Attendance Up at Services.

We are delighted at the noted increase in attendance at our worship services and other services of the church. This rise is noted by the Sunday School attendance. In three weeks we have come from 81 to 104 this past Sunday. We are doubly happy about this because we know that it means that many of our church families are now well for the first time in some weeks. We urge each member of our church family to continue praying for our services and attend at every available opportunity.

Study for Prayer Meeting Group.

Beginning this Wednesday night we are going to study for a few weeks in the general field of "soul-winning". I know this will be a very profitable study for each of us. Few of us know enough about the matter of winning others to our Blessed Saviour. Come to these services as we consider the matters vital to winning others to Christ. These prayer services begin each Wednesday night at 7:30.

Youth Activities.

Our Junior Department had a Valentine banquet this past Saturday night at the church. Those in attendance enjoyed a full course meal with steak and all the trimmings. Some thirty of our Juniors attended this banquet. On Feb. 26 our Intermediate and Young People will enjoy a Sweetheart Banquet at the church. The theme will be "Cupid's Caravan of Hearts." Special feature for that banquet will be Mr. Ralph Gibson from Waco. He is the Youth Director at the Calvary Baptist Church in Waco. All the young people of Iredell are invited to attend this banquet. Tickets are 25c per person.

FAIRY

By MRS. EUNICE DANIEL.

we were very sorry to learn of the untimely death of Ernie Burnett near Carlton who died of an attack while driving along road 219 about two miles out of Carlton on the Dublin road Monday afternoon. He was on his way to pick up his wife, Mrs. Burnett, who teaches in the Hico Schools. Mr. Burnett, who resided on our Carlton for several years before moving to their present location. We learned to love them and found both to be very dependable and regretted losing them as tenants. We were so sorry we did not learn of his death in time to attend the funeral services, but had learned nothing until we received the Dublin paper last Friday. Our deepest sympathy is extended to the bereaved wife and others in his passing.

Our sympathy is extended to the Clifford Stubbs family in the passing of his 15 year old semi-invalid son, who died very suddenly while sitting in his wheel chair last Friday at noon at the home in Gatesville. The Stubbs family resided for a while on the Latham place at Lanham. We understand funeral services were held Monday afternoon at the Lutheran Church in Cranfills Gap with burial at nearby Boggy Cemetery. The boy was a relative of Mrs. Leonard Hunter of Hico.

While in Hico Saturday we visited at the Hico rest home with Mrs. Walter Dunnagan, and Mr. and Mrs. H. R. Brummett. While there we met the Brummett's daughter, Mrs. Erehphie Anderson and granddaughter, and a lady whose name has slipped our memory. We found the Brummetts looking fine and as jolly as ever. We were very glad to meet Mrs. Dunnagan again. She lived as a neighbor to our parents near Fairy some 50 years ago. She, too, seemed to be doing fine.

Hersal Richardson killed a skunk around his premises recently which tests showed was rabid and several others have been found dead and others killed that acted strange. Carl Ray Sellers killed one over in his pasture that seemed crazy and was biting himself. A few weeks ago one came on our porch and unfortunately our flashlight having a leaky battery we failed to get, as it was off and gone by the time we could get the gun. Later during the night it went to the lot and bit and attacked two young twin lambs born during the night. When we got out to the lot next morning we only found one of the lambs in a hole-like, which had paralyzed its back legs, its nose bloody and chewed on. Thinking probably hens had picked on it, we removed it and the mother to the hail of the barn and prepared some milk and bottled it as it was unable to stand. Just as we finished feeding it we heard strange sounds among hens as if they saw a snake. We arose to peek over a partition wall and saw the skunk going across the lot where the young lamb had been. We very hurriedly rushed to the house for the gun and by the time we got to our back yard gate the skunk was going through

Funeral Services Held Saturday for Young Shelia Springer

A pall of sadness fell over this community during last week end in the deaths of Little Shelia Katherine Springer and Mr. Bause Gann.

Little Shelia, three-week-old daughter of Mr. and Mrs. Leon Springer, passed away last Friday morning in Providence Hospital, Waco, where she had been a patient since the previous Tuesday afternoon.

Funeral services were held on Saturday morning at 9:30 at the Episcopal Church in Hamilton, with burial at Miles, former residence of the Springers.

Cause of her death is still unknown, since they had not received any final report at our last information. Our deepest sympathy is extended to the parents, other children in their bereavement and disappointment. May they look to God for comfort at this time of deep sorrow.

a sheep fence nearby, heading for the branch. We rushed toward it and it suddenly turned our direction and we at once thought of rabies, but we killed it about six feet away. Some are having their pets vaccinated against rabies which is a good idea. So all had better watch these skunks as well as other varmints. We later found and fed the other twin lamb, but both died. Their heads turned purple and swelled, despite treatment. It is said the skunks bite is very poisonous.

Mr. and Mrs. Bill McClure of Cleburne spent the week end with Mr. and Mrs. Leon Springer and family to be with them in their bereavement. They also went to Hamilton and Miles for funeral and burial services for the Springer infant.

Mrs. Odie Claxton returned home Saturday after almost a week's stay in the home of her daughter, Mr. and Mrs. Leon Springer and family.

Many have been ill with the flu. Victims the past week are Oran Willeford family, Mrs. Mignon Anderson, Mrs. Carl Ray Sellers and Carolyn and Mrs. Leon Springer and children.

The writer attended singing last Sunday at Lund Valley and visited at the Hamilton nursing home after singing hours.

Mr. and Mrs. Ernest Seymour of Fort Worth spent the week end with her parents, Mr. and Mrs. J. T. Jackson.

Mr. and Mrs. Dave Brunson and family of Morgan visited Sunday in the home of his sister, Mr. and Mrs. Herran Sills.

Mr. and Mrs. Jack Haile of Fort Worth visited during the week end with her parents, Mr. and Mrs. Herman Sills.

Mr. N. S. Sellers, father of Carl Ray Sellers, is very low at this writing at his home in Hamilton.

Mr. and Mrs. Roy Driver of Waco were Sunday visitors in the home of his brother, Mr. and Mrs. Frank Driver. They also visited Mrs. Driver's brother, Mr. and Mrs. J. T. Jackson.

Dinner guests Sunday in the home of Mr. and Mrs. L. J. Wood were Minister Warren Wilcox and Miss Carolyn Dowdy, both of Abilene Christian College.

Mr. and Mrs. J. T. Jackson enjoyed a visit last week with Mrs. Jackson's aunt, Mr. and Mrs. R. H. Ashton of Floydada.

Mr. and Mrs. L. V. Houser and Mr. and Mrs. J. T. Jackson visited Mrs. F. O. Musick, Mrs. A. R. Hoover and relatives of Mrs. John Koen Sunday in the Hamilton Hospital.

WITH DEEPEST GRATITUDE

We extend this word of thanks to friends and neighbors for the many acts of sympathy performed for us during our recent bereavement. Our appreciation cannot be adequately expressed for the beautiful floral offerings, the service, food brought, and all other deeds of kindness. Our sincere prayer is that God will bless each of you.

The family of Ola Wallace.

CARD OF THANKS

We want to express our sincere thanks to the doctors and nurses at the hospital again for their loyal duties to our loved one we lost recently. Thanks for the comforting words and deeds during the illness and death of our loved one, Mr. J. P. Murray. May God bestow his richest blessing on each of you in our daily prayer. Thanks to all who also sent cards of comforting words.

Bause Gann Passes Away Following Stroke

Bause Gann, son of the late Mr. and Mrs. George M. Gann, passed away last Friday in the Hico Hospital, where he had been a patient since Thursday before. He and his brother, Bryan, lived alone at the Gann homestead place four miles west of Fairy. Both had been ill of the flu.

Bause became very ill on Thursday and Bryan came to Fairy to try and get a physician out to the home, being unable to do so. Our sister, Mrs. E. M. Hoover, called an ambulance and had him rushed to the hospital where it was learned he had suffered a stroke and was in a coma from which it was said he never revived.

Bause had been handicapped throughout his life by deafness and since he couldn't carry on a conversation as others, he seldom went about much, but had many friends who visited with him in the home from time to time, which helped to brighten his days here.

He was born Jan. 9, 1891 near Fairy.

Funeral services were held Saturday afternoon at 3:30 at the Fairy Baptist Church, with Rev. Sam Drake of near Hamilton officiating. Burial was in the Fairy Cemetery. Audie Clark had charge of the song service, with Mrs. Albert Mason as pianist.

Pallbearers were Coy Parks, H. O. Richardson, E. M. Hoover, Les-

lie New, Lester Timmerman and T. L. Betts.

Bause is survived by two brothers, Bryan of the home and Sol of Lubbock; three sisters, Mrs. Lotie Commander, Mrs. Maggie Winkin and Mrs. Ace Mixon, all of Fort Worth. He was preceded in death by his parents, two brothers, Jess and Blaine of the home, and Miss Gemima, also of the home.

Our deepest sympathy is extended to those bereaved in his passing, more especially Bryan, who is left alone and will miss him so much. He wishes to thank all who assisted in any way in the illness and at the death of his brother. Bause was a cousin of E. M. Hoover, and also a relative of Mrs. Lucille and Ruby Brummett, all of Fairy and near Fairy.

In these articles which we have been writing, we are attempting to explain some get well who have tried everything else in a vain search for health. In trying to make you acquainted with the common sense philosophy of Chiropractic, we are in reality trying to acquaint you with the way Nature performs her miracles in our bodies. When God created our bodies, He put in everything necessary to maintain them in a state of health, including a bit of Himself which we call Innate Intelligence. This Innate Intelligence governs every function of our bodies. It heals sores, mends broken bones, digests our food, and eliminates waste materials. It makes us hungry so we know when to eat and makes us thirsty so we know when the body needs water. All of this is accomplished over a vast network of nerve fibers which connects the body with the brain. Sometimes these nerve fibers become blocked and malfunction, or disease occurs.

THIS WEEK IN AUSTIN—

Hot Race on For House Speaker Seat in Legislature

By VERNE SANFORD Texas Press Association

Austin, Texas. — Democratic County Executive Committees will decide on March 14 whether to change the old custom of holding rural area precinct conventions in the daytime.

New election law passed last year has already doomed a number of Texas political traditions—like announcing when the dogwood comes out and serving watermelon at election rallies.

Primaries are now held the first weeks of May and June, instead of the last weeks of July and August, as before.

Another change is that a person who wishes to participate in a Democratic precinct convention must have already voted in the Democratic primary held the same day in order to have a poll tax stamped "Democratic."

City precincts won't be affected. There, customarily, the precinct conventions have been held after the polls close at 7 p.m.

In rural areas conventions usually have been held in the afternoon. This enabled people to come in, attend the convention, vote, buy their groceries, all in one trip, and get home in time to do the milking.

Now there is the necessity of giving everyone time to vote before the convention can be held.

State Democratic Chairman J. E. Connally has suggested county committees give thought to holding rural precinct conventions later—possibly not until after the polls close at 7 p.m.

Legislative Races.

With 120 of the 150 House members making a bid for re-election, each of the two leading candidates for Speaker claims that half or more of these probable returnees is pledged to him.

Most active in the speaker's race are Reps. Wade Spilman of McAllen and James Turman of Goben. Some are predicting the race may be as long and hard as the last one between Waggoner Carr and Joe Burkett.

Thirty House members are either retiring from public life (including Burkett) or seeking another office (including Carr). Of the 120 who are running again for the House, 82 have opponents. This means there'll definitely be no decision on the speaker's race until after the primaries.

Neither Turman nor Spilman has an opponent for his House seat.

Of the 16 senators up for re-election, all are running again and ten have opponents.

Unless there should be an unusual number of "upsets," legislative turnover should be about the same or less than usual. "Normal" replacement is about one-third of the House (or 50 members) and a very small number of senators, usually not more than two or three.

Trojan Horse.

Consideration of a federal aid to education bill in Washington has Texans reacting with mixed emotions.

It also adds new urgency to the efforts of those who want to see Texans shoulder school improvement responsibility through passage of the Hale-Aiken program. Gov. Price Daniel said Texans should accept U. S. Senate passage of the federal aid bill as "fair

warning" that Congress will step in if states don't take the necessary action.

If the states let in federal money, they will let in federal control of schools, the governor declared. He called "impossible" the idea of "federal money without strings attached."

Under the aid bill pending in Congress, Texas would receive \$62,000,000, largest share of any state, from a \$1,833,000,000 appropriation. Thus far, very few Texas school districts have refused to take the federal aid now available—for science, teaching equipment, school lunches, etc.

Stick With Guns.

State Board of Insurance has announced five minor changes in the safe driving insurance plan, but in broad effort, the plan remains the same. Board stuck to its guns despite a barrage of criticism.

Main change is that an insurance company cannot deny liability on a policy if false or inaccurate information is given by the policy holder. For instance, a person taking out a policy might, intentionally or unintentionally, fail to tell the insurance company how many accidents or traffic violations were on his driving record.

However, the company would be entitled to collect the higher premiums or damages from fraud if the policy holder had not admitted to his true driving record.

Premiums go up in proportion to the number of accidents and violations on a driver's record.

New Party Leader.

Albert B. Fay, Houston oilman, shipbuilder and rancher, succeeds Jack Porter of Houston as Texas Republican national committee man.

Porter came to power in the party in 1952 as an Eisenhower supporter when the "Old Guard" supporters of the late Sen. Robert Taft were swept aside. Porter stepped down this year because of his health.

Besides electing Fay, the GOP State Committee promised to field a challenger to Sen. Lyndon B. Johnson in the general election next fall. Johnson has no Democratic opponent for his senate post.

Republicans will nominate their candidates at a state convention May 30.

No Loss For Flu.

Not the least of the worries in schools hard hit by influenza was that the district would lose a hunk of state aid money which is based on average daily attendance.

State Board of Education, however, has worked out an emergency "epidemic formula" to help ease the problem.

In flu-stricken schools, the average attendance for the epidemic period will be adjusted to reflect the percentage difference between actual attendance and attendance which would have been expected had there been no epidemic.

Mr. and Mrs. Conda Salmon and Mr. and Mrs. Hershel Sherrard and Sylvia were in Stamford this past Sunday to attend funeral services for Mrs. Robert Luckie. Mrs. Luckie was an aunt of Mr. Salmon and Mr. Sherrard.

THE SPOTLIGHT

All evening I worked polishing up my spotlight. "Oh did she ever shine!" She looked better than I have ever seen. About seven she and I went out for our nightly work. And wouldn't you just know it, I forgot to put new batteries in her and so we had to renew them. The only place still open was that wonderful H & B Grocery. After I got her fixed we were off to Blum. The couples I spotted were Judy G. and Steve O.; Judy M. and Buddy A.; Joy L. and Charles T.; Sheila and Wayne W.; Harlon K. and Linda P.; Kathy H. and Buzzy H.; Margaret W. and Bobby B.

Saturday night seemed to be the eventful night of the week end. Many couples were seen at the Sweetheart Banquet, those spotted being Mildred P. and Bill R.; Kay C. and ???; Judy J. and Scott P.; Margo W. and Ronnie P.; Sharon H. and Gary MB.; Suzanne B. and

The Highway Patrol in this area investigated a total of 53 accidents with the following breakdown: property damage 32, personal injury 19, and fatal accidents 2.

Sgt. Hancock reported a total property damage of \$41,281.00, with 32 persons injured and two killed. This is a decrease of 15 accidents and a decrease of one death for the same period of December 1959.

In conclusion, Sgt. Hancock pointed out that the motoring public has begun the New Year with a wonderful traffic record. "You can help us keep it that way in this area by doing two things," he said. "Know and obey traffic laws yourself—and insist that your neighbors do likewise."

"The knowledge and observance of traffic laws on the part of the highway users is the best antidote we know for traffic accidents," he concluded.

CHATTER

By HELEN OGLE

I hate to start this column off each week with a mention of weather, but that always seem to be a main greeting with people. Personally I think we've had a mixture of ground hog and spring weather, as one day it's so cold and miserable you have to stay by the fire, and the next day you want to open the windows and inhale all the spring air you can.

Sniffles are still in the air, but I think the flu bug has eased its way out. Let's hope so.

First, may I correct an error in Lena Hughes' recipe published last week. It should read as follows: Pour two cups sweet milk into a quart pan and place on burner with one and a half inch flame.

Heat milk until scalded, which will take about five minutes. Beat 3 egg yolks with fourth cup sugar added slowly. Add two tablespoons of hot milk to the egg mixture, one at a time. Slowly add the egg mixture to the milk, stirring constantly, and until it will coat a metal spoon. This will take about three to four minutes. Remove from heat and place in a pan of cool water; continue stirring and add half teaspoon vanilla. Chill in refrigerator.

Have had several say they tried this recipe last week, some with good results, and others had trouble, so perhaps this will solve the problem. Lena suggests that you use the egg whites in preparing a white cake, that is especially good with the custard.

And speaking of food, I noticed in one of our papers that it's poke salad season. If you're lost for

Recent visitors in the home of Mr. and Mrs. Monroe Latham were Mr. and Mrs. Walter Latham and family of Allegany, New York, Mr. and Mrs. James Latham and family of Dallas, Mr. and Mrs. Garland Latham and children of Austin, Mr. and Mrs. Bobby Watkins and family of Euless, Mrs. Margaret Tolliver and Dub, and Mrs. Leroy Hatcock and Harold of Hico, Mr. and Mrs. Loyd Bulard of Iredell, Mr. and Mrs. Alvis Elliott and girls of Joshua, Raymond Loyd of Wichita Falls, Bob Prater and Mrs. Maybelle Lively of Hico.

something different to prepare the menu, you might try it. It is supposed to be quite a delicacy on the food list this time of year. In glancing around town, lots of people out working in gardens and yards on the days. It means sore backs and aching bones, but guess it's those onion plants to be seen and trees trimmed.

New buildings that I noticed past week are the carpet store, George Christopher home, and new home of the Sonny Kell the Hillcrest addition.

Chatted with Mary Elson, enjoying a coffee break this and she's been staying in to avoid the flu.

May we send wishes for a recovery to Mrs. Marvin shall, who is a patient in the hospital, and also to Mr. Frank Gus.

Enjoyed chatting with Hall and Joyce Barnett and little sons, while we were at ping coffee.

Another cold day and rushing for lunch, or that break.

HERE'S WHAT GOES INTO
THE PRICE OF A PRESCRIPTION

You give the pharmacist a piece of paper. A little while later, he hands you a package of medication. What you get for your money is not just a bottle of tablets or capsules or liquid. It's a great deal more. As follows:

RESEARCH - - -
Thousands of man-hours and millions of dollars have been expended by the manufacturers to find the drug that will do exactly the job the doctor wants done.

PRODUCTION - - -
To mass-produce today's wonder drugs—so that all who need them may have them—requires the most fantastically complex equipment. Moreover, complex and costly procedures must be followed to make sure that safety and potency and efficacy are guarded every step of the way—from raw material to finished medication.

AVAILABILITY - - -
The finest drug in the world is useless if it's not available to the person who needs it—when he needs it.

DISPENSING - - -
To make sure he learns how to dispense your medication safely and accurately, the law requires your pharmacist to undergo 5 years or more of rigorous, costly, education and training. To do his job right, he must then invest thousands of dollars in stocking at least 3,000 different drugs, many of them rarely called for. He must also invest in a wide array of precision equipment—expensive equipment—designed for the proper storage, compounding, and packaging of each prescription.

Those are some of the things you get when you pay for a prescription. But over and beyond all these, you also get better health—speedier recovery from illness—fewer hospital bills—and an even, longer life. They all add up to the undeniable fact that:

Adm. Nimitz to Be Honored Feb. 24

Great Lakes, Ill. — The nation pauses on February 24 to honor one of its most distinguished naval officers, Fleet Admiral Chester W. Nimitz, U. S. Navy. The date marks the 75th birthday of the Navy's highest ranking officer—and its only living five-star wearer.

Fleet Admiral Nimitz was born in Fredericksburg, Texas, in 1885, and left high school in his senior year to enter the Naval Academy. Just 44 years later as a Fleet Admiral he returned to his old home town of Fredericksburg in a buckboard hauled by a team of roan horses, with an escort of hundreds of cowboys. That day he finally received his diploma from Tivy High School—the only man ever to graduate from high school in a Fleet Admiral's uniform.

The span of those 44 years was packed with more adventure and drama than 10 ordinary men see in their lifetimes. For Chester Nimitz, it meant graduating with distinction from the Naval Academy, rising from a midshipman to Fleet Admiral, and leading his country's Navy to the most hard-fought and hard-won triumph it had ever known.

This victory was culminated on September 2, 1945 when he signed the surrender terms with Japan aboard the battleship USS Missouri in Tokyo Bay.

There was more to come. From 1945 to 1947 Admiral Nimitz held the post of Chief of Naval Opera-

tions, the top military position in the Navy. In 1948, he became the special assistant to the Secretary of the Navy in the Western Sea Frontier, and in 1949 was appointed by the United Nations Secretary General as Plebiscite Administrator for Kashmir. Fleet Admiral Nimitz assumed this important role of international public servant for the United Nations, and not as a representative of the United States Government.

In January 1951 he was selected to head the President's proposed Internal Security Commission, consisting of nine prominent citizens under the Fleet Admiral's chairmanship.

On his birthday, celebrations will be held across the Nation, most of them under the sponsorship of local Navy League chapters.

In San Francisco, Admiral Nimitz's home area, February 24th will be celebrated by the Admiral, his friends and a host of interna-

Heart Attack Fatal to Carlton Resident, Walter Ernie Burnett

REPORTS**

By E. R. LAWRENCE

O. P. Mercer, Carlton, has about
120 acres of button clover on his
farm that has been giving him
some good grazing through the
winter. Button clover is quite a
bit like burr clover. It grows
under about the same conditions
as burr. Button clover can be used
for sheep grazing to a better ad-
vantage than can burr.

Jim Green, Pecan Wells, said
"When the seeps on my place get
dry enough to work, the rest of
my farm is sure going to need a
good big rain." This is certainly
true and will hold good on many
farms over the county. Small
grains are needing some dry warm
weather as quite a number of
them are showing signs of crown-
ing out. -- E R L --

Now is a good time to do some
top dressing of small grains with
commercial fertilizers, and from
now until grain begins to joint.
An application of from 100 to 200
pounds of 16-20-0 should give good
results -- E R L --

A good demonstration of what
poultry manure will do for small

grains can be seen on the Pierson-
Craddock poultry farm out on
the Shive farm to market road.
Gene Cornelius, manager of the
farm, cleaned out his houses this
fall and scattered the manure over
an acre or so along the road.
The field is northwest of the
house and can be easily seen from
the road. Along the road there is a
strip about twenty or thirty feet
wide where the manure was put.
Look at it the next time you drive
out that way.

Now a cow conveyor. San Ber-
nardino (California) dairy speeds
milking, puts Bossy in motion on
endless belt. Three men milk 285
cows in 3 hours. Trolley-like milker-
ers stay at side of cows as they
take 8-minute ride through presur-
itized, motorized milking parlor.
With the conveyor, milking 285
cows is a three-man job. One man
herds cows into soaker where they
are sprayed to wash off loose dirt.

Just before each cow steps on the
slow-moving (13 feet per minute)
107-foot-long belt, a partition
swings down from above to sepa-
rate her from the cow ahead, and
a small trough in partition is
automatically filled with feed. A
milking machine on overhead
track reaches the second man just
when each cow does. He washes
and examines udder, then puts on
milker. The third man removes
milker just before cow steps off

the conveyor, ending her 8-minute
ride. Looks as though there is no
end to how far automation will go.
The above was taken from an ar-
ticle in The Furrow.

Have you noticed that most of
the grapefruit on the market now
is of the red-fleshed variety? This
is because after the disastrous big
freeze in the valley in 1951, grow-
ers came back with the pink-
fleshed grapefruit.

SUNBURN AND SKIN CANCER

This may hardly be the time of year to be discussing the effects of too much sun, but an American Medical Association spokesman has again pointed out the extremely high rate of skin cancer among Texas farmers and ranchers.

Dr. Stephen Rothman of Chicago, chairman of the AMA's committee on cosmetics, told a clinical session in Dallas that Texas has six times as high a rate of skin cancer as the northern and eastern states. He attributed the situation to the direct rays of the sun in Texas and the fact that many people in the state pursue outdoor livelihoods.

This extremely high rate, he said, could be reduced to a fraction by the daily use of simple sun-protective creams. A number of products are now available. Dr. Rothman reported, which have been found to be absolutely effective in preventing skin cancer if the individual who works in the sun would apply a thin layer on his hands and face each morning.

But his suggestion to the U. S. Public Health Service for such a preventive program, the Chicago specialist said, met with a response something like this: "If you think you can get a Texas farmer to smear cream on his face every morning, then you just don't know Texas farmers."

Consensus of the clinical session in Dallas was that the sun has been highly overrated as a source of health, and that its bad effects for most individuals may considerably outweigh the good.

For the normal skin, said Dr. Rothman, "I am not sure there is anything good to be said about the sun."

Ironically, he pointed out, the confirmed sun bather, seeking a tan which has become symbolic of youth, is hastening the aging process and prematurely developing for himself an unattractive, old-looking wrinkled skin. The full

effects of sun bathing have not yet been completely assessed, because the fad has not been prevalent for a sufficient length of time to provide the required study.

But Dr. Rothman holds to the theory that modern man, provided with plenty of nourishment and vitamins, could live in perfect health for many years in a cellar without ever seeing the sun.

IT HAPPENED . . .

HERE OR NEAR

By E. E. DAWSON

In the manner of Hal Boyle: What one would ever know if he did not read the Texas Almanac published annually by the Dallas News.

Texas has 345 mountains, including the peaks, listed in the Almanac. They range from a few hundred feet above sea level to 8,382 feet, which is the height of Mt. Livermore, in the Davis Moun-

tains in Jeff Davis County.

Does Hamilton County have any mountains? Yes: one: It is Lone Mountain, and is 1,300 feet high. Please don't ask me to locate it just yet. I've got to make inquiries.

What about Erath County? It has three listed: Brushy, 1,500 feet high; Twin Mountains, 1,650 feet high; Washout, 1,500 feet high. And I wonder where they are.

And Bosque? One: Sugarloaf, 1,000 feet high. Coryell has numerous peaks above 1000 feet high, and so does Comanche.

But have a look at Brewster County. It has the greatest number listed: sixty-seven, and they range up to over 7,000 feet. Next in number is Jeff Davis with 24, which includes the highest in Texas, Mt. Livermore, 8,382 feet above sea level. Then in order come Presidio with eighteen, Hudspeth with fifteen, Culberson with thirteen, El Paso with five and Pecos with three, all of them up to five thousand feet high or higher.

It is interesting to see how some names have been attached to mountains, or peaks, repeatedly. For example, Hamilton has its Lone Mountain, as does Llano, then there's Lone Oak in Llano and one Woman in Hays County. It is easy to see how the others got their names. But one would be willing to wager there is an interesting story connected with that one Woman in Hays County. Did she get lost? Did some matron live alone on it or its foot in the pioneer days?

Then there are six Hog mountains in the state. They are found in Bell, Runnels, Coryell, Williamson, Stephens and Brown.

Seems like hogs were rather numerous in the days when mountains got named. One name that interests me is that one in El Paso County named Anthony's Nose. It is pretty high: 6,906 feet. Wonder which Anthony it was—there have been several.

There are five Black mountains and four Blue. Why they were so called is evident. Several have the name Indian and one Indianola. Cedar got attached to only two. Corn Mountain is found in Brown County, not very high. Comanche Peak is one of the most noted elevations in this area. It is in

Hood County, just west of the highway that runs from Glen Rose to Granbury. In pioneer days the cattle trail ran from what is now San Angelo to Brownwood, and then ranged northeast by Comanche Peak toward Red River and on to Abilene, Kansas. Landmarks were important in pioneer days, and Comanche Peak helped many a cattle herd to stay on course.

Nine mountains have Round as part or all of their names. And believe it or not two mountains are called Potato, one in Comanche and one in Burnet. Then there's Sand Hills, Sand Mountain, Sandstone, and Sandy Mountain. So not all the sand blew away: some of it piled up and stayed put.

Both Bosque and Coryell have their Sugarloafs. And Flat Top is the designation of four.

How's this for a name: Smoothington, over in Llano County? Sawtooth out in the western part of Jeff Davis County is one that I have looked at many a time from a distance of as far as seventy-five miles. It resembles the teeth of a huge saw seen from afar.

Then there's Tallowface, and Twin (four of them) and Wild Horse, Rattlesnake, Shoe Peg, Shovel, Nubbin, Nipple, Hayrick and Hueco (which is pronounced Waco).

Well that's all for this week.
