## Get Acquainted with Our Public Schools - Special School Week Mar. 1-5 Serving the Gateway to the Irrigation Belt and the Greater Diversified Farming Section of Texas ANAA

#### GREETINGS:

The Public School System in Texas goes back literally to the very beginning of our State. Texas' first Constitution made provisions for a system of public education. President Mirabeau Buonaparte Lamar, in his message to the Texas Congress in 1838 stated "It is admitted by all that cultivated mind is the guardian genius of Democracy, and while guided and controlled ov virtue, the noblest attribute of man. Itt is the only dictator that freemen acknowledge, and the only security which freemen desire."

The progress of our public schools from small beginnings to the fine educational system we have today has not been easy. It has required a cooperative effort of State and local officials, the active interest of parents and of citizens generally, and the energy and devotion of public-spirited men and women who have been willing to devote their lives to the teaching profession.

In recent years we have had to face great problems in the administration of our public schools. We have learned that the solution of these problems is only possible with public interest, understanding and cooperation.

One of the best evidences of public support is a definite effort on the part of each citizen to become familiar with school system and to keep in touch with it.

Therefore, I. designate the

UBLIC SCHOOLS WEEK IN TERAS visit one of the public schools and urge every citize this period and become sequentied with the programs and accomplishments of our

period

In official recognition whereof, I hereby affix my signature this 15th day of August, 1953.

Allan Shivers, Governor of Texas (OFFICIAL SEAL)

In conjunction with Public

Tech, will be the speaker.

are invited to visit our schools.

The reaction to the tags is "go-

visit the school next week".

everyone to come to see us.

ly looking forward to it.

Soil Conservation District ACTIVITIES - NEWS - SUGGESTIONS BY STEVE BAVOUSETT

Last Friday morning brought back memories of the 1934-35 Hope you can attend the Irriera. According to the weatherman that was the first old black dust storm since 1937.

I was down by the S. L. Shelley farm last Thursday. My old Dodge decided to quit running right in front of his nouse. So I had to walk up in the field where Mr. Shelley was doing a pretty job of breaking with his 2-way moldboard. Mr. Shelley is the only person in Parmer County that we know about that has elected to take advantage of the ACP payment for establiching a crop rotation. He plans to use either vetch or winter peas to help increase the organic matter in his soils.

We have just laid out 18 acres of bench leveling on the Roy Euler farm. Even though Mr. Euler's farm is pretty flat he feels that bench leveling has some advantages. It will help him get uniform water distribution plus holding all of the rainfall exacty where it falls.

After the leveing job, Mr. Euer feels that the soil will need onditioning. At the present time he plans to plant this block to lover for soil conditioning and nprovement.

You should hear C. L. Murray ho lives across the draw south f Hub, tell about the effects of vetch on crop production. He planted 20 acres on his place near Lubbock and was well atisfied with its results.

Concrete pipe is increasing in oopularty. We have laid out six lines this last week on the

**Rural Phone Co-op Plans April Election** A meeting of the Board of (Hereford. The secretary will

nembers of the phone cooperatve will be held at Hereford.

The Board also appointed the ollowing as a nominating comto select nominees for as directors. Pete L. Kalka, Posey Cunningham and F. E. Kepley. This committee met Feb. 16th and nominated the following: •

Parmer: Floyd Schlenker, Nelon Welch.

Oklahoma Lane: Harold Car-

E. Wilson.

Seven directors, one from each exchange, are to be elected. In addition to the above nominees. any fifteen or more members acting together may make other tax money is needed for its operation. We are not in competition when it comes to medical care received.

To those people who would like to acquire membership, we have on hand several persons who are willing to transfer their stock. The first step in this action is to contact the Hospital management for a questionaire which is very similar to one filled out when acquiring an insurance policy. When that is complete, the hospital manager will take it before the Board of Directors and the doctors for approval. When this is accepted (and it will be, unless, like on insurance policies, it is considered a poor risk) the party buying the stock can go ahead and pay the seller whatever price they have agreed on. New stock sold for \$100 and the hospital will enter the selling price of transferred stocks in no way. When this has been accomplished, a \$10 transfer fee will be paid to the hospital where the old stock (which must be presented) will be voided and a new one issued. Dues will then be paid which are \$16 for the head of the family and \$8 for each dependant, this being due annually. Benefits received are no doctor fee except after hours calls, \$1 cheaper room rate, and a percentage off of x-rays and laboratory work. Medicine is the same to members and non-members. In other words, your membership is a form of prepaid insurance.

We urge each citizen of this area to ponder the advances of medical care which have been made in the past century. Are we going to stop where we are now? Are the future citizens going to have to do our work\* for us? We believe not; we believe the people will accept their responsibility and speak out by making the building fund program a success. That way the road to better health will Mrs. W. O. Thompson, two of have one less rough spot for future citizens to travel. We owe people, will celebrate their Gold- it to ourselves as well as the en Wedding Anniversary at their future. LET'S DO IT!

with the year's brightest new idea in interiors!

Chevroider mode the low-price f

This Delray Club Coupe combines all the colorful smartness of a sport model with an interior that's designed for everyday family use. Seats, sidewalls, even the headlining, are all of soft, lustrous vinyl in color treatments that harmonize with the exterior color of your choice.

And this new interior is just as durable and practical as it is beautiful. The vinyl is easily washable and amazingly resistant to scuffing and wear. You don't have to worry about little feet on the seats or the things that little hands might spill. And for grown-ups, here at last is a coupe that provides all the between-seat knee-room of a 2-door sedan!

The Delray Club Coupe is only one of the wonderful new Chevrolet models that make up the lowest-priced line in the low-price field. Come in and look them over.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

### Southwestern Plastic Pipe Co.

#### MINERAL WELLS, TEXAS

## **Dear Mr. IRRIGATION FARMER:**

We urge you to consider all factors have ved when have like plastice to your irrigation wells.

Southwestern Plastic Pipe Co. in Mineral Wells, Teyas, has devoted much time and effort in the research-development of a plastic pipe for your specific requirements.

Southwestern Plastic Pipe Co., as a result of this program, recommends that Teulte II with a minimum wall thickness of 3-32 inch is the plastic pipe which will give the service required for yiur installation.

Do not be mislead - only Tenite has a 12 -year record of satisfactory service in natural gas lines. Do not use unproven materials. Southern California Cas Co. has used Tenite since 1942.

The essential chemical ingredients in the manufacture of Tenite II can not be substituted. We therefore decline to offer a cheaper line of plastic pipe, because of the moral responsibility we feel toward cur cus tomers.

Also Southwestern Plastic Pipe Co. unconditionally guarantees this pipe against rot, rust, corrosion, and electrolytic action. Tenite II 2-inch pipe with a 3-32" wall thickness is guaranteed to carry gas at a working pressure of 80 lbs. per square ihch, with a 5 to 1 safety factor for abnormal operati hg conditions. For further information. contact:
