You will find that there are Eversharps and Wahl Pens which so closely parallel your figures that you can give this favorite pen and pencil to everyone on your list.

Pew gifts offer so much in pleasure and usefulness. Eversharp is America's favorite pencil—and its features can't be copied. Only Eversharp has the rifled tip that holds the lead free from all slip or wobble. Look for the automatic index, too! And

Wahl Pen in gold or eilver matches Eversharp in design. The all-metal Wahl Pen is a truly wonderful fountain pen improvement. It can't crack or split. It holds more ink. It is more beautiful. And it will last a lifetime.

To those who have Eversharp, give the Wahl Pen that matches it. And vice versa. To those who have neither, give both. In the velvet-lined gift box. Look for the same on each. Eversharp is \$1 to \$50; Wahl Pen is \$4 to \$50.

### YOUR TIME.

Young men who are wasting their time should read and ponder the following, written some 206 years ago by the philosopher, Voltaire:

"Time is of all things in the world the longest and the shortest, the quickest and the slowest, the most minute and the greatest, the most neglected and the most regarded-without which, nothing can he done, which devours all that is little and gives ermanent life to all that is great.

"Nothing is longer than time, because it is the measure of eternity. Nothing is shorter, because It is insufficient for all our plans. Nothing is slower for him who waits, nothing more rapid for him who enjoys. "Time stretches out to the infinite in greatness.

It is infinitely divisible in littleness. All men neglact time. All regret its loss. Nothing can be done without time. It wipes out all that is unworthy of posterity, and immortalizes great things." The procrastinator, who habitually puts off un-

ill tomorrow the things that should be done today, will read Voltaire's hit of philosophy concerning time and reflect; "A fine sentiment, swell piece o writing."

That man is doomed to go through life bossed. The man who later will be the processinator's will ponder Voltaire's philosophy, recognize it as a red-light warning, and redouble his efforts to

make hay while the sun shines. The 15 most important years in a man's life are between 20 and 35. It is in these years that man arrives at the fork of the roads and goes ahead either

to failure or success. Many there are, who seem not to get started toward success until after \$5. But the foundation of their success was laid back in the years of early manhood. So guard your time, get the most out of tt. Once spent, it is gone forever.

WINTER NIGHTS When old winter sets tu, "Happy times, with blissards howling And the skies a sombre gray? "Oh," I think I hear you pleading, "It is summer time we're needing, With the roses all in bloom, To be happy through the day.

Let the blustering blizzards blow, And the path be deep with snow, We'll sing our sougs together And make merry round the fire; We'll grow closer to each other, Father, mother, sister, brother, And we'll revel in the pleasures Of which mortals never tire.

With a fire upon the hearth We can manufacture mirtle, We can drown the north wind's meaning With a flood of simple song; And, disdainful of the weather, We can romp and play together, And the bonds of love shall tighten Though the winter may be long.

When old winter settles in, Then the nights at home begin, Nights that know no hint of danger But are sweet with mirth and play; Nights together—father, mother, Little sister, happy brother-Finding all the joy that's needful In the best and truest way. (Copyright, 1933, by Edgar A. Guest)
