Column Left

For the children, the week comes in the manner of preparation — excitement turned into activity. Preparation means activities and games for weeks, walks home with the family, trips to places the children have only heard of. And the family begins to make plans for the weekend, which is the highlight of the week.

The column is written by a group of young people, mostly high school students, who are interested in the activities of the community. They are usually involved in some aspect of community life, whether it's sports, volunteer work, or other activities. They are a diverse group, with different backgrounds and interests, but they all share a love for their community and a desire to see it thrive.

EDITORIAL

Will Our County Fair Guests Find Clean Streets, Attractive Store Displays, Better Merchandise And Inviting Prices in a Big "Welcome" to Friona?

Could Some Housecleaning be in Order?

Friona will play the role of host next week and to the Farmer County Fair. The principles of it is a not a light one to be overlooked.

We will be privileged to renew many acquaintances, make new friends, and talk over mutual Texas that fosters the welfare of Farmer County—our crops, our farms, our schools, our churches, our farm organizations, our schools, our roads, our markets.

There is one opportunity for us to be even a better neighbor as we set out to this big group of our friends. Let us deliberately row every render, every participator, every neighbor that he is WELCOME in Friona, any time, welcome to visit and welcome to trade with merchants who work for his interests and the interests of more unified thinking and acting throughout the county.

There are big signs at the approaches to Friona that say: "The Big Little Town in the Panhandle." Well, and good. But let us make sure this word "Big" that we refer to means big in FRIENDLINESS, SIZE, and importance.

Recipe For Real Religion

Out religions like a Methodist, Mormon is like a Baptist. Stick is like a Congregationalist. Be proved of it like an Episcopalian. Simplicity

The Editor's Dilemma

Seeing out a publication is fun, but it's no picnic. If we print jokes, people say we are silly. If we don't, they say we are too serious. If we say funny things from other publications, we are not to write to them ourselves. If we do, we are too fond of our own stuff. If we don't print contributions, we don't get letters. If we do print them, the page is filled with junk. Now, for the lack of being, we did take the fr, of some other publication—we did.

STRENGTH AND SAFETY

The two elements which pertain look for in banking are Safety and Safety—the factors which have built the Friona State Bank into one of the pioneer financial institutions of this area.

We offer our customers the strength of a bank whose resources exceed any possible need of its customers, and in whose strength is found the ability to take care of all the needs of its patrons. This strength is present both in the financial resources of the institution and in the serious experience of its personnel.

We offer patrons of the Friona State the Safety inherent in an institution that has preserved through the years with a growing population and an increasingly prosperous citizenship. This security has been achieved through a history of sound operation, and adherence to the full program of regular methods of bookkeeping.

The Friona State is anxious to render every possible service to its customers, and the facilities which we offer are constantly modernized to meet our changing needs to be able to handle with absolute safety, any account too small to receive painstaking service.

Let the Friona State handle all your banking needs.

THE AMERICAN WAY

Personal Responsibility Cannot Be Evaded, Here or Elsewhere

From the Canadian Record

How many good and Christian men are in the world and are committed to the name and program of the movement of the imperial organization? The following article is taken from an article by Bernard E. S. Turner, minister of a Protestant Episcopal church who has been active here without further comment.

We are asked to imagine the following scenario: a young boy is walking along a country road with ordination. "My name is Joe Doaks," said the young man. Only one other person knew of the boy's existence. "And I am from Updale, U. S. A."

But Mr. St. Peter, it was the church of the country who spoke. The story made a great story to many different eyes that found the ability to carry on without further comment. "All I have lived here, I have lived free."

From the American Record

Back To College

Miss Myra Bishop, daughter of Mr. and Mrs. J. W. Bishop of Muleshoe, has begun the course in Updale which took several weeks ago.
