HORNBLOWER HAS DEFENSE

Answers Hamilton's Attack on Beers' Pension Plan

SAYS IT'S UNTRUE

Dictates Statement That He Did Not Receive or Disburse Any Legislative Funds

NEW YORK, March 16 .- Former Judge William B. Hornblower last night defended his original approval of the Beers' pension plan and which was assailed by Andrew Hamilton when the latter appeared before the legislative insurance committee at Al-

In the course of his remarks, in which he declared that his transactions with the late John A. McCall were anctioned by the trustees of the New York Life Insurance Company, Mr. Hamilton took occasion to criticize the author of the Beers' pension plan, to whom he referred as "the Pecksniff of three administrations, who thinks that he is the Talleyrand of the present; the confidant of the Beers' scandal." He did not mention any names in this connection. The matter of the Beers' pensions was this:

When Beers retired as head of the company, back in the early nineties, the board of trustees voted him a pension, said to have been something like \$30,000 a year. A question as to whether the pension was legal was referred to Hornblower and other emi-

After reading Mr. Hamilton's speech in full last night, Mr. Hornblower dictated the following statement:

Implication Denounced "So far as Judge Hamilton states or implies that I disbursed any legislative funds during the Beers administration, his statement or implication is absolutely untrue. My professional relation to the Beers administration was entirely confined to litigation and legal advice. I never even appeared before a legislative committee but once. 80 far as I can recollect, and then simply lo make an argument before the insurance committee in opposition to a pending bill. "That he had received moneys for so-called real estate account, legislative manners and other matters for which he never accounted, I had no knowledge whatever."

Payne Didn't Know Andy "I do not propose to discuss with Judge Hamilton his offensive epithets, and I do not feel it necessary to defend myself again mere abuse," said Augustus G. Payne, a member of the auditing committee of the New York Life last night. "The auditing committee never knew there was such a man as Andrew Hamilton living until the Armstrong committee unearthed him, and I think this is true of many

far as I, myself, personally know. "I do not see how any credit can be given to these utterances. You may say for me positively that I never knew of the existence of this man Hamilton until the investigation. What he says should carry no weight. His very words discredit him."

When asked if the suit against the estate of John A. McCall would be dropped, he replied: "I am not now in a position to an-

SECRETARY TAFT ADVISES BOLTING

Writes Remarkable Letter to Cincinnati Roosevelt Club

Special to The Telegram

CINCINNATI, Ohio, March 16.-President Roosevelt and Secretary Taft are to take a hand in purifying Cincinnati politics. President Roosevelt and Secretary Taft were Monday night elected honorary members of the Roosevelt Republican Club of this city. In accepting the honor for himself and President Roosevelt Secretary Taft makes it plain they are both gratified by the deposing of George B. Cox, the republican machine lead-

er. The letter adds: "The conduct of municipal affairs has no natural relation to the conduct of national affairs, and while it does not seem possible to eliminate from municipal elections the system of nominating party tickets, there should certainly be cultivated a much wider spirit of independence at municipal elections in the scratching of improper candidates selected by either party than is likely to be ever exercised with

He advises against the club becoming a "better than thou" association, which, he says, would defeat its own object by its exclusiveness and lack of practical sense. The letter continues: "The assistance of men of honesty and character who were associated more or less with the machine when it seemed all-powerful, but really rejoice now at what seems its downfall, ought

not to be rejected if you find it offered in good faith. "The members of such a club as the Roosevelt club, although an orthodox republican organization, may very well decline to support the candidates of its own party if such candidates are plainly lacking in qualifications according to the stardard which they properly set for public officers."

WAGES INCREASED

Chicago Firemen and Policemen to Have Larger Salaries

CHICAGO, March 16 .- The Chicago fire department was increased in strength by the addition of 139 men. The wages of firemen and policemen were raised by the finance committee of the city council last night. The new men will be installed, but the increases will not be effective until April 1. The action is subject to the council's indorsement, but this is said to be certain. The firemen, patrolmen and the police operators will receive a horizontal increase of 10 per cent over their present wages.

The latest report received from Florence, which is only a short distance from the scene of the disaster, says about forty persons were killed, many were injured. A report was given out by persons coming from the scene that there were many bodies burned in the fire which followed the wreck. They estimated the number of burned at fifteen. Victims Burned Alive

Some of the victims were pinned under the wreckage and burned alive before help could reach them. Most of the injured were on train No. 3, which was heavily loaded. Train No. 16 carried comparatively few passengers, who escaped generally with a slight shaking up. One man, whose name could not be learned, was the only one of a family of ten who escaped. He went to the engineer's side and saw Engineer Causlett at the emergency brake. He stooped down and feeling Causlett's feet on his back jumped. Not a word passed between the two men. Grant Kelker of Pueblo, engineer on the second engine of train No. 3, and Harry Hartman, his fireman, both noticed the headlight of train No. 16 as it rounded the curve. Kelker yelled "Look out," and applied the emergency

At about 7:30 o'clock the first official confirmation of the rebruised and mangled bodies were carried through the gates from the relief train that had just returned from the scene of the wreck. DEMOCRATS TO BUY CLUB HALL

Third Ward Organization Has Taken Action

The Third Ward Democratic Club met Thursday night with Carl Schilder, 501 East Ninth street. Most of the time of the meeting was given over to discussing plans for the future work of the club. There were also several committees to report.

The matter of paving Seventeenth street from Rusk street to Jones street was discussed by the club. This matter has been on foot some time by the members who are very desirous of getting this particular paving done. It will give the Third ward people an outlet to the city without having so much mud in their path.

A committee that had been appointed to see about the paving proposition was granted more time to get up a full report. This committee did, however, make a partial report and showed that most of the property owners concerned in the movement were willing and that success was in sight.

To Have Club House The Third Ward Democratic Club has had trouble to find any place to meet where there was room enough for its members. For this reason it has been the desire of the members of the club to own a hall where meetings can be held and as many attend as choose. Steps were taken toward this end some time ago, and a committee was appointed to look up the matter. Upon learning the action of the committee the club at once decided that it would wait no longer on details, but would begin at once a movement to raise money for a suitable hall in which to hold its meetings.

Just now the club has a building in sight which is about the size needed for its use.' This building is 32x50 feet. If a building is bought or built there will be no trouble to secure a site, as there are several available ones now at the disposition of the club. In order to raise some of the money for the new hall it was decided that the club would give a benefit ball. A committee of five was appointed to make the arrangements and push this

matter The club is very enthusiastic about the securing of a hall of its own, and at the meeting about \$40 was subscribed in as many seconds for the hall fund.

After extending a vote of thanks to The Telegram, the club adjourned to meet with A. E. Merslohn, corner Eleventh and Harding streets, next Thurs day night. At this meeting the club will admit several new members and consider some important matters.

"I am an old settler of Hill county," said J. A. Stevens, "and I have seen a wonderful improvement in every respect. Men who, looking to the future, attained possession of the titles to many acres of the black soil and held it, are now reaping what they sowed, and are rich men. They did not make it simply by the money produced by crops, but by the increased value placed upon the land incidentally, in the first place by the fame of its preductiveness, and then by the desire of other people to obtain for themselves

some of its soil. "There was an old citizen who remarked when the barbed wire first became common that if he had known that any man was going to make that kind of fencing he would have been the richest man in Texas, for he said It was the idea of the impossibility of fencing it in a woodless country that | Fort Worth who will likely take adprevented him from buying the land

"I live in Oceola, but that is considered as living in the Itasca country, and that is a reputation sufficient for any man who desires an advertisement for his holdings. Cattle are now all held by farmers, and though they do not seem to think that they are in that branch of the business, still they raise a lot of them, and almost all of them have some two, three and half a dozen yearlings to sell every year, and in the aggregate there is a lot to come to market, and they are all good stuff, too, for outside of the Jerseys, most all of the stock are Shorthorns, and that class of cattle are probably the best for the farmers. The Jerseys are, of course, not fit for beef, and outside of their capacity for producing butter and milk, they are no good. I suppose that after a while the business will be far better than it is now, for as we learn that quality pays better these days than quantity, we will cut our cloth accordingly. We have had plenty and when March quits fooling with will find everything ready for growing.

"Our cotton mill has at last begun to pay, and is a success at last, which many doubted for some years, and there is not reason in the world why it should not. W. H. Webb, who is now and has been all along president of the company, is one of the most successful farmers and business men in Hill county, and has demonstrated his ability to Landle such proposition too often to make a failure of this one. The mill is a good one, and with the necessary cotton surrounding it for miles growing in the fields, so near that the operatives can see it with the naked eye, t would only be bad management that could make it fall. Again, the day

Campaigns Begun by the Katy and Texas and Pacific

Every railroad running into Fort Worth is getting ready in case it comes for the great strike of coal miners in the district. Coal trains are being rushed as rapidly as can be and coal is being stored at all coaling stations on the different lines of road. It is said that from now on until the crisis of the expected trouble has been passed every ton of coal mined along the Missouri, Kansas and Texas road will be taken by the railroad company if it can be secured, and stored. This statement was made Friday and the number of coal trains that came in over the Katy was evidence that the

statement is true. The precautions the Katy is taking are being duplicated by the Texas and Pacific. That road is also storing all the coal it can get, and, to prevent being caught short, is making arrangements for oil and wood in the event that the coal supply runs short. Other roads are also prominently in the market for extra large amounts of coal to store-all getting in the best shape possible in case there is a shut down

> > Pawkett Returns

U. S. Pawkett, commercial agent of the International and Great Northern railroad, returned Friday morning from a trip to Palestine, San Antonio and Houston. As has been mentioned in The Telegram, there was a general conference of the freight representatives of the road at the office of Vice President Leroy Trice at Palestine and there was subsequently a conference at San Antonio and Houston of the freight representatives of the divisions centering at those places.

Mr. Pawkett states that there was nothing of special importance to give out concerning the conferences and that they related to the discussion of methods for the more rapid handling of freight and the expedition of business. Mr. Pawkett states that the outlook for business on the International and Great Northern is excellent and that he was advised by the officials at Palestine that the road was well supplied with coal.

TICKET GOOD ALIVE OR DEAD

Return Coupon Accepted for Corpse

The passenger department of the Missouri, Kansas and Texas railroad has issued circulars which have been sent to all the agents on the line, to the effect that all first class tickets purchased over that line are good for the living and the dead. For instance, if a man buys a round trip portion of the ticket, and while in that his home on the return portion of the ticket without further cost. This ruling of the road is a slight improvement over the rules appplying on other roads. On all roads the rate for a corpse is the same as for a living person, and tickets are bought for the corpse, which goes as baggage. On all roads the corpse must be accompanied by another person holding a firstclass ticket routed over the same roads. The ruling of the Katy is the first, however, to allow the return ticket to be used for such purposes. It is thought that a precedent has been set which will be followed by many

The plan was first suggested at presentation of a flag to the Seventh ward school by Dr. Brewer, and will now be taken up and pushed actively in the ward. A park site near the school building was suggested at that time but has since been covered with dwellings. Another site, however, is available east of the school building

n Evans avenue. In this way it is hoped to provide parks that will be needed in the future and avoid experience of large cities in being compelled to tear down large buildings at great expense to furnish breathing spaces for the people.

The teachers of the city schools will be asked to aid in the work of home improvement and the pupils will have the advantage of instruction and suggestion in this way. By that means it is expected that much will be accomplished toward making the homes The boys will also be encouraged to

do home gardening. Where it is possible the parents will be asked to set astde a small plot for a garden and prizes will likely be offered for the best vegetables raised. Children will also be urged to plant trees, adding great beauty to parts of the city that had been practically barren of shade before.

She sank back into her chair and walted a little longer. She was not a nervous person and yet a gloom and gan to settle down upon her. She shuddered-she grew cold-she dared not look behind her-she fancied strange faces and strange voices bore to her on the breeze that lifted the lewels she wore that day might have followed her home. The idea of blackvisaged ruffians was so terribly vivid

Mrs. Sarah Kellogg of Denver, Color Bearer of the Woman's Relief Corps, Sends Thanks to Mrs. Pinkham.

The following letter was written by Mrs. Kellogg, 1628 Lincoln Ave. Denver, Col., to Mrs. Pinkham, Lynn, Mass.: Dear Mrs. Pinkham: " For five years I tumor, which kept Mrs. Sarah Kellogg growing, causing me intense agony and great mental depression. I was unable to at-

end to my house work, and life became a burden to me. I was confined for days to my bed, lost my appetite, my courage and all hope.
"I could not bear to think of an operation, and in my distress I tried every remedy which reading of the value of Lydia E. Pinkham's Vegetable Compound to sick women decided ding of the value of Lydia E. Pinkham's to give it a trial. I felt so discouraged that I had little hope of recovery, and when I began to feel better, after the second week, thought it only meant temporary relief; but to my great surprise I found that I kept gaining, while the tumor lessened in size.

"Your maid, Felice, is dead. She has taken poison. Her mother is a and this morning was found dead. The lamentations of the poor woman awakened me. She had brought a note which Felice had left for you. Shall I read it?" "Yes, mon cher," she said, trembling violently.

"Adored madame (she began) I shall never dress that beautiful hair again. I knew it when I arranged it an hour ago. When you return home Felice will be dead. She is too miserable to live! Ah! madame, when you touch that little bell I have obeyed so long, it seems to me that my spirit must hear it and come to you again. Among the strange thoughts in my distracted mind this one is very strong."

"Henri!" cried Madame Perrot, with seream. "Oh, Henri, this is terrible. Felice undressed my hair herself at midnight-Felice, who was then dead. Come to me, let me touch you! Save me from this great terror that is gathering about me!"

Monsieur Perrot flew to his wife's side. The light from the open window fell across the pillow and on the beautiful head that lay upon it. He stared at it for a moment. "Mon Dieu! my child!" he cried,

A Treasure Party A treasure party . makes a funny

party, especially where part of the guests are inclined to take a funny view of what they consider their treasures. Each is asked to bring her treasure concealed and hand it to the hostess, and as each one is exhibited the guests are asked to write on numbered lists to whom the treasure belongs. This has some of the features of an heirloom party, as things made a generation or two before are apt to turn up among the treasures, while some of the more practical ones will bring that which she values most from the utility standpoint.

At such a party lately some "bargains" were brought which were valued over and above anything else just at this time by the owner on account of the low price at which they were procured. One girl who had a penchant for the top gallery brought her opera glasses. Another brought a poem which always proved an inspiration and which was afterward read. Souvenir treasures brought from foreign lands are apt to turn up and make a good feature with their little history.

Plain Belts Again

Fashion is made up of revolutions. We don't wear things because they're pretty or becoming. We wear them because we haven't worn them for quite a while, and therefore find them new and diverting. After the flood of fancy belts,

leweled, embroidered and painted, on every material known to man, from gossamer silk and lace to steel armorplate, lo, the plain silk belting once It is several years since straight silk belting has been worn. The rea-

son for the revival is ostensibly with snug little coats the belting defines the waist line trimly, yet not obtrusively. But the real reason is probably only that it has been "out of style" long enough to be new again. For the Stout Woman

DRAMA DISCUSSED

Dr. R. E. Burton Lectures Before the Wednesday Club

Dr. Richard Eugene Burton, essayist, poet, critic and lecturer, of Boston, lectured at the Christian Tabernacle Thursday afternoon on "Modern Drama." His lecture under the auspices of the Woman's Wednesday Club was well attended.

He started with the predecessors of Shakespeare and briefly traced the development of the drama to the present time and then enlarged on the living dramatists of all nations. His advice for the better understanding of the drama of today and other drama is to read and see it played. His lecture was enjoyed by all present, every-

one noticing his perfect diction. Dr. Burton was born in Connecticut in 1859 of a family whose members hod been clergymen for several generations. He received his education at Washington, Conn., and later at Amherst college, but was compelled to leave there on account of ill health. Later he attended Trinity college, Hartford, Conn., where he graduated in 1883. He studied four years at

Johns Hopkins, making a specialty of philology and literature. He served a year as editor of the Churchman, and then went to Europe for a year. In 1890 he became editor of the Hartford Courant, contributing matter on music, art and literature. He was an assistant editor of Warner's "Library of the World's Best Literature." In 1898 he lectured at Johns Hopkins and was the same year appointed professor of literature at the University of Minnesota.

READY-MADE HOMES ARE ALWAYS IN DEMAND

People of democratic tastes, who like to "live in a house," but not in a lonesome one solve the problem easily and to their profit by renting furnished rooms to pleasant people.

Isn't it better to live in a good house, with a few lodgers who pay your entire rent for you and a little toward your household expenses, than to live in a small apartment, alone, with expenses that grow harder and harder to

TRADE EXCURSION TIME OPPORTUNE

New Business Awaits the Fort Worth Merchants

"I believe that much good will result to Fort Worth business and to Fort Worth generally by the trade_excursion in May," said William Monnig to a Telegram reporter. "I will go on the excursion as a representative of the Monnig Dry Goods Company and will go because in my opinion I will be able to increase the business of my company. I will carry advertising matter of my firm as other representatives will do of their business. We will all come in personal contact with new business men and form acquaintances of both personal and business character that will bear good fruit.

"There is no reason why Fort Worth should not be the great wholesale and obbing center of North Texas. The country from which to get trade is naturally tributary to Fort Worth. We have the railroads to reach that territory and the territory is rapidly increasing in population and new business concerns are being estab-lished daily. Now is the time for Forte Worth to go after this new business. If it is once turned our way we will not only be able to keep it, but will add to it year after year.

"This excursion idea is a good one It is a mutual interest movement for when one member of the excursion works for his own business interests he is likewise working in the interest of every other Fort Worth enterprise. While self interest may be the great motive, it is a kind of help-yourneighbor idea that is going to be productive of great good in my opin-

AMUSEMENTS

A big audience, cheerfully disposed, made much of the success of "The Maid and the Mummy" had at Greenwall's Thursday night. Before a small and enthusiastic crowd, such as quit frequently turns out in Fort Worth to welcome a legitimate actor in some standard role, the maid would have, caught pneumonia and the mummy would have died a second death.

But, fortunately for both, the audience was cheerfully inclined, laughed at the right places, and encored enough to string out the medley of jokes, dances and songs for more than three hours, with the result that everybody went home well pleased (including the company treasurer.)

As a musical melange, "The Maid' and the Mummy" goes principally because it has a clever company and unusually pretty music. The melodies are simple, lilting tunes that make the hearers think of old King Dodo before he was decapitated by time and sucess unworthy adventurers. The dances are principally what a vaudeville program would call "eccentrique," and are decidedly refreshing from the ordinary regulation varieties, in whch the spectators can guess twelve steps in advance what the ballet is going to do

There is nothing unusually new in the comedy work excepting that the nonsense verses are of the type usually found under the "department of hu-mor" in the two-bit magazines, and sometimes a little too complex in their witticisms for hearers who catch only every other line when they are sung at full speed.

In other words, "The Maid and the Mummy' was apparently written and staged to give jaded New York audiences a variety from the tiresome types of musical comedy with which they had been sated, and therefore it succeeded. It would have succeeded even better in Fort Worth if it had arrived last winter instead of this. Musical comedies were thicker then.

Of "The Maid and the Mummy" cast, those who shone were Fred Warren as Bolivar, the mummy, Earle Dewey as Washington Stubbs, Bolivar's boss; Edward Groh as Don Romeo de Cabanos; May Taylor as Trixie Evergreen, and Janette Priest as Muggsy, a street

Then, indeed, you must look out for danger; for the Dyspeptic Cough often grows into a Consumptive Cough if neglected, by the constant lung irritation which it causes.

Of course, they can always be depended on to cure all the other symptoms of indigestion. They are a universal cure, for one universal disease. They cure nothing else; but what

they do, they do thoroughly and well. Stuart's Dyspepsia Tablets are the result of the most thorough investigation into the inside causes and the oure, of Indigestion, that has ever been attempted. They have solved a problem, the answer to which a hundred thousand

physicians in America are today groping for in vain. They cure the most severe, longcontinued chronic, complicated cases of Indigestion that can be found. Colorado Climate and **Doctors Failed to Cure**

An eloquent and convincing testimonial from Mr. S. L. Davidson of Denver, Colo., father of the little group of handsome, sturdy children

whose pictures we publish. Mr. Davidson and his family were under the care of the best doctors in the East and spent much time and money in futile attempts to regain their health. They finally came to Colorado, thinking the climate would be beneficial, but

were again disappointed. Finally Duffy's Malt Whiskey was tried, and proved successful after everything else had failed. It is necessary to read Mr. Davidson's letter and study the picture to appreciate his gratitude for what Duffy's has done for himslf and his family. He says:

"I want you to know that Duffy's Pure Malt Whiskey has done our family more good than ten years' of medical attendance. We were under the care of the best doctors in the East and spent time and money endeavoring to secure some respectable degree of health. Finally we came to Colorado, as we thought the climate would do us some good. In this we were disappointed, and I was on the verge of returning East when my attention was attracted to Duffy's Pure Malt Whiskey. Personally I have not used liquor in any form, but so much is said in behalf of your whiskey, when used as a medicine, I determined to give up dectors and take Duffy's Pure Malt Whis-

Duffy's Pure Malt Whiskey
is an absolutely pure, gentle and invigorating stimulant and tonic, builds up the nerve tissues, tones up the heart, give

power to the brain, strength and elasticity to the muscles and richness to the blood. It brings into action all the vital forces, it makes digestion perfect, and enables you to get from the food you eat all the nourishment it contains. It is invaluable for overworked men, delicate women and sickly chidren. It strengthens and sustains the system, is a promoter of good health and longevity, makes the old young and keeps the young strong. Seven thousand doctors prescribe and 2,000 hospitals use Duffy's Pure Malt Whiskey exclusively.

shapely, fairly well voiced, and came in for a good share of encores, Bolivar's "I'm So Dizzy" came in for the most generous encore of the evening. "I Fell in Love With Polly," by Stubbs and the Polly girls, was also well received. The opening chorus was liked and so were a number of other songs, but for some reason "The Little Village Cutup," by Trixie and her country cousins failed to make the hit its cleverness deserved. It was musithe point of being delightful satire, but it missed connections somewhere. Comes tonight, "The Heir to the

"The Heir to the Hoorah"

A new comedy with a cryptic sounding title, "The Heir to the Hoorah," is announced for its local premier at Greenwall's opera house tonight at 8:15 o'clock. The play had a long and successful run at the Hudson theater, New York, which terminated only at the approach of "dog days."

"The Heir to the Hoorah" is announced simply as an American comedy by Paul Armstrong, staged by the late Kirke LaShelle. It is a comedy; its four scenes are located in a mining town "just east of the divide," a very considerable town apparently, for it supports a swagger hotel and boasts of at least one "palatial" residence. In the very first act, it is explained that "The Hoorah" is an immensely rich gold mine owned by Joe Lacy, his brother Dave and their friend Bud Young. "The Heir" is not heard of until act 2. Then it develops that he is a baby born to Joe Lacy and his wife Geraldine, while they have been estranged. Joe is a rough-and-tumble miner with lots of money, no grammar and a heart which would stand assay with the best samples from his mine Geraldine is a conventional little snob in act 1, completely "handled" by her ambitious and grasping mamma, Mrs. Kent, who, having secured a marriage settlement of \$100,000 on her daughter, proceeds to separate her from the husband for whom she, the mother-in-law, has no particular use. There are all sorts of complications and the two subsidiary love stories wend their way through the plot until the little heir, of course, reconciles his mother, Geraldine, and his father, Joe, in the last

FEATHERS STOLEN

Only Handles of Dusters Left by Petty

Perhaps the pettiest of all the petty thefts reported in Fort Worth has occurred at the Colonel Inn, in the neighborhood of the Santa Fe depot, where it is claimed that some one has been stealing the feathers out of the feather dusters and leaving the handles. The police here have had to deal with a great many petty thefts of late, but this holds the record for being the smallest theft of which they have heard. There is no search to be instituted for the missing feathers, but the proprietor of the establishment was as much put out over the theft as if it had been of much greater importance. He wanted the help to dust off things about the office, when it was discovered that there were only handles

ANOTHER TRIUMPH FOR DR. WILLIAMS' PINK PILLS. The Remedy That Actually Makes

New Blood and Strikes Straight

at the Root of Disease.

Anæmia is just the doctor's name for bloodlessness. Dr. Williams' Pink Pills for Pale People actually make new blood, Can any cure be more direct or certain? Blood is bound to cure bloodlessness. Dr. Williams' Pink Pills cure anæmia just as food cures hunger. They cured Mrs. Thos. J. McGann, of 17 Lincoln Place, Plainfield, N. J., and they can do as much for any other pale, weak, ailing,

"In the spring of 1903 I did my usual house cleaning," says Mrs. McGann, "and soon afterward I began to have the most terrible headaches. My heart would beat so irregularly that it was painful and there came a morning when I could not get up. My doctor said I had angemia and he was surprised that I had continued to live in the condition I was in. I was confined to my bed for nearly two months, the doctor coming every day for the first few weeks, but I did not improve to amount to anything.

"Altogether I was sick for nearly two years. I was as weak as a rag, had headaches, irregular heart beats, loss of appetite, cramps in the limbs and was unable to get a good night's sleep. My legs and feet were so swollen that I feared they would burst. "One day, while I was wondering how

long I could live, feeling as I did, I received a booklet telling about Dr. Williams' Pink Pills for Pale People. I read it and told my husband to get me some of the pills. Before the first box was gone I felt a change for the better. I have taken about twelve boxes and although I was as near the grave as I could be, I now feel as if I had a new lease of life. I have no more headache, the heart beats regularly, my cheeks are pink and I feel ten times younger. I feel that I have been cured very cheaply and I have recommended Dr. Williams' Pink Pills

to lots of my friends. When Dr. Williams' Pink Pills replace bad blood with good blood, they strike straight at the root and cause of diseases like headache, biliousness, indigestion. anæmia, neuralgia, sciatica, locomotor ataxia, and the special secret troubles that every woman knows but that none of them like to talk about even to their doctors. Dr. Williams' Pink Pills are sold by all druggists, or will be sent by mail on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

THE TEXAS NEWSPAPERS

At no time in the history of Texas have the newspapers shown such a wonderful and remarkable degree of excellence. In Dallas are two metropolitan dailies that have no superiors in the United States. Houston follows suit with morning and afternoon sheets that would reflect credit upon a city of half million, while Galveston, San Antonio, and Fort Worth each are homes of splendid dailles, not to mention the smaller cities of the state. This condition speaks in terms that cannot be mistaken of state-wide prosperity. Newspapers but reflect business conditions, and the city that possesses a prosperous daily paper is always a city of progressive business men .- McKinney Gazette.

The state of Texas certainly has reason to be proud of its newspapers, for in addition to those named by the Gazette, there are many more of a high standard of excellence. There is hardly a town of 2,000 people in Texas that is not possessed of an excellent little local daily newspaper, many of which would be highly creditable to cities of 10,000 to 15,000 population. And when you come to the cities of 10,000 to 15,000 people, and even less, you will find the enterprising newspaper man always on the ground and doing his level best to publish an eight-column daily in a four-column town.

And the state of Texas has long been noted for the high standard of its weekly press. There are country weeklies in Texas that are models for those of any other state in the union. No other state has a brighter galaxy of newspaper workers within its borders, and this fact largely accounts for the great era of prosperity that is now being enjoyed throughout Texas. The newspapers are doing their full part in keeping the state and its many advantages continually to the front.

JUDGE TERRELL'S PLANS

Advices from Austin indicate that Judge A. W. Terrell, the distinguished author of the Texas election law, has just returned from a trip to New York, where he made a public address on the subject of his election law, and is very much pleased with the reception accorded him, believing that several sections of the Texas law will be adopted by other states. According to the Austin Statesman, Judge Terrell is in favor of the blanket primary system, and will make an effort to have it incorporated in the law during the approaching special session of the state legislature. The Statesman

The judge did not care to discuss for publication the coming extra session, declaring that he wanted to see Governor Lanham first and talk the matter over with him. He expressed himself as being in favor of a blanket primary system in Texas, and it is not unlikely that he will favor injecting it into the election law during the special session. If not, then he will be a candidate for the next legislature and then secure the adoption of an amendment to the act that will provide for blanket

This blanket primary idea is destined to play a very important part in the coming extra session, and the question is still undetermined as to whether or not the lawmakers can go beyond the call of the governor and amend the law so as to provide for a blanket primary, or whether they will be confined to the correction of the bill as originally intended in the act when it was passed.

Judge Terrell declared that unless the people were given entire freedom in the selection of their candidates for office, that he would continue to run for the legislature until he had so amended the law as to provide for

The plans of Judge Terrell, as portrayed in the Statesman, would seem to indicate that the author of the election law is not satisfied with the action of the governor in limiting the work of the extra session to the correction of bleeding section 120, but that he will seek to engraft some additional improvements upon the ameasure. If he persists in this course it will result in

busy and strenuous times ahead for that special session. It is probable the constitutional limit of thirty days will be consumed in the fight that is sure to be precipitated, and it is also probable that when the lawmakers get through with the measure it will hardly be recognizable on account of the number and variety of amendments that will be tacked on to it.

It is evident from the manner in which the situation is adjusting itself that there is going to be one of the hottest fights on record at Austin over this election measure. The fight has been shaping itself ever since an intimation was given out that the blanket primary idea was to be advanced and South Texas has already made some very bitter and vigorous protests over the Sunday edition only, six months 75c bare suggestion of such a thing, and has characterized section to a condition of political vassalage. Perhaps a knowledge of the fact that the author of the law is in favor of the proposed amendment may soften South Texas resentment to some extent, but it is very improbable.

Another interesting bit of information that comes the men who signed the agreement for a free session of the state legislature to stick to the original agreement. As it was on Judge Terrell's account that the original agreement was entered into, it is probable that an expression from him to the effect that he expects the original agreement to stand in full force and effect will have a strong tendency toward bringing about the de-

THE MISSOURI METHOD

The state of Missouri has a railroad commission, which like that doing business in the state of Texas. is empowered to fix railroad rates within the state, and the Missouri commission appears to be a body Denver Colo.-Julius Black, News Agent, Sixteenth | that is getting on to its job. On a complaint of favoritism to the Standard Oil company the Missouri commission has just cut the oil rate between St. Louis and Kansas City by more than half the published tariff.

The Standard Oil people were getting a rate of nine cents, while rivals were compelled to pay twenty cents. When the Missouri commission found out the railways could afford to carry oil for the Standard people for nine cents they very promptly decided they could carry oil for everybody at the same price, so the nine-cent rate was ordered to go into effect all around. It may be expected that the railways will meet this reduction with the plea that under such rates they will be forced to go into the hands of a receiver, and an appeal will 334 Main street; Globe News Depot, 260 Main street; | be made to the courts for relief from what will be designated as unjust and confiscatory rate regulation.

> The Missouri plan is a good one, but it does not go far enough. There should be some method evolved for reaching rebaters that will result in putting them entirely out of business. Perhaps it would be a good idea to make rebating an actual felony, and after making a few shining examples of those guilty of this practice, there would come forth such evidences of discouragement as would undoubtedly put a stop to the practice.

> In the meantime, what has become of that committee of Western railway managers which recently volunteered its services to assist the Interstate commerce commission in preventing just such practices?

COMING TO FORT WORTH

Almost everybody interested in live stock is preparing to attend the Fort Worth Fat Stock Show, to be held at Fort Worth, Thursday, Friday and Saturday of next week. Breeders of fine cattle, horses, sheep and swine have for months been busy preparing their stock for this event, and the number of entries already announced indicates one of the best exhibitions of live stock ever held at Fort Worth. The attendance ought to be large, and it will be .- San Antonio Stockman.

Fort Worth is expecting a large influx of visitors next week in honor of the impending Fat Stock Show, and all who come can rest assured in advance of their arrival that they will find the usual brand of Fort Worth hospitality on tap when they arrive here. No trouble or expense has been spared this year to make the Fat Stock Show all that it should be, and when Fort Worth announced to the world that it should be the biggest and best thing of the kind ever witnessed in th entire Southwest, Fort Worth meant that it should be just exactly that way.

Visitors to this city next week can rely upon the fact that they are going to see something that will amply repay them for the visit. It can already be definitely announced that the Fat Stock Show is going to eclipse even Fort Worth's most sanguine expectations.

Dallas is expected to send a big delegation over to the Fat Stock Show next week, and our Dallas friends will receive a cordial welcome

The high price of lumber does not appear to be serfously affecting the work of improvement in this city. New residences are springing up like magic in every portion of the city.

The report that Grover Cleveland intends to aid in an attempted reorganization of the Democratic party is probably untrue. There is nothing of the Democratic party as Cleveland once knew it.

Postmaster Barkley is now in possession of his own for his first term as Fort Worth's postmaster. And his many friends, regardless of party ties, unite in wishing for him a most successful administration.

Fort Worth is still hard at work on the matter of trying to obtain the next Democratic state convention, and if we are given a little assistance by our friends throughout the state the result will be certain.

Fort Worth has not yet obtained all the sidewalks that are needed to put this city in the lead of those engaged in this great improvement. And there must be no let up in this great work until the desired result has

The United States government will make other experiments in the matter of importing additional ants from Guatamala to use in the destruction of the boll weevils in Texas, and if they can breed them fast enough over in that country it ought to develop into a very profitable industry in a few more years.

There is some great railroad building in progress in the state of Texas, and when the work in hand is completed some wonderful changes are going to be made in the railway map of the state. A story is told of a young married man in Hartford who had been away from home for several weeks. He came home early in the evening expecting a warm welcome from his wife, but instead he found a note which sent him as fast as he could go to the hospital. He inquired breathlessly of the superintendent if he could see Mrs. B-. "There is no such person here," she replied.

"Where is there another hospital? I know she is in some hospital," he replied. "How do you know she is in a hospital?" asked the superintendent.

"Just read this note," said he as he handed her a slip of paper on which the following was written: "Dear George: Sorry to leave home, but have gone to have my kimono cut out. Yours,

For some time I have had an opportunity to watch the results following the use of Hyomei, a treatment for eatarrh that cures by breathing medicated air, absolutely without any stomach dosing. The results have been so remarkable that I feel justified in making a public offer to treat the worst case of catarrh in Fort Worth with the

understanding that if Hyomei does not cure, it will cost absolutely nothing. People who have spent a great deal of money with catarrh specialists, deriving but little benefit, have seen almost immediate good results from the use of Hyomei, and continued treatment with this remedy has resulted in a complete and lasting cure.

The complete Hyomei outfit costs only \$1, and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomel. Should this not be enough for a cure, extra bottles of Hyomei can be obtained for 50 cents. 22 CRIPPLES ARE **ORDERED OUT**

Large Number Face Recorder Prewett

What might be termed the Association of Merry Cripples occupied the majority of the seats in the corporation court Friday morning. There were twenty-two cripples and decrepits in the court and City Prosecutor Virgil Parker stated that he had been informed that they had a regular association and that they would walk the streets and solicit alms and then meet at a resort in the lower end of the city and enjoy themselves. Officers have been looking into their conduct

with the result that the number mentioned were rounded up and brought before Judge Prewett. The court faced a problem in assessing punishment for the cripples, because they were evidently unable to work and if they were fined it would simply be a question of allowing them to remain in the city prison and obtain free board. The cripples were given a few hours in which to leave the city. In the event they do not get out they will be rearrested and fined. Judge Prewett and Chief Maddox both express the belief that some of the cities throughout North Texas are dumping their cripples upon Fort Worth, in some instances paying their fares to this city in order to get rid of them. This city, they say, has no disposition to dump them upon any other city, but at the same time the number coming here is entirely too great and some action must be taken to prevent it. Eruption Broke Out in Spots All Over Body-Caused a Continual Itching for Two Years-Doctor's Medicine Did no Good - Cured ai

"Some time ago I wrote you for a book on the Cuticura Remedies and received it O. K. and went and bought the Soap, Ointment, and Pills. They did me more good than any medicine I ever used. They cured me of my skin disease, and I am very thankful to you. My trouble was eruption of the skin, which broke out in spots all over my body; and caused a continual itching which nearly drove me wild at times. I got medicine of a doctor, but it did not cure me, and when I saw in a paper your ad., I sent to you for the Cuticura book and I studied my case in it. I then went to the drug store and bought one cake of Cuticura Soap, one box of Cuticura Ointment, and one vial of Cuticular Ointment Ointmen cura Pills. From the first application I received relief. I used the first sea and two extra cakes of Cuticura Soap and was completely cured. I had suffered for two years, and I again thank Cuticura for my cure. If you wish, you may publish this. Missouri Pacific Furnishes Feature. Heavy Liquidation Forces Price

Special to The Telegram. NEW YORK, March 16.-The movement of Missouri Pacific was the feature of an otherwise dull session of the stock exchange. The sharp break in yesterday's late trading, which came as the result of the announcement that earnings of the road nad decreased about \$18,000, intimidated holders over night and at the opening there was a scramble to unload. Rumors were current to the effect that there would be a reduction of the dividend rate and that the withdrawal of the Rockefeller interests was the result of a personal investigation of affairs, declosing the fact that the condition was not so good as expected. These reports served to increase the bearish sentiment and during the first hour the price was hammered down to 93, a net loss of 2 points from yesterday's finals. At this level there was good support by brokers acting for the Butler and Gould interests and the decline was checked and a partial reaction effected before midday. The weakness in this issue caused selling of other issues and Consolidated and People's Gas as well as the other public utilities were again pounded hard. The stringency of the money market was also a bearish factor, the opening rate for call money being 6 per cent. Later loans were made at 5% per cent. After the early trading the list showed improvement and prices recovered gradually, being in most cases only fractionally under yesterday's finals at the noon call. The volume of business was light, sales to noon being 347,500.

In the afternoon trading the market was stagnant until the last few minutes, when Missouri Pacific again came into prominence by reason of a sharp rally carrying the price up to 961/4, a net gain of 114 points from yesterday's finals. The advance was occasioned by heavy buying for the Gould interest. The general close was irregular.

Wheat Market Holds Firm-Prices Advance 1c-Corn Higher-Oats Weaker-Provisions Firm

Special to The Telegram. CHICAGO, March 16 .- The wheat market was only moderately active today but sentiment was generally bullish and the undertone was firm the greater portion of the session. The day's news was mostly favorable to the bulls, Liverpool reporting a strong market with prices showing a full response to our advance of yesterday, while advices from the Argentines were also encouraging. In the trading the market opened firm with prices 1/2 to 1/4 c above yes-

terday closing figures. Following the call there was some realizing by commission houses, but the local crowd bought liberally, tending to offset this and eventually the gain reached 1c.

In the afternoon there was further profit taking and some of the local crowd went short, causing a slight recession, but the close was firm with prices at a net gain of % to %c for near positions. Local receipts, 5 cars, against 21

this day last year. The northwest reports 244 cars, against 248 cars this day last year. Clearances, 12,000 bushels for the day, for the week, 2,010,000 bushels. Corn was firm on a fairly liberal amount of buying induced by favorable

foreign advices and the strength of wheat prices. At the close prices were 1/8 to 1/4 c net higher. Local receipts, 142 cars, against 277

this day last year. Clearances, 476,000 bushels for the day; total for the week, 2,335,000. Oats were quiet. The trend of prices was upward during the early session, but later the market weakened under liquidation and closing figures showed a loss of 1/8 to 1/4 c. Local receipts, 101 cars, against 155 cars this day last year.

Clearances 113,000 bushels. Provisions started the day strong and although there was only a light buying demand, prices held up pretty well under liquidation and at the close pork was up 5 to 10c. Lard showed a gain of 3 to 5c. Ribs were 2 to 5c Estimated receipts for tomorrow are

LIVESTOCK

Friday's Review and Sales Receipts of cattle today were close to the general average for a Friday,

Beef steers were represented by a few loads of fairly well-finished beeves, two or three loads of heavy, though rough cattle, while the bulk was generally on the medium quality, shortfed order. Packers took kindly to the supply without too much bargaining and an early clearance was made at steady prices. The heavy steers went to the scales at \$4.10@4.60, while the lighter fed found sale within the range, \$3.50

changed at all during the week. The demand for good cows was as strong as ever, but with little of that class to supply the urgency. Loads were largely mixed, and a few heavy cows were cut out to sell above \$3. Most of the cow supply ran from common to medium. Trading began early on a basis fully steady with yesterday. AID LAWYERS

Been Violated

J. H. Maddox, chief of the police department, has bulletined the following order relative to police officers assisting lawers. The order is stringent and demands the resignation of any officer who recommends a lawyer to any one interested in a case in court. The order reads: "Police Department: This is to call

your attention to the rule that I adopted immediately upon being installed into office last April, relative to officers soliciting business for lawyers. This rule has been frequently violated of late. I again want to notify you that hereafter any officer or any one connected in any way with this department found guilty of even intimating the name of a lawyer or firm of lawyers to a party under arrest or about to be arrested or to anyone who is in any way interested in a friend or relative who has a case in court or is likely to have a case in this or any other court will be expected to hand in his resignation at once. This is the last time your attention will be called to this order and every man must live up to it or at once resign. Your business is to see that the law is enforced and when you have done this your mission is at an end and you are not expected to in any way assist in securing counsel."

CANDIDATES HERE Fort Worth Scene of Political Activity

at Present Time

Fort Worth appears to be a magnet in the political world, judging from the number of candidates visiting the city from other parts of the state. Among those who were in the city Thursday and Friday were Hon. John G. Willacy, state senator from San Patricio county, and a candidate for re-election without opposition; Sterling P. Strong of Montague county, candidate for state treasurer; Colonel T. S. Garrison of Timpson, Shelby county, also candidate for state treasurer, and Colonel Daniels of Angelina county, candidate for the legislature from that

Hon. John G. Willacy is one of the strongest men in politics in his section of Texas, and became prominently known all over Texas as the author of the celebrated saloon bill known as the Willacy bill. He was in Fort Worth Thursday and Friday morn-

CALLS CANNON **ENTHRONED DESPOT**

Speaker of House Rebuked by Representative Shackelford

By Associated Press. WASHINGTON, March 16 .- In the house today, Mr. Shackelford of Missouri discussed the statehood bill and began to criticize Speaker Cannon regarding the statehood question. , He stopped before he had proceeded far, and objection was fatal to any further consideration of the bill. Before referring to the statehood

say about the manner in which Mr. Bronson got his bill up: "The gentleman was not recognized until he first surrendered his constitutional rights as a representative of the people and crept into the private room, Mr. Speaker, there to supplicate you to extend to him your grace. "No member can submit any matter to a vote of the house until he shall

matter, Mr. Shackelford had this to

have first sought and found favor in your sight. "The constitution contemplates that the speaker shall be the servant of the house, but in defiance of the constitution you have made yourself its master. You have packed every committee so that no bill can be reported without your consent. Unless you are willing, no member can move to discharge a committee from consideration of a bill and take it up in the house. "The house sits under an enthroned

despot, subjecting the rights and destates of your own unbridled will. "Who stands today between progressive, enlightened people and the statehood to which they are entitled? You, sir; only you. You crack your whip and the majority of this house cowers 1302 Pennsylvania avenue. at your feet. You turn your thumb down and the house deals a death

DRIZZLY RAIN **ALL MORNING**

Notice of Chief Says Rule Has Bad Weather, But Little Precipitation

> Fort Worth experienced a drizzling rainfall Friday morning that made life miserable for all who had to be on the street. The rain was so fine that it penetrated everywhere and an umbrella did but little good.

> Low temperatures were general throughout the northern part of the Mississippi valley. The lowest temperature on the weather map this morning is reported from Lander, where the temperature was down to 22 degrees below zero. Several other weather stations throughout the same region report temperatures down to 20 degrees and more below zero.

Minimum temperatures at Texas stations during the twelve hours ending at 7 o'clock Friday morning were as follows: Abilene, 24; Amarillo; 18; Corpus Christi, 46; Fort Worth, 33; Galveston, 44; Palestine, 32, and San Antonio, 38.

The weather report received at the office of the Fort Worth and Denver railroad Friday morning stated that the weather was still cold all along the line and that it was cloudy, but that there had been no rain or snow. Texline reported a temperature of 20 degrees. Amarillo and Childress also reported 20 degrees. It is still snowing today in Kansas,

also Missouri, Illinois and sleeting in Oklahoma. Snow continues in Mas-

OFFICE TRANSFERRED

Stamps and Envelopes on Hand Reach Total of \$19,000

Leonidas M. Barkley is now postmaster of the city of Fort Worth, having taken charge of the office shortly before midnight on Thursday. The count of the stock on hand was made last night and Mr. Barkley signed a receipt for the stock from George W. Burroughs and with that succeeded him as postmaster. The work of the transfer of the office took some time, as the count of the entire stock of stamps and envelopes in the office had

to be made. The Fort Worth postoffice was practically penniless this morning as the cash on hand is transferred by the old postmaster to the department without passing through the hands of the new postmaster and he only takes charge of the stock. The employes of the office are paid semi-monthly, as well as the employes of the railway mail service and these were all paid out of the sum of money in the hands of former Postmaster Burroughs.

The total value of the stock of stamps and envelopes on hand at the postoffice at the time of the transfer was \$19,556.28. The greatest supply of any one variety was of the ordinary cent stamps. Of these the postoffice had 595,000 on hand. The next largest number was of 1-cent postal cards, 109,500 being on hand. Altogether there were 835,470 stamps of various denominations. The smallest amount of any supply was that of 2-cent international postal cards, of which there were but 150 on hand. Of the total value of stock on hand,

Road Must Pay Boy for Loss

AUSTIN, Texas, March 16.-The court of civil appeals Wednesday af-Santa Fe railway against H. E. Gibson, from McLennan county. In the trial court Gibson recovered a judgment against the railway for \$17,500 damages for personal injuries. Facts developed in the case show

Dec. 21, 1896, nearly ten age, went from his home in the country to the town of Ardmore, I. T. Accordwhat he supposed was a footboard the corner and the engineer saw him and ordered him off. The boy testified that he did not get off at once alighting on a parallel track; that he life. Shortly after the accident, physicians amputated both feet and later

The plaintiff charged several acts of negligence in his petition, but the charge of the trial court eliminated every question, except discovered peril fendant railroad filed a plea to the discovered peril and that the court issue to the jury. On this point the court of civil appeals held that the dence of the plaintiff to the effect that the engineer saw him and told him to get off not only presented the question of discovered peril, but supports the

plaintiff on that issue The court says: "In fact, in all re spects in which the verdict is assailed we find testimony in the record which supports it. The plaintiff's negligence in getting on the engine would not cut off his right to recover if the engisition and failed to use wailable means to prevent the disaster." The court also held that the trial court had jurisdiction to try the case. The defendant's contention was that dian Territory, where plaintiff and his father then resided. The court says the ruling of the trial court is amply supported by authorities.

HOTELS CROWDED

Temple Said to Have Outgrown Her Holstery Facilities Special to The Telegram

TEMPLE, Texas, March 16.-The lack of adequate hotel facilities in Temple is commencing to become a troblesome problem. The city has outgrown its hotel accommodations and all three hotels now in business are crowded to their full capacity every day and have been that way for months. The city needs a first-class one-hundred-room hotel badly. During the past week many guests have been compelled to occupy chairs in the

hotel offices all night.

The St. Louis Cardinals desire to play two games in Temple with the local baseball club on March 15 and 16, but may be prevented for the reason that neither of the hotels will consider the proposition of furnishing accommodations for the fifteen men.

WHO IS MOST BEAUTIFUL?

You ask me who is most beautiful? I answer, it is THE WOMAN WHO HAS NEVER SUFFERED PAIN.

Pain, with its distorting fingers passed over woman's face, will soon steal away her great treasure—Beauty.

Have you ever seen a person you knew who had passed through some terrible experience of pain—a fire, a railroad wreck?

.Did you notice the years—ten, twenty or more—that seemed to have been added to that person's face; the hair whitened perhaps in a single night?

In no way will so strongly be brought home to you the fleeting character of beauty.

It is not wrong for a woman to wish to be beautiful. It is a part of her NATURE, implanted in her at birth, and therefore must be right.

Now I want you to understand that the pain from which you, as a woman, suffer every month will act in just the same way with you as (only, perhaps, more gradually than) a railroad wreck.

It will steal your beauty. It will undermine your health.

Your grinding headache, backache, dull aching, dragging pains, dizziness, etc.—You surely do not think these are NATURAL?

And if not natural, of course they can be relieved or cured?

Yes. Take Wine of Cardui.

It is the remedy for women's ills, for women's pain; the renovator of woman's health, the preserver of her beauty!

What more need be said? "But is it all TRUE?" you ask.

So true, that for over 70 years Wine of Cardui has been one of the most popular of all medicines for women. Its use has grown continuously and steadily, and in that time over a million women have found in Cardui relief and cure.

The explanation is not far to seek.

It is a woman's medicine. It is prepared scientifically to combat woman's ills, to cure her pains. It is not for men. It is not claimed to be a general remedy for all diseases. It is composed of choice, curative plant ingredients, which are adapted to soothe, cure and

SITUATION ACUTE

Chicago Coal Business Placs Teamsters on Retired List

CHICAGO, March 16 .- The coal situation in Chicago, at least as far as the coal teamsters are concerned, is growing more acute hourly. Owing to the rumors of an approaching coal strike, with the ever attendant coal famine, it has dawned upon the teamsters that April 1 the 2,000 men employed as such will be without employment for an indefinite time wheth-

Since the first reports of trouble at the coal fields business houses, county and city institutions and railroads have been laying in large quantities of fuel. Is estimated that the coal teamsters are now hauling more than 2,000 tons a day. The trouble for the teamsters will come April 1, when the coal strike will either come or peace will be made. Blind Files Statement special to The Telegram. AUSTIN, Texas, March 16 .- J. M. Brown, chief bookkeeper at the State Blind Institute, yesterday filed with six months ending Feb. 28, 1906, of the receipts of the institution, in accordance with an act passed by the Twenty-eighth legislature. It appears that not many of the heads of the different state institutions have been observing this law, as this is the first report received in some time. The statement shows that the total receipts of that institution for the period given above amounted to

from sales to individuals, and \$50.25 was from sales from the girls' industrial department

By a peculiar construction of this law, this money, which is turned into the state treasury department, can-not, as heretofore, be used by the institution, but diverts to the general revenue fund.

DRAUGHON'S

OUTLOOK GOOD SAYS CAVANDER

Panther Captain Reviews 1906 Ball Team

BY CAPTAIN DREAD CAVENDER. club this coming season is that I am we know personally and have seen them perform. We are at present

riding in the easy chair. A ball club is usually made up of players from all parts of the United States, and it costs no small amount to furnish all these men with transportation. So the week has been a busy one for us, visiting the different railroad offices and wiring transportation to those who are at present able

pennant but we will do all we can to keep the coveted bunting flying from the flag staff out at Haines park. You can't very well "dope" ball clubs, not nearly so well as horse races or prize fighting. You can't make a ball club that looks good on paper win games on the field. "Dope" goes well enough for the fans to look at in the early spring. Then every man is a

.300 hitter, and never misses a chance or makes a fumble. I think form and luck play a considerable part in games. At the same time brains and pluck of the nevergive-up kind will overcome a greater touting our club as winners, but I am confident we will be in the race. Of course we can't tell what might hap-Sickness and players being injured sometimes plays an important part regarding the place a team has in the race, but if things break even for

us, and with our share of luck I believe we will give the fans of Fort Worth a run for their money.

Outfield Certain I have been worried to death with questions about different members of position, or is this man or that man I can say definitely is the outfield with Gfrorer, Wilson and myself is a sure thing, also that Erwin and Berry are fixtures to do the receiving. Of the deceivers I have quite a number of candidates, including Slack, Wicker, Walsh, Huddleston, Harris, Ort, Dupree, and have lines out for a couple more. I think I will be able to get four good men out of this array of pitchers. Salm is a certainty on first; Boles is sure to hold down one of the infield positions, and for the other two places we have a number to choose including Clayton, Carlin, Whiteman, Johnson and Herold. for tuition. See us. Corner Sixth and Main Sts. Phone 1307. J. W. Draughon,

Most of the boys have good winter positions and are a little reluctant about giving them up to report fifty days before the season opens, but expect to have a few new arrivals here in time for the games next Saturday and Sunday with the St. Louis Nationals. All will arrive about March 25. By that time good weather will probably be here and then we will buckle down to training with the proper spirit. I think we have as good a club as that with which we finished last season. I leave it to the fans and rooters to figure out, not in the least bit discouraged with the showing we have made so far with the Browns.

The county judge and commissioners were present at the meeting and explained that the county finances at the present time would not warrant the completion of the work with public funds, whereupon the meeting immediately subscribed the amount necessary to complete the road the full distance, pledging the sum of \$600 in a few minutes, which amount the commissioners stated would suffice.

Comanche County Bar Wants Gillette to Remain Judge Special to The Telegram. LAWTON, Okla., March 16.-Every member of the Comanche County Bar Association, save two, who are out of the city, today signed a petitionary telegram addressed to President Roosevelt, asking that the reappointment of Frank E. Gillette, judge of the Seventh judicial district of Oklahoma, be made without heed to the charges that have been filed in the executive

office. More than this, every county officer forwarded an individual tele-

gram to the President, praying Judge Gillette's reappointment. These telegrams assert that the judicial business of the Seventh district is in safe, sane, wise and clean hands, and that the charges made against Judge Gillette are without foundation. The bar association held a short session in the court house this morning and being apprised that charges have been filed in Washington, immediately transacted the business of preparing the telegram and securing the signatures of the members. Within thirty minutes the matter was in the office of the Western Union Telegraph Company and within less than an hour was on the desk of Secretary Loeb in the White House.

Judge Gillette had little to say today when asked concerning the charges and this action of the bar. "I feel very grateful to the bar for this kindness." he said. POULTRYMEN ORGANIZE

S.S.S. FOR THE BLOOD

The purifying action and curative properties of this great remedy have made "S. S. S. For The Blood" a household saying, and thousands who are today enjoying perfect health owe their recovery from blood or skin diseases to this universally used blood medicine. S. S. S. is made entirely from roots, herbs and barks which possess not only cleansing and healing ingredients, but building-up and strengthening properties to keep the blood in perfect order. No one can be well when the blood is impure; they lack the energy and strength that is natural with health, the complexion becomes pale and sallow, the vitality is weakened and they suffer from a general broken down condition. When the waste or refuse matter, which nature intends shall be thrown off, is left in the system because of a sluggish, torpid condition of

the expelling members, it is absorbed into the CUARANTEED blood, making this vital stream weak, sour and FREE FROM acrid, and its condition is manifested by boils, pimples, rashes, blotches and other eruptions of the skin. S. S. S. goes into the circulation and removes every particle of blood taint or poison of every character, makes the blood fresh and strong and gives energy to the entire body. When the blood has been cleansed by S. S. S. all skin discusses and equations pass around the smooth please skin glowing with

Mr. Eddy has been in Washington on diseases and eruptions pass away and the smooth, clear skin, glowing with health, shows that the body is being nourished by rich, pure blood. Texas Cattle and Hogs Are Improving

M. P. Buel, president of the Evans-Snider-Buel Company of Chicago, St. Louis, South Omaha, Kansas City and panied by his wife. Mr. Buel makes his home in Chicago, but he has visited Fort Worth about twice a year for the past twenty years. His firm i cern in the country, and he is known to all the cattlemen in Texas. Mr Buel states that he is always glad to come to Texas, because he likes the people here and that he has noted the progress of Fort Worth from year to year with a great deal of interest

"The improvement and development in Fort Worth has been marvelous," said Mr. Buel, "and it is evident that this is destined to be a great city. "The grade of cattle in Texas is being steadily improved," said Mr. Buel. "The cattle which we are receiving from Texas now do not look like they came from the same part of the country that the cattle received twenty years ago came from. The day of the old Texas long horn has now passed There is nothing which is more profitable to the Texas cattle raisers than improving the breed of their cattle and I am glad to note that they

are doing this more every year." Hog Industry

Mr. Buel states that Texas farmers and stock raisers should be encouraged o raise a variety of stock, including hogs and sheep as well as cattle. "Texas already produces some hogs which are as fine from the butcher's standpoint as those raised in Illinois or Iowa," stated Mr. Buel, "and in view

of the high prices being obtained for hogs, I think the farmers should be urged to raise more of them.' Asked about the market outlook for he year 1906, Mr. Buel stated that generally speaking he considered the outlook very favorable. "I do not expect too many cattle, and I believe that prices will be as good or better than they were during the past twelve months. The northwestern ranges marketed more cattle during 1905 than for a number of years, and these cattle were in good condition. This will leave-more room for range cattle from Texas and other ranges this year. The cople who fed cattle the past season through the corn belt have done better than last year and they will naturally be in the market for such cat-

Avoid Alum Baking Powders

Dr. Mallet, Professor of Chemistry, University of Virginia, says that in a dozen different tests he found aluminum present in bread baked with alum baking powders and recoverable therefrom. Dr. Mallet thus certifies to the danger to health in the use of alum baking powders.

There is no higher authority in the whole country. Can you afford to use alum baking powders even though they do cost you only ten cents a pound, a cent an ounce, or twenty-five cents a pound?

Cotton Waste as Cleaner

Why do not housekeepers adopt coton waste as a cleaning agent? Watch the engineer pick up a bunch of waste, wipe off oil or dust and throw the cotton into a heap to be burned at his

convenience. How much better than to use a cloth which some one had to hem and some one else would have to wash and iron. Why is not cotton

waste the best possible stuff to use
