

Ballots Will Be Cast In General Election Today

Coryell County voters will be most interested in the eight proposed constitutional amendments to be voted upon at the polls today in the 1934 General Election since Texas and Coryell have a much larger number of Democrats than any other party. The nominees were named in the Primary elections and their name will be cast against candidates from other parties on the ballot used at the polls today.

The proposed amendments will be voted upon by members of all political parties.

The election today will hold a different aspect in other states where the various parties claim a substantial voting strength. The real test of the New Deal will be decided when votes are cast all over the United States at this time in 47 states all together.

The Democratic party has gained a powerful grip in the halls of Congress and the election today will determine whether or not this grip will be strengthened or not.

Six thousand ballots have been printed for the general election here, and are now in the hands of County Judge Rob't W. Brown, whose duty it is to see that the necessary election supplies are provided. Of course the total voting in Coryell will by no means reach that number, but the 6,000 figures is fixed by law and must be printed regardless of the fact that they will not all be used.

HOME ECONOMICS DEPT. SEEKS RESIDENTS HELP

The Home Economics Department of the Gatesville High School is collecting Admiration Coffee coupons with the hopes of securing a premium coffee urn, a very essential piece of equipment for the new department.

Local residents are urged through Miss Evelyn Robinson, head of the Home Economics department, to help in the endeavor by sending the coupons of this particular brand of coffee to the school.

The contest closes November 17, and it is hoped that local users of coffee will assist in providing the valuable premium for the local school.

SINGING CONVENTION WILL MEET AT ATER

The North Side Coryell County Singing Convention will meet Sunday, November 11, at Ater.

An all day singing program will be rendered by vocalists representing various communities in the northern part of the county besides many visiting singers.

League Teams Will Get Into Action in New Gym Thur. Night

GAMES START AT 7:00 P. M.

The new Commercial League, composed of six basketball teams in Coryell County, will open officially Thursday night with three games scheduled in the new high school gymnasium.

The first game which starts promptly at 7:00 o'clock will find Leon Junction and Jonesboro contesting for honors in the opening game.

The second game will be between the Conoco team and the Merchants team, both of Gatesville. The former is managed by Troy Jones and the second by Ted Harris and Dr. Otis C. Ray.

The Roundtable Club team and Levita will play the third game of the first night's series.

A nominal admission charge of 10c will be made for the three games.

Pete Patterson, of Gatesville, and Rabon Balch, of Levita will act as officials in the Thursday night contests.

A complete schedule will appear in a later issue of the News.

REFRESHING RAIN IS WELCOMED IN COUNTY

A refreshing rain which began about three o'clock Friday afternoon reached into nearly every section of the county, some parts reporting more rainfall than others.

In the vicinity of Leon Junction it is reported here that a regular cloudburst came and departed leaving a waterfall of something like two or three inches.

A sudden electric storm accompanied the much needed rain but lasted only for a short time.

In Gatesville and vicinity the rain continued in intervals until the early part of the night. The heavy downpour lasted only a short time, followed by winds and a light shower from six o'clock until about eight.

LOCAL PEOPLE TO ATTEND ANNUAL CONFERENCE

Rev. M. M. Chunn, pastor of the First Methodist Church of Gatesville, will leave Wednesday morning for Fort Worth where he will attend the annual Central Texas Conference.

Mr. Leake Ayres, who is Treasurer of the Conference will leave Thursday and so will Miss Minnie Lou Witt.

Mrs. Pearl White and Mrs. Chunn will join the representatives from this section in Fort Worth the latter part of the week.

Roundtable Club Names New Officers to Direct Body for Ensuing Year

CLUB GROWS MORE POPULAR

Officers for the ensuing year were officially elected when the Roundtable Club convened in regular session last Monday evening, October 29, in the district courtroom.

W. T. Hix was named to succeed Marion Burleson as president of the local young men's organization. Henry Yonque was elected to the vice-presidency and David Franks was named Sergeant-at-arms.

The Roundtable Club was organized in Gatesville some two years ago and during the life of the club it has grown in popularity as one of the outstanding civic and social organizations of this city.

Large Crowd Present To See Jonesboro and Pearl Divide Honors

BOYS & GIRLS TEAMS PLAY

A large crowd of enthusiastic spectators witnessed the first basketball game in the new Gatesville High School gymnasium last Saturday night at which time four of the best teams in Coryell County furnished the thrills for the basketball fans of this section.

The Pearl and Jonesboro boys teams, the same clubs which played for the county championship last year provided a breather from start to finish, Pearl finally landing the contest with a 17-16 victory.

In the contest between the girls teams representing these same communities, the Jonesboro delegates reversed the count and won handily over Pearl, 27-14. Both teams would not concede victory to their opponents until late in the last few minutes of play.

NEW EMPLOYEE IS ADDED TO NEWS STAFF

Hornets Lost to Falls County Team, 20-0 on Rain Soaked Gridiron

PLAY SCORLESS FIRST HALF

A punting duel in the first half of the game between the Gatesville Hornets and the Marlin Bulldogs here last Friday on a rain soaked field and played most of the time during a heavy downpour ended in a 20 to 0 victory for the heavier visiting team when the Bulldogs got the ball in the Hornet territory early in the third period.

The quarters were limited to twelve minutes instead of the customary fifteen and during the entire first half Gatesville played the visitors in their own end of the field but lacked the necessary offense to carry the ball across for a marker. The Hornets were unable to consistently penetrate the strong Marlin line and on end runs the local club failed to gain on account of the heavy field.

A powerful charging Marlin back, one of the best seen in action here, was responsible for most of the visitors yardage which led to the three touchdowns and two converted points for Marlin, two in the third quarter and one in the fourth.

Pledge

I will think—talk—write . . . Texas Centennial in 1936! This is to be my celebration. In its achievement I may give free play to my patriotic love for Texas' heroic past; my confidence in its glories that are to be.

The Commercial Basketball League which opens officially next Thursday evening will provide something that has never been realized before as far as the entire county is concerned. That is to say, it will provide an outlet for recreational activities participated in by practically every community in Coryell jointly with business and professional representatives of Gatesville. This county as other counties has always experienced mutual business relations in trading and buying activities but there has never been an occasion covering any appreciable length of time when the business men of various communities could enjoy some form of recreation together. The schools have provided an outlet for the boys and girls of the county to participate in the same games. Why shouldn't the business interests of Coryell be allowed the same privilege? We hope to see the realization of such ideals in the county-wide basketball league.

A Mr. Wiseman, who has been a photographer in Hico, Texas for a number of years has built an enviable reputation. People from a radius of more than a hundred miles go to the Wiseman Studio for photography. His establishment is not the most exquisite in the country perhaps, but he has built the clientel which he now enjoys on his reputation for quality workmanship in this particular vocation. Recently a couple from Abilene had a photo taken of their small child. They entered the picture in a nation-wide contest and the baby was awarded a silver loving cup. This is an example. The point is that regardless of what a person does, by doing that job well the chances are that he will attain the good name that is the envy of everyone.

A few people who do not realize that weather conditions play a most important part in the maintenance of highways and unpaved city streets should not be too hasty in criticizing the county commissioners and city engineers for the present standing of roads and streets. It is logical that with the highways in such a dry, hardened condition work done on them cannot be expected to show very much results. We pointed out in a previous editorial some months ago that work was needed on the unpaved streets of Gatesville. We were very clear in our remarks that the holes needed to be filled and to the satisfaction of many local residents most of these bad places have been repaired. We understand however that it is going to take some rain before general repair work can be done successfully on our gravel roads and streets. The rain which came Friday afternoon will help to make road improvements possible and it is very likely that this week we shall see road graders and gravel trucks busy taking advantage of the recent shower that fell over most of the county.

It is evident that many Gatesville people are setting a bad example for visitors as regards the parking signs on Main, Leon and around the square. Observance of the parking lines will help to direct visiting traffic and make Saturday traffic less congested, which also applies to double parking in the business section on Main Street.

FOOTBALL CHATTER

By TEDDY

The local Hornets were defeated Friday afternoon by a strong crew of Bulldogs from Marlin. The Hornets played on even terms with the Bulldogs the entire first half. Joe Powell's punting played a most important part in holding Marlin for two quarters.

This writer had the pleasure of witnessing the football game that was most important in district 19 of class A football Friday night in Hillsboro. Temple won the game 6-0. It was in the fourth quarter before Temple managed to put over their only touchdown. A muddy field always helps the team that is considered the underdog. Marlin probably would have defeated Gatesville forty to nothing had they been playing on a dry field. Temple would have defeated Hillsboro by two or more touchdowns had the field been dry.

Dr. Otis C. Ray and I have consented to coach the third basketball team from Gatesville. This team will be called the Merchants team, and will be sponsored by the Merchants of Gatesville.

Coach Ewing will take his Hornets to Hamilton Monday, November 12 where they will meet the Hamilton crew. Hamilton, according to dope, hasn't a very strong team, but will be ready to give the Hornets their sixth defeat.

Everyone seemed to enjoy the Halloween party last Tuesday night. Game of biting apples, cracker contest, marshmallow and sack races, egg races and other amusements featured the entertainment.

The first grade has on a number of combination contests. Cards are hidden, and the one who adds the highest score wins the race.

The fourth grade has started an auto race, to every merit a mile is gained, to every demerit, a mile is lost.

The second grade has started a flash card contest.

World Comment

By JOE BURNS

CHICAGO closed its Century of Progress Exposition—World's Fair—at midnight October 31, with the satisfaction of having staged the most expensive world's fair and made it a success. The total attendance exceeded 33,000,000—and your correspondent is proud to be included among those millions of visitors from the forty-eight states and every nation of the globe. It is quite easy to see how the fair drew such an enormous number of visitors when it is remembered that an estimated 200 attended from Coryell county. The exposition was a great success in a financial way, giving direct employment to 500,000 persons—including fan dancers—and meaning a business turnover exceeding \$1,000,000,000.

With the selling of \$1,000,000 of relief bonds Friday, the State has only \$3,500,000 remaining with which to carry on relief work during the Winter months. It is almost certain that additional bonds will have to be authorized if our destitute citizens are to be cared for.

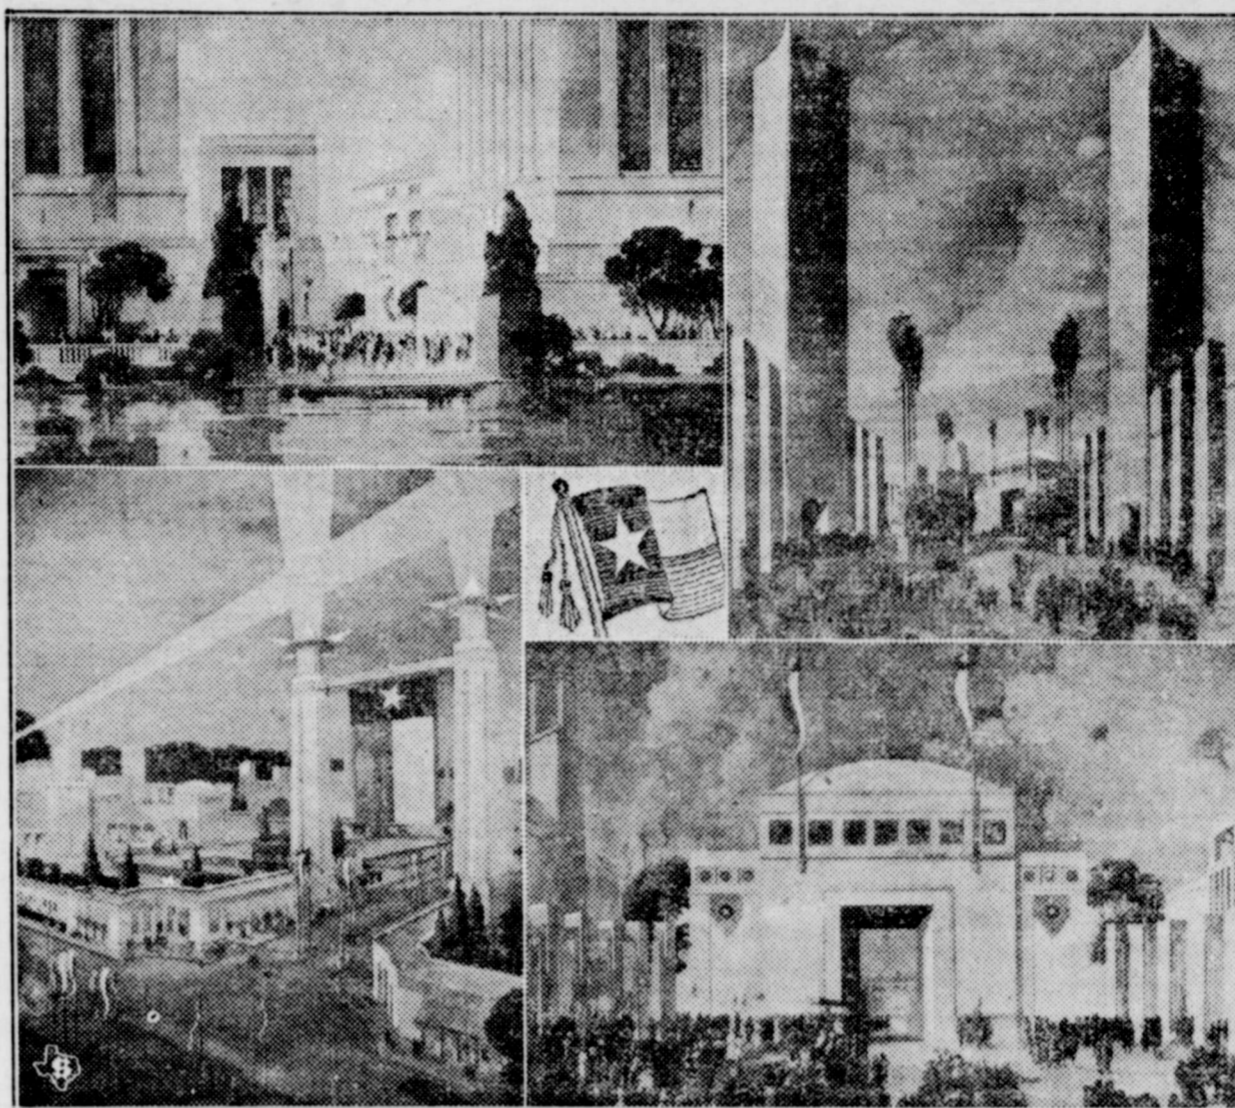

SAMUEL INSULL'S great defense—a plea of not guilty—was broken last week when he admitted a \$10,000,000 "mistake" in one statement made to stockholders of an Insull corporation. Heretofore the famous Chicagoan has parried questions of the prosecutor with such answers as "I don't recall" and "I've no recollection" but this time he failed to deny the measly \$10,000,000 mistake.

THE PRESIDENT broke another precedent when he openly endorsed Gov. Herbert Lehman of New York for reelection. "I have no hesitancy in making it known I expect to vote for Gov. Lehman and that I hope he will be reelected." And, with such an endorsement, when the votes cast today are counted, Jewish Governor Lehman probably won't know he has had an opponent.

"A little is better than none." And this certainly applies to rain gladly received throughout Central Texas Friday afternoon. The fall was general over Coryell county and the precipitation was greater than at any time since the first of last May. The amount that fell Friday alone will probably be sufficient to bring up small grain that has been sown in this section and if more rain follows, the small grain crop will be in good shape for fall grazing. Of no small benefit will be the softening of the ground to permit breaking of land by farmers. Grazing pastures will also be benefitted to some extent, and, if more rain comes, stock water will be replenished.

War Secretary Dern wants to

Perhaps Texas Centennial Will Look Like This

The pictures above are photographs of drawings by George Dahl, Dallas architect, and depict one man's idea of how the Texas Centennial Exposition will look in 1936. Though not official, these drawings were presented to the Texas Centennial Commission along with the \$7,000,000.00 bid of Dallas for the Centennial, this city gaining the major celebration. Many other expositions will be held throughout Texas, at various points and centers of historical interest. (Texas News Photos.)

Increase the Army to 165,000 men with tanks that run forty miles an hour. "You see those tanks crawling along about seven miles an hour. We've got to scrap all of that. We must have faster equipment to keep abreast of the times." Such talk should be interpreted as the talk of a militarist, always eager to have a large army. It is easy to see that the Secretary is only talking common sense. With France supporting an army of 700,000 men, Russia 500,000, Japan 300,000 and England, isolated as she is, 400,000, should not the U. S. have at least 165,000 men ready at a moment's notice to defend our shores?

Certificates For Nat'l Pooling Soon to Close

COLLEGE STATION, Nov. 5.—November 10 has been tentatively selected as a final date for receiving surplus cotton tax exemption certificates for the national pool, according to an announcement received from the Agricultural Adjustment Administration. Purchase of certificates from the pool, it was emphasized, would continue as long as the pool had certificates on hand.

E. L. Deal, manager of the pool, said it was felt that all holders of surplus certificates who wish to turn them into the pool will have had that opportunity by November 10. State allotment boards have been urged to assist producers who wish to turn in surplus certificates to the pool.

"Because we have tentatively selected a final date for receiving surplus certificates," Mr. Deal said, "it is now more urgent than ever that producers speed up the surrender of any certificates they wish to offer

for sale through the pool." The pool now has on hand orders for many more certificates than it is able to fill, Mr. Deal said. On all of these orders the purchasers expect to pay four cents a pound which is the rate fixed by Secretary Wallace as the standard selling price for surplus certificates purchased through the national pool.

Producers will be paid ap-

proximately \$20 a bale for all certificates sold through the pool. When the pool is liquidated, each producer will be returned his share of any certificates the pool does not sell. These may be used next year if the Bankhead Act is effective for 1935.

Mrs. Annie Timmons was hostess to the Unity Club last October 25.

Miss Gladys Martin, County Demonstrator, was present and discussed pattern cutting and cheese making, which was very interesting and helpful to the club members.

During the business meeting plans were made to paint the church, and other important matters were discussed.

Refreshments were passed to the following club members and guests: Mrs. Sallie Murrell, Mrs. Bob Murrell, Mrs. Watts, Mrs. Dickey, Mrs. Lennie Cantrell, Mrs. Addie Taylor, Mrs. Christian, Mrs. Lola Pruitt, Mrs. Minnie Whisenhunt, Mrs. Birdie Coward, Mrs. Leona Whisenhunt, Mrs. Thelma Mauldin, Mrs. Annie Timmons, Mrs. Mike Comer, Mrs. Myrtle Yows, Mrs. Maude Lovelace, Mrs. Lela Brazil, Mrs. Ollie Timmons, Misses Gladys Martin, Charlene Parsons, Winnie Bell Watts, Elizabeth Yows, and Nola Morgan.

The next meeting will be at the home of Mrs. Minnie Whisenhunt, Thursday afternoon, November 9.

**Children Honor Mother
On Birthday.**

A happy day was spent last week when Mrs. R. E. Meeks of this city celebrated her 55th birthday anniversary at her home on the Levita road.

A bountiful dinner of delicious and appetizing eats was enjoyed at the noon hour, and pictures were taken of the group later in the day. Mrs. Leonard Meeks baked the pretty

birthday cake, which was cut at the occasion.

Members of the immediate family present were Mr. R. E. Meeks, Mr. and Mrs. Leonard Meeks and two children, Raymond Meeks and son, and Mr. and Mrs. M. D. Meeks and small son of Gatesville, Mr. and Mrs. H. O. Payne and daughter, Juanetta, of Waco, and Mr. and Mrs. V. O. Pennington and baby son of Killeen.

**"84" Party Enjoyed in
Home of E. H. Schloeman.**

Tables were arranged for a group of eighty-four players with Mr. and Mrs. Ed Schloeman, hosts, at their home on the Arnett road last Friday evening.

Concluding a series of enjoyable games, the guests were passed a refreshment plate consisting of pineapple sherbet and cake. Queens wreath served as floral decorations throughout the rooms.

The invited list included the following: Messrs and Mesdames Edgar Franks, D. D. McCoy, Clifford Adams, E. G. Beerwinkle, J. O. Brown, Jeff Bates, John Webb, Roy Hayes, John Voss, J. D. English, D. R. Boone, A. C. Schloeman, D. I. Glass, Tom L. Robinson, F. W. Straw, Misses Frances and Louise Voss and Hulda Schloeman.

Mrs. Sam Ward complimented her daughter with a delightful party at her home on last Saturday evening from 3:30 until 5:00 p. m. As the guests arrived, all admired the lovely little gifts. Entertaining and exciting indoor games were played throughout the party. Refreshments of cake, banana ice cream, and candy were served to the following children: Francis Reesing, Betty Jane Jones, Majorie Hall, Mary Jane Sloan, Margaritte Ann Morton, Waldine Clemmons, Onella Anderson, Grace Weigand, Geraldine Martin, Nelline Martin, John Terry Ward, Bobbie Ward, Trena Davis, Mary Joe Russell, Mary Elizabeth Brooks, Bessie Lee Roberts, Leon Mann, Jean Hill, Cecil McMullen, Jerry Haney.

Mrs. Jim McMullen of McGregor spent the week end in the home of her sister, Mrs. Same Ward.

**SCHOOLS WILL BENEFIT
FROM PROPOSED TAX**

AUSTIN.—One of the outstanding features of the discussion of the bill designed to raise revenue to finance the Texas Centennial celebration is the fact that approximately one-fourth of all the proceeds raised by the Centennial tax levies will go to the State school fund.

This is because of a constitutional provision that one-fourth of the taxes of the character proposed to be levied must go into the school fund.

It is pointed out that this will mean that for every three dollars raised for the Centennial the schools will get one

Dies Seeking Food

Driven by a scarcity of range food to eat leaves from a tree at the edge of a ravine, this 3-year-old steer on a Gillespie county ranch lost its footing and caught its neck between a wiry grapevine and an oak tree and strangled to death. When the owner found the steer after it had been missing two days, its legs were dangling down the steep bank, as pictured, the grapevine around one horn and under its jaw. (Texas News Photos.)

Fights Dam Profits

Here is Representative Sarah Hughes, diminutive and combative Texas legislator, who says she will continue her fight against the bill creating the Colorado River Authority unless it is amended to provide certain features. Mrs. Hughes charged on the floor of the House that 51 per cent of \$3,200,000 of the \$4,500,000 PWA loan asked for under the bill presumably would be received by Ralph W. Morrison, multi-millionaire of San Antonio, who obtained the loan from the Federal government after it had first been turned down by Administrator Ickes. She contends that the government loan should be retired before the promoters get their money. (Texas News Photos.)

cial the schools will get one dollar. This will give a measure of relief to schools badly in need of funds. So in a sense the passage of the Centennial bill will be a tremendous help to the State school fund.

Magic Eyes

"Watch Your Stop" is the maxim of amateur photographers at the World's Fair this summer and here, Miss Charlene Tucker is demonstrating "magic eyes" that tell the photographer where to set his stop to make a good picture. TEXAS HISTORY IN THE MAKING

No. 2. The Founding of Fort Davis

—Think—Talk—Write—Texas Centennial in 1936

On October 3, 1854, United States soldiers, searching for a "water route" to the Far West, marched up Limpia Canyon into the center of the Davis Mountains in the Big Bend country of Texas, and Fort Davis was officially founded on October 7, according to records of the War Department. The mountains were thick with Mesquero Apache Indians, and travel was difficult, but this big Fort made settlement of the mile-high region possible. Its work done, the Indians safely on a New Mexico reservation, Fort Davis was abandoned in 1891. Its charming ruins, some of the most extensive in Texas, may still be seen within a stone's throw of the little city of Fort Davis which now stands beneath the forbidding cliffs of the Davis Mountains. The lower picture, taken in 1886, shows the fort in its prime, while above is a most excellent photo of the officers who were stationed there at that time. Fort Davis will celebrate the 80th anniversary of its founding on October 6. (Texas News Photos.)

have neither adequate time nor opportunity to investigate and study said proposition.

THEREFORE, BE IT RESOLVED by the City Council of the City of Gatesville, that said election order be in all things withdrawn, and that said election be postponed indefinitely.

BE IT FURTHER RESOLVED that as notice to the voters of Gatesville, of the above action of the Council, that the City

Secretary be ordered to publish a copy of this Resolution for one week in each of the Gatesville newspapers.

PASSED AND APPROVED, this the 23rd. day of October, 1934.

Mr. and Mrs. Monroe Spence

Mr. John Hancock celebrated his fifty-fifth birthday at his home Sunday. The refreshment table was very attractive. The colors of pink and white carried out the table decorations.

The birthday cake, which held

fifty-five pink candles and "Happy Birthday" in pink letters with pink and white daisies around the cake, centered the dining table. A real picnic was enjoyed and favors of pink and white daisies were given to each one present.

All the children except one were present, with three grand children.

IN MEMORY OF G. W. DERRICK

G. W. Derrick was born in Missouri, March 2, 1864, and came to Texas at the age of thirteen.

He was married to Miss Sarah Evelyn Camp, December 22 1885. To this union was born ten children of whom nine survive.

At the age of twenty-three he was converted and joined the Baptist church of which he was a faithful and active member until he passed away on October 11th at 3:30 p. m.

On October 12th, the funeral services were held at the Liberty Baptist Church, and the services were conducted by Rev. G. W. Lee, assisted by Rev. W. T. Jackson. He was laid to rest in the Turnersville Cemetary.

Besides his wife, who preceded him in death ten years ago, he leaves to mourn his loss two daughters, seven sons, twenty one grandchildren, four great-grandchildren, three sisters, two brothers, and a host of nieces, nephews and friends. All of his children were present when he passed away except one son, who was unable to come.

A voice we loved is stilled and a chair is vacant in a home, but like David of old we can say, he cannot come back to us but we can go to him. We have one great consolation that we will meet him again some day around the great white throne where there will be no more parting, heartaches and sorrow, and where there will be one eternal day without a night.

GIVE LIFE FOR LEPERS

LONDON.—One hundred and fifty men here have given up jobs and are being trained to work for nothing at what may bring them slow and horrible death.

They are men who have volunteered to labor among leper colonies in India and Africa, under the direction of the Empire Leprosy Relief Association.

A fund is being raised to provide \$6,250 maintenance for each man but none of them will draw salaries. They will be absent at least five years.

Some of the volunteers are war veterans.

The Sink Hole of the Devil

Take a good look at the Devil's Sink Hole, and you'll agree that the devil must have fashioned it with his forked tail. It's a huge cavern near Rock Springs, Texas, and the main entrance is 271 feet, right straight down. If you don't think that's a long ways, look at the basket in the small picture and compare it with the large one. As far as we're concerned, the Sink Hole can remain the Devil's until an elevator is installed. (Texas News Photos.)

One 4-H club boy in Shackelford county reports gains of 300 pounds on his baby beef calf after four months feeding at a cost of \$12.06. The calf weighed 330 when it went on feed.

Self-feeder-fed pigs owned and shown by a 4-H club boy of Carson county won third place in the litter class in Amarillo recently. The pigs average 241 pounds apiece and had been fed on a ration in which skim milk largely supplied the protein. His net profit was \$40.51 on this demonstration which was his first.

Juanita Billingsley, first year Tarrant county 4-H club girl, put up 114 quarts of food this year in her club work. She declares it makes her feel good to have made such a substantial contribution to the family food supply.

An attractive flagstone walk has been made by Mrs. George Williams of Schleicher county with rock secured from an old fireplace which was torn down. Wide and narrow rocks were used alternately and laid even with the surface of the lawn. Mrs. Williams plans to cultivate the native grass in her yard and allow it to grow in between the rocks. She is yard demonstrator for the Eldorado Home Demonstration Club.

Bastrop—Harrell Hancock, 4-H club boy in the Oak Hill neighborhood in Bastrop county sold \$99.85 worth of water melons from his 4-H club demonstration, according to the report of W. S. Millington, farm demonstration agent. Young Harrell also said that the vines were still producing and had a number of green melons from which he hoped to sell enough to swell his sales to more than \$100.

Gail—"It pays to work your cotton land whether it rains or not," A. N. Surratt, Borden county farmer, told Ralph Howe, farm demonstration agent. Mr. Surratt has produced 1540 pounds of net lint from 12 acres of cotton and will get about one-half bale more from the same acreage. He summer fallowed his land and worked it four times before planting his certified Acala seed. He made the large yield in spite of the fact that less than 1/4 inch of rain was received on this crop from the time it was planted until it was harvested.

Vega—Jack Cotton, Oldham county 4-H club boy, showed the Grand Champion barrow and Grand Champion litter at the fair in Amarillo recently, and in the open class the Grand Champion barrow combined with two litter mates placed reserve champion trio, according to J. F. Ford, farm demonstration agent. More than 200 barrows, including the winners of the 4-H club division, were eligible in the open barrow show, and

young Cotton's accomplishment in placing his best pig as open class champion against some of the outstanding show herds of the United States has seldom been equaled in the show ring, according to Mr. Ford. This is the second consecutive year that the Pig Club Championship has been awarded an Oldham county exhibitor.

Huntsville—Mrs. Sam Parish of the Moore's Grove community in Walker county believes what the Bible says about using what you have in your own hands, according to Miss Frances Punched, home demonstration agent. Mrs. Parish uses elm bark instead of cane for chair bottoms. She takes the elm bark just as it is stripped from the tree and cuts it in 1/2 to 3/4 inch strips while it is damp either from tree moisture or from soaking. Then she plaits or weaves it directly upon the chair. Several of the chairs which Mrs. Parish has covered are in the Moore's Grove cannery. The work is extremely smooth and even, and the bottom is firm and more substantial than cane, according to Miss Punched.

San Angelo—In spite of the drouth, Mrs. A. E. Lock of Tom Green county gathered enough Mustard-spinach (tender greens) from one 40 foot row to can 17 number two cans and use 50 pounds fresh, according to Miss Nette Shultzs, home demonstration agent. Mrs. Lock not only served the greens boiled but used them for salad. She makes the salad by shredding the greens and pouring a hot dressing over them or by serving them with a dressing made of cream, vinegar, sugar, salt and mustard.

Floresville—Seventeen acres planted in peas in Wilson county have provided fresh vegetables for families on the relief roll unable to have their own gardens and have provided enough for 6400 cans to be used for relief purposes this winter, according to Miss Martha Hickman, home demonstration agent.

The gardens are worked by relief labor on land secured by arrangements with landowners. Where the seeds are not furnished by the landowners, they are furnished by the relief committee.

Eight Cars of Rice Are Shipped to Relief Points

Austin, Nov. 5.—Texas Relief Commission has been notified by the Federal Surplus Relief Corporation that eight carloads of rice, about 320,000 pounds, are being shipped to Dallas, Fort Worth, Waco, San Antonio, Austin, Texarkana, Beaumont and Houston for distribution to relief clients in Texas.

This first allotment will be to approximately 50 per cent of the relief load and will provide about two pounds of rice per case, according to C. Z. Crain, head of the commodities distribution department of the Commission.

Another allotment is expected soon. Rice will be distributed as a surplus commodity and will NOT be charged against the budgets of clients.

We take it that President Roosevelt is entirely willing to let Bilbo of Mississippi be the Wall Street bulldogger of the Senate. That will release other Senators to attend to normal business.—Tulsa World.

Maine Potatoes Due For Texas Relief Needy

Austin, Nov. 5.—Relief officials are awaiting the arrival at Galveston of eight million pounds of Maine Irish potatoes, about 206 carloads, for distribution to Texas relief clients.

C. Z. Crain, head of the commodities distribution department, said the shipment will provide approximately 30 pounds of potatoes for every relief case in Texas, and that it is planned to distribute 10 pounds to the case on three different occasions.

Potatoes will be shipped from Galveston to about 30 distribution points over the state where facilities afford cold storage. From these points, distribution

will be made to various counties in the respective districts.

"Every client in the state is eligible to receive potatoes and they will receive them as a surplus commodity, NOT to be charged against their budgets," Crain said.

MORE TEXAS HIGHWAYS CENTENNIAL RESULTS

More Texas highways are to be one of the substantial benefits to accrue from the Texas Centennial. Discussing this phase of the matter the McKinney Courier-Gazette says:

"The more State highways our State has in 1936 the more thousands of out-of-State visitors will attend the Texas Centennial celebration to be staged at the various historic places over the State. Nothing would advertise Texas more thoroughly with American motorists than concrete slab highways."

It may be remarked that the Highway Commission is thoroughly alive to this situation and has its plans made for an intensive year of road construction during 1935, as well as the beautification of all existing highways. The State department is co-operating 100 per cent in all plans for the Centennial.

COMMISSION'S PLAN NOW SEEN AS FEASIBLE

A celebration of the one hundredth anniversary of Texas independence in every sense worthy of the historic past, and in addition depicting the achievements of the people of Texas in a material way and forecasting the unlimited future possibilities for growth and development would cost in the neighborhood of \$15,000,000, according to the studied estimates of the Texas Centennial Commission.

Of this total sum it is expected that the City of Dallas, where the central celebration will be held, will put up approximately one-third in cash, besides property that was included in the offer made by representatives of Dallas. Another third is being asked of the present special session of the Texas Legislature and the

other third will be sought in an appropriation from Congress as the contribution of the national government.

When the full plans of the Commission were made public in Austin Monday, much of the opposition, based on misunderstanding and misinformation, began to lose much of its force. It began to appear that the backers of the Centennial idea, most of whom have been working for the past ten years without compensation of any kind and with only one object in view, were not visionary as had seemed on the basis of some of the criticism of the project.

When the Commission announced its plan to the Legislature two things happened. One was that it was shown that there was no purpose to embarrass the present general fund or in any way increase any deficits. The plan proposed is largely self-liquidating and whatever of burden there is connected with the tax levies proposed will be borne chiefly by the beneficiaries of a successful celebration and by patrons of amusements. Thus, in a very large sense the Centennial itself will be one of the largest contributors to the fund necessary to liquidate the investment made by the State of Texas.

The first practical friction matches were made in England in 1827. They were thin strips of wood cardboard coated with in 1827. They were thin strips ture of mucilage, chlorate of potash, and sulphide of antimony. Eighty-four of them were sold in a box for 25 cents.
