FRIONA, TEXAS, THURSDAY OCT. 4, 1951

Price 5c

Public Poll

Do you think there is oil in Farmer County, and would you like to have them discover oil here?

Ranza Boggess: Yeah, I found five gallons of oil this morning. I think it looks like there might be oil in the county and if they do find it, I think what ever company locates it will sure develop it. I don't see any point in just leaving it. Sure I'd like for them find it. I think everybody will agree on that question.

Edward Massey: Sure, I'd like to see them get some oil here.

C. L. Lillard: I don't believe they will find oil at 9,500 feet. I think they'll have to go deeper, but I feel like they will bring it in if they find some. No, it's kind of hard to say whether or not it would be nice to have oil here. There have been a lot of nice towns ruined because they discovered oil, had a boom, and three or four years later the boom was over. We have a lot of people living here in Friona who moved away from oil towns.

Orville Houser: I doubt if they find oil here, but I imagine if they do, they'll bring it in. Sure, I'd like to see them discover oil here.

Gordon Massey: No, I don't think they will, not right now; but I do think the oil is here. It's just another one of the oil games. When they get ready for it, they will take it, and until they do, they won't. Yes, I think it here, all right. And I do believe they are drilling for a deep well pool. They may have to go deeper than 9,500 feet.

New Arrival Can Boast Six Living Grandparents In Unusual Family Tree

Four day old Bonnie Marie Walker is much to young to realize what a rarity it is to have six grandparents, but nevertheless, she is blessed with such a family tree.

Bonnie is the daughter of Mr. and Mrs. Glenn Walker. Her maternal grandparents are Mr. and Mrs. Glenn Rutter of Hereford, and her paternal grandmother is Mrs. John Wood of Hereford.

Mrs. Wood's parents are Mr. and Mrs. Ira Miller of Friona, and they are the baby's great-grandparents. Mr. Rutter's father is D. L. Rutter, of Hereford, and Bonnie Ruth is his great-granddaughter, too.

And Bonnie Ruth? Well, she was born Monday morning, weighed eight pounds, and thinks all the excitement is a lot of nonsense. She just yawns and sleeps it off.

P-T A Membership Drive Underway

The period from October 1st through October 10th has been designated as special membership enrollment dates for the local Parent-Teachers Association unit; this organization open its membership to any adult professing interest in maintaining and improving the welfare of the children.

Annual individual membership dues for active members are 50c and are all inclusive for local, state, and national membership.

Since the membership controls the power and effectiveness of the organization performance and effectiveness, the P-TA officials urge all parents to unite with the body during the present drive.

Charles Is Named CROP Chairman

Wilber Charles of Bovina was elected county chairman at a meeting of pastors and laymen in Friona Tuesday night as organization of CROP was completed. Mr. Charles called a meeting of executive members for Friday night in Bovina where definite plans for acceptance of grain for shipment and distribution in Korea and Japan will be made.

Preceding the election of officers, a film depicting areas of destitution in foreign lands was shown. W. E. Fisher, Texas CROP representative, then outlined the general plan and operation of the Christian Rural Overseas Program.

Other officers elected were: Lance Hurst, vice Chairman for protestant groups, Raymond Euler, Chairman of information, Preach Cranfill, Commodities Chairman, Floyd Schlenker, Chairman of Canvassers, Frank Hastings, Chairman of Special Gifts, Wilfred Quickel, Secretary, Walter Hardage, Treasurer, and Bruce Parr, County Farm Bureau President, Exec. Mem. at Large.

The film, CROP, is available for showing to schools, civic clubs and churches free of charge. A newer film, Statesmen in Overalls, will be available shortly. Groups wishing the use of these films should contact Raymond Euler, in Friona or Joe Jones, County Extension Service Agent, in Farwell.

Docket Is Listed For Dist. Court

The civil docket of the Oct. 8 term of District Court has been announced, although no panel of jurors has been called. Judge Bills will hear the non-jury cases at this court, with only three jury trials being listed in the docket.

The docket is as follows: Mattie Belle Dickerson vs Volle E. Dickerson, Divorce.

Herbert C. Potts vs J. P. Maaron, Jury Suit for Debt.

Della Light, et vir vs Ralph Palamater, et al, suit for property.

Mary Jane Barker vs Della Light, et vir, Trespass to try title.

Mable Lena Pumroy vs Clyde A. Pumroy, Divorce.

Martha Lee Donelson vs A. F. Phillips, Jr., Damages, Jury.

C. M. Henderson vs Allen M. Crouch, Suit for Debt.

A. T. Beavers vs T. H. Haney, Damages, Jury.

J. G. Palmateer vs Della Light, et vir Bill of Revue.

Lucille Talley vs R. F. Talley & Aubrey Cole, Suit for sale of Property.

Standard Milling Co. vs H. C. Jackson, Suit for Debt.

Charles D. Buck vs Martha L. Walker, Child Custody.

Willie Lee Roberts vs Josephine Roberts, Divorce.

Re: J. B. Crow, Adoption.

Marion W. Adams vs Leona Pearl Adams, Divorce.

O. E. Stevick vs Beatrice Stevick, Divorce.

Richard T. Jenkins vs Reserve Life Insurance Co. Suit for Debt.

County-State Taxes Paid in October Draw Three Percent Discount

County and state taxes are now due, according to announcement by Sheriff Chas. Lovelace.

FIRST COTTON ARRIVES

Volume of Grain Entering Elevators Breaks Early Season Record for Area

Elevator men, amazed at the influx of harvested grain so early in the season, pointed out this week that more grain had been brought into Friona elevators by October 1, of this year, than at this early date on any other year they could remember.

Now the big question seems to be when will harvest hit its peak or will harvest just drag itself out over a long period of weeks without hitting a rush season?

Reason for the early harvest, which consists mostly of milo maize, was attributed to the long, hot summer which matured the grain earlier than usual, and to the fact that last year's wheat crop failure made more ground available for grain sorghum planting early in the season.

Representatives of seven elevators in the county together estimated that approximately 22 million pounds of grain sorghum had already been received in the Black, Friona, Bovina area.

Elevator men, who saw harvest get underway about four weeks ago, said they had anticipated a slow down until frost, but the grain keeps on coming in.

Most of the maize being cut is dry land grain, and yields are running as low as 300 pounds in a few cases to 2500 pounds per acre. Irrigated land is bringing two thousand to four pounds.

Apparently the yield is generally a little higher than farmers expected from dry land sorghum and a little lower than anticipated on irrigated land.

Tests are good. A few green loads have come in, but not many, pointed out officials. Most of the grain tested "pretty good grain, and mostly dry enough."

About ninety per cent of the grain being brought in to elevators is being stored.

Harvest usually does not start in earnest until frost, but this year's unusual weather conditions speeded up the ripening process. Agriculture officials estimated that approximately 250,000 acres of grain were planted in Parmer County this year, and all early season outlooks predict that this year's crop will be one of the biggest ever harvested in the county.

Dr. and Mrs. W. R. T. Metzner were houseguests in the home of Rev. and Mrs. Russell Winger in Hereford, Sunday evening.

MATCH THIS ONE!

Seventy-five years difference in ages of these birthday party honorees!

That is correct. Mrs. Carrie M. Bond, 90 years old, and her granddaughter, Muriel Ann Copeland, 15, were honored on their birthdays recently in the home of Mrs. Bond's daughter, Mrs. Ezra Englant, in Bovina.

All of Mrs. Bond's children were present for the occasion; they were Mrs. Muriel Copeland, Farmington, New Mexico; Mrs. Howard Schroeder, Borger; and Mrs. Alma Englant of Bovina.

Grandchildren present included Muriel Ann and Selby Copeland of Farmington; Stephen and Gerald Schroeder of Borger, Mr. and Mrs. Harold Copeland of Albuquerque; Mr. and Mrs. Jack Kesler of Jal, New Mexico, and Mary Alice Englant.

Mrs. Bond has been making her home in Bovina for the past several months but returned to Borger with another daughter after the Sunday celebration.

Water District OK'd in Parmer Voting, 112-83

Canvas of the Parmer County vote on the Water Conservation District was completed late tonight disclosing the county favoring the formation of the district by a sizable majority. The rural areas voted 82-64. The Farwell-Friona-Bovina city votes tallied 30-19 in favor. The county however rejected the proposed tax within the district.

Twelve counties have definitely voted into the district, director Tom McFarland of Hereford has disclosed, with returns from three counties complete. Nineteen towns voted favorable to the district.

McFarland states that 4,800,000 acres will be affected, and with so many counties voting into the district, it is expected that only a 2 1/2 tax on \$100 valuation (state and county) will be levied instead of the pre-announced 5c.

Jess Osborn of Muleshoe is the district director from this area, serving until the second week in January when a district-wide election will be conducted for county and district directors.

Marvin Massey Injured In Freak Accident Here

A freak accident at the Texico Service Station Saturday night injured Marvin Massey who was hospitalized overnight for treatment of severed lacerations on his head.

The accident occurred between six and seven p. m. when Massey was attempting to inflate a tire at the filling station. The tire blew out, knocking Massey into the grease room of the station where he hit his head on a grease rack. He was rushed to Parmer County Hospital and given emergency treatment.

Attendants at the station say that apparently a weak spot in the tire unable to withstand the growing pressure, simply blew out leaving Massey the victim of a most unusual accident.

Petitioners Ask Additional Paving By School District

Petitions signed by over 150 residents of the Friona School District were delivered today to school board president G. Preach Cranfill asking for pavement of the block on Cleveland Avenue between 8th and 9th streets in Friona.

The petitions specifically asked the board to meet in session at 8 p. m. this Friday evening for consideration of the petition, taking action and notify the city officials of their decision by 10 a. m. Saturday. Speedy action to approve or disapprove the paving was necessitated because of the construction firm being ready to move certain machinery that would be needed in the initial steps of the paving.

The petitions were signed by Ira Miller, Claude Miller, V. C. Krueger, T. J. Crawford, and others.

Friona Schools Cafeteria Menu:

Monday Oct. 8

Macaroni and cheese, green beans, beets, tomatoes, onions, peppers, bread, butter, milk, apple cobbler.

Tuesday Oct. 9

Fried chicken, mashed potatoes, English peas, cabbage, apple salad, rolls, butter, milk, applesauce cake.

Wednesday Oct. 10

Pinto beans, spinach, corn, lettuce and tomatoes, cornbread, butter, milk, chocolate cake.

Thursday Oct. 11

Ham, mashed potatoes, black-eyed peas, carrot-apple, pineapple, rolls, butter, milk, jello with fruit.

Friday Oct. 12

Fish potato salad, carrots, lettuce-wedge, rolls, butter, milk, peanut butter cookies.

The first bale of cotton ginned in the area was baled Saturday night at the North Plains Gin in Friona, according to owner Wright Williams.

Buck Fallwell, who has 150 acres ten miles south of Friona brought in the first cotton, and was awarded a bonus price of fifty cents a pound for his crop.

Strickland Receives Injuries in Korea

Corporal Strickland was wounded in action on the Korean battle front September 17th, according to word sent relatives here.

Strickland was hit with shrapnel just above the right ankle, and less than 20 minutes later received wounds in the left leg.

A letter to his parents here states that he expects to return shortly to the states.

Strickland is the son of Mr. and Mrs. Paul Strickland of Friona, and a brother to Mrs. Ruben Taylor here.

Material Scarcity Slows Construction School Addition

Friona's new public school addition should be ready for occupancy by November 15, according to Contractor G. Williams, who attributed the delay in completing construction to the difficulty in obtaining many necessary materials.

The building is 40 by 90 feet and this year will house four classrooms, a study hall, a superintendent's office and two rest rooms. Next year the temporary partitions will be removed and the building converted into a cafeteria with a kitchen, storage room and dining room.

Permanent construction of the new building is in line with the style of architecture used in the other new buildings in the school system.

It is of brick construction, backed by concrete tile, with outside steel windows, a built up roof of gravel and a straight acoustical ceiling.

The study hall will be converted out of the floor space on the north of the building, with three classrooms on the south opening into the study hall and a classroom and superintendent's office at the west end. This class room will eventually be the kitchen and the office will be turned into a storage room. All plumbing facilities and a place for a ventilating fan have been installed in the kitchen to simplify conversion.

Conventional electric lighting and not fluorescent lights will be used throughout the building. The floor will be concrete with asphalt tile installed in all but the rooms on the west.

Work on the building has been facilitated by satisfactory weather conditions, but the delay in receiving much of the material has enabled workmen to keep up with the job. Employed on the job were four brick layers, two laborers and two carpenters.

Interior finish of the classrooms will be decided by the school board at a later date. Paint will be applied directly over the concrete blocks, however, and the rooms is not to be plastered.

Fallwell is picking cotton on an irrigated piece of land averaging about three quarters of a bale per acre, according to attendants at the gin.

Saturday night's activity at the gin involved the first bale of cotton to be run through the \$80,000 gin just being completed in Friona.

Fallwell brought in 1890 pounds of lint cotton and the bale weighed out at 484. Staple length of the cotton was 13.10. Fallwell is planted Macha cotton and this crop is being picked by hand. Later he plans to use a machine.

"This is pretty good cotton," said Williams. "And it is the first time Fallwell has planted any cotton, too, and he made a mighty good crop."

Williams estimated that the bulk of harvest would be getting underway soon after October 21.

A sample of the fiber was sent to the Government Testing Station at Lubbock where they run an accurate test to analyze the quality of cotton grown and ginned throughout the South Plains and Panhandle areas.

CHARGED PAIR HELD

Lester Douglas Stevens, one of the pair charged this week with the mid-August slaying of Jehu Blocher of near Muleshoe, was being lodged this week in the Parmer County jail at Farwell.

Clifford Livesay, younger of the pair, was taken to the Bailey County jail.

The two men, both smelter workers at Amarillo, implicated themselves in statements after an intensive investigation had been conducted by panhandle peace officers since the slaying. Sheriff Charles Lovelace and Bailey County Sheriff Hugh Freeman have been reported following down all leads on the murder which shocked the entire area.

Dr. Spring Speaks To Messenger H.D. Club

The Messenger Home Demonstration Club met with Mrs. J. T. Guinn and her mother, Mrs. H. L. Daily, in Mrs. Daily's home on Friday, September 28.

After the meeting was called to order by the incoming president, Mrs. N. A. Brown, a talk on heart disease was given by Dr. Paul Spring of Friona.

Home Demonstration Agri-Argen Draper of Hereford conducting tailoring training schools for the clubs, and many of the local members' dresses or suits to be shown in the dress review at Hereford on October 26. Mrs. Draper has recently attended the tailoring school at Stephenville.

Refreshments of ice cream, cake, and lemonade were served to fifteen members at the Friday meeting.

Your Newspaper Lights the Way to Freedom - theme of National Newspaper Week in America, October 1st - 8th

Governor Issues Proclamation

EXECUTIVE DEPARTMENT
AUSTIN, TEXAS
September 27, 1951

ALLAN SHIVERS
GOVERNOR

Mr. Brad H. Smith, President
Texas Press Association
441 Driskill Hotel
Austin, Texas

Dear Mr. Smith:

With a full realization and appreciation that a free press is a bulwark of the American way of life, I consider it most appropriate that National Newspaper Week is to be observed October 1-8, inclusive. During the present unsettled world conditions it is entirely befitting that this nation and the State of Texas pay tribute to an organization that must play a vital role in the days which lie ahead.

To chronicle the many contributions of the press to our Democratic nation and to the development of a world civilization is impossible. From the smallest hamlet to the largest metropolitan center newspapers constantly have been, and will continue to be, in the foreground championing civic, governmental, educational, cultural and religious improvements. In the field of international events, the diligent efforts of a vigilant press have made the people of our nation the best informed in the world.

A free press means a free people. The history of the world has taught us that nations which censor and hamper a free press do not survive. I am convinced this will continue to be true in the future and that the iron curtain of communistic countries will represent but another chapter in the fate of tyrannical governments which saw fit to interfere with a basic freedom—a freedom of the press. Truly "Your Newspaper Lights the Way to Freedom."

To a free press of Texas, to the members of the Texas Press Association and to our great newspaper industry I offer my sincere congratulations. It is my earnest wish that National Newspaper Week be observed by all Texans with just tribute being paid to a worthy organization and industry.

Sincerely yours,
Allan Shivers
ALLAN SHIVERS

Do You Remember ?

October 5, 1928

Twenty-three years ago the Friona Star announced to its readers that wheat sowing season was nearing the end, and that a large acreage had been seeded for next year, in fact "by far the largest wheat crop ever planted in the Friona territory is being put into the ground this season." Crops ranged in size from 80 to 1800 acres.

"According to the best information the writer has received, F. N. Welch, whose farm is about seven miles northeast of Friona, the largest acreage in this territory with 1,850 acres. Other large acreages reported are L. F. Lillard, 1,000 acres; J. W. Parr, 950 acres; E. B. McLelland, 1050 acres; O. G. Turner, 850 acres; C. C. Maurer, 960 acres and F. W. Reeve, 600 acres."

The Friona Arrow, high school publication had been renamed for the new year. Officers for the paper were Margaret Goodwine, Editor in Chief; Elvin Johnson, Business Manager and Athletic Editor; Thelma Osborn, Senior Class Editor; Alma Newman, Junior Class Editor; Dayton Hanson, Sophomore Class Editor and Field Groe Freshman Class Editor.

As for high school football, the story reads:

"The Friona high school grid boys drove to Adrian last Friday and engaged the boys of the Adrian school in a hotly contested game of football.

"This was the first contest game our boys have had this season and it is reported they played a good game, although four of them had never played until this season.

"While the whole team played like veterans, they were defeated by the small margin of one point. The score stood 7-8 at the close of the game."

Among the personal items: Mr. and Mrs. John Baxter and family, of Elk City, Oklahoma, who have been visiting the past few days with their nephews, Clarence and Charlie Baxter, returned home Thursday. They were accompanied by Mrs. Lela Woodman and Junior.

Mrs. R. L. Dilger returned Wednesday from Amarillo where she had been completing a course in finger and water waving.

Katie McFarland, who teaches school in Canyon, spent the week-end with homefolks.

Mr. and Mrs. R. L. Bledsoe and Bettie and Mary Frances attended the funeral of Mrs. J. O. Jones at Abernathy.

And according to the ads: J. J. Horton advertised: "Wanted-Your Heads and Your Ears." Elaboration, disclosed he was in the market for maize heads, hegari heads and corn in the ear.

October 1, 1937

Nine years later, the Friona Star was a tabloid newspaper "devoted to the interest of Friona and Parmer County." It was an 8 page paper and news items included:

Judging from the number engaged in it, the day must have passed when crime doesn't pay.

It's hard for some people to turn a cold shoulder to a hot spot.

The straight and narrow path would be much wider if more people traveled it.

The more happiness you pass on to others the more you have left for yourself.

Poor eyesight won't get you out of the army nowadays. They just put you up front where you can see better.

One thing can be said for multi-married women, they are well groomed.

The way to make your dreams come true is to wake up and get busy.

A bachelor is a guy who doesn't believe it is unlucky to postpone a wedding, so long as you keep on postponing it.

A wife with good horse sense never becomes a nag.

minated in marriage, although the news of it reached this community rather unexpectedly.

The wedding took place on September 12 at Seminole, Texas with Mr. and Mrs. R. L. Jones as witnesses and very close friends of the bride and groom, Mr. George W. Arnold of Parsons, Kansas and Mrs. Edith Camplin of this community.

Mrs. C. C. Boren attended the soher on Wednesday of last week given in the home of Mrs. Barnette in honor of Mrs. Juanita Isham.

Mr. and Mrs. Roy Clements and Miss Gladys Settle drove down to Lubbock, Sunday, and spent the day visiting with Miss Geraldine McFarland, a sister of Mrs. Clements; and Miss Eva Settle, a sister of Miss Gladys.

J. M. Blackwell, who was quite poorly at the first of the week, is reported to be gradually improving and hoped to be able to sit up a part of the time Thursday.

Miss Margaret St. Clair, Parmer Home Demonstration Agent, is quite busy and deeply interested in the preparations and success of the Parmer County Club Woman's Exhibit, which will be held here on Saturday, Oct. 9.

THE AMERICAN WAY

Caught In The Act

W. J. (Pop) Krohne and Sailplane "Comet"

-Friona Star Photo

Flying Enthusiast Glides from Odessa to Friona In Sailplane of Own Design; Qualifies for Award

A lot of people past 50 years of age still are awaiting their first plane ride, but not Walter J. (Pop) Krohne, a recent visitor in Friona, for Pop Krohne, age 63, soared into the local air-ports piloting his own soaring plane after a trip beginning at Odessa, Texas, 195 miles distant!

Probably the most significant aspect of this particularly flight was the fact that Pop announced his destination before leaving the Odessa airport, naming Friona as landing place . . . and that is no mean trick in a soaring plane, the professionals assure.

Qualifying for a diamond in the Golden C lapel emblem awarded by the Soaring Society of America, Pop Krohne met all the qualifications of this flight of flying 187 miles, remaining in the air over 5 hours, and gaining a 9,840 foot rise from point of release, and naming of destination. Krohne said he reached 12,000 foot altitude on this flight, being above 10,000 feet much of the time. He left Odessa, at 10:55 in the morning, and after circling Friona a few times, landed at the airport at 3:30 p. m.

Pop Krohne just flies for the fun of it, his income is derived from other sources, principal of which is his 6,000 acres of pasture grasses which he grows for the commercial sale of seed. This tract is near his hom at Maotland, Florida.

Krohne does most of his flying in Texas, although he has soared in Florida, California, New York and various other places, making the national meets at Elmira, New York, Wichita Falls, Texas, and

Grand Prairie, Texas. He says he prefers the Texas conditions conducive to soaring because of the extreme dryness, high cloud base, high temperatures, and other favorable soaring conditions existing here 10 months out of each year.

The sail plane used by Pop is one he re-built from a surplus army craft. Dubbed the "Com-

et" it has a 50-ft. wingspread, weighs a mere 517 pounds, and has a glide ratio of 32.1. This ratio was 1-1 on the original model, and Mr. Krohne increased it 100 percent by various innovations and rebuilding. This ratio simply means that the plane will glide 32 feet for each foot of fall, he pointed out.

Do the Job With a Classified

The Law and You By Robt. (Bob) Kirk

DO YOU KNOW what a "citation" is? If some day the sheriff were to come to you and tell you that he had a citation for you, and hand you some papers, would you know what you had and what to do about it? In all civil suits, when a case has been filed asking for damages, or other relief within the authority of the Court, it is necessary that all parties to the suit be notified that a suit has been filed. This notice is called a citation.

The clerk of the court prepares the notice, and gives it to an officer to be delivered to the parties to the suit. It is the duty of the officer to deliver to each of the parties to the suit a copy of this notice. Having delivered the copies of the notice to the parties, the officer then makes a report of these deliveries on a duplicate copy of the notice and returns this to the clerk of the court to be filed with the papers of the suit. A citation requires that the party receiving the same take notice of the filing of the suit, and to make his answer to the same within a specified time. Upon receiving a citation, a person should take it immediately to the attorney of his choice and discuss the same with the attorney. FOR FURTHER INFORMATION ON THIS SUBJECT, SEE YOUR LOCAL ATTORNEY. Mrs. Maude Waggoner, sister of Mrs. J. M. MacAdams of Friona has returned home after making an extended visit with her daughter in California. Mrs. Waggoner makes her home here with her sister and brother-in-law, Mr. and Mrs. MacAdams. Mrs. Joe Johnson spent Sunday and Monday with her son and wife Mr. and Mrs. Roy Lee Johnson of Amarillo. Cecil Robison was in Portales Saturday night attending the football game at Eastern New Mexico college.

EDITORIALLY SPEAKING . .

National Newspaper Week is being observed the nation over as this paper goes to press.

We like the idea of such a week, for it is one in which everyone can participate to the edification of home and country. It is a time when we can become better acquainted. . . familiarizing ourselves as readers or publishers with our part in the great American scheme of channelling "truth to a free people."

In looking through our exchange publications we find that the weeklies from Coalinga, California, to Leesburg, Florida, and from Water-ville, New York, to Walluku, Hawaii, are still plugging away at their task of disseminating the news.

And in this job of disclosing in print the events of the day, there are a number of points not readily understood by the average reader. We refer specifically to that of exposing events or controversies that possibly could be quietly settled out of print.

Mind you, any step toward suppression of correctly reported news is a dangerous move, inviting the would-be demagogues to take over, being able to maneuver undercover without the public knowledge. Now we do not infer that every item one would wished suppressed is a direct link to scandal, but we do say that no exception can be made in regards to coverage in a free press.

On the local level, this paper with most others throughout the country, prints the news as seen. For temporary periods it may seem that we have printed some items which do not benefit the town or county. We don't make the news, we report it. And certainly our contribution in our country's fight for truth and freedom will be of greater measure when reporting all the facts, than were we to screen the events. We dislike any form of censorship of facts, whether practiced by a publisher or by the president. In the latter case we of course exclude action in wartime.

If at anytime we take it upon ourselves to dictatorially report only the glossy side of the news, then we no longer have excuse for existence in this or any other community.

YOUR VISIT INVITED

Enough of the "policies" of this publication. Why not get better acquainted during this week? We would like for you to drop by for a chat, and while here you might like to look over this typical weekly plant, learning first hand the processes of newspaper printing and publication. Bring your children if you like, for we have found the presses and the linotype machine to ever be a source of interest to the little folks. Maybe you don't understand how we transfer a picture

to print. Possibly you have never seen a machine-set line of type; maybe you've never seen an automatic press.

We would like for you to understand more of the typography of the newspaper. Did you recognize that even type faces had character. . . how the printer must select from the multitude of type faces to find the correct one for each use and purpose. Yes, there's definite art here, and it is used to design your individual advertisement for best effect, or to emphasize this article or that feature. A good printer fits his type to his copy as a well dressed woman fits her costume to the occasion. There is even the right way and the wrong way to head each story; one way easily read and understood, the other fisleading or hard on the eyes. Had you noticed these things? If not, then the reason is because that this newspaper is typographically above average. Even our type face is designed to convey thought without intruding on the reader's consciousness.

What we are trying to say is that we would like to have a visit from you at any time, and especially this week; we'll reciprocate in time!

**SMALL BUSINESS
ON HARDER**

Congressional revolt on control measures could be forerunner of a very healthy movement.

It could mean end to all controls. Many bureaucratic economists run around Washington today with very red faces.

Merchandise shortages, heralded for months, have not occurred to any considerable extent. Retailers in apparel, dry goods, appliances have taken heavy price reductions the past few weeks trying to move goods. Warehouses are bulging.

Washington officialdom has come perilously close to talking country into depression.

The economy is unhealthy today.

But even a very healthy man could be made quite sick if a few quick surgeons performed drastic operations to take care of some condition they feared he might acquire in the future.

Actually, so-called control measures have been meaningless.

With fanfare the Office of Price Stabilization forced retailers to spend thousands of extra dollars making up ceiling price lists.

Yet, with so much strong competition for the consumer's dollar, or the part remaining after taxes, few, if any items, are sold at the "ceiling" prices.

Credit control is a smoke screen. Issue of whether a man should pay for a new car in 15, 18, or 21 months is a side issue on controlling inflation.

Big financial houses who have influence with Federal Reserve Board, apparently are guiding lights behind credit restrictions.

There has been a fear that if Korea ends, mounting unemployment would leave financial houses with extensive repossessions.

The biggest force for inflation is found in Washington.

That is the constant drive by bureaucrats to spend more billions in fantastic schemes all over the world.

The new report by the Federal Trade Commission shows clearly how the greedy maw of the bureaus swallows dollars.

For example, food manufacturing concerns, in the first quarter of this year, paid out almost half of their profits in income taxes. After taxes, food companies profits were 2.8 cents out of each dollar sold. But oil companies, who maintain a price structure that apparently eliminates any price competition, made a profit after taxes of 19.2 cents from every dollar of sales.

It is interesting to note that cartel oil companies are one of the prime beneficiaries of the Marshall Plan. On a recent typical day, ECA announced another \$13,000,000 outlay.

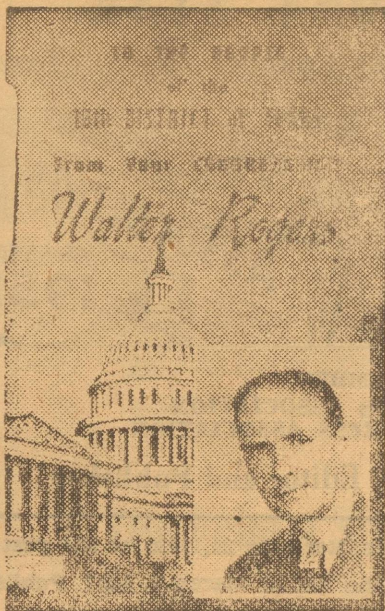

Of that total, almost one-third, or \$4 million was for oil from Saudi Arabia and Iran for the Netherlands and Norway.

There is no denying there is a grave danger from inflation.

But it is hard to conceive that if Mother needs a new range to replace the one burned out, that she is endangering the country by paying for it in 24 months instead of 15 months. On the other hand, it should be simple to see that giving away billions of dollars of American products will, and has, caused inflation.

One major control is needed.

That is control of government spending.

September 28, 1951.

TAX EXEMPT EXPENSE ACCOUNTS:

The Senate on September 27th, by 77 ayes to 11 nays, adopted an amendment to the Tax Bill repealing tax exemptions for the President, Vice-President, Speaker of the House, and Members of Congress in so far as the tax exempt expense accounts of these officials are concerned; the amendment to be effective as of January 3, 1953. You will remember that I introduced this piece of legislation shortly after I was sworn in. The difference between the Senate amendment and the bill that I introduced is that the effective date of my bill would be much earlier than January 3, 1953. Under the Constitution it would be impossible to make any change in the expense account of the President during the term for which he is elected. It is my opinion that when this matter comes before the House of Representatives, the Senate amendment will be adopted. It has been my contention all along that elected officials are in a no different category than any other individual in any event, and certainly not concerning tax matters. I do not feel that a blanket tax exempt expense account should be available to anyone, regardless of position, as it could very easily lead to a situation where a great number of people both in public and private life could employ that method as a tax

loop-hole and the result would be abuses that would be unfair and discriminatory. Fairness and equality in the carrying of the tax burden is an absolute must under the Democratic form of government. There are many loopholes that are being employed at the present time but these are being fast discovered and closed. The sooner all of these are closed the sooner we as individual citizens may expect some lightening of the heavy tax burden that we are carrying.

DREW PEARSON VS. SENATOR McCARTHY:

The great battle of charges and counter charges continues on the Washington front, and one phase of it has shifted from Capitol Hill to the courthouse, where Drew Pearson is suing Senator McCarthy of Wisconsin, the Washington Times-Herald, and nine other defendants. The case grew out of an altercation at the swank Sulgrave Club here in Washington. Whether or not the Sulgrave Club is swank is hearsay with me as I have never had the occasion to visit it. I have talked to several of those who were present at the dinner the evening of the difficulty between Drew Pearson and Senator McCarthy and I have heard several stories, all just about alike, except a little difference in detail. The case is now in the pre-trial stage, that is the testimony of the interested parties is being taken. A move was made by the defendants to prevent the proceedings or the testimony so taken to be published. I was rather surprised at this move on the part of Senator McCarthy and the Times-Herald as it certainly would have been at least a limited infringement upon the freedom of the press. The Judge, however, refused to allow the proceedings to be secretive. The testimony growing out of this proceeding is affording the residents of this section of the country some juicy reading material. From the local newspaper accounts it would seem that the entire proceeding is going along on the theory of "everytime you call me a bad name, I'll call you a worse one." It seems that name calling and accusatory throwing are becoming fine arts. This would probably develop into a new field for public relations firms. One bit of testimony that caused some furor in the Pearson vs. McCarthy case was that brought out by Pearson's attorney Roberts to the effect that Senator McCarthy's income tax returns over a period of several years prior to his appointment to the circuit court bench showed operations that exceeded the usual losses in stock market Senator's income. However, the attorney for Pearson indicated by his questioning, and referred to an income tax return—that there was an increase in the income of the Senator to \$38,000. According to the local papers, Senator McCarthy refused to divulge where the \$38,000 came from. This type of testimony is merely a forerunner of what can be expected during the actual trial of the actual trial of the case.

PUBLICATION OF INCOMES OF OFFICIALS:

Talking about incomes, the President's message to the Senate and House of Representatives advocating an annual publication of incomes of elected and appointed public officials certainly caused some repercussions on the Hill. It was interesting to note that some of the Senators who have been crusading for every type of investigation apparently do not want to make known their own personal business. Frankly, I can think of no honest reason why any public official would want to hide his income or the source of his income. Certainly senators and congressmen should not be exempt from the searching light of truth any more than they should have tax exemptions. It is a well known fact that some of the elected public officials in the Congress have a pretty sizable income from lectures, speeches, and appearances, and of course there has always been a great deal of rumor about the income of elected officials from outside sources. If the elected officials are required to publish an annual statement as to their incomes, there would need to be no further guess work or rumors about the matter, and the people would have the exact truth, unadorned, to which they are entitled.

1,335 Feet Per Second!

PITTSBURGH—A 22 calibre bullet with a muzzle speed of 1,335 feet per second or about 909 miles per hour is fired at a piece of Multiplate 3/4-inch thick in tests conducted by the Winchester Repeating Arms Company laboratories. This 3/4-inch piece of glass, made by the Pittsburgh Plate Glass Company, stopped all 22 calibre bullets used in the tests. Four cameras and two microflash lights were used to record the tests and the cameras were actuated by a electric cell.

"SMALL BUSINESS" By C. WILSON HARDER

Cheaper prices has long been the battle cry of those who seek to justify monopolies in this country.

The argument has been that if only a few big companies have the business, they can give the public a cheaper and better service. This has been disproved many times, but so often the proof is wrapped up in technical factors that the full significance escapes the general public.

However, the investigation by Sen. John Sparkman's Senate Small Business Committee into certain actions of the Civil Aeronautics Board to eliminate all but the very large air transport corporations, brings out in a crystal clear detail that all too often the big operator is the inefficient operator, with resulting loss to both the consumer and the taxpayer.

The CAB so far at least, has the power to limit the operations of any airline. This bureau has consistently classified airlines that operate without government mail subsidies, and at twice the price of the Big Airlines, and which still show a profit, as irregular airlines.

This has caused many a Washington observer to comment: "This shows the decay of bureaucratic thinking. Now any business that makes money while offering the public a lower price, without favors from the U. S. Treasury is irregular."

The Big Airlines operate on a fare of 6 cents per mile, plus millions of dollars in mail subsidies.

But a so-called irregular line operating 4 planes between San Francisco and Los Angeles, carries passengers for 3 cents per mile. Audits show the independent company makes a profit of \$100,000 per year.

This same company, California Central, would like to expand flights across the country with the 3 cent fare.

But the CAB will not permit them to cross a state line.

Air Transport Associates, operating from Seattle to Alaska, has cut freight rates to Anchorage, Alaska from 63 cents per pound to as low as 15 cents per pound; passenger fares from \$130 to \$60.

The CAB finds this is quite irregular, too.

American Air Transport has lowered fares between New York and Miami. Businessmen can afford 3 buying trips a year to New York instead of one.

This is also irregular, and the CAB wants to stop people from getting low cost fares.

Recently, on two consecutive months, national magazines ran articles warning that irregular lines are unsafe. Accident records do not back this up.

But when Senate Small Business Committee invited authors and editors of these articles to appear, they declined.

Every businessman should analyze his own business carefully. If the business is making money, paying taxes, offering the public a lower price, and at the same time keeping in operation without benefit of government subsidies, the business should feel fortunate.

But don't be surprised if some bureau doesn't condemn the business as irregular. It would be irregular in Russia too.

Fulcher, Thompson Bring Home Top Honors from Fair

Parmer County exhibitors took their share of honors at the Tri-State Fair in Amarillo last week, with the lion's share of awards in the Brown Swiss and Milking Shorthorn divisions being copped by local exhibitors.

Martin Fulcher of Black showed both the grand champion bull and grand champion female in the Brown Swiss division. J. S. Thompson and son of Friona dominated the Milking Shorthorn Division.

Milking shorthorns: Two-year old bull, Wolf and Thompson, Friona, 2nd; Bull calves, Thompson and Son, Friona, 3rd and 4th; Mature cows, Thompson and son, Friona, 4th; Cows three and four years old, Thompson and Son, Friona, 2nd; Cows two years old, Thompson and Son, Friona, 1st, Thompson and Wolf, Friona, 3rd; Senior yearling heifers, Thompson and Son, Friona, 1st; Heifer calves, Darrell Thompson, Friona, 1st, Thompson and Son, Friona, 2nd and 3rd; Grand Champion, Thompson and Son, Friona, Reserve Champion, Darrell Thompson, Friona; Trio of cows, Thompson and Son, Friona, 1st; Pair of cows in milk, Thompson and Son, Friona 1st; Graded herd, Thompson and Son, Friona, 2nd; Yearling herd, Thompson and Son, 1st; Pair calves, Thompson and Son, Friona, 1st; Get of Sire, Thompson and Son, Friona, 1st; Best under class, Thompson and Son, Friona, 1st and 2nd.

Brown Swiss: Bulls three and over, Martin Fulcher, Black; Senior yearling, Martin Fulcher; Senior bull calves Witherspoon and Spradley, Hereford, 1st, Martin Fulcher, Black, 2nd and 3rd; Junior bull calf Martin Fulcher, Black, 1st, Rose and Fulcher, Black, 2nd; Grand Champion, Martin Fulcher, Black; Cows four and over, Martin Fulcher, Black, 2nd and 3rd; Cows three and under four, Martin Fulcher, Black, 1st, Rose and Fulcher, Black, 2nd and 3rd; Heifers, two and under three, Robert Kerschen, Hereford, 1st, Martin Fulcher, Black, 2nd; Heifer senior yearling, Martin Fulcher, Black, 2nd; Heifer junior yearling, Martin Fulcher, Black, 1st; Heifer senior calf, Martin Fulcher, Black, 1st and 2nd; Heifer junior calf, Martin Fulcher, Black; Grand Champion Martin Fulcher, Black; Best udder cow, Martin Fulcher, Black; Dairy herd, Martin Fulcher, Black; Best three females,

Annual Bureau Meeting Program Being Planned

John C. White, State Commissioner of Agriculture has been invited to speak at the annual meeting of Parmer County Farm Bureau. Mr. White's reply has not been received, but the Directors insist that there will be an outstanding speaker for the occasion at which two community directors will be elected as well as the President and Vice-President. Billie Sudderth is the retiring director at Bovina and Melvin Sachs at Rhea. The term of office expires for Bruce Parr, president and James Roach, Vice-president.

Higgins-Bernard Vows Read at Hereford

On Sunday morning, September 23, Miss Alberta Higgins, daughter of Mr. and Mrs. Fred Higgins of Hereford, became the bride of Frank Bernard of Friona. The single ring service was read in the First Methodist Church at Hereford with the Reverend Don Davidson officiating.

Preceding the ceremony, Mrs. Clay Ridgway played "Romance" by Listz and Lloyd Parsons played "I Love You Truly." David Goldston sang "Because" accompanied by Mrs. Ridgway who also played the wedding marches and gave musical background for the ceremony.

Given in marriage by her father, the bride wore a ballerina length dress of white slipper satin fashioned with fitted sleeves tapered to points and tiny satin buttons adorned the front of the blouse from the neckline to the waist which was attached to the skirt with a cord of satin. Her veil of illusion fell from a tiara of white carnations and she carried a white Bible with the wedding bouquet of red roses surrounded with carnations.

Her matron of honor was Mrs. Buck Irving who wore a dress of rose pink taffeta styled similar to the bride's, and carried a nose gay of white carnations.

The best man was Buck Irving.

Following the ceremony, a reception was held at the home of Mr. and Mrs. C. R. Higgins for members of the bridal party and immediate family.

The couple will make their home in Friona where Mr. Bernard is engaged in farming.

Martin Fulcher, Black; Get of sire, Martin Fulcher, Black; Produce of dam, Martin Fulcher, Black.

GOOD HEALTH

1. WHAT CAUSES MOST CHRONIC DISABILITY?

Answer to Question No. 1:

1. The greatest cause of chronic disability in the United States is arthritis and other rheumatic diseases. The total number of victims is as great as the combined population of Los Angeles and Chicago, 7,500,000. There are 147,000 persons completely disabled from these causes, 800,000 partially disabled and more than 6,000,000 who suffer from continuous or recurrent pain. New drugs and treatments are helping many and offer the hope that medical science will add yet another to its list of conquered diseases.

Answer to Question No. 2:

2. Trained health personnel is of supreme importance in defense against the results of atomic bombardment. Hospitals may be bombed out but it would

be difficult to wipe out the trained personnel of an entire metropolitan area. So long as there are doctors, nurses and first aid workers in sufficient numbers, the injured can be cared for. Some member of every family should have first aid training.

Answer to Question No. 3:

3. Before the days of anti-septic surgery, surgeons wore their oldest coats for operating and sometimes used the same coat for as long as 20 years. After Dr. Joseph Lister's discovery of the principle of antiseptics a radical change in dress occurred. Eventually the sterile hospital gown and mask as we know them today were adopted. Modern surgical cleanliness has saved countless lives.

(Copyright 1951 by Health Education Foundation)

Mrs. Jerry Sherrieb Installed as WMS President, 1951-52

The Women's Missionary Society of the Baptist church met Tuesday night at the church for the installation of the new officers for the coming year.

After group singing of "All Hail the Power of Jesus' Name" the guests and members proceeded to the Educational Building which was very appropriately decorated as a ticket and baggage office of a passenger depot and the dining room as a special dining car, theme being "The Heaven Bound Train." As each special guest and member to be installed registered and secured their ticket they were presented with a lovely carnation corsage carrying out the purple and white color scheme. After baggage was checked Rev. Russell Pogue gave the invocation. Then all enjoyed a lovely buffet supper of a salad plate in the flower bedecked special dining car.

Special Music of "Be Still My Soul" and "Take Time to be Holy" was rendered by guest trio composed of Gaye McFarland, Joyce Miller, and Denise Magness, and a duet of "Happy Day Express" by Judy and Janet Smith, young daughters of Mr. and Mrs. Ralph Smith, during the dining hour.

As a special guest and installing officer, Mrs. O. G. Hill, Hereford, Tierra Blanca Association President was graciously presented by Mrs. Jerry Sherrieb. After another special number by the trio of "Majestic Sweetness Sits Enthroned," Mrs. Hill very ably conducted the installation of the following officers: Mrs. Jerry Sherrieb, President, Mrs. C. E. Hall, Recording Secretary,

Mrs. Ray White, Corresponding Secretary, Mrs. Eva Miller, Treasurer, Mrs. Joe Menefee, Ruth Circle Chairman, Mrs. Joe Talley, Kimbrough Circle Chairman, Mrs. Sue Nazworth, BWC Chairman, Mrs. Wesley Hardesty, BWC Advisor, Mrs. Russell Pogue, Young People's Leader, Mrs. W. S. Crow, Com. Chairman, Mrs. Ralph Smith, Com. Chairman, Mrs. Elmer Euler, Com. Chairman, Mrs. C. W. Dixon, Com. Chairman, Mrs. Leonard Haws, Com. Chairman, Mrs. Curtis Murphee, Choirster, Mrs. Ralph Smith, Pianist, and Mrs. Spencer Hough, Reporter.

Special guests for the occasion included Mrs. O. G. Hill, Mrs. J. R. Lipscomb, and Mrs. Jack Roberson all of Hereford. Twenty-seven members and thirteen guests registered for the occasion.

Next meeting of the WMS will be October 9th at 3:00 p. m. at the church for Bible Study. All ladies interested are cordially invited to attend.

CARD OF THANKS

We wish to thank all who assisted in any way during the illness of Mr. Holmgren, and especially to those who donated blood: Carl Maurer, Fred Barker, Weldon Dickson, Rev. J. E. Tidwell, Buel Sanders, and O. J. Beene. The flowers, cards, and many kind acts of friends and neighbors were sincerely appreciated.

Mr. and Mrs. E. E. Sanders and family Charles Holmgren Jr. and wife Mrs. C. A. Holmgren.

Mr. and Mrs. J. T. Green of Amarillo visited Sunday in the home of his parents, Mr. and Mrs. Taylor Green.

On A Hot Night Start Cold!

The growing enthusiasm for cold soups on American tables just goes to show that we know a good trick when we see one! In many other countries, this refreshing start for summer meals has seen centuries of good use as a stimulant to weather-worn appetites. Now we're doing it too, but in our own way, thanks to concentrates and pre-cooked foods. Here's a summer soup you don't even touch the stove to make—yet it's lovely to look at, delicious to eat, and chock-full of the proteins and vitamins we all need to keep us from wilting. Everybody likes it, even the children who don't normally rave about soup, and nobody need know how good it is for them—or how easy to fix!

Pink Label

2 cups V-8 1/2 cup sour cream 2 teaspoons Bovril*

In a mixing bowl, combine the ingredients and beat with a rotary beater until thoroughly mixed. Chill at least 2 hours. Serve in chilled soup cups, top with chopped chives or a couple of fresh mint leaves. *British beef extract

Electric Cooking Is

ACCURATE

...as MODERN women KNOW!

Wherever accuracy is required in business, industry, the home, electricity is used. Yes, whether it is synchronizing a nationwide radio hookup, dispatching trains or baking a cake, when you want accuracy and precision, you call on electricity.

When you push the buttons or turn the switches on your electric range, you know that exactly the amount of heat you desire will be on the setting used. You know the heat will be accurate because you know the heat has been measured — measured in the correct amount.

You know, too, that your electric range oven control holds the temperature at the cookbook figure in your recipe, assuring you of cookbook results every time.

Yes, electric cooking is accurate — as modern women know.

Control of diseases by seed treatment gives extra plants and healthier plants.

FOR A BETTER CROP

Control of seed-borne stinking smut or bunt, scab seedling blight, seed decay and root rot can make a lot of difference in the stand and yield of wheat. In the photograph are shown the plants produced from both untreated seed and seed which was properly treated with seed disinfectant to control these diseases.

The wheat seed in this test showed a laboratory germination of 74%, but when 100 treated seeds and 100 untreated seeds were planted, the treated

seed produced 86 plants and the untreated produced 32 plants.

The effectiveness of seed treatment in reducing losses to seed diseases has resulted in differences in yield of several bushels to the acre in some years. That's why the Texas-Oklahoma Wheat Improvement Association and state extension services urge farmers to plant only cleaned and treated seed. For information on the locations of cleaning and treating plants, farmers are advised to contact their county agent.

and work out a program which will give the boys and girls a hand in the better ways of our democracy.

THE CHAMBER OF COMMERCE IS WORKING FOR YOU — BE SURE THAT IT IS ON YOUR PAYROLL.

Don't forget, the big membership drive will start on Saturday morning November 3, this one day drive will give everyone an opportunity who has not already joined to become a member.

Have you seen the new 1952-193 Texas Almanac? Friona has honorable mention this year, also the county road map is up to date, a letter did it all!

Arrangements have been made to house Mexican labor while working here at the camp in Hereford, a group is being contacted and it is expected they will be here next week to begin work in our cotton.

The Chamber of Commerce and Agriculture is the organization which does those things for the welfare of the community that most people think just hap-

pen. IF I WERE YOU—and wished to verify the worthiness of solicitations, I would check with the Chamber of Commerce and Agriculture.

A Chamber of Commerce is the Business of the community speaking and acting for the common good.

Here are listed ten things which attract people to make a town their home:

- (1) A clean general appearance with good police and health record.
- (2) An aggressive town spirit, in which the townspeople are entered in doing for their community.
- (3) An alert local government, progressive and business like, well balanced budget, Utilities rates comparative to other towns its size, with a reputation for good municipal facilities.
- (4) Good education facilities, well equipped library, as well as other cultural facilities.
- (5) Churches representing all denominations.
- (6) Adequate health services and hospital.

(7) Adequate recreational facilities and places of congregation where people can play and visit.

(8) Suitable housing at costs which employes can afford.

(9) Good shopping places, including stores.

(10) A good local paper keeping the people informed on local and nearby news.

What are your needs and wants? The Chamber of Commerce and Agriculture works around the clock for you in your interests.

Rev. and Mrs. Russell Pogue and Mrs. Herbert Singletary plan to attend the Workers Conference at the First Baptist Church of Salem, northeast of Tulla on Thursday. Pastor of the church is Harvey Hadnall, a former resident of Lazbuddy. Theme for the day will be "Facing the Future."

Home for the week-end from Texas Tech were Mary Lou Miller, daughter of Mr. and Mrs. Roy Miller, and Keith Brock, son of Mr. and Mrs. George Brock.

Friends of Dr. and Mrs. H. H. Cooke have received word that they plan to go from there to California and make their home on the West Coast.

NEWS LETTER

By J. Alan Romich, Mgr.

Howdy Neighbor:

Sweet clover one of the legumes which is very high in the production of nitrogen to the soil as well as a feed and cash crop still leads in Texas over all other states although less was harvested in 1951 than 1950 averages show 100,000 acres harvested 1950 54,000 in 1951. Yield per acre 189 in 1950-209 in 1951 production clean seed 1950 18,900 1951-11,280 thousand pounds. Vetch, peas and some of the other legumes are taking the place of clover in the soil building program being used more extensively each year to build the soil and produce better crops.

A new program is being instituted called CROP, this is a Christian Rural Overseas Program whereby the farmer can make a donation of any amount of grain which will be set aside and when the grainery has sufficient amount will load and ship to a center where it will be loaded and shipped to destitute foreign countries.

The election of the Soil Conservation District Friona South held on Tuesday evening at the American Legion building, A. L. Black was reelected to the board for five years.

The North Plains Gin Co., ginned their first bale of cotton on

Saturday, Buck Fallwell raised his first cotton this year and the gin ginned it making a first all around.

We have received a report that the worms are beginning in the Dimmitt area, please watch your wheat and should you find worms starting to work in your field get in touch with me here at the chamber office, we are going to run some experiments on new types of insecticides which are supposed to control this insect as well as new spray that will control the green bug as well, I believe that we have the bugs licked and won't have the loss that was incurred last year.

The help situation for shocking feed, cutting grain and pulling cotton does not look too promising, we have an order in at all the employment agencies in our area trying to get help, should you need men, trucks, combines, etc., please let me know right away to insure your getting your needs filled and harvesting your crops.

Some of the women of our city are interested in doing some thing for our youth, this is the biggest asset we have in life, so what are "We" going to do about it? This is one of the things set up in the Civic Activities of the chamber and a program will be drafted to try

ATTEND

THE CHURCH OF YOUR CHOICE

THIS SUNDAY

"I WAS A STRANGER AND YOU TOOK ME IN"

If you are a new resident in the community, or if you are here temporarily on business, you will find a cordial atmosphere and a group of friendly folk at the church. To the church, there are no strangers. All are brothers—worshipping the same God—respecting the same ideals. You will feel at home in church Sunday—and will meet Friona's finest citizens.

Mrs. Weir Leads Ladies Aid Devotional Program

The Ladies Aid of the Congregational Church met this week at the J. C. Wilkison home with sixteen members present and the president, Mrs. Pearl Kinsley presiding. Mrs. Hazel Weir led the devotions. The "Birth-Dated Calendar project report indicated that it had been an even greater success than it was last year. No more names can be received for the calendar for 1952 Rev. Meyers states. A letter from Mrs. Walter N. North was read. A gift was voted for the Chinese Blind Children Fund and an eastern church establishing a youth center.

The group voted to hold the Aid's bazar and dinner, an annual affair, on November 6th. A sale of used clothing is to be held as a part of the bazar. Mrs. Carl Maurer was named as chairman of the committee. The Aid is to meet with Mrs. Fred Helmke at her home on October 17th.

FAMILY REUNION

A family reunion was held Sunday in the Tom Waggoner home in Friona.

Present were Mr. and Mrs. J. N. McAdams of Friona, Mrs. Maud Waggoner, Friona; Mrs. mother of Mrs. McAdams; Brown H. B. Jamison of Mississippi, mother of Mrs. McAdams; Brown Jamison of Boron, California, a brother; and James Temple and wife and children, Glenda, and Ronnie, of Plainview. Temple is a son of Mrs. McAdams.

This was the first time that the brothers and sisters had been reunited in 24 years.

On Monday Mrs. Jamison returned to Mississippi, and the Brown Jamisons to California.

Friona Teachers Have Party In Baker Home

A ham dinner entertained teachers of Friona schools Monday evening at their monthly faculty recreation.

The party was given in the home of Mr. and Mrs. Matthew Baker and assisting the hosts were Mr. and Mrs. Cecil Robertson, Mrs. H. T. Carr and Miss Marjorie Burnett.

Following the meal, which was served buffet style, table games were played, including bridge, forty-two, and canasta.

Thirty members attended the social. The next party will be held sometime in November.

Mrs. G. A. Morris returned Saturday from a week-end visit to the home of her daughter in Oklahoma.

Walker-Jennings Vows Read Saturday Evening

An informal single ring marriage service, read in the Methodist Parsonage at Clovis united Miss Frances Walker of Hereford and Bill Jennings of Friona, on Saturday evening.

The bride is the daughter of Mr. and Mrs. Jack Walker of Friona and the groom is the son of Mr. and Mrs. O. M. Jennings of Muleshoe.

Only close friends of the couple attended the service which was read at 7:30 in the evening.

The bride wore a brown wool suit and copper colored accessories. Her corsage was of white gardenias. Her only attendant was her sister, Mrs. Irwin Robinson, of Hereford. She wore a blue suit and a corsage of white carnations.

The groom's attendant was J. W. Gammons of Lazbuddy.

Following the ceremony, the couple left for Colorado where they will spend their honeymoon at the Drowsy Water Dude Ranch. They will make their home in Friona upon their return, where the groom is connected with Benger Air Park.

Attending the wedding from Friona were Mr. and Mrs. Elvie Jennings, a brother of the groom.

Mr. and Mrs. Bob Davis are in Friona visiting with his parents, Mr. and Mrs. Buster Davis. Mrs. Davis is enrolling in school in Lubbock.

The Square Dance Club met Saturday night at the Legion Hall for their regular meeting. Hosts for the occasion were Mr. and Mrs. Jack Knox. Attending were Mesdames and Messrs: Bill Flippen, Casey Dunn, Lloyd Batley, J. D. Wright, Hank Outland, Mrs. Cecil Robison, Bill Stewart and the hosts.

Laymen to Fill Pulpits At Methodist Churches

Sunday morning at eleven o'clock hour Mr. Jess Stamford of Hereford will be the Lay-speaker at the Friona Methodist Church. Rev. Tidwell will be in Goldthwaite, Texas participating in the first phase of the United Texas Revival from Oct. 5 through Oct. 14th. All the Methodist Churches in Texas will be holding Revival Meetings during this period. The state has been divided into two parts the North and South and each will exchange pastors with the other. The active participation for this half of the state will be from Oct. 26th through Nov. 4.

Sunday night the Methodist Church will have a family night supper and program. All friends and members of the church are invited to come and enjoy the fellowship. In the place of the regular worship service there will be a film "Walking With God" which is a good religious

film running about 30 minutes. It will be sponsored by the bringing a covered dish. It will be W.S.C.S. and all are asked to gin at 7 o'clock.

Forrest Osborn will speak as the lay-speaker in the Progress Methodist Church Sunday morning in the absence of Rev. Carroll Jones. Wesley Foster will be the speaker Sunday night at Oklahoma Lane Methodist Church in the absence of the pastor.

Sunday is Full Day For Congregationalists

October 7th, is to be a big day with the Congregationalists, Rev. Meyer has announced. The highlight service of the day is to be the observance of World Wide Communion in co-operation with thousands of churches of many denominations around the world. The plans call for an observance of the Lord's every minute of the twenty-four Supper at some place during

of the Seventh. The local service will be at 11:00 a. m. The plans ask for the presence of every member of every church everywhere and every real friend of the church. Members will be received and there will be baptisms of children and of young people. Rev. Meyer's meditation subject will be "The Parable of Parables."

Sunday School is to meet at 10 a. m. with a special emphasis on "everyone in their places on that day."

The Pilgrim Fellowship is to meet at 7 p. m. with Phyllis Treider as the leader with her subject being: "The Freedom of Religion."

The day climaxes in the Oct. Church Family Night, opening with the usual feed at 7:30 of sandwiches, jello, cake and coffee and the invitation extended to all members and families of the church, both members and friends. The program for the evening is to be a bit different with details un-

CLIPPER MODEL

WETMORE HAMMER MILLS

NOW AVAILABLE

Simple

(One Moving Part)

Sturdy

(Heavy Steel Construction)

Efficient

(Grinds All Feeds)

THE CLIPPER

This Clipper combination hammer mill and ensilage cutter meets all grinding and cutting requirements under all conditions of feed, whether wet or dry. Simple in design, sturdy in construction, it provides three services in one machine... it cuts... grinds... elevates. The Clipper has 3 knives, 6 fan blades and 36 hammers, makes 96 cuts per second. With ample power, it will grind:

90 to 250 bushels of grain per hour
2 to 4 tons of baled or loose hay
4 to 8 tons of roughage
6 to 10 tons of ensilage

Recommended for use with the standard 2-3 or 4 plow farm tractor or a 25 H.P. to 40 H.P. Electric Motor. Speed of Mill is only 1800 R.P.M. Pulley sizes are from 5 $\frac{1}{2}$ " to 7 $\frac{1}{2}$ ". The Clipper is recommended to fill silos up to 40' high. Shipping weight about 700 pounds.

THIS IS A SERIOUS WARNING

Fire losses every day are awakening home owners too late to the tremendous increase in values of homes and personal belongings. In your interest we urge you to check the amount of your policy against today's actual value. If you feel that you need additional insurance get in touch with us. Today!
