Bro. Taylor asked this question Sunday night to the forty-one who attended this rally? "Was this the nost enjoyed Sunday afternoon that you have spent in quite a while?" With one accord, hands went up all over the congregation agreeing with this statement.

Bro. Farmer asked the audience to ask questions concerning training union work and he gave the nswers. In addition to this he ask ed for testimonies as to what training union meant to the individuals He received a splendid response. At one time three people were on

the floor waiting to be heard.
In remarks, made from time to time, Bro. Farmer pleaded with the churches to give the training union its rightful place, as one of the most useful of all the church organizations. He stated that bet ter than 48 per cent of the individuals who joined our churches were soon lost. Why? Because they are not properly trained to become more mature Christians. This is the chief function of our training unions. "Training to Serve." Our local training union brought home the banner for having the largest number in attendance at
