## Three Businesses Burglarized Here During Past Week

Three Hico business establishments were burglarized this past week, with losses totaling more than \$100, according to the owners.

The largest haul made by the yeggs was at Blair's Hardware this past Monday, Louise Blair discovered

the burglary about 1:30 Sunday afternoon. \$30.00 in cash, two transistor radios, batteries, a portable heater, ammunition, and lantern were taken from the store.

Miss Blair apparently surprised the intruders when she went to the store. Several items of the loot were stolen during the time that it took her to go from the store to her home and return.

Entrance to the building was gained through a back window.

Peggy's Beauty Shop was also a victim of burglars sometime Saturday night or Sunday. Peggy O'Neal, owner, said that only \$6 in change was missing. Entrance was apparently gained through the old vacant building next to the beauty shop.

Judy's Beauty Shop was also burglarized recently, but her loss was minor. Only the coin collector for the March of Dimes, and another small bank was missing.

Deputy Sheriff Gene Leppard was investigating the break-ins at mid-week.

## Final Rites Held For J. Emmitt Anderson Conducted Thursday

Funeral services were held Thursday, January 21, at 10:30 a.m. at the Fairy Baptist Church for John Emmitt Anderson, conducted by Rev. Tom Pratt. Burial was in the Fairy Cemetery under the direction of Barrow-Rutledge Funeral Home.

Mr. Anderson, a farmer, was born March 10, 1892, and passed away January 29 at his home. He was 70 years of age, and had lived in Hamilton County 47 years. He was a member of the Fairy Baptist Church.

Survivors include his wife; one daughter, Mrs. Pauline Farmer of Grand Prairie; one son, Jack Anderson of San Antonio; one sister, Mrs. Bertha Slater of Hico; a brother, S. P. Anderson of South Hill, Virginia; and three grandchildren.

Palbearers were Walter Abel, Tom Betts, Horace Rowe, Ovie Clark, Frank Hanes, and Ted Arant.

## MOD Fund Drive Over \$200 Mark

James Cryer, local chairman for the March of Dimes, said this week that over \$200 had been collected thus far, and that more funds were anticipated before the campaign is finished.

The Mother's March portion netted \$112, and business solicitations were in the neighborhood of \$100.

Mrs. Marcell Moody of Koffee Kup Cafe will donate all proceeds from coffee sales this Saturday to the worthy fund solicitation. No fixed charge will be made for the coffee, but a donation will be accepted.

Persons who might have been overlooked in the solicitation wish to contribute may leave funds at the bank or with Cryer.

### Typhoid Case Diagnosed In Hico

A local case which has positively been diagnosed as typhoid fever has spurred City Health Officer Dr. W. F. Hafer to issue a warning to Hico residents to take precautionary measures to combat an epidemic of the dread disease.

Dr. Hafer said this week that "Although source of the disease contacted by the local person has not been determined, it could have been contacted from flies, water or sewer system, or poultry."

This is the first known case of typhoid in this area in several years, and the health officer urged everyone who have not been immunized within the past year to check with their physician.

State Health Department officials were expected here to investigate later in the week.

## McClinton Reports

By TRAVIS MCCLINTON  
State Representative

Last week and this week, the main business occupying the Legislature has been the organization of committees and scheduling of meetings to consider proposed legislation.

Committee hearings will occupy the bulk of your representative's time for several weeks to come. Most of the committees are meeting early and late to hear arguments, pro and con, on bills to come before the House. With Gov. Connally's emphasis on education and his request for emergency funds, the Education and Appropriation Committees have been working long hours.

On Friday I sat in on a budget hearing for Tarleton State College with the president, Dr. E. J. Howell, and the business manager, Mr. Fannin, who were in Austin to present their budget for the next biennium.

## Boy Cagers Remain Undefeated In District Action; Girls Out

Hico's boy cage team, with two wins the past week, took a giant stride toward the district championship.

Owning a 5-0 record, the boys are one full game ahead of the nearest contender, Valley Mills, with three games left to play.

Contrary to previously published reports, the current season is not being conducted on a two-half basis as in past years, but on the most-won record for the overall double round robin season.

Hico nipped district favorite Valley Mills last Friday night at the local gym to gain the top rung

of the ladder. The final score was an uncomfortable 37-35. The locals had previously taken the measure of Meridian, Cranfills Gap and Whitney.

On Tuesday night of this week, the locals made it two in a row over Meridian by topping the Jackets 49-46 in another close game. Don Jernigan poured in 24 points for the winners to lead the way. Larry Erick helped the cause with a 10-point production, Gary Wootton pumped in eight points before going out via the foul route midway of the fourth quarter. James Crews added five points, and Charles Erick hit a single bucket for two points.

The Hico girls all but bowed out of district contention Tuesday night by dropping their second game to Meridian. The Meridian sextet are undefeated in district play and are favorites to remain that way.

Tonight, Friday, the local teams travel to Cranfills Gap for a pair of real important games. In the last meeting of the two teams, the Hico girls eked out a two-point win over Gap, while the boys were extended into double overtime before winning.

Always popular with area exhibitors, the show will again offer an attractive premium list, and officials expect a large entry.

Last year the Hico show drew a record 354 entries.

Premium catalogues are now in process of being printed, and will be mailed to exhibitors within the next two weeks.

## Bowling Lead Unchanged After Last Week's Action

Salmon's Shoppers and News Review Newshounds maintained their pace by sharing the lead in Hico Mixed Bowling League for the second consecutive week.

The Shoppers downed Jameson's Gassers 6-2, while the Newshounds were taking Check Furniture 6-2. In other league matches F-W Ranch scored the only sweep of the night by blasting Wilsons 8-0; Judy's Beauties and First National split 5-4, as did Parks' Orphans and Hico Motor Darts.

Scoring in general was lower than in previous weeks, with Watt Ross' 513 high for the night. Other men in the top five were Rusty Roberson 511, George Kilgo 506, Steve Parks 203-503, and Morse Ross 500. June Roberson led the women with a 458 series, Ruth Salmon had 437, Gladys Partain scored a

Contributions to Hico's latest fund-raising project—to purchase a new rural fire truck—were coming in at a snail's pace through Wednesday of this week, with only \$211.00 turned in since last Wednesday.

Hico Volunteer Fire Department is sponsoring the drive in attempt to raise \$4500.00 with which to purchase the new truck as a replacement for the old unit. The old truck, a 1941 model, is completely beyond repair, and the drive for funds was started last week after determining the needs of the area in the way of fire fighting equipment.

The firemen thought at first \$4,000 would be sufficient, but after investigating more thoroughly, the group found that the larger amount would be required to adequately equip the truck.

The old unit now in use was purchased in 1950 at a cost of \$2500 through public subscription following a rash of fires in the rural areas.

Committee workers are being sought in out-lying communities to aid in the drive, and department members urged anyone interested in helping with the project to contact one of the local committee members, Fred Jaggars, Ray Keiler or Louis Chaney.

Persons interested in the project may leave contributions at First National Bank, or turn in to one of the committee members.

"The Store of Many Bargains"

# FAIRY

By MRS. EUNICE DANIEL

Our hearts were made sad Monday as word was circulated of the sudden death of Henry McNeill of Waco, who dropped dead after suffering a heart attack in the Waco post office. Henry had retired several years ago due to a heart condition and had carried his wife to work early Monday and returned to the post office. He was 72 years of age and was reared in the Fairy community, being the eldest son of the late Mr. and Mrs. J. H. McNeil. The family resided on the Parks place west of Fairy for many years. The children attended Fairy High School. He was the brother of Mrs. Martha Burnett of Hico and the late Mrs. May Broyles of Lanham. In early manhood he was married to Miss Ruby Smith of near Hico. No children were born to them, however, they reared the small daughter of his sister, Ruthie, who passed away. The McNeil family later moved to Waco where most of the family have passed away and were buried there. They have an infant son buried at Fairy, Henry was a fine young man during his time of residence here and we feel sure he has lived a life of honor and respect and has now gone on to await the time of reward for his faithfulness. We had only been privileged to meet him on very few occasions since he moved to Waco. Funeral services were held at 1:30 p.m. Wednesday at Waco, with burial in the Hico Cemetery. Our deepest sympathy is extended to the bereaved wife and all others in his passing.

Word was received here last Thursday afternoon that Willis McAdams had passed away at the Clifton Hospital due to a heart attack. He too had been ill of a heart ailment for several years. They sold their farm and were to go in on Monday to fix up a contract and he suffered another attack on Sunday and was carried to the hospital. They were making plans to move to Glen Rose. They resided in the Boggy community south of Cranfills Gap. Willis was first married to Miss Erma Parks of Fairy and one son, R. W. of Fairy was born to them. Erma passed away in June 1956. On Jan. 1, 1959 he was married to Mrs. Eunice Thrash of Glen Rose. Funeral services were held Saturday at 2 p.m. in Clifton with Rev. Eng-

lish of Glen Rose and Rev. Woods, formerly of Glen Rose officiating. Burial was in the Boggy Cemetery. He is survived by his son, R. W. of Fairy; one step-son, John Thrash of Meridian; one step-daughter, Mrs. Sybaine Sawyer of Waco; one brother, Jack McAdams of Hale Center; four sisters, Jane Oglesby of Granbury, Mrs. Fannie Sanders of Meridian, Ida Leonard of Glen Rose and Mrs. Ola Dyan of Gatesville. Willis was 72 years, 2 months and 14 days of age. He was a member of the Cranfills Gap Baptist Church. Our deepest sympathy is extended to the bereaved family at this time of deep sorrow.

A goodly number of Fairy folks were in Clifton Saturday afternoon to attend the McAdams funeral.

While in Clifton Saturday the writer visited a short while in the home of Mr. and Mrs. Frank Driver.

Mr. and Mrs. Alton Parks, Ricky and Mary Ann visited during the weekend with his parents, Mr. and Mrs. Coy Parks.

We are very sorry to learn this week that Ernest Brummett of Alhambra, Calif. had suffered a severe heart attack, but at last report he was improved.

Also we regret deeply to learn

## IT'S THE LAW—

### Earnest Money Contracts

The signing of a contract of sale is an extremely important step in the purchase of a home. Once buyer and seller have signed, they are bound by the provisions of the contract. Their respective legal rights in the transaction are thereby set and determined. If the contract is poorly and haphazardly drawn, a harvest of regret may be reaped at a later date.

Sales contracts are often called by other names, such as earnest money contracts, binders, receipts, etc. All of them are for the same purpose and almost without exception involve the deposit of money by the buyer. Some require the seller to put up a good faith deposit. The fact that such deposited sums are usually to be forfeited in event the depositor later fails to go through with his specified contractual obligations lends additional weight to the often stated admonition that no contract should be signed without complete understanding as to its terms.

But many home purchasers (and sellers) rush to sign a hastily prepared contract with very little knowledge of its contents. The pressure of time, the informality of the occasion, the casual appear-

ance of the contract, and perhaps the fact that a partially printed form is used may contribute in causing the true importance of the act to be overlooked. At any rate, many are lulled into a lapse of good business judgment.

Every significant detail of the bargain should be crystallized in unmistakable terms in the contract of sale. Land and fixtures being sold should be clearly described. A complete description of the property by lot and block, or by metes and bounds, is a must, the street number being inadequate by itself.

Articles and fixtures included in the sale but not always sold with houses generally should be specifically listed. Included in this category are such items as venetian blinds, removable floor coverings, draperies, air conditioning units and others. In purchasing property under construction, complete plans and specifications form an essential part of the agreement.

The price to be paid must, of course, be specified, along with method and terms of payment. If a certain sized loan is a prerequisite to the buyer's ability to complete the purchase, this fact should be noted. Sad indeed is the prospective purchaser who loses his earnest money when a contemplated loan transaction falls through, his contract requiring payment of the entire consideration in cash.

The sales contract should also state the quality of the title to be conveyed to the buyer and the type of title evidence to be furnished.

The buyer's individual circumstances and desires may require that various matters not mentioned above be provided for in the contract. All too often people try to squeeze a sales contract to fit the type of printed form on hand,

omitting or leaving to easily misconstrued or forgotten oral agreement many vital provisions. Do not fall into the "pitfall of the printed form." Too many unfortunate entanglements have been announced by clients to lawyers with the words "I have just signed a receipt for a house on Blank Street. Will you take over now and see that everything is O.K.?" (This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

**WORK STARTED ON RAZING METHODIST CHURCH**  
Plans that have been underway for sometime to build a new Methodist Church are at last being carried out.  
Work was begun on tearing down the old building, which has stood for nearly 53 years, on Tuesday. Hearts are saddened to see this building go as it has been a beautiful church and one that many have worshipped in. The new church will be a comfortable building as proven Saturday, January 19, when funeral services for Mrs. Maizie Burson, charter member, and to be held in the Baptist Church because the building could not be heated and because of the dry steps.  
It has been said, "It can't be done," but the membership thinks it can and by faith, work and prayer it will be done and before another winter it is hoped it will be completed.  
The congregation will have services in the Educational Building as long as possible, and if a larger place is needed, one will be found. Due to the extremely cold weather news is again scarce this week. All will be happy when old winter is gone. We have been having temperatures as low as 5 degrees to the upper 30's for a week. Very unusual for this part of the state. We will really appreciate warm weather again.  
Mr. and Mrs. William Slaughter of Hamilton and Mr. and Mrs. Oscar Lovell of Cleburne have been visiting in the home of their mother, Mrs. John Smith and Robert during his illness.

Robert Smith returned home Thursday from the Hico Hospital after being a patient there for a week.  
Mr. and Mrs. R. F. Howard, Ro-

land and Ernestine, and Norma Bullard were weekend visitors in Dallas in the home of their son, Mr. and Mrs. Don L. Howard.

PUBLISHED WEEKLY BY THE STUDENTS OF HICO HIGH SCHOOL

### WHO'S WHO

My subject this week can be described in one word—NUT! She is a senior but don't let her be a reflection on any of the other fine seniors in old HHS. She has blond hair, hazel eyes, and a peach-and-cream complexion. This girl has a wonderful knack for getting into trouble. If she's not placing cents in her car, going on weekly bets, griping about bookkeeping and typing, or throwing wild pizza parties, there has to be something wrong with her!

She is always seen during the day with a girl that is a bigger nut than she, but at night her taste changes and she prefers those long-legged, short-haired creatures called boys. There is one in particular but we won't mention names because when this girl gets embarrassed she really can turn red! She rides all over town in a blue Chevrolet but more and more often she can be seen in a green and white Ford!

I could write and write for hours about this girl but time and paper will not prevail so this is all. The subject for this week is Maggie Prater.

### THE SPOTLIGHT

After a couple of penicillin shots for me and a battery charge for Lipot, we were again roaming the streets this weekend. We couldn't imagine why everyone was so excited Friday night until we heard the score of the Valley Mills, Hico ball games. Couples out celebrating were: Jane A and Don J; Lloyd H and Judy O; Dixie L and Montye O; Sylvia S and Alan S; Barbara R and Mike F; Patsy W and Larry E; Martha P and Doc W; Barbara P and Jimmy D; Anita M and Marcus J; Tommy D and Linda D; Bonnie L and Wayne W; Linda J and Billy B.

Although Saturday night was cold, there were several couples out to brave the weather. Seems like several couples got together and crowded up some cars. Those I saw (after I sorted out the jumble of heads) were: Jane A and Don J; Dixie L and Montye O; Judy O and Lloyd H; Carol C and Mike M; Linda B and Jerry C; Ronnie M and Judy J; Sharon H and Bill R; Mike F and Barbara R; Patsy W and Larry E; Alan S and Sylvia S; Barbara P and Jimmy D; Christine B and Herman M; Eddie M and Margaret P; Martha P and Doc W; Linda D and Tommy G; Bonnie W and Mitch M; Bonnie L and Wayne W; Lynn H and Leona C.

Sunday was another cold one. Most of the kids out were in

groups rather than pairs. Those few couples out were: Bonnie L and Wayne W; Jane A and Don J; Linda C and Charles E; Barbara P and Jimmy D; Margaret P and Eddie M; Dixie L and Montye O; Bonnie W and Mitch M; Judy O and Lloyd H.

### SENIOR NEWS

Old Hico must ever have been very calm and still until, after many detours, the mighty seniors arrived home from TCU Friday.

Hey, FN and HB? Was it really that cold Monday in home room? Did that neck-warmer belong to BL?

JO, do you seem to be having troubles getting in and out of chairs nowadays?

Is it just that you don't like to read letters, Janell, or is it that those written in shorthand have a peculiar effect on you?

HB likes to go visiting—especially TP.

Hey, MP have you seen the judge yet? What's your fate? CB needed a private eye to take care of HM during her absence Friday. She would have preferred some boy.

—HHS—

### SOPHOMORE NEWS

The dearly loved sophomores haven't been doing too much lately to make news, but, of course, some of us have.

Bonnie W. got a new football jacket; she decided the other one was too big.

And Leona is floating around on Cloud 9. She finally got a picture of Lynn. Next she'll probably want a senior ring!

Edwin B. is still as full of mischief as he ever was and wants the Fish to leave him alone.

Some of us are wondering why Sharon H. and Robert Ford are absent on the same day. How about this Sharon?

We thought we had a new girl in class Monday, but come to find out it was only a very true sophomore, Elizabeth B. who has just become a red-head at sixteen.

Sandena H. ventured off to Fort Worth Saturday. I know she had a good time, even though she did nearly freeze.

Well, since Margo W. got her drivers license she just never stays at home. Do you Margo?

Connie B. and James R. know a sure way to make extra points. How about that?

Scott P. seems to know a lot about us girls these days. How about this Casanova?

Linda J., we hope you and Billy have fun this Sunday at the rodeo!

—HHS—

### FRESHMAN NEWS

Kay T. was in one of her moods over the weekend, but it didn't last long after that date Sunday night, did it Kay?

Vanita's secret love has been discovered. Would you like to tell change Mildred's initial on her ring to D instead of P. She said

to send it to Mrs. Floyd Drake in Tennessee.

They say Jerry Casey is getting fast; now I believe it. He got a first place trophy at the drag races Sunday.

Some juniors must be trying to get out of school this year. Patsy, Bill and Morris tried to blow the place up during chemistry last week.

I guess good old Butch goofed when he tried to have two dates in one night. One girl went back to her home town and the other is going with his best friend now. That's poetic justice, now "ain't it?"

Julia Kate is trying her best to reform Tommy D and get him to go to church on Sunday rather than stay at home.

Roses are red, violets are blue. Seniors stink, and so does this.

## On the Home Range

By ERMA RUTH HENRY  
Home Demonstration Agent

Has your house been as warm as you would have liked during these recent cold spells? Perhaps some of the heat has been escaping and heating the great outdoors. Many homeowners waste fuel by allowing warm air to leak out around windows and doors and through cracks in walls, floors and ceilings. If you are one of these people, start now to do something about it. You may be able to cut your fuel bill in half by tightening and adequately insulating your home.

Start first with the doors and windows. Are there any loose panes? Re-putty all loose panes and close the air leaks around the window and door frames with caulking.

Next, add weather stripping if needed. This will reduce your fuel bill as much as 15 percent if you have an old house. Storm windows and doors can save another 5 to 10 percent.

Insulation for your home can make a big difference in your fuel bill. In a typical house, 25 to 35 percent of the heat is lost through the attic, floor and roof, and about 30 percent goes through the outside walls, doors and windows.

Your contractor can help you select the right insulation for your house. Whichever insulation you choose, you'll find it will make your house much warmer this winter and cooler next summer. Insulation and weather stripping are long-term investments—ones that pay off in added comfort and lower heating bills for years to come.

Small Electric Appliances  
Do you have your heart set on

a certain new kitchen range—but its price would be a strain on the budget? Should you go ahead and strain the budget, or settle for a lower priced model?

Perhaps there is another solution, say U. S. Department of Agriculture researchers. There may be enough portable electric cooking appliances available for you to get along quite well without a range until you can afford to buy the one you want.

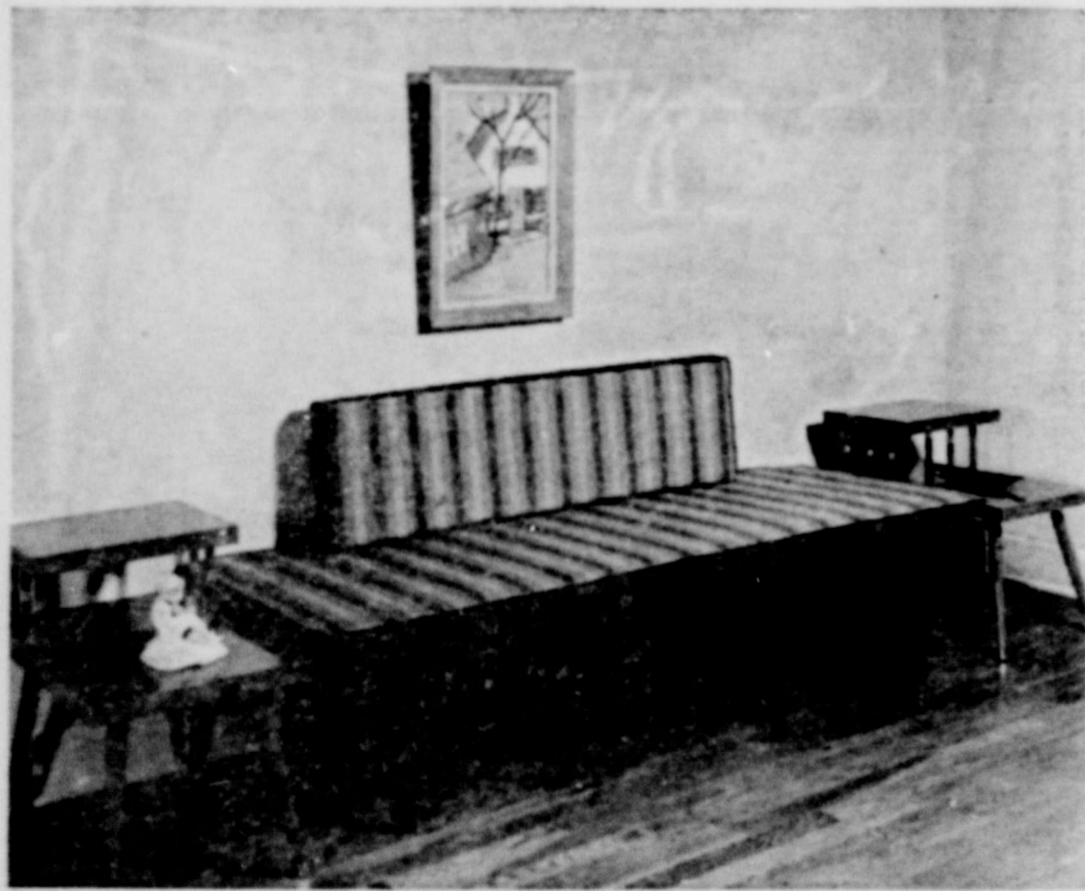

With an automatic electric fry pan, 3 and 5-quart automatic sauce pans, and a portable oven—plus a bit of talent for planning and management—a homemaker can put meals on the table that would never expose the fact that there is no range in the kitchen. There is a limit, of course, to the number of dishes and the amount of food that can be prepared for any one meal with these appliances.

### The Easy Way ---

### --- Is The Sensible Way

There's an easy way and a hard way to do most everything. And never let it be said that the easy way is always the lazy way. Generally, it's the sensible way. Certainly one of the most sensible things you can do is shop the easy, convenient way—right here at home — right here in Hico where you'll find service just just like the "good old days."

The hustle and bustle of traveling a considerable distance for the things you can get in your own home town is a needless waste of time, energy and money. That's doing it the hard way. Hico is a fine community — prosperous and progressive because of its solid foundation; where every day good living needs can be obtained from friendly, forward-looking merchants.

Yes, it's convenient and smart to trade at home! And it's pleasant to do business with your neighbors whose chief desires are to provide extra special, old fashioned service that comes with years of friendship and concern for the welfare of our community.

You can go farther — but you won't do better than right here in Hico — regardless of your needs. Make shopping the easy way a habit! It's the sensible thing to do.

CARLTON By MRS. FRED GEYE

CARLTON TEAMS WIN FIRST FOUR DISTRICT GAMES In their first conference game on January 11, both Carlton teams defeated Sidney, the girls winning 54 to 22 and the boys 55 to 25. High scorers in the girls game were Sharp and Roberson, each getting 22 points. Johnny Wilson led the boys scoring with 23 points. On January 18, the girls defeated Mullin 62-16. After the first quarter Coach Reeves switched his offense and defense and let the girls get some practice in different positions. The boys topped Mullin 73 to 28 with Roberson leading Carlton scoring with 24 points. In the third game, January 22, the strong Pottsville teams provided some excitement with both Carlton teams winning by only 8 points. Mickey Roberson of Carlton led the girls with 24 points, and Carlton's Wilson and Roberson scored 21 and 20 points for the boys team. At the half of this game, Johnny Wilson, girl's basketball sweetheart was presented with an identification bracelet from the girls team and a kiss from their captain, Mickey Roberson. On January 25, the Gustine Tigers met the Rams and were defeated by the girls 71 to 27, and 72 to 41 by the boys, Linda Sharp of Carlton was high scorer with 21 points and Jack Self racked up 22 points for the boys. The Carlton teams have two more district games, playing Star January 29 and Priddy February 1. Both are home games and will end the round robin competition. School Census To Continue Thru Feb. 1

Friday, February 1, is the deadline for enumerating all children of school age.

Results of the census will determine the number of per capita payments each school will receive from the state for the 1963-64 term.

All children who are now five, but who will be six on or before Sept. 1, 1963, should be listed on the census blank, as well as those who have become six since last September 1. # THIS WEEK IN AUSTIN — Highlights and Sidelights

By VERN SANFORD  
Texas Press Association

Rep. James Coffey of Weatherford — one of the most militant members of the 58th Legislature — is examining the flight records of state-owned planes.

Coffey is concerned about what he considers frivolous use of state property — namely, three airplanes which the Department of Public Safety is supposed to use for transporting officers to distant scenes of crimes, or to attend law enforcement meetings without missing too many duty hours.

Coffey says he has discovered these planes have been used for taking a representative home for the weekend; for putting a state senator home to make a speech; for transporting the state librarian to a monument on the coast "to get ideas on how to set up displays."

Coffey wants to know how much did these junkies cost?

He asks haven't airplanes been used to transport livestock from the coast at \$20 to \$25 an hour — depending on which plane is used — into the state?

Now the representative from Weatherford is talking about granting all passengers about \$1000 when they are out on state planes for necessary official business. He plans to introduce a bill that would forbid legislators from bookkeeping values about the planes unless they were in official business.

## Woolly-Woolly Yarns

Mr. John S. Wilbur Jr., V.P. Dept. of Agriculture's animal and plant industries division, reports that public stockyards inspection this month revealed losses from inspection fees of 1 to \$1 per cow.

High rates was revealed at the New York Stockyards in Houston. An inspection rate of only one cent was found at San Antonio's Grand Stockyards. Fort Worth Stockyards' rates was 25 percent.

No shortage.

The men who hold the state farm fairs for the State of Representatives will be seen in uniform regarding their legislative duties in facing the assembly.

Chairman Bill Stricker of the House Appropriations Committee said his committee is a joint committee. Stricker is preparing to introduce a bill providing for this check book.

## Too Late To Classify

Mr. Wilbur suggests that the state stockyards should be classified as public stockyards.

## to the Editor

To the Editor:

Brooks Hall's career story of his experiences in the Old West is very interesting. The wind-swept prairies of West Texas and New Mexico, the rugged Santa Rita, Black Range, and Datil Mountains of western New Mexico and Arizona with their ranches (and hardships) comes back into focus just as they were 60 years ago. Lubbock, Albuquerque, Magdalena, and Hatchita come back to us as frontier villages (not cities) as some of them are today.

He reminds us of the deserts of Arizona, Utah and Nevada when they were really deserts (not modern ranches, farms, dude ranches and cities as of today.) Also he refreshes our memories of the roundups where and when the waddies guarded the dogies at midnight while the thermometers said 80 below.

I knew many of the waddies that he mentioned, including his uncle, John Curton who was a rancher in the Barro Mountain region in the area of Lordsburg. We worked on the Diamond A Ranch more than 20 years ago. Most of the waddies of the time have gone on to the last roundup.

Mr. Hall tells us of droughts, blizzards, debts, lack of roads, and many other hardships which made this a land of perilous adventure where cattle starved and froze to death by the thousands and where bank presidents died with the margins of reserves at their temples. He gave us a true picture of the "wild west" as it was at that time.

## ROY DELANEY

think that simple justice would demand that these great people should at least be provided modern comforts as part compensation for what they did for us? Don't you think this is reasonable? We (society) owe it. Let's not be delinquent. If he or she needs a doctor or hospitalization, it is society's duty to provide their need. This is not charity. It is only a payment on a debt that we (society) owes them. Maybe he or she is an old man, an elderly lady chopped cotton and slopped shoats, or nursed their sick but now they are living on the left hand side of a million dollars income. They did their share for our country and society owes them a debt of gratitude just as if they had pioneered the Old West. They are the salt of the earth and society should respect them as such. What do you say?

time when the waddle, if he had a family, lived in a line camp perhaps 100 miles from town, and maybe ten miles from the nearest neighbor, and with no transportation except a saddle horse and no communication with the outside world except a newspaper once each month. A doctor in these remote areas was an unknown fixture except in a few towns.

But the picture has changed. There are modern ranches, dude ranches, farms, cities, paved roads where gasoline wagons glide along at 80 per or more and where airplanes zoom overhead at 200 per and more, and where you can telephone from anywhere that you are to any place in the USA within a very few minutes. (This includes the whole region from Lubbock, Texas to Reno, Nevada.)

The change is breathtaking to anybody who has seen both the old and the new; who made this change from a primitive to a modern way of life. Mostly it was made by waddies and their families such as Mr. Hall and his wife, of whom only a few are at the end of the trail awaiting the final roundup. Most of those few don't own any of this paradise, and they made this haven of luxuries through hardships undreamed of by the modern tourist, who are now enjoying the beauties and comforts of the most scenic region in the world. As we must say most of this devoted few live in a rented house on a back street where have necessities are high water marks for them. Don't you
