Bank and Trust
COMPANY CLOSES

Fort Smith House Was Branch
of Dallas Concern

By Associated Press.
FORT SMITH, Ark., March 1.—The
Southern Bank and Trust Company, a
recent corporation with an authorized
capital of \$600,000, failed to open its
doors today.

Notice was posted to the effect
that the bank interests had been sold
to Tom Neal, an attorney of Fort
Smith, who, it was said, would pay all
depositors in full.
Deposits amount to about \$30,000.
Assets, consisting of notes, loans,
discounts and office fixtures, amount
to about a like sum. The Southern
Bank and Trust Company was a
branch of the Southern Bank and
Trust Company of Dallas, Texas.

PIPE LINE FOR PANAMA

U. S. Steamship Co. Has Extensive Plans

MILLION CAPITAL

Two Vessels Already Bought to Be Used in Carrying Oil in Two Oceans

By Associated Press.
NEW YORK, March 1.—The Times today says:
The United Steamship Company was incorporated in Trenton, N. J., last Tuesday with \$1,000,000 capital. It was incorporated yesterday that this company had purchased the steamships Minnetonka and Minnewaska, each of about 3,500 tons, previously used for the oil trade on the Great Lakes. Persons interested in the company made known last night that these and other vessels were to be used in the oil trade on the Atlantic and Pacific between western and eastern ports and the isthmus of Panama.

The United Steamship Company is said to be affiliated with the Union Oil Company of California, a concern which came into life by the consolidation of several small independent oil concerns in the far west.

The Minnewaska and Minnetonka were sold to representatives of the United Steamship Company a few days ago through a local brokerage firm. It was said last night by persons who seemed to know about the company that the plans of constructing a pipe line across the isthmus had advanced so far that a steamer, the property of the United Steamship Company, was awaiting orders at an eastern port to sail with a cargo of pipes and pumping machinery for the isthmus.

There arrived in this city yesterday from San Francisco, C. H. Baker, who was said by his friends to be connected with the Union Oil Company of California and the United Steamship Company of New Jersey. Mr. Baker, it was said, was heard in Washington today. Mr. Baker, when questioned last night, was cautious about any information, but said:

"I do not wish to say anything in regard to the recent purchase of steamers by the United Steamship Company. There is plenty of oil in California. We have surveyed the isthmus and thoroughly investigated the possibility of building a pipe line across it."

MCCURDY'S TO SAIL

Mutual Life Magnate and Family to Europe

By Associated Press.
NEW YORK, March 1.—Richard A. McCurdy, ex-president of the Mutual Life Insurance Company, and Mrs. McCurdy and Louis G. Thebaud and Mrs. Thebaud, Mrs. McCurdy's daughter, left Morristown, N. J., last night and boarded the Hamburg-American steamship Amerika at its pier at Hoboken. Several servants accompanied them. The Amerika will sail today.

When the carriage containing the McCurdys and the Thebauds arrived at the pier, a reporter endeavored to obtain an interview with Mr. McCurdy. Mr. Thebaud's coadjutor, Thomas Beddow, hit the reporter, the police say. Beddow was arrested on the charge of assault and battery. He was held in \$300 bail.

At McCurdy's home in Morristown, it was said that enough servants had been left there to keep the place in order and that the silverware and China had been placed in the vaults of a local safe deposit company.

The Thebaud place was also placed in the hands of caretakers. Mr. McCurdy has reserved what is known as the "imperial suite" on the Amerika. It is his name, the fact that the German emperor has the privilege of using it whenever he cares to travel on the Amerika. Mr. McCurdy's health has greatly improved and it will not be necessary for him to be accompanied by a physician. Nothing definite has been stated as to the duration of his European trip, but it is likely that he will remain away some months.

COMMERCE INCREASING

Foreign Trade Rolling Up in Monster Proportions

WASHINGTON, D. C., March 1.—The foreign commerce of the United States during the first seven months of the current fiscal year amounted to \$1,752,421,330, or an average of \$250,000,000 per month during that period. Should this rate continue, the total foreign commerce for the fiscal year would exceed \$3,000,000,000, a figure which has not been reached in any previous year in the history of our foreign trade.

This increase, which is shown by figures just issued by the department of statistics, occurs in both imports and exports, but more especially in exports. In the seven months ending with January imports have increased \$70,000,000 over the corresponding months of the preceding fiscal year and exports have increased \$155,000,000.

CUT HIS THROAT BUT IS HANGED

Condemned Man's Suicidal Attempt Failed

SANTA FE, N. M., March 1.—John Conley, a miner who, on Jan. 16, 1904, killed James Redding and Charles Purdy at the Guadalupe Placers, was hanged today at Taos, a few hours after being found in his cell with his throat cut. The wound, which he had inflicted with a pocketknife, did not sever the artery, and was quickly bandaged. Limp and almost unconscious, Conley was dragged to the gallows and slipped through the trap, death resulting from strangulation.

Conley had been convicted by a jury, eleven members of which spoke only Spanish, and the trial was conducted with the aid of an interpreter. An appeal was granted to the New Mexico supreme court, but as Conley did not have the money to pay for a transcript of the record, the appeal was refused to grant a reprieve of thirty days for the case to be reopened.

TRIBES TO CONTINUE

House Agrees to the Resolution of the Senate

WASHINGTON, D. C., March 1.—The house on meeting today agreed to the senate bill, which provides that the tribes of Indians in Indian Territory until the property of the Indians shall have been disposed of. In the senate Deliver spoke on the railroad rate bill.

NEGRO COLEMAN HANGED IN LA.

Shreveport Jail Scene of Execution of Murderer

SHREVEPORT, La., March 1.—Charles Coleman was hanged at 12:20 o'clock this afternoon, and was pronounced dead in thirteen minutes. The execution was witnessed by several parties, aside from the legal witnesses, of whom there were fifteen.

The fact is entirely within reason to predict another decade of life for him, if he wanted he could probably get back into politics, and become the recipient of some office of honor.

Democrats have turned to Cleveland twice in the last eight years as the man who could bring good-bye, the record of defeats, and if the only democratic President since Buchanan wanted their chance, he could probably get it.

But Mr. Cleveland has steadily turned a deaf ear to all such temptations, disregarding the precedents of John Quincy Adams, who after being President served for many terms in Congress, won the title of "Old Man Eloquent" and finally got his death call on the floor of the house, and Andrew Johnson, who went to the senate after leaving the White House, or Tyler, who became a member of the Confederate congress. Mr. Cleveland has steadfastly taken the position that any American who had been called to the presidency has received the highest honor in the gift of the American people and that to accept any other public office would not only be selfish, but anti-climatic.

Jefferson survived twenty-five years after the beginning of his first term. Madison went him two years better and lived twenty-seven years. John Quincy Adams made a record of twenty-nine. Martin Van Buren twenty-five. Tyler twenty-one, the same as Cleveland. Fillmore lasted only twenty-four.

It is a significant fact, and one that proves how much greater is the strain of the office now, that since the time of Fillmore, Grover Cleveland is the only man who has lived a score of years after becoming President of the United States. Pierce lived sixteen, Buchanan eleven, Lincoln four, Johnson ten, Grant sixteen, Hayes sixteen, Arthur five, Garfield only a few months, Harrison twelve and McKinley four and one-half years.

BRITISH POLICY HOLDERS ALARMED

British Committee Cables of Fish's Leaving Mutual

By Associated Press.
LONDON, March 1.—Viscount Northcliffe (better known as Sir Alfred Harmsworth), chairman of the protection committee of the British policy holders of the Mutual Life Insurance Company, cabled to Stuyvesant Fish the committee's alarm. Fish's resignation from the company and urging him to continue in the support of genuine reforms.

TO PENSION EX-PRESIDENTS

Representative Sulzer Proposes Allowance of \$25,000

WASHINGTON, March 1.—Representative Sulzer of New York wants to make Grover Cleveland a birthday present. He doesn't refer to it in that light, for his bill to appropriate \$25,000 a year to ex-Presidents of the United States is not designed specially for the benefit of the Sage of Princeton. Yet ex-President Cleveland is the only man who would benefit by it, for no other former incumbent of the chief magistracy is living.

Grover Cleveland's birthday comes on March 15. Then he will be 69 years old. If on that day out of compliment to Cleveland, congress should pass Sulzer's bill, the act would be hailed with general approval by the American people, for he has grown in popular favor.

It is the general thought to regard Mr. Cleveland as an old man. And yet other Presidents have assumed the office when they were but few years younger than he is now after having been in retirement for some years.

TEAMSTERS LEAVE CHICAGO UNION

Enmity to Shea Is Cause of Secession

CHICAGO, Ill., March 1.—Enmity between two rival unions, one friendly and the other hostile to President Coolidge, is the cause of a threatened strike of 5,000 teamsters, which will take place soon.

While the drivers of Shea will go with the strikers at Princeton, all the other team owners that the strike was called.

Both unions for several weeks have been endeavoring to secure the signatures of the team owners to an agreement in order that they might control the work of the excavating drivers.

ARRESTED ON COAST

Soldier Charged with Being Implicated in Shooting in Kentucky

PORT TOWNSEND, Wash., March 1.—Charles Howard, a private in the 19th company, coast artillery, stationed at Fort Flagler, is under arrest awaiting the arrival of an officer from Kentucky, where he is wanted in connection with the shooting of one Harvey Jones. According to Howard's own statement, he and a companion named Vernon Singleton were walking along a railroad track in the neighborhood of Somerset, Ky., several months ago, where trains were in the habit of slowing down and agreed that if a tramp happened to be ejected from a freight, then hearing the spot, they would shoot him. Jones was ejected and Singleton and himself commenced shooting, Howard asserts.

Jones was dangerously wounded and both assailants fled, Howard soon afterward enlisting in the army in the hope of sinking his identity.

ARE WEDDED IN A CARRIAGE ON RUN

Romantic Marriage of Couple in Virginia

Special to The Telegram. RICHMOND, Va., March 1.—A romantic marriage was consummated at Bristol when Miss Elizabeth Clark of Max Meadows, Wythe county, was married to F. M. Tate, an employe of the commissary department of the South and Western railroad, of Clinchport. The bride arrived at Bristol an hour before the wedding. Finding that she was shadowed by her mother, who was opposed to the match, she wired her lover to have a carriage in readiness. But Mrs. Clark adopted similar tactics and also wired for a carriage. When the train arrived the girl left the Pullman car on the opposite side from the depot and this gave her and her lover a momentary advantage. Both carriages appeared upon the street simultaneously and a wild ride was begun by the lovers, in whose carriage was also a minister, Rev. W. H. T. Squires of the Central Presbyterian church, the leading carriage, running at full speed, darted here and there along the side streets in a vain endeavor to shake off the woman who pursued. The plan was to be married in the postoffice lobby, but the accommodating minister, finding that the mother was about to overtake them, performed the ceremony in the carriage while the horses were running at a mad gallop. Shortly thereafter the mother's carriage chanced to take a wrong turn and the young couple escaped to their hotel, where on the hotel plaza the wedding march on the hotel plaza. Mrs. Clark, who was left groping in the dark of a suburban street for the lost trail, later appeared at the same hotel, where she spent the night, but the happy lovers were blissfully unconscious of her presence.

COLLEGE FOOTBALL PAYS

Receipts from Crimson Gridiron Contest for Season \$60,000. Special to The Telegram. BOSTON, Mass., March 1.—Harvard athletics will be credited by football during the last season by about \$60,000. The total income from the intercollegiate games at the stadium will reach \$100,000 and may be beyond that figure. The total expenses will in all likelihood reach two or three times what they were in the last season that a football game was played with Yale—that is, 1903. As yet the accounts have not yet been balanced. It looks now, however, as if the bills would reach \$40,000 (as against \$15,000 in 1903), when all the accounts are in. They may slightly exceed that figure. No action will be taken toward a full disposition of the surplus until the question of football at Harvard is settled. What money has been used, however, has been devoted mainly to the improvement of Soldiers' Field. Already about \$5,000 has been spent there. The idea of the Harvard athletic authorities is to make the field capable of accommodating about two hundred players at the same time. No less than ten "diamonds" are planned for the baseball section of the field. Hereafter, so far as money is received from intercollegiate contests, it will be devoted, as largely as feasible, to bettering the conditions for student players and athletes, rather than in splurging over intercollegiate contests. From now on, however, the one great idea in Harvard athletics is to encourage the average student player rather than to build up one great intercollegiate victory, to the ignoring of general athletics. It can be said that it is upon this understanding, very largely that football is to be allowed at Harvard next fall.

MISSIONARY BLIND

Returns from China After Thirty-Five Years' Service. By Associated Press. SEATTLE, Wash., March 1.—After spending thirty-five years of the best part of his life at Canton, China, as a Baptist missionary, Rev. E. Z. Simmons returned to America yesterday on the Dakota, totally blind. When he left Canton he was still able to distinguish objects and recognize faces. On the voyage, however, his sight failed entirely. With his wife, Dr. Simmons left last night for Nashville. He is determined to return to China whether his sight is restored or not. Dr. Simmons says the recent efforts of the government to establish a public school system to which the people are opposed, particularly in the teaching of the English language in the schools, is responsible for the unrest and anti-foreign feeling against foreign residents at Canton. He says they are living in constant fear of a violent outbreak and declares that the strength of the boycott at Canton is due to the fact that it is being encouraged by the Chinese in America, the greater part of whom came from the Canton provinces.

MACCABEE ENTERTAINED

Supreme Commander Guest in City of Waco. Special to The Telegram. WACO, Texas, March 1.—Supreme Commander E. P. Markey of Fort Worth, Mich., supreme commander of the Maccabees, reached here today and will spend tonight in this city. State Commander J. B. Sawtell, P. S. Henry and other prominent local Maccabees have arranged an entertainment for him tonight, and Maccabees in this whole section invited. It is expected that there will be more Maccabees present than at any meeting for years.

FAMINE GROWING WORSE IN JAPAN

Second Appeal Says Conditions Are Beyond Description

By Associated Press. WASH., March 1.—The steamship Dakota brings advices from Nagasaki that the famine situation in the northern provinces of Japan is steadily growing graver. An appeal has been issued by W. E. Lamb, chairman of the foreign committee for relief in which he says: "When we issued our first appeal to the foreign committees in Japan in December, we estimated that 480,000 persons, out of a population of 2,281,000, were on the verge of starvation. Since then the members of our committee have personally visited twenty-six counties and as many towns in the provinces of Miyagi and Fukushima and distributed 9,000 yen. Our first figures estimating those affected by the famine were too weak to describe the actual suffering. Able bodied men, ragged and hungry, are facing snow and icy winds to bring wood from the mountains in the hope of earning enough to keep them warm and such families from starving. Women are covering their babies with their own clothing to keep them warm and such conditions as these can mean only death in the end. Families once proud and comfortable are now reduced to want." The appeal tells of special instances of suffering and death among them, finding the body of one woman lying beneath a shrine and of another who died because she was too weak to give birth to her child and was frozen to death.

DR. C. T. SIMPSON DEAD

Was Formerly Leading Physician of Temple. Special to The Telegram. TEMPLE, Texas, March 1.—Dr. C. T. Simpson is dead. Mr. John W. Wright of this city is in receipt of a letter from Mr. Konney Simpson announcing that the writer's father, Dr. C. T. Simpson, died last Sunday of pneumonia at Cananea, Mexico, and that the body was buried there. The mention of this name recalls much to the minds of citizens of this city as well as to the citizens of Texas. He was a practicing physician in this locality when Temple was first a town, and for a long time was the leading physician of Temple. He was a born politician and when governor Culberson's first look office, Dr. Simpson was given the superintendency of the Austin insane asylum. He resigned and returned to Temple to wind up his affairs and then he went to California, thence to Honolulu, back to California and afterward to Old Mexico.

PACKER'S BODY BURIED AT SEA

Relatives Denounce Action of Steamship Officer

Special to The Telegram. NEW YORK, March 1.—Why the body of Anderson Fowler, millionaire financier and meat packer of 60 West Sixty-eighth street, who died in the harbor of Genoa, was buried at sea by the officers of the Carpathia is a question that will be investigated to the fullest extent by his grieving and angry relatives. The burial was made in the face of protests from the aged widow, who was on board. Although every preparation had been made to receive the body and the funeral cortege was at the dock, the only explanation the officers would give was that they felt it inadvisable to longer keep the body on board. The burial took place on Feb. 20, when the Carpathia was in mid-Atlantic. When the Carpathia swung into her pier today there was a distinguished gathering of mourners waiting to take charge of the remains. Everything was ready for the funeral service and interment. Among them were seven of the children of Mr. Fowler, besides a score of lifelong friends, including E. R. Chapman, Mr. and Mrs. Archer Brown and Irving Bacheller, the auctioneer and the ship were Mrs. Fowler, the widow, Arthur A. Fowler, her oldest son, and one of her daughters. The widow and her son and daughter had protested in vain against the burial, were much affected. They said that it was at 6:30 p. m. Feb. 20, when with night already upon the body had been dropped overboard. The widow was so prostrated at this that for the rest of the voyage she was almost constantly under medical treatment. Mrs. Fowler had to be carried from the ship by her two sons. The experience had rendered her an invalid. She was unable to talk of it and was hurried away in a cab to her home in New York. The intimate friends of the dead man were very emphatic when he said: "This is an outrage. There will be an investigation that will develop and settle the question whether such high-handed proceedings will be allowed." Anderson Fowler was a brother of the late George Fowler, formerly a resident of Kansas City, and was the head of the Anglo-American Packing Company, with headquarters in Chicago, the local branch of which, established in 1880, was changed in 1891 to George Fowler, Son & Co., limited, and is now a branch of the National Packing and Provision Company, under the name of the Fowler Packing Company.

POOL SELLER DEAD

Had Auctioned \$150,000,000 Worth in 33 Years on Turf. Special to The Telegram. WILLIAMSPORT, Pa., March 1.—Frank L. Herdic, for thirty years the best known pool seller in the United States, is dead.

In his time he had sold auction pools aggregating \$110,000,000, according to an estimate made about two years ago. Followers of harness racing considered him the wisest man on the trotting turf, and his bright sayings and keen repartee always kept a crowd around the pool box when he was the auctioneer. At keeping up the odds it was said he had no equal. Herdic was about sixty years old. He began selling auction pools at Buffalo when the first trotting meeting was held there, thirty-three years ago, and he had but one meeting until the old Hamlin track was closed. He had sold fields and favorites in the Grand Circuit, ever since the big league of trotting tracks was organized. Though in his falling health, he worked at the Poughkeepsie Grand Circuit meeting last year. In recounting his experience he said a year or two ago that E. E. Smathers would bet more money on an even thing than any other man he ever saw. N. W. Hubinger of New Haven, was, however, a larger buyer of pools. Herdic used to tell one race in which Hubinger played \$38,000, starting with a loss of \$10,000 and quitting with net winnings of \$7,000. The competing horses were Thomas W. Lawson's Borahma, 2:07; Fred Gerken's The Monk, 2:05 1/2; and E. E. Smathers's Lord Derby, 2:05 1/2. The latter won. At Lexington a few years ago, when Mr. Lawson's Borahma won the Pennsylvania Stakes, Herdic in two hours and a half sold auction pools aggregating \$85,000 on the event. It was the veteran pool seller's boast that he had never asked a driver to pull a horse for him, but he naively added that he had been in with many good things, some of which were driven out of him, at a cost, in one instance, of \$15,800.

BALL PLAYER WHO TRIED GOLF

"SPIKE" TEENING OFF. When "Spike" Shannon, now playing one of the outfield positions with the St. Louis Nationals, was with the St. Paul team in the American Association, he was one of the most popular players with the Saintry city fans. "Spike" was one of the leading outfielders and hitters in the American Association. His good humor won him many friends and he was invited out to many social functions. One day "Spike" received an invitation from one of the prominent members of the club links to come and enjoy a session with the stick and snuff percha spheres. "Spike" had never played any golf and one morning he found time hanging rather heavy on his mind. Don't care and rode out to the golf links. He made himself known at the club house. There were a number of "rah rah" boys who were wearing little caps and smoke coffin nails, just because it's all in the game y'know—lolling around the club house. To meet a real, live ball player and shake his hand was an unexcelled honor to Spike

FACTS ABOUT FLOWERS

Flowers Grown From the Roots in Three Weeks—Fill a flower pot more than half full with quicklime, and fill to the top with good soil. Plant the bulbs in the usual way. The heat of the lime will rise through the earth, and in this manner beautiful flowers may be obtained at any time. The soil should be kept dry. Soil for Flowers—Good soil is of first importance, for without it no plants thrive. The best soil is produced by mixing fresh sandy loam with a third of well-rotted manure. In potting plants, press the soil well down in the pot. Never use wet soil for this purpose under any consideration; if you do, disappointment will be the result. The Proper Watering of Plants—It is best to wait until the plant shows it needs water, then give it a good dousing in the bathtub. A plant with its roots constantly in mud cannot thrive. If hothouse plants are watered with soft water, they will thrive. A little ammonia in the water is a little ammonia. They will thrive well. Sometimes small white worms are found in the earth. Ammonia or lime water will kill them. Bury the soil, to expose as many as possible, before pouring it on.

Mrs. Mary Mag, 423 College Ave., E. Pittsburg, Pa., writes: "Last spring I had a very severe cold which settled on my lungs. I went to the doctor for some time, but his medicine did me no good. "Having read in the paper some testimonials of the value of Peruna, I decided to try it, and at the same time wrote to Dr. Hartman for advice. I took five bottles of Peruna and am now entirely cured. "Before taking Peruna I was so run down that I could do no work and could not stand on my feet. My head ached and I could not sleep—I would wake up and cough. In the morning, on rising, I would cough for at least ten minutes. I was alarmed. "But, thanks to Peruna, I am now enjoying good health. I would not be without Peruna. I keep it in the house and give it to my little boy when he has a cold."

It would be wise, therefore, to guard against it by every precaution possible. Peruna has been found the most reliable of all remedies for coughs, colds and catarrh, by reason of the fact that it goes at once to the very seat of the trouble. It scratches out every crevice, every duct of the body. It quickens and equalizes the circulation of the blood, thus relieving the congested mucous membranes. It exercises a healing and soothing effect upon the mucous membrane, no matter whether they are the more exposed membranes of the head and throat, or whether they line the remotest cells of the lungs. A word to the wise woman is sufficient. Take Peruna at the first appearance of a cold, and they could not do enough for "Spike". Shannon was fitted out with sticks and several of the young chaps insisted on acting as caddies for him. One of the caddies fixed up a mound of earth for "Spike" to "tee" off. The little white gutta percha ball was placed on top of the mound. "Spike" drew back with a "brassie" in much the same manner that he does for a knee-high ball. "Bing" Oh, how "Spike" swatted that ball. It seemed as though it went about a quarter of a mile. "Spike" forgot himself and started to run in the direction of an imaginary first base. After traveling about eighty feet at a regular Duffy clip, "Spike" turned and yelled in a real rough tone to the chappies: "Say, would you mark off your base lines in this game?" That was Shannon's first and only attempt at playing golf.

WOMEN SHOULD BEWARE OF CATCHING COLD.

Women are especially liable to colds. These colds occur more frequently during the wet, sloppy weather of winter and spring than any other time of the year. Often they are not considered serious and so are allowed to run on, or they are treated in such a way as to only palliate the symptoms, while the cold becomes more deep-seated, and the patient finally awakens to the fact that she has a well-developed case of catarrh. By reason of their delicate structure the lungs are frequently the seat of a cold, especially if there is the slightest weakness of these organs. The treatment of catarrh of the lungs is also more difficult and discouraging than that of any other organ of the body.

A FACT ABOUT THE "BLUES"

What is known as the "Blues" is seldom occasioned by actual existing external conditions, but in the great majority of cases by a disordered Liver.

THIS IS A FACT WHICH MAY BE DEMONSTRATED BY TRYING A COURSE OF TUTT'S PILLS

They control and regulate the LIVER. They bring hope and buoyancy to the mind. They bring health and elasticity to the body. TAKE NO SUBSTITUTE.

NO SPRINKLING NOW PROSPECT

Contract Between City and Company Has Expired

NO ARRANGEMENTS YET

Private Subscription Must Pay Bills Unless City Takes Action Immediately

The "windy month," March, came in Thursday, verifying the old adage of coming in like the lion, and it is hoped that it will go out like the lamb. The local importance of the ushering of the month with a wind storm is the fact that the contract existing for five years between the city of Fort Worth and the Fort Worth Sprinkling Company expired Thursday and if some provision is not made for the sprinkling of the streets the suffering from dust, physically, the damage to merchants' stocks of goods, the tempers of the housekeepers and the household effects are appalling to contemplate.

Future in Dark

What is to be done is not determined. The contract with the city had a definite period to run and that period ended with March 1. The members of the Fort Worth Sprinkling Company, a Texas corporation, are William Capps, Captain Short and James Thrasher. Mr. Thrasher said this morning he knew nothing about the future of the company or its plans. Mr. Capps was not prepared to give any information, for he said he had been so busy that he had not given any thought to the matter whatever, and therefore was not prepared to say what the company would do nor what the future of the only knew that the contract ended Thursday, but whether or not the company would continue sprinkling he had not determined. There was but little in it financially at best and the whole subject was one for after consideration.

Mayor T. J. Powell could not give any light on the question, but he did say that so far as he was concerned he would prefer that the matter of a new contract, if one is to be made, should go over to the city administration, to be elected in April. But this condition exists: The sprinkling cannot be done without expense and the question to be determined is who will bear that expense. It is doubtful very doubtful, if the city could legislate a new contract, the money under that old contract than the terms of the contract call for or if it can pay any money at all for street sprinkling without a new contract. The sprinkling company cannot be expected to work without compensation, and if some arrangement is not made looking to the pay for the work the sprinkling of the streets must stop unless provided for by private subscription.

PANTHER CLUB MEETS

Members Enjoy Noontday Feast of Spaghetti

The promise of a spaghetti feast brought forth an unexcused large assemblage for the Panther Club weekly gathering Thursday and while spaghetti could not exactly be termed the kind of a diet that Panthers were raised on, it looked as though it determined it as well as it had been the kind of biscuits mother used to make. There was no question asked about where they acquired the taste for this imported product, but the supply was equal to the demand, as is always the case with the Panther spaghetti and all ent partook freely of the diet prepared by George D. Laneri. In addition to a large attendance of the local members there were two visitors present, who were elected associate members of the club. These were H. A. Johnson of Dallas and Charles E. Coons of Geneva, New York.

FRIDAY IS A HOLIDAY

Anniversary of Texas Independence to Be Observed

Friday, March 2, is the seventeenth anniversary of Texas independence, the battle of San Jacinto having been fought and won by the Texas patriots under General Sam Houston on that date in 1826, the result being that Texas became a free and independent government. The day is known as Independence or San Jacinto day and is a legal holiday in Texas. It will be observed in Fort Worth by the closing of all banks and the public schools, but there will be no public observance of the day. The courts will continue to do business and business will be conducted as usual in the commercial world except in Texas banking circles. March 2 is to Texas what July 4 is to the United States.

FIRM NAME CHANGED

Joseph H. Barwise Now Member of a Prominent Law Firm

Effective March 1, Joseph H. Barwise, Jr., who has formerly been assisting in the law office of Spooner & Thompson, general attorneys at Fort Worth and Denver City railroad, becomes a member of the firm, and the name of the latter is changed to Spooner, Thompson & Barwise. Mr. Barwise has been connected with the firm as an assistant for several years.

CURES WORST CASES OF CATARRH

R. A. Anderson Sells Hyomei Under Guarantee That It Costs Nothing Unless It Cures

Not until Hyomei was discovered, had it been possible to say truthfully that a remedy for catarrh was known. Hyomei cures the worst cases of catarrh simply by breathing the remedy through the pocket inhaler that comes with every outfit. Using the treatment in this way for a few minutes four times a day, every particle of air taken in the air passages and lungs is laden with germ-killing and health-giving. Stomach drugging often causes disordered digestion and never makes a permanent cure of catarrh. Hyomei not only kills the germ in the throat and nose, but penetrates to the minutest air cells in the lungs and enters the blood with the oxygen, killing the catarrhal germs in the blood.

The complete Hyomei outfit, consisting of a vest-pocket inhaler and medicine dropper, and a bottle of Hyomei, costs only \$1.00. If this does not effect a complete cure, extra bottles can be obtained for 50 cents. R. A. Anderson knows of many people who have been cured of catarrh by Hyomei. He has never used it so thoroughly himself that he offers to refund the money in case it does not cure.

DETECTIVE EXPECTED

Member of Philadelphia Police Force Due Thursday Night

Detective Lynch of Philadelphia is expected in Fort Worth Thursday night or Friday morning. His mission here being to take L. W. DeMotte, who was arrested here on a telegram from Philadelphia back to that city. Officers here are not advised whether he is provided with the necessary requisition papers or not. Should such papers be required the course of procedure would be for the governor of Pennsylvania to make a request upon the governor of Texas that he send a deputy power to return with the prisoner. The case of DeMotte has attracted much attention, it being remembered that his arrest was effected by Detective A. G. Ray upon a telegram received from the chief of detectives of Philadelphia, stating that DeMotte had been indicted upon a charge of desertion. DeMotte is now out on bond, his further hearing being set for Saturday morning in the Seventeenth district court.

RAILROAD RUMBLING

MAKING OUT REPORTS

Fort Worth City Passenger Agents Making Monthly Statements

City passenger agents of Fort Worth were busily engaged Thursday in making out their monthly reports for the month of February. While too early to obtain the exact figures, the agents all stated that the business for the month had been highly satisfactory and showed a good increase over that of the corresponding month last year.

RETURNS FROM NASHVILLE

Rock Island Man Accompanied Party to Student Volunteer Convention

C. R. Aden, traveling passenger agent of the Rock Island, returned Thursday morning from Memphis, Tenn., where he went to accompany a party of representatives to the Student Volunteer movement in the interest of foreign missions, which is being held at Nashville, Tenn. Mr. Aden states that there were 138 in the party from Texas and Oklahoma and that there are between five and six thousand in all attendance at the meeting in Nashville.

AUDITOR HERE

Cotton Belt Official Checking in New Agent

W. D. Stetler, traveling auditor of the Cotton Belt railroad, with headquarters at Texarkana, is in Fort Worth checking in his new assistant ticket agent of the Cotton Belt at this point. As has been announced in the Telegram, Mr. Stetler succeeds J. W. King, who has been promoted to the position of soliciting agent of the Cotton Belt, with headquarters at Waco.

Roussaville Returns

John Roussaville, city passenger agent of the Cotton Belt, has returned from Garland, Colo., where he was called by the death of his brother-in-law, C. E. Smith, of that city. Mr. Smith was formerly a well-known railroad man in Texas, having served as agent of the Cotton Belt at several points in the state.

Mexican Touring Party En Route

Gate Mexican tour special No. 2 passed through Fort Worth at 7:30 o'clock Thursday morning over the Santa Fe railroad. The party consisted of about 20 persons, who proceeded south to Milano, where they will transfer and go to Mexico via San Antonio and Laredo. The train had eight coaches and was equipped with everything useful for the comfort of the passengers.

Railroad Notes and Personal

J. W. King, assistant city ticket agent of the Cotton Belt here, left Wednesday night for Waco, where he has been soliciting freight agent for the Cotton Belt, announcement of which change was made in the Telegram several days ago. David Byars, who succeeds Mr. King here, is now ready to assume his new duties.

FEB. WEATHER MADE RECORDS

Unusual Conditions Recorded at Local Bureau

From the weather bureau point of view the month of February, as contrasted with preceding months of the same name, has been one of marked peculiarity. The temperature has been above the normal, though that is true of the days of the month when the rainfall has been above the average for the eleven years of the local existence of the weather bureau, with the exception of one year the humidity has been less than usual to an almost remarkable degree, a condition which seems to contradict the above average rainfall. This is explainable by the fact that the sun shine has been above the average as to amount and the number of days when there was no sunshine have been fewer than the average. The wind velocity and movement has been less than usual in many respects, and the snowfall, the only snow of the month being a trace on the 6th ult. The average temperature for the month was 42 degrees, while for February last year the average was 35. The maximum was 89 degrees on the 23d and the minimum, 13 degrees, on the 5th, while the minimum for last February was 1 degree above. Ten of the days of the month were marked by freezing temperature while for the corresponding month of last year there were eighteen days with freezing temperature and then the cold was much severer. For the year, to this date, there is an accumulation of 53 degrees of temperature which gives an average of nine-tenths higher temperature per day. The rainfall was 2.08 inches, an amount not before reached by any eleven years of the existence of the bureau here except in 1902, when the precipitation was 4.22 inches, and even with this extraordinary rain the average for the eleven years is .66 of an inch below the February precipitation of the month.

BURGLARY REPORTED

Theif Disturbs Furniture in Home of William Scott

William Scott of Lipscomb street and Cannon avenue called at police headquarters Thursday morning and reported that his residence had been entered Wednesday night by a burglar, who threw things over the rooms considered as though he was looking for something more valuable and then made his exit with only two pairs of shoes belonging to Mr. Scott. Detectives have the case in hand and will endeavor to locate the burglar.

SHOPLIFTING CHARGED

Woman Arrested on Complaint of Dry Goods Company

Mrs. E. J. Green, a white woman, aged about 30 years, was arrested by chief of Police James H. Madine Wednesday afternoon on complaint of Burton-Peel Dry Goods company on a charge of shoplifting. The theft of property under the value of \$10. The prisoner was turned over to the county authorities and a formal complaint charging theft under \$50 was made in the county court. The specific charge is that the woman while shopping in the Burton-Peel store appropriated and set cover the value of which, it is said, is about \$15.00.

Police on Duty 24 Hours

The Fort Worth police who worked Wednesday night are still on duty Thursday and will remain on duty during the day making a twenty-four hour watch before they are relieved. This long watch is occasioned by a transfer of the men who have been serving during the day to the night watch. The change is made monthly and under the existing arrangement it is necessary for the officers to remain on duty twenty-four hours when the transfer is made.

THE BEST COUGH SYRUP

S. L. Apple, ex-probate judge, Ottawa, Mo., Kansas, writes: "This is to say that I have used Billard's Horehound Syrup for years, and that I do not hesitate to recommend it as the best cough syrup I have ever used." 25c, 50c and \$1.00. Sold by Covey & Martin, 810 Main street, opposite Hotel Worth.

RUSH OF DEEDS

BREAKS RECORDS

Forces in County Clerk's Office Is Thirty Days Behind

The big force of clerks in the county clerk's office employed in recording real estate transfers is thirty days behind in the work and are working hard to catch up. This condition is due to the activity in the real estate market. The volume of business is increasing week after week. There are nine deputy clerks engaged, exclusively recording real estate transfers and releases, but notwithstanding this big force, deeds filed for record on Feb. 1 did not get on the records until March 1.

Never in the history of Tarrant county, not even during the real estate boom days of the late '90s, has there been such a rush of real estate transfers filed in the county clerk's office. R. L. Armstrong, who has been engaged in the abstract business in Fort Worth for twenty years, said to a Telegram reporter that never since he has been making abstracts of titles was there so many deeds filed for record in Fort Worth as are now being filed.

GFROERER HAS SIGNED

Center Fielder's Contract Reaches Fort Worth

The St. Louis Browns will play one of its teams against a picked team at Fort Worth Sunday afternoon. Play will be called at 3 o'clock. The Fort Worth line-up will be: Irwin, catcher; Whiteman, second base; Dupree, shortstop and pitcher; Johnson, third base; the St. Louis line-up will be: Depree, who has played with San Angelo, and comes here with a very fair pitcher's reputation, signed his contract today. Several other players have been signed and will be tried with the hope that they will make good. The team is now complete, for the St. Louis contract, which has been hanging fire, so to say, has been signed and was received today.

ELEVATOR TAKES DROP

Passenger and Boy at Delaware Hotel Are Uninjured

The cable on the counter weights of the passenger elevator of the Delaware Hotel parted this morning about 9:30 o'clock, causing the elevator to slide down slowly to the lower floor. The first one guest of the hotel was in the elevator at the time besides the passenger and boy. The elevator fell to the slightest degree, as the safety cable and the lifting cable, which remained intact, kept the car from falling any faster than when running regularly. When the car reached the bottom floor it settled so gently that the passenger and boy were not hurt. Several signs in the car, which were hung loosely, dislodged from their places. The counter weights fell, however, with a crash and broke in two, but did no other damage. The elevator will be repaired and a new cable put on, so that it will be ready for use again Friday.

Estell Noromia

Estell N. Noromia, aged 17 years, died yesterday evening about 7 o'clock at 1115 Calhoun street, North Fort Worth, slowly from pneumonia. She was the daughter of Mr. and Mrs. R. D. Clements. Funeral services will be held this afternoon at 3 o'clock at the North Fort Worth Baptist church, and the interment will be made in the Oakwood cemetery at 4 o'clock.

Mrs. Lambeau

Mrs. Desiree Lambeau died Wednesday of pneumonia. She was 33 years of age and was born in Belgium. She came to Fort Worth five years ago from Ogden, Utah. The funeral is announced for Thursday afternoon at 3 o'clock from the St. Paul's Episcopal church, L. P. Robertson, with interment at Oakwood cemetery.

J. T. Benton

J. T. Benton died Thursday morning at St. Joseph's hospital. He was 22 years of age and came here a short time ago in company with his father, B. Benton. The body is now at Gauze's undertaking rooms, but will be sent to Chicago Friday morning. The old Fellows will have charge of the funeral.

TO PROMOTE REVIVALS

Aggressive Evangelistic Conference Meets in Fort Worth

The conference board of aggressive evangelism of the Methodist Episcopal church of the Austin conference was in session in Fort Worth Thursday at St. Paul's Methodist Episcopal church. Many of the pastors and leading laymen of the various churches are present and participating in the deliberations. The object of the board is to promote revival and evangelist work in the various churches, and especially to look after the above average rainfall. This is explainable by the fact that the sun shine has been above the average as to amount and the number of days when there was no sunshine have been fewer than the average. The wind velocity and movement has been less than usual in many respects, and the snowfall, the only snow of the month being a trace on the 6th ult. The average temperature for the month was 42 degrees, while for February last year the average was 35. The maximum was 89 degrees on the 23d and the minimum, 13 degrees, on the 5th, while the minimum for last February was 1 degree above. TEMPLE, Texas, March 1.—The city council has ordered an election to be held April 3 for the purpose of voting a bond issue of \$25,000 for school purposes. Some flatterer bids have been received by Mayor Hamill for the issue.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should be avoided, except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and circulates in the blood. It is sold by druggists. Price, 75c per bottle. Take Hall's Family Pills for Constipation.

DEATHS

Mrs. D. F. Murphy Had Been Ill One Week

Mrs. Daniel F. Murphy died at the North Fort at 7 o'clock Thursday morning of pneumonia. She had been ill for about a week. Mr. and Mrs. Murphy came to this city in 1890 and have lived here since. She was the last eleven years at the North hotel. She was formerly Miss Margaret J. Dillon of Milwaukee and was married to Mr. Murphy June 2, 1884. She is survived by her husband, a brother, Mr. Dillon of this city; two sisters, Miss Sarah Dillon of Milwaukee and Mrs. C. Baird of Milwaukee. Mr. and Mrs. Murphy had no children. Miss Dillon was here at the time of her death and Mrs. Baird is expected Friday.

TROUBLE LIKELY AT HUMBLE, TEX.

Killing of Man May Lead to Complications

Houston, Texas, March 1.—Trouble is threatened over the recent killing of a man named Booker at Humble Monday. Myatt, a salesman, charged with the killing, was arraigned before Justice Lambert and was released under \$500 bond. A law and order mass meeting was called and a committee appointed. The committee waited on Justice Lambert today and gave him some pointers about how he should conduct his court in the future. Sheriff Anderson and deputies left for Humble this afternoon.

THAT PNEUMONIA THEORY

Pneumonia is due to mice, and not to the weather, according to Dr. E. Paller, of New York. The microbe causing pneumonia, he says, is found in the mouths of nearly all healthy individuals, but does not acquire dangerous virulence until it passes through a susceptible animal like the house mouse.

The world in this day and time is very much given to the procedure of theorizing, and many alleged scientists grasp a theory and forthwith begin to advocate it as an established principle.

ONE RICHMOND QUILTS THE FIELD

Fort Worth has three candidates in the field for congress from this district, and under ordinary conditions that fact would be hailed with delight by aspirants from other portions of the district.

The Erath county man takes rather an unreasonable view of the situation, from the fact that the pooling of the Fort Worth candidates against the rest of the district is hardly probable.

the fact that he failed to get into his fighting clothes. In this day and time no man can go to congress without putting up a good stiff contest for the honor, and the candidate who announces under the impression he will have a walkover from start to finish is going to have to seek some plausible reason for falling to make the desired connection.

ABOUT "ENTERING JOURNALISM"

Almost every day some person comes to see the editor or writes to him asking what is necessary in the way of preparation to "become a journalist."

First, the beginner must have a strong body. He must have a reservoir of vitality to stand the killing strain of intense labors squeezed into a short compass of time.

Second, the beginner must have what is known as "the nose for news." It is difficult to describe this faculty—usually born in one. It is the ability to see "a story" where others stumble over the opportunity, unseeing.

These are fundamentals. To them must be added untiring industry, the tenacity of a sleuth to follow a lead, accuracy in judgment, ability to make and keep friends, patience, initiative, poise, a personality that breathes confidence, unswerving loyalty to orders—

What? You say. What about the ability to write? Any graduate of the schools can write. It would be easy to get on if one needed only that accomplishment.

Of course if one has the writer's temperament so much the better. By this is not meant literary genius but the ability to write plain, strong English on the run.

And these things are necessary, mind you, if you would get your foot on the first rung of the ladder. They must be backed up by years of experience and trial under daily difficulties.

It is to be wondered at that the veteran warns the unknown of the field?

Young man! Don't try to be a newspaper man—Unless you feel that you were predestined from all eternity to fill the place, or

Unless you will never be satisfied until you try it out, or

Unless the stern requirements are like a bugle call or challenge to your best endeavor.

The demands of the modern newspaper are as high as flesh and blood can stand and the pay is not in proportion to the demand.

There are compensations and satisfactions, surely, such as few men know.

But for the sake of your salvation do not think of "entering journalism" as if it were a matter of your capricious selection.

SHRIVELED SOULS

"Perhaps you think it impossible that a man's soul should entirely shrivel up in the pursuit of wealth. If you knew some millionaires as well as I know them, you would agree that they had lost the last vestige of the souls they may be presumed to have possessed before the mania for money getting obsessed them.

So said David B. Forgan, vice president of the First National bank of Chicago, in a public address. Something very much to the same effect had been said long before upon divine authority.

For almost twenty centuries mankind has been familiar with the warning that it is easier for a camel to pass through a needle's eye than for a rich man to enter heaven. This never meant that the gates of heaven are too small to admit the rich man's soul.

The disposition to accumulate is an instinct. Called into existence and condemned to dig a living out of the hard earth, we find the motive and habit of such efforts born in us.

What we really possess nothing that we sacrifice to our own selfish purposes. It is only to the man who is poor that wealth grows like a bright star in the night.

The law of recompense always is in force. It is only when darkness shrouds our world that we can see the light of a million others. Scientists tell us that if we could approach a star its glow and glamor would vanish and the star itself dissipate into dust.

Did we not learn in babyhood that the bubble is brilliant only until we grasp it?

The gems in the fine lady's hair and at her throat sparkle not for her eyes, but for the eyes of others. She owns only some stones, never the light that dances in them.

Yes; what we love is ours; and in the same degree as we love we own.

All that is good in the world we may own, if we will.

ROOSEVELT, LUCK AND POPULARITY

The seat of empire of the great republic is in the West, beyond the Alleghenies—in Ohio and Michigan, and west of Ohio and Michigan; in the middle West and the trans-Mississippi. There is public opinion, and he that has the support of those sections may deem himself secure.

There is absolutely no hope for tariff revision by the present congress. The Chicago Record-Herald clearly sets out the difficulties in these words:

Why do not the revisionists assert themselves positively and directly? Congressman Boutell has tried to explain the situation. Revision bills galore, he says, are pending in the ways and means committee, but each deals with a particularly schedule or rate, and the supporters of any one bill are utterly indifferent to the fate of all the others.

DUNBAR AND THE BLACK MAN

His work was in no sense characteristic of his race. He was educated along conventional lines and his verse, good as most of it is, is "literary," not vital. The soul of the negro is not yet revealed in literature. It goes without saying that this must be done, if at all, by a negro.

WHAT'S THE MATTER WITH CONGRESS?

BY JOHN VANDERCOOK.

What's the matter with congress? That there is something the matter, special correspondents and writers like Lincoln Steffens are telling us every day. We can ourselves perceive it. The measures we are taught to believe are for the public good seem to get lost or mutilated as soon as they reach the halls of our national representatives.

When the city of Washington was built, congress was housed in a great building upon the top of a high hill. The President was put into a smaller building, more than a mile away, on a smaller hill.

What has happened? Today the capitol is far away and remote from the real center of Washington. At the capitol end of Pennsylvania avenue there are a few one and two-story souvenir shops and petty business places, which would be insignificant in a small village.

Any graduate of the schools can write. It would be easy to get on if one needed only that accomplishment. Of course if one has the writer's temperament so much the better.

Washington, as written, changed the drift of power from congress to the President in brick and stone and marble. Her verdict is impressive and forces itself upon every visitor.

We have all of us noted, too, in a general way, that in the President's set and in the cabinet are persons who enjoy great public confidence and respect; while in the senate and house are an extraordinary number of men who are more under a cloud of suspicion and dislike.

That this is so marks an extraordinary revolution of sentiment within a hundred years. In the idea of congress it is the central theory of government, namely that all our laws and enterprises should spring from the decision, after free debate, of the elected representatives of the people.

Who, therefore, is responsible for the decay of congress? Is it the result of an evolution of government? Is it the fault of congress itself, or are we, the ordinary people, responsible?

In succeeding editorials of this series an attempt will be made to answer this question.

WHAT WE LOVE IS OURS

(BY CHARLES GRANT MILLER)

This is a world of beauty not to them who have money to pluck and wear its roses, but to them who have souls sensitized to the sweet odors.

With love of the beautiful in man and in nature no one can be poor; without it none can be rich.

The millionaire may make his thousand-acre park in the rich valley and by a fiction of the law call it his own; but it all is the front yard of the poorest squatter in the rudest cabin on the rugged hillside.

What can a beautiful park mean to a man whose heart is smothered in a money bag?

And to one who loves the trees, the brooks, the hills, the sky, what matters it who holds the title?

Descendants of theirs today hold deeds, but no possession. It was not the land itself which was taken away, but the power to enjoy it.

What we love is ours—and nothing more. We can really possess nothing that we sacrifice to our own selfish purposes.

If there should be in the next four or five years a widespread business depression, it is by no means impossible that the conservative party in England would regain its lost hold upon that government, and in that case, assuming that Mr. Chamberlain is still its acknowledged leader, there is not the shadow of a doubt that we should have the United Kingdom brought upon a protection tariff system—a result exceedingly disastrous to innumerable industries throughout the United States.

Here is an interesting economic condition which shows that the new world and the old one are not so greatly independent of each other—similar causes operating throughout. The New York World says:

According to Agricultural Commissioner Wieting there are 20,000 farms for sale in the state of New York, and 50,000 more laborers could easily find work upon them.

There is absolutely no hope for tariff revision by the present congress. The Chicago Record-Herald clearly sets out the difficulties in these words:

Revision bills galore, he says, are pending in the ways and means committee, but each deals with a particularly schedule or rate, and the supporters of any one bill are utterly indifferent to the fate of all the others.

BALTIMORE AND OHIO FORCED TO DODGE

In Maryland the legislature began a war on the Baltimore & Ohio railroad to learn why it had not given the state some return for its interest in the Washington branch. The state owns 5,500 shares, said to be worth from \$200 to \$300 each.

PUBLIC OPINION

The Boston Herald thinks that the future of England is not cleared by the recent elections—and manifestly if protection is adopted in that country we are greatly interested. The Herald says:

WASHINGTON'S LIGHTER SIDE

WASHINGTON, Feb. 28.—Announcement that William I. Buchanan has been chosen to head the United States delegation to the third Pan-American conference has recalled some instances of his diplomacy in settling South American disputes.

Once while Mr. Buchanan was minister to Argentina he was approached by both Argentina and Chile to see if he would become a member of an arbitration court to settle a boundary dispute between the two countries.

Mr. Buchanan said he would under certain conditions. There had been an arbitration before which had failed because the court had no power to delimit, but could only reject the propositions of the two countries, thus leaving the matter in statu quo.

Mr. Buchanan said that if the proposed court should be empowered to delimit the frontier absolutely he would consent to serve.

The Chileans and Argentines agreed, and Mr. Buchanan was appointed, with one Chilean and one Argentine. The American spent about six months studying the question and the country, and then the court met.

Immediately the Chilean proposed his line. The Argentine and Buchanan voted against it. Then the Argentine proposed his line. The Chilean and Buchanan voted against it.

That left it up to Buchanan. He began at the common point at the north, and drew a line down across the mountains obliquely toward Chile, ending at a big mountain. He had studied the topography enough to know that he was not cutting watersheds. The Argentine was delighted, and voted with Buchanan at once.

Then Buchanan turned and drew his line to another mountain over on the Argentine side. Thereat the Chilean cheered up and voted with Buchanan for that much of the line.

So it went, zigzagging down the mountains, until within two hours the job was done, and the northern half of the Chile-Argentine boundary was settled.

Then the Chilean and Argentine went out and began to reflect upon the effectiveness of the Yankee device.

FUNDS NEEDED FOR THE FORT WORTH UNIVERSITY

\$6,400 Is Secured in Work of Few Days STILL WANT \$8,600 Promise of \$15,000 if City of Fort Worth Will Raise a Like Amount

- The Fort Worth University needs \$30,000 for modernizing purposes. The school has been promised a fund of \$15,000 from a source outside the city of Fort Worth.
- The city of Fort Worth has already secured \$6,400.
- This leaves \$8,600 yet to be secured.
- The city of Fort Worth can easily raise this small amount and contributions will be received at the Telegram office, or can be telephoned to President William F. Fiedler or to J. E. Mitchell.

The Fort Worth University has a promise of a contribution in the sum of \$15,000, provided the city of Fort Worth will raise an equal amount. President William Fiedler of the university has been at work in a quiet way during the past few days, laying the matter before prominent citizens of Fort Worth, and as a result he has already succeeded in securing \$6,400 of the required \$15,000, leaving only \$8,600 yet to be raised.

Modernizing Is Needed There is a small debt hanging over the school, and it is, of course, necessary that this be met. But the obligation is not what is worrying the board of trustees. The lack of facilities and modernization of the school buildings is what is hampering and confining the school within narrow limits. One of the buildings is sadly in need of repair. The rooms are not attractively furnished. There are only poor and inadequate heating and lavatory facilities. In fact there is very little inside of the university except the course of study, that will attract the interest of a growing student body. It is all well enough to offer the student a curriculum that will give him the education that he wants at this time, but the bodily comfort, too, must be attended to. And in this feature the Fort Worth University is lacking, because the other colleges and schools of the university that they have been accustomed to in their own homes. It is for this purpose that strenuous efforts will be made.

FEBRUARY FIRE

LOSS \$17,000 Estimate of Damage Made by Fire Chief Bideker

The number of fire alarms for the past month, taken from Fire Chief Bideker's records, was 30, and the property involved amounted to about \$300,000. The insurance on the buildings in which the fires occurred was \$140,000, and the insurance on the contents was \$118,000. The losses from damage to the buildings was \$11,000, and on the contents \$6,000. These are estimates, for the fire chief said it was impossible to get the exact figures on the losses or insurance until the losses were adjusted, and then the reports had to come from the fire insurance agencies here. Often it was the case that when the fire occurred there was no one at home except the women of the household, and they knew nothing about the insurance.

MAN ABOUT TOWN

H. L. Hall, president and general manager of the United Miners Club and Copper Company of Prescott, Ariz., who is a guest at the Hotel Worth, received a Telegram Wednesday from Prescott, stating that his company had made a strike on the Marshall property, adjoining the famous Little Jesse mine, that promises to be very rich ore. The message stated that a four-foot vein of gold ore had been struck, which was worth \$1,700 per ton. The company has twenty men working and when he received the message Wednesday Mr. Hall wired back to have 200 more men employed as quickly as possible. Mr. Hall is well known in Fort Worth having been accustomed to visiting this point on business every few weeks for some years. He is associated with C. J. Casey of Casey, Swasey & Co. of Fort Worth, owners of the Buster Mine in the Pine Grove mining district in Yavapai county, Ariz.

Ted Sullivan, one time president of the Texas League of Baseball Clubs of the United States generally, says he is out of the game entirely, and that he is now in the city in the interest of his book, "Plantation Stories." He is compiling the stories which will in the future make up the book. Ted Sullivan has done as much for the promotion of the national game as any one man in the United States, and his withdrawal causes a hiatus.

C. W. Merchant of Abilene has returned to his home after being here a short time on his return from Washington, where he has been in the interest of the amendment to the twenty-eight-hour law. When asked about the chances of the bill he said he was reasonably sure that it would pass the house and senate both. "We were treated very nicely in Washington, and every one did all they could for us. The ones who were against the interest of the bill received every courtesy and almost every one seemed to take the matter as was presented it to them, amending the present law so as to read thirty-six hours instead of twenty-eight for a continuous passage without unloading. I have been away two weeks, and I hope the matter will be brought to a speedy settlement."

What's the Use? What's the use of 'seekin' gainin'?' Such a lot of earthly stuff? Other people here remainin'. Only spend so much the more. Seek a greater, sweeter pleasure. Just a lot of human love. And, when laden with the treasure, It will follow you above. —Boston Transcript.

HEARTS AND MASCIS
 By Harold MacGrath Copyright 1905, Bobbs-Merrill Co.

(Continued from Yesterday.)
 Next, turning from the window, I
 fell to examining my fellow passen...
 gers, in the hope of seeing some one
 I knew. Conversation on trains makes
 short journeys. I sat up stiffly
 and looked across the aisle at the
 very chap I had met in the curio-shop!
 He was quietly reading a popular
 magazine, and occasionally a smile
 lightened his sardonic mouth. Funny
 that I should run across him twice in
 the same evening! Men who are contem...
 plating suicide never smile in that
 fashion. He was smoking a small, well-...
 known meerschaum pipe with evident
 relish. Somehow, when a man clenches
 his teeth upon the mouthpiece of a res...
 pectable pipe, it seems impossible to
 associate that man with crime. But
 the fact that I had seen him selecting
 a pistol in a pawnshop rather neutralized
 the good opinion I was willing to form.
 I have already expressed my view upon
 the subject. The sight of him rather wor...
 ried me, though I could not reason why.
 Whither was he bound? Had he finally
 taken one of Friar's pistols? For a mo...
 ment I was on the point of speaking
 to him, if only to hear him
 explain, but I wisely put aside the tempta...

BEARDSLEY BUYS RAILS FOR LINE

Contract Reported Closed for Eight Miles of Steel

The Cohen, agent of Block, Pollak & Co., has closed a contract in Fort Worth with Major J. D. Beardsley of Mineral Wells to furnish eight miles of rails which are to be used in the construction of the Mineral Wells electric street car line. The rails are for immediate delivery and it is the intention of Major Beardsley to begin the construction of the street railroad at Mineral Wells in the near future. There are rumors that Major Beardsley also has an eye on a proposition to build a line from Mineral Wells to Fort Worth, but there has not been anything official announced yet regarding this project.

MILAM COUNTY FARMING GROWS

Passing of Large Ranches Has Caused Prosperity

CATTLE NOT ABANDONED

German and Bohemian Settlers Buy Places of 100 Acres and Cultivate Forty—Having Pastures

The state of Texas is of such dimensions that it is hardly possible for people living in any one given part of the state to become familiar with those in another or with the topographical and agricultural peculiarities of a section. This was so at one time more than now, before the advent of railroads and the swift devouring of distances by the "iron horse."

Now in Fort Worth since the packing industries have been established and the attention of the whole state has become fixed upon the market that has come as the result of the packeries it is not unusual to find in the Stock Exchange and on the yards men from all parts of the state upon business relative to stock and its interests. From these, during a week, it is possible to get a satisfactory idea of what is going on among the varied industries, cattle and farming, in the far-away ranches and near-by farms. At no other place in the state can this be done, and it is all due to the great fact that has been established here through the energy and perseverance of the citizens of Fort Worth.

Milam county is south of Waco and for a county seat has the thriving town of Cameron, which is situated in a lovely country of prairie and timber and has some of the best lands and fine cattle and other stock.

No More Big Ranches "We have a good country," said E. D. Tompkins, a stockman and planter in that county, "and we don't think there is any better in the state. There are not any more what are called large ranches with one hundred or more acres within their inclosures. It used to be a habit of the people of that day of new things is at hand have buckled down and are resolved to make the best of it."

There are a number of renters with us, but most of them are Germans or Bohemians, and they are raising and raising plenty of cattle. These people want land and the new ones who have just arrived will buy any size; they don't care what size, so it is land. If they rent they take about forty acres, but if they buy they usually like to have about one hundred acres. They plant cotton and corn and usually cultivate forty acres, but they cultivate it for all that it is worth. Their cattle they feed cotton seed and soy beans, and they keep a cow and a calf and they raise with twenty-five calves, they have plenty of feed for their stock and some to sell.

Foreigners Assimilated "To go back to the Germans and Bohemians: They rarely, when they own 100 acres, cultivate more than forty acres, and they raise a few head of stock, but they are good and make good beef. There are 1,500 acres in this place and it is a good body of land. There is one other place that is some larger than mine, having 2,700 acres, and is all in cultivation and worked by negroes. I have a 640-acre hog pasture, in which I have planted artichokes and Spanish peanuts. The artichokes grow well. In fact the former will grow almost anywhere in sandy land, and there is just the thing for hogs, and in fact cattle are fond of them. I have eight acres of them.

Woman's delicate organism is frequently over-taxed by arduous household duties, and the constant drain upon her vitality weakens her nervous system. The penalty is a tired, worn-out, exhausted condition which destroys her appetite, robs her of rest, and at intervals causes much suffering and distress. When these conditions exist, the weakened nerves must be strengthened. Dr. Miles' Nervine will do this. It stimulates the action of all the organs, brings refreshing sleep, and drives away that look of care.

3 MAJOR TEAMS TRAIN IN TEXAS

Cardinals, Browns and Reds Expected Here Soon

Three of the major league baseball teams will do their training in Texas this spring and they will all arrive within a few days. The St. Louis Cardinals were the first to start, having left St. Louis Feb. 27. They will make their headquarters at Houston, Texas, but will come north the last half of the month on Sunday, playing games with Fort Worth and Dallas.

The St. Louis Browns are scheduled to leave St. Louis today and will reach Fort Worth on Saturday. The active season will be started on Sunday, when the squad will split into two sections, one playing in Fort Worth and the other in Dallas.

The third team to practice in Texas will be the Cincinnati team, which will leave Cincinnati on Saturday and start their practice at Marlin on Monday.

The St. Louis Browns will bring twenty-six players to Dallas for their preliminary training under the leadership of Manager James McAleer. The outlook appears particularly bright for the Browns this season and they have secured in landing several players that look as though they will make good. Chief among these are Hartzel, Denver third baseman; Miles, the Birmingham second baseman; Cook, the former University of Illinois fielder, and Louis Nordike, a Pacific coast pitcher.

It is said that Jake Stahl of the Washington team tried hard to get Cook, Denver third baseman; Miles, the Birmingham second baseman; Cook, the former University of Illinois fielder, and Louis Nordike, a Pacific coast pitcher.

Each Candidate for Congress in District Says He Will, if Elected, Push Fort Worth's Claims

Now that the bids for the beginning of the Trinity river navigation improvement work have been opened, interest in Fort Worth, in making this city the real head of navigation, is heightened. The claim is being vigorously made that the navigation scheme is practicable. By the winding course of the stream, the water discharge is probably a mile or more from the mouth of the river.

Fort Worth has three candidates in the field for the democratic nomination for congress in the Twelfth Texas district. In the next congress, it may be safely predicted, an item will be demanded to be placed in the rivers and canals and the Trinity river member from the Fort Worth district to make the Trinity river navigable to Houston.

A Story of Hard Work Back of this, the actual beginning of the work is the story of the struggle with repeated failures of the Dallas people's efforts to secure Trinity river navigation. For the past ten years they have been hammering away on this matter. The promoters are Charles, Cheek, Overall, Ewing, Harper, Dorney, Weimar, Ferguson, Druhot and Harford; infielders, Barry, Cat, Higgins, Conroy, Mowbray, Leber and Delachant; outfielders, Kelley, Seymour, Odwell, Siegle and Hines.

While Mrs. Burton of East Leda and St. Louis avenue and Mrs. Reynolds were driving in Glenwood Tuesday evening their horse became unmanageable and both women were thrown out of the buggy and painfully hurt. Neither of them was seriously injured but both suffered numerous bruises. The horse was caught before running.

Repairing Car Tracks The work of repairing the street car tracks has now reached Glenwood. This work was begun at the end of the line at the college several weeks ago. The line through Glenwood will soon be in first-class condition.

Building New Sidewalks The good sidewalk movement has extended to Glenwood and the contractors are busy in many places mending the good substantial walks for the citizens. These walks have been talked of for some time and at last there seems a general movement to have them. In several places the links are

COD LIVER OIL. It almost makes you sick to think of it, but it isn't nearly as bad as it used to be. The improved method of refining it makes it much easier to take, and when made into Scott's Emulsion almost every one can take it. Most children like it and all children that are not robust are benefited by it. When the doctor says "Take cod liver oil," he generally means Scott's Emulsion; ask him if he doesn't. They know it is more easily digested and better than the plain oil.

COUNTY IS PROSPEROUS

Decatur Man Talks of Farming Conditions

T. J. Murray, a lawyer of Decatur, Wise county, Texas, is in Fort Worth, though a practicing attorney. Mr. Murray owns some farming interests and takes a great deal of pride in Wise county farmers. "The farmers in our county have long ago quit borrowing money," said Mr. Murray. "Instead they have money in the banks and are buying better farms, better stock, better homes and better clothes than can be found among the farmers elsewhere. They are dressed better than the town people, especially the young men."

Our outlook for the wheat crop is very good and there has also been a good crop of winter oats. Cotton, though, is still the chief crop in Wise county. It is my opinion that our county will plant as much cotton this year as last, if not more. Our county has produced as much as 6,000 bales of cotton, though it was considerably below this amount last year.

Catchers, O'Connor, Spencer and Ricketts; pitchers, Buchanan, Howell, Powell, Glade, Pelly, Jacobson, Morgan, Slagle, Smith, Young and Salm; infielders, Jones, Nowlin, Rickenfield, Jones, Jordan, O'Brien, Wallace and Hartsel; outfielders, Stone, Hemphill, Koehler and Cook.

St. Louis Cardinals will invade Houston with thirty-one players, which means that only one in three will make the grade, leaving very little chance for a newcomer unless he is very good. The team promises well and much can be told about its prospects by the time that it comes here to play after two weeks of practice at Houston.

Cincinnati Team The Cincinnati team with its twenty-four players will arrive in Marlin Tuesday night and will have their first game there for the most of the month. The composition of the team is as follows: Catchers, Schley, Phelps and Livingston; infielders, Cheek, Overall, Ewing, Harper, Dorney, Weimar, Ferguson, Druhot and Harford; infielders, Barry, Cat, Higgins, Conroy, Mowbray, Leber and Delachant; outfielders, Kelley, Seymour, Odwell, Siegle and Hines.

Excavating for Lake The Fort Worth council of United Commercial Travelers of America will hold the annual election of officers at the next meeting, March 10. It has always been the custom of the council to advance the officers at each succeeding election, in order to create an interest in the work, and in accordance with this rule, it is more than likely all the officers will be advanced along the line.

HATLESS MAN IS STILL BASHFUL

If He Lives in Fort Worth, He Kept Secret to Himself

Do you believe in hats? Speaking to men only, of course. The question would have sounded foolish a few years ago. The hat in all its various shapes and colors is an American institution. Other nations had hats, but the development of masculine headgear to its greatest variety belongs distinctly to the United States.

Not Popular Here Inquiry at local hat stores as to whether they expect the new hatless fad among the men to appear in Fort Worth has walked the streets for a short length of time without a hat, but the attention they attracted and the perplexity into the color of a picked one. "This hatless fad," they say, and then point to the hatless man, "is a little too hot for the hatless man."

Here to Stay A prominent eastern hatter has the following to say concerning the hatless man: "The hatless man is here to stay, and his coming did not meet with the opposition that the shirt waist man incurred."
