HICO, TEXAS JULY 29, 1955.

NUMBER 12.

STRING BAND—"Country Rhythm Boys" are scheduled to appear on Thursday night's program at Hico's 69th Annual Reunion. Organized last year at De Leon, the boys will play western and hill-billy music at the park pavilion at 8:00 p. m. The string band has played at several surrounding towns and will perform at De Leon's Peach and Melon Festival August 11-12. The band consists of, from left to right, Burton Henry, drums; Slim Swiney, electric guitar; Herman Hardin, twin steel guitar; Alvin Frazier, rhythm guitar and vocal; Vardie Huff, bass violin; Loyd Hardin, rhythm guitar; Pee Wee Hardin, fiddle; and Gail Broughton, piano and violin. Reunion Manager Weldon Pierce is enthusiastic over being able to add these performers to one program during the four nights of the Reunion, and invites the public to come out and hear the program free of charge.

Prizes Totalling \$140.00 Offered Parade Entries

Baptist Revival at Plainview Church Will Start Aug. 5

Announcement has been made of a Baptist Revival to be held at the Plainview Church near Chalk Mountain, beginning Friday, August 5 and continuing through August 14.

Both morning and evening services will be held.

The meeting will be conducted by the pastor, Rev. C. W. Johnson, and he will be assisted by his son, Rev. W. B. Johnson of Woodrow. Song services will be under the direction of Mrs. Pauline Jackson. A cordial invitation is extended to everyone to attend these services.

Traditional Parade Will Be At 6 P.M.

In an effort to stimulate more interest in the 69th Annual Reunion Parade, prizes have been added considerably this year to bring the total to \$140.00.

The parade, which will be at 6 p. m. on opening day of the Reunion, has drawn many entries in past years, and officials expect even a larger number to participate this year.

Broken down into divisions, prizes will be awarded as follows:

- Decorated Float, First, \$65.00
- Decorated Float, Second, \$25.00
- Decorated Float, Third, \$10.00
- Best Decorated Car, \$15.00
- Best Comic, \$10.00
- Best Horse & Rider, \$10.00
- Best Bicycle, \$5.00

LETTERS from Readers

Dear Editor:

We see from your paper that the Hico Reunion will be August 3, 4, 5, and 6. As we know, the Reunion is an institution. To us who live here or have lived here. When we was a small boy it was called the Ex-Confederate Reunion. But in later years it has been more or less regarded as a homecoming and we believe this to be its proper function. Many people who once lived in or near Hico have migrated in search of greener pastures while people of a more sedate nature have remained near the old camp ground and are trying to the best of their abilities to keep the camp fires burning.

We beg to remind former Hico-ans who went out into the big world that time and changes, as in far places has operated here too. The horse-drawn wagon is obsolete, the horse-back rider is rarely seen, the rough, rutted, winding trail, (sometimes called a road) is here no more. The open fire place to our younger generation is a curiosity from a past age, a dasher churn can be found only in a house of antiques, we don't ride 20 miles on horse-back to invite a friend to a party any more (telephone is the modern medium). We have autos with better paved roads which with radio and TV have eliminated distances as we once knew them. Some of the results are quite obvious; the country church with its brush arbor is gone as is the little brown school house and the country store. We tune in on radio or TV to see or hear the world's news and entertainment instead of driving a slow moving wagon 20 miles over an almost impossible road to see and to hear William Jennings Bryan

Iredell and Dublin Even Play-Off Series In B. V. League Play

By LEON LEWIS

Well, Iredell and Dublin took the second game of the play-off series, and by the same score. Iredell defeated Granbury 13 to 2, and Dublin won over Hico by the same 13-2 score. Smith pitched all the way for Iredell, Gibson all the way for Granbury. Nooncaster went all the way for Dublin, while Hico worked three different twirlers.

There were large crowds at both games.

Next Sunday finds Hico at Dublin and Iredell goes to Granbury for the third game of the best 3 out of five games. If you are not seeing these games you are missing a treat. So don't forget—it's at Dublin and Granbury for the third game of this season's play-offs. Go see these games—back your home club.

Rev. J. L. Jones of Comanche to Preach at Congregational Church

Rev. J. L. Jones of Comanche will preach at the Hico Congregational Methodist Church Sunday morning, July 31.

Everyone is invited to come out and hear him. The church will not have services on Sunday night, July 31, but will all go to the Dublin church, where there will be a Fifth Sunday Youth Rally.

Every one is invited to go to these services.

Wesley C. Fisher, Member of Pioneer Family, Buried at Dallas

Funeral services were held for Wesley C. Fisher, July 23, at Dallas. Mr. Fisher passed away at the home of his daughter, Mrs. Martin Kelsey, of Dallas on July 22.

He is survived by three sons, Russell of Los Angeles, Calif.; Barney of Dallas; Guy W. of Midland; one daughter, Mrs. Kelsey, of Dallas; one brother, Roy Fisher of Mineral Wells; and ten grandchildren.

Mr. Fisher was a native of Independence, Iowa, and came to Hico with his parents in 1886. He was the son of Joel Fisher, who was an early-day business man in Hico. He owned and operated the Hico flour mill for a number of years. He also erected several of the rock buildings on main street, notably the Midland Hotel, now known as the Russell Hotel. The only remaining member of the pioneer Fisher family is G. R. Fisher of Mineral Wells.

Mrs. John Golightly, THDA President, Will Appear on TV Program

The annual meeting of the Texas Home Demonstration Association will be held in Fort Worth in the Hotel Texas August 3-5. According to Mrs. John Golightly of Hico, president of the Association, more than 1,000 club members and guests are expected.

This is the twenty-ninth annual meeting for the Association, which is a federation of 2,400 Home Demonstration clubs with more than 43,000 members.

Workshops are planned to provide time for study and discussion. Recommendations will be adopted for the program of work, which is aimed at helping farm and ranch families living in Texas communities. Chairman of citizenship, education, recreation, civil defense, health and safety, and 4-H committees will conduct workshop groups.

Program highlights include addresses by Mrs. Haven Smith of Chappell, Nebraska, chairman of American Farm Bureau Women, Nooncaster, director of the Texas Agricultural Extension Service, Mr. J. B. Carlile, captain, State Department of Public Safety, Dr. Jessie Whitacre, Department of Rural Home Research of the Agricultural Experiment Station, and Mr. Aubrey Gates, Little Rock, Arkansas, field director of the American Medical Association.

A business session on the morning of August 5 will close the convention.

Mrs. Golightly will appear on "Texas Living" program, Channel 5, Monday, August 1, at 11 a. m. She will also be heard on Doc Rhumann's Farm Radio program Tuesday morning, August 2, at 6:30, Radio Station WBAF-820.

FIRE DESTROYS TABOR HOME SATURDAY MORNING

A fire, which was reported to have started from a wood-burning cook stove, completely destroyed the home and contents of Mr. and Mrs. Luther Tabor early Saturday morning.

The home, which was located on the Carlton road, was beyond saving when the Hico Fire Dept. arrived on the scene, and nothing in the way of furniture or clothing was saved.

Watermelon Feast For Boy Scouts Friday Night

A good time for all and plenty of watermelon to eat for all boys who are Boy Scouts or Explorers, or any prospective members of the troop, is scheduled for Friday night at 7:00 o'clock at the Scout House.

All boys 11 years of age or older are urged to meet at this time. Regular meeting night is Thursday, but due to conflicts the meeting has been set for Friday night this week.

A short meeting was held last Thursday. Those attending were Danny Reeves, a new member, James Jordan, Pat and Mike Lacey, Alan Hedges and E. V. Meador.

ALAN HEDGES, Scribe.

CAPT. NEENAN RETURNING TO UNITED STATES

Mrs. M. T. Neenan was notified last week that her husband, Capt. M. T. Neenan, is being transferred back to the States from France, where he has been stationed since January.

ATTEND PONY SALE

H. W. Sherrard and son, Roland, and Chock Little attended a Shetland Pony Show and Sale in Perry, Oklahoma this week.

Hico Ramblers Defeated by Glen Rose Tuesday Night

The Ramblers were defeated by the Glen Rose Bloomer Girls 19-6 Tuesday night at Hico Stadium. It was a very good game until the 7th inning, the score being 4-5. The Bloomer Gals turned loose and knocked in 15 scores in that inning.

The Ramblers will return the game Tuesday night, August 2, at Glen Rose. It will be a double-header with the City Hospital playing the Fancy Pants.

RECOVERING FROM SNAKE BITE

Billy Wayne Harris, 19, was released from the Hico Hospital last Saturday where he was treated for a rattlesnake bite. He was struck on the leg by the snake last Wednesday while he was standing near a haystack at the farm of his parents, Mr. and Mrs. L. R. Miller, of near Fairly.

Many Interesting Features Will Appear On Texas In Review

Few men in the nation have the skill in book designing and typography of Mr. Carl Hertzog of El Paso. This interesting profession will be featured next week on The Humble Company's Texas in Review. For two successive years, Mr. Hertzog's work has been selected to rank among the 50 best designed books of the year.

Recent sailboat races from the annual Corpus Christi-Galveston Gulf Race will also be featured on the program. The race started at Port Aransas and ended off the lighthouse on the end of the Galveston jetties.

Films will also be shown of the 27th annual convention of the Future Farmers of America at Houston.

On Tuesday, Aug. 2, Texas in Review can be seen on KCEN-TV, Temple, at 7:30 p. m.

Watershed Steering Committee Members Selected From This Area

At a meeting Tuesday night of the Upper Bosque Watershed Association, four persons were selected to represent this area on a steering committee to serve the group.

Mr. and Mrs. John Golightly and Mr. and Mrs. J. B. Woodard were selected at this meeting. They will serve with Mr. and Mrs. B. J. Pruitt and Mr. and Mrs. C. K. Sterling of Clairette, along with representatives from the various other communities included in the association program.

Their duties will be to work with officials of the association, and keep the residents informed on the progress of the organization.

HOME COMING AT PURVES SUNDAY, JULY 31

The annual Purves Homecoming will be held Sunday, July 31, at the school.

The program starts at 10 a. m. in the school auditorium. Basket lunches will be spread at noon, and everyone has an invitation to be present.

Conclusion of the program will be at 4 p. m.

At the Hico meeting Tuesday, Marion Porter of the Soil Conservation Service at Stephenville, and Dick Spradley, manager of the Stephenville Chamber of Commerce, met with the group and explained the purpose and benefits derived from such a program. They also showed a film on a similar project, which was made in Nebraska.

Mayor Henry Clark of Stephenville, who heads the organization, was also present, as was State Representative of this district, Bill Shannon. Mr. Clark expressed his desire for such a program as is being outlined for this area.

Other meetings are scheduled for later on and progress reports of the program will be relayed to the public from time to time.

Former Hico Resident Buried at Stamford

A. Q. Stanford, father of Chester Stanford of Hico, passed away July 23 in Stamford. Funeral services were held there Monday, July 25.

Mr. Stanford was a former resident of Hico.

Mr. and Mrs. Jess Pruitt and Chester Stanford of Hico attended the services.

FAIRY

By Mrs. Eunice Massengale

We are needing rain badly at this time. Only a small amount of maize has been combined, but combining is expected to get in full sway by the last of next week.

Billy Wayne Harris, son of Mr. and Mrs. R. L. Miller, who live on the former Hutton place, was bitten by a rattlesnake one day last week while helping his stepfather and others to bale hay. We understand they were baling on the old Dickerson place in the Percilville community southeast of Fairy. He was rushed to the Hico Hospital where he received prompt medical attention and at last report he was recovering nicely. It will certainly pay to be on the look-out for these and other poisonous reptiles. This scribe had a close call with one ourself while pulling some stubble weeds last week. We had pulled the weeds to within a foot of the snake and began hoeing and the snake rattled and began to crawl away. We caught it with the hoe by only a few inches, but managed to kill it by doing some fast striking with the hoe. It was about thirty inches long. We understand they did not get to kill the snake that bit the Harris boy.

Uncle Bob Parks is still very poorly, but able to be up and about some.

Mr. and Mrs. Frank Sellers and family of Hamilton visited Sunday in the home of his brother, Mr. and Mrs. Carl Ray Sellers, Carolyn and Jimmie Don.

Mr. and Mrs. Leon Springer and family returned home last Wednesday morning after a few days visit in the Carl Ray Sellers home. They were returning by way of Miles and Bradshaw, where they were to visit his parents, Mr. and Mrs. R. M. Springer and her mother, Mrs. Odus Claxton, Lynn and Mr. Claxton. We have been informed that the Springers plan to move back to their farm around the first of the year.

Mr. and Mrs. D. D. Myers of near Hico visited a while Sunday afternoon in the home of her cousin, Mr. and Mrs. P. L. Cox. Mrs. Myers had read our news letter last week and learned of the death of our uncle S. T. Myer of Gorman and also that she had relatives living in this section. The Myers also came to pay us a visit and found us gone. We are sorry we missed them.

We received a nice letter recently from D. R. Proffitt of Tahoka

along with a contribution of \$5.00 for the Fairy Cemetery Association, for which we wish to express our sincere thanks.

Mr. and Mrs. W. M. Horsley of Hico visited a while last Sunday afternoon with Mr. and Mrs. Edd Allison.

The former Miss Thresa Todd and husband of Lubbock and Miss Sue Todd of Fort Worth returned home last week end after a week's visit with the ladies parents, Mr. and Mrs. Jerry Todd.

Mr. and Mrs. Edd Allison spent last Friday in Waco visiting in the home of their daughter, Mr. and Mrs. Dellis Seago and Sherry.

The writer attended singing at Hazel Dell near Gustine last Sunday afternoon, accompanying the A. H. Sumerfords from Hamilton. After our return to Hamilton we visited a while with Mrs. Minnie McCarty at the Hurley Rest home and we are indeed glad to report her rapidly recovering from a rash on her right arm from which she has been suffering for several months. The rash has also appeared on portions of her body. She has spent much for medical aid but to no avail. Hoping this will be of help to others, we will give you the story of her recovery.

Mrs. John Samuelson of Carlton went to work recently at the rest home and seeing Mrs. McCarty's condition gave her a simple home remedy, consisting of equal parts of vinegar, glycerine and rubbing alcohol. Mrs. Hurley fixed up the mixture and began to apply it and the results have been wonderful. Mrs. McCarty has had the prayers of many friends and loved ones that she might be healed of the terrifying malady. We rejoiced with her Sunday, to once again see her so cheerful. We hope the remedy will be of help to others.

Children of the Fairy school who took the polio vaccine last spring are to report to Hamilton this Thursday for their second shot.

Visitors in the Emmett Anderson home recently were their daughter, Mrs. J. M. Parmer and two children, Patsy and Michael and Larry Sneath of Grand Prairie. Mrs. Parmer and Michael remained for a week's visit with her parents. Tuesday they all motored to Teague to visit in the home of Mr. Anderson's cousin, Mr. and Mrs. Graves Shelton and Pete. On their return trip Wednesday they went sight-seeing at the historical Fort Parker and also spent some time in the Fort Parker State Park. They report this is an ideal place to go swimming, fishing and water skiing and is a wonderful picnic area.

We learn today that Mrs. Vernon Chew of Hico is now in the John Seely Hospital at Galveston. We ask that all who know her, write her a letter or send a get-well card. She is the former Beatrice Brunson of Fairy and her many friends here will be thinking of her and hoping she will soon be much improved. She is the daughter of Mr. and Mrs. Claud Brunson, also now of Hico.

Hico, Texas, Friday, July 29, 1955.

Washington

"As It Looks From Here"

January 17, 1956 will be the 250th anniversary of the birth of Benjamin Franklin. Franklin was a scholar, educator, soldier, inventor, scientist, philosopher, businessman, politician, man of God, patriot and prophet.

Benjamin Franklin, living in another age, would nevertheless have been a fitting figure at the meeting at the "summit" in Geneva, Switzerland.

These quotations suggest a mind which reached into the present age.

He said: "There is no little enemy."

"There has never been, nor ever will be, any such thing as a good war, or a bad peace."

"I lament with you the prospect of a horrid war which is likely to engage so great a part of Mankind."

"There is little good gained and so much mischief done generally by wars, that I wish the imprudence of undertaking them was more evident."

On preparedness Franklin had this to say: "Let us beware of being lulled into a dangerous security; and of being weakened by internal contentions and divisions; of neglect in military exercise and discipline and in providing stores of arms and munitions of war; for the expenses required to prevent a war are much lighter than those that will, if not prevented, be necessary to maintain it."

On world cooperation and world leadership: "All Europe is on our side of the question, as far as applause and good wishes can carry them. Those who live under arbitrary power do, nevertheless, approve of liberty, and wish for it; they almost despair of recovering it in Europe. 'Tis a common observation here that our cause is the cause of all Mankind, and that we are fighting for their liberty in defending our own."

In these preceding words Benjamin Franklin admonishes us of the present age to guard against an isolationism which in the present world is infinitely more impossible than in his day. Even though some of our efforts may be a pure gamble, it is a much greater one to think we can live alone, either militarily or economically.

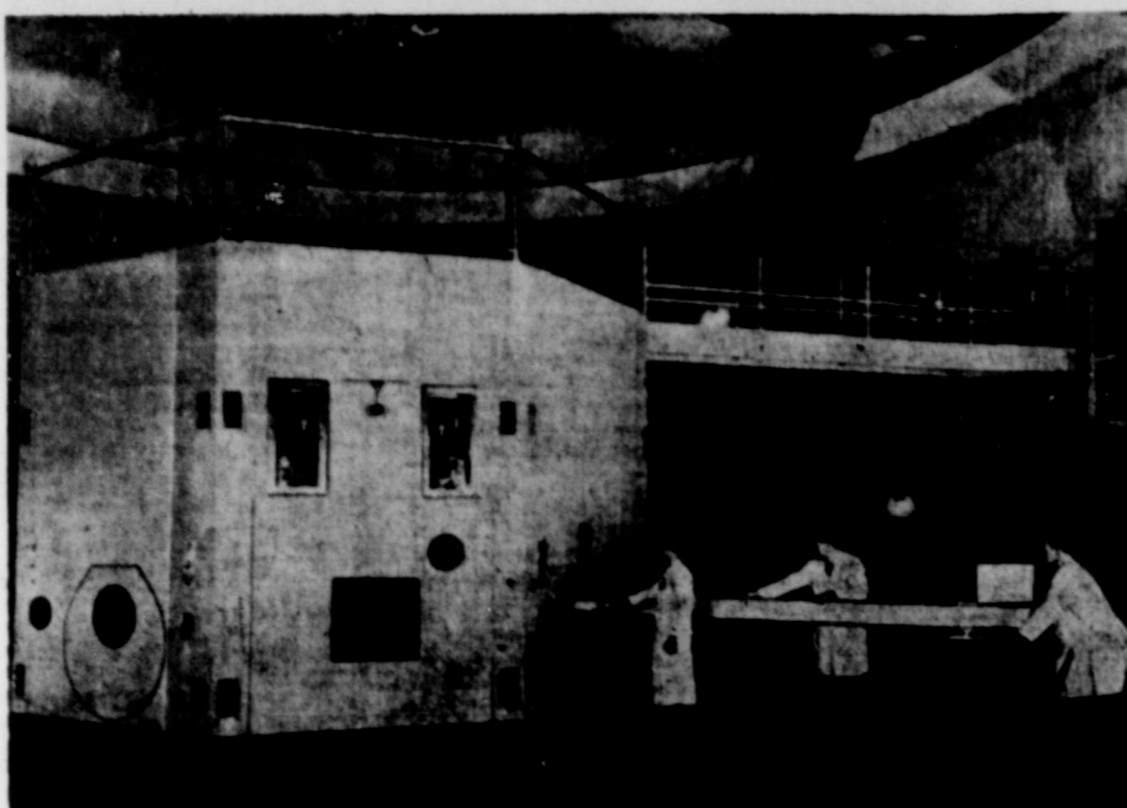

A few days ago I appeared on the television program, "American Forum of the Air," with three of my fellow Members of Congress. One was from Wisconsin, one from Minnesota, and one from Ohio. The discussion was on the subject of foreign policy, and particularly as it applies to Asia.

I expressed a belief that as long as we do not assure the Chinese Communists that we will use the Atomic Bomb in our defense, trouble will continue. Surely this Country will not be so stupid as to attempt to match man-for-man in "small" wars. Benjamin Franklin said, "There is no little enemy." It is unthinkable that we would ever again, as was the case in Korea, send American foot soldiers, whose lives are precious, against Asiatic soldiers to whom life is worth little.

The following quote is not from Benjamin Franklin, but I think it is applicable to the general theme of this column:

"It takes a lot less time to prevent damage than to repair it."

Food shoppers should find the August plentiful list to their liking. Broilers and fryers share the spotlight with canned grapefruit sections. Because crop prospects now indicate a near record supply, grapes have been added to the list. Supplies of rice, Irish potatoes, watermelons, fresh and processed lemons and limes are much larger than for last summer. Too, other than the spotlighted meats, beef and frozen lamb but are the only ones carried on the August list. Milk and other dairy foods such as American cheddar and cottage cheese continue in heavy supply. Stocks of lard, vegetable fats and oils remain heavy.

Much of the newer furniture is cushioned with foam rubber and upholstered with fabric. Women are asking if the fabric can be cleaned at home without damage to the foam rubber. Yes, they may be cleaned, but be sure to use a safe cleaning agent.

Select your cleaning agent by considering first, the color of the stain, next the type of fabric, and lastly the effect of the cleaning agent on foam rubber. Soaps, detergent, glycerine, denatured alcohol, benzene, carbon tetrachloride, sodium hydrosulfite, and a weak solution of ammonia are acceptable cleaning agents as far as the foam rubber is concerned. Carbon Tet should be used very sparingly as it is a rubber solvent. Normal rubbing of the outside covering on tight or fixed seats will not harm the foam rubber cushion. Foam rubber is tender when wet but its normal strength returns when dry. Cleaning agents that do have a harmful effect on foam rubber are of the bleaching and oxidizing types. The following are not recommended: vinegar, turpentine, acetone, chlorine, hydrogen peroxide, oxalic acid and sodium perborate.

If the nature of the stain or the type of the fabric calls for the use of one of the above cleaning agents, the fabric should be removed from the foam rubber and cleaned separately.

Milk will give you more food value per dollar than any other food. If you buy all your milk your food dollar can be stretched even further by using evaporated and non-fat milk in cooking. It's difficult to have a balanced diet without including milk.

Research shows, too, that regardless of age, we all need the food value milk offers. Studies show that women especially are not drinking the milk they need each day—neither are their teen-age daughters. This may be partly due to the fact that many people think milk is fattening. It isn't. A glass of whole milk has fewer calories than a serving of many other foods. There are only about 165 calories in a glass (eight ounces) of milk, and each ounce is packed with food value.

A serving of lean beef has about 300 calories. Two buttered biscuits have about 350 calories and a slice of apple pie contains about 375 calories. Drink skim milk, if you're trying to lose a few pounds. It has approximately half the calories of whole milk, but you will still be getting the important minerals, vitamins and protein.

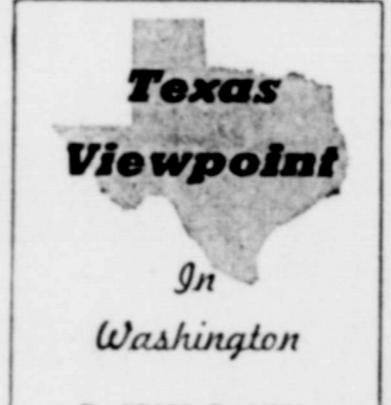

When energy lags—in mid-morning or afternoon—try a cold glass of milk.

The week of July 24-30 has been

designated as National Farm Safety Week. It is a good time to make a systematic check of the farm and home hazards which could cause accidents or fires. When finding the hazards, go ahead and complete the job by removing them.

Pineapple Cream Cheese Pie

- One-third cup sugar
1 tablespoon cornstarch
1 9-oz. can crushed pineapple (not drained)
1 8-oz. package cream cheese
One-half cup sugar
1 teaspoon salt
2 eggs
One-half cup milk
One-half teaspoon vanilla
1 9-inch unbaked pastry shell
One-fourth cup chopped pecans
Blend the one-third cup sugar with the cornstarch and add the pineapple. Cook stirring constantly until the mixture is thick and clear. Cool. Blend the cream cheese, softened at room temperature, with one-half cup of sugar and the salt. Add the eggs, one at a time, stirring well after each egg is added. Blend in the milk and vanilla. Spread the cooled pineapple mixture over the bottom of the unbaked pastry shell. Pour the cream cheese mixture and sprinkle with the chopped pecans. Bake in hot oven, 400 degrees for 10 minutes, then reduce the heat to 325 degrees, and bake for 50 minutes more. Cool before serving.

By PRICE DANIEL U. S. Senator

Whether you agree or not with everything President Eisenhower advocated at the Geneva Conference, it must be conceded that he did an excellent job in letting the world know that the American people do not want war. At the same time, he let it be known that we do not want a dishonorable peace. His statements are reported to have convinced many of the representatives from other nations, including Russia, that our country is building up and maintaining its military strength solely for the prevention of the type of aggression of which Communist countries have been guilty in the past.

The President's assurance that we would never attack Russia and that we would wage war only in defense of our own country and our allies seems to have impressed Bulganin and his cohorts. Some people are conceding that maybe the Russians have been afraid of our intentions the same as we have been afraid of theirs. If only some type of control and inspector of the armaments of all countries could be worked out as a result of the Geneva Conference, it might be that the world could enjoy honorable peace once more.

As I have said before in this column this would place upon us the responsibility of competing in peaceful ways for the hearts and minds of people throughout the world so that they would not be misled in the future by the dictators of totalitarian faiths. We must let the people of the world know what the Christian and Democratic philosophy of America really means so they will understand and work with us for a peaceful world instead of lining up with our potential enemies.

Next Geneva Conference. August 10th to 20th there will be another international conference in Geneva on the peaceful uses of atomic energy.

I witnessed the ruins of atomic destruction in Japan while in World War II service, and now in Geneva it will be a great and pleasing comparison to see the way in which the atom can be used for human welfare instead of human destruction.

Adjournment Date. The biggest question in Washington this week is what date Congress will adjourn. The leaders are still aiming for July 30, but much remains to be done if this is accomplished.

The Highway Bill, the Gas Bill, Social Security Amendments and several other major pieces of legislation should be considered before Congress adjourns. The heaviest correspondence thus far received since I have been in the Senate came in the form of more than ten 5,000 letters, telegrams and postcards last week in favor of the Highway Construction Bill. There were many communications also against the tax features of this bill. I believe in paying for the new highways as we use them rather than adding this to the already heavy national debt, but I also agree that the taxes should be reasonable and equitable, and hope that this controversy can be resolved before we adjourn.

Senator Johnson. At the time of this writing, Senator Lyndon Johnson was continuing to show great improvement from his recent heart attack. When I saw him last Sunday he was reading a book and watching television at the same time. We had a nice visit, and the doctors say that he has a good chance for complete recovery.

As a result of increased appropriations in the Senate for survey work by U. S. Engineers, the following sums will be spent on surveys of Texas water improvements during the fiscal year: Lake Liberty on the Trinity River, \$75,000.00; Port Mansfield, \$2,800; San Bernard River, \$2,000; Port Aransas-Corpus Christi Waterway, \$5,600; Matagorda Bay-Gulf Outlet, \$16,000; Texas City Seawall, \$600; Trinity Bay Soil Conservation District, \$18,300; Richland, Chambers, and Cedar Creeks, Trinity River, \$20,000; and Devil's River at Ozona, \$7,000.

The only three areas of North America and Europe not accessible today by railroads or highways are the wilderness sections of northern Canada, Alaska and remote regions of Scandinavia.

The 10 busiest airports in the United States in 1953 were Chicago Midway, Miami, Los Angeles, Cleveland, Wichita, Atlanta, New York (LaGuardia), Denver, Dallas and Teterboro.

Akaka Falls on the Hamukua coast of Hawaii is 420 feet high compared to Niagara's 167 feet and Yosemite's Vernal falls of 317 feet.

Buying power of hourly earnings of U. S. workers may be expected to rise in the next decade or two to an average rate of 2.5 to 3 per cent a year if economic and other conditions remain favorable, says a Twentieth Century Fund report.

Only 15 per cent of the world's forests are being managed as a renewable, continuously producing resource.

Crop yields per acre of American farms have improved more during and since World War II than in the previous sixty years.

IT'S THE LAW in Texas. A public service feature of the State Bar of Texas. PAID IN FULL.

John owed Fred \$200 which he had borrowed several years back. John had been having a hard time and owed many bills. Because of his situation he thought Fred might accept less than \$200 as full payment. He sent Fred a check for \$125 marked "In full for balance due on loan" on the face of the check. Fred cashed the check and started action to recover the other \$75. Can he collect? Yes, he can, as a promise or agreement is unenforceable unless supported by consideration or by giving of value by the other party. John did not give Fred anything he was not obligated to give and hence there was nothing to bind any agreement to accept the \$125 as payment in full.

However, there are two variations of this situation in which John could accomplish his result!

First, if there was an honest dispute concerning the balance due on the loan, much as a dispute over credits allegedly agreed upon for work performed for Fred, or a dispute over the interest due, then acceptance of the check could constitute what is called an "accord and Satisfaction." This may satisfy the debt in full, especially if "Paid in full" is marked on the back of the check and Fred endorses beneath it.

Second, if John should give something in addition to the check, other than money, such as a piece of furniture or an animal, the debt would be satisfied in full if Fred accepted both the check and the additional consideration. There is a common conception

in the minds of many people that a person cannot be sued on a debt so long as monthly payments in any amount (even \$1) are made. This is not so, as once a debt is due the creditor may bring suit for the full amount and acceptance of any lesser amounts does not waive rights of suit except as indicated above.

IREDELL ITEMS

by Miss Stella Jones, Local Correspondent

Mrs. Lorena Wilson was called to Wickett on Thursday, to the bedside of her daughter, Mrs. Reamy, who was very ill. Rooster came by and took his mother. Mrs. Reamy died Monday afternoon in the Kermit Hospital. She would have been 40 years old in August. Mrs. H. D. Haught and son Terrell and wife and Mrs. Jess White attended the funeral at Wickett on Wednesday. She was buried in Monahans. She is survived by her husband and two daughters, a son, and a baby not a year old. Her mother and four brothers also survive. The family have the sympathy of friends. She visited here several times.

Miss Patty Dunlap, who works in Fort Worth came in Thursday and visited her parents until Sunday.

Mrs. Ethel Sanders returned Wednesday afternoon from a vacation trip with her brother, Albert Pylant and wife. They went to California and other places of interest, and reported a good time.

Mr. and Mrs. John Tidwell left Saturday for Houston for a few days visit. Connie Jo Smith, daughter of Mr. and Mrs. John D. Smith, went with them.

Mrs. Katie Dean of Houston is visiting her sister, Miss Ella Thornton and Mrs. Joe Tidwell.

Mrs. Lesley Stroud and her sister, Mrs. Clarence Stroud of Walnut Springs were here Saturday.

A YEAR OF SURPLUS CROPS

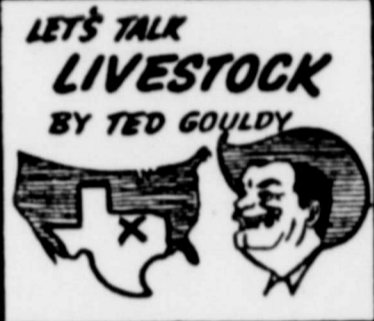

Prospects for the fall of 1955 show no signs of easing their determination to block a return to 90 per cent mandatory supports for basic crops. Large supplies of most farm products now indicate supports will be lowered to the 75 per cent of parity minimum for basics—cotton and tobacco excepted—next January. Wheat already has been announced at 76 per cent.

Crop reports indicate SURPLUSES—in capital letters. Storage space, especially for feed grains, is at a premium. The Commodity Credit Corporation announced this month plans to build up to 100 million bushels of new space. Need for storage will be even greater than that if crop prospects hold up. And the farmer must have his goods stored to get supports.

Nation-wide it looks like record production on barley, soybeans, grain sorghums, hay—and near record for corn, oats and dry beans. Compared with last year, production may fall on wheat, cotton, rice, sugar, tobacco, apples and peaches.

Trouble looms for potato growers. Irish potato production is forecast at 44.3 million bushels over last year and the sweet potato crop looks 15 per cent larger. There is new talk about a demand for potato price support program—an unpopular notion with those who remember the disastrous program of the 1940's.

The U. S. Department of Agriculture has announced plans for a referendum in which sheep producers will decide whether they want to put into effect an agreement providing for a market development program under Section 708 of the National Wool Act. The

Livestock Receipts Continue Light

The cattle, hog and sheep offerings at Fort Worth Monday was about on a par with the previous Monday which was the smallest since early in the year.

Lighter receipts put more life into the market and most classes sold strong. Fed cattle were slow, but about on a par with last week's closing prices. Good and choice slaughter steers brought up to \$21.25. Cows were 50 cents higher and good cows sold around \$12.50 a few up to \$13. Bulls were slow but about steady at \$9 to \$13.50.

Slaughter calves started slow in the early trading Monday, but prices were steady with the previous Friday's close. Slaughter calves brought \$9 to \$19.

Stockers and feeders were fully steady. Only a small per cent of these are really choice kinds, most being medium quality yearlings and calves. Medium and good stocker and feeder steers sold at \$14 to \$19.50. The same kind of stocker steer calves brought \$14 to \$20.50.

Hog Prices Rally. Hogs regained most of last weeks losses with both choice butchers and sows \$1 higher than the previous week's close, and lightweight around 50 cents higher. Top butchers cashed at \$17.75 to \$18. Lightweight and less desirable kinds drew \$16.50 to \$17.75. Sows sold largely at \$12 to \$15, but light, smooth sows weighing 200 or less brought up to \$16.

Sheep Steady, Feeder Lambs \$1 Higher. The sheep run Monday, consisted mainly of spring lambs and ewes. All classes of slaughter lambs and sheep were fully steady to strong. Spring lambs topped at \$20. Good shorn slaughter yearlings brought up to \$14 and aged wethers cashed at \$7 to \$10.50. Old ewes drew \$4 to \$5. Feeder lambs were not too plentiful and demand was strong enough to push prices up fully \$1. Small lots of feeders sold at \$15 and one good load brought \$16.

RELIC OF INDIAN WARS

Treasured reminder of yesteryear is the Bastion, Nanaimo, Vancouver Island.

The Bastion was built by employees of the Hudson's Bay Company whose proud boast was that they would allow themselves to be drawn naked along the huge mortised logs they shaved with their axes and wagers that not a splinter would enter their body.

Now on the threshold of its second-century after repeated and unsuccessful early sieges by war-faring Indians, the much photographed old Bastion has become a precious milestone in the history of British Columbia. The British Columbia Government Travel Bureau, Victoria, B.C., has recently issued a new coloured brochure on this Pacific Playground.

hand that have been asked for but have not been available. These bulletins are: Cotton Defoliation Guide; Selecting Hogs; A Guide For Feeding Hogs; Cotton Diseases and Methods of Control.

The week of July 24-30 should be for every Texan on and off the farm a practice period in prevention of accidents.

The period has been designated as Texas and National Farm Safety Week. The Texas Farm and Ranch Safety Committee believes that accidents do not occur because farmers and their families are more careless than other citizens. But with excess work and fatigue they often neglect necessary precautions in working with power equipment and edged tools, and in keeping in good repair articles which are used frequently. The Committee suggests that these seven days should take on special significance. It is time that farmers and their families and neighbors pooled their efforts toward making their industry as safe as any other in the nation. "Your safety is in your hands."

Holsteins, Herefords, Angoras and Rambouletts. We don't mean to boast. All we mean is that we have tried to keep in step with the inevitable march of time and changes. But still many of the land marks of yester-years are still here. If you once lived in or near Hico, come to our Annual Reunion (it's yours as much as mine) and see the old homestead or that old-time friend or sweetheart that you would give

the world to see. Perhaps he or she will be at the Reunion and would be equally glad to see you. This could be your last chance this side of the beyond. We all want to shake your hand and hear in your own words of how you are faring in your new surroundings, also we'd like to hear of how that son or daughter is doing in some far away place, we mean the one that we knew when here years ago as a kid. Tell us about yourselves. We will gladly listen—maybe after all our country and our kids are not the world's greatest. Come to the Reunion and tell us about yourselves. Definitely, we are interested.

Remember, we don't have and don't want any commercial interest in the Reunion—ours is social only—so, if you and I ever knew each other let's renew our acquaintance at the pavilion where the band, the choir, or the old fiddlers play and sing out the soul stirring tunes of our country's past; these are keys by which our fondest past experiences can be re-opened, re-touched, re-enacted, and brought up to date.

ROY DERRICK.

Dear Editor:

Enclosed is the price to keep the News Review coming for another year. I just have to know all about the coming Reunion, as I have never missed one. My husband, and his father never missed a Reunion while they lived. My mother liked less than a month being 84 years old when she left this world in January this year, and she had never missed more than 3 Reunions in her life.

My father's father never missed a Reunion while he lived. Hoping to see a lot of my friends the first week in August in Hico.

NEW SCREEN DUO — Kirk Douglas and Jeanne Crain are an explosive new screen team as they co-star with Claire Trevor and William Campbell in Universal-International's Technicolor romantic melodrama, "Man Without A Star," which will show at the Hico Theatre Saturday midnight, Sunday and Monday.

'Man Without A Star' Promises to Be Action-Packed

Universal-International's big lusty Technicolored action drama, "Man Without A Star" certainly rates all of those adjectives—as well as being one of the most "different" western films to come from the film capital in a long time.

The cast headed by Kirk Douglas, Jeanne Crain, Claire Trevor and William Campbell, deserves acclaim for their sharp characterizations.

The sparks that fly across the wide screen when brawling, untamed Douglas clashes with beautiful but iron-willed Miss Crain—both in business and pleasure—are fiery as a 4th of July celebration.

Special nods go to Miss Crain for her departure from "sweet girl" roles into a memorable portrait of a ruthless, determined yet feminine ranch owner, and to newcomer William Campbell, who registers appealingly as the "green" sidekick of Douglas. Campbell, in his first starring role, displays a natural talent that should net him many choice roles in the future.

Kirk Douglas himself dives into the role of Dempsey Rae, a loud, brash ranch hand, with great enthusiasm and greater results in that, as usual, this fine actor can add another excellent screen role to his already long line of hits.

Claire Trevor as Idonee, Douglas' saloon-keeper pal, is a real standout as the "bad woman" with a heart of gold.

The story, which dwells upon the not-always-legal cattle ranching of Douglas and Miss Crain, is enhanced by Russell Metty's Technicolor filming of some really beautiful outdoor scenes.

Richard Boone as a vicious Texas gang leader, Mara Corday as a dance hall girl with a crush on Douglas, and Myrna Hansen as a neighboring rancher's daughter are excellent in strong featured roles.

Examination Urged For School Children By Health Officer

Parents, has your child had a physical examination this summer? In just a little more than a month he will be starting to school and if he is in good health he will have a happier, more profitable year. It's up to you to give him a healthful send-off, says Dr. Henry A. Hollie, Commissioner of Health.

After he has his check-up by the family doctor, be sure to take him to the family dentist. Teeth are mighty important, and decayed ones often cause a heap of trouble. They may start infection in other parts of the body. Strong, healthy teeth add attractiveness to appearance and personality. Help your child to grow up with good teeth—see that he has a dental examination twice a year.

Sometimes children need glasses and their parents don't realize it. An examination by an eye specialist is important. A child who needs glasses, if taken to an eye physician now, will have time to get used to them before school starts.

When children are grouped together in a classroom, they expose each other to communicable diseases. Has your child been immunized against diphtheria and smallpox? Does he know he should use only his own drinking glass? Does he know he should avoid boys and girls who are victims of colds? Do you keep your child at home when he shows signs of a cold?

Plenty of exercise and recreation, the right kinds of foods daily, and 12 hours of sleep a night, are necessary for a child of elementary school age.

Get your child an appointment for a check-up today—the first day of school is not far away!

Effective January 1, 1955, farm operators should begin to keep accurate records of the money received from the sale of all farm produce, according to Joe Clepp, Field Representative of the Social Security Office. The social security law has been changed to bring farm operators under coverage of social security beginning January 1, 1955.

Should the farm operator have a gross income during the year of \$1800 or less, he may report one-half of this gross income for social security purposes without figuring his net profit. If his gross amounts to more than \$1800 in a year, he may report his actual profit or \$900, whichever is larger. He reports this income and pays his social security tax when he files his income tax return each year, beginning in 1956. Thus he buys the same protection for himself at old age, or for his family in case of his death, that other people have been buying since 1937.

If you have questions about this or any other social security matter, see the representative of the Waco Social Security Office, who will be in Hamilton at the County Courtroom between the hours of 9:00 a.m. and noon on Wednesday, August 10, 1955.

Second-round polio shots for Texas first and second graders were to begin this week.

Enough Salk vaccine for 299,700 inoculations arrived in Austin last Wednesday and was put in the State Health Department's refrigerated vaults. Local officials began arriving at once to pick up their portions.

Only those who stated they were prepared to use the vaccine were given allotments, said Dr. Henry Hollie, head of the department.

Eli Lilly Company of Indianapolis, the same company which supplied the shots given Texas school children in April, sent the shipment. Preparations was reportedly under the rigid new safety standards which went into effect May 26.

Half a million Texas school children received first shots last spring. Summer vacation absences are expected to cut the figure on the second round.

Polio cases over the state had risen to 618, the Health Department reported last Thursday.

Bank Deposits Held Taxable.
Taxation of bank deposits and cash has apparently been forced on state and local taxing agencies by a Texas Supreme Court decision.

In a Harrison County case, the high court ruled that money in bank accounts, cash registers, personal safes or safe-deposit boxes must be assessed right along with other property to avoid discriminatory taxation.

Two lower courts were overruled by the decision. New trial was ordered for the defendants to grant them the lower taxes they sought on their property because taxing agencies had failed to assess the \$10,000,000 on deposit in Harrison county banks.

Presumably the same complaint would be good elsewhere in the state where bank deposits are not being assessed for property taxes.

Giles Trial Drags On.

Testimony in the Bascom Giles theft trial dragged so monotonously at one point last week it became necessary for the judge to caution jurors against dozing.

In its third week, the trial appeared headed for a fourth unless the defense should cut short presentation of its side of the case.

Only one indictment is involved. It charges Giles with theft and abetting theft of \$6,800 in a Kinney County land deal under the veterans land program. Testimony

FAR FROM HOME . . . Center of attraction aboard USS Atka, navy icebreaker just returned from Antarctic, is this emperor penguin.

has nevertheless touched on many other aspects of the program and its transactions.

One witness testified he heard Giles was to get a \$75,000 cut in the \$358,000 Kinney County deal.

Another testified he heard Giles say in a telephone conversation he would take \$15,000 as his share in a transaction in Dimmit County.

Giles originated the \$100,000,000 program and until Jan. 1 administered it as chairman of a three-member board that included also the governor and attorney general.

Names of the other two officials have come in for frequent mention in examination of witnesses, particularly in cross examination by the defense.

At one point, defense counsel charged a witness had made a deal with the attorney general to smear Giles. The witness denied it.

Shivers Shuns Conservatives.

Gov. Allan Shivers declined to participate in a meeting of conservative Democrats last week in Dallas.

Vacationing in Woodville, Shivers released through his Austin office the text of a telegram to Fort Worth attorney Hamilton Rogers, chairman of the gathering.

Declaring himself opposed to "splinter political parties," Shivers asked the group to work with him to strengthen the Democratic party.

Rogers denied any splinter party plans. He also denied the meeting had anything to do with recent criticism of the governor for his moves toward replacing Wright

Morrow of Houston Democratic national committeeman, with someone acceptable to national party leaders.

Purpose of the Dallas meeting, said its leaders, was to "solidify conservative thinking." One result was a sweeping denunciation of desegregation plans for the University of Texas and El Paso public schools.

Parr Tax Trial Postponed.

Date of the Austin trial of George Parr on an income tax evasion charge was changed last week from July 16 to Sept. 6.

Postponement was because one of Parr's attorneys was busy with another case.

Parr had petitioned the Fifth Circuit Court of Appeals at New Orleans for a dismissal, contending the trial should be held in Laredo instead of Austin. The appeal was denied.

Johnson Hearing Delayed.

Hearing on an application to take additional water from the Pedernales River to irrigate U. S. Sen. Lyndon B. Johnson's farm has been postponed. August 8 is the new date set by the State Board of Water Engineers.

Twenty-four downstream ranchers protested the application when it came up last week. They said water already being diverted to the Johnson land deprives them of stock water and leaves so little natural flow that fish are dying and polluting the stream.

Martin Harris, attorney, asked for the later hearing. He said Johnson's wife desired to be heard personally if there were objections. She is now in Washington where the senator is recuperating from a heart attack.

HICO REUNION

WE, TOO, ARE PIONEERS!

The Gulf States Telephone Company entered business in 1910 and has grown with Hico and Hamilton County, making it possible for the people of this section to enjoy one of the most useful of modern conveniences—the TELEPHONE!

Day or night, the telephone is one means of instant contact with those outside of the home. Friends meet friends on a moment's notice. . . . Invitations are extended and accepted. . . . Alarms are spread quickly. . . . Emergencies are met with the aid of the telephone.

This company and its employees extend the heartiest congratulations to the settlers who celebrated their first Reunion, and to those of today, on the occasion of their

"A SERVICE INSTITUTION"

From where I sit . . . by Joe Marsh

Modern Science Finally Catches Up With Grandpa

I got put in my place the other night. Deserved it, too. My father-in-law said we were due for bad weather. "Birds are flying low," he reported. "That means a storm."

I started to josh with the old gentleman about being superstitious. Then my nephew Jim, on vacation from college, pipes up. "Grandad's right," he says.

"At least, that's what they say 't school," Jim goes on. "The navy air you get before a storm forces insects down low—high-flying birds have to swoop along the ground 't they wait to eat."

From where I sit, there's probably sound reasoning back of most old sayings . . . back of *anything* people have learned to believe in. Take the idea of a stitch in time saving nine—sparing rods and spoiling children—of drinking hot milk, or a refreshing glass of beer, at bedtime. You may not hold with any of these beliefs yourself . . . but it's not smart to give them the "bird."
