APPROPRIATE OBSERVANCE OF DAY IS PLANNED IN THIS CITY TODAY

### TO HOLD SPECIAL SERVICES

Sunday Schools Will Take Part in Honoring Emblem—Dr. J. L. McKee To Preach

Today is the birthday of the flag, the Stars and Stripes and as such will be observed in a fitting manner. The custom of observing Flag Day is a comparatively new one to this community and through the efforts of the Major Francis Grice Chapter of the Daughter of the American Revolution some slight Flag Day exercises will be carried out in every Sunday school in the town, including the mission schools and the national hymn, "America," will be sung.

In the evening special services will be conducted at the First Presbyterian Church under the auspices of the D. A. R. Dr. J. L. McKee will preach a sermon on "The Flag." Mrs. Fred Thompson will sing "The Star Spangled Banner" and Mr. Rogers will also sing.

The daughters wish to urge that every citizen display a flag on his home and that all possible attend the services.

SOME WILBARGER WHEAT AFFECTED BY BLACK RUST (Vernon Record) In certain localities of the county, the continued rains of two weeks ago caused black rust to enter a num-

ber of the wheat fields and the result is that the yield will not be as large in the infected districts as was at first expected. We are told that the 30 bushel prospect of two weeks ago in some instances will probably be cut down to 15 or 20 bushels. Of course this is not general and the county will yet harvest a large wheat crop. The Record's estimate for the county is 20 bushels, notwithstanding that some of the best informed planters place the figures as low as 15 to 18 bushels.

### SLEEP DISTURBING BLADDER WEAKNESS BACKACHE-RHEUMATISM, QUICKLY VANISH

Even Most Chronic Sufferers Find Relief After A Few Doses Are Taken

Backache, urinary disorders, and rheumatism, are caused from weak, inactive kidneys, which fail to filter out the impurities and keep the blood pure, and the only way on earth to permanently and positively cure such troubles, is to remove the cause. The new-discovery, Croxone, cures such conditions because it reaches the very roots of the disease. It soaks right into the stopped up, inactive kidneys, through the walls and linings; cleans out the little filtering cells and glands; neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles to scratch and irritate and cause rheumatism; it neutralizes the urine so it no longer irritates the tender membranes of the bladder, and cleans out and strengthens the stopped up, lifeless kidneys so they filter and sift all the poisons from

the blood, and drive it out of the system. So sure, so positive, so quick and lasting, are the results obtained from the use of Croxone, that three doses a day for a few days are often all that is required to cure the worst case of backache, regulate the most annoying bladder disorders, and overcome the numerous other similar conditions. It is the most wonderful preparation ever made for the purpose. It is entirely different from all other remedies. There is nothing else on earth to compare with it. It is so prepared that it is practically impossible to take it into the human system without results. You can obtain an original package of Croxone at trifling cost from any first-class drug store. All druggists are authorized to personally return the purchase price if Croxone fails to give desired results, regardless of how old you are, how long you have suffered, or what else has failed to cure you.

### GETS DEGREE OF DOCTOR OF DIVINITY

SIGNAL HONOR CONFERRED ON REV. J. W. HILL BY SOUTH WESTERN UNIVERSITY

### TO BE CONFERRED TOMORROW

Will Go To Georgetown For Ceremony—Thirty Years in North Texas Conference

Dr. J. W. Hill received a telegram from the Southwestern University at Georgetown Saturday notifying him that he had been elected to receive the degree of doctor of divinity from that institution. The telegram requested that Dr. Hill be at Georgetown Monday morning for the ceremony. He will leave this afternoon for that place. This honor comes as a surprise to Dr. Hill who had not solicited it and is therefore all the more pleasing. Dr. Hill's friends here and all over the North Texas conference will be pleased to hear of this honor coming to him. The recipient has been a preacher in the North Texas conference more than thirty years and during those thirty years has filled all the more important stations in the conference. He is now in his third year in Wichita Falls and is well beloved not only by the members of his own church but by all the people of the town.

Has Had Many Honors. Dr. Hill has been honored many times by the conference but this honor is one which he prizes probably higher than any. For two years he was editor of the Texas Christian Advocate and several times he was a delegate from the North Texas conference to the general conference of the M. E. Church, South. He was a member of the general board of missions of the church for four years and for the last eight years has been a special lecturer at Southwestern University at Georgetown.

Dr. Hill was notified of his latest honor by the following telegram: "Rev. J. W. Hill, Wichita Falls, Texas. The faculty of Southwestern University has recommended and the board of trustees has decided to confer upon you the degree of doctor of divinity. It will be necessary for you to be present at 10 o'clock on Monday morning. Please wire at once." "R. S. TINSLEY, Secretary of the Faculty, Southwestern University."

### MUCH WHEAT COMES TO LOCAL ELEVATORS

FIRST TO FINISH THRESHING AVERAGES OVER TWENTY BUSHELS

### TEST CLOSE TO SIXTY POUNDS

Eighty Cents Per Bushel Is Being Paid Here—Crop Is Nearly All Harvested

Several thousands of bushels of wheat of the 1914 crop have already been marketed in Wichita Falls and local elevator men are preparing to handle a big rush of wheat this week. The first farmer in this section to finish threshing, so far as can be learned, was A. Bartel, who lives east of town. Mr. Bartel's crop averaged between twenty and twenty-two bushels per acre and graded No. 2. He had counted on an average of fifteen bushels per acre so his surprise at a bigger yield was very agreeable. Among other farmers marketing wheat Friday and Saturday were H. F. Hazeman, Henry Musgrave and F. M. Keller. Only one load of wheat marked so far has tested less than fifty-nine pounds and this load tested fifty-eight and one-half pounds. Some of the wheat that has been marketed has tested sixty-one pounds.

Good Milling Demand. Eighty cents per bushel continues to be the quotation for wagon wheat here. This is three and a quarter cents above the price the export price warrants and is due to the demand from Texas millers. Exporters are paying 85 and three-fourths cents a bushel for wheat delivered at Galveston. The freight amounts to nine cents a bushel from this section of the state which would make the market here seventy-six and three-fourths cents. The milling demand makes the difference and dealers say that as soon as the demands of the Texas millers are supplied the price will drop unless there is a raise in export price which few think probable in view of the fact that the country's crop is the largest ever grown.

Provide Plenty of Sacks. There are more threshing machines in the country than ever before and there is a prospect of a big rush of grain on the market within the next week. The only thing except weather conditions that will prevent will be enough teams and men to haul the crop into market. Several carloads of sacks are coming into local elevators so that the lack of teams and men will not be felt so keenly as at some other places where the supply of sacks is likely to be short and where they have no elevator to store the grain previous to shipping. At such points the railroad will be expected to furnish cars for the wheat as it is hauled in from the threshers. The task is a big one but the railroads have been preparing for such a rush for weeks and have a big supply of empties on hand.

Is Nearly All Cut. Most of the wheat in this section is in the shock, it being estimated that only between ten and twenty per cent of the crop in Wichita county is still standing. Binders will run again today in many fields. The grain left standing is now dead ripe and ever hour of delay in getting it into the shock is an added risk.

### DON'T MISTAKE THE CAUSE

Many Wichita Falls People Have Kidney Trouble and Do Not Know It. Do you have backache? Are you tired and worn out? Feel 'cray, nervous and depressed? Are the kidney secretions irregular? Highly colored; contain sediment? Likely your kidneys are at fault? Weak kidneys give warning of distress. Heed the warning; so don't delay—Use a tested kidney remedy. Read this Henrietta testimony: V. M. Skipwith, retired farmer, Henrietta, Texas, says: "Some years ago I suffered from pains in my sides and across my back. My kidneys were weak and I had to get up frequently at night. So many people had such good results from Doan's Kidney Pills that I tried them and was completely cured. You can add my endorsement to the many you already have for Doan's Kidney Pills." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Skipwith had. Foster-Milburn Co. Props., Buffalo, N. Y. (Advt.)

### IRISH LADS AND BLACK CATS IN TIE FRIDAY AFTERNOON

Honors are Even in Exciting Game at Twilight League Park—Two Games This Week

Seven innings of red hot baseball at Twilight League park Friday evening left the Irish Lads and Black Cats tied up with a four to four score. It was a hotly contested game, both squads fighting every inch of the way. The Cats started briskly, scoring three runs in the first two innings. In the fourth, the Lads came back and tied the score. There was no more scoring until the extra inning was reached, when each scored once and darkness ended the game. The team will meet tomorrow for the play-off. There was considerable of a wrangle in Friday's game, but the best authority available indicates that Umpire Gressett was correct. With Collier on third and Thomas on second for the Lads a grounder was hit to short. Both base runners started to advance and the ball was fielded to the plate. Collier returned to third, but in the meantime Thomas had gone to third from second; he

## The Possession of a Cadillac Means More Than Merely Owning An Automobile

The purchaser of a Cadillac does not purchase merely an automobile. Those who are within the world of Cadillac ownership are within that world because they demand and because they receive something more. The Cadillac is not merely a means of locomotion. Any automobile will furnish that. Cadillac owners will tell you that merely an automobile does not provide the same peculiar pleasures, the same definite advantages and the same unique delights which the Cadillac affords. They will tell that riding in an automobile is one thing. But that motoring in a Cadillac is quite another. It may be true that the man who drives an automobile is not conscious of the difference. But the Cadillac owner knows the difference and anyone will discover that difference, and enthuse over it, immediately, when he rides in the Cadillac. The purchaser of a Cadillac does not purchase merely an automobile. What he does purchase is an abundant measure of the satisfying and enjoyable things which only the highest type of motor car can provide. He purchases that care-free state of mind—without which, motoring loses much of its fascination. He purchases the maximum in scientific development, which contributes to his ease, to his comfort, to his luxury, to his convenience, to his contentment, and to all of those things which can contribute to the charm of motor car ownership.

## EXECUTIVE COMMITTEEMEN CANNOT DELEGATE DUTIES

Must Serve in Person According To Ruling Today By Attorney General's Department

By Associated Press. Austin, Texas, June 13.—The attorney general's department held today in a ruling given the county attorney of El Paso county that executive committeemen cannot legally delegate their duties, by proxy that the practice of seating proxies often leads to confusion and should not be encouraged, even though sometimes permitted by party wages. Assistant Attorney General Keeling who wrote the opinion, insists that these committeemen are in the effect elected by the people and to perform certain official duties which cannot be delegated to anyone else. This means that all county and other executive committeemen must attend all meetings in person or their votes will not be counted.
