

**10,000 CAPACITY**

**New Feedlot Announced;  
Friona Men Involved**

Last week's rains served to remind us of a couple of things - both concerning Running Water Draw, and both are projects we've pushed from time to time, but which seem to be in the category of things which just take so much time, and maybe we'll live long enough to see them realized, and then again, maybe we won't.

One of the projects is the improvement of State Highway 214 between Friona and Muleshoe.

Currently, the state has approved the funds for reconstructing the road from Friona and Hub, including an overpass at the Santa Fe tracks.

As important as this phase of the road is, the rains of last week, which caused the draw to flood the highway south of Hub, served to point up that the portion of the road from Hub to the Bailey County line is also in need of attention.

A visitor to our neighbors at Claborn Floral last week told of how it took her 90 minutes to drive from Muleshoe to Friona last Tuesday - a trip which usually takes 30 minutes at the most. This was, of course, due to the rampaging Running Water Draw over the highway south of Hub.

Traffic was impeded through the draw all day Tuesday, and was resumed on Wednesday after the water subsided.

It would seem that the bridge on Highway 214 on Running Water Draw needs to be built up, for periods such as we experienced last week.

True, this doesn't happen very often; but the history of West Texas tells you that lots of years you get your year's supply of rain all at once; and roads need to be planned with this in mind.

During excessive rainy spells, we have counted seven places on Highway 214 between Friona and the Bailey County line which tend to get under water during such spells.

Only two of them are between the city and Hub - one being the Frio Draw, which problem will be overcome by the bridge and overpass which will be constructed on the highway.

So, this leaves five bad places on the highway between Hub and the Bailey County line to be contended with until further funds can be allocated for the road's improvement. The chief source of trouble in this stretch is, naturally, Running Water Draw.

This leads to the other project we referred to - that of the flood-prevention structures which have been proposed for the draw as long as men in this part of the country have been concerned with the draw.

In recent year, we thought the project was getting somewhere. Some four or five years ago, the county entered into a project with four other counties, to secure a series of dams along the watershed.

A group of special engineers surveyed the draw, and gave recommendations as to where the dams should be located. Their recommended spots, for the most part, turned out to be places that for one reason or another were inaccessible. But finally, the county came up with locations to submit with the project.

We had fond hopes that the project could be fulfilled before another rain such as the area received the past week, so that this valuable floodwater could be retained, and damage and flooding prevented.

But alas this has not been so, and as we said, the project may have just been a pipe dream, and then again maybe it will be realized some day.

Too bad there couldn't have been a dam just south of Hub, which might have been coordinated with a bridge or road for Highway 214. But apparently this is out of the question. At least, it appears to be at this time.

Talking about the draw, we were told the other day about a youngster calling her mother last Tuesday to inform her that school would be dismissed at 2 p.m.

"They're turning out school because the draw is up-what-over that means," she was

A new feedlot for Parmer County was announced this week by a group of major stockholders in the venture. The new facility will have an initial capacity of 10,000 head or more.

Because of legal details involved in purchasing the land, the location of the new feedlot was not announced, but it is

expected to be in the Oklahoma Lane Community, some 14 miles southeast of Bovina.

The name of the new feeding enterprise will be Bovina Feeders, Inc. A corporation has been formed under that name. If the present location cannot be secured, the lot will be located elsewhere.

Major stockholders in the closed corporation are Walt Mabry, Richard and Jerry London, Andy Hurst, Bill Wooley, Dr. Loyd Shackelford, Louis Welch and Elvin Wilson, D.C. Herring, all of Friona; Leon Grissom, Wendol Christian, Tom Caldwell and Robert E. Wilson, all of Bovina; and James Mabry of Lazbuddie.

Grissom is president of the corporation. James Mabry is vice president; Welch is secretary-treasurer and Hurst is assistant secretary-treasurer.

Grissom and Christian have been named to serve as coordinators for the business until a manager is named. A manager is expected to be selected in the next few months.

Addition of the new facility to the county's cattle-feeding empire will push Parmer County's one-time feeding capacity to roughly 160,000 head. The annual capacity would then be around 395,575.

The county rates second on the High Plains only to Deaf Smith County regarding the figures quoted.

Plans call for this feedlot to be different than most in Parmer County in that the early harvest method, instead of a mill, will be used for most of the feeding. This means that the grain sorghum will be purchased from farmers when it contains 35 per cent moisture or less. It will then be ground and stored in a concrete-lined

pit until it is used. The grain will be delivered from farms direct to the feedlot storage.

This early harvest method will be unique in this area, but it has proven successful in other sections of the country. Leaders of the new corporation have made numerous trips to study the operations of other early harvest method feedlots.

With the exception of the wet grain method of feeding the milo, the operation of the feedlot will be similar to others operating in the area.

Plans now call for the new feedlot to be ready to feed cattle by October 1. Storage capacity of grain for the feedlot will be constructed initially for approximately one million bushels.

Negotiations are now under way with farmers and leaders of the feedlot in regard to providing milo and ensilage for the business.

"We have been assured grain sorghum may successfully be harvested at the higher moisture content," Grissom says. "This is an advantage to the farmers in that the grain is out of the field three to four weeks earlier than usual, thereby giving that much extra grazing time before frost and eliminating the chance for weather damage to the crop."

The feedlot has been in the planning stage for the past few months. The corporation was officially formed only recently.

PLANTING TIME. . . W. M. Masie, who farms north of Friona, is typical of farmers in the Friona area this week, as he is shown re-stocking his planter box while planting maize. Most farmers had planted their cotton prior to last week's four-inch rain, and many are still waiting to see if they will need to re-plant.

**PLAYER AUCTION**

**Summer Baseball Loop  
To Organize Friday**

A meeting of all Little League team managers has been called for 8 p.m. Friday night at Friona State Bank. The player auction will be held, with team members being chosen for 1969.

Ronald Smiley has been named director of the Summer Baseball program, replacing Don Reeve.

There will be 11 teams competing this year in two divisions, the same as last year. However, there are two new sponsors.

Sponsors of the seven Pee-Wee League teams are Continental Grocers, Tasty Cream Drive In, Monsanto Ag Center, Ethridge-Spring Insurance Agency, Parmer Co. Pump (B-J Bees), Hi-Pro Feeds and Parmer County Implement Co. The latter two sponsors will replace Nunn Lumber Co. and Welch Auto. Four teams will play in the

Intermediate League. They are Friona State Bank, Friona Feed Yard, Reeve Chevrolet and Friona Star-Hurst Dept. Store.

Approximately 70 boys have signed up for the Pee-Wee League. There are 40 Intermediates and 14 who are Pony League age. Smiley says the Pony League will attempt to arrange games with teams out of town.

Official's plan to open the season on June 2. The schedule will run through July.

Boys interested in playing who have not signed a form may contact either Smiley or Clarence Monroe.

The Pee-Wee League is comprised of boys eight years of age by July 31, through 10 years of age. Intermediate League players are 11 by July 31 and not over 13 by that date. Pony Leaguers are 14 through 16.

**Rev. Foil To Preach  
Baccalaureate Sermon**

The Baccalaureate service for Friona High School's graduating class will be held Sunday night at the Grade School Auditorium, beginning at 8:30 p.m.

Rev. Bill Foil, pastor of the First Baptist Church, will deliver the Baccalaureate message.

Special music will be brought by Paula Fortenberry, a member of the graduating class. A piano-organ duo, Risa Howell and Rex Talley, will play the professional and recessional.

Ted Procter and Carlene Greeson will serve as honor guard.

The commencement exercises for the class will be held on Friday, May 23 at the auditorium, also beginning at 8:30 p.m.

Commencement exercises for the eighth grade class will be held on Thursday, May 22, beginning at 8:30 p.m. at the grade school auditorium.

The award assembly for grades 9-12 will be held at the high school auditorium at 2:30 p.m. Thursday. Similar assemblies are set for grades 5-8 at 2:40 p.m. Friday, and for grades 3-4 at 12:30 p.m. Friday, and for grades 1-2 at 1:30 p.m. Monday, May 19.

School will dismiss at 2:40 next Tuesday and buses will run at that time.

**Honor Student  
Was Omitted**

In the story about the honor graduates of Friona High School for 1969, the Star inadvertently left out the name of Joel Osborn, who was the fourth-ranking student in the class.

Osborn had a four-year average of 93.07, finishing behind Darla Perkins, Connie Whaley and Lowery Harper.

**Bank Deposits Record  
For First Quarter**

Deposits at Friona State Bank were at an all-time high for the first quarter "bank call," it was revealed this week.

The deposits on April 30, the call date, stood at \$8,597,369.36. This represented a 16 per cent increase, or a gain of \$1,024,168.30 over the figure of \$7,573,201.06 on the corresponding call date, which was April 18 of 1968.

Total assets also showed a corresponding gain. The assets at the bank on April 30 stood at \$9,667,371.92, compared to \$8,279,092.07 a year earlier.

Loans amounted to \$7,137,617.36 on the current statement, a gain of \$2,211,992.72 from the statement a year earlier.

A bank officer credited the growth of cattle feeding, and the corresponding favorable

market with much of the statement's increase. "It certainly hasn't been farm prices, because they haven't come up," he said.

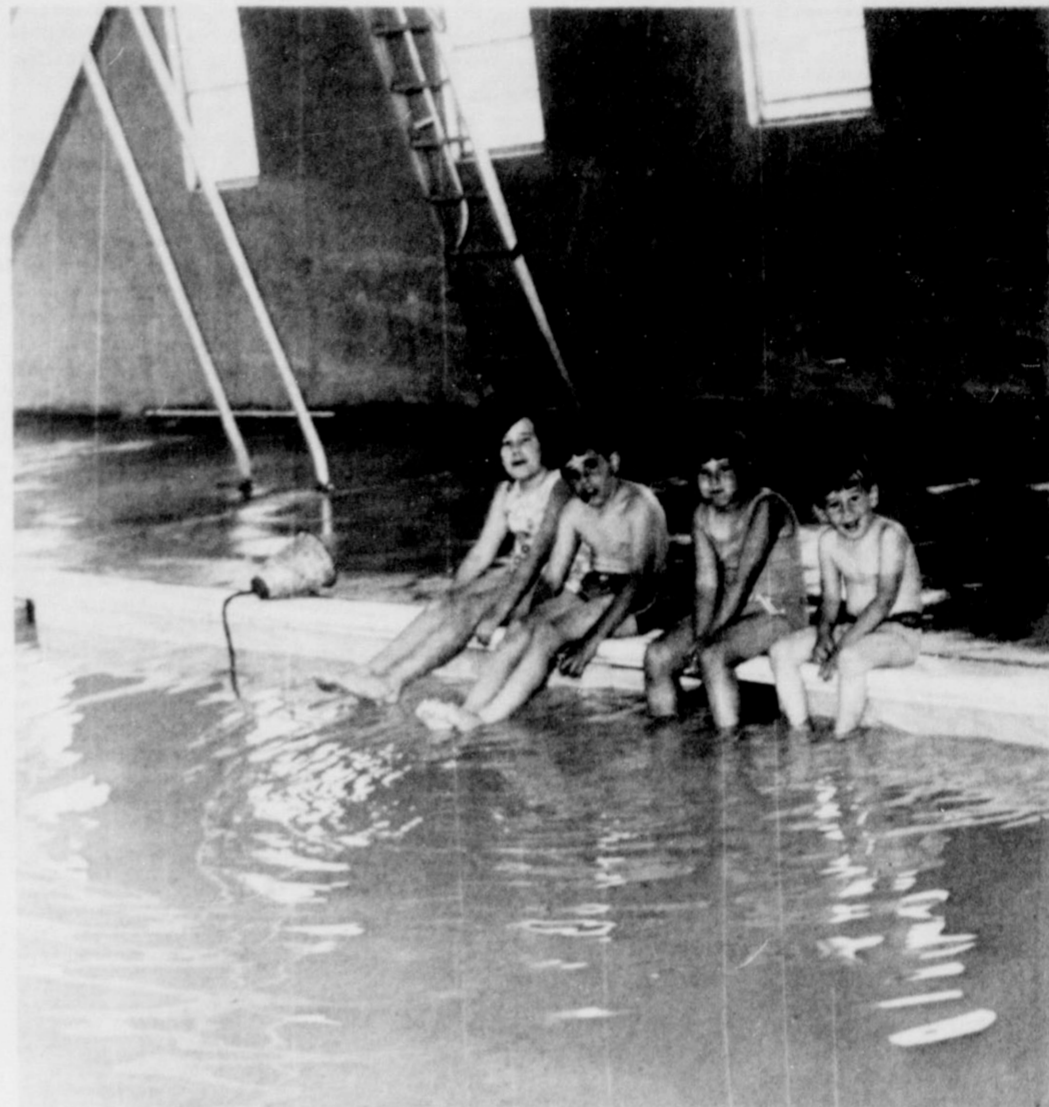

The all-time record for bank deposits came at the December 31, 1968 statement, when \$9,771,722.85 was on deposit at the local bank. The December statement is traditionally the best one of the year for a bank.

**LL Mothers**

The Little League Mothers will meet Saturday, May 17, at 2 p.m. at the Friona City Hall, to organize for the year.

It is very important for all mothers to be at the meeting, according to a spokesman for the group.

Plans for the 1969 season, work schedules, etc., will be discussed.

READY FOR SWIM. . . The four Friona youngsters shown above kinda "jumped the gun" on the opening of the Friona Dive-In Swimming Pool, which actually opens on Thursday. The children are Lisa, Mark, Karen and Brian Edelman, children of Mr. and Mrs. Von Edelman. The pool will be open from 1-6 p.m. each day from May 15 until August 15. It is being operated once again this summer by the City of Friona, and season tickets are available for both children and adults. For more details, see advertisement inside this issue.

**FOR 1969-70**

**School Semester  
To End At Xmas**

The Friona Independent School District's board of trustees approved the school calendar for 1969-70 at its regular meeting Monday night. The calendar calls for the first semester to end just prior to the Christmas holiday break, a new innovation expected to help the students.

In the past, there has always been a week or two left in the first semester following the holiday break, which many felt was not good for continuity.

The Christmas holiday break under the 1969-70 calendar will last a full two weeks, according to the schedule approved Monday night.

School instruction will start on August 26, and the final day of school will be May 23, 1970. The schedule provides for 176 teaching days.

In other business, the board approved the hiring of five new faculty members. One is W.L. (Dub) Cleveland, who will fill the recently created position of freshmen coach. Cleveland has

11 years of coaching experience, and presently is coaching at Panhandle. Cleveland, a 1951 graduate of FHS, is the son of Mrs. W.H. Jones of Friona.

Other faculty members whose hiring was approved include Mrs. Cleveland, high school commercial; Terry Don Davis, junior high school science; Mrs. Dale Cary, fifth grade, and Mrs. Cecil Maddox, fourth grade. Mrs. Maddox had taught in the system previously.

The board approved the school's re-affiliation with the Regional Media Center, Amarillo. The center is a film rental service, and the cost is \$1263 per year. Superintendent Alton Farr pointed out that the school received 379 films from the center during the current school year.

In other business, the annual board of equalization meeting was scheduled for July 12, beginning at 9 a.m. in the board meeting room. Clyde Goodwine, C.L. Mercer and Wright Williams were appointed to sit

with the regular school board members on the special board, with C.V. Potts and D.C. Herring as alternates.

The board voted to sell the district's 1961 Chevrolet school bus which had been advertised, to Keith Menefee of Route 1, on a high bid of \$511.50.

Porter Roberts, the district's tax assessor-collector, reported collection of \$928,84 in delinquent taxes during April. The total delinquent tax roll now stands at \$16,016.

The board approved the school's participation in the National School Lunch program for the 1969-70 school year. April bills were approved for payment. Superintendent Farr reported on the activity, cafeteria and transportation funds as well as the school budget.

Farr pointed out that tuberculosis tests are scheduled for all school employees on Thursday. The tests were given to pupils in grades one and seven last October.

ANNIVERSARY. . . Lola Goodwine was presented a gift by Frank A. Spring, president of Friona State Bank, on the occasion of Miss Goodwine's 25th anniversary as an employee of the Bank. The gift, an inscribed silver bowl, was presented during the annual bank picnic at the Charles Allen home Monday night.

## AN EDITORIAL

### One-year spending unsound

Two of the state's leaders are holding firm for a two-year appropriations bill - a stand which is synonymous with fiscal responsibility.

The backers of the two-year bill are Gov. Preston Smith and Rep. W.S. Healy, the powerful chairman of the House Appropriations Committee. They stand on principle and in the long run their position would probably save the taxpayers money.

The principle has its roots in the state Constitution which provides for biennial sessions of the legislature. Thus to meet this requirement, there has to be an appropriation bill covering two years.

In 1967, the legislature passed a spending bill for only one year, at Gov. John Connally's suggestion, and then he called the legislature into "emergency" session in 1968 to appropriate and tax for the remaining year of his term.

Creating such an emergency by only passing a one-year bill violates the spirit, if not the letter, of the Constitution, as Gov. Smith has said, Rep.

Healy contends that the one-year bill cost the taxpayers at least \$35 million more than if a two-year bill had been passed in 1967.

The proposal for a one-year bill has been made because it appears that taxes will have to be raised about \$300 million to cover the spending plans of the legislature and some members would rather not raise taxes this year.

The legislators have the responsibility to provide the revenues for their spending plans just as the governor must present a tax plan to cover his budget proposals. The governor presented a tax plan to the legislature which would raise an estimated \$260 million in new revenue. If the lawmakers don't like Gov. Smith's proposals, they should come up with their alternatives, but one-year spending is not the proper route.

—From the Houston Chronicle

## Pause And Reflect

By Nelson Lewis

Our compliments to the Amarillo News-Globe for the very timely supplement in last Sunday's (May 11th) edition. It appeared under the title of "Youth and the Law" and was described as a hand book for young people and parents. The legal questions discussed left no doubts as to the seriousness of even the smallest criminal act.

Most of us are prone to forget that "bad" boys and girls were not born that way. They all start out "good". Somewhere along the line they were bent out of shape by neglect or by over-indulgence.

Fortunate indeed are those children whose parents, or guardians, have enough old fashioned horse sense to hew to the line in matters of decent human behavior.

Regrettably there are youngsters who for some reason are denied the proper guidance; it is for them that we provide professional help such as school counselors, ministers, teachers, and scout leaders.

Therefore it is with a feeling of pride that we may point to "the morning newspaper of the Golden Spread" as it takes its stand on the side of law and order.

No one can deny that America's defense systems should be first class - but perhaps those opposed to the A.B.M. program are thinking of the multi-billions wasted in planes, tanks, missiles, and guns that only met a fraction of their proposed specifications.

Or maybe they are remembering the supreme court's decision that a known communist be allowed to work on such projects.

Speaking of the supreme court - looks like they are going to indulge in a little spring housecleaning! It's long overdue and let's hope that the new broom will sweep clean.

Isn't it a pity that all government agencies are not as efficient as the Internal Revenue System?

Just think how things would be if they were! The Post Office would be making money, the war would be over, all known communists would be in jail, the balance of payments and the budget would be operating in the black instead of the red (no pun intended!).

Our trouble lies in the fact that the I.R.S. will pay an employee to travel a hundred miles to collect ten dollars in taxes, while most other agencies won't send a man across the street to see if our money is spent wisely.

Everyday I hear people lamenting such and such a situation and they always wind up their dirge with - "and there's nothing we can do about it."

The Heck there isn't! We may not elect the directors of all the multiple agencies that are mismanaging our hard-earned funds - but don't forget - we do elect congressmen and senators.

They are our bulwark against the overpowering, big-brother, concept of government. And if we let them know that we are fed up with certain programs and sloppy procedures and that their re-election may hang in the balance - then we may see a return to common sense.

So speak out and speak up Americans - after all it's our country!

### TALLEST TOTEM POLE

The world's tallest totem pole, erected in 1956, in Victoria, Vancouver Island, B.C., Canada, weighs 9 tons and is 127 feet, 7 inches tall.

## Friona Flashbacks

...from the files of the Friona Star

40 YEARS AGO-MAY 17, 1929

This locality was visited with a much-needed rain which fell last Friday night and again Saturday night, Sunday and Sunday night, removing the gloom from the faces of the wheat farmers and replacing it with ear to ear smiles.

A grader was at work cleaning the sides of Main Street, preparatory to building concrete curbs on the west side of the street between Fifth and Seventh Streets.

The committee of the local organization of the Texas Wheat Growers Association and Pool Elevator Corporation completed the arrangements last week whereby the organization becomes owner of the elevator owned by John Gishler and son. No manager has been named for the elevator.

35 YEARS AGO-MAY 18, 1934

A large number of the wheat growers of this locality have incorporated under the name of "Friona Wheat Growers, Incorporated," and have purchased the elevator and other property of the Farmers National Grain Corporation here. Quite a number of the local growers have taken stock in the corporation.

25 YEARS AGO-MAY 19, 1944

Carolyn Lange is the valedictorian for the class of 1944 at Friona High School, with an average of 90.02, and Dale Treider is the salutatorian with an average of 89.99, it was announced by school officials. Others with top averages included Loretta Johnston, Petrolia Scott, Rosalie Messenger, Vialo Weis and Jean Crawford.

20 YEARS AGO-MAY 13, 1949

Wheat prospects in Friona and the surrounding territory were looking much better due to the rains which fell over the weekend. According to J.T. Gee, 3.3 inches of rain fell within the city limits.

Valedictorian for the graduating class of 1949 is Lunell McFarland, with a four-year average of 93.175. Pat Deaton is second with an average of 93.1. Lee Cranfill was third.

15 YEARS AGO-MAY 14, 1954

Gay Ann McFarland has been announced as valedictorian for the Friona Class of 1954, with a four-year average of 95.6. Clyde Hays is salutatorian with a 93.6 average, and Donna Miller ranked third.

Air rides from Bengier Field will be available this Sunday, with all proceeds going to the hospital building fund.

10 YEARS AGO-MAY 14, 1959

Alton Farr of Paducah has been named by members of the Friona Independent School District board of trustees as superintendent to replace Dillie Kelley, effective July 1. Kelley recently tendered his resignation to become associated with the Brownfield schools as director of finance.

5 YEARS AGO-MAY 14, 1964

An Australian girl, who will reside in the home of Mr. and Mrs. E.G. Phipps, will be Friona High School's Exchange student for 1964-65, it was announced this week. Her name is Brenda Eileen Hawker.

ONE YEAR AGO-MAY 16, 1968

In only its second week of operation, Missouri Beef Packers' Friona plant will slaughter more cattle than any other Texas meat packer. The plant plans to slaughter 3,500 head this week, after killing almost 2,000 in its first week of operation.

Dear Editor:

We would like to give a report on the building of Girl Scout House, to thank everyone who has assisted with this effort in any way and to ask for funds to pay off existing debts.

The building has been completed at a cost of \$11,110 plus a lot of donated labor.

We are extremely proud of the building, which serves as a meeting place for more than

200 Girl Scouts. At the present time it is being used regularly five days and three nights each week.

The community can be justly proud of the building, which is one of the most used buildings in the entire community.

At the present time there are outstanding bills in the amount of \$884.10, which need to be paid.

If you have not had a part in helping with this project and would like to do so, you may send your contributions to Mrs. Russel O'Brian, Route 1, Box 198, Friona, or deposit money in the Girl Scout Building fund at Friona State Bank.

Thanks again!  
Scout House Bldg. Committee

### Ten Rural Wrecks Are Logged During April

The Texas Highway Patrol investigated 10 accidents on rural highways in Parmer County during the month of April, according to Sergeant W.E. Wells, Highway Patrol Supervisor of this area.

These crashes resulted in eight persons injured, and an estimated property damage of \$6,600.00.

The rural traffic accident summary for this county during the first four months of 1969 shows a total of 39 accidents resulting in one person killed, 25 persons injured, and an estimated property damage of \$28,170.00.

School will soon be out. This will be the signal for summer vacations to begin with hundreds of thousands of people heading for the open highways.

To help insure a safe vacation and summer driving, the sergeant suggests that you have the following items on your car safety checked:

1. Check the tires for worn and cut spots.
2. Check the steering and wheel alignment.
3. Check all light and mirrors.
4. Check springs and shock absorbers.

And as a final reminder the driver should be prepared for "defensive driving."

### SS. Changes Should Be Made To Local Office

Changes of address and other notices affecting a person's monthly social security checks can now be processed more rapidly if notice of the change is made directly to the local social security office.

Wayne Klipping, social security Field Representative, pointed out that many notices such as new addresses or death of a beneficiary are now being handled by teletype from the local offices. This electronic transmission saves many days' processing time over the previous method of mailing the notices to the payment centers issuing the checks.

Anyone wishing to report a change of address or other event affecting social security checks should telephone or see Klipping in the Council Room at the City Hall from 9 a.m. until noon on the third Tuesday of each month.

### Cities in Flames

NEW YORK—Short of nuclear war, it would be hard to imagine fire destroying nine American cities in the next 70 years. Yet, the Insurance Information Institute notes that between 1885 and 1908 fire destroyed major portions of New York City, Charleston, S. C., Portland, Me., Chicago, Boston, Jacksonville, Baltimore, San Francisco and Chelsea, Mass.

**LEGAL NOTICE**

Notice is hereby given to the real and true owners, whether hereinafter named or correctly named or not, of property abutting upon Tenth Street, Cleveland Avenue, Seventh Street and Grand Avenue, within the limits herein defined, in the City of Friona, Texas, and all persons owning or claiming any such abutting property, or any interest therein, and to all others claiming or interested in any of said property, or in any of the proceedings, contracts and matters herein mentioned, that:

The City Council of the City of Friona, Texas, by duly enacted ordinances, has determined a necessity for, and ordered the permanent improvement of, the following described streets within the following limits, in the City of Friona, Texas, to-wit:

UNIT NO. 1, Tenth Street  
The South Half (S1/2) of Tenth Street between the Northernly prolongations of the East and West Boundary lines of Lot 1, Block 26 of the Original Town of Friona, Parmer County, Texas, as shown by plat of said town of record in Volume 5, page 421 et seq. of the Deed Records of Parmer County, Texas.

UNIT NO. 2, Cleveland Ave.  
The East Half (E1/2) of Cleveland Avenue between the Westernly prolongations of the North and South boundary lines of Lots 21, 22, 23 and 24 of Block 64, of the Original Town of Friona, Parmer County, Texas, as shown by plat of said town of record in Volume 5, page 421 et seq. of the Deed Records of Parmer County, Texas.

UNIT NO. 3, Seventh Street  
The South Half (S1/2) of Seventh Street that lies between the Northernly prolongations of the East and West boundary

lines of the West Half (W1/2) of Lot 24 of Block 64, of the Original Town of Friona, Parmer County, Texas, as shown by plat of said town of record in Volume 5, page 421 et seq. of the Deed Records of Parmer County, Texas.

UNIT NO. 4, Grand Avenue  
The East half (E1/2) of Grand Avenue between the Westernly prolongations of the North and South boundary lines of the West Half (W1/2) of Lots 7 and 8 of Block 70, Original town of Friona, Parmer County, Texas, as shown by plat of said town of record in Volume 5, page 421 et seq. of the Deed Records of Parmer County, Texas.

By said ordinances, the City Council of the City of Friona, Texas, has ordered said streets, within the limits indicated, to be improved by excavating, grading and paving the same by the installation of drainage facilities and by constructing curbs and gutters, where adequate curbs and gut-

ters are not now in place, together with other drains, inclusions and appurtenances thereof; said paving to consist of a triple asphalt seal pavement on a six inch caliche sub-base of the materials, type and width as provided for in the plans and specifications therefor prepared by the City Engineer and heretofore provided and adopted by said City Council, all of said improvements to be done and constructed in the manner and of the materials as provided for in said plans and specifications and the contracts covering the construction of said improvements, which said plans and specifications and contracts are hereby expressly referred to for a more detailed description of said improvements, and are on file in the office of the City Engineer of the City of Friona, Texas.

That said City Council has caused said City Engineer to prepare and file the hereinafter set out estimates of the

costs of such improvements and has heretofore by duly enacted ordinances determined the necessity for levying assessments for a portion of the cost of the construction of said improvements against the property abutting upon said streets within the limits above defined, and the real and true owners thereof, and did adopt and determine the hereinafter set out proposed apportionment of the cost of said improvements between said City and the said abutting property, and the real and true owners thereof, and that the portion of said cost proposed to be assessed against the said abutting property, and the real and true owners thereof, would be in accordance with the front foot rule or plan and did further adopt the following proposed rates and estimates of said costs in reference to and for said streets within the limits above defined and indicated in the following schedule by the unit number of said streets, to-wit:

STREET AND UNIT NUMBER	Amount Per Front Foot For Curb & Gutter Assessed Against Abutting Property & Owners	Amount Per Front Foot For Improvements Exclusive of Curb & Gutter Assessed Against Abutting Property & Owners	Total Amount Per Front Foot For All Improvements Assessed Against Abutting Property & Owners	Total Cost To Be Assessed Against & Paid For By Abutting Property And Owners	Total Cost To Be Paid By City	Total Cost Of All Improvements
10th Street Unit 1 140' Mrs. J. M. Smith	\$1.55	\$2.581	\$4.131	\$578.34	\$64.26	\$642.60
Cleveland Ave. Unit 2 100' Mr. F.S. Truitt	\$1.55	\$2.581	\$4.131	\$413.10	\$45.90	\$459.00
7th Street Unit 3 70' F.S. Truitt	\$1.55	\$2.581	\$4.131	\$289.17	\$32.13	\$321.30
Grand Avenue Unit 4 92' Mr. J.F. McNeeley	\$1.55	\$2.581	\$4.131	\$380.05	\$43.61	\$436.05

A hearing will be given and held by and before the City Council of the City of Friona,

**Lodge Meeting Will Honor Local Lawmen**

A meeting of the Friona Masonic Lodge on Thursday night will honor the law officers of the Friona area, according to Hugh Moseley, Worshipful Master of Friona Lodge #1332, A.F. & A.M.

Purpose of the meeting has been stated as "Appreciation Night" for the Peace and Law Enforcement officers. The week had previously been proclaimed "National Police Week" by Friona Mayor W.L. Edelman.

Refreshments will be served and a brief ceremony will be held.

Texas, on the 5th day of June, 1969, at 8:00 o'clock p.m., in the City Council chamber of the City Hall of the City of Friona, Texas, to the real and true owners, whether named or correctly named herein or not, of all property abutting upon said streets within the limits above defined, and to all persons owning or claiming any such abutting property, or interest therein, and to all others owning, claiming or interest in said abutting property or any of the proceedings, contracts or matters and things herein mentioned or incident to said improvements or contract herein described.

At said time and place all such persons, firms, corporations and estates, as their agents and attorneys, shall have the right to appear and be heard and offer testimony as to the said assessments, and to the amount thereof, proposed to be assessed against said abutting property, and the real and true owners thereof, the lien and charge of personal liability to secure payment of said assess-

ments, the special benefits to accrue to each such abutting property and the owner or owners thereof by virtue of said improvements, if any, or concerning any error, invalidity, irregularity or deficiency, in any proceeding or contract in reference to said improvements, and said proposed assessments, and concerning any other matter or thing as to which hearing is a constitutional prerequisite to the validity of said assessments proceedings and improvements and on which they are entitled to hearing under the Constitution and Laws of the State of Texas and the proceedings of said City Council of said City of Friona, Texas.

Following such hearing, assessments will be levied against each and every parcel of property abutting upon said streets, within the limits above defined, and the real and true owners thereof, for that portion of the cost of said improvements determined by said City Council to be payable by such abutting properties, and the real and

true owners thereof, and said assessments shall be and constitute a first and prior lien upon said abutting property, from the date said improvements were ordered by said City Council and shall be a personal liability and charge against the real and true owners thereof, as of said date, whether such property be described or correctly described, or such real and true owners be named, or correctly named, in such proceedings or not, and no error or mistake or discrepancy in the name of such owner or owners or indescriving said property in this notice or in any of said proceedings with reference to said improvements, shall invalidate any assessment or certificate issued in evidence thereof, but nevertheless, each parcel of property abutting upon said streets, and the real and true owners thereof, shall be charged with, and be liable for, said assessments which shall be valid whether or not such owner or owners be named or correctly named, or such property

be described or correctly described, all as provided for in Article 1105-b, Vernon's Annotated Civil Statutes of Texas, as amended, under which said improvements, proceedings and assessments are being constructed, performed and levied.

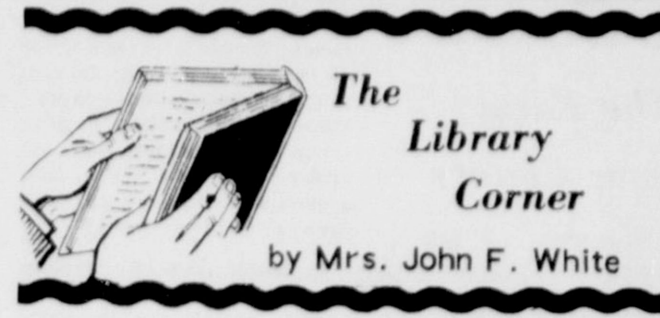

Of all said matters and things, all owning or claiming any such abutting property or any interest therein, as well as all others in any wise interested or affected by the things and matters herein mentioned, will take notice.

DONE by order of the City Council of the City of Friona, Texas, this the 5th day of May, 1969.

Arley L. Outland  
City Manager, City of Friona, Texas

**The Library Corner**  
by Mrs. John F. White

The library will be sponsoring the SUMMER READING PROGRAM this summer beginning June 2 and ending August 8. This program is designed to keep schooled children interested in reading and teaching them to use the library. We will have a reading certificate for each child who reads at least 12 books during this 10 week period. All children who are in grades 1 thru 8

are encouraged to enroll. The theme for this program is "BE A BOOKWORM, READ". Co-chairmen for the program are Mrs. Dale Williams and Mrs. John Fred White.

One special added feature of the library will be a weekly movie that will be shown upstairs in the library on Saturday mornings. These will average 30 minutes in length and will be in color and have sound.

A variety of subjects have been ordered and the list includes travel films, nature films, and historic subjects. These will be free to children and we hope parents will encourage their children to attend.

We want to remind our readers that the library can order talking books and other records for our patrons. Call the librarian at 247-3200 for information. Special services are available for the handicapped and those unable to use regular books for some medical reason. Perhaps your neighbor or a member of your family might enjoy records. Call today and inquire about them.

Sleeping bags made of tightly-woven cotton duck will keep you warm outdoors at 40 degrees below.

**On The Farm  
In Parmer County**

RONNIE McNUTT  
County Agent

Soil Stewardship Week has been designated as May 11-18. Every citizen should consider the issues mentioned below.

IN A MILLION small worlds, as well as in the great one, our lives become ever more complex. There are more of us. We are younger, on the average, and more affluent. Most of us now live in the cities or their suburbs. Our attitudes toward natural resources, as toward so many other values, are changing. We are increasingly worried about resource quality. We become more particular about resource uses. And out of these growing concerns, an array of issues has emerged requiring judgment.

For example -  
With more people in more places imposing steadily greater demands on the limited supply of natural resources, how can we avoid waste, erosion, fouling, disorder, and ultimate shortages? Do we need to moderate our policies and devise new systems for more effective resource management?

In our country we advocate private enterprise and endorse the profit motive. When conflicts develop between the care of resources and the prospect of profits, how can these conflicts be resolved with due recognition of the public interest and the resource owner's legitimate need for income?

Three-fourths of the land making up the nation's contiguous 50 states is privately owned. With the land are all the interrelated resources of timber, game, fish, wildlife and much of the water. Clearly, this is where the biggest and most difficult job of conservation and resource development must be performed in the future. Will we recognize this fact and gear our programs accordingly? Will we among other improvements, develop a better system of financing that is based on meeting our oncoming resource needs, rather than on the amounts appropriated last year?

The men and women entrusted with leadership of America's

3,000 conservation districts are turning the corner to new areas of broader resources service to entire communities - in addition to agriculture. To progress in this direction, the leadership must have clear, outspoken support. Are you prepared to join in giving it?

Economic adversity persists in much of the American countryside, sapping the capability for conservation and resource development. Are we willing to explore new concepts and try new programs to reinvigorate the countryside?

The counties, towns, and cities of our nation are confronting increasingly difficult problems of community service and protection for the environment. These are critical tests for local government in our time. How can conservation districts, along with the public and private organizations associated with them, use their combined resource knowledge to establish a more effective town-country partnership for the common good?

People are motivated by their aspirations, just as they respond to incentives. Can we identify the opportunities for necessary and rewarding conservation accomplishment, place by place, as a prime basis for continuing resource progress?

Consider these issues. Consider them well.

**Beef Prices Only 85 % Parity, Leader States**

"Prices received for beef cattle during April 1969, averaged only 85 per cent of parity," says Lloyd Bergsma, Executive Vice-President of the Texas Cattle Feeders Association, with headquarters in Amarillo. "Recent publicity given to beef prices is unfair in that it failed to tell the complete story", Bergsma stated.

"It is true that beef prices have increased during the past year," Bergsma continued, "But you could hardly say they are out of line when they are 15 per cent below parity."

Bergsma said, "With per capita beef consumption about double that of 15 years ago, the per cent of consumer disposable income spent for beef has declined during the period from 3.5 per cent to 2.5 per cent. Compared to fifteen years ago, the American worker today works fifteen minutes less to purchase the same amount of beef."

"The beef producing industry is composed of several producing segments. The calf producer, the rangeman, feed grain producer, on to the cattle feeder, the meat packer and finally the retailer are involved in supplying the consumer with the highest quality beef enjoyed by any nation in the world. Under our free enterprise system, it's

essential that each of the production segments receive prices that allow them a reasonable profit for their efforts," he continued.

"The calf producer and the feed grain producer have long been carrying on their segment of this beef producing industry at below production cost prices. They have been able to exist only through very low or negative returns for their labor, management and capital investment. This cannot continue."

"All segments of the beef producing industry have made rapid strides in improving their production efficiency. Modern research and technology are utilized to a high degree throughout the industry in bringing to the consumer the high quality beef products she has available to her in the retail store."

"The beef producing industry is very competitive, and all segments are making every effort to carry out their phase of production in the most economical manner. The industry does, however, want to share in the growth of the Nation's economy," Bergsma concluded.

The same cotton cloth can be finished to appear as chintz, gingham, moire, denim, matelasse, or pique.

**FRIONA DIVE-IN SWIMMING POOL  
OPEN MAY 15 TO AUG. 15**

Anthony, Friona, Elbert Harp, Abernathy, Congressman Price, Raymond Higginbotham, Hereford and Eldred Brown, Hereford.

### FPC Denies Request For New Cooperatives

The Federal Power Commission today dismissed as "deficient" applications by seven Texas farmer-cooperatives asking that Northern Natural Gas Company of Omaha, Neb. and El Paso Natural Gas Company of El Paso, Texas be ordered to interconnect with the cooperatives and to sell them natural gas for resale.

Among the applications were those by the Lariat Gas Farmers' Co-operative Society of Farmer County; and the South Farmer Gas Farmers' Co-operative Society.

In dismissing the applications the FPC said the Applicants had not complied with the Natural Gas Act requirements that "full disclosure of all information necessary for the Commission to evaluate Applicants' proposals" must be made.

The cooperatives' applications ask that Northern and El

Paso be required to tap their transmission lines at selected initial points and at other points to be determined later, and to deliver gas to the cooperatives for resale to their members, primarily for the operation of irrigation wells.

Six of the co-ops alleged that rates charged by their present non-regulated suppliers were excessive. One application, now using butane and electricity, said that its members wanted to use natural gas at rate-levels being sought by the other cooperatives.

The FPC said that the initial applications were "deficient" and that six of the cooperatives had made inadequate replies to requests for additional data and, further, had objected to providing the remaining information requested. One applicant, the Commission said, had made no response to its request for supplemental information.

### SCS Gives Requirements For Tailwater Cost-Share

A tailwater recovery system is a facility to collect, store, and transport irrigation tailwater for re-use in the farm irrigation distribution system. It is adapted only on sloping lands that are served by a surface irrigation system that has been properly designed and installed.

The irrigation system must meet the local "Irrigation Guide" of the Soil Conservation Service. The maximum grade on graded furrows is limited to 0.8 feet fall per 100 feet depending on length of runs.

Facilities for the collection of irrigation tailwater are an integral part of a properly designed surface irrigation system. Temporary storage is needed to store the collected tailwater until such time as it

is redistributed in the farm irrigation system.

Storage structures shall be protected from erosion and damage from rainfall runoff. Storage usually in the form of a pit must be adequate to store the tailwater from one irrigation set.

For cost-share purposes, a tailwater recovery system is designed to handle tailwater only from the farm on which it is located. Design and layout of the tailwater recovery system must be approved by an engineer of the Soil Conservation Service before cost-sharing can be approved.

In ancient India, sheer cotton muslin was so fine that 73 yards weighed only one pound.

### Questions Will Center On Second Jobs

Questions about second jobs and overtime work and pay will be asked in households of this area by Census Bureau interviewers May 19-24, Director Francis H. Wilmer of the Bureau's regional office in Denver announces.

Answers obtained will be used by the U.S. Department of Labor to estimate the number of people throughout the Nation with second jobs, how long they work, how much they earn, why they take second jobs, and the kinds of work they do. Persons working overtime will be asked whether they receive premium pay for their overtime work. These questions supplement the monthly queries about employment status that determine national employment and unem-

ployment figures.

Questions about participation in adult education also will be included in the interviews to provide data for use by the U.S. Department of Health, Education, and Welfare (HEW) in determining the need for and the availability of adult education courses throughout the U.S.

Households to be visited here are part of a national sample of all U.S. households. Facts obtained about individuals are confidential, and the date will be used for statistical purposes only.

The interviewer who will visit households here the week of May 19 is Mrs. Laura L. Hart.

### Secretary Of Agriculture Speaks At Bushland May 17

A 30th anniversary celebration will be held at the USDA Southwestern Great Plains Research Center at Bushland on Saturday, May 17.

The observance will feature an open house of recently expanded facilities beginning at 9 a.m. and a field tour getting under way at 12:30 in the afternoon.

Highlighting the event will be an address by Dr. Clifford M. Hardin, secretary of agriculture at 10 a.m. He will be accompanied by several congressional leaders, other USDA officials and representatives of Texas A&M University.

A dutch luncheon of barbecue will be served at 11:30 a.m. The field tour will end the day's activities at about 2:30 in the afternoon.

All interested individuals are invited to attend in order to become more familiar with the

Center and the wide scope of agricultural research projects presently being conducted. The facility serves a vital function in developing information that can be put to practical use in boosting the agricultural economy of the area.

The Center is located 12 miles west of Amarillo on Interstate 40.

Today very few drugstores can be found that do not have cosmetics, cameras as well as a myriad of notions. Prior to 1900, Apothecary shops were likely to have herbs growing in the back yard, shelves full of patent medicines and drawers full of sassafras, cinnamon sticks and rock candy from which the proprietor concocted medicines and pills. An 1850 Apothecary shop can be visited at the Harold Warp Pioneer Village in south central Nebraska.

Fight the farm price/cost squeeze with NITROMITE... NITROMITE packs a powerful punch with more usable nitrogen per dollar to help increase yields without increasing your cost appreciably. Then even low prices can't floor you — if they're good, you'll be the big winner.

Right about now is your last chance to do some good with fertilizer. Sidedress some NITROMITE to give your crop a great big shot in the yield. It'll give you a fighting chance in the marketplace.

TO BE HONORED . . . Mr. and Mrs. Charlie Turner, 510 Fourteenth Street, will be honored with a Golden Wedding Anniversary reception in their home from 2 to 5 p.m. Sunday, May 18. Friends of the couple are invited to attend by their children, who will host the reception.

## REFRESHING, EASY WAYS TO BRIGHTEN UP BATH

By merely adding a coat of paint, new curtains and a color-coordinated toilet and sink, the American housewife can turn her old bathroom into the brightest, most inviting room in the house.

If desired, with just a little extra expense, soft, luminescent lighting can be added which will glamorize the room's illumination. When this is done, accessories can also be

color coordinated to harmonize with the sink and toilet. Any floor problems can best be solved by covering them with the new, wet and weatherproof carpeting now available. As an additional convenience, many home owners install new American-Standard toilets with efficient built-in ventilators that eliminate toilet odors before they become undesirable bathroom odors.

# THE FRIONA STAR Society

## Officers Elected

### By Young Homemakers

Mrs. Larry Moyer was elected president of Friona Young Homemakers during the business session which was presided over by Mrs. John C. Miller, outgoing president. The May 2 meeting was held in Friona High School cafeteria.

Roll call was answered with ideas for decorating new homes. Other officers elected to serve with Mrs. Moyer were Mrs. Bill Brandt, first vice-president; Mrs. Larry Dyess,

second vice-president; Mrs. Alton Peak, third vice-president; Mrs. Jarrel Wright, secretary-treasurer; and Mrs. Calvin Dozier, historian-reporter.

This was the last meeting of the year. The first fall meeting will be held in the cafeteria the second Thursday in July.

## Third Child Born To Joe M. Duttons

Clay Ulman is the name Mr. and Mrs. Joe Mack Dutton chose for the baby boy born to them at Farmer County Community Hospital at 7:14 p.m. Wednesday, April 30. He weighed 7 lbs. 1 oz.

Older children of the couple are a daughter, Vilma Jo, 4 1/2, and a son, Toby D., 2 1/2. Grandparents are Mr. and Mrs. Floyd Dutton, Route 1, Friona, and Mr. and Mrs. Chester Rogers, Bovina.

Great-grandmothers are H. D. Dutton, Amherst, and Mrs. Carthel, Lockney.

## Visits Here

Mrs. Della Osborn, Electra, Texas, is visiting in the homes of Mrs. A. A. Crow and other Friona friends and relatives this week. Mrs. Osborn, a long time resident of Friona, moved away about a year ago.

## Phyllis Jane Holcomb Weds Edwin Glen Bryan

In a double ring ceremony in the home of Mr. and Mrs. Troy Stewart, Tulla, at 3 p.m. Sunday, May 19, Phyllis Jane Holcomb became the bride of Edwin Glen Bryan.

Parents of the bridal couple are Mrs. Ella Faye Holcomb, 2711 A Westhaven, Amarillo, and Mr. and Mrs. R.E. Bryan, Route 1, Happy.

The couple exchanged wedding vows before an archway of greenery centered with white wedding bells. Judge Jack Driskill was the officiant.

Trellis Gladman, Amarillo, was the maid of honor. Ronnie Moore, Edmonson was the best man. Harold Bails, Muleshoe, brother-in-law of the bride, was the usher.

The bride wore a formal wedding gown of white silk organza over taffets and net. The Sabrina neckline was outlined with sequins. Rows of Chantilly lace decorated the bodice, skirt and long formal sleeves. Her shoulder length veil of illusion was attached to a bridal organza bow. She carried a bouquet of blue and white carnations encircling an orchid corsage.

A reception in the Stewart home followed the ceremony. Cake, nuts, mints and punch were served.

Mrs. Bryan, who is a 1966 graduate of Tascosa High School, attended Abilene Christian College and Amarillo College. She is employed in the medical records department of Northwest Texas Hospital, Amarillo. Her husband is a farmer and rancher in the Happy area.

Mr. and Mrs. Bryan will be at home at 2710 Fifth Avenue, Canyon, after a wedding trip to Colorado and New Mexico.

MRS. EDWIN GLENN BRYAN

Mr. and Mrs. John Gaede spent Mother's Day with Mrs. Gaede's mother, Mrs. Olga Weeks, Tulla. Others present were Mr. and Mrs. Oscar Weeks and sons, Gary and Victor, Tulla.

## Americanism Lecture

A lecture on Americanism as interpreted by Freedom Foundations and the meaning of an award from this institution by Mrs. Aubrey Rhodes was the highlight of the Tuesday evening meeting of Modern Study Club at Federated Club House.

Lisa Taylor, soloist, was a guest on the program. She sang, "Cherry Ripe," by Charles Edward Horn and "I Know A Lovely Garden," by Guy D. Hardelet. She was accompanied by Mrs. Roy V. Miller Sr., pianist.

Following the program refreshments were served to seventeen members and Miss Taylor by Mrs. Frank Truitt, hostess.

## Highlights Club Meet

Hosts for the annual outdoor supper for employees of Friona State Bank in the home of Mr. and Mrs. Charles Allen Monday evening were Mr. and Mrs. Frank A. Spring and the Allens.

After supper was cooked and served in the backyard, a game session was held. Lola Goodwine was presented a silver footed bowl, which had been inscribed, in appreciation of her twenty-five years as an employee.

Other employees who were present with members of their families were Gary Brown, Jerry Hinkle, Dale Smith, Mrs. Jack Nelson, Mrs. Wright Williams, Mrs. Owen Drake, William T. A. Sherley, Mrs. Harold Lillard, Mrs. Bobby Weid, Mrs. Fred Ferguson, Carolyn Menefee, Lynn Frye and Mary Scales.

Those on the staff who were unable to attend were Mrs. James W. Cunningham, Mrs. Charles Faulkner, Mrs. Jackie Stowers and Willie Grace Grubbs.

## Springs, Allens Host

## Annual Employee Supper

### GAS ADDS GLAMOUR TO OUTDOOR LIVING

This year add the convenience and charm of an outdoor gas grill and Charn glow gas light to your backyard cookout fun. Pick the grill and light that best suits you and order from us.

MASTER CHEF (AMK)

One of the most popular we've ever offered. Cast of rust-free aluminum it lets you cook without mess or guess. Priced at \$76.00, budget terms available.

PARTY HOST (HEJ)

This single unit is one of the finest on the market. It has an additional rack for cooking and warming. Priced at \$90.00 with budget terms available.

FIESTA

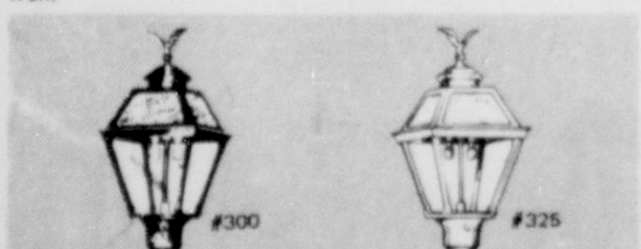

New concept in design, it has a man-sized grill with FOUR COOKING LEVELS. Fiesta is 24 1/2" long, one third larger than the average grill. Cast of heavy-duty, care-free aluminum. Priced at \$108.90, with budget terms available.

CHEF'S CHOICE (CC-1)

The ultimate in outdoor grills. CHEF'S CHOICE has TWO separate cooking units, each with its own controls. It lets you broil, roast, bake or boil. Priced at \$133.20 with budget terms available.

A CHARN GLOW GAS LIGHT ADDS THE FINAL TOUCH. Add a Charn glow gas light and you've added more than illumination . . . you've added charm and atmosphere as well.

Available in black (#300) or white (#325), either is compatible with your style of architecture. The #300 and #325 are priced at \$52.36 each with budget terms available.

Pioneer Natural Gas Company

### SAVE \$26 BY BUYING THE PAIR

You can make a \$26 savings by buying a grill and a gas light. Check these patio pair prices:

Master Chef (AMK) and Gas Light	\$102.36
Party Host (HEJ) and Gas Light	\$116.36
Fiesta and Gas Light	\$135.26
Chef's Choice (CC-1) and Gas Light	\$159.56

All prices include installation. Add appropriate sales tax.

### Fellowship Has Regular Meeting

The regular monthly meeting of Women's Fellowship of Union Congregational Church was held Wednesday, May 7 at 2:30 p.m. in the church basement. Rev. Paul Mohr presented the devotional.

"We Celebrate God's Presence and Action," was the theme of a program, which was presented by Mrs. Carl Mzurer.

Others present included Mrs. Paul Mohr, Mrs. Walter Lovelless, Mrs. Mike Pavalus, Mrs. L.F. Lillard, Mrs. Thornton and Mrs. Lillie Taylor.

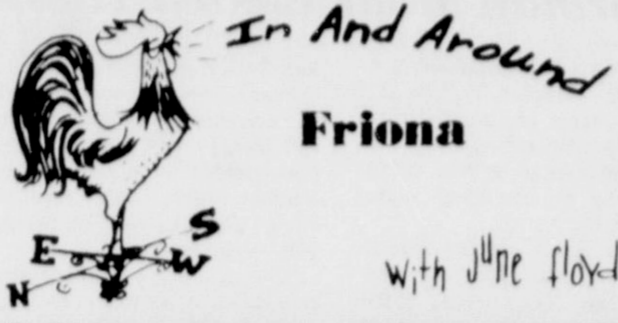

Refreshments were served by Mrs. Taylor, hostess.

### Party Honors

#### Falkenberrys

Mr. and Mrs. Walter Falkenberry were honored with a reception Sunday night following church services at First Baptist Church.

Sunday was the final day for Falkenberry at the local church. He has accepted a position of minister of music and youth director at Hillcrest Baptist Church, Amarillo.

Every time you go anywhere, you soon see someone from Friona. As far as I know no Frionan has volunteered to go to the moon or planned a trip there, but as soon as moon travel is a little more common, I'm sure some of us will be going. I'm not sure where the author secured his information, but when any of us travel we want to do it in style, so you might want to keep these suggestions in mind.

"When the first lady accompanies her man to the moon, the chances are that along with all their other paraphernalia will be notebooks in which to jot impressions of the earthrise, that secluded lunar-based restaurant they heard so much about, and all the impressions they want to tell the folks back home about.

Most busy people have the 'have notebook-will travel' habit, and also use the notebooks to record family events, financial data, recipes and the hundreds of other bits of information that should be at hand when needed."

Now, if anyone wants to bring back a recipe to share with me, I want the exact changes needed in 'moon cooking' and 'earth cooking' to be jotted down, too. It is difficult, if not impossible, for me to adapt recipes from lower to higher altitudes, so I know I could never manage moon to earth.

"The notebooks that go to the moon may be somewhat different from those now in use.

Covers will be brightly colored and laminated in plaids, stripes and patterns to match milady's outfit, and in rugged manly hues and textured surfaces for the man. These high fashion notebooks will also boast virtually untearable paper, finished that will never rub off. Some will even have mirror-like inside covers for quick make-up retouching and checks on signs by five o'clock shadow.

And why all this? Because modern people are organized. Busy and bright, they are all note takers. They are knowledge hungry about their exciting world and they jot down things they plan to do, books they want to read, museums to visit. And, they find as they live busier, more exciting lives that writing things down helps them do more and enjoy more."

Maybe we should start a file for things pertaining to moon travel. Who knows? A lot of us may decide to go there as soon as the first "Round Trip From Friona to the Moon" excursion date is set.

On second thought, think I will just stay home and enjoy reading the notes and looking at the pictures the rest of you make when you go.

At least one reader disagreed with statements made in this column recently about the time change. Probably more disagreed, but one reader expressed disagreement. After visiting for a few minutes, I realized that there are different points of view on the time for school to begin.

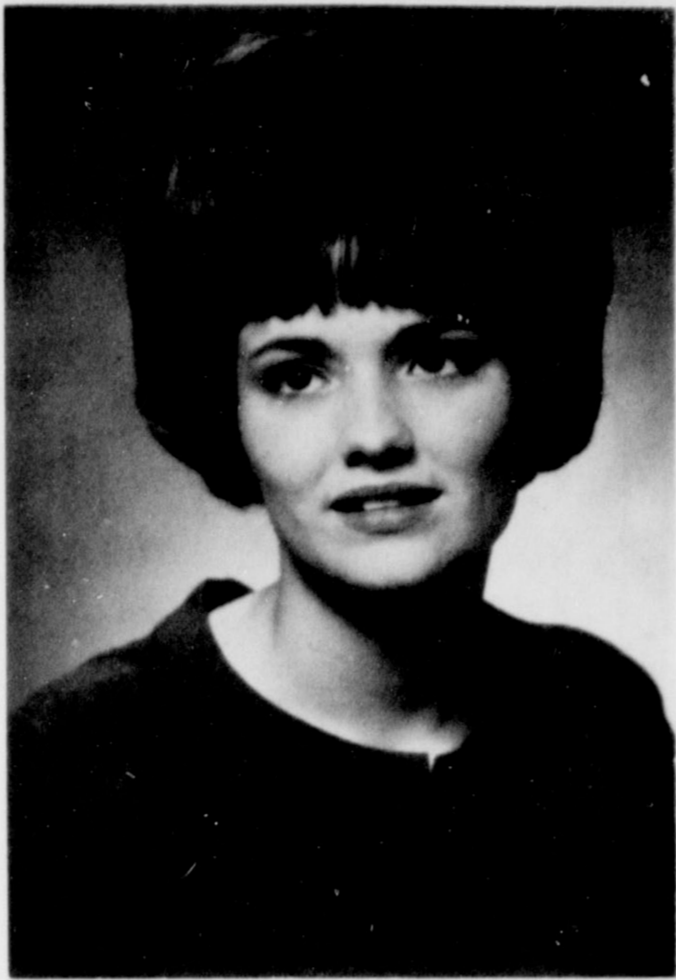

Probably the age of children makes a difference. And, of course, personal preferences are always to be considered. I invited the parent of younger children to write and express views from the other corner.

Like the opportunity of presenting the other side.

If someone wants to provide a real fun type project for people of any age, why don't you plan an "iris hunt?" If conducted like a scavenger hunt, participants could go around over town and jot down the different colors or iris blooms in different yards.

Many homes have beautiful displays using the different colors to create spots of beauty.

I haven't been west of town since Lillian McLellan's irises have been in bloom, but several people who live out that way have told me they are a sight to behold.

FORMER QUEEN INITIATED . . . Crista Evans, a former Friona Matze Queen, was recently initiated into the Delta Lambda chapter of Alpha Delta Pi social sorority at West Texas State University. Miss Evans, who is a 1968 graduate of Friona High School and the daughter of Mr. and Mrs. W. H. Evans, is also the retiring sweetheart of Alpha Phi Omega. Her name was listed on the Dean's Honor Roll with a grade point average of 2.7 out of a possible 3.

Kathy Beth is the newest member of the Joe Boeckman family. It seems that Tommie and Joe had difficulty deciding on a name suitable for their first daughter, so she wasn't named in time for the announcement of her birth in an earlier issue of the Friona Star.

With two older brothers, Tim and Randy, Kathy doesn't lack for attention. Indications are that the entire family is enjoying her very much and she's thriving on being the focal point of interest in the Boeckman home.

Please advise us as soon as possible about the graduates you are interested in. The next edition of the Star will be the graduation edition.

### Thirteen Attend Tops Meeting

Thirteen members of Friona Matze Tops weighed in at the Monday evening meeting in the Community Room of Friona State Bank. Mrs. Bill Nazworth was rewarded for having lost the most weight.

Mrs. Walter Falkenberry presented a demonstration on placque and picture making for gifts or personal use.

Others present were Mary Knight, Mrs. Rene Snead, Mrs. Olin Ruff, Mrs. Roy Zieschang, Mrs. Earl Drake, Mrs. Leonard Coffey, Mrs. Bill Bandy, Martha Knight, Mrs. J.E. Knight, Mrs. Vernon Roberts and Mrs. Roy Daniel.

### Attention Donors

All donors of funds to the Grace Paul Memorial Fund are being invited to attend the presentation of the memorial to the Lazbuddie school Thursday, May 22, at 9 p.m.

The presentation will be made immediately following presentation of diplomas to members of the eighth grade graduating class.

### Loop-the-Loop

A REVOLUTIONARY new kind of stocking, Loop-the-Loop by Burlington-Camen, is designed to end bugaboos over garter bumps and garter cap for women who like to wear girdles with today's clingy mini-dresses. Loop-the-Loop has six tiny, powerful loops knit in the top (welt) of each stocking. You insert a flat, stainless steel clip into a loop and attach it to the garter tab of any foundation garment. It's a wonderful new kind of freedom for all women who like to wear girdles.

### Mrs. Dale Houlette Named Woman Of Year

MRS. DALE HOULETTE

Highlight of the Thursday-evening meeting of New Horizons Junior Study Club at Federated Club House was announcement of the selection of Mrs. Dale Houlette as Clubwoman of the Year. Her award was presented by Mrs. Walter Cunningham, who received this honor last year.

Mrs. Sammie Robertson, Caprock District junior director of Seminole installed the following officers: Mrs. Walter Cunningham, president; Mrs. Joe Reeve, vice-president; Mrs. Hank Wheeler, secretary; Mrs. Jimmy Maynard, treasurer; Mrs. Gene Zachary, parliamentarian; Mrs. Mike Chaney, reporter.

The setting for the installation was a spring garden of spring flowers centered with a fountain. Tables were decorated with assorted colors of yard flowers, grapes and candies.

The invocation was led by Mrs. Jimmy Maynard. Roll call was answered with morsels of memories. Mrs. Dale Houlette presented a comical reflection of club members and

social events during the past year. Committee reports were given and committees for the coming year were appointed.

The dinner menu, which was served by members of the social committee was fried chicken, potato salad, green beans, slaw, garlic bread and strawberry cake.

Eighteen members were present.

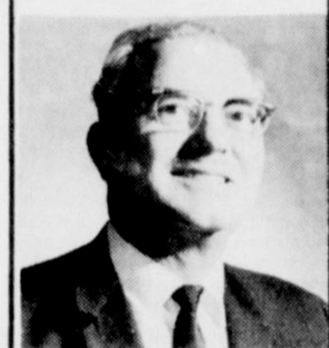

### New Fields for Safety

IMPROVED technology is resulting in safer and more sanitary working conditions in more industries, according to Alan Denson, president of Eastern Safety Equipment Company, Long Island, N.Y. Plastic throw-away gloves are replacing rubber and cotton gloves in food handling and processing plants, hospitals and manufacturing plants. Each new technological advance develops new safety and sanitation equipment demands to address.

### Gets It Really Clean

NEW Power Foam Instant Aerosol Carpet Shampoo is Glaxoform - works quickly and thoroughly with minimum effort, leaving rugs dry and ready for traffic in about two hours. Glaxoform Improved Instant Aerosol Oven Cleaner, that comes in two handy sizes with new relockable, directional nozzle, gives you a thick white foam that really cleans and begins working immediately to loosen baked on grime that can be wiped away in three minutes with a damp sponge.

### Comments by Gib

There was a time when a song was popular long enough to learn the words.

## A Bird in Hand

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

The hands are gentle and deft . . . the bird-banding process painless and quick. Soon the bird will fly off, safe and unharmed, unaware that it has become another link in the chain of research concerning the migratory habits of birds.

Our feathered friend has no interest in the fact that his experience ultimately will help chart the flight lines of all migrant birds. With heart beating wildly in its soft, downy throat, it longs only to be free.

Sometimes people are like that bird. Caught in circumstances beyond our control, we flail and thrash about. Fear and doubt overwhelm us and we fail to realize and acknowledge the loving arm of God that is present and sustaining in every situation.

Place your faith and trust in God and His Church. In times of need, strength and help are yours for the asking.

DR. C. L. KAY

## Key Speaks To Lions

Dr. C. L. Kay, vice president of Lubbock Christian College, was the guest speaker at the regular meeting of the Friona Lions Club last Thursday night.

Dr. Kay, a nationally renowned speaker, gave his observations he made as a member of the group which participated in a joint civilian orientation conference, to observe operational demonstrations at Army, Navy, Air Force and Marine field commands the world over.

Washington medal of honor from the Freedoms Foundation, Dr. Kay was also cited by the late President Eisenhower for his contributions to the American way of life.

Other guests of the club included Milton Laurie of Kress, the district governor, and Ed Skypala of Hereford, who is a field representative of Lions International.

Cotton is second only to steel in military uses.

## Norman Mohr Elected Thespian President

During a brief business session of Thespian Troupe 1379 at the home of Mr. and Mrs. Bob Riehmayer Saturday evening, Norman Mohr was elected to serve as president during the coming year.

Other newly elected officers include Leslie Jarecki, vice-president; Troy Bass, clerk; Kay Riehmayer, secretary; Jerry Shelton, treasurer; and

Rex Talley, reporter. Best Thespian certificates were presented to Norman Mohr and Janice Clark. Honor Thespian awards were received by Norman Mohr, Leslie Jarecki, Milton Carlton, Rex Talley and Shirley Johnson.

The sponsor, Joy Morton, presented honorary memberships to Mr. and Mrs. Calvin Talley, Mr. and Mrs. Wayne

Hodgson and Mr. and Mrs. Truett Johnson in appreciation of their support.

Senior officers, Shirley Johnson and Connie Stone, conducted the initiation ceremony for 35 new members.

Following the meeting Mr. and Mrs. Riehmayer, Mr. and Mrs. James Procter, Mr. and Mrs. Johnson and Mr. and Mrs. Talley hosted a hamburger fry.

### PUBLIC NOTICE

#### Proposed CONSTITUTIONAL AMENDMENT NUMBER FIVE ON THE BALLOT (SJR8)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 51-a of Article III of the Constitution of the State of Texas be amended, and the same is hereby amended so as to read as follows:

"Section 51-a. The Legislature shall have the power, by General Laws, to provide, subject to limitations herein contained, and such other limitations, restrictions and regulations as may be by the Legislature be deemed expedient, for assistance grants to and/or medical care for, and for rehabilitation and any other services included in the federal laws as they now read or as they may hereafter be amended, providing matching funds to help such families and individuals attain or retain capability for independence or self-care, and for the payment of assistance grants to and/or medical care for, and for rehabilitation and other services to or on behalf of:

"(1) Needy aged persons who are citizens of the United States or non-citizens who shall have resided within the boundaries of the United States for at least twenty-five (25) years;

"(2) Needy individuals who are totally and permanently disabled by reason of a mental or physical handicap or a combination of physical and mental handicaps;

"(3) Needy blind persons;

"(4) Needy dependent children and the caretakers of such children.

"The Legislature may prescribe such other eligibility requirements for participation in these programs as it deems appropriate.

"The Legislature shall have authority to enact appropriate legislation which will enable the State of Texas to cooperate with the Government of the United States in providing assistance to and/or medical care on behalf of needy persons, in providing rehabilitation and any other services included in the federal laws

making matching funds available to help such families and individuals attain or retain capability for independence or self-care, to accept and expend funds from the Government of the United States for such purposes in accordance with the laws of the United States as they now are or as they may hereafter be amended, and to make appropriations out of state funds for such purposes; provided that the maximum amount paid out of state funds to or on behalf of any needy person shall not exceed the amount that is matchable out of federal funds; provided that the total amount of such assistance payments only out of state funds on behalf of such individuals shall not exceed the amount of Eighty Million Dollars (\$80,000,000) during any fiscal year.

"Supplementing legislative appropriations for assistance payments authorized by this Section, the following sums are allocated out of the Omnibus Tax Clearance Fund and are appropriated to the State Department of Public Welfare for the period beginning September 1, 1969 and ending August 31, 1971: Three Million, Six Hundred Thousand Dollars (\$3,600,000) for Old Age Assistance, Two Million, Five Hundred Thousand Dollars (\$2,500,000) for Aid to the Permanently and Totally Disabled, and Twenty-Three Million, Nine Hundred Thousand Dollars (\$23,900,000) for Aid to Families with Dependent Children. Such allocations and appropriations shall be made available on the basis of equal monthly installments and otherwise shall be subject to the provisions of currently existing laws making allocations and appropriations for these purposes.

"Provided further, that if the limitations and restrictions herein contained are found to be in conflict with the provisions of appropriate federal statutes, as they now are or as they may be amended to the extent that federal matching money is not available to

the state for these purposes, then and in that event the Legislature is specifically authorized and empowered to prescribe such limitations and restrictions and enacts such laws as may be necessary in order that such federal matching money will be available for assistance and/or medical care for or on behalf of needy persons.

"Nothing in this Section shall be construed to amend, modify or repeal Section 31 of Article XVI of this Constitution; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision. Nothing herein shall be construed to permit optometrists to treat the eyes for any defect whatsoever in any manner nor to administer nor to prescribe any drug or physical treatment whatsoever, unless such optometrist is a regularly licensed physician or surgeon under the laws of this state."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday in August, 1969. At the election the ballots shall be printed to provide for voting "FOR" or "AGAINST" the proposition:

"The Constitutional Amendment providing for assistance to and/or medical care on behalf of the needy aged, the needy blind, the needy disabled, and the needy dependent children and their caretakers; establishing Eighty Million Dollars (\$80,000,000) as the maximum amount that may be paid per year from state funds for assistance only; allocating and appropriating additional sums supplementing current legislative appropriations for assistance grants; and authorizing the Legislature to enact such laws as may be necessary in order that federal matching money will be available for assistance and/or medical care."

## Set May 30 In Hereford Annual Pioneer Reunion

The annual Mid-Plains Pioneer Day has been scheduled for Friday, May 30 in Hereford.

The reunion of area old-timers will be held at the Bull Barn in Hereford.

Registration gets underway at 9:30 a.m. The annual meeting will begin at 10:30 a.m.

Naming of the "Pioneer of the Year" by Clint Formby, manager of Radio Station KPAN will be the highlight of the meeting. Jimmie Allred will give the welcome address. Claude Ricketts is president of the Mid-Plains Pioneers.

The senior citizens and persons coming the greatest distance will be recognized. New officers will be elected for the ensuing year. A basket lunch will be served at noon. Out of town guests need not bring food, it is pointed out.

Open house will be held at the Deaf Smith County Museum throughout the day, beginning

at 10 a.m. There will be plenty of chairs at the museum, for those who want to meet friends there for a visit.

The Cultural and Wyche Home Demonstration Clubs will serve coffee and doughnuts during the registration period.

### Annual Copies Now Available

Baker Duggins, faculty sponsor for the Friona Chieftain, high school yearbook, said this week that additional copies of the yearbook have been received from the printer.

Those people wanting a copy of the yearbook are requested to contact Duggins immediately.

## Method Given For Detecting Tornadoes Using Your TV Set

Because of tornadic conditions in the Friona area, and destructive funnel clouds in the immediate area, we have had a new method of detecting tornadoes called to our attention. The "Weller System" of tornado detection uses your home television screen, and according to reports, it is a very reliable method.

Since this might someday save someone's life, we think it worthwhile to print:

"A Des Moines, Iowa, electronics researcher has come up with a way to use an ordinary television set to give the best, advance warning of an approaching tornado.

"Newton Weller, the discoverer, says his system can tell you whether a thunderstorm is just another storm or if it contains a deadly tornado funnel. It can tell you whether to stay in bed or hunt cover.

"All you have to do is to turn on your set, switch to Ch. 13, use the brightness control to turn the screen black, and then move the dial to Ch. 2.

"Under these conditions, the set will pick up the electrical impulses of nearby lightning strokes and record them on the screen as bright horizontal flashes.

"The intensity and frequency of the flashes are indication of how severe the storm is. But as long as the screen shows only flashes, a storm is not a tornado.

"A tornado has its own specific type of lightning discharge and shows up on the screen as continuous bright light.

"Thus, when the screen is bright all over, it's time to head for shelter."

"It doesn't matter if there is a program on Ch. 2; turning down the brightness (by means of a knob used for that purpose, blacks it out.

"Weller claims he has used

his method for three years and can detect a tornado within 15 to 20 miles away, far enough to give about a half hour warning but not so far as to pick up tornadoes that present no immediate danger.

1. If storm threatens, turn on TV set.
2. Switch dial to Ch. 13 and turn brightness knob until screen is almost or entirely black.
3. Switch dial to Ch. 2.
4. Lightning will show up as bright horizontal flashes.
5. Tornado will cause entire screen to light up and grow brighter as funnel approaches. Seek shelter immediately.

"The system received unusual and startling test last fall. A story on the Weller Method appeared in the Des

Moines Register on Sept. 22, 1968. A few hours later, a tornado swept through Orange City, Iowa, causing a million dollars in damage. A number of residents of Orange City reported the Weller tornado detection method worked "exactly as it had been reported."

"Popular Science magazine ran a story on the Weller method. . . and says the method works.

"The system works because a tornado funnel is in effect a giant vacuum tube similar in principle to the tubes found in old time radios. Ch. 2 on a TV set operates at about 55 megacycles, the closest frequency broadcast by the tornado funnel, Weller says. Other channels will not show the effect as well, he added, and the upper channels will not register at all.

"Now that the Texas Panhandle is heading into the tornado season, Weller's system can be tested in any home that has a television set. The U.S. Weather Bureau has not endorsed the Weller system, but would like to hear from people that have used it successfully.

"At least it can be used as an auxiliary method of tornado warning. If a viewer follows the instructions, his television set lights up, and he hears the city storm warning sirens, he has a pretty good idea that he should seek cover."

### Hospital Notes

ADMISSIONS: 5/6/69-5/12-69

Mendoza, Friona; Marye Whitley, Farwell; Rhetta Schueler, Friona; Patricia Read, Farwell; Helen Ramon, Friona; Roddie Berend, Friona.

DISMISSALS:  
 Billy D. Kesler, Jose Angel Pena, Hazel Christine Shirley, Daniel E. Mann, Mrs. Leon Schilling and baby boy, Nellie Martinez Herrera, Allen Ray Day, Margaret N. Waggoner and Robert Harper.

PATIENTS IN HOSPITAL:  
 Roddie Berend, Victor Baraza, George Brock, Estelle Bearden, Luzelle Campbell, Clyde Goodwine, Sylvia Mendoza, Rosa M. Pena, Rebecca Powell, Claude A. Paul, Helen Ramon, Patricia Read and baby girl, Rhetta Schueler, Marye H. Whitley, Henry G. White and Giles W. Williams.

RECEIVES HONOR. . . Danny Murphree, who is shown winning this "heat" of the 440-yard dash at Wayland's All-College track meet, was given the "most valuable" track award for the fourth consecutive year this week. Murphree is a former Friona High School track star.

## Murphree Is Honored For Achievements At Wayland

Danny Murphree, a 1965 graduate of Friona High School and termed one of the finest athletes to ever don a Wayland Baptist College track uniform, has recently received several awards for his accomplishments.

For the fourth straight year, Murphree was named "most valuable" in track. The award was presented to him at the annual athletic banquet, May 8. He was presented a watch.

He has also been selected for inclusion in the 1969 edition of "Outstanding College Athletes of America," which recognizes athletes for their sports achievements, leadership ability, athletic recognition and community service.

In chapel program Monday Murphree was named the outstanding student in the Physical Education department. He is majoring in P.E. and is minor-ing in business administration.

At Wayland Murphree is active in Athletes for Christ, P.

E. Majors, is president of the Student Senate, member of Phi Beta Lambda, business fraternity, and other campus activities.

Murphree owns the school record in the 440 (47.2), the 400 meter dash (46.8), the 220 (21.2) and shares the 440 and the mile relay records. He placed third in the NAIA Outdoor Championships in Albuquerque last spring and fifth in the NAIA Indoor Championships in Kansas City in January. He ran the 440 in both meets.

He'll run the open 440 at the NAIA Championships in Billings, Montana, June 6 and will run on the mile relay team.

As in past seasons, Danny has continued to improve for the Pioneers despite poor weather conditions which plagued Bill Hardage's team in several meets.

He will graduate with a B.S.

When you cut out cotton corduroy for sewing, don't fold the fabric crosswise. If you do, the same pattern piece will have the nap running up on one side and down on the other. Rub your hand across the corduroy to determine whether the nap runs up or down. It will feel smoother running down.

Need an inexpensive lamp for a child's room? Buy a lamp base at a variety store and make the shade from a painter's cardboard pail and a piece of colorful cotton fabric. Pin the fabric to hand across the corduroy to determine whether the nap runs up or down. It will feel smoother running down.

New styles in men's cotton shirts show the wide-reaching effect of the Thirties on the fashion world. Shirts have bigger collars and are worn with wider ties. Moreover, the outlook calls for lots of color. In both cotton dress shirts and sports styles, designers are featuring blue, pink, yellow, spruce green, and reds from melon to mulberry.

## Friona Sailor Back From Second Vietnam Tour

Petty Officer Third Class Aaron Drager, son of Mr. and Mrs. John Drager of Route 2, Friona, is home following his second tour of duty in Vietnam. Drager has completed three years in the service, and spent a combined total of 17 months

in Vietnam. He spent some 10 months in Southeast Asia during 1967-68, and then following a furlough at home, returned for approximately seven more months.

Petty Officer Drager was with Mobile Construction Battalion 121 during both of his tours abroad, and was working on road projects during most of his time there.

"We were able to improve the roads considerably. For instance, one trip which took seven hours when I first took it could be covered in three and one-half hours today," Drager stated.

Drager saw most of his duty in the Phu Bai and Hue area. He returned to the States on April 19, and was separated from the service on April 28. He will now have three years of inactive reserve duty.

Drager was able to see a friend, Gene Hight, shortly before his departure for home. Hight, who is with a Mobile Construction Unit in the Navy, was stationed at Dong Ha, and had just been in Vietnam a short time when Drager saw him.

The 1964 graduate of Friona High School stated that it was good to be back home, and he looks forward to farming with his father in the Rhea community.

### Sgt. Gibson

#### Ends School

Sergeant Ronald B. Gibson, son of Mr. and Mrs. Dean F. Gibson of 619 N. 14th, Guthrie, Okla., has graduated from the U.S. Air Force Noncommissioned Officer Leadership School at Luke AFB, Ariz.

Sergeant Gibson, who was trained in military management and supervision, is a supply inventory specialist at Cannon AFB, N.M., with a unit of the Tactical Air Command.

The sergeant is a graduate of Guthrie High School. His wife, Gerri, is the daughter of Mr. and Mrs. C.W. Dainger of Larist, Tex.

The first successful cotton textile mill in the U. S. was built in 1790 by Samuel Slater, an Englishman.

### PUBLIC NOTICE

#### Proposed CONSTITUTIONAL AMENDMENT NUMBER SEVEN ON THE BALLOT (HJR4)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 51-d, Article III, Constitution of the State of Texas, be amended to read as follows:

"Section 51-d. The Legislature shall have the power, by general law, to provide for the payment of assistance by the State of Texas to the surviving spouse and minor children of officers, employees, and agents, including members of organized volunteer fire departments and members of organized police reserve or auxiliary units with authority to make an arrest, of the state or of any city, county, district, or other political subdivision who, because of the hazardous nature of their duties, suffer death in the course of the performance of those official duties. Should the Legislature

enact any enabling laws in anticipation of this amendment, no such law shall be void by reason of its anticipatory nature."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in August, 1969, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment authorizing the Legislature to provide for payment of assistance to surviving spouses and minor children of governmental officers, employees, and agents, including members of organized volunteer fire departments and certain organized police reserve units, who have hazardous duties and are killed in the performance of those duties."

### PUBLIC NOTICE

#### Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT (SJR31)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 24, Article III, Constitution of the State of Texas, be amended to read as follows:

"Section 24. The Lieutenant Governor and the Speaker of the House of Representatives shall each receive from the Public Treasury an annual salary in an amount to be fixed by the Legislature, not to exceed one-half the annual salary of the Governor. Each other member of the Legislature shall receive from the Public Treasury an annual salary to be fixed by the Legislature, not to exceed the annual salary paid to a district judge from state funds. Members of the Legislature shall also receive a per diem of not exceeding Twelve Dollars (\$12) per day during each Regular and Special Session of the Legis-

lature. No Regular Session shall be of longer duration than one hundred and forty (140) days.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on August 5, 1969, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment providing that the Lieutenant Governor and the Speaker of the House of Representatives shall receive a salary fixed by the Legislature, not to exceed one-half the salary of the Governor; providing that the Legislature shall fix the salary of the other members, not to exceed that received by a district judge from state funds; and removing the 120-day limitation on per diem for regular sessions."

### PUBLIC NOTICE

#### Proposed CONSTITUTIONAL AMENDMENT NUMBER EIGHT ON THE BALLOT (HJR50)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III, Constitution of the State of Texas, be amended by adding a new Section 50b-1 to read as follows:

"Section 50b-1. (a) The Legislature may provide that the Coordinating Board, Texas College and University System, or its successor or successors, shall have authority to provide for, issue and sell general obligation bonds of the State of Texas in an amount not to exceed Two Hundred Million Dollars (\$200,000,000) in addition to those heretofore authorized to be issued pursuant to Section 50b of the Constitution. The bonds authorized herein shall be executed in such form, upon such terms and be in such denomination as may be prescribed by law and shall bear interest, and be issued in such installments as shall be prescribed by the Board provided that the maximum net effective interest rate to be borne by such bonds may be fixed by law.

(b) The moneys received from the sale of such bonds shall be deposited to the credit of the Texas Opportunity Plan Fund created by Section 50b of the Constitution and shall otherwise be handled as provided in Section 50b of the

Constitution and the laws enacted pursuant thereto.

"(c) The said bonds shall be general obligations of the state and shall be payable in the same manner and from the same sources as bonds heretofore authorized pursuant to Section 50b.

"(d) All bonds issued hereunder shall, after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under this Constitution.

"(e) Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment such acts shall not be void because of their anticipatory nature."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in August, 1969, at which election the ballots shall be printed to provide for voting for or against the proposition: "The Constitutional amendment authorizing the Legislature to provide for additional loans to students at institutions of higher education under the Texas Opportunity Plan."
