Who needs muscles?

Do you know how easy it is to take a corner with a Corvair or park one? Turn this newspaper sideways and it will give you a pretty good idea. The wheel handles just about that easily.

The Corvair's engine is in the rear, for not only greater traction, but more balanced weight distribution. And that's what makes the steering so completely effortless.

The engine is air cooled, too. No radiator. No water or antifreeze. No boiling over or freezing up to worry about. It takes the weather and the terrain as it comes.

So think about those trips to the beach this summer, those bright sunny days and balmy moonlit nights.

And besides, looking at it from a very practical point of view, it's Trade 'N' Travel time right now at your Chevrolet dealer's. He's got some beautiful buys.

But you had better hurry before somebody muscled in ahead of you. Spring's here. Summer's coming fast. And with these sporty good-looking Corvairs selling the way they are, he who hesitates will want to kick himself.

Friends and acquaintances here of Mr. George Christopher of Hico were sorry to learn of his passing

Sunday. Our deepest sympathy is extended to his bereaved wife and other relatives who mourn his passing.

We have received only about two-tenths inch of rain since our last writing. However we learn that about half an inch was received at the L. V. Houser place 4 miles west of Fairy Sunday after- noon. The rain got heavier south of there. The J. T. Leonards re- ceived about three-fourths inch and one inch was reported at the Lester Timmerman place and a good rain was received in the Gum Branch and Providence communi- ties near the Leon River southeast of Olin. Monday about 5 p.m., one- quarter inch fell at the Ted Ar- rant place and was heavier to- wards Cranfills Gap. Gatesville and surrounding areas received over two inches Sunday afternoon. We're in hope we will get rain in this vicinity soon. Most stock tanks in this area are dry.

Several from here attended the funeral of Mr. Jerry Todd at Hico last Thursday, and also several were in Hico to attend services for Mr. George Christopher Monday.

Mr. and Mrs. Willie Turner and Bernice were in Gatesville and Flat Sunday visiting with relatives. They were met at the home of re- latives in Flat by Mr. Turner's twin sister and husband, Mr. and Mrs. M. B. Lofton of Houston. The get-together was in observance of their birthdates, which was Mon- day, May 6. The Turners were met there by their son and wife, Mr. and Mrs. Ray Turner and other relatives in that area. All enjoyed a bountiful feast at noon and an enjoyable period of visitation dur- ing the afternoon. The Turners re- ported encountering heavy rain below Jonesboro enroute Sunday morning.

Mr. and Mrs. Garland Arrant and children of Arlington spent the weekend with his parents, Mr. and Mrs. Ted Arrant.

Mr. and Mrs. Bobby Drew and Synthia spent the weekend with her parents, Mr. and Mrs. Frank Hanes and Mike. Other visitors in the home during the weekend were her mother, Mrs. Pedro Jones who spent Saturday night in the home, and his mother, Mrs. H. H. Hanes of Jonesboro who spent Sunday night in the home.

Mr. Rachuig, father of A. W. Rachuig, was visiting during the

weekend with the Rachuigs.

Mr. and Mrs. Eddie Wood of Fort Worth spent the weekend with her parents, Mr. and Mrs. Leslie New.

Mr. and Mrs. Coy Parks spent Sunday in Arlington visiting in the home of their son, Mr. and Mrs. Alton Parks, Ricky and Mary Ann.

Mr. C. M. Broyles and Mrs. Pe- dro Jones went to Alice Monday for a few days visit in the home of their children, Mr. and Mrs. Claud Jones and Claudette.

Rev. Val Nance filled his regu- lar appointment here Sunday at the Baptist Church and was a luncheon guest in the home of Mr. and Mrs. T. R. Parks.

We have overlooked mentioning that Mr. and Mrs. Ovie Brummett, Grant and Nancy have moved to their new home about five miles east of Fairy on the Cranfills Gap road. They still have some finish- ing to do at the home, which was recently built but to make things more convenient for them they de- cided to move before completion. They moved about two weeks ago. Our best wishes to them in their new home.

Mr. and Mrs. Burns and daugh- ter of Snyder were visitors at the Church of Christ services Sunday. They were passing through and stopped for church services.

Mr. and Mrs. Albert Mason spent Sunday in Granbury visiting in the home of her brother, Mr. and Mrs. Head. They also enjoyed a visit with the Head's son who was home on leave from the service.

We have been informed that the R. W. McAdams family are mak- ing plans to move to Littleville when school is out. We have not learned whether they just plan to stay through the summer months or remain permanently, since Mr. Adams has been working with a roofing company there for more than a year. We regret to lose them from the community for the time being but know it will be more convenient for Mr. Mc- Adams.

Miss Vivian Talley of Ft. Worth visited awhile Sunday in the home of the writer and while here made arrangements and took out an en- dowment plan for her parent's cemetery lot, Mr. and Mrs. Lewis Talley and Arthur. She and her sister, Miss Bernice, also plan to be buried on the lot. She also pur- chased one of the perpetual care markers. At this time we have sold 11 of the 12 ordered and there are still three lots in the plan who should purchase these markers. The cost is \$7.50 each and we would appreciate it very much if you who want one will let us know so we can have a few more made with this order. We have been told it will be about 30 days from the time the order was placed until delivery could be made. The order was turned in about two weeks ago so we should be able to get them within the next two weeks. They will be set in con- crete on all the endowment lots whose relatives have paid the \$7.50. As we stated we could not use the

cemetery funds for this purpose since most of the support we re- ceive is for the care of individual lots. We now have \$1590.00 in this fund and at four percent interest you can see what a help it will be in taking care of these lots. We just need more who are interested and hope to have as time go by.

Mrs. Irene Bankston and daugh-

ter of Temple and her sister, Mrs. J. R. Oglesby and daughter of An- gleton visited during the weekend with their father, J. E. Blakley.

Mr. and Mrs. Edwin Guinn and Sammie visited Sunday with her mother, Mrs. Willie Bullard of Hico.

Mr. and Mrs. Durwood Brooks and children visited Monday night

in the home of her parents, Mr. and Mrs. Edwin Guinn and Sam- my.

WASHINGTON

As It Looks From Here

By OMAR BURLESON, M.C.
17th District, Texas

Washington, D.C. — Brought to the forefront of interest following the President's action on Cuba last October was the issue of "managed news."

One high governmental official reportedly made the unfortunate remark that, if it were in the national interest, an official lie was justified.

This is by no means the beginning or end of "managed" news. Research indicates that from the time of Lincoln and Jefferson and probably before either, news was managed in some form or other by every Administration. It depends on the method used. Some have practiced the art sparingly and with subtlety. Others have evidently practiced it often and with the finesse of a diverless friction truck hurtling down a mountainside.

No authority exists in law or morality for a deliberate official lie. If, in truth and in fact, information held by high Governmental authorities would impair our national defenses, if revealed, a simple "no comment" should be the response to news gatherers' questions.

"Leaks" to the press, coming from officials just below the top, but with the approval of the very highest, are a favorite method of managed news. This is oftentimes for the purpose of creating certain impressions with the public, but not attributable or changed to the highest authority. By whatever method employed to "manage" news there is a high responsibility on the part of any official to stick with the truth when he goes beyond "no comment."

There is also the same high responsibility on the part of the press and other news media to ascertain and present the facts to the public in true perspective.

It becomes a strange thing when several newspaper reporters, having the same information, can report it in entirely different meanings. Seemingly, it does not always depend upon their understanding, but upon attitude toward the issue or the individual. Intuitions, half-truths and omissions can grossly deceive the reading public. Sensationalism seemingly has a ready market.

A much higher responsibility certainly rests upon the publishers and editors of newspapers, periodicals and magazines, to see that

CARD OF THANKS

We wish to express our heartfelt thanks and appreciation to everyone who extended comforting sympathy in our recent sorrow. Our gratitude is indeed great to those who sent the lovely flowers, the food, cards and every kind expression of thoughtfulness. May you be blessed with such wonderful friends in your hour of sorrow.
The George Christopher Family, 2-Itc.

CARD OF THANKS

We are sincerely grateful to friends and neighbors for their kind acts of sympathy during our bereavement. Also to the entire hospital staff, doctors and to Barrow-Rutledge Funeral Home for their kindness. Our appreciation cannot be adequately expressed.

honest reporting is submitted for publication. News media of our nation are by nature and responsibility public institutions, although operated for private gain. Under their code, they pledge fairness and objectivity in news coverage, although, of course, they are free to choose their own editorial policy. Nothing, however, either legally or morally, entitles a publisher or editor to instruct his staff to ignore or to slant that which is newsworthy. Nothing justifies the printing or not printing of straight news items on the basis of personal bias or prejudice. Ethics and fairness are violated when news items are withheld, whether reflecting favorably or unfavorably on issues or individuals connected with those issues. Opinions expressed editorially are another matter. There is an age-old adage familiar to people in public life, which warns against opposing newspapers and other news media. It bears the logic that "newspapers appear every day."

In the case of managed news, it seems that in many instances it could be a very black pot calling a very black kettle, very black.

"The easiest way to make a mountain out of a molehill is just to add a little dirt."

THIS WEEK IN AUSTIN

Highlights and Sidelights

By VERN SANFORD

Texas Press Association

Gov. John B. Connally signed 27 bills into law—then he and Lt. Gov. Preston Smith left the state. Their departure was to permit Sen. Martin Dies Jr. of Lufkin to take over as "Governor for a Day."

Each bill applied to a special area of interest. For example:

1. House Bill 16 by Rep. Olen R. Petty of Levelland interests State banks. It exempts them from State sales tax and franchise tax so long as federal banks are exempt. Saves them \$1,000,000 a year.
2. House Bill 588 by Houston Rep. Tom Bass interests firemen and policemen. It enables them to credit toward job seniority time taken off for military service and guard duty. This speeds up their promotions.
3. House Bill 614 by Rep. Amador Canales of San Diego and Rep. Jerry Butler of Kenedy interests hunters. It puts a "No-Hunting" sign on Duval County for the next five years.

These laws will go into effect late in August.

Voters Registration

A registration system to take the poll tax's place is all but decided by the Legislature.

Senate-passed bill by Tom Creighton of Mineral Wells calls for a 25-cent registration fee in lieu of the \$1.50, or \$1.75 poll tax. It retains the present system of registering voters each year.

El Paso Rep. Malcolm McGregor tried to include the Texas League of Women Voters' plan for permanent registration, but it was turned down.

House took the 25-cent fee provision out of the bill. So a House-Senate conference committee will have to settle this dispute. Another

PERFECT SPELLING paper was turned in recently by Mike Davis, fifth grade student in the local elementary school. The paper was graded 100 percent by the state office, Division of Extension, Austin. The paper was entered after district literary events in which young Davis placed first for Hico.

YOUTH RALLY AT PENTECOSTAL CHURCH

Announcement has been made of a Youth Rally at the Hico Pentecostal Church, to be held Friday night, May 10 beginning at 7:45. Everyone is invited to attend.

HERE ON LEAVE

Eldon Lindsey, previously stationed in Connecticut with the Coast Guard and enroute to his new base in California, is visiting here while on leave in the home of his parents, Mr. and Mrs. H. Lindsey.

Stamp Sales Up

More than \$9,000,000 was taken in by the State from the sale of wine, liquor and cigarette stamps in April. This represented an increase of \$750,000 over April 1962 revenue.

House amendment would require rural people and those residing in small towns to register every year, if they are over 60 years of age. At present, these people are allowed to vote without registering at all.

Entire registration revision depends on a constitutional amendment to repeal the poll tax. This bill, by Rep. Abraham Kazen of Laredo, passed the Senate, but is tied up in a House committee.

For Men Only

Decision by Texas A & M's board of directors to make the college co-educational provoked introduction of a House resolution against the board's decision. Also a bill designed to prevent entrance of females.

Rep. Will Smith of Beaumont introduced both measures.

1962 Voter's Registration

State Comptroller Robert S. Calvert reported a total of 2,020,183 voter registrations issued through January 31, 1963.

This included 1,654,805 poll tax payments and 365,378 exemption certificates, to be used in any elections held through January 31, 1964.

Loving County issued the least poll tax receipts—90. Harris County the most—282,768.

Teamwork Too Good?

Sen. Murray Watson of Mart said the 58th Legislature is bypassing many major issues in its "mad rush" to adjourn by May 27.

He praised the teamwork of House and Senate, but said "All this good teamwork and this great speed is fine and good, but in our mad rush to set records—to avoid controversial issues—and to adjourn within the 140-day period, we are overlooking many vital problems."

Sen. Watson said the Legislature "seemingly is avoiding any positive approach to the growing water pollution problem—to traffic safety, crime, delinquency, divorce and other problems relating to our society's health and welfare."

Guard Commander to Retire

Maj. Gen. Lloyd M. Benton Sr. of Mission will retire as commander of the Reserve Corps of the Texas State Guard on May 11.

He will be succeeded by Maj. Gen. John L. Thompson of Houston.

Business Activity Down Again

The seasonally-adjusted index of Texas business activity went down in March for the second month in a row, according to the Bureau of Business Research, which bases its index on the 1957-59 average.

Business in general in March was seven per cent below February's level and four per cent below that of March 1962.

Only three cities — Beaumont, Tyler and Texarkana—showed increases. El Paso and Lubbock remained at their February levels, while other cities showed declines from two to 16 per cent.

PUBLISHED WEEKLY BY THE STUDENTS OF HICO HIGH SCHOOL

WHO'S WHO

This is black day for the Who's Who because we are plunging into the depths of despair. We are writing about a sophomore boy!

Even so I really must admit that this person is a fine sophomore student in his classes as well as athletics. This particular person is about 5 feet 7 inches tall and weighs around 130 pounds. I understand that he is a rather brainy person. He was valedictorian of his 8th grade class and he is an A honor student in High School. When it comes to athletics don't let his size fool you. He started at end this year on the football team. He did a great job and was mentioned for all-district. He also started at guard in basketball and was a fine playmaker. Remember he is just a sophomore.

If all of this doesn't shed any light on the subject well just remember that he is a Clairette playboy. By now there shouldn't be any doubt but for you dense people it is none other than slimey sophomore Charles Erick.

SENIOR NEWS

Well the inevitable has happened! Martha Paddock has got that certain item on her 3rd finger, left hand that can mean only one thing. She's engaged!

Fred N. wasn't going to cut his hair until the senior trip was over but when it got to the point where he nearly fell down the stairs because of visibility problems he finally took the big step. We had almost forgotten what his face looked like.

Gary W. head was as big as a balloon when he was driving his brother's convertible down the street last week but it got down to normal size when he got into his own little brown hooped.

Harry B.'s heifer had a 110 lb. bull. He was pretty nervous about it all.

We're awfully proud of our two seniors who went to the State Meet. Good going—Tom P. and Barbara R.

Well we're on the trip! See you Saturday.

HOME ON LEAVE

Sgt. Frank E. Wooton of Fort Leavenworth, Kansas is visiting here while on leave, in the home of his parents, Mr. and Mrs. J. R. Wooton and family, and in Dublin in the home of Mr. and Mrs. Coy Whitehead.

SOPHOMORE NEWS

Leona came to school today with a new kind of rash. We analyzed it as the "chewing Tobacco Rash." You better watch out Lynn!

I heard Bonnie W. talking about something she had to drink last night. Any comment Bonnie?

Some of our sophomore boys have decided to become ropers and ride calves right Edwin B. and Scott P.?

Linda J. doesn't Billy know he's not supposed to leave town without your permission? Also congratulations on your anniversary.

James R. and Ronnie P. have nice dark tans today. Too much

sunshine or should I say moonlite? Hey James J. and James C! Have you been giving Clarence trouble? You had better watch out—he's rough!

The Homemaking II girls have been learning about childhood diseases. If anyone comes down sick just call on them.

Liz and Danny are getting along OK these days. They need to be congratulated for that.

Margo W., Alma B. and Mary Ann went to the show Saturday night. Did you go to look at the show or something else?

Carol C. and Eddy T. are still going steady. I know this because Carol is still happy and smiling. We all hope it lasts.

Well I guess I'll sign off for this week. Just remember it's only 13 more days now until we're free!

FRESHMAN NEWS

All the freshmen are practicing for the track meet.

Dianne J. is getting her practice by chasing a junior boy through the halls. Could it be RM?

Everyone's heard about a "first basket turn-over" but if you want to know the details just ask Linda D. and Frances L.

Dwain F. can you explain Cheryl's black eye. Did she really get hit with a golf ball or did you throw it?

If you see Pat B. just call her "curly."

Glenda O. goes for the younger boys. Especially those with the first initial of "D."

Charles P. we know that you dislike sophomores but do you have to pour acid on them?

Voreece C. has a new hobby. Could it be broad-jumping on male? Judy J. was out to kill a mockingbird Friday night, but for some odd reason she got side-tracked. Claudia H. will certainly be glad when that certain weekend comes. Ask her about the details.

I want to encourage all of you to go to the Home Demonstration Bake Sale being held tomorrow May 10, on the East side of the square in Hamilton. I have heard lots of favorable comments on what good cooks home demonstration ladies are. So don't miss this opportunity and let them do your Mother's Day baking for you. Money received from this sale will help send three 4-H girls to District 8 Camp, pay for yearbooks, send delegates to district and state THDA meetings, and miscellaneous expenses which arise.

Littleville HD Club met with Mrs. Kermit Renken last Friday. The Renkens are doing, and have done, a lot of improving in their home. It all looks very nice.

Have some dried out raisins on your pantry shelf? To avoid the drying-out of raisins, wash them and spread them out on a flat pan. Cover the pan and heat slowly in a moderate oven until raisins are smooth and plump. Another good method of plumping them is to let them stand in fruit juice for about an hour.

It is the time of year to entertain the graduates, the brides-to-be and any number of other things.

CLAIRETTE HOMECOMING SET FOR JUNE

The annual Clairette Homecoming will be the first Saturday night and Sunday in June at the Clairette Community Center. Everyone interested should keep the date in mind and plan to attend.

On Saturday night there will be entertainment and on Sunday a basket dinner will be spread.

Congratulations to the graduating class of Hico Schools, and special congratulations to Bonnie Wootton and Tom Pratt for winning places in the State Meet at Austin Friday and Saturday. Bonnie won third place in prose reading and Tom won second in persuasive speaking.

A fair crowd attended the annual cemetery working and meeting Saturday. Some attended that had not been here in years. People were here from various places.

Mrs. Marine Reagor Cook of Plainview Texas held the lucky number for the drawing of the quilt that the Busy Bee Club made to help raise funds for the cemetery. She was made quite happy over getting the quilt. Mrs. Cook lived a number of years ago. She is the only living member of the Reagor family. The quilt netted \$150, and we wish to thank everyone for donations. Without your help we could not keep the cemetery clean.

The old committee, Mrs. Zenith Johnson, Mrs. Myrtle Thompson and Mrs. Lucile Mayfield was re-elected to serve another year. The committee appointed Mrs. Bishop Stamford of Brownwood chairman of the tree committee, and she chose Mrs. Glen Lee of Fort Worth to assist her in selecting and putting out some shade trees this fall at the cement tables in the cemetery.

Mrs. Ben Cook of Bryan visited last week with Mrs. Dona Wolfe. Mrs. Wolfe's son-in-law, Rupert Phillips of Dallas was also a visitor in the home.

Mr. and Mrs. Frank Johnson, Mr. and Mrs. Les Dowdy, Mr. and Mrs. Zeph Carter and Mr. and Mrs. Bill Head attended the Partain family reunion in Glen Rose Saturday night.

Mr. and Mrs. Jerry Magee and children of Burleson visited Mr. and Mrs. Bill Head during the weekend.

Lon Johnson and son of Overton attended the cemetery working and visited his sister, Mrs. Herman Roberson and family.

Mr. and Mrs. E. T. Salmon of Stephenville visited in the home of Mr. and Mrs. Herman Roberson Sunday night.

Mrs. Sherman Reed and son spent the weekend in Fort Worth. Mr. and Mrs. H. K. Self and family of Fort Worth spent the weekend with his mother, Mrs. Ethel Self.

Mrs. Dulis Dowdy had most of her family home last week. Present were Joe Dowdy and family of Alice, Don Dowdy and family of Dover, Delaware, who were enroute to the Philippines where he will be stationed with the Air Force. Mrs. Louise Lassiter and family of Rockport, Mr. and Mrs. Ben Dowdy and family of Fort Worth. Mrs. Joe Dowdy and baby remained here while her husband is on a job in Odessa. When he gets located he will return for them.

We are sorry to learn that Johnny Scott is a patient in Hico Hospital.

News was received Sunday afternoon that George Christopher had passed away in All Saints Hospital, Fort Worth where he had been a patient several weeks.

Mr. and Mrs. Truman Noland and family of Weatherford visited Mr. and Mrs. J. O. Noland during the past weekend.

COW POKES By Ace Reid

"Gosh, I grabbed the horn . . . that eliminates my chances fer waddin' agin!"

COUNTY AGENT REPORTS
By E. R. LAWRENCE

It might be and it might not be time for some of you to spray your pecan trees for the casebearer. At present time, the larvae is not in the end of the shoots which means that the moth should be laying eggs about this time. It will only take four or five days for the eggs to hatch. As they are hatching is the time for one to spray.

Another good way to tell when to spray is to make daily examination of the small pecans that have about completed their pollination. This is complete when the tips of the small nuts turn brown then black. It is on the tips of the nuts where the casebearer lays eggs. In making daily examination of the small nuts, look for nuts that have been punctured by the insect, then the spray solution down on the small plants. Most sprayers are set near the base of the small nut, now for larger cotton, Chances are that the nozzles should be lowered and also brought closer together. Also their direction of spray might have to be changed. So if you're doing some early spraying check the sprayer for these things.

—ERL—

John Meide and Billy Mad Brown of Aileman are planning to use a new method this season for grass control in their cotton. This is the use of naphtha which is sprayed on the small seedlings. This is called Lateral Oiling of grass and weeds and is very successful if applied correctly and at the proper time. Cotton has a waxy stem and the oil does not hurt the plant unless it gets on the leaves. Oil can be used until the plants are about six or seven weeks old and at this time the stems begin to crack open and spraying with naphtha should be stopped. Oiling is a quick and cheap way to get grass.

—ERL—

To those of you who have cotton up I would sure suggest that you check closely for insects. The thrips and aphids are working in most cotton that is up and could cause damage if they get too numerous. With the cool weather we are having, there is a possibility that we could have more trouble with the aphid.

In spraying young cotton it is wise to make a check of the spray machine and see that it is getting

Facts About Rabies—Part 2

The incubation period is the time it takes symptoms to develop after exposure to a rabid animal. It takes from 14 days to as long as six months for rabies to incubate depending on the animal species, the amount of strength the virus and the site of the wound.

In dogs, wolves, foxes and coyotes the incubation period may be as long as six months. On the average for other animals the time is: man, 40 days, with a shorter period for children and cases of head or face wounds; horses: 21 to 90 days; pigs, 21 to 60 days; goats and sheep, 21 to 60 days.

A practice used internationally concerning quarantine calls for confinement of dogs for six months during a rabies outbreak.

The course of the disease from the time of exposure to death is divided into three stages. First, a pre-symptomatic stage; second, a stage of excitement; and third, a paralytic stage which terminates

in death.

Medical authorities distinguish between degrees of madness in animals as "furious" and "dumb" rabies. In the furious variety the infection dose is usually lighter and the classical "mad dog" symptoms are more pronounced. The animal is irritable and will snap and bite at non-existing objects. It may run for miles and attack anything in its path. In the excitement stage the animal is extremely vicious. Paralysis sets in shortly, usually affecting the hind legs first. Death follows paralysis anywhere from four to seven days after the outbreak of the first symptoms.

In dumb rabies the infecting dose is usually heavy, and the prominent symptoms are drowsiness and paralysis of the lower jaw. To all outward appearances the animal might have a bone lodged in its throat. So deceiving is the appearance that many an owner has unwittingly forced open an animals mouth to investigate and thereby made himself liable to an infectious bite.

Animals in dumb rabies have no tendency to roam but will snap at movement. They are completely insensitive to pain, and will usually fall into a coma and die from three to 10 days after the first symptoms appear.

It is important that a biting animal be confined for 10 days for observation. Do not kill the animal at the time of the attack. Such action may make it impossible to

make a complete and positive examination.

If it is impossible to keep from killing the animal, do not damage the brain or head, for it is the brain which has to be exam-

ined to determine if it has rabies or not.

For information on shipping the head to the State Health Department please call me and I will be glad to furnish information on

how to pack it.

I hope this will clear up some of the questions on rabies. So far this year I have not had any positive cases reported to me in this district.

Riding Club Round-up

By LINDA KOONSMAN

If you weren't at the arena Tuesday night of last week you really missed a good show. The Erath County Trailblazers performed a square dance on horses. The Trailblazers are a club made up of teenagers from 17 and around Stephenville. This is a newly organized club and we want to wish them luck in their following performances.

Seven contestants entered in the barrel racing event for the night. Landa Stroud won with a time of 16.4.

There were more cutters Tuesday night than there have been all year. The club has now purchased 31 cutting cattle, but they will not be used until after the Quarter Horse Show May 10.

There was also a plentiful supply of ropers. Jimmy Chumney of Hamilton had the best time with 12.5 seconds. If you boys from Hico don't start having some fast time everyone is going to think you can't rope.

There was a number of out of town guests at the arena Saturday night. Lynn Hanshaw was the announcer you heard. He did a very good job.

Janis Shepherd was really on the ball Saturday night. She won both the pole bending and barrel racing events.

There was a "daring and danger-

ous" attraction. The younger cowboys rode bucking calves. Those who rode, or attempted to ride, were Eldon Black, Edmund Horton, Frankie Phillips, Curtis Keller, Jim Wolfe, David Ashby, Edwin Black, Howard Strader, Wayne Gruben and Randy Dickerson. I hope they continue to have this feature, as it is very exciting. Who knows, we may have another Jim Shoulders.

There were 25 ropers, but no time keeper. I don't know who had the fastest time. One question: Herman Sowell, why was Lynn Hanshaw playing a waltz especially for you?

Good news for all you ropers—the club is looking for some smaller calves!

Now you won't have to wrestle your calves before you tie them.

The club now has ten new members, Larry Todd, A. E. Reich, Buck Shepherd, Bill Meeks, Tommy Mitchell, Milton Rainwater, Jerry Needham, W. B. Ballard, Salmon's Dept. Store and Eugene Gruben.

All who are interested in joining should see Jerry Lackey or Billy Holley.

See you next week.
