HICO, TEXAS AUGUST 19, 1960.

NUMBER 16.

WERE IN HICO

By E. V. M.

When this desk receives anonymous letters through the mail, we take them with a grain of salt, and they later find their way to the now-famous "file."

We're making an exception on the letter below, even though it carried no signature. The letters are taboo in this place, and just because we're making an exception with this one, we don't take pen in hand and write a non-sig letter to us, more than likely it too appropriately filed.

One might get us in more than we care to be in, by going to take a chance at it anyway.

Editor: I'm deeply concerned about the trend of more and more merchants closing their doors on Saturday after-

noon. The trend continues, then we will have only a small number of shoppers each Saturday, which is bad.

Hico is probably always a Saturday town. Merchants cater to the rural people and those in neighboring communities for the bulk of their business. If Hico merchants continue to close, then we people that we depend on for our essentials, they didn't purchase in the middle of the week. They get in a habit of trading in these other towns, and Hico will wake up to find that it no longer can do much for a merchant market.

Hico may be a one-man operation unless the business of Hico pursue this business in a more aggressive manner, they're lost. Businesses adjust their hours the way they want them—rather, most adjust them to fit the needs of patrons.

Businesses all around Hico are daily fighting to break this trade territory, and Mr. Merchant, are playing into their hands by not opening up shop. If people can't get that small item needed in their direction from our city and buy it—and while purchase other household necessities as well.

Merchants had better re-evaluate their closing hours, start catering to the buy-ers.

LONG-LOST CUSTOMER.

When we've stuck our necks out for you, please let us know. If so we'll be glad to help, and we'll even leave a note of the letter at your door.

PLEASE sign the letter.

Rural Accident Summary for July Released This Week

Sergeant L. M. Hancock, Supervisor of the Texas Highway Patrol in the Belton Area, released Falls, Bell, Coryell and Hamilton County's rural accident summary for the month of July.

The Highway Patrol in this four county area investigated a total of 54 rural crashes. The by-product of these 54 crashes were: 3 persons killed, 29 injured, and a property damage to vehicles of \$25,648.00.

Sgt. Hancock reported a total of 377 rural crashes over the first 7 months of 1960. These crashes resulted in 20 persons being killed, 204 injured, and vehicle damage in excess of \$200,000.

This compares to 331 crashes over a like period in 1959. The 331 crashes in 1959 resulted in 24 persons being killed, 195 being injured and \$183,395 worth of vehicle damage.

"So far this year we are about holding our own, accident wise, as compared to last year," Sgt. Hancock concluded.

"There are a number of lives yet to be saved or lost in this area, depending on what you do over the next five months. We, in the Department of Public Safety, will continue a program of strict rural traffic law supervision. This program, however, will not be effective unless it is given the full support of the motoring public. We urge you to assist us in this endeavor so that we may finish the year 1960 and be able to show them a saving of the most precious thing in the world—that of human life," Sgt. Hancock concluded.

Twenty-Two Candidates Report for First Grid Drills

Twenty-two candidates for the 1960 Hico Tiger football team greeted Coach Jack Barnett for the first fall workout Monday. Two boys who were expected failed to make an appearance, but Barnett expects them by next week. Mark McElroy, a letterman, and Freddie Naul, squadman last year were the absentees.

Including McElroy, Barnett will have eight lettermen from which to form his squad. In the group are Neil Ellis and Bobby Boone, potential all-district performers. Mitchell Mayfield, Fieldon Haley, Lee Blue, Harold Hathecock and Don Jernigan.

Miss Joy Johnson Crowned Queen of Erath Farm Bureau

Miss Joy Johnson, daughter of Mr. and Mrs. E. C. Johnson of Dublin, was crowned Erath County Farm Bureau Queen at the meeting Friday night, Aug. 12, held at the City Recreation Building in Stephenville.

Miss Kay Fulcher, daughter of Mr. and Mrs. Martin Fulcher of Stephenville, was runnerup.

Miss Johnson will compete for the district title in Winters Theatre Sept. 1. There will be queens from approximately 18 counties entered in the district contest. The winners of the district competition will compete with other district winners for the State title in Dallas at the State Farm Bureau Convention in November. Winner of the state contest will go to Denver in December to compete for national honors.

Miss McFadden Will Graduate From School Of Nursing at Temple

Miss Valorie Laverne McFadden, daughter of Andrew McFadden of Clifton, formerly of Hico, will be awarded her diploma at the 57th annual graduation of the Scott and White School of Nursing to be held on Friday evening, August 26 at the First Lutheran Church in Temple. This year's graduating class of seventeen will bring the number of nurses graduated by Scott and White to 1,052.

Miss McFadden's graduation marks the successful completion of three years of study and training at Scott and White.

Ellis and Boone, two of the top performers for the Tigers last year until injured prior to district play, could be the spark needed to carry the locals to one of the most successful seasons in history. Their success, however, depends mainly on finding replacements for graduated squadmen.

Lee Blue, the giant of the team at 250 pounds, will anchor a line that will have to have some help to be effective. Haley, Mayfield and McElroy are experienced in the line, all being letter winners. Foremost of the squadmen from last year is Mike Lowe, who is being counted on to fill the center slot.

Barnett is also expecting help from Gary Brewster, 170-pound freshman, who could make a fine back player.

Don Jernigan, sophomore-to-be, is currently being drilled for the quarterback slot, a post which he has all the physical ability to fill. Rounding out the backfield will be Ellis, Boone and Hathecock.

Drills are being held daily at 5:30 p.m., and that schedule will continue for the first 10 days. After that the boys will take the field for two-a-day sessions until the first game on September 2.

The schedule this year finds the Tigers hitting the road for the first four encounters. They open play September 2 at Tolar, and then go to Dublin, Blanket and Early on successive Friday nights. First home game will be played Sept. 20 with Gorman furnishing the opposition. The Gorman game will be followed by Gatesville Training School and Meridian at home. Valley Mills and Cranfills Gap away, an open date, and the season finale at Hico against Evant.

Dublin and Tolar are new faces on the slate this year, taking the place of Boyd and Aledo.

The Tigers will step up in class somewhat in two of their games, Dublin being a Class AA school, and Early a Class A.

Carlton Schools to Open Monday, September 5

CARLTON, Aug. 15.—The Carlton Board of Education decided at its regular meeting on July 29 to open school on September 5. This date would allow school to end May 19 unless delayed by bad weather or illness.

Mr. Leo Williams, the new Vocational Agriculture Teacher, is already on the job. He and Fred Self represented Carlton at the FFA Convention in Houston.

Carlton's faculty is complete provided an agreement is reached with Mrs. Valeria Tinker for Vocational Homemaking. Carlton's schedule now provides four years of mathematics and four years of science as required by the Texas Education Agency to meet accreditation. Shorthand and commercial arithmetic were added last year.

New School Bus.

Carlton schools purchased a 36-passenger bus from Superior Coach Company through the State Board of Control. The State Board as

purchasing agent for all school districts of the state provide for competitive bids by several manufacturers, which allows a considerable saving to the schools. The bus will be received before school begins.

Carlton's transportation had been losing money for several years under the direction of the County Superintendent and the County School Board. The Carlton Board voted to operate their transportation system independently of the County Board.

With the addition of new equipment, it became necessary to borrow money for the purchase of the new bus. As the Carlton District had the opportunity to borrow from two different sources the necessary money at five per cent on time warrants demonstrates the sound financial standing of the district. Under local management the board felt that the transportation could be made to pay its own way.

The annual Broyles reunion was held at Brownwood last week end, Friday through Sunday. Mr. and Mrs. C. M. (Chock) Broyles of the Lanham community attended from Friday until Sunday. He reported their sister, Mrs. Bead Marshall of California attended. We would have surely liked to have met her again. She was one of the bunch in this scribe's teenage days. Mr. Broyles stated he made an announcement of the duties of the children to send in a donation for the Fairy Cemetery, as their parents, a sister, Lou, and other relatives are buried here, and they quickly responded with a \$22.50 donation. Thanks so much to all.

We feel we owe an apology to Mrs. Dellis Seago for failing to give her credit in our news letter for a \$5.00 donation for the cemetery. The check was turned into the bank on July 28, but having received a number of donations along at the same time we just overlooked mentioning her name. Mrs. Seago has been very faithful to help out regularly. Please excuse us this time, Ione.

Nona Brunson is hoeing at the cemetery today, Tuesday. We're having him hoe all Johnson grass and go down and get all of those roots possible. We think it will be cheaper to try to kill it out rather than keep hoeing.

So cool...so clean... so modern

Electricity is your better way to cook...because it's FLAMELESS

You'll enjoy cleaner cooking in a cooler kitchen when you cook the flameless electric way. Electric heat is as clean as electric light, so your utensils, kitchen walls and curtains stay new-looking longer. Flameless electric surface units transfer heat by direct contact with utensil bottoms, so little or no heat escapes up the sides to raise kitchen temperatures. And because an electric oven requires no oxygen to operate, there's no need for a draft of air through the hot oven and into your kitchen. See your electric range dealer soon.

ONSENSE**

By BARBARA RANDALS

The weather lately would make you think summer is already over, and it nearly is.

I've been gone off and on all week and don't know much news. I've been going to Temple to see my grandmother, Mrs. Burleson, at the hospital there and haven't seen many folks.

My cousin from Fort Worth, Margaret Shelton, was here last week. She was visiting my grandmother so we stayed down there a lot. Her grocery bill tripled in that one week.

Bobby Verduco from Lake Charles, La. and Vance Castle of

LATE FAIRY NEWS

Mrs. Liza Geise and brother, Willie visited a while in the home of the writer Sunday night. They had visited in Hamilton in the home of their brother, Mr. and Mrs. Albert Geise, and returned by way of Hico where they visited a friend at Hico Hospital, and at the nursing home with their sister and husband, Mr. and Mrs. W. P. Brummett.

Bobby Turner of Fort Worth is visiting this week in the home of his grandparents, Mr. and Mrs. T. R. Parks.

Fort Worth were visiting with Mr. and Mrs. Lusk Randals. They have been out at the farm most of their visit here.

Linda Patterson left in the middle of last week for Dallas. I imagine she'll come back with clothes and stories.

Kay Yochem and her folks visited in Rankin last week. She said they had a nice visit but it sure was hot.

Sylvia Sherrard went back to Bryan last week. I told her I wanted to go but I couldn't make it this time.

Buzzy Hedges and Pat and Mike Lackey went visiting Saturday at Lake Buchanan. They surely were spreading a lot of tales around town about what they did. I've heard something about a car that got wet, midnight cruise, etc. Nobody really knows what happened—they just guess.

Kathy Higginbotham has finally gotten to take her trip to Houston. She was dark before she left but when she gets back—Wow!

Janet Hooper and her family are still gone up north. I'll surely be glad when they get back. Everyone misses that little white Ford.

I've got to run. I'm late with this column now. It will soon be school time again. If there aren't any visitors just let me know what you are doing to get ready for school.

Be good!

CARD OF THANKS

We wish to express our sincere gratitude and appreciation for all who expressed their sympathy in so many ways during our recent sorrow; for the visits, the food brought, for the floral offerings, and for the words of sympathy spoken. May God's richest blessings be with each of you.

The Sutton Family.

Fort Worth Has The Time. Texans have a big time. They also have a big timepiece. Fact of the matter is, it's the world's largest. It's the clock that is atop the 30-story Continental Bank Building in Fort Worth.

Time is controlled by a microwave radio from the U. S. Observatory in Washington, D. C.

The clock itself is five stories high. It weighs 77 tons and the numerals are so large—25 feet high and nine feet wide—that the clock can be read from a distance of five miles.

Gonzales Honors Flag. A plaque commemorating the making of the first battle flag of

Texas hangs on the walls of the museum at Gonzales, in South Texas, the town where the flag was made.

It was the first flag on which the now famous lone star was used.

This flag carried the words "Come and Take It" in answer to the Mexican Army's demand for return of the Gonzales cannon. The cannon had been given to the Texans by the Mexicans for defense against the Indians.

Good Enough for Comstock. Springs that provide 116,000,000 gallons of water per day should be good enough for anybody.

People in the Southwest Texas town of Comstock decided long ago that such springs were good enough for them, so they named them "Good Enough Springs."

The springs are located just south of Comstock, in Val Verde County, and their fine waters feed the Rio Grande River.

Famous Tree Near Rockport. You won't believe it until you see it yourself.

It's the largest live oak tree in the world, and it's located by Goose Island State Park near Rockport in Aransas County, on the Gulf Coast.

This majestic symbol of the ages is more than 2,000 years old, having burst into life a hundred years before the birth of Christ.

From its majestic trunk, branches spread forth 118 feet to shade the approximate area of a city block.

Famous San Antonio Fort. Teddy Roosevelt trained his famous Rough Riders in Texas in the same fort that housed such outstanding generals as Grant, Lee, Sheridan and Hood.

It's the 3,000 acre Fort Sam Houston, the greatest Army post in the United States. It is located within the confines of San Antonio.

Old Fort Sam dates back to the pre-Civil War days and still is active today. Much of the old atmosphere remains.

It's a sight to see, whether you're interested in the activities of today or of yesteryear.

Texas Has Taj Mahal. The Mission La Bahia del Espiritu Santo, located in Goliad, north of Corpus Christi, often is called the "Taj Mahal of Texas."

Established in 1749, the mission stands proudly today in a rare and enviable beauty—a reverent beauty that is only bestowed upon the great during the ages.

Near the mission is the site of the infamous massacre of General Fannin and his Texas soldiers by the troops of the Mexican General Santa Anna.

Mr. and Mrs. Ben Chenault Jr. and daughter, Debra, are visiting this week with Miss Florence Chenault and Mrs. Ethel Lackey and other relatives.

Mr. Mayfield was reared in the Clairette community, but had been a resident of Fort Worth for a number of years. He had been in failing health the past few years.

MASONS AND FAMILIES ENJOY BARBECUE SUPPER

The members of Clairette Masonic Lodge, their families and a number of visitors enjoyed a barbecue supper last Friday night at the Community Center.

After supper, Mr. Fred Devaney of Waco, a grand lodge member, made an interesting talk on "Free Masonry." Many commented that the speaker made the best talk they ever heard on the subject. He mentioned the many Bible characters that were Masons and about our first President, and many other presidents that were Masons, and stated "The first hospital and first orphans home ever built was built

by Masons." He told about many good things the Masons did to help people over the country.

Mrs. Devaney accompanied her husband to the supper. Other visitors were from Hico, Duffau, Chaik Mountain, Fairy, Carleton, Fort Worth and Clairette. Everyone seemed to enjoy the meeting very much.

Mr. and Mrs. Andrew Pickett of Azle visited Sunday afternoon at the cemetery, and with Mr. and Mrs. J. O. Noland.

Mr. and Mrs. Truman Finley of San Antonio visited recently with Mrs. Zena Havens.

One and six-tenths inch of rain fell here last Wednesday night.

Mrs. Flora Roberson went through a clinic at Houston recently.

Mr. and Mrs. Hugh Koonsman and family moved to their new home just recently finished on the Hico-Stephenville highway. The members of the Baptist Church sponsored a house warming Saturday night for the Koonsmans. They are members of the Clairette Baptist Church.

WHY PAY TO HEAT MORE THAN ONE HOUSE WHEN YOU LIVE IN ONLY ONE

GAS saves you the difference

Gas continues to be your biggest bargain and is still your most dependable source for home heating. No other method can compare with GAS for comfort, efficiency, safety and dependability. Gas heat is cleaner, fresher—constantly flowing—with fresh-air intake the air completely changes every hour. Prevents lingering of stale household odors.

Gas is safest by far—figures issued by National Board of Fire Underwriters prove that gas is unquestionably the safest source of controlled energy in your home. Gas heating is more dependable—delivered underground safely—wind, ice, storms do not interrupt gas supply. Consider all the facts—you'll always stay with gas. Only GAS heats so much better... for less! See your gas heating dealer.

Another HIDDEN TAX

The toll of the highways may reach 40,000 killed and 2,000,000 injured. These are stark statistics in themselves. But there's another toll, too!

Every American family of four, whether they have had an accident or not—or even if they don't own an automobile—will pay an average of \$100 a year in hidden costs as the result of speeding, reckless driving. This is the nation's highway accident bill, to be paid through increased taxes, wage losses, mounting insurance costs, medical and hospital bills, property damage and other charges. The total will run to nearly \$4,000,000,000—enough to build a city of 200,000 homes costing \$20,000 each. Believe it or not, there is an average economic loss of about \$95,000 for every person killed.

This stupendous waste can be curbed only when the American public becomes sufficiently aroused to demand concerted, nation-wide action—more law enforcement, more highway patrols, and more teeth in penalties repeaters. Get back of any safety movement in your community. Think and talk safety.

When death, maiming and destruction take over the highways, someone pays—and that someone is you—it's all of us.

COUNTY AGENT REPORTS

By E. R. LAWRENCE

Cotton harvest is just ahead and just after harvest is one of the best times to do next year's cotton insect control work. This can be done by getting cotton stalks chop-... ped up and turned under as soon as possible.

In the late cotton season the boll weevil goes into a period of fatten-... ing up to make the winter. At this time they do not breed. It is through the destruction of the late weevils that reduces those that will go through the winter and in this way there are fewer weevils the following spring.

Shredding stalks is a better way to destroy the weevil than just turning under the stalks. Many cotton growers have been shred-... ding their stalks in the past and they tell me they can see quite a difference in weevils the following year.

The A & M College experiment stations are working on a plan and so far their research work shows promise. It is a plan where the weevils are poisoned during the late season, or while the weev-... il is fattening up.

This system of applying poisons at that time reduces the weevil population that would normally go into winter quarters. At this time the research work is not far enough along for recommendations to be made as to when to poison, or how much to use, or how many times to apply the poison.

But perhaps in the near future we will be able to apply poison at the time we defoliate for strip-... ping. Some of the entomologists feel that there is a possibility of a complete eradication of the weev-... il.

Here is some outlook informa-

tion on hogs from John McHany, Extension Economist.

The 1960 spring crop totaled 49.1 million head, down 16 per cent from the spring crop of 1959. This decline will boost hog prices in the last half of the year for Texas producers. This is the smallest spring crop since 1953, and second smallest since 1958.

Because of the 16 per cent drop, fewer hogs will be slaughtered in the last half of 1960, compared with the last half of 1959, and prices will begin to improve.

Prices received by farmers in the last half of 1960 will be higher than those received in the last half of 1959, but will probably not reach 1958 peak prices.

Even though prices will be above a year earlier, we can expect the usual seasonal price decline this fall. Pigs produced in the fall of 1960 will be slaughtered in the spring of 1961. The size of the 1960

fall crop will be a very important factor in determining the price that Texas farmers will receive for hogs in the spring of 1961.

According to the "Pig Crop Report," Agricultural Marketing Service, Crop Reporting Board, USDA, it appears that the fall pig crop will amount to about 41.5 million head and this is 3 per cent smaller than the number produced in the fall of 1959. If the fall crop is not larger than is now expected, prices in the spring of 1961 should be higher than those received in the spring of 1960.

MONEY vs. FAMILY HARMONY

Family discord often is due to failure of all family members to agree on financial practices. The effective operation of any family as a unit is influenced in part by the kinds of arrangements it makes to handle financial matters and by the attitudes of members toward those arrangements. Close family relationships can be developed when there is mutual understanding and agreement in regard to the use of money.

Planning income, expenses and family goals and making the plans work may not be an easy assignment at first. But families who have earnestly worked at it for several years say it strengthens family life, provides good training for the children and helps to save money, energy and time.

"Money—Family Style," an extension bulletin, gives practical suggestions for managing family income. Copies are available from your county agent's office.

DON'T FEED GARBAGE CANS

Is your garbage can a heavy eater? How much does it cost to feed it for a year? The four common causes of food waste in the home are: lack of good planning and buying, which results in over-buying, poor preparation and serving of food, poor use of leftovers, and improper practices of preservation and storage.

What to do about them? Plan your buying and preserving so that food can be used or stored promptly before it loses freshness and flavor or spoils. Serve food when it reaches the just-right stage. It loses texture, flavor, and food value if overcooked or if it stands too long before it is served. Use leftovers promptly in soup, salads, stews, and sandwiches. Keep all food clean, cool, and covered until you use it. Check food often and keep it moving.

Suggestions for planning meals, buying, preparing, serving and preserving foods are given in ex-

ension bulletin, "Eat Well for Less."

SALADS FOR SUMMER

A new bulletin came to my office last week, that has just the right idea for these warm summer days. Why not have a new, appetizing salad to perk up the family's appetites. This bulletin has recipes for vegetable salads, fruit salads, congealed salads, main dish salads, and salad dressings. Here is just one of the many new ideas: This is Frozen Fruit Salad:

- 1 large can fruit cocktail, drained, or
- 2½ cups mixed canned fruits (pineapple, peaches, pears, grapes)
- Fourth cup maraschino cherries 1 banana
- One 3-ounce package cream cheese
- 1 cup heavy cream, whipped
- 5 tablespoons cooked salad dressing or mayonnaise

Add softened cream cheese and salad dressing to whipped cream. Fold in fruit and mix well. Freeze in refrigerator tray. Serves six.

SUMMER SQUASH HAS LOTS OF POSSIBILITIES

Summer squash is a mild and modest vegetable. Some folks never appreciate its possibilities. It's easy to prepare, nutritious, tasty, and low in calories.

It combines well with strong

flavored foods such as onion, salty bacon, and sharp cheese. It has a delicate sweetness of its own that emerges when it's merely steamed and lightly seasoned with salt, pepper and butter.

In young, tender squash that has not reached maturity both skin and seeds are so tender that the whole squash may be cooked without peeling or wastage. Delicate flavor is lost if too much water is used in the boiling.

For all its lightness and delicacy, squash is a good source of minerals and vitamins. And it's a wonderful "buy" in calories—only 17 to a half-cup serving.

Try this summer squash with bacon for variety:

- 2 pounds summer squash.
- Fourth cup boiling water
- 1 teaspoon salt
- 4 strips bacon
- 1 green pepper
- 2 medium onions
- One-eighth teaspoon ground black pepper.

Wash and cut tender unpeeled summer squash into slices 1 inch thick. Place in a saucepan with the boiling water and salt. Cover. Bring to boiling point. Cook until crisp, tender, about 15 minutes. Drain if necessary. In the meantime, fry 4 strips bacon until crisp. Remove from pan. Pour off all the fat except two tablespoons. Add green peppers and onions and saute until almost limp. Add drained squash and black pepper. Heat. Turn into serving dish. Crumble bacon and sprinkle over the top. Serve hot.

The bulletins used today can be obtained by writing, calling, or coming by the county extension office in Hamilton. They are free.

Jane Hafer spending a week of her vacation time getting school clothes ready for Claudia, and hoping to get a hot house built in her back yard.

Elvena Hicks studying the pattern books and new fall materials, with her two daughters in mind as school time nears.

Found Ralph Turner trying his luck as a mechanic on the pickup, and he said he didn't guarantee his work, but it was sure a cool place to rest.

Elta Higginbotham must be in for some work, as she purchased a small paint brush and headed for home.

Orville Ogle buzzing around town on his bright red motor bike, and making teenagers envious.

Sarah Reeves enjoying a week's vacation at home, with plans to do a lot of housework.

D'Ann giving her mother, Bette Meador, a bad time these days with her sleeping habits. Who wants to sleep when your not

sleepy, even if it is 3 o'clock in the morning.

Bill Howard glad to be back at the store after a stay at Galveston, where it rains all the time.

Louise Blair learning to like black coffee better every day, and to refuse tempting desserts, especially when you mention counting.

Not much chatter this week so will close with this recipe that I think you might enjoy.

RECIPE FOR POLITICAL PIE
Democrat or Republican—(Difficult to discern once label removed). Assemble ingredients in large area amid as much confusion and disorder as possible. This permits chefs to operate minus rigid public scrutiny.

In attempting to appeal to the taste of all, begin with a dash of loyalty, unty and love for party.

Add a generous portion of civil rights, heavy on integration. Stir in equal parts of liberals and conservatives. Blending will be difficult but the lumps in the finished product should be distasteful only fifty per cent of the time.

Stir well with long, meaningless speeches, eloquently delivered but saying as near nothing as possible. If a speaker from north or south deviates from the normal mixing pattern, water down or butter up immediately. Although the chefs have long had a clear picture of the finished product, do nothing that will enlighten the public or reflect discredit on this serious undertaking.

Garnish with blatant, rum soaked, cigar smoked delegates. This adds nothing to taste but provides color for those in the TV audience disgruntled by cancellation of wrestling program or re-run of last winter's shows. As a final touch, heap on emotion. A sentimental conclusion is designed to make everyone feel he has won a personal victory—party unity and love abounds.

Bake at high temperature from time of mixing until second Tuesday in November. Finished product is yours to eat, disregarding choice of nutrition or palatable proof. Needless to say, this year's political pie is not a southern dish. Perhaps in four years we will have acquired a taste for the new diet. If not, there is hope in a new recipe.

IT'S THE LAW—

Chicken Thief Impeached—There Was No Moon

A story they tell on Lincoln is how he once proved his client's innocence by impeaching an eye witness.

Lincoln's client had stolen a chicken, the witness vowed, at a

certain time on a certain night. Asked how he could see so well at night, the witness declared "by the light of the moon—just as clear as clear."

with ease by pulling an old almanac out of his pocket. It showed that no moon was up at that time, how was it full on that date.

Trials are hard on everybody—witnesses and parties alike. They often take place when other ways to settle a dispute have failed, and there are hard feelings. But granting good faith, people do make mistakes in what they recall. After they have told their story a few times, many are dead certain—like Lincoln's witness—that they did see and hear what they say they did.

And so, for the sake of justice, courts allow each side to test a witness' reliability. Sometimes a witness is so obviously prejudiced or so obviously twisting the facts that the cross-examiner easily discredits his story.

But often sincere witnesses tell different stories, and the jury has a right to know how much weight to give each. It is the jury's sworn duty, in fact, to weigh the credibility of witnesses. And a good way is to see how a witness' story hang together under fire or checks with other known facts.
