"Many Chinese who have gone abroad to America, Australia and the Philippines write home complaining of arbitrary discriminations made against the Chinese which dare not be atempted against other foreigners. Therefore, everyone is angry and hence the boycott of American goods, illustrating the feeling against unjust exclusion laws. It has spread over China and is solely in retaliation against unjust discrimination and not anti-for-

"The Chinese people and officials are on good terms with all foreigners and there are no hostile feelings toward them. Chinese merchants have the best feeling toward foreign merchants. The majority of the people in the interior are indifferent to all foreigners traveling in the interior, who write they are well treated with no signs of hostility against them. These rumors of anti-foreign feeling are not well founded. Sensible men advise boycotters and agitators to be reasonable and boycott only goods and not treat persons unkindly, but continue friendship as before. Unfortunately, there have been disturbances in several places arising from the boycott, but this is no sign of an outbreak against

"If there was an uprising in China, for a clash with the Chinese. The danger, if there is any, is to the Amercans situated far inland. If they were attacked it would be all over before the United States could get troops to the spot. So far as the naval forces are concerned, it is different. The navy is well equipped. At Manila, along the coast of Japan and China and at other convenient points in the Orient, the United States has ships which could be brought to bear on China and enough to meet all possible

been subjected to every possible indignity by our officials. It has been scandalous. Theodore Roosevelt recognizes it and has issued instructions which ought to bring about some improvement. The boycott is useless. We have seen in this country how little power there is in it. A man will buy where he wishes. After the indignities which China has received at our hands we have no reason to expect her to continue to buy our goods. But for all that the Chinese are not likely, in my opinion, to cause an uprising. They would not dare to make an attack upon the diplomatic corps and the only danger would be inland. The Americans near the coast and in the largest cities are safe enough. Farther inland no military forces can be brought to bear in time to avert threatened blood-

HANGING DELAYED

Attorneys Make Last Effort in Federal Court to Stop Execution, But Fail

Special to The Telegram. CHICAGO, Ill., Feb. 23.-Johann Hoch was hanged at 1:37 p. m. today for the murder of one of his numerous wives. It is reasonably certain Hoch married thirty-five women in all and murdered five of them.

The final hours of one of the most rotorious criminals of the age were passed calmly in his cell. He was perfectly certain until the last moment he would not be hanged. He ate breakfast with gusto and after a twelfthhour appeal to save him had proven fruitless, he deliberately ate dinner while his lawyers stormed and argued permit the hearing of another appeal. The execution had to be made between 10 and 2 o'clock and the hour had almost passed when he could be legally hanged when the death march began. Hoch did not carry out his threat to resist the execution forcibly. On the gallows he said, "God forgive them; they know not what they do. I

Hoch slept well all night and when he awoke this morning he was apparently in a jovial mood. He turned to the guard, James Cummins, was in the room with him, and wished him "Good Morning." Cummins immediately summoned Night Jailer O'Neill, who came at once to the room. and said:

"Good morning, John; how are you this morning?" "I feel fine," said Hoch. "I had a good night and was not disturbed. I'm feeling fine.' ' He gave his order for breakfast and while awaiting its arrival was given

several papers to read. "Look here, O'Neill," he called out. 'See what one of the papers says about me." He then read to O'Neill from a paper that he had given up all hopes and was in a state of collapse.

"That thing says that I have lost lope," remarked Hoch, "but I haven't. I will keep my nerve to the last.

Final Effort Made A short time before the hour for execution, a petition was filed in the United States circuit court by Hoch's attorneys, asking Federal intervention to save Hoch. The petition said that the state authorities were endeavoring to execute Hoch in violation of the fourteenth amendment of the constitution and without due process of law. After filing the petition the attorneys left the Federal building immediately, intending, it was said, to go to the criminal court building to try to get a stay of execution pending the action by the Federal courts. After a consultation with United States Attorney Healy, the jail officials decided to delay the execution if necessary until 2 p. m., the last hour

While the death march was starting in the jail, the attorneys were just leaving the federal building to get Hoch's signature to an appeal bond. After Judge Landis had apparently closed the case, Hoch's attorneys hastily prepared an appeal bond and renewed the demand for appeal. "Under the circumstances I don't

A little note was found on the dresser which read: "If I die mail these letters, E. C. Lewis." The letters were found to be addressed to the following: Mrs. Jennie Lewis Jones, of Forney, a sister; James A. Cooley, Forney, Texas; G, W. Zoirs, Forney; Henry L. Ray, Erie, Penn., and one to the county clerk of Kauffman county, Texas. Coroner Edwards held an inquest and gave an opinion that Lewis died of heart failure. The remains are being

MURDER CASE REVERSED New Trial Granted Winn Thompson

Reaching Granger they camped for the night and the next heard of them, Fisher had been found by a passer by, lying close to the road, his throat cut and bearing other horrible wounds evidently inflicted by a knife, from the effects of which he died a few hours afterward without being able to give an account of how he came by his injuries. Thompson was arrested near Georgetown by the sheriff of Williamson county while on his way to surrender. He refused to give an account of the trouble, reserving his statements for the trial, where a plea of self-defense was entered. The jury found Thompson guilty of murder in the second degree, assessing his punishmen at five years in the penitentiary. KATY SHOPS TO TO BE REOPENED

Men to Be Put to Work at Smithville Again

Special to The Telegram. AUSTIN, Texas, Feb. 23.-F. T. Chase of Smithville, foreman of machinery of the Missouri, Kansas and Texas railway, also a member of the board of trustees of the public schools at Smithville, who is here on business with the attorney general's department relative to the issuance of some school house bonds, announced that it will not be long before the machine shops of his road, that were closed some time ago, will be reopened and work resumed.

It will be remembered that several months ago there was a strike of the employes of the machine shops due to the fact that the company had reduced the force and, instead of acceding to the demands of the men, the company decided to close down the shops entirely. This was done and caused an increase in work for the Denison shops. Mr. Chase said that this proved to have been quite a blow to the town of Smithville as the monthly pay roll was quite large. Since the shops have been closed it has caused quite a slump in the business of the town, and the announcement that the shops will soon be reopened, although probably not with a full force, will nevertheless be received with pleasure by the people of that thriving little city.

### MORE CARRIERS FOR CITY ASKED

Four Men May Be Added to Postoffice Force

Owing to the growth of the carrier service and the number of letters and packages delivered in this city and the smallness of the force of mail carriers in this city, Postmaster Burroughs has recommended the advisability of appointing three additional foot mail carriers and one mounted carrier for service in this city. At present there are thirty-three carriers in this city, including three who detroubles with the only natural method,

### **BLAMES DIVORCE** FOR HIS ARREST

Lawrence DeMotte Thinks Litigation Led to Action

Lawrence W. DeMotte, who was arrested here Thursday evening on a telegram from the chief of detectives of Philadelphia by Detective Al G. Ray, made a statement Friday morning to a Telegram representative regarding the cause of his arrest. Mr' DeMotte began by stating that

he wanted to correct a report regard-

ing his having been a society man here. "There is no truth in this," said Mr. DeMotte, "and I don't want others dragged into the case who have nothing to do with it. My arrest I supvorce proceedings in Philadelphia, but I am not aware of the exact nature of it. I was told by my lawyers that everything was all right and that I was at liberty to go where I chose. My wife and I had decided to separate and I told her that she could get a divorce or any kind of a separation she wanted; that I would not contest it and that I would help her all I

"I have a letter from her in my pocket stating that she will not live with me and I think that that alone should dispose of the desertion charge. I have been giving her about \$100 per month, which my father furnished me, and I came west to try to make a new place for myself. Now it seems that the trouble has followed me here. The arrest looks bad, as it makes it appear that I am a fugitive from justice. The fact is that all my friends in Philadelphia know where I am. I have been corresponding with several of them and have made no effort to keep my whereabouts a secret.

Arrested at Wedding "I intend to go back but I don't want to go back in charge of officers. I will sue out a writ of habeas corpus and then return to Philadelphia and take steps necessary to clear the matter. The case has caused me trouble before. I was arrested in Philadelphia on Jan. 31, and it was made as spectacular as possible, the arrest being effected while I was at a wedling. The charge was desertion then and I was successful in the case."

Habeas Corpus Foiled Chief of Police Maddox was not at the station Friday morning and the service of a writ is impossible until the chief is located. The officers state that he is out of the city. Lawyers have been retained by Mr. DeMotte to look after his interests and when service can be secured upon the chief of police an effort will be made upon a writ of habeas corpus. ### CITY COMMISSION PLAN DISCUSSED

Democratic Club Hears Both Sides of Question

DECLARED MORE COSTLY

Retiring Alderman Favors Present System as Preventing Centralization of Power

The Third Ward Democratic Club met Thursday night at Joseph Jacobs, Eighteenth and Terry streets. The time of the meeting was given over almost entirely to the discussion of the subject of a municipal commission instead of the present form of government by a city council.

Judge W. R. Parker, retiring alderman of the Thirs ward, was the prin-cipal speaker and he discussed the subject at length. Judge Parker said that such a commission would do away with aldermen, but that the business of the city would be done in practically the same manner by men who were virtually in the same position as the present aldermen. Judge Parker defined the position of the aldermen and that of members of a commission, showing that they were really one and the same thing so far as the nature of their duties and responsibilities were concerned. The only difference shown was that there would be a slight difference in the methods of procedure, the effect being

the same. In taking up the subject of the municipal commission Judge Parker ex-plained the good and bad points of such a form of government. A commission, he said, would reduce the number of the executive body in a city; by so doing it would be possible for the body to reach conclusions and do business much faster than a larger body of men would be able to do. As object lessons of the commission system Judge Parker pointed out the fact that Houston and Galveston were governed under the system very effectively, having five men to run the city affairs instead of nine, as is the case in Fort Worth.

Commission More Costly Under the present arrangement the aldermen of Fort Worth are paid only \$96 per year; this amount, k was urged, does not justify them in spending much time to look after city affairs as they cannot afford to neglect their own interests. As a remedy for this Judge Parker suggested that the present aldermen be paid about \$1,000 per year in order that they be able to investigate and understand the affairs pertaining to the welfare of the city. Here he pointed out that the business affairs of a city the size of Fort Worth are heavy, and that nine men meeting but a few times could not understand

the questions that arise Judge Parker said that a good remedy would be to continue with the present nine aldermen, but to pay them about \$1,000 per year; this, he said, would justify them in giving ample time to the business matters of the city. The commissioners salaries of Houston or Galveston costs about \$12,000 while the cost of the aldermen, in salaries to Fort Worth is less than \$1,-

000 he said. Would Centralize Power "I do not favor the centralizing of power; the more in the city council,

the safer it is for the city. This was an emphasized statement of Judge Parker in the midst of his argument regarding the reducing of the number of city officials. Judge Parker then discussed the ap-

portioning of the work on the streets to the wards in turn without regard to the size of the ward; this, he insisted, was a great hardship to the Third ward because it is three times the size of some of the other wards.

Judge J. E. Martin also talked on the subjects pertaining to the welfare of the Third ward and discussed the blockade of streets. He also told of a water hole at the corner of Eleventh and Harding streets. Because of this hole he said that there would soon be damage suits filed against the city unless something was done to remedy the

Joker in Hepburn Bill Aimed at Member of Commission

WASHINGTON, D. C., Feb. 23.-

Charles A. Prouty of Vermont, the member of the interstate commerce spread the propaganda of increased power for the commission in the regulation of railroad rates, is to be legislated out of office by congress if an amendment to the Hepburn bill already adopted by the senate committee on interstate commerce prevails. The amendment says that no two commissioners in the new commission of nine members shall come from the

same judicial district, but that one member shall come from each of the nine districts. It happens that Mr. Prouty and Chairman Martin A. ### MAKES IT CRIME TO MARRY MOTHER

Freak Bills Introduced in Kentucky Legislature

Special to The Telegram. FRANKFORT, Ky., Feb. 23 .- The Kentucky legislature is being deluged with its usual number of freak bills. Thus far over 300 measures have been introduced, and while many of them will be enacted into law a great majority will never emerge from the committee room. One of the queer measmarry your mother" bill. It follows:

ures has been christened the "don't "A man shall not marry his mother, grandmother, sister, daughter, grandlaughter nor the widow nor divorced wife of his father, grandfather, son or grandson, nor the daughter, granddaughter, mother or grandmother of his wife, nor the daughter or granddaughter of his brother or sister nor the sister of his father or mother, nor the daughter or granddaughter of the brother or sister of his father or mother, nor the daughter of the brother or sister of his grandfather or grandmother.

"A woman shall not marry her father, grandfather, son or grandson nor the widower or divorced husband of her mother, grandmother, daughter or granddaughter, nor the son, grandson, father or grandfather of her husband, nor the son or grandson of her brother or sister, nor the brother of her father or mother, nor the son or grandson of the brother or sister of her father or mother, nor the son of the brother or sister of her grand father or grand-

Dogs to Be Tied Up Another bill which is looked upon as freakish by city members, but which has the indorsement of every sports-

man follows: "That it shall be unlawful for any person or persons having in his or her ssession any bird dog or dogs of full or half breed to allow them to run at large. "Any person violating the provisions

of this act shall be fined in any sum not less than \$10 nor more than \$25 for each offense. The object of this measure is to prevent hunting dogs from eating the eggs of game birds during the sum-

This bill, introduced by Mr. Alverson, is intended to give the occupant of the lower berth a show: "Whenever any person traveling in a sleeping car shall have purchased the

right to occupy a lower berth on any sleeping car the upper berth in the same section of such car being unsold or unoccupied, it shall be unlawful for those operating or controlling such cars to lower or make up such berth or to permit same to be lowered or made up during the time for which the use or occupancy of such lower berth shall have been so purchased."

Breathitt Against Sunday Ball The members of the legislature were amused at the action of the member from Breathitt county, the seat of many feuds, introducing a bill to pre-vent Sunday baseball. The irony of the situation appealed to the risibilities of the members. As a joke a member introduced a bill making it unlawful to kill on Sunday. Lawrence Diskin, member from Newport, introduced this bill to protect wild birds on the Ohio river and trib-

### **HEATH PROPHECY** HAS COME TRUE

Woman's Prediction to Hack Driver Is Recalled

Special to 1 ... Telegram STOCKTON, Cal., Feb. 23.-An extraordinary prophecy made by Mrs. James Budd, wife of ex-Governor Budd, was brought to a startling fulfillment when the body of Jack Hail, a well known hackman, was pulled from the channel. The story of Mrs. Budd's prophecy and its denouement has caused quite a sensation among a large number of her friends and followers, for Mrs. Budd is a profound student of astrology and occult

undertaking company had charge of the funeral and contracted with local hackmen for the carriages. Mrs. Budd, however, engaged her own hack. Her driver was not in good standing with the other drivers and when he appeared at the funeral they waited upon a representative of the undertaking company and told him that if Mrs. Budd's driver was permitted to remain in line they would take their hacks out.

The director of the funeral informed the insurgent hackmen that he had nothing to do with the engaging of "Cabby" and that they would have to see Mrs. Budd. Straightway the hackmen caucused and selected Jack Hall to wait upon Mrs. Budd.

Punishment Predicted The hackman made his statement to Mrs. Budd, whereupon she declared to Hall:

"God surely will punish you for making this trouble at this hour. He certainly will punish you.' This was the last funeral in which Hall ever drove a hack. Immediately thereafter his eyesight began to fall him. He quit hack-driving and lounged about the streets. Finally his sight became so had that he was obliged to feel his way about with a cane. About nine days ago Hall was missed. The finding of his body in the slough revived memories of Mrs. Budd's prophecy.

#### TOO MANY GENERALS

Representative Prince Attacks Retired List System

Special to The Telegram. WASHINGTON, D. C., Feb. 23.-In the house Thursday the system of prometing and retiring army officers was attacked by Mr. Prince of Illinois, who elicited many interjected remarks from members in disapproval of the methods for which he said the President and senate were responsible, and which he pointed out has resulted in a retired list costing nearly \$2,700,000, consisting of officers who, he said, were holding the flag in one hand while the other was in the treasury for money that had never been earned.

Mr. Prince mentioned the fact that there are half a million persons under the direct control of the President-300,000 under the civil service, 60,000 in the army, 45,000 in the navy and the marine corps, 70,000 postmasters and fully 25,000 not classified. All estimates for appropriations on which congress acts come from this great army of employes. It was too much to expect the President to make personal scrutiny of these estimates. With an army of 60,000, he said, there were now 903 officers on the retire list, drawing an average of \$8,000 a year, or a total of \$2,700,000. Mr. Prince brought out the fact that in three years sixty-two brigadier generals had been made, who

### CHAINED TO A CORFSE

Doleful Punishment of the Ancients Duplicated in Our Modern Life. The Romans used to punish a murderer by chaining to his body the corpse of his victim. Wherever he went he dragged behind him the debris of his crime, the sleazy cadaver, revolt-

ing thing that was once a man. Every day you see people dragging around with them the corpse of their sins. They can't get away from them. And many of them have become so intimate with these corpses that they become corpses themselves. The misery of these poor unfortunates has become constitutional with them. It fits them like an old shoe. They have become

accustomed to it. And there are thousands of humans who are walking the earth today with corpses attached to them-dyspeptic stomachs they can't get rid of. They have to get along the best they can with the stomachs they have. And the owners of said dyspeptic stomachs are to be found in every walk in life, suf-

ferings from some form of indigestion, first cousin to dyspepsia. They wear that forlorn appearance, their energy is at zero, nothing interests them, and they interest no one their faces are shrunk, their nerves are wilted and their shoulders sag. Are you one of the myriads who dandle and gratify their palates, at the sacrifice of their stomachs? Are you one of those who allow their senses to run

And have you got a whole lot of other things the matter with your stomach that you know about but nobody else does, and can't

explain? If so, you have dyspepsia, real dyspepsia. And the chances are you have had it a long time. Your stomach is overworked, abused, fagged out. The gastric and digestive juices are weak, the muscles of the stomach are jaded, and the whole business needs new life. It needs something which will take hold of the food as it comes in and do the digesting, and let your stomach take a rest. Stuart's Dyspepsia Tablets do that very thing. ### UNIFORM DIVORCE LAWS ARE URGED

WASHINGTON, D. C., Feb. 21 .- The drafting of a marriage license, which vorce laws, which met here this week. As all but three states were represented at the congress, the possibility that the license will be adopted in the great bulk of the states seems bright, and this attendance also is believed to assure the friendly attitude of the greater number of states to the draft of a uniform divorce law, which also was set under way. \*

The basis for the work on the uniform divorce bill was laid by the Pennsylvania delegation, which was headed by Governor Pennypacker, who evolved the idea of the conference and got his state to appropriate \$10,000 toward defraying the expenses of the

The committee to which was referred the drafting of a uniform license law will report early. The convention organized with Governor Pennypacker as president and William H. Staake as secretary, and in his address outlining the plan of the congress Governor Pennypacker

declared: "The dissolution of the marriage tie has become so common as to be regarded as an ofdinary event. There the United States than in any other country upon earth, except Japan. "At the time of the census of 1900 there were 198,914 divorced persons living in the United, States. There were nearly 70,000 divorces granted in 1903, and the proportion of divorces to marriages is increasing with alarming rapidity. We may well regard such degeneracy in morals with the gravest apprehension. If you can do somewhat to limit and check a stream you may well be content."

### **WEALTHY MAN'S DEATH SOLVED**

After Eight Years Mystery, Believed Was Murdered

Special to Ine Telegram, PORTLAND, Me., Feb. 28.-After eight years' research the mystery in the death of John Stinson, a San Francisco millionaire, has been unraveled by Robert C. Foster, a young Portland attorney, who has been working in the interest of the man's sister, Mrs. Sarah Connor, and her daughter, Miss Annie Connor, both of this city, and another daughter, Mrs. Frank W. Sawyer, of Boston. With the unraveling of the murder mystery came the startling discovery that the man's safety deposit box in the Union Trust company, of San Francisco, had been rifled and

deeds and other valuable papers, including the will, removed. He Has a Clew

probably \$1,000,000 in drafts, bonds

Mr. Foster thinks he has a clew and that his detective will make a series of arrests in a short time. John Stinson came to this country from Ireland when a poor boy. He went west in 1849 with gold hunters and steadily amassed a fortune. In September, 1898, he suddenly and mysteriously disappeared. Numerous atempts have been made to penetrate the mystery until Foster went to San Francisco a month ago. He found that just at the time of Stinson's disappearance an old man was found murdered

on the shores of Stow lake, Golden Gate park, The body, unidentified, was buried in the potter's field in San Francisco. A short while ago in the superior court in San Francisco former friends of Stinson positively identified photographs of the corpse as those of Stinson, and a telegraphic description from his sister tallied exactly, even to the ring which had been found on the finger. The next step was to get the papers out of the safety deposit box. The Union Trust company refused to allow inspection of the box on the grounds that there was not sufficient proof of death.

Equivalent to Death A public administrator was appointed, and on the authority of the California law that "seven years' absence is equivalent to death," the court ordered the surrender of the box. To the dismay of the attorneys and administrator, who stood around when the box was pulled open not a solitary paper was found. Stinson's last visit to the box is recorded as August 12, 1898, three weeks before he disappeared. It is known that at that time the box contained a \$100,000 draft on the Bank of England, \$80,000 worth of government bonds and title deeds to vast minng properties. Stinson's friends say that persons familiar with his habits must have persuaded him to take the securities from the box, after which they inveigled him at a later day to the park and murdered him.

Mrs. Turner, Hunt Turner, a son, and Mr. and Mrs. Duncan Joy, daughter and sonin-law, were summoned from St. Louis and reached the Waldorff Wednesday. Mr. Turner was still very weak from loss of blood when the members of the family arrived, but the physicians did not fear a fatal termination of the accident. ### HOSPITALS CROWDED MAJORITY OF PATIENTS WOMEN

Mrs. Pinkham's Advice Saves Many From this Sad and Costly Experience.

It is a sad but ertain fact that every year ings an increase in the number of operations performed Morethan threefourths of the patients lying

white beds are women and girls who are awaiting or recovering from operations made necessary by neglect. Every one of these patients had plenty of warning in that bearing down feeling, pain at the left or right of the abdomen, nervous exhaustion, pain in the small of the back, pelvic catarrh, dizziness, flatulency, displacements or irregularities. All of these symptoms are indications of an unhealthy condition of the female organs, and if not heeded the trouble may make headway until the penalty has to be paid by a dangerous operation, and a lifetime of impaired usefulness at best, while in many cases the results are fatal.

Miss Luella Adams, of Seattle, Wash.,

Dear Mrs. Pinkham :-"About two years ago I was a great suf-ferer from a severe female trouble, pains and headaches. The doctor prescribed for me and finally told me that I had a tumor and must finally told me that I had a tumor and must undergo an operation if I wanted to get well. I felt that this was my death warrant, but I spent hundreds of dollars for medical help, but the tumor kept growing. Fortunately I corresponded with an aunt in the New England States, and she advised me to take Lydia E. Pinkham's Vegetable Compound, as it was said to cure tumors. I did so and immediately began to improve in health, and I was entirely cured, the tumor disappearing entirely, without an operation. I wish every suffering woman would try this great preparation."

#### OUR LOCAL INDUSTRIES

Editor Telegram:

The Mttle editorial paragraph in this evening's paper, "Are you buying, selling or using the products turned out here at home by Fort Worth enterprise?" is too good to be lost in forgetfulness. It should be kept standing as a constant reminder to your readers. Patronize home industry should be the motto of every citizen, and if well lived up to, will go far in enhancing local prosperity.

Fort Worth, February 20. S. T. BLESSING.

There ought to be some method of impressing the Idea of patronizing home industries indelibly upon the heart of every progressive citizen of this city. There is not a citizen of Fort Worth today who does not in his heart realize the full importance of such action, but for various reasons they do not get down to it in the proper manner.

people of Fort Worth are so loyal to the beloved city night. The testimony was corroborated by Mr. de In which they make their homes that as a matter of Ricgles, who ships from 25,000 to 30,000 head a year. choice the would always prefer to have the home Mr. de Ricgles said that when he was permitted to produced article, even though it should cost a little more than that which comes from some other source. The great trouble with the situation is that the matter does not receive the proper attention. Too much is forced to unload every twenty-eight hours. left to the dealer, who is quick to substitute with "something just as good."

Perhaps if the citizen would make it a rule to call upon his dealer and acquaint him with the fact that nothing but the home made article would go in his household the dealer would be quick to give all articles of home manufacture the front place in his collection. He will not be so quick to offer Kansas City and Chicago hams in the place of those packed in Fort Worth. He will not insist that Kansas flour is better than that turned out by Fort Worth mills, and so on throughout

The Telegram believes it is the duty of every citizen of Fort Worth to loyally stand by every Fort Worth enterprise. We should take a delight in the exploitation of every article manufactured in this city, advertise its good points and make it the standard of excellence. When we get this principle thoroughly mastered we are going to see the wheels of industry revolve in this city as they have never revolved before, and we are going to give such an impetus to industrial development that Fort Worth will have become the great manufacturing center of the Southwest long be-

fore we thought such development was possible. Reader, if you are a true friend of Fort Worth. you are using the products turned out by Fort Worth enterprise. Or, at least, you are preparing to do so and will let no grass grow under your feet until you set your house in proper order.

#### MUST HAVE THAT CONVENTION

There is no use going after the next state Democratic convention, if we are going to work in that direction in a half-hearted manner. There is opposition enough to the idea of coming to Fort Worth to insure defeat unless our people take hold of the proposition with the accustomed Fort Worth spirit. Dallas wants the convention and is working for it tooth and toe nail. It makes no difference to Dallas that Fort Worth stood out of the way and gave her the cattlemen's convention this year. Dallas is out for every thing she can pull her way, and is justified in her efforts. Waco wants the convention, and is advertising herself as the Central Texas city. Waco is a good town, and deserves well at the hands of the people of to feel entirely at home. They will find the Fort Boston Globe.

Texas. That city has a perfect right to get the convention if she is strong enough to do so, and it can be set down as an accomplished fact that Waco will have some strong backing. Mineral Wells is not letting any grass grow under her feet in an effort to attract this big event to that plucky and enterprising little city. and there are some people who think Mineral Wells will be Fort Worth's strongest competitor for the convention. It makes no difference, however, where the strongest competition comes from, Fort Worth people must be active in this matter and act with their accustomed promptness, or the opportunity will be lost.

It is needless to urge the advantages of this big convention to Fort Worth. Those advantages are clearly understood and appreclated, and are such as are naturally to be expected from the presence of several thousand representative Texas citizens in the city. We gave the cattlemen's convention to Dallas this year, and lost the advantages that we would have secured from having that large body of enterprising Texans with us. If we can obtain the Democratic state convention it will result in turning loose considerable of the circulating medium in the city, and will result in much favorable advertising for the city. No man can come here and spend a few days without going away under the impression that Fort Worth is the liveliest and best city in Texas, and there is no question but that our citizenship has been materially increased by recruits from the ranks of those who gained their first favorable impressions from the conventions they have attended in this city.

Our Mineral Wells friends are fighting for the convention largely along the line of opposition to Fort Worth, and are laying special stress on the fact that we have two candidates for state office this year. While it would make no real difference with Texas Democrats if we had a candidate for every state office, still it is best to take hold of this work as if we thought it almost an impossibility. The harder we work the easier will be the task that lies before us, and having actively entered the lists as a candidate for the honor of entertaining the state Democratic convention, we cannot afford to do otherwise than to bring every possible influence to bear on the situation that can be successfully invoked.

Fort Worth must have that convention,

### TEXAS CATTLEMEN MAKE IMPRESSION

The state of Texas and city of Fort Worth were well represented in Washington at the committee hearing in the matter of the proposed amendment of the 28-hour law. The state at large was represented by W. J. Bryan, of Abilene; Ike T. Pryor, of San Antonio; Henry Boyce, of Amarillo, and Fort Worth was ably represented by Judge Sam H. Cowan, John K. Rosson and W. V. Galbreath. Murdo MacKenzie, former president of the Cattle Raisers' Association, and now at the head of the American National Live Stock Association, was present and took an active interest in the committee proceed-

The strongest presentation of the stockmen's case was made by MacKenzie. Mr. MacKenzie remarked that the members of the humane societies who had protested against an extension of the law were ignorant of the conditions. He said methods of shipping cattle had been greatly improved in recent years and that if twenty-eight hours was the limit of time which cattle might be kept in cars with due consideration to humane treatment, when the law was enacted the improvements which had been made render it possible to extend that limit eight hours without additional suffering on the cattle. Cattle from the range, Mr. MacKenzie asserted, got no rest or nourishment when unloaded into pens. They were wild, often refused to eat or drink, and were always so excited that they got no rest whatever.

He cited the distances from a number of large shipping points to Kansas City, Chicago and St. Louis and declared that under the present law it was necessary to unload the cattle within 100 miles of the markets, which they would have reached before they could be unloaded and loaded after feeding in pens. As to the proposition to require the railroads to increase the speed of trains, he said it could only result in reducing the size of trains, and thus add to the cost of shipping. As an instance to show that cattle suffered more from unloading and loading he told of an experience with a snipment of two trainloads. One trainload was unloaded into a mirey pen and the other was kept standing on a sidetrack all night because of the lack of room in the pens. He lost thirty-five head of those unloaded The Telegram believes that the majority of the and not a single head of those kept in the cars over exercise his own judgment as to when cattle ought to be unloaded en route to market his losses had been about two per cent less than they were when he was

The committee will make its full report next week, the testimony all being in, and it is almost a foregone conclusion the cattlemen will get what they went after. While all the cattlemen of the country are interested in this matter, Texas has led in the fight made for properly amending an obsolete law, and the major portion of the credit for the splendid results that seem to be in sight is due those Texas cattlemen who have pushed the matter so incessantly from the very inception of the

The retirement of W. C. Stripling as president of the Fort Worth Board of Trade is generally regretted, but the election of William Monnig as his successor insures competent and progressive management.

The attorney general of Missouri claims to have evidence that mail matter addressed to the Waters-Pierce Oil company was delivered to the Standard Oil people. Is the attorney general of Texas still following the drift of this evidence?

The Fort Worth Elks are progressing very nicely with the matter of raising funds for their new building, and it is expected that the matter will be so shaped up as to insure the structure during the coming summer. About \$1,500 was raised by subscription during the past week, and the work of soliciting will continue.

The North Fort Worth municipal campaign may now be considered as fairly opened, and from the spirited manner in which the opening discussions were conducted, it may be safely assumed that the days lying just ahead are full of ginger. The two candidates for mayor are both men who do not nesitate to speak their honest convictions.

The physicians of Texas will meet in Fort Worth for three days, beginning April 24, and it is expected this annual convention will bring at least 1,000 doctors to this city. While Fort Worth is in a remarkably healthy condition and only experiencing "growing pains" incident to rapid growth and development, these gentlemen will receive a cordial welcome and be made.

Worth pulse normal, respiration wholly natural and circulation unusually good. They will find no germs in evidence save those of devolpment, and no bacilli but those of progress. In fact, these medical gentlemen will find Fort Worth just about the healthiest and most promising patient they ever visited.

Fort Worth merchants are waking up in the matter of encroachments being made in their territory by rival business centers, and have succeeded in obtaining for this city the same rates for visiting buyers that have been enjoyed by more favored localities. Preparations are bing made to use these rates to an advantage, and visitors will be properly entertained during the time they spend in this city. There is nothing slow about Forth Worth.

There is a little matter of difference between the city council and the local ticket brokers, in the form of the new city ordinance, that will probably have to be adjudicated in the courts. The new ordinance, which requires a license and bond, with various forms of restriction, will be resisted on the ground that the power to regulate railway traffic is is vested in the state legislature, and not in the city council. The contest promises to be an interesting one and will be sharp frem start to finish.

Cotton growing in West Texas is a subject discussed at the bankers' meeting in this city this week by A. B. Robertson of Colorado City. The speaker is a well known banker and cattleman, but the easy famil; arity he displayed with his subject goes to prove that cotton in West Texas is a proposition that has to be reckoned with by all classes. Robertson's home town used to be one of the banner cattle towns of the west, but last year it managed to ship nearly 20,000 bales of cotton. Westward the star of cotton supremacy continues to make its way.

Plant a dozen mills like that all over the state, double and treble their capacity as soon as circumstances justify and there will be a market found for enough of the Texas crop to materially solve the question of profitable sales. A half million cotton plant should have been established in this city ten years ago. It would advertise this city and section of the state beyond all else and bring good profits as

Worth is a city of over 50,000 busy, prosperous people, and, as yet, no \$300,000 cotton mill has been induced to favorably consider our great natural advantages. Fort Worth should proceed to get busy.

Tommy at first balked, but when he saw the misery Fitz was in he consented to take the Cornishman's place-Ryan generally isn't afraid of anything: has boxed as much with heavyweights as he has middleweights, and he is used to the heavy swings.

Well, when he stepped into the ring on this particular night he felt a bit nervous when he saw what he was up against. The big fellow didn't have any fighting clothes on, but he had a pair of arms that looked like piles with a couple of hammers attached to

When time was called the big fellow who had been used to rolling logs around in the woods made a run for him and bounced one of his fists at Tommy's head. As every fight fan knows, a pugilist always hits straight out, jabs or swings. That wasn't the case with this fellow. He swung his arms as if he were chopping a log in

The bout went along until the third round. Tommy says that his head by this time resembled a clothes rack. There were bumps sticking out all over the back and top of it. The lumber jack hadn't hit him once in a ten-

Near the end of the third round Ryan saw that he was in a predicament that would mean not only a loss of the forfeit purse, but a lot of kidding from Fitzsimmons and his party. The lumber jack was beginning to tire some, so Tommy sailed in, and only the fighter who has met Ryan in the ring or training camp knows what

Ryan passed over an uppercut that almost sent the big fellow over into the audience. The next one reached the big fellow's solar plexus and down he went like a log. Why, the whole building shook, said Fitzsimmons, after Ryan had returned to his dressing

That was the first and last time Ryan ever went on for Fitzsimmons, especially under those conditions.

An old story is being revived by Sharkey's friends that recalls the lack of school advantages of the sailor pu-Sharkey always was a nervy youngster, and as he grew up he got so that he was afraid of nothing. Finally the climax was reached when one day he succeeded in saving the life of a shipmate by his daring, for which his

### **BROWNE PLEA** SELF DEFENSE

Accused Man Takes Stand at Austin in Own Behalf

Special to The Telegram. AUSTIN, Feb. 23 .- The feature of today's proceedings in the trial of Roland Browne, charged with the murder of Congressman Pinckney, was the testimony offered by the accused himself. Browne testified that when the confusion started between his father, Captain Browne ,and "Doc" Tompkins, private secretary of Congressman Pinckney, he heard some one call his name and started to the front of the room. Immediately after he left his seat, the people in front began to rise and when he reached the side of his of travel or passage, purporting to be father, he said he saw Tom Pinckney and "Doc" Tompkins with revolvers in their hands. Tom Pinckney, he said, leveled a revolver at the father of the witness just as the witness stepped to his side, and then Roland Browne fired at Pinckney.

Pleads Self-Defense

The next shot, the witness said, was fired from behind him and his father and as he turned he saw a man shooting at his father. The witness testified man turned. He fired a second shot and the man's hand went down. He fired a third shot and when the smoke cleared away he recognized this man to be John M. Pinckney. His next wife is said to have been Mary Hoch of Wheeling, W. Va. She died of nephritis after three months. Hoch has always denied this marriage and declared that he merely assumed the woman's name. In the fall of 1696 Hoch married Clara Bartell ,o to Cincinnati, and she died within three months of the marriage. In January, 1897, he was married to Julia Dose in Hamilton, O., and abandoned her after obtaining \$700.

Served Two Years In April, 1898, Hoch was arrested in this city for selling mortgaged furniture and served two years in the

house of correction. In November, 1901, he married Mrs Anna Goehrke, of Chicago, but abandoned her after failing to obtain any money from her. April 8, 1902, he married in St. Louis Mrs. Mary Beckmore, who died early in 1903. Her relatives have claimed that she was poisoned.

Arsenic in Stomach December 10, 1904, Hoch married Mrs. Marie Welcker, a widow of this city, the woman for whose murder he was condemned. December 20 the woman became ill and January 12 she died, the cause of death being stated in Five days later Hoch married Mrs. Emelie Fischer, a sister of Mrs. Welcker-Hoch. Search was made for Hoch and he was finally discovered in New York, where his landlady, Mrs. Kimberly, reported that she believed her boarder to be Hoch, because he had proposed marriage to her on the day of his arrival in her house. He was arrested and later brought to

Married Thirteen Times Hoch after being placed in jail here admitted that he had been married thirteen times, but always denied that he had caused the death of any of his wives. June 3 sentence was passed on him, the date of execution being set for June 23. Governor Deneen granted him a reprieve until July 28. Within one hour of the time set for his execution, Hoch was given a second respite until Aug. 25. Before this date arrived, however, the supreme court of the state granted a supersedeas to permit of the consideration of his case by the court. Dec. 15 the court handed down a decision affirming the verdict in the lower court and fixing the date of execution The last effort made by Hoch to

secure a new trial ended on Feb. 21, when Governor Deneen and the board of pardons refused to interfere in his behalf. It was alleged before the board by Mrs. Emelie Fischer-Hoch that she had been so hounded by the police that she had committeed perjury during the trial and that much against Hoch was not true. ### **NEW TRAFFIC** MANAGER HERE

Rock Island - Frisco Official Has Arrived

NO CHANGES EXPECTED

Consolidation of Passenger Jurisdiction to Be Without Local Effect. To Boom Immigration

John Sebastian, passenger traffic manager of the Frisco-Rock Island railroads, with headquarters at Chicago, was in Fort Worth Friday morning. Mr. Sebastian has recently been appointed passenger traffic manager of the Frisco, the announcement of which has previously appeared in The Telegram. He was already passenger traffic manager of the Rock Island and the new appointment simply means the ex-Frisco. It is understood that this will ot cause any changes in the passenger business of either line in Texas and that the step is simply one of combining the method of handling the passenger business of the two lines with a view of economizing.

Mr. Sebastian is an enthusiast on immigration and he predicts great things for Texas this year. "We had 5,000 homeseekers Tuesday for the southwest," he said, "They took passage from Kansas City, Omaha and the other gateways and were destined for Texas and other southwestern points. A large percentage of these immigrants came to Texas and judging from the inquiries being received at our offices, there will be a greater immigration business to Texas this year than ever before. I am going down through the state on this trip with a view of acquainting myself with the conditions and obtaining information regarding the adaptability of Teks for the wants of a certain class of home-

Mr. Sebastian left Friday morning for Brownsville and other points in South Texas.

Merchants' Rates On

C. W. Strain, general passenger agent of the Frisco: A. A. Glisson, general passenger agent of the Denver, and P. A. Auer, general passenger agent of the Rock Island, are sending out circulars to all agents in Texas, advising them of the cheap rates effective to Fort Worth Feb. 26 to March 8. E. A. Pennington, city passenger agent of court held in Palo Pinto last week an the Houston and Texas Central, has election for school trustees was or- already received his circulars from Colonel M. A. Robbins, general passenger agent of the Houston and Texas Central, authorizing the sale of cheap tickets to Fort Worth. These notices will be sent to all agents on all the roads in Texas and it is believed that the making of these rates will bring a great deal of business to this city. The fare will be one and one-fifth for the round trip and the rates will be in effect from Feb. 26 to March 8. Tickets will be good to return ten days from date of sale. They will be issued on the certificate plan, the merchant paying full fare to Fort Worth, but getting a return ticket by paying one-fifth more and getting his ticket signed by R. A. Love, manager of the

> which concern was instrumental in getting the reduced rates here. Dallas has enjoyed these cheap rates during the buying season for the past three years, but this is the first time Worth has ever secured them. Many of the merchants throughout the state prefer trading here and these rates will make it possible to do so on the same terms that they obtain in Dallas.

Fort Worth Sample Room Company,

Cheap Rates Open

Jake E. Zurn. general agent of the the passage of the ordinance relating to the regulation of the ticket broker age business in Fort Worth will be of great benefit to the city in the way of making it possible to get cheaper rates conventions and gatherings of any kind held here. The railroads have en asking for protection against scalpers before making cheap rates and now that the ordinance has been passed, the way is open for the obtaining of reduced rates to this city. The cheap rates to merchants desiring to trade in Fort Worth, while

decided upon prior to the action of the council, were made with the understanding that protection would be provided against scalpers and in the future there will be no reason why Fort Worth cannot obtain as cheap rates as any other city in the state, he declared.

Another Stilwell Excursion

A. E. Stilwell, president of the Orient railroad, passed through Fort Worth Thursday en route from Mexico to Kansas City. He was accompanied by a party of eastern capitalists. The party came over the Texas and Pacific railroad from El Paso and was transferred here to the Rock Island, over which road the trip was made to Kan-

Notes and Personals

There will be a meeting of the city passenger agents of Fort Worth next Tuesday. This will be the regular monthly meeting. Committee reports will be received regarding the arrangements for the excursion to Galveston, scheduled for March 25.

J. T. Thompson, immigration agent of the Frisco, with headquarters at Chicago, left Thursday night over the Fort Worth and Denver for Wichita Falls, with a full tourist car of homeseekers.

J. D. Shuford, general livestock agent of the Denver, has returned from a trip to Amarillo. J. B. Gilbert, freight claim agent of the Houston and Texas Central, with headquarters at Houston, is in the city.

The fight has not commenced to get warm yet, but there is plenty of time left in which to laden

It is noticed in this campaign that the pros have secured the churches for their own use and most of the speeches made on that side are being delivered from the pulpit.

Last Sunday in Temple Rev. George C. Rankin formally opened the campaign for the pros from the pulpits of two churches of different denominations. Owing to the pros having refused to confine their speakers to persons from the county, the antis are talking of retaliating by refusing to divide time with the other side. There are indications that the people have wearied just a little of the arguments. advanced by both sides and that there will not be the big hurrah this election that characterized the two preceding it. Many people say that they do not intend to listen to speaking on either side this time.

### TWO HOMES IN **GLENWOOD BURN**

Sparks From Train Suggested as Cause for \$2,000 Blaze

An early morning fire at Glenwood destroyed two residences and left the families camped in the street with a remnant of their former belongings. The fire was discovered at 1:40 o'clock Friday morning in the house of Eugene Wright, 506 Bessie street, but it had gained such headway that it was impossible to extinguish it. The house together with the one next to it, the

home of J. R. Harding, was destroyed. Glenwood has a volunteer fire department which turned out and worked valliantly to extinguish the fire, but it had such headway that the department did not succeed in checking it until after the second house had been destroved. Companies 5 and 6 of the Fort Worth fire department went to the aid of the volunteer company and, in order to get water to the fire the two companies laid over a half mile of

The origin of the fire is unknown. but it is thought to have been caused by sparks falling on the roof of the Wright residence from a passing train, the house being quite near the rail-

The damage amounts to about \$2,000, only partly covered by insurance. The Wright family lost both house and contents; loss \$800, but they were insured. The house of J. R. Harding, valued at \$1,200 was destroyed, no insurance.

There are other houses standing in the same row as the burned ones and for a while it looked as though these were doomed, too; for this reason the furniture and contents of several were carried out into the street. There was little wind at the time of the fire. A purse is being collected to be given the Fort Worth fireman who assisted the Glenwood company.

## A CURE FOR DEBILITY

STRONG PRAISE FOR DR. WIL-LIAMS' PINK PILLS.

A Reliable Remedy for the Weak, Ailing and Bloodless of When the body is weak and the blood

thin it is sometimes difficult to find the cause unless a wasting illness has preceded, or the sufferer happens to be a girl on the verge of womanhood. Obscure influences, something un-

healthful in one's surroundings or work, may lead to a slow impoverishment of the blood and an enfeeblement of the whole body. When a serious stage has been reached there seems to be nothing that will account for it.

In such cases a complete change of climate or of work will sometimes effect a cure. It takes a long time, however, and for the great majority of sufferers is out of the question. Mr. C. É. Legg, of Tipton, W. Va., has found a successful method of treat-

ing weakness and bloodlessness. He "I used Dr. Williams' Pink Pills for weakness caused by a lingering malarial fever that began in the spring of 1896. The worst effects of this were indigestion and a bad state of my blood. I was ansemie, as the doctors say. People generally would say that I didn't have

blood enough, or that I didn't have the right kind of blood; mine was too thin. My kidneys and liver were out of order. I was badly annoyed by sour risings from my stomach There was a good deal of pain, too, in my back and under my right shoulder blade." How long did these troubles last?" "For over two years. For four months of that time I was under the

care of a physician, but his medicine did me no good. Meanwhile I learned of the cures that had been wrought by Dr. Williams' Pink Pills." "You owe your cure then to these "I certainly do, and I also know that

they are helping others to whom I have recommended them. They have real merit and I know of nothing that would take their place." The reason why Dr. Williams' Pink Pills effect such remarkable cures is be-Pills effect such remarkable cures is because they purify and enrich the blood which nourishes the nerves and gives strength to every organ of the body. They have cured obstinate cases of neuralgia, nervous prostration, sciatica, insomnia, as well as of partial paralysis. For further information andress the br. Williams Medicine Co., Schenectady, I.
