WASHINGTON, Dec. 16.—The subcommittee on naval limitation adjourned after a three-hour discussion of the French proposal without announcing any conclusion.

By Associated Press. WASHINGTON, Dec. 16.—The French delegation has presented a proposal for an increase in the strength of the French navy and the British declare such a program, if carried out, would upset the whole plan for a 5-5-3 ratio.

Although not yet entirely revealed, the British understand that the French plan provides for the construction of ten 250,000-ton super-torpedo destroyers and six 10,000-ton torpedo boats to be completed by 1925. These vessels, of a type similar to the American battleship Maryland, would give France a capital ship tonnage of 10,000 tons against 21,000 for Japan and a preponderance of new "post-Jutland" type craft over all nations.

Italy, although the British disapproved of such a building program, is said to have told the arms conference that if France constructs such ships she must carry out a similar building program.

The combined French and Italian fleets thus would be some 200,000 tons stronger than the British and American fleets under the revised figures agreed on yesterday by the big three.

STRIKES ARMED CONFERENCE WITH STUNNING FORCE

By Associated Press. WASHINGTON, Dec. 16.—Announcement by British spokesmen that France has asked before the naval sub-committee of 15 for authority in agreement with the other four naval powers to build ten 250,000-ton super-torpedo destroyers and six 10,000-ton torpedo boats at the arms conference today with stunning force.

The proposal was so wholly out of line with the program on which the naval conference has proceeded up to this time that there was a strong inclination in British and American circles not to talk seriously. The feeling was said to rest in part on what Premier Briand said at the second plenary session in regard to the American proposal for naval limitation.

The French premier at that time was understood to have accepted the four principles laid down by Briand in regard to the elimination of all capital shipbuilding programs, actual or projected.

In view of plain statements of the French premier and other officials to the French agreement on those purposes, officials of other delegations that the French have been "backing out" of the conference.

The French proposal, however, swept away even an optimistic aftermath review in conference circles of the moderate American and Japanese naval agreement announced yesterday. It was plain that the opinion prevailed in well informed quarters that the French proposal would lead to a new proposal or any other phase of the limitation conference.

By Associated Press. WASHINGTON, Dec. 16.—Announcement of final agreement between the United States, Great Britain and Japan on the American 5-5-3 naval ratio left the question of capital ships a matter to be determined by the new naval committee of 15 as it resumed today its task of shipping into final shape the prospective five power naval limitation agreement.

ALIED REPARATIONS COMMISSION MAKES A REPLY TO GERMANY

TO BE FORWARDED TO BERLIN TONIGHT BY SPECIAL COURIER.

MAKE ACKNOWLEDGEMENT OF THE NOTIFICATION

Understood Commission Reserves Final Decision On Germany's Request.

By Associated Press. PARIS, Dec. 16.—The reply of the allied reparations commission to the note of the German government announcing its inability to pay the next two reparations installments will be forwarded to Berlin tonight by special courier.

The reply was a simple acknowledgment of Germany's notification that the commission reserving final decision on Germany's request for an extension of the time limit.

REPARATIONS COMMISSION CONSIDERS GERMAN REQUEST

By Associated Press. PARIS, Dec. 16.—The reparations commission met today to consider the note received yesterday from Germany stating that she could not meet in full the payments due January 15 and February 15, 1922, and that she was requesting an extension of time.

The note declared that even with the time extension, payment in full depended upon the success of efforts to obtain a foreign loan.

Customs receipts and revenues from other sources which Germany has intended to use in making the payments had netted only from 150,000,000 to 200,000,000 gold marks each and requesting an extension of time. The note declared that the commission's original order of payment in full depended upon the success of efforts to obtain a foreign loan.

By Associated Press. PARIS, Dec. 16.—Reduced rates on grain products and by in trans-Mississippi territory which the carriers recently sought to have suspended for six months, were sustained by the Interstate Commerce commission today and will go into effect December 27.

The reductions average about 16 1/2 per cent of the 1920 grain rates and are further decreased by the commission's order today which requires that corn and other coarse grains be carried for 10 per cent less than wheat and other broadleaf grains.

Although the order cannot be described as a curtailment, it is regarded in reparations circles as remarkable for its lack of details or expression of regret over its failure to live up to the agreement. For these and other reasons the note has made an unfavorable impression on the British and American spokesmen.

COMPROMISE ON PLAN OF PICKETING FT. WORTH PLANTS

FORT WORTH, Dec. 16.—Strikers and packers, who have been fighting the picketing question in the state and federal courts here for a week following the rioting of a week ago, compromised the question here this morning before Federal Judge Wilson. The strikers agreed to withdraw all pickets except two from each street leading to the packing plants. The packers accepted this compromise.

The pair of pickets will be permitted to carry banners, bearing the inscription "Join us," but they will not be allowed to speak to the workers entering or leaving the plants. All pickets were withdrawn until this afternoon at 4:30, when they will resume their silent operations under the new agreement.

It is expected that proceedings against the strikers in the state courts for the alleged violation of the anti-picketing injunction will be dropped. The case was due to come up Saturday morning.

Further suspension of the rates it was said can be obtained only by court order in the case an appeal from the commission's action is taken by the railroads.

### RESIGNATION OF J. M. ALLEN TAKES EFFECT JANUARY 1

#### U. S. DEPUTY MARSHAL WILL ENTER INTO PRIVATE ENTERPRISE.

### ANNOUNCES CANDIDACY SHERIFF WICHITA COUNTY

#### Charles M. Dodgen Will In All Probability Be Mr. Allen's Successor.

United States Deputy Marshal J. M. Allen, who has held that position in the Wichita Falls division of the United States district court of the northern district of Texas, has tendered his resignation to take effect January 1, 1922. United States Marshal J. A. Baggett has reluctantly accepted the resignation, according to reports received Friday morning.

Mr. Allen has not fully determined his future plans, but stated that no all probability he would enter into a private enterprise that he has had under consideration for the past few weeks.

Upon the request of many of his friends and supporters, Mr. Allen stated Friday that he would enter the race for nomination of sheriff of Wichita county in the democratic primaries this coming year.

Mr. Allen is the first man to announce his candidacy for this office, although it has been rumored for several weeks that there will be at least five in the race for this office.

In all probability, Charles M. Dodgen, a well known resident of this city and a peace officer of this county for many years, will be Mr. Allen's successor. It was unofficially stated that Mr. Dodgen had been appointed upon the recommendation of a number of friends of this city. This statement could not be substantiated any further than an attaché of the court stated that it was very likely that Mr. Dodgen would be the next United States deputy marshal for this district.

Mr. Allen has efficiently served in the capacity of deputy marshal for this district since October 2, 1918, succeeding Robert Goodfellow. Mr. Allen at that time was serving as a deputy under Sheriff Bob McFall and was appointed to that office without application.

During the time that he held this office Mr. Allen spent a large part of his time in running alleged violators of the national prohibition act into custody and succeeded in capturing a large number of stills and consignments of whiskey. He was one of the officers who confiscated the shipment of 1,800 quarts that were found in an empty house on Austin street in this city last April.

Members of the marshal's office at Dallas and other court attachés and his many friends regret to hear of Mr. Allen's resignation, and it was stated that Mr. Baggett was reluctant in sending the acceptance.

### CHARGES BIG FIVE PACKERS ARE ABLE TO RULE MARKET

#### STATEMENT IS MADE BY FORT WORTH MAN AT WASHINGTON.

### MORE THAN TARIFF TO MEET THE SITUATION

#### Control Plants of World, Particularly Those Located in South America.

WASHINGTON, Dec. 16.—The "big five" packers by use of their South American product, are able to "manipulate and control" the American meat market, George W. Armstrong, a cattle raiser of Fort Worth, Texas, said today before the senate finance committee, urging a duty "to cover all the products of the steer, beef, hides and the live skin."

"The packers can put the market up or down as they please," Mr. Armstrong said, "by bringing in beef from South America and manipulating the market. If we (the cattle raisers) are not good they will use the South American product to control the situation here. I am not unfriendly to the packers. They are no worse than any other man."

"I do say, however, that the power to manipulate the market is too much power for them to have. They control the packing plants of the world, particularly in South America and I think the government will have to go further than the tariff to meet the situation."

The witness said there should be regulation of the packers and that they should be required to do the retailing, adding that "the retailers undoubtedly are doing most of the profiteering."

Mr. Armstrong urged protection against possible shipments of beef from Colombia where, he said, it could be produced at a cost of 2 or 3 cents a pound on the hoof as against a cost of from 7 to 10 cents in the United States.

No beef is coming from that country now, he said, but with the cattle there in large numbers it was understood that the American "big five" packers would erect packing plants there.

"The unprecedented censorship involved by the bill itself is more than sufficient warrant for its defeat. Its embargo on such news required for the proper information of business interests is a strong additional reason. The bill's vicious character should be impressed upon senate judiciary committees that its defeat will be assured."

"It is pointed out that it would outlaw even the publication of baseball scores."

Mr. Williams closed his statement by calling on publishers to make a "determined demonstration" before the judiciary committee in Washington, Jan. 10, next.

**TURN BRIGHTER PAGE  
IN WORLD'S HISTORY  
DECLARES COL HOUSE**

**IRISH QUESTION IS PUSHED  
INTO THE BACKGROUND  
BY CONFERENCE.**

**AT THE MOMENT CHINA  
CENTRAL DISH AT FEAST**

**Washington Has Been Likened To  
An Old-Fashioned Camp  
Meeting.**

By COL. EDWARD M. HOUSE,  
(Copyright Public Ledger News  
Service.)

PHILADELPHIA, Dec. 14.—There are record breaking days—days that illuminate the right side of life's ledger. For seven years, from August 1, 1914, there was no lack of interest throughout the world, for records were then also being made every week, but nearly all of them were registered on the left side of the ledger and to blacken it for all time. We now appear to have turned a brighter page, and let up hope we may register enough helpful and forward-looking deeds to justify measurably our right to continued existence. The Irish peace pact is still the outstanding recent accomplishment; but it is being pushed into the background by the happenings at Washington. To bring the British and Irish together into a friendly understanding was one of the most difficult feats of which history has record. All the evil human emotions were in full swing at London: hate, distrust and racial antipathy were there, toughened by centuries of growth and seasoning. It was an appalling undertaking, but it finally has come through to the honor of each side, for necessarily there were heart burnings and compromises of which we may never know.

On the other hand, Washington has been likened to an old-fashioned camp meeting, where the most hardened sinner has caught the spirit of religion and is lifting his voice in halallelujah. Even the scholarly and eloquent Lodge apparently has forgotten that there is such a thing as entangling alliances and has been chosen to lead the chorus

in the four-power treaty. It is an exhilarating sight and one worth living to see, after what we have gone through. The clear and subtle-minded Root is pointing the way toward an accommodation regarding China and her manifold questions which seems to be acceptable to all the powers involved. This is by odds the most difficult problem to be solved, for around it the others revolve. A reduction of naval armaments may be discussed, but merely tentative agreements can be reached until the powers concur upon a policy relating to China. That is the crux of the Pacific problem. It seemed when the conference first was called that China would be the nation that would be least satisfied with the final outcome, and this is now more certain than ever. China is not in a position to demand or threaten, and her representatives know, as indeed do their more powerful colleagues know, that they must accept what is given. Some day China's four hundred millions will rise and sweep their alien masters into the sea, but the time is not yet.

At the moment China is the central dish at the feast, and she must permit for a while longer those sitting at the table to partake of the nourishment she offers. Her strength at present lies in the determination of all that no single one shall take greedily more than his share.

The island of Yap, that small disturbing dot in the broad expanse of the Pacific has ceased to be a point of friction, and has yielded to the benign influence of the international revival. Russia and Germany are not at this party, being overlooked purposely when the invitations were sent out. However they could not have come usefully for they have compelling reasons which keep them at home. Nevertheless it is safe to say they are watching with deep interest and are wondering when and how they may come in. Their absence and the causes which brought it about will be another incentive for them to unite and some day make common cause for what they assert to be their rights.

But that is not to worry over now. Let us be happy at the way our part of the world is moving and let us fill our hearts with the hope that at least a new and better day has come.

NEW YORK, Dec. 14.—Thomas F. Smith, secretary of Tammany Hall and former representative in congress, was reported last night to be recovering from an operation he underwent last Tuesday for intestinal trouble.

**SAY WOMAN HAS  
AN IRRESISTIBLE  
MURDER OBSESSION**

NEW YORK, Dec. 14.—Mrs. Lillian S. Raisen, who last Saturday shot and killed Dr. Abraham Glickstein at his Brooklyn office, may face a jury and defend her life on the ground that she acted as the result of an "irresistible murder obsession." This was indicated by the fact that four specialists today were examining Mrs. Raisen, seeking, by following the theories of Freud, to determine the obscure causes which may have prompted her deed.

Courts of justice have heretofore avoided the mysteries of psychoanalysis, as it is now generally understood, but developments in the case of Mrs. Raisen today are believed to forecast the possible invasion of this realm by those who are charged with defending the self-confessed slayer.

Taking Mrs. Raisen's story as the basis of their work the specialists were attempting to learn something of the operations of the woman's mind. She told of wrongs inflicted upon her years ago by Dr. Glickstein, of his seeming hypnotic influence over her and of an operation at his hands which deprived her permanently of the possibilities of motherhood. "Travel was believed by a physician whom she consulted to present a chance for her to recover her mental balance, but new scenes and new interests, she said, failed to erase from her mind the memories of the past or remove what psychiatrists describe as the "vengeance complex."

Instead of resorting to psychoanalysis, her attorneys might have asked for the appointment of a commission of alienists who would have sought to determine whether she is at present sane. If she realized the nature of her act in taking Dr. Glickstein's life. A finding that the woman was insane would result in an order sending her to an institution. Such course, however, appeared today to have been abandoned in favor of bringing the Freudian theory into court.

**MUST PAY LIFE INSURANCE  
OF MAN WHO WAS HANGED**

ATLANTA, Ga., Dec. 14.—The fact that a man has been hanged does not invalidate an insurance policy which carries a clause mak-

ing it incontestable for any cause after a year, the state court of appeals has decided.

The decision was made in a suit filed by Floreda Murphy, beneficiary under a policy issued by the Metropolitan Life Insurance company to Willie Reynolds, negro, who was hanged in South Carolina, July 11, 1913. The company claimed among other things that it was against "public policy" to pay such insurance and appealed from the decision of superior court in August, which the appellate court upheld.

ATLANTIC CITY, Dec. 14.—Miss Mary L. Miss Weeks took a stick from an unruly pupil and trying to break it over her knee, lost her balance and fell to the floor, breaking her hip. She was in a hospital for several months and never fully recovered from her injury. It was testified.

Remarkable.

H. A. Morrison, 2517 Brown street, Dallas, Texas, branch manager for the White Sewing Machine Co. for over 20 years, is an enthusiastic champion of Taniac.

"It was reading what others said about Taniac that led me to take it, and so I think it is only right, since it has benefited me, that I should help to pass the good word along. I began to see an improvement in my condition before I had taken half of the first bottle, and after taking two bottles I was like a different man."

"As I had suffered from a long-standing and deep-seated case of stomach trouble, the change in my condition in such a short time was truly remarkable. When it comes to getting a man in tip-top shape and keeping him that way, Taniac hasn't an equal."

Taniac is sold in Wichita Falls by Miller drug store, in Electrica, by Tarkenton Drug Co., West End Drug Co., Burkhardt's, and by all leading druggists.—(adv.)

Other members on the program were a vocal number by Mrs. W. M. Priddy, violin numbers by Mrs. J. J. B. and Miss Marian Maer, and a reading by Mrs. Porter Oakes.

When the salad is served as a separate course, add with the main dinner dish crackers or something of the sort should accompany the salad.

A very simple salad of plain lettuce may have a rather more elaborate accompaniment than a heavy fruit or fish salad. If cheese is a distinctive part of the accompaniment, repeat the flavor in the accompaniment.

The easiest salad accompaniment to prepare uses crackers as the foundation.

**Cheese Crackers.**  
Rub finely grated American full cream cheese with half as much butter as there is cheese. Spread this mixture with paprika and toast just before serving.

**Cheese Squares.**  
One cup soft cheese, two tablespoons butter, two tablespoons soft bread crumbs, one-fourth teaspoon mustard, one-half teaspoon vinegar, one tablespoon minced sweet pepper, few grains sugar, one-eighth teaspoon salt, paprika, squares bread.

Cut bread not more than three-eighths of an inch thick. Cut off crusts and cut bread in two-inch squares. Toast quickly. Mix cheese, butter, bread crumbs, mustard, vinegar, pepper, sugar and salt to a smooth paste. Spread on the toasted squares, dust with paprika and put in a hot oven until the cheese is melted. Serve at once.

**Cheese Balls.**  
Whites two eggs, one-half teaspoon salt, one-fourth teaspoon paprika, six tablespoons butter.

Beat whites till stiff and dry. Beat in salt and pepper and add enough grated cheese to make the mixture the right consistency to form into marbles. Drop in deep hot fat and fry to a golden brown. Drain on heavy brown paper and heat in the oven to serve.

**Cheese Straws.**  
One and one-half cups bread crumbs, six tablespoons milk, one-half teaspoon salt, one cup grated cheese, dash mustard, flour to stiffen, paprika.

Soak bread crumbs in milk for half an hour. Add salt and mustard and cheese and mix thoroughly. Add enough flour to make of the consistency to roll. Turn on a floured molding board, roll to the thickness of one-fourth inch. Cut in strips four inches long and half an inch wide. Bake in a moderate oven for 15 minutes.

Cheese cups are more work to make but so good.

HOW THE MOVIES SET THE STYLES OF MILADY'S COIFFURE

PICKFORD CURLITIS. The fat lady thinks she'll look like Nazimova if she has her hair bobbed like Nani. The Pickford curl used to be the rage. Now it's the Swanson model, the Mac Bush bob's next, or whatever your favorite movie queen wears. Yes, even the men may soon be copying the permanent undulations of the movie hero's hair.

By JAMES W. DEAN. NEW YORK, Nov. 15.—Styles in milady's hairdress were set in the sixteenth century by Benvenuto Cellini, Leonardo, Michael d'Angelo and other artists. In the eighteenth century the Marquise de Pompadour and the ladies of the court of Louis XV were criterion of coiffures.

Today, in the twentieth century, the fashions of hairdress are established by movie actresses. The last statement is founded on data I have gained at first hand in the leading hairdressing establishments of New York. It, no doubt, can be verified in any city of the country where movies are shown and hairdressing shops maintained. Even talking to a hairdresser in a Fifth Avenue shop a woman who was fat and forty, but not so fair, entered. "I want my hair bobbed and fluffed all up like Nazimova's," she told an attendant. "See, that's just an example of what I was telling you," whispered the woman to whom I was talking. "Some of 'em think that all they need to look like some famous wom-

and at the photograph to see that it's being done that way." And at another shop—"We have about 25 actors of the stage and the movies who are regular patrons. Most of them have their hair curled but several of them are having permanent waves put in their hair. One of the latter is one of the best known movie heroes." That's interesting stuff. We poor males may soon be trailing after screen idols in the matter of hair-curl and curls.

DeMille as Stylist. The effect of the movies on clothing styles is generally recognized. Now Cecil DeMille has been approached by the manager of a chain of hotels with a proposition to open clothing shops for women in the hotels. If DeMille would accept such an offer it would not be surprising to see Gloria Swanson, Nazimova, and Mary Pickford starting hairdressing saloons in the hotel shop store and Lila Lee a manicure shop. Eugene O'Brien might start a tonorial parlor for men.

The Two Glazes. The plans of the Gish girls, Dorothy and Lillian, have been reversed. Dorothy has been the star of comedy. Lillian the star of tragedy. In "The Two Orphans" Lillian has a light part while Dorothy plays the role of blind girl. Now Lillian is planning a series of comedies and

Dorothy is going in for heavy drama. Cinemascope. And Betty Blythe is going to try grand opera! Larry Semon, comedian, is known in France as "Zisoto." The first Pathe release for 1922 is Ruth Roland's serial, "White Eagle." More than 200 negroes appear in some scenes in "The Prodigal Judge." Four pictures in production at the Lasky studio employ 250 extras a day. "Any Wife." That's the title given to the picture Pearl White has just completed.

Conceit only begets disaster. That's the moral taught in "The Woman and the Lion," the next Aesop film fable. "The Three Musketeers" was shown at a private little party for President Harding on his fifty-sixth birthday anniversary.

OBSERVE ANCIENT RITES WHEN A CHINAMAN DIES. JUAREZ, CHIHUAHUA, Dec. 14.—When a Chinaman dies in Juarez the ancient rites of his native country are observed. Friends of the dead accompany the body to the cemetery, carrying with them thousands of small pieces of paper, which they scatter along the road to the scene of the body's last resting place. The devil has to gather all the pieces of paper and put them together before he can claim the body according to a Chinese belief, and

by the time he can get all the bits together the body is safe in the grave. Incense is burned over the grave and a rooster is left at the head of the mound for the spirit of the dead to live upon until he gets to the other world.

DEPUTY WEAVER BRINGS IN A MAN AND STILL. Deputy Sheriff Weaver brought in a 20-gallon capacity still and a man Friday morning. The officer states that he discovered the still and arrested the man at a place north of Electra. The still was in operation at the time and 20 gallons of liquor were also brought in as evidence. The man was placed

CATARRHAL DEAFNESS MAY BE OVERCOME. If you have roaring, buzzing noise in your ears, are getting hard of hearing and fear Catarrhal Deafness, go to your druggist and get 1 ounce of Parmit (double strength), and add to it a pint of hot sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal trouble of the ears, is hard of hearing or has head noises should give this

in the county jail to await the filing of a complaint in either the state or federal courts.

### ASKS DAMAGES ON PLEA OF 3 TIME SUIT SAME DEBT

Pleading that he was sued three times in as many months for the same alleged debt, Henry Hudnell has brought action against R. F. George and Sheriff Fred K. Smith in the 24th district court, asking damages in the total sum of \$5,210. Hudnell alleges that on Aug. 19, 1921, he was sued by R. F. George for \$100 in the justice of peace court for ice sold him by the defendant for the months of June, July and August; that on Sept. 6, he was sued for \$200 in the same court for ice sold him by the defendant during July and August; and that on Oct. 11 he was again sued for \$100 for ice and labor furnished him by the defendant for the month of August.

He contends that a writ of attachment was sued out and placed in the hands of Sheriff Fred K. Smith, attaching two auto trucks and that later an attachment took a confectionery and drink stand located in Burkburnett away from him.

He contends that he has been damaged in the actual sum of \$2,170 and further asks for \$2,990 exemplary damages.

### FORMER COMMANDER OF ARMY IN CHIRUAHUA IS GREAT FRIEND OF VILLA

DURANGO CITY, DURANGO, Dec. 15.—General Eugenio Martinez, commander of the Mexican army in Chihuahua, who is given credit for bringing Francisco Villa, former bandit, to peaceful agreement with the government and who also waged several campaigns against "Pancho," is the former rebel's friend now. In fact, he is so close to the ex-bandit that he stood a "compadre," or God-father, to Villa's new son recently. The child is only a few weeks old.

Villa is on his 200,000 acre farm at Canutillo, a few miles from Durango City. He is strong and healthy, weighs 213 pounds and although he has a bad leg, caused by a wound sustained in battle, limps only slightly.

Santiago Meraz, of Albuquerque, New Mexico, and Chihuahua City, Chihuahua, frequently visits Villa. He, as many of the chieftain's other friends, declares Villa is friendly to the Obregon government and that there is no chance of the premier Mexican bandit ever getting back to his old business.

Meraz and his friend, Lorenzo Hubbell, of Ganado, Arizona, are owners of large herds of cattle and sheep in New Mexico and Arizona. They have a deal pending to send Villa several thousand head of sheep and cattle for his farm. A partnership in a cattle deal is rumored here.

When Meraz asked Villa what he did to make his leg so much better, the former rebel, Meraz said, replied, "Oh, I ate lots of chili and salt, and soon I was as husky as ever."

When Villa leaves his ranch he takes from 25 to 50 men with him—followers in his campaign and in whom he places trust. He has ordered uniforms and saddles made especially for them, it was reported.

### FINAL MEETING OF BUSINESS COUNCIL FOR YEAR TONIGHT

Winding up of the work of 1921 and a formulation of plans for 1922 will be matters to consider at the meeting of the business council of the chamber of commerce. The meeting will be called at 7:30 in the chamber of commerce rooms.

This will be the last meeting of the council until after the first of the year, and a full attendance is desired.

### PRISONERS CAUGHT REMOVING BRICKS FROM JAIL'S WALL

An attempted jail delivery at the city hall was nipped in the bud early Thursday night when Jailer Art Blasingsame found two men in the main cell industriously digging away the bricks and mortar from around a window. They were removed to another cell and the damage repaired.

### ALLEGED DESERTER HELD BY POLICE FRIDAY

F. L. Talley, a youth about 20 years of age, was held in the city jail Friday following his arrest yesterday by City Patrolman R. L. Miller. Talley is alleged to have confessed that he is a deserter from the Fort Hill army post.

A message telling of his arrest was sent by local police to the army camp Friday morning, but no answer had been received late in the day.

By MILTON BRONNER. PARIS, Dec. 11.—Madame Jeanne Girard—life imprisonment. Mademoiselle Josephine Dousteau—20 years' imprisonment. Behind these sentences, just pronounced, lies the most dramatic story of love, crime and intrigue told this year in the French courts. "Gentleman" Girard, as he was known because of his dandified dress and polished manners, was a student of chemistry and disease germs. His friends thought it was just a scientific hobby of his. Suddenly Paris police arrested him, his wife Jeanne and his friend, Mademoiselle Dousteau. According to the police Girard cultivated acquaintances, ingratiated himself into their friendship, learned all about their habits, and became a familiar figure in their homes. Then by a strange and sinister fatality those friends became ill. Often they died. Sometimes it was of disease; sometimes of something more mysterious. Various French life insurance companies began to compare notes. The victims were all heavily insured. After the policies were issued Girard proceeded to get rid of the insured either by poison or by slipping typhoid cultures into their food or drink. Fakes Poison. Girard died mysteriously in his cell. It is thought he poisoned himself. But the state proved his guilt. Only in that way could it prove that his wife and his friend were accomplices. Madame Girard heard her life sentence without a change of expression. Mademoiselle Dousteau swooned. The court audience, largely women, cheered.

### ARMAMENT DEBATE FEATURES MEETING OF LIONS' FRIDAY

MINISTER SAYS GERMANY'S  
ECONOMIC POWER IS  
CHIEF FACTOR.

### J. B. HATCHITT REPLIES IN TRIBUTE TO WILSON

Says Present Conference is Large  
in Carrying Out Views Of  
Former President.

Belief that the allied nations in stripping Germany of her military power had created a far more dangerous force than that of the Teuton army and navy was expressed by Rev. J. Lem Keevil, pastor of the First Christian church of this city in an address before the Lions club Friday noon.

Rev. Keevil's talk largely concerned the conference for the limitation of armament and in substance was to the effect that the great powers of the earth, in reducing their own military strength, recognized the fact that Germany was assuming economic and industrial supremacy of the world.

"Stripped of her army and navy," the speaker said, "Germany has turned her entire resources to industry. The result has been that she is fast becoming the leading economic power, and the United States, England and other allied powers have seen that they, too, must give attention to something besides the building of military strength."

J. B. Hatchitt, in taking issue with Rev. Keevil, declared that the disarmament program as now outlined was a victory for ex-President Wilson and his league of nations proposals. Mr. Hatchitt contended that the Wilson league and the present plans both had as their basic principles the fact that all nations must have "community interest" and "international agreements" concerning military and economic affairs.

He stated that he is, and always had been, entirely in accord with the original league proposals and that he could see nothing in the present program but a vindication of the Wilson views.

An open discussion of various phases of political and economic subjects followed the main address.

Announcement that the Lions club charter would probably be issued from national headquarters within a short time, with ultimate benefit to the local organization, was made at the opening of the session by President Morgan.

### Spends Millions To Settle a Debt Made by Prayer

COLONEL HUMPHRIES.

By NEA Service.  
MEXIA, TEXAS, Dec. 14.—Colonel A. E. Humphries, oil magnate, will spend millions to settle a debt he contracted 12 years ago.

The debt is not secured—not even a note figured in it, only Humphries' promise.

Twelve years ago Humphries was sick and almost penniless in Denver. In a prayer he promised his Maker that if his health were restored he would devote all the money he made to religious work.

Today Humphries is the biggest owner of the new Mexia oil fields. His properties are estimated at several millions.

Now Humphries announces he'll make good on his promise. He's started a chain of missions in West Virginia, Ohio and Indiana, and made big donations to churches and libraries.

And he says that's only a start. Artificial arms and legs were made in Egypt as early as 700 B. C.

### INJUNCTION SUIT HEARING AGAINST COUNTY SATURDAY

Hearing of the injunction suit against the county commissioners and Wichita county will be held Saturday morning at 9 o'clock before Judge H. P. Weidon of the 19th district court. County Attorney E. L. Fulton, Assistant County Attorney Wayne Somerville and Attorney Raymond Myers will represent the county.

The suit was brought by the Lone Star and Keystone refineries located along the old route of the Burk Burnett road and they seek to enjoin the county commissioners from establishing a new route for the road through the Freeburg land.

The old route lies past the property of these two companies and they contend that when the bonds were voted that it was understood that this was the route to be taken in paving the road from Wichita Falls and Burk Burnett.

### Trash Fire Sends 4 Fire Companies On Glorious Chase

Twenty-five men and every piece of fire fighting machinery in the city, \$50,000 worth in all, responded to a gloriously mixed up fire alarm Thursday afternoon—a call that ultimately proved to have been inspired by a harmless little trash fire in the 1100 block on Bluff street.

Word of the "fire" was first sent in over the telephone and the P. R. X. operator at the Central station heard that firemen were needed "two blocks from the school house on Eleventh street." As the Alamo school is on Eleventh he transmitted the alarm to box 47 at Tenth and Harrison, the nearest location to the school house.

In the meantime, however, the Central station firemen had been "listening in" on the telephone report and by the time the whistle blew were several blocks away, headed for the Broad and Thirtieth street district where three schools are located.

Number 4 station had done the same thing and when "47" came in stations 3 and 3 lit out for the Tenth and Harrison corners.

Chief McClure took occasion after the whole affair was over, to remark on the advisability of using

the automatic fire alarm system for the turning in of alarms.

"The boxes should always be used instead of the telephone," he said, "for they give the locations right and prevent such things as this."

REED RENEWS HIS ATTACK ON TREATY OF FOUR POWERS

DECLARES PACT TO BE THE "DEATH WARRANT OF CHINA." SAYS PLAN BROUGHT HERE BY JAPAN AND ENGLAND

Also Charges That It Was Agreed To In Advance Of The Conference.

By Associated Press WASHINGTON, Dec. 16.—Declaring the four-power pact treaty to be the "death warrant of China," Senator Reed, democrat, Missouri, speaking in the senate today, expressed the belief that "it was brought here by Japan and England and practically agreed to in advance."

By Associated Press WASHINGTON, Dec. 16.—Renewing his condemnation of the four-power pact begun in the senate yesterday, Senator Reed of Missouri, democrat, irreconcilable of the Versailles treaty fight, told the senate today that the United States had yielded to Japan tremendously important advantage points from which to strike at America.

He added that by the four power agreement the United States had consented to the retention by Japan "of an almost impregnable cordon of potential naval bases for her navy, which virtually would render her immune from attack."

Mr. Reed also pointed out the announcement of the naval reduction agreement saying that "it appears that the United States truckles to Japan." He asserted that while the American government's navy was being cut, Japan would be permitted to retain the great Mutsu, "great floating arsenal, excelling in speed and potentiality."

Only a little has been permitted to dribble out of the secret assistance of the conference, the Missouri senator continued. "But enough has come from the dark mystery of the meetings that it seems the decision of the mind is diplomatically no match for the Oriental in skill and chicanery."

In the course of the discussion the speaker told the senate that he had to stumble over some of the Japanese names because "although I know that the most of them are in the Japanese language, their names are a little ahead of me yet."

NEGROES ARE ARRESTED ON CHARGES OF VAGRANCY Six negro men were arrested early Friday afternoon by City Officers Morgan and Everley and charged with vagrancy. The arrests were said to be part of the police campaign to rid the city of loafing negroes, were all made in a domino parlor in the east part of town.

Police intimated that other arrests of similar nature would be made during the day.

WORD WANTED ON ROBBERY CHARGE IS LOCATED FRIDAY Aubrey Walton, a negro, alleged to have been implicated in the robbery of the F. B. M. department store last summer, was arrested Friday afternoon by City Detective Jack Miller and turned over to police authorities for prosecution.

Walton was arrested when a quantity of merchandise stolen from the store was recovered. He was released on \$1,000 bond to appear before the grand jury, but following his indictment by that body he could not be found. Miller accidentally discovered Walton Friday and took him into custody.

HOUSE ADJOURNS AS A MARK OF RESPECT TO JOHN A. ELSTON

WASHINGTON, Dec. 16.—The house today adjourned until tomorrow out of respect for Representative John A. Elston, California, whose body was found last night in the Potomac river.

A committee of 15 members was authorized to accompany the body to California if burial is made there.

Close friends of Mr. Elston today declared that the note left by the dead representative had not been correctly deciphered. As given out last night, the note declared that Mr. Elston was "in a chain of circumstances that spell ruin, although my offense was innocently made in the beginning."

The words deciphered as "of-fense and innocently," his associates declared, were really "offer" and "unconditionally," making the phrase read "although my offer was unconditionally made in the beginning."

Another error was made, it was declared today in reading "people for project" in the sentence. The correct reading was "people of my district and a worthy project clean and generous."

CHARGE TWO JURIES DRANK THE EVIDENCE LOCKPORT, N. Y., Dec. 16.—The council of churches has called a mass meeting for Sunday to demand better enforcement of prohibition laws as the result of charges made by Sheriff Bigelow that two juries which returned verdicts of not guilty in liquor cases drank the whiskey submitted to them as evidence.

THE ECONOMY BAKING POWDER

CALUMET

Calumet possesses the farthest-reaching baking powder economy. It is the most economical leavening agent. It saves in more ways—and makes more important savings than most other baking powders.

You save when you buy it. The price is moderate—it leaves you money over the cost of high-priced brands for purchase of other articles. Costs but little more than cheap powders—far more valuable in quality.

You save when you use it. Possesses more than the ordinary raising force—you use only half as much as is ordinarily required.

You save materials it is used with. Calumet never fails with any kind of recipe or with any kind of flour—always produces perfectly raised, delicious bakings.

You'll notice a great difference when you use Calumet. Calumet produces light, sweet, wholesome, flaky bakings. You will notice with some of the cheaper brands the bakings are soggy, heavy, dark in color, and sometimes have a bitter taste.

Used by leading chefs and domestic scientists, and by more housewives than any other brand. Made in the world's largest and finest baking powder plants.

Best by test. A trial proves it.

The Law Says 16 oz. to a Pound A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

### LOW WAGES AID TO LOW MORALS

Such is Opinion Expressed by Secretary Federal Council of Churches.

By WORTH M. TIPPEY, Secretary, Federal Council of the Churches of Christ in America.

"If a man gets low wages, he can't lead a moral life," said recently an official of a railway brotherhood, a former engineer of a western road.

"When a man's wages are low, he can't live well, his clothes are not respectable, his food is poor, his home is unattractive, he dodges the rent in a pinch.

"His pleasures are necessarily cheap since he cannot pay his way to the better forms of amusement and he therefore tends to the enjoyment of bodily appetites.

"His wife and children are dragged down with him. They live in poverty and wretchedness, and are humiliated and unhappy.

"There has been 100 per cent improvement in the morals of railway men in the 30 years since I began railroading, and it has been due mainly to increased wages and shortened hours, making home life possible to single men and a better home life to all.

"We now have music in our homes and can go to good shows. We dress respectably, educate our children, lay by for a rainy day, and many of us own our own homes."

He was right. It is with morals as with the death rate. Theoretically a man and his family can get along on a scant income, but as a matter of fact, investigations by the children's bureau of the department of labor have revealed that the death rate of children in homes where the wages of the father are low averages one out of three while in homes of working men who are well paid it is one out of twelve!

America is not independent of foreign competition, and cannot finally escape the law of supply and demand at home. When wages are too high, commodities are too costly, demand falls off, foreign goods an-

### MEXICAN BOOZE IS FLOODING THE STATE

Distilleries Are Busy Making Liquor For American Consumption.

By NEA Service

MEXICO CITY, Dec. 14.—Thousands of gallons of liquor are being spirited every month across the Rio Grande, almost under the noses of customs inspectors, and re-shipped from Texas points to every part of "dry" America.

Mexico City is the center of a vast underground smuggling organization employing hundreds of men, each with certain specialized tasks.

Many booze-runners are men of wealth and social position. All are well supplied with funds. The profits of some amount to \$50,000 or \$75,000 a year.

There are three sources of booze supply here.

The first is good American whiskey which smugglers attempted to bring into Mexico before the United States went "dry." This liquor was seized and impounded.

All is of good quality. Some of it is 11 years old!

Agents here continually are inducing Mexican officials to release this liquor.

A score of distilleries in Mexico City are turning out "American" liquor day and night. They have appropriated in Mexico the labels of well-known American liquor brands.

Other breweries and distilleries are turning out imitations of French, British, Canadian, Scotch, Dutch and German drinks. They place on the bottles carefully counterfeited labels—some of them brought from abroad.

The third booze source is the cellars of Mexican home-brewers who turn out synthetic, kill-at-night liquor made from mescal, tequila and alcohol.

After the booze has been made, it's bought by commission merchants. There are hundreds of these in Mexico. They represent themselves as buyers for the interior trade. The law can't touch them.

These commission merchants supply the smugglers. But the liquor is not sent in large quantities to the border—that would arouse suspicion. Instead it's sent to large warehouses at Monterrey, San Luis Potosi, Torreon, Chihuahua, Durango and Gomez Palacio.

From these points the liquor is shipped to more than 40 border towns where it can be gotten easily across the international line.

How do they get the booze across?

By wading the Rio Grande at shallow points and placing it in the hands of accomplices on the other side.

Or by putting the consignment in a boat and setting it adrift. The boat is picked up by smugglers operating from the American side.

### SKELETON OF A WOMAN LAST OF PRIESTESSES OF HAWAIIAN FIRE-GODDESS

Hilo, Island of Hawaii, T. H.

Nov. 18.—(By Mail)—The skeleton of a woman, believed that of the last of the priestesses of the Hawaiian fire-goddess Pele, whose traditional home was in the Kilauea volcano on this island, was found recently in a carefully prepared crypt not far from the smoking crater.

The tomb was found in the western part of the island, near the great outer crater of Kilauea, where once stood a great temple dedicated to Hiihike, the sister of the God-dess Pele.

Nothing now remains of this temple. The last occasion upon which it appeared in history was when it was visited by the Princess Kapiolani in 1824, when the royal Hawaiian-Christian journeyed to the volcano for the purpose of uttering defiance to Pele. The journey formed the motif of one of Alfred Lord Tennyson's poems. Local tradition says that the princess was met at the crater rim by a haggard priestess—the last of her line—who came from her abode in the ruined temple near by and made one last attempt to overawe the princess and to appeal to her fear of the supernatural.

The tomb believed to be that of this priestess was discovered immediately below the site of the temple. The position of the bones indicated that she had been buried in a sitting position, with her back propped against the wall, with her head placed so that her sightless eyes were in line with a small orifice immediately in front of her and in a direct line with the mile-distant fire pit of the volcano.

### FORMER GOVERNOR HOOPER DISCUSSES RAILWAY PROBLEM

EMPHASIZES IMPORTANCE OF WISE SOLUTION OF WAGE QUESTION.

RECOGNIZES THE RIGHT OF LABOR TO ORGANIZE

Tells Of Difficulties Encountered By The Railroad Labor Board.

NEW YORK, Dec. 14.—The wisdom with which the question of organized labor is solved in America will speak the survival or downfall of the republic, Ben W. Hooper, former governor of Tennessee, and vice chairman of the United States railroad labor board, declared tonight, adding that organized railroad labor—and railroad capital—has a "public trust" to perform in rendering efficient and uninterrupted railway service to the people of the United States.

Speaking at the annual dinner of the New York railroad club, at which six members of the labor board were also guests, Mr. Hooper said the price of a rail strike last fall would have "shattered the nation." Railroad labor, he said, had no right, "morally at least, to tie up the railroads and destroy the property, business, health, comfort and lives of innocent men, women and children."

But this moral obligation does not mean that organized labor on the railroads should be stamped out, as certain sections of public opinion advocated in the October crisis, he said. The problem in this country, he added, is "how to deal with just demands fairly and humanely and how to curb unjust demands and control such activities as threaten public welfare."

**Right to Organize**  
The right of labor to organize is based on sound principles recognized by congress and sanctioned by the courts of the land," Mr. Hooper said. "I am profoundly averse when I contemplate the possibilities for evil, if organized labor is to be permitted to throttle individuality, destroy initiative, exact efficiency, dominate management, limit production, ignore the rights of the public and set up a class government, then indeed is this country headed for bolshevism and death."

"All of these things are possible, but not the inevitable results of organized labor."  
"On the other hand, if organized labor confines its efforts to the legitimate advancement of the cause of the working man, by the procurement of a just and reasonable wage, the establishment of desirable working rules and conditions, the maintenance of an increasingly good standard of living and the preservation of the political and civil rights of labor, then will organized labor not only serve its own interests, but it will constitute one of the bulwarks of the American republic."

"In my judgment, the survival of this republic depends upon the wisdom with which this question is handled."  
Mr. Hooper asserted that if the railroad brotherhoods had been crushed in a strike, other organizations would have sprung up in their stead, "and probably would not have been animated by motives half so conservative and patriotic as those which control the brotherhoods."

Reviewing the entire railroad situation, the labor board commissioner said it would be "blind waste of energy" to attempt a return of railroad conditions of a generation ago. Then there was no need of restrictive legislation, but today "social and economic conditions make the railroad problem a challenge to the best minds of the age."

The railroad executive of today must have business brains and energy, must continually deal with governmental agencies and have a sociological and economic questions of increasing difficulty and importance.  
**Should Be Regulated.**  
Public opinion, Mr. Hooper said, had decreed that, as a matter of self preservation the railroads should be closely regulated and would never subject itself to the risk of having government dominated by either the carriers or their employees.

It is this regulative function, the commissioner explained, that this newfangled tribunal, the railroad labor board "is trying to help fulfill. He told of the difficulties met by the board in starting its work and the momentous problems it was called upon to solve. Only one thing had given to the board a soothing feeling of self satisfaction, he said that was the "fine teamwork manifested by the carriers and

### ADJUST MACHINERY OF THREE COUNTIES

Change Made Necessary By Formation Of New County Of Kenedy.

AUSTIN, TEXAS, Dec. 16.—Provisions for the administration of justice in Texas' new county, Kenedy; Hockley county, reorganized by the thirty-seventh legislature, and Willacy county, whose boundaries were changed by the legislature, have been carried out and the official machinery of the three counties now is running smoothly, reports from Sarita, Levelland and Raymondville, the county seats respectively, indicate.

Cochran county was detached from Lubbock county by the legislature and attached to Hockley county, "for judicial purposes," according to the act. Levelland became the new county seat. The change was made necessary, according to officials in the state capitol, by the small population in this wide extent of country.

Cameron, Willacy and Hidalgo counties were reorganized into four counties, the new unit being named Kenedy, for John G. Kenedy, a ranchman. Brownsville remained the county seat of Cameron county and Edinburg of Hidalgo county, while Sarita, formerly the seat of Willacy county, became the seat of Kenedy county, and Raymondville was made the seat of Willacy county.

A temporary court house, in which the county clerk also resided, was established at Raymondville after the reorganization of Willacy county. The population of Raymond-

ville, according to the 1910 census, was 450. Levelland, the new seat of Hockley county, just after its organization, had a population of five, which included County Clerk Smith, residents reported.

The sparse population of Hockley county is illustrated by the estimate of Sheriff Shroud that he traveled 1200 miles for twelve grand jurors for the first term of the district court. The jury was dismissed until enough people moved into the county to make its services necessary, it was said.

Hockley county had a population of 187 persons in the 1910 census, but it is an area of about 500,000

acres of sandy loam soil, most of which can be cultivated with little effort. The largest tree in the county of natural growth is said to stand 14 inches high. The county consists of two large pastures and several smaller pastures. The grass is said to be as level and waving as a wheat field as far as the eye can see and approximately one-half of one per cent of the land was under cultivation when the county was reorganized, residents say.

A FOREIGNER'S OPINION.

The American public's opinion of American newspapers and American newspapermen may not be over-flattering; in fact, the attitude of American newspapermen themselves toward their calling is apt to be cynical or pessimistic. But it may not be amiss to call attention to the opinion of a foreign newspaperman on the subject. Lord Riddell of London, publisher of the "News of the World" and publicity representative of the British delegation at the disarmament conference, at a banquet in New York recently said:

"The code of honor of the American newspaper man is one of their most admirable characteristics. I meet the newspapermen in Washington twice every day, and three times some days. It often happens that, in order not to seem to evade a question, I am obliged to preface my answer by 'This is not for publication,' or 'Don't quote me in this.' No further word has been needed. In not a single instance of the many times I have thus placed myself in the hands of scores and scores of newspapermen there has been the confidence broken; and there were many days when copy was so scarce that a little bit of news was of extreme value.

"There have been a few trifling inaccuracies in the newspaper reports, but they were unimportant matters. In not a single instance have I observed any important matter misrepresented or incorrectly reported. And they plunge down through the froth and really get to the important matter, too."

Of course, it was at a banquet. But even after being discounted for that, it's worth remembering.

YOU AND I

See Ludendorff Trying to Set Fire to Antibombs.

Ludendorff publishes his third book explaining why Germany lost the war. Its name is "Kriegslosgang Und Politik." Recommended for reading to writers of funny columns.

Ludendorff says he made no mistakes, and that Germany lost the war because her diplomats bungled behind the lines—and because German soldiers and civilians were not Prussian enough!

Ludendorff admits he loathes democracy, boasts of it. He stands four-square for restoration of the monarchy.

When it comes to explaining how "everybody's out of step but me," a defeated general always wins the tin badge.

Let Ludendorff foam. If the president of history is worth anything, his efforts toward a restoration of imperialism are a futile attempt to set fire to antibiotics.

A people who have once tasted the republican form of government never go back permanently to monarchy. It was tried in France, and failed. Democracy is one pendulum that never definitely swings backward.

FAME. Captain Aymer Branden, credited with having shot down the first Zeppelin which flew over England, was jobless and down to his last dollar in New York. E. W. Gaffney, oil man, read about it and telegraphed offering Branden a job in Texas. He accepted.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

HAPPINESS DE LUXE. There is something very strange about happiness. It is graded. Most people are happy at some time or other. And happy to some extent.

It is rare that a person will tell you, when asked, that he is happy. He will start right off to qualify his happiness.

There is one kind of happiness, however, that stands out like a full moon. For want of a better word, I will call it happiness de luxe. And to define it I would say it is the happiness that comes over one when happiness is given to someone else.

I have a friend who seemed to be superlatively happy the other day. He came into my office and told me about a woman in whom he was greatly interested because of her real merit as an artist. He wanted me to hear her—and he afterwards told me that he had personally paid the admission fees for a score of other friends that they, too, might see and hear this wonderful impersonator—for that is what she is.

The happiness that my friend got out of encouraging someone else and in getting others to appreciate what gave him happiness, gave him happiness de luxe.

Do something for somebody else and you will get happiness de luxe.

There is no other happiness in all the world like this. A mother gets it as a daily diet. The painter gets it in the thought that others will feel what he has taken out of his soul and transferred to the canvas. The writer gets it in the knowledge that he is the means whereby thought is stimulated in scores of minds where his expressions find lodgment.

You can't stay at home and watch the world go by and expect to get happiness de luxe. You must move with the world—you must go where happiness is not, and give it.

What a privilege it is to make others happy! A much greater thing it is than to make money or have a fine house or spend so much time learning from books that you can't understand what they mean.

Some people were stationed in a foreign land as missionaries. Their friends wanted to send a Christmas greeting. On account of the cable charges, brevity was important. What would they say? One word was finally decided upon. This was the word and the message—"Love!"

Happiness de luxe is giving love away.

JUST FOLKS

By Edgar A. Guest

THE LASTING JOY. What is better than the glad Rush of little girl or lad Down the street to greet you when You are getting home again? Where's the sight that's half so sweet As the scampering of those feet And the smiles of welcome true, Flung so lavishly at you?

Tell you this, I'd rather be Him the children love to see Than the pampered prince or king Bowing to the thundering Of the greetings of the throng As he proudly rides along, For they'll cheer the self-ame way For another king some day.

Talk of fame! What can it give That in memory shall live Half so precious as the glad Greeting of a girl or lad? Once the touch of skill grows dim, Fame shall turn away from him And forget him while it finds Cleverer hands and younger minds.

But the children faithful stay, None can lure their love away; Pickle throngs in scarce a year, For a younger king may cheer, Fame may find a brighter wit And make him her favorite, But the little girl or lad Never meet a better dad.

Here's a welcome that is true Flung so lavishly at you, Here are hugs to cheer you so, Hugs that only you shall know, Here is where you stand supreme, Here's the ending of your dream— Happy man, when flying feet Rush to meet you down the street.

CHRISTMAS DINNER

By DR. R. H. BISHOP

Poor dad, whose pocketbook has been greatly strained by the excessive Christmas demands, is not the only one who dreads Christmas. The physician, too, looks forward to the holiday season with mixed feelings. He knows he will be interrupted during his own festivities to attend several cases of stomach ache.

He knows that, unless the millenium has arrived, he will be called on to revive at least one nervous mother from a painting spell because the excitement proved too much for her.

There ought to be some children who cut their fingers badly on new toys, too. For would the day be quite complete were there not at least one case of burns derived from a Christmas tree?

Everyone is accustomed to eat a hearty Christmas dinner just as on Thanksgiving. Lots of people who know better are guilty of this gastronomical crime.

A Word of Warning. Now we come to a few warnings. In the first place, drink neither wine, beer, nor whiskey with the meal, for the stomach juice will be loaded up as it is.

Eat lightly of the earlier courses for, by the time the meal is about half through, you will be able to form some idea as to the amount of stomach space left, and can then make up on later courses.

Eat slowly and chew your food well. Your stomach will be carrying a lot of heat and fresh air in your teeth do, the less the stomach muscles will be called upon to do.

Beware Dressing! What I am going to say next will no doubt call down innumerable unuttered curses from mother or the cook upon the collected heads of all doctors and dietitians in general and upon my own in particular. I warn you not to eat dressing. It taxes the digestion all out of proportion to the pleasure its taste or its nutritive properties.

Drink a good deal of water during the meal. All the food you eat must also contain water and is needed. After the dinner the faultless hostess will see to it that there is plenty of air in the room. Digestion produces a lot of heat and fresh air is required to get rid of this body heat.

It is the usual custom to assemble around a cheerful log fire after the meal. Everyone begins to feel loggy and sleepy. This is because the heat produced in the body by the action of the food in digesting makes you drowsy.

Should anyone have a fainting spell place him on his back, loosen clothing and moisten face and chest with water. Be careful not to be too free with use of stimulants. If consciousness is not restored in a short time, send for a physician.

In the event of a burn where the skin is not broken, cover with baking soda. It is important to keep the air away from the burn. Blisters should be opened with a sharp instrument and pressed lightly with absorbent cotton.

The Rag Carpet

By DR. WM. E. BARTON

My mother naved a rag carpet. The rags were saved for several years, and included scraps from all the garments of all the children. They were washed, sorted, cut in proper width and given to our children to sew, end to end.

There were three kinds, black, white and hit-or-miss. So far as I recall, the hit-or-miss never hit or was expected to do so. It was made of scraps of calico garments. What has become of calico?

I remember that the girls never had a voice in the sewing done by the boys. They accused us of rolling our balls loosely to make them seem larger.

While we sewed, mother read aloud to us. She read "Uncle Tom's Cabin" and the novels of Walter Scott and other literature of the period.

Then came a day for dyeing rags. A neighbor woman who had skill in that work came to help mother. There were red and there was blue and there was green. Then they took some of the blue and dipped it in green, and it came out yellow. It was a wondrous process.

Then all the rags were gathered up and sent to a weaver, and we waited a steady for the carpet to come back. Then it did, but it was not what we had expected.

Every woman in the neighborhood knew all about the carpet while it was in the making and came in to see it after it was down and commented on it. It was a proud day for mother and for all of us.

What a bond of family interest that carpet was! It was an outward and visible sign of the unity of home life; it was almost sacramental in its influence.

That rag-rug you have in your home, if you bought at an art store. You do not know anything about rag carpets.

It was a carpet which mother made was not simply a floor-covering; it was an expression of something which I should greatly like to see more of in the American home— mutual effort and family interest in a common task, and common enjoyment of the achievement.

MORGAN TELLS WHAT HE WANTS

By RUTH ADELING

NEW YORK, Dec. 14.—I have just discovered what J. P. Morgan wants for Christmas!

He wants—

But let's not hurry. It was about 8:30 a. m. when I ventured up the stone steps of the Morgan residence at Madison avenue and 37th street and pushed the little button beside the glass door.

The butler opened the door. "Mr. Morgan in?" I asked.

"Yes, but Mr. Morgan"—the butler had a nice voice, a whole lot like the voice of any banker—"never sees anyone."

"Then won't you take this to him?" It was a note I had scribbled on a scrap of paper.

The butler took the note and invited me to come in and be seated. I found myself sitting right be-

side Mr. Morgan's gray coat and soft hat that had been laid on a seat in the reception room, ready for him to put on and rush off to the office.

The butler disappeared into the breakfast room.

And shortly—

"I am very sorry, I am just at breakfast, and besides— I never am interviewed." It was Mr. Morgan's voice—a deep voice not at all unkind.

"Then if you won't see me— unless that we may live in peace. There was just the hint of a smile in his voice.

And, as he opened the door, the butler smiled, too.

min Levy, and Fude Simkins sed, I tell you jete wate do, jete go on a strike and wen the last bell rings lets us 4 get up and walk out with the rest of the class as if we didnt feel any different from anybody elts.

Sounding like a grate idee, and us other 2 sed, G, all rite, goah, all rite, G, me saying, I got rite the same as anybody elts and im going to strike for them, too, and Sid Hunt saying, So am I, who does she think she is to pick me out and keep me in? and Raymin Levy saying, Me either, me too, I got rite of my own and I dont care who knows it.

And we kept telling each other about our rites and talking about the strike and all of a sudden Puds sed, G, holey smokes. Meaning the bell had rang for the end of the recess and everybody elts had went in already, and us 4 quick ran in and wen we got to our room the hole class was betting down with a expression as if they had bin there for about 5 minutes, and Miss Kitty looks at us 4 sneaking in our seats like people with no rites, saying, The following boys will remain one hour instead of a half hour, Benny Fotta, Sidney Hunt, Raymin Levy and Charles Simkins.

Which they did, including me.

Will Settle Their Pugnacious Differences in Fight At St. Paul Tonight.

ST. PAUL, Dec. 16.—Mike O'Dowd, former middleweight champion, and Mike Gibbons, at one time acclaimed by many the uncrowned king of that division, will settle their pugilistic differences here tonight. In a ten-round, no-decision bout each will seek to answer definitely in his favor the question of superiority of fists—a question that has disturbed their respective followers since the two St. Paul Mike's hammered through ten rounds here in 1915.

They made local pugilistic history in that meeting two years ago; a majority of ringside critics gave O'Dowd uncertain advantage termed a "shade." It was a toe-to-toe affair, characteristic of O'Dowd's style, but a marked departure from the "phantom" usual technique. O'Dowd was champion then, but in tonight's meeting victory means an advance in pressing claims for a contest with Johnny Wilson, who grabbed the middleweight crown from O'Dowd's hand and held it in a second meeting with "the Fighting Harp."

## MOORE GETS DECISION IN TEN LIVELY ROUNDS

MILWAUKEE, Dec. 16.—Receipts at the Johnny Buff-Pal Moore fight here last night fell somewhat short of expectations when totaled today, the gate amounting to \$14,200. Buff drew \$5,000 as his end Moore about \$1,600.

Moore was given the newspaper decision at the close of ten lively rounds but his dancing and strange style apparently did not take well with the spectators. Buff landed one damaging blow in the third round when he sent Pal spinning into the ropes, but could not follow it up. Buff tired perceptibly in the later rounds.

NEW YORK, Dec. 15.—Basketball players in New York are making more money than the stars of the Yankees and Giants. The Celtics, Manhattan's greatest professional team, has a payroll of \$15,000 a month for nine players. Individual salaries range from \$1,400 to \$2,000 a month.

They are under contract for six months, which makes the "lean winter months" worth from \$9,000 to \$12,000 to them. The players are not allowed to play with any other clubs.

The Newcastle soccer team of the English league offered the Airdrieonians of the Scottish league \$25,000 in exchange for Hunter Hart, their brilliant left halfback, an offer which the Airdrieonians refused.

## CENTRE'S CRACK TEAM HAS THREE GREAT STARS

McMILLIN (LEFT), ARMSTRONG (TOP) AND ROBERTS

By BILLY EVANS.

The three dominating factors in the success of Centre college during the 1921 season were "Bo" McMillin, Captain Armstrong and "Red" Roberts. "Bo" McMillin stands out as one of the greatest college players of all time. He is probably the best defensive quarterback in the game, despite the fact that he is not a player on the offensive line.

McMillin is one of the best "threat" players of the year. He is a wonder at throwing the forward pass, can cleverly skirt the ends, or slide off tackle, and is a good punter. When he drops back to handle the ball, the opposition is always up in the air. In the Harvard game, McMillin demonstrated his worth as a field general. In 1920 Centre had shown Harvard a forward passing game that for two periods made all kinds of trouble.

## WANTS TO KNOW OF LANDIS WHO ARE THE DOCTORS

NEW YORK, Dec. 16.—Two white headed men engaged in a story-telling contest yesterday about their ages during the meeting of the major league baseball clubs.

Said Judge Keneaw M. Landis, baseball's supreme court: "I am 55 years old, but my doctor after an exhaustive examination has told me that I have the physical make-up of a boy of 34."

"But listen!" commanded Colonel George Hall of Montreal, official of the Canadian Pacific railway: "Listen! I am 75 years old. I have had more doctoring than any other man on the continent; at least I have more doctors than any man I know. And they tell me that I am 120 years old. Who are your physicians anyway?"

Then Judge Landis sat down. Petrograd's population is less than 60,000, a little more than a third of pre-war figures.

A Japanese bank syndicate has decided to loan 20,000,000 yen to the Chinese Eastern railway.

Alaska's population has shown a decrease in recent years.

## College Professor Is Real "Jack Of All Trades"

HANOVER, N. H., Dec. 14.—Here with us present Sid Hazelton, the busiest man at Dartmouth college.

"SID" HAZELTON

Sid does about everything at Dartmouth except play the chimes and instruct the cheer leaders.

Each afternoon all through the year, when the average man retires to his home to enjoy the old pipe and the evening paper, Hazelton takes his way homeward, opens his desk and prepares for the morrow's classes in French.

For aside from his athletic duties, Hazelton is assistant professor of French.

Hazelton is a Dartmouth graduate of 1909 and was a star pitcher on the baseball candidates.

## Force Tonic

The Master Rebuilder

### Present Day Conditions Demand Strong Vitality

Life is complex these days—much more so than it used to be. It is a harder struggle today to keep your place in the swiftly moving procession of events than yesterday, and, in consequence, the consumption of energy is greater than before; likewise the vital forces are burnt up more quickly. Therefore, obviously the rebuilding process must receive careful and prompt attention if the destruction is to be halted in time to prevent a dangerous lowering of the vitality of the body.

Whenever you commence to experience symptoms of a reduction in your energy, strength and endurance, a warning of your mental and physical powers, just remember FORCE, the master builder. There's nothing so good as FORCE to keep your physical system in trim. It is the principle of the principal organs of the body, causing them to function properly, thereby eliminating the poisonous waste matter, enriching the blood, stimulating the secretions of the stomach, increasing the appetite and performing generally the part of a revitalizing and rebuilding agent.

FORCE is sold by all reliable druggists. Get a bottle if you are feeling generally fagged-up, physically run-down, or even just generally out of sorts. It will surprise you in results.

In buying Christmas Cigars here, you can get the particular brand that HE wants; you oughtn't to give him any other kind. HUNTSVILLE, TEXAS, Dec. 16.—Conduct of a convict in serving his term at the Southern Jail in Huntsville determines the clothing he shall wear, according to the order of prison commissioners. The prisoners are classified according to conduct into three grades. Those in grade 1 and 2 wear clothing manufactured of white ducking and those in grade 3 wear stripes. The nature of the offense for which they were sentenced to prison is disregarded in the grading.

CONDUCT OF CONVICT DETERMINES THE KIND OF CLOTHING HE WEARS

When received at the penitentiary, each prisoner is placed in grade 2, known as the "neutral grade." For good conduct he is, in due course, promoted to grade 1; for bad conduct he is demoted to grade 3. Except for serious offenses, prisoners cannot be demoted more than one grade at a time, the board said. A minor violation by a prisoner in grade 1 might result in his being demoted to grade 2; other violations would reduce him to grade 3.
