## COLLEGE WAVE RAGES IN THE PANHANDLE COMING THIS WAY

### START INVESTIGATION OF RECENT DEATH OF YOUTH OF BEAUMONT

MEMBER OF BOARD OF CONTROL LEAVES AUSTIN FOR GATESVILLE.

### ATTORNEY IS NAMED TO REPRESENT THE GOVERNOR

Instructed to Leave Nothing Undone in Search for Truth About Death of Youth.

By Associated Press.

GATESVILLE, TEXAS, Sept. 29.—A. R. Johnson, member of the board of control and representing the board's full membership, was expected to come here from Austin today to institute a thorough inquiry into the death at the state juvenile training school of Dell Thames, 15-year-old Beaumont boy. The lad died Sunday after he had been punished for refusing to drill with the military class.

Physicians said death was due to strangulation and that there were a number of bruises on the boy.

H. G. Twyman, military instructor at the school, is held in the county jail on a charge of manslaughter on complaint of C. E. King, superintendent of the institution. Twyman has not made a statement.

County authorities also have started an investigation and S. B. Cowell, chairman of the board of control, has promised full co-operation of the board.

### ATTORNEY IS NAMED TO REPRESENT THE GOVERNOR

AUSTIN, Sept. 29.—Appointment of Judge H. E. Bell of Gatesville as attorney in the investigation of the death of Dell Thames, 15-year-old inmate of the juvenile training school, was the first business Governor Naff transacted this morning following his return from El Paso last night. The governor said that he might go to Gatesville himself and personally investigate the "tragedy" at the school.

Mr. Johnson, member of the board of control, left for Gatesville this morning to investigate the incident. He carried an official letter from Governor Naff to Judge Bell appointing him (Bell) as attorney for the governor and state.

"I sincerely trust you will leave nothing undone in searching for the truth in all matters incident to this case," the governor told Judge Bell.

Young Thames' death, it is charged, occurred last Sunday after he had been punished for refusing to drill with the military class.

T. M. Thomas of Beaumont, father of the boy, conferred with Governor Naff this morning and then left with Mr. Johnson for Gatesville. In the conference he made charges to the governor of cruelty to the boys of the institution, the governor said.

The governor emphasized to Judge Bell his desire that he make a thorough investigation of the matter.

### Motorman Makes Four Unsuccessful Suicide Attempts

OAKLAND, CAL., Sept. 29.—Horace A. McLain, street car motorman, who declared that last night he made four attempts, all within fifteen minutes, to end his life. Each time he was frustrated by women living at the boarding house where he stopped.

First, it is alleged McLain attempted suicide by inhaling gas, next by drinking poison, next he attempted to slash his throat with a razor and finally attempted to shoot himself with a revolver.

### PROPOSES NEW NAME FOR METHODIST CHURCH

KENNETT, MO., Sept. 29.—The proposal that the Methodist Episcopal church, South, be changed to "Methodist Episcopal Church in America" was presented to Bishop B. W. Murray in the opening session of the St. Louis conference of the church here yesterday. The suggestion will be acted upon during the convention this week.

### CARL WANDERER IS TO HANG ON FRIDAY

Governor Small Declines to Grant Eleventh Hour Appeal For Clemency.

SPRINGFIELD, ILL., Sept. 29.—Carl Wanderer will hang tomorrow. Governor Small today accepted the recommendation of the pardon board, which was a refusal of clemency. The governor said: "I am of the opinion that this is a case in which the governor is not justified in interfering with the verdicts of the courts, and I therefore accept the recommendations of the division of pardons and paroles."

### LOS ANGELES FEELS EARTHQUAKE SHOCK

SLIGHT EARTHQUAKE SHOCK WAS FELT IN LOS ANGELES, Sept. 29.—A slight earthquake shock was felt in Los Angeles early this morning. The tremor lasted but a few seconds and no damage was reported.

### JAPANESE BANKER KILLED AND ASSASSIN SUICIDES

TOKYO, Sept. 29.—Zenjiro Yasuda, for nearly sixty years an influential banker at Tokyo, was shot to death at his home here yesterday. His assassin, a lawyer, committed suicide with a sword with which he killed the aged banker.

### NEW YORK, Sept. 29.—Continued heavy trade in Liberty and Victory bonds was the feature on the stock exchange today. One block of Victory loan 4 1/2 per cent bonds with a par value of \$5,000,000 sold at 99.48, slightly below yesterday's close. This is the largest single transaction ever reported on the stock exchange in Liberty or Victory bonds.

### TRADE IN LIBERTY AND VICTORY BONDS FEATURES MARKET

VICTORY 4 1/2 CONTINUED ACTIVE TO CLOSE. Two lots of \$50,000 and \$15,000 sold at 99.48, a new high record for the current movement.

## District Attorney Brady Now Plans Early Trial of Arbuckle On Charge of Manslaughter

### REWARD OF \$30,000 FOR SIX BANDITS IN OKLA. MAIL ROBBERY

NO ESTIMATE OF AMOUNT SECURED AVAILABLE PENDING A CHECK.

### REGISTERED MAIL WAS CONTAINED IN POUCHES

Express Opinion Railroad Employees Had Something to Do With Holdup.

By Associated Press.

OKLAHOMA CITY, Sept. 29.—A telegram was received today by postoffice officials here from Postmaster General Hays authorizing the offering of a reward of \$30,000 for the capture of the bandits who held up train No. 5 of the Atchison, Topeka and Santa Fe railroad near here last night and robbed a mail car. The reward is in the form of \$5,000 for each of the six men who participated in the robbery.

Later the total reward offered for the robbers was brought to \$30,000 when officials of the railroad posted an offer of \$1,000 for each of the six men and Gov. J. B. Robertson announced a reward of \$500 for each.

### OKLAHOMA CITY, Sept. 29.—A large posse comprised of sheriffs and police from this city and Oklahoma county early today were scouring the country around Edmond, Okla., where six masked and heavily armed bandits shortly after midnight last night boarded Santa Fe train No. 5, southbound from Kansas City, and forced the mail car clerks to throw off four pouches. The bandits disappeared in the dark with the bags, one of which officials believed to be registered mail.

According to the authorities, no trace was left by the robbers.

J. E. McMahon, division superintendent of the Santa Fe, arrived early this morning from Muskogee, Okla., to investigate the robbery.

Belief that the robber gang was composed of at least in part of men who are or have been in the employ of a railroad was expressed today by Santa Fe officials when the details of the robbery revealed that the engine and mail car were taken from the rear of the train, were driven a quarter of a mile down the track by one of the robbers. An accomplice who boarded the engine with his gun, summoned the engineer and fireman with a rifle while he took the throttle. Henry Gibson of Purcell, Okla., the engineer, said he handled the throttle initially.

Fred Jones was in charge of the mail car. Clinton Swing and Fred Large were his assistants. All are from Newton, Kan.

The men who cut off the mail car boarded the train at Edmond, 12 miles north of here. As the train approached a camp fire in the right of way one of the robbers fired at the mail car from the rear part of the train and the other two entered the engine cab. The train was stopped and three men ran up the engine and boarded the mail car, which was then drawn away from the train and looted. The robbers left in a rumble which was awaiting them.

### REGISTERED MAIL CARRIED ON CAR THAT WAS ROBBED

KANSAS CITY, Sept. 29.—Postal authorities here said there was registered mail on Santa Fe train No. 5, which was robbed of four pouches at Edmond, Okla., last night. The train runs through to Galveston, Tex., and is expected to arrive in Kansas City today.

The southern section waiting there for a fast train from Kansas City hearing carriers much of which is registered, the officials said. It could not be ascertained what, if any, registered matter was obtained by the bandits until a check is made of the contents, according to the postal officials.

### ENTIRE FORTY TALESMAEN DISCHARGED BY COURT

TWIN FALLS, IDAHO, Sept. 29.—The entire forty talesmen summoned under special venire order in the case of Mrs. Lydia Southard, on trial here for first degree murder of her fourth husband, were today discharged by Judge Jacobson on the ground that they had been summoned by Sheriff E. R. Sherman, signer of the complaint in the case, and that acceptance of the talesmen so summoned would be prejudicial to the interests of the defendant. The court recessed for 20 minutes while selection of an official to summon additional talesmen was discussed.

### CHICAGO, Sept. 29.—Although officials of the Brotherhood of Railway Trainmen have announced that they will not call a strike of trainmen unless they are supported by other brotherhoods, the union today instructed fifteen general chairmen to return to their headquarters tonight, call their grievance committees and report back next week with their approval or disapproval of the strike vote.

However, if the result is in favor of a strike, the men will be permitted to walk out only on the condition that they are adequately supported, President Lee said.

### LITTLE DOUBT REGARDING SENTIMENT OF TRAINMEN

CHICAGO, Sept. 29.—While counting of the strike ballots of 186,000 members of the Brotherhood of Railway Trainmen will not be completed until late today, there seemed to be doubt in the minds of union officials today as to how the men stood.

Unofficial reports were that 90 per cent of those voting were opposed to acceptance of the wage cut of July 1 authorized by the United States railroad labor board.

Notwithstanding this attitude on the part of the men, it was pointed out today that the vote is not final. The general committee will decide on a strike and they are not bound to abide by the vote of the members, reports back next week with their action will be taken until it has been determined how the other railroad brotherhoods vote.

The vote of the four other unions will be counted here next week.

### DEMOCRATS DEMAND DUE CONSIDERATION DISCUSSING TREATY

HAVE POWER TO STOP RATIFICATION SAYS SENATOR UNDERWOOD.

### OPPONENTS DECLARE A HARD FIGHT IS PLANNED

Those Favoring Move Only Desire to "Wind Up the Ball of Yarn" And End the War.

By Associated Press.

WASHINGTON, Sept. 29.—The foreign affairs committee of the senate today gave its approval to the ratification of the peace treaty with the United States. The committee adopted a resolution recommending that the ratifying ratify the treaty.

WASHINGTON, Sept. 29.—Agreement for final vote by the senate for October 15 on ratification of the peace treaty with Germany was under negotiation today between republicans and democratic leaders.

WASHINGTON, Sept. 29.—Democratic senators, meeting in conference today, agreed to demand "reasonable consideration" before voting on ratification of the peace treaty with Germany.

Senator Underwood of Alabama, democratic leader, announcing the results of the conference, said this meant that the republicans proposed that night sessions be continued with a vote to see whenever a senator was prepared to speak.

"If our caucus have reasonable consideration, we have the power and are prepared to use it to stop the treaty," said Senator Underwood.

The effect of the minority conference held today and Tuesday, some democrats said, was to leave the minority about equally divided on ratification of the peace treaty.

Senator Underwood said that probably not a single democrat actually favored the treaty, but, as he expressed it, those for ratification desired to "wind up the ball of yarn" and end the political status of war by the only available means.

### FIVE MEN KILLED AND THREE INJURED IN BIG EXPLOSION

PARK, N. J., Sept. 29.—Five men were killed and three injured today when explosives being loaded on a motor truck blew up. The explosion was felt ten miles away.

The explosion occurred at the plant of the E. I. DuPont de Nemours company while employees of the George Harris Salvage company at Morris Plains, N. J., were loading dynamite that had been used in manufacturing gun cotton.

### ONE WORKMAN IS KILLED AND FOUR OTHERS INJURED

KANSAS CITY, Sept. 29.—One workman was killed and four others injured, three probably fatally, when 4,000 pounds of powder exploded late this morning at the plant of the Explosives Powder Manufacturing company near Dodson, a suburb. The blast was felt throughout greater Kansas City.

Officials of the plant were unable to explain the cause of the blast.

No estimate of the property damage was available but houses within a wide radius were shaken and many windows broken.

Arthur Barber, 49, foreman of the Corning mill was killed. Three others were badly injured but physicians said they could not recover.

### HUNDRED WAITERS AT MEXIA GO ON STRIKE

MEXIA, TEXAS, Sept. 29.—Approximately 100 waiters and waitresses went on strike here today when restaurant proprietors had refused to grant wage increase demands.

### JAPANESE NOT TO PERMIT SCRAPPING THEIR 21 DEMANDS

TOKYO, Sept. 29.—As a part of her fundamental policy at the Washington conference Japan will not permit the "scrapping" of the "Twenty-one demands" agreement with China and will not tolerate interference in the Shantung question, it was declared to the Associated Press yesterday by a Japanese in an authoritative position. He asserted Japan considered these matters as accomplished facts which concerned China and Japan directly.

In the general discussion of far eastern matters, however, Japan was said to be willing frankly to explain her position regarding these questions.

The government is preparing to issue special instructions to the Japanese delegates concerning the limitation of armaments, says the Nichi Nichi Shimbun. It is indicated that the project for the building of eight battleships and eight battle cruisers originated in the sea that this project is necessary for the national defense, but that Japan has come to recognize the project has lost its original significance. She is therefore prepared to carry out such a limitation, it is said, as would bring her navy to a level enough to maintain the peace of the east. This curtailment would be by agreement with the powers in a spirit of mutual concession and compromise.

### EXPECT LARGE ATTRACTION WHEN GRAIN MEN MEET

CHICAGO, Sept. 29.—Nearly 2,500 members of the Grain Dealers' National association were expected here for the twenty-fifth annual convention which opens here October 2.

### YANKEES SCORE A VICTORY AT PHILA; INDIANS DEFEATED

PHILADELPHIA, Sept. 29.—The New York Yankees defeated the Philadelphia Athletics here today by winning the American league lead here today by winning the Athletics 5 to 0, while Cleveland was losing to the Chicago White Sox 4 to 1.

PHILADELPHIA, Sept. 29.—With Babe Ruth, home run king, missing from the batting order due to slight illness, the New York Yankees, fighting to hold the American league lead, met the Philadelphia Athletics here today in the first of three games between the clubs. The batteries were Shawkey and Schang for New York, and Harris and Perkins for Philadelphia. Foster played left field in Ruth's place.

PHILADELPHIA, Sept. 29.—With Babe Ruth, home run king, missing from the batting order due to slight illness, the New York Yankees, fighting to hold the American league lead, met the Philadelphia Athletics here today in the first of three games between the clubs. The batteries were Shawkey and Schang for New York, and Harris and Perkins for Philadelphia. Foster played left field in Ruth's place.

### TWO GOVERNMENT OFFICIALS ARE HELD

Charge Attempt to Obtain Bribes Revealing Information and Theft of Records.

WASHINGTON, Sept. 29.—E. J. Rickmeier, assistant chief of the personal audit section of the internal revenue bureau income tax unit, and Garnett Underwood, former tax department employee, were taken into custody by agents of the bureau on charges of attempting to obtain bribes, revealing confidential information and theft of office records.

In a formal statement the revenue bureau said information in connection with the alleged operations had come from taxpayers in Oklahoma and Texas.

### IS CHARGED WITH PASSING ALLEGED SPURIOUS CHECKS

ST. LOUIS, Sept. 29.—D. E. Wolfe of Houston, Texas, was charged with passing spurious checks, which he is being held by the police here for authorities of Memphis, Tenn., where it is said he is wanted for passing alleged spurious checks. Police say Wolfe passed alleged spurious checks in Houston, Galveston and New Orleans.

### CIVILIANS IN CLASH WITH THE POLICE IN TIPPERARY, IRELAND

DUBLIN, Sept. 29.—A conflict between civilians and police in Tipperary last night resulted in the death of one civilian and the wounding of two other civilians and two policemen. It was announced in an official report from Dublin Castle today. Leading officers are holding an inquiry into the incident.

### ANOTHER ARREST IN ALLEGED THEFT CASE

FORT WORTH, Sept. 29.—Audrey Woolwine was charged in the United States commissioner's court today with receiving property stolen from an interstate shipment. He is the twenty-fourth man alleged by department of justice operatives and railroad detectives to have conspired in what the officers termed a \$100,000 interstate train theft plot here.

Illinois: Tonight unsettled, colder. Friday probably fair, colder except in the Panhandle.

Indiana: Tonight unsettled, colder. Friday probably fair, colder except in the Panhandle.</

**MUCH OF THE NEWS FROM RUSSIA UNTRUE**

Life Far Less Thrilling Than Might Be Imagined From Reading Reports.

By Associated Press.  
MOSCOW, Sept. 27.—Life in soviet Russia is far less thrilling than might be imagined from reading the French, English and German newspapers which recently arrived here. Foreigners living calmly in Moscow were decidedly surprised to read Berlin dispatches to the English papers that Moscow was recently in flames for two days and had been largely consumed. The people in Moscow knew nothing about it. So far as could be learned there was not even a good neighborhood fire, when the city was reported going up in smoke.

Every time there happens to be enough fuel in Petrograd to light sufficient streets to give the heavens a glow visible across the Finnish border somebody wires the news to Helsinki and Petrograd again "goes up in flames."

Copenhagen and Revel also are great centers for Russian news, of which nobody in Russia is aware. The foreign papers arrive several weeks later.

Other dispatches of the same nature have asserted that Moscow is threatened by famine sufferers who are moving upon the capital in hordes, over-crowding the red army, many members of which have joined the hungry throng. This is entirely untrue, in nearly a thousand miles of travel through the famine area proper the correspondent did not witness a single attack on trains or boats and there was no evidence of the inability of the red army and police to control the starving refugees. Slavs, especially hungry Slavs, are the easiest people in the world to control; they sit meekly and await death.

There are great differences of opinion among the foreigners concerning the methods of the soviet government in handling the famine, but all those who have first hand knowledge of the Volga agree that military control there is strong.

The various reports of the death of Trotsky and Lenin are, of course, without foundation and if these men put each other in prison as frequently as reported, their actual jail sentences must be short, for during the last six weeks they have traveled considerably in Russia. Many foreigners who are neither communists nor bolsheviks have seen them outside the jail and there is even no sign of prison pallor. Within a week the correspondent has heard Trotsky speak three times and from personal knowledge there is not the slightest doubt that the speaker was Trotsky.

**A TONIC FOR WOMEN**

San Antonio, Texas.—"After a serious illness, when my strength seemed as though it would not come back to me, I decided to try Dr. Pierce's Favorite Prescription as a tonic. I had seen it advertised and recommended so highly that I felt I could not go far astray. This medicine did all for me that could be desired. It restored me to perfect health and strength in a comparatively short time and I am just as strong and well as can be."—MRS. HETTIE McLANE, 308 Bowie St. All druggists.

**WHAT'S THE MATTER WITH US, ANYWAY?**

By J. OGDEN ARMOUR, President, Armour & Co.

The best way to restore national faith and confidence so essential to prosperity is to cease discussing and lamenting the business slump which was the natural aftermath of the war.

Business today is good or bad according to the standard you use in making the comparison. It is bad beside the war-stimulated business of 1918 and 1919, but it is exceedingly good when compared with business abroad and with the business following our own Civil war.

Of course, there is more or less unemployment and this is most unfortunate and a calamity for those who can find no jobs. But the nation as a whole is not unemployed, and the 90 per cent or thereabouts of workers who are employed are getting the best pay and working under the best conditions that have ever been known.

The faith and confidence of the buying public and of business and industrial men are reviving daily, and

though there may be flarebacks and seasonal slumps, the business of the nation is moving steadily ahead toward the point where it will have sufficient to do to warrant the employment of all those who seek employment.

There is no reason to expect that conditions will become ideal in a day or a year, but progress is being made and acceleration will come from preachment of better business, more confidence, more work, rather than from continued harping on the unanswerable question, "What's the matter with business?"

Next—Otto H. Kahn, of Kuhn, Loeb & Co.

In order to move a 65,000-pound water tank at Engle, N. M., it was jacked up and a track built under it.

A memorial lighthouse will be built at Pointe de Grave, near Bordeaux, France, to commemorate the intervention of the United States in the war.

In the province of Kweichow, China, is a race of dark skinned aborigines called the Black Miao, differing greatly in character from the Chinese.

# THE WOMAN'S PAGE

## Women Are Ready to Protest Against the "Tax on Music"

The local Musicians' club is ready, as are the women's clubs all over the United States, to enter a sturdy protest against the proposed tax on all musical instruments which will come before the Sixty-seventh congress.

The tax, if passed, would legally place music in the luxury class, by taxing all musical instruments offered for sale, and according to the leaders in the musical club world, would be a serious menace to the development of music in America.

The General Federation of Women's clubs, probably the most powerful and influential organization of women in the country, is working through its music chairman, Mrs. Marx Oberlander, to get news of the proposed tax and what it would mean before the women voters of the United States, and ready to send its protest to Senator Sheppard and Congressman Parrish when the proposed tax comes up for discussion.

### 1200 YOUNG WOMEN AT DENTON COLLEGE, WRITES LOCAL GIRL

There are 1,200 girls and young women registered at the College of Industrial Arts in Denton, Texas, according to a note from Miss Leoti Clark, daughter of Mr. and Mrs. Lee Clark of this city, who has entered the state women's college for sophomore work.

The dormitory problem at the college, which suffered the same appropriation cuts other state educational institutions did at the hands of the Thirty-seventh legislature, is evidently a real one. Members of the senior class, numbering several hundred, are being housed in "Senior Homes" taken over by the college through recent necessity, and the undergraduate students are being housed all over the city of Denton. "I have absolutely no hopes of ever getting into the dormitory, my application being number 1182," Miss Clark writes. However, she is comfortably housed near the college.

Miss Clark, who had charge of the Times Woman's page during part of the summer, has registered in the Literary Interpretation course at C. I. A., leading to the Junior and Senior Journalism course offered by the college.

### JOE J. BLOCKER AND MISS SYBILYNE WEDDING MARRIED

A pretty home wedding solemnized the nuptials Wednesday night of Joe J. Blocker and Miss Sybilyne Smith, daughter of Mr. and Mrs. Fred Smith. The ceremony was performed by Rev. Dr. Pittenger of the First M. E. church, Seventh and Lamar, at 8 o'clock. Only the family and a few close friends were present, and immediately after the ceremony the young people went to their home at 423 Lamar.

Miss Smith wore a midnight blue coat suit and carried a shower bouquet of white roses. Both of the young people have a wide circle of friends and acquaintances in the city to whom they are at home in their new place of residence.

### GIRL GUARDS MEET FRIDAY EVENING AT THE CITADEL

The Girl Guards, Salvation Army social organization for girls and young women between eleven and eighteen years, will meet at the citadel Friday evening. All girls in the city who wish to be given a cordial invitation to attend and join the Girl Guards, who meet weekly on the same date, Lieutenant Theilacker is guard leader, while members of the organization officiate the groups.

### E. D. C. MEMBERS INVITED TO MEET WITH SONS POINT AT 8

The Sons of Confederate Veterans are holding an important meeting Thursday evening at the First Christian church, in the basement. The meeting begins at 8, and the Sons have extended an urgent invitation to as many of the Daughters of Confederate Veterans as can to join them in the meeting, as matters of interest to both are to be considered.

### Personal Mention

W. F. Mardock of Statesville, North Carolina, is visiting his sister, Mrs. G. W. Eagle of 1208 Fourteenth street.

Mr. and Mrs. T. R. Boone and children, T. R. Jr. and Mary C. left today for Lubbock to spend a few days with friends.

Miss Louise Elliott of Breckenridge has returned home after a few days' visit with Mr. and Mrs. T. F. Courtney, 1414 Fourteenth street.

Luther Utman and son, Basil, of Florida, Texas, stopped over in Wichita Falls Tuesday night with friends. They have been visiting in Tennessee and North Carolina during the summer.

Mrs. A. Hayes, who has been spending the summer with her daughters, Mrs. J. D. Robertson and Mrs. Ruth Robertson King, left Thursday for her home in Nashville, Tenn. Mrs. King accompanied her for a week or 10 days' stay and will visit the wholesale millinery house on her return home.

Memorial craftsmanship is our hobby. Fourteen years in Wichita Falls. A. G. Deatherage, 406 Seventh street. Phone 5440. 124-17c

## She Regains Sight by Practical Psychology

By RUTH AGNES ABELING

ANNA MAUD HALLAM.

### HENRIETTA WOMEN CALLED TO MEET FRIDAY MORNING

Mrs. R. C. Thaxton, H. Finley Weidon, Weller and Marvin Smith leave Friday morning for Henrietta, Texas, where they will assist the local women in organizing an American legion auxiliary, or will annex the Henrietta eligible to the Pat Carrigan post auxiliary.

The meeting will be held at 10 o'clock in the rear room at the court house in Henrietta, and club women of the city were working Thursday afternoon in an effort to round up all of the available eligibles.

The Times was asked to extend an urgent invitation for every woman of the city whose brother, father or son was in service during the world war, or who saw service herself, to attend the meeting in the court house rear room Friday morning. Memberships which are telegraphed to the legion auxiliary headquarters at Indianapolis by 12 o'clock

Friday, will be credited on the Thirtieth district voting privilege.

Miss Five Auxiliaries. The Thirtieth district has five auxiliaries to the legion at present, a late news bulletin stated, three of which were organized by Wichita Falls women—the local auxiliary, that at Iowa Park, and the auxiliary at Burk Burnett.

### LADIES AID TO HOLD DOLLAR DAY SOCIAL FRIDAY AFTERNOON

The Ladies Aid of the First Methodist church, Seventh and Lamar, will hold their annual dollar day social Friday afternoon from 2:30 to 5 o'clock at the home of Mrs. G. W. Burnett, 1702 Burnett street.

A special feature of the social will be the musical program by "old and new" players. All women members and friends of the church are invited to attend and enjoy the social.

CLEVELAND, Sept. 29.—Train your subconscious mind. Make it work for you. Then nothing will be beyond the realm of your own possibilities.

This is the theory of Miss Anna Maud Hallam, practical psychologist.

Miss Hallam is vital, successful, enthusiastic proof of her own theories.

She was stone blind at one time, and due to the awakening of her own latent possibilities, she recovered her sight.

Health Breaks Down. "It was only a short time after leaving college that the train of experiences which broke my health began," says Miss Hallam. "My mother died. Miss Hallam is vital, successful, enthusiastic proof of her own theories.

"Then it was that I broke down completely and lost my sight. I became possessed of a great desire to leave my home in New York and go to Colorado. That was my subconscious mind coming to the rescue—because it was in Colorado that my sister one Sunday led me into a little church where I was given the thought which gave me courage.

"The minister in that little church said: 'Friends, I believe when we can understand the law of human life as well as Mr. Edison understands electricity, we can be well and happy and prosperous. When we can make the effort to get acquainted with human life and its automatic law, as Mr. Burbank has the law and life of plant, tree and flower, we then shall be able to make at least a corresponding change in the human for improvement.'

"That gave me my cue." After listening to all of the books on applied psychology which her sister could read to her, Miss Hallam asked to be seated before a mirror. There, believing the mirror an aid to concentration, she practically willed the return of her eyesight.

Commanded Vision. She repeated aloud during 15 minutes several times every day these words: "Cells of my eyes are readjusting for perfect eyes, for perfect eyesight."

Two weeks from the day she began the concentration, according to Miss Hallam, she was able to see perfectly. Then she began concentration for perfect health.

That, too, came as willed. Within six months she was perfectly well. All of this, says Miss Hallam, is the result of putting the subconscious mind at work.

Today she is lecturing on practical psychology, and it is her ambition to found a college of psychology in Cleveland.

COMES CLUB DANCE AT KEMP HOTEL FRIDAY EVENING AT 8

The Comes club dance at Kemp hotel Friday night will open that club's social season for the winter. Members are all invited to make their arrangements to attend.

Music for the dance, which is to be informal and for members only, will be furnished by the Phil Baxter orchestra, and an exceptionally pleasant occasion is expected.

## Jungle Snakes Hold No Fear for Artist

MISS ISABELLE COOPER.

NEW YORK, Sept. 29.—"Really, I'm more afraid of New York taxicabs than I am of jungle snakes," says Miss Isabelle Cooper, who holds a position unique in all the world. She is official field artist for the New York Zoological society in its tropical research work.

Miss Cooper has recently returned from the society's station in British Guiana, South America, where for 11 months she has lived in the jungle with the 12 other members of the expedition under William Beebe.

"I started out to be an ordinary painter," said Miss Cooper, "but that takes peculiar genius. I used to do designing for costumes and silks, but I now feel that I have found my life work."

Lived in Tents. "Our station is in the very densest jungle. We lived in tents, but our laboratory had a high wooden fence to protect us from storms.

"I met but three poisonous reptiles while walking in the bush or out shooting. Naturally, I handle snakes all the time in my work. One soon overcomes any feeling about them.

"The life is truly wonderful, it's so comfortable. We have no servant problems or house building. There are plenty of Indians or blacks to help us. And such splendid food—venison, wild hog, fowl and monkey! in the jungle.

"I consider my painting of quite as much value as any other artistic work. It is really miniature work of the finest kind, only I am painting reptiles and insects instead of people.

"How I wish all artists could see nature in the tropics through the microscope! What a wealth of design and color—what unbelievable decorative motifs and effects!

"Some day I would love to incorporate what I have learned from nature in color and design for other decorations, such as in clothing."

In her latest expedition Miss Cooper made 200 paintings which are being incorporated in the Zoological society's priceless reference volumes.

"You see," she explains, "reptiles and many insects lose not only in the eyes, but in the color and quality of skin when they are preserved in alcohol or mounted.

"To be accurately represented, they must be painted while living. I hold the snake's head in my hand while I paint—of course, it is their nature to wind themselves about you—and they coil around my arm."

## By Way of the Transom

THEY WOULD TAX MUSIC.

What other art beneath the Heaven Hath charms to soothe men's souls away As music's melting, mystic lay?

Yet they would put a tax on music! When, outside of more food, a few more clothes, a little longer vacation, and a heap bigger salary, the greatest need of individual humanity is more music.

Music hath charms to soothe the savage breast—or beast, we forget which. Anyway, it hath charms to soothe the savage. Of course, some eyebrow-mustached young congressman, arguing on the reverse, may call the attention of that august paternalistic body to the fact that the red-handed Mafia is the most popular secret order in Italy, where people loiter around the streets in gondolas and listen to heavenly music all night. But the truth runs deeper than that. Music has made the Italians idealists of the first scintillation. They want to kill out all of the underbriables and build up a perfect race.

Of course there are times when we all wish that somebody had slapped a tax on music—a large, juicy gouge of a tax. We have a feeling akin to the thought that it would have been better to the world if music—of a particular variety—had been put utterly beyond the reach of humanity.

But the truth runs deeper than that again. What we really wish, down in our tortured centers of sensation and reaction, is that somebody had put a tax on the individual purchaser. For instance, \$5.75 should be added to the purchase price of the record which Mrs. Linsky wishes to buy, if honestly in the other residents in her apartment house. And \$122.55 should be added to the price the dealer asks Mrs. Hopkins-Smythe for the player piano which is to be installed in her palatial brownstone, which adjoins places where people have to exist on both sides.

Something like that would answer the need of a tax on music, if there is such a need. For music is mankind's highest urge to progress—to cleanliness, to fitness, to gentleness, and to goodness. All looking aside, it honestly is. We need only hear little Mary Pickford, the idol of American opera goers, sing the Ave Maria to feel the wicked tears slowly going out of our dispositions. We improve just like that!

As for us, we believe this tax-on-music thing is a move on the part of the anti-Volsteadites to get it back on the nation.

Do you know what constitutes a strong constitution?

To have sound, healthy nerves, completely under control, digestive organs that are capable of absorbing a hearty meal, means you have a strong constitution! Your general attitude is one of optimism and energy.

But an irritable disposition, frequent attacks of indigestion, and a languid depression, indicate your system is not in correct working order.

Probably you are not eating the proper food. Probably the nutritious elements are not being supplied to your system in the proper way.

Grape-Nuts is the wholesome, delicious cereal that promotes normal digestion, absorption and elimination, whereby nourishment is accomplished without auto-intoxication. A mixture of energy-giving wheat and malted barley comprise the chief elements of Grape-Nuts. A dish at breakfast or lunch is an excellent, wholesome rule to follow.

You can order Grape-Nuts at any and every hotel, restaurant, and lunch room; on dining cars, on lake boats and steamers; in every good grocery, large and small, in every city, town or village in North America.

MAJORITY REPORT  
ELECTION CONTEST  
FAVORS NEWBERRY

CLEAR REPUBLICAN CANDIDATE  
OF CORRUPTION AND  
OTHER CHARGES.

REPORT OF MINORITY  
IS CONFLICTING VIEW

Charge Newberry Was Elected By  
"Corrupt and Illegal Methods  
and Practices."

WASHINGTON, Sept. 29.—Opinions conflicting along party lines were presented today by majority and minority members of the senate privileges and elections committee on the Post-Newberry 1918 senatorial election contest from Michigan.

The majority report cleared Senator Truman H. Newberry, the republican candidate, of corruption and all other charges, and recommended that he be legally seated. The democratic members on the contrary asserted that Senator Newberry was elected by "corrupt and illegal methods and practices" and recommended that his seat be declared vacant.

Majority Recommendations.  
Recommendations of the majority report, submitted by Senator Spencer, republican, who conducted the committee investigation and recent account, were:

1.—That the contest of Henry Ford against Truman H. Newberry be and is hereby dismissed.

2.—That Truman H. Newberry is hereby declared to be a duly elected senator from the state of Michigan for the term of six years commencing on the fourth day of March, 1922.

3.—That his qualification for a seat in the senate of the United States, to which he has been elected, has been conclusively established and the charges against him in this proceeding, both as to his election and qualifications, are not sustained.

Conclusions of Minority.  
Conclusions of the minority, presented by Senator Pomeroy, democrat, Ohio, and signed also by Senators King, Utah and Ashurst, Arizona, were:

1.—That the irregularities complained of do not relate to the general election, but to the primary. Henry Ford did not receive a plurality of the votes cast at the general election. We therefore find that the petitioner, Henry Ford, was not elected and is not entitled to a seat in the senate of the United States.

2.—We find that under the facts and circumstances of this case that corrupt and illegal methods and practices were employed at the primary election and that Truman H. Newberry violated the corrupt practices act and the primary act of the state of Michigan, and that by reason thereof he ought not to have or hold a seat in the senate of the United States, and that he is not the duly elected senator from the state of Michigan for the term of six years commencing on the fourth day of March, 1922, and we recommend therefore that his seat be declared vacant.

Separate Minority Report.  
A separate minority report also was submitted by Senator Ashurst, who declared Senator Newberry's credentials were "stained by fraud and tainted by illegal expenditures of money." The testimony showed, he said, that the 1918 Michigan campaign took "more of the character of an auction than an election."

Claims of Mr. Ford to the Michigan seat, were denied by both majority and minority members on the same grounds—that all charges against Senator Newberry related to the primary and not to the general election, and that it was established conclusively that in the general election Senator Newberry had received a majority of the votes. Mr. Ford's charges of bribery, illegal voting, undue influence and intimidation of voters in the general election were declared by the majority to be without foundation.

Money expenditures in the primary was the point at issue in the conflicting recommendations. This was placed by the majority at approximately \$158,000 and at least \$155,568 by the minority. There was virtually total disagreement on partisan lines as to Senator Newberry's responsibility for and management of the expenditures.

Claim No Evidence.  
There is no evidence whatever to sustain the charge of improper use of money at the primary or the general election," the majority declared.

"The evidence shows conclusively

that the financial cost of the campaign was voluntarily borne by relatives and friends of Truman H. Newberry and was entirely without solicitation on his part.

"The amount of money spent at the primary," the majority continued, "was large—too large—but there was no concealment with regard to it and it was spent entirely for legal and proper purposes."

"Your committee condemns the use of such a large sum of money in any primary campaign, but in the instant case there is not the slightest foundation upon which to connect Truman H. Newberry with its solicitation, acquisition or its use, nor to condemn him of the amount."

"Two facts which are decisive of the present case," the republican findings continued, "stand out clearly in the record as entirely established. First, that none of the money spent in the primary election, large as was the amount, was spent for corrupt, illegal or improper purposes. It was spent without the knowledge or consent of Truman H. Newberry for public and ordinary campaign purposes and expenditures which are perfectly familiar to every man who has been a candidate for office and which are generally regarded as both necessary and proper."

Record Is Praised.  
The majority emphasized that Mr. Newberry was serving the navy in New York and was absent all during the campaign. His record during the campaign, the republican report said, "merits commendation and approval."

"The democratic report declared that 'the exorbitant expenditures in this primary campaign shocked the conscience of the country,' and were enough to pay Senator Newberry's senate salary for 25 years."

In part the minority said the evidence showed conclusively:

"That his (Senator Newberry's) nomination was secured by his extravagant expenditure of money without which he could not have hoped to win over his competitors, because he was little known in the state."

"That this money was expended through the agency of the Newberry senatorial committee."

"This committee was organized at his instance and managed by executives whom he himself chose or if they were suggested by friends he approved them."

"While a large part of the planning of the campaign may have been done by executives of the committee, they were submitted to him for approval."

"Every general activity of this committee and its executive officers was reported to him almost daily."

"He did know and concurred in the enormous expenses of the plans of organization and publicity."

"The Michigan law limited the expenditure of any candidate for the senate to \$2,750. We submit this amount could not be increased by the organization of a committee to act as his agent and this committee did so act."

"Proper accounts of expenditures were not filed, either by the Newberry committee or the candidate, the minority asserted, and although the supreme court held the state law unconstitutional the democrats declared 'the moral turpitude' was as great as if the law had been upheld."

"In our opinion," the democrats stated, "the record conclusively established a conspiracy upon the part of Truman H. Newberry et al. . . . that such conspiracy had for its object the violation of the election laws of the state of Michigan as well as the federal statute limiting expenditures of the elector."

"It is contended and debauching of the electorate . . . that Truman H. Newberry participated in such conspiracy and actively engaged in its execution. . . . that he was familiar with the facts that large sums of money were being expended."

Wall paper at Decorators. 134-7tc

During the first six months of this year, 45,000 applications for patents were filed in the United States patent office.

DISTRICT ATTORNEY  
PLANS EARLY TRIAL

(Continued from Page 1.)

the screams heard by the hotel maid, but the court said they "were not sufficient to implicate Arbuckle in the commission of a crime." The district attorney's aides also contended that the court could only either hold the defendant to answer for murder or dismiss the case altogether, but Judge Lazarus said that was not his understanding of the law.

Judge Discusses Case  
When the police court hearing was resumed today Judge Lazarus began a discussion of the case.

"The district attorney has frankly admitted he has offered merely enough evidence to warrant holding the defendant, holding in reserve other evidence which he has failed to present," said Judge Lazarus.

"We need not disguise the fact that this is an important case. In my opinion, we are not trying Roscoe Arbuckle alone, the screen celebrity who has given much to the whole world. We are, in a sense, trying ourselves, our morals, our present day social standards. The question is larger than the guilt of this unfortunate, it is a universal issue."

"The affair was the culmination of an orgy at one of our leading hotels. An orgy unrepented by the management. It takes it a common thing in our big cities."

"I had really hoped that this court would be the venue for full and complete revelation of all the facts, so the public of the entire world would have the opportunity to ascertain this widely known defendant's guilt or innocence."

Refers to Testimony  
"The testimony heard shows that during the whole afternoon there went on, let us charitably say, festivities. Men and women were coming and going so that witnesses are unable to say who were the occupants at any particular hour."

"Much liquor was drunk and the complaining witness, in particular, was in an inebriated condition."

"Miss Rappe, according to the picture I have tried to draw of the event, went into room 1219 of this hotel, followed, without previous conversation, by the defendant."

"They remained in there about three quarters of an hour, according to Miss Zeh Prevost's testimony. No sounds were heard by the rest of the party."

"Then the complaining witness and Miss Prevost made a clamor at the door, which was opened by the defendant and the two ladies entered the room."

"They found Miss Rappe lying on a bed fully clothed, and apparently in agony. She was clutching at her clothing and with the assistance of her woman companions, she was completely disrobed. I thought some of the torn garments might bear on the point at issue, but from the prosecution's own witnesses, it appears they must have been torn in being removed."

District Attorney Interrupts  
District Attorney Golden interrupted with the assertion that the evidence showed one of the garments must have been torn off.

Judge Lazarus said he could not see any significance in certain other testimony introduced by the prosecution.

"Evidence has been given regarding alleged ribald conduct of the defendant regarding the use of ice, but it had no connection with any possible injuries received by the deceased, although it was a regrettable incident."

"Photographs of bruises on Miss Rappe's body were introduced but Dr. Arthur Beardslee, who attended her, saw only one on the arm. Undoubtedly

by if there were others on the body, he would have noticed them.

"Bembacher's testimony was entirely valueless and two days of court time was taken up fruitlessly hearing him."

"The only one whose evidence might have connected the defendant with a commission of a crime was that of the nervous chamber maid who heard from

the corridor the cry of a woman's 'No, no, Oh, my God!' and a man's reply 'Oh, shut up.'"

"Although there were indications that the district attorney at a trial would try to show a more complete case, there was the merest skeleton of evidence here to connect the defendant with the crime of murder, the most serious offense known in criminal law."

"The question for me to decide is whether the facts adduced which the district attorney admits is barely enough to warrant a holding. Is it enough to justify a murder charge and I do not believe so."

"There is enough in the defendant's actions in the affair, however, to warrant a manslaughter charge and I will hold him on this. I feel that no rape or attempted rape was committed by the defendant."

Assistant District Attorney Milton T. U'ren inquired what these other actions might be, and the judge replied that there might have been battery, for instance.

TO AVOID FAILURE

You are extremely interested in those who have made a success of life, for they have attained what you want. You study them, try to figure out how they did it, hoping to get a profitable idea for yourself.

But a psychologist, in analyzing strength, doesn't stop with a study of Sandow. He takes the other extreme also, and studies the defects that keep the weak from becoming strong.

In your way, you are a psychologist, though you may call a psychological study "getting his number."

So, then, in studying success, do not overlook the failures.

Learn what made them fail and you know what to avoid.

There is nothing mysterious about the degree of prosperity and success of any business, whether it's the Standard Oil company or the owner of a peanut stand in Wichita Falls.

A business fails or succeeds by the same processes and for the same reasons that an individual goes up or down.

After all, you are a business organization, with a production department (your work), a purchasing department (your spending) and a sales organization (your ability to sell your services for a high or low price).

Analyze the reasons why some businesses go into receivers' hands and you have an analysis for personal failure.

There are about 18,000,000 business concerns in our country. In the last decade, failures have averaged 14,153 a year, or less than one in 100.

Bradstreet's credit agency analyzes those failures and finds that in every 1,000 failures, lack of success is due as follows:

Table with 2 columns: Cause and Percentage. Includes Personal Causes (Lack of capital, Incompetence, Fraud, etc.) and Outside Causes (Business conditions, Failure of others, Competition).

Incompetence heads the list. That shows the value of schooling and experience laboriously and slowly acquired. Lack of capital comes second as a reason for failure.

In most cases, that can be overcome only by patient saving. Business conditions, third in rank as a failure cause, are beyond the control of any individual.

THE LETTERS OF WALTER H. PAGE.

The World's Work for October contains the second installment of "The Life and Letters of Walter H. Page," by Burton J. Hendrick. The October installment is devoted to correspondence between Mr. Page and Colonel House, showing America's efforts to prevent the European war.

PLENTY OF SPACE FOR TOP LINES.

Tuesday afternoon's home edition of The Times carried three very encouraging "top lines." One told of an advance in Pennsylvania crude oil, another of big advance in the price of cotton and a third of enormous buying of Liberty bonds.

These items of good news have encouraged everybody and are confirmatory of the opinion that the worst in business depression has passed and that from now on business conditions can be expected to mend slowly.

RESERVATIONS TO THE GERMAN PEACE TREATY.

Democrats in the senate are going to ask for some reservations to the treaty negotiated with Germany. In the pact, among other things, they want an admission of wrong from Germany and a promise to abstain from unrestricted submarine warfare in the future.

A treasury report says the average man has \$250 in the bank; but the report can't be verified.

Nowadays the son who follows his father's footsteps is likely to wind up in the cellar.

Bryan says he will never run for office again. Now we know what excited Marx.

Reformers won't be satisfied until they shut up everything except their mouths.

Last year we were all crazy to spend our money—and now we admit it.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

B. C. FORBES

There is a young man in New York city by the name of B. C. Forbes. I have never met him. I do not know him—excepting through the medium of what he says.

But I like what he says. Forbes publishes a live, inspiring magazine which I read regularly. It tells of climbers and of those who do things. Every issue is a new package of optimism.

He believes in clean, honest and progressive business—big and small. He believes that the world is growing better. He believes that men always win when they WILL to win. He believes that we are going to work ourselves out of every great problem and acquit ourselves as men of worth.

Not only does Mr. Forbes publish a magazine to further his ideas, but he works day and night—I should say—for I see his articles in leading magazines and in newspapers throughout the country.

This is no advertisement for Mr. Forbes. Big men need no such thing. Rather is it a tribute to a man who puts his shoulder to the wheel and gets things done.

I want to see men such as Forbes spring up all over the earth—believing in themselves, in their fellowmen, in their work, in their city, in their nation—and who have never learned to whine or to wait.

There is one man from whose presence I disappear as soon as I am able—and he is the man who starts out by saying, "You know, these are pretty hard times, and etc., etc., etc."

I went into a crowded park recently. It was a beautiful day. Hundreds of men were sleeping and lounging on benches and on the grass. I walked through and among them. I wanted to see if I could find just one man who looked like that fellow Garcia that Elbert Hubbard wrote about.

But just then I remembered that Garcia had to be SENT for—for he was BUSY at his job.

You remember the story? He was told to take a message. And without asking a question, he bowed, walked out—went through jungles, through the lines of the enemy, faced hunger and death—but delivered the message.

B. C. Forbes is delivering messages for better times and better men. And he is worth a fortune to this hesitating age.

JUST FOLKS

By Edgar A. Guest

A BOWL OF APPLES AND A BOOK

A bowl of apples and a book and a grate fire blazing high. What greater joy can man possess, what deeper comfort buy?

So sit me down on the autumn nights with a book to thrill my soul. And I'll be content while the log fire burns and the apples fill the bowl.

For this is a dual life we lead, whatever a man believe, There's the life of strife with its hours of care and the hours that he must grieve.

But his other life is a term of peace when he finds the cloistered books.

And walks and talks with the mystic friends in the pages of his books.

A night to read from the world apart, slipped and well content.

With the changeless friends of the printed page, could better a night be spent?

A fire that leaps as his fancies fly, is anything needed more?

Just a bowl of apples handy by from Autumn's golden store.

I've known rich joys in the years that were and look to the joys to be.

But splendor giveth no peace like this to the restless soul of me.

For these three make me a happy man, for these three are my heart's desire.

A bowl of apples and a book, and the blaze of an open fire.

SMILE a WHILE

By TOM SIMS

One stock above par in your private stock.

Old-fashioned twin beds had twins in them.

Most good conversationalists are self starters.

Most men think they are bright when half lit.

"Bolshevism will live on," says Lenin. On what?

There's lots of bed bugs when the alarm clock rings.

The modern three wise men are Stop, Look and Listen.

The most popular reading matter in jail is the calendar.

Best sign to keep hunters away: "Please Trespass Here."

Let's put our wooden ships in charge of men who rock boats.

There's no traffic congestion on the straight and narrow path.

Money seems to go much further now—when you are chasing it.

Arbuckle has lost 41 pounds; but his method is rather expensive.

As women lengthen their skirts all men retain is pleasant memories.

More stiff collars are being sold and another paper shortage looms.

Three British towns claim to be Chaplin's birthplace. A baby of parts.

The small boy wants to go to heaven because angels don't wear shoes.

Cheer up! When all the neighbors buy autos you can get a seat on a street car.

Some men are underfed and overworked while others are overfed and underworked.

YOU AND I

Worry About National Debt, Yet In 1922 It Is Only \$248 a Year for Each of Us.

You shiver when our national debt is mentioned. It is about \$24,800,000,000. A huge sum. Yet the interest on it is only \$248 a year for each of us.

So with all our other national problems. They look enormous, disheartening, on the surface. But there's an enormous nation under our flag, to share the burden.

We pay \$5.65 a year, each, to carry our debt. Austria pays \$106.77, Germany \$11.81 (not counting indemnity), France \$47.35, England \$26.45. Those seem large, yet small enough to be handled. Europe can come back financially—if it keeps its head, works hard and has sound leaders.

OBJECTS. Prominent Los Angeles man objects to the statement that the movie made Los Angeles. He says it can be proved on paper, and just as accurately, that oil made Los Angeles—or autos, or any one of the others.

"Climate made Los Angeles," he concludes. "The developments giving it 600,000 population were due to climate and nothing else. In a comparatively few years Los Angeles will be third largest city in the country."

The thing that really makes any town is its people.

WOLF. The colder the winter is going to be, the more nuts you'll find a squirrel storing away.

Such a miser, why I actually believe you're afraid of that big brute, and Mary Watkins and I, who, me? I should say not. I'll soon show you whose afraid, I see.

And I got up and went across the street and sed to the big tuff looking kid, May wats 'em pulling that little kids hair for?

What? W? Wats it your blazes, to you want yours pulled? sed the big tuff kid, and I sed, My wats the matter, I only wanted to ask you a question, that's all.

And I went over to Mary Watkins and stops agen, saying, Dont waste any more sympathy on that little kid, I was jest going to make the big kid stop and the little kid sed Who told you to butt in, that funny looking gert across the street?

Why I never herd anything so fresh in all my life, sed Mary Watkins, and I sed, That's wats I thart, so I sed to the big kid, Go ahead and pull his hmr all you want, pull it all your-mite, pull it out if you want, I sed.

You did jest rise, sed Mary Watkins. And I sat down on her steps agen and the big tuff kid kept on pulling the little kids hair down the street and the little kid kept on yelling, Hay cut that out, do you heer, hay.

EUROPE. Italy is in worse shape than any other European country.

Italy is in worse shape than any other European country. Inflation of prices, currency and wages is tremendous and the people are spending all they make, says Arthur Reynolds, Chicago banker, just returned from abroad.

Reynolds says the Belgians are working hard, have fine crops and are rebuilding rapidly. He found French farmers frugal and industrious, but French city and factory people spending extravagantly and not over-fond of labor.

Germany, says Reynolds, is working harder than any other European country. She is producing goods at a third the cost of other nations, and her workmen are demanding longer hours and more wages.

This looks as if Germany and Belgium will recover first.

HOME. A hermit named Romberg, at Dubuque, Iowa, had a lot of caged birds. State law against caging song birds freed his pets. One, a Kentucky cardinal, refused to leave its cage.

The home instinct is as powerful among animal life, all through nature, as among humans. Every form of animal life reaches the highest point of its expression by establishing a home, with man looking after the kids and the housework, and pa bringing home the bacon.

Don't worry, home if one institution nothing can destroy.

Little Benny's Note Book

By LEE PAPE

Me and Mary Watkins was setting on her front steps, her being even more buff looking than usual, and some big tuff looking kid started to go past on the other side of the street holding some little kid by the top of the hair and the little kid was yelling, Hay, leave me go, hay cut that out, hay.

O' essent that perfectly drefill, Benny you dont you go rite over and make that big brute stop hering that little boy?

THE HISTORY OF YOUR NAME

By PHILIP FRANCIS NOWLAN

KENNEDY. VARIATION—Kinsley, Kinsley, O'Kennedy.

RACIAL ORIGIN—Irish. SOURCE—A nickname.

For the most part, the Irish clan names, which were virtually family names, and have become so absolutely in modern usage, were formed strictly from given names, from the names of those chieftains who first gathered about them a sufficient number of followers to be designated as a clan.

Sometimes these chieftains received nicknames, descriptive of some trait or honor achieved, and it was the nickname which became the clan name. This is the case of the Kennedy clan.

The Gaelic designation of this clan is "O'Caonnata," and with the exception of the last syllable, which has naturally become slurred a bit in the Anglicized form of the name, its pronunciation was precisely that of O'Kennedy.

The founder of the clan was a chieftain named "Fergus" and surname "Caonnata," or "Iron-head" in the sense of being far-sighted, who flourished about the time of St. Patrick.

Thus this clan or family name is about as old as Christianity in Ireland, and antedates the Christianization of Anglo-Saxon England, which was several centuries prior to the Norman invasion of that country, with the subsequent formation of English family names.

THE GREAT AMERICAN HOME

-A BUSY LINE-

COMMON SENSE WAYS TO KEEP WELL CLOTHES AND HEALTH

By DR. R. H. HISHOP

Woolens protect most, but they require the least exercise of the temperature-regulating apparatus of the body. The wool becomes saturated with the perspiration, which it holds, to the disadvantage of the skin.

Therefore, woolen clothing should be confined to outer garments, such as overcoats, designed especially for colder weather. Fur coats make the skin over-sensitive.

Outer clothing should be adapted to the changes of the weather and medium-weight underclothing should be worn throughout the winter season.

Office workers, school children and those employed indoors during the day work almost always in a summer temperature. The wearing of heavy underclothing under such conditions is debilitating. It lowers the powers of resistance so that they can "catch" diseases easily.

Light colored garments are cooler in summer and warmer in winter than dark ones.

HAMBONE'S MEDITATIONS.

### JAPAN'S FUTURE FOR 100 YEARS BOUND UP IN ARMS CONFERENCE; FEAR ISOLATION BY THE POWERS

**AMBASSADOR'S VIEW OF PACIFIC PROBLEMS**

By N. E. A. Service.

HONOLULU, HAWAII, Sept. 29.—The peace of the Pacific in the future will lie very largely in the hands of the forthcoming conference on the limitation of armaments at Washington. What is done there will determine to a large extent the policies of the major nations bordering the world's greatest ocean.

Thus declared Charles B. Warren of Detroit, new American ambassador to Japan, who passed through Honolulu recently on his way to the Orient to take up his duties.

"The entire relations of the Pacific trading nations, with respect to mutual intercourse and exchange of commodities, will be decided by the Pacific conference," said the new ambassador.

"Trade between nations can be made the basis for a peace that will last. The world lives upon itself. It is the healthy, far-reaching, intelligent commerce of the world that preserves friendly relations."

"The way to furnish an opportunity for disarmament is to remove the cause for armaments."

The United States must guide its own destinies in such a manner that there will be no danger of war, the ambassador said, but permit international matters to press forward to where there is the slightest likelihood of war in the distant future.

By WM. PHILIP SIMMS.

TIENTSIN, Sept. 29.—Much as Japan may dislike the idea of certain phases of the far eastern situation being discussed at the Washington conference, there can be little doubt that she would yield on this point rather than isolate herself completely when the other powers interested in Pacific questions assemble in the American capital.

This typically British view in China was expressed by the English editor of the Peking and "Times" organ of the British community, but I find it shared by a large group of observers composed not only of foreigners, but Chinese as well.

Japan, it is pointed out, will have two courses open to her when she sits down with the other powers at the conference table in Washington.

One—she may face the music, as her liberal leaders are urging, and play the game wholeheartedly with Great Britain, the United States and France, holding nothing back that might contribute to the peace of the Pacific.

Two—she may bolt the conference, declaring the powers assembled have no right to discuss her claim to special status in Asia, her policy in China or Siberia.

Japan's future for the next hundred years, disinterested diplomats believe, will depend upon which of these courses she chooses. The best opinion at present seems evenly divided on what she will do.

Above all things, critics declare, Japan fears isolation. Her failure to secure a renewal of the Anglo-Japanese alliance came as a terrifying shock to Nippon, particularly as it followed the crown prince's visit to England, timed with the renewal in view.

Blow to Japan.

Equally distasteful to Japan was the revelation that the British dominion's prime ministers were not altogether friendly in their criticisms of their oriental ally and that in this attitude the British press and public opinion throughout the United Kingdom supported them almost unanimously.

In Japan last winter I found Japanese opinion to be that not only was the alliance certain to be renewed, but that it would undergo revision in Japan's favor. A portion of this opinion held that it should even provide for help from England in case of war with the United States.

Now, it is realized in Japan, it is a question whether the alliance will be renewed in any form, and if it should be renewed at a later date it will be so framed as to remove all doubt from anybody's mind that it is not aimed at America.

Japan, the Enigma.

Now the critics are putting it like this:

As British prime ministers have stated, Anglo-American friendship to be the basis of Britain's world policy, and that this friendship is valued so highly "that almost any sacrifice is not considered too great" to pay for it, and . . .

As these same spokesmen for the British empire have openly disapproved of Japanese militarism of her behavior in Korea, in China and in Siberia—

Will Japan dare to throw away her last chance of retaining the approval of British statesmen—who will make or break the alliance with England—by an arrogant stand at Washington? Will she refuse to play the game at the conference and walk out, thus isolating herself completely from the western world?

Or will she put all her cards face up on the table, play an open game, win back her friends and allay the world's frank suspicions that her militarists are in complete control?

Against "Open Door."

It is recalled in British circles here that during the correspondence with America and Great Britain regarding the consortium, the Japanese government repeatedly maintained that the Taomanu-Jehol railway and a line

connecting a point thereon with a seaboard were projected with the strategic object of making it a means of common defense on the part of China and Japan against foreign invasion."

It was moreover repeatedly emphasized, according to the same British source, that the adoption of the open door policy, and the principle of equal opportunity in South Manchuria and Eastern Inner Mongolia would "vitaly affect the economic existence and national defense of Japan."

China, it is observed, was never consulted as to the value of her schemes, and British critics are demanding if Japan, at the conference, will claim it is nobody's business but her own how far into the interior of China she chooses to push her defenses and zones of paramount interest.

Say Will Yield.

"It is true," a British critic declared, "that some of China's least patriotic and most unscrupulous officials endeavored to bring about the construction of railways in Manchuria and Mongolia in September, 1918, but these contracts purported to be purely commercial deals, though the Peking government was to receive an advance of yen 20,000,000 (\$10,000,000 gold) after the signature of the preliminary agreement."

"These railway deals," he insisted, "are only one of the problems of 'sole concern to certain particular powers' tingling Japan. In accepting President Harding's invitation, stipulated should be scrupulously avoided" which have a vital bearing upon the question of disarmament and upon the whole far eastern problem. Their exclusion from discussion at Washington would render any attempt to evolve a permanent solution of far eastern questions futile."

British circles in China, however, profess to believe Japan will yield on these and other points rather than precipitate any action which would result in her certain and complete isolation.

**TERRA COTTA DEALERS CHARGED WITH VIOLATING SHERMAN ANTI-TRUST LAW**

NEW YORK, Sept. 29.—The federal grand jury which has been investigating an alleged materials trust has handed down an indictment charging two groups of terra cotta manufacturing corporations—the Atlantic Eastern and the American National—and their officers with violation of the Sherman anti-trust law.

"We find that this vast industry reaching from here to the coast," said United States District Attorney Howard, "has been within the complete and arbitrary control of about 23 men throughout the United States."

"A very exhaustive investigation of the terra cotta industry has revealed a startling situation."

A new tank, recently demonstrated in France, will cross trenches, swim on the surface of water and then dive and crawl along the bottom.

### SPLENDID PROGRESS BEING MADE BY THE SCHOOLS IN HASKELL

HASKELL, TEXAS, Sept. 29.—It can be truthfully said that Haskell county has made wonderful progress in her schools over the entire county in the last few years. Seven new school buildings are now under construction in the county and others will be built before the first of the year.

Five districts in the county have voted the \$1 tax and others will follow in the near future. The state aid blanks have arrived and the schools are preparing for the assignment as fast as the trustees can arrange matters.

There are 46 rural and 4 independent districts in Haskell county and each has made special efforts to secure facilities for the ensuing term. Mrs. Ed Robertson, county superintendent, states that taking the county as a whole the schools have obtained the strongest facilities for the present term that were ever employed in the history of the county.

All the independent districts have opened their terms of school and the date for opening of the rural schools will be Monday, Oct. 21.

A five-county institute will be held at Simmons college in Abilene Dec. 19 to 22, inclusive. There are 68 teachers enrolled in the five counties and all are expected to attend. They will be entertained in the big dormitories of Simmons college. Haskell county is one of the five counties and is preparing to take an active part.

### DODSON WARNS CALOMEL USERS

It's Mercery! Attacks the Bones, Salivates and Makes You Sick.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can't salivate.

Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tonic acts better than horrible calomel your money is waiting for you.

—adv.

# The New High School

The School Board has purchased a beautiful site comprising four large city blocks in Highland Addition, on which to erect a High School in keeping with the present necessities and the future of the growing city of Wichita Falls. The campus is big enough to accommodate a large main building and such other buildings as may in future become necessary for special departments such as chemical laboratory, vocational training school, etc. There will still remain ample room for an athletic field and open air stadium. The location of the site is near the geographical centre of the city, and is as convenient to all the people at this time as any site of ample size that could be obtained. Whether Wichita Falls increases from its present population of 40,000 to 60,000 or 200,000 the site will remain CENTRAL on account of the lay of the land in and around the city.

## Facing the Facts

- ☞ The 88 beautiful lots that will be offered for sale Oct. 2, come up within one block of the campus of the High School site. They will be sold on terms of only \$10 cash and \$10 per month, there will be no interest until after Jan 1, 1923, and no taxes until 1923.
- ☞ Water and sewer are available to almost every lot.
- ☞ A four-inch gas main runs across the property.
- ☞ The prices are \$350 to \$650 per lot.
- ☞ Only a short distance away is one of the best graded schools of the city.
- ☞ When the High School is built, this neighborhood will build up solid with nice houses as if by magic. The value of all property nearby will increase. Property is always hard to obtain around a good High School.
- ☞ Compare our prices with surrounding prices.
- ☞ Compare our terms with surrounding offers.
- ☞ That these lots will all sell quickly, there is no question. The location, the prices and the terms must be right before we will handle any property. When we recommend property to purchasers we have to know it is right; that in the light of our years of experience, it will make good in every way.
- ☞ There will be salesmen on the ground Oct. 2. Every lot will be staked.
- ☞ A card on the centre stake will bear the number of the lot and the price. Remove the tag from the lot you want and hand it to one of our representatives.
- ☞ To see this property, drive south on Monroe street until you come to the sign boards and freshly graded streets, or take street car to Ave. J and walk east, following the sign boards to the lots.

"Bayer" on Genuine Aspirin—say "Bayer"

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as sold in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacturing of Monocetone-ester of Salicylicacid.—adv.

### SHERWIN-WILLIAMS PAINTS AND VARNISHES

**A Dry Summer Calls for Fall Painting**

THERE has been a great lack of rainfall this season. It was the driest in many years. Surfaces are now in prime shape to paint. The sun drew every bit of moisture out of them. Coupled with this advantage in season, comes a great advantage in cost.

**Sherwin-Williams Paint Prices Have Been Reduced**

They are now so low that it is a dead loss not to paint, when protection is so cheap. Come in and let's figure it out.

**FULL STOCKS AGAIN**

Come in and see the beautiful wall papers we are displaying. All prices reduced.

### AMENDMENT WOULD REPEAL SPECIAL TAX ON MANY INDUSTRIES

INCLUDES BROKERS, THEATERS, CIRCUSES AND OTHER LINES OF BUSINESS.

### CAPITAL STOCK TAX ON CORPORATIONS RETAINED

Amendment is Offered by Senator Simmons On Behalf of Democratic Members.

WASHINGTON, Sept. 29.—Retention of the corporation capital stock tax and repeal of all the special taxes, such as those on brokers, proprietors of theatres, circuses, automobile bus lines, shooting galleries and the like is proposed in one of a series of amendments to the republican tax revision bill offered today by Senator Simmons of North Carolina on behalf of the democratic members of the finance committee. The bill as reported to the senate proposed repeal of the corporation stock tax and retention of the other taxes.

### TURKEY AND ALL TRIMMINGS TO BE SERVED AT BANQUET

Turkey and all the trimmings will constitute part of the menu at the banquet to be given Friday evening at the First Baptist church marking the close of the contest conducted by the men. All the speakers have accepted and a record attendance is anticipated.

### BODY OF J. T. PASKINS TO BE SHIPPED TO DES MOINES

The body of J. T. Paskins, who died at 11:35 o'clock Thursday morning at his home, 766 Tenth street, will be shipped to Des Moines, Iowa, Friday afternoon. Mr. Paskins was 63 years of age and death was due to complications.

W. A. Hardin of Marlinton and Mrs. Nellie Munsey of Petrolia.

RUSSIA.
In Moscow the soviet government offers 154 factories for lease by private capital. Twenty-six are gobbled at once. Foreign capital will take others, but not all.

What's going to happen is indicated by the frenzy of speculation in Moscow. Promoters crowd the street corners, offering stock in co-operative companies that will take over factories.

Such co-operative societies will be many and plentiful in Russia, now that the soviet, by their new policy, bid private capital take hold of industries which the bolsheviks tried to run and couldn't.

GRIMES.
In 1894, in Bremer county, West Virginia, a farmer discovered that he had a new type of apple in his orchard. He named it the grimes-golden and he sent some down the river on a freight packet, for sale to New Orleans traders.

Now, says the Ohio Agricultural Experiment Station, the grimes-golden is recognized as being the most perfect apple. It yields an average of 17 bushels of apples a year for each tree, and is grown in Virginia, Missouri and other places. The original grimes-golden tree would be dumfounded at that. You never can tell what you are starting.

PRICES.
Headquarters of the league of nations may be moved away from Geneva, Switzerland, because of high prices.

Suppose the officials picked out the cheapest town in the world and moved the league there. Presto! Prices would mount overnight.

High cost of living is a condition, not a locality. Charges are based on "how much the traffic will bear." When the traffic can't stand the burden, it stops buying and prices slump.

COURAGE.
What is courage? What is fear? Advanced medical men say they are conditions of the adrenal glands, tiny capsules attached to the kidneys.

Walter C. Nichols, motoring near West Pittsfield, Mass., met a herd of deer. A buck charged the auto, smashed the lamps, bent a mudguard and backed the car into a ditch. The buck fell down senseless. Was that courage? Or just stupidity?

Then how about the daredevil who needlessly risks his neck without good cause?

HARDER.
The man of average intelligence who lived a century ago would be an ignoramus today. And the intellectual of today is an ignoramus compared with man of the future.

The average of intelligence moves forward, slowly but surely. Result: Each year it becomes increasingly difficult to make yourself stand out from the mob.

Franklin was considered a wizard when he flew a kite and brought electricity from the clouds. Now Statemetz has to handle 1,000,000 volts to attract real attention.

### TRAGEDY REUNITES THE ARBUCKLES

Minta Durfee Arbuckle, who was estranged from Roscoe Arbuckle, is now by his side, attempting to cheer him up. She rushed from New York to San Francisco following Arbuckle's arrest in connection with the death of Virginia Rappe, movie actress. This picture of Mr. and Mrs. Arbuckle was taken in San Francisco during their first meeting, after a long separation.

### SMALL BOY IS KNOCKED UNCONSCIOUS BY FALL FROM WHEEL THURSDAY EVENING

Clifford Mann, a small boy living at 1819 Seventh street, was taken to the Wichita General hospital early Thursday afternoon after a fall from his bicycle had rendered him unconscious. He was riding the wheel near the Alamo school and ran into a curbing

with enough force to pitch him over the handlebars.

He fell on his head and was unconscious when Dr. W. T. Lowrey, who was near the scene, picked him up. Medical treatment at the hospital revived him within a short time and he was taken to his home.

His injuries were not serious, hospital attendants said.

### WAR DIARY OF COLONEL ROOSEVELT CONTAINS INTERESTING NOTATIONS ON THE SPANISH-AMERICAN WAR

NEW YORK, Sept. 29.—A terse history of the Spanish-American war as seen through the eyes of its most famous participant came to light when Mrs. Theodore Roosevelt presented the former president's diary to the Roosevelt memorial association.

The diary is a record of experiences and impressions, made up of Laconic entries, some historical, some critical. Events of characteristic pointedness were aimed at the "stupidity of the ordnance department" while the colonel recorded the belief that in the war department there was "no management at all."

The diary is a small pocket volume and confined notes in pencil and ink. No part of it has ever been published before.

Some of the most characteristic entries follow:

"May 6, 1898, commissioned as lieutenant-colonel, U. S. voluntary cavalry. Wood as colonel by my choice."

"May 7.—The days and stupidity of the ordnance department surpass belief. The quartermasters department is better but bad. The commissary department is good. There is no management whatever in the war department. Against a good nation we should be helpless."

"May 21.—The blunders and delays of the ordnance bureau surpass belief. They express us stuff we don't need, and send us the rifles by slow freight. There is no head, no energy, no intelligence in the war department."

"May 24.—Quota nearly filled. It is astonishing how rapidly we have armed, mounted and drilled these men. Wood's power of work and executive capacity are wonderful."

"May 30.—Railway system tends to break down. Interminable delays; no

proper facilities for unloading horses to rest, water or feed, etc. etc."

"June 2.—Reached Tampa in morning. Railway system a wretched confusion; it took us 12 hours to get into camp with our baggage."

"June 5.—No word can paint the confusion. No head; a breakdown of both the railroad and military systems of the country."

"June 6.—No plans; no staff officers; no instructions to us. Each officer finds out for himself and takes his chances. We are doing as well as the regular regiments. Have very light baggage."

"June 8.—Told to go aboard transport. Worst confusion yet. No allotment of transport; no plans; utter confusion."

"June 10.—Reached Santiago."

"June 22.—Ladden."

"June 23.—Marched."

"June 24.—Fought Las Guasimas. We drove enemy in fine shape. Lost 60 men; killed and wounded 20 slight."

"July 1.—Rose at 4. Big battle. Commanded regiment. Held extreme front of firing line."

"July 3.—Truce at noon. Spanish fleet destroyed."

"July 4.—Truce. Mismanagement horrible. No head to army."

"July 10.—Bombardment again."

"July 11.—Truce again. Shifted camp a mile to extend lines. Heaviest rains yet, at night."

"July 12.—Shifted camp to foothill. One half of my men are disabled by wounds or sickness."

Mrs. Roosevelt also presented the Roosevelt memorial association with the spectacle case and manuscript of an address, prepared by a bullet aimed at Roosevelt in Milwaukee in 1918. It was from this manuscript that Roosevelt, a half hour later, read his campaign speech with the assassin's bullet still imbedded in his body.

downfall. Above ground it covers foliage, field crops and flowers, feeding voraciously on them. The Bureau of Entomology has catalogued 117 plants which are being destroyed by this unwelcome immigrant.

The common poisonous sprays are ineffective. The Japanese beetle audaciously avoids them. The bureau has had to resort to hand collection where the beetle multiplies with the rapidity of Kansas grasshoppers.

Nearly two million beetles, representing probably 45,000,000 grubs of a succeeding generation, were assembled by hand within 12 months in New Jersey. Large quantities are gathered in nets and saturated with gasoline.

Tanks containing 400 gallons of sodium cyanide are used to spray the liquid over the land when the insects are within a few inches of the surface of the ground.

Clearing of roadsides is another form of destruction. Poultry and swine also are enemies of the pest.

### LOCAL BREVITIES

The three motorcycles now being used by city officers Eysler, Johnson and Sanford have been labelled with yellow paint. "City traffic officer" now stands out across the sides of each machine.

Mr. and Mrs. W. W. Silk have returned from a trip to Pacific and northwestern points.

Mr. and Mrs. W. H. Corian and Mrs. F. C. Bennett of Lafayette, La., are visiting their daughter and sister, Mrs. J. T. Jackson of 1904 Seventh street of this city.

### ROADSTER AND FORD TRUCK COLLIDE THURSDAY AFTERNOON

A half barrel of lime was sprinkled over the street when a Ford truck owned by the Wichita Lumber and Building company, was rammed by a roadster, owned and driven by Charlie Bebout, local representative of the Anti-Automobile Theft association, at the corner of Ninth and Ohio early Thursday afternoon. Two barrels of lime were knocked from the truck.

The accident, which has been caused by the obstructed view of one of the drivers.

### SCIENTISTS WAGE WARFARE AGAINST JAPANESE BEETLE

Within five years, the Japanese beetle has grown to such a tremendous number in New Jersey and Pennsylvania that its eradication has become one of the biggest projects of the United States Bureau of Entomology.

This tiny insect spends five-sixths of its life underground, making difficult any warfare for its complete

extermination.

### THE DOLLAR AND FALL SHOPPING

INTEREST and enthusiasm in Fall shopping is now merely the result of attractive merchandise that is so new and so desirable. Everything seems so much more interesting because every dollar has such increased value. This means the possibility of better qualities and greater quantities of New Fall Merchandise for almost everybody.

### Fall Skirts Feature Novelty Fabrics

Self-satisfied things that they are as you might know by their haughty swish, Wool Skirts haven't changed their appearance a great deal. But in such telling details as new patterned fabrics and clever pocket effects they have altered just enough to make your Spring Skirt less modish than you will want to wear; exasperatingly so if it weren't that the new features make our Fall Skirts extremely smart and the prices so reasonable.

### Gloves Meet the New Sleeves More Than Half Way

The new sleeves may be fickle as to length, but the province of the new Gloves is to meet emergencies, for they're gauntlet and mousquetaire styles. Black, brown and white are the favored colors, and heavy embroidery is the rule, rather than the exception. Black on white, beige on brown or white on black is emphatically popular. Gloves of exceptionally fine fabric for shopping tours, are included in these displays.

### CONFERENCE PLAN MUST DEVELOP AS WORK PROGRESSES

SUGGESTIONS ARE TO HAVE SCRUTINY OF VARIOUS COMMITTEES.

### AGREEMENT ON FACTS AND THEN A REMEDY

Unemployment Situation Will Be Treated As Emergency Calling For Co-Operation.

By ARK SULLIVAN, National Political Correspondent of the New York Evening Post and the Wichita Daily Times. Copyright 1921 by the New York Evening Post.

WASHINGTON, D. C. Sept. 25.—Whatever concrete thing is to come out of the unemployment conference is not yet in sight. It is possible that one or more of the 52 members may have a definite plan or plans in their minds. If so, those plans will have to pass an intense scrutiny by various committees before they are submitted to the conference itself and it is likely that the public will not hear anything definite about plans for a week or ten days.

The public hearings being held this week deal mainly with the facts of unemployment. It is the apparent intention later on to give wider latitude to the hearings and out of such latitude from the official members of the conference, but from volunteer witnesses, a good many suggestions for remedy. It is already clear that advantage of the opportunity to testify at public hearings will be taken by a good many of those persons who either as dreamers or charlatans always turn up in such periods as this and tend to dramatize unemployment in a way to bring their personal publicity. Every crisis has its Coxy. This time the number of Coxyes promises to be rather large.

Comparisons are made. But anyone who studies the countenances of the members of the conference at any of their official meetings is reassured by their intelligence and common sense. It is, in fact, an impressive gathering. To look at it for half an hour and then to go to the other end of Pennsylvania avenue and look at the lower house of congress for half an hour furnishes a comparison which the unemployment conference does not need to fear.

Mr. Hoover, as the presiding officer, causes a spectator to recall how accurate a portrait Mr. Keynes painted in four words when he said that Hoover at the Paris peace conference gave the impression of "a slightly weary titan."

In his opening address and in other public contacts as Mr. Hoover has had with the conference he has restrained himself strictly to the expression of fundamental principles. If he has any definite plan in his mind he has as yet given no hint of it. The larger probability is that he has no plan but rests his hope wholly on a distillation of what is known or thought or proposed by the 52 men whom he has selected as the best representatives of the United States for the purpose in hand.

Capacity for Work. Hoover's ability does not lie necessarily in any novelty of inventiveness. It lies rather in unusual capacity for sheer work in the collection of facts and something approaching genius in making sure generalization from those facts together with extraordinary practicability in putting plans into effect.

### CUTICURA HEALS RED PIMPLES

All Over Face. Very Sore. Itched and Burned Badly.

"My face broke out all over with little pimples, some red and very sore. They later took the form of larger pimples, and itched and burned so badly that I had to scratch them, and I could hardly sleep. The trouble lasted about three months before I began using Cuticura Soap and Ointment. After a few applications my face began to improve, and after using four cakes of Cuticura Soap and one and a half boxes of Cuticura Ointment I was completely healed." (Signed) Clyde Jones, Franklinville, No. Carolina. Give Cuticura Soap, Ointment and Talcum the care of your skin.

### DARKNESS IS DEPRESSING

Why Endure It?

You can have an Electric Light Fixture in every room and front porch in a 4-room house for \$15.00 5-room house for \$19.00

All Fixtures this week for less than cost.

DOSCH ELECTRIC STOCK REDUCING SALE 809 Ninth Street Telephone 5220

fact. He epitomized the present problem when he said: "There is no economic failure so terrible in its import as that of a country possessing a surplus of every necessity of life in which numbers are willing and anxious to work are deprived of these necessities. What our people wish is the opportunity to earn their daily bread and surely a country with its warehouses bursting with surpluses of food or clothing, with its mines capable of indefinite production of fuel, with sufficient housing for comfort and health, we possess the intelligence to find a solution."

Course of Conference. It is apparent that the course of the conference will shape itself like this. First there will be an agreement on the facts of unemployment not merely as to its quantity, but what is more vital in seeking a cure, in what trades and what parts of the country unemployment is most prevalent. After arriving at an official statement of the facts, the situation will be treated as an emergency calling for voluntary co-operation. On this point Mr. Hoover gave a hint of a plan when he said: "The administration has felt that a large degree of solution could be expected through the mobilization of the fine co-operative action of our manufacturers, employers, public bodies and local authorities."

Obviously Mr. Hoover must have in mind something like his wartime management of food, which was based on widespread and well directed voluntary co-operation. After treating the emergency as an emergency, the conference will then, and not till then, take up consideration of plans, first, for reviving general business and second for preventing unemployment in the future.

### TWO MEN ARRESTED HERE BY DEPUTY STATE FIRE MARSHAL

WANTED IN CONNECTION WITH BURNING OF DRY GOODS STORE.

H. I. Johnson and Drew Brown were arrested in Wichita Falls by deputy constable C. M. Moline, a deputy state fire marshal Thursday morning and transferred to Breckenridge, where they are wanted on charges of arson on connection with the burning of the Johnson Brothers dry goods store there on August 15.

Mr. Moline also stated that a man had been arrested in El Paso and was being held there by county authorities in connection with the same affair. Several other arrests are imminent, he stated.

The Johnson Brothers store, which was destroyed by fire carried a total insurance of \$75,000, according to Mr. Moline, who also stated that the appraised value of the loss was set at \$48,000 by the insurance companies.

The officer also contended that a large portion of the merchandise in the store had been moved the night before the fire and that it came through Wichita Falls on big trucks. He stated that his investigation led him to believe that a large part of the moved merchandise was placed on sale in Breckenridge.

The two men who were taken to Breckenridge in an automobile were apprehended Wednesday afternoon at Burkburnett, but were later released by local officers. Mr. Moline arrived in the city Thursday morning and asked that the men be rearrested.

### SUCCESSFUL CHILD HEALTH CONFERENCE CLOSES WEDNESDAY

END THREE DAY CHILD CLINIC BY RED CROSS AND UNIVERSITY EXTENSION.

### THREE HUNDRED BABIES AND CHILDREN EXAMINED

Every Class and Financial Status Of Parents in City Is Represented.

What probably comprised the most successful child-health conference in the state this month closed Wednesday afternoon in Wichita Falls, when the three-day child clinic held under the direction of the county Red Cross and the university extension department came to a close.

Three hundred babies and pre-school age children were examined during the three days of the clinic, representing every class and financial status of parents in the city. More than 75 babies and children had to be turned away on account of the growing interest the city is taking in the health of its babies, the organizers of the conference have spoken for a week's clinic for their second annual conference next September.

An outstanding feature of the three-day conference was the thoroughness and dispatch with which the babies were examined. One little tot followed another with the regularity of clock work throughout the eight hours of the clinic each day, and as one mother was called into the examination rooms with her baby, another moved up from the line and took her place in the chair at the door. Some of the mothers wore gingham aprons and some wore duvetynes, but they were all mothers, with their minds on a single achievement—the health of little children.

Another outstanding feature was the splendid co-operation throughout the conference of the local physicians, specialists and citizenry. Doctors and specialists whose practice commands practically every moment of their waking hours, were on hand at the clinic at their appointed hours, and gave their time and thoroughly interested service to the children. And local men and women assisted through the three days by bringing mothers to and from their cars—those who were unable to walk to the church.

Those Turned Away. The babies whose mothers had to be turned away at the last will have their examinations at the weekly clinic, to which all of the mothers were invited to return for further help and advice. That they will come is an established fact, as the Wichita Falls child clinic is already one of the best in the state. The clinic is maintained every Wednesday morning at the child health center in the courthouse, and its average attendance is around 80.

The Red Cross nursing committee, of which Mrs. M. H. Glover is chairman,

conducted the clinic with their regular nurses, Miss Mary Quinn, Miss Dorothy Dorpat and Mrs. Ben Thompson on duty. The specialists (including dentists) who gave their services: of charge included Dr. W. L. Rhodes, C. R. Hartsock, O. W. Wilson, R. H. Green, G. E. Anderson, C. E. Bailey, E. Thornburg, W. P. Holding, J. H. Stevens, V. C. Wratton, F. F. Brown and L. R. Garrison. General physicians who assisted included: Dr. A. W. West, G. H. Hampshire, C. H. Stevenson, J. A. F. Terrell, W. L. Parker, W. L. Tyson, L. D. Farrell, W. F. Lowry, J. W. Powers, A. D. Pattillo, F. R. Colliard, Ledford, R. C. Smith, M. A. Beckman,

Atkinson, Daniel E. T. Barker, T. Strong and D. Meredith. Those who assisted with their care included: T. R. Sm. M. L. H. Roberts, N. H. Martin, Rob Sheldon, J. C. Hunt, J. W. Culbertson and Mesdames Ralph Maricle, A. R. Cotton, E. P. Bass, J. L. Wheat, Holland, E. E. Richardson and Jerry Shaeffer. Girls and women who assisted in the registration of mothers and babies included: Mesdames J. A. Gardner, O. R. Haynie, R. L. Eckerty, D. L. Golding, Dan Rumba, R. E. Thornburg, A. D. Pattillo, Joe D. Harris, Burke Taylor, R. E. Shuburn, J. M. Isbell, A. N. Peice, C. E. Bailey, W. F. Lowry, F. L. Pierce, C. C. Cabiness, Omohundro, C. Y.

Tully, Nat F. Grafton and V. R. Golding. Conference at Truss Park. LEWIS PILCHER ELECTED COMMANDER-IN-CHIEF GRAND ARMY REPUBLIC INDIANAPOLIS, IND., Sept. 25.—Lewis S. Pilcher of Brooklyn, N. Y., was elected commander-in-chief of the Grand Army of the Republic at the fifty-fifth annual encampment today. He succeeds William A. Kotabach of Indianapolis. Mr. Pilcher is past commander of the department of New York. Picture frames at Decorators, 134-7th

## Overpowering Strength

There's an untold satisfaction in the consciousness of superior physical power. It kills doubt and fear and, in their place, gives life to courage and confidence.

More knowledge that your strength, mental and physical, is equal to the occasion, places you in a zone of safety, protected from the opposing currents of life.

FORCE, the master builder, makes men and women equal to emergencies; enables them to subdue obstacles and override the barriers which stand in their way to a field of larger development and wider usefulness, by building up within their bodies a surplus of energy, strength and endurance.

FORCE is sold by all reliable druggists everywhere, and is good for men, women and children alike.

"It Makes for Strength"

Sole Manufacturers: UNION PHARMACAL CO. New York Kansas City

## The Lights of a Great City

# Exide BATTERIES

Suddenly a black thunder-shower rolls up over the city. Although it is mid-afternoon, lights are switched on in thousands of offices and homes until the towering city looks like an illuminated honeycomb. In many great cities huge Exide Storage Batteries in the central power stations are called on to supply current through the emergency. So powerful are these batteries, weighing hundreds of tons, that they can supply millions of candle power. Nearly all the central station batteries in America are Exides.

Exide Batteries are used in scores of ways—to supply the current for the vast network of telephone systems; to light trains; operate switches and fire alarms; to propel mine locomotives and trucks.

When you need a new battery for starting and lighting your automobile, the nearest service station can supply you with an Exide, whose rugged power will add to your satisfaction in motoring and whose long life will prove a true economy.

The Electric Storage Battery Co., Philadelphia

EXIDE BATTERY STATION, 1106 Ninth Street

Whenever you see this sign you can be confident of child safety work on every make of battery; and, when you need a new battery, the right one made for your car.

## Panthers, Led by Joe Pate, Humble Chicks Again and Cop Title

### INDIANS WILL NOT HAVE AN EASY TIME AGAINST WHITE SOX

#### Faber and Kerr Will Make Speaker's Tribe Hurtle to Win Games.

CHICAGO, Sept. 29.—The Cleveland Indians, 1920 world champions, with their backs to the wall, today faced the Chicago White Sox in the first of a four-game series.

To win the American league pennant and another chance at the championship the Indians must win every one of the four games to beat out the New York Yankees, provided the Yankees win three of their remaining four games yet to be played.

With this neck and neck race to goad them on, prospects were that the series opening here today is to be second in importance only to the world series itself.

Expectations were that Faber was to hurl for the White Sox, which was little encouragement to Tris Speaker's tribe, although the Indians have beaten him before.

Dick Kerr also was expected to face the Cleveland team in one game of the series and for the Indians to win it is necessary that they knock both these doughty pitchers from the box.

## Athletics Have Two Players Who May Deal Yanks Misery

NEW YORK, Sept. 29.—The Philadelphia Athletics may be in last place in the American league, but they can boast of a "Babe Ruth" in outfielder Walker, whose home runs today number twenty-three for the season.

Walker is adding to his string with such regularity that the New York Yankees will watch him closely in their three game series with the Athletics which begins in Philadelphia today.

Besides Walker, the New York team has pitcher Ed Rommel to worry about!

## MARINES TURN TABLES ON BEARS IN MEXICO CITY

MEXICO CITY, Sept. 29.—The Dallas team of the Texas league defeated the San Antonio aggregation here yesterday in the third game of an exhibition series between the two teams, the score being 12 to 7.

Three home runs were hit. Munson and Galloway of Dallas hit for the circuit in the ninth, while Brock of San Antonio lifted the ball out of the park in the seventh.

## AMERICAN LEAGUE

Red Sox 5, Athletics 4.

PHILADELPHIA, Sept. 29.—The Athletics lost the last game of the Boston series Wednesday by a 3 to 4 count, John Collins whacking in the winning run in the eighth inning. In the seventh inning Tilly Walker hit his twenty-fourth home run of the season over the left field bleacher. It was the fifth time since Shibe park was built that this feat has been accomplished.

Score by innings: R. H. E. Boston 1 0 0 1 0 0—5 8 1 Philadelphia 0 0 0 2 0 4—12 3 Batteries: Gordonier and Taylor; Conroy and O'Neill.

## NATIONAL LEAGUE

Dodgers 5, Braves 5.

BOSTON, Sept. 29.—Brooklyn made 17 hits from the delivery of John Conroy, a left-hander, and had an easy time beating the Braves, 9 to 4, Wednesday. Ray Gordonier, the recruit pitcher from the Buffalo team of the International league, was on the mound for the Dodgers and yielded eight hits. Two home runs helped the Dodgers.

Score by innings: R. H. E. Brooklyn 1 0 0 1 0 0—9 17 4 Boston 0 0 0 2 0 0—4 8 2 Batteries: Gordonier and Taylor; Conroy and O'Neill.

## Cubs 3, Reds 1.

CHICAGO, Sept. 29.—The Chicago Cubs won their last game of the season on the home lot Wednesday when they defeated the Cincinnati Reds by a score of 3 to 1.

Score by innings: R. H. E. Cincinnati 0 0 0 0 0—1 4 1 Chicago 0 0 0 0 0—3 8 2 Batteries: Donahue and Douglas; Martin and O'Farrell.

## "I'D FOOL BABE RUTH," SAYS OLD GIANT STAR

AMOS RUSIE LEFT, AND JACK GILLILAND, VETERAN OUTFIELDER, SNAPPED AT THE POLO GROUNDS WHERE BOTH ARE EMPLOYED.

By BOB DORMAN

Amos Rusie, star pitcher of the Giants when the game was young, and Jack Gilliland, outfielder for the Mutuals of the days of '78, agree on two things.

First: That the game today is the same as that of yesteryear.

Second: That the Giants will win the world series.

"But there agreement stops.

"Hitting?"

"Babe Ruth?"

"Hub," says Jack. "Lip Pike was one of the hardest hitters that the game ever saw. Ruth hasn't got a thing on him."

"Say, don't forget that Ed Deleahy was some slugger himself," Amos put in.

And then the talk drifted back to the old days—days when a collection was taken up and split among the players in lieu of salaries.

"When I came to New York the first time, we used to play at Manhattan Field," said McGraw.

The grandstand was just a little old wooden affair. And left field and center field were regular lakes after every rain or high tide.

"Why, I've seen Van Halteren catch a fly when he was up to his knees in water. Running after it, he stirred up the water worse than a tug boat going up the Hudson."

"But that little old wooden stand was figured to be some place when she was first built. It was four times as big as anything in the league, but she wouldn't hardly show in this," and he waved his hand around the circle of the concrete stands of the Polo grounds.

"But the game today is the same old game and run; in fact, we did all the things that we do to make up modern baseball."

"Of course, we pitchers didn't have any of these modern improvements like the shiner, the spitter, and the rest of them."

"We didn't need 'em. We could make the ball do what we wanted it to, without using anything."

"I've always sort of figured that doping the ball was a lazy man's way of doing what he ought to do by practice and hard work."

"When I see Babe Ruth up there hitting it out, I sometimes wish that my arm would come back, so that I could pitch to him once, with all my old-time speed."

"You know how it is. I don't say that I could fool him, but I'd like to try just once."

"I'll bet you could get his number."

"Who knows in Gilliland."

"Who broke?" said Rusie, the one-time "Hoosier Thunderbolt," the man who struck out "Pop" Anson, with the bases loaded.

## Giant Leader's Career Is One of Most Interesting In History of the Game

NEW YORK, Sept. 29.—The career of John J. McGraw, manager of the New York Giants, and one of the best known men in professional baseball, stands out as one of the most interesting in the annals of the national sport. McGraw was born at Naugatuck, N. Y., on April 7, 1873.

McGraw played his first professional game shortly after he discarded school trousers. He made such a reputation around his home town as a hard hitter and skillful fielding that he was recommended to the Ocean team, then in the New York state team and in the spring of 1890 signed his first baseball contract.

McGraw says he never will forget the first game he played with Ocean. Although only about 200 fans attended he felt more nervous than at any time in his life. In describing his first game the popular leader of the Giants said:

"That first game was one of the greatest events in my life and I will remember it always. I was confident of making good until I went on the field. Then I was bewildered; it seemed that there were enough persons in the stands to populate the state of New York. I hoped that the batter would not hit the ball to me."

"When a grounder did come my way I felt as though I was rooted to the turf. I couldn't move. Finally it seemed like an age to me—I got started and picked the ball up in my bare hand but threw it over the first baseman's head, in my haste to beat the runner."

"The error lost the game for McGraw's team but it did not discourage him. McGraw got \$60 a month for playing with Ocean."

After one year with Ocean he went to the Cedar Rapids club, where the remuneration was slightly better. While with the Iowa team there was a remarkable change for the better in his playing. He performed at "short stop" and his playing there attracted the attention of a big league scout, and in August, 1891, he was signed by the Baltimore club of the National league, then last in a 12-club circuit.

Bill Barney was manager of the Orioles, when McGraw broke into the "fast set." John finished the season of 1891 as a bench warmer.

In May, 1892, Ned Hanlon succeeded Barney and took a fancy to McGraw in spite of his small stature. First he tried him on second base, where he showed much speed and skill. He was transferred to third, where he played even more brilliantly and there he stuck.

From that time until he withdrew from active service he was one of the best third basemen in the game, at one time being considered the top-notchers of them all. His ability to field bunts

JOHN MCGRAW.

was uncanny, and no third baseman in the game ever has equaled him in that department. He always was a capable batter but under Hanlon's direction he became one of the greatest in baseball. For years his average never fell below the .350 mark and he was very fast on the bases. His all-round good work was a big factor in Baltimore's string of pennants.

While a member of the Orioles he was surrounded by a coterie of stars who helped to set off his brilliancy. Hughie Jennings, who now is associated with him in the direction of the Giants, and Wilbert Robinson, manager of the Brooklyn were among them.

McGraw and Robinson were sold in 1906 to the St. Louis club for a price reported to be \$15,000. The sale displeased both men.

When the American league invaded

## On the Other Hand—

By GROVE

What is Pete Herman trying to hand us?

At Madison Square Garden the other night he let old man Johnny Buff wallop him all over the mat.

He let Joe Lynch have the belt before he left to clean up Jimmy Wilde in England and then came back and slammed Lynch for all the goals known in fistic circles.

The odds were against Buff at the square match.

Now watch Herman come back and slam Buff out of the ring in a repeat match!

Somewhat the smoke seems heavier in Pittsburgh these days.

Know any animal trainers looking for a job? Charlie Graham, manager of the San Francisco Seals, has stepped out.

## Compulsory Gym

The general interest in gymnastics and outdoor sports is becoming so great in Germany that the national commission on physical exercise is drawing plans to present to the Reichstag for enacting a law providing for the compulsory gymnastic training of its citizens.

Although Germans have always stood high in gymnastic work, they evidently have learned from the American fighting spirit the benefit derived from outdoor games.

Now is the time of year the Dear Sweet Thing steps right up in front of the football hero, and prays he'll step on her.

## Elaborate Stadium

According to Allen Muhr, French assistant commissary, Paris is planning the greatest stadium ever for the 1924 Olympic games.

Muhr is in this country on a tour

Year	Position	Year	Position
1902	2	1912	1
1903	1	1913	1
1904	1	1914	1
1905	2	1915	1
1906	4	1916	1
1907	2	1917	1
1908	2	1918	1
1909	3	1919	1
1910	1	1920	1

## HOME RUN RECORD IN MAJORS SHATTERED

Sluggers Have Piled 924 to Date As Compared With 631 in 1920.

NEW YORK, Sept. 29.—With only a few major league games to be played, the season's record of home runs in the National and American leagues is close to 300 more circuit clouts than were made in 1920.

The present year's total to date for both leagues is 924 home runs against 631 made during last year's entire season.

American league players so far this year have walloped the ball for 476 home runs against 370 last year, and in the National league 444 have been hit to date, as compared with 261 in 1920.

The Paris stadium will be made of a series of small stadiums, all within one vast amphitheater. In one section will be conducted the track and field events, another will take care of gymnastics and games, and a third will hold the tennis, swimming and boxing contests.

This will avoid crowding of events and the spectators may witness any special event they are interested in without sitting out the entire program.

## Left Earful.

He tried to steal the second sack and landed with a slide. But found out when the Gust had cleared.

That it was occupied.

## Right Earful.

He yearned to play at Harvard. And he yearned to play at Yale. But the only game he ever played was checkers in a jail.

# It took YEARS and YEARS to develop CAMEL QUALITY

We worked on Camels for years before we put them on the market. Years of testing—blending—experimenting with the world's choicest tobaccos.

And now, EVERY DAY, all our skill, manufacturing experience and lifelong knowledge of fine tobaccos are concentrated on making Camel the best cigarette that can be produced.

There's nothing else like Camel QUALITY. And there's nothing else like Camels wonderful smoothness, fine tobacco flavor and freedom from cigaretty aftertaste.

That's why Camel popularity is growing faster than ever.

A better cigarette cannot be made.

We put the UTMOST QUALITY into THIS ONE BRAND.

### Wichita Hi to Play Bowie Saturday in First Contest For Interscholastic Honors

The Wichita High school football team will start its journey to the interscholastic championship of the state next Saturday when the squad lines up against the Bowie High eleven in Bowie. After their wonderful showing against the Vernon aggregation at Athletic Park last week, the boys can see nothing but victory ahead as the Bowie squad is not expected to be as strong as Vernon.

However, Coach Harbaugh is not allowing his charges to lay down and become too confident as he realizes that the supposedly "weak" squads are often the ones to upset the dope. He is drilling them to the limit every day and having some unforeseen accidents between now and the day of the game every man on the squad should be in fine trim. They had a stiff session yesterday on the Junior High grounds and all came through unscathed.

The state has been divided into districts, but the districts comprise so many counties that it was necessary to sub-divide these again. When all scheduled games in the sub-districts have been played the respective winners will meet to decide the district champion and the district winner will then meet the winner of the other district until the interscholastic champion has been determined.

**Six Teams in Sub-District.** Electra, Burkburnett, Bowie, Henrietta and Graham are included in the sub-district with Wichita Falls. The schedule mapped out is as follows:

Oct. 1—Wichita Falls at Bowie; Henrietta at Electra; Burkburnett at Graham.

Oct. 8—Electra at Wichita Falls; Burkburnett at Henrietta; Graham at Bowie.

Oct. 15—Wichita Falls at Burkburnett; Graham at Henrietta; Bowie at Electra.

Oct. 22—Graham at Wichita Falls; Electra at Burkburnett; Henrietta at Bowie.

Oct. 29—Wichita Falls at Henrietta; Electra at Graham; Bowie at Burkburnett.

**Electra vs. Wichita Big Game.** Thus, the local team will play only two contests at Athletic Park, meeting Electra here a week from Saturday and Graham three weeks from Saturday. The other three will be played in foreign grounds.

Of the six teams, Wichita Falls and Electra loom up as the strongest contenders. These two eleven have always been the greatest rivals in this section of the state and usually put up their best game when meeting one another. The Wichitans are fortunate in having the contest scheduled for Athletic Park and all records for local football attendance should go by the boards when they clash.

The manner in which the schedule has been drawn up leaves two Saturdays in November open, upon which takes the winners of the sub-districts will meet to determine the district champion.

### SPORT SHOTS

Nothing to worry us now but our Yankees and we won't lose much sleep over them. The Cats came through as we thought, though we did not believe they would trounce the Chicks so decisively.

Joe Pate can have just about anything he wants in Fort Worth now. He's entitled to it. The Memphians crossed home plate just three times in the 27 innings he worked against them.

It was erroneously stated in this column yesterday that the Yankees needed only two victories over the Athletics to clinch the bunting. They need three provided the Indians make a clean sweep in Chicago. Should they win only two while the Indians were winning four the Speaker clan would lead by three points.

If the Cats had won the opener and topped the second game on their own the players would have undoubtedly made more money. There was a difference of approximately \$2,000 in the gate in the two games.

While on the topic of receipts—how would you like to have a small percentage of the money that will be turned away if the big series is held at the Polo Grounds?

If the Indians don't win (and, of course, they won't) they have any number of alibis and they're all real ones too. Starting way back at the spring training camp, Bill Wambegans broke his wrist shortly after Harry Lamb, who went in to fill the gap, injured himself and was of no use all year. Steve O'Neill smashed a thumb and was out for a month. Injured by hurt his back, Matis suffered with a sore arm and Coveloski strained his side. Then, last but not least, Speaker banged up his knee and was forced out. It's a wonder that they have done as well as they have.

Lee Fohl managed the Indians not so long ago. The reason given for his being canned was that he ordered one of his hurriers to pitch to Ruth rather than pass him on a certain memorable occasion. In the recent "little world's series" Speaker allowed his hurrier to pitch to the bambino and he belted out a brace of circuit smashes and a double, practically winning the game alone. Still, we think Tris will be back on the job next year.

It has been reported all year that there was friction on the Yankee club between Miller Huggins and his men, but there was no open break until Walter Hoyt was hurled the other day. He stopped a hot liner with his bare hand and Captain Peckinpaugh and Ruth wanted him taken out. Huggins couldn't see it and ordered Hoyt to be taken out. Hoyt had to be taken out, but not until all the Yanks had openly voiced their disapproval. Prospects for Huggins' retention as manager next season are none too bright.

The local high school football team has the right spirit at last. In years gone by they have simply gone out onto the gridiron in a matter-of-fact way, apparently caring little as to whether they won or not. It was not

### TWO STARS OF THE SMOKY CITY

#### TOM DAVIES

STAR HALF BACK AND CAPTAIN OF THE STRONG PITTSBURGH UNIVERSITY TEAM

Old Pop Warner can always be depended upon to turn out a winning aggregation but with the material at hand this season the Pittsburgh Panther promises to come across with a gridiron out-difference of approximately that which swept through four unbeaten seasons.

Tom Davies, the fast, battering half-back, will captain the team and Davies, as a player, leaves mighty little to be desired. As an open field runner this boy is like a top, he constantly twists his way forward. Davies was the star of the Pitt backfield last season and he should be even better this year.

Then there's "Hippo" Hewitt! Hewitt looks like a wrestler who is overweight but he is extremely deceiving, for despite his bulk he is, really fast. Hewitt plays fullback and hits the line like Babe Ruth hits a baseball. This boy is a junior, 20 years old and weighs 210 pounds. He comes from Wilkesburg, Penna. Last season was his first year on the team. Not only is he fast on his feet but he interferes for other runners almost as well as he hits the line, and he is a demon on defense.

"Hippo" won the Georgia Tech game for the Panthers last year by his wonderful line plunging—coming from behind

#### HIPPO HEWITT

PANTHER'S 210 POUND FULLBACK HE HITS A LINE LIKE BABE RUTH HITS A BASE BALL

WHEN HIPPO'S 210 POUNDS HITS A LINE THERE'S NO STOPPING HIM

in the last quarter with a touchdown against them. Then without the slightest effort to deceive the enemy Hewitt, by six consecutive plunges varying from tackle to tackle, did what the entire Pitt team couldn't do by scientific plays in three quarters—tore the big Georgia Tech line full of holes by brute strength!

Under Pop Warner's schooling Hewitt should rank as one of the greatest full-backs of the game before his college career is ended.

That is above the average. Help them bring home a title. Nobody likes to play to empty benches.

During 1920, 18,671 flights were made in the work of civil government flying under the direction of the Canadian air board.

**Discovers Marathon Runner.** NEW YORK, Sept. 29.—Homer Baker, former international half mile champion, who is government athletic director in the canal zone, declared in a letter received by a friend today, that he has found a Marathon runner who may be developed for the next United States Olympic team.

The discovery is White Feather, full blooded Indian from the same tribe as the great Tom Longboat. White Feather is with the United States army troops in the canal zone.

**Barren Merit Walker Today.** NEW YORK, Sept. 29.—The field in the professional golfers' championship tournament had been reduced to eight when play in the third round opened at the Inwood Country club today. Interest centered in Gene Sarazen, who beat Jack Hutchinson, British open champion, 5 up and 7 to play yesterday. He was matched today with Cyril Walker of Englewood, N. J.

Window glass at Decorators. 124-71c

### BABE RUTH CONFINED TO BED WITH GRIP,

Sultan of Swat Out of First Game in Philadelphia But Will Be O. K. For Big Series.

NEW YORK, Sept. 29.—Babe Ruth is confined to his bed at his hotel here with an attack of grip which will prevent him from playing with the New York team against the Athletics at Philadelphia today, according to the New York Evening World.

The heavy hitting Yankee is believed to have caught cold while motoring with his wife in his favorite roadster. Last night he complained of chills and fever and his physician, after summoning two other doctors, ordered him to bed.

The possibility that Ruth might be unable to participate in the coming world's series was ridiculed at league headquarters.

Ruth's illness became known when he failed to join Manager Huggins and his teammates at 11 o'clock to board the train for Philadelphia.

Mrs. Ruth at her apartment said that besides the cold Ruth was suffering from nervous troubles.

"Chick" Weaver is expected to replace Ruth in left field today.

**NURSE DIED FROM SHOCK WHILE OPERATING MACHINE**

CHICAGO, Sept. 29.—Mrs. Winifred Bagley, a nurse employed by a dental company during the past part of progress here, died from an electric shock from an X-ray machine she was operating and not from heart disease, a coroner's jury has decided. Her husband has instituted suit for \$10,000 against the dental company.

## Pay No Money! Collect No Money! Bicycles Delivered As Soon As 35 Subscriptions to The Wichita Daily Times Are Verified

### The Ranger

Long known as the best built, most serviceable bicycle obtainable anywhere. The Ranger which you will receive will be completely equipped all ready for you to hop aboard and "step on 'er." Every bicycle is guaranteed for five years and carries an insurance policy for six months' repair of accidental damages. Loggia Carrier, Bicycle Stand, "Motorbike" Handle Bars, Electric Headlight, Hand Horn, Tool Kit, "Samson" Red Velvet Non-Skid Tires.

## This Is Open 'Till November 1, 1921

### Conditions of the Offer

Subscriptions must be secured for six months and turned in to The Times office for verification between now and Nov. 1.

Those from whom subscriptions may be taken are all those people who are not now having The Times delivered to their homes by an authorized Times carrier and have not had The Times so delivered for thirty days preceding the date on which order is secured.

Mail subscriptions will be accepted at the regular mail subscription rates with the understanding that the subscriber is to remit for the full six months upon receiving a statement for same from The Times Publishing Co. These mail subscriptions will not be considered as verified until this payment has been made.

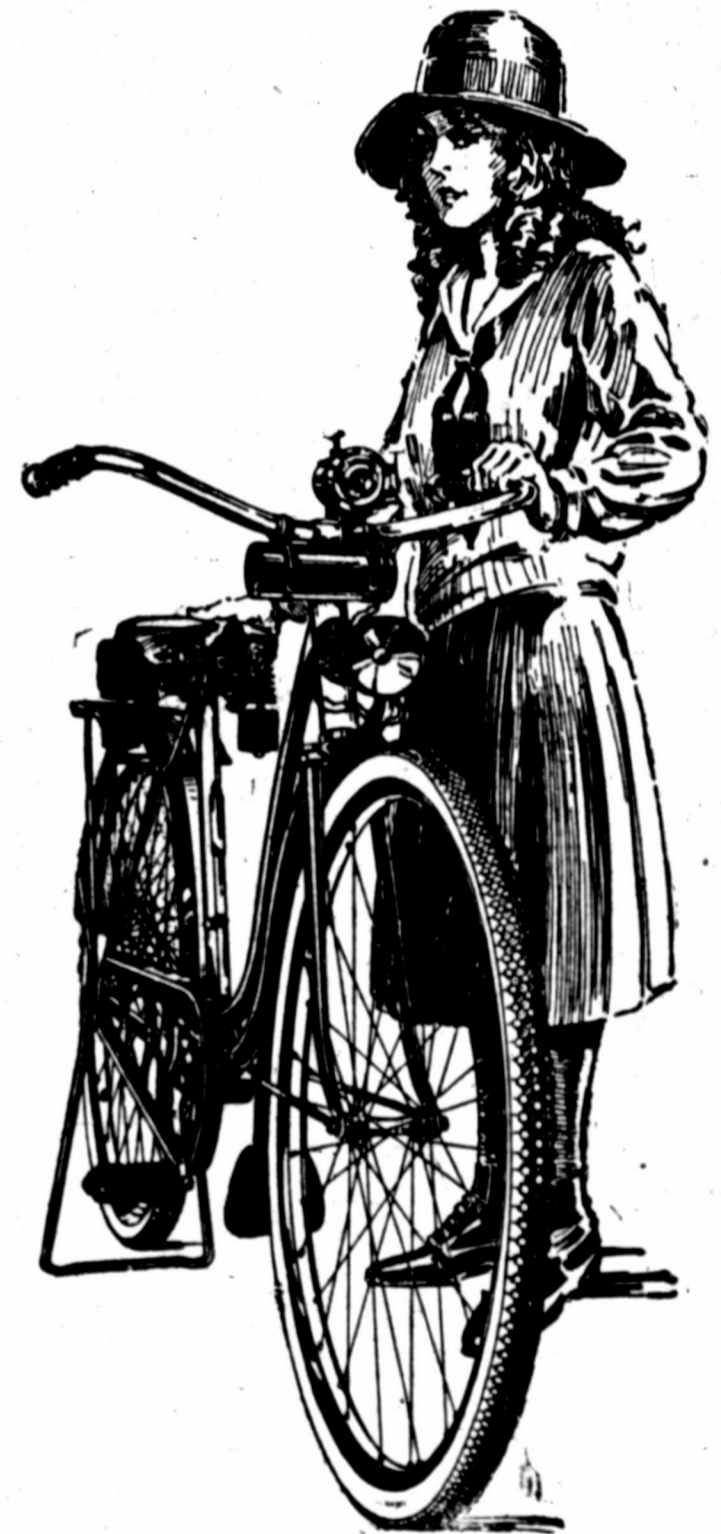

Each winner will be presented with a "RANGER" Bicycle immediately after verification of the 35 subscriptions. The Mead Cycle Co. will ship the bicycle by prepaid express direct from the factory in Chicago, guaranteeing safe delivery in perfect condition. Every "RANGER" is guaranteed for five years and carries insurance for six months' repair of accidental damages. A postal to Mead Cycle Co., Chicago, will bring you the "Ranger" catalog with full details of each model.

Workers are not limited as to age or sex. Men and women will have their choice of full sized bicycles for themselves or the boys' or girls' models.

## Pay No Money! Collect No Money!

### Important Notice!

Don't wait until your entire book is filled. Send or bring your subscriptions in as fast as you secure them so that we can verify them promptly and start delivering the papers. Bear in mind that you only have to get 35 verified subscriptions and we will deliver the Ranger from our office or the Mead Cycle company will send it direct from Chicago, all charges prepaid. The Ranger "Motorbike" for boys or the "Ranger Superbe" for girls.

## GLASS-MAKING AND HOME BREW SUBJECT OF ROTARY LECTURE

A history of glass-making, a history of home-brew and a discussion of their relations, each to the other, constituted an enjoyable talk by Tom Smock at the weekly luncheon of the Rotary club Thursday.

Mr. Smock said that the 80,000 quart jars manufactured daily by Hall Bros. plant could contain enough white wine to furnish 2,400,000 drinks; he gave other statistics equally illuminating. The speaker gave some interesting data on the origin of glass making, before the time of Christ.

Fire Chief McClure called attention of Rotarians to "Fire Prevention Day," Oct. 19 and asked their co-operation in making the occasion a significant one. Mayor Cline seconded the chief's remarks on this subject.

"The Rotary Spokesman" was chosen as the name for the weekly publication recently started by the club.

### CICERO SAPP

BY FRED LOCHER

## EVERYBODY HELPS ON CALL FIELD TEST EXPENSE IS SMALL

Lumber yards, refineries, land owners and drilling contractors are to join in the drilling of the test at Call Field. Lumber for the derrick is being contributed by lumber yards, fuel oil for the boilers by the refineries, land for the test by the landowners, services by drilling contractors and oil men and about the only money that will be required will be for the pay of the drillers.

C. T. Boaz, who is in charge of the drilling of the well says that only about \$2,500 will be required to drill to a depth of 2,000 feet. Most of the money, he says, has already been raised.

Cyrus Edwards, geologist, who made the location, believes the indications are favorable for the discovery of oil.

## Health Officials Buy City Machines, Then Swap 'Em In

"This city has got three plutocrats working for it anyhow," a police official remarked Thursday morning as a trio of health department officials strutted from the city hall, climbing into three resplendent automobiles and drove away with a collective air of dignity that would have done justice to a United States senator.

The health officers lost on time after the city council voted last Monday to sell the three old city cars and Dr. A. H. Douglass, head of the department; Dr. L. I. Lucey, food and dairy inspector; and Herbert Jackson, quarantine officer, have now swapped the old machines in on higher priced vehicles.

One of the officers who graduated from a Ford, the old city car, to a auto of greater social standing, baptized his new pet by jarring a traffic guide post loose from its moorings Thursday morning. Neither the car nor the post were damaged.

## FORMER PRESIDENT OF THE SWISS FEDERATION DIES

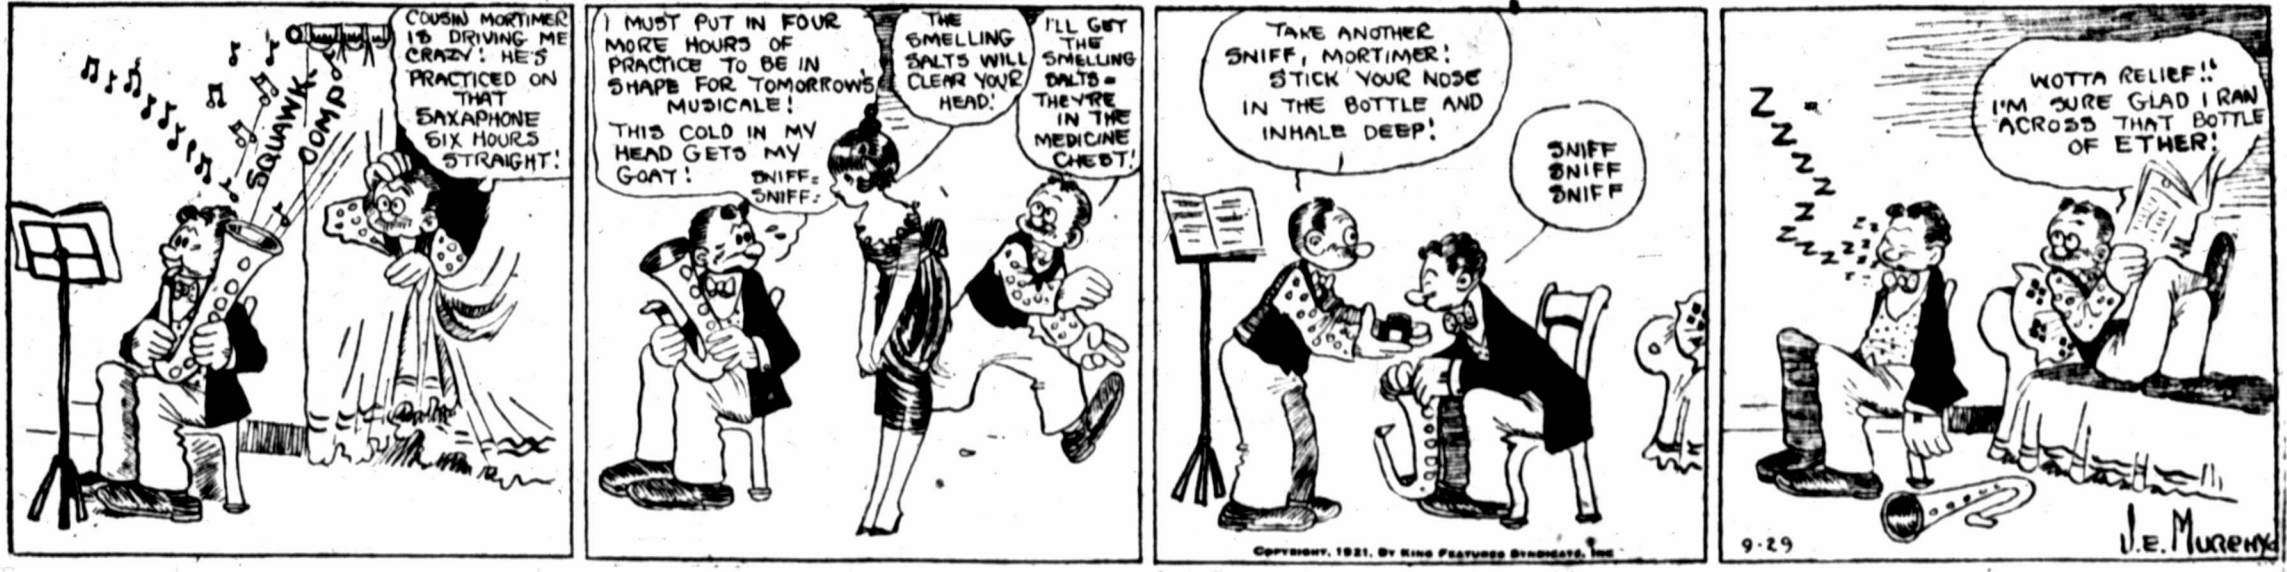

BERNE, SWITZERLAND, Sept. 29.—Louis Forrer, twice president of the Swiss confederation, is dead, it is announced here.

## Could Eat Nothing Without Distress

"I could not eat anything without great distress, and weighed only 129 pounds," said Mr. Thomas Anderson, residing at 419 Lindw St., Winston Salem, N. C. "I also had a chronic cold," he continued, "for which I had tried numerous medicines without benefit, until I was advised to try Mendel's Number 40. I improved from the start and am now on the fourth bottle; my cold has left me and I can eat anything I want and my weight has increased to 154, my usual weight. If anyone needs a medicine that will build him up and put his blood in good condition, he should certainly try 'Number 40.'"

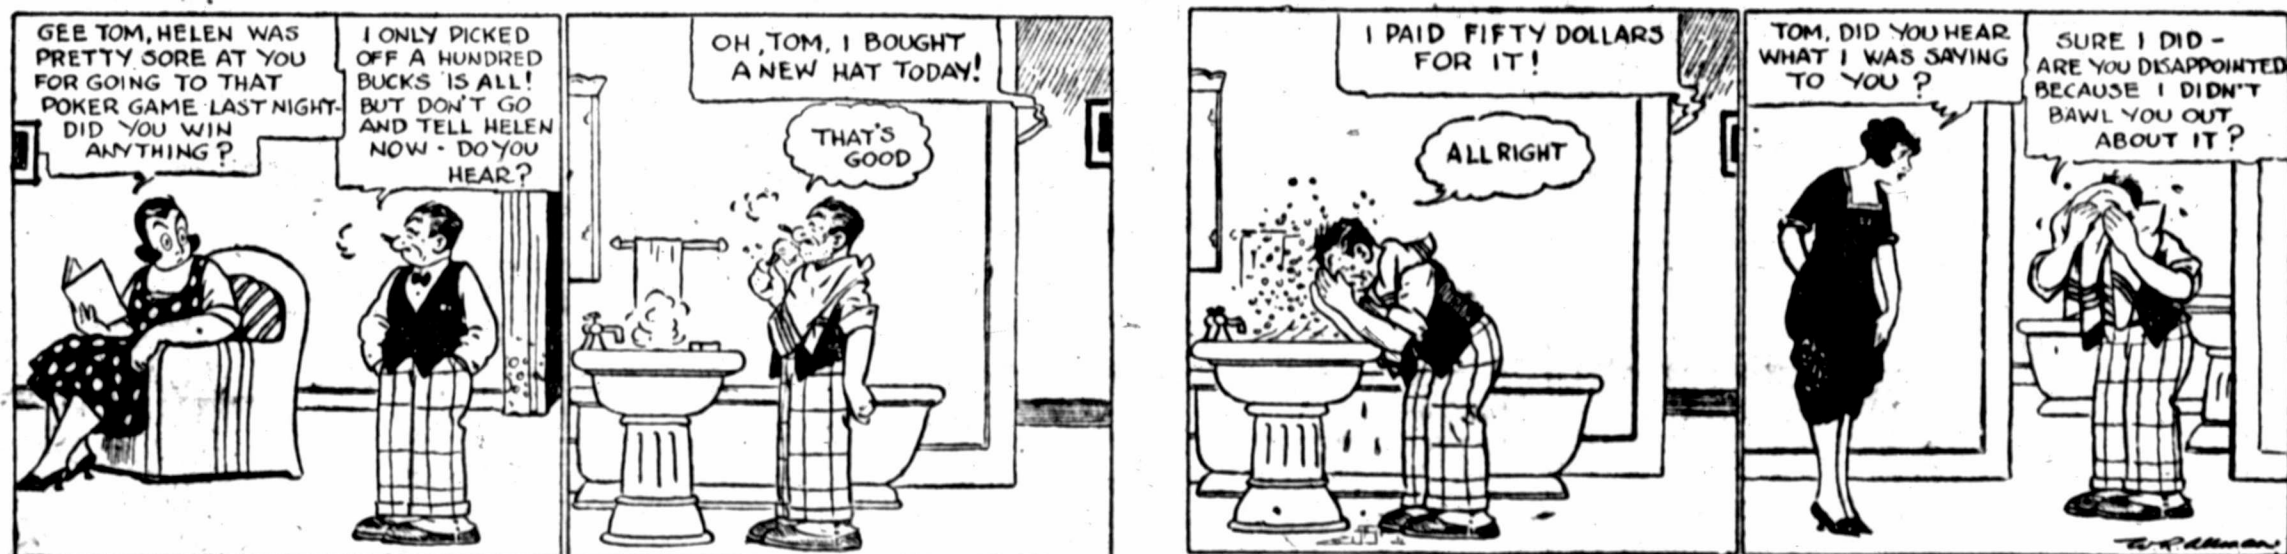

"Number 40" is recommended for blood troubles from any cause; chronic constipation, rheumatism, indigestion, eczema, skin troubles, etc. Acts on the liver, removing waste matter from the system, thus clearing the blood of all impurities and doing away with the need of cathartic pills and tablets. Sold by Palace Drug Store.—Adv.

### ENCOUNTER NEW PAY IN TEST AT ELECTRA AT 1820 FOOT DEPTH

Heydrick-Bridwell-Donovan No. 5 on the Waggoner tract in the South Electra field has encountered a new sand at 1820 feet, giving this part of the district another producing sand to add to the many other oil bearing strata in the Electra pool. The top of this sand was encountered at 1820 feet, and was drilled 12 feet and showed gas and considerable oil. Casing is being set at 1824 feet.

The above company has four other wells on this land, producing from the 1440 and 820 foot sands. Including this last at 1820 and a shallow sand at 350, this property has four commercial strata.

### GET CONTINUANCE ON SIX CASES ON APPEAL FROM CITY

On motions to quash, Attorneys Mathis and Caldwell Thursday morning secured a continuance of six criminal cases on appeal from the city that were scheduled for trial in the county court at law for Thursday.

The possibility looms that the complaints will be quashed although the matters were taken under advisement by Judge Guy Rogers. The cases have been reset for Monday morning, October 2, when a ruling will be made on the motions.

The cases included four vagrancy cases and two gaming cases. The attorneys raised the objection on four of them that the complaints were not properly filed and that no file marks from the city court appeared on the papers. In addition to this objection the attorneys also raised the question on one that the signature of George Thorburn, the city clerk, was a forgery.

Specifically mentioning the other two complaints and applying to all six cases, the defense attorneys contended that F. A. Thomason does not possess the jurisdiction of administering an oath.

The attorneys contend that Thomason was appointed a deputy city clerk by the city council on September 1 and fixed his bond at \$1,000. They maintain that, to cite Mr. Thomason has not filed his bond and has not taken his oath of office.

The attorneys also pointed out that invariably no written complaints are made in the city court on any cases until the cases are appealed, when the papers are then fixed and dated back to the date of judgment.

### BURKBURNETT HAS LEGION AUXILIARY

Temporary Organization is Completed And Officers Elected Wednesday Evening.

The Burk Burnett American legion auxiliary completed temporary organization and election of officers at a meeting Wednesday evening when the following official roll was authorized: Mrs. John G. Humphreys, president; Mrs. C. R. Cowles, vice president; Mrs. N. R. Vaughn, secretary; Mrs. W. M. Major, treasurer, and Mrs. A. B. McBride, chaplain; historian to be selected later.

The Burk Burnett auxiliary opened a two days' membership campaign, to close at 10:30 Friday, when names of members are to be telegraphed to Indianapolis for credentials.

Friday evening the Burk Burnett legion and auxiliary will have a joint meeting, when results of the membership campaign and other matters of interest to both organizations will be discussed and plans made for the coming month's work. "Ma" Burdick of Wichita Falls will be a speaker of the evening, and other visitors are expected from the Wichita Falls legion and auxiliary. As a social feature of the meeting, home-made cakes and home-made ice cream will be served, and several cakes will be auctioned off to add to the entertainment and to the auxiliary coffers.

"Habitues invited. All women eligible to membership in the legion auxiliary are especially invited and urged to attend this meeting and talk over membership.

### SCANTILY CLAD, IN MEN'S CLOTHES TAKES RIDE ON HORSEBACK

A woman, described by the police as being "a prominent resident of the flats," was arrested Wednesday night when Officers Reicher and Hackney found her riding a horse wildly through the district east of the tracks. She was scantily attired in men's clothing.

Charges of vagrancy were filed against her at the police station and she spent the night in jail, being released Thursday morning under bond.

Three other women were taken into custody on vag charges, this being the largest number to be arrested on such complaints in a single night for some time.

No thefts of any kind were reported during the night.

### Better Lunches This Year Than Ever Before

The large number of Thermos and Icy-Hot kits we have sold recently indicates that Wichita Falls school children this year will be better fed than ever before.

Their noon lunches will have that so necessary ingredient—a hot drink. Nothing that's sold, no matter how refreshing and nourishing, can take the place of it. We haven't very many school kits left. Better come early.

### HOPEFUL VIEW OF BOUNDARY CASE IS TAKEN BY ATTORNEY

Judge R. H. Ward, special assistant attorney general of Texas, who has been attending the Red river boundary hearings in Oklahoma, was in Wichita Falls Wednesday to confer with Attorney General Cretton, who is here in connection with the case.

Judge Ward takes a very hopeful view of the case, and feels that the "island theory" upon which Oklahoma and the federal government are basing their claims can be successfully controverted by the evidence which Texas will adduce.

After the series of county seat hearings, the final hearing for the Texas side is scheduled to start at Austin October 12, Judge Ward said.

The great mass of evidence taken in the case may be judged from the fact that already the transcript includes 4,000 typewritten pages, with the Texas evidence to be taken and written.

Judge Ward planned to leave Thursday afternoon for Washington.

### CONTRACT FOR MONUMENT FOR LATE JAKE L. HAMON

ARDMORE, OKLA., Sept. 29.—A five thousand dollar tombstone will grace the grave of Jake L. Hamon, republican national committeeman who was killed here last November, according to Frank L. Ketch, administrator for the Hamon estate, who has let the contract to a Chickasha firm. The stone will be a simple monument bearing only an epitaph and the name of the deceased.

### LEAVE ON INSPECTION TOUR OF W. F. & N. W. SYSTEM

F. W. Grace, superintendent; D. C. Dobbin, trainmaster, and F. P. Hirt, district agent, left Wednesday afternoon on a motor car for an inspection tour of the entire system of the Wichita Falls and Northwestern railway. They will not return until the first of next week.

### MOTHERS

Houston, Texas.—"I consider Doctor Pierce's Favorite Prescription a wonderful tonic for women. It has been of especial benefit to me during motherhood and I have taken it ever since. I was very high to other young mothers," Mrs. WILLIE McNEELY, 2113 Common Street.

Beasley, Texas.—"During expectancy I have always taken Dr. Pierce's Favorite Prescription as a tonic and strengthening agent, and in each case it has proved to be a wonderful comfort and help to me. I had practically no suffering, and my babies have been strong and healthy. I believe Dr. Pierce's Favorite Prescription is the best medicine the young mother can take, and I never hesitate to recommend it to my friends," Mrs. IMA CHANCE. Sold by all druggists.

### RANGER BICYCLE ON DISPLAY AT HASKELL

One of the \$60 Ranger "Motorbike" bicycles which The Times is offering to any boy or girl who secures thirty-five new six months' subscriptions is now on display at Haskell, Texas. It can be seen in the front window of F. G. Alexander and Son's grocery store, which is located next door to the postoffice. Mr. K. M. Read, who is agent for The Times in Haskell, will be there most of the time to explain the proposition to any boy or girl who may call. Mr. W. M. Free, traveling representative for The Times in this territory, will also be in Haskell for the next few days and will be pleased to assist any of the workers in every way possible. Encouraging reports are being received from workers all over The Times territory, and indications are that several more bicycles will be shipped direct to winners from the Mead Cycle company of Chicago within the next week.

Honor them with a monument. A. G. Deatherage, 406 Seventh street, Phone 5448, 124-7c

Pathe phonographs and records on terms at Decorators Co. 124-7c

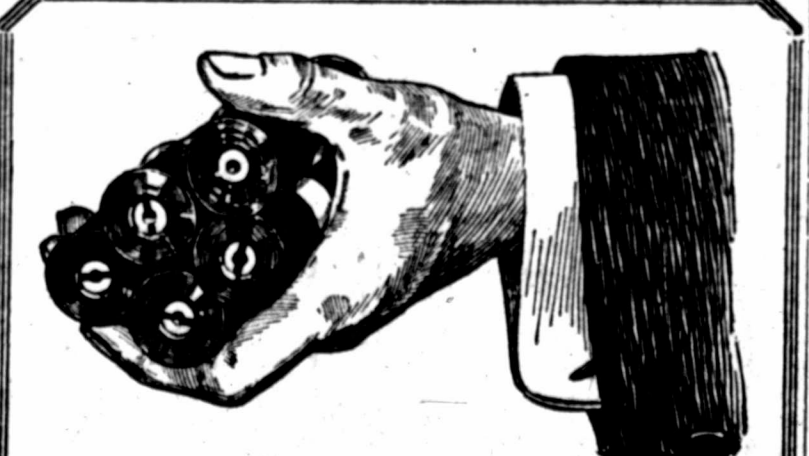

### To Make Rich Red Blood

Revitalize your worn-out exhausted nerves and increase your strength and endurance

take Organic Iron; not metallic iron which people usually take, but pure organic iron—Nuxated Iron—which is like the iron in your blood and like the iron in spinach, lentils and apples. One dose of Nuxated Iron is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It is like taking extract of beef instead of eating pounds of meat. Nuxated Iron is partially predigested and ready for almost immediate absorption and assimilation by the blood, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron filings.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach. A few doses will often commence to enrich your blood. Your money will be refunded by the manufacturers if you do not obtain satisfactory results. Beware of substitutes. Always insist on having genuine organic iron—Nuxated Iron. Look for the letters N. I. on every tablet. Sold by all druggists.
