MINERS VOTE FOR STRIKE

Joint Committee Makes Formal Report of Disagreement

FIRM FOR ADVANCE

400,000 Workmen Expected to Walk Out Saturday as Result of Decision

Epecial to The Telegram. INDIANAPOLIS, Ind., March 27 .-The joint scale committee of the bituminous coal operators and miners of the central competitive district, after being in session one week, decided today to report a disagreement to the session of the joint conference of miners and operators to be held at 2 o'clock this afternoon.

The committee was in session but a short time today. It met at 9:30 o'clock and after half an hour spent in general talk that bore no relation to the issue, a motion was made and unanimously adopted that a disagreement be reported.

National officers of the miners in ommittee yesterday afternoon strongreiterated their former declaration that, under no circumstances, would they sign any scale at anything less than an advance in wages of 5.55 per cent, and President Perry of the Illinois miners, assured the operators that no Illinois union or district would be allowed to sign unless an advance was given every union mine in the state. This ultimatum was received by the operators in silence, and adjournment was at once taken until this morning, when a motion to report a disagree-

A motion to call the joint conference to meet at 2 p. m. was carried. The committee will then formally report its failure to come to terms.

ment was at once offered by President

Mitchell of the miners and carried

The motion to disagree was made by estimated that 400,000 miners will be affected by the decision. This number, under the present prospects, will strike Saturday night, when the present contracts expire.

The motion to report the disagreement was made by President Mitchell and seconded by Chairman Winder for the operators. No qualifying clause was attached to it. Action of the joint conference this afternoon on the committee's report of the disagreement is considered merely formal. It is believed that it will be accepted without

Coal Supply Short

If the coal strike were to begin right now it would find an overabundance of poal at very few of the large cites of he United States.

The fabulous amounts accumulated by the operators in anticipation of a Atrike have not yet been delivered at the great industrial centers. Indeed the amount of coal stored in preparation of a strike probably has been overestimated, although the operators apparently have more coal on hand now than they ever had on the eve of a strike. They can augment it very much before April 1, when the strike is due to begin

The reason that the big cities have not a very large stock of coal on hand in spite of the unusually mild winter, is that there has been a genleral shortage in railroad cars for carrying coal.

The coal consuming capacity of the fifty largest cities in the United States is something appalling. They consume one-third of all the coal mined in the United States, although they contain but one-sixth of the population of the entire country. This is due to the manufacturing concerns being concentrated in the centers of population. The hardest blow in the event of an

effective strike would be felt by the working people. Lack of coal would shut down the large industries. Out of work, the employes would not have an equal chance with the better faring ones to buy food-much less coal at the price that will prevail. Were 500,000 miners to quit work long enough, each one of them could put out of employment three men in some other path of labor dependent upon steam.

Some Non-Union Fields

In a canvass of all the larger cities it was learned that very many coal consuming centers look to the mines of West Virginia to furnish coal in the event of a strike, because the West Virginia field is not organized

HAD OBJECTIONS TO FRENCH PLAY

Crowd Dispersed by Soldiers at Bucharest

By Associated Press. VIENNA. March 27.-Serious street rioting occurred at Bucharest last night and culminated in a conflict between rioters and troops, during which two men were killed and over three

hundred wounded. The trouble arose over a demonstration of Roumanian nationalists against the use of the French language in a performance at the National theater. Ladies of a charity society, which is under the patronage of Princess Maria, advertised the production of a play in French and thousands of nationalists gathered about the theater and became so threatening that troops were summoned and fired twice before the demonstrators were dispersed. Over a hundred persons were arrested.

WILSON ACQUITTED

Former Indian Bureau Employe Adjudged Not Guilty

NEW YORK, March 27.-Frederick H. Wilson, formerly financial agent and distributing clerk in the Indian bureau warehouse, was acquitted of the charge of padding the pay roll at the warehouse by a jury in the United States circuit court yesterday. The specific charge was that Wilson put H. L. Sayres, a political friend, on the pay roll as a laborer for December, 1904, making affidavit that he did work for which he was entitled to the regular wages of \$75. Wilson admitted that Sayres had done no work, but said he had been taken on with the idea that he would be needed, and that he was discharged as soon as it was found that he was not needed. Wilson was for years assistant chairman of the speakers' bureau of

was formerly right hand man to Richard Kerens of Missouri. Witnesses called by both the prosecutor and the defense testified that business at the Indian bureau was run in a go-as-you-please way, and that the laborers alternated in days off and received full pay while sick, They also admitted that Wilson spent little of his time at the warehouse, and there were days that he did not ap-

MASS MEETING TO URGE PARK

Call Issued in Seventh Ward for Gathering

IMPROVEMENTS

Citizens to Gather at School House in Response to Notice by Dr. Brewer and Mr. Armstrong

Plans for a public park in the Seventh ward have taken shape and a mass meeting for the purpose of discussing this and other improvements will be held Friday night at the Seventh ward school house at 8 o'clock in response to a call issued by Dr. C. P. Brewer and R. L. Armstrong, Democratic nominee for alderman of the

As announced exclusively in The Telegram last week Dr. Brewer, who first advocated a public park in the ward and formation of improvement clubs among the school children at the flag raising of the school has determined to follow the suggestion by an active campaign. In this he is being given the active support of the school authorities and Mr. Armstrong. Permission has been secured from

the principal of the school to have the week, and their interest will be enlisted in the work before the mass meeting of Friday night.

General Improvement

Though a public park in this rapidy growing residence district will be he main topic at the mass meeting, other improvements will also be discussed, the presence of Mr. Armstrong making it an opportunity to review the needs of the wards and things to be asked of the city council,

Official Call.

Official call for the meeting is: Editor of The Telegram: Please tell the people of the Seventh ward there will be a mass meeting at the Seventh ward school house Friday night, March 30, at'8 o'clock, to conider and devise a plan for the establishment of a public park and other public improvements in that ward, Let all who are interested in that

part of the city be present. Respect-R. L. ARMSTRONG, DR. C. P. BREWER.

There is also a very rich field of coal in Western Kentucky, mined night and day with non-union labor and the most improved machinery that is depended upon. There are other nonunion districts all over the country, notably the Irwin field east of Pittsburg, where President Dolan, of the Pittsburg district, says there are 75,-000 non-union miners. Pittsburg does not now use coal from this field, but expects to do so if the union miners at

its doors strike Price Raised

Through their situation, the climate or local conditions certain cities enjoy some immunity from fuel distress in case of a strike. In Cleveland, Columbus, Kansas City and Louisville a great deal of natural gas is used as fuel by householders. Minneapolis, Buffalo and Rochester have water power that cuts down the consumption of fuel mightily. Los Angeles gets along without coal, owing to its climate, and is getting to use oil for what little fuel

San Francisco gets a great deal of coal from British Columbia and from Australia, and besides is using crude oil more and more. Denver has two great fields in Colorado to draw upon, over one of which the Western Federation of Miners are said to have no in-

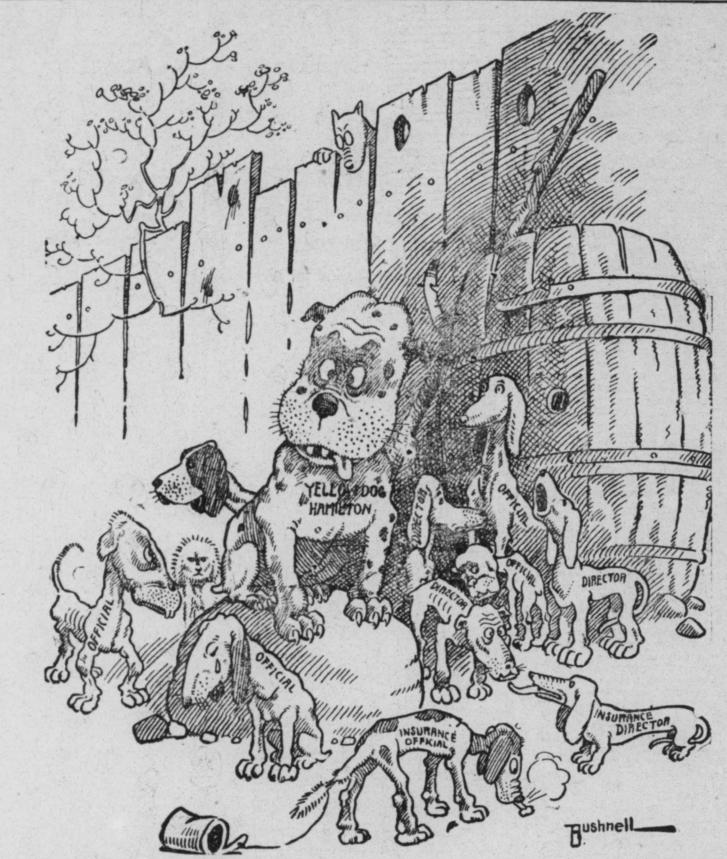

In a number of cities coal has gone up already in seeming response to the prospect of a strike. The increases are: New York, bituminous 10 cents a ton; Chicago, 10 per cent; St. Louis, 15 cents a ton, wholesale; Baltimore, \$1 a ton; Indianapolis, 25 cents a ton, domestic; Syracuse, bituminous 25 cents a ton, wholesale. There has also been a slight raise at Minneapolis. At Cleveland the price has been reduced on bituminous. At the other cities there has been no change.

Dalrymple damages in the sum of \$1,100 on account of the death of a relative. The relative was killed by the Missouri, Kansas and Texas Railway Company, it was alleged, and \$10,-000 was asked as damages. CUBA WATCHING FOR CONTRABAND

Insular Government Suspicious of Copper Shipments

By Associated Press. NEW YORK, March 27 .- "The seizure of some arms by the police in Havana a few days ago has created some speculation as to the purpose for which they were introduced into Cuba," says today's Tribune.

"The Cuban government feels somewhat concerned, it is said, by the shipment on Saturday last of nearly one thousand rifles and large quantities of cartridges from this city, consigned to the rural guards at Havana.

"It was learned yesterday that another seizure was made at Havana a few weeks ago of a quantity of cartridges, which the shippers had tried to introduce into the republic as contraband. These cartridges were sent to Havana by way of Mobile, hidden between the outer covering of a packing case and a secret inner covering, like the false bottom of a trunk. The unusual weight of the case aroused the suspicion of the customs officials. who made an investigation and discovered the contraband ammunition. There have been several other shipments of lake copper of late, all, it is said, made to one consignee in Havana? The frequency of these consignments has aroused the suspicion of the Cuban authorities and a close watch is kept

RECEIVER FOR MILLS

Bank That Advanced Money to Paper

WILKESBARRE, Pa., March 27 .-Judge Archibald in the United States court at Scranton yesterday appointed James B. Watson, cashier of the People's Bank of Danville, receiver of the mills of the Pennsylvania Paper Mills Company at Catawissa, Pa. The appointment of a receiver grows out of the failure of the Freeland National Bank, that institution having advanced large sums to the paper company.

The Catawissa plant is one of the largest paper mills in the state and has cost in construction and equipment about \$350,000. The receiver will complete improvements now under way and operate the plant for the benefit of the creditors. William D. Beckley, arrested on a charge of conspiracy in connection with the Freeland Bank fallure, is secretary-treasurer of the Pennsylvania Paper Mills Company.

President Said to Have Averted Clash at Algeciras

WASHINGTON, D. C., March 27 .-President Roosevelt, and no one else, is responsible for the peaceful result at last conceded for the Moroccan conference at Algeciras, Spain. The facts in connection with American intervention in this delicate European question show that the President has gathered new laurels for the American republic and achieved as great a victory as he did when he terminated the Russo-Japanese war. The conference will reassemble either today or tomorrow a Algeciras and every indication points to its formal acceptance of the solution which President Roosevelt and Secretary Root have evolved. This solution deals only with the question of the character of the police force which shall be distributed throughout Morocco for the enforcement of law and order and the preservation of the integrity of the empire and the open door therein.

The peaceful outcome of the Algeciras conference may be said to be the result of eight months of labor on the part of the President. TERRELL LAW Lively Controversy by Sen-

FOR BLANKET PRIMARY

Faulk, Glasscock and Terrell Offer Amendments Providing for a

Change in System

Spcial to The Telegram. AUSTIN, Texas, March 27.-When the senate met vesterday afternoon at 3 o'clock, the committee on privileges and elections reported favorably on the bill by Senator Hanger and others for

the correction of section 120 of the requiring bills to lie on the table three days be suspended and that the meas-

ure be taken up at once. Senator Decker wanted to know why there should be any undue haste in passing the bill at once, especially when the house had not taken any action and was also discussing a resolution to appoint a committee to look into the alleged fraud in the enrollment of the bill.

Senator Looney said his object was to expedite the matter and get through and go home Senator Faubion raised the constitutional question that the bill must lie over three days before it could be con-

Senator Hanger asked Senator Faubion if he meant that the bill could not be considered before the expiration of the three days. Then followed a wrangle and considerable debate on this question. In support of his motion. Senator

Looney secured the floor in defense of the legislature against the alleged charge of fraud in the enrollment of the bill. He said that yesterday morning he had inspected the papers in the secretary of state's department and with the evidence before him, he would acquit the clerk who made the mistake.

"Just a Simple Mistake" "It is a simple mistake" said he, "and I would not convict a yellow dog of any fraud in connection with the enrollment of the bill after the investigation of the records I made in the

state department." Continuing, he declared that certain newspapers had held the legislature up with fraud, while many mistakes daily creep into these journals. He concluded by saying that he felt that he should unbosom himself on this subject, since the matter had come up for discussion.

He renewed his motion to suspend the rule, which motion prevailed by a vote of 20 to 4, those voting against taking up being Senators Decker. Glasscock, Griggs and Terrell. The committee report was then adopted by

a vote of 23 to 3. The bill was then taken up for consideration. Senators Faulk, Glasscock and Terrell offered an amendment to the bill providing for a blanket primary for state and district officers. Senator Chambers offered an amendment to the amendment providing that a candidate shall receive a plurality of the votes cast.

Senator Faulk, in support of his amendment, said he could not see why there was such serious objection to a blanket primary. Senator Davidson made a point that

in the event there are five candidates in the race for governor, and 500,000 votes were cast, and one candidate gets 110,000 votes, and according to Senator Faulk this candidate would be the nominee, notwithstanding the fact that he did not get anything like a majority of the 500,000 votes cast. Senator Faulk said he would always

leave his chances of success to the people and not to conventions. "It seems as if we have again to swallow the bitter pill of the last regular session. I tell you, gentlemen, if we had a week longer to consider that free conference committee report on the Terrell election law, the result would have been different. In my opinio we can make a law now as well as at a regular session. Senator McKamy said that while he

was in favor of a blanket primary at the proper time, he did not think that such a proposition could be considered at this time and in accordance with the call of the governor. Under that call he thought the legislature was restricted to the correction of section 120. Besides, there was no popular clamor for a blanket primary. He asked if it would be keeping faith with the governor when two-thirds of the members agreed to come here and serve without compensation for the special purpose of correcting section 120, and then go into a revision of the

Advises Them to Go Home Senator Decker wanted to know if the one-third were bound by the action of the other two-thirds, "I am 'not discussing that," said Senator Mc-Kamy, "but if the one-third is not patriotic enough to correct this error, they should go home by the night train and let the majority make the

JEROME ASKS FOR WARRANTS

Three Arrests to Be Made by District Attorney

MEN PROMINENT

Identity of Trio Cannot Be Learned From New York Authorities

By Associated Press. NEW YORK, March 27.-Warrants for the arrest of three prominent life insurance officials were obtained by District Attorney Jerome today from Magistrate Moss in the Tombs court.

It is said that at the time the warrants were issued the men named in them were in the criminal court building, and their attorneys at the same time were in the supreme court arranging for writs of habeas corpus in connection with the proceedings. After he issued the warrants District Attorney Jerome declined to say

for whom they had been issued. His action in asking for the warrants is believed to be the outgrowth of a sharp discussion between Judge O'Sullivan of the court of general sessions, and himself, last week, over the question as to whether the officers of insurance companies could be prosecuted for making contributions to political parties.

A few weeks ago Mr. Jerome presented to the grand jury certain evidence bearing on such contributions which had been brought out in the legislative insurance investigation. Following this, the grand jury presented to Judge O'Sullivan a long series of hypothetical question as to whether, under certain circumstances, insurance officials committed larceny in making contributions. Several days later Mr. Jerome informed the jury that the officers were not guilty of larceny unless the intent to defraud was shown, and expressed the opinion that it was not shown in these cases.

Last week, however, Judge O'Sullivan notified the jury to say whether or not the intent to defraud had been shown by the insurance men, and if the jury found that it was shown, the crime of larceny would have been committed.

the amendment providing for a blanket primary. It would destroy the evil which sometimes prevails at convention. He told the history of the blanket primary in the contest for the senatorship between Faubion and

Rountree. The senator said he was in favor of a blanket primary. He declared that were he of the 108 members whe agreed to correct the law and serve without pay he would feel it his duty and would be under contract with the state, through the governor, to do so, but as he was not of that 108, he felt that he is at liberty to act as he saw fit in the matter. He came here to perform his duty and vote for any amendment which his judgment dictated. He did not agree to come here and serve free, and did not intend to

Senator Griggs then moved to adjourn and this motion was lost by a vote of 20 to 6. The amendment to the amendment by Chambers was defeated by a vote of 19 to 8. The amendment was then tabled by a vote of 8 to 18. The bill was then passed finally by

Declaration that there is practically to steam coal in Fort Worth coal yards and that the calling of a general strike as now seems likely will have disastrous effect upon the small plants of city, though many larger institutions have become prepared, either by securng supplies of coal or preparing for a nange to oil burning, is made by the

Of several seen Tuesday morning all eported scarcity of steam coal, though he general opinion was that there is a fairly good supply of lump coal. One firm reported that it had had several orders of steam coal within the past few days that it had been unable to fill.

Another prominent dealer placed fifteen days after declaration of a strike as the time to expire before manufacturing in the city would be tied up. L. L. Hawes places fifteen days as the limit for consumption of steam coal now in the city, and inquiries among other dealers show the estimate to be

a fair one. Lignite is now being shipped into the city in large quantities, but on all hands the situation is admitted to be a serious one, especially for the smaller manufacturing plants. Railroads have for some time been

gathering supplies of fuel and it is believed despite their large consumption, they can face the situation in beter condition than most other lines

COMPANY NOW IN NEW OFFICE

Citizens Light and Power Company Moves

STEADY GROWTH

Secures Central Quarters in Throck morton Street Opposite City Hall. Has Had Liberal Patronage

One of the best gauges of the rapid progress of Fort Worth is the forward march of its leading enterprises. None can point to a more successful past or brighter future than the Citizens' Light and Power Company, which progressive firm has just moved its office to its new, spacious and elegant quarters just opposite the city hall, in Throckmorton street.

The change was necessitated by the rapidly increasing business of the Citizens' Light and Power Company, and the more centrally located offices will now afford considerably more convenience to the big list of patrons. Indeed, the women of Fort Worth will be exceedingly glad to learn of the new location of the offices, which are being splendidly equipped in all departments, The Citizens' Light and Power Company is a home industry and certainly the magnificent volume of business

now being enjoyed by this excellent company is evidence, pure and simple, of the appreciation of Fort Worth people of this fact. The company was organized five years ago and since that time it has

been exceedingly liberally patronized by a whole host of patrons, who appreciate unsurpassed service and low prices. The motto of this wide-awake and ever-accommodating firm has always been to afford the people of Fort Worth the best light and power service at the least possible terms. No wonder, then, that its record is so bright. The plant of the Citizens' Light and Power Company has been improved and enlarged with the best and most modern equipment until it is now one of the greatest and most complete in all Texas—and this speaks volumes. Still larger additions and improvements are being planned by the management, all of which speaks eloquently of the untiring efforts and patience. and, too, excellent foresight of the Citizens' management in its determined ambition to provide absolutely the best for the people here, all of whom have long since learned that no detail is too small to command the immediate and most careful attention of the office. The future of the Citizens' Light and Power Company is roseately and radiantly bright, promising even to

The company wishes to avail itself of this opportunity to sincerely thank its many customers and friends for their highly appreciated patronage, and to solicit a continuance of the same upon the absolute assurance that the same high-class service shall always be maintained.

Comedy at the Majestic A comedy bill rules at the Majestic, even the acts of skill found in the list of acts having a comedy feature that

relieves the usual neck-tiring turn of the sort. Arthur Rigby, the minstrel monologist, easily carried off the honors of the bill at the performance Monday

night, his parodies and stories being delivered in an inimitable way. Lizzie Wilson also received a large share of applause, especially for her "Schnitzelbaum," though disapprobation was shown of personalities in her final number

Count deButz and brother showed some of the wonderful things that can be done with a bicycle, the usual climax of a circuit on the real wheel being well performed, both forward and backward. Riding at full speed over his comrade was another of de Butz's feats.

MAIL TRAIN TAKEN OFF

Telegram Forecast Has Official Confirmation

Announcement was made Tuesday afternoon by S. M. Gaines, superintendent of the railway mail service, confirming the report contained exclusively in The Telegram Monday that O. L. Teachout had asked how soon the fast mail train on the Cotton Belt could be withdrawn from service.

Mr. Gaines stated that the fast mail train on the Cotton Belt would be taken from service before the end of the month and that the mail for Dallas and connections which that train is carrying would be diverted to the Frisco-Katy combination, thus giving that road all of the North and West

The Iron Mountain fast mail to Texarkana and the connection of the Internation and Great Northern from there to South Texas will still be continued as formerly. Mail from Texarkana to Dallas will be carried on the later and slower Cotton Belt train. It is probable that the fast mail will be withdrawn from service March 29.

HADLEY MODEST **OVER VICTORY**

Regards Standard Oil Triumph That of the Law Only

NEW YORK, March 27.-Attorney General Hadley of Missouri takes a very modest view of his achievement in finally forcing the Standard Oil Company to answer the questions about stock ownership in the companies doing business in Missouri. "I am just a lawyer conducting a lawsuit," he said. "I have only done what any lawyer of ordinary ability would have done as attorney general of Missouri. The hearings before commissioners here and at home have been conducted on strictly legal lines and I have at no time tried to inject

sensationalism into the case. "One result of the proceedings thus far will be, I think, that public officials charged with the duty of prosecuting corporations which work in defiance of the law will no longer have any excuse for not proceeding against them on the ground that, while the corporations may be carrying on business in an unlawful manner, there is no use hauling them up in the courts, because they cannot be forced to testify

against themselves. Must Toe the Mark

"A recent decision of the United States supreme court on this point, as well as the decision in our own case by the supreme court of Missouri. that the oil officials must answer the questions put to them, shows that there is no material basis for this excuse. It also shows that we have plenty of laws now to compel the comporations to toe the line just the same as private individuals

"The courts now hold that the corporation, as a creature of the state, is subject to the supervision of the state. Accordingly, the state has a right to inquire if the business of the corporation is conducted in a lawful manner and the officials are compelled to answer all proper questions asked with a view to finding out whether the corporation is so conducting its business." The Standard Oil Attorneys had little to say yesterday regarding the capitulation to the order of the court which Mr. Hadley secured, both in this state and the state of Missouri, Attention, however, was called to the fact that in the answer of Mr. Rogers it was stated that the ownership of the stock in the Standard Oil Company of Indiana, the Republic Oil Company of Indiana and the Waters-Pierce Oil Company was admitted, subject to the objection of the questions being irrelevant and immaterial. and for the purpose of the present case only. This case is taken by some to mean that an appeal from the decision of the supreme court of Missouri is being prepared. The matter may court finally.

get into the United States supreme Mr. Hadley said yesterday that his efforts from now on would be directed to showing control and management of the three western companies by the Standard Oil Trust from 26 Broadway. He had been informed that diligent search was being made at the Standard. Oil offices for the reports and other documents which he had directed the officials to produce. He had no doubt that these records would be produced. In any event, he had copies of them, which would have to be admitted in evidence if the originals did

Noise Drowns Actress' Voice for Majority of Audience

Special to The Telegram. DALLAS, Texas, March 27 .- A few

of the 5,000 people who coughed up their cold cash to hear Sarah Bernhardt in Camille cough her life away in a big tent at Cycle park last night got their money's worth, but the coffers of the divine Sarah's treasurer apparently derived the most benefit from the performance. At times the occupants of the tent

sats saw, but the number of those who were was mostly limited to those sitting near the stage. Even the world famous tragedienne could not overcome the physical disabilities by wich the performance was handicapped, so poor little Camille dragged out her life to such accompanying cries as "Down in Front," "Sit down," "Keep Quiet," and other expressions far from Parisian.

While the appearance of the actress in a tent was novel, many of the people were satisfied after the first or second act, and went cheerfully home. To begin with, the ushers could not handle the crowd, and allowed people to seat themselves where they would he was taken to the nearest vacant seat and told to sit there, when maybe his seat was twenty rows ahead. For two acts the crowd was standing in the aisle, vainly trying to crowd up where they could see, while shouts of "Down in front" were heard at all

A special wire was run to the tent for the convenience of the newspaper men who had gathered from all over the country to see the first appearance of the great French actress in a tent. The show itself, as far as the acting and the gowns of the principal actress, was all there, if one was able to see a little. One could appreciate the wonderful work of Bernhardt at a distance, even without hearing. Yet for such a performance one expected a little better scenery than that carried by Bernhardt on her present tour. The curtain which was used was composed of two parts, one drawing from each side, and seemed to have a combination of its own, as the two sides never came together at the same time. The performance was attended by about 200 people from Fort Worth, a number of whom returned on the 10 o'clock car, after witnessing two acts. A special car was run by the traction

company after the performance was CONFIRMED BY SENATE

THE STATE LEGISLATURE

Gentlemen of the state legislature, you have been called together at Austin for a specific purpose, and aside from the discharging of that particular mission you owe the people of Texas no other duty at this

In response to popular demand, the executive of the great state of Texas has called you together to correct | both by socity and the individual, barbarism prevails. a grievous error that has existed in the Terrell election law, through the mutilation of section 120 during the closing hours of the last called session.

Your duty in the premises is plain.

When the necessary correction has been made in section 120 of the Terrell law your mission to Austin is

The governor and the people of Texas do not desire that you shall take advantage of the opportunity to thresh over the entire Terrell election law and open up the whole fight over the many undesirable provisions in that measure. Let the people of Texas have this year's experience with the Terrell law, and they will be in better position to give you final instructions prior to the assemblage of the next regular session. If there are many obnoxious features to the law there is nothing that will bring them to the surface so quickly as as experience on the part of the people.

The best way in the world to secure the repeal of

an obnoxious law is to enforce it to the letter. Public sentiment in Texas at this time may be overwhelmingly in favor of the blanket primary system, but the blanket primary system has not been a component part of the Terrell election law and its introduction at this time is not within your province.

You have no legal or moral right to go beyond the purposes specifically set forth in the proclamation of the executive convening your honorable body in extra

The governor has expressed the opinion that you can do the work you were convened to do within the period of four days.

Show him that you can do even better.

Let the politicians and office-seekers get out and make their campaigns before the people. The special session of your honorable body is not the time and place for pettifogging politics. Let the people of Texas see for themselves that one

session of the state legislature can do its plain duty. Finish up the correction of section 120, gentlemen,

adjourn and go to your respective homes. That is all the people of Texas demand and expect.

ARE SURGEONS TOO WILLING?

There seems to be a growing sentiment throughout the country to the effect that the average surgeon is too willing to use his knife upon afflicted humanity, and operations that would have been regarded as heroic a few years ago are now not only common but often resorted to when entirely unnecessary. Trained story of mistakes in diagnosis that almost seem crim-

Appendicitis is a disease of which absolutely nothing was known until a few years ago, but today there are thousands of people being operated on for appendicitis, and according to the diagnosis of the physician, thas become remarkably common. But it seems that all the diseases diagnosed as appendicitis do not constitute the real thing. Out of more than 500 cases so diagnosed and operated upon in the hospitals in the city of Omaha last year less than ten per cent were

is made by Dr. Alfred Shipman, a physician who has practiced his profession in the state of Nebraska for DAILY, SUNDAY AND WEEKLY BY THE FORT | the past twenty-three years. Dr. Shipman says:

> Everyone who has a pain in his abdomen is, according to the diagnosis of his physician, suffering from appendicitis, and nothing but an immediate operation will give relief. I understand that about 500 people have been operated on for appendicitis in this city during the past year.

Does any intelligent physician believe there has even been 100 cases of appendicitis in the entire state of Nebraska during the past year? They do not. They know that an occasional case of appendicitis requires operation. But the appendix craze is in full swing among the people as well as among many doctors, and many good physicians are inclined to regard any pain or ache situated below the diaphragm as caused by

diate operation. While it is true that many unnecessary operations are performed, it is not right to blame the profession too severely, as many are misled by the leading men in the profession, who refuse to raise their voice Chicago Office, 749-50 Marquette Building. | against an abuse they know exists. The people are also insistent upon operations.

That is a pretty plain statement to come from a reputable member of the profession, and should be sufficient to cause both physicians and the public generally to stop and think with reference to the situation. So fong as the average physician is anxious to display his skill in the use of the knife and the public is anxious to undergo the operation, it is almost certain that a number of useless operations are going to be performed. And every such operation places a human life in jeopardy.

It has been well said that generations coming after us will look back and consider the present era as an age of horror in the matter of surgical operations. That just as it has been determined that the world was too much given to the use of medicine, so it will be found that too many people have suffered from unnecessary use of the surgeon's knife, and too many human lives have been sacrificed in exploratory op-

That surgical operations are necessary, and that many lives are annually saved thereby is a fact too well known to admit of argument. But it does seem that some method would be devised for reducing the number of dangerous operations to a minimum, and satisfying both the patient and the operator that it is absolutely necessary. The knife of the surgeon should be called into requisition in these serious operations only as a last resort, and the surgeon should know just exactly what he is going to operate for before he begins work on the operation. Too much surgery is just as bad as too much disease.

KILL THE INCURABLES

The bills introduced in the Iowa and Ohio legislatures authorizing physicians to put an end to the lives of the hopelessly incurable are scarcely worth note save as a showing of manifold tendencies.

Looking at the proposal practically, it may be said It is impossible to tell whether or not any disease is hopeless. As science goes forward the list of incurable ills grows less.

And such legislation would be dangerous to society. The way to freedom of murder would be opened. Relatives and heirs desirous of putting friends out of the way would have all the protection of law. Investigation could not go behind the doctor's diagnosis. It would be impossible to frame a statute that would provide protection for the feeble in body or in mind.

Human suffering has a ministry.

It has much to do with the perfection of character. it chastens and refines. Without suffering there would be little sympathy or pity. There is a grandeur in the bravery that makes the best of life and fights to the end and there is value in the sympathy that is aroused

The tendency of a better civilization is to put a higher, rather than a lower, premium on human life. How to prize one's life aright and use it well is the problem set before us all. Where life is cheaply held,

The time will never come when men, women and children, handicapped in the race will be killed off like

Because the world grows better. Because such proposals are opposed not only to the principles of Christianity, but to the teachings of stoicisms and decency.

The bills spoken of have been introduced out of a narrow understanding of the worth and sacredness of human life. They are curiosities not symptoms of the

The senate pure food bill is being made the instrument of covert attack upon the patent medicine people. An amendment has just been tacked on the measure providing that a medicine shall be deemed misbranded if it does not on its label show the proportion of alcohol, opium, cocaine or other poisonous substance it contains. What this matter has to do with pure food is beyond average comprehension, and its introduction only goes to show the people who are fighting the patent medicine business are bent on securing their point by fair means or foul. Texas members of congress should promptly insist on this amendment being stricken out. It has no connection with pure food, and has only been introduced for the purpose of permitting certain interests to get into a national law what they have so signally failed to have incorporated in various state enactments.

The house committee on agriculture at Washington has stricken out the annual appropriation for free seeds this year, and it is to be hoped the house itself will stick to the new departure. There was never a greater farce and folly perpetrated than is embodied in this free seed business, and it should be promptly discontinued. Let the government stick to the original idea of sending out new seeds and plants to be tested under suitable provisions, but in the name of common decency, put a stop to this howling farce of distributing garden seeds every spring to the rural communities.

There is a ring about those Bell resolutions passed at the mass meeting in this city Saturday that comports well with the distinguished subject. Tarrant country presents this favorite son to the consideration of the people of Texas confident that they can make no mistake in honoring him with the position he is seeking.

State Treasurer Robbins has sold out his interests in the Panhandle, and it is not expected he will make nurses who assist in many of these operations tell a | his home in that section again upon the close of his present term of office. It is rumored the treasurer may engage in business in Austin.

People are still picking cotton out in West Texas, and still there are those who say that crops are not to be relied upon in that section. When a people can raise more than they can gather it must appear that agriculture is a pretty safe and profitable avocation .-Fort Worth Telegram.

That doesn't necessarily follow. Last spring there was an immense acreage of potatoes throughout north Texas and Indian Territory, and the potatoes were allowed to rot in the ground because they did not bring a sufficient price to pay the cost of digging .- Denison

. . . . The governor is opposed to any consideration of the blanket primary idea during the special session of the state legislature, and members of the body should defer to his views. The session should be devoted solely to the purposes outlined in the official call .- Tyler

The governor says the legislature should do its allotted work within four days, but the members appear to be going to Austin with the idea of camping for the entire constitutional limit.

In the recent wreck in Colorado in which half a hundred people lost their lives, it is discovered that the catastrophe was caused by the operator's being asleep, having been deprived of his usual rest by being forced to work overtime. Still, the operator will have to bear the blame. The company will take refuge behind the fact that he was asleep on duty. The causes leading to that sleep will not be taken into general consideration.

While Mr. Moore generalizes a great deal, and goes to unnecessary lengths in pointing out the national phases of the trust evil, he is specific enough in informing the people what he is driving at. He charges the existence of an oil trust in the state, which is true; a branch of the packing house trust, which is evident seed oil trust and a lumber trust.-Houston Post.

If these things alleged by Candidate Moore are true, it is a grave reflection upon the men the people of Texas have clothed with authority at Austin. The attorney general of Texas should proceed at once to make Candidate Moore the star witness against the trusts he has located in Texas.

Taft is a man it will be difficult to shelve, from the fact that he is so hefty. The President found his avoirdupois handy at one time for use in keeping the lid on, and in remembrance of that fact is now willing to make ample provision for his future. It all depends as to whether Teddy really wishes to class Taft with the "has been." Teddy has been listening to the "dull buzz" of the third term bee, and if he takes a notion to make the race, Taft will have to be a judge, that's all. Teddy has never failed to put aside any of his aids at any time, if he found he could get along better without them than he could with them .-

TAKING THE "LID" OFF IN REUBENVILLE

WASHINGTON, March 27 .- During the debate on the Indian appropriation bill last week Mr. Currier of New Hampshire had been in the chair. When he left the chair to go to luncheon he summoned to his place ex-Speaker Keifer, who has just returned to congress after twenty years' absence. The ex-Speaker came up with visible trepidation. As he took the gavel he said to Currier, pleadingly:

Cure for a wife who has only "thought kisses" for marriage merely as an opportunity for a girl to throw a husband—"stage money" on salary day.—New York Herald.

A WOMAN'S SHORTCOMINGS She has laughed as softly as if she sighed, She has counted six, and over, Of a purse well filled and a heart well tried-Oh, each a worthy lover!

They "give her time"; for her soul must slip Where the world has set the grooving, She will lie to none with her fair red lip-But love seeks truer loving.

She trembles her fan in a sweetness dumb, As her thoughts were beyond recalling, With a glance for one, and a glance for some, From her eyelids rising and falling; Speaks common words with a blushful air, Hears bold words, unreproving; But her silence says what she never will swear-And love seeks better loving.

Go, lady, lean to the night-guitar, And drop a smile to the bringer, Then smile as sweetly, when he is far, At the voice of an indoor singer. Bask tenderly beneath tender eyes; Glance lightly, on their removing; And join new vows to old perjuries-But dare not call it loving.

Unless you can think, when the song is done, No other is soft in the rhythm; Unless you can feel, when left by one, That all men else go with him; Unless you can know, when unpraised by his breath, That your beauty itself wants proving; Unless you can swear-"For life, for death"-Oh, fear to call it loving!

Unless you can muse in a crowd all day On the absent face that fixed you; Unless you can love as the angels may, With the breadth of heaven betwixt you; Unless you can dream that his faith is fast, Through behooving and unbehooving; Unless you can die when the dream is past-Oh, never call it loving! -ELIZABETH BARRETT BROWNING.

THE TWO SNAKES THAT WAITED

MADISON, Vt., March 23-Your correspondent has submitted to a number of local naturalists the Gloversville story about the intelligent snake that churned the cream and ate the butter, and takes pleasure in stating that they announce the story is not at all improbable.

"The reason I don't doubt it, suh," said Ben Benton, who collected rattlers for Barnum's circus in 1879, "is that I knew two snakes that showed the same ordan of intelligence. I had a hen that was a great layer, but one spring she seemed to go stale-not an egg from her. I began to take notice to find out what was the trouble. She cackled all right once a day, but nary an egg. I watched and at last I found there was a snake that hid in the grass not fah from her nest. It would wait until the hen cackled, then sneak up and steal the

"Then there was another snake that would wait around the cowsheds until the milking was finished. When it heard me close the shed door it would crawl through a hole in the shed and lick up the milk that had been spilt. That same snake learned the sound of the cowbells, and it picked out a Jersey cow and followed her all the time and milked her every day. It wouldn't follow the common cows at all. Finally we switched bells, but the snake soon got on and we had to change bells every day for a month. Then we managed to kill

Increase of Land in Cotton and Wet Weather Given as Causes for Lessening of Grain Crop

Fears of the grain men that the green bug had been discovered were set at rest this morning when Secretary H. B. Dorsey of the Texas Grain Dealers' Association received a telephone report from President J. Z. Keel of the association from Gainesville, stating that contrary to the report which appeared Monday morning, there is no evidence of green bug

around Gainesville. A dispatch was printed in some of the state papers Monday morning emanating from Gainesville, stating that the report had been circulated that the green bug, which did such tremendous damage to the grain crop several years ago had again been discovered. Immediately upon hearing of the report, Secretary Dorsey of this city wrote to President Keel of Gainesville, asking for information on the subject. President Keel took the matter up immediately and investigated all supposed cases, and Tuesday morning telephoned Secretary Dorsey that there is no green bug there. He stated that report had evidently started from the fact that in some low spots the grain had turned yellow because of too much moisture. The turning yellow of the grain is one of the effects of the

State Also Clear

The same report was circulated not long ago from Sanger, and was traced to the same cause. The green bug destroyed almost all the grain crop of the state a few years ago. Experts were brought from Washington to work against the pest, which disappeared about that time, and has never returned. Grain men of the state take immediate alarm whenever the report of green bug is spread, owing to the damage wrought

at that time. Secretary Dorsey also announced Tuesday morning that there were no reports at all of green bugs throughout the entire state, excepting the two mentioned above, and they were immediately proven to be false.

Acreage Reduced When asked about the condition of the grain crops, Secretary Dorsey announced that the crops of the state were never in better shape at this time of the year than they are this

The acreage in grain crops has been educed somewhat for two causes, one is the increase in the acreage of cotton, according to Secretary Dorsey, and the other is that fields were too wet at the time for seeding oats, and consequently fewer oats have been

CONFLICT IN LAW

State Says Must: Ordinance Makes Prohibition The attention of the police has been called to the whistling of locomotives within the city limits and to the disturbance caused by the ringing of bells for crossings. City Prosecutor Parker has been consulted regarding the matthis city, but who gave his name as I ter, and he states that there is a conflict between the state law and the city ordinance regarding the whistling of locomotives, the former demanding that the locomotives shall whistle at crossings and the city ordinance pro-

hibiting them from whistling unless Mr. Parker states that the ringing of bells of which complaint is made is due partially to defects in the apparatus used by the railroads. The bells are supposed to ring when the train is approaching the crossings, but some of the roads have bells which will ring when trains are a long dis-

it down was commenced. The old building is the first and only structure ever occupying the site, and in rentals it has paid its owner many thousands of dollars. It is a onestory, unsightly affair, and its removal is a relief to that part of Main street. George Monohan and Elmer Ball to Go Three Mites

George Monohan of San Francisco and Elmer Ball, champion speed roller skater of the south, will meet at the Summit Avenue skating rink in a three-mile ract, the second in a series of three to be held between the two crack skaters. Ball won the first race at Houston ten days ago. Should Monohan win in this city, a third race will be held probably at Dallas. Monohan, in addition to being a good speed skater, is also one of the best fancy skaters, his tricks proving of great interest to the large crowds present at the rink Monday night. The Blazing Forest," in which he circles among blazing candles, is especially good, Eight hundred people were admitted to the rink Monday night. Arrangements have been made to have a car leave Seventh and Main streets every five minutes after 7:20 o'clock at night, either on the Summit Avenue or City Park line. Extra cars will also be ready at the closing of the night session.

Oculists Admit Genuineness of Cure But Are Unable to Explain

Its Mystery

Recial to The Telegram NEW YORK, March 27 .- When the neighbors about Eleventh avenue and Fiftieth street wish to get rid of a cat they take it to the poor half-blind old lady who occupies a small room in a house near the corner, and say: "Here, Mrs. Mallison, you have lost

Mrs. Mallison feels for the ribbon at the cat's neck and takes in the little pet. She has thirty cats now. She says they have restored her sight.

Her sight was lost, irretirevably, in the opinion of oculists, forty years ago, but it is a fact that two well-known oculists held a consultation yesterday to try to find out why the sightless older eyes are gradually regaining their power again, as they surely are. They gave up the problem.

Pronounced Totally Blind "It is a fact." said one of them, after

the conference "that this woman was given up as an apparently hopeless case years ago. She was pronounced totally blind by three leading specialists. It is a fact that she is gradually recovering her sight now. I know of no power of man that could restore her vision. She knows in her own mind that her joy is due to the hypnotic power in the eyes of her thirty

"None of her friends dispute her, and they all give her their cats. Even the boys in the street, who torture cats, give the little creatures to her. Her Thirty Cats

Mrs. Leonore Mallison was found in her room, the thirty cats, their tails curled about their feet, sitting in a circle about her and awaiting their turn at caresses. Mrs. Mallison said that it was her pity for a cat years ago that is now bringing her the reward of

"I told some boys in the street who were torturing a cat that I was a blind witch, and would harm them if they did not give me the cat," said she. "They gave me the cat. That night I felt a sudden thrill, as I stroked the cat. I could see light. I had not seen light for thirty years. People began to bring me cats, all of them saying the cats were mine. I guess they though me strange. I was not. I believed that the hypnotic power of the cats' eyes would exert its influence on my eyes

Mrs. Mallison told how she sat among

Sparks Stayed Longer "At first only for a second," said she. "Then the sparks of light stayed longer. At first I could not distinguish anything. Now I can see when my cats sit about me in the darkness. Some day I will see as I did when I was a girl.

She is firm in her belief, and the neighbors who hear her tell her story are growing to believe her. Mrs. Mallison was widowed when she was 25 years old. That was forty years ago, and it was shortly after that she met with an accident to her eyes. It was not until she had been treated for two years that she lost her sight altogether. Since then she has been living on the bounty of friends.

Once the police tried to take her, but when they heard the story of how she was to receive her sight back through some occult power of her pets they had not the courage to take the animals away from her.

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health giving agents are to be found in forest plants

Nearly forty years ago, Dr. R.V. Pierce. now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, Y., discovered that by scientifically extracting and combining certain medici-nal principles from native roots, taken from our American forests, he could produce a medicine which was marvelo efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ail-This concentrated extract Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or bilousness, and kindred derangements. If you have coated tongue, with bitter headaches, feel weak, easily tired, stitches

or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derange-ment of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper. The sole motive for substitution is to permit the dealer to make a little more

profit. He gains: you lose. Accept no sub-stitute for "Golden Medical Discovery." Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

SERIOUS CASE CURED BY DR

WILLIAMS' PINK PILLS Chowing That This Remedy Is Suited
To The Most Delicate

Stomach. Brought to the very verge of starvahon by the rejection of all nourishment, her vitality almost destroyed the re-sovery of Mrs. J. A. Wyatt, of No. 1189 Beventh street, Des Moines, Iowa, seemed hopeless. Her physicians utterly ailed to reach the seat of the difficulty. and death must have resulted if she had

not pursued an independent course sugested by her sister's experience. Mrs. Wyatt says: "I had pain in the region of the heart, palpitation and shortness of breath so that I could not walk very fast. My head ached very badly and I was seized with vomiting spells whenever I took any food. A docor was called who pronounced the trouble gastritis, but he gave me no re-'ief. Then I tried a second doctor without benefit. By this time I had become very weak. I could not keep the most delicate broth on my stomach, and at the end of a month I was scarcely more than skin and bone and was really starv;

ing to death. "Then I recalled how much benefit my sister had got from Dr. Williams' Pink Pills and decided to take them in place of the doctor's medicine. It proved a wise decision for they helped me as nothing else had done. Soon I could take weak tea and crackers and steadily more nourishment. In two weeks I was able to leave my bed. Dr. Williams' Pink Pills were the only thing that checked the vomiting and as soon as that was stopped my other difficulties left me. I have a vigorous appetite now and am able to attend to all the duties of my home. I praise Dr. Williams' Pink Pills for Pale People to all my friends because I am thoroughly convinced of their

merit. Dr. Williams' Pink Pills for Pale People are absolutely guaranteed to be entirely harmless to the most delicate constitution and may be taken without fear. They have cured thousands of cases and if you will write to the Dr. Williams Medicine Co., Schenectady, N.Y., stating your trouble, you will receive a frank reply. If the pills will cure you, proof will be furnished; if they are not suited for your trouble, you will be honestly told so.

Regular Summer Weather Is Experienced Monday

Fort Worth was the hottest city in the United States Monday, and also incidentally broke the heat record for the year at this station by 6 degrees. The maximum temperature registered at the weather bureau on Monday was 88 degrees. The next hottest city in the country was San Antonio, where 86 degrees was registered. Abilene was next with 84 degrees.

The highest temperature that has been registered this year in Fort Worth up until Monday was 82 degrees, making a jump of six degrees. Light rain fell along the Denver road Monday night, being followed by cloudy weather Tuesday morning. Official statement of conditions is

"A low barometer area is centered at Buffalo, and one in the Texas Panhandle, dominating the regions from Amarillo to the east lake regions, causing rain in Utah, Idaho, Oklahoma, Texas, Colorado, Michigan, Georgia, Arkansas, New York and Virginia, thunder storms occurring in Tennessee and Arkansas, with high winds in Missouri, Pennsylvania, Ohio and Tennessee, Memphis reporting 44 miles maximum.

"High barometer areas are reported n the extreme northwest and the midfle Missouri valley, but of little conequence, temperatures being normal, the freezing line dropping no farther south than middle South Dakota. "The southern states have high temperatures this morning, and generally cloudy conditions. Fort Worth was

the maximum heat center yesterday,

Dallas Agents to Organize

A movement is on foot to organize a city passenger agents' association at Dallas upon the same plan as that of the city passenger agents of Fort Worth. Dallas has been a little behind Fort Worth in this movement but some of their number have been watching the success of the organization here and Traveling Passenger Agent Hall of the Katy, who makes his headquarters at Dallas is one of the leading spirits in bringing about such an organiza-

Coal to Burn

W. B. Drake, vice president of the Frisco, when asked about the coal supply of his road, stated that the Frisco had coal to burn. "We have been storing coal for a month," stated Mr. Drake, "and are well prepared for any emergency which may arise. It is not my opinion, however, that there will be any strike in the southwest. If the strike is ordered, I think that it will be in the eastern states."

Regarding the cattle car situation, Mr. Drake stated that his road was prepared to handle all of the cattle which would be offered for shipment, but that some of the roads were already preparing for a shortage of cars and issuing regulations regarding the

Keep Your Nerve

It is nerve energy that runs the organs of your body. The storage battery is the nerve cells in the brain and spinal cord, and from this battery nerve force is sent out through the system of nerves. To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are

the penalty. You can keep the system strong with Dr. Miles' Nervine. It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vigorous.

"I take pleasure in recommending Dr. Miles' Nervine to those suffering from nervous prostration, insomnia and melancholy. After several months suffering from above diseases I tried this medicine and found immediate relief. It soothes and strengthens the nerves, chases away the gloomy and depressing thoughts and gives the sufferer renewed strength and hope. It is a superb nerve re-

Car Shortage Forecast

GALVESTON, Texas, March 27. J. S. Hershey, general freight agent of the Santa Fe, predicts there will be a possible shortage of cars for the spring cattle movement from Texas to the Territory. "There will be about 7,500 cars of cattle handled by the various railroads out of Texas," said Mr. Hershey, "and they must be moved in about thirty days. It is just as well that the cattlemen be informed that there is a scarcity of cars anticipated and that the reservations had best be made as early as possible.

WHISTLE BLOWS FIRST \$1000

Y. M. C. A. Canvass Has Favorable Opening

The irregular blowing of the Medlin mill whistle Tuesday morning indicated that the first \$1,000 on the Y. M. C. A. building canvass had been secured. The total amount which resulted from the first day's subscription was \$1,535. The canvass proposes the raising of \$1,000 a day for twelve days.

The posting of the results of the work of the different committees began Tuesday morning at 9:30 o'clock and there was a large crowd gathered around the board as Secretary Jones started to mark the amounts. As he began with the first committee and started at the \$500 mark the interest grew higher. Then as he continued to mark up the thermometers of the various committees everyone watched and counted the total as it was indicated. Before he was through the large whistle on the Medlin mill started to blow and all knew that the \$1,000 mark had been passed.

The largest amount on the first day was raised by committee No. 1, of which R. P. Smith and James Harrison are chairmen. This committee raised enough to average their \$83.33 a day for the first week. Their total was \$500, or half the amount allotted to

The active workers in the campaign are sure that the whistle will be turned loose again Tuesday, indicating the second \$1,000. Frequent reports are blowing as soon after the subscription of each \$1,000 as possible. About half of the amounts raised Monday were from new subscribers to

the Y. M. C. A. fund and the balance came from those who have doubled their former subscriptions. Work was started by the young men's committee Monday when one member went through the Axtell-Mc-Kee Manufacturing Company and received \$80 in a short time. The canvass there is not reported as complete.

THE EASY OIL.

Scott's Emulsion is "the easy oil"—easy to take, easy in action. Its use insures deliverance from the griping and nauseating sensation peculiar to the raw oil. Nobody who has any regard for their stomach thinks of taking cod liver oil in the old way when Scott's Emulsion is to be had. It is equally certain that no one having a regard for their health will accept a cheap emulsion or alcoholic substitute for Scott's Emulsion. It fulfills every mission of cod liver oil and more.

Polytechnic Denies Reported Use of Liquor

Polytechnic College faculty and athletic authorities are much wrought up over the report that rum and strychnine are being used regularly in the course of train of the track team of

This statement has been denied by the members of the faculty and others. Professor J. F. Sigler, who has charge of the boys' hall at the college, when asked concerning the report, said: "We have no rum nor strychnine and do not allow anything of the kind. If the track team is using these things it is using them secretly. The faculty would allow nothing of the kind."

Major McCarley, who has charge of the cadets, also denied the report and said that it is not true. Portions of the report which have caused the agitation read as follows: "Twice a week 'two fingers' of rum are allowed at the morning meal." Another part of the report reads: "When there is a sign of weakening or too much training Captain Rogers requires the use of one-sixtleth of a grain of strychnine at meal time, This stimulates the heart and causes the physical condition to be bettered." When the report became known at the college Tuesday morning there was considerable excitement and vigorous denials.

Strike Situation Dominant Influence. Adverse Rumors Cause Sharp Break in Prices

Special to The Telegram. NEW YORK, March 27 .- Stock exchange transaction were again on a moderate scale, prices being dominated principally by developments in the labor situation which were adverse to higher values. The market opened firm with prices higher as a rule, and although the volume of business was light, the undertone was good and many issues during the first hour added fractionally to their initial gains. Smelter, A. C. P. and Reading being especially prominent in the upward movement, while all the balance of the coalers exhibited a healthy undertone.

About the middle of the session advices were received from Indianapolis which were not at all reassuring, being to the effect that the scale committee was unable to agree and would so report to the joint conference this afternoon and that the miners' conference would immediately declare a strike in the bituminous coal regions.

This was regarded as precluding any possibility of a settlement, and upon receipt of the news the list broke sharply, Smelter, A. C. P. and Reading all selling off from 2 1-4 to 3 points from the early high mark. There was good support on the de-

cline, and after reaching this level

prices rallied and started upward again, regaining almost a point within a few minutes. In the general trading throughout the early session London interests were prominent buyers, taking in all about 50,000 shares, including Atch-

ison, the steels, Union Pacific, South-

ern railway and Southern Pacific. The labor situation in the coal regions continued to be the all-absorbing topic of conversation on the floor throughout the afternoon, and while the general consensus of opinion seemed to be pessimistic as to the outcome, and there were many rumors in circulation, none of which were favorable, the effect was to restrict active speculation on either side, as traders evidently preferred to await definite announcements before taking any decided steps, consequently the market was dull. However, prices made some further recovery and the closing tone was steady, with a majority of the list showing only fractional changes.

Wheat Market Dull-Prices Fluctuate Within Narrow Range-Final Figures Show Slight Change Special to The Telegram

CHICAGO, Ill., March 27.-The wheat market was only moderately active, but on the whole the undertone was healthy, despite the fact that there was some rather free selling during the session, which was occasioned by the easier tone of the northwestern markets. The opening was irregular, with prices %c to %c lower for May and unchanged to %c higher for July. Commission houses in general sold during the initial trading, but two prominent local traders each picked up in the neighborhood of 250,000 bushels of the May while another bought about the same amount of July. This tended to offset the selling and imparted strength to the market, resulting in a net gain of 4c to 2c before midday. After this time the trading was featureless and fluctuations were narrow, the close being steady, with prices practically at the opening figures. Local receipts four cars, against twentysix this day last year. Bradstreet's report of the World's available shows a decrease of 421,000 bushels for the past week, against a decrease of 2,900,-000 bushels for the corresponding period last year.

The corn market was very dull and steady, with prices averaging a decline throughout the session. The trading was entirely local and final figures showed a net loss of 1/8c to 1/4c Local receipts, 405 cars, against 301 cars this day last year. According to Bradstreet, the world's available supply has decreased 1,707,000 bushels during the past week.

Oats were quiet, with prices lower throughout the session. Closing figures showed a net loss of %c. Local receipts, 271 cars, against 36 cars this day last year. Bradstreet's report shows a decrease of 1,348,000 bushels in the world's visible supply, as compared with last week's figures. Provisions

Provisions received good support in the shape of liberal buying, which was principally for the packing interests, and prices held strong throughout the session, closing figures showing gains of 18c to 28c for pork, 15c for lard and 10c to 15c for ribs.

Receipts Estimated receipts for tomorrow are as follows: Wheat, 2 cars; corn, 209 cars; oats, 107 cars.

Bulls Still Control Situation-Early Weakness Dispelled by Good Support-Prices Are Higher

Special to The Telegram, NEW YORK, March 27.—The cotton market started the day weak, but the bulls showed conclusively that they were not yet ready to relinquish their control of the situation by offering good support on the decline, and eventually putting the bears to flight. In response to disappointing advices from Liverpool, prices on the first call were 3 to 6 points lower. Outside business was on a smaller scale than has been the case recently, while there was further liquidation by longs during the initial trading and with this as an influence, the loss was increased to a matter of 5 points from the opening figures for the near positions. After reaching this level the decline was checked by fresh buying for

the leading interests, and throughout the balance of the session the trend | 15...1.050 of prices was steadily upward, the near positions eventually reaching a net gain of 5 to 10 points, with May again selling at a premium. New Orleans Cotton Special to The Telegra

NEW ORLEANS, March 27 .- The cotton market was rather dull today, but after showing early weakness, prices firmed up and final figures showed a slight victory for the advocates of higher values.

Liverpool advices were disappointing regarding both the spot and future markets, and in response to these factors the local market opened easy with prices at a decline of 7 to 8 points. There were more rumors to the effect that the bull leader was unload-

ing, and with this as a basis the local bear crowd indulged in some forlorn hopes of depressing values, but after forcing the decline to a net loss of 9 points they withdrew their offerings, and prices were immediately started upward again, advancing gradually under a fair volume of buying until a level of 19 points above the early low mark had been reached. The close was steady at practically the best figures of the day.

No change was observable in the butcher cow supply, the good ones being scarce as usual. The general trade took on a little more life from the fact that pasture men were looking after their cows. The takings on this sort somewhat relieved the pressure on slatty cows, though not to a quotable improvement of the market. All good cows sold steady. Sales:

LOST CHILD FOUND

Mrs. M. F. Davis of 1210 Travis avenue telephoned the police Tuesday afternoon that she had found a 3-yearold boy who was evidently lost. The boy was not able to tell his name or address, and the police have been asked to assist in locating the parents of the child. The department has not yet been advised of any child having been missed in the city, but it is presumed that the parents will doubtless notify the officers when the absence of the little one is discovered at

NO ACTION ON MARKET HOUSE

Absence of Members Causes Delay in Council

The purpose of the adjourned session of the city council held Monday night was not accomplished, owing to the absence of Aldermen Lehane and Moreland. As has been announced in The Telegram, the meeting was called for the purpose of authorizing a loan ten years. When the council assembled Alderman Waggoman explained that he had an ordinance prepared to cover the case, but that as it would require six members to pass It, and as two of the aldermen were absent, he moved that the matter go over until the regular meeting of the council next Monday night. There was no objection and action upon the matter was Alderman Waggoman stated that the ordinance was simply to authorize securing the loan, and that nothing was embraced relative to whether or not the market house

should have an auditorium. A box of Telegram cigars was passed around by City Clerk Montgomery, who explained they were a gift from Carl Schilder, and that they were a Fort Worth made cigar. Alderman Waggoman moved that they be accepted with thanks, and Alderman Parker seconded the motion, calling attention to the fact that they were made in the Third ward. The resolution was

Objection to Signs Alderman Parker next called attention to the conditions at the city park. He stated that there was twenty-five feet of ground between the park and the boulevard which was being used for advertising purposes by private individuals, and that it broke the view from the inside of the park, and also from the outside, and he made a motion that the public grounds committee take the matter up and endeavor secure a remedy. The motion was dopted, amended that City Attorney Orrick assist the committee, and if necessary an abstract be obtained of

SHOW A SUCCESS SAYS M. SANSOM

"Begin Now for the Next Fat Stock Show"

AN AUDITORIUM NEEDED

Time for Show Likely to Be Extended So as to Cover an Entire Week in Future Exhibits

That the Fat Stock Show was a success no one who has heard the expresdoubt for an instant, All were in fine fettle and talking of the next one.

"The time to commence the work upon the next Fat Stock Show," said Marion Sansom," is not next month or the month after or any time in the future, but now-at once. "What has been accomplished this

year has only whetted the appetites of the breeders for more, and next year there will be such an enormous amount of stuff brought out that it will tax the yards to the utmost to take care of it with the present accommodations, so it becomes necessary to make other provision for the increased attendance We should go to work at once, appoint committees and make all the prelim

"We should have an auditorium with a big exhibition ring and a large seating capacity, so that our guests should be comfortable and enjoy from a vantage point the fine show that will be given them. It is only thus that the crowd can be kept out of the ring and the people have a fair view of the cat-

"The privileges that a building like this would afford would be extensive and the bidding for them would be so great that a goodly sum would be the result that would go a long way toward paying the expenses of the show. The time for the show should be extended to cover the whole week and thus give the exhibitors more time to dispose of their holdings and allow more people to see the show.

"Whether it would be good policy to charge an admission fee remains for the future to develop; that is only a letail. The main question now before the people of Fort Worth is, 'Shall we go to work at once and make ready for the next event and have everything ready on time, or wait until it is too ate to make the necessary prepara-

"The show this year was a success in every respect, both in the number of entries, the character of the stock and in the management of the show after it was ready for business. Everything moved along smoothly and without a bobble, and I am sure all the exhibitors went away satisfied with everything in so far as it appertained to the managers.

"The Fat Stock Show has come to stay, and it remains with the people of Fort Worth to make it the greatest of its kind in the union.

Denver Man Here

L. D. Sweet of Denver, vice president and general manager of the Seabury Spraying Machine Company, was among the visitors from outside the state to the Fat Stock Show last week. He was much interested in encomiums upon the character of the stock on exhibition and the methods of management that facilitated handling of the show and enabled visitor to easily find any animal he wished. together with its pedigree, etc. have been to many shows," said he, 'and have seen much good stock exhibited, but I have never seen any better stock, and for the age of the business in Texas, it is astonishing indeed. Mr. Harding, our superintendent in Texas has shown me all around, and I am much pleased with everything I have seen."

Traded for Fort Worth Property Callahan county is "out west," and any one passing through it on the train would never, looking upon it as he passes, think that it was a country of farms and ranches, of fruits and flowers. This, however, is the case, and if a visitor to the fair at Abilene in the fall will take time to investigate the exhibit of Captain French of Callahan county he will be satisfied as to the horticultural possibilities of the county, and the recent Fat Stock Show would satisfy any one that for fine

stock it was an equal of any. "I have lived out there since 1876," said Captain Huffman, "and now live in Baird. My father settled in Collin county in 1844, coming from Lexington, Ky., and followed the frontier to Callahan, then to Devil's river, and the San Angelo country, later return-

ing to Baird. "My partner and I have just traded three sections of land out in Callahan for Fort Worth real estate, and like all cowmen, we anticipate a great increase in values in your city. It seems as if every time a cowman sells a tract of land he hurries to Fort Worth and sinks it in Fort Worth dirt, as if it was the best security in the world.

A TROUBLE MAKER

Coffee Poison Breeds Variety of Ills

A California woman who didn't know for twenty years what kept her ill, writes to tell how she won back health by quitting coffee: "I am 54 years old," she says, "have used coffee all my life and for 20 years suffered from indigestion and insomnia. Life was a burden and a drag to me all the time, and about once a year my ailments got such hold upor me that I was regularly 'sick in bed' for several weeks each time.

"I was reluctant to conclude that coffee was the cause of my trouble, but I am thankful that I found out the

"Then I determined to use Postum Food Coffee exclusively-for a week at first-for I doubted my ability to do without the old kind of coffee for any length of time. I made the Postum carefully as directed and before the week expired had my reward in a perceptible increase in strength and

"Seeing the good that my short exeriment had accomplished, I resolved to continue the use of Postum Food Coffee, cutting out the old kind of coffee entirely. This I did for nine months, finding, daily, increased cause for gratification at my steadily im-proving health. My indigestion gradually left me, my sleep returned, I gained 26 pounds in weight, my color changed from sallow to a fresh, rosy hue and life became a blessing.

"Then I thought I would try the old kind of coffee again, and did so for a few weeks. The punishment for deserting my good friend, Postum, was a return of my old troubles. "That taught me wisdom, and I am now and shall be all my life hereafter using Postum Food Coffee exclusively

Will Exhibit Next Year That sterling old stockman, Bob Bailey, has been in the city the past week, and of course was around the pens of fat stock. He said:

"I have no stuff on exhibition this time, but I will be in on the market in June, and propose to bring in some stuff that will be a show within itself. I will prove it by Colonel Poole, who was out on my ranch and saw the stuff. I have twin white steers (Durhams) that are beauties. I have, in all, eighty-seven head, and all are Durham. My cattle are all doing well and grass is coming along all right. I have some 25,000 acres of good land down near Eldorado, the county seat of Schleicher county, and it is all fine agricultural land. We have had rain and everything is coming along nicely.

Harding a Feeder H. C. Harding of Amarillo, a well known stockman, was here last week.

"I am feeding 700 head of cattle at Amarillo and they are doing finely. Several carloads of calves, or rather coming yearlings, sold for \$20 recently. Good price? Well, I should say so. The last cold spell did not hurt much. We are getting along all right.'

TO FORM PRESS CLUB Meeting of Newspaper Men to Be Held

at City Hall

A meeting of the Fort Worth newspaper representatives has been called for 4 o'clock Tuesday afternoon at the city hall for the purpose of forming a press club. There are perhaps one hundred newspaper men in the city who are eligible to membership and the promoters of the movement have been canvassing the various newspaper offices, with the result that there is declared to be an unanimous demand for such organization. The purpose will be primarily to promote acquaintance among the members and contribute to their mutual enjoyment.
The club will meet monthly or semimonthly and if the strength developed is sufficient rooms will be engaged where the leading periodicals will be found on file and where the members may spend leisure hours.

BURGLAR GETS SMALL AMOUNT

The residence of Oscar Davis, 615 Louisiana avenue, a collector for the Southwestern Telephone Company, was entered Sunday night and \$1.25 stolen. While Mr. Davis is one of the oldest collectors in the employ of the com-pany it is not his custom to take money home with him and this saved what might have been a greater loss. No one was disturbed when the cash

was taken. The burglar made his entrance by breaking through a screen door and forcing open the inner door. The matter has been reported to the police, but no clews have yet been secured. Officers believe, however, that this burglary was committed by the same man who made an effort to enter other residences on Louisiana street, as reported in The Telegram Monday.
