Sidney Hollingsworth Of NCH Is Killed In Accident

Sidney Hollingsworth was killed Wednesday night at 11:20 about 2 miles west of McGregor when his motorcycle crashed head-on into a Nichols Bros. Transport Co. truck headed east and driven by Ray Smith.

Hollingsworth was killed instantly, one leg severed completely and thrown some 12 or 15 feet from the scene of the wreck. The other was bent back under his body and his foot was on the wrong side. A hole in his face, just under his left eye, was said by the State Highway Patrolmen to have probably been deep enough to have killed him instantly. Nearly every bone in his body was broken, they reported. His home is Spicewood, Texas.

A car belonging to Cpl. Naxh Bono of North Camp Hood was taken Wednesday evening at 8:30, and found Thursday morning at about 5 miles east of Gatesville on U. S. 84. It was a '30 Model A. Ford Coupe.

Charles Campbell was in a motorcycle accident on E. Main Street here Tuesday evening, when going around a car, he could not straighten up, and crashed into the curb. He is in the local hospital with "quite a blow on the right side of his face" but was reported Thursday morning as "doing alright".

Three little negroes, evidently on a Camp Hood bus, found or stole a pocketbook belonging to a lady from Detroit who was here to visit her husband, split the swag, and threw the purse away. Deputy Sheriff Eric Sharp and the bus driver recovered \$27 of the \$38 they had divided and the Deputy told them to dig up the rest, or they'd be put in the cooler. Not so quiet now!

FIRESTONE GETS STAR AWARD FOR WAR WORK

Gatesville Auto Supply gives the following articles as explanation for delay in securing merchandise for civilian consumption. It reads:

"The first in the rubber industry to receive the Army-Navy E for high achievement in war production, the Firestone Tire & Rubber Company added another honor to its list of government awards Tuesday with the announcement from Washington that it had received the White Star for continued maintenance of high output standards.

"The White Star, which the renewal adds to your Army-Navy Awards flag, say Undersecretary of War, Patterson, is the symbol of appreciation from our armed forces for your continued and determined effort and patriotism.

'G.I. JOE', WORLD WAR II NEWS-HUNGRIEST & 'READINGEST SOLDIER'

That's what Capt. John L. Scherer, A. C., says, and what he says is as follows: 'Were you to drop in at mail time at any of the global outposts where United States servicemen are now stationed, you would soon notice that after letters and packages from home the MOST POPULAR ITEM LOOKED FOR AT THE APO IS THE HOME-TOWN NEWSPAPER. Of course, the national magazines are popular, but the four, six and eight page News, Gazettes, Times, Citizens, etc., of the various home towns, are easily THE NO. 1 choice on the overseas service men's list of reading matter.'

Now, there you are, folks, we KNOW they want the NEWS, and as long as there's a scrap of paper left in the world, we think they ought to come FIRST, and for that reason, we're still sending their "home-town newspaper" to them. All you have to have is the price and a letter saying they want the "home-town newspaper" and the address. We'll do the rest. We KNOW how they like home news, and that's what we are trying to give them.

KEY ECONOMIST OUT

Handsome, platinum-haired Ed Stettinius, acting secretary of state, telephoned "Assistant President" Jimmy Byrnes, asked that he call a meeting of the War Mobilization cabinet to consider cancellation of war contracts where foreign countries are involved. Already various war contracts are being cancelled, and some of the cancellations, especially those involving the purchase of metals, mean breaking commitments to foreign governments.

Byrnes agreed, called the meeting. On the morning set Stettinius phoned again.

"We've got to call off the War Mobilization cabinet meeting," he said.

"Why?" asked the puzzled Byrnes. "Feis has resigned," replied Stettinius. "He's the expert on foreign war contracts." He was referring to Herbert Feis, economic adviser to the secretary of state.

"Well, can't you come to the meeting and present your views to the cabinet?" suggested Byrnes.

"No," replied Stettinius, "Feis is the only man who knows anything about the subject."

The special cabinet session was postponed.

Note: Herbert Feis, related by marriage to the late President Garfield, is a distinguished liberal economist appointed by Secretary of State Stimson under Hoover. His resignation was handed to Hull shortly after the resignation of Sumner Welles, at which time Hull began to sweep out liberals. When newspapers revealed this clean-out, Hull held up acceptance of Feis' resignation, left word that it be announced while he was in Moscow.

DIES COMMITTEE DYING

The Dies committee soon will release an interim report, listing the various Nazi and Jap groups which operated more or less openly in this country until Pearl Harbor under the names of tourist bureaus, trade associations, etc.

It will be prosaic, less sensational than previous reports, with a back-handed slap at the administration for permitting such things to happen.

Employees of the committee are bemoaning the report's mildness. Committee funds are getting to the point where the house must be asked for more, but maybe the dough will not be forthcoming unless Dies can throw the house something far more sensational.

The only thing sensational that forthright Martin Dies can drag out now concerns Communist influence among the Negroes, and he hesitates to do this, fearing nationwide repetition of the Detroit race riots.

WHEAT UNCERTAINTIES

Though no announcement has been made, inside word in the agriculture department is that wheat farmers will get a loan price of 90 per cent of parity, which is a 5 per cent increase over this year.

Officials recognize that something attractive must be done to increase wheat plantings. As it looks now, plantings are going to fall below the high goals set by the government—an acreage increase of 14 million over this year.

This year farmers had the 85-percent-of-parity loan, which acted to support the price, plus both parity payments and conservation payments. But congress has knocked out parity payments for next year, leaving a margin of uncertainty as to whether wheat will bring as much as flax or grain sorghums, or some other crop.

Planting is now well along in the winter wheat belt, but it is reported to be a slack planting. Never has there been so much demand by farmers to know what the price is going to be. And the official answer is still withheld.

And when the announcement is made, it will be a loan figure of 90 per cent of parity, whereas farmers would like to have 100 per cent, to make up for the loss of parity payments.

comes at a time when there is a greater demand for wheat than this country has ever known. In addition to the tremendous demand for wheat for flour, 450 million bushels have been used for animal feed in the past 12 months, and still more will be needed for the same purpose in the next year. And beyond that, the government has pledged another 50 million bushels for foreign relief.

All this explains why the gates are being opened again to imports of wheat and barley from Argentina, for the first time in quantity since the drought years.

Dear Friends:

Just a few minutes ago the Senate finally passed the Connally Post War Resolution by a vote of 85 to 5. I think this is an important step toward the maintenance of world peace.

The House has been engaged in a bitter debate over the Deficiency Appropriation Bill most of this week. This bill involves supplemental appropriations to a number of government agencies. It totals \$166,000,000. The largest single item is for War Housing. There are also large sums for the Public Health Service and the Federal Security Agency, but one of the largest items is \$21,000,000 for the Bureau of Internal Revenue. Of course, this is to enable the Treasury to collect the new taxes.

Speaking of taxes, the Ways and Means Committee has made little progress on a new tax bill. That committee is, of course, confronted with a very difficult problem. Everyone feels that he is paying too much tax now. At the same time we all know that unless we want to pass a large part of the money cost of this war on to the very men who are now fighting it, we must pay a larger portion of the cost now. Every time we borrow a dollar, we must pay it back with interest. Generally that means that we ultimately pay back 2 or 3 dollars for each dollar that reaches the Treasury. We all recognize that you cannot pay the entire cost of a great war by current taxation, but we should pay as much of it as we can in that manner. It will cost us less in the long run, and of even more importance at the moment—taxation is the most effective method known to check inflation. We are sometimes told that our taxes are as high as those of Great Britain.

It is true that in some high brackets we doubtless take as large a share of the individual's income as does Great Britain, and, of course, we collect much more money than does Great Britain because our income is much greater. We do not, however, take anything like so large a percent of the total national income as does Great Britain, and until we do, we cannot, as individuals, claim to be paying as much taxes as the British.

Roughly we may say one third of the national income of the United States is taken in taxes, where as over one half of the national income of Great Britain goes into taxes. I hope that it will not be necessary for this country to take 50 percent of everybody's earnings in taxes, but I think that we should recognize the necessity of paying more taxes. I know that it is supposed to be 'bad politics' to advocate taxes, but I believe that our people are smart enough to realize that it would be lots better for them to pay taxes now while money is more plentiful rather than to postpone the evil day until unemployment and depression is on us. I, for one, cannot approve the policy of waiting until after the election next year to deal with the tax problem.

Neither do I think that we should try to avoid the high cost of living by passing it on to the next generation through a system of subsidies paid from money secured by the sale of War Bonds. The President is known to favor food subsidies. Early this week he sent Congress his longest message urging subsidies in order to keep the cost of food down for the benefit of industrial workers. Later in the week the Secretary of the Interior agreed to accept John L. Lewis' demands for an increase of \$1.50 per day for the mine workers. I don't know what miners should receive but I know that even at their old wage and even at the present "high" cost of food, a miner need only work approximately 1/3 as long to buy a pound of beef or butter (both of which products are now subsidized) as he had to

And, I know that today the average industrial workers spends a smaller per cent of his income for food than at any time in history. In the face of these facts I cannot bring myself to believe that it is necessary for the government to pay a part of my grocery bill or a part of John L. Lewis grocery bill.

In any event, I know that it never pays to try to appease any hijacker. I know that it is always a mistake for a government to yield to force if it has the power to resist the force, and I still believe that the United States is bigger than John L. Lewis. I therefore feel that it was a terrible mistake to surrender to Mr. Lewis or even to deal with him until the miners had returned to work. I fear that we will reap very serious consequences of this action. It is sure to encourage other groups to strike in the expectation of being "bought off." I don't think America should try to appease our enemies at home or abroad.

Yours for Victory,
W. R. POAGE

WARTIME SAVINGS SUGGESTIONS
for Electric Appliance Users

Nine Ways to Operate Your Refrigerator
More Economically and Efficiently

- Defrost whenever frost reaches thickness of 1/4-inch. Frost acts as an insulator—makes the motor run longer.
- Do not open door oftener than necessary—and close it quickly.
- Do not maintain colder temperature than necessary—40 to 42 degrees is safe.
- Do not overcrowd shelves. Circulation is needed for efficient refrigeration.
- Cover all liquids. Moisture drawn to freezer speeds formation of frost.
- Avoid quick freezing as much as possible.
- Keep condenser coils free of dirt and dust.
- Do not store hot foods—let them cool first.
- Oil open unit models periodically according to manufacturer's directions.

Uncle Sam Says:

Waste of anything in wartime is a crime. Don't waste electricity just because it isn't rationed. Wasting electricity involves a waste of fuel, transportation facilities, manpower and critical materials needed elsewhere in the war effort. Use all the electricity you need—but need what you use.

Services

On Sunday morning as you sit in church and see the vacant places in the choir and wonder where the war has taken the young people from your community you may feel certain that they are attending divine services if circumstance permits.

Chaplains and choral leaders are found on the larger ships and even aboard in the Army centers. Millions of hymnals have been distributed to the men and women of all services and you may rest assured that a portion of the savings you are placing into War Bonds is used for their spiritual welfare.

COMMUNICATIONS IN WAR

Sixty-five percent of the world international communication telegraph traffic is handled by cable, and 35 percent by radio.

The War and Navy Departments transport overseas more than 50 million pieces of mail a week.

The United States sends about 4,000 short-wave programs of news propaganda, and entertainment a week to various parts of the world.

To keep government agencies and the armed services informed of the contents of foreign broadcasts, the Foreign Broadcast Intelligence Service of the Federal Communications Commission covers about 2,500,000 words a day, summarizes and digests the broadcasts, records the more important of them, translates them from 35 or more languages and dialects, and sends them to the government departments concerned.

The United States has approximately 26 1/2 million telephones, 17 million of them in residences. Approximately 5 million telephones belong to the 6,300 independent telephone companies and the 60,000 rural lines; the remainder to the Bell system.

We are sorry to report that Miss Orlean Latham is not doing any good. She was carried to the hospital in Temple Sunday.

Mrs. Bennie Franklin and Rev. and Mrs. G. L. Derrick visited Mrs. R. P. Williams who is in the hospital at Gatesville, Monday.

Mr. and Mrs. Paul Whit and son of Gatesville were visitors in the home of Mr. and Mrs. Robert L. Miers Sunday.

Dinner guests of Rev. and Mrs. G. L. Derrick Sunday were Rev. G. A. Jackson of Clifton.

Visitors in the B. J. Franklin home were Mr. and Mrs. Alvin Huckaby, Everett Hollingsworth, Mrs. Lollie Hollingsworth, and Mrs. Joy Derrick.

Mr. and Mrs. Jack Latham accompanied his sister to Temple Sunday.

U.S.O. Activities

Most of the news items the USO Club has been giving out for the past eighteen months have been concerning some special event where there were several concerned. In the heart of the USO are many interesting human interest stories which are never told. They are not really news but there have been so many that we give you a few of them here in the hopes that it will give a little clearer picture of what USO really is.

Baby baths are quite ordinary occurrences in the USO. Travel worn babies are often bathed while the mother is waiting at the club until a home can be located for them. On one occasion, due to hot water difficulties, a baby was bathed in the kitchen sink.

One of the regular and much used features of USO service is transportation to and from the government hospital in Temple for the wives of service men. Most of these cases have been maternity cases and in most cases plenty of time has been allowed for the trip, but on one occasion the USO janitor was forced to rush an army wife to the hospital running a dead heat race with the stork and winning by only about five minutes.

On one Sunday evening a slightly inebriated soldier was overheard using a USO telephone. He was making every effort to explain to his superior officer why he was late to camp. Upon being questioned as to his whereabouts he very positively stated that he was at the "C.I.O."

Hundreds of weddings have been arranged. One Saturday night a couple, for whom a wedding had been arranged, announced at a rather late hour that they had neglected to get a room. Every possible clue was searched to locate them a room, but in vain. USO closing time came and they spent their first wedding night in the USO Powder Room.

When a certain battalion of all New York fellows arrived here everybody knew it. Altho many other battalions have come and gone this one made the deepest impression on the whole town. Among other things, our mailing service was flooded with boxes of horned toads sent back to New York. These boys had a lot of stories and they didn't mind telling them. Among them was that as they were crossing the Texas line a porter came through the train telling them. This was at 6 o'clock in the morning and many of them got up and dressed ready to get off the train. They arrived at Camp Hood at 3 o'clock the next afternoon.

One girl reported an armadillo on the Terrace. Her husband had written her about the soldiers finding armadillos in Texas and the queer hard shelled backs from which baskets were made. She was sure she had found one so we went to see. It was a horned toad.

Of all the dollars spent in making a worthwhile program for the fellows, the most appreciated at the time was a 15c bottle of ammonia used to relieve chigger bites.

Recently at a very early hour the Director was awakened with a call that he had a "Death Message" at the office. He hurriedly dressed and nervously tried to decide in his own mind just which one of the USO Staff's near relatives had died as there were several who had illness in their families. When he finally reached town and tore open the star marked telegram he read, "Shipping Manhunt, General Died at Dawn Unobtainable Films Incorporated."

Farm News

Mrs. Theo Copeland and Mrs. Stewart Williams have been meeting requirements this week of the R.O.P. by having their turkeys pullorum tested and certified for production by Dr. Boney, George McCarthy and Mr. Weatherby of the A&M Extension Service.

These ladies are doing an outstanding piece of work in producing high class baby beef turkeys. R.O.P. means record of Production. Dr. Boney was blood testing each bird for pullorum disease and Messrs. McCarthy and Weatherby were selecting for certification only the outstanding breeders.

Mesdames Copeland and Williams have a contract to sell turkey eggs to the Trask Turkey Farms of Black River Falls Wis. at 35c per egg. Their record of fertility for 1943 was the highest for any egg producers supplying this dealer and he thought enough of his Texas producers to visit them this summer and offer them a good contract for 1944.

The turkey business as these ladies have demonstrated is a

science and calls for careful study of all the phases of proper housing, sanitation, management and diet.

Their business and it is truly a good business deserves the highest commendation of the Chamber of Commerce and others interested in seeing Coryell County produce the best in everything.

"Emcing" Camp Hood Shows With Soldier Comedian

Cpl. Sammy Lillibridge is shown here as Master of Ceremonies for one of the Camp Hood Shows, featuring talent from Camp Hood itself. pl. Lillibridge, a member of one of the Camp Hood bands is

also author of "Hilda Alive", a story of Carnival Life, which has received considerable notice in the press of the nation, and in the show business in general.

the only thing that is here at this place. I'm going to see if I can find him for as long as he is from old Gatesville we should get along O.K. together. Well, Mat, I'll sign off and get a little bunk fatigue (sleep). Hoping to receive the News again soon.

Cpl. John M. Woodson.

Aleutians, Iceland, and even sunny (?) England are just about the same as far as—no, they don't have climate—it's just plain weather in those places. And, they complain about Texas weather! Thanks, Johnny, for your good letter.

—★—

No. 2 is from Cecil E. Moore, and he's in another cold place, Northern Ireland. They don't know what it is to roll up their sleeves, take off their ties and be comfortable, as we know it here in Texas. Always, they wear coats of some character.

Cecil says: 'I have changed a lot in the last few months. I am now in Northern Ireland. We made it O.K. It rains a lot here. I like it O.K. I guess I will get settled sometime. They sure do change me around a lot. I met another Coryell county boy here. Do you know any of the boys in England or here? I sure wish I had their addresses. I might run on to them. Hope all is well by now. I guess I am a "Papa" by now. I hope so anyhow. The people are a lot different here. I never got sea sick, but a lot of the boys did. All is well here.

As ever, Cecil E. Moore.

Wish I could tell Cecil whether he's a papa or not, if it's a boy or a girl, and how the "Mrs." is, but imagine he knows all this by now, if the "event" has happened, and anyway, we offer our congratulations and will save our advice until Cecil comes home. As for the addresses, we can't tell from the addresses of boys we have whether they are in what country. They just say some APO and that's about as near as we can guess at it. Keep watching the News, Cecil, and as the letters come in, we'll let you know, if possible, that way.

November 10, was the U. S. Marine Corp's 168th Anniversary. They must be good to last that long, and everybody knows THEY are the Best.

Marines are the oldest branch of the service, and thru all these years have been "first to fight" and have always "landed and had the situation "well in hand". Ma-

rine spirit is incomparable. We had one working for the News. He was solidly a MARINE. He enlisted before he was old enough, was discharged, and then went back for more. That's the Marine Spirit, and that was Cecil Quick-sall. He talked it, he lived it, and he IS A MARINE. No one could fail to pay tribute to such a body of men as the U. S. Marines.
