London, July 29.—Reports of the massing of armies in strategic positions came from all points of Europe today, but no actual clash of opposing forces was reported here. Diplomats concentrated their attention on efforts to confine the war to Austria-Hungary and Servia. The two nations immediately concerned in the quarrel, and the attitude of the German and Russian empercrs was closely watched, owing to their near relations to the

Premier Asquith referred to the international situation in the House of Commons, but all the information he was able to impart

was contained in a few words. "The situation at this moment," he said, " is one of extreme

gravity, and I can only say the British government is not relaxing its efforts to do everything in its power to circumscribe the nature of the conflict. The British government has received no information of an alleged revolutionary outbreak in Russian Poland." Austria-Hungary and Servia resounded today with the march on the work of education in prepara of troops towards positions of attack and defense, while military tion for another fight two years from aviators on both sides flew along the frontier in an effort to discover their opponents' positions. No idea of the campaign could

be obtained by the general public, however, owing to the rigidity of the censorship. It was known that the Austro-Hungarian government had requisitioned the entire train service. It was gleaned from dispatches from Servian points that the

County Attorney-Greenwood, 872; Martin, 828; Blankenship, 821.

A number of new faces will appear in the official family of Wichita County after the November elections, the completed returns from this county bearing out the indicated results as pub-Hawkins for sheriff and Bruce Greenwood for WHSON'S county attorney, widened their narrow leads and are winners.

A new district judge, county judge, county Acts of Administration les chariff to the county in the c clerk, sheriff, tax collector and constable result from Saturdays primary, many changes being from Sunday's Dally.

Although it was thought Sunday that this county had recorded a majority for submission, complete returns show that the proposition was of them was whether they were suplefeated by 104 votes. Ferguson has a majority f 370 in the county and a plurality of 357. Hobby or lieutenant governor also received this countys ibstantial support and in general Wichita counwas in line with the state at large.

In the district offices, it appears that Judge curry has been defeated by Joe Akin of Graham or district judge: State Senator W. A. Johnson as probably beaten R. H. Cocke of Collingsworth ounty; Judge Buck is reported leading Judge beie Speer for the court of civil appeals by a safe or representative E. P. Haney has been elected, the precinct conventions over the county were not available early last night there is little doubt but that is indicated Saturday night, carrying every box in the two counties except three.

The race for sheriff was one of the most interesting in this county and Hawkins, with all returns in, has a plurality of only sixty-one votes over his nearest opponent, Pete Randolph. Ran Cox and G. H. Carpenter were selected as the delegates and the following votes behind Hamiltonian and a lower point of the control of t four votes behind Hawkins, and eleven votes covered Randolph, Burns and Gwinn.

Harvey Harris' final majority was 393 votes. which was somewhat above expectations.

Complete returns for county attorney give Bruce Greenwood the narrow margin of fortyfour votes over Bernard Martin, who was second man, while J. M. Blankenship was only seven votes behind Martin, making it a neck-and-neck action in the conduct of the affairs of affair.

Final figures on the other races make no change in the standing of the various candidates.

Will Probably Be Congressmen At Large—Hobby Still Leads For Lieutenant Governor

Figures compiled at noon today from 220 counties show:

Submission—For, 107,589; against, 116,841. Governor—Ferguson, 197,346; Ball, 161,045. Lieutenant Governor-Hobby, 135,312; Sturgeon, 124,978.

The lead of J. E. Ferguson of Temple for the democratic nomination for governor continues to increase as additional returns come in, and figures compiled at noon today show him ahead by more than 36,000 votes, which leaves little doubt as to his victory. It is predicted that final figures will give him a plurality in excess of 50,000.

The defeat of the submission proposition is also indicated by the latest figures, it now being more than 9000 votes behind with the greater part of the vote accounted for. Late figures have increased the likelihood of the election of William P. Hobby of Beaumont as lieutenant governor, over B. B. Sturgeon of Paris.

in the other state races the results seem to be determined as indicated above.

In the race for congressman-at-large, it appears certain that Jeff McLemore of Houston, newspaper man, political writer and for many years a picturesque figure in Texas politics, will be one of the nominees and at this writing it seems very likely that J. H. (Cyclone) Davis of Sulphur Springs, ex-Populist and an even more picturesque figure than McLemore, will be the other. W. P. Lane is not far behind, however, and may be one of the nominees.

Vienna, Austria, July 28.—Formal declaration of war on Servia was made by the Austrian government today.

Reports have been received here of the active movement of both Servian and Montenegrin troops, which are in close touch at Triboj near the frontier of Bosnia.

The actual cause of Austria-Hungary's de-cision to enter into hostile conflict with Servia was the reply sent by the Balkan state to the note from Vienna demanding that Servia take steps to put a stop to the Pan-Servian propaganda on Austrian territory and also punish those Servians indirectly concerned in the assassination in Bosnia on June 28 of Arch Duke Francis Ferdinand, heir apparent to the Austro-Hungarian throne.

The text of the declaration of war follows: "The royal government of Servia not having replied in a satisfactory manner to the note remitted to it by the Austro-Hungarian minister in Belgrade July 23, 1914, the imperial and royal government finds itself compelled to proceed itself to safeguard its rights and interests and to have recourse for this purpose to force of arms. Austria-Hungary considers itself from this mo-ment in a state of war with Servia."

# Powers Decline To Aid England

London, July 28.—Announcement of the declaration of war by Austria-Hungary, on Servia, came today almost immediately after Germany and Austria had notified Sir Edward Grey,

It was presumed here that the efforts of European nations now will be directed toward localDanube, says the Servian parliament after a proCarbajal envoys, who were expected izing the area of hostilities.

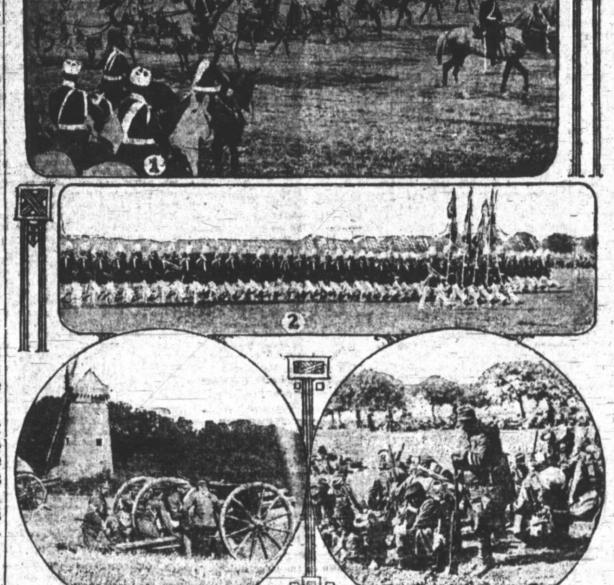

The refusal by Germany and Austria-Hungary to participate in a mediation conference on the Austro-Servian conflict, reports of the rapid movement of Austro-Hungarian troops and the persistent downard trend of European stock markets, were the outstanding developments of the European situation today, when news of Austria's declaration came.

Preparations for war proceeded on all sides. Even England's battleship squadron has been mobilized in readiness for eventualities and the publication of official news as to the movements of British warships has ceased. Additional election figures today cause no changes in results as previously announced, but tend to increase the majorities already shown for Ferguson for governor, Hobby for lieutenant governor, and against submission. The race between Davis and Halbert for commissioner of agriculture, which was a very close contest, now appears definitely decided in favor of the former.

From Tuesday's Daily A friendly scuffling match landed two men in the city court this morn-ing one with a bad cut on his head and the other with a badly bruised army. From a scuffle the contest turned into a short tearing affair in which both of the participants lost their tempers and finally one of them seized a monkey wrench and struck the other on the head. The other then selzed the wrench and struck

his opponent on the arm. Friends separated them and the olice took both to the city hall. The trouble took place at the corner Seventh street and Ohlo avenne yesterday evening. Both plead guilty to

Berlin, July 31.—A decree proclaiming martial law and the prohibition of publication of news of the movement of German troops and war material was issued today. The proclamation announces military measures on the frontiers, the armed protection of railroads and the restriction day on account of the European situation. The Consolidated Stock of telegraphic postal and railway services except for miltary purposes. The German foreign offices gave assurances this morning that no mobilization order would be issued in Germany today.

The German federal council today issued a decree prohibiting exports of grain, flour, food stuffs, meat, animal products, automobile trucks, motorcycles, petroleum, coal tar and coal oils. This goes into effect immediately.

There was no break in the war cloud over the European horizon and no relief to the almost despairing uncertainty existing in the German capital. Today was expected to bring the decision gated for martial law, all thought that armed conflict could be the only outcome. Government officials refrained from making any definite declar- WELL ON WAGGONER BROS. ations. They preferred to wait the exhaustion of all resources of diplomacy.

The issue of an order for the mobilization of the German forces, it was understood would be tantamount to a declaration of war. It was admitted the situation had become worse during the last twenty-four hours.

The fact that both Germany and France issued official denials of their intention to mobilize was regarded as a sign that everything possible was being done to avoid a clash.

would start Friday, August 7 was not made through the press until today rumors to this effect were current among railroad men here last night. While local engineers and firemen do not discuss their plans publicly they do not hesitate to say that they will go out when the order comes. Such an order they say is certain unless the railway general managers accede to their demands.

Both Sides Ready.

While no statement has been made t is believed the engineers will quit simultaneously on the ninety-eight railroads affected. It is believed that ooth the railway managers and the enginemen will co-operate in an effort to have all engines and trains nto division or terminal stations at the hour when the order takes effect It is believed also that the railroads as soon as it is seems a strike is nevitable will declare an embargo on all freight effective simultaneously with the strike.

Both the engineers' and firemens' rganizations here are said to have voted almost unanimously in favor of he strike when a vote was taken bout a month ago. More than ninetyeight per cent of the firemen and engineers over all the lines affected voted to strike, it has been announced.

Much Traffic Threatened. The strike, if it comes off, will find

Nearly two hundred engineers and the lines in the Southwest with the practically the same number of fire heaviest truthe in their history resulting from the unprecedented grain This is especially true here, Sunday having been the heaviest day ita Palls & Southern rallways are ever known here for the Fort Worth ordinarily heavy on all the roads.

er will give in but both are apparently ready to make a stand. Some be leve that the railroads see in the threatened strike a favorable oppor tunity to make a stand against the demands of their employes in view of the fact that they have asked for federal mediation which the engineers and firemen have refused to accept Those who believe this say that the refusal of the employes to accept mediation will throw public sympathy with the railroads at the outset Others declare that public sympathy s one the side of the employes and that even if the railorads permit a strike to start it will not last more han a week until they will be forced to meet the demands of their men.

Would Mean Complete Tie Up. So far as is known the rallroads have made no preparations for man ning the engines in case of a strike and a complete tie up will result of both passenger and freight traffic. The federal government doubtless would demand the operation of mail trains. Some believe that in case of would take over the operation of the rallways.

There are all kinds of possibilities from the strike which will be one of he most serious ever known in the United States if prolonged.

## Momentous War Measures Taken By Both Russia And Germany

By Associated Press.

London, July 31,-The momentous announcement was made today by Premier Asquith in the House of Commons that Russia had proclaimed the general mobilization of her army and fleet and in consequence martial law had been proclaimed in Germany and general mobilization in Germany would follow. A central news dispatch from Berlin says the Russian troops

today blew up the frontier railroad bridge of the Warsaw-Vienna railroad. A dispatch to the news agency from Paris says telephonic communication between France and Germany has been interrupted since four o'clock this afternoon. Announcement of resumption of the "conversations" at St

Petersburg and Vienna came today when pessimism had taken possession of all Europe. The news was offset later by the proclamation of martial law in Germany, regarded as a preliminary mobilization of the German forces for war.

Everybody then apparently awaited news that the great European powers had declared war. There was nothing to give the public hope that a general war might be averted. The stock exchange in London and the big provincial cities and those on the continent were closed owing to the breakdown of the credit system, which was made complete by the postponement of the Paris settlement. This, it was pointed out, would necessarily be followed by the failure of some fifty members of the London Stock ex-

ROWENA CIRCLE MEETING WITH MRS. COLEBURNE

The Rowena Circle of the Brother-hood of American Yoemen met in very pleasant session Thursday after-noon with Mrs. Coleburne, the meeting being postponed from the usual meeting date on account of the ban quet given at Electra on Wednesday For various reasons the attendance was rather funited but a very good meeting was held. The usual business was taken up and discussed in order and an enjoyable social session followed in which time Mrs. Coleburne proved her value as a hostess. Deicious ice cream, cake and iced watermelon was served, proving a fitting climax for the delightful afternoon.
The Circle will meet next August 12 with Mrs. R. S. Dunaway.

Six of the nine Industrial Workers of the World who attempted to hold a meeting in Tarrytown, N. Y., in May to charge, in inflammatory language, John D. Rockefeller, Jr., with responsi-bility for the bloodshed in the Colorado mines were convicted Tuesday and sentenced to a uniform sentence of two months in the New York penitentiary. Intelligent people who recognize that labor has just cause for grievance in respect to both wages and conditions under which it is performed can not afford to waste symto above. Their methods are anarch istic, and the American people do not have to settled their problems by any form of agitations that smacks of an archy.-Houston Post.

Mr. Ferguson's call to the Democra of Texas for a hearty endorsement of wheat and flour, and why it is so much slower in advancing here than in other markets.

OLD SETTLER, the overwhelming victory for the William of the overwhelming victory for the will be the overwhelming victory for the victory for the will be the overwhelming victory for the will be the victory for th fair and an unquestioned interest in the welfare of the party nationally. We are glad to find that the next Govrnor of Texas feels as he does about leader of our great party.-Abi-

Owing to the war clouds and declar ation of war in Europe, there has been some apprehension on the part of the people of the United States that this country would be drained of its gold supply, but on this point Secretary of the Treasury assures the people of the United States there is no occasion to be alarmed on that point. According to his statement there is over \$1.250,-000,000 in gold coin and bullion stored in the Treasury vaults, and about \$600,000,000 coin in circulation. Therefore the tremendous shipments of gold to Europe is causing no uneasiness whatever to the administration. There never was a time when this country was in better shape to ship to gold. It is also pointed out that while Europe just now is drawing tolerably much on our gold supply, it will come back to this country shortly in pay ment for the vast quantities of food supplies this country is being called upon to furnish Europe.

The result of Saturday's primary has added to Gov. Colquitts's cap a few feathers, and two years hence he no doubt, will be a candidate for the United States Senate. Congressman Henry of the Waco district will also be a candidate, as will Dr. Brooks of Baylor University, and probably ex-Governor Tom Campbell. The law governing senatorial primary elections in Texas is different from that of the regular or state primary election for the selection of state officers. In the senatorial primary the nominee is required to secure a majority of the votes cast. If there are more than two candidates, it is not likely that anyone of them will secure a majority at the first primary election, and in that event, all but the two candidates receiving the largest number of votes drop out, and another primary election will be held one month later with but the two leading candidates in the contest. Of course, if Senator Culberson decides that he wants the office again, that may make a difference, and it will not make much difference how many candidates there may be, the great confidence the people of Texas have in him will be sufficient, it is now thought, to give him a clear ma-195

The act is an interesting one, clean and humorous and a clever special setting adds much to the act which will be repeated tonight and Saturday. In today's pictures Bob Leonard and Hazel Buckham are featured in a two ree! Rex. "A Law Unto Himself." The settings and atmosphere are true to the crowded quarters of our large cities and to Italy. Leonard plays the part of the detective and Haze' Buckham takes the part of the Italian wife and daughter.

George Chester is found murdered. Detective Bob Steele, detailed on the case examines the body of deceas-ed and finds in his hand a locket with the picture of a woman. He visits the Italian quarter and there discovers a girl, the counterpart of the picture in the locket. She takes him to her home. The detective meets her father and shows him the locket The Italian claims it. Steele is about to arrest him when the accused man leads permission to tell of his courtship of Maria back in Italy, the marriage, of the coming of George ter. The result was that the inhabit-chester into their life, of his wife's ants began dying of thirst and famine falling in love with the rich American and begged the elders to surrender to and of her running away with him, leaving the flusband alone with their little girl. He tells of his wife's being deserted by Chester, and of her return home and of her death. He return home and of her death. He then relates his coming to America, where he earned a livelihood as an organ grinder. Then comes the time when he sees Chester and of his biding the time until nightfall, when he entered the house through a window confronted Chester with the locket wife. He tells how they grappled and how he killed Chester. His story fin ished, the old Italian breaks down and falls over the table dead. tion, "Judith of Bethulia" featuring Blanche Sweet is showing here to-day. It is a Biblical picture and as such will interest many who otherwise have very little interest for pictures By reason of it's splendor and corgeousness it will interest others This is a picture for all. According to the apocryphal story, the Children of Israel had fortified the hill pass ages by which any invading army from Assyria would be obliged to en-ter into Judea. The principal of these fortified places was Bethuin. It is related that Nebuchodonaser sent Holofernes, chief captain of his army with one hundred and twenty thous earth. When he came to Judea, he met an unexpected defense by the Jews of Bethulia. He stormed the walls but was unable to capture the city. He then sat down to starve it into submission, having taken sion of all the springs and wells from which the city had its supply of wa-

the enemy.

At this juncture, Judith, a devout wider of beauty had a vision from the Lord and was moved to offer her self as a deliverer of her people. After performing the sacred rites according to the custom of the times clothing herself in sack cloth and put ting ashes upon her head, she dressed terself in her threst raiment, with nany jewels and ornaments and went accompanied by her maid, to the ramp of the Assyrians, where he neguty and address obtained for he

ernes.
This stern captain, who ruled his truny with merciless brutality was en aptured with the Jewish beauty and 'ent willing ear to her promise that she would deliver all Judea into his hands. He gave her a tent and many attendants and strove by his atten-tions to gain her personal favor. With weakness until he invited her to an plaborate entertalment in his quarters. Here she succeeded in inducing the Stinger Stung, a Joker comedy, him to dismiss all his servants and "The Reformation of Calliope," a two when he was overcome with wine, she took down his sword and cut off his head. She escaped back to Bethulia with her maid and the head of the dead general, arriving inside the walls just as the inhabitants were giving up all hope and were crying aloud for the city to be surrendered. The men of Bathulia were inspired by her seem-Zingo Extravaganza series, the third is to be shown.

# M ARGARET WOODROW WILSON SINGS IN COLUMBIA RECORDS

Daughter of the President of the United States, sings for you in your own home: "The Low Backed Car," in English with orchestra. "Leezie Lindsay," old Scotch melody, "My Laddie," in English with orchestra, and other classic and popular ballads. Of the Columbia she says: "I consider the Columbia Records to be the most

beautiful I have heard. They are especially remarkable for their clarity of diction and tone. My own records, I must frankly say, have delighted me."

Columbia Records play on all Victor machines. We carry all the newest records, and will be glad to send a selection to your home for approval.

Was severely criticised as being too boastful. Undoubtedly the criticism was deserved.

At the same time we feel justified in saying that we can give you better coffee values than the out of town roaster. We also feel that our twenty-five years' experience as retailers and several years as roasters should

put us in a fair position to judge. We have handled at different times nearly all of the leading brands of High Grade Coffees in America and have tested them all. However at last you must be the judge and we respectfully ask you to pass your opinion, and if you don't feel justified in purchasing a pound for trial we will cheerfully supply a free sample upon request.
