

## PRESIDENT URGES SQUARE DEAL IN STATEHOOD VOTE

Roosevelt Writes New Mexico and Arizona on Charges

### DISASTER FEARED

Claimed That Statehood Representatives Would Be Kept Away From Canvass

By Associated Press.  
PHOENIX, Ariz., Oct. 4.—Governor Kibbey has received the following letter from President Roosevelt:  
"My Dear Governor Kibbey: I am sorry to say that grave charges have been made to me that under the organization of which you are the active leader there will not be a fair count of the votes on the question of statehood. If these charges were well-founded I need not say to you that it would be a national disaster. I have no doubt there is no one in them, but some prominent people in the United States do believe that the election will be tampered with and they are joined in the belief by some of the most prominent people of Arizona and New Mexico.  
"Therefore, to avoid all criticism I direct that if you can in any way arrange it you will have representatives of statehood people present at the canvassing of the votes on statehood. I have sent a copy of this letter to Governor Hagerman of New Mexico and directed that he make the same arrangement, that is, to have representatives from both statehood and anti-statehood parties present to witness the count of the votes."  
Wilson Notified  
Governor Kibbey immediately sent a copy of this letter to Thomas E. Wilson of Tucson, president of the Joint Statehood League, and wrote him that inasmuch as no statehood party had filed the name of a candidate with the territorial secretary, he asked Mr. Wilson to furnish the names of statehood advocates to serve on election day and witness the count in each precinct.

### EXTENDS ITS LINES

Illinois Central Reported Will Have Road From Gulf to Superior

CHICAGO, Oct. 4.—The Tribune today says:  
"It is believed the Illinois Central is backing the projected Lake Superior & Southern Railway, which is to be built from Madison, the Central's most northern terminus in Wisconsin, to Huron, if this is the case, the Illinois Central is to have a direct line from the Gulf of Mexico to Lake Superior. The projected line runs through a rich lumber district on Huron Bay, which is closely contiguous to the iron and copper regions. There are excellent harbor facilities at Huron Bay, Oshkosh, Wis., capitalists who are disposed to be working in harmony with the Illinois Central, have bought a large amount of land stretching from Republic, Wis., to Huron Bay, which includes the roadbed of the old Huron Bay, which is already graded.

### WANTS NO CHINESE

Magoon Declares Celestials Not Good Canal Workers

NEW YORK, Oct. 4.—"No Chinese labor for mine," emphatically remarked Governor Charles E. Magoon of the Panama canal zone today, when he headed from the steamship Panama, which brought him up from the Isthmus. Governor Magoon was asked his opinion of Chinese labor on the canal. "I am unambiguously opposed to the introduction of Chinese labor on the canal," said Governor Magoon. "The only way the Chinese could be utilized here to advance the project is to work them under the peonage system. This is virtual slavery and, of course, the United States cannot go into any deal of that sort."

CHICAGO, Oct. 4.—Wayne Ethelton, a musician, company D, Fourth U. S. Infantry, en route to Fort McKean, Wyo., was run down and instantly killed by a switch engine at Burlington street last night. Ethelton was 38 years old and lived in Richmond, Texas.

### SUGAR FACTORY

Sold at Auction

Echo of Big Philadelphia Bank Failure

By Associated Press.  
NEW YORK, Oct. 4.—Securities having a face value of \$4,500,000 and representing the Empire Sugar Refining Company have been sold at public auction at 10 Wall street last night. The securities pertain to the Real Estate Trust Company, which was one of the companies whose loans had much to do with the failure of the Real Estate Trust Company, which failed last night. The securities brought only \$255,000.  
The plant of the company is at Edgebrook, N. J. It was planned to have a daily capacity of 2,500 barrels of refined sugar. Last spring the plant was leased to Charles M. Warner, president of the Warner Sugar Refining Company, who has since operated it. Mr. Warner held all the bonds and stocks of the company and sold a loan of \$1,500,000 to Mr. Segal. The name of the loan was not disclosed yesterday. It was an account of failure to pay that the securities were sold at auction.

Department of Justice to Investigate Matter—Contracting Firm Makes Denial

Special to The Telegram.  
PITTSBURG, Pa., Oct. 4.—Frank L. Emmett, formerly of the Shelby Steel Tube Company, a shipper, charges the warships Maine and Georgia, cruisers Colorado and Pennsylvania and nearly every boat in the navy is equipped with boiler flues that the government rejected. Emmett says the flues were stolen to get the flues past the inspectors. The Shelby concern denies the charge. A financier named Lohere, who cannot be found, is to be tried by default. Seven other men will be tried on charges of complicity.

## ROADS OBJECT TO REDUCED RATES

Commission Will Likely Grant 'Veterans Concession'

Special to The Telegram.  
AUSTIN, Texas, Oct. 4.—The railroad commission met today to open a hearing to consider the proposition to put in an emergency excursion maximum rate of 5¢ for the Confederate Veterans' reunion in Dallas next month. The railroads took the position that the commission was without authority to put in an emergency passenger rate as the emergency law was for regulation of freight tariffs only.  
Judge James H. Robertson of Austin appeared before the commission at the request of General Van Zant in behalf of the emergency rate. He contended that the commission had the power to fix an emergency passenger rate as well as freight rates.  
Judge Miller present  
Judge Miller of the Katy was the only railroad attorney present for the railroads, others complaining by letter. He contended that the commission was without authority and the question of emergency rates should be referred to the legislature. The emergency rate, he said, would be put on the desired rate, but which likely will be limited to Confederate soldiers.

Twenty-Six Adrift Rescued By Liner

By Associated Press.  
HONG KONG, Oct. 4.—The emigrant steamer Charterhouse, voyaging between Hollow and Hong Kong, founded off the Nalmen head Sept. 30. Captain Clifton and sixty passengers were lost. The North German Lloyd steamer Kohsichang has picked up a raft belonging to the Charterhouse, on which were Chief Engineer Womase, twenty-three of the crew and two women, after they had drifted forty-three hours.

## HEARST GIVES BATTLE CRY

Declares He Will Make War on Corporations

### SAYS TRUSTS RULE

Advocates New Election Laws and Shorter Terms—Accepts Nomination

Special to The Telegram.  
NEW YORK, Oct. 4.—The Independence League, which nominated W. R. Hearst for governor, received his letter accepting the nomination. In it he says:  
"Two things are of special importance as issues in this campaign—liberty and prosperity. The object of the Independence League is to resist the attacks on human liberty; upon government of the people, menaced by corporation rule and to resist the attacks upon general prosperity by those same corporations and by dishonest financial agencies."  
"I accept with gratification and with deep feeling of responsibility the nomination of the Independence League."  
"The great problem of the hour, the problem that the people must solve with their ballots and in legislation, is to do away with corporate control of the government. That control is now practically absolute. It rests mainly upon our system of partisan politics, directed by boss rule and subject to trust ownership."  
"I accept your nomination with the full knowledge that the Independence League and its candidate for governor are pledged in honor to extending bossism by putting into operation through our state direct nominations and open primaries."  
"You see a corporation lawyer put forward as the standard bearer of the republican party in this campaign. You see lawyer corporations and violent partisans of monopolies held up to you as the only men fit to select your judges."  
"I propose that their enemies are the originators and managers of oppressive trusts. They know that these trusts are in control of the republican party in this state. They see Mr. Sheldon chosen as treasurer to raise and spend the money for Mr. Hughes, the corporation attorney, and they realize that Mr. Sheldon, director in twenty-one corporations, notoriously connected with the collapsed shipbuilding trust, is the financial reliance of the ticket which Mr. Hughes heads. They cannot look on that ticket as promising much for the prosperity of the people."  
"I propose, if elected, to exercise fearlessly with due regard for the principle of home rule, the power of removal given by the people to the governor. I propose to end control by the corporations, not only in these state departments, but in the county officers charged with the responsibility of enforcing the original laws of the state."  
"I advocate making the public officials term of office so short that he will not have time or inclination to forget who it is that elected him, and that ought to control him. In particular I favor undoing the mistake that lengthened the term of the office of the mayor of New York City from two to four years, and I advocate the material shortening of the terms of office for all judges."  
"An honest civil law, an efficient corrupt practice act and especially a measure that will make it possible to have a judiciary review of an election upon proof of fraud or mistake must be enacted."  
"I stand for irreconcilable hostility to the appropriation by corporations of property belonging to the community. I shall continue to work for the enactment of a statute empowering cities to acquire and operate all public utilities in their own hands."  
"Railroad rates must be reduced and New York must be placed in line with other progressive states that are enforcing a maximum rate of 3 cents a mile."  
"I accept the nomination and pledge myself to devote all my energies to have in the past to retain for the people the rights they still have and to restore those which they have lost."  
"WILLIAM RANDOLPH HEARST."

### MARSHALL FIELD'S WIDOW TO MARRY

May Wed Physician Who Attended Husband

Special to The Telegram.  
CHICAGO, Ill., Oct. 4.—A rumor comes by way of Chicago that Mrs. Marshall Field is to wed Dr. Frank Billings. Dr. Billings was the physician in attendance upon the late Marshall Field. He has always been friendly with the family. After the death of the merchant prince, Dr. Billings attended Mrs. Field, who was prostrated.  
Mrs. Field then went to Europe and opened a house in London. She is still in England. Efforts to have her confirm the gossip only elicit smiles.  
Before marrying Mr. Field, when she was Mrs. Cator, Dr. Billings was very friendly with Mrs. Field.

### BUILD BIG DAM

Stevens Pushes Earth Dam at La Boca, Panama

PANAMA, Oct. 4.—John F. Stevens, chief engineer of the Panama canal, informed the Associated Press yesterday that he had decided to build a big earth dam at La Boca. The preliminary work already has been started and tracks are rapidly being laid. The old town of La Boca will disappear and a new town is to be erected at Sosa hill, near Batun. One steam shovel is already working on the dam and Mr. Stevens expects to have two more at work within a month.

### STARCH FACTORY BURNS

The National Destroyed by Flames and Loss \$3,000,000

By Associated Press.  
NEW YORK, Oct. 4.—The dismantled plant of the National Starch Company at Glencoe took fire late last night and was totally destroyed. The buildings covered a space of three acres. The plant was formerly owned by the Duryea Starch Company, which sold out to the National Starch Company four or five years ago. The building with its machinery was the most complete starch manufacturing in the world and was valued at \$3,000,000. The National dismantled the plant.

### KILLED IN RUNAWAY

Mother Meets Death While on Way to Her Dying Son

By Associated Press.  
NEW YORK, Oct. 4.—Mrs. John A. Dougan of Spring Valley, N. Y., was killed in a runaway accident near her home yesterday. Mrs. Dougan's youngest son has been for three months in a state of coma, produced by a tumor on the brain. The mother had been constantly at his bedside and yesterday, for the first time, was induced to take the drive that resulted in her death. A daughter, who was with her, was painfully injured, but will recover.

A city real estate trade was effected Thursday by which Ben O. Smith transfers to E. E. Bewley the vacant lot between Ninth and Tenth streets, in Houston street, 25x100 feet, for the vacant lot in Main street, between Fourteenth and Fifteenth streets. The Houston street lot is situated immediately west of the Durrett-Gorman Furniture Company and the Main street property is south of the L. G. Gilbert clothing store. It is understood that both lots will be improved with business blocks at once.  
The deal involved \$35,000 and was consummated in the offices of Tempel & Modlin.

## BIG ARMY FOR CUBAN SHORES

Forces Mobilized for Expedition to Island

### LAY DOWN ARMS

Rebels Agree to Terms and the Situation Becomes More Satisfactory

By Associated Press.  
ATLANTA, Ga., Oct. 4.—Two battalions of the Seventeenth infantry, U. S. army, upward of 200 men, in command of Colonel Vanorsdale, left Fort McPherson this morning for New-Port News, Va., where the army is mobilizing to go to Cuba. Machine guns, mules, boats and the regular army impediments were sent with the troops.  
Laying Down Arms  
HAVANA, Oct. 4.—Brigadier General Funston this morning received a telegram from all the members of the disarmament committee from various parts of the island reporting that all was quiet and that the laying down of arms was progressing rapidly. Commissioners in Santa Clara reported the recovery of a quantity of dynamite and electrical apparatus stolen from the Delquiuri Iron Company, an American concern. During the afternoon General Funston will visit General Asbert, insurgent commander in Havana province, in the vicinity of Guina, and arrange for the disarming of his forces.

### MARRIED IN AUTO

By Associated Press.  
NEW YORK, Oct. 4.—Miss Anna Ryan of Hackensack, and James Chichester of New York city, were married in Jersey City at 10 o'clock on Tuesday night in an automobile. Justice of the Peace Ludlow married them while standing before the couple in a tonneau. The couple then started on an extensive wedding trip.

### FIREMEN INJURED

Hospital Threatened With Destruction—Patients Are Troublesome

By Associated Press.  
NEW YORK, Oct. 4.—Ninety families were driven from their homes, three firemen were injured, property valued at \$50,000 destroyed and surrounding property threatened by millions seriously threatened by a fire which started early today in the heart of the leather district. This spot, bounded by Frankfort, Williams, Gold and Spruce streets, is regarded as the center of one of the most dangerous fire zones in the city. The flames were controlled and extinguished only after three hours of the hardest kind of work. One of the buildings which was threatened by fire was St. Gregory's hospital, and for a time the officials of the institution had their hands full in caring for excited patients under their charge.  
The fire started in a four-story building in Frankfort street occupied by Dezege Bros. paper merchants, and immediately spread to three-story tenement houses adjoining. Ninety families who were sleeping in tenement houses were aroused by policemen and helped to the street. While the firemen were fighting the flames from four sides, a nozzle which had been carried to the top of a ladder, broke from the grasp of six men who were holding it.  
Cut by Hook  
The hook which is used to support the hose on the ladder caught one of the men and cut a nasty gash on his arm and threw him to the ground. Another fireman was also knocked from the ladder and severely hurt before the water could be turned off. The striking hose struck another fireman and the hook tore a great hole in his side. The three men were taken to St. Gabriel's hospital. They will recover.

### TO NAME MORAN

Boston Man Certain of Democratic Nomination for Governor

By Associated Press.  
BOSTON, Mass., Oct. 4.—Conceding the nomination of John W. Moran of Boston for governor at today's convention, the opponents of the party attorney made a strong effort last night to retain control of the party organization. Mr. Moran and his followers refused to yield any of the points gained at the primaries last month and it looks as if the convention today will be a turbulent one.  
At the meeting of the state committee last night, Chairman Josiah Quincy of Boston tendered his resignation, which was laid on the table. The committee appointed a sub-committee to draft resolutions for the convention in honoring Mr. Bryan for president.

### TOGA FOR CLEVELAND

New York World Suggests ex-President for Senatorial Races

By Associated Press.  
NEW YORK, Oct. 4.—The World editorially today suggests Grover Cleveland to the democrats of New Jersey, who are set to vote at the United States senator. After reciting that the election of Mr. Cleveland would not be against precedent, two former Presidents having served in congress after they left the White House, the World says:  
"Mr. Cleveland undoubtedly would not be a candidate for United States senator in the sense that he would actively seek an election. But if the New Jersey legislature should elect, who believe that he would decline? When did Grover Cleveland ever shrink a public duty?"

### SHOOTS GIRL, JEALOUS

Youth After Firing Shot Turns Weapon on Self, but is Disarmed

By Associated Press.  
NEW YORK, Oct. 4.—A. M. Keely, a youth of 20 years of age, shot and mortally wounded Margaret Lynch, aged 16, daughter of an Irish fireman, in a street car in Williamsburg last night. Keely, the police say, later fired upon an officer, and missing his mark, attempted to kill himself, but was disarmed. Jealousy is said to have caused the shooting.  
"We must sell abroad or quit business. Reducing the volume of our production means less wages, less business transacted at the very least. ### JOHN D. SAYS BE CAREFUL

Rockefeller Declares Government Crushes Competition

CLEVELAND, Ohio, Oct. 4.—The Plain Dealer today prints an interview with John D. Rockefeller, in which the latter comments on the demand for government regulation of the so-called private industries and makes a strong plea for national development. Mr. Rockefeller is quoted in part as follows:  
"If we limit opportunity we will have to put brakes on our national development."  
"Will the individual strive for success if he knows the hard-won prize is to be snatched from his fingers at last by his government? We are still too young a nation to begin tearing down. We must build up, but not build up for years to come. The very children in the schools should be taught the need of our development. Speaking of the recent visit to France Mr. Rockefeller said:

### FRENCH PEOPLE AMERICANS

"The French hate hate us; they never let slip an opportunity to take quick advantage of our mistakes. This is a struggle for supremacy in the world, and it will continue to grow quarter for us if they win. And now there is Japan rising in the east to a power we cannot neglect. We cannot foretell what her competition will be; we do not know the resources of the new territory which she controls; we cannot guess the results of her industrial possibilities of the Japanese."  
"At the critical stage we are giving the enemy ammunition to fire at us. He is quick to seize the advantage. Take the attack we made on our own packing house business for instance. I know none of the men in the beef industry ever dealt with the nor was I ever associated even indirectly with their business or with themselves."  
"I do not believe there was a line of American goods sold abroad unless not injured or an American agent doing business abroad whose work was not hampered by this. We are too young a nation for this tearing down. Our position is by no means secure. It is like repeating A, B, C to say that we cannot consume our total production."

AGAINST THE CONSOLIDATION

There are a great many people who look forward to the time when it may be possible that all people who call themselves Christians may be found enrolled under one great banner, with no division in the ranks, and showing to the world that the influence which seeks its salvation is not divided within itself and snatching eternally as to which is the proper route.

A bomb was thrown into the camp of the former Cumberland Presbyterians, who favor union with the Presbyterian church in the United States of America, when Judge J. T. Pendleton Friday morning handed down a decision forbidding the unionists from taking any part whatever in the management or control of the First Cumberland Presbyterian church of Atlanta.

This is the first serious reverse received by those favoring union. They won in suits brought at Decatur, Ill. and Warrensburg, Mo., and got the better of a decision rendered at Fayetteville, Tenn., but in Atlanta they have been absolutely turned down at every point.

The unfortunate part of this litigation between church members is that it affords the man on the treastworks such a glorious opportunity to point to conditions existing within the church organizations and seemingly justifies his determination to remain on the outside, at least to some extent.

PURE FOOD BILL FOR TEXAS

The state legislature of Texas will assemble at Austin in January, and already the matters that will come up for consideration at that time are being agitated among the members. One of the chief measures to come up is the Blanton pure food bill, which the author has been working on for some time and hopes to get through the next session.

W. L. Blanton, representative from Cooke county, was in the city yesterday on legal business, and while in conversation with a Statesman reporter concerning the probable work of the next legislature, stated that the legislature should, and doubtless would, confine its work to the few important measures necessary for the public good.

There is a soundness in the logic of the Terrell paper that is absolutely incontrovertible. The Texas melon is a luscious proposition that will admit of no improvement. The amendment to the constitution increasing the pay of members of the legislature which is to be voted on at the next election is going to be literally torn to pieces.—Denison Herald.

And it deserves to be torn to pieces. The people of Texas will never consent to a proposition that seeks pay for being good on the part of their public servants.

KEEPING THE RECORD STRAIGHT

With reference to the statement made by Senator Bailey in a public address a few days ago concerning the alleged publication of democratic newspapers in Texas by republicans, the Dallas Times-Herald says: To Senator Joseph Weldon Bailey: The Kiest brothers are not running a democratic newspaper. They are running an independent newspaper—printed for and by the people all the time and not for some of the people most of the time.

The efforts being made by the Commercial to make it appear that a war is to be waged on Colonel Campbell by the legislature backed by corporation influence, are positively painful. There is no war on Colonel Campbell—the declaration in that direction having emanated from Colonel Campbell himself. That gentleman made a mistake when he told the people of Texas that he would compel the legislature to enact the platform demands into law.

THE MISTAKE OF BAILEY'S FRIENDS

The friends of Senator Joseph Weldon Bailey in Texas are making some very glaring mistakes in the campaign they are making for what they designate as his "vindication." Senator Bailey is not charged with crime, and no aspersions have been cast upon his private character. He does not need "vindication." What he needs to do is to justify the claim that he can serve the people of Texas in the United States senate and at the same time serve as the attorney of big

corporations. That is the single issue, and all there is to it. The Waco Tribune, one of the fairest papers in Texas, has the following timely suggestions to Senator Bailey's friends, which they would do well to heed:

The mistake made by many of Senator Bailey's defenders is that the men who are criticizing the senator are his "old-time enemies;" men who are "sore heads," marplots and envious. That is a sad mistake and does injustice to the people of Texas.

But the men, as an almost universal rule, have been Mr. Bailey's friends and loyal admirers are the men who are complaining and calling him to account. They are the plain, fearless people of Texas. And why do they do this? It is not out of malice, envy or unfairness. It is because they fear his course has sapped his usefulness as their senator; because they feel he cannot serve Texas and the vast corporate interests too. They want to hear from him, and satisfactorily, and they mean to do so.

It is not enemies and "sore heads" who want to destroy his prestige at Washington and elsewhere. It is to protect their own interests and the prestige of their state that they ask the senator: "What is this you have done?"

Look at the situation here in Waco, in McLennan county and over the state. Who are the men asking Bailey to explain, who are condemning his course? They are the honest, plain people, who have been his friends, his admirers and who have honored him.

Some of his defenders make grave mistakes in thus ignoring the voice and manifest desire of the people. They do wrong in saying it is the old gang of enemies—it is a lot of "sore heads" and ignorant people, who are not properly informed.

And the people are saying that Senator Bailey's defense is not complete or satisfying.

President Roosevelt favors the annexation of Cuba, but believes that we are in duty bound to give the Cubans another opportunity. And the extension of that opportunity will but hasten the step that is inevitable.

Secretary Taft seemed to know just what to do and how to do it when the crisis came in Cuba. And Taft (on the Cuban lid is heavy enough to hold the entire island down).

The Telegram is getting real anxious to publish a statement to the effect that work has begun on the Mineral Wells Interurban.

The Telegram is being widely advertised by its loving friends.

The announcement is made that a watermelon has been produced that is seedless. There will be no demand for it in Texas, however. Texas watermelons are perfect as they are. If they were more alluring, the results might be nothing less than tragic.—Terrell Transcript.

No, Hiram, the Waters-Pierce Oil Company isn't a trust. It is a great eleemosynary institution for the abolition of poverty, the eradication of ignorance, the spreading of crime and the distribution of light. Its basic stones is Charity and its pillars Faith and Hope.—Dallas Times-Herald.

The question of moment is what is a stable government? The Cubans have given ample evidence of incapacity for self government, and honor suggests there can be no annexation unless requested by the Cubans themselves.

The Sultan of Turkey has a cancer. It is said that death may occur this year. It matters not how great, powerful and corrupt the rulers of the world may be, death, the irrevocable fate of all men, will overtake them sooner or later.—Georgetown Commercial.

Another one of the freaks of the Terrell election law provided that the names of all county candidates nominated at the primaries should be printed in some newspaper, but failed to make clear what way the name should be paid for. The attorney general has ruled that the counties shall make the payment.—Sherman Register.

It is estimated that the requirements of the state government will involve expenditures aggregating about \$4,000,000 for the next fiscal year. It has also been estimated that the taxable values of the state total something like four billion dollars. It ought to be a very easy matter to get four million out of one billion without doing any particular hurt to any one.—San Antonio Express.

It is a problem just as easy to solve as eating a piece of pie. The taxable values of Texas must be made to yield sufficient revenue to place the finances of the state on a cash basis. That is all there is to it, and that is the proposition the next state legislature is facing.

VERY AWKWARD

WHAT WOULD YOU DO IN THIS SITUATION?

If, upon emerging from a dip in the creek, you found that a tramp had appropriated your clothes, and at that psychological moment the art class from a nearby seminary decided to do their sketching in the immediate vicinity, I say, WHAT WOULD YOU DO? If at this moment you were to suddenly become aware of the presence of a rattler, whose afternoon siesta you had interrupted in your mad dash for cover, would you remain in hiding and meet an untimely end or would you dart around the tree and do a hot foot across lots?

THE TELEGRAM AND THE TEXAS PRESS

ENFORCE THE VAGRANT LAW The vagrant law should be strictly and impartially enforced. The cotton fields of Texas are crying loudly for honest labor, and able-bodied laborers should not be permitted to sit in the shade of some convenient awning.—Fort Worth Telegram.

Graham has a number of men and boys, who loaf on the streets from morning till night. Yet the farmers of this section are advertising every day in the daily papers for men to pick cotton. The vagrant law should be put in force in Graham and either make the idlers pick cotton for the farmers or pick cotton for the county.—Graham News.

BAILEY DEFIES THE PEOPLE If Henry Clay Pierce deceived Joseph Weldon Bailey and thereby brought Texas officials into ridicule, and Texas laws into contempt, isn't it the urgent business of Joseph Weldon Bailey to seek to right that wrong?—Waco Times-Herald.

That is the point exactly. If Senator Bailey is in sympathy with the people of Texas and resentful of the fraud practiced upon the state and himself, why does he not show it? Why not volunteer some of the vaunted legal ability to assist the state in punishing the perpetrator of that celebrated fraud?—Fort Worth Telegram.

Instead of coming to the front and acknowledging that he had been imposed on by Henry Clay Pierce, who smuggled the Waters-Pierce Oil Company back into the state, and offering his services to assist in throwing that old buzzard, the Standard Oil, out of the state, Mr. Bailey acknowledges the close relationship of himself and Pierce and assumes the position of a man who says, "Yes, I did it, what are you going to do about it?"—Cleburne Review.

THE TELEGRAM HAS NO VENOM The Fort Worth Telegram is still quoting the foul-smelling and discredited charges of the Houston club against Senator Bailey. That usually astute "journal" has allowed its venom toward the senator to blind it to the situation.

ADVANTAGES OF DIVERSIFICATION There is not a farm in Texas on which additional revenue cannot be produced annually by raising mule colts. There is a steady demand for mules at good prices, and Texas farmers are losing good money by not catering more to this demand.—Fort Worth Telegram.

QUAKER REFLECTIONS The baseball season is in its last throes. How many summers does it take to make a summer girl? The average chorus girl doesn't have to go to the seashore to catch a lobster.

NEW YORK STOCKS

Special to The Telegram. NEW YORK, Oct. 4.—There was a gradual decline in most of the list of securities today. Union Pacific and Southern Pacific, which have been looked upon as the market leaders, were barely holding a level range, and were considerably neglected through the session. The interest was somewhat discouraging and there was a noticeable disposition on the part of inside holders to lighten their holdings in that line. There was strong buying of Southern Pacific with a surface bull sentiment that indicated better prices later on. Harriman interests bought Union Pacific on recessions, and a bull movement in rumors. Alcoa was not eagerly covered today, but traders were waiting for it to find its level under the conditions involved in speculative liquidation. There was some show of strength toward the close, however. Copper was covered when weak, and St. Paul was supported around 170, while it was at 150. The close was 177. There was considerable activity in Pennsylvania, which was promptly taken around 140. Southern Pacific was active among the specialists in the local ring. There was a decided bull sentiment in Canadian Pacific and Baltimore and Ohio stocks, but the trading was light. The Morgan interests were buying Steel against large short interests, but outside traders were only taking it when weak and selling on bulges. Call money ranged around 4 1/4 percent, the most of the loans being made around 4 percent.

NEW YORK COTTON

Special to The Telegram. NEW YORK, Oct. 4.—The New York cotton market was in a continued shift today. The bull sentiment seemed to have the best of the situation, but the bears were hammering away. The market was active at the prices quoted. The prospective good weather had its reactionary tendencies only to a short while, but small speculative scalpers had their standing, and on every decline bought, only to sell when the prices began to advance. The situation is now involved by the fact that spot cotton at the prices of 10.25, while Galveston was at 10.30 and early movement is selling it at a higher figure. The general situation is not so clear as the junior class of speculators. "The old landmarks have been removed and the principal science of the day is made of pretty much the same stuff as dreams are made of," said one trader, and this condition affords better guidance for approximate safety. CHICAGO GRAIN AND PROVISIONS

Special to The Telegram. CHICAGO, Ill., Oct. 4.—The wheat market was on the advance a little today, opening about 1/4 higher than yesterday. The report that Valentine wheat would be placed on the market today and that there was to be a sharp demand for American wheat by foreigners, aided the bull sentiment. Foreign cables indicated an advance at the opening of about 1/4, and a closing of Liverpool wheat at unchanged to 1/4 higher helped to keep the fluctuations rather on the ascendancy. The total receipts of wheat here today was 27 cars, against 5 received this date a year ago. The general sentiment is bullish. There was scattered selling by commission houses in corn, and the market maintains an even tone. Liverpool cables 1/4 up at the opening and 1/4 to 1/2 up at the close. The market received today 188 cars, against 98 received this time a year ago. Provisions opened easy and prices advanced on January pork, lard and ribs. The slight rise in the market caused a depressed feeling toward the provision market, but larger demands for export trade caused an easy feeling, supplemented by an advance in the price of hogs. CATTLE AND HOGS

Receipts in the cattle division were liberal today, amounting to 3,000, including about half calves. Fifteen hundred head of hogs were in evidence. Steers. The supply of steers today showed a slight increase, but there was nothing strictly fancy as to quality. The supply was made up of medium quality grassers and feeders. Local packers had urgent orders to fill, and with a strong demand from feeder buyers the available supply was soon cleaned up at prices steady to strong compared with yesterday, the bulk ranging from \$2.50 to \$3.15. HUGHES ACCEPTS HIS NOMINATION

Insurance Prober Ready to Fight for Election. NEW YORK, Oct. 4.—With the declaration that the issue in the forthcoming campaign in this state is going to be one of republican principles or of democratic principles, or a partisan issue of decent government, Charles E. Hughes formally accepted the nomination for governor, which was brought to him by a committee from the republican state convention recently held at Saratoga Springs, N. Y. At a dinner were former Governors Odell and Black. They were among the first to congratulate Mr. Hughes on the conclusion of his big speech. Mr. Hughes spoke as follows: "Highly appreciating the honor you have conferred and realizing keenly the responsibility that is assumed, I accept the nomination. As a life-long public man; as one loyal to the principles and traditions of our party, I respond to the unanimous call of the convention. I recognize the exigency which has made us the trustees of the people of the state, which has charged us with the duty of leadership in a contest for decent government. To this I am ready, heart and hand, and soul, without doubt as to the result. We enter upon the campaign inspired by the example and fortified by the achievements of our great leader, Theodore Roosevelt. The national administration with its record of establishment upon the confidence of the people, Governmental powers for investigation and prosecution have been freely used to end the abuses and discriminations which have inflicted interstate commerce, to break up unlawful combinations and to enforce the provisions of the anti-trust act. "In referring to this record of the Federal administration I should not be understood to imply that this is a campaign of national issues. The paramount issues in this connection are state issues. Our state administration has also accomplished many genuine reforms. WANTS REDRESS FOR HOODOO Negro Pastor Seeks Damages in San Antonio Courts. SAN ANTONIO, Texas, Oct. 4.—Rev. Andy Hilliard, colored, pastor of Hilliard's chapel on Atlanta avenue, was called at the courthouse today to file a writ for redress for wrongs that have been perpetrated upon him by a hoodoo doctor. He alleges this hoodoo doctor has caused his wife to leave him and his congregation to thin down until it is barely perceptible. The hoodoo doctor has threatened to break up his household. He succeeded in getting the preacher's wife to take a hoodoo pill, which was warranted to break up the strongest case of matrimony in existence, later hiring women to go to his house and scatter a white hoodoo powder about his place. He now wants to deal with the hoodoo doctor. The hoodoo doctor's story is an all powerful charm. To put one grain of it inside of a house produces a case of trouble. If taken in connection with the pills it results in divorce, and says it even seriously affects men. They smash up furniture and leave the home. Women, however, just leave home and refuse to come back. He says his wife is a good woman, but absolutely powerless to resist the effects of the hoodoo powder that has been scattered around his premises in sufficient quantities to run all the women out of Salt Lake City. Whether or not the powder loses its effect after being used one time, Rev. Hilliard does not know. Some of his congregation has left his church and his obligation has dwindled away until it is useless for him to attempt to preach. He is anxious for a legal remedy if one can be found. IGUANAS FOR TEXAS Regular Shipments Being Made From Mexico. EAGLE PASS, Texas, Oct. 4.—Iguanas are now making the regular express shipments through this port from Mexico. After the alligator the iguana is the largest existing type of the lizard family, and is apparently a direct descendant of the iguanodon, the largest of the extinct monsters of the past. They come here in large boxes, packed almost as closely as sardines, though alive, and are of all sizes from one to three feet in length, and weighing from two to thirty pounds. A formidable saw-like ruff extends from the head to the tip of the tail. They are greenish in color and have a ugly scaly or pocky under the mouth. Altogether, they are almost as repulsive as their cousins, the Gila monsters. Nevertheless, the iguana is imported as a table delicacy, the tail being the part eaten. The custom house classes them as live animals not specified, and collects 20 percent ad valorem duty. LAWYERS SUE JUSTICE Were Fined for Contempt and Now Seek Damages. SHERMAN, Texas, Oct. 4.—As the result of the fine of \$25 against two attorneys for contempt by Justice of the Peace O. E. Fisher of Collinsville, two damage suits of \$10,000 each have been filed against the attorneys by the attorneys. One day last week P. T. Shores and P. G. Deedmond, attorneys at Collinsville, were fined for contempt by Justice Fisher and arrested for non-payment of the fine. They were released in a few minutes after a habeas corpus proceeding before the district court, and the filing of the enormous damage suits is the net result of the proceeding. NEGRO CAPTURED Assailant of Mineral Wells Girl Taken Near Marshall. SHREVEPORT, Oct. 4.—George Williams, alias Black Diamond, who attempted a criminal assault on a young girl at Mineral Wells, Texas, last Saturday and escaped a large posse of armed men, was captured on a Texas train near Marshall, Texas, and brought to Shreveport last night. The capture was effected by City Detective Alex Pague of Dallas, who will leave with Williams for Mineral Wells. Officers are uneasy as to the safety of the negro. NO CHILDREN IN HELL, HE SAYS

Evangelist Williams Compares Heaven and Its Antithesis. The effect of invitation cards sent out Wednesday was quickly noticed Wednesday night, when the large tent in North Fort Worth began to fill with people, who desired to hear Rev. Sid Williams tell "Why he wanted to go to Heaven and why he did not want to go to Hell." Taking this subject, which is one of his favorites, he preached one of the strongest sermons of the series. While there were no conversions or additions to the church, the service is expected to bear fruit. He told his audience things that will make them think. He said he concluded to go to Heaven because he had loved ones there, and he wanted to join them in that eternal home. That he did not want to go to Hell because he does not want to spend eternity among thieves and cutthroats and thugs. Hell is also a place of suffering, which is a good reason for no one wanting to go there. But in Heaven it is different. There is a river running thru Heaven with the best water that ever relieved the thirsty tongue, and the sweetest music that seraph can produce. "When all the bands of Heaven join in with the songs of praise, and our souls will be lifted into heavenly ecstasies. Heaven is also full of little children. Jesus loves them and so do I. God bless them. All the redeemed are there and I love to be with them. Jesus is there, and I want to be with Him." The devotional services were conducted by Harnp Hawkins of Stephenville. Services are held each day at 10 a. m. and 7:30 p. m.

DAMON AND PYTHIAS

Big House Attends Benefit Performance at Korak Tel. A crowd of hundreds greeted the performance of the play "Damon and Pythias," which was put on Wednesday evening at the Korak medicine tent. The play was presented for the benefit of the two Uniform Rank companies in making the pros and cons of the evils encampment of the rank beginning Oct. 15. There is some idea of repeating the play next week for the reason that some who had seen the performance could not get into the tent Wednesday evening. About fifty members of the two Uniform Rank companies marched through the streets before going to the show place, and some of the members of the order assisted in the performance. COAL WILL TAKE JUMP Next Ten Days May See Another Increase in Price. Fort Worth coal dealers anticipate another jump in prices within the next ten days. The coal buyers are expected to get a new coal buying public, especially to the man who did not lay in a supply of the stuff during the heated term. Mines in Indiana, Tennessee and other states advanced prices 25 cents on the ton Wednesday and the wave of advancement is expected to reach here in a short time. Just now all coal yards are busy. While people are not buying heavily they are buying just enough to keep the business busy. Coal is now bringing \$3.25 per ton.

Taft to Give UP REINS TO MAGOON

President Retains Winthrop in Porto Rico. WASHINGTON, D. C., Oct. 4.—It was announced yesterday afternoon that on further consideration of the plan President Taft had decided to adhere to his plan for the Porto Rico territory, and to leave Governor Magoon to Cuba to succeed Mr. Taft as provisional governor, allowing Governor Winthrop to remain in Porto Rico, where his services are needed. It was stated that the President had expressed his intention not to send Governor Magoon to Cuba, as announced earlier, because of advice given him by Secretary Taft, intimating that the arrangements made for Governor Winthrop assuming the duties of provisional governor had gone too far to be changed conveniently. A later dispatch from the secretary, however, put the matter in a different light and indicated that the secretary was willing that the governor should remain in Porto Rico, which has all along been anxious to have Mr. Magoon go to Cuba, acted promptly on the secretary's dispatch, and immediately announced the appointment of Mr. Magoon. This decision, he feels, leaves Governor Winthrop free to finish important work which he has in hand in Porto Rico, and which will enable him to catch a steamer for Havana at the earliest moment, and will enable him to catch a steamer from Miami. General Bell, who has been ordered to Cuba, will accompany Mr. Magoon. Mr. Magoon, Secretary and Mrs. Root and Rev. D. Peabody of Groton, Mass. were guests at dinner at the White House. SIGHT RESTORED TO BLIND GIRL Successful Delicate Operation Marvel to Physicians. NEW YORK, Oct. 4.—The light that faded three years ago and left Margaret Huber, then 7 years of age, stone blind, has been brought back by series of operations which ophthalmologists consider remarkable. The knife was used in an extreme case of iridocyclitis, and the chances seemed very slim. It is that the irritation from which the blindness arose would be increased. The accepted authorities on eye diseases state that in such extreme cases operations are rarely successful. John A. Price of the ophthalmic department of the German poliklinik, performed the operations.

About 2 o'clock Thursday afternoon Justice Charles T. Rowland was called to hold an inquest on the body of a man who was evidently named D. Mundein, from general appearance a Russian Jew immigrant, who was found dead in the west yards of the Texas and Pacific about 1:30 o'clock Thursday. The body lay just south of the August A. Busch & Co. plant, and had been there for some hours. He was shot thru the upper part of the left side of the chest with a 38-caliber pistol. Some of the cartridges and the pistol and the few papers which disclosed his identity were about all that there was on the body. The justice could find nothing about the man; no one seemed to know anything of him and, other than stated, there was nothing to disclose his previous circumstances. So far as could be learned in the early afternoon no one had ever seen the man until his body was found. He was apparently about 30 or 35 years of age and plainly dressed. The body is at Robertson's morgue. JULIUS CAESAR was a man of nerve, but sickness left its mark and he became aged before his time. Sickness is often caused by a torpid liver. ASKS INSTRUCTIONS

A. C. Wilmett Issues Card to Voters of One-Hundred and First District. SNYDER, Texas, Oct. 4.—A. C. Wilmett has issued the following card to the democracy of the One Hundred and First District of Texas: "You honored me in your primaries by making me your nominee for the legislature, at the same time and ballot you honored George W. Bailey, by electing him as your nominee for the United States senate. As I understand said vote, I, by it, am instructed to vote for him for such office. Since such vote there has come new light on Senator Bailey's connection with Mr. Pierce of Waters-Pierce-Standard Oil fame, and wishing to really support the democracy in this district, I would like further advice from the district. In order that there can be no unfairness or secret in this advice, I suggest that each county chairman and executive committee ascertain by whatever method they deem best the will of the democracy in their counties and certify the same to the chairman of the district, Royal Smith of Colorado, Texas, or send it to me; and whatever democracy order shall be my vote. Very respectfully, A. C. WILMETT." A mad dog running loose is one kind of rabid transit. It is safer to call a spade a spade than to call a liar a liar.

# We Are Primed For Big Business Ahead

This is going to be a great fall season—the greatest in years we believe—all indications point that way. Fort Worth and the country in general is now enjoying an era of prosperity. The crest of the highest wave of good times is just ahead. We're very optimistic. Why should we not be with conditions so favorable? Millions are being spent in our city for building construction. Broad distribution of money means plenty of work, and plenty of work means good times. We're primed for the big business ahead. We've never prepared such abundant stocks of wearables for men and boys, nor such excellent stock.

## Our Facilities Were Never Better Than They Are Now

We're ready whenever you are, and can serve you better than it is possible for any other store to serve you, because of the great scope of our stocks—double the usual amount carried. Then there isn't a more perfectly equipped, or a better stock of men's clothing hereabouts. Whatever the dress requirements—for man, youth, or boy—remember that here you shall always have the best price can buy. The trial began Monday and continued during the greater part of several days.

## RAIN ALONG THE COAST

**Northern Half of Texas is Reported Clear**

Light rain is falling on the Texas coast Thursday morning. Galveston reports precipitation of .24 inches. The northern half of the state is clear and the southern half is clear with light showers. Normal temperatures and clear skies are noted along the Florida coast, resulting from high barometric conditions. There are indications of further weather disturbances Thursday along the gulf coast. Low pressure is noted as being centered over Kansas and Oklahoma in that section and thunderstorms in Nebraska. High temperatures and fair weather continue in the extreme northwest portion of the state. The temperature at the final dedication of the Third ward hall Friday night under the auspices of the Third Ward Club. The new hall is located in the corner of Jewett Street and Elm streets and was formally opened for use some time ago, but since then the entire cost of the building has been raised and paid and it will be re-dedicated Friday night clear of debt.

The following is the weather record for the twenty-four hours ending at 7 a. m., seventy-fifth meridian time, Thursday, Oct. 4.

**Octogenarian Placed in Jail for Drunkenness**

Seventy-eight years old and so drunk that he could not tell a crag from a Sunday school convention! For the first time in the history of the Fort Worth police department a man over 75 years was arrested on the charge of drunkenness Wednesday. The aged drinker was picked up in Lower Main street and his condition was such after having flirited with King Alcohol for several rounds, that he took the police to task and two husky patrolmen to steer him before the "big book."

## LETTER TO HARDWICK HOTEL COMPANY

Fort Worth, Texas.  
Dear Sirs: Here's a tale with three or four tails to it.  
Professor Irvine has an Academy, Mercersburg, Penn. He paints the floors in summer vacation. It used to take 30 gallons of paint. There were two paint stores there, and he used to buy (one year of one, next year of the other) 80 gallons year after year. Now he paints Devore's 50 gallons; and the difference is a saving of \$10 a year.

H. C. Fallon was one of those dealers in good man; but he wouldn't take up Devore; so we turned to the other, J. A. Boyd. But Fallon has found it necessary to get a good paint to compete with Devore. He got one of the eight honest points. He has a big hardware store and is doing an excellent hardware business; but Boyd, of course, has the run on paint—his a little hardware man.

## ORDER GIVEN FOR GLASS MACHINERY

**Question of Location Is Yet an Open One**

William Linden, representing the glass manufacturing company which has considered locating a plant in North Fort Worth for several weeks past, has returned to this city from St. Louis and New York, and stated Thursday that he has purchased the machinery necessary for the manufacture of glass and will order its shipment soon.

Mr. Linden also states that there is still some question as to the location on which his company will erect the factory buildings. Glass sand is found in abundant supply in North Fort Worth, but the upbuilding of Factory Settlement at Brooklyn Heights, west of town, is understood, is attracting Mr. Linden's attention as a suitable location.

## HALF FARE IS NOT YET AVAILABLE

**Why School Tickets Are Not Yet on Sale**

Numerous inquiries have been made about the school children half-fare tickets, which the Northern Texas Traction Company announced, in response to the request of many interested parties, would be placed on sale Oct. 1. They were not placed on sale and the explanation is that they were not printed.

A week ago last Sunday, Sept. 23, the proof of the tickets was received in Fort Worth by the Traction company. "O. K." and at once returned to Chicago, where the printing is being done. It was accompanied by a request that the order be made a "hurry job," but then as the Traction company people say, there are others who want tickets printed and they will have simply to take their turn. The delay cannot reasonably be much longer, and in fact the company is in daily expectation of the receipt of the tickets. As soon as the tickets are received the company will prepare a full statement of all that relates to the tickets. In what quantities they can be sold, under what conditions they are to be sold, to whom they can be sold, the terms and conditions under which they can be used, and in brief, all about them, that can guide the public in the purchase and use of the tickets.

## SAYS HOME RULE WOULD RUIN ERIN

**Lord Londonderry Declares Separation Bad Move**

*By Associated Press.*  
NEW YORK, Oct. 4.—A special cable dispatch to the Times states that Lord Londonderry, formerly lord lieutenant of Ireland, has issued a warning to the unionist party against the danger threatening that home rule for Ireland will become a reality. In a letter to the Ulster Unionist council he wrote:

"I think no time should be lost in bringing before the country the danger that threatens the union of Great Britain and Ireland, either by revolution or separation, either of which, in my mind, would be of the greatest danger to Ireland as well as England. In my opinion, the duty of every unionist is to make the maintenance of the union the foremost plank of his political platform and rouse the country to its impending danger. At every by-election unionist candidates should force to the front the issue of home rule, and compare with it the advantages of its impending danger. In all ways maintained, all other political questions are of minor importance."

## ENTOMBED IN MINE

**Seventy-Five Reported Imprisoned by Explosion at Colliery**

*Special to The Telegram.*  
BLUFFELDS, W. Va., Oct. 4.—As the result of an explosion yesterday afternoon at the West Fork Mines at Pocahontas Collieries Company, seventy-five men are supposed to be entombed. Two rescue parties have entered the mines and up to 11 o'clock last night two men, named Dolbert and Gensh, have been rescued and revived. The mine is reported to be on fire and the work of rescue is retarded. The cause of the explosion is not determined. Seventeen men lost their lives in the same workings in 1902.

Great excitement prevails in the neighborhood of the mine. Crowds of men, women and children remain around the drift mouth awaiting news of relatives and friends.

## CLAIMS HE GOT KNOCK-OUT DROPS

**William Lubin Tells Police He Lost His Watch**

That the many wine rooms in Fort Worth operated in connection with saloons should be wiped out of existence was again demonstrated Wednesday evening when William Lubin, a resident of a neighboring village, reported to the police that he had been robbed of his watch, valued at \$100, and several dollars in money, while drinking with two women in a Lower Main street grill room. Mr. Lubin declares that knock-out drops must have been administered, as for one whole hour his memory was a blank.

In a dazed condition he found himself at the Union station and it was there the victim of the grill room robbery told his story to a patrolman. Officers immediately began an investigation and out of the tangle they brought two women. They stayed overnight in the city jail, but were released Wednesday morning on bond. However, Mr. Lubin has not as yet recovered his watch.

The man says he is quite sure he was drugged, for he remembers of one of the women calling his attention to something back of him and as he turned his head he noticed the other woman make a sudden movement, and her right hand toward his bottle of beer. At the time he thought nothing of it, but in a few minutes remarked that the beer was awfully strong and had leaped to his head in a twinkling. When he righted himself and was almost six blocks away from where he was drinking with the women.

There is no law against women entering wine rooms. Chief of Police Maddox says the council will have to pass one before the police can interfere.
