VOLUME III

GATESVILLE, TEXAS, FRIDAY, MARCH 15, 1935

## Coryell County News Changes Ownership Beginning This Issue

W. Mat Jones and S. F. Bethel, former employees of the Coryell County News, become joint owners of the popular local newspaper last Tuesday when a deal in the form of an outright sale was consummated between the buyers and Ayres Compton, former owner and publisher of the News.

According to Messrs. Jones and Bethel there will be no material nor change in either the personnel or policy of the newspaper. Beginning with this issue of the News the new management will endeavor to carry on with the original ideals of the county paper, "Giving Its Readers News While It Is News," and presenting in an unbiased manner that is both worthwhile and interesting.

The successors are well known in this section, each having lived in Gatesville for quite a while, during which time they have established a wide circle of friends. Both are experienced in newspaper endeavor, the evidence of which they intend to make plain in the columns of this paper.

Mr. Jones is the son of Mr. and Mrs. Willis M. Jones. He was born in Coryell county and spent the first 18 years of his life here, although he has spent a large part of his life since then elsewhere. He was graduated from Gatesville High School in 1922, and received his B. B. A. degree from Baylor University in 1926. There he completed courses in journalism and advertising and had one year practical experience as reporter on The Daily Lariat.

Mr. Jones has had several positions within the past several years. Among the concerns with which he has been associated are Clement Grain Co., Waco; Western Weighing and Inspection Bureau, Waco; The Texas Co., Port Arthur and Houston; Lago Petroleum Corp., South America; Houston Gas & Fuel Co., Houston; and the Dr. A. J. Armstrong Travel Tours, Waco.

In the Spring of 1934 and again in the Fall of that year Mr. Jones was instrumental in directing two very successful circulation campaigns for the

## What Is Going On in The State Legislature

By Rep. Earl Huddleston

I suppose that most of you people know, by reading the papers, that there is being proposed much legislation. The Legislature has been in session almost two months and up to date there has been something like one thousand bills introduced in the House and Senate. Bills have been introduced, which if enacted into a law, would affect practically every kind of business in our State.

I was of the opinion before I became a member of the Legislature that there was too much legislation, and since serving the time I have down here, I am more convinced of this fact than ever. I find most of the legislation being proposed here is in behalf of some special interest. Of course, there is some good.

I am trying to study these propositions and determine which bills are for the best interest of all the people. With the number of bills introduced, you can see that if a man passes on each one intelligently, he must of necessity put in a great deal of time studying the same; however, I think that is what the people elected me for and I am trying to do this.

I am especially interested in legislation which would take care of our unemployed, our unfortunate, and aged persons in the best possible way. I am also in favor of lightening the tax load which has been placed upon the people, if possible.

I am in favor of reducing poll taxes to one dollar (\$1.00); car taxes by one-third (1/3); and I am in favor of a lower rate of interest.

I am still fighting for an honest and economical administration of our State Government which I believe is one of the most effective ways of aiding the tax payers.

I am not in favor of placing any additional taxes on the small business man, farmer or laborer at this time.

I find that most of these schemes proposed down here, if put through, would do this very thing; so I have therefore consistently opposed all such proposals.

Several Constitutional Amendments have been proposed, and I intend to vote to let the people vote on those things which I think proposes to make radical changes in our government, because I believe that if changes are to be made, the people of Texas, themselves, should be allowed to make them.

I would be glad to have suggestions from any person in my district on any of these subjects which are before us in the Legislature. I feel that this is your government as well as mine; therefore, you have a perfect right and it is also your duty to have a voice in the same.

## Local Girls to Play Holt Team Sat. Nite; Comedy Games Wed.

Tomorrow night the local girls' team, with a few from over the county to strengthen the club, will take on the W. A. Holt girls' team of Waco. The Waco fems are rated as one of the best teams in the southwest. The locals who have made a record this season to boast of, will also be in top form for the contest after taking a rest since the A. A. U. Meet.

Next Wednesday night two comedy games have been slated for the evening. The local school faculty will meet a team composed of local business men. Such men as Fred Prewit, Geo. Painter, Jim McClellan, Bob Arnold, Jr., R. R. Anderson, P. D. Holt, and others will make up the business men's club.

Immediately following the men's comedy game, the women that make up the faculty of the local school will play a like team picked from over the county.

These games promise to be highly entertaining, and a large crowd is expected to turn out.

## JACK WOLLARD NOW WITH FORT WORTH FIRM

Jack Wollard, popular local salesman for Alvis-Garner Co. for several years, left the first of the week for Fort Worth where he has accepted a position as business solicitor with the Cascade Laundries.

Malcom Wollard, brother of Jack and former Gatesville boy, is manager of the Cascade Laundries.

I will have to take my hat off to Mr. Ayres Compton, former owner and publisher of the News. Speaking in behalf of the personnel of this office, Mr. Compton has been a swell boss, and may he be successful in whatever field he enters, is our wish. I also have to congratulate the new owners, Messrs. Mat Jones and S. F. Bethel, they are different from Ayres in one respect, that is, they are both "single," but I am also unmarried, so they must be O. K. Mrs. Carl McLendon and her handsome young son, Carl Sterling, seemed very happy over Mr. McLendon's returning home—Who Wouldn't. Buchie Wollard and Elaine Cross were seen chatting in front of the Gatesville Drug yesterday. I guess "boy friends" predominated in the conflag. One of Ewing's prominent citizens in W. G. Hord was seen in town recently, as well as a fine fellow from Pidcoke, Mr. Vess Newton.

## Signing of New Cotton Contracts Progressing

The signing up of new applications for contracts and continuing old contracts are well under way. Most community committeemen will be located in their respective territories to complete signing up of contracts in the field. It will be necessary for those who wish a contract or have not signed up the continuation of the old contract to come into the county office next week, March 18 to 23, in order to put their contract in good standing and receive payments for 1935.

All those cases where there has been a change of ownership or a change in managing share tenants or cash tenants, it will be necessary that all parties interested come to the county office to secure a change of legal status. All cases where there is divisions of a farm which has been covered by a contract it will be necessary for the interested parties to come to some agreement as to the division of the base production and sign such agreement, after which the county committee will approve the splitting of such contracts. A tentative dead line date for signing contracts has been set at March 23rd. Every farmer interested should see his committeeman or should contact the county agent's office.

## Appraising Corn Acreage

The corn-hog committeemen have begun appraisal of corn acreage of the corn-hog reduction contract and the farmers will be expected to point out the acreage which has been in corn for the last five years so that the coming week committeemen may make appraisals on such land.

## TO TAKE MOVIE TEST

Mrs. Dave Rubarth who resides near Arbett, and her daughter, Mrs. Fred Bentley of Oklahoma, left with Mrs. Bentley's attractive young daughter, Ann, who is only six years of age, for Los Angeles, California, recently, where Ann will take a movie test.

These people have many friends as well as relatives in this county that wish them much success in endeavoring to place this young lady in her hopeful endeavor.

## FORMER RESIDENTS IN CAR WRECK

Mr. E. E. Dickey of Fort Worth, enroute from Houston to Dallas with F. B. Bourland, also of Fort Worth were injured in a car wreck in Dallas according to information received here the thirteenth. Mr. Dickey was formerly a resident of this county and has a number of relatives here.

According to R. G. Dickey of Gatesville, the injuries Mr. received were not serious.

## Sunday Services to Close Anniversary at Presbyterian Church

By James M. McLean

The services on Sunday will close the week of celebrating the Fiftieth Anniversary of the Presbyterian Church. A large per cent of the membership has been in attendance, with a goodly number of friends and visitors at each service. Last Sunday, the pastor spoke on the "Church," emphasizing the faith, unity, fellowship, purpose and power of the Church. On Wednesday night, Rev. Stone-wall J. McMurry, D. D., of Barstow, and former pastor, brought a stirring message on Memorials and Anniversaries. On Thursday night, an historical sketch was presented followed by an hour of fellowship.

Dr. McMurry will preach again at 11 a. m., Sunday. It is the desire of the pastor and the officers of the church that all the members of the church be present. All former friends of Dr. McMurry are invited to worship with us. The pastor will speak at 7:30 Sunday night on "Looking Forward."

During the week, we have had letters of congratulations from the First Presbyterian Church of Waco and their pastor, Rev. C. T. Caldwell, D. D.; former members, Miss Doris Jones and Mr. and Mrs. C. C. Comer. Also a letter from Dr. Frank Forman of Waco, who is a charter member of this church.

We have been honored by having with us in person Dr. S. J. McMurry and his son, McKnight McMurry, also Miss Mollie Bishop of Austin, who is a charter member of the church.

Our purpose in this celebration, is not that we may congratulate ourselves, but that we might honor God and make our faith stronger. The church is no stronger than the membership. Therefore we desire to be better church members. We are better Church members when we put the calls of the church before business, when we put the calls of the church before pleasure, when we read the Bible every day, when we give God His own—one tenth of our income, when we never refuse to serve the church when he calls, when we are at every service, when we are anxious to bring others to worship with us, when we have consecrated our all to her work.

We are glad to welcome into our fellowship Mrs. W. H. Satterfield, who placed her membership with us last Sunday night. There are others living in Gatesville of the Presbyterian faith, who should likewise place their membership with us, that together we might honor God.

The public is most cordially invited to worship with us. You will receive a hearty welcome.

Briefly, since we celebrate St. Patrick's Day, Sunday the seventeenth, here's something about his career and the reasons for his being celebrated as a saint. St. Patrick was born at Nemthin in British-Roman province of Valentia in 396, died in Down, Ulster, March 17, 493. He was sold as a slave at 16 by pirates to an Irish Chief on the opposite side of Ireland, near Antrim. He served 6 years as a herder of cattle, escaped to France and entered a monastery, at Tours. Visited Rome in 431 and was sent the following year by Pope Celestine I to Ireland as a missionary. He personally baptized 12,000, established 365 churches and ordained a large number of priests. Wrote considerable, but only work of note is his "Confession" and a letter addressed to Coroticus, a Welch chieftan.

This is why, the great patron saint of Ireland, St. Patrick is celebrated, why people are "a wearin' o' the green," and they have the other symbol, the little clay pipe at the gay parties here and there during this time of year. Why 20,000,000 Irishmen in the U. S. and it is said all the New York Police celebrate March 17.

Coryell County produces any number of farm products of the vegetable plant life, also animal life, but another product entirely different has been discovered—a poet. Ireland, one of the progressive towns in this county has the distinction of furnishing the Poet-Laureate for the County. Mr. Walter R. Adams has made his mark as a poet and has received considerable recognition for the poetry he has written and the place he has attained among the poets of Texas and the United States. Needless to say Mr. Adams is due to even more recognition in his chosen field and as is known, he will be more and more widely recognized. Thus, Coryell County, if it may with Mr. Adams' permission, count poetry as one more of its many products.

## World Comment

By JOE BURNS

THE NATIONAL DEBT now stands at \$28,525,994,302—\$2,500,000,000 higher than last year. The deficit for the first eight months of the current fiscal year, which ends June 30, with a deficit for the same period last year of \$2,352,170,239. Although revenues have increased, so have expenditures.

It's not hard to understand why we have a huge national deficit when it is remembered that approximately 17,600,000 people are on the payroll of the United States. The Labor Department and the Civilian Conservation Corps showed checks went to 6,253,419 persons last month in a report to the President. In addition, the Agricultural Adjustment Administration had dispatched 11,075,117 checks to March 1, the Public Works Administration estimated 305,000 employed at the sites of PWA projects in January and government estimates of those employed on projects from direct congressional appropriation at 12,000. In all, it is figured that 20,000,000 people are dependent to the relief administration for sustenance.

THE REVOLUTION in Greece seems to be more a politicians' battle than anything else. Opponent of Premier Tsaldaris have been fighting stubbornly for more than a week for control of the government but at this writing it looks as if the revolt will be crushed. The rebels continue to hold many vital points and four battleships but loyal forces seem to be gaining control of the situation in the mountains of Macedonia where the rebels' main strength lies.

Former Premier Elutherios Venizelos, war-time premier of Greece and its "grand old statesman," instigated the revolt. Venizelos has been virtually a prisoner of the government on the island of Crete for several years. The former Premier's strength in Greece is well known and feared by the government. Venizelos is an ardent republican and the arch-foe of the royalists who hope to place former king George back on the throne.

Premier Tsaldaris and his adherents have been flirting with the monarchists for some time and for this reason Venizelos was forced to take up arms to defend his ideals. Now it looks as if the 71-year old veteran of many a Greek political war is fleeing for his life to Egypt, where he hopes to find a haven against the wrath of the victorious and angry Greek authorities.

The Greek revolution brought about a war scare in the Balkans if it did nothing else. The Bulgarians and Turks strengthened their forces along the Greek frontiers. The Bulgars and the Turks have held a hatred for years. At the present, however, no great concern is felt that the trouble in Greece will spread over the Balkans due to the pacific attitude manifested by both the Bulgarian and the Turkish authorities.

We notice from the Waco papers where fans are still commenting on the A. A. U. Meet held here recently. It was a great event, and local fans are to be commended on their support given the meet as well as school authorities.

The writer witnessed the game of basketball between the two all-county teams played in the local gym last Tuesday night. It was a great game, and the teams were evenly matched. McLarty, stalwart forward of the first team, played an exceptionally good game to be lying on floor half of the time. The first team won by some 8 or 10 points, but had plenty of trouble, the second string were leading by a narrow margin as the half ended.

Many have inquired as to what softball team they should play with this season. I hardly think the managers of the clubs will fight for a player, and some refuse to argue. They are too intelligent to fight, but something must be done. One or two teams seem to have the inside track on getting players while others have hardly enough men to make a club. Players that do not want to play with the same team they did last year, that is their business, but if men are going to play, and no reasons for desist last year, I think they are obligated to their original team. Softball is an amusement, and let's not form a personal prejudice against an opposing club.

Tomorrow night the W. A. Holt girls' team of Waco will make their debut here on the gym floor. The locals will be strengthened by having a few girls from over the county to play with them. I do not see what would be wrong in getting this little Whisenhunt girl of Plainview, and put her at forward with her sister, who is enrolled in the local high school. The Holt team is doped to defeat the

locals, but might have trouble with those two sisters throwing the pill in the basket from every angle.

Next Wednesday night there will be a couple of comedy basketball games in the gym. The intelligent school heads will be pitted against the "bay-windows" of the Hornet Club. Such fellows as Bob Arnold, Jr., Fred Prewitt, Pat Holt, Jim McClellan, George Painter, Byron Leaird, Jr., R. R. Anderson and others, will compose the business men's team.

Immediately following this game the women of the local school faculty will play a team composed of women teachers from over the county. Much fun is promised in both of these games, and a large crowd is ex-

pected to be on hand.

The local high school Track team seems to be receiving severe punishment from their coach, Doyle Baldrige. Prospects look good in track events as well as in the field division.

Evant, who was given second place, and Gatesville will enter the final elimination, which will be held during the county meet next week.

### Bookkeeping Class

The bookkeeping class, of which Coach Ewing is instructor, is very interesting. Although this is a new class, it has an enrollment of twenty-eight pupils. The class is working on a set of practice books now and hopes to finish two more sets by the end of school.

—Marjorie Ayres.

Eighteen lettermen, the two coaches, and Seth McLarty, manager, were awarded football sweaters in the High School auditorium Tuesday afternoon. D. Myers, Francis Rutherford, Harold Chamlee, Albert Dickie, James Scott, Joe Powell, Thomas Bone, Charles Ray, Ray Hinesley, Nathan McDonald, Seth McLarty, manager, and coaches Maurice Ewing and Doyle Baldrige.

### Tuesday Assembly Program

The Reverend Mr. Cunn-

ham, pastor of the First Methodist Church of Hico, spoke to the student body of the Gatesville High School Tuesday, Mar. 12. Mr. Cunningham was introduced by the Reverend Marcus M. Chunn, pastor of the local Methodist church.

Preceding Mr. Cunningham's address, the members of the girl's basketball team were awarded the cup for second place in the A. A. U. meet held here last week end. Winnie Belle Davis, the captain, received the cup for the team.

Mr. Cunningham told of some of his travels and used his trip through the observatory of the University of Chicago as the subject of his talk. He said that in life you must "Watch, Look, and Think."

—Lena Mae McCoy.

### Memory Books

A very attractive memory book for High School students has been made by Mr. Byron Free man. This book has a gray cover decorated in black and gold, the school colors. There is a small picture of a hornet in the corner. The book contains some very valuable information pertaining to the High School. It also has pictures of the three buildings—elementary school, the high school and the gymnasium.

There is plenty of space for other things students might want to put in, such as class officers, the faculty, school mates, photographs, autographs, sports, books and studies, commencement activities, parties and programs, and gifts.

In the back of the book is a very interesting history and description of Coryell County.

—Margaret Swindall.

### "Campus Lowdown"

Well, there isn't much adoin' around here since the A. A. U. gals went home. Wonder if A. C. Bates has more addresses than Joe Satterfield and Grady Dickie.

Si Blackstock got here in time for the tournament. He sure times his arrivals.

There's a guy in Temple who's

"That Way" about Jane Thomson—give him time—he'll learn better.

Heard that those feminine Hornet sharpshooters got rather "sore" at Seth McLarty and Joe Powell. Almost a rift but it's patched up now—we hope.

Heard Wendell Lowrey went to sleep in the bath tub. Looks like the novelty would keep him awake.

Not that we are not glad our representatives won the beauty contest but there was a knock-out from Rosebud who could certainly open your eyes. For the benefit of the few unlucky guys who didn't get her name, it's Irene Schiller of Burlington. She doesn't have a phone number.

Wonder how many girls will get football sweaters this fall! Wonder if "Red" McCoy will

keep her promise to Mr. Baldrige—about the smock?

**TEXAS HISTORY**

Tears streamed down the face of Mary Ann Brooks, who sat listening to her father read in a strained voice the last letter they were to receive, ever, from his son and her brother, John Sowers. Almost a month had passed since the Goliad slaughter of human beings. Chief Engineer John Sowers Brooks had died the death of his companions.

His letter, dated from Fort Defiance, Goliad, March 10, gave in detail an account of how the army had tried to escape the Mexicans. "It is said that Santa Anna designs driving all the Americans from Sabine . . . We have strengthened this fort very much, and he will find it difficult with his 1650 men to drive us from our post." In a postscript he begged his family for clothes and money, saying that he did not even have sufficient ammunition.

"I have not heard from home since I have been in Texas, and I am at a loss to account for your silence. You shall hear from me again as soon as possible. I am Aid-de-Camp to the Commandant here. Farewell."

Brooks had come to Texas from Louisiana in December, 1835, and became one of Fannin's adjutants. In the spirit of adventure and helpfulness he had joined the Texan ranks in the midst of their troubles. His letters have revealed the general sentiments of the Texans in the fighting army. They needed food, clothes, and ammunition. They needed encouragement. They had not even heard -- those men who died at Goliad -- of Texas' independence declaration of March 2. They knew nothing of the governmental affairs in their State. Letters from home were intercepted and the lack of news was disheartening.

That Brooks, Fannin, and the others had to die as they did was Santa Anna's fault. He alone was responsible for the deaths of those noble men. His orders had been given; they were not revoked. His attempts at justification were farce; the prisoners demanded constant watching and attention; they outnumbered the guards, and there were no horses to take them to Matamoros.

Bereaved kinspeople and friends could never do anything to equal the sacrifice those Texans made at Goliad. From that day forward immortal words of Texas have become "Remember the Alamo! and Remember Goliad!" The Texas Centennial Celebrations of 1936 will remember with due respect and proud commemoration the valor and honor of those who lived and died.

**IN MEMORY OF GRAND-MOTHER HILL**

Grandma Hill fell asleep Sunday evening, Jan. 24, 1935, at six o'clock. She was laid to rest in the Graham Cemetery Jan. 25th. At the time of her death she was 87 years old.

Lucy Ann Waggoner was born in Tennessee Jan. 23, 1848. She came to Texas with her parents at the age of nine. She was married to Richard Hill Jan. 9,

1868. This couple was a devoted pair for sixty years. They moved to Coryell County Jan. 25, 1871, and have made this their home ever since. There were thirteen children born to them, ten of whom are living.

Grandmother Hill was a true Christian. She laid on her bed of affliction three years. Never grumbling, she always had a smile and a good word for everyone. Grandmother always wanted to go home, and told her companions that everything was bright and clear to her. The writer sat by her bedside and heard her raise her voice, exclaiming, "Lord, Oh Lord, why do you let me stay here. Take me home and let someone take my place. She was patient and gentle and her heart was full of love.

Though she is lost to earth, Above she will be found.

As in Heaven the soul is given new birth,

At the throne Angels surround.

Why should we worry, Since God has thought it best

To take her soul from this earth,

Away to eternal rest.

Gardening is hot news these spring days even if the weather man is not offering all the co-operation possible. But come rain or shine or hail or blow, now is the accepted time if the home table is to be served with "garden sass," according to Extension horticulturist J. F. Rosborough, who adds darkly "just any old fish can swim with the current, but it takes a live one to go upstream."

He's all for Chinese cabbage for "greens" if you don't like spinach. Or even if you do. To grow it plant the seed in a hot-bed right now and transplant to the garden about March 20. Manure the ground heavily and set the plants about a foot apart. "Best flavor in the world, he claims, recommending the doctor if you don't agree.

Too many folks are having "bad luck" about the carrots coming up. The answer is to cover the seed only with a half inch of rotted manure. This will not pack and the tiny carrot plants have a chance to come through.

As for shelled beans he's for them and advise planting a few rows to mature on the vine, harvest and shell for winter use. There is a variety which can be used as green snap bean and dried too.

If the family likes cucumber pickles Rosborough says that the gardening partner of the firm had better plant a pickling variety. Two pounds of seed will plant an acre. Three ounces of seed will plant 150 hills and that is the number specified by the home industries specialist for a pickling.

Bastrop—By trading a bushel of potatoes for a closet door, and using lumber obtained by removing a wall from the hall of the house, Mrs. Tallie Pate, wardrobe demonstrator for the Pleasant Grove Home Demonstration Club in Bastrop county, made a clothes closet that cost only 33 cents in cash, according to Miss Dessie Hoerster, home demonstration agent. In order to obtain the lumber, Mrs. Pate remodeled part of the house. A storage room was made into a kitchen. One wall of the hall was removed, and the resulting room was converted into a bedroom. Mrs. Pat's closet reaches to the ceiling, is 23 inches deep and 48 inches wide. It is equipped with a space for quilts, a rod for hanging clothes, and shelves for storing folded garments.

Cleburne—At a cost of \$6.25, a new mattress was made and an old one renovated for Mrs. Creed Ownby, member of the Antioch Home Demonstration Club in Johnson county, by the members of the club at an all day meeting, according to Miss Agnes Roberts, home demonstration agent. Materials used for the mattress work included: ticking \$6, mattress thread 20 cents and sewing thread five cents. cotton put in the old mattress on the top and bottom of the a neighbor both planted wheat on the same day on adjoining farms of the same type land. Knight used a disk plow while his neighbor used a one way plow, and as a result Knight made 32 bushels to the acre while his neighbor made only 8 bushels to the acre. In 1934 Knight and a neighbor both planted oats on the same day. Knight made 76 bushels to the acre, while his neighbor who did not believe in deep plowing made 36. Knight uses mule power and allows the plow to go as deep as possible into the soil. Land prepared in this way holds moisture longer than land prepared in the ordinary way.

Edna—An average production of 13.5 eggs per hen for the months of November, December original lintners which was taken out and beaten by hand.

Mason—Sixty rose cuttings and 40 other shrub cuttings have been set out by Eugenia Gross, yard demonstrator in the Peters Prairie 4-H Club in Mason County according to Miss Leah Cox, home demonstration Agent. The cuttings are from six to eight inches in length and are taken from well matured wood of the last year's growth. Eugenia has also put out six root-eed shrubs around the house this year and has filled in the low places in the lawn with sandy loam soil mixed with fertilizer.

Archer City—Deep plowing more than paid for itself by increased yields during the dry years of 1933 and 1934 on the farm of W. A. Knight of Archer county, according to G. R. McNeil, county agricultural agent. In 1933 Mr. Knight and January, is the record of W. P. Malone, Jackson county poultry demonstrator, according to D. I. Dudley, county agricultural agent. The State average

production per hen for those three months is 10.66 eggs per hen. The flock of 200 white leghorns consumed \$78.24 worth of feed and Malone sold \$152.61 worth of eggs. All home grown feed is charged to the hens at what it would sell for. Five gallons of skim milk is fed each day for which he pays one cent per gallon to the creamery to which he sells butterfat from his farm herd of Jerseys. Malone does not intend to increase his flock materially but is now saving hatching eggs from which he intends to renew about one-third of his flock each year.

Lampasas—Sixteen pounds of wool were sheared last year from a two year old Rambouillet buck belonging to J. H. Crouch, a member of the Lometa 4-H Club in Lampasas county, according to W. P. Graham, county agricultural agent. Two years ago young Crouch bought the buck at A and M College. He now has a flock of the sheep started, and intends to carry on a shep demonstration under the guidance of the county agricultural agent.

Do you believe that back some 10,000,000 years ago your ancestry was a monkey or some such creature of moaning impulse?

Yes, I agree that if we had folks that long ago some of them undoubtedly were monkeys, as a lot of our people today make monkeys of themselves and the monkey type do not bother me as much as those who act like donkeys.

I am not concerned about a monkey. I look at at one when I see it and smile to think some people claim kinship to him, but as for me you can't link me up that way.

The devils is the sort of man I am afraid of.

### IN MEMORY OF OUR MOTHER MRS. BRASHER

A precious one from us is gone,

A void we loved, is stilled,  
A place is vacant in our home,  
That never can be filled.

God called her home to dwell  
with Him

In realms of bliss to stay,  
Where she will wait at heaven's gate

For us to come some day,  
The Angels bore our Mother home

In shining garments white.

And some sweet day we hope to go  
And join her over there.

### FRANK WILLIAMS HERE TO INSPECT FIRE DEPT.

Mr. Frank Williams, Fire Chief of Winters, Texas, and traveling agent for the State Firemen's Training School of the A. & M. College of Texas is on an inspection tour of various fire departments of the state and is here inspecting the local fire department along with Chief Roger Miller of Gatesville.

Mr. Williams looked over the equipment of the local department yesterday, and met with the firemen at the city hall last night for a discussion and recommendations.

Attendance of the local firemen at the State Fireman's Training School at Bryan has given the city a 3 per cent cut on the fire insurance rate, according to Mr. Miller, local fire chief.

**Called Out Wednesday**  
Wednesday evening about 8:15 the fire department answered two fire calls at Jim Caraway's house, colored. The fire was in the ceiling of the house and was put out with practically no other damage to the residence. The total damage was slight.

### County Poet Laureate Speaks to Bachelors

By C. H. McGilvray, Jr.  
Approximately 40 Roundtable Club members and guests were delighted Tuesday evening to hear Mr. Walter R. Adams, native poet of Ireland, Texas, read some fifty of his poems to them. Mr. Adams' poems were presented in two groups, the first consisted of serious poetry, the second dealt with light verse. The speaker selected a number of poems from his book entitled "The Dead Lie Down" and read several of his more recent compositions. His directness of thought and use of local color was very noteworthy. The audience was very appreciative of Mr. Adams' program.

Mr. Adams has been writing serious poetry for the past ten years during which time he has been rapidly gaining a wide reputation as a writer of verse. Much of his work has appeared

in periodicals over the country. He is a member of the Texas Poetry Society and has read before several schools, societies and clubs in this section of the state. Coryell county is indeed proud of such a remarkable son.
