THE FRIONA STAR

Seeing ourselves as others see us wouldn't do much good—we wouldn't believe it anyway.

VOL. 27—Number 45

FRIONA, TEXAS, THURSDAY, JUNE 12, 1952

Price 5c

Column Left...

We knew there would be other fish stories!

Those zealous sportsmen, the Lillard brothers—Wilton and C. L., spent the week-end with their wives fishing at Buffalo Lake. Spooner or later it had to happen—Wilton felt a terrific tug on his 25-lb. line and he reels in a 3 lb. channel cat—but heres the joker: The fish had been caught before, snagged on the fin with a hook still remaining in the fish—and it was this hook that Lillard caught! That's right, the fish was reeled in with neither hook in its mouth—the whole crew says that's the truth. Incidentally Mrs. C. L. Lillard caught some mighty nice cat, proving that she too is no-amateur angler.

More business firms are adding paint here and there or new fixtures. As mentioned previously, the Foster store has undergone complete interior renovation, and now there's O. J. Beene who is not to be outdone on the block, installing new fountain fixtures in addition to the recent paint and plywood job. But if you REALLY want to see improvement, drive along any of the paved streets and note the newly landscaped and planted lawns... too numerous to name.

Legally, the husband is the head of the house and the pedestrian has the right of way. Both husband and pedestrian are fairly safe unless they try to exercise their rights.

Been reading the numerous articles lately about the lush practice of psychiatry the nation over? From our reading there are the genuine McCoy's, and there are the frauds, just as in most other professions.

We really like the story, however, about the psychiatrist who diagnosed the case of his sad-eyed patient thusly: "My dear man, you have no complex, you ARE inferior."

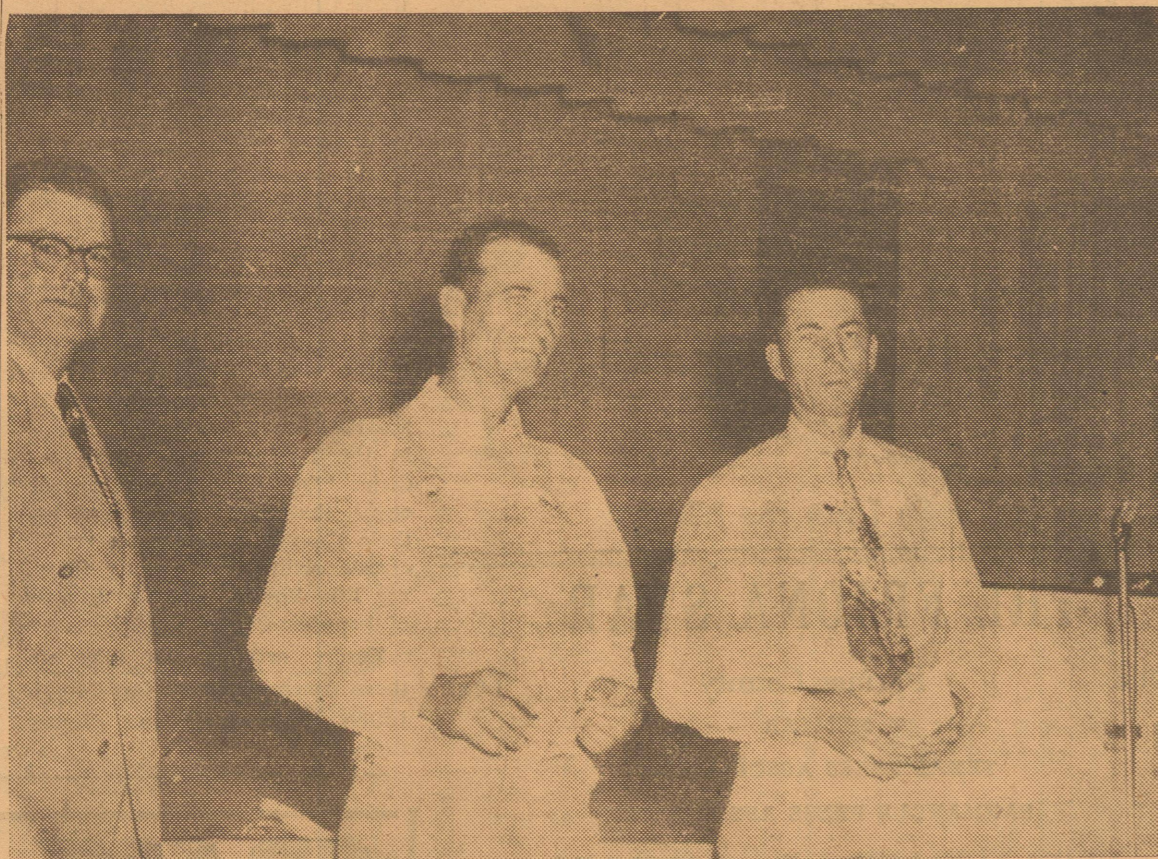

Seen the oats on display in the Star office? If this sample is representative of the entire field at Bill Cogdill's (and he says it is) this crop would be worth driving miles to see—and we're going to do just that.

Residents of the Rhea community are reminded of the Farm Bureau and community meeting to be held at the Parish Hall there this Friday, 8:30 p. m. A program will be given and refreshments served.

H. D. Mayfield seems to be having one hard time with his cooking with Mrs. Mayfield visiting in Albuquerque. Had a long talk with Howard yesterday and he admitted he had a cook book but just couldn't use it to advantage. Every recipe began: "Take a clean dish," and right there Howard was stopped—before even beginning.

Those of you who failed to get a close-up view of the billowing flames at the gas line explosion near Dawn yesterday morning missed quite a sight. CL was driving eastward on Highway 60 near Hereford when he saw the explosion—the nature of which was truly baffling until a close inspection disclosed the source. Definitely the fire was the most spectacular we've seen; it could be little else considering that the huge 25-inch main pipe of the El Paso Natural Gas Company carried the gas at some 700 lbs. pressure per square inch. We cannot verify the United

DONORS AND WINNER OF HOME FREEZING UNIT

Juan Eskew, center, had just been awarded an International Home Freezer when this picture was taken at the frozen foods demonstration conducted Friday night by the Parmer County Implement Company. Over 350 persons attended the program highlighted by the give-away and by the demonstrations supervised by Miss Altman, home economist. Left in the picture is Granville McFarland, owner of the Implement firm, and Bud Crump, member of the company's personnel, is on Eskew's right.

Friona Ginners Force Nazareth Game Into Twelve Innings: Lose 16-13

Editor's Note: Ed White is furnishing the Star with this weekly "Diamond Dust" feature, reporting the baseball games. Though his name was inadvertently omitted from the report last week we certainly appreciate his furnishing these write-ups and game summaries.

Friona lost a wild and woolly ball game Sunday that went 12 innings before Nazareth pulled ahead in a 16-13 score.

Friona had maintained a good lead, but lady luck began to frown when in the ninth inning Nazareth scored four runs to tie the score 12-12, running the game into extra innings. Nazareth scored in the 10th on a homerun by E. Gerber, his second of the game. Clements scored the tying run to tie the game again on a two-bag-

ger, went to third on a pass ball, then stole home, which was the play of the game. Clements also accounted for two four-base hits. Both teams made lots of errors. Friona will play at Dimmitt next Sunday; Players will be all who were on the bench in the last game, so all new men will be on hand—be there and see a good game. Game time is 2:30.

Press report that the flames could be seen for 50 miles distance, but we do know they were clearly visible for over 20 miles, and we talked with others who saw the flames from Dimmitt and from Hereford. Preach Edelman was in a field south of Hereford when he both heard and saw the explosion. Had the scene been on higher ground rather than at the bottom of the Tierra Blanca draw just west of Buffalo Lake the fire could no doubt have been seen much farther.

Local gas service was not affected by the cut-off of this line though West Texas Gas Company employees state that there is a tie-in near Umbarger where this firm purchases gas off the El Paso line; this valve was cut off immediately and local gas came directly on the West Texas line, local gas men reported.

Take it for what it's worth: State revenues for May were aided most by Gross Production of crude oil — \$10,507,778.00 and least by Federal Aid to the Game Department—\$3,033.00. It is interesting to scan the monthly reports of the state comptroller; for instance did you realize there were forty-five separate sources of revenue to the state last month—the total \$66,220,384.00? Incidentally the net cash balance is much less—\$17,589,316.00

Traffic Rules Are Stressed, Marshal Assumes Duties

City Marshal J. W. Roberts has been instructed by the city commission of Friona to educate local drivers on proper parking with observance of the no-parking zones painted along the curbs in yellow paint. Both this and speeding regulations will be enforced here, with the marshal first reminding offenders by leaving 'courtesy' tickets on car improperly parked along these zones or across alleys.

The commission has emphasized that they are in no way being hard boiled, but rather are attempting to work out a traffic system insuring maximum safety on the city streets in a manner comparable to traffic regulations in other towns of the area.

Struck out by Renner 4, Clement 4, Barnett 5, V. Gerber 7, Acker 2. Double plays—Friona 2, Nazareth 1. Hit by pitched ball Patterson by Gerber; V. Gerber by Clement. Left on base Nazareth 11, Friona 10. Winning pitcher V. Gerber. Losing pitcher Barnett.

Friona Wheat Growers Invites Public to Annual Meet, Program

WEATHER

Hot dry days have prevailed this week, conducive to both the cotton crop and the oncoming wheat harvest. Slightly warmer nights would probably be welcomed by the cotton farmers to speed the growth of that plant, however.

Wheat harvest operations in the state are rapidly moving northward, with activity beginning in Hale and Floyd counties on the South Plains and in the Childress-Wellington area to the east.

Only a few local fields of wheat are nearing the harvest stage, with the bulk of local operations probably commencing near the first of July.

REV. U. S. SHERRILL

Rev. U. S. Sherrill, newly assigned minister to the Friona Methodist Church, conducted the services here last Sunday and he and Mrs. Sherrill have completed their move into the local parsonage.

Sermon subjects announced by Rev. Sherrill for next Sunday are 'What Shall I do With Jesus—Which is Called the Christ' for the morning worship hour; and an appropriate 'Fathers' Day' message at the evening hour.

The public is invited to attend the annual meeting of the Friona Wheat Growers, Inc. organization Tuesday night, June 17th Arthur Drake emphasized this week.

The annual meeting of the stockholders has been well attended each year, and with a special program slated for the meeting next week, the group has invited the public to join in the affair.

The program is to be held at the High School Auditorium at 8:30 o'clock in the evening, will feature an address by Mr. Massey manager of the Hereford Chamber of Commerce; together with \$150 worth of cash prizes, and refreshments. The cash awards will be divided into eight gifts, one \$50, two of \$25, and five of \$10 each.

Officers of the Wheat Growers organization include A. W. Anthony, Sr., president; Sloan H. Osborn, vice-president; Clyde V. Goodwine, secretary; and directors E. L. Fairchild and Lewis Smith. One director will be elected at the meeting, inasmuch as the three-year term of Fairchild is expiring.

George Free Rites Were Held Yesterday, Bovina

Funeral services for George Edward Free of Bovina were held at 3 p. m. Wednesday in the Pentecostal Church of Bovina.

Mr. Free 72, years old, died Sunday in his home in Bovina. A retired farmer, he had lived in the Bovina area for 25 years.

Rev. J. M. Lemmon of Amarillo, Rev. Charlotte Brice, Rev. I. T. Huckabee and Rev. M. D. Durham, officiated. Burial was in Bovina Cemetery under direction of Steed Funeral Home of Clovis.

Survivors include his wife, Mrs. Ola Free; three daughters, Mrs. J. E. Kelley, Childress; Mrs. Albert Stone, Edgewood, Calif., and Mrs. Rouel Barron, Bovina; four sons, Walter Free, Denever; H. F. Free, Dumas; J. D. Free, Mount Shasta, Calif., and Troy Free, of Los Angeles; his mother, Mrs. J. P. Free, Childress; four sisters Mrs. Luke Andrews, Childress; Mrs. J. E. Simmons, Childress; Mrs. Jack Balt, Amarillo, and Mrs. Walter Waldrip, Blythe, Calif.; five brothers, Harv Free, Childress, Walter Free, Childress, Oscar Free, Shamrock, Jack Free, Shamrock and John Evans, Amarillo; 10 grand-children and one great-grandchild.

Anniversary Sale Is Being Held By White Auto Store in Friona

The local White Auto Store, owned and operated by C. A. and B. W. Turner, is holding its annual anniversary sale, with a full page ad elsewhere in this issue listing many of the values offered.

This sale should appeal to the price-conscious public, and it definitely proves that local buying—with local merchants—saves in cold dollars and cents, as well as helping the community.

Editor's Note: The Star congratulates this store and all those other local ones who put out a little extra in prices and service to make trading at home more conducive.

Mrs. White Died At Bovina Sunday

Funeral services for Mrs. Mollie White, resident of Bovina, were conducted Tuesday afternoon at 2:30 in the First Methodist Church of Bovina. Rev. James E. Tidwell of Paducah and formerly of Friona, and Rev. I. T. Huckabee of Bovina officiated at the rites.

Mrs. White, 72, died at her home Sunday following several months illness. She was born on August 26, 1879 near Graham, Texas. She was married to James Grant White in Oklahoma, and they moved to Texas in 1922. She had been a resident of Bovina for 21 years.

Mrs. White was an active member in the First Methodist Church at Bovina, and her Christian spirit proved inspirational through the years to those with whom she came in contact.

Mr. White accepted his wife in 1947.

Survivors include a daughter, Mrs. Lucille Turner of Patterson, California; two sons, Hubert of Hereford and Otis of Bovina, and five grandchildren, several step-grandchildren, four brothers and one sister.

Pallbearers were Buck Ellison, Joe Wilson, Nat Reed, John Stimbrough, Troy Armstrong and Frank Smith. Interment was in the Bovina cemetery.

ATTENDING STATE 4-H ROUND-UP

Dwaine Menefee, left and Darrell Thompson, right are in College Station this week attending the Texas 4-H Club Round-up. Both boys have been quite active in their club activities, County Agent Joe Jones has pointed out, Thompson paying particular attention to his Shorthorn cattle, and Menefee working with hogs and cattle.

Cerebral Palsy Clinic Slated Soon at Lubbock

A clinic for the examination of cerebral palsied children will be held Monday, June 23 at the Cerebral Palsy Treatment Center, 3502 Avenue N, Lubbock.

Orthopedic specialists from Midland, Plainview, and Lubbock, a neuropsychiatrist, pediatrician, eye specialist, and a dentist will be present to examine children.

Parents planning to bring children to the clinic are requested to register the children at the Center prior to the date of the clinic. Information regarding the clinic may be obtained by writing Dr. Esther Snell, Director, or calling Lubbock 5-6541.

Water Meetings—A Good Start On

A Good Project

Did you attend the water meeting last week?

Tom McFarland, manager of the Hi-Plains Underground Water Conservation District, is on the road most every day, conducting similar meetings and visiting with the farmers of the entire area; in fact he lives, thinks, and breathes water conservation. And our guess is that a lot of the rest of us will be compelled to do that very same thing if an equitable program is mapped and followed.

Though irrigation has been with us for several years, our efforts in behalf of conservation are in their infancy, an admission we shamefully make. We should no doubt have been planning wise use of the water years ago, but we didn't; and now we must run in double-time to stay abreast of the problems arising.

Nothing definite is being settled at these meetings held in every locality of the plains, and equally true it is possible that the newly-formed district organization yet has shown few concrete results—BUT we are thankful someone is on the job working—that is the way every project must start.

Mr. McFarland has emphasized time and again that water use is the farmers' business to be kept in as small unit of control as possible. With this we are in hearty accord. And the district manager has been emphatic in his encouragement of education regarding water problems. Education alone could get the job done, but only if you and I have the good sense to be responsive. It's inevitable—the more we think and act for ourselves—the less we will be controlled.

Education has been our own prime objective in publicizing the water situation as arising near Mulshoe to our south. Some have accused us of crying "Wolf, wolf"; others have asked that we soft-pedal any mention of water depletion or its possibility—with effects on real estate prices as a good argument. We are not radical in this respect. We see a problem to be settled mutually by the municipalities and the farmers in use of water. But when we see any vestige of danger to any resource affecting present or near future economy, we are going to point it out as we see it; to do less would be shirking a duty and trust.

—MMM—

Handshakes For Votes?

Didn't know I had so many friends among the politicians until this month! Why every candidate from Austin to the hollows of the creek forks comes jauntily in, gives a pump handle shake if luck is with me (sometimes they have the dog-gonest embraces you could imagine) and they are quite apt in calling me "Bert" with that old-acquaintance, intimate tone. And believe me, it's the first time I've ever laid eyes on the characters. No doubt you're experiencing the same.

Well and good, we guess; at least this seems to be the accepted method of seasoned campaigners, but here's one fellow that's going to support the sincere candidates, and there are a few of them. We will point some out at the proper time, not as any dictatorial demand for your vote, but as public support of principals and men we believe conducive to your welfare and mine.

Dairy Month Recognized

June is National Dairy Month.

Though the calendar is over-abundant in special weeks and days, we do like to point out the special designations directly affecting our own area.

Though dairying has not taken top billing locally as it has in Wisconsin, various southern states, and closer to home in Hale and Swisher counties, it still is an important and recognized part of our diversified farming operations; it has been successful on the scale operated, witness the ribbons and prizes and outstanding production records chalked up by D. C. Burnett, Martin Fulcher, Levi Johnson and many, many other.

These men who are making records in their dairying program are due special recognition, we submit. They are responsible, not only for developing finer stock, but they are publicizing the industry and their community—keeping alive an interest in the dependable milk cow. Remember when times were a bit harder than now—it was that cream check or milk check that carried many a farmer through; it has always been thus in the leaner years, and it could be so again. Just watch the trends—in lush years attention is diverted to the big-money operations, but when belts begin to tighten the cow again steps upon her throne.

Increased dairying activity certainly has our good word and support.

—MMM—

A Tribute To Fathers—Everywhere

Sunday is Fathers' Day.

So far as we know there is no patron saint or Santa Clause to which we can turn on this particular occasion to invoke assistance in giving the dads of the nation a bountiful load of gifts. But could we by some alchemy or magic cause spread before each father on this day a load of gifts, we believe we would give priority to such listings as . . .

First, concrete evidence of our appreciation for dad's endeavors, spectacular or not throughout the year; then we would wish less—much less—pressure on the good fellow from the ever-present burdens imposed by big-government guardianship, the increasing tax loads, et cetera. Dad doesn't mind the responsibilities of the home, so we would ask few changes here—it is a pleasure for him to work for his family in our way of life.

Dad, on the other hand, is subject to lots of blessings—and there is not a one of us but who can increase these pleasures for our parents. Surely each of us wish to do this, but we're forgetful at times: we only hope this note will prod us to remember the many advantages of having a dad—then honoring him accordingly.

—MMM—

Just Interested in Our Community

Probably we are in the minority among those who attempt editorial writing, for one of our sincere pleasures in the business is talking about those simpler things that affect us each day—home, parents, community relationships. We like to note occasions such as Fathers' Day, National Dairy Month, local improvements, etc.; after all the little things with which we are associated day in and day out affect our lives—so much more than the big items about which we all talk and do little.

SMALL BUSINESS

By C. WILSON HARDER

There is a strong drive in Congress to prevent any renewal of government power to regulate consumer credit, or installment buying, when the present authority expires on June 30.

It is fairly well taken for granted that the suspension of Regulation W was made at this time so that the power would not be taken away from government by Congress.

Government control of installment buying does furnish government with a heavy club to use against industries that depend on consumers being able to buy on a pay as you go basis.

While much has been written on the evils of installment buying, there is one indisputable argument in favor of installment buying which cannot be overlooked. That point is the fact that Americans own more autos, more homes, more radios, more television sets, and more household furnishings than any other people in the world . . . and more than 80% are purchased through installment buying.

And added to that strong point is the recognition by government itself of the need and value of installment payments.

That is why income taxes are now collected in advance from each pay period.

On the basis of installment tax payments, the government has been able to carry on such worldwide socialistic experiments as the Marshall Plan and its successor, the MSA. In fact, the American installment plan has made it possible for billions

to be given away to Europe.

For example, according to MSA reports, during the first 63 days of this year, allotments to Europe alone, not counting MSA, averaged \$13,892,865 per day, Sundays and holidays included. Some days as much as \$45 million have been given away.

So the argument can be pinned down to this point, too.

"If it is economically unsound to use free credit, on terms arrived at between seller and buyer, to purchase tangible property for the use of American families and provide American employment, then is it not even more economically unsound to collect taxes on an installment plan to aid European cartels and monopolies?" It is well established, the Marshall Plan and MSA have done little but help cartels become stronger.

There is also the argument advanced that free credit often induces an American family to foolishly buy some luxury on the installment plan.

But on the other side of the picture are facts like this example. MSA Bulletin No. 81 reports the gift of \$1,600,000 worth of American coal to Austria. Thus, American taxpayers not only pay for the coal, but also for its transportation from the U. S. to Austria which is just next door to some of the world's largest coal fields. And the taxes supporting such moves are collected on the installment plan.

It is probably the time for somebody to define terms, starting with just what is foolishness.

But an adequate definition of the word foolishness would probably cause too much embarrassment in many places in Washington.

The Law and You

By Robt. (Bob) Kirk

DO YOU KNOW what the "Bill of Rights" are?

The Bill of Rights are the first ten amendments to the Constitution of the United States of America. They were not written at the time of the original Constitution.

The constitution itself sets up the objects, form, method and procedure of our government. The Bill of Rights sets up the inalienable rights of every citizen in these United States. They are the guarantee of the individual rights to the individual citizen. The Bill of Rights sets forth the principles which set this country apart from every other country in the world in its protection of the rights of the individual, and recognize that the government is created for the benefit of the people, and not that the people exist only for the benefit of the government. It is the Bill of Rights which breathes life into the Constitution, and preserves to the individual those rights stated in the Declaration of Independence "tha tall men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these, are life, liberty, and the pursuit of happiness."

Future articles will take up these Amendments to the Constitution individually and discuss them.

An intaglio is an engraving pressed below the surface of a material.

Stephen Foster, who wrote songs about the south, was a northerner.

Lincoln Ellsworth was the first man to fly across the Antarctic continent.

Robert Fulton was a portrait painter before he became an inventor.

Al Smith called the New York Fulton Fish Market his 'alma mater.'

Shakespeare's Macbeth was a living king of Scotland who died in 1057.

An archangel is an angel of the highest rank.

Taste is the least developed of the five senses among the lower animals.

A howdah is a canopied seat upon the back of an elephant.

Winters in places near the ocean are warmer than those inland.

A dog's tongue is the only part of its body that can perspire.

GRASS ROOTS

There have been a lot of inquiries around the warehouse here of late concerning potatoes. There are those in other areas who seem to think that a potato packing house would surely have potatoes, but I fear this is far from correct. Believe me if it were so I would be the first to snag on to a sack of them and head for the woods. However the crop should be coming in the last part of June and if I'm any judge of Spuds (which I ain't) the crop should be good and the price right. Although I am not any judge of potatoes while growing in the field there are those around me here who are, and they say that the prospects are fine for a good crop this year. I heard over the radio this morning that the government has lifted the ceiling on the potato market so everyone should be feeling better about that angle. I don't know enough about that kind of business to expound to any length on it, but it does please me to see that in a few cases private enterprise is still getting by on a breath at a time. I refuse to get started on any political tirades for two reasons: First and most important I'm not smart enough and Secondly I'm afraid that someone might accuse me of going along with Urilin Streu. If that doesn't get a rise out of Urilin nothing will.

Howard and I spent a very enjoyable afternoon this week with Mr. Pringle of the Triplett and Pringle Cattle Company in Bovina. We were interested in seeing their livestock farm and finding out first hand just what results they were getting from their Vetch and Rye grazing program. All that has been said about their operation is true. It is hard to believe the number of cattle that they run on that place and the gains that they make off vetch and Rye. Mr. Pringle pointed out a group to us that had made a gain of 2.2 lbs. a day for thirty days. That is really putting it on.

I am happy to report that there will be a large acreage of Vetch and Rye planted in this area and want to add again in this column that those of you who want a fine crop for this fall, winter and next also Digestible Protein. Stop the springs grazing will certainly be doing yourself a favor by this seeding.

There is a lot of chemical mov-

ing out of the warehouse now. There are a few don'ts on spray-late that I think would be well to mention here. Although the Texas Herbicide law doesn't affect some of the counties in the High Plains area man, of the sprays you use will knock your neighbors cotton in the head just the same as if the law were existent. 2-4-D is not volatile and unless sprayed directly onto the plant will not damage it. By using this chemical you can knock the weeds and eliminate the damage to the neighbor's cotton field. Strange that cotton is the one plant most susceptible to 2-4-D damage, but that is the way it is. Now is the time to start your control work on bindweed, 2-4-D spray will keep the plants burned back and will not let them make seed. That is the first step. After that it will be a series of spraying until all the plants are eventually starved out. Remember that every time you pull your implements through a bindweed patch you are spreading it out that much more.

I have been running into a little criticism lately concerning my irrigated pasture recommendations. Seems I sold the pastures a little short and the customers didn't buy enough cattle to stock them. I even hear once in a while about some of the men taking in cattle. I can see where that is a good deal for the men who own the cattle and also the men who own the pasture. If I had a small acreage of land near town here somewhere I believe that I would put it all in pasture, take in cattle on the gain and go fishing. If you doubt that this will make money ask some of the boys that are doing it.

Ran my neck out the other day on the comparative feed value of vetch versus alfalfa hay. I have made the statement several times that vetch was equal to alfalfa in feeding value without the danger of bloat. After I had my hand called several times I went to the Library and checked out Morrisons Feeds and Feeding and find that Hairy Vetch tops alfalfa hay on Total Digestible Nutrients and also Digestible Protein. Stop the argument boys, I still have the book here and it's not due in untile June 19.

KOREAN VETERANS

The House passed and sent to the Senate HR 7656, a bill to take care of our veterans in the Korean War. This legislation is long past due, and we are all pleased that it has passed the House and is on its way to passage in the Senate. The delay in this much needed legislation was caused by the many abuses to which the veterans and the American taxpayers were subjected under the original GI Bill of Rights. The process of uncovering and weeding out some of the features of the old GI bill that permitted unwarranted raids upon the public treasury consumed long and tedious hours in the Committee. We hope that all of these avenues of abuse have been closed, although we surely realize that success in this particular field is going to depend a lot upon the veterans and the schools. The vote in the House was 361 yeas, one nay and two answering present. The one nay vote was cast by General Devereux, a member from Maryland. General Devereux is certainly not entitled to any criticism for his vote because it was not cast against the bill as such, but was a protest as to the manner in which the bill was brought up before the House. General Devereux has perhaps as illustrious a career as most any veteran of the United States. You will remember him as the commander of the garrison on Wake Island. He is on the Veterans Affairs Committee, and is an outstanding and able member who definitely has the interest of the veterans at heart. His protest was because the bill was brought up under what is known as a 'suspension of the rules.' When a bill is brought up in this manner, the debate is limited to twenty minutes to the side and the bill cannot be amended. There are two amendments that I think should have gone on the bill, and General Devereux and I are in agreement on these two particular amendments. The bill contains a provision that would permit tax maintained institutions to charge veterans as much as \$31.00 per month without being subject to the penalties provided against exacting excess charges from veterans. In many states this could result in a non-veteran going to school free

while a veteran would be required to pay \$31.00 per month out of the money that he receives with which to obtain an education. The money is paid directly to the veteran under this bill, rather than to the schools, as it was under the old GI bill. I certainly do not feel that a veteran should be charged \$31.00 a month in order to go to the same school that a non-veteran can attend for a much less amount. We hope to obtain a correction of this measure in the Senate. The controversial matter that arose concerning the bill was the so-called Springer Amendment. Mr. Springer is from Illinois and is a member of the Veterans Affairs Committee. He is an excellent man and an able member of Congress. The amendment that he proposed was to pay the money to the schools rather than to the individual veteran, in somewhat the same fashion as provided in the old GI bill. Mr. Springer was most sincere in his efforts and had some very able and telling arguments in support thereof. I opposed this amendment for the reason that I basically believe that the veteran should be allowed to attend to his own business, to make his own arrangements, and to go to the school of his own choice. The bill is designed to help veterans and is not intended as a federal aid to education measure. Some of the provisions relating to GI housing also need clarification in order for the veterans to obtain the full benefits intended. Most of us feel that the corrections can be made in the Senate without delay and that these boys will begin to receive these benefits to which they are so richly entitled and which have been withheld from them too long.

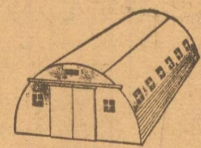

1952 Cotton Parity Standard

The House has also passed HR 5713, to provide that low middling seven-eighths inch cotton shall be the standard grade for the purposes of determining parity and price support for the 1952 cotton crop. The purpose of this bill is to protect cotton farmers against disastrous price declines if the produce a cotton crop of 16 million bales or more in 1952, as has been requested by the Secretary of Agriculture. This bill would this by making low middling even-eighths inch cotton the standard grade for purposes of parity and price support on the 1952 crop if any time during the calendar year 1952 the Department of Agriculture officially estimates the production of cotton in 1952 as 16 million bales or more. The cotton farmers have been requested to produce 16 million bales in 1952 as a defense measure. This type of legislation will give the cotton farmers some of the protection and incentive enjoyed by industrialists. It will do away with the injustices to which the farmers have been subjected when, in answer to patriotic call, they have produced and then were left to take all of the risk of financial loss if they accidentally produced more than was needed or if the Department of Agriculture had overestimated the need for their product.

Visitors:

Recent visitors from the district have been: Bill B. Chappell, from Borger; Tom McGarrity from Le-fors; Fred Haiduk from Groom; and the following from Amarillo: Mr. and Mrs. Derrell Henry, George Shannon, Jack Seale, Troy Jones, Mr. and Mrs. A. H. Truitt; Mr. and Mrs. W. W. Gibson and son; Mr. and Mrs. Dick Bivins and three daughters; and Grady Fox.

GOOD HEALTH

Answer to Question No. 1: The U.S. Bureau of Labor Statistics shows that clothing costs in June 1951 were 104 per cent higher than the 1935-39 average, house furnishings 112.5 per cent higher, and recreation 68.3 per cent. Medical care costs, however, were only 54.7 per cent above the 1935-39 period. When there is serious illness in the family, medical costs can be high. Nevertheless, the financial burden of medical, surgical and hospital costs to an individual can be lessened by health insurance plans now available.

Answer to Question No. 2: Antibiotics are substances developed from moulds. They are used to destroy or limit the action of certain bacteria or viruses. Antibiotics include penicillin and several others. They ordinarily do not harm normal cells. Antibiotics have been very successful in curing pneumonia, tuberculosis, blood stream infections, syphilis and many other infections. Your family doctor is well informed in the use of antibiotics.

Answer to Question No. 3: Presence in your household of the cockroach means that your housekeeping could be improved, for the roach loves dark, damp, dirty places. It may act as a carrier of disease germs. (Copyright 1952 by Health Information Foundation)

LOOK HERE, GIRLS!

IT'S LEAP YEAR, but here's one bachelor who got away. And even without a dutiful wife to wash his nylon shirt, he's doing OK. In fact, no smart man is ever short of shirts these days of modern fabrics, and many a helpful husband is surprising his busy wife by keeping his nylons white as new—especially when a on a trip. He uses detergent head bluing for a thorough ing, and rubs to collars and cuffs. Suds-covered cellulose fibers, then a rinse but no rinsing — and tomorrow morning, a fresh shirt to greet the day!

FLASHING COLOR and exciting textures make this one-piece dress look like two. The red-belted waistline divides the striped cotton jersey from a denim skirt with plenty of swirl. Designed by Fashion Frocks of Cincinnati

NATIONAL PRESS BUILDING
WASHINGTON, D. C.

By Anne Goode

Plentiful cabbage prompts me to remind you of the myriad ways to vary the ever popular cole slaw. Start with grated cabbage, then add crushed pineapple, grated carrot and real mayonnaise. Or chopped onion, green pepper and mustard-with-horseradish and mayonnaise. Or sliced apple, celery and mayonnaise.

To '52 brides: a turkish towel placed in the bottom of the sink is good insurance against chipping or breaking your "best" china. A rubber nozzle on the faucet also prevents a good many accidents.

Prepare tender young beets this quick and delicious way. In the bottom of a saucepan place 1-tablespoon vitaminized margarine per serving, top with peeled, diced, raw beets, a sprinkling of salt, pinch of sugar; then tuck wet outer leaves of lettuce or cabbage over beets. Cover and cook gently for 15 or 20 minutes. Beautiful color and marvelous flavor!

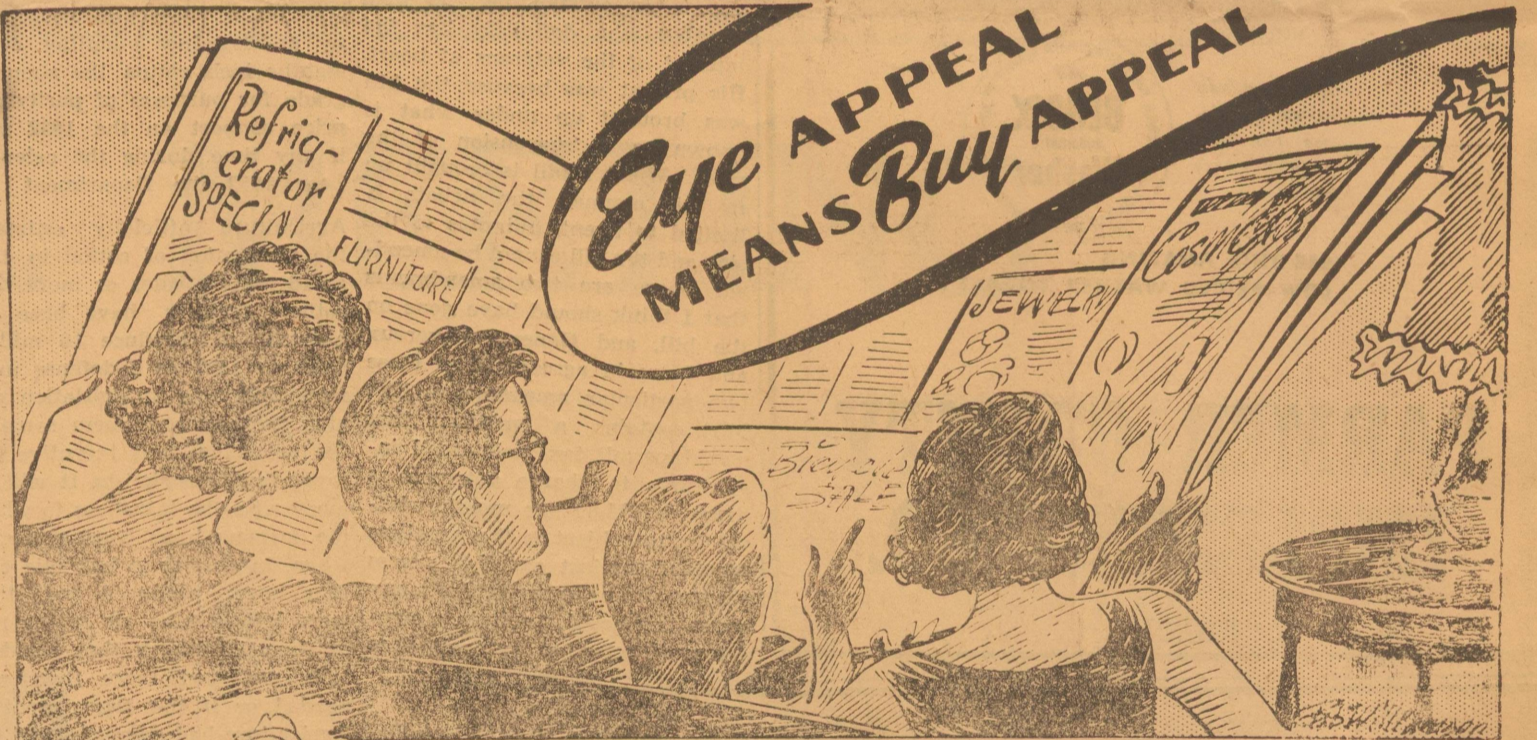

If it's time to freshen up your treasured feather pillows, remember to air them thoroughly but not to sun them. Sun causes the feathers' natural oils to dry out and destroys their resiliency.

As a labor-saver make enough pastry dough for two pies. The second part will keep in the refrigerator for several days if wrapped tightly in waxed paper.

Rhea Bible School Is In Second Week; Close of Program Is Sunday

Parents and friends will join the children attending the Lutheran Vacation Bible School in the Rhea community on Sunday afternoon for the closing program and the annual Vacation Bible School picnic. At 2:30 p. m. the children will present a selection of the lessons and songs they have learned along with an exhibit of their handwork. The feature of the program will be the showing of the full-color movie, "Tammy," the touching story of a little girl who succeeds in winning her stubborn and embittered father to faith in God and membership in the church.

At the close of this program the softball team of children from the Vacation Bible School will play their dads on the ball diamond. There will be games for the smaller children. Everyone is invited to remain for the picnic lunch served on the church grounds.

Attendance in 1952 is running from 15 to 20 percent higher than last year, announces Rev. E. W. Lichtsinn, superintendent of

Star Recipes

Mrs. DENNIS O'KEEFE likes to keep the family food budget in line as well as any modern housewife. For this reason she substitutes a meatless meal now and then—making sure, of course, that it has eye as well as palate appeal. One of the family favorites is a Rice Ring with Stuffed Eggs, an easy-to-prepare main dish that's a meal in itself. With accent on economy, the recipe calls for nutritious Blue Bonnet Margarine.

RICE RING WITH STUFFED EGGS

3 cups cooked rice | 1/4 cup green beans, finely diced
 1/2 cup cooked carrots, finely diced | 1/4 cup French Dressing
 Blend all ingredients together lightly with a fork. Arrange mixture in lightly oiled 9-inch ring mold. Store in refrigerator

STUFFED EGGS

6 hard cooked eggs | 1/4 teaspoon cayenne pepper
 1/4 cup Blue Bonnet Margarine | 1 cup grated tuna fish
 1/2 teaspoon salt | 3 tablespoons cream
 2 teaspoons grated onion

Shell eggs and cut in half lengthwise. Remove yolks and mash. Cream margarine and blend with yolks. Add salt, cayenne pepper, tuna fish, cream and grated onion. Blend well. Pile yolk mixture in egg white halves. Unmold chilled rice ring on large serving plate. Arrange stuffed eggs around rice. Garnish center of ring with watercress. Serves 6.

Lemon Juice Retains Strawberry Color

It's strawberry time again. To brighten next winter's meals, capture a bit of the summer by making - arking rows of jams and preserves at the height of the berry season. The addition of canned lemon juice to either your jam or preserve recipe gives you a three-fold improvement in your product: the lemon juice preserves the beautiful red color; helps the syrup to thicken; and gives a better flavor. Now that you can get pure California lemon juice, canned or fresh-frozen, a lot of time is saved—no squeezing, no straining of lemon juice.

Start your jam making with rosy red strawberries. Buy good-looking, fully ripe, perfect fruit for preserving. And for best results, make small quantities of jams or preserves at one time. Jam, you know, is made of crushed fruit; preserves are the whole berries.

Strawberry—Lemon Jam
 4 cups crushed strawberries
 3 cups sugar
 1/2 cup canned lemon juice

METHOD: Combine crushed strawberries and sugar and boil rapidly 20-30 minutes, until it reaches the desired consistency. Add the lemon juice the last several minutes of boiling. Skim, if necessary. Ladle quickly into clean, hot jelly glasses. Paraffin at once.

Strawberry—Lemon Preserves
 2 cups whole strawberries
 2 cups sugar
 3 tablespoons canned lemon juice

METHOD: Combine the sugar and lemon juice and boil about 6 minutes, until the mixture becomes liquid and bubbles. Add the whole strawberries and bring to a boil again. Boil 4 minutes, stirring occasionally. Pour into a shallow platter or tray, skim, if necessary. Let the preserves stand 24-48 hours, shaking the platter occasionally to plump the fruit. Pour into sterilized jars and seal without reheating.

ATTEND REUNION

Mr. and Mrs. H. A. Hyde returned last week from Phoenix, Arizona, where they attended a reunion of Mr. Hyde's brothers and sisters. Six sisters and two brothers were present. Also making the trip were Truel Hyde and wife of Lubbock. A total of 47 Mrs. Hyde reported that the

local rroup was caught in quite a flash flood near Mountainaire, New Mexico, on their return trip, and they were stranded for nine hours before being able to proceed.

Joe and Charles Osborn, sons of Mr. and Mrs. Sloan Osborn, are home to spend the summer with their parents.

the school. Average daily attendance for the second week will be approximately 44 children from the congregation and community.

LIONS CLUB MEETING

The Friona Lions Club will meet tonight in their regular bi-monthly session. The program had not been announced late yesterday.

Do You Remember...

13 Years Ago

In a single-ring ceremony, Miss Marjorie Wilkinson of Canyon and Charles Reeve had been married in the home of the bride. A morning coffee was served following the wedding ceremony. After the coffee the couple left for a trip to Santa Fe. The groom was head of the science department in the Tulia High School and had been employed for the summer at the Phillips Petroleum Co. in Phillips.

Father's Day was observed at the Congregational Church on Sunday, and all fathers' were invited to attend.

The first load of 1939 wheat crop was received at the Santa Fe Grain Company on Wednesday afternoon by J. E. Davis. The wheat had tested 56 lbs. due to the high moisture content. A premium of \$10.00 was paid Mr. Davis for having the first load. Yield was reported at 18 to 20 bushels per acre.

Oscar Pope was improving from injuries he had received when his lister turned over with him.

Mrs. Charles Lovelace, who was formerly Miss Alice Guyer, was honored with a shower on Thursday.

Mr. and Mrs. James Bragg and small son, Clyde Ray, had moved into Friona from their home southeast of town. They occupied the J. A. Blackwell property.

Mrs. Ed Boggess and Mrs. Charles Bainum had been to Plainview to attend the Eastern Star School of Instruction. Each of the ladies had been awarded a B certificate for all the unwritten work of the order.

J. L. Landrum, who at that time was conducting a grocery and drug store at Hale Center, had arrived in Friona to look after business matters, and was planning to move back here.

The Junior Women's Club had met in call session to complete the business of the year and adjourn for the summer. They met at the home of Mrs. W. H. Ford, and the program had been given by Mrs. Ford and Mrs. Nelson Welch.

Visiting in the A. O. Drake home had been her brother and his wife, Dr. and Mrs. W. B. Miller of Centerville, Iowa.

A successful cooking school had been conducted by Miss Madelein Klepper at the Blackwell's Hardware and Furniture store. One of the highlights of the school had been the cooking of an old rooster. The ladies had submitted names for him, and the nice prize had gone to Mrs. L. F. Lillard for the name "Old Pineknot." Mrs. Katherine Guthrie and

her sister, Eva Settle had gone to Dimmitt, where they had been employed at a cafe. Mrs. Guthrie had for some time been employed at Smiley's Cafe.

Showing at the Regal theater had been Shirley Temple in 'Just Around the Corner.'

The Texas Department of Agriculture

Fertilizers and Pesticides
Farming and ranching gets just a little more complicated each year.

In these days of stepped-up production, higher crop quotas, advances in mechanized equipment and changing economic conditions, the farmer and ranchman has to keep constantly re-adjusting his seasonal plans if he is to operate at a profit. In addition to keeping pace with day-to-day developments, he had to look ahead and anticipate future conditions that may have a bearing on his situation.

A crystal ball might be a big help in this respect. But since few, if any, of us have this advantage, then a little planned thinking is the next best method.

One thing is certain this season. Due to a mild winter, Texas may face one of the worst insect infestations in the last 20 years. And, of course, we must constantly practice those conservation measures which will keep our soil in top-notch shape.

A heavy volume of pesticides and fertilizers are expected to be needed this year to support the high-level farm output. Farmers are urged to order their supplies well ahead of the time for applying these essential production materials. A last minute rush would tax industry's ability to fill orders and the channels of transportation from factory to farm.

Total requirements this year for pesticides, including insecticides, fungicides and herbicides are expected to run about nine per cent higher than in 1950-51. On the whole, supplies should be equal to the demand and prices generally are not greatly different from those of a year ago.

The United States Department of Agriculture reveals that supplies of pesticides containing copper and sulfur may not be sufficient to fill all demands but alternate materials will be generally available. Lead arsenate supplies critically short earlier in

the year, are improved. Farmers should be able to get sufficient quantities of weed killers such as 2, 4-D and 2, 4-5-T.

A generally strong demand for fertilizers has put pressure on

the nation's soil building supplies. Fertilizers on the whole are slightly more plentiful although a little less phosphate is expected to be available than last year. Because of a high demand for ammonium nitrate and phosphates, those supplies will be somewhat tight.

Potash will be fairly plentiful.

Charles Goodyear first manufactured rubber overshoes.

ATTENDED INSTALLATION

The Congregational Church was represented by Revs. George E. Meyers, Mrs. Floyd Schlenker and Misses Sue Cranfill, Phyllis Treider and Florence Dean at the meeting of a vicinage council of Congregational Churches held at Binger, Oklahoma, for the examination and installation of the Rev. Harry Lake as pastor of the Binger Congregational Church on June 2nd. The Rev. Mr. Meyer had the Scripture reading for the installation service.

Sunday June 22nd. is to be Children's Day in the Congregational Church with the program largely in the hands of the youngsters of the Sunday School; the Annual Daily Vacation Bible School is to be held during the week of August 10th; and the Sunday School of the church is to be represented by six persons at the Leadership Workshop of the denomination to be held at Camp LaForet, near Colorado Springs,

July 30th-August 3rd, according to action taken by the officers and teachers of the Sunday School in a special called meeting June 8th in the church. Otho Whitefield is superintendent of the Sunday School.

HONORING FATHERS

'Father' is to take the bow at the morning worship service of the Congregational Church June 15th at 11:00 a.m. with a special invitation to all fathers of the congregation, friends or members and of the community as well. The pastor's sermon subject as announced is to be 'Show Us the Father.' The usual general invitation is extended to everyone which of course includes the ladies, and youngsters.

A pound of ice occupies more space than a pound of water.

Leonardo da Vinci, the painter, wrote from right to left.

Foundations For Friendliness

So much of the lack of friendliness in this world. . . so much of the misunderstanding between neighbors and between nations. . . come from the fact that we do not know each other. But let us worship together. . . let us work together for the betterment of our homes and community. . . and we begin to understand each other. Today churches of every creed are cooperating in behalf of greater understanding. Join your friends in the church of your faith every week.

**Timothy-Clover Hay Crop
Leads in U. S. Acreage**

Cutting a Heavy Crop of Timothy - Clover Hay.

For more than two centuries timothy a native of Europe, has been the leading hay grass in the United States where it has reached its highest state of development and use. In spite of a decline in acreage of timothy because of fewer horses and the competition from other kinds of hay, it remains the foremost hay grass in this country.

Popularity of Timothy is attributed to its valuable qualities for hay, pasture, silage, and erosion control. It is at its best in New York, third State in total hay production. New York produces more timothy and clover hay than any other State, but Iowa has produced more than half our timothy seed.

Timothy has a wide range of adaptation but in some areas other grasses and legumes have largely replaced it for both pasture and hay.

Timothy and red clover grown in combination produce more and better hay than either alone. At Wooster, Ohio, over a 20-year period, timothy averaged higher yields of hay than any of eight other grasses.

The best production is obtained from cutting timothy hay when in early bloom, and from timothy-clover mixtures cut when clover is in half to full bloom. Timothy cut not later than early bloom and properly cured, compares favorably in protein content and feed value with other hay grasses.

Hay from early cutting, combined with nitrogenous fertilization,

often contains twice as much protein as late-cut hay from land deficient in nitrogen. Such hay can successfully be substituted for legume hay in feeding dairy cows during the usual winter feeding periods.

Timothy is often included in pasture mixtures because of its establishment and high palatability, but its failure to make regrowth after grazing in late spring or early summer and lack of persistence are disadvantages.

Silage of high protein and carotene content and otherwise of excellent quality is produced from timothy cut in early stages of growth, at a lower cost per ton than corn silage.

Three to five pounds of timothy seed per acre sown in the fall with winter grain or six to ten pounds sown in the spring with oats usually give greater yields than either larger or smaller rates of sowing.

When nitrogen is applied with superphosphate and potash, the yields per acre of both hay and protein are increased. The latter constituents applied without nitrogen are usually not effective, unless the soil is already well supplied with available nitrogen.

Early varieties of timothy, such as Marietta and Shelby, for use in the southern part of the area of timothy adaptation and late varieties, such as Lorain in the northern part, have been developed and limited quantities of seed are available.

**Kenneth Bainum Honored
As Student Official
At ETSC, Commerce**

Kenneth Waide Bainum of Friona has been named a member of the Student Union Building Board of Directors at East Texas State College. His appointment was announced this week by the merit committee of the board.

As a member of the group, Bainum will help plan all-campus activities and will have a voice in the management of the Student Union building.

Son of Mr. and Mrs. Charles S. Bainum, he is a junior agriculture major. He attended Tarleton State College two years and holds membership in Texas social club for men at East Texas

**Speech Therapy Clinic
For Handicapped Is
Free Feature at Tech**

A free clinic for persons with speech handicaps is a part of the Teaxs Tech speech department's summer program.

Helen Lindell supervisor, announced the clinic scheduled for June 7-July 11, has two purposes: community service and therapist training. The enrollment will be limited.

Types of cases usually handled by the speech therapists include those retarded in speech development by obvious and explainable reasons such as illness, hearing problems, and injury, and others where reasons are less obvious. Stutterers, and other speech hesitations, articulate cases, voice problems, inaccuracies in speech, and aphasic cases are included.

The clinic is open to everyone with a speech handicap, Miss Lindell said, but we favor working with children on the pre-school level. Sometimes the speech

BROTHER KILLED IN WRECK

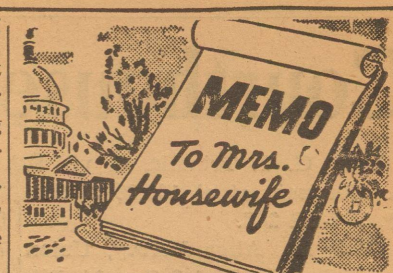

Mrs. Ed White and children left early yesterday morning for Hutchison, Kansas, after receiving word of the death of a brother there. The brother and wife, Mr. and Mrs. Chester Hahn, were killed Sunday in an automobile accident.

Lee Spring, who has been attending medical school in Galveston, is home visiting with his parents, Mr. and Mrs. F. L. Spring.

V. C. Krueger and Ray Smith are attending to business in Milwaukee this week. While there they plan to get in some fishing in the northern lakes.

VOTE FOR JESSE M. OSBORN

problem can be solved without attending the clinic. We would like to counsel with the parents in any case.

NATIONAL PRESS BUILDING
WASHINGTON, D. C.

By Anne Goode

Is the house getting a fresh paint job soon? If so, remember to protect the shrubbery from stray paint splashes. The best way is to tie it back with ropes, then cover carefully with cloths.

There's no good reason why clothes can't be passed on from one child to another as long as they don't look like hand-me-downs. Oftentimes, an old play suit or dress will look almost store new if given fresh color with all-purpose dye. Try it!

White organdy, so sheer and fragile, is very much in the summer fashion picture. It appears in collars of all sizes and shapes, fills in the necklines of suits, makes up bodice tops and shirtwaists. And some of the prettiest afternoon and evening dresses are also in white organdy.

GOOD HEALTH

1. ARE PEOPLE SPENDING LESS TIME IN HOSPITALS?

3. IS ALCOHOLISM CURABLE?

2. MUST OLD PEOPLE BE TIRED?

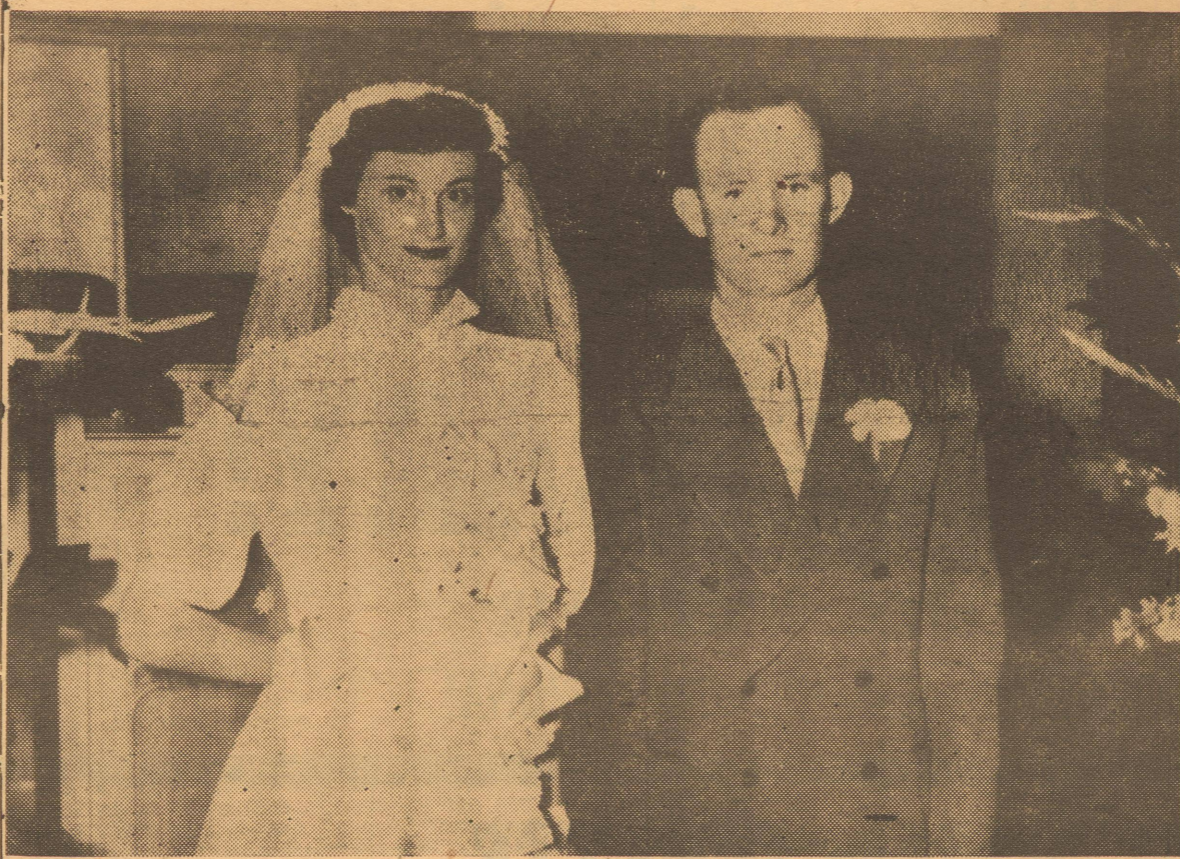

Answer to Question No. 1:
The average length of stay in general hospitals in the United States today is about 20 to 25 per cent less than it was in 1940. This improvement is largely the result of medical advances, early ambulation after surgery and childbirth, and the use of blood transfusions.

Answer to Question No. 2:
Healthy old people are not necessarily tired. Much of the weariness is due to improper diet. An increase of proteins and a lessening of starch, sugar and fats will often relieve the feeling of exhaustion. Elderly

persons' diets, under the direction of the family doctor, will include plenty of meat, fowl and green vegetables, with less bread, butter, sweets and the like.

Answer to Question No. 3:
Yes, in many cases. If the alcoholic has the will to be cured, his doctor can, with the aid of new drugs and psychiatric procedures, help him to give up drinking. To be certain of continued cure, the patient must always abstain from drinking alcoholic beverages. (Copyright 1952 by Health Information Foundation)

MR. AND MRS. EASTON WALL

Pictured here at the wedding reception at the D. O. Robason home are Mr. and Mrs. Easton Wall, wed Saturday evening May 31st, in the First Baptist Church here. Mrs. Wall was the former Lila Robason. The couple are making their home at Hart where Mr. Wall is engaged in Farming.

POWER TAKE-OFF WORK DONE BETTER!

...with the new Ford Tractor and

PROOF-METER

Everyone knows that implements driven by power take-off should be run at their recommended P.T.O. speed, for best results. But how can you tell what the P.T.O. speed is, in actual operation? Up to now, there's been no way to check it—without special equipment.

But NOW you can know! Now the Proof-Meter—standard equipment on every new Ford Tractor—shows the P.T.O. speed right before your eyes all the time—while the implement is moving, while it's under load! This exclusive Ford advantage eliminates costly "guess-work." It enables you to set the throttle to keep P.T.O.-operated implements always running at just the right speed for best work, greatest fuel economy, longest life! The Proof-Meter can increase profits on power take-off jobs, a lot. It's valuable in many other ways too...

5 Instruments in ONE! In addition to P.T.O. Speed, the Proof-Meter shows you Tractor Travel Speed, Engine Speed, Belt Pulley Speed, and indicates Hours Worked. Nothing else like it.

Only the Ford Tractor has the Proof-Meter!

SEE FOR YOURSELF! Let us show you, right on your own farm, the dozens of ways in which the versatile Ford Tractor and L... Farm Equipment can help you cut costs, get better results, and help make more money for you.

FHA Members Vacation At Tres Ritos for Week

The local FHA girls returned Monday from their annual trip, this year spending a week vacation at Tres Ritos and nearby points.

Much of the time was spent in hiking. On two occasions the group drove into Taos, shopping and attending a matinee. While in Taos they visited the art gallery and the Indian reservation.

On Friday night the girls attended a party at the Evans cabin. On Sunday afternoon they held a devotional service in a clearing on the mountainside.

FHA girls making the trip were:

Gay Cass, Elizabeth Cocanougher, Zelma Beaty, June White, Anita Scarborough, Clea Rea Stowers, Joyce Ann Miller, Gay Ann McFarland, Mrs. Magness, Denise Magness, Deann Buske, Carol Blackburn, Betty Zon Ashcraft, La Nora Fallwell, Oneida Coffman, Shirley Fields, Jane Phipps, Lois Deaton, Ethel Martin, Mary Bell McClothlin, Donna Miller, Clea Lloyd, Jo Ann Agee, Joyce Maxwell.

Sponsors making the trip were: Mr. and Mrs. Baker and Bobby,

Tim Magness, Mr. and Mrs. Ralph Miller, Mrs. Magness.

WSCS Begins Study of Book of Acts; Will Entertain Sub-District

The Woman's Society of Christian Service met in the local Methodist Sanctuary Tuesday afternoon for their regular meeting.

Mrs. Hadley Reeve, president, conducted the business session, and she announced that the Sub-District meeting will be held at Friona June 19th, beginning at 10 o'clock in the morning. Lunch will be served by the WSCS at the annex of the Methodist Church.

A new study of the "Book of Acts" by Edward P. Blair, was begun under the direction and leadership of Mrs. Newt Gore. This is going to be a very interesting study and Mrs. Gore is a most inspiring and capable teacher. All members will benefit by

REV. AND MRS. JOE WILSON

Former Friona Pastor and Wife to Observe Golden Wedding Anniversary; Friends Invited

Rev. and Mrs. Joe Wilson, former pastor of the Baptist Church of Friona, will observe their golden wedding anniversary in Lubbock, Texas, Wednesday, June 18. Relatives and friends of the pioneer couple are sponsoring a reception between the hours of 2:30 and 5:30 at the Party House in MacKenzie State Park in Lubbock, to which all friends are invited.

Joe Wilson, then a cowboy, and later a cattleman in his own right, married Eva Dodson in June 1902 in the Dodson home in Lockney, Texas. Both were of pioneer Floyd County families who came to Floyd County in 1891 and 1892. In 1918 Joe Wilson dedicated his life to the ministry and spent the next several years in school at Hardin-Simmons University

Mr. and Mrs. Red Crow, Joy and Earl, and Mrs. J. M. Bradley left Monday for Augusta, Ga., where they will visit Lt. D. E. Coldiron and family. Lt. Coldiron is the son of Mrs. Bradley and a brother of Mrs. Crow.

and the Southwestern Baptist Theological Seminary at Fort Worth where he graduated in 1925 with the THM degree. He and his wife, have served Baptist churches in Friona, Miami, Idalou, Hale Center, O'Donnell, Sundown, and Fairview, in Floyd County, where the pioneer couple are now located.

HOME FROM KOREA

Cpl. Billy Don Wigley arrived home Tuesday night from ten months spent in Korea. He will be home thirty days, then will report to Fort Sill to complete his five months of service.

He is the grandson of Mr. and Mrs. C. A. Paul and nephew of Mr. and Mrs. S. L. McLellan.

Mr. and Mrs. E. R. Day spent the week-end in Lubbock visiting in the home of Mr. and Mrs. Jess Jones and family.

Mrs. Mary Officer is visiting her sister in Arkansas.

Grass Silage Economical Way to Preserve Forage

Grass silage offers to dairy and livestock men a means of preserving the green growing hay or surplus pasture crops with most of the succulence retained and a minimum loss of feed nutrients.

Spring growths of hay can be saved at the right stage of growth almost with a complete disregard of weather. Removing the first growth at the right time assures better and heavier second cuttings for hay, and ensiling provides a succulent feed of excellent quality for winter use or to tide over periods of drought.

Ensiling also makes possible the recovery of more of the crop than is usually possible with hay making procedures. It gives flexibility to hay harvesting in that you "make hay when you can, and ensile almost any time." Ensiling has been more completely mechanized than haymaking.

Silage succulence is a definite advantage and makes for better livestock production, under the all-too-common haphazard watering of stock in many sections of the country.

Ensiled forages keep well even as long as five years. Silage saves the carotene better than any other preserved form now used. In view of this ability to retain feed values over long periods, and its low cost ensiling of surplus forage will provide a backlog against any future needs. Some farmers have greatly increased their silo capacity insurance against drought and hay shortage.

There are as many kinds of silage as there are crops or combinations of crops. The commonest is corn silage. Of the others, the commonest and probably the best is some mixture of grass and legumes or straight legumes.

The best silages are moist to the touch, soft (but neither sloppy nor

Things to Observe in Making Grass Silage

1. Whichever type of silo is used must exclude air and be deep enough to give good compaction.
2. If silage is too wet when cut either allow it to wilt to 65% moisture or use a conditioner or preservative.
3. Chop green material fine if moisture content is low.
4. Fill silo uniformly and firmly.
5. Cover top of silo with wet material chopped fine or use a special air-tight cover sealed at the edges.

slimy), fragrant in their own way and are formed at temperatures between 70 and 100°F. The nature of the crop will affect the qualities of the silage, but its condition is even more important.

The best silage crops are the best hay or pasture crops. Many weed plants in hay crops which are not good feed in the growing or dry condition are acceptable by cattle when ensiled with good forage crops. In moderate quantities they do not materially affect the feeding value of silage. The best silages come from the legumes such as alfalfa or mixtures of legumes and grasses such as alfalfa and bromegrass or Ladino clover and orchardgrass, if they are properly treated when blown into the silo.

Grasses and legumes for silage may be harvested with ordinary haymaking machinery or the new specialized machinery which makes it possible for one or two men to harvest and chop the crop in the field and to unload automatically at a blower with little or no hand labor.

Local

Mrs. Tom Lewis and Don returned home Wednesday night from a trip to Celeste, Dallas and Greenville.

Major and Mrs. John R. Chandler and family of Albuquerque spent the week-end in the Bill Stewart home. They fished at Buffalo Lake while here.

Mr. Henry Rockwell of Houston visited with Mr. and Mrs. O. F. Lange Friday and Saturday. Mr. Rockwell and Mr. Lange were business visitors in Hereford Saturday.

Mrs. Maridee Day spent the week-end in the Ray Tyler home in Lubbock. Mrs. Day and Mrs. Tyler attended college together.

H. T. Carr, Jr. went to Lubbock Thursday to enroll in geologist courses at Texas Tech college.

Mrs. H. T. Carr, Helen Nita and Alice Ruth are planning to

Personals

Week-end visitors in the Wesley Hardesty home were Mr. and Mrs. Bill Smith. Mrs. Smith is the former Dona Hardesty.

The Roy Wilson family, and the Alfred Haws family of Albuquerque went to Buffalo Lake last week to fish.

W. A. Tinney, Jr., Jimmy Dixon H. T. Carr, Jr., Helen Nita Carr and Margie Haws went to Hereford Sunday to swim in the city pool.

The Glen Sparkman family visited in Amarillo Sunday.

Mrs. Jim Wilson, Mrs. Grace Hart and Mrs. Elroy Wilson were in Hereford shopping last week.

Red Crow suffered a crushed finger Friday when it was caught under a falling barrel of gasoline. Though painful, no broken bones were reported.

RETURN FROM TRIP

Mr. and Mrs. A. O. Drake, Mr. and Mrs. Earl Drake and sons, Owen and Larry, spent last week visiting in Iowa and Missouri. They visited with Mrs. Drake's only sister in St. Joseph, Mo., who is 87 years old and has been ill. They went on to Iowa to visit with their relatives, and reported that Iowa still looks good to them.

SUNDAY VISITORS

Dinner guests Sunday in the J. M. Bradley home included Mr. and Mrs. C. J. Carter and daughter of Hobbs, N. M., Mrs. Bill Pedigo and two children of San

Francisco, Mr. and Mrs. Bill Carter and children of Pampa, Mr. and Mrs. Dan Dunn and Donna of Panhandle, Mr. and Mrs. Kenneth Heady and baby and Mrs. C. D. Carter of Friona, Mr. and Mrs. Red Crow and children.

CARD OF THANKS

May we take this opportunity to thank our many, many friends for their loving kindness shown us during the loss of our beloved husband and father.

We pray God's blessing upon each of you.

Mrs. W. E. Payne
Mr. and Mrs. Leroy McDonald
Mr. and Mrs. John L. Seaton.

Dale Williams visited in Friona over the week-end.

THANK YOU

Just one year ago this week we re-opened the Friona Cafe, providing downtown Friona with a cafe.

To each of you who have patronized us through the year we extend our heartiest "Thank You" and pledge to continue showing our appreciation by good service and good meals.

To those other who yet have not paid us a visit, we earnestly invite your trying us, then comparing our prices, our service, and our well-prepared food. We're in business to please you.
