

SECOND RAID ON AIRSHIP CHASED BY AEROPLANES IN LITTLE HARM

ANOTHER ATTACK BY ZEPPELIN SUNDAY NIGHT REPORTED BUT DAMAGE IS DECLARED TO BE SLIGHT

NEW RUSSIAN GAINS

Said to Have Defeated Turks Again and to Be Surrounding Erzerum—French Fail to Retake Last Ground

By Associated Press. London, Jan. 31.—Paris and its people escaped harm in the second Zeppelin raid made on the city with two days. The official statement on the Sunday night attack declares that while the airship dropped a number of bombs no damage has been reported.

While isolated encounters and much artillery and mining activity is reported, comparative quiet seems to have settled down again upon the western fighting front, where the Germans recently have reported notable successes.

Aside from along the Franco-Belgian lines the military areas in which chief activity is being displayed now are in the Balkans and on the Caucasian front, where the Turks and Russians are fighting near Erzerum.

Athens reiterates reports received through diplomatic channels that the Russians are surrounding Erzerum having inflicted a fresh defeat on the Turks.

In Albania the advance of the Austrians continues, but according to reports today from German sources there is likely to be increased opposition to them in the near future.

According to reports from Berlin, the French have been making repeated attempts to regain the ground recently lost by them near Neuville, but all their attacks have been beaten off, the Germans still holding their newly won trenches.

Reports from Paris say that the German forces last night attacked twice with hand grenades near Hill No. 140 but were repulsed.

British casualties published during January total 1079 officers and 19,524 men.

TWO DUTCH STEAMERS ARE REPORTED DAMAGED

By Associated Press. London, Jan. 31.—A Lloyd's report says that the Dutch steamer Thuban has been damaged and towed up the Thames also the Dutch steamer Maasdyck met with an accident in which two of her crew were killed and that she was taking water rapidly and had been beached.

MINERS WILL NOT BAR MILITIAMEN

Resolution to Exclude National Guardsmen From Membership Defeated

By Associated Press. Indianapolis, Jan. 31.—After a long and earnest discussion the United Mine Workers of America in convention here today defeated a resolution to amend the constitution of the organization so as to exclude from its membership national guardsmen and the state constabulary.

PITTSBURG BANK EXPERIENCES RUN

3,000 Persons in Line This Morning And All Are Being Paid

By Associated Press. Pittsburg, Jan. 31.—Officials of the Farmers Deposit Savings Bank on which a run was started Saturday and resumed this morning, announced today that persons responsible for baseless rumors concerning the bank's condition would be prosecuted.

The law covering such cases provides a maximum penalty of \$5000 fine and five years imprisonment. When the bank opened at nine o'clock, 3,000 persons had been lined up by four, by a score of policemen. Bank officials said they had plenty of money on hand to meet every demand and as soon as the doors opened extra tellers began paying all who appeared.

DETAILS OF SATURDAY NIGHT'S RAID ON PARIS ARE MADE PUBLIC

Pursuit Is Futile

Zepplin Believed To Have Been Hit But Not Badly Damaged

By Associated Press. Paris, Jan. 31.—Five French aeroplanes engaged the Zeppelin which Saturday night dropped bombs on Paris killing and wounding more than 40 persons according to an authoritative statement issued today. The first to attack the raider was a machine piloted by a sergeant who was patrolling the upper air.

He pursued the raider, the statement says, but soon exhausted his cartridges and was obliged to abandon the pursuit. One of the two machines which were armed with cannon had however, by this time climbed high enough to open an intense fire on the Zeppelin which probably was hit but not badly damaged.

The Zeppelin next was picked up by a sub-lieutenant as it flew over the suburbs westward. He went up to within 50 or 100 yards of the airship and stuck to his quarry sometimes flying above and some times on a level in order to escape the fire from the Zeppelin, in which were machine guns.

For 53 minutes the chase continued, the machine guns being freely used on both sides. Finally the aeroplane's engine broke down and the officer was forced to descend.

Warning of the appearance of the raider was given by fire engines rushing through the streets trumpeting the call known as "stand to arms."

The electric lights went out and policemen cautioned careless householders to close their shutters and darken their windows immediately. It was still early in the night, close to 10 o'clock and many persons were in the streets, cafes were open and the cinematograph theatres and variety houses were still entertaining their audiences when in all parts of the city was heard the ominous sounds of the warning bugles succeeded by the nervous whir of thirty Zeppelin aeroplanes which rose swiftly into the remote air regions to meet the winged enemy.

Many persons sought balconies to watch for the coming of the raider. Dropped Tons of Bombs.

By the time the Zeppelin had reached the edge of the old quarter of the city several of the airmen were able to make out its pale yellow shape, 14,000 feet from the earth. Frightened, doubtless, by the numerous warplanes speeding toward it, the Zeppelin wheeled and dove at full speed northward, dropping in its trail into the darkness a cargo of about three and one-half tons of bombs.

But, continuing its flight at a greater altitude, the airship vanished.

Few Parisians had believed the raiders were likely to come, as they had been turned back many times. But suddenly in one of the north-eastern parts of Paris, there was a great flare in the sky as the Zeppelin crew dropped an illuminant to show whether they were over the city. A bomb fell into a street, crushing through into the subway and tearing a hole fifteen feet in diameter.

Quickly a series of other detonations occurred, sounding dully throughout the city. One of the missiles fell on an isolated house occupied by a single family. The building was bisected, one end being demolished and its occupants hurled far out into an open lot and killed.

The other end of the house was cut off sharply and a bed room on the second floor was left intact, with its occupants uninjured. The floor was carried away under the head of the bed, leaving the bed balanced on the jagged edge of the ruins, with a 9-year-old boy in it.

It took many years to save enough to build that home, "with the help of my son's employer," said the grandmother of the boy, "but it is all gone in one night, together with my son and my daughter-in-law, but I have this lad left and he is plucky enough to begin it all over again. Although he was left there an hour before the firemen rescued him, he never flinched, never even whimpered."

The Zeppelin must have been going at top speed in that neighborhood, for the nearest trace of it beyond was a quarter of a mile away, where a bomb fell in the center of a thick stone wall, and cutting a big hole out of it as cleanly as if it had been done by a knife, dug through the pavement deeply into the earth, causing a deep cavern. In a more populous quarter a bomb struck an apartment building occupied by the families of workmen, cutting it in two, burying ten victims under the debris.

The street front was untouched, and on the other side of the gap the six kitchens of the building, one atop another, were left open to the weather, with the ranges and utensils in plain view and apparently undisturbed. This quarter was besieged all morning by dense crowds. The greatest throng was in the street where men from the municip-

Albanian Troops Expected To Oppose Further Advance Of Austrian Troops In That Country

SCUTARI, PORT OF DURAZZO and ESSAD PASHA

In Albanian, now in the path of the Teutonic hosts which conquered Serbia and Montenegro, the invading Austrians may find opposition by native troops under leadership of Essad Pasha, provisional president of the Albanian republic, who is friendly to the entrance of the Austrians down the eastern coast of the Adriatic is viewed with considerable concern in Italy, where it is considered that Italian domination of that body of water is menaced.

FLOOD DANGERS ARE INCREASED

HEAVY RAINS SUNDAY ADD TO LOSS IN ARKANSAS AND OHIO

OVER WIDE SECTION

Mississippi River From Cairo To Gulf Is Threatening to Cause Much Damage

By Associated Press. Washington, Jan. 31.—Serious floods threaten the lower Ohio Valley, the Mississippi Valley from Cairo, Illinois to the Gulf of Mexico and the valleys of Arkansas because of heavy rains of Sunday in Arkansas, the lower Ohio Valley and the Mississippi Valley from St. Louis to Vicksburg.

The weather bureau today issued a flood bulletin which says in part:

"The heavy rains of Sunday in Arkansas, the lower Ohio Valley and the Mississippi Valley from St. Louis to Vicksburg have continued throughout the last 72 hours and coming upon rivers already in flood have created a serious situation."

RAILROAD TRAFFIC IN ARKANSAS DEMORALIZED

By Associated Press. Little Rock, Ark., Jan. 31.—An embargo on live stock and perishable goods was established on the Rock Island railroad from Little Rock to Jacksonport because of the threatened collapse of the Jacksonport levee.

Advices from Newport are that the pressure against it more than a few hours. Alarm is felt for the safety of hundreds of families in the lowlands near Newport. Trains on the Iron Mountain due yesterday have not yet arrived. Trains from Fort Smith to Little Rock over the Rock Island are being detoured by way of Sallisaw, Okla. On the Rock Island between Griffithville and Desark, passenger trains are being transferred in boats at a point over Cypress Bayou, where the water is over the tracks.

Big damage to grain crops and to live stock is reported from virtually every section. No knowledge of the whereabouts of the Red Cross agent dispatched from Fort Worth, Texas to eastern Arkansas was had in the capital today. Telegraph communication to numerous points was cut off because of washed out pole lines.

Fifty families are hovering behind the Arkansas river levee at Red Fork between Little Rock and Pine Bluff and unless they are rescued within a

few hours they probably will be drowned, according to word received at one o'clock today by the board of commerce here, from a planter named McNeill. The board of commerce is seeking a steamer now to send to Red Fork.

HICKMAN, KENTUCKY UNDER WATER TODAY

By Associated Press. Hickman, Ky., Jan. 31.—The West Hickman levee gave away early today and the Mississippi river now is flooding a large area in the manufacturing district. The water is slowly backing up into the business section. About 900 persons have so far been rendered homeless.

A large force of men worked throughout Sunday and Sunday night in an effort to hold the levee against this morning the river broke through with a rush and the water quickly filled the lower part of the town. Additional forces have been sent to the Reelfoot district south of here to protect the levees there. Government officials, however, expressed the belief that those banks will hold the water now in sight.

REVOLUTION IN CHINA PROCEEDS

ONE PROVINCE IN FULL REBEL—GOVERNOR FORCED TO FLEE

AMERICANS GUARDED

U. S. Gunboat Ready to Give Protection—Rebels Active in Yenan Province.

By Associated Press. Peking, Jan. 31.—The province Kwai Chow is in full rebellion. The governor was forced to flee January 10 and communication has been interrupted. It is reported that Li Chow and Tseit Sing have been captured by the revolutionists.

The American gunboat Menomacy is at Chung Kin on the Yan Tse Kwai river, 50 miles northeast of Li Chow. The commander has notified Dr. Paul S. Reinsch, American minister to China, that all is quiet in the neighborhood and that a zone has been outlined within which the gunboat will protect foreigners who are threatened; 12,000 soldiers from the province of Kwai Chow are reported to be marching in company with Yenan revolutionists upon Chung King where fighting is expected within a few weeks.

FEAR DAMAGE BY SIXTY YEAR FIRE

SUBTERRANEAN FLAMES EAT THROUGH 30 FOOT CON. CRETE WALL

MINES THREATENED

Rich Anthracite Veins in Path of Fire That Has Raged For 60 Years

By Associated Press. Lamsford, Penn., Jan. 31.—The famous mine fire which has been raging now for more than 60 years and which started at Summit Hill near the spot where Philip Ginter discovered the anthracite coal in 1791 has burned through the immense concrete wall which the Lehigh-Coho & Navigation company sank in front of it several years ago at a cost of over \$1,000,000.

It now is threatening the mammoth vein in the Panther Creek valley, the largest and richest vein of anthracite in the world. The wall which was sunk into the ground 100 feet was fifteen feet of solid concrete. Experts believed it would prevent the fire from spreading any further and eventually extinguish it.

The fact that the flames have eaten through this huge barrier has caused grave fears among the Lehigh-Coho Navigation officials who now are putting forth every possible effort to prevent the fire from getting into the vast beds of anthracite in the vicinity.

A large force of men is at work drilling holes deep into the earth and into these opening water is being poured directly into the subterranean fire in the hope of preventing a rapid spread and in the hope of extinguishing it.

Already this fire has destroyed millions of dollars worth of coal while the 60-year fire to extinguish it has cost an enormous sum.

CONSIDERING COMPULSORY SERVICE IN MEXICO.

By Associated Press. El Paso, Tex., Jan. 31.—A commission appointed by General Carranza to consider the advisability of establishing compulsory military service in Mexico has begun work in the city of Mexico according to official advices to the Mexican consulate here.

Carranza previously had declared against compulsory service but it is understood that the recent development of revolutionary movements south and west of Chihuahua city with Zapata in the south prompted him to appoint the commission to canvass the situation and draft a compulsory service law if necessary.

ARE SEARCHING FOR SUBMARINE

NO TRACE IS FOUND

One of Flotilla En Route to Key West To Engage in Maneuvers

By Associated Press. Charleston, S. C., Jan. 31.—Naval vessels continued today to search the Carolina coast for the United States submarine K-5, reported missing since 1 o'clock Sunday morning but according to information available here the efforts had been fruitless. The submarine had not responded to wireless calls. A heavy fog overhung the coast between here and Cape Romain, 40 miles north, where the K-5 last was sighted.

The K-5 with three other submarines of the same type, the K-1, K-2 and K-6, conveyed by the submarine tender Tallahassee left New York, January 27 en route for Key West for maneuvers. The Tallahassee and the other three submarines arrived off Charleston Bar last night but were prevented by the fog from entering the harbor. Arrival of the flotilla and convoy was followed by the Tallahassee's wireless report that the K-5 was missing.

Naval boats in these waters including the destroyer Worden, the coast guard cutters Kamacras and Semigale and the buoy tender Mangrove at once began search. The K-5 was said to have six or eight men on board.

NAVY OFFICIALS ARE OPTIMISTIC ABOUT K-5

By Associated Press. Washington, Jan. 31.—The whereabouts of the submarine K-5 remained unknown to navy officials here early today. A report from Charleston, South Carolina that she was safe was later denied. Navy officials believed the K-5 may have experienced trouble with her engine but said her battery was sufficient to keep her under control. Failure to receive any report from the vessel, they said, might indicate only that her wireless apparatus had become deranged. Lieut. R. C. Grady, commands the K-5 with Ensign H. C. Frazer, second in command.

MEMBER OF CREW OF K-5 ENLISTED FROM DALLAS.

Dallas, Tex., Jan. 31.—Records at the navy department recruiting station here today showed L. B. Treadway a member of the crew of the K-5 enlisted from Dallas on August 21, 1912, as a first class fireman. He had previously served four years in the navy. He was the nearest relative of Benjamin H. Treadway of Blooming Grove Texas, his father.

EXPLOSION AT CHICAGO SCORES PRESIDENT SOME

By Associated Press. Chicago, Jan. 31.—President Wilson passed through Chicago early today enroute to Milwaukee where he is to deliver at 2:30 p. m. an address which some of his party believed would be the most important of his tour through the middle west in the interest of national defense.

President Wilson expects to leave Milwaukee at four p. m. soon after his address is ended. His train is due to reach Chicago at six p. m. tonight, two hours before he is to address an audience at the auditorium here. The train to which was attached the special car bearing the presidential party reached here at 11:15 a. m. Despite the early hour a crowd had gathered at the station. The train from Cleveland was without incident.

While the president was standing on the rear platform shortly before the departure of the train, a sharp explosion was heard. Secret service men crowded to the platform and the president, apparently somewhat startled, entered the car. A cloud of escaping steam showed that the connecting hose between the rear coach and the one next forward had burst. The president soon returned and walked to where the break was being repaired.

WAUKEEGAN CROWD ASKS TO SEE MRS. WILSON, TOO.

By Associated Press. Waukeegan, Ill., Jan. 31.—A huge crowd cheered President Wilson waving flags cheered President Wilson when his train stopped here for five minutes at eleven o'clock. Residents of Waukeegan were joined by citizens of other north shore towns.

"This looks like a holiday gathering, but I am not here on holiday," said the president. "I am trying to impress upon the people the need of this country's being prepared, in a military sense, and I take that unless you are interested, you wouldn't be here. The fact that you are here in such numbers encourages me, however, in the belief that the people of the country appreciate that the problem of national defense is vital, and I shall take away with me renewed hope of the successful outcome of our effort."

At the conclusion of the three were called for Mrs. Wilson and the president stepped back into the car and escorted his wife to the platform. Mrs. Wilson smiled her appreciation of the cheers that greeted her. The train pulled out six minutes after its arrival.

VILLA CHIEFTAIN DIES OF WOUNDS RECEIVED IN BATTLE

By Associated Press. Washington, Jan. 31.—General Arguedo, one of the rebel chieftains who moved from the south of Mexico into the north with bands of raiders after the collapse of the Villa movement, has died of wounds received in battle with Carranza troops between Torreón and Durango. General Arguedo was regarded as having one of the most formidable forces with which General Carranza had to deal. Reports of his death were taken as an indication of a probably decisive battle in the campaign of the Carranza army to crush rebels operating in the Torreón and Durango districts.

BODY OF MAN MISSING EIGHT DAYS IS LOCATED.

By Associated Press. Longview, Tex., Jan. 31.—The body of Jesse Stanford of this place, who has been missing eight days, was found early today by his brother, in the woods several miles from here. It is believed that Stanford died from natural causes.

WILSON DENIES PROGRAM DUE TO MANUFACTURERS

ANSWERS CHARGE THAT MUNITIONS MAKERS BEGAN AGITATION FOR PREPAREDNESS—SPEAKS AT RACINE, WIS.

"DO NOT BE MISLED"

Speech at Milwaukee This Afternoon Expected To Be One of Most Significant of His Tour in the Middle West

By Associated Press. Milwaukee, Jan. 31.—President Wilson threw down the gauntlet today to opponents of national preparedness who have declared that the movement sprang from the desires of munitions and armament manufacturers to make money.

"There are some things that are being said that I hope you will not believe," the president declared. "It is being said among other things that this agitation for preparation for national defense comes chiefly from those who are interested in supplying the government with the munitions of war and from those who are interested in supplying it with armaments."

"Gentlemen, do not allow yourselves to be misled by statements of that sort. Anything that the government does, somebody is going to make money out of it; but the impulse for this thing does not come from those quarters. The impulse comes from men disinterested, men who know the actual circumstances of the country and who know that these things are immediately necessary."

"I, for my part have all along advocated, and always shall advocate, that the government, as far as possible, shall manufacture these things for itself in order that at any rate it may control the prices at which those articles may be sold to the government. If it is necessary to protect ourselves against those who would make money out of the necessities of the war, there are adequate means of defending ourselves and we will use these means, but I don't believe the impulse comes from those quarters. I do not believe that in those quarters there is preparation—preparation more than there is patriotism lacking in other quarters."

The president's declaration was delivered from the rear platform of his private car at Racine, Wis., half an hour before he reached this city, at 12:30.

KATY TO BALLAST TRACK WITH GRAVEL

Expenditure of \$2,500,000 By Road For Improvements in Texas Planned

A total of \$2,500,000 will be spent in improvements on the Katy lines in Texas according to an announcement made by W. A. Webb, chief operating officer, in Dallas yesterday. This sum will be spent on the first work of a program of improvements to cost \$10,000,000 and to be expended within three years.

Among other work mentioned by Mr. Webb was that the line from Whitesboro to Wichita Falls would be ballasted with gravel. The improvement to the Texas properties is being carried out in line with the policy adopted a few months after C. E. Scharff, now receiver, came to the Katy railroad at first as president. The work is now at its crest and about 5,000 men are at work at various points on the road.

The receiver already has authority for the purchase of \$1,500,000 worth of new equipment—locomotives and freight and passenger cars. Some engines will be of the Pacific type and will be among the largest in service in the South. Ten of these classes will be delivered in a few days.

Ballasting with crushed rock burnt clay and gravel on all parts of the system is going on at present. The line from Dallas to Denison, 117 miles, is one of the longest and most important stretches. Ballasting the entire Shreveport division, from Greenville to Shreveport and from Greenville to Mineola, will mean the passing of dirt roadbed, being supplanted by gravel. This will effect an improvement of 219 miles, about seventy-five miles of which has been completed.

The lines from Dallas to Hillsboro and from Fort Worth to Hillsboro are being put upon burnt clay, one of the most effective improvements from a ballasting standpoint. The work will be carried southward from Hillsboro to Granger and to Smithville, covering 273 miles. From Austin to San Marcos, 81 miles and from New Braunfels to San Antonio, thirty-five miles, crushed rock will be used as ballast.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

"I tried most every kind of medicine, but none did me any good. I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together."

"My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

"Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling?"

"If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century. Begin taking Cardui to-day. You won't regret it. All druggists. Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn. For full instructions on your case and 64-page book, 'Home Treatment for Women,' in plain wrapper. N. C. 124."

PROSPERITY EVIDENCED IN MANY WAYS, BUSINESS SUMMARY SHOWS

The following business letter has been issued by the National Bank of Commerce:

Apart from the international political situation which continues full of complications, there is little room for dissatisfaction with the general condition of affairs throughout the country. The year 1915 opened with unprecedented prosperity and bids fair to rival all its predecessors in the volume of real wealth which it will add to the resources of the country. The statistical records of 1915 which are steadily coming in, amply justify the optimistic expectations of the business leaders of the nation. The trade balance in our favor has, of course, broken every previous record and the magic word prosperity is written large across the country from ocean to ocean.

The Record of the Crops. An excellent idea of what the United States crop record of 1915 means may be obtained from the figures recently published by the agricultural department. In the first place, it is interesting to note that all records have been broken in all the leading crops with the single exception of cotton.

For the first time in the history of the country has corn production exceeded three billion bushels. Wheat for the first time passed the billion bushel mark and oats until 1915 had never reached the record of one and one-half billion bushels. Other crops show similar gains and taken altogether the agricultural interests of the country have contributed their full share to the wealth of the nation. The government estimate in dollars of the value of farm crops and animal products for 1915 stands at \$10,321,000,000 a valuation absolutely without precedent.

In celebration of the one-hundredth anniversary of the savings bank idea in this country, the American Bankers' Association will carry on this year a country-wide educational campaign on thrift that should have national results. When we realize that America has only 108 savers per thousand population as compared with 544 in Switzerland, 326 in Sweden, 346 in France, 302 in England and 228 in Italy, we can readily see that our records will stand a good deal of improving and that there never was a more appropriate time than the present for the people of this country to make hay while the sun shines and increase their savings.

Securities Coming Home. During past year and a half an immense volume of foreign owned American securities have been absorbed by home investors. No definitely accurate figures are available of the total thus returned to the United States, but reliable estimates place it at no less than \$1,500,000,000 par value.

President Lorge of the Delaware & Hudson has compiled statistics showing that close upon half a billion par value of American railroad securities of all classes were transferred from foreign to American owners in the six months ending July 31, 1915. Prominent bankers state that almost every steamer reaching New York for several months past has brought from ten to twenty million dollars' worth of American securities.

One of the largest individual absorptions took place early this year when fifty million dollars of a new cent bonds of the Central Pacific Railway were purchased in Paris by an American banking house. A thirty million dollar issue of Pennsylvania Railroad bonds has also recently been purchased for the home market and day-by-day absorption continues without in any way disturbing the elasticity of home trading.

The Income Tax. A recent report of the internal revenue bureau shows that there are in this country 357,415 people taxed under the income tax law. It is interesting to note that there are more people having incomes in excess of half a million dollars a year than there are with incomes between \$400,000 and \$500,000, the number of the former class being 174 and the latter only 69.

There are no less than 34,141 people with incomes between \$30,000 and \$50,000 a year and 127,448 persons who report their earnings between \$5,000 and \$10,000 per year, while there are at least 8,694 millionaires in the United States.

The Mines of the United States. The preliminary reports for 1915 of the United States geological survey show that the past year was a most prosperous one for the mines of the United States. Copper production broke all records, there has been a large increase in iron, zinc records have also been broken and there have been important increases in gold and silver production. Mining of both bituminous coal and anthracite is very moderate in increase, estimated at only one per cent, while the petroleum yield was also very slightly ahead of 1914. Perhaps the most notable item in the year's record was the stimulation of metal mining in the western states. Almost without exception the amount of money entrusted to the care of the banks of the United States is one of the most encouraging signs of the times. Through the banks money passes for the development and improvement of the nation's industries and the growth of the community is now better reflected than in the steady increase of the resources of its bank.

WANTS CHANGE IN TARIFF AFTER WAR

Head of Organization to Further Overseas Trade Points Out Necessity.

By Associated Press. New Orleans, Jan. 30.—That the European allies of war will become economic allies in peace and adopt preferential tariff policies to help each other discharge war indebtedness and extend foreign trade and that the United States tariff system should be rendered more flexible in order to extend American trade by commercial agreement and protect it from discrimination were the conclusions voiced by Willard Straight, vice president of the American International Corporation, New York, the new \$50,000,000 organization for intensive development of over sea commerce in an address before the National Foreign Trade Convention here.

Quoting the recent declaration of Walter Runciman, president of the British board of trade, in Parliament that the British Empire must, without delay, take steps to help France, Russia, Italy and her other allies to recuperate from the war and that nothing in German post bellum policy be permitted to interfere with this recuperation, Mr. Straight said: "The speech, it is true, was directed against Germany but it disclosed a point of view with which we in the United States may have to reckon."

WE WOULD LIKE TO HAVE EVERY PURE FOOD INSPECTOR IN THE UNITED STATES SEE OUR CANDY KITCHEN.

We are not afraid of the result. We know they would find every line of candy made in a clean, sanitary place, out of the purest and best materials that can be had. That is why we say that FELL'S candies are better candies.

Buy America's Finest Fruits by the Gallon

More than three years experience with Hunt's Select Fruits make me entirely safe in saying that they are America's very best.

In small cans they seem expensive to some people—not, however, after they know them well.

But in gallon cans they are very economical. Here they are:

- Hunt's Blackberries 60c gallon.
- Hunt's Apricots 50c gallon.
- Hunt's Peaches or Plums 50c gallon.

NEY I. & G. N. SHOPS
EULIDIN AT SAN ANTONIO.
By Associated Press.
Houston, Tex., Jan. 31.—The construction of new division shops by the International and Great Northern Railway company to be located at San Antonio soon will be undertaken, according to announcement of the railroad authorities here. The shops will cost between \$200,000 and \$400,000, and contract will be awarded shortly. A roundhouse, boiler, machine blacksmith and copper shops will be built according to the plans of engineers just completed. All the new buildings will be of reinforced concrete and modern in construction throughout.

LAYMEN MOVEMENT PLANS EXPLAINED

John M. Adams of Fort Worth Speaks at the Christian Church Sunday.

The plans and purposes of the Laymen's Missionary Movement, and the significance of the convention to be held in Fort Worth in March were explained Sunday afternoon at a men's meeting at the First Christian Church by John M. Adams of Fort Worth, a layman. While the attendance was small on account of the weather, it made up in interest and enthusiasm what it lacked in size and a number of those present resolved to attend the meeting in Fort Worth.

Mr. Adams sketched the organization of the missionary movement nine years ago and discussed the growth of the movement. He said, the missionary activities of the churches of this country had been carried on by the women, until the male members of the churches decided that they should have a share in the work and the Laymen's Missionary Movement resulted, being an inter-denominational organization to bring about more efficient work in American churches and for general missionary work.

Conventions similar to that in Fort Worth are being held this year in 75 cities of the United States, Mr. Adams explained, and at Fort Worth there is a central committee which is endeavoring to secure a large attendance there. There are 31 towns he said, that are expected to send representatives to Fort Worth, and personal appeals are being made to the laymen in 24 of these towns. The Fort Worth meeting will begin March 8 and will continue four days. A section of the convention hall will be set aside for the women who attend, and a separate meeting place will be provided for the negroes.

A team of prominent national and international mission workers will attend the convention and take a prominent part in its proceedings. Each church will have its own committee and workers and will maintain headquarters for members of its denomination. The plans were explained inspiringly and interestingly by Mr. Adams, who is one of the prominent workers among the laymen of the State. He spoke at the First Christian Church in the morning and at the First M. E. Church at night.

PISTOL WOUNDS RESULT FATALLY

Newport Teacher Succumbs Sunday—Pupil Re-arrested on Murder Charge.

Jay Wilson, the seventeen year-old Clay county school boy, who last Friday shot his teacher, Post-James Wright of Newport, now faces a charge of murder. Wright having succumbed to his wounds Sunday, Wilson who had been released on bond on the charge of assault on murder, was re-arrested and is now held on the murder charge.

Wright was shot twice, one bullet striking in the abdomen, the other in the mouth. The intestines were perforated by the bullet which entered the abdomen, and while it was at first believed there was a chance for recovery, the wounded man became worse Saturday night and died Sunday morning. He is understood to have made an antemortem statement.

District Attorney Leslie Humphreys went to Henrietta yesterday to look into the case, returning last night.

MAN WANTED AT VERNON ARRESTED IN ST. LOUIS

(Vernon Record)

Sheriff J. D. Key was much gratified this week to receive a telegram from the chief of police of the city of St. Louis announcing the arrest of Fred B. Rice, the man wanted here in connection with a charge of forgery and the additional count of jumping bond. Mr. Key immediately requested Governor Ferguson to make requisition on the Missouri authorities for Rice and only awaiting the arrival of these papers before starting to the Missouri metropolis for his man. The accused man, it will be remembered, spent two weeks in Vernon, last summer, trying to secure the position of secretary for the Young Men's Business League, and the charge on which he is being held was for the alleged forging of the names of league officials to a check purported to be issued in payment of services. Sheriff Key got his man in Oklahoma City shortly after the alleged forger was committed and returned him here and placed him in jail. His wife came from Dallas and was instrumental in getting her husband released on bond with several local citizens as sureties. After securing his freedom, Rice remained here some days and disappeared. He whereabouts had remained a mystery until Sheriff Key received the telegram from St. Louis announcing his arrest last Friday.

Love Unought.

They tell me that I must not love,
That thou wilt spurn the free
And unought tenderness that gives
Its hidden wealth to thee.
It may be so; I heed it not,
Nor would I change my blissful lot
When this I am allowed to make
My heart a bankrupt for thy sake.

They tell me when the fleeting charm
Of novelty is o'er,
Thou'll turn away with careless brow
And think of me no more.
It may be so; enough for me
If sunny skies still smile o'er thee
For I can trace when thou art far,
Thy pathway like a guiding star.

SUGGESTIONS FOR THE VALENTINE HOSTESS

The coming month brings us St. Valentine's Day, which is the occasion for festivities of many kinds—dinners, dances, luncheons and young-folk parties, with games and simple refreshments.

For a party of young people one room should be reserved for playing games and another for the light refreshments.

Attractive decorations for the outer room can be made from red blotting paper and silver cord. Cut out any number of small red hearts from the blotting paper, making a small hole through the middle of each heart. Measure off enough silver cord to reach from one angle of the room to its diagonal opposite. Run this cord through enough of the red hearts so that one heart will come about every six inches or so and then suspend the hearts from one side of the room to the other. Stretch a similar string of hearts between the other two angles. Where the two cords cross suspend a big red heart, pierced by a silver arrow, which you can make from white blotting paper and a little silver point. If you wish more decorations, you can hang big hearts in any available corners.

For the table you can buy a small plaster cast of Cupid for the centerpiece. This surrounded by roses at its feet, will make a most attractive figure. Tiny red hearts pinned here and there on the tablecloth make the whole very bright and pretty.

Send out invitations on heart-shaped paper or cards. Of course the envelopes can not be made to fit, but the paper can be cut in the right shape.

When the guests arrive give to each girl a medium sized heart, on the back of which she must write her name. When all the girls have written on a heart the hearts are put in a hat and shaken up. Then you, as hostess, should pin them to a door with the

SPRING STYLES ARE ALREADY RECEIVING ATTENTION OF MODISTES

New York, Jan. 31.—It is interesting to follow the trend of fashion each season, to note how surgely and completely we come to approve or even the most decided change after it has been presented to us in attractive guise, at different times and on various occasions. It surely does seem, too, upon looking back some few years, that each season's changes are for the better. For instance, the full skirt, how we all too-pooed it when the whisper first began to circulate that it was to be revived and that our trim, youthful, narrow skirt had had its day. Today, however, the full skirt is one of the approved features of the modes and is still growing fatter. We smile upon its bulk and clumsiness, is now considered quaint and daintily feminine.

Ribbon as Trimming.
Ribbon is being used profusely as

trimming on both hats and frocks. It ranges in width from the inch

names turned to the wood. Then each young man in turn is given a small bow and arrow. He must shoot at one of the hearts. When a heart is transfixed the young man can take possession for the evening of the heart and the young lady whose name is written on its back. She must be his partner for all the games and for supper.

A heart search would be an appropriate game for the occasion. You can buy in any confectioner's store plenty of candies in heart shapes. These you should conceal all over your home, behind pictures, in vases, behind lamps, beneath books, in all the unlikely places. Then the guests, paired off by the bow and arrow method, must seek the hearts. Each pair should put all the hearts they find together in a joint sum, and the pair finding the most should be presented with a box of chocolates between them.

For a light supper lemonade with heart-shaped sandwiches and cakes with little red cinnamon hearts will be sufficient. If a heartier repast is desired a salad decorated with bits of hearts in heart shapes, ice cream cut in heart shapes, sandwiches and cakes can be served.

TAYLOR-SAULS WEDDING SUNDAY AFTERNOON

Sunday afternoon in the presence of a large number of friends and relatives—Clinton Sauls and Miss Edna Florence Taylor were united in marriage at the home of the bride's parents, 1308 Third street, Rev. F. F. Walters performing the ceremony. Both young people are well known here and have many friends who are uniting in congratulations. The groom is employed at the Overland Garage. In the evening after church hours a number of the members of the Yeomen order gathered at the home of Mrs. W. Wallace, sister of the groom, to offer congratulations. During the course of the evening the wedding cake was cut and a refreshment course served. Those in the party were Messrs. and Mesdames Shuler, Richardson, South, Wallace, Mesdames Davy and Leggett, Misses Nita Sauls, Grace Bell and Louise Prang, Messrs. Charlie Ryan, Dewey Womack, Bryant and Watham.

The Home Economics Club will meet in regular session Wednesday afternoon at the high school; all members urged to attend.

The Just So Club met Saturday afternoon with Miss Lulu Smith. The Epworth League of the M. E. Church, South, will hold a Forty-two party Tuesday evening at the parsonage. All Leaguers are given a most cordial invitation to attend.

Phones: Business Office 167 Editorial Room 1671

Wichita Falls, Tex., Jan. 31, 1916.

Young man, if you were twenty-one since January 1st, 1915, or will be twenty-one before the November election of 1916, get your exemption certificate from the Tax Collector before February 1st, or you will not be allowed to vote.

You have until 12 o'clock tonight in which to pay your poll tax. After that time it will be too late to qualify as a voter in the 1916 elections.

There are now six candidates for the senatorship, as follows: Brooks, Culberson, Campbell, Colquitt, Henry and Riddle. It is hardly likely that any one of them, unless it be Culberson, will be able to get a majority of all votes polled at the first primary, and that means that the second primary will be a contest between the two candidates receiving the highest number of votes, and one of them, the way The Times sees the situation now, is going to be Colquitt. He has the backing of the element of the Democratic party in Texas that is opposed to President Wilson and his administration. It is perhaps best that it should be that way, and also hope that the strongest candidate who stands with the administration will be the one selected to run the race over with the anti-administration candidate in the second primary.

"Well," remarked a Times reader, "you are not finding much now with which to boost Wichita Falls and Wichita county." That put us to thinking, and this came into our mind: At the close of business, December 31, 1915, the nine banking institutions of Wichita county show by their sworn statements they had on deposit that day in round numbers \$3,600,000, which is by far a larger amount than was on deposit one year ago. The population of the county, in 1910, was given as 15,500. Since that time it has almost doubled. If this \$3,600,000 bank deposits were divided equally between the inhabitants of the county, each would have about \$115. If there are other counties in the state with a population of 30,000 that can make a better showing along that line, we have failed to notice what county it is. The people of Wichita county, and in fact of all this section of state, are reasonably prosperous and contented, but there is ample room for more people who want to build homes and set down in a country where crops of almost every description can be successfully raised.

Honorable John M. Duncan, in writing the Austin American, sizes the senatorial contest up as follows: "Culberson, sick, has made and will make a better senator than either of several of the others in highest health. If his candidacy and election does no more than keep some of the other out of the office, he will have rendered Texas and the Nation a greater service than would some of those others, though he should not be able to speak or vote during his entire term."

WHY DEMOCRATS GET BEATEN: (From Philadelphia Record) The common notion among Republicans that the country is overwhelmed

ingly Protectionist, and will always beat the Democrats if the tariff issue is kept to the fore, betrays history from the period of reconstruction to the present. It is only when the Democrats allow some other issue to displace the tariff that they get beaten.

From 1874 to 1892, both included, ten Houses of Representatives were chosen, and eight of them, four-fifths of the whole number, were controlled by the Democrats. During nearly the whole of that period the tariff was the principal issue. During that period the Presidential elections occurred in 1876, 1880, 1884, 1888 and 1892. The Democrats carried the election of 1876 and were counted out; they carried the elections of 1884 and 1892. Thus the Democrats got the presidency twice out of five times, and actually elected their candidate three times out of five. How do the Republicans get the extraordinary delusion into their heads that they are usually successful, and it is only by a fluke that the Democrats ever carry an election? The Democrats elected the first two Congresses after the McKinley tariff was enacted.

But following 1892 silverism displaced the tariff as the leading issue, and the Democrats had sixteen years of unbroken defeat. It was due to the currency, and not the tariff. The currency controversy having been disposed of, the tariff again became the most prominent issue, and the Democrats carried the elections of the House of Representatives in 1910, 1912 and 1914. Got enough State Legislatures to give them the control of the Senate, and at the last state elections considerably strengthened their grip on the Senate and elected their candidate for President in 1912.

The evidence is overwhelming that the Democrats generally carry the elections when the tariff is the leading issue. The Republicans are usually beaten when Protectionism is uppermost in every voter's mind. The Democrats get beaten when they are diverted from the tariff, which is their traditional best card in politics, and are rebuffed by the cheap money dispensers, which they caught from the Papists. The Republicans ought to be encouraged to make the tariff the sole issue of this year's election. If they will stick to that they will be certain of defeat, as Mr. Schiff told them last week. This country is in favor of revenue tariff. The taxation of imports is a convenient way of getting a good part of the national revenue. But the country is not in favor of any such scheme of high duties as the tariff beneficiaries who control the Republican party insist on getting from the Congressmen and Senators whose campaign expenses they have paid for.

WISE AND OTHERWISE.

ANNEXATION TALK REVIVED RECENTLY

Some Farmers in Northern Part of Archer County Want County Line Moved.

There still continues to be some talk among citizens in the north part of Archer county in favor of a movement to join that part of Archer county with Wichita county. Such a movement was agitated several years ago but was dropped.

Failure of the Archer county government to improve the roads in the north part of the county is believed responsible for talk about joining that end of the county onto Wichita.

Poverty may mean lower morality, as the investigator claims, but many a man has been kept out of trouble by not having the price.—Washington Post.

RADIUM IS WORTH \$9,000,000 POUND

This Country Now Leads in Production, But Total Yield is Very Small.

Washington, Jan. 31.—More than \$9,000,000 a pound would be the price asked for radium were that quantity of the valuable metal available and for sale at one time. Late in 1915 there was sold in this country one and one-tenth grams of radium (element) at the rate of \$120,000 a gram, according to a report issued today by the United States geological survey. The entire output of the United States last year, however, was only six grams or about 1756 of a pound avoirdupois. The European war caused a great slump in the production of radium, as in 1914 there were 22.3 grams produced.

The United States has the largest known radium-bearing deposits in the world, says the geological survey, "but the market for radium is mostly in Europe, for, although Americans like to feel that they are sufficiently progressive to take hold of and use to the full new discoveries, inventions and processes, yet the European municipalities and hospitals have been buying and utilizing most of the radium produced. When the war began, therefore, causing European money to flow into other channels, the demand for radium fell off so greatly that there was practically no market for radium or uranium ores in the early part of 1915 and very little market during any part of the year."

As a result of the collapse of the radium market, mining of radium-bearing ores except for such work as was necessary to hold claims, was nearly stopped. Through the efforts of the experts of the United States bureau of mines a process has been developed by which radium has been produced at a cost of \$37,500 a gram. The principal fields of the radium-bearing ores are in Colorado and Utah.

PHYSICIAN WILL JOIN ALLIES' CAUSE

Dr. R. P. Dice of Red River Country To Tender Services in War.

Dr. R. P. Dice, a well known physician of the Red River country, lately located at Devol, Okla., left recently for Europe to join the allies' forces as a physician and surgeon. He was accompanied by his son, Dewey, who expects to become a member of the hospital corps. Dr. Dice for a number of years practiced at Burkburnett and Byers, moving a few years ago to the Oklahoma side of Red River, where he built up a wide practice. He is well known in Wichita Falls and his decision to go to the battlefields of Europe is of much interest to his friends here.

Market Report

Fort Worth Livestock. By Associated Press. Cattle receipts 1200, active and steady. Hogs \$6 to \$7.50. Hog receipts 5000, ten cents up. Bulk \$7.80 to \$7.95. Sheep receipts 250, steady. Lambs \$8.50 to \$9.

Chicago Grain. By Associated Press. Chicago, Jan. 31.—Wheat prices took an upward swing today, influenced by Liverpool advices that shipments from Australia and Argentina were light and were not likely to be on a large scale at any time during February. Opening prices, which ranged from 3-8 and 1/2 lower to 1-8 advance were followed by substantial gains all around. May opened at 1.34 to 1.34 5-8, July at 1.25 3-8 to 5-8. Adverse weather conditions had a bullish effect on corn. After opening a shade to 3-4 higher, the market continued to ascend. Wheat sagged sharply later and closed heavy 1-3-8 and 7-8 to 2 1/2 and 2 5-8 net lower with May 1.21 7-8 and July at 1.21 7-8. Corn closed weak at 5-8 to 1/2 of 1/2 decline.

New York Cotton. By Associated Press. New York, Jan. 31.—Cotton opened at a decline of six to twelve points today in response to weak Liverpool cables nervousness over political conditions and reports from New Bedford that some southern shippers were fully meeting the decline in futures. March contracts sold at 11.77, May at 12.02 and July at 12.15 on the call or back to the lowest level reached on the break of last week. An early rally of seven or eight points was soon followed by weakness. The market worked into new low ground for the movement and prices were unsettled around midday with the active month's ruling about eleven to eighteen points net lower. Cotton closed barely steady at a net decline of 23 to 25 points with March 11.84, May 11.73, July 11.94, October 11.93, December 12.06.

CHANGES IN INSURANCE MEASURES ARE URGED. Austin, Texas, Jan. 31.—Recent recommendations looking to the repeal of the valued policy law and the "Technical Defense" law are made to the thirty-fifth legislature by the state fire insurance commission in its annual report which has just been submitted to the governor. The commission also recommends an amendment to the anti-reinsurance law so as to make it optional with the insuring public as to whether it desires to avail itself of the benefits according to the measure. The commission attributes in a great measure the high loss ratio of fire losses in Texas to the evil effects of the valued policy law and the Technical Defense. It holds that the latter places a premium on incendiarism and procures no benefits for the honest insurer, the result being that the burden of insurance taxation is not equally distributed.

ANGLO-JAPANESE TREATY REPORT DENIED AT TOKIO. Tokyo, Jan. 31.—The foreign office today denies the report of last Friday from Berlin that Japan and England have signed a treaty recognizing Japan's superior rights from the far east.

Deliveries on a contract for fifty tank cars are now being made to the Panhandle Refining Co. by the German American car company of Chicago. A string of these cars is now enroute and others will follow as rapidly as they can be finished. The refinery expects to put the cars into use as rapidly as they are delivered. The cars are of the standard size and specifications.

Pennington's WICHITA FALLS 812-814 Ohio Avenue. Wichita Falls, Texas.

INDICATES BONDS WILL BE APPROVED

Attorney-General's Office Finds Election Order Drawn in Proper Form.

County Judge Harvey Harris has received a letter from the attorney general's office indicating that the court house bonds recently voted would be approved when they are formally submitted. Immediately after the election several weeks ago Judge Harris sent a copy of the election order and other data to the attorney general's office to learn if they were in a form that the attorney general would approve. Saturday Judge Harris received word that the election order was in proper form. Returns of the bond election will be canvassed when the commission court meets on the second Monday in February after which the complete proceedings will be formally submitted to the attorney general. Already numerous inquiries have been received from bond houses relative to the issue and it seems likely that the bonds will find a ready sale.

GROUND COVERED WITH SLEET SUNDAY

Variety of Weather Here—Cold Causes Much Suffering Among Livestock.

A thunder storm, rain, sleet and snow was the simultaneous weather offering Sunday morning, one following the other in kaleidonic changes and then all coming together. Sleet which covered the ground an inch deep Sunday morning, was still un-melted this afternoon and the temperature remained beneath the freezing point nearly all morning. The sleet and biting north winds and the ice covered pastures are causing much suffering among cattle and other livestock not sheltered. Farmers and stockmen are feeding their stock heavily to prevent losses.

FESTIVAL CHORUS TOMORROW NIGHT

Steps Will Be Taken to Organize Chorus to Sing "Messiah" in May

The first meeting of the festival chorus has been called for Tuesday night at 8 o'clock in the Harrison-Everton Music Store, the purpose of the meeting being to organize the chorus to sing "Handel's Messiah" in the oratorio which will be presented on the third night of the four day festival. The secretary and manager of the festival association, J. E. Maday, urges that all singers in Wichita Falls join this chorus, a special call being made to members of the local church choir. Forty or fifty voices are expected to begin the work at this first meeting and it is hoped to have a much larger chorus to assist the artists of national reputation which will be here for the festival. The "Messiah" will constitute the third evening's program, it being planned to have the three singers, Margaret Dunlap, Charles Harrison and Harry Evans, with Otto Fischer, pianist, to render solo programs, the other three nights. The association reports that quite a good deal of headway has already been gained in the way of advertising the May festival in the surrounding country and states that an attendance of several thousand out of town people would not exceed their expectations, the affair to be of such unusual interest to the music loving public. The railroads have already agreed to make special rates for the festival dates, May 1, 2, 3 and 4. The impression that becoming a member of the chorus implies responsibility for five tickets has been gained by some and the association wishes to announce that there will be no expense except for music to be incurred by becoming a member of the chorus.

REFINERY ORDERS FIFTY TANK CARS

Several Already En Route Here—Are Purchased from a Chicago Concern.

Deliveries on a contract for fifty tank cars are now being made to the Panhandle Refining Co. by the German American car company of Chicago. A string of these cars is now enroute and others will follow as rapidly as they can be finished. The refinery expects to put the cars into use as rapidly as they are delivered. The cars are of the standard size and specifications.

PLAN ASSOCIATION TO PROTECT GAME

Such an Organization Is Being Agitated Among Sportsmen of This City.

A movement is on foot here for the organization of a game protection association. A number of sportsmen are interested in the movement and a meeting will be held some time this week for organization, it is said. The purpose of the association is to help in the enforcement of the game laws to prevent shooting out of season and the killing of quail, duck and other game by illegal methods. It is understood that a bonus will be offered to the game warden and other officers for each conviction for violation of a game law.

HUMPHREY Water Heater Week Maxwell Hardware Co. We have set aside the week of January 24th to 28th for special demonstration of the Humphrey Instantaneous Automatic Water Heater. The convenience and comfort of instant hot water at a turn of the faucet and the ability of the Humphrey Heater to save you time, labor and money will be demonstrated by an expert from the factory. We will trade for your old heater.

DEATH PENALTY IS SOUGHT BY STATE

Charlie Thompson, Negro is Now on Trial in 30th District Court For Murder

The state will ask for the death penalty in the case of Charles Thompson, negro, placed on trial in the 30th district court today on a charge of murder in connection with the killing of Post Bradford, at last gross. The state will seek to convict Thompson on circumstantial evidence and each of the veniremen examined for the jury was asked whether he had conscientious scruples against inflicting the death penalty and whether he would convict a man on circumstantial evidence.

Thirty-one of the venire of 95 had been examined up to 1:30 this afternoon and only two had been accepted for the jury.

Nelson and Hunter are assisting District Attorney Leslie Humphrey in the prosecution. The negro who was beaten to death with a hammer having been a servant in Mr. Nelson's home, Ralph Mathis and Wayne Summerville are representing the defendant.

MEN STAND IN LINE TO PAY POLL TAXES.

Men stood in line in the county and city tax collectors offices this morning to pay their taxes. Both offices were thronged throughout the day and both will be open tonight. The county tax collector's office will remain open until midnight.

There was a heavy rush of poll tax payments at the county tax collectors office this morning and at noon it was estimated that the receipts issued were already nearly up to the total of last year. Many more were coming in this afternoon and some are expected after supper tonight.

The law requires that receipts for poll tax paid through power of attorney must be issued before midnight on January 31st.

The crowds are being handled with all the expedition possible in both tax collectors' offices.

F. R. Knauth, a prominent farmer living near Burk Burnett, has announced that he will be a candidate for county commissioner from Precinct No. 2. He has made formal announcement of his candidacy. Commissioner Smith from that precinct will not be a candidate for re-election having announced his candidacy for sheriff.

TWO ARE KILLED IN BUFFALO HOLDUP

One-Other May Die and-Fourth is Severely Beaten—Negro is Sought

By Associated Press. Buffalo, N. Y., Jan. 31.—Two persons were killed, another probably fatally injured and a fourth severely beaten in an automobile holdup early today near this city. The victims were prominent Buffalo residents and members of the same family.

Mrs. Agnes Teiper, aged 67, a widow, shot in head and instantly killed. Frederick Teiper, her son, beaten to death with blunt instrument.

Grace Teiper daughter, skull fractured, will die. Edward Teiper, beaten and left senseless on the road.

The police are looking for a negro who Edward Teiper said committed the crime. The party had stopped a short distance from a railroad crossing when set upon by the holdup man.

J. A. D. SMITH TO RUN FOR SHERIFF

J. A. D. Smith, county commissioner in precinct No. 2, today authorized his announcement as a candidate for sheriff of Wichita county subject to the action of the Democratic primary in July. Mr. Smith has been a resident of Burk Burnett for more than eight years coming there from Collin county. He has been active in the movements which have made Burk Burnett one of the most progressive and prosperous communities in the Southwest. He is now serving his second term as county commissioner by election having been appointed previous to his election to fill out an unexpired term.

Previous to being appointed commissioner Mr. Smith was a deputy sheriff at Burk Burnett. His record as a peace officer and as county commissioner is one that will commend Mr. Smith to the favorable consideration of the voters of the county. He was one of the most valued members of the commissioners court and to the people of his district the only regret that is felt over his candidacy for sheriff is that it will mean that he will no longer be a commissioner. Mr. Smith expects to make a thorough canvass of the county and hopes to meet every voter personally before the primary.

WICHITAN WAS IN BOMBARDING CITY

Jack Culbertson Believed to Have Been in Paris During Air Raid

When Paris was invaded by a German airship Saturday night, as set forth in Associated Press dispatches, a Wichitan, J. G. Culbertson was in the French capital. Although the airship did not penetrate into the heart of the city, reaching only the outlying districts, it is probable that Mr. Culbertson was enabled to experience some entirely new sensations, as the privilege of being in a city when it is being bombarded by airships is not one that comes to many Texans.

Mr. Culbertson was in Paris on business when last heard from, several days ago, and is thought to be there yet. Frank Kell, who made the trip to Europe with Mr. Culbertson, is expected home tomorrow night, having been absent just a month. He reached New York Saturday on the steamer Noordam, after having been seven days on the voyage from England.

BURKBURNETT MAN WEDS BOWMAN GIRL HERE TODAY

C. E. Goins and Miss Johnny Crowell were united in marriage this morning by Rev. C. E. Buchanan, at the latter's home. The groom is a prominent farmer of the Burk Burnett community, while the bride is a member of a well known Bowman family. Mr. and Mrs. Goins left this afternoon for Burk Burnett where they will make their home.

BASEBALL PLAYERS COME UNDER COMPENSATION ACT.

By Associated Press. Austin, Tex., Jan. 31.—J. H. Fricke of the industrial accident board has advised Walter Morris, president of the Texas League, that the baseball clubs composing the league with the exception of Shreveport, La., come under the compensation act, as five or more men are employed by the respective club corporations. All that is now necessary for the club to get protection is to have an insurance company writing workmen's compensation cover the players with a policy in that way, 60 per cent of the salaries are paid during incapacity from injury sustained while at their occupation which would be on the playing diamond.

SAYS COLD HAS HIT GREEN BUGS

A. & M. EXPERT FINDS THAT MANY HAVE SURVIVED, HOWEVER

EFFECT OF WEATHER

Says Much Depends on Temperature. Finds Conditions Here Generally Favorable

Green bugs in Wichita county's wheat fields have been hit hard by the cold weather, but they are not yet wiped out, according to Prof. S. W. Bilising of A. & M. College, who this morning visited some farms northeast of the city about seven miles.

Prof. Bilising had to dig into the coating of ice which encrusted the plants in order to find any of the green bugs, but when he dug them up they were still alive in spite of the freeze. Mr. Bilising said that judging from reports of conditions that existed previous to the freeze, the bugs were much less plentiful. The farm visited was that of Frank Kraja, on which J. C. Hunt found the first green bugs in this section a few weeks ago.

"Much depends upon the weather," said Prof. Bilising, "cold weather such as at present will not kill all the green bugs, but it will keep them from reproducing. In general, I find the situation here much better than in other sections of the wheat belt; this and Denton county seem to be fairly free of the bugs. When the temperature is from 40 to 50 degrees it is warm enough for the green bugs to reproduce, but not warm enough to favor the parasites which feed on them."

Comparatively few of the bugs were found on the Kraja farm and there were evidences that the cold weather had made decided inroads upon them. Prof. Bilising did not find any of the winged green bugs. Where the bugs are in large numbers, many of them will be found with wings, he said, a provision of nature to disseminate the insects. The absence of any winged bugs indicates that they are not excessively numerous.

Prof. Bilising left this afternoon for Abilene, and will go to Winters, Rumples county, thence to Sweetwater, after which he will return to A. & M. He was accompanied on his trip this morning by G. C. Higby, manager of the Hunt elevator at Burk Burnett.

joy just hangs on every puff

How a pipe of "Tux" does bubble over with good cheer and sunny comfort! There's something about the mellow taste of "Tux" that stirs a smoker's soul. It gets into his inside works, sweetens his disposition, and gives him that perky, cheery feeling, like a high-stepper trotting down the avenue.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Men who never smoked a pipe before are now smoking Tuxedo, because they have found that Tuxedo is the mildest tobacco made, and that it is the one tobacco that never irritates mouth, throat or nerves.

You simply cannot get another tobacco made by the "Tuxedo Process"—and that's the original of all processes for removing every trace of harshness and bite from the tobacco. It has been widely imitated, but never duplicated.

Try Tuxedo for a week, and you'll get acquainted with the sweetest, mildest, mellowest smoke in the world.

YOU CAN BUY TUXEDO EVERYWHERE

al chemical laboratory were carefully examining a bomb weighing nearly six hundred pounds that had fallen in the courtyard of a factory and failed to explode.

Dozen Bombs Dropped. Altogether a dozen bombs weighing about six hundred pounds each, were dropped.

Few of the fatalities occurred in the open streets, the majority of the victims being killed in their beds.

A fog of considerable density hung over Paris at the time of the raid.

President Poincaré who, in company with the military governor of Paris and the prefect of police visited the scene of wreckage shortly after midnight, seemed greatly moved by what he saw. One of the houses that he viewed was that of Police Sergeant Bidault, who had just reached his home, and who was killed by a bomb which seriously injured his sister-in-law.

MAY GET TEACHERS' CONVENTION HERE

Wichita Falls is Candidate for Big Meeting to Be Held in November.

Wichita Falls may try to get the 1916 convention of the State Teachers Association. This convention which meets Thanksgiving week would bring 3,000 to 4,000 teachers to this city and would be one of the largest gatherings Wichita Falls has had.

Prof. Lee Clark is a member of the executive committee which will determine the meeting place. The committee will meet February 12 at Dallas to decide. Practically all the large cities of the State are seeking the convention and Wichita Falls has been entered as a candidate. It is probable that if the Chamber of Commerce offers encouragement, this city's claims for the meeting will be vigorously pushed.

Brownsville, Tex., Jan. 31.—Joseph Turner, 90 years old, and reputed to be the oldest American in this section of the country, died here today. He came here in 1845 with General Zachary Taylor's army. In 1846 he helped a civilian force to defend Fort Brown against attacks by Mexicans which lasted seven days.

AT THE THEATERS

The Empress.
Mary Pickford in one of her most famous roles, "Miss Nell" is to be seen at the Empress today. In this famous picture the petite actress portrays the rollicking court favorite, Nell Gwynn, the actress who in the time of Charles II, of England virtually controlled the kingdom. Miss Pickford's husband, Owen Moore, supports her in the role of the merry king and others in the cast are Arthur Hoops, Ruby Hoffman and Amelia Rose.

The Majestic.
A return date of "Silver Threads Among the Gold" is scheduled for today at the Majestic. Richard-Jose is featured in the picture which is a dramatized form of the famous old ballad. "Silver Threads Among the Gold." Ivan Marchison will sing at the night performances.

The Gem.
"A Model's Adventure," a four part Gem today. Alma Ruben and Paul Gilmore are featured in this play which depicts student life in Paris.

The Lydia Margaret.
George Ade's famous book, "Father and the Boys" has been put into picture form with Digby Bell, famous character actor in the leading role and this will be the attraction today at the Lydia Margaret. Louise Welch has the leading feminine role.

METRO SPECIAL AT THE EMPRESS TUESDAY.
"The Better Man" a play depicting a gigantic struggle between Capital and Labor will be on the Tuesday program at the Empress. This Metro feature includes in the cast Henry Holker, Elsie Halfour, Orlando Leah, Renee Kelly, J. H. Goldsworthy and Mayme Kelso.

UNUSUAL SETTINGS IN "THE SOUL OF BROADWAY."
The famous scene depicting the Gambling House of the Masked Woman in "The Soul of Broadway," the Tuesday feature at the Majestic, the latest elaborate and sensational photo-drama to be pictured for William Fox, is a titanic masterpiece of mas-

live stage construction and novel effects in decoration both bizarre and attractive. In this scene Valeska Suratt, the star of the new photodrama which was written and produced by Herbert Brenon, does a sensational fall down a flight of stairs forty-five feet in height.

The decorations of the Gambling House of the Masked Woman are all on a scale befitting the supposed magnificence of the most fashionable resort of its kind in the great city. An acre of space is covered by theesselated floor upon which are set the roulette and baccarat tables. Around the entire room the lofty walls are covered with giant playing cards as wall decorations and the banisters leading to the top of the stairs from which Miss Suratt falls are fashioned to resemble dice. Over the play tables the banister, too, represent "fives." Keel crumblers from certain gambling places frequented by fashionable folk in New York are seen taking in the coins and bills and a feverish-eyed crowd watches the play with almost savage attention. The entire scene is a masterpiece of life color and suspense, and when it is said that it took three solid weeks to construct it on the big William Fox open-air stages, it can be seen what a remarkable specimen of the work of the skilled producers of the Gambling House of the Masked Woman is.

CALVESTON BASEBALL PARK BEING PREPARED.

By Associated Press.
Galveston, Tex., Jan. 31.—The Pirates' playground, which the August hurricane missed considerably is being hurried into condition for the opening of the 1916. It is expected to be wholly ready by the middle of February in readiness for said pennant project. It is remembered that Galveston put up a mighty struggle last season and was only kept out of the top position by the storm and a few hard hitting batsmen. The grand stand, fences and grounds will be put in the same condition in which the storm found them. To do this much sand will have to be carted away.

NEGRO WOUNDED BY WOMAN YESTERDAY

Shooting Early Sunday in Floral Heights Not Expected to Prove Fatal.

Ether Washington, a negro, shot and seriously wounded Warner Hamilton, a negro, early Sunday morning. The shooting took place in a servant's house at the rear of the residence of W. B. Larkin, 2505 Tenth street. Several shots were fired.

The trouble started when the negro asked the negro to give her money to go to Waco. Esther claimed that Hamilton had money belonging to her. The negro refused and the trouble started. The negro grabbed a six shooter fired three or four shots. One of the bullets went through Hamilton's body entering above and to the left of his heart and coming out his back. The bullet was found sticking in the wall of the house. Hamilton grappled with the negro and finally succeeded in getting the gun away from her after which he lost hold over the head and with the gun still in his hand walked over to the street car tracks at the corner of Ninth street and Kemp boulevard where he took a car and rode to Brook avenue getting off there and walking over to the Wichita General Hospital. He turned the revolver over to one of the policemen on the way.

Chief of Police Nail had been notified about a negro on a street car with a revolver located Hamilton at the hospital a few minutes after he arrived there.

The negro took the street car following the one on which Hamilton rode to the hospital and rode downtown and had wounds on her head dressed after which she went to the negro-servant's house at the rear of Frank Cullinan's residence on Tenth street where she was found by policemen who brought her to the police station where she was turned over to the county authorities.

Hamilton who was a porter in downtown barber shop is not believed to be fatally injured. It is said he and the negro had been living together for some time.

RENEWAL BANDIT RAIDS AT TUXPAM

Oil Camps Reported Looted—Carranza General Promises Prompt Measures There.

By Associated Press.
Washington, January 31.—Renewal of bandit raids near Tuxpam, Mexico, a vicinity in which large American and British oil properties are located was reported in state department dispatches today. It was said some oil camps had been looted but that property damage was small and no foreigners lost their lives. The latest advances of General Navarro, commander of the district, has assured consular agents he was making an active campaign against bandits and that the de facto government troops soon would be in complete control.

A copy of a decree issued by General Carranza, provisional governor of Chihuahua, ordering that property commandeered during the Carranza and Villa revolutions be returned to their rightful owners the municipal government reached the department today. Ten days is allowed for compliance and heavy penalties are prescribed for refusal to comply.

PLANS FOR RESUMPTION OF STATE'S IRON OPERATIONS

By Associated Press.
Austin, Texas, Jan. 31.—Plans are on foot which may lead to the resumption of operations at the Rock Iron furnace which is owned by the state prison system. The Senate investment committee, which made an exhaustive survey of this plant and its possibilities, recommended that the plant be reopened but failed to say whether by private individuals or by the state. Governor Ferguson is considering the leasing of the plant to a syndicate of eastern capitalists. The present high prices ruling in the steel and iron industries are said

SAN ANTONIO DIGGING "WALLOW" FOR BUFFALOES

By Associated Press.

San Antonio, Tex., Jan. 31.—Building or rather digging a bathing place for its buffalo has been undertaken by the city of San Antonio in the interest of the sanitation and general peace of mind of the municipal herd—herd here. Recently when it was decided to move the herd to a new range adjacent to the new city zoo, keepers of the herd declared in favor of a "wallow" for the herd. This was taken up with the authorities and now it has been decided that San Antonio's buffaloes shall have a primitive hole in the ground in which to lol but a specially excavated depression fitted with running water and all the other comforts of civilization.

DALLAS INAUGURATES MID TERM EXAMINATIONS

Dallas, Texas, Jan. 31.—Promotions from ward schools of 358 students to the city high schools was to take place today, the beginning of the new school year. Of these 276 come from Dallas proper and the remaining 82 from Oak Cliff. The promotions are in line with the new plan of having two graduating classes, one in January and one in June. The total enrollment in the high schools will be brought almost up to 2,600 by today's promotions.

REPORT ON DRILLING OPERATIONS AT PETROLIA (Petrolia Enterprise) The following is a brief report on the drilling wells in the Petrolia field. The Developers Oil Company, Box No. 15, drilling at 750 feet. Their No. 4 on the same tract was completed last week and is now for about 40 barrels. Producers Oil Company, Myers, Nos. 8 and 20, drilling, both expected to be completed this week. Myers No. 29, drilling at 700 feet. Myers No. 29, which was completed last week is now for about 200 barrels. Wichita-Gas Company, Box No. 6, drilling about 40 feet gas sand at 515 feet, the first of the week, but will drill the 1700 foot sand. Henry Worth Oil and Gas Company, No. 2, lost hole at 1610 feet north and another location 20 feet north. The Findley-Minnick Oil and Gas Company made a new location, the first of the week on the Taylor tract. Only two shallow wells are now being in the field. The following is a brief summary of the daily production of the different companies operating in the Petrolia field. Producers Oil Company, 300 barrels. Developers Oil Company, 300 barrels. J. W. Colburn, 30 barrels. Success Oil Company, 15 barrels. Guffy Oil Company, 15 barrels. Shallow production, 1200 barrels.

WELL NEAR BURKBURNETT NOW LOOKS PROMISING (Burkburnett Star) The well being put down on the Pickle farm near Red river on the north side of Burkburnett by Andrew Urban and others, has reached a depth of 1900 feet and a stratum of oil sand 25 feet in depth has been penetrated. This is evidence that there is oil in that locality and strong hopes are entertained that at a greater depth it will be found in paying quantities. Most of the producing wells in the proven field have been drilled to a depth of 1600 to 1700 feet. The well north of town will likely be drilled to a similar depth or deeper unless oil in paying quantities is found sooner. This well is in new territory, being located several miles from the nearest producing well, and should a rich field be found at that location, it would be of great importance to Burkburnett and surrounding community.

MOONLIGHT SCHOOL IS PLANNED NEAR RANDLETT. (Randlett Progress) Our correspondent out on Rabbit Creek is authorized to state that a moonlight school is now in operation in that progressive neighborhood. Since schools of this kind were inaugurated in this place they have won plaudits from everywhere. It is entirely fitting that an especially nice school should be located in such an institution, one that will be the thousands of people in the

MARLIN WANTS ARMY HOSPITAL LOCATED THERE. (Marlin, Tex. Jan. 21)—An army hospital for this city is the object of a campaign which Major James Wagoner, through the instrumentality of Congressman Henry, Senator McCall, Sheppard and Congressman Burgess, Congressman Henry has introduced a bill to carry out the project. A similar institution is situated at Hot Springs, Ark., and the availability of such a hospital in this city would be a great benefit to the community.

Personals

Mrs. J. J. Mullins of Fort Worth is visiting J. C. Ziegler and family.

W. C. Myers, one of Wichita county's most progressive farmers, was a visitor here today.

W. Daniel of Burkburnett was here today on business.

Mrs. A. J. Morris of Chickasha, Oklahoma, was expected to arrive today. She is called here by the critical illness of her father R. D. Heck in Floral Heights.

Mrs. Fred Gilhouse and little daughter left today for a visit at Dallas. Mrs. Gilhouse will be joined there later by Mr. Gilhouse and they will go to New York to market.

S. E. Dempsey returned this afternoon from a business trip to Heffrit.

Saul Lebanon has returned from St. Louis where he made heavy purchases of merchandise.

Miss Obie Fatheree has returned from Nocona.

J. W. Cubertson and family drove out to Petrolia this morning in Mr. Cubertson's automobile, to see a new gas well drilled in. The new well is on the Matlock tract.

County Commissioner J. A. D. Smith of Burkburnett was here today on business.

H. H. Kleinman who for some time has had business connections here has moved to Dallas.

Mr. and Mrs. L. Levy and baby daughter have gone to Fort Worth, where they intend to make their home. Mr. Levy has been employed at Kruger Bros., jewelry store.

T. C. Thornberry and family left today for Amarillo, where they expect to remain until summer.

Mrs. W. R. Gregg left today for Dallas, Waco and Corsicana, where she will visit for some time.

Lank Thornberry who has been looking after the Wichita Mill and Elevator Company's interests at Amarillo came down Sunday and took his family back to Amarillo with him today. They will probably be located at Amarillo for several months.

Alex Calvert of Bartlesville, Okla., who is connected with the Warren Oil Co., with headquarters at Bartlesville, arrived yesterday to look after some of his company's leases in this section. He will be the guest today of his brother, James C. Calvert, advertising manager of The Times.

L. D. Adams, proprietor of the Oak Hall kennels at Meridian, Okla., is in the city the guest of Messrs Wilfong and Woods.

Mrs. Susan Kruger and children returned today after a week's visit at Fort Worth.

Editor Tom Parker of the Iowa Park Herald and wife were visitors here today. Mr. Parker has been sick since the holidays and Mrs. Parker has been running the paper.

Dr. J. W. DuVal

ARREST TO SMUGGLE FEATHERS.
By Associated Press.
Laredo, Tex., Jan. 31.—Abraham Kallman of New York was arrested and placed in jail here Saturday night by American customs officials on charges of smuggling feathers valued at \$9000 into the United States. The feathers were confiscated. Kallman, according to the authorities, recently shipped a large quantity of rare feathers from British India through the United States in bond with Mexico City as the ultimate destination of the shipment. The feathers reached Laredo about a week ago. The officials say Kallman arrived the next day, repacked the shipment into four bundles and exported them into Nuevo Laredo. In Nuevo Laredo the feathers were packed in a large trunk and it is alleged were smuggled into Texas and concealed in a house two miles from Laredo. Customs officers say they received a "tip" and watched the house. Kallman was arrested when he attempted to remove the feathers just before a train was due to leave for the north. The duty on the shipments, it was said, would have been approximately \$5500.

A LITTLE INFORMATION ABOUT OUR BUSINESS

Our records show that our business for 1915 was the biggest and best of any year since we commenced business.

OUR PRESCRIPTION DEPARTMENT made a big gain. We dispensed nearly double as many prescriptions in 1915 as in any previous twelve months. This makes us feel proud of our record as we realize confidence is the principal consideration in all prescription work.

BIG ADVANCE IN DRUGS—A great many drugs have made extreme advances; yet we have not, and do not intend to advance our price near in proportion to the advances that we have to pay.

We carry a most complete stock of drugs and druggists sundries. One can most always get what they come after when they come to our store.—**WE WANT YOUR BUSINESS.**

PERSONAL SERVICE!

Is it not a convenience to be in personal touch with the man that roasts your coffee? Then if it don't suit your individual taste you can explain just what you want and get it. Our blends are the result of a quarter of a century of painstaking research and experiment. Every pound of coffee is tested in the cup before purchase and every blend is put together with as much care as your druggist uses in filling a prescription—and best of all they are FRESH ROASTED.

WE ROAST COFFEE EVERY DAY!
