REUNION—1960—Miss Mary Jo Clark, daughter of Mr. and Mrs. A. B. Clark of Hico Route 3, and a student in Fairy Schools, named Miss Reunion of 1960 during activities last Wednesday night of the Annual Reunion. Miss Clark, who is the youngest winner of the contest at 14, was sponsored by Hico Garden Club. She won the title over 39 other girls. Runners-up in the contest were Miss Anita Mayfield, right, daughter of Mr. and Mrs. Jack Mayfield of Hico, and Miss Diann Blue, left, daughter of Mr. and Mrs. Cletos Blue of Iredell. This is the second year in succession that Miss Mayfield has been selected in the top three contestants, being named runner-up last year. Crowning the new Miss Reunion was Mrs. Buddy Ables, winner of the first contest in 1958. She presided in the absence of Miss Brenda Claunch, last year's winner. Trophies were presented the winner by Howard Drug, and the two runners-up trophies were presented by the Hico News Review. (Luker Photo, Hamilton)

Cook for her part in staging the Miss Reunion contest.

Successful Reunion Ends Saturday Night

Fifteen old fiddlers entertained a standing room only crowd last Saturday night at City Park, ending the 74th Annual Old Settlers Reunion. The celebration started Wednesday with the traditional parade, and continued for four nights. The Reunion, oldest homecoming event in the state, was an apparent success from all standpoints. Large crowds attended each of the four nights, with perhaps a record gathering on the first night. Wednesday evening activities were concluded with the crowning of the 1960 Miss Reunion. Miss Mary Jo Clark, daughter of Mr. and Mrs. A. B. Clark of Fairy, was winner of the contest, which featured 49 entries. Miss Anita May-

field of Hico, and Miss Diann Blue of Iredell were named runners-up. Thursday night featured square dancing, with the Cross Trails Club from Abilene furnishing the entertainment. Friday night, lightest of the four nights in attendance, featured a string band from Hamilton, who offered two hours of entertainment. Saturday night the fiddlers took over. At the conclusion, Norman Salmon of Azle was named winner, with Bryan Houston of Cisco named second place winner. Ben Moroney of Dublin was third. Free merchandise was also given away Saturday night by those merchants having display booths at the park.

Vacation Time About Over—

It's Almost That Time Again— School Will Start Sept. 6

"School days, school days, good old student rule days . . ." It's almost that time again, and if you're a wise parent you'll get ready ahead of time. There is lots to do—buy clothes, fit shoes—and if your child is entering the first grade, chances are you will need a birth certificate. Most school districts in Texas, Hico included, require that first

year students must be six years old before September 1. The best means of proving your child's age and birthdate is to have a certified copy of his birth certificate. It is important that parents take care of this chore as early as possible. In addition to birth certificate, it would be wise to check with your school district regarding any vaccinations that may be required. It would be a good idea, if you have not already done so, to get your child started on his series of three polio shots before school starts. Also, a fourth shot or booster is generally recommended for added protection. Another smart idea that will pay off is adjusting your child's schedule to approximate that of school time, including bedtime, meals and especially awakening time. Hico public schools will begin the 1960-61 term Tuesday, September 6.

1950 Hico Graduates Enjoy 10th Reunion At Youth Center

The night of August 6, fourteen young people met at the Youth Center to celebrate the tenth anniversary of their graduation from Hico High School. Myrna Sparks Murphy, acting as mistress of ceremony, began the entertainment by asking each member to bring himself up to date, and contrasting the accomplishments with those foretold in the class prophecy. Amusing incidents from The Mirror were read, proving the class had led a very busy high school life in work and play. Two tables of pictures were arranged, one of high school days, the other of their children. There was little difficulty in identifying the high school snapshots, but the others often presented a problem. Mr. J. E. Lincoln, the superintendent of Hico Schools in 1950, showed his movie film of the class trip to Galveston. Remembering together their happy, carefree times made the group reluctant to bring the evening to a close. The fourteen class members present were Patsy Tooley Fillingim, Wanda Johnson Rumph, Valma Norrod Wade, Betty Alexander Duncan, Derel Fillingim, Wendell Burden, Betty Hicks Christian, Wanda Jean Carpenter Wadlington, Myrna Sparks Murphy, Valmer Norrod, Louise Barnett Simpson, Lois Grey Avirett, Bobby Ratliff, and Donald Davis. Guests of the class were husbands and wives, some of them former Hico students, and faculty members. Members of other classes attending were Buck Fillingim, Betty Goughly Burden, Wilma Woodard Fillingim, Coolidge Wade, Mary Jo Carpenter Mackey, Earl Simpson. Faculty members present were Mr. and Mrs. J. E. Lincoln, Mrs. Bryan Angell (class sponsor) and Miss Helen Thomas. Contributed.

News on Twentieth Century Pony Express Given by Visitor

Mr. Editor: My family and I usually spend the summer here and we live in Dallas. I always look forward to the Hico Reunion as it is always a lot of fun. Yesterday I saw the relay race between Hamilton and Meridian and I enjoyed it so much. It really did seem like a pony express and it was very exciting. I can't believe many people don't know about it, and I wish you might like to see some of the news of someone who did. Sincerely, Elnora Daniel.

Hooves drummed faster and faster and gravel flew as horses responded to cries of "Come on-a-n baby!" Dreaming? Shucks no, pardner; the Pony Express was riding again! The saddle clubs of Hamilton and Meridian were racing from Iredell to Hico. Hamilton rode on one side of the highway and Meridian on the other. Riders were stationed about a half mile apart. A pink flag, tightly rolled, was handed from rider to rider. The entire race took only twenty minutes! Even the horses were excited as they neared the finish line! The rider from Hamilton flashed across to victory. The Hamilton club, tired, happy, and triumphant, received congratulations from Meridian; also tired. Thanks folks, for a race well run!

PARADE LEADERS—The peppy Meridian High School Band led the parade which marked the start of the 74th Annual Reunion last Wednesday. Shown here is a portion of the marching group.

CARD OF THANKS

We appreciate everything that was done for our loved one during his illness and at the time of his passing. We thank you for the nice food and the many lovely flowers and cards. Human hands and beautiful words may do many things to help and strengthen sad hearts, but there are times in our lives when human efforts are altogether inadequate. Only God is able to undergird and uphold. One who has experienced the comfort of God is a channel through whom God can work to comfort others.

Barbara's
NOTES
NEWS
ONSENSE

By BARBARA RANDALS

Well, if everyone else is like me, they are broke after the reunion. There sure were a lot of ways to spend your money.

I saw so many people at the reunion I didn't know and a few I knew but hadn't seen in a long time.

There were a lot of kids from neighboring towns at the reunion one night or another.

Laine Heizer, Sharon Ward, and their dates were here from Dublin. I also saw Vicki McCarty and three others with her from Dublin. Jimmy Wilson and date, also Roger Edmondson was here one night.

Another night seemed to be the night for the Hamilton kids. I saw Ronnie McDaniels, Jerry Moreland, Don Lomax (and dates), Travis Johnson, Cindy Robinson, Michael (I forgot her last name), and a whole group of others.

Stephenville kids were here nearly every night. I saw Dale Anderson, Bobby Glasgow, Jerry Ward, Eugene Byrd, Benny Jones, Jimmy Cole, Cynthia McMahan, Ernest DeLeon, Jerry Knight, Nicki Beth McAden, Melba Koonsman, Mack Wall, Linda and Ronnie Driver, just to name a few.

There were a lot of kids from Iredell, Carlton, Fairy, Clairette, and Duffau. In fact there were so many I couldn't name them in a week.

Mrs. Gamble's grandchildren, Donald and Paula Swor, 18 and 15 respectively, were here from Houston with their friend, Paul East. They, along with Glenda Stevens and Rose Ann, were cruising around town in an Impala convertible. They went bowling, swimming, and of course, to the reunion.

There seems to be a new fad around town lately. This one concerns either stitches or getting scratched up.

Shelly Hooper had a little trouble with a crowbar and it hit him in the face. The result: two stitches in his left cheek.

Neil Ellis was careless when he was balancing a wheel and

ended up with five stitches across his nose. When I asked him about it he told me a tall tale about this wild woman he went with. You know Neil!

Bobby Boone and Mitchell Mayfield were at it again the other day. They were racing up the street—on motorcycles, and there was a slight collision. It happened right in front of our house and I saw part of it. It surely scared me. A couple of people who saw Mitchell nearly had heart failure. They rushed him to the hospital and he came out with nine stitches plenty of loose skin, and shots. Mitchell had a gash in his head. He said they gave him a free shampoo and shave—his head that is. He got nine stitches for his part of the joy ride and Bobby got skinned arms, hands, etc. They seemed to be feeling pretty good when we saw them—just a little shaky.

Montye Ogle told me all about a little boat trip he and Milton Lowry are going to take. They intend to go down the Brazos River from Possum Kingdom to Glen Rose. They are a modern-day Lewis and Clarke—they just want to see if they can do it. I hope to find out about it when they get back—if they go.

Jerry Stringer was in town this week. He was telling us all about the awning business and gave us advice on how to get a traffic ticket. He's just gotten five in the past two months. Better luck next time, Jerry.

The Hoopers decided to take a little plane trip—to Cleveland, Ohio. They left Tuesday and won't be back for about two weeks. Everyone certainly will miss them. When they were packing they found some things that had been lost for two years. I'll feel lost the whole time Janet is gone.

That's about all the news I know this week. I hope I didn't miss anybody or anything but there have been so many things I probably did. With all the wrecks, the reunion, and visitors, I've felt

Reunion fatigue or summer slump, whatever you choose to call it, everyone seems to be suffering from it this week. It could be an overdose of both, as I think we all enjoyed the reunion, and this summer weather has certainly been hot.

We miss Teddy Herron of Lawn around the office this week, as he was the best paper seller we will ever have, and he was always eager to run errands. See you next summer, Teddy.

A nice letter received this week reads as follows: "Please send the News Review to me at Box 231, New Deal. Enclosed you will find a check in payment of a year's extension of our subscription. We thoroughly enjoyed our twelve-year association with the schools and people of the Hico-Duffau area and will continue to be interested in both. We got moved into our new location without incident, and will look forward to receiving the News Review each week in order

to keep up with the happenings. Sincerely, A. A. Chandler." David Russell, young son of Dock and Jewell Russell, had an afternoon walk each day with his mother, and last week he passed by the stand. David explained to David that our supply came from those tall ers and he seemed to understand the explanation, but he wanted to know which tower produced water!

"Cat Fur to make you warm is what Sim Everett did when he crawled into his car, and sat on the clutch. Mamma cat had her five little kittens had a nice bed, and when David got in a hurry to get out, he gave some cats away."

Kay Jameson is having to take a sharp eye on the dark side of the Drug Store. More details Hazel Ramage posted in a run this week trying to get on vacation.

THIS WEEK IN AUSTIN—

Surprise—U. of T. Officials Ask Only \$40,000 for Home

By VERN SANFORD Texas Press Association Austin.—How much income does an older person need to live decently during the retirement years? Governor's Statewide Advisory Committee on Aging sought to discover this and other information in a survey on the needs and problems of Texas' older citizens. For a couple, 43 per cent of Texas counties estimated the minimum need at \$1,500 to \$2,000 a year. Thirty-five per cent set the minimum at \$2,000 to \$2,500. For a single elderly person, 58

per cent of the counties suggested \$1,000 to \$1,500 as a minimum annual income. Twenty-four per cent named a higher figure, \$1,500 to \$2,000. Some 4,000 persons took part in the grass-roots, county by county survey. Recommendations growing out of their findings will be discussed at a conference in Austin on September 7 and 8. Out of this will come the Texas contribution to the White House Conference on Aging next January. Surprise! Amid all the upped budget re-

quests they have received lately, state officials were happily stunned when University of Texas officials asked approval to spend a comparatively picaune sum for a president's home.

UT asked to spend \$40,000 to build a home for its president, Harry H. Ransom. Last year legislative tempers blew over the \$100,000-plus president's homes built by two smaller state colleges. Officials responsible for the expenditures were called on the carpet.

This time the scene was played in reverse. "Do you really think this will be enough?" worried the Legislative Budget Board. Plenty, said UT officials.

They said they'll use a site the University already owns, clear it with University equipment and cut material costs by using "historic" bricks from UT buildings that have been torn down.

Driver Curbs Studied.

Ways to clip the wings of irresponsible drivers who carry no insurance are being studied by a committee of the Texas Legislative Council.

Spokesmen for the casualty insurance industry told the panel they were opposed to a compulsory insurance law. They suggested that pressure could be exerted by such measures as requiring uninsured drivers involved in accidents to put up a money deposit, revoking licenses, impounding cars, etc.

Committee also heard Department of Public Safety Director Homer Garrison Jr. urge a system of traffic courts for Texas. County courts are completely bogged down by the appeals from traffic cases, said Garrison.

Highway Lease Prospects Dim.

Chances of the state's earning money by leasing mineral rights along state roadways are not encouraging, a legislative committee found.

Committee learned from a national survey that only two oil and gas producing states get income from leasing highway rights of way. One reported earnings of less than \$100; one of \$5,763.

At Attorney General's opinion recently held that the state owned mineral rights along the roadways. But State Highway Engineer D.

C. Greer reported there's not much demand for highway leases.

School "Hospitality" Hit.

Texas School for the Deaf has been serving free meals under circumstances not authorized by law, reported State Auditor C. H. Cavness.

During the past two years, said Cavness, the school has served 3,525 free meals. Most were for pre-school age deaf and blind children and their parents here for special summer courses for parents.

School is authorized by the State Board of Education to hold the summer courses, Cavness observed, but it is not directed either by law or by the board to serve free meals to participants.

Cavness' audit showed the school has an average of 503 pupils at a cost of \$192 a month per pupil.

Credit Card Liquor Sales.

Diners Club, Inc. won a court order allowing it to continue—at least temporarily—collecting for package liquor store purchases made with a credit card.

An Austin district court granted a temporary injunction halting enforcement of the Texas Liquor Control Board order prohibiting such sales.

Liquor Board contends that by becoming the collection agent for liquor store purchases, the Diners Club is, in effect, selling liquor without a license.

Diners Club says it simply buys up the accounts of its card holders from the liquor dealers and takes responsibility for collecting. Club has contracts with package stores in nine Texas cities.

Short Snorts.

Texas Highway Commission has announced a policy of using only materials manufactured in the United States for construction of roads and bridges. Policy is to be re-considered if shortages or sharp price increases develop in U.S. made materials.

Texas ranks well below most states in the percentage of personal income paid in state taxes. Governor's State Finance Advisory Commission found that Texans pay 2.9 per cent of their per capita income in taxes, compared to a national average of 4.2 per cent.

AVERAGE BEEF PRODUCTION COST

Exact average costs per mother cow to produce beef in Texas in these days of high expenses have now been figured out by the Texas Agricultural Experiment Station in East Texas. If no charge is made for the operator's labor, the average cost per mother cow per year comes to \$82. In such case, the operator could cover all cost if he obtained 21.5 cents per pound for his beef, but he would be throwing his labor in to the deal with no actual return. Then, cutting the bookkeeping still further, if interest on investment should be excluded the cost of production would come down to \$65 per cow. With a return of slightly more than 17 cents per pound the operator would be receiving a fair wage for his labor, but would not be getting enough to cover any return whatever for interest on his monetary investment. If labor and interest costs both should be excluded, the annual cost for producing 378 pounds of beef each year would come to \$47 per mother cow. This means that over a short period of time the operator could receive 12.5 cents

Crop Fertilization Necessary To Gain Maximum Yields

By L. A. MILES

The need for fertilization of crops has been known for many years. When the first settlers arrived on the New England Coast, more than three hundred years ago, they found the Indians using fertilizer to increase production of corn. In late fall or early winter the Indians would bury fish in the ground at spots where they intended to plant corn the following spring. Experience had proved to them fertilizing the land in the fall and winter meant they would have more corn to eat the next year.

In January 1871, Henry Stephens of Edinburgh, Scotland, made the following observation in the preface of his book, "The Book of the Farm", Volume I: "The low (farm products) prices from 1815 to 1840, a period of 25 years, had so very depressing an effect upon the energies of the farmer that many a deserving one had to succumb under their depressing power; and a fearful collapse in all (agriculture) might have ensued but for the fortunate and well-timed discovery of that valuable fertilizer, bone dust, in raising large green crops for the support of livestock, upon the increase of which in number and weight the existence of farmers was then obliged chiefly to depend."

Stephens also stated since 1840, practical and scientific agriculture have marched hand in hand. This statement still is true and both the practical and scientific aspects have progressed beyond the imagination of any one who lived a hundred years ago. The combined progress is so great that authorities say one agricultural worker today produces enough food and

fiber for 24 people. The upsurge in production started with the scientific discovery of the value of "bone dust" applied to the land to increase the production of "large green crops for livestock."

Millions are being spent on research and experiment to further increase agricultural production. Much of value has been learned and the information is made available to all ranchers and farmers through the USDA and the State Department of Agriculture. Fertilizer is not a panacea for all agricultural ills but is a definite benefit when properly applied at the right time. The time and manner of application depends on too many factors to be discussed here. However, this information is available through agricultural agencies, particularly through trained personnel of the Soil Conservation Service. They have studied the proper use of fertilizers for all

crops grown on the different types of soil and have observed the results. In many cases results have been gratifying. Yields of small grain and grain sorghums have been increased 30 per cent, 50 per cent, and in some cases as much as 100 per cent where a program of proper use of fertilizer has been in effect from three to five years.

The use of fertilizer is not a solution for all farm problems, but properly used can and will increase production and production is the only thing a farmer can market.

This district is very fortunate in having an enthusiastic board of supervisors, a group of practical farmers and ranchers, and a Soil Conservation Service personnel with the scientific knowledge required for practical application of soil conservation practices. Through the concerted efforts of this combination working together, agriculture will continue to progress. The use of fertilizer is only one factor, but an important one that should be carefully considered by every farmer in the district. It is a proven fact it will result in additional net income.

IT HAPPENED . . .

HERE OR NEAR

By E. E. DAWSON

Since Texas has been inhabited by an Anglo-Saxon population only one earthquake of much intensity has occurred. That was in the late summer of 1931. It was my good fortune to be in the area that was most affected by it. I say "good fortune" because it was an illuminating experience, and one would never know just what it means to feel the earth shaking like a wet dog trying to shake the water from his coat after coming out of a body of water, unless he experienced it.

It all occurred in the twilight of early morning. We were all sleeping soundly when all at once the house began to bounce up and down and rattle like an old worn out wagon travelling at high speed over a rough road. I jumped up and rushed out in the yard just as the tremor subsided. The other members of the family gathered around me and all at once asked, "What happened?" I replied, "It was an earthquake." I suppose people always recognize an earthquake even though they have never experienced one before. You just know things rose and fell and rattled and it comes to you automatically that an earthquake has occurred.

The center of the disturbance was in the mountainous region about eighty or ninety miles southwest of where we lived. Seismologists hastened to the central point of the tremor and discovered that an area some acres in extent has settled many feet below the common level. The explanation of the scientists was that a subterranean cavity had had its roof fall in and that the consequent falling of the debris had caused the shock. That

was one time when everybody had something to talk about, in the homes, on the streets, in the church pews as folks gathered for worship. The newspapers had story after story of the event and quoted a lot of folks who had been near the center and a lot of lurid stories was the result of the interviews.

In a few days after the quake I was in the home of Uncle Dick, a pioneer resident of the area. Earthquake was all Uncle Dick could think of to talk about for many a day. He described how it had occurred at his house.

"I was settin' on the back porch a-lookin' out towards the mountains to the southwest and I heard a lot a noise and as I looked 'ward the noise I saw the ground risin' an' fallin' like the waves out there on the lake. I just could'n imagine what in tarnation it wuz. I jus' set there kinda paralyzed as the waves came on and then they were right there in the yard and the o' house kinda riz up and set down again and kept risin' an' fallin' for a minist or more like I wuz in a boat when waves is risin' purty high. I wuz never so skeered in my whole life. I shouted to wife that it a' earthquake and she come to the door and sed she knowed it. I shore hope I never see another one. One's a plenty."

Evidently Uncle Dick, in spite of his disposition to exaggerate, told it about like it happened, for other folks of the community said about the same thing. Really, it was an all-time experience.

Mr. and Mrs. Ray Russum of McGregor visited with Mollie Harvey Sunday.

FAIRY

By MRS. EUNICE DANIEL

We were sorry to learn that our sister-in-law, Mrs. O. L. Jacobs of Stephenville had the misfortune of fracturing the bones in one of her wrist last Sunday week at the Wooten Hotel in Abilene while she and her husband were there attending a reunion of World War I veterans. She fell while walking down a hallway. She was taken to the Stephenville Hospital and the limb was put in a cast.

Louis Heyroth was returned home from Hillcrest Hospital in Waco last Tuesday, where he recently underwent surgery. He is able to be about some.

Almo Heyroth of Walnut Springs underwent head surgery at the Clifton Hospital recently. He had also been receiving treatment at Hillcrest Hospital.

Mr. and Mrs. Dean Barnett and family of Amarillo and Mr. and Mrs. O. J. Clark Jr. of Fort Worth and Mr. and Mrs. Milton Clark and family of Garland visited during the week end with their parents.

CARD OF THANKS

I wish to express my sincere thanks and appreciation to all who sent cards and flowers during my recent illness in the Hico Hospital. I especially want to thank the blood donors.

Mrs. Grady Weatherford.

CARD OF THANKS

I wish to express my sincere thanks and appreciation to all who sent flowers and cards, and to all who visited me during my recent stay in the hospital. Special thanks to the doctors, hospital and clinic staffs for their kindness.

Mrs. P. M. Cox

Mr. and Mrs. O. J. Clark Sr. and attended the Hico Reunion. Funeral services were held in Stephenville Tuesday at 2 p.m. for Orville Moore, brother of Mrs. Ted Arrant. He passed away Monday. We extend sympathy to those bereaved in his passing.

Mrs. Chestena Smith of Mineral Wells and her daughter, Mrs. LeRoy Johnson of Stamford visited in the home of Mr. and Mrs. Coy Parks Sunday. They also visited at the Fairy Cemetery, and each left a donation of \$5 for the association. We certainly appreciate their thoughtfulness. They are former residents of Fairy. Mrs. Smith is the former Mrs. Chestena Barbee Jones. They resided on the present Edwin Guinn place, the former E. J. Parks place.

Mr. and Mrs. Leon Springer and family attended the McNeill family reunion at Rockdale last Sunday. His grandmother, Mrs. McNeill, who had been visiting in their home the past week, accompanied relatives home from the reunion. It will be remembered that Mrs. McNeill's husband was killed in a storm at San Angelo several years ago. She saved her life by crawling under a dresser.

Mr. and Mrs. Alton Parks spent the week end with his parents, Mr. and Mrs. Coy Parks. Their son, Rickey, returned home with them after a visit with his grandparents.

Mrs. Charles Price of Austin spent from Thursday until Sunday with her father, P. L. Cox.

Mr. and Mrs. Carl Ray Sellers, Carolyn, Jimmie Don and Janice attended the annual Sellers reunion at Jonesboro Saturday night

and Sunday. A nice tabernacle has been erected among shade trees in the Carson Sellers pasture where the reunion will be held each year. Prior to this year they met at the old Jonesboro bridge on the river.

Several from here attended the REA meeting at Hamilton last Friday night. Only prize winner from here was Mrs. Billie Sreater who won an electric heater.

Many of our folks attended the Hico Reunion. Four of our young ladies were sponsored as queen contestants. These were Misses Gwen Gray, Patsy Whitaker, Mary Jo Clark and Carolyn Sellers. Miss Clark was named Miss Reunion, 1960. Congratulations Mary Jo.

Mr. and Mrs. H. O. Richardson and Jerry visited Sunday in the home of her sister, Mr. and Mrs. Lawrence Adams of Hamilton. Other visitors in the Adams home were Mr. and Mrs. Garland Latham and family of Austin. Jerry accompanied the Lathams home for a week's visit.

Mr. and Mrs. E. L. Parks and daughters of Fort Worth visited during last week in the home of his mother, Mrs. M. E. Parks and Audie.

Mrs. Shirley Abel and children, Miss Darlene Clark and Harry Thornton, all of Fort Worth, spent the week end with the ladies parents, Mr. and Mrs. Audie Clark and attended the Hico Reunion.
