

Too late for last week's edition, we learned that there was at least one instance of malicious mischief in connection with the Halloween weekend.

We were set to commend the youngsters for the Friona area for a sensible weekend, but will now have to amend the statement to read "except for the malicious destruction at the Byron Hardgrove residence."

Hardgrove is a high school instructor. His new residence at 1407 Jackson in Friona was the target of not only vegetables and eggs, but even more potent materials, such as grease and paint.

The vandals painted some off-color words on the house, causing scars on both the brick and wood trim to the house.

This type of prank is regrettable, and we are truly sorry to hear about it. It gets completely out of the realm of "trick or treat," and hedges on vandalism.

The Friona Classroom Teachers Association is considering passing a resolution urging prosecution of students who engage in such destructive activities.

Youngsters need to think twice before engaging in such acts. Students of high school age know the difference between pranks and acts which destroy or deface property.

On husbands who pass their weekends glued to a television football broadcast:

It was mentioned on a national telecast the other evening that one of our states was considering a law whereby a husband who watches as many as five ball games in one weekend can be considered legally dead.

Then, actress Suzanne Pleshette says she has been married for four years, but really considers it only two years, since "my husband watches football games about half the time."

Men, you'd better be thinking, and on your toes. The little woman may be cooking up a "sneak play" while you are watching your favorite sport.

The physics class at Friona High School has developed several demonstrations with a Minidac 6010 computer.

In one of the demonstrations, the class used the computer for a "tic tac toe" game. The class uses the machine to demonstrate computer theory.

Another project has been to wire the machine for a "search and intercept" radar type demonstration, and other plans call for a chase game by the machine.

When the computer plays a game, it figures out the best move, scientifically, and records its move on a screen.

Mike Urrick is instructor of the class, which is made up of seven seniors. Class members are Larry Sanders, Richard Shirley, Kathy Horton, David Sides, Ronnie McPherson, Bill Bailey and Sally Kendrick.

What a difference the sun makes! Recalling the past weekend, those of you who were outside will remember that Saturday was a pretty nice day—a bit on the cool side, but sunny and otherwise pleasant. Then came Sunday, like a preview of winter.

What you may not have realized was that the high temperatures for the two days were only three degrees different—48 on Saturday and 45 for Sunday. Seems the only difference was in Sunday's total overcast, which kept the sun hidden all day.

If "Old Sol" will just stay out for the rest of the week, farmers will make a big dent in the maize harvest.

From the Matador (Texas) Tribune: "If scientists are seeking a delicate trigger for an atomic blast, they might try blonde hair on the coat collar of a brunette's husband."

Fred Allen liked to tell about the young man who took so long to get through Harvard that he had ivy growing up his left leg.

A genuine optimist: A fellow who jumped from the tallest building and, as he passed sixty floors, said, "So far not bad at all."

Maize Harvest Hits Peak

YIELDS VARY

Break From Weather Allows Much Work

The maize harvest hit the peak for 1971 in Friona this week, as farmers, given a week without moisture, were able to get into the fields with consistency.

General consensus was that by Tuesday the harvest was over half through in the Friona area. Farmers and elevator operators alike were hoping for sunny weather for the remainder of the week, stating that a good portion of the crop could be harvested if the good weather holds out.

The yields for the 1971 crop appear to be off somewhat from late-season expectations. Factors causing the decrease in expected yield range from hail storms and other late-season adverse weather to lodging of the plants in many fields.

However, the 1971 maize crop should at least be "better than average."

"I think we should produce

as much total volume as we did last year. Some farmers have real good yields, while others who had some hail damage had their crops hurt considerably," said one elevator manager.

Some of the better yields for farmers who had finished up were 8300 to 8500 pounds per acre.

Cotton striping still has not gotten underway in Friona with much volume. Ginners state that the crop apparently lacks a few days being to the proper stage. Many of the bolls which were still green are opening since the freeze was received. Others still will open up, some observers say, if farmers will just wait a bit longer.

Harvest of sugar beets also has peaked. This harvest has not been hampered by the weather as much as the maize harvest. Beet yields and sugar content appear to be good, according to early reports.

LINING UP... The above scene has been typical at elevators in the Friona area for the past week, as trucks bearing the 1971 maize crops lined up at elevators. The harvest was thought to have passed the halfway point during the past week.

HIGHWAY PROJECT

Tracts Approved For ROW Purchase

The procedure for purchasing right of way and making other necessary adjustments preliminary to the beginning of construction on the overpass for Highway 214 was discussed and outlined by right of way officials from the Texas Highway Department with city and county officials here last Thursday.

The highway officials turned over to the City of Friona six tracts of land which have been approved by the State Highway Department for participation in the 50-50 right of way purchase, and two for the county.

There are still three other tracts of land for the city which have not returned from Austin, and several for the county.

In addition to the purchase of right of way, there are certain utilities located within the project boundaries which will need

to be moved. These include installations belonging to Pioneer Natural Gas, Southwestern Public Service Co., Deaf Smith Electric Cooperative, and the City of Friona.

The companies involved are preparing estimates of the cost of moving the utility installations in question.

One of the parcels of land involves a dwelling that will need to be moved. This involves a special 90-day waiting period.

Because of this, and the other right-of-way details which must be worked out, a contract for construction on the project cannot possibly be awarded prior to May of 1972.

Rhea Bradley, resident engineer for Farmer County, says he hopes to have preliminary work on contracts completed by the time the right-of-way mat-

ter is completed, in order to "go to contract" in a short time thereafter.

Representing the highway department were Lawrence Magee, district right of way engineer, and W.C. Powell, his assistant, of Lubbock; Jim Prugel, right of way agent, Lubbock; Tom Solomon, highway district attorney, Lubbock; Lloyd Lust, senior design engineer, and Bradley, both of Littlefield.

Mayor R.L. Fleming, city manager Jake Outland and city attorney Richard Collard represented the City of Friona.

County Judge Archie Tarter, and commissioners Tom Leshellen and Charlie Jefferson represented the county.

Council Sees Plans For New Fire Station

Mayor R.L. Fleming and City Manager A.L. (Jake) Outland were authorized to enter into contract with property owners to secure needed right-of-way for the Highway 214 improvements at the regular monthly meeting of the Friona City Council this week.

Purchase of the right of way is expected to begin in the near future.

Fire Chief Ralph Shirley, along with other officers from the Fire Department, appeared before the council, with completed plans for a new fire station for the city. Plans call for room to house the department's five vehicles, plus providing adequate room for storage of equipment, and a training room.

The mayor, city manager and members of the council expressed their desire to see a new fire station built. Avenues of financing such a project are to be studied by the city officials.

In other business, the council authorized payment to the Carson Estates of \$2,346.46 as stipulated in a previous agreement in conjunction with the annexation of the Carson addition.

A payment of \$1,620 to Dan MacNaughton, Plainview, appraiser for the highway project, was approved.

In other business, the council authorized the city manager to solicit bids for a new half-ton pickup for use by the city's water department.

A payment of \$3,181.50 was approved for the city's workmen's compensation insurance and general liability. An amendment to the city's traffic ordinance #391 was approved.

The council heard a complaint from Ralph Broyles, Johnny Broyles and Ray Peace, on behalf of fines which the young men had had to pay, and questions concerning officers handling the situation. After the complaint, the council held a special hearing on Tuesday evening, with all of the parties involved.

It was pointed out that the city council was not authorized to override a judicial decision, but the body agreed to hear both sides of the issue. Upon doing so, the council decided that the officers and city judge had done their jobs in the case.

STRICKLAND WINS

Football Contest Gets Crowded At The Top

The race for first place in the Friona Star's football contest became even closer following the past week's contest, with four contestants now tied for first place, and four more tied for second.

Making the biggest noise during the week was Ray Strickland, who scored a 12, and came from 14th in the previous week's standings to a tie for the lead with Jack Clark, F.G. Crofford and Jerry Loflin. Loflin had held the lead the previous week. He scored a nine for the week, and the other two had scores of ten.

The four leaders have scores of 36 after the ninth week of the contest, which has three weeks to run. Just a point back at 35 are Bill Bailey, Mrs. J.P. Fortenberry, L.F. Jacobs and Jim Johnston.

Strickland was easily the first place weekly winner, getting all of the games correct except for the two tie games. Ties are automatically counted wrong in the contest, since contestants have the prerogative of writing "tie" in the blank, if they want to take such a long shot.

Strickland was the only contestant who managed to pick the remaining 12 games correctly. Seven contestants correctly picked 11 games, and from that list, Jerry Hinkle emerged as second place winner and Jackie Stowers was third.

Hinkle still missed the Friona-Morton tie-breaker by 26 points, but still was the closest of the seven who picked 11 ga-

mes. Hinkle guessed the score at 20-13 in favor of Friona, to earn \$3.00 for second place. Jackie Stowers placed third, missing the score by 32 points.

Others correctly picking 11 games were Lucy Beth Hinkle, Laverne Mabry, Maurine Mabry, Margaret Duggins and Mike Bryant.

Ten was a good score for the week, and 19 contestants managed to pick that many games. They were: Jack Clark, Ron Davenport, Peggy Bryant, F.G. Crofford, John Baca, Dean Blackburn, Floyd Reeve, Raymond Miller, Lloyd Purvis, Marie Fleming, Trip Horton, Doyle Mabry, Mike Orrick, Clint Mears, Benny Vasquez, Rocky Bartlett, Mr. and Mrs. Buford Hartwick and Herb Seight.

Bad News, Taxpayers

Mayor R. L. Fleming, and city attorney Richard Collard attested this week to the legality of the raise in city taxes, reflected in statements mailed last month.

"Some people wondered about the legality of the raise, with the president's price freeze, but the Internal Revenue Service assures us that taxes are not included in the freeze," Collard says.

Chiefs Looking For Win In 1971 Finale

Friona's Chieftains, having snapped a five-game losing streak, will be out to finish their 1971 season with a win when they travel to Lockney on Friday for the wrap-up game for the year.

The Chiefs, bolstered by last Friday's 39-6 win over Morton, would like to win Friday in order to have some enthusiasm to carry over to next season. Gametime at Lockney is 7:30 p.m.

Friona carries a 3-5 record into the contest, compared to Lockney's 7-2. However, the

Chiefs more or less "started the season over" last Friday, so season records won't mean too much.

Lockney does, however, have the best team the Longhorns have fielded in years, with a potent backfield led by quarterback Tony Ford. Backing up Ford are runningbacks Pat Bennett, Charlie Mathis and Cleo McGee, who have scored 16 touchdowns among them. Bill Hill, an end, has scored six TDs.

James Sims, who came in to lead the Chieftain backfield to 455 total yards offense last Friday, will again get the call in the season finale. Johnny Bandy, who started the first eight games, suffered a pinched arm nerve against Floydada, and could possibly see action in the season finale, but his doctor had not cleared him for contact by midweek.

Otherwise, the team will be at near top physical shape for the final game.

The contest will be the last district meeting between the two schools for a while, although Lockney has been contracted for games the next two years as non-conference opponents. In seven meetings in district play, Friona has won six times, although having a fight on their hands every time. Lockney's last win was a 39-6 bombing of the Chieftains at Lockney two years ago.

Eight seniors will be playing their final game of football for FHS. They are Bill Bailey, Carroll Cook, Larry Fallwell, Richard Shirley, Mike Royal, James Sims, Bobby Drake and Oberlin DeLeon.

FHS Debaters Win Trophy

Friona High School's debate teams won the "Sweepstakes" trophy for the second year in a row at the Muleshoe Debate Tournament last Saturday.

Spearman High School won first place trophies for the top boys and girls debate teams, but Friona edged their rivals to the north for the sweepstakes trophy with 35 total team points to 30 for Spearman and Muleshoe.

Friona students who contributed to the victory are Sheila Struve, Larry Sanders, Holley Stephenson, Carol Bavousett, Mark Shackelford, Brent Hall, Trip Horton and Jay Messenger.

Joy Morton is coach of the FHS debate teams.

GROUNDWORK LAID

Chamber Committees For Banquet Named

The Friona Chamber of Commerce began making plans for its annual banquet at the regular monthly board of directors meeting Tuesday of this week.

President Ralph Shirley appointed committees to secure the speaker, plaque awards, and choose the chamber's annual recipient of the man, woman, teacher and most courteous employee of the year.

H.K. Kendrick, Dr. Jon Mack Roden and Steve Messenger are to secure a speaker. Ray Murphy, Glenn E. Reeve, Jr. and Marc Houser are to plan the menu, etc.

Also, Shirley told the board he was working on an idea for recognizing a girl and boy from high school at the banquet. Details for this are being discussed with school officials.

It is planned to hold the annual banquet the early part of February if possible.

Harding Is Candidate

Hurshel R. Harding, County Attorney for Farmer County, this week authorized the Friona Star to announce his candidacy for re-election.

Harding's statement follows: "I hereby announce my candidacy for re-election as County Attorney for Farmer County, Texas, subject to the Democratic Primary May 6, 1972."

"In making this announcement I wish to thank the citizens of Farmer County, Texas, for their prior support given to me and to my office; and if I am re-elected I promise that I will endeavor to carry out the duties and responsibilities of the office of County Attorney to the best of my ability."

HONORED... Jane Williams was presented a silver tea service by Friona State Bank last Friday, on the occasion of her 25th anniversary as a bank employee. Making the presentation is Charles Allen, who, like Mrs. Williams has been with Friona State Bank for 25 years.

WIN TROPHY... Friona debate teams won the sweepstakes trophy at Muleshoe's Debate Tournament last Saturday. Shown are (back) Mark Shackelford, Brent Hall, Jay Messenger, Larry Sanders and Trip Horton. In front are Carol Bavousett, Sheila Struve and Holley Stephenson.

"Congratulations, Dear, you've been voted 'Spender of The Year' by the Downtown Merchants Association."

Friona Flashbacks

...from the files of the Friona Star

35 YEARS AGO--NOVEMBER 13, 1936

Bob Clements of Albany, who formerly owned the Clements Tailor Shop here, but who a few months ago purchased a larger shop at Albany, was here Tuesday and moved the stock of men's furnishings to his store in Albany. The shop here has been under the management of Roy Clements, and will continue so.

30 YEARS AGO--NOVEMBER 14, 1941

Announcing an allotment of \$148,000 for the construction of 213 miles of new REA electricity lines in Texas, H.V. Hennen, project supervisor stated that approximately 50 miles of this new allotment will be placed in Parmer County. When the new construction is completed, approximately 300 miles of REA line will be served through the Parmer sub station.

25 YEARS AGO--NOVEMBER 8, 1946

On last Friday night at the football game with Tulla, the Chieftains crowned their football queen, Miss Marcia Luttrell of the junior class. The pep squad, dressed in their red and white uniforms, formed a heart on the playing field. The queen was dressed in a red evening gown and her attendants wore white. The queen was crowned by Dean Hall, captain of the football team. Tulla prevailed in the game, by a score of 32-0.

20 YEARS AGO--NOVEMBER 8, 1951

Survey work was commenced today on the new fire station for Friona, with actual construction to follow immediately. All bids recently were rejected by the city commissioners, and decision was made for the city to construct the building themselves. Mayor Balmum pointed out that a considerable saving in cost would be effected.

15 YEARS AGO--NOVEMBER 8, 1956

Texas agreed with the nation in returning President Eisenhower to his second term of office in the general election Tuesday, but it was a different story in predominately-agricultural Parmer County. Here, Adlai Stevenson and Estes Kefauver, the Democratic nominees for the nation's two highest offices, took a clear cut victory. Democrats won in Friona by a 434-356 margin. Countrywide, the count was 1372 votes for Stevenson-Kefauver and 1028 for Eisenhower-Nixon.

10 YEARS AGO--NOVEMBER 9, 1961

An all-out drive to enroll the 20 additional members necessary before the construction of the Country Club House can begin will commence Dec. 14, according to Andy Hurst, club president.

D.G. McClellan, local telephone maintenance man, received fractures in his ankle as a result of a fall from the top of the American Legion Building Thursday.

5 YEARS AGO--NOVEMBER 10, 1966

Friona and Parmer County voters turned out in heavy numbers for a non-presidential voting year to help return Senator John Tower to Washington and to favor Congressman-elect Bob Price. City and county voters gave both of the Republican candidates a surprisingly heavy majority. Seven of the eight precincts voted for the two candidates. In Friona, Tower out-pollied Waggoner Carr, 446-226, and won the county vote, 1084-651. Price's margins were 476-179 in Friona and 1161-569 county-wide over Democrat Dee Miller.

LETTERS TO EDITOR

Mr. Bill Ellis
Friona Star
Friona, Texas

Dear Bill:

The work of the Legislative Redistricting Board recently completed has resulted in a plan whereby I will no longer be able to serve the people of Parmer County as Senator after January 1, 1973.

I regret this very much. In the past six years I have made many friends in Parmer County. The people have been very nice to me, and it has been a

pleasure to serve them in the Texas Senate.

During the Special Session of the Legislature to be held sometime in 1972, the districts will remain as they are presently constituted. I will be representing the people of Parmer County during this time and hope they will let me know when I can be of service.

If I am privileged to serve after the next elections, my office will always be open to my friends of Parmer County.

Yours very truly,
Jack Hightower

Star Publisher Quizzes Barnes

Bill Ellis, editor and publisher of the Friona Star, will be one of the guest panelists on the Channel 7 "Hotline to Politics" segment this Sunday, when Lieutenant Governor Ben Barnes will be the special guest.

Other panelists on the program are Dick Reavis, publisher of the Moore County News, Dumas; and John Getz, publisher of the State Line Tribune, Farwell.

Airtime for the program is 5:30 p.m. Sunday on KVII-TV. The weekly program features

leading politicians and office holders, fielding questions on current topics from the newsmen of the area.

SCHOOL LUNCH MENU

Week of November 15-18
Monday--corn dogs, buttered corn, catsup, hot rolls-butter, French fries, chocolate pudding and milk.
Tuesday--meat loaf, buttered English peas, cabbage slaw, hot rolls-butter, mashed potatoes, apple sauce cake and milk.
Wednesday--tacos, pinto beans, cornbread and butter, lettuce and tomato salad, apricot

cobbler and milk.
Thursday--hamburgers, potato chips, lettuce, tomatoes, pickles and milk.
The lung cancer death rate among men increased 15-fold in 35 years and the rate is going up among women. Lung cancer is largely preventable, says the American Cancer Society--just stop smoking.

He'll grow into it!

Years roll by, and college financing becomes a very real problem. Savings Accounts, begun now, can take the sting out of those ever-rising educational costs.

WELCOME TO FRIONA

This week we salute Mr. and Mrs. Leroy Lambert as our newcomers of the week. Lambert is employed in the parts department at Parmer County Implement Company. Mrs. Lambert teaches eighth grade reading. They came to Friona from Silverton. They are Baptists, and live at 1300 N. Walnut, Apt. 24.

HOW FAR AWAY IS THE SUN? THE DISTANCE VARIES DURING THE YEAR, BUT IT AVERAGES 93 MILLION MILES! A NEWBORN BABY, ON A SPACESHIP TRAVELING 500 MPH, WOULD BE 21 YEARS OLD BEFORE HE REACHED THE SUN!

PHYSICS EXPERIMENT. . . Three members of Mike Orrick's physics class does an experiment with "Clyde," a Minidac computer. From the left are Ronnie McPherson, Sally Kendrick, Orrick and Bill Bailey.

October Permits Here Amount To \$56,000

Building permits issued by the City of Friona during the month of October totaled \$56,100. It was revealed this week by A.L. (Jake) Outland, city manager.

The permits represented two new residences, valued at a total of \$32,500; a new service station at \$20,000; and three additions/alterations at \$3,600.

The city office processed 12 complaints during the month ranging from stray dogs to chickens.

Water department records showed that approximately 15,462,000 gallons of water were pumped during the month. This is a reduction of about 40 percent from the previous month. The decline can be attributed to the beginning of the fall weather, and also the 1.57 inch of rainfall measured during the month.

There were six new water taps installed during October, bringing the total number of active taps to 1,273 as of the end of the month.

The city installed (buried) its new bulk gasoline tank during the second week of the month, and began using the bulk facility on October 15.

Five new sewer taps were made during October, bringing the total number of active taps to 1231.

Only two fire alarms were sounded during the month. Both were automobile fires within the city limits. Total estimated damage amounted to only \$450.00.

Fifty-five arrests were reported by the police department during the month. Twenty-three of these were for traffic violations. Other arrests were for disorderly conduct, simple assault, traffic warrants: minors in possession of alcoholic beverages and runaways.

The police department investigated eleven complaints. These ranged from disturbance of the peace to vandalism and hit and run. The department reported 32 man-nights of jail occupancy during the month.

Survey Of Employment Status Slated Locally

The Bureau of the Census will conduct a survey of employment and unemployment in this area during the week of November 15. Walter A. Freeman, Jr., Director of the Bureau's Data Collection Center in Denver, announced today.

This survey is conducted each month by the Bureau for the U.S. Department of Labor in a scientifically designed sample of households throughout the entire United States.

The employment and unemployment statistics which this survey provides are prime indicators of economic conditions of the Nation. For example, the September survey showed that employment had risen substantially while unemployment remained virtually unchanged, after allowance for the usual

seasonal movements. The over-all seasonally adjusted unemployment rate was 6.0 percent, little changed from the 6.1 percent of August.

Facts supplied by individuals participating in the survey are kept confidential and the results are used only to compile statistical totals.

FUN WITH FIGURES

The atmosphere weighs five and a half quadrillion tons—about a millionth of the weight of the earth as a whole. At sea level, it presses on every square inch of space with a weight equal to 14.7 pounds!

The world's longest underwater coral formation is Australia's great Barrier Reef, which stretches for 1,250 miles! This great reef is now threatened by the crown-of-thorns starfish which destroys the coral in the pursuit of its prey.

Titanium metal is as strong as steel but weighs only half as much! In combination with oxygen, it forms a chemical compound called titanium dioxide, which has replaced lead compounds as a paint base because it is less hazardous to health!

YOUNG CHEERLEADERS... Leading the cheers for Mrs. Porter's Kindergarten in last week's clash between their players and those from ABC School, were the above young cuties. Left to right are Gayle Stowers, Shannel Woodard and Terri Bass.

Hurst Among 38 From Tech In 'Who's Who'

Rickey Lee Hurst, a senior pre-med student from Friona, was one of only 38 Texas Tech students selected for listing in the 1971 Who's Who Among Students in American Colleges and Universities.

Hurst, who is the son of Mr. and Mrs. Andy Hurst, Jr. of 1206 West Fifth Street, is a chemistry major. He has been on the dean's list, a student senator, a member of the University Center Program Council and chairman of the Student Association's Academic Recruiting.

Texas Tech's student body now numbers 21,313, magnifying the honor. Selection is made on the basis of academic standing, service to the community, leadership in extracurricular activities and future potential.

For what is believed to be the first time, twins won Who's Who honor at Texas Tech. Betty Win and Bonnie Sue Brown of El Paso were named.

Four of those receiving the honor were named for the second year in a row. They are: Student Association President William D. Scott of Houston; Student Association Secretary Barbara Anderson of Fort Worth; Gayle Smure of Midland, chairman of the Government Operations and Relations Committee of the Student Senate; and Jeffrey Wentworth of San Antonio, president of the

What Does The Bible Say?

Question: "Why do you claim that water baptism saves one from sin?"

Answer: This is not so much the claim of a man, but a simple statement made by Christ himself. No man can see any power in immersing a body in water in order to purify a soul of sin. There is nothing here for a rationalist or skeptic. He can see nothing in the whole procedure, for either the soul or the body. Yet the statement is, "He that believeth and is baptized shall be saved." Does the sinner desire what is promised? If he does, there is the instruction, "Be baptized." And why must he be baptized? Not because he can see any virtue in it, but because Supreme Authority has commanded it. Like Abraham offered Isaac, not because he could see the reason for it or any good in it, but because God told him to do it: so the believer in Christ is baptized for the remission of his sins, not because he can see why but because he respects the Authority that bids it.

Questions Invited. Address "What Does The Bible Say?" Box 515, Friona, Texas.

MORTON IS VICTIM

New Offense Clicks As Chiefs Win, 39-6

For a patched-up offense, the Friona Chieftainbackfield made a good account of themselves last Friday against Morton.

With James Sims starting for the first time at quarterback, the Chiefs roared to 403 net yards rushing, and a 39-6 win over the visiting Indians. The win snapped a five-game skid that began for the Chiefs with the beginning of district play.

Both the yards rushing and game score are season highs, and highs for the past three seasons. The Chiefs had 434 yards rushing against Farwell, and 48 points against Crosbyton, both in 1968. The six touchdowns equalled the team's output in their other five district games.

Bill Bailey, Louis Lee and James Bartlett led the ground assault which left the visitors reeling. But it was the play of Sims, subbing for the injured Johnny Bandy, that won the admiration of the fans.

Sims worked the option to perfection, with two option pit-outs going for touchdowns on tosses to Lee. The senior left-hander also passed 30 yards for another touchdown to Larry Fallwell, and scored once himself on a six-yard keeper.

Lee, also getting his first big chance of the year, rang the bell with four touchdowns in the game. This is the first time a Chieftain back has scored four times in one game since Tony Perea turned the trick against Hale Center in 1968.

Friona scored on its first two possessions, and also on its fourth time with the ball, to erupt into a 21-0 halftime lead and command of the game.

Morton had the early momentum, with fullback Kevin Kuehler breaking for gains of 17 and 18 yards following the kickoff. However, the Chieftain defense dug in, and held Morton at the Friona 29.

Here began a 71-yard drive shared by four Friona backs. Sims gained 11 yards on a keeper, and Bailey blasted for two first downs as the team moved to the Morton 22. Here, facing third and six, came Lee's first big play of the night.

Sims headed around left end, then tossed to Lee, who sprinted untouched 22 yards for the touchdown. Bob Drake's kick made it Friona 7-0 with 3:50 left in the opening quarter.

Late in the quarter, the Chiefs were on the move again. As the second period opened, Friona was at the Morton 30, facing third and 11. Sims passed to Fallwell, who was wide open at about the ten. Fallwell smothered the ball, and then charged into the end zone. Drake's kick made it 14-0.

Morton's best first half drive followed, going as far as the Friona 16. However, the Chieftain defense dug in and took over at the 30 after Royal smothered quarterback Keith Embry on a fourth down play. The fired-up Chieftains then drove 70 yards in exactly two minutes. Bailey was the big gainer, but Lee got the TD, on a 10-yard burst up the middle. Drake connected again, for a 21-0 halftime edge.

Early in the third quarter, Friona recovered a Morton fumble at their 38, and set sail on a 62-yard drive that took just seven plays. Sims and Bartlett combined on a nifty 22-yard gain via the option pitchout, and Lee got his third touchdown on a seven-yard sweep around left end. A bad snap on the point try left the score at 27-0. On their second play from scrimmage, Morton fumbled again, and the inspired Chief-

tains zipped 49 yards in six plays, overcoming a 15-yard penalty. Bartlett had the big gain of this drive, a 29-yard burst around right end, to the Morton eight. Two plays later, Sims took it in himself. Drake had two shots at the point due to a penalty against Morton, but couldn't connect, and it was 33-0.

At this point, the Indians became aroused. Substitute quarterback Ted Thomas found halfback Elton Patton in the open behind his defenders. Thomas grabbed the pass, and sped the rest of the way for the score, on a 62-yard pass and run play. A pass try for two points fell incomplete, and the score was 33-6 with 3:00 left in the third quarter.

Morton threatened to pull even closer, getting a full and goal at the Friona four. However, the Indians found the going rough, and had to give up the ball four plays later at the Chieftain two.

From this point, the Chiefs put together their longest sustained drive of the night—and season—98 yards to paydirt.

Bailey, Bartlett and Sims carried the mail, Bartlett getting 36 yards in three pitch-out plays. Sims ran seven yards to the Morton one, and then called Lee's number. The junior speedster responded with his fourth touchdown. Drake's kick was low, and that was to be all the scoring for the night as the scoreboard read 33-6 with 5:13 left to play.

The win continued Friona's good record over Morton, as the Chiefs now have won nine games out of 15 meetings, including the last seven in a row.

An idea of how well the Chieftains had control of the game is seen in the fact that the team had to punt only once.

SIMS GAINS. . . James Sims is shown making a good gain against Morton last Friday. Sims rushed for 71 yards, and passed for 52 more, as the Chieftains topped the Indians, 39-6.

"TIE" TO LHS

Littlefield Eyeing Playoffs After Win

Coach Jerry Blakely isn't counting unatched chickens. Roosevelt may be just down the road a few miles, but it's too far. Blakely's concern is Morton.

Morton and the District 3-AA championship.

Blakely paced the west sidelines in Littlefield's Wildcat Stadium Friday night and saw his host Wildcats battle to a scoreless draw with Floydada. From the scoreboard, the teams went to penetrations, which were all even at one piece, and thence to first downs. Here, the Wildcats were ahead 13-9, so the victory was awarded to them. District 3-AA decides ties on penetrations and first downs. Only when these statistics are even will a game go down as a tie.

That victory left the district in a two-way tie between the Wildcats and Floydada, but it also gave the Wildcats the playoff spot in case both teams win this week to share the championship.

Littlefield's foe this week is Morton, and although Blakely could look ahead to Roosevelt, the 4-AA playoff team and his bi-district foe, Blakely isn't looking that far in advance. "It'll be all for naught unless we beat Morton," said Blakely, "so we're taking dead aim at them. If we win that, then we'll take dead aim at Roosevelt—but not until we beat Morton."

Littlefield was a game back of Floydada entering the game last week. Now, however, it

could wind up in a four-way tie. To create this situation, Morton would have to beat Littlefield, Abernathy best Floydada and Lockney winover Friona. This projection would leave the Wildcats, Floydada, Abernathy and Lockney tied for the championship.

Littlefield had to come up with its best defensive effort of the season to get the tie, said Blakely.

"We just played great defensively, but so did Floydada. They have a fine team. Offensively, we didn't play that bad; we played good enough to look outstanding against some people. But you have to play great against Floydada to score."

"Just before we got the ball the last time, we told our quarterback (Jay Trammel) to check with the officials to see about the first down count. We thought we were ahead two or three but weren't sure."

"But we found out we were ahead 13-8 and felt if we could get one first down we'd run out the clock. But we didn't get the ball and we were fortunate to hold them to one more first down before the game ended."

At the same time the two leaders were battling, Abernathy kept its hopes bright by blanking Dimmitt 14-0, Friona bombed Morton 39-6, and Lockney outscored Olton 26-21.

Louis Lee scored four times, on runs of 22, 10, 7 and 1 yard, in the Friona triumph, although fullback Bill Bailey rushed for 148 yards without scoring.

Marlos May scored three times for Olton. Bobby Rogers scored in the first period for Abernathy, then the Antelopes held the Dimmitt crew on the goal as the half expired.

7th Grade Falls, 14-0

Friona's seventh grade Braves dropped a 14-0 game to the Morton seventh graders in a game at Morton last Tuesday.

Morton broke open a scoreless game with two fourth-quarter touchdowns for the win. The Braves had held a Morton drive at their own one-yard line, with the score 0-0, as Keith Martin recovered a Morton fumble.

Leslie Broadhurst carried out to the ten, and Martin gave the team a first down at the 12. However, on third down from the 16, Martin had a pass intercepted, and the Morton player carried the ball into the end zone for the touchdown. A run for two points made the score 8-0, favoring Morton.

Late in the game, Morton drove 50 yards for their other TD, and the final margin of 14-0.

The Braves wind up their season with a game against Muleshoe here Thursday.

FIVE PLAYERS SCORE

Freshman Chieftains Coast To 36-8 Win Over Morton

Friona's Freshman Chieftains romped to a 36-8 win over Morton's freshmen in a game played at Chieftain Field last Thursday.

The Freshmen Chieftains scored in every quarter, in completely dominating the game.

Friona's scoring was divided, with five players sharing in the scoring. Clay Bandy capped a 55-yard drive following the opening kickoff, going six yards for a touchdown. Kevin Welch ran for two points and Friona led, 8-0, with only 4:34 gone in the game.

The third time Friona had the ball, they drove 68 yards in a sustained march. Eddie Waggoner, Bandy and Welch made

good gains in the drive, and Henry Graves got the final nine yards in two carries. Welch kicked the point, making the score 15-0, which also was the halftime score.

Early in the third quarter, the first-year Chiefs recovered a Morton fumble at the Indian 31. It took Friona just two plays to turn the break into a touchdown. Bandy passed to Waggoner on a 23-yard gain to the eight, and then passed to Welch for the touchdown. Welch's PAT kick made the count 22-0 with only 2:51 gone in the second half.

Before the quarter ended, Friona intercepted a Morton pass, and set up on the Indians' 29-yard line. With reserves

in the game, the team lost back to the 35, but on third and 17, the first team returned, and Bandy sprinted the 35 yards for a Friona touchdown. The kick was no good, for a 28-0 score.

Morton got its only score in the final quarter, while reserves again got some experience. Then, late in the game, Morton fumbled a punt at their own five and Bandy came in for a five-yard pass to Ruede Rule. After two penalties, Bandy passed to Waggoner for two points and the final margin of 36-8.

Bandy had 105 yards, Waggoner 61 and Welch 28. Friona led in total yards, 256-183. The visitors led in first downs, 12-9. Friona had 45 yards passing, to none for Morton.

8th Graders Come Close, But Lose 7-6

The Friona Eighth grade Braves missed a win by an eyelash at Morton last Tuesday, when Morton's seventh graders scored a 7-6 win on a successful extra point kick.

Friona scored first, and had a 6-0 halftime lead. But it didn't stand up.

The first time the Braves had the ball, they marched 60 yards in a sustained drive for a touchdown.

Davy Carthel, David Barnett and Richard Bermea were the ground-pioneers for the Braves during the drive. On a fourth down play from the Morton one, Kent Miller carried on a quarterback sneak for the touchdown.

Carthel carried on the try for two extra points, and appeared to be across the goal-line, but the officials said he was not.

The Braves' score was the only time either team threatened during the first half.

Early in the third quarter, the first time they had the ball, the Morton team got a touchdown on a 41-yard run. The Morton team lined up and kicked the point after, which was to prove the difference in the game.

In the final quarter, Friona had a drive that started on their own 12 yard line and carried to the Morton 29. However, with time running short, two Friona passes fell incomplete and Morton took over.

Although leading in first downs, 9-4, and also in yardage, the Braves just couldn't seem to get a break. The game was termed the team's best performance of the year.

The Braves closed out their season this week with a game against Muleshoe.

At Home In Parmer County

Jana Pronger

Make your own coat to keep you warm this winter. If you select just the right pattern and fabric, sewing a coat should not be difficult. Avoid collars, lapels, bound buttonholes and extra bulky fabrics—these are trouble makers.

Winter '71 looks feature capes, and hooded and wrapped coats. Capes are a great fashion item, yet are easy to make. Selection of a hooded style will eliminate collar and buttonhole construction. And even though the wrap coat has a collar and lapel, you can forget about buttonholes.

In addition to construction details, the fabric you choose can also create sewing problems. Select material with an interesting look, such as a tweed or tapestry.

A flannel or gabardine material can make an easy coat pattern hard to construct. These very plant fabrics will show

every stitching or pressing mistake.

Bonded fabrics also deserve consideration if you make a cape. However, avoid using them to mold and shape a coat.

Look for a closely-woven fabric. It's more stable and easier to handle than soft stretchy fabrics. Many fabrics sold for coats are thick and spongy, thus difficult to sew and press.

Even if you're not the most experienced seamstress, your coat-making can be a success if you select the proper pattern and fabric.

DON'T SHOP WHEN HUNGRY—A survey has officially revealed what homemakers have known unofficially for a long time. Shop just before lunch or dinner when you're hungry, and you will buy noticeable more groceries than had you waited until after lunch or dinner.

Goodwin Attends Meeting Of National Water Group

Ross Goodwin, of Muleshoe, recently returned from Dallas after attending the 40th annual convention of the National Water Resources Association. Goodwin is the Vice-President of the Board of Directors of the High Plains Underground Water Conservation District No. 1. Mrs. Goodwin, Cap, also attended the convention.

The National Water Resources Association was formally the National Reclamation Association and is primarily composed of representatives of 17 western states in the United States Bureau of Reclamation.

Goodwin reported that nearly 40 speakers expressed their impressions and thoughts about the growing concern for the "environment," in accordance with the theme of this year's convention, "The Thinking Man's Environment."

Goodwin noted that several speakers expressed ominous warnings that the public's charges against surface water lakes made by the new breed of environmentalists will lead to the cessation of construction of all large surface water impoundments, and to critical water shortages in the future.

Pointing out that surface water projects normally take sev-

eral decades to plan, finance and construct, even without the delays now being caused by the suits being filed by the naturalists groups seeking to halt such projects, Goodwin emphasized the need for the conservation of our present groundwater return systems.

He noted that the groundwater conservation programs now being pursued by the High Plains District are intended to prolong the economic life of the groundwater beneath the High Plains: and that the conservation of this water, "our only supply," is not only a moral obligation of this generation to those generations to inherit the economy we have built, but such conservation is imperative to our own economic well-being.

Goodwin said that the rate of depletion of our groundwater supplies, and the many tens of years that will be required to import surface water to this area, requires everyone's cooperation and effort to conserve our present water supplies.

Nickel can give the metals it is alloyed with seemingly contradictory characteristics. One nickel alloy can stand heat that would melt most metals, while another can endure sub zero cold.

Nickel is used in the most powerful magnets. In some combinations it is no more magnetic than wood. Some nickel alloys make thermostats work because they expand with heat and shrink with cold. However, other nickel alloys hardly change at all under fluctuating temperatures.

On The Farm In Parmer County

MACK HEALD
County Agent

PRUSSIC ACID A THREAT UNDER CERTAIN GRAZING CONDITIONS

Hybrid sorghum-sudan pastures, fast growing and excellent forage for livestock, can also be deadly during the fall grazing season.

The plant's own enzymes break down plant material and this results in prussic acid poisoning for animals which eat the forage. The actual agent causing death is hydrogen cyanide.

Prussic acid poisoning generally occurs at two times. It is especially prevalent after a frost that has damaged plants. Also, poisoning occurs when plants perk up and begin fast growth after a very droughty period.

Hay that is improperly cured can also present prussic acid poisoning problems for a short time.

Hydrogen cyanide is very volatile and therefore stays in the plants for only a short time. But while it is present, animals must be kept off the pasture for a few days.

In severe cases, cows exhibiting symptoms when the veterinarian is called may be dead before he can arrive. He will probably be able to save only those which are still breathing.

Farmers and ranchers should be on the lookout for nitrate poisoning that may occur during the late fall on winter pastures when there is a lot of cloudy weather.

Under these conditions, the plants, instead of growing and changing nitrates into protein, just accumulate the nitrates. Animals must also be taken off these pastures until the plants have had a chance to grow and convert the nitrates to protein.

The blood of animals that have died from nitrate poisoning will be chocolate brown while those dying from prussic acid poisoning will be cherry red.

Fall is here once again and home gardeners will want to

begin work on a compost pile. Compost is a good soil conditioner as it improves the soil's water holding capacity, supplies organic matter, helps to retain soil moisture and aids in keeping soil temperatures at desirable levels.

A compost bed may be constructed out of scrap or rough lumber or with net wire. The enclosure should be large enough to hold the raw material needed to supply next year's compost needs.

Tree leaves are beginning to fall and are cluttering up the lawn and flower beds and creating a disposal problem. You can improve environmental conditions by using them for compost.

This is a good procedure for building a compost pile. Place leaves, grass clippings and other healthy plant material from flower and vegetable gardens in the compost heap. As you put down a layer of material, sprinkle it with a complete fertilizer before adding another layer. The fertilizer will add plant food to the mixture and will also speed up decomposition.

Since moisture is needed for the decomposition process, the heap should be sprinkled with water to keep it moist when rainfall is not sufficient to do the job. By next spring you can have the needed material for mulching flower beds, vegetable gardens and home shrubbery.

YOU--A BAREFOOT HOSTESS ?

Take one housewife. Add a warm summer weekend. Blend with house guests for whom she must prepare meals. Baste with a hot kitchen which keeps her away from her visitors most of the time. And you've got the recipe for a harried housewife too busy to enjoy her guests.

To these ingredients has been added a new cookbook

which helps the hostess to cope with her cooking responsibilities while, at the same time, having plenty of fun.

"The fact is I love cooking special things for special people," observes Marcia Wallace, author of *Barefoot in the Kitchen* (St. Martin's Press). "But when special people are around, I also love enjoying their company. Therein lies the conflict: like lots of other ladies of the summer house, I

highly resent the former when it keeps me from the latter.

"It was that that drove me to the Great Cornwall Cooking Scheme, named for the farm house where it was born after too many masochistic summers. Frankly, it evolved with a single selfish purpose: to get me out of my kitchen and into the fun without sacrificing good food."

Travel writer for *Bride's Magazine* (she travels fifteen to twenty thousand miles a year), wife of a public relations executive,

mother of three active youngsters, Marcia is as busy a woman as you're likely to meet. Yet summer weekends find her relaxed and gracious, do-it-yourself hostess to a house full of friends.

In her book are planned-ahead menus for ten summer weekends, with special meals for Fourth of July and Labor Day, imaginative but easy-to-fix recipes, specifications for substantial hors d'oeuvres, plain and fancy picnic plans, hints on setting up a summer weekend kitchen, and comprehensive shopping checklists.

The basis of her plan is summed up in five precepts outlined in the introduction:

1. Cook nothing that needs last-minute fuss or split-second

timing.

2. Build a repertoire of casseroles, soups and other cook-ahead.

3. Make salads which can be prepared ahead of time.

4. Take advantage of everybody: The Campbell Soup Twins, Betty Crocker, Mr. Birdseye and friends who offer to bring things.

5. Scout out the local wonders: it may be a home bakery, or a Greek cheese shop, or a German pork and sausage store. Find the best summer produce stand, meet the butcher.

Marcia believes that the weekend hostess should confine herself to cooking two meals a day: Lunch and Dinner on Saturday and Brunch and Supper on Sunday. Here guests help themselves to Saturday breakfast and snacks when they want them, and she has time for an extra swim.

SHRIMP TIP

When a muffin makes a meal! Loaded with shrimp from a can and zingy with all sorts of other beautiful, summertime flavors, these are perfect for easy summer lunches or late suppers served just with a green salad, iced tea, or something long, tall, and fruity to drink. If necessary to reheat, place unwrapped on crinkled aluminum foil in a hot (400-degree) oven 10-12 minutes.

SHRIMP MUFFINS

- 1 can (4 1/2 ounces) shrimp
 - 1 egg yolk
 - 1/2 cup milk
 - 1 tablespoon grated fresh onion (include juice)
 - 1 tablespoon minced fresh parsley
 - 1/2 teaspoon Worcestershire sauce
 - 1 package (6 ounces) or 1 1/2 cups biscuit mix
 - 1/2 cup grated mild cheddar cheese
 - 1 tablespoon butter, melted
- Preheat oven to 400 degrees. Drain shrimp; chop coarsely. In a mixing bowl whisk together egg yolk and milk; add onion, parsley, and Worcestershire. Stir in biscuit mix, shrimp, cheese, and butter. Fill well-buttered muffin tins (of 1/2 cup capacity) about half full. Bake 12 minutes. Makes 12.

Fruit Soup is Dessert

Popular in European countries, fruit soups are gaining in importance here in America. This recipe for cranberry fruit soup is so quick and easy, you can have a European dessert delicacy with a minimum of effort.

Quick Fruit Soup

- 1/2 cup sugar
 - 1/4 cup corn starch
 - 4 cups cranberry juice
 - 1 (2-inch) cinnamon stick
- Mix together sugar and corn starch in saucepan. Gradually stir in cranberry juice. Add cinnamon stick. Bring to full boil over medium heat, stirring constantly. Cover and simmer 5 minutes. Remove from heat. Discard cinnamon. Serve either warm or cold, topped with a dollop of dairy sour cream. Makes 8 (1/2-cup) servings.

LAZBUDDIE'S SIXTH

Long-Distance Runs Pace Longhorn Win

Arthur Graves, one of the top scorers for Class B football players in the area, scored a pair of long-distance touchdowns last Friday, to pace the Lazbuddie Longhorns past Matador, 13-7.

The win brought the team's marks to 6-2 for the season and 3-1 in district.

On the last play of the first quarter, Graves broke on a 65-yard scoring sprint. He found himself in the clear at about the 35, and coasted in. Mark Barnes' kick made the score 7-0.

Then in the second quarter, Graves got loose for an 85-yard TD scamper, giving the Longhorn star 150 yards on two touchdown runs. The score became 13-0, Lazbuddie.

Matador bounced back, with a long-distance score of their own. A pass play worked for 85 yards and a touchdown from

quarterback Bill Barnhill to Dwayne Campbell. Barnhill's kick made the score 13-7, and this turned out to be all of the scoring.

Matador is the team that knocked Lazbuddie out of the district title a year ago and took it for themselves. However, this year, the Anton Bulldogs are in the driver's seat, having defeated both teams.

On Friday, the 'Horns meet Amberst.

Bond Sales Are Noted

According to a report received from County Bond Chairman Frank A. Spring, sales of Series E and H United States Savings Bonds in Parmer County during September totaled \$11,004. Nine-month sales were \$61,444 for 61 per cent of the 1971 goal of \$100,000.

Sales in Texas during the month were \$15,465,128 compared to \$15,033,393 during September 1970. The January-September sales totaled \$152,382,599 or 12.54 per cent of the 1971 goal of \$1,219 million achieved.

Nationwide, purchases of Series E and H Savings Bonds totaled \$415 million—18 per cent above 1970 sales. The January-September sales were the best since 1952 totaling \$4,174 million—19.2 per cent above a year earlier. Exchanges of Series E for Series H Bonds amounting to \$197 million were reported for the first nine months of 1971—8 per cent above those exchanged in 1970.

Four more of our native Texans have moved off up into the Panhandle of Oklahoma. Don and Adelle Clements and two sons, who have lived in Hereford for several years, are residents of Boise City, Oklahoma.

Don and Adelle, who is the daughter of Hoyt and Kathryn Smith, are 1960 graduates of Friona High School and have lived in the Friona area all their lives, except the time they were college students. Don is employed by a cattle feeding operation at Boise City.

Since Dalhart and Boise City are pretty close together, maybe Roy and Martha can visit all the grandchildren the same weekend.

Local residents who have recently moved are Ralph and Beulah McBroom and Jack and Charlie Clark. The McBrooms have been living north of Highway 214 west of town for several years. Early in the fall they moved into a new home they purchased on North Etta.

Then last week Jack and Charlie moved into the house the McBrooms moved out of.

I'm thinking that probably Etta Street is one of the least known streets in town.

Since it begins at Fifth Street and goes north, it wasn't a very long street until it was extended across the highway north. Think Mrs. Hattie Snead, Mrs. Carrie Shirley, O.T. Patterson and Clarence Monroe were the only Friona residents with Etta Street addresses before the last extension was made to Lakeside Addition.

If you want to direct someone to Etta Street, just tell them it is on the west side of Friona High School.

Some people who live on the north end of the street are the Robert Boyds, the Edgar Turners, Mr. and Mrs. Alvin Gaines, Albert and Jan Chesher, the Ralph McBrooms, Herbert and Carl Evans and Lynn and Bernie Gowens.

There are some new houses under construction on each side of the street, so maybe as time goes on and more people live out there the street name will become more familiar to the general public.

Our readers who remember Marvin and Dorothy Massey will be pleased to learn that their daughter, Rhonda, who is a senior in high school, was recently crowned Homecoming Queen of her school in South Dakota.

The Masseys and Dorothy's parents, Mr. and Mrs. Miles Robbins, moved from Friona to Hunt, South Dakota, which is near Pierre, about eighteen years ago.

Ted, who is Marvin's and Dorothy's oldest son, graduated from high school in 1970 and is a sophomore student at York Christian College, York, Nebraska.

They also have two younger sons, Matt and Barry. Marvin's father, Odis Massey, and several other members of his family still live here.

Mrs. Beesie Rolan of Durant, Oklahoma, visited briefly in Friona Monday morning. She was on her way to Stratford to visit her son, Ardith, and his family. Mrs. Rolan came by the Star office and renewed her subscription.

She said, "What I read in the Star is all I learn about so many of my friends and former neighbors that I don't want to miss getting it."

Linda Marie Coil Weds Melvin H. Hassenpflug

In a double ring ceremony at Assumption Catholic Church, Spokane, Washington on Saturday, the twenty-fifth of September, at twelve o'clock noon, Linda Marie Coil exchanged wedding vows with Melvin Hassenpflug.

Parents of the couple are Mr. and Mrs. Gene E. Coil, West 3426 Elmhurst Avenue, Spokane, and Mr. and Mrs. M.H. Hassenpflug, 905 West Fifth Street, Friona.

The bride, who was escorted to the altar and presented in marriage by her father, wore a white formal wedding gown of bridal crepe and lace. The empire waistline was re-embroidered with seed pearls. It was designed with a v-shaped neckline. The long bell shaped sleeves were of lace.

She wore a pearl choker. Her waist length veil of imported silk illusion was held in place with a pearl and rhinestone crown.

Mr. and Mrs. Hassenpflug are at home at N 6029 Mayfair, Spokane, Washington.

He is a former resident of Friona, a graduate of Concord High School, Concord, California, and is employed by Beneficial Finance in Spokane.

The next meeting will be Sunday afternoon at 3 p.m. December 5 in the home of Mrs. Jackie Smith, south of Ithab.

Study Group Meets With Bouldins

The members of the Laws of Life Study Club met Saturday evening in the home of Mr. and Mrs. J.V. Bouldin.

The meeting was called to order by Mrs. Earl Jameson, president. The prayer was led by Mrs. J.V. Bouldin, chaplain.

Dale Houlette moderated a study of aspiration. Following the study the members participated in a "slump." The word slump means "souls live upon many planes."

Out-of-town guests were Mr. and Mrs. Brian Jameson of Fort Worth.

MR. AND MRS. MELVIN HASSENPLUG

Take Time To Learn Is Theme Of Meeting

"When it is dark enough, men see the stars," Ralph Waldo Emerson, was the quotation upon which the Tuesday evening program of Modern Study Club was based. Theme of the meeting in Federated Club House was "Take Time To Learn."

Mrs. H.K. Kendrick presented a devotional "The heavens declare the glory of God."

The club sextet, Jane Williams, Fay Reeve, Beth Thomson, Decimae Beene, Lois Miller and Deke Kendrick, presented "Raindrops Are Falling," "Put Your Hand In The Hand," "Love and Grow," and the club collect. They were accompanied by Eva Miller, pianist.

Benefits of the space program in industry were outlined by Mrs. Dalton Caffey and Mrs. Paul Spring discussed the benefits in medicine.

Mrs. Glenn E. Reeve Sr. and Mrs. Otho Whitefield were hostesses.

Twenty-three members were present.

Molly Lappin Born In Tulia

Molly Marie is the name Mr. and Mrs. Jessie Lappin chose for the baby girl who was born to them at 8:55 a.m. Monday, October 25 at Swisher County Memorial Hospital, Tulia.

She weighed 8 lbs. 14-1/2 ozs., and has two brothers, Jay, 3-1/2 and Buddy Keith, 2.

Mr. and Mrs. Buddy Fallwell, Friona, are the maternal grandparents. The paternal grandmother is Mrs. Maggie Lappin of Bonham, Texas.

Mrs. Pat Fallwell, also of Friona is the maternal grandmother.

Mrs. Lappin and Molly have been dismissed from the hospital and are at home.

Gee's Mother Visits Here

Mrs. J.S. Jackson of Carbon, Texas, is visiting in the home of her son and daughter-in-law, Mr. and Mrs. J.T. Gee, 906 Summitt Avenue.

Other weekend guests in the Gee home were Mr. and Mrs. Owen Houston and children, Robin and Jay, of Lubbock.

JANICE CLARK

Janice Clark

Wins Election

Janice Clark, a junior secondary education major at Lubbock Christian College, was recently elected to serve as secretary of the junior class during elections held on the campus in Lubbock.

Miss Clark, who is the daughter of Mr. and Mrs. Jack S. Clark, Route 2, Friona, and a 1969 graduate of Friona High School, will be assisting the other class officers plan and lead the junior class of '72.

She is a member of ESA, Secondary Education Association, and Kappa Phi Kappa, a women's social club.

Lubbock Christian is a small private, senior college offering BA and BS degrees in sixteen majors.

Baby Girl Born To Duane Reeds

Mr. and Mrs. Duane Reed became parents of a baby girl at 9:16 p.m. Wednesday, October 27, at Parmer County Community Hospital. She was named Stephanie Lynn and weighed 6 lbs, 12 ozs.

Stephanie is the first child for the couple. Her grandpa-

Authorities Discuss Pockets Of Problems

Rev. Charles Broadhurst, pastor of First Baptist Church; Dr. Paul Springs, local medical doctor; Baker Duggins, counselor of Friona High School; and Doyle Elliott, local attorney, conducted a panel discussion "Inside the World of Today's Youth" at the Thursday evening meeting of New Horizons Junior Study Club at Federated Club House.

This year's theme of study, "Pockets Full of Purpose," and the Thursday evening theme was "Pockets Full of Problems." Roll call was answered with a

worthwhile project of Friona's youth.

Mrs. Jimmy Bynum presented "If A Task Is Once Begun." Mrs. Norman Kerr was a guest.

Refreshments of hot Dr. Pepper, coffee and pumpkin pie were served by the hostesses, Mrs. Dale Houlette and Mrs. Teddy Fangman.

Others present were Mrs. Jerry Winkle, Mrs. Jimmy Maynard, Mrs. Edwin Morrison, Mrs. Valton Howard and Mrs. Kenneth Ferguson.

Mrs. Bob Riethmayer Elected Vice President

During the business session of the annual meeting of the Caprock Girl Scout Council, which was held at 7:00 Monday, November 8 at the University Center at Texas Tech University, Lubbock, Mrs. Bob Riethmayer was elected second vice-president. Mrs. W.C. Griggs, president, conducted the meeting.

Those from Friona who attended the meeting included Mrs. Riethmayer, who served on the nominating committee; Mrs. Billy Dean Baxter, Mrs.

Kenneth McLellan and Kay Cochran.

Special music was provided by a seventy-five voice choir under the direction of Mrs. Alden Deyo. Dr. David Vigness, professor and chairman of the department of history at Texas Tech, spoke on "Americans All."

About 150 persons attended.

GIRL SCOUT REPORTS

Mrs. Marvin Jordan is a new leader of Girl Scout Troop 266, which met at Girl Scout House Monday afternoon. Other leaders are Mrs. Kenneth McLellan, Mrs. Tom Mason and Mrs. J.L. Britting.

The flag ceremony was presented by Jamie Fulks, Sonya Gore and Kathy McKenzie.

Refreshments were served by Deana Mason, Sonya Gore, Terra Simpson and Sandra Ramos.

CHILDREN'S NATIONAL LIBRARY WEEK begins Sunday, November 14. The sixth grade art class of Bobby Wied participated in a poster contest early this week. The top three students are pictured here with their posters. A book has been placed in Friona Public Library as a tribute to each of the winners. They are Mindy Moseley, kneeling, whose poster won first; Treva Bridgeman, who won second place and Johnny Stokes, third place winner.

"YES. THERE IS A CATCH TO OUR RETIREMENT PLAN. FIRST YOU HAVE TO GET HIRED."

Chapter Officers Installed

The regular meeting of the Iota Eta Chapter of Delta Kappa Gamma Society was held in the Homemaking Department of Friona High School Saturday, November 6, 1971 at 9:30 a.m. Hostesses for the coffee were Lois Miller, Wana Brewer, Leota Hardgrove, Margaret Duggins and Iona Cook.

Mrs. Eloise McDougal, Hereford was the installing officer for the formal installation service at which time Mrs. Janie Potts became an active member.

The program "Play It Safe or Take a Risk" was given by Leola Williams, Onel Perry,

Icee Leer, Dorothy Donaldson and Leota Hardgrove.

Other members from Friona attending were Faye Reeve, Martha Bates, Carmaleet Truitt, Jeannie Moseley, Ethel Bengger, Billie Dodd and Valoris Osborn.

Halloween Party Highlights Meet

Highlight of the Tuesday evening meeting of the Sigma Upsilon chapter of Epsilon Sigma Alpha sorority was a Halloween party. Each member came in costume.

Mrs. Paul Galyon, who wore a witch's costume, was chosen Halloween Queen.

Game prizes were won by Mrs. Ernie Porter and Mrs. Naomi Pennington, who was a guest. Joyce Parker was also a guest.

Refreshments of Halloween cake and hot spiced tea were served by the hostesses, Mrs. Charles Faulkner and Mrs. Ron Hawkins.

Reeds Visit In Oklahoma

Mr. and Mrs. Leo Reed spent several days last week visiting in the home of Mrs. Reed's parents, Mr. and Mrs. C.F. Ingraham, who live in Mooreland, Oklahoma.

Also visiting in the Ingraham home was Mrs. Dorothy Bull of Texarkana, Arkansas. Mrs. Bull and Mrs. Reed are sisters.

Leo Reeds Have Guests

Sunday dinner guests in the home of Mr. and Mrs. Leo Reed and Harold were Mr. and Mrs. Ronnie Reed, Amarillo; Mr. and Mrs. Gerald Reed, Summerfield; and Mr. and Mrs. Duane Reed and daughter, Stephanie Lynn.

Others present were Mrs. Richard Adkins, Mrs. Charles Hough, Mrs. Dwan Menefer, Mrs. Melvin Lloyd, Mrs. Dale Cary and Mrs. Cleatus Rhodes.

Also Mrs. Charles Bass, Mrs. Paul Galyon, Mrs. Leon Massie, Mrs. Ray DeFord, Mrs. Lee Britting, Mrs. M.C. Osborn, Mrs. Jerrell Wright, Mrs. Dale Smith and Mrs. Mickey Griffin.

Sincerely Yours

By Rev. Albert Lindley

Are you getting your "ducks lined up?" Remember our Chamber of Commerce speaker last year, Dr. Harry Vandernool, of Amarillo, when his main theme had to do with "getting your ducks lined up" which was an approach to getting things in order for some pending experience or "happening?" I would imagine that most of us have found ourselves somewhat lagging in our orderliness of arrangements and getting things done, at one time or several, but it still becomes our concern to try to keep our "ducks lined up."

Here we are fastly approaching Christmas and we still haven't "swept Thanksgiving out of the way"...

Do you think of it all in that spirit? We have these things that have to be done yearly (I really think 'have to' is the feeling we have about it all) and we know that to work our way through the whole year and back to the beginning (can we ever get back to the beginning?) we have so much to do... We birthday it, thanks-give it, Christmas it, Easter it, July 4th it, and on and on until we are back to our birthday or somewhere... whew...

We can get so cluttered up with what we think are "have to's" that we just begin methodically to sweep them aside as they come along and even feel a sense of relief when one thing is behind us and we can start worrying about the next...

Maybe it has little meaning for us because we don't really try to find its real meaning or because we don't put meaning into it all...

I have always maintained that one simply cannot get up on Easter morning and fully experience the total meaning of Easter with little or no preparation--nor Christmas--nor Thanksgiving... We even start preparing for our next birthday immediately by living the next minute... see how it all goes?

Well, with Thanksgiving so very near, let us not overshadow it with all of our concerns for Christmas--which is also important.

I really don't think Thanksgiving is a "one day" affair. It is a feeling or an attitude that should be lived year round, but I

sure don't want to lose the one day we do have.

I suppose I am trying to say that I think it is important for us to start building up our memory of what we have: for which to be thankful. Something I think we should be doing all year long...

Now don't get me wrong. I like our present "American Plan" of Thanksgiving, T.V. Football and Turkey (or with government initials like they have, this could be called T.T.V.F. & T.).

Don't kid me. I'm just lining "up my ducks."

But this isn't all of the spirit of Thanksgiving.

I could spend some time talking about "thanks-living" also, or even "thanks-being"--just simply and gratefully thankful...

I'll probably be saying more about all of this later on as we near the date but I did want us to at least start thinking about it... if we haven't already... You know, "getting our ducks lined up."

Now let me see if I can line some ducks up and bring some order out of this message for now.

I guess what I'm really fighting for is that we not just by-pass Thanksgiving because we are so busily getting ready for Christmas. That kind of "readiness" is the type that so clutters up the holiday that we overlook its being a "holy-day."

I suppose what has set me off are all of the Christmas catalogues and store decorations and already the "fever" is beginning to mount, heading toward the usual Christmas "foreasure."

Well, calm down some and let me move into the spirit of "thanks-giving" before we sweep on by to the hectic days of Christmas.

To remember their purpose and significance would seem to me to keep them approachable with the proper attitude.

Why not begin now, to line up our ducks and we'll get them to moving by singing a rousing verse the Daxology...

"Praise God from whom all blessings flow..."

BATH GLAMOUR—Plain Jane bath decor has given way to imaginative new treatments like this one with a lively geometric theme. Colors in the wall design are given bold repetition in bright-hued cotton terry towels from Fieldcrest. The geometric motif reappears on the coordinated bathmat, and a solid-colored bath towel makes a matching cover for the vanity bench.

FUN WITH FIGURES

Seasonal changes are very slow on the planet Neptune, 30 times more distant than earth from the sun. Spring, for instance, lasts about 41 of our years!

Lake Titicaca is the world's highest navigable lake, at an altitude of 12,644 ft. — over 2 miles up! It is also South America's biggest fresh water lake—3,200 square miles. Lake Titicaca is dotted with oil wells, which have caused quite a pollution problem.

According to a survey of wholesale business partnerships during a recent business year by Dun & Bradstreet, the business information agency, profits made by unprocessed food wholesalers were only 1.73% of sales while wholesale profits from finished grocery goods were better than twice as high—3.94% of sales. All other wholesale partnerships averaged profits of 6.86% of sales!

An atom of the rare gas xenon, used in light bulbs, is over twice as heavy as an atom of iron. Xenon remains a gas because its atoms are so independent. Unlike iron's, they refuse to stick together!

WHAT IS A FARMER?

Well, It Depends Entirely On Where You Stand. . . .

TO HIS WIFE

he's a big eater, a heavy sleeper, and a worry

TO HIS CHILDREN

he's a man who always has a chore for them to do

TO A POLITICIAN

he's someone you talk about during election

TO AN INSURANCE MAN

he's a big risk

TO A MECHANIC

he's a mechanical wizard who fixes things himself

TO THE GROCCER

he's a God-Send

TO HIMSELF

Well, only he can tell you that, but chances are he won't.

AND TO US

he is by far the most important man in this area. We depend upon him and we try our best to fill his need in farm and automotive supplies no matter what the season. He is always our
