CAPTAIN SUICIDES

Vessel Struck Reef Off Spain. Women and Children Are Killed in Panic

By Associated Press.

ENOA, Italy, Aug. 6.-The loss of the Italian steamer Sirio caused intense excitement among the relatives and friends of the Italian passengers and crew, most of whom lived here or in this vicinity. The officers of the port and the Italian General Navigation Company, to which the Sirio belonged, were so besieged today by agonized throngs seeking information that the police were called to establish barriers to hold back the crowds.

Declared Facts Withheld

Some people assumed a threatening attitude, declaring the facts had been withheld. The Sirio has seen twentythree years service, but she was considered to be in seaworthy condition. She was built of iron and wood, had single screw, was 4,000 tons gross register and had a speed of fifteen knots per hour. Her captain, Giuseppi Paradi, was a native of Genoa and a reteran seaman.

Stole Life Belt From Bishop

CARTHAGENA, Spain, Aug. 6 .-Reports were received here of the horscenes attending the wreck off Harmegas Island Saturday evening of the Italian steamer Sirio from Genoa Aug. 2 via Barcelona and other points for Buenos Ayres, resulting in loss of over 300 lives.

The drowning of Bishop Saopaulo of Brazil is now attributed to the action f an Argentine passenger who forcibly took from the bishop a life belt, h which the latter provided him-

Woman Saves Children

One Italian woman kept her three children afloat on a plank until they were all picked up. A bridegroom, who was on a honeymoon, lost his wife and sister, and one old man, who was saved, lost three children. Captain Gluseppe Paradi, com-

Many From Southern Italy By Associated Press.

NAPLES, Aug. 6 .- Many emigrants the sailed for South America on the wrecked steamer Sirio were from southern Italy and accordingly great anxiety is manifested here. Crowds of people are seeking details of the disaster and the names of the passengers for the purpose of identifying the lost and saved.

Relief Sent Sufferers

The Sirio touched here July 23 after leaving Alexandria, Egypt, with which port she carries on mail service. The Italian General Navigation Company, to which the wrecked vessel belonged. dispatched a steamer to Carthagena earrying relief for the shipwrecked passengers and crew.

Special to The Telegrum. CARTAGENA. Spain, Aug. 6 .- A terrible marine disaster occurred Saturday night off Cape Palos. The Italian steamship Sirio, from Genoa to Barcelona, Cadiz, Montevideo and Buenos Ayres, with about eight hundred persons on board, was wrecked off Hormigas Island. Three hundred immigrants, most of

them Italians and Spaniards, were

The captain of the steamer comnitted suicide. The bishop of San Pedro, Brazil, iso was lost, and it is said that another bishop is among the missing.

The remainder of the passengers and the officers and crew got away in the ship's boats, or were rescued by means of boats sent to them from the shore. A number of fishermen, who made attempts at rescue were drowned.

Those rescued from the vessel are now at Cape Palos in a pitiable condition, benig without food or clothing. The Sirio struck a rocky reef known as Bajost Hormigas and sank soon

after. Hormigas Island lies about two and a half miles to the eastward of Cape Palos. The Sirio was owned by the Naviga-

sione Italiana of Genoa. Before he ommitted suicide the captain declared the steamer had 645 passengers on board, and that her crew numbered 127 men. The Sirio had 570 passengers when leaving Genoa, but addi-tional Spanish passengers were taken on board at Barcelona, where the vessel touched a few hours before the dis-

STRIKE DOOMED TO **COMPLETE FAILURE**

Followers of Labor Leaders Rebel Against Orders

By Associated Press. ST. PETERSBURG, Aug. 6.-Unless dispatches from the interior within a few hours entirely change the situation, the general strike promises to prove a complete failure. Although the liberals are strongly opposed to the course of the government, they shrink from precipitating a revolution and horrors of a civil war in which the country will be plunged if the plans of

the proletariat leaders are successful. Not only is the sympathy of the intelligent public lacking, but in St. Petersburg leaders of various labor organizations find many of the followers lukewarm, or even in open rebeilion against their orders.

Newspapers Again Appear.

When the central committee of the printers' union adjourned last night many of the men returned to their cases, with the result that four newspapers appeared this morning. The central committee of the railroad men's union finds some of their men either opposed to a strike or afraid to risk the loss of their positions with imprisonment into the bargain, that it has not so far as known issued a formal order to strike.

If the train service is not brought to a standstill a collapse of the strike movement is inevitable. The workmen's council, which managed the strike last fall, in fear of failure has already practically determined to resort to violence in order to stop traffic on the railroads if the men refuse to join in the movement.

RECRUITS TO RIDE ACROSS THE STATE

New Rule Makes Easy Transportation Here

A decided change in the manner of enlisting recruits for the army has been ordered by the war department. It went into effect in this city several days ago at the local recruiting office.

Under the new order of things a soldier will not be sworn into service by the recruitnig officer. He will submit to the usual medical examination, and, if found to be up to the requirements, transportation and money for meals will be furnished the recruit to the nearest depot. In the case of Fort Worth and other sub-stations in the state the men will be sent to San Antonio. There another examination takes place by regular physicians. The recruit will then have the option of being placed on probation for not more than six days, or he can be sworn into the service immediately after having

been passed upon by a physician. On the other hand, if the officers find cause why he should not be enlisted the man is returned to the city from where he started at the expense of the government. Should he be rejected for a cause which should have been noticed by the recruiting officer. the expense of the examination, railroad fare and subsistence will be charged against the officer.

Easy to Travel

Under the new rule it will be possible for a strong and able-bodied young man to get free transportation at the expense of the government. It was pointed out this morning that a man who is penniless and desires to go to San Antonio can stand the examination, get transportation and either fail to report to the proper authorities or inform them that he has changed his mind. A party familiar with military law stated that the recruit is under no obligations to the government until he is sworn into the service.

In other words, if a man in Fort Worth is without money and wants to get to San Antonio all he has to do is to apply at the local recruiting office, be passed upon by the recruiting officer and shipped. If, after arriving in San Antonio, he does not care to join the army he can give the government the "grand ha ha" and go rejoicing on his way.

It is predicted that, under the new ruling, the government will lose thousands of dollars.

Lyon Orders Republican Office Holders to Aid Party

NEED GOOD TIMBER

El Paso Convention Will Put Full Ticket in the Field. Negroes Fool Bosses

Special to The Telegram. AUSTIN, Texas, Aug. 6 .- Notwithstanding the fact that they have no earthly chance to win out, the republicans of Texas are going to put out a full state ticket at the meeting to be held at El Paso at the same time that the democratic pow-wow will be in full blast at Dallas. Republicans all over the state held county conventions Saturday and named delegates to the state republican convention and from indications they are going at it in a sincere way, which shows that they mean business.

Must Work or Lose Jobs

It is true that most of those who are interesting themselves to an unusual degree in the welfare of the republican party in Texas are officeholders, or would like to be, but then there are some who are going into the game just because it is politics. Another thing is that Colonel Cecil Lyon, the republican boss in Texas, has given it out that those officeholders and those to whom patronage has been dished out one way or the other, must work for the good of the party in Texas or they would not hold on to their jobs very

Good Timber Lacking It is said that the republicans are

experiencing considerable difficulty in getting suitable timber to adorn the state ticket which is to be launched at the El Paso gathering, but according to Colonel Cecil Lyon one will be launched. In fact he declares that the make-up of the slate was already well under way. He has declined however, to make public the names of anv of the candidates.

From what can be learned here, the convention to be held at El Paso will not be as tame as some might be lel to expect, as notwithstanding the great distance from the center of the state at which it is to be held, a great many negroes are expecting to attend. Negroes Will Attend

These negroes know very well that El Paso was selected on account of the distance, as this would debar many of them from being able to atend. In this however, the bosses will be fooled as the colored brother will be on hand when the convention is called to order. If he is given half a chance he

is also going to make himself heard and then the fun will be at hand, and there is no telling to what limit will be carried. Colonel Lyon will be on the ground early.

By Associated Press. NOANK, Conn., Aug. 6 .- The big balloon Nirvinia, carrying Dr. Julian F. Thomas of New York and a professional aeronaut, ascended from a point on East river, New York city, shortly before 9 o'clock last night and landed its passengers in the middle of this village at 5:45 this morning, after one of the longest flights ever taken by a passenger balloon in this country. Dr. Thomas said he was compelled to land to get water, his supply hav-

ing given out a few hours before. A Trip 140 Miles Long

After filling the tanks, the balloonists again arose and a light wind carried them in an easterly direction. Dr. Thomas said the trip had been the most successful he had ever taken, and so far had been without mishap of any kind. The trip from New York to this point covered about 140 miles. While off Bridgeport the balloon descended until the aeronauts came close enough to Long Island Sound to enable them to carry on conversation with a yachting party. This was about 1 o'clock in the morning.

COMIC VALENTINE MAY BE A LIBEL

Special to The Telegram. PHILADELPHIA, August 6.-Hereafter if you send comic valentines to your enemies, you do it at your peril. Judge Staake struck a terrible blow at the venerable custom yesterday when he overruled the demurrer filed by Anna Applegate, who was charged with sending a comic valentine to her sister-

Mrs. Mitchell could not see the joke at all when she read: To My Valentine. Trouble Maker. Scandal, Lies. Other people's business. Slander. The woman with a mischievous tongue,

DODGE'S FRIENDS READY FOR WORK

Expect Evans' Strength to Aid Fight Against McLean

Talk of the Republicans of Fort Worth last night was the nomination Saturday of United States Commissioner N. A. Dodge for the office of Tar-

rant county attorney. A factor in the race between Commissioner Dodge and County Attorney McLean, who is a candidate for reelection to that office, is that the only other candidate nominated by the Republicans of Tarrant county for office is F. V. Evans, who will run against W. P. Lane for position No. 2, representative from the Seventy-eighth legislative district of Texas and who expects a solid vote in the country owing to his record as organizer and lecturer for the Farmers' union and his avowed standing on all questions referring to the welfare of farmers and the interests of the Farmers' union, Besides this Mr. Evans expects to carry the laboring vote of the city of Fort Worth solid. It is the strength of Mr. Evans that aids in the candidacy of Mr. Dodge against Mr. McLean, according to the statements made yesterday by Republicans who profess to be active workers and who claim to know whereof they speak, and it is the belief of the rank and file of Republicans who participated in the convention held at city hall Saturday that the fact that only two men were nominated on the Re-

Special to The Telegram. If the other unions in the trade make a hostile move the open shop is likely to be declared against them also, but so far they have made no manifestation. A peculiar feature of the strike is that both sides seem to agree that there are too few journeymen. This is the reason assigned by the employers for the refusal of the eight hour demand, though they were willing to submit the demand to arbitration. Both sides also say that the scarcity of journeymen is due to the restriction in

Boating Party Has Narrow Escape at Niagara Fals By Associated Press.

NIAGARA FALLS, N. Y., Aug. 6.-Charles Walsh and his wife, with several women, were rescued from a disabled launch in the Niaraga river yesterday, just as the craft was starting over the falls. The launch lost its propeller. Walsh tried to drop anchor, but it did not hold. They then shipped the oars and they snapped like pipestems in the attempt to drive the heavy launch against the rapid current. One of the women tied a skirt to a broken oar and the attention of people on shore was attracted. The party was rescued at the danger line.

S.S.S. HEALS OLD SORES

Every old sore exists because of a polluted condition of the blood. This vital fluid is infected with some germ or old taint, or perhaps has been left in an unhealthy condition from a long spell of sickness, or the trouble may be inherited. The poisonous germs and matter with which the blood is saturated force an outlet on the face, arms, legs or other part of the body and form a sore or ulcer. This being continually fed by a polluted blood supply grows red and angry, festers and eats into the surrounding flesh until it comes what is very aptly termed an "old sore." The relief produced by becomes what is very aptly termed an "old sore." The relief produced by external treatment is only temporary. Downpour at Ballinger

There may be dry spots in Texas, and there may be other spots where much rain falls, but it takes Ballinger to make the records in the way of old-fashioned downpours. Saturday night that town had a rain of 1.90 nches and 'most any ordinary place would have considered that sufficient for present needs. But not so with Ballinger. That was but a forerunner of larger things to come, for Sunday witnessed a rainfall there of 6.50 nches, making a total for thirty-six hours of 8.40 inches. This is more than twice the total rainfall at Fort Worth during the whole of June, 1906. The amount of water which falls from the skies in such a storm may be realized when it is stated that a precipitation of 8.40 inches means the owning of 288,096 gallons, or 4,386 barrels, of water on every acre of land. And Ballinger didn't especially need the rain, for the rainfall has been heavy there all season. Many other Texas points received rain Sunday, Waco getting 3.12, Waxahachie 1.98, Sherman 1.28, Mexia 1.38, Brownwood 1.34 and Corsicana 1.72 inches, Ranchmen about Henrietta were made glad by a heavy rain in that region, the fall at Henrietta being reported at 1.50 inches. At Fort Worth but a trace of rain fell during the day. Moderate rains were reported from several points outside the state, the southeastern coast line and the middle western states getting most of it. Temperatures were about normal. During the afternoon the thermometer registered 75 degrees at Fort Worth and fell to 73 during the night. Monday morning was warmer. The cotton belt is partly cloudy with rains in local sections.

FUNERAL OF CHILD IN WALL STREET

Brokers and Lawvers Doff Hats When Body Is Removed

NEW YORK, Aug. 6 .- A child's funeral was held yesterday in "The Street," that grave yard of honorable hopes. A small, white coffin was carried from 6 Wall street. The lofty building is filled with brokers, who pursue money, and with lawyers, who, for fees, advise the brokers how to

make money.

The little white coffin contained the dust of Elsie Taylor 6 years old, daughter of the building's superintendent, whose home is there. She was a fair-haired child, and most of the tenants knew her and were fond of her because when they saw her they were

reminded of gayety and innocence and other things far removed from sordid money and dismal law. So the men who met the coffin as it was carried to the hearse that awaited it, halted and took off their hats. And as the hearse and the carriages moved toward Broadway, many other men, inspired momentarily by pity and grief, stood bareheaded. The child, Elsie, made a hard fight for life. She was seized with spinal meningitis on May 1 last. She sufcow before attempting to order out the men. Wednesday is now the day

fered intensely. Sometimes her fevered talk rambled. She told her weeping in which they say the railroad strike mother she was picking flowers. will begin. Plucking flowers in Wall street! LEHMANN DEAD

"C. W. Wilson, Mineral Wells, Texas:

A young farmer by the name of

Stubblefield, living eight miles north

of the city, drove to town and sur-

rendered to Chief Willi. Mr. Stubble-

field stated that for some time there

has been trouble brewing between

himself and neighbors. About mid-

night Saturday night three men rode

up to his house and called him out.

As he made his appearance at the

door they began firing at him. Mc.

Stubblefield returned the fire and is

sure that he hit one of the party, as

he heard a scream and saw the man

stagger. Chief Willi telephoned Sheriff

Dave Bratton of Parker county, who

replied that the man, from his infor-

mation, was justified, and ordered his

release and asked that Stubblefield

CONFEDERATE LAYS **BLAME ON SOLONS**

Says Conditions at the Home Are Not O. K.

"Conditions at the Confederate home at Austin are not what the people of Texas want them to be; that's all I can say," said an old white haired Confederate at the Texas and Pacific

passenger station. The old soldier in his gray uniform and his cross of honor on the lapel of his coat was seated on the steps at the north end of the building when he was asked by a Telegram reporter: "Are the conditions at the home any better than they have been in the

past?" "I am an inmate of the home, and I can't talk and stay at the home," the old soldier answered.

There was some further talk, mostly by the reporter, and then the old sol-

"Without saying what the conditions at the home are at this time, and without making any complaint, I will say they are not what the people of Texas want them to be, or what they think they are. The conditions are not the fault of the people of Texas, but of the Texas legislature, in which body it is almost as hard for a Confederate veteran to get in as it is for a camel to go through the eye of a needle. If we had a few more old soldiers in the legislature the veterans at the home would have some show for better treatment, but the man who fought for the south in the '60s has been laid on the shelf by the young generation. some of whom speak of their fathers today as 'rebels' instead of Confederate soldiers. The old soldiers are not the power in politics they were just after the close of the war, up to ten or fifteen years ago, and their numbers are getting less and their influence smaller every year, and, just in proportion to the decrease in numbers and falling away of influence, is the interest the politicians of today feels in them or their welfare.

"No, sir, conditions at the home are not what the people of Texas as a whole want them to be, and I have my doubts if they ever will be."

The discussion of the Labor Day celebration was about the only important business transacted.

The Typographical union also met yesterday and decided to enter the Labor Day parade with eighty men, and a resolution was passed to fine any member absent \$5. A resolution was also passed on the union labor proposition. Any member of the union hereafter patronizing a non-union corporation, individual or product, will be subject to a fine of \$1 for the first offense and \$2 for the second. It was reported yesterday at the Labor Temple that a settlement be-

The Most Popular Chew Made

There is real enjoyment in chewing SCHNAPPS tobacco. That's why it has won millions of chewers every year, until now more is sold than all similar tobaccos.

SCHNAPPS, the most popular product of the Reynolds factories, is man-

ufactured in the very heart of the Piedmont tobacco belt, known to the world as producing tobacco with an aroma so delightful and appetizing that it introduced and popularized the chewing of tobacco.

Schnapps

The Clean, Pure Chew

is manufactured by the cleanest and most healthful processes ever devised, under the direction of men who have made the chewing tobacco business a life study, and who have managed the R. J. Reynolds Tobacco Company since 1875.

Only choice selections of thoroughly cured leaf are used in SCHNAPPS, and expert tests prove that this class of tobacco requires and takes a smaller amount of sweetening than any other kind of tobacco grown-and that it has a wholesome, stimulating and satisfying effect on chewers, besides being the most economical.

There are a great many imitations claiming to be "just as good" as

SCHNAPPS, but there is only one genuine SCHNAPPS. Be sure the letters on the tag, and under the tag, spell S-c-h-n-a-p-p-s. There are more pounds of SCHNAPPS chewed every year than

the total amount of all similar kinds. Internal revenue statistics show that SCHNAPPS and others of the Reynolds brands won enough chewers in one fiscal year to make a net gain of six and a quarter million pounds, or onethird of the entire increased consumption in the United States on chewing and smoking tobacco.

SCHNAPPS is made and sold everywhere in 5c. cuts and 10 and 15c. plugs.

RATE REGULATION IN TEXAS

At the Twenty-third session of the Texas state legislature a law was enacted providing for the creation of a railway commission, to be composed of three citizens, with power to regulate the railroads of the state, and to enforce all the laws of the state that pertain to railroads.

This body was given power and required to adopt all necessary rates, to correct abuses; to prevent extortion and unjust discrimination; to adopt classifications uniform throughout the state, but to fix different rates where necessary, for different lines, and to fix joint rates.

The Texas railway commission was also made a tribunal to hear complaints from all interested parties and to call witnesses, take depositions, administer oaths and punish for contempt. It has power to examine the books of all transportation companies, including the express companies, to ascertain the cost of all railways in the state and to prescribe a system of bookkeeping with annual statistical reports. Power to insist upon the maintenance of tracks, depots and safety devices, the running of trains on time, and furnishing of empty cars when required was also conferred.

No rate can be made without an open hearing, in which the railroads, their attorneys and any person who wishes to do so may appear and show evidence to prove that any change may be beneficial or otherwise. But the rate once made goes into effect within twenty days, and can only be set aside upon suit of the railroad company or other party dissatisfied proving in a court of competent jurisdiction that the rates complained of are unreasonable and unjust.

Schedules of all rates are sent to each railroad, and must be printed in type not less than pica and posted in a conspicuous place in each depot. Extortion and unjust discrimination are defined in the same statute and forbidden under heavy fines. All violations of the law by railroads must be reported to the attorney general for prosecution.

The wisdom of these provisions has never been questioned, and the Texas railroad commission is so near a perfect organization that it has been used as a model for several other states. The great trouble with the commission is that it has now become a political hotbed, but the people will soon take the necessary steps for its pro-

INJUSTICE OF ELECTION LAW

The papers of the state are turning their trained batteries on the Terrell election law since observing the results of the late state primary election. The Houston Post criticises the law severely, especially that portion of it which fixes the representation in the state convention upon the basis of the vote cast for governor in the preceding election, instead of upon that of the primary itself. The Post points out some of the vagaries of the law

Inder the operation of the law,

will have one delegate for every 210 votes cast at the recent primary election, while Tarrant county will have a delegate for each 555 votes cast. Anderson county will have a vote for each 391 votes, while McLennan will have a delegate for every 443 votes. Wichita voted 344 votes and will have two votes in the convention, while Callahan voted 1,252 and will have one vote in the convention. Coleman county will get a convention vote for each 663 votes and Bell county one for each 640 votes, while Cooke will get one for each 266 votes, El Paso one

for each 127 votes and Bandera one for every twenty-four votes. Thus it is that the voting power of s citizen of one county is from 2 to 200 times as great as the voting power

Another illustration: Tarrant coun-

of a citizen of another.

ty has fourteen votes in the convention and gave Judge Bell 5,119 votes. As the county will get only one delegate for every 555 votes, Judge Bell's 5,119 votes in Tarrant will give him in the convention nine and one-fifth votes. Smith and Anderson counties together have fourteen votes in the convention, the same as Tarrant. Anderson polled 2,350 votes in the primary and Smith 1,685. Thus with 3,340 votes less than were polled in Tarrant. these counties have as many convention votes as Tarrant. Look how Colonel Campbell profits by it. Smith " has a delegate for each 210 votes. Colonel Campbell received 1.015 votes and will get from Smith five votes. Anderson county has a delegate for each 390 votes. Colonel Campbell received 1.927 votes and will, therefore, get within a mere fraction of five votes from Anderson, Thus from Smith and Anderson, Colonel Campbell will receive within a fraction of ten votes, with a total of 2,942 polled for him,

Tarrant. These are but a few of the peculiar workings of the Terrell election law. which is coming to be regarded as one of the greatest political monstrosities ever perpetrated upon a free and untrammeled people. And when the people get a chance to express themselves on this obstructive and bunglesome piece of legislation there will not be enough of it left to wad a small-bore

while Judge Bell gets only 9 1-5 votes

for the 5,119 votes cast for him in

The information given out to the effect that a site has been purchased for the big cotton factory at a cost slightly in excess of \$15,000 seems to indicate this great enterprise is no longer a dream. The cotton factory will afford employment for 250 people, and will be located just west of the city. All Fort Worth rejoices over the coming of this great enterprise.

There are two matters that will be acted upon at Dallas when democracy assembles in no uncertain and compromising manner. The first will be the indorsement of William J. Bryan, and the second will be an unqualified demand for the repeal of the Terrell election law.

Never before in the history of this state has a state campaign been brought to a close with such generally unsatisfactory results. The experience of the people with the Terrell election law has not been such as to inspire any love or respect for that

If the Lanham administration is to be charged with the hole in the state treasury, it should also be given credit for the plug that has been received from Washington. There is as much propriety in the one allegation as in

It is a somewhat anomalous situation that the bartenders of Fort Worth should be demanding Sunday as a day of rest when the assurance is given that all saloons are closed by operation of the law and vigilance of the county officials.

The signs are steadily multiplying that Colonel Tom Campbell will not be the next governor of Texas. More than 70 per cent of the people of Texas declared against Campbell in the primaries, and yet his supporters are insisting he is the choice of the people.

Men Killed in Revolver Battle in Street of Missouri Town

Special to The Telegram. SPRINGFIELD, Mo., Aug. 6 .- In the streets of Chadwick, a small town thirty miles south of Springfield, Sunday Charles Freeman, a merchant, and Robert Keene, 18 years old, fought to the death with revolvers. Suit was recently brought by Freeman against Keene, charging the latter with assaulting his 15-year-old daughter. Freeman was reported to have threatened to shoot Keene on sight and both men went armed. When they met on the street today they drew revolvers

and began firing. Freeman was shot twice, one bullet penetrating the forehead and another in the region of the heart. Keene was shot three times, one bullet striking nder the operation of the law, him in the heart. Both men were dead store, we find that Smith county when the spectators reached them.

The Times-Herald means to say that Joseph Weldon Bailey is the potential force in the politics of Texas at this time. Certain men are recognized leaders; there is no getting around this fact. There is some truth-possibly a great deal of truth in this statement from the Fort Worth Telegram: "The surprising strength developed

*R. E. Lee camp, U. C. V., held an interesting meeting Sunday that was well attended, a sketch of the battle of Franklin, Tenn., by Major S. J. Pulliam of Dallas being an interesting feature of the meeting. After the routine opening exercises,

Historian C. C. Cummings introduced . N. Wilkerson, a veteran of the First Arkansas Mounted Riflemen, in a happy short talk and answering Mr. Wilkerson delivered a glowing tribute to southern women and the part they took in the war between the states. The membership committee having eported favorably on the application of John Turner, he was admitted in the camp. A letter from Mrs. J. B. Dibrell of

Seguin was read on raising funds for a home for the widows of Confederate soldiers, and also extending an invitation for the camp to attend the unveiling of the Albert Sidney Johnston monument in September. Mrs. F. L. Jordan and Comrade S. O. Moodie were appointed a committee to raise funds for the proposed home, with power to appoint subcommittees

and assistants.

The resignation of W. D. Farris as a member of the executive committee was accepted and a vote of thanks was given him for efficient work as a member of the committee. M. J. Pankey, W. T. Shaw and C. C. Cummings were appointed a committee to draft resolutions on the death of Comrade A. C. Brown.

Adjutant W. M. McConnell reported that the net returns to the camp from the Bob Taylor lecture was \$414.50. W. M. McConnell, Mrs. North and Sidney Samuels were appointed a committee to draft a suitable letter to Governor Bob Taylor, presenting him a gold headed cane voted him by the camp. CHRIST BECAME NO MILLIONAIRE

"This a Sign of Truth," Says Rector

SERMON BY DR. COTTON

Subject at Trinity Church, "Prophets, False and True"-Miracles and Wonders Discussed

Interested was the audience which

listened to Rev. Dr. Cotton, rector of Trinity Episcopal church, Hemphill street and Pennsylvania avenue, Sunday morning, the subject being "Prophets: True and False," while the text was taken from Matthew VII, 15 "Beware of false prophets which come to you in sheep's clothing, but

inwardly they are ravening wolves." Dr. Cotton gave three criteria by which, among others, he said, we may distinguish the false prophet from the true, "a thing which is never more necessary than at the present so-called enlightened age." These were as fol-First-The false prophet generally comes to us with a great amount of noise, bluster and profession; the true

quietly, so that only the most discerning are aware of his presence -"he does not strive, nor cry, nor cause his voice to be heard in the Second-The false prophet generally makes his boasts of being gifted with miraculous powers. He comes as a wonder worker, walking upon the

prophet usually gives his message very

water, casting out devils, doing things that are out of common order. Example in Christ "Now, viewing the question as to

whether Jesus, who, for Christians, is the ideal prophet, was a miracle worker, in the vulgar sense of that wordit is certain that, although accounts we have of his wonderful life, work and teaching were written under the influence of an atmosphere saturated with the conception of miracles as peculiarly divine things, we have traces of the fact that he disparaged miracles: he did not desire to be looked upon as a physical magician, or a wonder worker-'An evil and aduiterous generation seeketh after a sign; but there shall no sign be given them. But, what is said in the context? "'They will come to Me in that day,

saying, Lord have we not prophesied in Thy name and in Thy name done many wonderful works?-then will I profess to them, I never knew you: depart from me, ye that work iniquity. "By their fruits we shall know the

false prophet from the true,' and these fruits are the ordinary regular good works and orderly living that are re-"The true prophet should always be known as honest, noble, true and good,

leading a godly, righteous and sober life—this is the criterion by which to judge a false or true prophet. "Great professions of faith-healing prayer-healing and the like are always to be looked upon with suspicion, when a prophet comes to us relying on them for the acceptance of himself and his message. If quinine be in the medical pharmacopeia the proper specific for ague according to the teaching of ordinary medical science—that is, according to the holy divine law, in the realm of nature—then the proper thing

to do in a case of ague is not to ask the Lord to cure it miraculously, but to administer a dose of quinine. "In these modern times we have two examples amongst others of prophets who have come to us, making great professions in this regard. In the one case, a large colony has been established on the shores of Lake Michigan by one who professed to be Modern Elijah, and in the other, only few weeks ago a magnificent temple has been erected in the city of Boston for a cult that, to a large extent relies upon faith-healing or prayer-

healing pretentions. "We have too much reverence for the divine order of nature as revealed in modern science to follow any prophet who bases his claims upon the occult or the miraculous or even the

semi-miraculous. "God's universal laws, the laws of the sunrise and the sunset, of spring, summer, autumn and winter, of our common, natural, every-day life are good enough for us, and we want no mitacles. The fact that Jesus is represented as a miracle-worker is hindrance, not a help to faith. And if we ever obtain Salvation we expect to be saved by God's ordinary saving processes as revealed in the orderly supernatural of nature, and not by True Prophets II! Used

"Third-The false prophet generally (using a common, worldly expression) makes a pretty good thing, financially, of his prophesying, Balaam, one of the first false prophets we read of, worked for the rewards of his divination. "Socrates had to drink the hem-

ock. The true prophet has always been an ill-used man. He never makes his fortune, but, as a rule, is persecuted 'as the prophets that were be-"There is one certain fact in regard to Jesus, which makes us able to be-

Under the former system, saloons, of which there were about 300, were not granted licenses, but paid fines each month, bringing in handsome revenues. Now that this has been cut off, the police and fire departments have been reduced to the minimum and street work has been abandoned. The banks are refusing the city's paper and unless some method of raising revenue is discovered this city will rapidly become bankrupt and go into decay.

Poor support for Browning, the Navigators' pitcher, and a magnificent game on the part of Jarvis, backed up by unerring fielding by the Panthers these were the features of a game in which Waco suffered a shut-out at the hands of Fort Worth in the Sunday game; score 4 to 0. Only two men reached first base for the visitors-one on an error by Boles and the other on four balls by the veteran twirler of the Texas League, Jack,

on his wagon, and although he struck out but two men, they could not hit him safe. A great deal of the credit for a no-hit game must be given to the fielding of the Fort Worth boys as they stopped would-be hits several times. In the sixth inning a Waco man got to first on an error and ir the ninth Jarvis gave a base on balls Both of these men figured in a double play, however, so they were not allowed to stay on bases very long. Only twenty-seven men faced him in the nine innings. Browning was hit rather freely all

Their Use Likely on Entire Harriman System

RECALLS "O. S."

Story of Desert Operator Who Celebrated the "Glouious Fourth"

Is it "23" for "brass-pounders?"

The Sunset, between San Antonio and El Paso, has equipped all trains with telephones and connection between the moving cars and the telephone wires will be made by means of a long pole having a metal hook at the end. In the event of an accident, or should a telegraph operator fall asleep on his desk, the hook is merely slung over the wire and a receiver snatched off the box, in the private office of the conductor on the train, and orders taken or messages transmitted at will, just the same as the city dude makes "a date" with his Sunday girl for a trip to Handley,

Lake Como or White City. But any experienced railroad man, especially one who has ever had any experience at sending or receiving train orders, knows that the only event that will ever do away (even in part) with telegraphers would be the invention of an automatic register and duplicate system which has been contemplated, but which is just now considered and known without doubt to be altogether too costly for general

All the same, the telephone system will probably prove a boon to such offices as "X," at Tucson, Ariz., where, on days like "The Fourth" and sundry other holidays, history has shown that some of "the boys" at "way stations" give themselves over to isolated celebrations and exhale patriotism, doing the "O. S." act for trains continually -one instance:

During the summer of 19., there was an operator at a certain station, the call for which was "S. N." It was July 4.

"S. N." had occasion to report the passage of the first section of a through freight, No. 243. He called "X." The answer came, "I, X," and the instrument clicked off: "O. S., O. S., first 243 by 10:37 p.,

Some five minutes passed. The celebration, isolated, as stated, but enthusiastic, continued. "S. N." became uneasy about first 243 and tried his best to remember if he had reported the passage of that train. For the life of him he couldn't remember having informed the dispatcher that the train had thundered through his station, so he called again. X"-"S. N.," and the answer came,

'I, X," and "S. N." said: "O. S., O. S., first 243 by 10:37 p.,

The third trick man answered hastily "I-X." Satisfied for the time being that the train was safely recorded on the train sheet, "S. N." returned to the contemplation of sundry libations and applied himself diligently to an oration on patriotism in general, his audience being the pumping station engineer and a few Mexican and Palomas Indian section hands, who regarded all telegraph operators as real, live "oracles" and who stood in awe as floods of oratory enloosed themselves and flowed through the lips of "S. N.," unchecked

and jubilant. At the end of another five minutes 'S. N." took occasion to again "O. S. first 242, and the dispatcher began to show suspicious wrinkles about his mouth and chin, while his eyes merrily twinkled-probably in contemplation of a mild degree of the same sort of patriotism as that being indulged in

About every five mnuutes, "S. N." proceeded leisurely to the arduous task of repeating the "O. S." on first 243 and, finally, the division track to the

"In the year 1899 the side of my right foot was cut off from the little. toe down to the heel, and the physician who had charge of me was trying to sew up the side of my foot, but with no success. When he found out that wouldn't work, he began trying to heal the wound with all kinds of ointment, until at last my whol

foot and way up above my calf was nothing but proud flesh. I suffered un-

told agonies for four years, and tried different physicians and all kinds of ointments. I could walk only with crutches.
It is sixteen months ago since I began using Cuticura Soap and Ointment for my limb and foot. The first two months the Cuticura Remedies did not seem to work, but I kept on using them both. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Ointment often during the day and kept it up for seven months, when my limb was healed up just the same as if I never had trouble.

"It is eight months now since I stopped using Cuticura Remedies, the best on God's earth. I am working at the present day, after five years of suffering. The erst of Cuticural Continent and Soap was only \$66 but the doctors' bills were more like \$600. You can publish my name and refer any one to write to me about Cuticura Remedies. I will answer all letters if postage is enclosed. John M. Lloyd, 7!8 S. Arch Ave., Alliance, Ohio, June 27, 1905."

west being cleared and the way wire from "X" (Tucson) to "B. Y." (Yuma) being quiet, operators began calling from various stations along the line, inquiring for first 243, whereupon "S. would break in and repeat the "O.

S." for the benefit of the division.

Not content with this, "S. N." called a dozen stations, such as "Z," "G. B.,"
"U. N.," "J. N.," etc., and, after repeating the now formidable "O. S." of first 243, began on an oration that lasted nearly ten minutes, punctuated by frequent interruptions of applause from the various stations on the divicion. The dispatcher finally ended the agony by directing a man near "S. N." to board passenger train No. 9, passing "S. N." between 11 o'clock and midnight and the celebration ended with the arrival of this operator. The division superintendent, whose 'sig." was "B. A. W.," and who is now in California if he eyer heard of this "celebration" and repeated "O. S." work, kept quiet and the matter was an open operators' secret which furnished diversion during the long, hot summer night for months afterward. The telephone system now being tried by the Harriman lines might be available in such cases, but it is quite likely that the familiar "O. S." of trains will be clicking off in dispatchers' offices for more than a score of

MUST HAVE AIR BRAKES

New Rule of Interstate Commerce Commission Began Aug. 1

Texas railroads have been served with notice that the interstate commerce commission ha directed that, effective Aug. 1, the provisions of the merce commission has directed that, effective and one of the provisions is that all trains shall have at least 75 per cent of all of the cars in the train properly equipped with air brakes, under the control of the engineer in all respects and operated by him. The law has heretofore provided that there should be fully 50 per cent of the cars so equipped. It will work no hardship on the Texas roads, for they can readily comply with the law with the present equipment and are constantly increasing the air brake supplied cars.

DEATH HOVERING OVER MISSIONARY

Says She'll Return When the Lord Calls"

By Associated Press. CHICAGO, August 6 .- Weak and worn from the effects of a journey of 12,000 miles immediately after an illness of eleven months in Central China Miss Louise Glass, 21 years old, a missionary, arrived here at the residence of her parents today.

Although her parents had summoned her from China in the hope of saving life, she announced her intention of returning "as soon as the Lord should call her." Miss Glass was at the South China mission at Taimung Fu, in Central China, for two years, and was ill with fever most of that time. Early in June her father, Charles B. Glass, a contractor, cabled urgent instructions to her to come home.

Miss Glass was accompanied on her return trip by Miss Catherine Flager. who is visiting Miss Glass and by Miss Mary Hill of Mount Pleasant, Ohio, each of whom has spent several years as a missionary in China.

Bulls Pin Faith to Liverpool-Foreign Market Expected to Furnish Incentive for Reaction

Special to The Telegram NEW YORK, Aug. 6.—The cotton market ruled fairly active and had a good undertone today despite the fact that weather over the holiday was generally favorable to the crop and many of those who bought Saturday looking for a reaction, turned loose their holdings during the early ses-

The opening was firm with prices 3 to 6 points higher and shortly after the call the gain was increased to a matter of 6 to 7 points. Liquidation appeared on the rise and a slump of to 9 points ensued, but the general expectation that Liverpool would furnish an incentive for a reaction by opening with prices better than due tomorrow, caused short covering at the decline which steadied the market and effected a partial recovery before mid-day.

Dullness was the principal characteristic of the afternoon session, but there was some fair buying for European account and prices held up well the close being steady and 3 to 5 points net higher. Spot market ruled quiet, prices be-ing unchanged to 10.70c for middling.

New Orleans Cotton

Special to The Telegram. NEW ORLEANS, Aug. 6 .- Although today was originally scheduled as a holiday on the Cotton Exchange, at meeting of the board after hours Saturday the former action was rescinded and this morning bulls and bears were found at the old stand. The news, however, was not of particular interest and trading proved very light, with prices inclined to do a little bette although fluctuations were very nar-

The weekly press summaries did not disclose any facts which were not already known, and as a rule told of favorable conditions, the Atlanta Constitution being an exception, as it reported further damage by rains in the eastern states. The day's weather map was generally favorable, locally heavy rains in Texas being the only grounds for bullish feeling. In response to these, opening prices were 1 to 3 points higher for the near months. Further liquidations during the initial trading dissipated the initial gain and sent prices 1 to 2 points below Saturday's finals, but the prevailing opinion that Liverpool upon reopening tomorrow would do better than due caused further covering of short contracts and toward mid-day prices worked back to former high

There was no snap to the market during the afternoon and prices hung around the same figures for several minutes at a time, but touched the highest level after the New York market closed. The close was firm with prices at a net gain of 3 to 6 points. Spot cotton market ruled steady, prices being 1-16c lower to 10 5-16c upland middling. Sales, 500 bales

Wheat Market Has Better Tone-Traders Think Reaction Due and Buy. Prices Higher.

Special to The Telegram CHICAGO, August 6.-Wheat prices regained a portion of the loss sustained Saturday and although the situation as a whole remains the same as before the holiday, the market showed firmness at all times on only a moderate volume of trade.

The principal argument of the bulls seemed to be that Saturday's slump had placed prices at a level where a reaction was due, and on this theory the local crowd took on some. Starting the day 1/8 to 3/8 higher, prices during the first few minutes eased off to Saturday's closing level under scattered buying by a large local trader. Although the advance was not without interruption, as traders who feared that Liverpool's reopening would affect the prices adversely, liquidated on hard spots, the absorbing powers of the market being good and the day's best price was reached during the last bour. with the near deliveries selling at a net gain of % to %c. Corn Corn was sold liberally during the early trading by both local and coinmission house trade, in response to reports of good rains in Illinois over the holiday, and prices dropped %c soon after the call. But early sellers took profits and bought some, being influenced by the firmness of the wheat market, and before the close a sharp upward movement occurred, carrying the price of the near delivery up 1%c from the lowest. The close was firm, with prices %c lower to %c nigher. The visible supply decreased 877,000 last week. FIRE HALL FOR SEVENTH WARD

Resolution to Ask Building of City Council

TRUSTEES ANNOUNCED

Carnegie Library Election For Year Filed For Reference of Council.

Other Filings Few

When the city council passed the resolution for building the Eighth ward fire hall, the same resolution covered construction of a fire hall in the Seventh ward. It was thought that a greater necessity existed for immediate construction of the Eighth ward fire hall than the Seventh and, therefore, the former was the first built. A resolution has been prepared and will be offered at the city council meeting Monday night, urging that work of building the Seventh ward fire hall be commenced at once; that there is at least as great, or even a greater need for the protection such a fire hall with its necessary machinery for fire fighting would afford now than when the resolution was first passed, and residents of this ward insist they are justly entitled to prompt consideration in the way of protection from fire loss, such as can be given only by a well located fire hall. It is said that a public-spirited citizen of the ward will donate a well lo-

cated and suitable lot for such use. Trustees Announced Under the terms of the resolution, by which the city council provides for payment of certain expenses of the administration of the Carnegie library, a report of the election of the trustees of the library has to be made to the city council, to be by that body file

with its records. Secretary Steere has sent the following report to the city secretary to be presented to the city council at its meeting Monday night:

"The following persons have been elected trustees of the Carnegie library: Mesdames B. C. Rhome, D. B Keeler, Willard Burton, John C. Harrison, Agnes Geer, Emma Fakes, C. W. Connery and N. Harding and Messrs. C. D. Reimers, Sam Davidson, W. B. Paddock, Irby Dunklin and George W.

Filing Features Few

Except the report on the street sprinkling bids, there is nothing of general importance filed for the consideration of the city council, which meets in regular session Monday evening. There are a number of petitions and papers of various kinds filed, and among the more important, to noon Monday, are those of which a sum-

All of the property owners of lots in blocks C2 and C3, Daggett's addition, have filed consent for the construction of a larger and deeper sewer through the blocks. The sewer is known as the J. F. Moore sewer. L. Frith has filed his cath of office

as special policeman at the Fort Worth union depot. R. D. Hall, special policeman at Burrus mill will also submit his oath. Both are accompanied by bonds. Other special or extra policemen will aso file bonds and oaths of office.

City Attorney Orrick calls attention to the fact that the sale by which the title to lot 1, block E1, Daggett addition, was conveyed to James 1'. Moore, was not properly made, but that the defect, if it can be so termed, is not a vital one. The lot has been bought by the city for the location of the Third ward fire hall.

A petition asking that Myrtle streat, at its intersection with Jennings avenue be widened it being alleged that a strip of land eleven feet wide and 224 feet long, all that would be needed, can be bought at a reasonable price. Some residents of the Eighth ward want street lights at Eighth and Burford and Ninth and Burford streets. There is a report due from the public grounds committee on the matter of a city dumping ground, but that expectation was based on the understanding that there was a definite proposition from the North Fort Worth city council for the sale of a portion of the North Fort Worth dumping ground to the city of Fort Worth.

Upon examination it was found that there was a lack of certainty as to the amount of land to be conveyed to the city of Fort Worth under that proposition, and so the whole question was held in abeyance until there was a definite proposition. Chairman Lydon of the committee is advised that there will be presented a specific proposition for the sale of a part of he North Fort Worth dumping ground to the city of Fort Worth, to be not less than five acres in extent, at the

price of \$1,000. This will be presented to the city council at the Monday evening meeting, it is now understood, and on that the public grounds and health committees can make a definite report when the matter is referred to them in regular course.

THREE HUNDRED DROWN

(Continued from page 1.)

The steamer was threading a difficult passage through the Hormigas group, where the Bajost Hormigas reef is a continual menace to navigation. The vessel began to settle rapidly immediately she had struck and a terrible scene of confusion and panic ensued on board. The fishermen along the coast sought to render every assistance in their power and sent out boats. which brought many survivors ashore. Most of the officers and crew of the

Sirio are among the saved. The survivors have gone into camp on the main square of the town at Cape Palos. Here harrowing scenes are enacted as the stricken families anxiously seek beloved members among the rescued. A mother who lost her three children went insane. The doctor of the Sirio gave up his wife and child as lost, but they were finally brought in by one of the rescuing boats, and the scene as this family was reunited was most affecting.

Kill Women and Children LONDON, Aug. 6 .- The Madrid correspondent of the Daily Telegraph describes the Sirio disaster as one of the grants with their knives in their hands and without regard for the women or children, fought with the greatest brutality for the possession of life buoys and boats. Many were killed or wounded, including several members of the crew, who were attacked by emi-

grants. When the captain saw the vessel was lost and committed suicide by shooting with a revolver, the other officers lost their heads and there was nobody to direct the work of rescue. Eye-witnesses give awful pictures of the brutal panic on board. For half an hour the emigrants were masters the situation. They completely

Mother Gray Co., Le Roy, N. Y. overcame the crew by sheer force of numbers, and this in spite of the efforts of the officers who tried to save

the women and children first. One report even states that a group of emigrants approached one of the ship boats which already was full and was about to be launched, and dislodged the people, killing several with their knives.

Just as they were about to occupy the boat themselves another body of armed emigrants came up and a fierce fight for possession of the lifeboat followed. Many of the survivors brought

ashore were seriously injured and a number had sustained fractured limbs. Some of the injured subsequently died. It is reported that the celebrated Spanish singer. Lota Mineles, was among the drowned.

Heat-Rending Scenes

Many heart-rending incidents are re lated. A group of six children clambored into the shrouds of the Sirio while their mothers were taken off by one of the trawlers. The Sirio sank before the children could be rescued. watched their children as they were The mothers, frantic with despair, engulfed. The children uttered piercing shrieks as they were drawn under the waves. It was with difficulty that the women were restrained from jumping into the sea. A monk among the passengers was drowned while kneeling on deck.

The Austrian consul at Rio de Janeiro jumped into the sea wearing a life belt. He then noticed a woman and child near him on the point of going down. He gave up his belt to them and tried to swim ashore, He was almost exhausted when rescued by a fishing vessel.

The body of a child brought ashore had around its neck a picture of the Madonna and a young Italian who was drowned had clasped in his hand a picture of his fiancee. All stokers went down with the ship. They were unable to reach deck in time to save themselves.

Meyerson-Shuster.

Miss Yetta Shuster, daughter of Mr. and Mrs. Frank Shuster, 609 Calhoun street, was married Sunday night at the Imperial hall to Sam Meyerson of this city. The ceremony was performed by Rabbi A. Gordon and a long list of guests witnessed the wedding and participated in the wedding feast. which was spread on long tables after the ceremony. Mr. and Mrs. Meyerson will make their home for a time with the parents of the bride on Calhoun

Smith-Dexter.

Miss Maud Dexter, daughter of Mr. and Mrs. Dexter, 900 Louisiana avenue, was married at the home of her parents Sunday evening to Joseph H Smith, Rev. I. Z. T. Morris officiating. The wedding is the culmination of a pretty little romance which had its beginning while Miss Dexter was a patient in a nospital in which Mr. Smith was working. Rev. Morris was confined in the hospital at the same time and a friendship sprang up between the three during the period of convalescence of Miss Dexter and Rev. Morris. The friendship between the two young people ripened into a deeper relationship, which resulted in the wedding of Sunday. The two will be at nome at 900 Louisiana avenue.

Beacham-Hill

Miss May Hill was married Sunday fternoon to R. F. Beacham at the residence of the bride's parents, 814 Florence street, Rev. W. H. Duke, pastor of the East Leuda Street Christian church, officiating.

O JOY, THE GIRLS ARE COMING HERE

Chorus of 100 to Rehearse in Fort Worth

One hundred chorus girls! They are expected to arrive in this rily within the next ten days. With them will come a dancing master, an experienced stage picture architect and wo wardrobe mistresses.

Bunching at Chicago, the girls will come direct here for the purpose of rehearsing "The Isle of Ginger," a musical comedy of many song hits and clever comedians, which is to be carried on a tour of all southern, southwestern and northwestern states by William H. Rice. Mr. Rice has been in Fort Worth for some time. It was known that he was on business, but just what that business was could not be learned. However, he says now that he will send three shows out of Fort Worth, as follows:

"The Isle of Ginger," carrying 127 Rice & Connelly's Minstrels, fifty strong.

Rice's "Humpty Dumpty," with a list of of eighty people. "The Isle of Ginger" will have its rehearsals here, while the other two attractions will lead out from Dallas. Just where the rehearsals for "The Isle of Ginger" will take place in the city has not yet been given out by Mr. Rice, who leaves tomorrow for Chicago, to herd up his "ponies."

Postal Changes

The following changes are announced t the headquarters of the railway mail service in Fort Worth: John I. Worthington Jr. of the Mo net and Paris run, has resigned. James H. Golladay of the Denison and Hillsboro run, has been promoted Marion L. Wallace of the Dallas and Beaumont run has been transferred to the Houston and San Antonio run and promoted to class 2.

RETURNS HOME FROM COLORADO

Fred Buckley Back From Elks' Reunion

Fred S. Buckley of the Waples-Painter Lumber Company, North Fort Worth, has returned from a three weeks' trip to Colorado resorts, including Denver, Colorado Springs and Cripple Creek. While in Denver Mr. Buckley attended the annual reunion of the B. P. O. Elks, which he says was the greatest in the history of the order. He states that it was disappointing not to see Fort Worth represented in the Elks' grand parade on July 19. Houston was represented by a large delegation.

Mr. Buckley says that he has enjoyed his vacation trip very much despite some rainy weather, but that Fort Worth is the only city in which to live, and it seems mighty good to get back home.

FIFTH WARD WILL BE ROSEN HEIGHTS

Another Meeting to Consider Joining North Fort Worth

As the outcome of the mass meeting of Rosen Heights citizens last Saturday night when Mayor W. D. Davis spoke on the question of annexing the Heights to the city corporation of North Fort Worth, there will be another meeting next Wednesday night in the school house, at which time citizens will discuss the project among themselves. Popular feeling is strongly in favor of annexing to the city, but they want

to enter under certain conditions. S. O. Lovejoy, who has interviewed several on the question, stated Monday that it is the desire of Rosen Heights to be taken in as the Fifth ward and given representation in the council at once.
