GATESVILLE, TEXAS, FRIDAY, JUNE 16, 1933

NUMBER 26

HERE and THERE

By Joe Quinn

A WEEK ago last Saturday, the United States government started a campaign against the hoarders of gold; a week later some \$6,000,000 had been returned to the treasury by 408 persons. In the face of this effective work on the part of the government officials, there are still 37 gold hoarders possessing \$283,064 who flatly refuse to relinquish their claim on the money they hold.

By the time Uncle Sam is through collecting the rest of the gold that is yet out he will probably come back with renewed determination and help the 37 "black sheep" decide whether or not they really will keep their hoardings.

A REPRESENTATIVE Texas citizen, statesman and World War hero, will be the United States' envoy to Roumania. His appointment to the post of minister to that country was made by President Roosevelt recently.

Col. Alvin Owsley is a native son of Texas, who for many years practiced law at Dallas. He gave up his practice at the outbreak of the World War and served with comrades overseas. No greater compliment could have been paid Texas by the President of the United States than the appointment of Col. Owsley as minister to Roumania.

CAN YOU believe it, Jimmy Walker, ex-sportsman mayor of New York City, has turned newspaper reporter. When he left his elaborate chamber at the New York City Hall, the world thought that Jimmy Walker's colorful career had come to a close, but now it looks like it is only beginning. When he sailed for Europe shortly after his departure from New York's civic government everyone thought that Jimmy Walker was destined for a nervous breakdown at some noted French health resort along the Riviera, but not so. Apparently he is very much in good health, and besides he has taken upon himself a new bride, a former stage star, at that.

Now Jimmy Walker is prepared for a more colorful career than ever, with an actress wife and a job as newspaper correspondent.

HUEY Long has so many people on his neck now that it looks like an oxen yoke. Senator Tom Connally, from Texas, put a quip on the "gentleman from Louisiana" recently in a tilt which arose over the differences in the words "hawk" and "hog." When Mr. Long called for an explanation of the word "hawk," Mr. Connally replied that, although he knew the Louisiana senator's liking for the word "hog," he said "hawk" instead, referring that Mr. Long was usually interested in "hogging" in most cases.

Senator Robinson of Arkansas was another one who went to the mat recently with the "Kingfish" over a row which started with a threat by the latter to go into the state of Arkansas and "see who comes back to the Senate," as he put it. Robinson retaliated by saying that he felt Long would be repudiated in Arkansas as well as in Louisiana.

BAPTIST WORKERS MEETING POSTPONED

The Monthly Worker's Meeting of the Leon River Baptist Association which was to have met with the Carden Baptist Church, next Monday, June 19th has been postponed until Fall. The meetings are suspended until the farm work is not so heavy.

WORK BEGINS ON NEW CITY HALL PROJECT

Unemployed county labor under the supervision of local contractors, was put to work the early part of this week on the new city hall project adjoining the present fire station on north 6th street, by order of the mayor and city commissioners.

It was learned through an interview with Mayor Lowrey recently that this additional improvement and construction will be considered a single unit of the great \$25,000 city auditorium construction program which will be concluded as conditions warrant.

The new addition now being built will consist of a calaboose, sixteen feet wide by twenty feet in length, and a suite of offices for city officials, twenty feet by thirty feet. The roof and floors are to be constructed of concrete reinforced with steel.

The new structure is adjoining the fire station on the north and will be occupied within the next two or three weeks, according to the present plans.

Local Boys Head For C. M. T. C. At Santone Soldiers For Summer

Messrs. Elmo Strickland, Ray Jones, Horace Blanton, Paul Hensler, Skinny Freeman and W. W. Hollingsworth Jr. will report to San Antonio, Tuesday, for the Annual Citizens Military Training Camp.

Mother and Son Have Narrow Escape When Car Halts Before Dive

Mrs. Dave Hinson and son were in a car driving toward Gatesville at a slow rate of speed last Sunday afternoon when the steering gear of the car became loose. The car simply veered off the highway near Ashby's Grocery and Filling Station and came to a halt in the shrubbery just short of a plunge. No one was hurt though it was necessary for a wrecker to be used in extricating the car from the fence and underbrush.

Stephenville Editor Elected President at Houston Press Meet

Houston, June 12.—The Fifty-fourth convention of the Texas Press Association came to a close today.

The new officers are R. F. Higgins of the Stephenville Empire-Tribune, president; Sam Holloway of the Deport Times, vice president; Sam P. Harbin of the Richardson Echo, secretary; Ben F. Harigel of Lagrange, treasurer; E. G. Senter of Dallas, re-elected attorney and historian.

Peter Molyneux of the Texas Weekly, Dallas; Louis C. Elbert of the Galveston News, and John L. McCarty of the Dalhart Daily Texan, were named to fill vacancies in the executive committee.

Dallas was selected as next year's convention city. Resolutions were passed criticizing the failure of the World's Fair committee to have a Texas exhibit at the Chicago fair and providing for the president of the association to appoint a committee of seven to see what can be done about it.

Other resolutions praised the Legislature for its achievements in economy and retrenchment, pledging wholehearted support to President Roosevelt in his far-flung program for recovery, promising full support to the Texas Centennial Committee, urging members of the press to "rekindle the pioneer spirit of Texas," and another praising Harben who has been secretary of the association for 25 years.

Band to Open Summer Concert Season With Program Friday Night

The Gatesville Band, under the directorship of D. W. Diserens, will make its initial appearance of the summer concert season Friday evening at eight o'clock at Baby Park. The public is cordially invited to attend these concerts.

According to Mr. Diserens, the band is in splendid condition, following a series of very successful rehearsals. Most of the roster will be here for the summer to take part in the regular weekly concerts each Friday evening throughout the summer. A varied program of semi-classical and popular selections will be included in these recitals. It is upon popular request of the public that the band will render these weekly concerts as has been given in the past.

DISTRICT DRY FORCES MEET AT MERIDIAN

A Mass Meeting of the Prohibition forces of the 21st Senatorial District will be held at Meridian next Tuesday morning, June 20th at 10:30.

County Chairmen, Precinct Chairmen and Officers together with others interested will meet for the purpose of planning a more definite campaign against passage of the proposed beer bill and the repeal of the 18th Amendment.

Honorable B. D. Sartain of Wichita Falls has been invited to address the body.

A large number from Gatesville plan to attend the meeting.

Byron Leaird Begins Mammoth June-July Clearance Sale Today

Leaird's June-July Clearance Sale has become an annual affair with citizens of Gatesville and Coryell county as well as with those who are in charge of the sale promotion. The sale this year starts today, Friday, June 16, and according to Mr. Leaird bargains will be put on his counters at prices which are positively startling. Mr. Leaird states that the object of this yearly sale is to dispose of all summer goods, and in order to do that he has cut the prices of his goods very liberally.

Mr. Leaird informs us that there is a sharp increase in practically all lines of merchandise, which indicates that in sixty days from now there will be a great difference in the prices asked for goods.

First Bale Brings Only \$150 After Big Race From Valley

Houston, Texas, June 12.—After a race from the Rio Grande Valley, during which a speed of eighty miles an hour was reached at times, the first bale of 1933 cotton reached Houston Tuesday.

The bale was grown by Teofilo Garcia, farmer of La Grulla, and was bought by the Houston Cotton Exchange for \$150. There was no open bidding as in former years. The bale weighed 450 lbs. and was classed as strict middling one-inch staple.

H. S. Edwards, principal of the La Joya High School, and H. H. Presnall of Mission brought the cotton to Houston an average sixty-two miles an hour to beat a bale being brought here by Fred D. Guerra, vice-president of First State Bank and Trust Company of Rio Grande City.

The Guerra bale had a three-hour start on Edwards and Presnall and the principal said that his car passed the other about 100 miles from Houston. This bale was grown at La Grulla, too, and it was understood that Guerra continued on to Galveston.

Summer Heat Is No Taboo When Kiddies Take Charge In Opening Swimming Pool

It was an impossible task for those who tried to count noses at the swimming pool last Monday as heads bobbed up and down in the cool water. Mothers and dads joined kiddies in celebrating the opening of the municipal pool for the summer season, when city officials acted as hosts with a free plunge for all those who cared to indulge in the treat.

It was a gala occasion for those who took part in welcoming back the good old swimming days. A multi-colored array of sun-tan bathing suits mixed with shrill shouts of glee made a perfect picture most too enticing for those who had not included themselves in the merriment and pleasure.

Beatrice Farmer Made "Miss Gatesville" in Local Beauty Revue

Beatrice Farmer, attractive daughter of Mr. and Mrs. E. C. Farmer of this city was awarded the title of "Miss Gatesville" in a local beauty revue at the Regal Theatre in which more than forty girls took part.

Each of the many contestants were entered as representatives of numerous firms and business houses of the city. On Friday evening, June 9th, all of the entrants were introduced to the audience, after which the judges eliminated more than half of the number, and on the following evening the final contest was held, in which Miss Farmer was awarded first prize, a beautiful silver loving cup.

Miss Farmer was the representative of R. M. Arnold & Son.

By The Snoooper

According to reports B. W. Diserens forgot to hitch his hat when he got out of it the other day. There is no fooling about it, Beatrice Farmer certainly looked the part in the beauty revue. She's mighty attractive. It's surely good to see Kermit Jones back again; I should call him "doctor" but I forget. Effie Simpson is still in a good humor; she always is. I thought I heard a radio going in the Texas-Louisiana Company office but it turned out to be C. H. Wallace whistling a new tune. I was glad to meet Mr. Collins, from Seattle, in town the other day, chiefly because he thinks times are getting better. Wonder who the person was on the golf course the other day who tried to approach the greens with his spoon? I can't find out. If Archie Gartman can't hold his own with a soap salesman then I'm a so-and-so. Irvin Scott has started a library; he purchased a very valuable manuscript last Wednesday. Mrs. Arthur Matthews has a right to miss her daughter after having her for such a nice visit. Bert Larson said he had been so busy lately he had to send for Hugh Morrison to help him out.

Former Local Girl Contest Winner Gets Trip To World Fair

Miss Pauline Evetts, daughter of Mr. and Mrs. Bob Evetts here, won the title of Miss Wichita Falls in a beauty contest staged by the Chamber of Commerce at Wichita Falls.

As a reward for having won the contest she will represent Wichita Falls at the Century of Progress now showing at Chicago. She leaves Wichita Falls, June 18th on a special for a ten day excursion with all expenses paid to the Century of Progress.

Watches Come Back Like Cats, Local Man Discovers So

A watch given to Frank Bryan by his parents in 1911 was stolen from him in Waco four years ago, and after innumerable sales, trades and swaps, was recovered by Constable Fred Mayberry one day this week and returned to its rightful owner.

Radio Station K. T. G. Will Present Novel Program Twice Daily

"Kum to Gatesville," is the slogan adopted by Gatesville's new radio broadcasting station, K. T. G., which has recently been installed at Manning's Machine Shop, on west Main street, operated by Ralph Sutherland.

According to Mr. Sutherland, the new station is operating on a frequency of 1310 kilocycles. As soon as the station has established its identity the owners plan to be on the air quite frequently but at present their time will be limited. They will broadcast between the hours of eight and nine each morning, and between seven and eight each evening.

The entertainment over station K. T. G. will be furnished by a local string band, and those desiring any special selections may let their requests be known by calling number 130, and the musicians will be glad to answer such requests.

Mayor Lowrey Reads Paper in Address to Local Round-Tablers

Addressing members of the Round-Table Club of this city last Monday evening, Dr. M. W. Lowrey, mayor of Gatesville, read a paper on "Poise," which was thoroughly enjoyed by the members who attended.

In the course of Dr. Lowrey's talk, he brought in the matter of heredity, stressing the fact that living conditions play a very important part in the inherited life of the individual. Dr. Lowrey used as an illustration the second generation of girls who marry often carry with them into their new homes the instincts which they have learned from their mother in manner of living, etc. Dr. Lowrey mentioned three distinct types of heredity, mental, physical, and moral.

Following the address, a short business session was held. Floyd Zeigler presided at the meeting.

Post-Hole Oil Wells Is Latest Discovery In Etex Oil Fields

Longview June 12.—The "post hole" oil well, which produces from the twenty-foot level, is the newest discovery in the East Texas field. This new producing horizon was discovered by investigators for the Railroad Commission.

The regular routine is followed in "completing" these wells. The operator takes out a permit and all preliminaries are carried out in the regular order. The posthole digger is employed shortly before the time for completion has passed and the operator sinks a one-joint flow string on his location, imbedding it in concrete so it will support a Christmas tree.

The regular network of flow lines is connected and when the time comes to report his well completed he opens the valves and a full daily allowable begins to gush forth.

The production comes from a by-pass at the bottom of the flow string which is connected by a well-covered line with some producing well near by.

About twenty such wells have been found running regularly.

ROAD BOOSTERS ATTEND MEET AT COMANCHE

Local representatives in the interest of the further promotion of Highway No. 36 attended a joint meeting of delegates from counties on that highway with officials of the State Highway Department Thursday at Comanche. Hilton Burke, of Comanche acted as chairman of the road promotion meeting.

It was the object of the joint session to meet and discuss with highway officials the possibility of immediate action in regard to the continuation of work on Highway No. 36 from Cameron to Abilene in order that that road might be made a thoroughfare from the "Plains to the Gulf."

Those who went from Gatesville to the Comanche meeting included: Pat Olsen, F. W. Straw, C. E. Alvis, Cecil Gardner, Hon. L. M. Stinnett, C. C. Sadler, County Attorney Floyd Zeigler, County Commissioner Dick Payne and others.

Brassies and Mashies Must Swing Again to Decide Winning Team

Local golfers will have more time in which to whet their appetites for the chicken barbecue. This fact was brought about when the competitive points were figured for the rival teams following the playing of the last match Sunday afternoon.

When all matches had been played off, a tie was announced by Bennie Sellar, course manager, in the tournament which started two weeks ago. 107 points were aggregated by each side. According to Tom Carlton and Howard Compton, captains of the opposing teams, each player will again represent his same team but new matches will be arranged for those whose matches resulted in a one-sided game.

It is presumed that match play on the second round will begin immediately.

The following matches will play under the tentative arrangement: Tom Carlton (c) and Howard Compton (c), Emmitt Stewart and Louis Holmes, Ricketts and Caruth, C. C. Sadler and Dr. Hamilton, Troy Jones and R. R. Anderson, F. G. Prewitt and Irvin McCreary, E. Chamblee and Cecil Gardner, F. W. Straw and Byron Leaird, Jr., Leake Ayres and C. Stewart, P. BYRON LEAIRD, Prop

JUDGE JOE H. ELDSON

At a meeting of the lawyers of the 52nd Judicial District of Texas, held in Hamilton on the day of Judge Eldson's funeral, the following proceedings were had:

"To H. E. Chesley, Chairman: Your committee appointed to draft suitable resolutions touching the life and memory of the late Judge Joe H. Eldson, submit the following report:

Joe H. Eldson was born in Hamilton, Texas, on the 16th day of November, 1884, and died therein on the 30th day of May, 1933, after an illness of five days and in the maturity of his powers.

He was married in the 27th day of October, 1914, to Miss Grace Witte, who survives him. One son, Joe H. Eldson, Jr., about fifteen years of age, and a daughter, Barbar Eldson, about ten years of age, the only children born to him, survive the deceased.

Judge Eldson acquired his literary education in the public and

private schools of Texas, completing his legal studies in the law department of the State University in 1908.

He began the practice of law at Hamilton with his brother, Arthur, R. Eldson, which association continued for several years and until he was elected County Judge of Hamilton County. Next he was elected district attorney for the 52nd Judicial District of Texas, and after serving as prosecuting attorney for two years was called by the citizenship of the district to become district judge and was serving his third term as such when called to the Tribunal on High.

In politics Judge Eldson was a Democrat, cherishing the principles of his party bearing his part of its burdens and rejoicing in its benefits to the people.

In his religious views he was a staunch Methodist becoming in the early dawn of manhood a communicant and official of the Methodist Church in his home town.

Early in life he became a Free

Mason, passed through all the chairs of his home lodge, frequently serving upon important committees in the Grand Lodge which he often attended as a delegate. He loved the principles and tenets of the order and exemplified them in his daily life.

As his friends and associates for many years and assembled as lawyers of the 52nd Judicial District of Texas to attend his funeral, we desire at this time to place on record our testimony to his ability as a lawyer; to his learning, industry, impartiality and integrity as a judge, as well as his worth and merit as a citizen and friend; Therefore we recommend the adoption of the following resolutions:

First: That in the death of Judge Joe H. Eldson the bar of Texas has lost one of its ablest and most distinguished members; the State one of its most deserving and upright judges; this judicial district one of its most useful and highly esteemed citizens and his family a kind, indulgent, loving and faithful protector.

Second: That by reason of the intimate association of each member of this judicial district with our deceased brother, and the high esteem in which he was held his loss falls most heavily upon us, we having sustained the loss of a valued friend. The record Judge Eldson has made and the example he has left us, will outlast any marble or granite shaft that may arise above his grave.

Third: That we tender the bereaved family of the deceased our sincere sympathy in their deep affliction, and trust they may be comforted by the thought that the soul of their loved one now shines in renewed splendor in the realms of immortality.

Fourth: That a copy of these resolutions be transmitted to the Texas Bar Association of which Judge Eldson was a member, and to the several newspapers of his judicial district.

Fifth: That Hervey Chesley, Jr., of the Hamilton Bar transmit a copy of these resolutions to the family of the deceased, and see that another copy is spread upon

the minutes of the district court of Hamilton county; that F. O. Jaye, of the Comanche Bar and Miller Stinnett of the Gatesville Bar each see that the minutes of the district court of their respective counties are likewise so inscribed.

Respectfully submitted, Oscar Calloway, Robert Brown, S. R. Allen, George Smith, Tom Mears, E. H. Persons, Tom Reese, Tom Robinson, L. Brann, Committee."

SINGING AT SEATTLE
There will be a singing at the Cold Springs, or Seattle, next Sunday afternoon.

The song program will begin at 1:30 p. m. Classes and quartettes from all over Coryell and adjoining counties have been invited.

Mrs. M. Gass, Former Gatesville Resident Buried at Victoria

(From Victoria Advocate)

Funeral services were held at the residence of Mr. and Mrs. L. J. Tankersly at 303 Jones street in this city at 5 o'clock this afternoon for Mrs. M. Gass, 67, mother of Mrs. Tankersly, who died at 6:15 o'clock Wednesday evening after an extended illness. Rev. Lee H. Roberts, rector of Trinity Episcopal Church, conducted the services, and interment was in the Memorial Park Cemetery. The pallbearers were Dr. F. B. Shields, T. L. Sterne, H. H. McDowell, C. J. Lane, F. S. Tarkington and George Shields.

Mrs. Gass was the daughter of Rev. Samuel S. Scott and Mrs. Sarah Fly Scott, long-time residents of Gatesville, and natives of Louisiana, deceased, and was born in Louisiana July 26, 1866. She was the widow of Chas. E. Gass. Surviving are three daughters, Mrs. H. L. Arnold of Waco,

Mrs. L. G. Clark of El Paso, and Mrs. Tankersly, wife of the Missouri Pacific agent of this city, and one son, C. C. Gass of Laredo.

Grain Elevator at Temple Reopens With 130,000 Bu. Capacity

Temple, June 11.—The Crouch grain storage elevators which have been closed here for the last four months have been reopened, with E. T. Massingale of Sherman in charge for the Burrus-Crouch Elevators with Dallas headquarters. The plant has a capacity of 130,000 bushels storage. It is being overhauled and placed in first class condition for the summer grain business and will give employment to considerable labor.

A JUNIOR CHAMBER OF COMMERCE

Since the organization of the first Chamber of Commerce in the United States, that institution has experienced a colossal growth. Its popularity has carried its by-laws into practically every city, town, and hamlet throughout the nation, and now each of those municipalities looks with pride upon the foremost civic organization of its people—the Chamber of Commerce. Likewise Gatesville boasts with no undue pride of its local Chamber of Commerce. It is composed of wide awake representative citizens from various business and professional institutions and should be credited with the innumerable enterprises and projects which it has fostered.

Beyond a doubt there are from twenty to forty young men in Gatesville, between the ages of eighteen and thirty, all representative citizens, who for some reason or another have not affiliated themselves with the Chamber of Commerce.

There is an organization known as the United States Junior Chamber of Commerce, also a state organization and many Junior organizations in our own state. It is not a new thing. It affords training for young men so that they might be competent of taking part in the senior Chamber later. It gives them a voice in local civic promotion. Such an organization can work effectively, hand in hand, with the senior Chamber of Commerce, being represented by a board of directors to confer with the senior members on civic problems.

UTILIZING OUR OPPORTUNITIES

The citizens of Gatesville certainly took advantage of a very timely opportunity last week when such a good number responded to the request for Gatesville people to attend the bridge opening at Jonesboro. Although interest was not stimulated long before time to go, the response which followed immediately was practically unanimous. Without any time for making preparations, the merchants and professional men of this city closed their places of business and pitched in with their wholehearted cooperation to make Gatesville's representation at Jonesboro a good one. When busy men and women will show such loyalty to their town by such action as this it is certainly commendable of them and the municipality which they represent.

Similar opportunities will present themselves from time to time and whether they might be of a local nature or of county-wide interest we cannot make a mistake to enter individually and collectively as a township into any enterprise that might better our community, and make Gatesville a better place in which to live.

A NEW DAY IS DAWNING.

"Figures don't lie," so the saying goes, and if that is true better times are not far ahead. Even the biggest dyed-in-the-wool pessimist who turns up his nose at statistics will be forced to concede in this case.

Twenty local homes installed electric refrigerators during the past month. That is the first indication of prosperity, and it's a good one. Coryell County citizens have purchased during a like period about fifteen new automobiles—another good indication. Several new homes are being built in the county, not to mention the many old ones that have recently been renovated, painted and repapered. Local and county merchants report increased business both in retail and wholesale lines. Cotton has risen to 8.80c a pound; oats are selling at 23c, and wool is bringing 22c a pound. Compare these prices with those of a year ago, or even a month ago. Such facts as these are more than circumstantial evidence; it is inevitable that we are coming to ourselves again.

CUT OUT THE SPOTLIGHT

When Mrs. Franklin D. Roosevelt announced her plans to visit her son, Elliott, newspapers were delighted with the opportunity to give her as much play as possible. It made interesting reading; everyone was glad to learn that the first lady was planning to visit on the west coast, and not only that, readers are naturally interested in keeping up with what our national leaders are doing. Newspapers were very profuse in their writings when Mrs. Roosevelt made her departure by air from the Capital City, just as they should have been. The publicity soon took a sudden turn for the worse, however, when it was learned that Elliott Roosevelt was planning divorce proceedings. Correspondents jumped at the opportunity and turned Mrs. Roosevelt's pleasure trip into a series of embarrassing moments.

For lack of knowledge on the subject, publicity has even dragged a poor unfortunate mother and her daughter into the picture rather than let the whole thing die down as it should. It looks like a pure case of lack of respect to the President's wife. If Elliott Roosevelt feels so disposed to get a divorce there might be room for a little publicity directed toward him, but why make his mother be forced to squint her eyes at the spot light?

Fruit Salad Stars in Triple Role; Critics Acclaim it "Good Actor"

Fruit salad is a good performer! Playing capably audiences at every appearance, this popular Menu Star shows an amazing versatility, demonstrating the unusual ability to carry a triple role, to appear on the bill as a curtain-raiser or to win applause in the grand finale. This nation's critics—cooks and diners alike—acclaim this "good actor" an able to bring down the house from Tampa to Timbuctoo!

If cooks were dramatic critics that's how they would appraise Fruit Salad. For this favorite dish can be a dessert; par excellence, it can be the main dish, it can tickle appetites as a cocktail or it can accompany the dinner as a salad. It's pictorial and healthful; it's easy and it's good. Hence the dramatic bouquets!

Teach Yourself How

You can let your own eye and tongue be your teachers in preparing successful fruit salads. Contrast of color, texture and flavors is probably the most important principle. To give yourself a lesson in contrasts, do this: Make a plain pear salad by putting a half pear (which has been marinated with French dressing) on a lettuce leaf. Good, yes—but uninteresting, colorless, nothing to set teeth into. Now, grate some American cheese and sprinkle over the top. You've added some nutriment and color—better! Now slice some pasteurized dates and lay them in petal formation on top. Put a dot of mayonnaise in center. Splendid! The golden brown dates give you a three-color ensemble, of orange, yellow and brown; vitamins A and B and valuable minerals, and—very important—a chewiness, a firmness needed! Now you have a real salad.

Follow that same general procedure whenever you combine fruits for salad, and you'll be surprised to find that your eye helps you first, and your own personal taste craving helps you second. Incidentally, you will find that pasturized dates are very important for use in fruit salads, especially those made with the soft, pale fruits; a package kept on hand will help you mightily.

Keep fresh fruits in the refrigerator, but not dates; they keep best simply left in the package and stored on pantry or cabinet shelf.

May Flower Salad

1 No. 2 can grapefruit
1 to 2 seedless oranges
Lettuce
French Dressing
6 pasteurized dates
3 maraschino cherries
Separate the oranges into sections; cut pitted dates in thirds lengthwise and cherries in halves. Drain juice from grapefruit and use in place of lemon juice or vinegar in French dressing. Place a halved cherry in center of a bed of lettuce. Arrange sections of orange and grapefruit alternately as spokes in a wheel around the cherry. Place a strip of date from each section of orange to the cherry in the center. Serve with French dressing. Serves 6.

Merry Go 'Round Salad

(Accompaniment Salad)
Place a slice of canned pineapple on individual salad plates. Cover with half-inch of canned cranberry sauce, and cover the sauce with a round of sliced orange. Garnish with watercress or lettuce.

Frozen Fruit Salad

(Combination Salad and Dessert)
1 No. 2 can mixed fruit
1 No. 1 can grapefruit
2 pkg. pasteurized dates
1 cup diced celery
1 cup chopped almonds
1 cup mayonnaise
1 1/2 cups heavy cream
Drain canned fruits thoroughly, cut in small pieces, combine the fruits, celery and almonds. Whip cream and add to mayonnaise. Add cream and mayonnaise to fruits. Pack in trays of mechanical refrigerator or in a tightly sealed mold in mixture of ice and salt until frozen. Unmold. Serve on lettuce leaf and garnish with a small amount of cream mayonnaise. 12 to 14 servings.

With dessert fruit-salads sweet crackers are very attractive—old-fashion ginger snaps or vanilla wafers. With accompaniment salads butter or cheese wafers and saltines are tasties.

Hazen Ament Writes About Life in Camp In Letter to News

Editor Coryell County News, Dear Folks:

Perhaps you are wondering just what a Reforestation Camp is like.

The Coryell County boys who are in this camp are: Oscar Lee, Hazen Ament, Raymond Kerley, Hale Fabian, Henry Cook, Louis Millap, Raymond Clearman, Gilbert Allen, Samuel Taffinder, Harrell Collard, Baker Hardin, and Hugo Adams.

This camp is located in North central Arizona and is surrounded by snow-capped mountains. The forest in which we are located is called Tusayan, after an old Arizona Indian village. We are about 55 miles from the Grand Canyon. Some of the finest pine trees in the world are to be found in Tusayan forest. The forest is filled with mountain lions, black bear, deer, porcupine, squirrels and prairie dogs.

There are 180 boys, 7 cooks, 4 officers and a medical corps here. The camp is divided into groups of 24 men, over each is leader and over each eight men is a foreman. Each morning the several groups are assigned to various duties, such as clearing dead timber, poisoning prairie dogs, killing porcupines, police duty and kitchen work.

We are now constructing a mess hall, a kitchen, a camp exchange and several other buildings. When the camp is completed a large banner will float at the entrance bearing the words "Little Texas."

The daily schedule is: 6 a. m., rising call; 6:15 a. m., roll call; 6:45, breakfast; 7:15 camp duties; 8:00, work; 12, noon, dinner; 1:00 o'clock p. m., work in forest; 4 o'clock, take quarters; 6 p. m., supper; 6:30, dismissed. Good, wholesome food is served at all meals. The menus consist of such foods as hominy, beans, potatoes, onions, vegetable salads, fruit salads, coffee, or tea. Saturday evening and Sunday are the off times. The boys are free to do anything they please. The town of Williams is only 8 miles from camp and the people are fine people. We can either go to town, or there are plenty of "cow girls" and each of the boys has picked one.

Dick Lucas, a western story writer, lives directly across from our camp. He tells some interesting stories of the Wild West.

There are a great many tourists in this territory for the summer. They get great fun out of climbing the mountains; we boys don't think that is so much fun.

Due to the fact that all the boys in my section are asleep and snoring, I suppose I might as well turn in myself.

All the Coryell County boys are hoping to hear from you soon.

Sincerely,
Wyllis H. Ament,
C. C. C., Company 848, Camp F, 28A, Williams, Arizona.

Texas and Oklahoma Delegates Agree to Accept U. S. Survey

Oklahoma City, June 12.—Texas and Oklahoma legislative delegates today agreed to accept a United States survey locating the Clark parallel as the official boundary between the Panhandle districts of the two states.

The northern boundary of Texas as established along parallel 36-30 by John H. Clark, United States commissioner, in 1850. The line, known as the Clark parallel is one of the surveys involved in the boundary dispute.

Six legislators from each state met here today and voted to accept a federal designation of the Clark parallel as the boundary if property rights of citizens of both states are protected. Senator Clint Small, Amarillo, headed the Texas delegation and Representative Julius W. Cox, Cimarron County, the Oklahoma delegation.

Three members of each delegation will draft a resolution to be submitted to the Legislatures of the two states for ratification of the plan.

Other members of the Texas delegation included B. L. Rogers, Farnsworth, and H. A. Stanfield, Amarillo, Senator Ed Reed, Elk City, and Representative Charles Williams, Texas County, were others on the Oklahoma delegation.

The disputed strip ranges from 324 feet to 423 feet on the south boundary of Cimarron County; from 149 to 474 feet on the south boundary of Texas County and up to 149 feet on the south boundary of Beaver County, Okla.

Borglum Takes Crack At Texas for Bare Space at World Fair

Dallas, June 12.—Gutzon Borglum, the sculptor, took Texas to task today because it had not provided an exhibit at the World's fair.

"Texas has got the very best space at the fair," he said. "Yet Mrs. Birglum and I were there about a week ago and that space is absolutely bare. Both California and Florida have veritable fairylands as exhibits."

"I'm afraid the trouble is that Texans have lived too many years adjacent to Mexico and have cotton imbued a little with the "mama" spirit."

When the firemen call, dressed for action, it is too late to think of insurance. The loss may be large—or the loss may be small—but a loss nevertheless unless you have your home and personal property well insured. Putting off taking out a fire insurance policy is a gamble which no one can afford. Let us explain the economy which may be enjoyed in various kinds of policies.

YOUR OPPORTUNITY IS IN RADIO

We wish it were possible to portray in cold type the opportunities offered in the field of Radio. Someone has very appropriately said it is the second largest industry in the world, being excluded only by the automobile industry.

To the mechanically inclined youngster, to the youngster who has the desire to "tinker" with electricity, will find in radio the ideal type of work and a most interesting study.

Colonel Lindberg has said many times that the shortest route to aviation is through the radio class room. Radio likewise offers so many avenues for a young person until we do not hesitate to encourage a young person to enter into this work.

Our school of Radio is adequately equipped to give one the very best training in this field. Ours is the only radio school which has a broadcasting station in connection, which gives the radio student an added opportunity not obtainable in any other radio school in the South.

To learn more about this most interesting subject, fill in the coupon below and ask for Radio booklet R-6. It will come to you by quick mail absolutely free.

New Norge Presents Features Designed to Meet Housewife Needs

This locality is starting an upswing towards a new prosperity. It will be founded upon consumptive enjoyment rather than speculative profits. Old homes are being modernized. Interiors are being renovated. New improvements are being installed. There is evidence everywhere that people are intending to live a happier sort of home.

For three years the average family has shown a preference for money rather than goods. It has curbed its consumptive desires and made the old suit, old furniture, the old ice box do. Little has been replaced. Almost everything has been repaired to the limit.

But there is one thing sure about the American family. Although it may tolerate a dilapidated standard, it will never con-

sent to lowering it. During the freight of the depression, much buying was postponed but now, with a period of inflation ahead, it looks as if the citizenry would break into an orgy of consumption. Families have decided to enjoy life.

Having lost out in deflation of property and security values and bank savings, family heads are saying, "When we get money again, we'll invest it in home comforts that we can enjoy; substantial conveniences that will last for years and from which the whole family can benefit."

There are few in any conveniences which contribute as profound benefits to the entire family as an electric refrigerator. Pride of possession, social leadership, property values are all enriched by it. It pays more direct dividends in pleasure, comfort, convenience, health and economy than almost any other investment that can be made. Electric refrigeration will prove a very popular acquisition in this fad of buying things.

This prediction is already borne out in fact by the marked increase reported in the sale of Norge refrigerators in this locality during the past few weeks. The new Norge cabinet design has attracted much favorable attention. Totally different from customary cabinets in appearance, it was designed to meet the desires of 100,793 women. It has a simple, classic beauty. Its graceful lines in gleaming white enamel are uninterrupted by sharp angles or abrupt corners. It is a good example of the charm and style being introduced into modern home appliance design.

The new Norge has many interesting features to delight the housewife in addition to its rol-

lator, the simple mechanism of three moving parts capable of making more cold than a user will ever need. A massive ebony-black porcelain base raises the handsome white cabinet a height at which every part of the waist-high food compartment can be reached without stooping. Odor-proof ice compartment, a lock that springs open by body touch when hands are full, a new scientific shelf arrangement, a self-cleaning freezing unit enclosed by a porcelain shield and other new conveniences are the result of the Norge policy to design to meet what the American housewife desires.

The new Norge may be seen at Scott's Furniture store on west side of the square.
