

In-Service
Workshop

School administrators received a complete review of one of the modern problems facing schools, drug abuse, during the In-Service Training program this week. Tuesday afternoon the school administrators from five counties received first hand information from a recent high school graduate convicted of drug violations as part of a lecture conducted by Bell County Deputy Sheriff George Moore and Vernon McKensy of the Temple Police Department. Pictured above McKensy (left) points out identifying marks on a marijuana plant to Jonesboro Superintendent P. T. Lemmons (center). At the right in the picture Deputy Moore displays a water pipe confiscated in a narcotic raid.

County Schools To Open Monday

Coryell County students will be getting off to an early start this year as the six schools of the county open their doors Monday morning, August 24 will be the earliest date that the area schools have begun their classes. Copperas Cove officials are expecting to enroll the largest student body for that system with 3,000 students anticipated for the fall semester. Evant's school system is expecting about 210 students when classes resume Monday. According to principal Grady Baker, buses will run on schedule Monday and lunches will be served. Oglesby schools will begin their fall semester at 8:10 Monday morning. Lunches will be served and buses will run as before. The Oglesby

system has added air conditioning to its list of improvements for the new year. Jonesboro's superintendent P. T. Lemmons anticipates 180 pupils for their twelve grades this year. The system will also have full operation underway Monday. Mound school will open its doors to an estimated 30 students Monday. This system operates with grades one

through six. Principal for Mound is Mrs. James Bruce. Here in Gatesville, the three schools will open their doors to an estimated 1850 plus students. The figures are expected to vary only slightly from last year's total. Don Edwards, elementary school principal, expects 750 students in grades one through five this fall. In the junior high system 480 students are expected in the three grades. Glenn Whittenberg is principal at the junior high. High school's principal, Sid Pruitt says the enrollment for the 9th, 10th, 11th and 12th grades will be slightly over 600. This week, approximately 600 teachers from five counties met at Gatesville's Junior High for an "in-service" program. The meet included general morning sessions and afternoon specialized workshops. The aim of the "in-service" is to update the classroom teacher's knowledge of subjects and teaching methods. The Region XIII Education Service sponsored program will draw to a close tomorrow for local teachers. The main group of instructors from Waco and area counties joined Gatesville teachers Tuesday and Wednesday. The full week of "in-service" will be experienced by teachers throughout the state at their respective schools. Superintendent of Gatesville Schools, L. C. McKamie reports that all teacher vacancies have been filled. New teachers include Mrs. Carman Cabos, Spanish; Miss Marsha Whitlow, freshman English; Charles Anderson, Charles Ferris and Ronald Ray, coaches. The local system will join other schools in the state in observing the Labor Day holiday September 7th.

Sheriff Windy Cummings noted that the teenagers were picked up breaking into four residences and one business firm in Gatesville. Cummings noted that many small break-ins were involved with oldest offense occurring over a year ago. HOSPITAL BIDS TO BE OPENED

Commissioners Court will open their second set of bids Monday at 10:00 a.m. for the proposal additions and renovation to the Coryell Memorial Hospital. Originally the bids were opened on August 13 but at that time a legal technicality caused all bids to be thrown out. Low bidder at the first bid opening was K. A. Sparks, Construction Inc. of Hamilton with a bid of \$75,336 and 200 calendar days for completion. Judge Norman Storm has indicated that following the Monday bid opening an effort

will be made to complete contracts talks with a favorable bidder and begin work on the improvements as soon as possible. The Hospital improvements project calls for addition to the surgical, OB, and X Ray facilities at the County Hospital. Time warrants will be issued for the payment of the cost. Estimates of total costs including new equipment are \$105,000. Commissioners have also advertised that time warrants totaling \$150,000 for purchase of right of way along the proposed route for the Highway 36 East Loop.

Hornets Fit-Fiery But Ragged In Opening Drills

Mondays opening drills for the 1970 Gatesville Hornets was ragged but Varsity and B-Team athletes reportedly were in the finest early physical condition ever according to Head Coach, Jack Moss. The Moss lead Coaching

staff all seemed surprised at the physical condition of the team. Moss did note that fundamental football was ragged but understandable after the summer vacation. "The mid season form is not there of course but our

boys are already running hard" he said. Watching the fumble drills and play practice the inexperienced eye can see enthusiasm in the players and coaches already. In the Hornet offensive and defensive line there is also this top condition fast developing talent. From last years battlefield Randy Scheonewolf, Mike Mathews, Terry King and Larry (Bull) Harrington return to positions in the trenches. Joining these returners will possibly be Tray Tatum, Jerry Lee and Richey Thompson along with two other complete seven-man fronts. Fans probably don't notice line play as much as the flashy ball handling runners but in the real football circles linemen are the key to football success. Coach Moss noted his three deep situation this week with both relief and concern. Relief in that he has quality personnel at all positions to meet emergencies. Concern over evaluation of talent playing his athletes for developing purposes. Presently there are no sophomores on the varsity squad. Moss noted that sophomores can win a spot on the varsity but the present crop of juniors and seniors will be relied upon most of the season. The B-Team this year will have good talent throughout the team and Moss expects his B-teamers to get valuable experience over the 10 game schedule. "This year marks the first year that we have not needed all our talent on the varsity" said Moss, "and consequently our B-Team will be stronger and more sophisticated." This year 13AAA teams and the non-district foes will face offensive threats from a starting backfield with Ronald Brown and Ray Ortega, halfbacks, with Chris Bone at

Jim Saunders sets up for a pass during two-a-day drills as the Hornets began their bid for Class AAA honors. Saunders, a junior, will lead the Hornets along with Steve Brazier this season at quarterback. The Hornets have possibly the most well rounded team in a decade this season. see HORNETS page 8

Keith Blackman of Gatesville found out that Old Number 55 is a high flyer. Above Blackman has everything under control as the dangerous bull kicks his hind legs over eight feet in the air. Blackman was unable to hang on for the eight second trip during the Youth Rodeo Saturday night.

SCHOOLS OPEN
DRIVE CAREFULLY

Tell It Like It Is.

Let's set the record straight. Tell it like it is. The recent threat of a law suit by a group of Gatesville Independent School District taxpayers against the School System is not an effort to destroy the bond issue and federal funds. A suit would have that effect however, and the school board will be the determining factor in whether a law suit is filed. The fact is that many of the persons behind the threatened law suit actually voted for the bond issue. For one, I actively campaigned for the bond issue. It seems ironic that city people in Gatesville have not rallied to support the threatened suit because for many years you have been discriminated against by school tax evaluation policies. With taxes increasing each year and a \$.25 per \$1.00 evaluation increase for 1970, it seems only right to me that the taxpayer scream long and hard for equal taxes for all citizens. Every tax raise like the most recent increase by the school board has the effect of magnifying existing inequalities. In the budget hearing of the school board it was evident that large sums of money were not at the disposal of the school system and the budget had no padding in it at all. At one point a budget was considered that would carry the schools only to next June before funds ran out. All this means that a truly competent school board would not allow gross inequalities to exist on the tax roll. The present school board took charge of tax policies this year and by their action allowed 457 unqualified properties to remain unchanged. Their action to raise the maintenance tax by \$.25 magnifies the unbalanced tax roll. If it comes down to who is destroying a school system, it appears to me that a quick check of the tax roll would answer any taxpayer's question. The tax roll is public information and any taxpayer can see another taxpayer's valuation. A law suit would be a tragic thing for our school system. You ask the school administration and school board if they are going to let one be filed. A final consideration for you taxpayers should clear the air. The group threatening a law suit attended a regular meeting of the school board and registered their complaint. The complaint requested actions from the school board so as not to force legal action. (That is the American Way.) The complaining was not a coffee break or secret meeting. Speaking as a member of the group, I prefer school board action to equalize taxes instead of a law suit. School board action is the key to the problem.

National Forest Recreation Permit May Be Obtained

The new National Forest Recreation Permit may be purchased at the local ASCS office, County Director Clois D. Stone advises. The price of the permit, good for the entire year, is \$7.00.

This is a new type annual permit that allows individuals or families to use facilities in National Forest and Grassland Recreation Areas. The permit is good for an entire family or carload of people and partially replaces the old Golden Eagle Passport. However, this permit applies only to areas operated by the Forest Service, whereas, the old Golden Eagle Passport covered other Government facilities in addition to those operated by the Forest Service.

Revenues from sales of the permit go into the Land and Water Conservation Fund which is available to the Forest Service, when appropriated by Congress, for use in outdoor recreation areas. The new permit is actually a users' fee in National Forest and Grasslands which normally make no admission charges as such. Typical services and facilities that the permit will cover are camp and picnic facilities, bathroom and locker use, boat-launching facilities, and other marina equipment in some cases, and guide services.

The permit will not necessarily cover all user fees, because some are special charges that do not come under normal usage. At campgrounds where the daily user fee is \$2 or more, the permit will have a \$1 credit toward the campground fee.

Special service fees such as locker rentals, boat rentals, and electrical hookups at campsites may not be covered.

On Thursday evening the choir and a singing group from the Live Oak Baptist Church will be bringing special music. In addition, Johnny Anderson a weight lifter and a candidate for the Mr. Universe title from California, will be giving a demonstration in weight lifting and sharing his witness for Christ.

On Friday night the youth choir from the First Baptist Church will be assisting with the congregation singing as well as providing special music. Wayne Shirley will be leading the singing each evening.

The people of Gatesville are urged to follow "The College Crowd" to the community wide Church services for three nights this week.

RALPH YARBOROUGH'S WASHINGTON REPORT

Saturday, July 25, I addressed the yearly national convention of the Former American Prisoners of War. The convention was held this year in Wichita Falls.

There are 73,000 surviving prisoners of war in the United States, most of them from World War II, but some from World War I and 3200 from the Korean Conflict. Many of these former prisoners are living normal, productive lives, no different than other men of their age. But others have special problems of illnesses and disabilities because of their long confinement and near starvation. Some of their needs have been met through special veterans programs, but not all and not enough. We in Congress are working to see that the needs, particularly the medical needs, of these men are taken care of along with the medical needs of other veterans.

The personnel records of many of our former prisoners were lost when the men were captured or destroyed then. Also, we do not have the medical records for these men for the time they were in enemy prison camps and no record of the injuries they

suffered then. This has made it very difficult for these former prisoners to get proper disability payments. I am the co-sponsor of a bill to end some of the injustices of disability payments to veterans. One section of this bill to end the injustices of these disability payments deals specifically with prisoners of war. Under the current law, when a man has been wounded in combat and later has been disabled, it is presumed that the disability came from the wounds. We extended that disability section to the men who were held prisoners in the prison camps of the Philippines, Japan, Manchuria and on the Burma Road, American were worked there too, in Vietnam, Korea and other places.

But while we are working to meet the needs of former prisoners of war, we are greatly concerned about the men now being held in North Vietnam and in Vietcong captivity. The Department of Defense estimates there are 458 men being held captive in Vietnam still alive. The Department lists 987 men as missing and many of these may be in prisoner of war camps.

The men in these North Vietnamese prison camps are getting subhuman treatment. I recently signed a letter, along with 88 of my colleagues in the Senate, which was sent to the Premier of North Vietnam. In our letter, we demanded that these United States prisoners be treated in accord with universal, humanitarian principles.

Last year, the Senate passed a resolution which I supported, calling on North Vietnam to follow the rules for the humane treatment of prisoners of war as spelled out in the Geneva Convention of 1949. Not only do we demand that North Vietnam give our men humane treatment, but that they release the names of the men captured and allow them to communicate with their families.

Not enough has been done for the men held prisoner in North Vietnam and not enough is being done for their families. A significant step toward peace would be an exchange of prisoners on both sides.

Men now being held captive and the men who were prisoners of war in other wars deserve all the consideration and attention that we, as a nation, can give them.

GERBER GOOF-UP AT POUNDED ROSA... Whew! Am I tired!?! Last weekend proved to be quite interesting for this city-gone-county girl. We were fortunate to have our nephew, Russell Paul Erskine for his first weekend visit--minus mom and dad, Carolyn and Norman Erskine of Marlin. The Erskines, along with our other Marlin relatives, Mr. and Mrs. Paul O. Jund and Aunt Jean Holze, attended a baseball game Saturday at Houston's famed Astrodome. Friday evening the Erskines (all three) were guests at the P.R. for a pleasant over night stay. I was equally glad to welcome four Jones kids to the P.R. Friday night for an all too brief stay. You guessed it--Tressia, Jody and Bobby, (Joe's bunch) and Bobby, Jan's 11 year old. We really had fun with our Jones-Erskine nursery. As the Erskines (just 2 of 'em) drove out of sight, I'm sure husband David knew his duties were numerous with three month old Rusty "snoozing" at that quiet 6 a.m. hour. I had already gone to work with much fear about the diaper day to come.

With a feeding schedule taped to the refrigerator--a schedule complete with time, what to feed, and burp (in that order) inscribed neatly--who could miss! By my shift, David had all under control. At Rusty's three o'clock feeding, he was "supposed" to go to sleep--need I say more. Keeping baby happy while sterilizing can really get tough. Of course for a "pseudomom" I was terrible. When sterilizing Rusty's infa-feeder (a miracle plastic syringe that shoots the oatmeal into the mouth fast enough to keep the walls to a minimum) I found the clear plastic section was not for sterilization--so there I was with a warped infa-feeder and a hungry infant! Have no fear, Rusty didn't go hungry--we spooned and wailed through the Gerber oatmeal.

Sunday the pseudomom rested after the bouncing Erskine boy left Saturday night. At least until eleven o'clock when the Jones kids, Tressia, Jody, Bobby and Bobby returned for a whole afternoon of fun at the farm. All in all the weekend was (in a word)--educational.

JANNA LA DAWN COLE BORN... Mr. and Mrs. Alvin Bernard Cole of Flat joined the ranks of parents Tuesday when their first child, Janna La Dawn, was born at 3:09 p.m. in Scott and White Hospital in Temple. The new arrival weighed in at eight pounds even and measured 20 inches in length.

Little Janna has a host of grandparents smiling those "grandpa and grandma" smiles. Maternal grandparents are Mr. and Mrs. Emmitt Blackman of Flat, Mr. and Mrs. A. F. Cole of Flat are paternal grandparents. Great-grandparents who are equally as excited about the birth are Mrs. Estelle Blackman of Gatesville, Mr. and Mrs. S. J. Barnard of Mound, Mrs. F. R. Cole of Mound and Mr. and Mrs. Roy Bird of Flat.

Dad Alvin "Barney" Cole is a carpenter in Austin. We at the NEWS extend hearty congratulations to the Coles--all three of 'em!

BIRTHDAY WISHES FROM WASHINGTON... Mrs. Bettie Hinesley of Gatesville received birthday congratulations from Washington D. C. this week. Congressman W. R. (Bob) Poage extended his congratulations on her 98th birthday. The letter is reprinted below.

Dear Mrs. Hinesley:

Recently I read that you had been honored on your 98th birthday and I want to extend my belated but warmest congratulations. It must have been a delightful occasion when your children and other relatives came to honor you on that special day.

If I can be of service to you at any time, it would be my pleasure. With kindest wishes, I am

Yours sincerely,

ONE ROLL TOO MANY?...Now don't get excited, this is no diet plan to loose that ugly tire around the middle. This brief is dedicated to those housewives that have one or more rolls left over from meals.

Why not turn stale rolls into a gourmet's delight by making them taste-tempting dumplings. Here's how you do it. Cube 5 hard, stale rolls and fry them in 8 tablespoons of shortening with 1/2 onion (minced) and finely chopped parsley. When crisp, pour a mixture of 1 egg, 1 cup milk, and salt over the cubes. Add 8 tablespoons of flour and stir everything together into one big ball. Drop into boiling, salted water and cook for about 10 minutes.

If dumplings aren't your "thing" then how about garlic toast. Slice the stale rolls in thin bread-like slices. Butter the rolls and sprinkle lightly with garlic.

HOME DEMONSTRATION REPORT

by Wanda Brown, Agent

If your freezer stops, don't panic but get into action, advises Mrs. Wanda Brown, Coryell County Home Demonstration Agent.

The first thing to remember is to keep your freezer closed. How long the food will stay frozen depends on the amount and type of food in the freezer. A full freezer will stay cold many hours longer than a freezer only a quarter full. Meat will stay frozen longer than will baked food. Also, the larger the freezer, the longer it will stay cold.

Twenty-five pounds of dry ice should hold the temperature of a half-full, 10 cubic foot freezer below freezing for two or three days. Put heavy cardboard directly on the packages of frozen food and then put the dry ice on top of the cardboard.

For added protection, cover the freezer with blankets, quilts or some other covering. It will also help to put some crumpled newspaper or ecelsior between the cabinet and the blankets. Don't cover up the air-vent openings because the power may come on unexpectedly and ventilation will be needed, she warned.

If the freezer will be out of operation for more than three days, take frozen foods to a locker plant as soon as possible. Thoroughly wrap the food and make the trip from the freezer to the locker as quickly as possible.

If food has partially or completely thawed before you discover that the freezer is not operating, you may refreeze foods if they still contain ice crystals and are still 40 degrees F or below. Meats and poultry become unsafe to eat when the color or odor is poor or questionable. You should get rid of them, she warned. The condition of vegetables, shellfish and cooked foods can't be determined by odor so if in doubt, get rid of them also. Don't use melted ice cream since milk products spoil rapidly.

Refreeze thawed food quickly, and it is wise to run your freezer between 10 degrees and 20 degrees below zero during seasons when power failures may be frequent.

Miss Claudia Permelia Peays Is Bride Of William Fred Chaney In Evant

Miss Claudia Permelia Peays of Bee House and William Fred Chaney of Midland were united in marriage on Saturday, August 15, at 8:00 p.m. in the Evant United Methodist Church. Reverend Bobby Weathers of the First United Methodist Church of Brownwood performed the double ring, candlelight ceremony.

Parents of the bride are Mr. and Mrs. T. A. Peays Jr., of Bee House and parents of the groom are Mr. and Mrs. W. E. Chaney of Midland.

The vows were exchanged at the altar flanked with greenery and baskets of white gladioli, baby's breath and white stock. Two pairs of candelabra holding 28 white tapers and intertwined with greenery, rubber plants and other plants decorated the sanctuary. The organ was adorned with an arrangement of spring roses, carnations, chrysanthemums, starburst and stock. Mrs. Ken Moseley, soloist, sang "O Perfect Love" and was accompanied by Mrs. Ludie Nell Thompson Evant, who presided at the organ for the traditional wedding music.

Given in marriage by her father, the bride chose a formal gown of white organza. The gown, fashioned in empire silhouette, had a wedding ring neckline, full long sleeves and an A-line skirt. Venice lace flower motifs detailed the neckline, bodice, skirt and sleeves. Organza ruching with lace insertion formed bands down the front and back of the gown and outlined the cuffs and hemline. Wide satin ribbon defined the high waistline. Her detachable train was accented with lace insertion motifs matching that of the gown. A small peau de soie bow applied with lace held the bride's shoulder length veil of English silk illusion.

She carried a white Bible presented to her by her church on graduation from high school. Her bouquet was attached to the Bible and was comprised of spring flowers, baby's breath, sweetheart roses, daisies, pink and white carnations with yellow starburst encircling a white satin bow. The bride passed to give her mother and the groom's mother a long stemmed red rose as she walked down the aisle. The bride carried out the tradition of something old, new, borrowed and blue. Something old was a handmade handkerchief belonging to the groom's mo-

MRS. WILLIAM FRED CHANEY

ther, and her mother's wedding ring. She wore a white gold watch given to her by the groom and a blue garter fashioned by an aunt.

Matron of honor was Mrs. Dale Haynes of Kerrville, sister of the bride. Her dress was of pink organza with an empire waistline and long full sleeves. The floor length skirt slightly gathered at the high waist and featured a full length panel of embroidered lace daisies trimming the front of the dress. A deep collar and cuffs were fashioned of white rayon with a linen look. Identical white rayon repeated on a band that encircled the waistline and ended in a bow with long white streamers. Her fitted headband was an arch of robed pink tulle bedecked with pink carnations. She carried a white basket of daisies, white and purple chrysanthemums, yellow starburst, baby's breath and greenery. Bridesmaids were Miss Marilyn Green of Evant, cousin of the bride, Miss Laura Maud Ratliff, and Miss Laura Maud Ratliff of Garden City, Bridesmatron was Mrs. Ken Moseley of Izora. They wore floor length gowns of pink organza identical to that of the matron of honor. Their headbands were patterned of pink tulle and carnations.

STRENGTH FOR THESE DAYS
From The Bible
And God saw everything that he had made, and behold, it was very good.—(Gen. 1:31).

In Genesis we find that there was a plan of order in the creation as envisioned by the inspired writers of this book. Order is basic to the foundation of man's world. Divine order in our human relations makes us a harmonious, contributing part of our world. Let there be divine order.

HOME BUILDING, PROGRESS NEEDED

A decent home and suitable living environment for every American family—the goal of federal legislation enacted two decades ago—is still far from reality.

To help speed progress toward the objective, artificial barriers to residential construction should be removed, and private industry encouraged to swing the full force of innovative technology into home-building.

In many areas antiquated and obsolete building codes insist on needlessly exact specifications and inappropriate standards. Outmoded regulations need to be replaced with "performance-type" codes which permit the use of new methods and materials. State and local ordinances should be modified to encourage modern technology in construction. Unions should be urged to abandon restrictive work practices.

In order to increase available credit for housing the way could be opened for the Federal Mortgage Association to deal in conventional mortgages.

Home ownership, in the best American tradition, must be encouraged as the foundation for happy families and community progress.

Glycerin Now Used As Preservative For Foilage

Foliage for arrangements during the winter months, may be preserved now by using glycerin. The leaves of many plants may be used from the garden, Mrs. Wanda Brown, County Home Demonstration Agent, notes.

The procedure is simple. All you need to do is stand the stems or leaves in a mixture of one part glycerine and two parts water.

Midsummer is a good time to get started on this project. The leaves will be in an active stage of growth and will rapidly absorb the glycerin. This usually takes about two to three weeks, she added.

Many kinds of leaves may be preserved by the glycerin process. Magnolia, oak, peach plum, eucalyptus and popular leaves are satisfactory. Of the shrubs, try barberry, forsythia, sumac, privet, rhododendron and rose leaves. The leaves of many perennial herbaceous plants may be used such as aspidistra, canna, coral bells, geraniums, iris and devil's ivy. Leaves of small herbaceous plants may be submerged completely in a half and half glycerin-water solution.

Select only perfect specimens and wash the foliage with water to remove dirt or spray residue. If the material has woody stems, cut off the lower inch with a sloping cut before starting the treatment. Then stand the stems or leaves upright in a jar of the glycerin solution.

The leaves will change color as the solution is absorbed, and good air circulation and warm weather will speed up the absorption.

Wipe the leaves occasionally with a cloth dampened with the solution as this will help prevent drying before the glycerin reaches the edge of the leaves, Mrs. Brown said.

Leaves preserved by glycerin should be stored in boxes to protect them from damage and dirt. Check the boxes frequently during the first few weeks to be sure there is no leakage from the leaves which might cause mold.

HIGHLIGHTS AND SIDELIGHTS... AUSTIN, Tex. -- Soaring state budget requests led the Legislative Budget Board to urge all agencies to hold spending in 1972-73 to essentials.

Gov. Ben Barnes, Board chairman, sounded the warning that a "critical financial condition" looms which demands "economy-minded" government.

In a letter directed to state agencies, Board advises that an early date on where fat can be trimmed from their appropriations requests.

"Reluctant" fat trimmers should be invited back for a

second hearing before the Board, Barnes said.

Requests submitted reportedly exceed the expected income for the 1972-73 biennium by more than \$1 billion.

Estimates of the amount of the 1971 tax bill which will be needed to support adequate services for state agencies in the face of expanding demands still range from \$350 to \$700 million.

Some ranking legislators fear a revenue bill of that magnitude will be virtually impos-

sible to pass in view of the fact that law makers voted \$350 million in new taxes only last year.

Budget Board's recommendations on spending usually are more conservative than those finally adopted by Legislature. However, they serve as a take-off points for the House Appropriations Committee and Senate Finance Committee deliberations.

AUTO INSURANCE DELAY -- Texas motorists got a hint of good news: they may escape a raise in auto insurance premiums altogether this year.

Charles D. Mathews, a member of the State Board of Insurance, raised hopes of that in testimony before the interim Senate committee studying rates.

Mathews also predicted the Insurance Board will come up with a rate formula that includes company income from investments, a longstanding point of debate.

"I think the companies may be sorely disappointed in the Board," said Mathews. "We may not get around to an auto rate adjustment in 1970. There are just so many hours in a day."

Company spokesmen earlier indicated they were hoping for a 15 to 20 per cent hike this year. A delay in insurance Board hearing dates made postponement of any increase until after November 1 virtually inevitable. A 9.9 per cent hike was granted last year.

Critics of a further increase told the Senate Committee that rates went up twice as high as the general cost of living in the last decade. Some recommended group coverage on auto insurance, WELFARE OVERHAUL PROPOSED -- Senate Welfare Reform Committee has recommended a sweeping overhaul of the system, including placing responsibility for Public Welfare Department administration in the hands of the governor.

At the same time, Committee endorsed a proposal that Welfare Department elec-

tronic data processing equipment be totally updated under a private contract to save manpower, time and money.

Study panel proposed abolishing the Texas State Board of Public Welfare and substituting an advisory panel to the governor. Also the name of the agency would be changed to Department of Human Resources under Committee recommendations to be submitted to the Legislature next January.

Computer experts estimated new electronic data processing could save the state an addition of 2,600 people in the Welfare Department at a cost of \$8.5 million a year.

In the second day of hearings, Committee was told that administrative costs alone of the Medicaid program were \$11.6 million in Texas during less than three years. Committee recommended an "experienced executive having an insurance background" be employed to coordinate Medicaid functions now scattered among several branches of the Welfare agency.

SPECIAL OIL MEETING ORDERED -- World oil crisis and Hurricane Celia prompted a special meeting of the Railroad Commission this week (Aug. 10) to reassess August oil allowance.

Commission earlier had set the market demand factor at 62.9 per cent for August which would produce about 3,220,518 barrels of oil daily.

Since that action, Commission Chairman Ben Ramsey said, some companies have indicated a desire to buy additional Texas crude. On the other hand, said Ramsey, Hurricane Celia complicated movements of crude from South Texas and some West Texas fields to tidewater.

Commission invited crude purchasers and transportation executives to its Monday (August 10) meeting "to assess effects of Hurricane Celia on the movement of crude, as well as the logistical problems of moving crude from other Texas areas to Gulf Coast and to markets elsewhere."

WHEN AUTUMN BLOWS OUT THE AUGUST FIRE... What a lovely month August is. Even with the 100 degree plus temperatures, this sunny month has its own beauty. August, that's when good ole autumn starts toning down that thermometer to at least less than the century mark and the school bells ring over Coryell County and the State.

The 1970-71 school year will begin for most of our county schools next week and leave those summer toys idle in many a backyard. With the ringing of school bells, comes the dangers of hundreds of pedestrians on our city streets. The morning hours from 7-9 and from 2:00 to 4:00 p.m., Gatesville's children will be en route to or returning from schools.

Each of us must take the responsibility to SLOW DOWN in our school zones and watch for those little guys and gals. Remember, that's Gatesville's future leaders carrying those lunch pails and skipping along.

Another activity at the pool this month is a party to be held Monday evening the 24th, from 8-12 p.m. for youth going back to college. The pool party will feature a band and refreshments. A small admission will be charged for the college students and their dates.

a spectator looks back at it and classifies the entire rodeo as...fun.

O. Girls Goat Tying? It is a riot. This writer watched one girl almost tie herself with the goat. Some of the graceful dismounts are fun to watch but really the most fun is watching the Girls Steer Riding.

The gate opens and a thin little steer jumps into the arena half running and half jumping with a thin little girl straight armed and holding on a rope while she leans back on the steer. For six or less seconds the pair looks like a pogo stick rapidly and rigidly bouncing down the arena.

O. If you have not played the complete 18 holes at Gatesville Country Club and LTC Camp Cottonwood, you should hurry right out and play the course before I wear it out. It is great.

O. Of course, I have not seen many Cottonwood trees.

O. Dean Patterson has transferred to the Gatesville Independent School District from Jonesboro Rural School District and he will be touting the old pigskin for the Hornet B-Team this season.

Patterson, at just over six feet and 200 pounds, will have a future on the Hornet varsity.

O. The unusual sporting events of the year must include last night's donkey baseball match between the Jaycees and the Jonesboro team.

O. Gary Kafer is possibly the top athlete of all times at G.H.S. His consistent performance at the high jump and coolness in competition are his trade marks. With still one season of high school athletics, he can probably be one of the few high school jumpers to ever clear seven feet. Kafer is a dedicated athlete and works hard at his track event.

O. Hornet two-a-days have taken their first casualties this week as the first thing to go was fine coaches voices. Coach Moss has a roar like a bass-voiced blue bird and with the other four as back-up voices, they sound like the Jackson Five.

FUMBLE DRILL ... All running backs and ball carriers receive a helping hand in the drill pictured above. Coaches have set their backs busting through padded dummies and then ten or 12 boys try to tear the ball loose as the runner advances through the line. Above Chris Bone takes a trip through a drill.

O. This year on Thursday night, follow the district's best B-Team. History has held a low place for B-Teams, but this year you can see some very fine football from the once forgotten boys. Gatesville will be developing next year's "new faces" on the B-Team battlefield.

O. B. Jim Smith has impressed coaches as "hard nosed", "he will hit you and you will know it"; and "he is a head hunter." It sounded like last year's head knocker George Thompson was back. Of course, Smith does not play the same position but a head knocking from any position helps make a winning team.

O. B. Quarterbacks at Gatesville will be tops in the district this season as Jim Saunders and Steve Brazier did their understudy work last season. Both boys have good passing arms and both can handle the

fullback. Coach Moss will have at his disposal other talent from Billy Hord, a meat grinder with good speed; Larry Moore, a speed merchant at anytime; Phil Bone and Steve Palmer, quick and hard runners; and James McCarley and Robert Tilly, still untested talent.

Quarterbacks at Gatesville will be tops in the district this season as Jim Saunders and Steve Brazier did their understudy work last season. Both boys have good passing arms and both can handle the

ball in the high pressure situation of the Texas Wishbone offense.

Saturday night fans will get a first hand look at the 1970 Hornets as the annual intersquad Black-Gold game will be played. Coach Moss noted that his Black and Gold teams would oppose each other with the White and B-Teams being split up equally for the match.

The coaching staff will split off between the two squads but the football instructions will not end for the sake of scoring. In previous years punts and kick-offs have been omitted and the same policy will control this year's scrimmage. Each team will have the ball on offense for two 20 minute periods during the scrimmage.

Coryell County's two Class B football powers began pre-season drills this week at opposite ends of the football dream.

Oglesby entered camp with 14 athletes, 9 lettermen and a crop of five seniors for the strongest chance to win district this year. Coach Gary Fox is slow to predict his team's future but other football guessers definitely see a play-off for the Tigers.

The Tigers were beaten in Regional last fall by Aquilla and the red and white will be hoping to revenge the defeat.

Seniors returning to the Tiger team are Willie Leos, Don McKelvain, Mike Robinson, Charles Vandiver and Stanley Peveto. Leos and McKelvain will be the 1970 Tiger captains. Other bright prospects for the Oglesby team are Joe Guerrero, Johnny Gomez and Stanley Everett.

Coach Fox will face competition from Buckholts and Llano. The season opener for Oglesby is at home against Star on Thursday, September 10.

The Jonesboro Eagles have been hit by graduations and transfers this season and the outlook for the Eagles is the weakest in recent years. Coach Bill Dyer has three lettermen returning and only one top star performer, Ray Martin.

Fifteen boys did report for drills this week and Coach Dyer is one of the best at pulling a group of boys together to win ball games.

David Holden and Robert Woods will see plenty of action this season for the Eagles. Michael and James Young are also part of the Eagle plan for 1970.

Coach Dyer's Eagles open against Iredell in a road game on September 11.
