**PLOW DOWN PHILLIPS 66
AGRICULTURAL AMMONIA NOW!**

Get your crops off to a good start . . . plow down ammonia this fall.

Fall applied Phillips 66 Agricultural Ammonia helps your soil break down stalks, roots and other crop residues. It speeds up decomposition. It enriches the soil . . . improves structure and fertility. Your soils work easier in the spring. No trash to interfere with planting.

With several years experience to back them up, many successful farmers report higher yields from fall applied ammonia than from equivalent nitrogen applied in the spring.

Get the facts on fall plow down of Phillips 66 Agricultural Ammonia!
