

It's the Heat, Folks!

Column Left. . .

We believe this unique to the area and as one of the best recommendations of the Farmer County Hospital, Dr. Spring and staff:

In most every card of thanks published in this paper, the family expresses gratitude to the hospital, its doctors and nurses.

It is heartening to note that this affection rests in the hearts of those who have been patients in the local institution; and it is unusual, no doubt, that this community - hospital relationship can exist and grow, with the hospital remaining in the black financially.

We believe few of us take time to count the advantages and services of Dr. Spring and his co-workers. Personally we would rather see the hospital thrive at Friona than to have any county office here. Twenty-three people are on the staff at the present time.

In contrast, many little hospitals, some near here in neighboring towns, have found it necessary to close their doors.

But in Farmer County, we believe most every eye is turned toward expansion of the local hospital in future years as an institution serving the entire area. Surely it is surpassed by few even now.

Who was it that said that courtship is the short interlude between lipstick and mopestick?

Must give Preach Edelman credit for this:

There are potato farmers who make one small request of anyone digging potatoes in their field: Please rake the dirt back out of the furrow so the irrigation water can flow freely!

Of course total abstinence from digging in the other fellow's field seems to the editor as being a simpler solution.

Allen Stewart leaves this week for Los Angeles, California, for a two months graduating course in gemology.

Sales and repair work will be carried on as usual at his local firm, and Mrs. Stewart will be on hand to serve the customers, Allen reports.

Allen has been taking a correspondence course in this highly specialized field for over three years, and the on-location schooling he now is taking will qualify him as one of the limited number of gem experts in the area. (Read the story in the last issue of Saturday Evening Post if you want a comprehensive understanding of gemology and the work Allen has accomplished).

Congratulations to another local businessman rendering service plus.

A familiar sight was seen Saturday night at the City Drug Corner: Uncle Charlie Jones was back on the corner, only this time it was through the thoughtfulness of City Marshall Roberts who brought him down. Uncle Charlie has had a mighty tough go, resulting from that fall at his home some weeks ago. He can't get around much yet without assistance, and we imagine he would be glad for his friends to drop by and visit him at his home here.

Thanks for the many comments regarding the appropriate selection of Roy Miller as father of the year.

Hear reliable reports of more new businesses coming in and some changing hands. More about this later.

Note to out-of-state subscribers only: It hasn't rained here yet!

Water flowing down the irrigation ditches is placing us in much more favorable position, however, than any area we know.

Glad to see Buddy Lloyd back up, after a recent operation, and visiting with friends about town.

One year ago this week Alan Romich resigned as full-time, paid Chamber of Commerce manager for Friona. No manager has been hired to date.

Senator Lyndon Johnson asks: "Now I've been asked by a Texas radio station to support a resolution naming a National Hillbilly Music Day. Anybody want to advise me?"

And we thought EVERY day was hillbilly music day! Seems that a lot of radio stations have the same idea.

Speaking of the senator, just take your pick of leading Texans, and you'll probably find a magazine article somewhere just any day building them up or tearing them to pieces—at least giving them publicity. This week Time magazine came out with a front cover picturing Hon. Johnson, with several columns devoted to his evident position as a national figure of note—a gem for the Democrats; and Saturday Evening Post gives wide spread to Governor Alan Shivers, lauding his accomplishments and possibilities.

And our name doesn't even get in the Friona Star!

Byron Skelton of the Texas Democratic Organizing Committee this week sent out pamphlets entitled "Let's Talk Sense About the Democratic Party".

And the most "sensible" note in the whole deal was a request of \$5 contribution to the cause!

Crew Connecting Rural Phones for Service Oklahoma Lane Lines Energized this Week

Poll Presented: Farm Program

Citizens of the area are being offered the opportunity to express their views as to the agricultural program of a ballot in this and other weekly papers in Texas.

The reason for this poll is the apparent differences of opinion between some organized groups and the rank and file producers who say that statements of a few members of these organizations do not reflect the true feelings of the majority of the livestock producers and farmers.

The state livestock paper of Colorado, The Denver Record-Stockman, last week ran the ballot. A partial count of the ballots revealed that 43 percent voted in

favor of livestock and grain supports. Thirty-eight percent favor removal of all supports. Only one and one-half percent favored the present rigid supports of grain, while livestock remains unsupported. Let's see how Texans feel about it and what type program is required.

The Friona Star will co-operate in this poll and Ted Gouldy of the Live Stock News Service in Fort Worth has offered to tabulate the returns from the some 350 Texas county newspapers and we will carry a complete story of the results of the Texas opinion poll when this is completed.

The ballot is secret, you need not sign it.

I FAVOR

CHECK ONE

- () 1. I FAVOR REMOVAL OF ALL PRICE SUPPORTS IN AGRICULTURE.
() 2. I FAVOR PRICE SUPPORTS ON CATTLE, HOGS AND SHEEP AS WELL AS OTHER AGRICULTURAL COMMODITIES.
() 3. I FAVOR FLEXIBLE PRICE SUPPORTS ON AGRICULTURE, EXCLUDING CATTLE, HOGS AND SHEEP.
() 4. I FAVOR CONTINUATION OF THE PRESENT PROGRAM OF FIXED PRICE SUPPORTS ON GRAIN, BUT NO SUPPORTS ON LIVESTOCK.
() 5. MY OWN PLAN, WHICH IS.

NOTE: YOU NEED NOT SIGN THIS BALLOT. CLIP AND MAIL TO THE STAR, FRIONA, TEXAS

Birthday Calendar: June 26: Galen Brewer, Nancy Mjstell. June 27: Ray Nell Foster. June 28: Earl Black, Gilbert Beene, Mrs. Chas. Schlenker, Dwight O'Brien. Education: What a man gets when he sits in his living room with a group of teenagers. (We don't know about this first-hand, and must admit we copied it somewhere, but we can vouch for similar "enlightenment" even around three pre-teen boys).

This column wouldn't have been so long if our neighbors, Jack Anderson and Glenn Reeve had the common sense to go home before midnight. Just can't let these slaves outdo us, however, so your readers must consequently suffer.

Or should we blame the weather and the Republicans?

Fir 2x4's and 2x6's \$7.50 hundred Friona Lumber Company.

Osborn Funeral To Be Held Friday

Funeral services will be held Friday afternoon at 3 o'clock in the Friona Methodist Church for Frank Osborn who died at his home early this morning.

Mr. Osborn was 75 years of age last March 6th, 1952, and he had been bedfast for the past nine months. Death came at his home in Friona.

He was born in Corinth, Mississippi. He married Miss Ella King in Alba, Wood County, Texas, and moved to Parmer County in 1930. He engaged in farming here until his retirement.

No children were born to Mr. and Mrs. Osborn. Survivors include two brothers, Will Osborn of Friona and E. M. Osborn of Hope, Arkansas, and one sister, Mrs. Lillian Clark of Hollene, New Mexico, and a large number of more distant relatives in West Texas and New Mexico.

Funeral services will be conducted by Rev. U. S. Sherrill, pastor of the local Methodist Church of which he was a member. Burial will be in the Friona Cemetery under the direction of Gilliland Funeral Home of Hereford.

Lubbock Meeting To Air Extended Service

Four crews of workers are in the Friona-Bovina area this week connecting phones for the Wset Texas Rural Cooperative, according to announcement of Robert Bell of the Hereford office.

Indications are that the lines will be energized soon after the first of July.

Phones in the Oklahoma Lane community have been hooked up and are in use for local service within the exchange.

Original plans called for connections from the Oklahoma Lane exchange into Texico-Farwell by June 30, but due to a misunderstanding between suppliers and manufacturers, the central office

equipment must undergo modification before connection can be made into Farwell. It is expected that this work will take from four to six weeks. Patrons will be notified just as soon as definite date can be determined for that extended service, officials of the co-op state.

LUBBOCK MEETING PLANNED

Regarding the extended service negotiations between the Friona and Bovina exchanges of the Co-operative and the General Associated Company of the Southwest, a meeting is being held in Lubbock Monday morning between representatives of the two firms. Attempt will be made there to speed negotiations on a contract.

Floyd Schlenker and Harold Carpenter will attend from Parmer County. W. H. Thompson, vice president and commercial manager of the General Telephone company will represent that firm.

Other construction crews are in this locality now, building lines to enable toll service over the connecting lines (from the rural exchanges to distant points, NOT Friona or Bovina) and no provision has as yet been made for the "extended service" (calls between the rural exchange patrons and Friona and Bovina proper). A contract agreement will be necessary for this inter-community service, but no contract is required on use of the toll lines to other points.

The County Court at Tahoka, Texas, has been conducting hearings wherein a like situation was presented. Two hundred and eight citizens had signed a petition there asking the Co-op and the General Telephone company to reach agreement on extended service.

These hearings have been followed with interest by some local observers who noted a parallel in circumstances, and some from this area have attended the Tahoka hearings.

Car - Pickup Hit On West Hiway 60

Charges of "failure to yield right of way" were filed yesterday against Royce Hicks Copeland, 28, of Lubbock, shortly after a two-car collision west of Friona.

Highway patrolman Joe Culp reported that Copeland, driving a BMK Construction Company International pickup was making a left turn off Highway 60 two miles west of Friona, turning in the path of an east-bound '53 Chevrolet driven by E. E. Pillers of Amarillo.

Pillers, two soldier passengers, and Copeland were given emergency treatment at the Parmer County Community Hospital; the soldiers were dismissed immediately with only minor bruises.

The front of the Chevrolet and the right side of the pickup were badly damaged, the impact completely reversing the direction of the passenger car and placing it facing west on the south side of the pavement.

Farm Bureau Report

"In my opinion, there can be no definite change in the trend toward centralized, federal government, until the citizens of the states accept their obligations, duties and responsibilities by participating in the formulation and enforcement of law," said Senator Andy Rogers at the Bovina Farm Bureau meeting Monday night. This statement was made after Mr. Rogers had pointed out the fact that Texas ranks third among states for self supporting taxes for state administration. The other two receive their revenue principally from gambling, contributed to by out of state people.

Elison reported to the people on the action of Texas Farm Bureau President Walter Ham-

mond last week, when USDA again agreed to make loans on wheat temporarily stored in the open. The action this time was necessary because of actual storage shortages, and the market for wheat was dropping drastically. In 1949, the same action was taken to thwart the efforts of some grain dealers to buy wheat cheap while they claimed there was short storage space. The market immediately began to rise.

The Bovina area has more stringed talent than you ever saw. Henson, the ag teacher, with his guitar, this time secured Jimmie Norton with another guitar and Harold Carpenter with a banjo provided some lively music prior to the meeting proper.

The National Cotton Congress in Lubbock is attracting several Parmer County ginners and cotton growers this Thursday, Friday and Saturday. Saturday at eleven in the morning Ezra Benson will be at Tech Gym to report to the people on the agricultural outlook from USDA's view point.

Consider this: A righteous man falling down before the wicked is as a troubled fountain, and a corrupt spring. Proverbs 25:26.

CARD OF THANKS

We wish to express our sincere thanks and appreciation to our many friends and neighbors who were so kind to us during my illness, also for the many pretty flowers and cards.

We thank the doctors and all the hospital staff, and all the blood donors for their kindness and service.

May God bless each of you. The Buddy Lloyds

Property Value Up In Lazbuddie Dist.

Crowded classroom conditions and increased enrollment at the Lazbuddie schools has necessitated increase in property valuations for tax purposes in that district, it was announced this week.

The schoolboard has announced the changes in valuation specifically for the purpose of constructing new classrooms.

The value of land will increase \$2.50 per acre; irrigation wells increase \$500.00, and the value of personal property will increase 25 per cent.

"A vigilant press has made the American people the best informed in the world."

Monday Morning Musings

Things sure do get confusing.

We thought we would "enlighten" ourselves a bit this morning and read up on some economics and signs of the times. Most editors have access to numerous industrial and economic reviews, so we picked out one and proceeded to get wised.

But something confused us at the very start, and we're just as dumb as ever; we haven't fathomed the report yet, and even are wondering if its writer, the so-called experts and analysts or the politicians comprehend much more.

First item catching our eye was a pep talk entitled "We must Produce More Food".

Citing the growing United States population (about 7,000 increase per day) the article seemed logical enough when it said 100 million more fertile acres must be brought into production by 1975 to feed the population.

BUT in the very same review (now comes the confusing part - which threw us) comes reports of the nation's wheat and corn bins oozing and overflowing with crops as much as four or five years old and on the verge of decay. This notation was made in support of Mr. Benson, secretary of agriculture, who sees props (price supports) under wheat and corn encouraging even greater production, and no place to store these grains - also he sees bread prices soaring.

We're still confused.

MMM

We'll string along with the La Canada, California, editor who questions "why do columnists call readers 'gentle' when really they're often downright ferocious?"

MMM

Lots of folks brag about their ancestors coming over on the Mayflower.

Wonder how many of us remember with similar affection the act of the ancestors who were around when the Sixteenth Amendment to the constitution was voted? That was the amendment, effective in 1913, that instituted the income tax, granting the federal government power to lay direct tax on the incomes of the people, actually depriving the citizens of constitutional right to one penny of their income. An extreme illustration, but nevertheless true.

Wasn't it about that time, that the socialistic trends began in our government? Could there be any connection? Anyway, looks like the income tax made money readily available to propogate and to maintain such bureaus as the whims of the politicians desired.

MMM

A lot of people are "down" on Syngman Rhee, the South Korean president, for his independent action that no doubt has seriously hampered the present truce negotiations (as if they could be in worse shape).

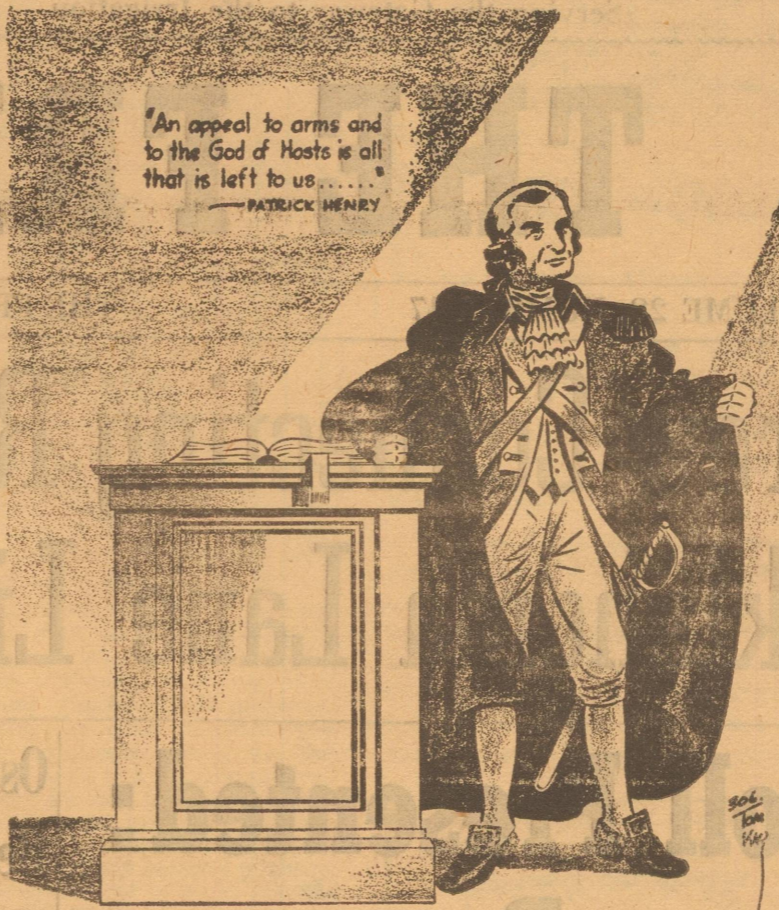

Unification in purpose and in action must surely be imperative for decisive winning of wars or the signing of pledges between nations; but we cannot see that Rhee is any more out of line than has been some of our other allies, even England.

A lot of countries like the handouts from Uncle, depending on him for their very existence above the waterline of economic chaos, yet it has been an evident United States policy for a number of years to embrace these nations, letting them veritably dictate to us in many instances. Hasn't the Churchillian voice of England thundered time and again when the U. S. acted without consulting them to their satisfaction? Then, where has England or ourselves or anyone a logical right to score the little but rugged Mr. Rhee for similar attitude? We're not upholding him, but we have seen parallel incidents sanctioned. And the cost has been heavy.

Personally, we thought at one time that we entered the Korean fracas to win; maybe Mr. Rhee feels likewise. But the whole action has evolved into a circumstance where "negotiations" were thought by our government to be acceptable. We do not question the wisdom of this turn-about in policy; in the first place, we don't pretend to know; in the second place, we still are good citizens going along with the majority wishes in the foreign policy of our own government; but with Mr. Rhee merely sticking to the original purpose of the war, we cannot be too angry at his motives... future developments will be worth watching, at any rate.

MMM

An interesting ballot is being presented on the front page of this issue. Hope you take time to fill it out and return to us; in fact we would appreciate any side comment you might care to make.

"...Give me Liberty, or give me Death"

WASHINGTON AND—"Small Business"

—By C. WILSON HARDER

Expect to hear more about a national sales tax. There are many unverified reports circulating.

Probably group able to hire press agents, is trying to sell government a national sales tax. The idea will be presented publicly as means of reducing income taxes. It will sound plausible at first blush.

Actually, graduated income tax reduction coupled with national sales tax will but increase tax burden on lower income groups, relieve higher income groups.

Many states adopted sales tax as means of forcing non-property owners to pay share of government. Yet in many states not only have real estate taxes increased, but also state income tax and sales tax rates have jumped.

Taxation history proves once politicians open a new revenue source, they find reasons why the additional money should be spent. And seemingly, no tax is ever repealed. As example, a tax was placed on baby oils and talcum as a wartime measure. Today, almost eight years since V-J Day, health needs of nation's babies are still taxed.

And since 1945, U. S. taxpayers have supported monopoly controlled economies of Europe. And the end is nowhere in sight, as whenever a move is made to cut foreign aid, the cry is raised that such action will mean the ruin of the Western world.

But the question is being asked more and more in Washington: "Why cannot the Western world,

considered the "free world" exist without bleeding the American taxpayer?"

Is the Western world free, or is it possible U. S. deludes itself in thinking of any other major nation as free.

Support for this reasoning was given in French Assembly by Paul Reynaud, one time Premier in what many in Washington consider one of major foreign speeches of this era.

Reynaud said that since 1929 American industrial production has doubled, Britain's has increased 54%, Holland's 52%, while French production has increased only 8%.

He gave his reasons, saying:

"We are a country where many people want to keep the profits of the capitalistic regime without respecting its laws, of which the first one is free competition. These people allow neither external nor internal competition. Agreements result in the fixing of sales prices according to the production costs of the most backward enterprises."

A significant statement.

In current fiscal year, U. S. taxpayers have donated over a half billion dollars to France, of which a large share went to development of French colonies.

This is also significant. France has rich colonies but no anti-trust laws outlawing monopolies.

America has no colonies, but does have anti-trust laws, thus has been able to donate billions to monopoly ridden nations.

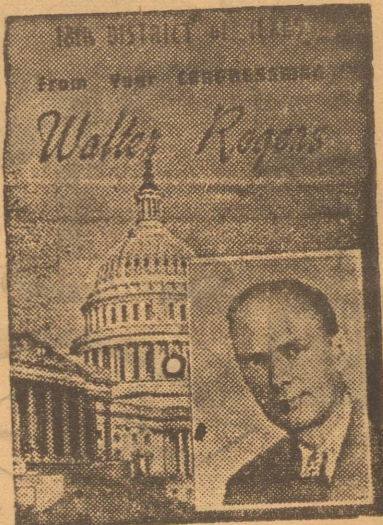

Thus many are saying that any nation seeking U. S. aid should be forced first to adopt and enforce anti-trust laws.

Money poured down a rathole still leaves a rathole.

Feel the heat? Then eat more salt this summer.

That's the suggestion of State Health Officer Dr. George W. Cox. Dr. Cox says you can help prevent heat prostration by adding a pinch of ordinary table salt to each drink of water you take - - for the salt content of your body becomes deficient the more you perspire.

Signing of an armistice in Korea will make little or no difference in the draft call, says Brigadier General Paul L. Wakefield, state director of selective service.

He bases his statement on the fact that the primary purpose of the draft law is to keep this country ready to defend itself against all comers. Men are drafted as we need replacements for the men in training.

Because of the increased demand for men the past few months more than one-third of those called were under 20 years of age. This month's quota is 1,749 men. Next month it will drop to 1,268. The monthly quota will run between 1,000 and 2,000 men for the State of Texas.

If the Williamson system of ranking football teams could be applied to universities as a whole, the University of Texas would be found among the first 15 or 20, according to Dr. Logan Wilson, the president of the Main University.

He stated that universities are judged by criteria such as libraries and faculty salaries. UT's library, he said, contains more than a million volumes and is the largest and finest in the South. But UT's faculty salaries do not compare with those of California, Minnesota, Illinois, Indiana, Wisconsin, Ohio State, Washington, North Carolina or Virginia.

Speaking of the physical assets of the university, Dr. Wilson said

THE ROSENBERGS: This letter is being written shortly before the Rosenbergs are scheduled to be electrocuted. Capitol has been a seething mass of humanity during the Supreme Court hearings. The White House has been under continual picketing by those opposed to the Rosenberg death sentence. Large groups of people came in from New York and descended upon the Capitol and Senate Office Buildings. For several hours it was almost impossible to get through the halls in the Capitol outside of the Congressional chambers. Congress has been requested to investigate how these people were able to obtain transportation from New York to Washington and return for \$5.00, when the usual fair is approximately \$17.00. Such an investigation could turn up some most interesting points.

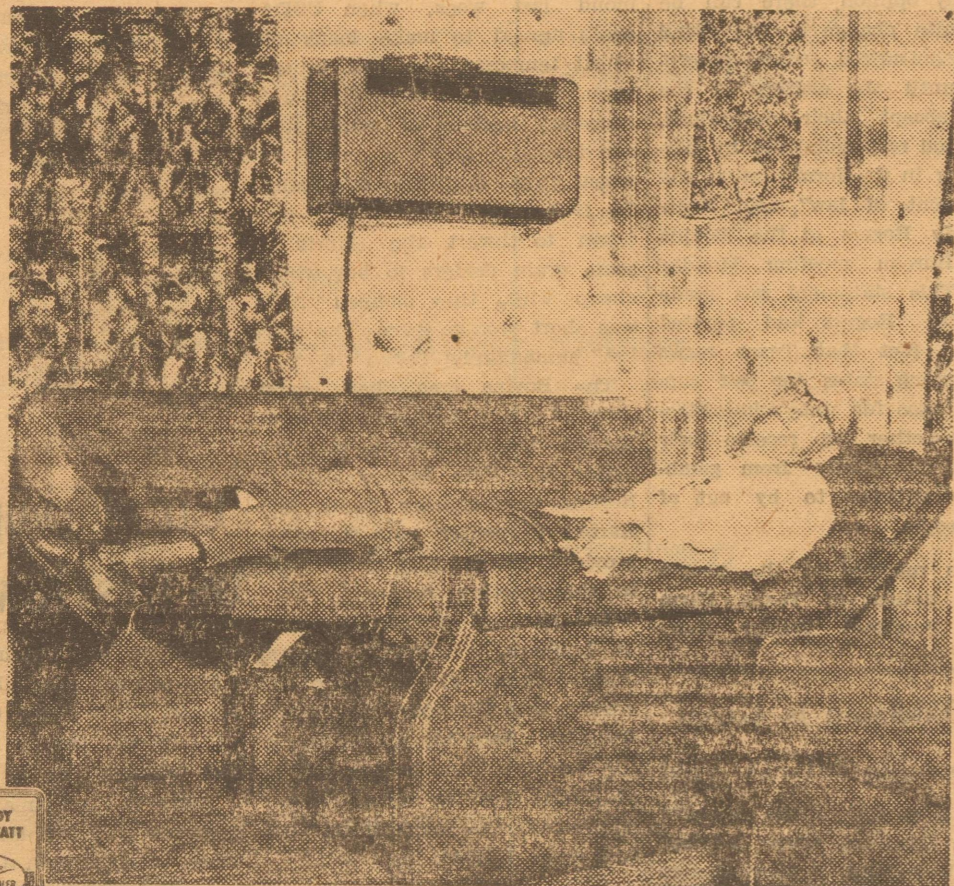

After all of the arguments from both factual and sympathetic standpoints, the one fact remains that the Rosenbergs committed acts of treason against this country for which they stand duly convicted and sentenced to death. Their acts of treason could result in the death and maiming of millions of people in this country

The Lutheran Vacation Bible School began Monday morning with a large enrollment. The school will last for two weeks, from 9:00 a.m. till 12:00 noon.

There are classes of Bible Study, handicraft and singing for all the classes every day.

Mr. and Mrs. Reuben Meissner and daughter are here visiting their folks, Mr. and Mrs. Robert Schueler and Mr. and Mrs. Meissner of Larjet. They are on their way to Minnesota.

Mr. and Mrs. Glenn Ritche and family of Bovina visited with Mr. and Mrs. Jack Patterson and girls Sunday.

Mr. and Mrs. Cordie Potts and family visited his father, Mr. and Mrs. Potts of Rosedale, New Mexico, Sunday.

Visiting with Mr. and Mrs. Floyd Schlenker Sunday were Mr. Lewis Knight of Friona, Mrs. Elmo Dean and Gladys and Lindy.

A Welner Roast was held in the backyard of Mr. and Mrs. Floyd Schlenker Friday night with the following present: Mr. and Mrs. Jack Patterson and girls, Mr. and Mrs. C. L. Caloway, Mr. and Mrs. Herman Sifford, Alvin Lee, and Peggy, Mr. and Mrs. C. R. Schlenker and family, Mrs. Elmo Dean and girls.

Wayne Sifford spent the past week with Mr. and Mrs. Morris Means of Bovina.

Mr. and Mrs. Herman Sifford, Peggy, Wayne, and Billy, Florence Dean, and Johnesse Means of Bovina, took a Picnic Lunch and went to Clovis to the Park, then spent the afternoon at Portales swimming Sunday.

Mrs. Junita Gray and boys from Iowa visited with Mr. and Mrs. Cordie Potts and family Sunday.

Jack and Dean London of Cassville, Missouri, left Sunday after spending the past ten days here visiting in the homes of their uncles and families, P. L. London, A. H. Hill, David Moseley and J. B. Collier, and other relatives and friends.

NATIONAL PRESS BUILDING WASHINGTON, D. C.

By Anna Good

What's cooking? Pot roast, the best ever when we substitute tomato juice for water. After the roast is thoroughly browned, plunk it in the simmering tomato juice with a bay leaf, some onion, carrot, celery, salt and pepper. Cook slowly till done.

If you're a neat knitter why not make one of the boxy white sweaters that are going to be popular this summer?

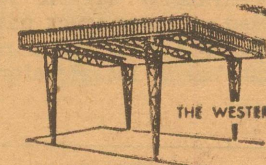

Who would ever think that each year we Americans eat about 21 pounds of onions apiece? Well, the U. S. Department of Agriculture says so. And on your quota this year, try a sliced onion and orange salad, bedded down on deep green water cress and topped with real mayonnaise blended with orange juice and a bit of grated orange rind. Simple but so delicious!

To accompany any number of meat dishes, prepare the ubiquitous onion accordingly: Melt vitaminized margarine in a skillet, add onion rings, green pepper rings and sliced mushrooms and saute gently till onions are cooked. Stir once or twice with a fork to cook evenly. Salt lightly.

A hint or two for the home laundress: from one of the largest manufacturers of automatic laundry machines: The hotter the water, the whiter the clothes. Do not over soap; rinse water should be lukewarm. And it is not wise to alternate soaps and detergents in the machine. Select one and stick to it.

Mr. and Mrs. A. H. Hill returned Monday from Gage, Oklahoma, where they attended the funeral of his sister, Mrs. W. A. Bish.

There's only one answer...

Chevrolet trucks must be the best buy!

Fleet operators, farmers, independent truckers—truck users everywhere—buy more Chevrolets than any other make. There can be only one reason for that: Chevrolet trucks offer more of what you want.

As the official registration figures keep rolling in, they keep telling the same positive story about truck popularity and truck value: Again in 1953, for the twelfth straight production year, truck buyers show a clear-cut and decisive preference for Chevrolet trucks.

If you're a truck user, this fact is mighty

important to you. Why? Well, as you know, trucks are built and bought for just one reason—to do a job. So isn't it logical then that since Chevrolet trucks outsell all others, they must do a better job at lower cost?

That's why it will pay you to stop in and see us before you buy your next truck.

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

Good terms. Write to J.W. FARE, Friona, Texas.

TODAY'S FIRE SAFETY FLASH

Who Was It, Queries

Uncle John White

Several weeks, or perhaps a few months ago, some friend of mine handed to me a slip of paper containing what was supposed to be the first line of a poem, which reads as follows:

"The snow lies crisp beneath the stars . . ."

That friend asked me if I could find the complete poem, with its title and the name of the author. I evidently began the search for it but had failed to find it and the event was forgotten until I

ran across the little memo again last Saturday, when I continued the search and soon located the poem; but like Nebuchadnezzar's dream, the "thing has gone from me and I cannot recall the name of the person who made the request. If that friend should read this and will call on me I will be glad to give him a copy of the poem with its "title" and the name of its author.

Sincerely yours,
"Uncle John" White

Lunell McFarland - Henry Holland Wed in Double Ring Ceremony

MRS. HENRY HOLLIS HORTON, JR.

Marriage vows were read Saturday evening at the Friona Methodist Church for Miss Lunell McFarland, daughter of Mr. and Mrs. J. G. McFarland of Friona, and Henry Hollis Horton, Jr., son of Mr. and Mrs. H. H. Horton of Rome, Georgia.

Rev. Lester Hill, pastor of the First Methodist Church in Canyon, read the double ring ceremony before an altar flanked by bouquets and a palm banked background. A large bouquet of white gladioli, white asters, white daisies and miniature ivy was centered behind the altar. Candelabra were grouped to the sides, and satin ribbons decked the bridal aisle.

Given in marriage by her father, the bride was attired in a wedding gown of Ivory French lace in a Tudor rose pattern, accented with finely-pleated tulle. A figurine basque bodice was designed with a tiny Elizabethan collar, and miniature lace buttons fastened her gown down the back. Long lace sleeves tapered to deep petal points over her hands. The voluminous scalloped lace skirt parted over bursts of pleated nylon tulle and drifted to a court train.

The bride's veil of matching imported French illusion was caught to a delicate crown of lace, accented with tiny pearls, and it drifted in misty tiers to her fingertips.

Her bouquet was a white orchid and a cascade of white roses and stephanotis arranged on a white satin covered Bible.

Heirloom accessories included a diamond locket belonging to the groom's grandmother, Mrs. T. C. Marriott of Uriah, Alabama. The locket was given to Mrs. Marriott by her husband on their wedding day.

The bride also carried a sixpence given her by Miss Janet Myers and brought by Miss Myers from England.

Miss Gay Ann McFarland, sister of the bride, was maid of honor. She wore a yellow net over taffeta, a halter neckline with tiny satin buttons down the neck of her tucked bodice. The halter was gathered around the neck by a yellow satin ribbon. Her attire also included a yellow satin belt, ballerina length dress, short jacket

of net with sleeves gathered by satin ribbon, yellow shoes, and a half-halo of white daisies in her hair.

She carried as a bouquet a rounding basket arrangement of white Kitty daisies with additional clusters cascading down ribbon streamers.

Costumes of the bridesmaids were identical to that of the maid of honor.

Bridesmaids were Miss Gloria Rawls from New Orleans, Miss Janet Myers, Oklahoma City; Miss Mary Ellen Riddick of Monterrey, Mexico, and Corpus Christi, Texas; Miss Emily Horton, sister of the groom, Rome, Georgia; and Miss Doris McFarland, sister of the bride, Friona.

Flower girls were Miss Carolyn Crump, daughter of Mr. and Mrs. A. E. Crump of Friona, and Miss Mary Tom Spring, daughter of Mr. and Mrs. F. L. Spring of Friona.

Attending the groom was his father as best man, and ushers M. C. Osborn, cousin of the bride, Friona; Sgt. Julian Reese, San Antonio, formerly of Rome, Georgia; S-Sgt. Gene Scott of San Antonio and Rome; Pvt. Robert Horton, brother of the groom, Fort Jackson, South Carolina; and A.C. Thomas Horton, brother of the groom, Victoria, Texas.

The bride's mother wore a champagne Japanese silk dress with beaded neck, and a matching hat and white accessories. She carried an orchid corsage.

The mother of the groom wore a dusty rose lace dress with matching accessories. She also held an orchid corsage.

Wedding music included numbers by pianist Miss Peggy Campbell of Lamesa, cousin of the bride, and a vocal solo by Miss Joyce Miller, Friona.

The vocal selection was "I Love Thee" by Gregl. Piano music included Bach's "Airsolo", "On the Wings of Song" by Mendelssohn, the Andante Cantabile from the 5th Symphony by Tchaikovsky, Concerto No. 10 by Handel, the traditional wedding marches, the processional of the Bridal Chorus from Lohengrin and the recessional, Mendelssohn's Wedding March.

A reception was held for the wedding guests immediately fol-

lowing the ceremony. Registering of guests at the Club House reception were Mrs. Lloyd Rector of Friona and Mrs. Kelvin Snider, Jr., of Farwell.

Mrs. J. T. Gee and Mrs. Frank Spring, both of Friona, presided at the punch bowl, and Miss Polly Martin of Amarillo and Mrs. Tim Magness of Lubbock served the cake.

For her going-away attire, the bride wore a white linen sheath dress with rhinestone and crystal bead design. Over the dress she wore a blue sheath coat. Accessories were white.

The couple left for a trip to Colorado and New Mexico points, after which they will be at home in San Antonio.

Mrs. Horton graduated from the Friona High School in 1949. She attended Stephens College in Columbia, Missouri, and graduated there in 1951. She graduated with a Bachelor of Science degree this June from Southern Methodist University in Dallas. There she was a member of the Pi Beta Phi Sorority.

Mr. Horton attended Darlington Prep School in Rome, Georgia, and graduated from the Alabama Polytechnic Institute with a major in business. He was a member of Kappa Alpha Fraternity. He served with the occupation army in Japan. He is now employed by the Armstrong Cork Company at San Antonio.

Bridal Shower Honors

Mrs. Holt nee Ferguson.

A bridal shower honoring Miss Bessie Ferguson, bride-elect of Ira Holt, was given Wednesday, June 17 by Mrs. Johnny Hand. Assistant hostess was Mr. John S. Thompon.

The bride-elect's chosen colors of white and blue were carried out in the floral and table decorations. The serving table was laid with a lace cloth and centered with a floral centerpiece.

The afternoon was spent playing games directed by Robbie Boggess and Maurine Hand.

After the bride-elect was presented with the gifts, refreshments of cake and punch were served the guests by the hostesses.

BESSIE FERGUSON, IRA HOLT WED

The home of Mr. and Mrs. Virgil Ferguson was the scene Friday afternoon of the marriage of their daughter, Bessie, to Ira Holt, son of Mr. and Mrs. Elmer Holt of Grant, Oklahoma.

Rev. C. W. Fields, pastor of the First Baptist Church, read the double ring ceremony.

Miss Donna Miller and Floyd Schueler served as attendants to the bridal party.

The bride chose a blue lace and net dress with white accessories. She carried a white Bible topped with red roses.

Following the ceremony a reception was held in the bride's home. The wedding cake, topped with a miniature bride and groom,

was cut by the couple and punch and cake were served the guests.

After a short trip to New Mexico, Mr. and Mrs. Holt will be at home in Grant, Oklahoma where he will be engaged in farming and dairying with his father and brother.

VICTIM X

Victim X, whose name will never be known, was the 1,000,000th highway traffic fatality in the United States since 1900. Victim X may have been man, woman or child—it might have been you!

This life, sacrificed to carelessness, was snuffed out in an automobile accident late in 1951. Only a few months earlier, another unknown met his death on a Korean battlefield. "GI-X" was the millionth soldier to die for his country since the Battle of Lexington, April 19, 1775. It took seven United States wars and the conflict in Korea to count a toll of 1,000,000 Americans who died in the cause of freedom and independence. It took only 52 years for another million to be killed on the streets and highways of our country. Besides these dead in traffic accidents, 35,000,000 more were injured, maimed or disfigured for life.

Automobiles will claim their second million victims much sooner, possibly in the next 25 years, unless you and 60,000,000 other drivers get seriously safety conscious.

Carelessness causes nine out of every ten accidents. Speeding, drinking-and-driving, violation of rules of the road and right-of-way, are major causes of auto fatalities and serious accidents. Lack of alertness by pedestrians contributes its toll to the death statistics.

Drive safely—walk safely. Save your own life—and the lives of others.

If there was ever a case where the punishment fits the crime, it appears to me to be the Rosenberg case.

THE DROUGHT SITUATION:

Congressman Beard of Wichita Falls, Congressman Mahon of Lab-

ock, and myself called upon the Secretary of Agriculture, Ezra Benson, this afternoon to discuss with him the possibility of early action in meeting the requirements of the farmers and the ranchers in the drought stricken areas of the Southwest. On June 1st the entire Panhandle of Texas was shown in the U. S. Department of Agriculture Crop Report as being an

area of near failure insofar as crop prospects are concerned and in the same category insofar as pasture-feed conditions are concerned. This situation has grown worse since June 1st and there are no signs of relief from the weather standpoint. It would be my prayer that you have been blessed by a soaking rain when this letter reaches you.

Several days ago members of Congress representing this drought stricken area in the Southwest met with representatives of the Farmers Home Administration, The Commodity Credit Corporation, and the Bureau of the Budget. The purpose of the meeting was to speed up the mechanics of bringing some relief to the stricken areas. The Farmers Home Administration has indicated its willingness under its present powers to go as far as possible under its loan program. If further authority is needed to meet the situation, I believe the Congress will provide it without delay. In the meantime, request has been made for use of the Presidential Emergency Fund, which was created to meet disasters. The representative of the Bureau of the Budget indicated that there might be some hesitancy to consider a drought the type of disaster intended by the law creating this fund. He seemed to feel that the disaster intended was an immediate and temporary type occurrence. We quickly briefed him on the fact that a drought is not an immediate or temporary disaster and that "drought" was listed in the major disaster definitions contained in Public Law 875 of the 81st Congress, which is the law creating this fund. I wrote the President that I could not too strongly urge early action as the situation is extremely bad and growing worse. Only recently I was discussing the problem with a lawyer friend of mine from the Panhandle who was in Washington. I asked him to tell me in exact terms just exactly how bad the situation was. He replied that if it was any place except the Panhandle of Texas, a lot of the people would have already moved out. I think this is one of the highest compliments that could be paid to the people there who have fought the elements through the years and have built one of the finest stocks of Americans in the United States today.

Just the other day I expressed to the Congress my thoughts on the subject and gave them two petitions that have been forwarded to my office concerning this tragedy. I told the Congress that the people in our section were asking only for fair treatment, to which they are justly entitled; that they had fought the elements for generations and had not been defeated yet, and that they could continue to win their daily battles unless their weapons were rendered impotent by man-made economic measures. I stated further that they could not be expected to meet the requirements of

TEXAS HIGHLIGHTS -
CONTINUED FROM PAGE 2

the school had not overbuilt or built too lavishly, but that "our emphasis should be less on brick and more on brains".

Interest in government among the feminine sex was on the increase the past week when Bluebonnet Girls' Staters elected their First Lady.

She is tall, blonde Jean Manning from Hamilton who will serve as the 1953 Governor.

Two other top state posts were economic measures of purchasing supplies, materials, equipment and other needs on protected markets and have to sell their products on an open market that has been ruined by a drought situation over which they had no control.

VISITORS in Washington this past week included: Frank Storm, Jr., Amarillo; Mrs. C. B. Thompson and children, Sue Ann and Tommy, of Pampa; Mr. and Mrs. I. D. Cole and daughter Betty, Springfield, Missouri; and Mr. and Mrs. Leslie Hart, of Pampa.

filled by the girls. They chose Grace Morrow from Abilene as Lieutenant Governor and Polly Sue Dietze of Cuero as Attorney General.

Texas Supreme Court Justice Meade Griffin performed the ceremonies

A court-appointed attorney defending persons in felony cases is entitled to \$10 per day for each day the case is actually in trial. If he defends more than one case on the same day he is entitled to \$10 per case, according to a ruling issued by the Attorney General's office.

The question came up when a court-appointed lawyer at Hillsboro represented four persons in court the same day and put in a claim for \$40.

Under the ruling he will collect.

Attorney General John Ben Shepperd is calling on five state agencies for legal help. He has asked officials of the University of Texas, the Texas Prison System, Texas Southern University, the State Department of Education and the Texas State Teachers' Association to provide him with

such arguments as they can muster to support the state's suit to

uphold the natural gas tax law. (continued on back page)

GOOD HEALTH

Answer to Question No. 1:

Prematurity leads to more infant deaths than any other one cause. However, more premature babies are being saved, because we know more about how to care for them. Most hospitals now have incubators, and many communities have specially equipped ambulances and even airplanes to transport babies born at home prematurely to the hospital quickly. In the past fifteen years infant mortality from all causes has been cut in half in the United States.

Answer to Question No. 2:

The average human body contains about five quarts of blood. If you lose more than one of these quarts at one time, your

life may be endangered. Shock from loss of blood is treated by replacement of plasma or whole blood. Under supervised conditions of a Blood Bank, donating blood is eminently safe.

Answer to Question No. 3:

If so, do not insist on his using the right hand. Left-handedness is an inherited familial trait. Forcing a change may cause psychological problems. After the child is older, you can encourage him to use the right hand to a considerable extent. He may learn to use both hands well, but still will use the left hand for such activities as writing and baseball pitching. (Copyright 1951 by Health Information Foundation)

state raised thousands of dollars for the relief of the stricken cities.

Efforts of the International Fur and Leather Workers Union to organize Texas labor have been stopped - at least temporarily.

District Judge Charles O. Betts issued an injunction, which also prohibits organizing by Emanuel Coutlakis, who allegedly has been trying to get San Antonio workers to join the union.

Coutlakis failed to register as a union organizer, as required by Texas law.

In seeking the injunction the Attorney General contended that the furriers union is dominated by Communists and that Texas workers should be protected from such influences.

Colonel Homer Garrison Jr. denies that Texas police are not cooperating fully with Federal Nar-

cotic agents.

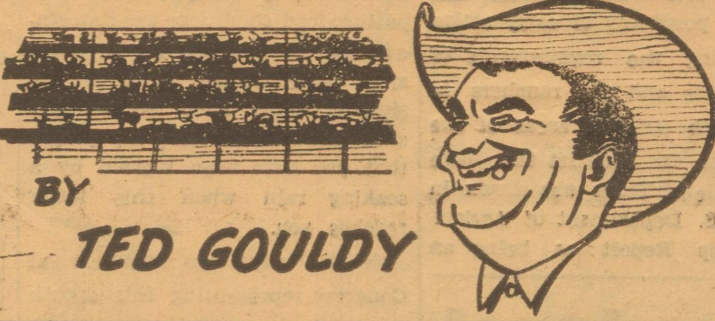

Garrison said that the Federal Narcotics Commissioner "indicated that there was a lack of cooperation from state and local officers in Texas in assisting his agents in enforcement of the narcotics law".

Admitting that Texas officers are handicapped by lack of manpower, materials, legislation and money, Garrison told police convening in San Antonio that Texas officers are proud to work as a team with each other and with federal agents. The cooperation of Texas police is excellent, Garrison concluded.

STORK FEATHERS

Born June 22 to Mr. and Mrs. S. N. Gentry, a girl weighing 7 lb. 12 oz.

LET'S TALK LIVESTOCK

The first marketing day of the Summer season at Fort Worth Monday was a typical blazing hot one which saw liberal receipts in the cattle yards off Texas fields and ranges. The sheep run was seasonally large, too.

Trade in the cattle yards was about on par with last week's low ebb, and prices were at the lowest ebb on most classes of cattle and calves in over ten years. Grainfed steers were lacking, and creepfed heavy calves and a few yearlings made up the choice fat

offerings in the cattle division.

Pat and Wren Jackson, Lampasas, had two toppy loads of cows at \$12, that averaged 1,059, and C. P. Gray & Son, Brady, had 45 cows and heiferettes averaged at 1,081 lbs. that topped at \$13. Most other butcher cows sold for \$8 to \$11, and canners and cutters drew \$5 to \$8. Bulls sold from \$7 to \$12.50, odds to \$13.

Good and choice fat yearlings and heifers drew \$17 to \$22, and common and medium grassers sold from \$8 to \$15, with rami-

han kinds in the \$5 to \$8 field.

Good and choice stocker steer calves sold from \$12 to \$17, and heifers sold from \$14 down. Stocker steer yearlings drew \$10 to \$14, a few to \$15. Heifer mates to steer calves and steer yearlings usually sold around \$3 under.

Good and choice fat calves cleared at \$12 to \$17, a few to \$18, and some fancy creepfed yearling weights to \$20.50, from Lloyd Hanchew of Iredell. Common and medium kinds sold for \$8 to \$12, and culls drew \$5 to \$8.

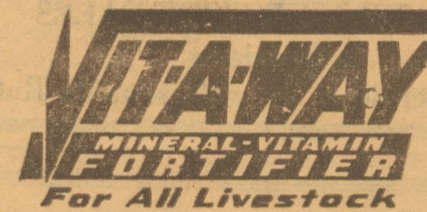

Sheep and lambs were steady, some fat lambs a little stronger. Good and choice fat Spring lambs \$17 to \$23, and common to medium sorts \$10 to \$15, with culls from \$5 to \$10. Stocker and feeder lambs \$9 to \$14.50.

Fat yearlings \$9 to \$13, and culls around \$5 to \$8. Feeder yearlings \$10 down. Old wethers \$8 to \$8. Old ewes \$3 to \$4.50.

Hogs topped at \$25 to \$25.50. Sows drew \$18.50 to \$22, and feeder pigs sold at \$20 downward.
