

Lotsa "Tape" To New Farm Program: Some Like, Some Don't: 23,136 A's

Coryell County, at least, on paper, didn't do so badly with the 1950 Cotton Allotments, just released. Here's the score:

1947 Acreage, 23,950 acres; 1949 acreage, 25,000; 1950 allotment, 23,136; which shows the farmers "o/" only 814 acres, and that ought not to be so terrible.

Allotment notices are expected to be mailed the 10th, and a nationwide referendum will be Dec. 15, to decide if the farmer wants or don't want a marketing quota.

If they don't vote for 'em, the allotments will be in force; also, growers who stay within individual planting allotments will get price support at 50 percent of parity. If approved, they'll get 90 percent.

There's a lot of details not worked out yet, or released by the local PMA, which was formerly the ACA and prior to that the AAA.

Two Charged With Armed Robbery At Corsicana

DALLAS, Dec. 5. (AP)—Charges of armed robbery were filed in Corsicana today against two men captured in Dallas a few hours after a pair had engaged in a running gun battle with an off duty Corsicana officer.

The two were listed as Robert Leeham and James Scrivener, both of Dallas.

The two surrendered to Dallas officers after a chase on the Garland road.

They were held in connection with a \$1000 holdup of a Houston food store Saturday night and the \$133 robbery of a Corsicana drive in last night.

Evidence of A-Bomb To Russia In 1943

WASHINGTON, D. C. Dec. 5. (AP)—Senior Investigator Louis J. Russell said today the House Un-American Activities Committee has evidence of three shipments of Atom Bomb material to Russia in 1943.

He said he has no information that the late Harry Hopkins was connected with it in any way. Former Air Force Major G. Raay Jordan in a radio broadcast Friday said Hopkins was instrumental in shipping such ingredients to Russia.

Still One Out; Mauser

Last report, there's still one GSSB boy they're looking out for, 34 of the 35 are back. This'n's out with a German Mauser rifle with a variously reported number of clips. Was last seen close to Price Green's, where he's alleged to have gotten the rifle. One was out Friday a. m., 4 Friday p. m. and one of this 5 still out.

Haven't heard late "run" reports.

New Well Spudded In Saturday Night On Whatley Place, Pearl

The second of recent wells to be drilled in Coryell County was 500 by Otha Pohnson, attended spudded in Saturday night on the Whatley place and is known as the T. M. Perkins, No. 1, with C. T. King, production foreman for Amerada Oil Corporation.

The new location is about 6 or 8 miles south of Pearl, and Sunday night, they were down about two drill stems, and drilling was relatively easy.

Humble may Drill Too

Watt L. Saunders, tells the News Monday morning, Humble Oil & Refining will drill on a location near Moccasin Bend, and will move in right away.

J. Lee Billberry was the Humble official contacted, and Tom F. Peity is the geologist. There might be lots of these "Christmas Trees" in the future. Old Santa Claus really comes, when a well comes in.

Old Age, And Buildings Fall in On South Side Last Thursday

Thursday night the A. H. Meadows and part of the J. O. Brown buildings on the South Side of the Square fell in, their roofs, that is, and part of the back walls.

Cause is unknown, unless it was just plain old age. Workmen had been "scotching up", but in spite of that, they didn't stay "scotched".

Thursday morning the Blackstone Cafe sold to a new owner, and Friday morning, the new owner was closed. The Meadow building was unoccupied, but the Brown building had the cafe, and Walker Summers' Babber Shop. The roof of the Brown building didn't extend over the Barber Shop, at least, that that fell.

If you didn't see any of the damage done by bombs during WW I and WW II, you can get a rough idea from the back of these buildings.

The Texas Poll The Statewide Survey of Public Opinion By JOE BELDEN, Director, The Texas Poll

AUSTIN, Dec. 3.—Eight out of every ten adults think it is a good idea to give everybody in Texas a blood test for venereal disease.

This is the finding of The Texas Poll in a statewide survey measuring public interest in the campaign against syphilis and gonorrhea. The survey indicates wide spread interest among all classes in the population, but especially among women and persons in the higher educational levels.

The fight against syphilis and gonorrhea which are among the leading communicable diseases in this state, has just been given a boost by Governor Allan Shivers in his proclamation of December 4-11 as "Better Health for Texans Week".

"Methods of diagnosis and treatment are at hand to prevent the unnecessary suffering caused by these diseases," the governor pointed out. "All that remains now is to induce the citizens to take advantage of present day knowledge."

survey units, offering blood tests to volunteer citizens.

Seventy interviewers for The Texas Poll put these two questions to a representative cross section of adults in all parts of the state:

1. "Have you heard or read anything recently about the amount of venereal disease in Texas?"

All adults	36%
By sex:	
Men	32%
Women	41%

By Education:	
Adults who finished high school	42%
Adults who attended but didn't finish high school	37%
Adults who never attended high school	27%

2. "Would you favor a program by the State Health Department to give everybody in Texas, including yourself, a blood test for venereal disease?"

All adults	82%
By sex:	
Men	81%
Women	83%

By Education:	
Adults who finished high school	87%
Adults who attended but didn't finish high school	85%
Adults who never attended high school	73%

Last year in Texas more than 47,000 cases of syphilis and gonorrhea were reported to the State Health Department. The total higher than any other communicable disease, excepting influenza and measles.

Two new laws to help stamp out venereal disease were enacted by the Texas Legislature this year. One requires both man and woman to have a blood test before being issued a marriage license. The other directs doctors who examine pregnant women to test them for venereal disease.

Miss Barbara Norman To Become Bride Of William K. Sadler

An announcement tea honoring Miss Barbara Norman of Killeen, bride-elect of William K. Sadler, was given by her mother, Mrs. D. N. Norman, at the Wednesday Re-view Club Home, Friday, November 25, from 3 to 5 o'clock.

The approaching marriage of Miss Norman to William K. Sadler, son of Mr. and Mrs. C. K. Sadler, of Gatesville, on December 25, in the First Methodist Church in Killeen, was announced by a floral arrangement of white mums shaped to symbolize an engagement and wedding ring.

Gold and white ribbon streamers bore the legend, "Barbara and Bill, December 25."

Sixty-eight guests registered in the guest book over which Mrs. Ralph Levy, a member of the house party, presided. Other members of the house party were Mrs. Margaret Young, Mrs. Lee Peebles, Mrs. T. H. Norman, Mrs. Ben Norman, Mrs. Jack Levy, and Miss Sue True served tea, coffee and sandwiches, and petit-fours to the guests.

In the receiving line were Mrs. D. M. Norman, mother of the bride to be; Miss Norman, the honoree; Mrs. C. K. Sadler, mother of the groom to be; and Mrs. Morgan White, matron of honor.

The honoree was wearing a copper satin ballerina-length dress with a shoulder corsage of rolled white bladiolias. The bridal theme of white and gold was carried out in the club floral decorations of white and gold chrysanthemums and bronze and gold mums.

Out-of-town guests attending were Mrs. Wade Sadler, and Mrs. Garland Anderson, of Gatesville; Mrs. Glenn Wood of Houston; Mrs. Joe McGuffy, Waco; and Mrs. J. D. Collins, Arlington.

Bridal Party is Named For Norman-Sadler Wedding

Attending the couple will be Mrs. Morgan White, matron of honor; Harvey Becon, Jr., best man, both of Killeen; Miss Alice Langford of Lampasas, bridesmaid; and Carol Norman, sister of the bride, junior bridesmaid.

Ushers will be Bobby Norman, brother of the bride, and T. W. Norman, Jr., cousin of the bride. Jane Sadler, sister of the groom, and Cynthia White, daughter of the matron of honor, will light the candles.

AP ALL-SOUTHWEST CONFERENCE TEAM

Quarterback Doak Walker of Southern Methodist and two Rice Stars—James (Froggie) Williams, and Joe Watson, center—were

unanimous choices of the coaches for the All-Southwest Conference football team. Kyle Rote, pile-driving SMU half back, lacked only one vote of making all the selections. Rice, the conference champion, and Baylor, the run-

ner-up, each placed three men. Williams, Watson and Tackle Ralph Murphy represent the champions. Baylor has End J. D. Isom, Guard Don Mouser and Quarterback Adrian Burk. TCU, like SMU, placed two—Quarterback

Lindy Berry and Tackle Harold Kilman. Lewis (Bud) McFadin, giant guard-tackle of Texas, made the other guard post. All members of the first team are seniors except Kilman, McFadin and Rote who are juniors. (AP) Photo.

Wanted: Men and Money!

There are two chief ingredients in the American recipe for prosperity and economic well-being. The first is men, honest-to-goodness men. These must be men who are not afraid of work, who will not be stopped from getting a job done. They are men who believe in honest work, who give value for value received. They have pride and satisfaction in doing a good job well. Indeed, our American workmen (there are today few Americans who do not work) have no equal anywhere.

Then there is money. Money is the most popular exchange for work. We "make" money. Therefore, we can say that money is stored-up work. Another name for this stored-up work is capital. We Americans have found that if we take money and men, then let them both work together for full production, the result is a prosperous and progressive community. In the main, the recipe needs good workmen and plenty of capital.

Use the Recipe

The formula has worked wonders for us. Our nation has benefitted by having so many good and honest people. By using the tools that capital has bought, we produce the things that all of us need. Will this formula continue to work us wonders and bring us the kind of prosperity that is the envy of the world? Can we keep these good living standards that seem so commonplace to us? Yes, if we can depend on the ingredients of our recipe: men and money! In a nation of free people, men and money can continue to do the job.

We have the men. Employment is good. Yet, there is danger that we may lose the other half of the team that has made America great. Money (Capital) to buy the tools of production is getting hard to find. Since 1930, America's stock of tools has gradually slipped back to where it was in 1920. This is the first period in our history that we didn't gain in the tools of production. Our tools are of less total value, and they also provide fewer horses (horsepower) to workmen.

A Nation's Builders

Now, if we had no men of vision and promise, we certainly could not expect the money to do its part. But we do have men. America has intelligent young men, willing to build their dreams into realities.

What need have they with money? You see, "harebrained" ideas, like Alexander Graham Bell's telephone, require money for development. New products, new manufacturing processes, new inventions, new businesses—all must have capital. In a free economy that permits competition, capital works hand in hand with men to give the nation the jobs and the goods that it needs and wants. Men and money!

Join the Team!

In losing the money, there is also danger of losing the men. Inventiveness and ambitions may be killed, when rewards are not available. If we do not have capital to invest, to explore new developments and new businesses, with hope of larger profits ahead, then what happens to your men? They don't invent, and they don't develop anything! No new jobs, no new products, no progress. No getting ahead. It's national suicide.

Why is there so little money today for investment and risk? Our tax system puts heavy burdens on incentive. Taxes take away the money. Twenty-five cents out of every national income dollar in America now goes into taxes. Half the total income of Americans making \$5,000 or more annually is turned over to tax collectors. With strict economy in government, this would not be necessary. We must give risk-money a real chance to team with men. Only that way may we keep America prosperous and jobs plentiful.
