HICO, TEXAS MARCH 8, 1963.

NUMBER 45.

NO MATTER . . . What the calendar says, it certainly felt like Spring Monday of this week, and pretty little Deborah Lane, 2-year-old daughter of

Mr. and Mrs. Paul Lane, couldn't resist the temptation of picking the flowers shown here. Actually, the photo was posed, but what better way

can one depict the change of seasons than posing a pretty little girl with one of the first signs of Spring—pretty flowers.

★ NO EPIDEMIC, BUT FLU BUG IS HERE

Many Hicoans have been ill this week with flu, colds, and similar respiratory ailments.

Although the ailments have not reached epidemic proportions here approximately 13 students were absent from high school Monday, and 11 were out on Tuesday due to illness.

To date, however, there were no indications that school would be dismissed unless the absentees became more predominant.

State Health officials advise all persons to use what ever precautions possible to avoid contacting the flu. Persons should contact their physicians in regard to taking immunization, as well as generally good health practices.

Local home-owners and businesses will again receive the maximum credit—25 per cent—on fire insurance policies, according to in-

formation received this week from the State Insurance Board.

Other towns in this area and their ratings are as follows:

- Clifton, 20 percent
- Glen Rose, no credit
- Comanche, 20 percent

THIS WEEK IN AUSTIN—

Highlights and Sidelights

By VERN SANFORD
Texas Press Association

Some like it hot. Some like it cold.

Politicians seem to prefer the latter. So, candidates again will campaign from the freezing weather of January and February, right up to the heat of summer.

This preference on the part of office holders became evident when the Texas House of Representatives killed a bill by Rep. Howard Green of Fort Worth that would have moved the spring voting dates to August and September.

Legislators decapitated the bill 97 to 44. Opponents argued that August was vacation time, therefore a poor time to try to get out the voters.

First Filibuster
Gov. John B. Connally's program on higher education has run into trouble in both houses of the legislature.

House State Affairs subcommittee, considering the bill to create

a 25-member study committee on higher education, is holding up the measure in the lower chamber.

Sen. Andy Rogers of Childress delayed action on the bill for at least six days with a Senate filibuster.

House subcommittee and Senator Rogers both feel that other top officials, in addition to the governor should have a say in selecting the 25 committee members. They propose that the governor name 15 committeemen, Lt. Gov. Preston Smith five, and Speaker Byron Tunnell five.

Gov. Connally, who still is recuperating from a hernia operation, believes he can get a better balanced committee if he names all members.

Senate Change Proposed
Big city legislators joined Rep. Tom Bass of Houston in a new effort to break up the rural domination of the state senate.

Bass' resolution calling for a vote on a constitutional amend-

ment that would cut out the limitation of one senator per district was signed by Reps. Herbert Shutt, Chet Brooks and Charles Whitfield of Houston; V. E. Berry and Jake Johnson of San Antonio; Dick Morgan and George Macatee of Dallas, and Dave Finney of Ft. Worth.

Open Meetings
By the time Rep. Chet Brooks' bill to ban secret sessions by all state and local boards, commissions and councils passed the House of Representatives, it was little more than a legislative resolution in favor of open public meetings.

Brooks—news reporter on leave from the Houston Post—failed in his attempts to fight the exclusion of a penalty. So the way the bill now stands, if a citizen is barred from a meeting of elected governmental officials, he may seek an injunction against the barring group.

Rep. Charles Whitfield of Houston said "Ordinarily it takes 8 to 10 days to get an injunction. Meanwhile the meeting is over."

New Loan Twist
State Junior Bar Association has recommended a new approach to the Texas loan problem.

Proposal was made to the House Banking Committee by Charles Sowell, Houston attorney and chairman of the Junior Bar's legislative committee.

He recommended a measure that would regulate loans up to \$1,500. Total charges would be based on the outstanding balance, except on loans under \$100.

Basically, total charges could not exceed 3 per cent per month on the first \$200, 2 per cent per month on the next \$100, one and a half per cent per month on the next \$200, and 1 per cent on the next \$1,000 on a loan contract.

On loans of less than \$100, Sowell proposed a flat charge of \$1 for each \$5 advanced, providing the borrower was given 15 days for repayment on each \$5 of the loan.

Sowell said the recommendations resulted from a long and thorough study by the Junior Bar of the "extremely complicated small loan industry."

Loan Bill Pieces
A senate banking subcommittee is attempting to fit together the jigsaw pieces of three loan bills into one composite bill.

When the task is completed, further debate on controversial and conflicting ideas is expected to result in more revision.

Subcommittee chairman Sen. Bruce Reagan said all members are trying to work out an acceptable measure.

Each member is selecting sections he favors, from the three bills submitted.

All will be put into a general draft. Then will come removal of provisions failing to meet majority support.

Final bill is expected to embrace both the small loan features of unsecured personal loans, and the consumer finance provisions covering larger loans.

By MRS. EUNICE DANIEL

Again it seems all weather predictions of rain have failed. To-day, Tuesday, we had a light sprinkle of sleet with 32 degree temperature. Grain fields are looking pretty and green again but really in need of rain. We learn that most farmers in the Lamkin area west of Hamilton had to plow their oat crop up as most were killed during the recent hard freeze.

Mr. and Mrs. Lewis Abel of Grand Prairie visited during the weekend in the home of his sister, Mr. and Mrs. O. J. Clark, and her parents, Mr. and Mrs. J. T. Jackson. Mr. Abel, who has been in the veterans hospital at Dallas for several months, is still very

poorly, but very glad he is doing better.

Mr. and Mrs. Ray Botkin, Tammy and Patsy Ann and Mr. and Mrs. Ray Turner of Killen visited during the weekend with their parents, Mr. and Mrs. Willie Turner and Bernice. The other two sons, Mr. and Mrs. Jackie Turner and Susan of Arlington and Mr. and Mrs. Billy Turner, Curtis and Rhonda of Killen were unable to come as little Susan had the measles and Billy had a case of the flu.

Mr. and Mrs. Ray Turner also visited in the home of her parents, Mr. and Mrs. Carl Ray Sellers, Janice and Jimmie.

Mr. and Mrs. Lawrence Adams of Hamilton visited Sunday in the home of her sister, Mr. and Mrs. Hersal Richardson and Jerry, and attended church here.

Announcements have been received here of the arrival of a son, born to Mr. and Mrs. Benn Dowdy of Fort Worth on Feb. 2. The baby weighed six pounds, two and three-quarter ounces and has been christened Derck Goynne. Mrs. Dowdy is the former Miss Lynda Goynne of Fairy, daughter of Mr. and Mrs. W. E. Goynne.

Birthdates for March which we have are: Mrs. M. C. Anderson, Hamilton, March 2; Dorsey Enger, Corpus Christi, March 8; Mrs. Geo. Stringer, Crane, March 13; Texie Allison, Dublin, March 1; Mrs. O. P. Vincent, Cove, Ark., March 30; the former Lynda Driver, March 20; Mrs. E. M. Hoover, Fairy, and the late Sallie Purdom, March 17; the late uncle Bob Parks and Mrs. A. R. Hoover, March 10 and 11.

Our agriculture teacher, Mr. Martin Schrank, accompanied seven of the Fairy boys and also seven from his class at Carlton to the Fat Stock Show in Houston last weekend. Fairy boys who attended were Donald Ray Jones, Jimmie Don Sellers, Ramon Haile, David Gleason, Sammie Guinn, Clifford Bullard and Mickie Streater. Six of the boys went as judging team members, and the seventh as an alternate.

Don't forget the informal barbecue dinner at the school Saturday evening, March 8, at 7, for the benefit of the football team. Tickets may be purchased at Howard Drug in Hico and Fairy Gulf Station.

We received a very unexpected letter last week from a longtime friend and acquaintance at Hamilton. Since she formerly resided at Fairy and Lanham we are sending a copy of her letter which we feel sure many who knew her will be glad to read.

"Kind friend: I know you will be surprised getting a letter from Hamilton, but I take the Hico paper and can hardly wait for it to come. I sure do enjoy your Fairy news so much. Now I used to be Bertie Crow and my parents settled at Fairy when I was about two years old and I spent my girlhood days there and went to school, and my father was one of the first settlers at Fairy. I think Capt. Fort and Mr. Jake Ogle's father beat him there a little, and old mother Dickerson was east of Fairy. You mentioned Mrs. Little

formerly of Agee, had been a patient in the Clifton Hospital most of last week. She was carried home Saturday, but was thought that she would have to be returned to the hospital.

Mrs. M. E. Parks and Audie and Elverson Jones, son of Eimer Parks and daughters and Mr. and Mrs. Milford Miller and Ronald. Mrs. George Walker and Tommy moved to Hamilton recently. We regret losing them from our community.

We Pick Up & Deliver

We wish to make a correction regarding the hostesses for the open house reception at the home of Mr. and Mrs. Scott Blakley last Saturday night week. The names of Mrs. J. R. Latham, Mrs. J. A. Edwards and Mrs. Carl Ray Sellers were given as hostesses. Later we were informed that the hostesses were the ladies of the Agee Baptist Church, with Mrs. Sellers, who attends church at Lanham, assisting. Most all assisted with the refreshments and serving. We regret the error, but since so few have telephones and many times we who have them are unable to get the use of the line when needed, it's very difficult to get all reports correctly by time to catch the mail.

Mr. and Mrs. E. M. Hoover were shopping in Stephenville Saturday and while there they visited in the home of her niece, Mr. and Mrs. D. E. Allison.

Mr. Poyner had suffered a severe paralytic stroke. Word has been received that Mr. Poyner

passed away Monday afternoon. Funeral services were set for 10 a.m. Wednesday at Durant, with burial there. Six of the boys went as judging team members, and the seventh as an alternate.

We received a very unexpected letter last week from a longtime friend and acquaintance at Hamilton. Since she formerly resided at Fairy and Lanham we are sending a copy of her letter which we feel sure many who knew her will be glad to read.

"Kind friend: I know you will be surprised getting a letter from Hamilton, but I take the Hico paper and can hardly wait for it to come. I sure do enjoy your Fairy news so much. Now I used to be Bertie Crow and my parents settled at Fairy when I was about two years old and I spent my girlhood days there and went to school, and my father was one of the first settlers at Fairy. I think Capt. Fort and Mr. Jake Ogle's father beat him there a little, and old mother Dickerson was east of Fairy. You mentioned Mrs. Little

formerly of Agee, had been a patient in the Clifton Hospital most of last week. She was carried home Saturday, but was thought that she would have to be returned to the hospital.

THE FARM PROGRAM
The minority members of the House Agricultural Committee have issued a joint statement on their views on the President's recommendations concerning the farm program for 1964.

The statement expresses general approval, with certain definite limitations, of the overall farm message. It is noted that the President has formally dropped his plea for complete control of American agriculture. The group calls this, "to some extent, sweet music to the ears of the American farmer." They go on to say, "Its general tone is in sharp contrast to the radical request he submitted in 1961 for Congress to delegate its Constitutional and legislative responsibilities to the Department of Agriculture."

In view of the rapidly rising costs of our farm programs and the evident fact that they have failed to solve the problems involved, it is refreshing to see some chance for real cooperation between the Executive and the Legislative branches in solving these problems.

A recent survey conducted by Farm and Ranch, through its subscribers, showed the following results. A vast majority, 79.1% favored no price supports, no controls, a gradual return to a free supply-and-demand system—the free market economy.

My subject this week is a very very cute girl, at least that is what a certain boy thinks. She is about 5' 3" tall and weighs about 119 pounds. She plays basketball better than anyone; at least I think so.

Game Warden Reports

By BOB RHODY

Now that the weather has begun to warm up the old snakes will start to come out of hibernation. So you will want to keep your eyes open whether you are fishing or just working in the flower beds around the house.

Most of the snakes you see will be of the non-poisonous variety but if you are not able to tell the difference, don't take a chance. Each person that will be working out in the pasture or field should by all means carry a snake bite kit. This little item may mean the difference between life and death to anyone bitten by a poisonous snake.

The white bass are biting slow over on the Brazos now. I don't think they have started as good as they will if we could get some warm sunshine for a few days. The ones that are being caught are small. Most popular bait being used is the shad-colored swimming minnow. I would like to remind you again that there is no limit on them in this district now.

For all you folks who trap wolves and bobcats, there has been some changes made in how you can collect your bounties. As of the first of March you will have to bring in the whole carcass and have it inspected by your warden, at which time I will have to cut off the ears. If I am not available it will have to be inspected by the sheriff or his deputy.

Please try to bring these in during the hours when the courthouse is open, as we may not be available at another time. And you may save yourself a trip back to Meridian. This will only apply to wolves and bobcats taken in Bosque County.

Please be careful while hunting and fishing and let's keep down accidents. An accident can certainly spoil a pleasant outing.

On the Home Range

By JEAN HENRY
Home Demonstration Agent

The Fairy 4-H Girls organized last Wednesday, Mae Pearson is the new president; Jenny Ruth McAdams, vice-president; Delia Willeford, secretary; and Leana Knapp, treasurer. Most of the girls chose cooking and sewing for their projects.

Dates for our drapery workshop have been set. So set aside the first, third, and fourth Tuesdays in March for this event. The first meeting was used for pre-planning in which equipment needed was discussed and other things such as desirable types of material, color, textures, etc.

How long can you expect to keep your new refrigerator or range? About 16 years if you follow the pattern of the average owner. This means you may trade it in, sell it, or give it away before it is completely worn out.

Many things affect the service life of an appliance. One is how well it fits the owner's needs and preferences. Research findings show, for example, that a range

acquired with the purchase of a home may be kept a shorter time than one the homeowner chooses and buys separately.

Here are estimates of the "service life expectancy," purchased new, under one owner" of several other types of household equipment.

- Electric washing machine, automatic or semi-automatic, 11 years.
 - Dryer, 14 years.
 - Wringer and spin-dryer washing machines, 10 years.
 - Freezers, 15 years.
 - Vacuum cleaners, upright 18 years; tank 15 years.
 - Sewing machines, electric, 24 years.
 - Toaster, automatic, 15 years.
 - Television sets, 11 years.
 - Living room wool rugs, 14 years.
- These statistics should help the homemaker plan her budget. Some appliances will last longer than the average and some not as long, but if the homemaker is wise she will provide for replacement as items approach their average life expectancy.

There's more than one way to bake an apple! Try your hand at Apple Chip Brunch Cake, a new kind of dessert, and delightfully easy to prepare. It's a moist cake with a delicious spicy topping. You will appreciate this recipe particularly. It takes so little time to put the cake on the table that it's a good "emergency" recipe to have on hand when you have short notice that guests are arriving.

- Apple Chip Brunch Cake
- Fourth cup sugar
 - 1 egg
 - Three-fourth cup milk
 - 2 tablespoons margarine, melted
 - 2 cups bisquick
 - 1 cup finely chopped pared apples
 - Fourth cup sugar
 - 2 tablespoons bisquick
 - 2 teaspoons cinnamon
 - 2 tablespoons soft margarine
- Blend first five ingredients. Beat vigorously 30 seconds. Fold in apples. Spread in greased round 9-inch layer pan, or 8- or 9-inch square pan. Blend fourth cup of sugar, 2 tablespoons bisquick, cinnamon and 2 tablespoons soft margarine until crumbly; sprinkle over mixture in pan. Bake in hot oven (400 degrees F.) 20-25 minutes or until done.

Every year when corn and maize begins to fire from lack of nitrogen we hear that it is dry and that a rain is needed.

A shortage of phosphorus cause plants to mature slowly, yield low quantities of grain, fruit or seed.

The third of the major nutrients is potassium and a plant hungry for this element usually shows scorched or burning of the outer edges of the leaves on corn, grain sorghum and small grains.

Advantages of Coastal Bermuda Grass Explained

By BOMER HARRIS
Soil Conservation Service

Coastal bermuda grass sprigs will be planted on many farms and ranchers in the Hamilton-Correll Soil Conservation District during the next few months. A few weeks ago, Jeff Perry, C. A. Lawrence, Johnny Harris and Seth Moore purchased a one-row sprigging machine. They plan to plant over 400 acres during the next few years.

Last week, John Guest, W. B. Edmiston and Courtney Brothers purchased a two-row Coastal bermuda grass sprigger. They have considerable acreage to be planted.

Coastal bermuda grass is a high producing grass compared to other pasture grasses and grazing crops in this area. Under average rainfall, soil condition and management, coastal bermuda grass will produce about five and a half months of grazing during the year. On a comparative basis, small grain will produce approximately 3.3 months grazing, while sudan will produce about 2.1 months of grazing. Common bermuda grass, under the average conditions mentioned above, will produce about 3.7 months grazing per year. One month grazing is a cow grazing for one month during the year. King Ranch bluestem will produce about 2.8 months of grazing during the year.

Coastal bermuda grass sprigs should be planted on a well prepared seedbed. As long as the sprigs are dormant, they can be planted one and a half to 2 inches deep and completely covered. After warm weather comes and bermuda grass starts growing, a

small part of the plant should be left out of the ground. Fertilizer, used in the row with sprigs at planting time, will speed up growth and ground cover. Fertilizer applied in this manner will not stimulate weed growth between the rows. Weeds should be controlled by mowing or shredding if they are considered a problem.

Coastal bermuda grass should not be grazed during the first growing season.

Ed Cloninger, office manager of the ASCS office in Hamilton, stated that approximately 50 percent of the cost of planting coastal bermuda grass will be paid through that office if an application is made to the County Committee before the practice is started.
