NOTED PAINTER DEAD

Special to The Telegram.
PASADENA, Cal., July 21.—Miss
Ephemia B. Wilmarth of
Pasadena, N. Y., one of the most
noted miniature portrait painters
of the world, was found dead in
the bath room of her residence in
Pasadena this morning. Her fore-
head was crushed and she was
lying in a pool of blood. After
an investigation the coroner de-
clared that death was due to the
bursting of a blood vessel. No
inquest will be held.

WIFE SIDES WITH HUSBAND

The boy's mother when asked about
her husband's religion, said she
had no right to ask questions
about her husband's faith. The boy
is a very strange story.

REFUSERS TO GIVE UP CHAIN

When Sergeant Pegley went to arrest
the barber, who is 56 years of age, and
lead the man off to the station, the
barber refused to give up the chain.
The man offered no resistance.

Finding of Grand Jury Will Not Be
Made Public Until Monday

INDIAN ICE MEN

CINCINNATI, Ohio, July 21.—In the
matter of the grand jury's investi-
gation of the alleged ice trust five sealed
indictments were returned Saturday.
These will not be made public until
Monday. The indictments were at
once locked in the large safe in the
criminal court room and strict in-
structions given the clerk that they
were not under any circumstances to
be issued until Monday.

INDIAN ICE MEN

The ice investigation took a some-
what wide range and it is not easy to
conjecture just who have been im-
plicated. The investigation was con-
ducted along the line that the manufac-
turers naturally took the initiative in
fixing prices, but that a successfully
arranged system of advances uniform-
ly covering the trade must be done
by covering the trade with the dealers
and delivery men. The inquiry was begun
two weeks ago on complaints growing
out of the uniform rise in prices early
in the summer.

Rumor That Plaintiff in Suit
Committed Suicide Proves
to Be Untrue

WIFE INNOCENT

Report Proves Untrue.

WIFE INNOCENT

For a time this report spread like
wildfire and at every place it was
sprung every person said they were
glad to hear of it. But Hartje did not
commit suicide and he says he is not
even thinking of ending his life. The
third feature was that Mrs. Hartje col-
lapsed when she saw the time when the
famous trial began, when she was
told that she must watch her children
closely, because efforts would likely be
made to kidnap them.

WIFE INNOCENT

Hooe Bribed to Lie.

WIFE INNOCENT

The Hooe statement, which comes
from the district attorney's office, is
most startling in its details. Hooe says
that he was working for a man and
that Welshons sent for him and asked
him if he wanted a job. He said that
he did not want a job, but that he
would like to be a brother and finally
told him that if he would make certain
statements regarding the conduct of
Mrs. Hartje he would be given a
landed contract from Hooe. Hooe
declares that he was encouraged and
aided in getting together his lie by
Welshons, who is now also shunned
by the business association.

WIFE INNOCENT

Husband Pleas with Charge.

WIFE INNOCENT

The remarkable part of a lengthy
document in its details. Hooe says
that he was working for a man and
that Welshons sent for him and asked
him if he wanted a job. He said that
he did not want a job, but that he
would like to be a brother and finally
told him that if he would make certain
statements regarding the conduct of
Mrs. Hartje he would be given a
landed contract from Hooe. Hooe
declares that he was encouraged and
aided in getting together his lie by
Welshons, who is now also shunned
by the business association.

WIFE INNOCENT

When I arrived in London I found
Mrs. Nesbitt-Holman alone and al-
most penniless. She was ill. She
told me that Thaw and her daughter
had left her and were somewhere on
the continent. She was very bitter
against Thaw. After she got well
enough I brought her to New York.
Mrs. Nesbitt-Holman can thank Stan-
ford White for the means which en-
abled her to come to New York.

WIFE INNOCENT

Thaw Tells Much of Life

WIFE INNOCENT

Mr. Hartridge is convinced that Mrs.
Simon knows a great deal about the
life of Stanford White which will
be of importance in a trial by jury.
Mrs. Nesbitt-Holman has determined
to make a bitter fight, both to escape
the electric chair and the mad house,
and he has given many side lights and
direct evidence of happenings prior
to the tragedy to Hartridge, which he
withheld from Otcott when he learned
that his defense would be emotional
insanity.

HAUNTED HOUSE MURDER MYSTERY

New York Police Baffled by Remarkable Crime

Special to The Telegram. NEW YORK, July 21.—Never have the police of this city had to deal with a more complex and baffling murder mystery than in the case of Mrs. Alice C. D. Kinnan, who was knocked lifeless with a blow upon the head by

MRS. KINNAN, THE MURDERED WOMAN.

LAWYER GIBSON, WHO WAS ARRESTED AND THEN RELEASED.

was dead on the night of June 8. Mrs. Stenton has been a woman of considerable wealth. Of late her property has been heavily involved, because of neglect. She and her daughter lived in an old mansion, once the resting place of General George Washington, across the Harlem river. They were known as misers and the neighbors called the decaying old house "the haunted mansion."

20,850 Yards Embroidery AT HALF PRICE AND LESS

An importer, before going to Europe in search of fresh novelties, closed out to us all his remaining stock and sample pieces at such a low figure that we can offer our patrons values that pass all precedent. This Embroidery department, always noted for its superior values and beautiful styles, never had such an opportunity to distinguish itself, and you may make certain that we have taken full advantage of the opportunity. There are 20,850 yards of finest quality Embroideries in the purchase, embracing the choicest and most desirable styles shown this season; in fact, we have had the identical patterns in our regular stock earlier in the season; in a word, they are the same Embroideries for which we would be compelled to ask, and you would be compelled to pay regular price, but for this fortunate trade turn. They are divided into four lots and you are to pay only one-half and less than one-half for the many thousand yards.

Selling 19c, 29c, 39c and 49c Yard--Worth 35c, 50c, 75c and \$1.00 Yard

The Second Week of the Surpassing Sale of Women's Washable Suits!

Elegance of materials and elegance of style characterize all the ready-to-wear stock in this store. Prices from the start of the season were exceedingly fair; the Rebuilding Sale brought prices down many degrees, and now that the time is drawing near to the general tear-up and removal of departments and summer is passing, we have given the washable Suits and Waists a grand cut that crowded the department every day last week.

Wash Suits at Half the Former Price

Here in the middle of July—think of it! Why, you have good three months to wear these garments—from the \$5.00 grade to the \$75.00 values—garments that you will see daily at the fashionable resorts. Come this week. The few items appended below convey a slight idea of the values here this week.

WILL HAVE A NEW CHEMICAL ENGINE

North Fort Worth Council to Pass Finally on Matter

Edward Smitz of Denton, Texas, who is Texas agent for the Chicago Fire Engine company of Chicago, Ill., was in North Fort Worth Friday night for a conference with the council fire committee and Chief John Buckland of the department, regarding types and prices of fire wagons, one of which it is pretty certain will be added to the department, replacing the old chemical engine which has been pronounced unsafe by the chief. Mr. Smitz came to this city by request of the fire committee. The committee has acted in pursuance of instructions from the council at its last meeting, which instructions were that the fire committee shall obtain prices of a combination hose wagon and chemical engine and report same at the next regular meeting of the council.

ROOSEVELT RUSTICATES IN RURAL RETIREMENT

Early to Bed and Early to Rise for President

ARTISTS HUNTED

It's "23" for Staff Correspondents Caught Poaching on Presidential Preserves

BY MARLEN E. BOW.

Special to The Telegram.

OYSTER BAY, N. Y., July 21.—President Roosevelt is settled down in his country home on "the hill" for the first actual rest he enjoyed in five years. It is to continue for three months.

A high stone wall has been erected between the Long Island railroad station here and Sagamore Hill and secret service men, under direction of Secretary Loeb, hold the key to the only gate. All sorts of gentlemen, crank or crankless, great or little, find it hard to get past. Artists and camera men for newspapers have to run for their lives.

The President's day begins early. He may be seen on the veranda of his home at 5:30 a. m. almost any day, breathing deep the soft, cool air from the sea.

It is one of the principal sights of the town to witness the change of the Roosevelt youngsters, in miniature rough rider costumes, through the quiet streets. Quentin rides like his father, giving the mount a good scatter and the sand dust as he flies.

Secretary Loeb arrives at Sagamore Hill at 11 o'clock with the President's staff and the New York morning papers. The secretary has become an expert horseman within two years. He has a new horse from North Carolina, "Skook," the horse that Captain Seth Bullock presented to Loeb, went daffy and was retired after he had thrown the President's secretary twice while in the throes of insane fits. Loeb carried the mail in large saddle ponies.

If there are no visitors to luncheon the President rattles through his correspondence in less than two hours, and he goes to rest. His farm runs to the bay, the swimming beach being about 15 minutes' walk from the house.

No curious eyes are permitted to peer upon the chief executive when in striped bathing suit he plunges into the deep. The signal is a heavy breaker dashed upon the opposite shore. The hot sun serves to put a red tan upon the countenance of the chief executive in less than a week.

Cherry pie is the dainty morsel just now in favor at Sagamore Hill. The President has it hot at noontime and cold in the evening.

The hot afternoon is spent in reading and writing at the broad library table on the veranda.

In the rear of the house the President is helping his farm hands to harvest a bumper crop of oysters. The hay has not yet been taken in. He expects to take in from three to three and a half tons of timothy from his hillside meadow.

Mrs. Roosevelt is busy in the afternoon with her large flower garden, and she has called upon the President frequently to assist her in the heavy work.

Enough garden produce is cultivated in the place to meet the requirements of the household for the summer. To the west of the house the President has cut down several trees which are crowded upon the private road. Gypsy moths are whirling hundreds of trees in and about the place. Only a few of the trees, however, have been attacked, however.

The evening meal brings the family together again. The President frequently reads the papers in the evening. The mosquitoes are coming in droves this year, and folks keep indoors after the sun goes down, well protected by netting.

At eight o'clock at night finds Sagamore Hill slumbering.

the sound. After a brisk turn about the grounds a chapter from a library book will engage him until the children begin flocking from their beds, eager for breakfast and a day of rollicking fun. As a rule the first meal is served to the President's family together.

A game of tennis usually follows the morning meal. While the President enjoys the action of this game he is no expert and is frequently out-buffed by his public secret service men are regular spectators and it is their opinion that President Roosevelt

It took ten long scrappy, hard fought innings for Cleburne to beat the Panthers yesterday, but when the smoke had cleared away, about the middle of that inning, the Sheltonites came out with the game. Criss was doing the hard laboring for the Cleburne team and he went home, too, as he only allowed three hits. He was a little offside on control at times, but he put up a great game nevertheless.

SPRINKLING PAYS

Report Shows Balance of \$150 in City's Favor—Sale of Sprinklers Goes Over

The city council met in adjourned session Saturday evening and rushed business as fast as it could. Complaint was made of the heat and none of the aldermen was disposed to daily.

The report of the police committee was received in silence and after its reading was finished, the motion to adopt was made and carried without dissent.

A vast lot of routine business was disposed of and many matters referred to the proper committees, which will afford a big lot of work for the next session of the council if all are reported on.

An earnest defense of the policeman, whose lot is not a happy one, was made by Alderman Mack. He objected to the too common habit of condemning the officer no matter what he had done or had not done. The occasion was the formal notice of a claim for damages, because of injuries alleged to have been inflicted by an officer in making an arrest.

He said that the officer who did his duty was the unpopular one and it was a fact that if an officer went down Main street to remove women from the flats, where they should not be, or went down Rusk street to clean out the "shacks," you would find the business men complaining about him, for they were the ones who made the money out of the rentals.

The need for a place to keep the prisoners who had been convicted and who were working out fines was emphasized and the city engineer is to draw plans for a temporary city jail structure at the old water works, and report to the city council.

Sidewalk Obstruction Referred.

The Fuller case in the corporation court, which prompted the city judge to hold the section of the ordinances relating to sidewalk obstructions unconstitutional, was referred to the city council, where the city engineer is to draft a section which should be unconstitutional. The intention of the city council is to amend the ordinance so that it will be in line with the city charter and the city engineer is to draft a section which should be unconstitutional.

Warrants Ordered.

A warrant was ordered for the payment of the interest on the water works bonds, \$18,364.95, exchange included. Claims to the amount of \$19,445.10 were also ordered to be paid for the water works being the principle amount.

The city marshal asked for twenty-five more bedsteads to replace those lost at an estimated cost of \$125 each and new hose to replace the worn out hose used about the police department. Referred.

Political Debate On.

Daahiel and Skinner Will Meet Before Citizens of Italy.

Special to The Telegram.

ITALY, Texas, July 21.—An interesting political debate is expected here Monday evening at the residence of Judge Daahiel, representing Tom Campbell, and State Senator S. P. Skinner, representing Judge Brooks. The judge will also debate at Maypearl Tuesday with J. M. Alderdice, representing Brooks. Politics is warm in this section now and as only one more week remains in which the candidates may canvass, there is an unusual amount of the time to win voters. Judge Bell has some good workers in this field and they are canvassing in a quiet manner, but winning many votes.

Saloon Fight Fatal.

Juror Kills Man He Helped to Convict Fifteen Years Ago.

Special to The Telegram.

TEXARKANA, Texas, July 21.—N. Odum this afternoon shot and instantly killed Boss Barfield at New Bowen, the county seat of Bowie county. Fifteen years ago Barfield was convicted of killing Dr. Robert Lee, a prominent young physician, at Red Water, and was given a penitentiary term of twenty years, and served out twelve years when he was pardoned.

Odum in Jail.

Odum was a juror in the trial and is said to have been threatened by Barfield. The two met yesterday at Barfield's saloon, and served out five shots, four taking effect, while Odum fled. He was arrested and taken to the jail awaiting trial.

Tragedy.

"No, George, I can never, never be your wife."

Despair written upon his every feature, George W. Moran, a sleek, handsome man, was shouting, "Yes, yes, yes!"

"Then," he muttered hoarsely, "there must be one thing left for me to do. I must die."

George was in the back yard he stabbed himself with a can of corned beef—Hilwaukee Sentinel.

DAVIS AND ROY DEBATE

Principal Interest of Crowd Shown in the Race for County Attorney.

Carrie Nation Rival

When Mayor W. H. Davis of North Fort Worth and Assistant County Attorney Bob Roy went to Arlington Saturday afternoon to discuss the anti-trust suits in connection with the race for county attorney, they did not know that Carrie Nation was billed for a speech at Arlington Saturday afternoon. Carrie was on deck at 9 or 10 o'clock and she collected on the streets to hear her could not be told by combined eloquence of W. H. Davis, Bob Alexander of Weatherford and Judge Cockrell of Dallas, who spoke at the big shed in the rear of the church.

The meeting was a double-cross deal, for Judge Cockrell, who is a proponent of the anti-trust suits, was in Dallas in favor of prohibition, Carrie pulverizing the anti-trust suits, and Judge Alexander pulverized it in behalf of Judge Brooks, candidate for governor, at the big shed; while Judge Alexander, who is a proponent of the anti-trust suits, was in Dallas in favor of prohibition, Carrie pulverizing the anti-trust suits, and Judge Alexander pulverized it in behalf of Judge Brooks, candidate for governor, at the big shed; while Judge Alexander, who is a proponent of the anti-trust suits, was in Dallas in favor of prohibition, Carrie pulverizing the anti-trust suits, and Judge Alexander pulverized it in behalf of Judge Brooks, candidate for governor, at the big shed.

TWO MEN SLAIN POSSE ON HUNT

Murderers Shoot Down Victims and Make Escape

LYNCHING FEARED

Troops Hurried to Wyoming

Town to Prevent Mob From Wreaking Vengeance

Special to The Telegram.

SHOSHONE, Wyo., July 21.—Last night, shortly before 12 o'clock, Warner Moody, a prominent attorney, and George D. Anderson were shot by unknown assassins and both died shortly after. The murders caused intense excitement here and should the guilty men be caught not even the presence of United States and state troops can save them from the vengeance of the outraged populace and the hundreds of homesickers who congregated here.

Bloodhounds on Trail

Efforts today were made to follow the trail of the murderers with bloodhounds, but the heat is so intense that the dogs played out after going a few miles and their use was abandoned for a time. Later they were again put on the trail and are now following the tracks of one man in an easterly direction. Although he has twelve hours start, it is believed that this man will certainly be overtaken before morning. Two other men implicated in the murders are believed to have fled about the town and to have come back to the settlement in the direction opposite to that which they took in leaving.

No Clue to Murderers

They are probably here now, but no clue to their identity exists and the authorities are powerless to locate them. Anticipating a lynching should the murderers be caught, Governor Brooks ordered the militia and a petition has also been made to the United States government for troops. Major Quarles has troops now guarding the boundary to the Shoshone reservation.

Moody was shot a few minutes before midnight, while going to his residence in the outskirts of the town. Anderson heard the shot and ran to make an investigation. As he emerged from his tent he was shot through the shoulder and his wound was not at first considered serious, but he died today. Moody died a few minutes after he was shot.

Woman Saw Shooting

A woman who was looking from a window saw the flash of the shot that killed Moody and claims that there were three men implicated in the murder. Two of them ran in one direction and the third in the opposite direction. The third man, whom Anderson shot, was mistaken for Moody and returned. The third man made a circle two miles to the north of the town and headed east.

Murder Theories Advanced

There are three theories advanced as to the motive of the murder of Moody. First, that he was killed by some of the sure-thing gamblers in whose run the town is pursuing. Tracks for this morning show that the first two men circled the town at a distance of about a mile and returned. The third man made a circle two miles to the north of the town and headed east.

BEAUTIFUL BELMONT TERRACE

New Quality Hill

The Ideal Location for Homes

There is no exaggeration in the statement that Belmont Terrace is one of the most attractive residence sections which has yet attracted attention to citizens of Fort Worth. This addition lies just northwest of Marine, being bounded on the west by the Trinity, and occupies one of the most elevated locations in Tarrant county, overlooking Rosen Heights, Arlington Heights, all Fort Worth and North Fort Worth and all of the country to the west as far as the eye can see. It is one of the most scenic locations to be found in the entire boundaries of Tarrant county. Its shape is rectangular, having its greatest length extending north and south. Grand avenue, the main thoroughfare, is a beautiful street, graded and graveled, and is bordered on either side by a fine, wide concrete walk, which extends the entire length of the terrace. Another concrete walk extends east from Grand avenue to the Northern Texas Traction company's street car line, thus giving every family living in this attractive addition all the advantages of the traction company's entire system. SEVEN MEN FIGHT WITH BIG SHARK

Man-eater Killed After Fifteen Minutes' Battle

Special to The Telegram.
PENSACOLA, Fla., July 21.—The largest man-eating shark ever known to have been caught in Pensacola Bay, was landed last night at Muscogee wharf, being hooked by Leo Hanzell of San Antonio, Texas. It measured fourteen feet.

For several nights shark parties have been going to that point to fish and in each case their big lines would be snapped with ease by some monster.

Battle Fifteen Minutes
Hanzell equipped himself with an immense hook and a rope and proceeded to fish from the wharf in about fifteen feet of water. Suddenly there was a snub of the rope through the water and the piling to which it was

led was jarred. It took seven men to land the shark, after a fight of fifteen minutes. It was killed and the jaws and backbone saved as curiosities.

Man-eating sharks are now very common in the lower portion of the bay and it is considered very dangerous to bathe unless in a covered bath house.

PIG IRON ACTIVE

Buyers Hold Off for Better Prices Forced to Secure Supplies
Special to The Telegram.
NEW YORK, July 21.—The pig iron certificate market today was inactive, but prices were fairly steady with little disposition to sell. The iron situation continues firm and especially for spot and it is apparent that buyers have held off in the expectation of lower values and are now forced to procure supplies and this is causing the increased activity.

There is still a disposition to limit orders to prompt delivery, however, and the trade is apparently still expecting a decline in the fall and winter months.

SUITS FOR CATTLEMEN

Action Is Soon to Be Filed Against Ranchers in Nebraska
Special to The Telegram.
OMAHA, Neb., July 21.—Several civil suits soon will be filed in the United States circuit court against a number of cattle and ranchmen in Thomas, Sheridan and Cheyenne counties, requiring them to show cause why they have not removed certain fences which are

alleged to enclose public lands. The suits will be filed upon the return of Special District Attorney Rush from his vacation trip to Wyoming. These suits are similar in character to the civil suits filed in previous cases pertaining that the defendants shall show cause why the fences have not been removed and enclosing them from maintaining such fences and for contempt in not carrying out the order of court requiring such removal.

Cold Fruit Soups

Peach Puree.—Press canned or fresh peaches through a sieve, measure, and to each pint allow a pint of water, the juice of a lemon and a half-teaspoonful of bitter almond. Bring to the boiling point, and thicken with a teaspoonful of arrow root moistened in a half-cupful of cold water. Stir until smooth and thickened, then set aside to cool. When ready to serve pour into tumblers and fill with cracked ice, or put in small bowls set in saucers of ice and send to the table.

Apple Soup.—Strain through a sieve enough steved apples to make a cupful. Mix a teaspoonful of corn starch with enough cold water to stir smooth, and pour into three cups of boiling water. Stir until thick and clear, add the sauce, season with salt and cinnamon or nutmeg, sweeten if desired, and serve cold with croutons or cheese fingers.

Lemon Soup—Make a strong, hot

lemonade; thicken slightly with corn-starch or arrow root and serve very cool with a bit of preserved ginger or a cherry in each glass. Orange soup is made in the same way. Also pineapple, grape, cherry, currant and currant and red raspberry.

Blackberry Soup.—Stew the berries in plenty of water, and, when tender, strain through a puree sieve. Thicken slightly with flour, sweeten to taste, and flavor with nutmeg. Serve with zwieback.

Swedish Soup.—Take equal quantities prunes and raisins and cook very slowly in plenty of water until tender. Strain and sweeten. Cook sage until clear; mix with the hot fruit and juice and chill before serving.

Bread Soup.—This is a favorite German sweet soup that is eaten hot in winter and cold in summer. To make it, take stale crusts of rye bread and put to cook with plenty of water to cover them. When soft, strain and put the liquid back over the fire with a little butter, a handful of dried currants, sugar to taste, a piece of stick cinnamon and a sprinkle of salt. A little vinegar or lemon juice is often added. The soup should be but slightly thickened, not so much as porridge. Judgment is to be used in the amount of bread and water used. The stick cinnamon may be removed after cooking a few minutes.

"SILVER LAKE" BLOCKS

LEST YOU FORGET

We want to jog your memory before it's too late. While the sale of blocks in SILVER LAKE addition has been far beyond our most sanguine expectations, we want to dispose of the entire tract within sixty days, and if the sale keeps up to the record established during the past week, they will all be gone before the allotted time. Remember the location—directly south of the courthouse, just outside of the city limits, and north of the Bolt Factory. Car line? Sure, and the best in the city—Hemphill car line, only two blocks, giving a fifteen-minute service. The property which we are offering to investors, either for homes or speculation, is the very best offered anywhere, as it is in blocks, and in each block are six city lots. If you will let us, we can show you where to put your money where it will grow at least one hundred per cent in less than one year.

OUR DAILY SHORT STORY

TOLD BY THE OLD PHYSICIAN (The Doctor's Bottle and the Man With the Grip). The most philosophic and humorous patients that I have ever met have been those of Hibernian ancestry.

for I know I'd be uncomfortable without it. "Well, doctor," he said, "let's take no chances for the once." "All right," said I, and I ordered the nurse to bring the ammunition.

Finest Cut Glass Brilliantly Cleaned With MULE-TEAM BORAX 20-Mule-Team pure Borax also cleanses Glassware, Earthenware, all Table Linen, Cutlery, Silverware, Pewter; in fact Everything for the Table, and cleans them Cheaply, Thoroughly and Quickly.

In some of the dining rooms the walls and the entire woodwork are in white, as is also the panels and furniture, while the floors are polished.—What to Eat.

It is always in the sleeve of a gown that any change in the fashion is first detected, and it here that interest centers. The three-quarter sleeves is the favorite of the moment, and is seen on blouses, fitted bodices and coats.

Line Hints When hanging your linen to dry, use two lines comparatively close and parallel for your tablecloths and sheets.

HOW TO BROIL Broiling means to burn or sear and is applied to the above class of food in broiling, in which the food is brought into direct contact with the fire, burning being avoided by frequent turning.

To Stain Wood Floor To stain a wood floor a dark brown mix together two ounces of potash crystals and one pint of boiling water; apply this to the floor, the way of the grain, with a pad made of flannel fastened to a stick or old broom handle.

Du Barry Salad Tomato salad, Du Barry style, is particularly appropriate for hot summer days. Peel a tomato for each person to be served. Cut out a piece around the stem of each and scoop out a portion of the pulp, sprinkle inside with salt and set upside down in the refrigerator.

To Mend Glass Clear glass is the most difficult to mend, because it must be done so expertly to prevent the crack from showing. The best kind of glue for clear glass is made from a solution of two ounces of isinglass and a half pint of gin poured into an open-mouth bottle and set in the sun until it dissolves.

BROILED STEAK Trim off any excess of fat and wipe with a flannel cloth. Rub the broiler with a bit of fat. Arrange the steak with the fat toward the back of the broiler. At first hold close to the coals. Turn every ten seconds until both sides are seared.

BROILED CHICKEN Singe, split down the back, clean and wipe with a damp cloth. Rub inside and out with a little butter, then sprinkle with salt and pepper. Arrange on a greased wire broiler. Cook with flesh side toward the fire at first.

BE CAREFUL WHAT YOU SAY In speaking of a person's faults, "I'm afraid he is really a good fellow," remember those with homes of glass. Should seldom throw a stone; if we have nothing else to do.

For the Picnic Basket There are several styles of picnic hampers in the market but it is really better to use stout paper boxes which can be made by the housewife.

A FACT ABOUT THE "BLUES" What is known as the "Blues" is seldom occasioned by actual existing external conditions, but in the great majority of cases by a disordered liver.

They control and regulate the LIVER. They bring hope and buoyancy to the mind. They bring health and elasticity to the body. TAKE NO SUBSTITUTE.

NEW RAILROAD FOR FORT WORTH
There is talk of more railroad building with Fort Worth as an objective point, as it is just as natural for new roads to seek this city as it is for a duck to take to water.

TOUGH AS SHEEPSKIN
Some brides take the marriage state seriously, and little Mrs. Nixon is of the order. She was not a good cook, and she knew it, but after marriage she took lessons in a cooking class to such good effect that in due course she carried off a diploma.

FRUIT

Orchard Lands of Long Ago
The orchard lands of long ago!
O dewy winds, awake and blow
The snowy blossoms back to me,
And all the buds that used to be!
Blow back again the grassy ways,
O trumpet feet, and lift the haze
Of happy summer from the trees
That trail their tresses in the seas
Of grain that float and overflow
The orchard lands of long ago!
Blow back the melody that slips
In lazy laughter from the lips
That marvel must that any kiss
Is sweeter than the apple is,
Blow back the twitter of the birds,
The lisp, the thrills, and all the words
Of merriment that found the shine
Of summer time a glorious wine,
That drenched the leaves that love it so
In orchard lands of long ago!
O memory! Alight and sing
Where rosy bellied pippins cling,
And golden russets glint and gleam
As in the old Arabian dream—
The fruits of that enchanted tree
The glad Aladdin robbed for me!
And drowsy winds, awake and fan
My blood as when it overran
A heart ripe as the apples grow,
In orchard lands of long ago!

KING OF ALL LINIMENTS
CURES RHEUMATISM AND ALL PAIN

BALLARD'S SNOW LINIMENT

READ THIS REMARKABLE CURE

"I was much afflicted with rheumatism, writes Ed. C. Nud, Iowaville, Sedgewick Co., Kansas. "I was induced to try Ballard's Snow Liniment, which cured me, after using three 50c bottles. IT IS THE GREATEST LINIMENT I EVER USED; have recommended it to a number of persons, all express themselves as being benefited by it. It now enables me to walk without crutches, and am able to perform a great deal of light labor on the farm."

BELL'S STRENGTH GROWS FAST IN WESTERN TEXAS

Fair-minded Voters in Line for Fair Man

BURNET FOR BELL

Unfair Methods Disgust People Looking for "Square Deal"—Change Is Quick

With just one more week in which to work, the candidates for various offices over the state are going at a pace that is indicative of "The Strenuous Age" and especially in this true of the middle of the year of governor. As the date of the democratic primaries approaches interest in this race increases to a degree of intensity not exceeded in Texas since the year that George Clark and James S. Hogg made their memorable sprint and Hogg won. The features of the past week in political circles has been the light that is gradually dawning on the men who oppose Judge C. K. Bell of Fort Worth, showing them in no uncertain terms just how the lined lay over the state and that the people of Texas will not stand for subterfuge, will not accept chicanery, are not prepared to swallow political schemes, nor have flagrant misrepresentations crammed down their throats.

Bell is in the lead, he is there to win, and Messrs. Brooks, Campbell and Colquhoun, and every other man of them, equally aware of that fact, though Campbell's friends say he will win easily. The tactics now being employed point to a trial for information in which it will be evident to the people of Texas that the slogan of the opposition will be "Anything to defeat Bell." This will be what will be attempted, unless the majority is so overwhelming as to make the vote for all other candidates properly belong in the "scattering" column.

That great changes have been made in certain sections within the last ten days cannot be denied, and while all praise is due to the solidly attached and enthusiastic followers, a conservative estimate shows conclusively that Judge Bell is not only still far in the lead, but he is also in the lead of all his opponents from every quarter. The people of southwest and west Texas are patriotic, whole-souled and fair in all their dealings in business affairs, social association and in politics. They are broad-minded, form their opinions from their own ideas, information and convictions and are not easily swayed from an opinion once formed. But above all, they believe in fairness and resent with no uncertain words of condemnation any attempt to do a man an unwarranted injustice.

Change Is Sweeping
This being the case, the recent exposures of the combinations to defeat Judge Bell for the simple and only reason that he was in the lead of all of his opponents, instead of bringing additional support to the other candidates, has caused a general change from every quarter to the Bell column.

The recent exposures also of the false positions of some of the other candidates, brought about the general reason of their own laudatory remarks, and for which Judge Bell was in no wise responsible, has disgusted many of their supporters and they are now turning to Judge Bell whose entire course throughout the campaign from the beginning has marked him as the high-minded, intellectual and pure leader of the people. It is now known him to be since his first appearance in a public position where he was elevated by the people who knew him best, and where he has been so successful in his career, that whenever he appealed for their suffrage.

Jenkins Praises Bell
Special to The Telegram.
WYOMING, Texas, July 21.—The recent utterances of C. H. Jenkins, who made the race against Judge Bell for congress, wherein he gives to Judge Bell his indorsement in words of praise such as few men ever enjoy from their opponents, has been of inestimable benefit to Judge Bell's candidacy all over this country. Mr. Jenkins is a well known and respected citizen, especially in this section, and the people here know him to be a man who loves the great masses of our people and whose life has been spent in an honest effort to better their conditions.

Being engaged in farming himself and a member of the "Cotton Growers' Association," he has always been identified prominently with the interests of Texas farmers and they respect his judgment and advice, and no one can doubt that his recent utterances in favor of Judge Bell's candidacy, the high tribute paid him as a man and the excellence and purity of his character, will be greatly reduced to his benefit, not only here, but all over this portion of the state.

This evident change to Judge Bell's support is gratifying to his friends everywhere and he is so far in the lead and gaining ground every day that his nomination is believed by his friends here to be assured.

Bell Strong in Pecos
Special to The Telegram.
PECOS, Texas, July 21.—The present week has brought out a full discussion of politics, and the governor's race has received the most attention. Judge Bell of Fort Worth continues in the lead, and the late public discussions have caused a general flocking to his standard. He is the candidate of all this section, and traveling men bring the same news all along the line from Fort Worth to El Paso. The country to the south-west is unanimously for him.

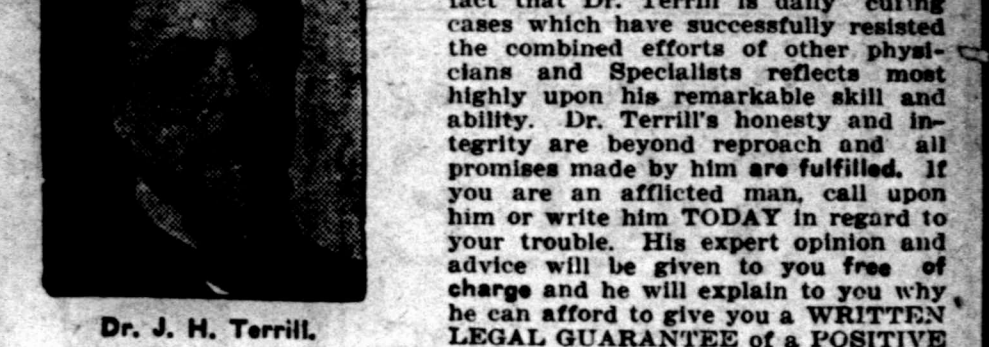

Many people in this portion of the state know Judge Bell personally, and they all, without exception, testify to his high standing as a man and to his honesty as an officer throughout his entire public career.

It is gratifying to his friends to know that his gains throughout the state continue without interruption.

Cyclone Davis Attacks Brooks
Special to The Telegram.
SULPHUR SPRINGS, Texas, July 21.—At the Old Settlers' reunion before an audience estimated at 5,000 people, W. E. O'Raddock represented Hon. C. K. Bell, and his speech was favorably received.

The feature of the day was the speech of J. H. ("Cyclone") Davis in the advocacy of Hon. Thomas M. Campbell, in which he devoted the larger part in denunciation of Judge M. M. Brooks, attacking his prohibition record, accusing him of insincerity, saying that Judge Brooks "unscrubbed one thing and did another;

EDUCATED MEN TO THE FRONT
Never before was the call for trained men so loud as now. They are in demand everywhere. Not only in the professions, but in the business houses, manufacturing establishments, and even on the farm, they are in great demand. The farmer who understands chemistry, who is able to analyze the forces of nature, to mix brains with his soil, will be the great farmer of the future. There is an increased demand everywhere for college educated men. We find them occupying the best positions in our insurance, banking, manufacturing, and transportation institutions. Never before was the call for liberally educated men and women so great as today, and the market for brains and education is constantly widening. Management of a large manufacturing or business institution says that his firm will not accept anything but college men, or at least men trained in polytechnic schools. If it can possibly avoid it, he will employ men whose ultimate success is much greater than that of men not educated at college, and that they are able to adapt themselves to all surroundings, and to meet new conditions better than men with a limited education.—Texas Farmer.

READ THIS AND REASON FOR YOURSELF

We are conservative when we tell you frankly that it is a business proposition of merit for home sites, builders and investment. It fulfills every hope of the home builder, and is easily one of the most pleasant places for a home that is in reality "home, sweet home," to be found anywhere in the Southwest. Values are absolutely certain to rapidly enhance, because Arlington Heights is one of the prettiest pieces of sub-division property ever yet offered in Fort Worth. We conscientiously tell you that the property is certainly as desirable as any in Fort Worth. Now, the twenty-five thousand dollar home of The Fort Worth Country Club, which magnificent structure is about the center of the 700-acre suburb, is the same distance from the center of Fort Worth as other localities, where lots of the same dimensions—50x125 feet—are commanding much higher prices. The intrinsic value of the property is there to justify such prices. When we tell you, therefore, that we are placing our lots—50x125 feet—upon the market at from \$100 to \$300 per lot—\$10 payable in cash and \$10 payable monthly—no taxes or interest to begin to accrue until final payment shall have been made—can you fail to be attracted by the proposition? One of the best, largest and altogether most accurate and conservative newspapers in the Southland reportorially said of Arlington Heights: "Picturesquely situated just to the west of the Panther City, stretches one of the prettiest and altogether most aristocratic suburbs in the entire Southwest. Located upon a hill, at an elevation of more than one hundred and fifty feet above that of Fort Worth, Arlington Heights commands a magnificent view of the entire city. Indeed, Arlington Heights affords the ideal home site because the climate is superb, the elevation high and because the resident may enjoy every advantage of city and suburban life. Electric lighted, with an ample water supply, only a twenty-minute ride from the center of the city, there is every reason that Arlington Heights property should rapidly enhance in value. Already this healthful and aristocratic suburb is dotted with palatial homes that would do justice to any city anywhere. Some of these residences cost as much as \$15,000, \$18,000, \$20,000 and \$25,000. The Fort Worth Country Club has a \$25,000 home, elegantly situated just across from the new of-

fices of the Arlington Heights Realty Company, the latter costing \$4,600. The visitor is at once struck with the natural beauty of the place; the wide, spacious, graded streets, the delightful breezes, the handsome homes, the picturesque view and the unsurpassed surroundings of the Heights." All of the lots are nice, large, deep and well drained, magnificently located at an elevation of one hundred and fifty feet above the level of Fort Worth. The Arlington Heights Traction Company is putting in effect a ten-minute service, the ride requires only twenty minutes, is a delightful one, and there is but one railroad track crossed from the city hall to Arlington Heights. The entire ideal and aristocratic suburb of 700 acres extends over as pretty a tract as can be found in the Southwest, and we do not make an exception. Its spacious, wide, elegant, graded streets, its splendid waterworks, its excellent electric light service, its many conveniences, accessibility, natural beauty and healthfulness, its proximity to schools, stores and churches, and its park attractions, present in the entirety the ideal combination of city and suburban life. Besides, it is just west of the city. Picture to yourself, for just a moment, the cities in the Southwest, with which you are familiar. Doesn't, in almost every instance, the aristocratic, ideal and most desirable residence section lie to the westward? Now, be honest with yourself and think this proposition over. Fort Worth is really just building in that direction. See for yourself the palatial homes at Arlington Heights. Think of it! Lots 50x125 feet, selling at from \$100 to \$300 per lot. We are confidently sure that values will necessarily double within fifteen to twenty-four months. It is THE investment of investments. And, the beauty of it is that your property will rapidly enhance all the while you are making payments on the easiest of easy terms. It is the gem of Fort Worth. It is an unparalleled opportunity. Now is the time to buy. You are welcome. See us in our new home just opposite the Country Club. We want to talk it over with you and show you the property; it is no trouble to do so, and you do not obligate yourself by inquiring. To even approximately appreciate this pretty property you must see it for yourself. Please take the ride.

THE TELEGRAM'S DAILY NEW YORK STOCKS

Trading Confined to Few High-Class Stocks, but Market Has Good Tone

Special to The Telegram. NEW YORK, July 21.—As week-end sessions of the stock exchange go, today's was a fair sample. Although the volume of business transacted during the two hours was perhaps a little above the recent average for a half session, the activity noted was insignificant as compared with the animation which pervaded the market yesterday, trading being confined principally to a few issues among the lower class of securities, rails being given the preference. However, the general list had a good undertone and all received fair support whenever there was an attempt to drive prices lower.

Special to The Telegram. NEW YORK, July 21.—The cotton market started the day with prices a little lower, a decline on the other side of the water being responsible for an initial slump of 1 to 3 points, but although the loss was increased during the first hour to a matter of 4 to 6 points under some scattered long liquidation which was caused by the more favorable weather conditions, as reflected by a map showing generally partly cloudy and clearing weather for the belt, there was little more than a receding of the shorts and the shorts among the scalping crowd took advantage of the decline to even up their commitments for the holiday, resulting in a complete recovery and a steady close, with prices unchanged for new crop options and a point higher for July and August.

Special to The Telegram. NEW ORLEANS, July 21.—A very dull Saturday session was furnished the traders at the cotton exchange today. The poor showing of the Liverpool market caused a decline of 1 to 2 points at the start and following the call scalpers sold, sending prices off an additional 2 to 4 points.

THE FORT WORTH TELEGRAM'S DAILY CHICAGO GRAIN, CATTLE AND HOGS VIEWS ON THE MARKET

Wheat Surplus Will Be 400,000,000 Says Jones—Prices Tumble on Prediction

Special to The Telegram. CHICAGO, Ill., July 21.—Sentiment in all of the local grain pits was almost wholly bullish today as the close of business found prices for all commodities lower, wheat leading the decline with a loss of a full cent, while corn lost 1/2 cent and oats about the same. Wheat sold 1/2 to 3/4 cent higher on the first call, owing to some covering orders which had accumulated overnight, and during the first few minutes the advance was increased to 3/4 cent on December, but crop news was almost wholly bearish and the crowd soon turned sellers, operations on the short side being increased upon the receipt of a very bearish report from Jones of Minneapolis, who said that the north-west would raise the largest crop of wheat on record, and that the United States would have a surplus of 300,000,000 bushels and Canada 100,000,000, making a total of 400,000,000 bushels for export, as a matter of course this accelerated the decline.

MRS. THAW WOULD DIE AT THIRTY

"Long Enough to Live," Told Most Intimate Friend

Special to The Telegram.

PITTSBURG, Pa., July 21.—"I want to die when I reach 30. That is long enough for anyone to want to live."

So said Mrs. Harry K. Thaw to her music teacher and most intimate friend here, Mrs. Luigi von Kunits, just before Harry Thaw and his wife went to New York, preceding the Madison Square arden tragedy.

When young Thaw brought this artist's model into the Thaw circle, Mrs. von Kunits was selected by the elder Mrs. Thaw to give Florence Evelyn what musical culture she needed to polish her for the company of the "400."

In addition to the music and languages the young wife was compelled to study, Mrs. Thaw marched her off to prayer meeting and church every Wednesday and Sunday evening.

To young Evelyn this was most trying, according to Mrs. von Kunits, so the wife left Harry and his wife left Pittsburg. Evelyn was well and happily married, and she didn't want to live after 30.

"People are wrong in believing she cared for dress. She did not. But she did care for hats and shoes and stockings and gloves. She doted on these things, and I do not believe there is a woman in the country who had so large a number of costly hats as she possessed."

"She was devoted to her husband, but was backward with other men, and was rather cold toward them. This was because of her sad experiences with them. She told me one day of her experiences with men—when she was an artist's model—she cried to me about it, too; but it would never do for me to tell you these things. I remember that she mentioned White's name. But she said that was all past now."

"She was never late at school. She was one of the best pupils and always most talented pupil of Severin O. Frank, from whom she took lessons on the piano. She worked hard and practiced two or three hours every day."

"She didn't like society," said Mrs. von Kunits. "She never liked to attend receptions or functions of any kind. She used to go to the Pittsburg orchestra concerts and to the theater occasionally."

"I have heard her say when she was at the theater that she wished she were back on the stage again, but it wasn't half an hour after she left the playhouse until she would say she was glad she was not an actress."

"She is such a little bit of a thing, and so unassuming that it was hard to think of her as anything but a child. Why, when she came to take her lesson, Elizabeth, my maid, would say to me, 'The little girl is here.' She could hardly believe this young pupil was married. Mrs. Thaw is very pleasant. She is not over forty, but she weighs eighty pounds, though she is heavier before she was married."

"Everybody in the school liked her. She was very quiet and did not make friends easily, as she did not become familiar with anybody on short acquaintance."

OMAHA WILLING FOR A REHEARING

How Judge Cowan's Move Is Regarded in Nebraska

Special to The Telegram.

OMAHA, July 21.—Local commercial interests are not alarmed by the news that Judge S. H. Cowan of Fort Worth, Texas, is in Washington preparing for a hearing before the supreme court of an appeal from the decision of Judge Bethes of Chicago in the case involving rates on live stock and packing house products from the Missouri river to Chicago. Notice of appeal was given by Judge Cowan, counsel for the Chicago commission men, at the time the decision was made late fall, and at that time the Omaha interests decided they had nothing to fear from a trial in the supreme court.

Rates on live stock from Omaha to Chicago are now 22 1/2 cents, and on packing house products 18 1/2 cents. Both were originally 23 1/2 cents, but when, in 1902, injunctions were made against rebating the western roads, which had been paying a rebate of 5 cents on the products of the Omaha packing houses, made their famous contract with Stickney for an 18 1/2-cent rate on this class of freight.

The interstate commerce commission issued an order to equalize the rates on live stock and packing house products, but the railroads and the South Omaha Live Stock exchange carried the matter to the United States circuit court in Chicago, and Judge Bethes set aside the commission order, on the ground that the rate on the product could not be interfered with because made by contract.

Victory for Omaha

E. J. McVann, W. J. C. Kenyon and Frank T. Ransom, attorneys, prepared the evidence for the railroads in the hearing before Judge Bethes. Their success was considered a signal victory for the Omaha live stock market. Mr. McVann has expressed himself as of the opinion there is no danger to Omaha in the hearing of the appeal.

"The attempt to equalize the rates is made purely in the interests of the Chicago live stock commission men," said Mr. McVann. "It was plainly shown on the stand in the hearing before Judge Bethes that the shippers had nothing to gain by such equalization, while it would work to the benefit of the Chicago commission men."

According to press reports Judge Cowan would have it appear that the live stock people west and southwest of the Missouri river want the rates equalized so that they can ship to Missouri river points and then reship in conditions are not found satisfactory. Of course Judge Cowan is trying to persuade the southwestern cattle interests the change would be to their advantage. As a matter of fact the only live stock which would be affected by the change would be the Missouri river and Chicago, which comes to the river, but which would go to Chicago if rates were equalized."

ROUGH RIDER DIES

Man Who Once Served Under Roosevelt Found Dead

Special to The Telegram.

CINCINNATI, Ohio, July 21.—James R. Quaid was found dead near Foster, Ky., last night. He had been drinking and had patent medicines in a valise which he carried and which he was vending as he walked over the country. While in Foster last Wednesday he was given medicine to quiet his nerves by Dr. L. B. Plummer of that city. He left town later in the day. His remains were brought back to Foster. Quaid was one of Roosevelt's rough riders in the Spanish-American war and received a pension as a veteran of that trouble.

CHARGED WITH MURDER

Cincinnati Woman Poses as Doctor and Now in Toils of the Law

Special to The Telegram.

CINCINNATI, Ohio, July 21.—Miss Lillian Miller, who was arrested in Toronto Friday on charge of murder, is the wife of Michael Miller, former business man and member of the Covington, Ky., board of aldermen. She had been doing business under the name of Dr. DeVoss, prescribing for women.

LONDON LEADS MARKET

St. Petersburg Bourse Shows Falling Off in Government Bonds

Special to The Telegram.

NEW YORK, July 21.—London led the improvement abroad, although Paris and Berlin were firmer. St. Petersburg's bourse was weak early with additional declines in government bonds. That market made a late partial recovery. In London Russian bonds made small gains with the cessation of Paris selling a factor.

Americans Irregular

Americans in London were irregular, but closed in majority gains in which a bear recovery was a reported influence. The special London cable said there was a less keen American demand in the center for gold. On this side most of the bankers were confident that most of the expected London gold arrivals would be met. From South Africa would be secured for import here.

GOOD MONEY IN OATS

Farmers Prosper When Price Passes 30 Cents

A prosperous farmer talking over the lunch table Saturday noon remarked upon the high price of oats and said that they were making so much money for the farmer that he wished he had sowed his whole farm to oats this year. The present prices range from 33 to 35 cents a bushel of 60 lbs. with the very heavy out crop in Texas and the Territories and in view of the present good prospects for a monstrous corn crop, it would seem that the farmer expressed an intelligent opinion when he said that oats were selling high.

Thin Hair

Yes! We had noticed that your hair was looking pretty thin, and that it lacked luster and life. But we didn't like to speak of it! Of course you know that Ayer's Hair Vigor is a regular hair-grower, makes the hair soft and smooth, gives it life and strength. This isn't the kind of hair that falls out! And, too, it keeps the scalp so clean and healthy.

Corn Outgrows Common Shucks. Nocona Crops Said to Be on Big Boom. A. C. Black resides near the historic old locality called the Spanish Fort, bend of Red river, and is a young man who delights in stock, cotton and corn. He said: "We are going ahead as swiftly as any other part of Texas in the Spanish Fort of long ago. We have an immense prospect for corn this year, and the prospect has resolved itself into a certainty. Cotton is splendid and stock of all kinds is fat and growing fatter all the time. I know corn that has grown so fast that the ear has rotted out of the shuck and is just racing ahead two inches ahead of the shuck. That shows that it is filling out well. Cattle are full of ticks but they are not so bad as they were last year. Captain McGahey, an old settler and large farmer, and land owner, who lives very close to us, had the misfortune to lose his fine big barn by fire last week. It is thought that it was the work of an incendiary."

It is Superior Teachers that make a Conservatory Famous. YOU WANT THE BEST FOR YOUR CHILD. The greatest American Pianist is Edward Baxter Berry. The greatest Violinist of the South is Chas. D. Hann. The most successful Vocalist in the Southwest is Katherine Stewart. These famous musicians are at the head of departments in the Landon Conservatory and are assisted by thoroughly trained teachers of marked "Inborn gifts for imparting instruction, each teacher being enthusiastic in the work of teaching, and each has a strong magnetic and forceful character, being teachers "by the Grace of God," as the Germans say. This shows how Landon Conservatory has earned a National Reputation, and has attracted students from thirty-three states during its seven years of wonderful growth and remarkable success. The director has furnished four teachers for a well-known conservatory in New York, twelve to the Randolph-Macon Colleges of Virginia. The presidents of colleges in the Southwest call for many times more teachers than it has graduates to supply. Landon Conservatory has a Home Life with active religious influence. CHAS. W. Sound Are Scarce. "Hogs are about sold out up with us, the people having priced up with owing to the good prices, that they sold their brood sows and now there are two years less before the next crop for sale. If this was done the market for the surplus hogs would be always high and the breeder would have the upper hand of the packers. Any surplus that the farmers would have could be readily sold at better prices than that of the packers. All our people kill their own meat."

OZONE RANGE FINE. J. W. Montague Talks of Cattle and Sheep Conditions. Colonel J. W. Montague, the big stock representative of the ozone country, came on the yard, having just arrived from his ranch in "Crockett county. He was looking bright and cheerful and had no cause to complain of range and cattle conditions. "I came in a few hours ago," he said, "and from a country that has no superior and few equals at the present time, and my own country was never better and cattle and sheep were never better and cattle are sleek and fat. There is no trouble troubling them except the flies. All kinds of stock are in good shape and our country was never so wet. There is plenty of surface water and the old cows don't have to travel very far to get water and plenty of grass. The range has extended all over the western country and there has never been such a universal wet time for many years. Sheep are doing well, but the price who has no need to me has no sheared his fence, as requested, because his shears went dull. His sheeps had the scab, that is the reason."

Want Railroad. "We are hoping that the Orient road will come our way. The survey has been made through my land, but no one can tell what a railroad will do in the way of building, until they get the iron laid. An engineer friend of mine, who is an engineer and helped survey the route, told me that there was not a finer route in the country, one with less physical difficulties to overcome. The road from Houston to me will come up through Ozone or near there."

LABOR NOTES. Detroit street car employes have received an advanced wage scale. Twelve hundred New York city plumbers are striking for \$5.25 per day. Employment in the British building trades shows a general improvement as compared with a year ago. Boston & Maine and the N. Y. N. H. & H. Railroad freight handlers have both been granted the \$2 a day wage rate. The Indiana supreme court upheld the constitutionality of the act requiring manufacturers and mining companies and firms to pay their employes semi-monthly in lawful money.

Striking ice handlers of Toledo, Ohio, have started business on their own account and are now selling ice in competition with their old employers. From a report recently issued by the British home office, it appears that the number of persons engaged in mining and quarrying in Great Britain and abroad in 1904 was about 600,000. The Chicago workmen are in demand in all parts of the American continent. The International Brotherhood of Steam Shovel and Dredge Men sent three men to Punta Arena, Chile, and two men to Skagway, Alaska, recently. It is estimated that there are about 2,500,000 independent farmers in the German empire, and that of these over a million are members of co-operative societies, the most popular form being credit societies. Thirty thousand cotton mill operatives in New England are working today under an increased wage which prevailed prior to July 1, 1903, when a general reduction of 12 1-2 per cent was imposed. The house committee on Interstate and foreign commerce has authorized a favorable report on the senate bill making a maximum number of hours of continuous labor for railway trainmen sixteen, to be followed with a rest period of ten hours. The death rate from accidents at coal mines in the principal coal producing countries in 1904 were: Australia 92, Belgium 82, France 107, Great Britain 124, Germany 150 and the United States 3.35 per 1,000 persons employed. By the unanimous opinion of the Colorado supreme court has upheld the constitutionality of the Employers' Liability Act passed by the legislature in 1903. Under this act an employer is responsible for the death of an employe by accident, even if it is caused by the negligence of a co-employee. The first plea for union labor that was ever made before a national convention of the Confederation of Women's Club was voiced at St. Paul by Mrs. Van de Vaart, who called upon her hearers to aid the workers, by buying those goods only which are manufactured under good working conditions. The Iron Molders' International Union, now engaged in a strike with the National Foundrymen's Association is a remarkable organization. It is also probably the least known company in its internal workings are concerned. Nevertheless it has the third largest membership of the international unions in North America. More than

90,000 members pay dues. At present, 3,000 are on strike and every striker receives \$7 per week. J. F. Wright, vice president of the eastern division of the Amalgamated Association of Iron, Steel and Tin Workers of the United States, recently issued a strike order to the workers of this division which affects every mill east of the Alleghenies and in New England. The demand was issued for a wage increase of 75c per ton and finishes a proportion. The manufacturers have unanimously refused, and the strike follows. Ohio merchants and manufacturers who usually look during the summer vacation to obtain help from the work of boys who have been attending school are much vexed over a ruling made by the state shop and factory inspector. In a circular addressed to all the employers of the state the inspector says that the law prohibiting the employment of all children under the age of 14 will be strictly enforced, and the deputy inspectors are warned to keep a close watch on all stores and factories. England is now interested in three plans for scientific regulation of wages. The principle is that of basing the wages on the return of the capital employed. There is to be established a conciliation board, and the rate of wages that is to be used as the standard rate, was that paid before the last five per cent advance. When there is an increased return on the capital of 2 per cent above the fixed rate of profit, then is a remarkable increase. If wages, but no advance or reduction of wages is to be made unless the rise or fall in profit, as the case may be, reaches at least 2 per cent.

DISLIKES METHOD
IN DOG CATCHING

S. J. Eccles Says Work Is Entrusted to Boys

Charges that a young negro boy driving the dog catcher's wagon used insulting language to his wife and even went so far as to tell her to "Go to h—" are made by S. J. Eccles of 1181 Louisiana avenue, who was absent at the time the dog catchers visited his home Saturday.
"I am in favor of the dog tax, believe it should be collected and have paid my taxes for two years," said Mr. Eccles to The Telegram Saturday, but I am decidedly opposed to the manner in which collecting dogs on which taxes have not been paid is entrusted to boys, both negro and white.
"I have paid my taxes on my two dogs this year, but have tags on neither for the reason that tags I have formerly placed on my dogs were stolen by boys and I believe new tags would be stolen in the same way and sold to persons who would rather buy a tag for a few cents than pay their license."
"This morning a negro boy about 16 years old called at my home and wanted to know why my dogs had no tags on them. When my wife told them we had receipts for the taxes he demanded that she "bring them out and show them" and after other insulting language swore at her.
"If that boy comes around again when I am here I will be ready for him," declared Mr. Eccles.

NO WORD RECEIVED

Friends of Sidney Smith Here Are Very Anxious.
Because Dr. Woodward of Mineral Wells, who accompanied Cicero Smith to the bedside of Sidney Smith in Mexico, where young Smith was stricken with typhoid fever while on a tour through the republic in a special Pullman party, has not telegraphed as arranged with friends and relatives here, it is now thought the condition of Mr. Smith is a grave one. A permit of removal to his home here, but although sufficient time has elapsed for the doctor to have wired as to when the start would be made for Fort Worth with the patient, no news has been received and friends and relatives here are anxious.

A TRAGIC FINISH
A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth Melver of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold; but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at Walkup & Fielder's, Holland's Red Cross Pharmacy and Renfro Drug Co. drug stores, 50c and \$1. Trial bottle free.

WOMEN AS THEY PASS

NOVELTIES IN WEDDING AND BIRTHDAY GIFTS

Some New Ideas in Gifts for the Bride, for Birthdays, Card Parties, Etc.

What shall I select as a wedding gift for the bride? What shall I present my friend as a birthday gift? What shall I use as favors at my card party? These are the questions that puzzle today, but the silversmith and the jeweler are on hand with the proper answers. Pictured above are some of the latest novelties that they have put forth for the summer "present-giving" time.

Summer is the season of bridal gifts, and it is the time when most of the novelties for home decoration is brought out. Manufacturers have been particularly kind this year, and it should not be difficult to select pretty and appropriate gifts for one's dearest friends.

However, even with numerous dainty gifts at hand, most women make gift buying an ordeal. The trouble seems to be that they can not make up their minds.

It is not always the one having the largest price mark that is the surest of receiving a flattering reception. These are comforting facts to keep in mind when the cost must necessarily be considered. However, the gift is intended for an intimate friend whom one wishes to remember nicely, there are many beautiful things waiting to be bought and sent out wrapped in tissue paper and tied with white ribbons.

It is well to remember that when the gift is to be a personal one to the bride, a handsome piece of jewelry is always in order. To be sure the bridegroom presents a jewel, but the gift is an appropriate one for relatives and intimate friends to give.

Where is the bride who would not welcome one of the lovely bracelets shown in the illustration? Then there is the curious necklace of Egyptian design that is particularly suited to a wedding gift. Other necklaces with jeweled pendants are also good, and in fact the new style necklace is often chosen as a gift to the bride.

When it comes to the selection of silver, a wide range of choice is offered. Knives and forks and spoons of various patterns are always included, so there is no need to devote special attention to them.

One of the most popular gifts is the silver dish that can be used for either a fruit or salad dish. A new covered dish will serve for various purposes. It can be used as a vegetable dish, a meat platter and for other uses that will suggest themselves to the fortunate owner.

The silver baskets, both with handles, are among the novelties offered. Every bride would like one for her sideboard.

The little castors for salt and pepper are among the very latest of the small pieces. There are also individual castors, and silver catsup bottles as well as silver mustard pots, all in new and striking designs.

No bride ever had enough candlesticks. Just now the Colonial patterns, in both crystal and silver are most fancied.

There is a brand new cutglass that is particularly effective. The new style of engraving shows well on the latest pattern design for sugar and creamer. The pieces are mounted on

FOR CHILDREN.

Now there are fashions in stationery for children, and they are governed by as strict rules of etiquette as those observed by the most correct society woman. Note paper for the little ones is correct in cream, white or a delicate blue or pink. If a die is used it should be the same as that on the stationery of their mothers, only much reduced. The dimensions of the sheets should be about four and a half inches wide by five and a half inches long and should fold once to fit into an oblong envelope with a pointed flap.

Nowadays children have regulation calling cards at the age of two and three years. For little girls the cards should be an inch and a half in width and two inches and a quarter in length. For a boy they are one and a quarter inches wide and two and a quarter inches in length.

little squat feet. All the pretty gifts are not to be found at the jeweler. Pieces of fine linen are always appreciated, and any bride would prefer a pair of fine towels to an inartistic vase or a large piece of plated silver for which she has no use. Bits of handwork are always desirable.

A bride counts herself lucky when brassy presents as their decorative as well as their practical value is highly esteemed today, when revived models of household decoration are receiving so much attention.

Many quaint Colonial patterns are reproduced in all manner of brassy which are faithful copies of the originals.

SENSIBLE NECKWEAR.

Stiff turn-down collars of white embroidered linen with fagoted or hemstitched hems are in great favor for wear with the linen blouses and with the linen and cloth street suits, large bow ties of black or colored silk being worn with them. Large horseshoe pins are very smart for fastening these large bows in place or one of the crescent or bar pins so much in vogue.

SMART LITTLE SEPARATE COAT.

Black taffeta jackets used separately, or with black silk skirts, are handsomely reinforced by this new recruit to their popular ranks. Many are the attractive features qualifying it for universal approval, chief of which is its propensity to fit well without apparent helps to that effect. The sleeves are without cuffs, the slashed and curved-in portions fitting snugly without destroying the delicate bodice sleeves. The square shoulder effect gained by a straight black lace yoke is good, as well as the confining of extra fullness in back by button topped tucks. The slim, pointed revers in front absorb the front fullness, and show a continuation of the apricot silk coat lining in their facings.

A BATCH OF THE NEWEST RECIPES

Pineapple Omelet.—Melt two level tablespoonfuls of butter. In it cook two level tablespoonfuls of flour with one-sixth of a tablespoonful of salt. Add one cup of grated pineapple, juice and pulp; one-fourth of a cup of sugar and one tablespoonful of lemon juice. Stir and cook until the boiling point is reached. Then remove from the fire and beat the mixture into the yolks of five eggs beaten very light. Then fold in the whites of five eggs beaten very dry. Melt two tablespoonfuls of butter in a large

omelet pan and pour in the mixture and let stand on the top of the range to become "set" on the bottom. Then cook in the oven until a knife cut down into the omelet comes out clean. Score entirely across the top at right angles to the handle of the pan. Fold at the scoring and turn into a hot platter. This sweet omelet is especially good as a luncheon dessert.

Green artichokes may be served in an appetizing manner by cutting two or more into quarters and trimming them and removing the chokes. Place immediately in water into which the juice of half a lemon has been stirred, so as to prevent the artichokes from turning black. Prepare a good thick batter and fry immediately a good brown in very hot fat. Serve with fried parsley.

Carrots and New Potatoes.—Prepare a bunch of new carrots for cooking. Take double the quantity of new potatoes, wash and rub off the skin with a coarse cloth, and put them at once into boiling water. Add some salt and a sprig of mint and boil until tender.

Put the carrots in a pan of boiling water and cook for ten minutes. Remove from the fire, rub off the outer skin and return them to the saucepan with sufficient water to cover them, a little butter and a seasoning of salt and pepper. Simmer for fifteen or twenty minutes. Cut the potatoes in quarters, reheat them in a little butter and serve with the carrots, sprinkling with a little minced parsley over all.

Mackerel Mayonnaise.—Make a sauce of the yolks of two hard boiled eggs rubbed until quite smooth in a bowl, adding by degrees half a teaspoonful of French mustard, a little Napaul pepper, salt and then drop by drop, five tablespoonfuls of thick cream. Lastly, add about a table-spoonful of vinegar.

Boil three fair-sized mackerel in a little veal stock, adding a few capers, salt, pepper and a little vinegar. Remove, separate the flesh from the bones and place in the center of an entree dish, surrounded with lettuce and watercress. Pour the sauce over the fish and garnish with beetroot and chopped celery.

Pineapple Marmalade.—Remove the skins and eyes from two pineapples, grate the pulp from the hard center and weigh the pulp and juice. Allow the juice of a lemon and three-fourths of a pound of sugar to each pound of pulp and juice. Let the pineapple simmer over the fire until well scalded, then add the lemon juice and the sugar, made hot in the oven. Let this mixture cook until, when tested on a cold saucer, no very liquid separates from the mass. Store as jelly.

OLD NEWSPAPERS ARE USEFUL.

Save at least a few old newspapers for various uses about the house and see how well they come in.

For polishing windows and mirrors there is nothing that does the work quite so well as newspaper, owing, it is said, to some quality of the printers' ink.

To make a thin light crust on bread put a piece of brown paper over the top and cover it with a sheet of newspaper when baking.

When cleaning silver spread a newspaper on the table so that the dry powder may fall on it and be easily taken up.

The illustrated pages will furnish unlimited amusement for children, for where is there a child that does not delight in cutting and pasting? If papers are spread on the floor to catch the scraps it need not be a pastime that requires a lot of cleaning up afterward.

THE WIDOW'S SECOND BONNET AND VELL.

The black summer bonnet shown is very light in weight and very small in shape. The pictured bonnet is designed to be worn after the first six months of mourning have passed, consequently the narrow folds of the crepe, which it will be noticed do not fall over the hair at all, reach but to the waist line instead of the hem of the skirt, the length fashionably necessary for the first period. The high side folds of the bonnet are of silk, edged with a black crepe ruche, as white edges are not worn.
