# DEMOCRATS MAKE HEAVY GAIN IN MAINE ELECTION

### Country Vote Alone Saves Day to Republicans

### COBB BARELY WINS

### Labor and Liquor Law Attributed to Close Result

PORTLAND, Me., Sept. 11.—The result of the election in this state yesterday, when the republican plurality for governor, was approximately reduced to about 8,000, while at the same time the total vote was greatly increased over the figures of four years ago, is attributed by leaders of both republican and democratic parties to the popular feeling over the operation of the prohibition liquor laws.

Although the republicans re-elected Governor William T. Cobb and all four congressmen of the state and have a working control of the state legislature, the pluralities are so generally reduced as to occasion surprise in many quarters.

### What Caused Small Majority

Both Governor Cobb and Congressman Littlefield, in whose district the most vigorous battle of the campaign was waged, are of the opinion that the Sturgis law, providing for the enforcement of the existing prohibitory law by state deputies was the leading factor in the results.

The democrats made the submission of liquor prohibitory amendments to the people as part of their platform, while the republicans stood squarely for the enforcement of prohibition and strict enforcement. The result was a defeat in the cities, the democrats carrying all twenty-one municipalities of the state with the exception of four smaller ones.

### Country Vote Against Democrats

Votes in the country districts, however, where the resubmission idea never gained any noticeable following, offset the democratic gains in the cities.

In the Second congressional district, where Samuel Gompers, president of the National Federation of Labor, conducted a vigorous campaign to defeat Congressman Littlefield, Mr. Littlefield's majority was reduced from that of four years ago by several thousand votes. The congressman attributes the result to the campaign against him.

# COWAN MAY AID STATE IN FIGHT

### Fort Worth Man Interested in Railroad Injunction Suits

AUSTIN, Texas, Sept. 11.—Judge Sam H. Cowan of Fort Worth, attorney for the Cattle Raisers' association of Texas, is here today conferring with Attorney General Davidson. Judge Cowan may assist the state in the prosecution of the injunction suits now pending in the Federal court.

# LEMMON FOR BRYAN

### Reported Connecticut Democrats Will No: Indorse Nebraskan

CHICAGO, Ill., Sept. 11.—The Record-Herald has the following from its correspondent at New Haven, Conn.: Connecticut will be the first of the United States to hand William J. Bryan a lemon tomorrow. It will refuse to accept the democratic state convention to either indorse him for the Presidency or to indorse his Federal ownership platform. The platform was written last night, and will contain a local option amendment for municipal ownership, provided full price is paid for the properties bought.

# TEXAS GUARD IS ON THE INCREASE

### Recent Encampment Causes Many to Join Companies

AUSTIN, Texas, Sept. 11.—Major R. H. Beckham of Fort Worth, who was detailed after the encampment to assist Colonel George T. West, paymaster of the Texas National Guard, in checking up the company payrolls in the adjutant general's department, stated that the recent encampment has resulted in greatly increasing the membership of the Texas National Guard Officers' Association.

Officers Organize  
Many of the officers of the guard who were not members of the association heretofore have joined during the encampment, and the association now is in a flourishing condition. A meeting of the association will be held tonight, probably at Dallas.

NEW YORK, Sept. 11.—Moves and countermoves by the Cuban government and the revolutionary junta to corner the steam yacht market and convert swift little vessels into dispatch and gunboats kept Cubans and their sympathizers guessing yesterday. Out of many rumors, came a statement that the government had bought from J. B. L. Mott, the Cavida, a steam yacht 154 feet long, which has great speed and is an excellent sea vessel.

# TEXAN DIES SUDDENLY

### Denison Citizen Follows Two Partners in Sudden Death

ALEXANDRIA, La., Sept. 11.—George F. Murphy, aged 43 years, of Denison, Texas, died here yesterday of heart failure. The remains were shipped to his home, where his wife and four children reside. He was a native of Sherman, Texas, where his mother, four brothers and two sisters now reside. Murphy was the superintendent of bridge construction of the Texas and Pacific railroad from Marshall to Fort Worth. Mr. Murphy died while on a trip to Alexandria, La., by a tree blowing over his tent. Another one of Mr. Murphy's partners, E. Pat Smith, was killed Jan. 18, fourteen miles south of Pollock, where his head was struck by a tree blowing over his tent.

# TEXAS AGAIN WITHOUT CASH

### Coffers Empty and Old Soldiers Must Take Warrants

# HITS OLD SOLDIERS

### Condition Will Bar Creation of Department of Agriculture for This State

AUSTIN, Texas, Sept. 11.—Before the expiration of this week, it is almost safe to say that the funds to the credit of the general revenue in the state treasury will have been exhausted, and the state will again be operating on a deficit, that is all warrants will have to be registered. The cash is now at a low ebb, especially as Treasurer Robbins will be finished paying the current expenses of running the state government for the month of August.

# WARRANTS FOR LEGISLATORS

State Treasurer Robbins declared that when the state goes busted this time it will remain so until about March 1, 1907. Thus it will be observed that the members of the Thirtieth legislature will have to have their warrants registered and if they want the cash before the date indicated above they will have to sell the warrants at a discount. This state of affairs will bring the financial condition of the state up to the lawmakers in a most effective way, and may also be food for Governor-to-be Tom Campbell when he sends his inaugural message to the next legislature.

# NO MONEY FOR SOLDIERS

The next pension quarter commences on Oct. 1, and it will take about \$250,000 to pay pensions to the old soldiers throughout the state, and from present indications it is needless to say that they will have to discount their warrants in order to get the cash.

# PREVENTS ANY NEW MOVE

This condition of affairs will have the effect of putting a damper on those members of the next legislature who are in favor of passing a law creating a separate department of agriculture for Texas. It is said that to make such a department effective it will take an appropriation of something like \$200,000, and where the lawmakers are going to get this money is a question that will have to be decided at the present time. Even Governor-to-be Campbell is committed to the creation of such a department for Texas, as that was one of the planks in his platform upon which he made his campaign.

# DEMANDS BY FARMERS

The farmers, however, appear to be demanding that such a department, contending that Texas being one of the leading agricultural states in the union it should be well equipped with an up to date and effective state department of agriculture which will be maintained separate and apart from the department of insurance, statistics and history.

# HARRIMAN ADDS NEW BRANCHES

### 1,100 Miles to Increase Cali- fornia System

SAN FRANCISCO, Sept. 11.—E. H. Harriman and associates, through local officials of the Southern Pacific, set aside an additional \$3,000,000 to pay the preliminary expenses for railroad extensions in Oregon, two of which at least will penetrate into the north and west. This makes a total of \$7,500,000 set aside for this purpose during the past two years. Most of these extensions connect with the Shasta route as feeders and open up a lot of new jobbing territory for merchants in San Francisco and Portland. There is building, or to be built, 1,100 miles of new branches at a bonded cost of \$44,000,000.

Armed Men Compel Negro to Face Train and is Badly Hurt  
CUIERO, Texas, Sept. 11.—The Sam Houston Flyer from San Antonio brought Fred Jackson, colored, to Cuero for hospital treatment. Jackson has a hair-raising story. He was porter on the excursion which ran from San Antonio to Fort Lavaca yesterday. On its return trip the excursion train was on the siding at Landauan and Jackson turned the switch and sat down on a beer keg to wait until the Sam Houston passed and to turn the switch and get the excursion train on the main line again. While in this position two men armed with guns approached Jackson and hearing the station whistle, they cocked their guns and fired at Jackson in front of the train. As the Flyer was upon him Jackson made a desperate effort to clear the track, but was caught by the pilot and his left arm and face badly bruised. He was then picked up by the Sam Houston. He was taken to San Antonio this afternoon. No clue to the perpetrators.

### People Take Refuge in Chapel While Homes Are Burned by Czar's Troops

WARSAW, Sept. 11.—The correspondent of the Associated Press interviewed a refugee from Siedlce today. The man said: "I was staying Saturday in the Kupiecki Hotel, in Siedlce. Suddenly at 9 o'clock in the evening I heard two shots, which at once were followed by a volley. In a few moments a number of Jewish soldiers and children rushed into the hotel, pursued by soldiers. Shooting continued for an hour and then came to an end. Then the noise from the streets was heard, the crying and moaning of the wounded. At midnight several soldiers passed the house, singing martial songs. I learned that the troops had been searching the houses in an effort to discover members of the terrorists' band. To this end they went through the Wiktorja hotel and pillaged the wine room.

# BEGAN WHOLESALE CARNAGE

"They got drunk rapidly and coming out on the streets, began wholesale murder and plunder. At 2 o'clock Sunday morning, terrorists occupying a house on Plenkna street threw a bomb at the soldiers. Batteries were at once brought into play and bombarded the houses on Plenkna and Warsaw streets. The Kupiecki hotel, where I was staying, was destroyed. Refugees were fleeing through the streets, and as they ran the soldiers were constantly firing volleys at them. I ran with the others and managed to reach a church in safety. Here 300 fugitives, some mortally wounded, had already congregated.

# MARKET PLACE BURNED

"This was at 4 o'clock Sunday morning. I passed down Sokolowska and Palwa streets and found the market place had been burned. At the end of two rows, back food and other goods forced the refugees in this church to leave it. "We made our way through the streets, which were covered with debris. There were many dead bodies and wounded persons were lying about in every direction. We finally reached the village of Roskose. "Most of the families in Siedlce who barricaded themselves in their houses out of fear of the soldiers, have now been three days without supplies. The wounded have not been cared for, as the soldiers will not permit physicians to enter the town. "The refugees declare that the principal plunderers are the reservists, who passed through Siedlce Monday on their way home.

# CENTRAL AMERICA FIGHTING FEVER

### American Surgeon Kills Off Yellow Jack

NEW ORLEANS, La., Sept. 11.—One of the most encouraging reports of the summer on the struggle to exterminate yellow fever was given out today by Juan J. Fernandez, counsel general here to the republic of Honduras. It indicates the tropical countries from which it has been charged yellow fever infection in the past has been transmitted to southern United States is successfully ridding the territories of the disease. In Honduras with an American surgeon in charge, precautions have been carried to almost extremes.

# MANY HOUSES BURNED

Houses of the very poor have been burned to destroy filth and new houses have been supplied in places. Frequently clothing worn by beggars has been burned, better and cleaner materials being given these unfortunates. Working on the mosquito theory of yellow fever infection, stations have been screened and sulphur has been burned indoors and petroleum spread over the surface of stagnant waters. Weeds have been cut in great quantities. As a result during the last two months communities where last year fifty or more cases of yellow fever were reported, not one case has been reported during the last two months.

SULPHUR SPRINGS, Texas, Sept. 11.—Will Gaudy of this place was badly burned about the hands and face yesterday. Gaudy was at his home in Texas street, getting ready to leave on the morning train for the Missouri, Kansas and Texas hospital, having been burned about the arms while unloading crates treated with creosote. A kerosene lamp exploded between him and the door, setting fire to the house and cutting off escape by way of the door. In jumping through the window, Gaudy was cut by broken glass. His wife and children following were unhurt. The fire was extinguished by the West End fire department before the house was seriously damaged.

# ASKS \$100,000 ON CHADWICK NOTE

### Man Who Went Security for Woman in Trouble

NEW YORK, Sept. 11.—A dispatch to a morning paper from Boston says: Herbert L. Newton of Brookline, who came into prominence during the Casse Chadwick exposures, is defendant in a suit instituted by Robert Lyons, lawyer for the Citizens National bank of Oberlin, Ohio. The hearing on the case was held yesterday before Judge Cull in the United States circuit court.

Counsel for the receiver of the bank asserts that Mr. Newton is liable for a note of \$100,000 which Mrs. Chadwick deposited with the National bank as security for a note appearing upon the instrument. Mr. Newton demanded that the books of the bank be produced to prove the date of the note, his counsel asserting that Mrs. Chadwick and certain officials of the bank conspired in transacting fraudulent business under the name of doing a legitimate banking business. Judge Cull took the matter under advisement.

### Independent League Candidate Scores Belmont and Ryan on Eve of Convention

NEW YORK, Sept. 11.—Owing to a misunderstanding as to the exact meaning of the address of W. R. Hearst before the Independent League state committee in regard to fusion with the democratic party that league's press bureau announced Mr. Hearst spoke in part as follows: "Gentlemen, I opposed this proposition that has been submitted and it has been said there is no one in this hall who is in favor of it. If the democratic party completed the primaries and elected men who represented the rank and file, and not Ryan and Belmont interests, and assembled in convention and declared for principles identical with ours and wished them to unite with us and combine against" the fusion proposition, I think we would be unwise to refuse to consider an honest proposal.

# Would Sacrifice No Principle

"I think this, not because I am particularly anxious to be elected governor, but because I am not willing to be elected governor by any sacrifice of principles, but do believe it due to the people who followed us and our supporters to be elected for something some time and put into practice and the chairman of the committee, M. F. Jhmsen, are having hard work to carry through the democratic nomination in Buffalo. The Glisley House is crowded with members of the Independence state committee and delegates who are known their bitter opposition to any deal on the part of Mr. Hearst and the league with Charles F. Murphy or any one else who is in favor of fusion. For the most part the men who made objections were democrats and republicans who had been disappointed in the old party. Every depositor who reached the teller's windows and asked for his money was paid in full, and the announcement was made that the bank would be ready to meet any requirement of the run today.

**CATTLEMEN SLOW IN RESPONDING**

Subscription to the Fat Stock Show Is Delayed

CAUSES DISAPPOINTMENT

Capt. Burnett Believes Many to Whom Letters Have Been Sent Have Overlooked Answering

Heretofore the workers in the National Feeders' and Breeders' Show have been possessed with a world of confidence regarding the final outcome of the out-of-town canvass for members to the association. This confidence has, in a great measure, been based upon the results of the western cattleman and breeder has always possessed for generosity when a good thing is hanging in the balance.

There has never been a time in the history of the southwest when a good thing has been offered to the cattlemen of Texas would respond when the time came. But now the time is at hand and the response has not been all that it should have been.

The hundred dollars is a small thing to the average southwestern cattlemen and yet several of those sums would go far toward insuring for the southwest an institution second to no institution in the world, devoted exclusively to the cattle interests.

Captain Burnett, when seen in his office Monday, appeared somewhat disappointed at the results of the canvass so far. He possessed such absolute confidence in the cattlemen of this country that he had openly boasted that the men who have been the prime movers in the development of the greatest section of the greatest nation in the world would come in on the home stretch and win the exposition structure in a walk, but as a matter of fact the National Feeders' and Breeders' Show is not receiving the support it merits from the stockmen of the southwest.

Captain Burnett is a man who would give the last dollar to secure the institution out of his own pocket, but the fact that the stock yards committee specify that half of the necessary 500 members must be raised outside of Fort Worth and therefore men like Captain Burnett and Marion Sanson and Stuart Harrison and the numerous other workers of the Panther City must stand up and call out to the other well-known cattlemen of the southwest for assistance in the extremely high presents itself.

A number of the most prominent cattlemen in the southwest have already responded, but there are hundreds of others scattered over the vast stretch of acres from the south and west of Fort Worth that could respond who have failed to do so. That the institution would mean more to the southwest than anything which has ever been offered to this section could not be doubted. This has been proved time and time again, and the leading spirits in the cattle industry in the southwest have expressed their belief that it will mean much to this section.

When Captain Burnett and Marion Sanson journeyed to Chicago to take up the matter with the Stock Yards Company, these intrepid workers asked for a proposition, not believing, but knowing that the cattlemen of the southwest would aid in the matter. But it seems that there has been a miscalculation somewhere, and the men to whom so much confidence was placed have failed to respond.

"You hold on a while," said Captain Burnett yesterday, "the boys have merely neglected the matter, but you will hear from them. I expect that some of them have not been to town since they received their letters. Take my word for it, we will hear from them later."

Of Vital Importance

It is to the interest of every member of the Cattle Raisers' Association that this exposition structure be secured. The cattle interests of the country demand it and as the matter now stands, it is up to the cattlemen of the southwest whether they want it or not.

A personal letter with subscription blanks has been mailed to each member of the Cattle Raisers' Association, and it is hoped that the members, tireless workers for the best interests of the great live stock interests of the southwest, anxious to await the support of the members of the association and of all the cattlemen of the southwest, by promptly subscribing for membership and aid in adding to the funds of the organization.

**CATTLE RAISERS CONCLUDE WORK**

Endorse Fat Stock Show and Approve Reciprocity Plan

The regular quarterly meeting of the Texas Cattle Raisers' Association was concluded Monday evening and among other matters of importance were the approval of the calling of a convention to work out the reciprocity agreement idea, the endorsement of the Fat Stock Show Auditorium project and the admission of new members.

The reciprocity agreement idea is that the cattlemen of the country, western country anyway, shall hold a convention, at which all of the associations shall be represented, to effect an organization to advance the cause of reciprocity between the United States and other countries, with the view, among other things, of providing an enlarged market for the live stock products and the live stock of the country.

The furtherance of this plan a convention of all of those interested is called to meet at the Midland hotel, Kansas City, Mo., during the week of the American Live Stock Show, which is held annually at that city.

By unanimous action a resolution was adopted by the committee endorsing the National Feeders and Breeders' Association, and the resolution of endorsement follows:

"We, the executive committee of the Cattle Raisers' Association, having in view the advancement of every interest of the livestock industry throughout the state of Texas, Indian Territory and the entire southwest, heartily endorse the movement on foot to establish permanently an annual live stock exhibition in North Fort Worth, Texas, and the erection of a suitable auditorium at said place with seating capacity of 10,000 people or more, to the end that the southwest may have an opportunity to lend its influence to the betterment of every phase of the live stock industry and to compete with Kansas City and Chicago in this great enterprise.

"And we hereby endorse the National Live Stock Feeders and Breeders' Association of Fort Worth, Texas, and the citizens of Fort Worth for their efforts in this direction."

New Members  
The following new members were admitted into the association:

William Adams, Alice; L. D. Alexander, Englewood; Sam Ashton, Purcell; T. S. Baird, Landon; Charles Blanton, Comstock; H. Boddy, Henrietta; James Brundage, Encinal; S. T. Butler, San Angelo; E. D. **IN MEDINA COUNTY**

L. V. Have Advanced to \$25 an acre

W. J. Garnard resides on his ranch in Medina county and has his letters and other mail sent to Lytle postoffice. "I am a stock farmer," said he, "and I think I have a good thing. My place is near the old John Lytle ranch and you know there is no better territory. Grass was never better and cattle are fat. I worked for Captain John Lytle, when I was a boy, and for seven years at that and he was a good cowman. I tell you. Every man, woman and child down our way think probably the babies, know Captain John or have heard of him. I am going to hunt him up, as I hear he is not in the country, and carry him back to the old ranch, where he can breathe old familiar air and get well.

Well, the country did brush up a little, but now you would never know it, as it is almost all in farms, the largest of which is not more than 1,000 acres. The use of the wonderful Pyramid Pile Cure at once, by mail, in plain sealed packages.

**WEEVIL AND WORMS BUSY**

Jackson County Man Says Cotton Is Threatened

E. Branch is a South Texan, living in Jackson county, and only a few miles from salt water. Edna is his postoffice. "I came here with three cars of stuff," said he, "fat stuff, and there is plenty more where these came from, which would hurt this market if prices would only rise a little. Grass is excellent now and cattle will go into the winter in comely condition indeed. All feed crops are good and cotton is doing pretty well considering that it has to bear the combined attacks of the boll weevil and boll worm and also the leaf worm, all of which are busy just now in trying to outdo the others. There is one thing to be said of the leaf worm and that is, that when he gets down to real work he can do more destroying in a shorter time than any other kind of pest and there will be mighty little left when he gets through. There will be no top crop this year and the average will be short."

**WANTS TWO THOUSAND HORSES**

Mexican Cavalry Head Here to Make Purchase

Fred Schwartz of San Antonio, an experienced horse trader, is in the city with General Manuel Sanchez Reveras, chief of cavalry for the army of Mexico. "Yes, I am assistant of the general in his endeavor to purchase two thousand horses for military purposes in Mexico and you know I have had a lot of experience in this line. Speaking of Spanish I do, also gives me an advantage in my efforts to aid the general. The class of horses that the Mexican government wants is of the pony class averaging about 14 hands and such as have been raised in the climate of Texas. This is a fine market and there is no doubt but that the horses will be found here, although there are not enough on the yards at this time to supply the demand.

"The general is very much pleased with the kindness and courtesy shown him since his arrival in Fort Worth and especially with the assistance rendered him by the horsemen at the yards, who have placed themselves at his disposal and given him every assurance that he would receive nothing but the best of treatment at their hands. As one of the leading ones said, it is the desire of the men connected with the horse market at this place to build up a first-class market and one that is known for its honesty and fair dealing. Of course should everything work out right this time there is no doubt that it will surely make in this line will amply come this way.

The class of horses wanted cannot be found in Mexico now and the government naturally turns to this market as the greatest in Texas. This is certainly a moving city and seems to be the best place for the horse market in the day time. Cattle and crop conditions are all very good down in the southwest division of the state and one should see the country, honest and fair dealing. Of course should everything work out right this time there is no doubt that it will surely make in this line will amply come this way.

**TOO MUCH RAIN**

C. W. Mertz of Cleburne Reports Damage to Cotton

C. W. Mertz of Cleburne, a stockman, has been in the morning looking around for something to buy in line with his ideas of what is good for feeding. "Outside of too much rain we have gotten exceptionally well this year in all lines of industry and especially in this so with stock and feed for stock. For cotton, however, the rain has been doing some damage. There is very little buying as yet for feeding, but it is more than probable that the sowing season will begin in earnest just as soon as it is known for certain what the crop of cotton will be."

**STATEHOOD POLITICS**

Territory Man Says There is Likely to Be Difficulty

W. E. Dupree recently saw Owl, I. T. He paid a visit to the Stock Exchange Saturday and remarked to his friends that everything looked very damp and full of moisture down here. "Well, you may say that the very same condition is with us up in the territory, for we have had too much rain, and the result is that some people are complaining of worms in their cotton. Of course, this is always the case when snowery weather occurs in the territory. I think it is a fair bet that cotton season, but I never remember to have experienced as much wet weather through the whole year as we have in the territory. It is a wonder to me that the worms have not taken the cotton long before this and were ready for any more that they could get. Grass is fine and cattle fat. Corn is an immense crop and will furnish lots of feed at a lower cost than last year. Everybody is interested in politics now up our way, that is, getting in line for statehood. Oklahoma may think that she is going to have it all her own way, but we will mix it with her sure with the show-down comes. Of course, no one can tell what an Indian is going to do or how he intends to vote, but as the ones who live are all southern Indians and took part, that is, the older ones, in the civil war in the Confederacy, I think it is a fair bet that they will vote the Democratic ticket. Probably the Cherokees or most of them will vote the Republican ticket as they live near the Kansas line and a majority of them went into the union army. Of course, men's politics are governed almost always and entirely by their environments, about the same as they are in their religion, but at best it is only guess work as to what the Indians will do."

NEW YORK STOCKS

Gould Line Shares in Good Demand, Others Unloaded at Expense of Prices

Special to The Telegram. NEW YORK, Sept. 11.—Liquidation was a very important factor in the stock market today and the bull crowd seemed powerless to cope with it or more probably did not care to exert themselves very much to prevent some of the smaller fry getting out. At any rate prices for the general list declined sharply during the early hours and liquidation was not entirely responsible for the slump, for rumor had it that some of the big people in the street had become disheartened over the monetary situation and were not only dumping their long lines, but also going short.

The stock market opened slightly irregularly, changes, however, being not of material importance, with a rise of 1/4 point in Atchison the feature, inasmuch as it placed that issue at a new high level. With the exception of the Gould lines, which were in great demand and exhibited strength, Missouri Pacific rising 1/4 and Texas and Pacific 1/4 points, the rest of the market was downward from the outset and before noon recessions of 1 to 2 points occurred. Sales to noon aggregated 613,200 shares.

Occasional rallies occurred during the afternoon, but liquidation always appeared on a rise and support was not adequate, consequently the market closed heavy with prices near the lowest.

403,209 BALES GINNED

Report in Full Sent from the Southern States

WASHINGTON, D. C., Sept. 11.—A bulletin issued by the census bureau places the cotton ginned in the United States up to Sept. 1, 1906, at 403,209 bales, counting round bales as half bales. Up to the same time last year 476,655 bales had been ginned.

Cotton Prospects Poor. R. P. Webb of Alford is spending a few days in the city and when interrogated regarding cotton prospects took a rather pessimistic view of the situation. He said: "At this time last year receipts at Alford aggregated about 800 bales and at Decatur about 500 bales, to date Alford has received one bale and Decatur five bales from this season's crop; 5,500 bales would be a very comforting estimate for Alford's receipts the forthcoming season, whereas last year the amount was in the neighborhood of 8,000 bales. It is simply a case of too much rain. Rain has fallen almost incessantly for the past ten days and the crop has been damaged materially as a result. In Wise county there are many places where the plant has gone to stalk so rapidly that a man on foot cannot reach the top, and the abnormal growth has been at the expense of fruitage, for the plant is very light, with bolls, and owing to the lack of sunshine bottom bolls are decaying fast. A recent trip through parts of Montague and Jack county disclosed practically the same condition prevailing."

WATERSPOUT FALLS

Panic Caused in San Marcos by Rain and Hall. SAN MARCOS, Sept. 11.—A raging waterspout fell here yesterday afternoon. Rain was accompanied by wind and hail. Several bus teams that were standing at the depot as frightened and ran away, doing some damage. The train carried many students coming to school here and a panic all over ensued at the depot. No damage, however, to any one resulted.

NEW YORK COTTON

Market Resumes Comatose Condition, Bullish Foreign Attitude Fails to Strike Responsive Chord

Special to The Telegram. NEW YORK, Sept. 11.—The cotton market resumed its normal state today and the session was unusually quiet considering the fact that developments such as the excellent report usually furnish ammunition for an active market for several days following their disclosure. In this case, however, the release into the market of the condition is not at all surprising, as the situation is different from any which the trade has had to deal with heretofore, owing to the fact that the tardiness of the department of agriculture report deprives it of any material value except as a basis from which to approximate the September condition.

Liverpool's acceptance of the government reports as bullish doctrine, as reflected in the market conditions in both the spot and future departments, particularly by the increased demand for the September contract, is a stimulant, in fact the opening of the market is not at all surprising, as the situation is different from any which the trade has had to deal with heretofore, owing to the fact that the tardiness of the department of agriculture report deprives it of any material value except as a basis from which to approximate the September condition.

Although there was no outside trade to speak of, the crowd who went about earlier in the day covered during the afternoon and prices eventually attained a net gain of 3/8 points, losing it, however, in the final half hour, being 1/2 point lower at the close, which was steady. The spot market ruled quiet, prices being unchanged at 9.80c for middling, sales, 471 bales.

Table with columns: New York Cotton, Open, High, Low, Close. Lists various grades like January, February, etc.

New Orleans Cotton

NEW ORLEANS, Sept. 11.—Extreme quietude prevailed at the local Cotton Exchange today and all was the more marked because the talent was primed and coiled for a big boom, which, owing to Liverpool's very favorable attitude might well have been gotten under way. Imagine the surprise manifested when prices were refused to follow the foreign advance, opening figures being only 1/32 points higher, while within a comparatively short time values were below yesterday's final.

An increased spot demand, rains in Texas and a forecast for more tomorrow, with a government weather bulletin reporting unfavorable weather in the same state during the past week, all failed to create any activity and the range of fluctuation to midday did not exceed 7 points.

There was no increase in activities during the afternoon and the market remained quiet, with prices at a net loss of 2/32 points. Spot cotton market ruled firm, prices being unchanged at 9 1/4c for middling, sales, 1,700 spot bales; 2,300 f. o. b.

New Orleans Cotton

NEW ORLEANS, Sept. 11.—The local talent do not consider yesterday's American reports regarding cotton indications of a superabundant yield, was clearly demonstrated by the course of events today, particularly in the spot department, where prices advanced 9 points to 5.54 for American middling and the demand exceeded any noted for several weeks past.

The future market also gave a good account of itself, for while opening prices were a shade lower than due at an advance of 5 points, the increasing demand for the contract as a source of great gratification to the bulls and a firm tone was soon developed, the gain being increased to 2 p. m. Owing to disappointing advices from New York prices eased off from the best during the final trading, the close being quiet with prices at a net gain of 6 at 7 1/2 points.

CHICAGO GRAIN

After Effects of Government Report, Firmness for Entire List—Market Quiet

Special to The Telegram. CHICAGO, Ill., Sept. 11.—Yesterday's report by the agricultural department did not instill any great amount of life into the local grain market today, but was probably responsible for the firm tone which the entire list exhibited throughout the session. Wheat traders operated on a limited scale, but the bulk of the transactions were beneficial to prices and after a slight decline immediately following the call, values held well above yesterday's final. The gain at one time amounting to 3/4 c. While weather conditions were perfect, the government figures were construed as bullish, and this explains the advance. A sharp recession occurred in the late trading and finally showed a net gain of 3/4 c.

Local receipts 100 cars, including 57 contract grade, as compared with a total of 32 cars this day last year.

Corn shared the enhancement in value with the other cereals, despite the fact that the condition of the crop is improved as compared with last month. There was some good buying during the day and prices at one time attained a level of 9 1/2 points in short contracts, the market only recovering yesterday's final, closing prices being at a net gain of 3/4 c.

Local receipts 684 cars, including 353 contract grade, as compared with a total of 711 this day last year.

Oats were in excellent demand and prices worked up 3/4 c to 7/8 during the session, final being at a net gain of 3/4 c.

Provisions had a fairly active market, but owing to a slump in prices for live hogs which occasioned a renewal of selling pressure, causing a material drop in prices early in the day. Most of the loss was recovered later in the day and final was irregular, being 7/8 to 1 c higher for the list.

LIVERPOOL, Sept. 11.—The wheat market ruled quiet, opening prices being 1/4 above yesterday's final, and closing figures unchanged to 3/4 lower.

The corn market ruled steady, opening prices being unchanged and final 1/4 lower.

FT. WORTH AND RIO TO CONCENTRATE

Railroad Commission Grants Request of Road

AUSTIN, Texas, Sept. 11.—The railroad commission today authorized the Fort Worth and Rio Grande Railway to concentrate at a point between Comanche and Stephenville cotton from points, and to waive back haul charges thereon when such concentration points are such as to result in a net profit.

HONEA PROMISES A STATEMENT

Says Kaiser Testimony Gives Only One Side of Case

Sheriff John T. Honea, speaking of the testimony in the John Kaiser trial Monday, said to a Telegram reporter Tuesday morning: "There are always two sides to a case, and that is particularly true as to the note for \$800 which was brought out in evidence at the trial. There is such a note in existence and it is over due at least a year, but there never has been any suit filed on it and it is probable that there never will be, and no one knows it better than Kaiser, who testified that he was security on it. He knows why the note has not been paid. I invite you on the note, as it would give me an opportunity to show in court why it has not been paid by me and why I will not pay it. Some people do not want that showing made. All that hurrah about a crap game in the county jail is tommyrot. There are a lot of dice and poker chips over there that captured in raids on gambling houses, and some of them are 'loaded dice'—they were loaded before they got to the jail. For pastime the guards at the jail amuse themselves now and then playing with the dice and sometimes with cards, but that there has been any crap game conducted there for many months by the sheriff's force is all rot. I will very likely have a statement to make soon that will present another side of this case that will put the matter as interesting as the Kaiser trial was."

Raised Monster Pumpkin

TERRELL, Texas, Sept. 11.—A. T. Cunningham, a farmer living in the Ables Springs community, brought a mammoth pumpkin to the city yesterday which he had grown on his farm, measuring four feet and nine inches in circumference and weighing fifty-eight pounds. Mr. Cunningham said he has many others as large which he was not fully grown.

CATTLE AND HOGS

Steer Prices Generally Steady—Cows Sell Unevenly—Calves, Follow Monday's Late Weakness

Cattle receipts today consisted of 2,455 head, including 2,000 calves, over 1,300 of the latter coming from north of the line.

Beef steers were very largely in evidence, making up at least half of the mature cattle run. Quality was not lacking in the grasser end, though the cake steers might have shown more finish had they been longer on feed.

With a larger supply before them the market was generally held to be steady with the bulk of the business on Monday with a few steers made \$3.50 that were found sold at \$3.40. Sales of steers: No. 1, \$3.50; No. 2, \$3.40; No. 3, \$3.30; No. 4, \$3.20; No. 5, \$3.10; No. 6, \$3.00; No. 7, \$2.90; No. 8, \$2.80; No. 9, \$2.70; No. 10, \$2.60.

Stockers and feeders were selling steady to a good demand, as follows: No. 1, \$1.90; No. 2, \$1.80; No. 3, \$1.70; No. 4, \$1.60; No. 5, \$1.50; No. 6, \$1.40; No. 7, \$1.30; No. 8, \$1.20; No. 9, \$1.10; No. 10, \$1.00.

Butcher Cows. Butcher cows were fewer in number than in the week. About twenty-two loads would cover the extent of the supply. Buyers had less of enthusiasm than on Monday with a few, if not a shade lower. Sales of cows: No. 1, \$1.20; No. 2, \$1.10; No. 3, \$1.00; No. 4, \$0.90; No. 5, \$0.80; No. 6, \$0.70; No. 7, \$0.60; No. 8, \$0.50; No. 9, \$0.40; No. 10, \$0.30.

Calves. Calves came principally from north of the line and were of superior quality. Again outsiders declined to support the market on the basis of Monday's early advance, and the market generally went to a quarter lower, with tops at \$4.50. Sales: No. 1, \$4.50; No. 2, \$4.40; No. 3, \$4.30; No. 4, \$4.20; No. 5, \$4.10; No. 6, \$4.00; No. 7, \$3.90; No. 8, \$3.80; No. 9, \$3.70; No. 10, \$3.60.

Hogs. Hog receipts for the second market day of the week were of moderate quantity, reaching about 380 head. The day's offerings included five loads of Texas hogs, two coming from the Panhandle and three from Texas. The large end of the receipts came from Texas. All of the receipts were well packed and of good quality.

Wholesale Fruit and Vegetables. Colorado potatoes, 5 1/2c; home-grown beets, 30c doz bunches; lemons, choice California, \$4.00 box; Verdillias, \$5.50; oranges, choice California small sizes, \$4.00 per case; California grapefruit, 1 1/2c; choice Colorado apples, per bush, \$3; Colorado onions, \$2.25; huddled Colorado turnips, \$2.00@2.25 a hundred; cabbage, 3 1/2c lb.

Wheat. Texas wheat car lot, country point, f. o. b. 70c@80c.

Hay and Feedstuffs. Carload lots f. o. b. from mills, dealers charge from store 3c to 5c more for oats and corn. 10c@20c on hay, bran, meal and chips. Price of hay, \$3.00 a ton, corn, shell-ed, 60c.

WHEAT FOR EUROPE

Galveston to Ship 4,000,000 Bushels to Foreign Climes

GALVESTON, Texas, Sept. 11.—Four million bushels of wheat are booked for shipment to Europe from Galveston within the next twenty days. The temporary congestion is primarily due to Santa Fe washouts and subsequent delivery of big rush shipments here at once. The movement is running smoothly now and plenty of vessels are on hand and more coming. Shippers were afraid to book orders during the washouts for fear they could not deliver.

Close In, west side, six-room frame modern cottage, reception hall, bathroom, lot, hydrants, closets, pantry, china cabinet, sink, 10x14 to alley, east front; \$2,500; \$500 cash, balance to suit. Take horse and buggy or horses in payment. M. L. Chambers Realty Co., 707 Main street. Phone 417.

FOR RENT—Small furnished house, on corner lot, bath and bath. Inquire 500 South Jennings.

WANTED TO TRADE—One good plate camera for watch; must be Elgin movement, silver case. Inquire J. J. Scheller, at Telegram office.

BARGAIN—Five-room frame cottage, hall, bath, porcelain tub, sewerage in lot, hydrants, closets, pantry, china cabinet, sink, 10x14 to alley, east front; \$2,500; \$500 cash, balance to suit. Take horse and buggy or horses in payment. M. L. Chambers Realty Co., 707 Main street. Phone 417.

PROSPECTORS ARE NUMEROUS

Factory Club Secretary Kept Busy by Crowds

The office of Secretary Evans of the Factory club was the scene of a busy morning Tuesday, well crowded with prospectors and investors from various parts of the country, each with a different proposition, most of them purchasing the site northeast of the city. He stated that he heartily approved the action of his representative in purchasing the site northeast of the city. He stated that he heartily approved the action of his representative in purchasing the site northeast of the city.

H. Flores, president of the Texas Glass Company, is in the city Tuesday and expressed his pleasure at finding such favorable prospects here for the successful operation of a glass factory. He stated that he heartily approved the action of his representative in purchasing the site northeast of the city.

Much interest is manifested in the approaching annual meeting of the members and friends of the Factory club, and an efficient committee is now shaping plans for a most pleasant as well as profitable meeting. Profiteering because it is hoped that by a large attendance before the meeting, prospecting gentlemen, stimulus will be added to the effort to induce them to return here.

HUNT DOVE, SHOOT QUAIL

Texas Game Protector Protests Violation of State Laws

SAN ANTONIO, Sept. 11.—J. J. Stevens of this city, president of the Game Protective Association of Texas, says that the association has employed a large number of detectives and will offer rewards for the capture and conviction of every man caught shooting game out of season.

The association took that step owing to the large number of dove hunters over the state, who seem to be unable to tell a dove from a quail. The officers have evidence that many of the hunters who go out ostensibly for doves return with quail.

PROFIT IN RECLAMATION

\$38,000,000 Available for Land Improvement of the Southwest

NEW ORLEANS, Sept. 11.—Dr. D. B. Hall, chief of the work of the reclamation service of the United States, in charge of the district comprising Texas, New Mexico and Arizona, speaking here en route to El Paso, speaking of the big work projected from the Texas headquarters, Dr. Hall said: "Up to the present time there is about \$38,000,000 available. One of the most important works of the service is the State river dam, near Phoenix, Ariz., 270 feet high, almost completed, which will water a territory of over 150,000 acres."

IMMIGRANTS HELD

Twenty-Seven of Boat Load of Foreigners Not Permitted to Land

GALVESTON, Texas, Sept. 11.—Of the sixty-eight aliens detained on board the North German Lloyd steamship Brandenburg Sunday, all but twenty-seven were released today. Of this number it is thought all will be allowed to land except one man, who is without money and has apparently no inclination to work and one family, in which one of the children is blind. In this last case it has not been definitely decided what course will be taken and it is possible that some arrangements will be made to permit of the landing of the entire family.

THOUGHT BRYAN GREETING COOL

Geo. E. Nies Returns From a Visit to New York

George E. Nies, manager of the Texas and Pacific telegraph relay office, and his family have returned from their summer vacation, which was spent in touring the northern states. Mr. Nies was at New York at the W. J. Bryan reception on his return from his tour of Europe, and speaking of the reception, Mr. Nies said:

HEARST A BIG FACTOR

"The political situation in New York is full of interest and local excitement," said Mr. Nies, "and the position occupied by William Randolph Hearst is of no small interest. He is the big factor in New York democracy, representing as he does the radical wing of the party, as well as the Independent League, which is a very powerful organization that is opposing the machine. If Hearst is nominated for governor by the democratic party he will accept it, and will then be in a position to govern the state."
