BONI GETS GRAND HA! HA!

Tries to Make It Appear That Father Has Coin

Special to The Telegram.
PARIS, Nov. 10.—The Countess de Castellane's desire that the names of the women who were her husband's companions be kept a secret was granted today by the judges hearing her divorce suit against her husband. The court also announced that it would render a decision in the divorce case on Thursday next.

In the proceedings today Count Boni made more ridiculous, if possible, than heretofore, by the statement of his counsel that he had expected to inherit \$60,000 francs from his father, while it is well known fact that the Marquis de Castellane supports himself by his writings.

MAY ERECT BUILDING

Meeting of Trades Assembly Held Thursday Night

The Fort Worth Trades Assembly held a very enthusiastic business meeting in the Temple Thursday night with a good attendance. Delegate Frank Frush of the Carpenters' Union presiding. The chief topic of discussion at the meeting was the feasibility of purchasing a lot and erecting a building to be arranged and equipped for a modern labor temple. To investigate the opportunities for such an investment by the local unions thru the Trades Assembly, the following committee of five was appointed: A. E. Markwell, chairman; Bruno Brown, J. E. Shanahan, O. C. Hildebrandt and C. I. Goodwin.

The movement is now considered to be on foot and the members most enthusiastic over the idea are confident that within the course of three or four years the assembly will have a new home owned by itself. The lease of the present temple building does not expire until three years hence. It has just undergone a complete renovation and many changes have been made for the convenience of the several unions meeting each night.

A sum of money was appropriated by the assembly to the Barbers' Union at Little Rock, Ark., now out. The financial secretary was empowered to purchase a sufficient number of wood stoves for heating the building and also to purchase the fuel. An order was issued to have prepared placards for each union, to be placed over the rooms when that body is in session. Another order prohibits the posting of walls in the hall and rooms other than in the library rooms.

All things may come to those who wait, but the trouble is few of us can afford to wait.

QUIET LUNCH; NOISY ENDING

Can of Dynamite Brings Meal to Sudden Close

Special to The Telegram.
PITTSBURGH, Pa., Nov. 10.—While seated about a bonfire eating a quiet lunch this afternoon a can of dynamite exploded, killing six workmen and injuring twenty-one others in Carrick borough, a suburb of Pittsburgh. The men were employed by a local contracting firm, which was running a sewer line thru the borough. When the explosive let go the workmen were hurled in all directions, rocks, tools and clods of earth being hurled over the victims, many of whom were badly mangled.

Word of the explosion was telephoned to the traction barn and special cars were rushed to the scene to bring the injured men to the city hospitals.

Passing street cars were stopped and when passengers learned of the terrible injuries received by the workmen, all of whom are foreigners, they vacated the cars. The injured were laid on the long seats the cars and the cars were rushed to the city after physicians, who had been summoned from the surrounding suburbs, had dressed the injuries of the men.

Ambulances from the city hospitals were notified by telephone to meet the cars bringing the injured to the city.

On the trip to town two men died and their bodies were sent to the morgue. The ambulances took the injured to the city hospitals where it was stated that three and perhaps more cannot recover.

One man had both legs blown from his body. Others lost one arm or a leg while others received wounds about the head and body.

It is supposed a can of dynamite sitting nearby was upset and rolled unnoticed into the fire.

THE TREND OF POLITICS

Surely, the political affairs of this nation must have a manifest downward trend when the drift of affairs can be so plianly deciphered by a man of John L. Sullivan's caliber. Sullivan has been making the round of the state fairs in Texas, and while in San Antonio a few days ago gave expression to the following resume of political conditions: "Look at some of the men that get a jimmy and break into congress. I know a lot of boxers that would be ashamed of being seen with some of those birds. "And take a peek at the United States senate. It's enough to make a mule giggle. That senate job is about the softest snap that was ever invented. Some men get into a political convention or legislative session and ramrod himself up for a lifetime job in the senate. The more money he's got the quicker he'll land the job. Then he passes up a \$10,000 or more a year law practice to work for the people for \$5,000—that is, if you believe every thing they tell you. "Look at that sketch team from New York. One of them is so old that he can't walk very well by himself and the other has been ill ever since the insurance investigations bent his reputation all out of shape. Nearly every one of them in the senate is on the pay roll of some corporation, and instead of putting in their time there for the purpose of making laws for the people, their main efforts are directed to seeing that the laws get by that will hurt the employers—the corporations. "Of course there are a few like La Follette of Wisconsin and Ben Tillman who do what they think is the proper thing for the people, but these fellows are mighty unpopular and what they get, except the satisfaction of telling the country what they think of their colleagues, isn't worth mentioning. If you don't belong to the select corporation combine, you don't get anything from the senate. "Yes, I'd like to get into congress just for the satisfaction of saying a few things. I've been a resident of one section of Boston for forty-eight years, and I guess the folks up there know all about me. I would have the same motto in politics as I have had ever since I have been in the political arena—'Always on the level.' Nobody ever accused me of being anything but open and above board and on the square, and that platform looks like the good."

Senator Chancy Dewey is about to re-enter political life, now that he thinks the insurance scandals have had time to die a natural death. But he will find his chestnuts have lost all their flavor. According to the returns, New York is to have a republican governor while the balance of the state ticket is democratic. This is splitting up the political situation with a vengeance. We will all know what the vote for state and county officers is in Texas just as soon as the Terrell election law turns the figures loose. The reorganized republican party of Texas appears to have been completely lost in the process of reorganization.

DEVIL KILLED

Man by That Name Stabbed to Death at Decatur by Boy: DECATUR, Texas, Nov. 10.—Pete Devil, an employe of the telephone company here, was stabbed to death while separating two boys who were fighting. Devil was pulled by the boys apart, when one drove a knife blade into his (Devil's) heart. The boy was arrested.

Among the Exchanges

The Herald does not believe in compromising deals where the laws of the state have been violated. If the culprits are guilty they should be punished, if they are not guilty they should be allowed to pursue their course in peace.—Denison Herald.

SLOW COUNTING IN TEXAS

It is to be hoped when the legislature undertakes the task of amending the election law, some way may be found to expedite the counting of the vote in Texas. The 1,500,000 votes cast in New York Tuesday have about as long as the Texas ticket, but the system of counting in Texas is obsolete.

If there were close elections in Texas, the people would find our slow system exceedingly trying to the nerves. It is recalled in 1892 how impatient the people were to obtain definite returns on the state ticket and at that time the vote of the electors was not complete the count for three or four days.

There is not a state in the union which requires so much time to canvass election returns as Texas. It is true the count is more rapid than it used to be, but that is because the state only polls about a third of the vote that was cast fourteen years ago. Had there been half a million votes cast Tuesday, it would have required nearly two weeks.

The Post feels sure that a more expeditious system of canvassing returns can be devised. Some day, perhaps, we shall have close elections in this state and the people will naturally be alarmed the people, for it will be charged that the returns are withheld for manipulation.

Political conditions on the border have borne their logical fruit in the assassination of Judge Stanley Welch. Things are coming to a pretty pass in Texas when even the judge on the bench is not safe when political feelings run high.—San Antonio Gazette.

Political conditions down on the Texas border are such as to demand summary action by the state authorities. Texas is a law abiding state, and no portion of Texas must be permitted to trample upon the majesty of the law.

All over the state the cry is heard of lack of school buildings to meet the needs of the public schools. Shows how the children are coming on to make Texas more prosperous and progressive. But the needs should be met. There is something radically wrong in the neighborhood where the people can't afford to furnish adequate buildings for school houses. The need ought not to exist into another year anywhere.—Waco Tribune.

There should be more attention paid to providing better school facilities all over Texas. The public schools constitute the only educational facilities enjoyed by the great majority of the masses, and should be made just as thorough as possible. Better school houses and better school furniture, better teachers and a longer school term should be the rule all over Texas.

The Reporter has long urged that the legislature should be made sufficiently to keep the state upon a cash basis, rather than depend upon extraordinary and special taxes which always fall upon the poor. After the revenue bearers that they are expected to become. All these special taxes are disappointing, and it seems to the Reporter that the state should be able to pay its bills out of the ordinary revenue of the state by an ad valorem tax rate.—Abilene Reporter.

The state of Texas possesses sufficient taxable values to furnish all the revenue required for the proper maintenance of the state government and the tax rate should be placed where it will do the least harm. The present condition of affairs is a serious reflection on all Texas and should be promptly remedied.

Oklahoma went democratic, but no one was especially surprised about it. There were so many Texans there, you know, and to vote the democratic ticket is a little habit they have.—Terrell Transcript.

Oklahoma is now the home of many sporting Texans who went there for the express purpose of helping to save the country and fill the offices. They have saved the country and each will now strive for the reward he feels he has coming.

The Texas democracy gained no victory in the recent state election. There was no contest and consequently no triumph. Texas politics are of the personal, not partisan kind. We are all in it together, and the choice of men is the only choice the voter is offered.—Cleburne Enterprise.

The political game in Texas is too one-sided to be even interesting, and the result is an apathy that prevents the bringing out of the full democratic vote. There are many thoughtful people who believe it would be better for the state if the political forces were more equally divided.

Captain McDonald, the great ranger detective, should be sent to Rio Grande City and instructed to ferret out the murderer of Judge Welch. If there is any man in Texas that can do the work it is Captain McDonald.

Editor Robinson Has the Floor: Three weeks ago the Waco Times-Herald was encouraging the opposition to the re-election of Bailey to the United States senate. It now says those who oppose his re-election are bolters. Editor Robinson, professor of the Bailey faith at Bartlett, Texas, which means that no honest democrat can be against Bailey.—Tyler Courier.

Editor Robinson is entitled to his opinion and has the right to ride in the Bailey bandwagon if he so desires. But there are thousands of honest and patriotic democrats who would not be so easily misled. It also criticized him for voting against the Panama proposition. It was against the Panama proposition that Robinson was elected to the United States senate. It thought him in error in proposing to restrict the power of the judiciary. Here were issues on which Robinson was right and the people might well have been challenged, and what would have been pleasant to dwell on, neither his personal integrity nor the honor of his state would have been involved.

The Times-Herald has not let these disagreements, as to public policies blind it to the good things Mr. Bailey has done. It was delighted with his conduct of the constitution when the senate thought to deny to South Carolina her representation in that body. It gave him full credit for the work he was doing in perfecting the railway rate bill. It expressed its disapproval of the article attacking him in the Cosmopolitan magazine, for the reason that the statements therein are not verifiable. It endorsed his vote on the pure food bill. In various ways and at sundry times the Times-Herald has had words of praise for Mr. Bailey.

Along came the Pierce testimony. It put Mr. Bailey in a bad light and the Times-Herald was among the first to say that he should make a satisfactory explanation. The discussion took a wide range, but finally sifted down to this: Was senator's right to take employment from whomsoever he pleased; Bailey's attitude toward Pierce; at Mart's trial; Bailey set himself right as to the employment of his friend and Henderson, Briggs and others, about the head office. These are now being delivered. Bruce Drake has bought fat cows from the following parties at private terms: Lee Henderson, 73; W. W. Cotton, 52; S. E. Couch, 57; W. P. Hoover, 57; Bob Massey, 380. Special to The Telegram. TILDEN, Texas, Nov. 10.—The large tract of land has been made in southwest Texas since the late of the Laureles ranch to Mrs. King, was concluded last week. One hundred and twenty thousand acres of the old Dull ranch in La Salle county and McMillen county was bought by a syndicate of Chicago and Minneapolis buyers for \$2,000,000, approximately a half million dollars. The buyers, who have been among the heaviest operators in Canada and the northwest, have made this purchase for the purpose of improving and colonizing the property with a desirable class of farmers. The section is attracting many northern settlers. For a number of years past there have been a heavy emigration from the states of the middle west and the Mississippi valley into the northern territory and that vast area where wheat is the principal crop has developed phenomenally.

BLINDFOLDED

By a Book

"THE BEST DETECTIVE STORY IN A MONTH OF SUNDAYS," SAYS EDNA WALLACE HOPPER.

"THERE SIMPLY ISN'T ANY OTHER LIKE IT," SAYS LEW FIELDS.

"Blindfolded" simply cannot be compared. The plot "blindfolded" me until the last page of the book. It is the greatest combination novel and detective story that I have ever read. In fact, it is easy to say it is the best of its kind, because there simply isn't any other like it. The minute I finished reading it I started right in to read it the second time, and I cannot remember when any other book has been so fascinating and exciting as to make me want to do that.—LEW FIELDS.

For a narrative of adventure fit to make one sit stark, staring awake till cockcrow, for a tale of tantalizing and labyrinthine mystery, read "Blindfolded," by Earle Ashley Wallace. For mastery of mystery it would be hard to surpass this unusual story.—Cleveland Plain Dealer.

"No, she and I don't speak any more," said the woman in the imitation seal coat. "Kind of funny how it happened, too. We were such good friends you know, only she was as sensitive as a dog with a sore foot."

"Well, you know, there are so many burglars around, and we are so timid at home, all except my husband, and he's as brave as a lion. Well, the other evening we went to the theater, and we had to leave the porch at home, and so we had it all arranged. When we got out on the walk we called back to her 'Now we'll be right back from the drug store.' You see, if there had been any burglar prowling around he would have thought we were coming right back."

"Well, we didn't know it at the time, but Mrs. G.—and her husband were just a little way off, coming to our house, and they heard what we said. And I suppose they didn't wish to keep us from our errand, and so they didn't call to us. They just went down the porch and rang the bell, and daughter came to the door. Daughter said she was awfully sorry, but that we had gone to the theater; and do you know, they wouldn't believe it—they said they had heard us say we were going to be back in a few minutes, and when she tried to explain, they just snuffed and walked away—said they were glad to be able to find out who wanted them and who didn't. And so we don't speak."

ARRANGE FOR MEETING

Committee of Missionary Society met Friday afternoon.

The executive committee of the Ladies' Missionary Society of the Fort Worth Presbytery was in session at the Broadway Presbyterian church Friday afternoon to arrange the program for the annual meeting of the society, which is to be held at Grandview in April. There were about fifty persons present and the members of the Broadway church branch of the society served a lunch for the visitors. Several representatives of out of town churches were present.

And many other painful and serious ailments from which most mothers suffer, can be avoided by the use of "Mother's Friend."

TERRY SUICIDED IN ST. LOUIS

Bartender Was Well Known Here, His Former Home

Clint O. Terry, for many years a citizen of Fort Worth, killed himself in St. Louis Wednesday by inhaling gas. The news of his death was received in Fort Worth Friday.

Terry left Fort Worth several years ago and went to Columbia, Mo., and just before the World's Fair at St. Louis, went to that city and entered the saloon business, in which he was engaged at the time of his death. Recently his business was not profitable and dependent over the loss of money, he went into the toilet room at his place of business, locked himself in and turned on the gas. He was discovered three hours later lying on the floor of the toilet room dead.

For many years Terry was in the saloon business in Fort Worth, first on the corner of Second and Main streets and later at the Board of Trade saloon, corner of Third and Main, in the employ of W. H. Ward. He was well liked in Fort Worth by all who knew him.

GAME PLENTIFUL

Eulless Says Quail Are Too Fat to Be Wild

Former Sheriff Adam Eulless went out to his farm on a combination bird and squirrel hunt Saturday morning. Speaking of the game crop he said: "I never knew quail to be so plentiful as they are this season. In the cover bordering on stubble and corn fields they appear to be under every bush, and they are so fat that they are too lazy to be wild. Any kind of a shot ought to be able to bag the limit of the law in a day's hunt."

"As for squirrels, they are so thick that corn in the fields is suffering from them. The rascals even go into corn cribs near farm houses and if a man will take the time he can kill enough for a square meal without going into the woods after them. Pecan trees are great resorts for squirrels, and sometimes half a dozen can be killed within a man having to go out of his steps."

THROWN FROM HORSE

Animal Becomes Frightened at Street Car

John Ballinger was thrown from his horse in South Main street Saturday morning and badly injured. An ugly gash was cut in the side of his head and his left shoulder was dislocated by coming in contact with an electric wire pole. His horse was frightened by a passing street car and became unmanageable.

The Greatest Religious Romance Since Ben-Hur

THE plot of Elizabeth Miller's new story is dazzling in its variety, compelling in its swift and majestic river. The chariot race in Ben-Hur alone may stand beside the magnificent scene in which the heroine distracts the raging mob of Alexandrians and saves from death her lover and the Nazarenes.

Miss Miller writes of nature and the ancient world of man with a sheer authority of utterance whose power imposes itself upon the reader to a wonderful degree. Steeped in religious emotion, dramatic from first word to last, with humor and color, movement and passion, charm of style and the bravery of genius, Saul of Tarsus answers the tests of the great in fiction.

SAUL OF TARSUS

A Faithful Story of the Early Disciples of Christ

THE same splendid imagination which reconstructed the Age of the Pharaohs and revived the glory of Egypt in THE YOKE here plays with lambent flame about the great Roman world in the days succeeding the Crucifixion. The scenes are laid amid the pulsing, throbbing, vari-colored life of Jerusalem, Alexandria, Rome and Damascus.

The Apostle Paul, the Martyr Stephen, Herod Agrippa and the Emperors Tiberius and Caligula are among the mighty figures that move through the pages. Wonderful descriptions, heart-stirring incidents, deep emotion, high thought and a love story of the noblest type mark this the most remarkable religious romance since Ben-Hur.

SHERIFF'S FORCE IS ALL SELECTED

Tom J. Woods Returns From Farm With Appointments

Sheriff-elect Tom J. Wood returned to the city from his farm Friday afternoon and later announced that he had completed the list of his deputies who will enter the sheriff's office with him next Wednesday, Nov. 14. Following is the complete list of a number of the appointees having been published in The Telegram Friday:

W. M. Rea, chief deputy; J. H. Wood, Tom Snow, Joe C. Witcher, W. H. Roark, Charles Everett, Dock Reeves and Sid Higgins, deputies; James H. Lightower, Jullor; Joe W. Roy and Abe Snyder, deputies.

As forecast by The Telegram some days ago the new sheriff made a clean sweep, retaining none of the force in the employ of Sheriff House, W. H. Roark and Joe W. Roy were at one time deputies under House. Tom Wood, brother of the new sheriff, has had much experience in the sheriff's office, as has also Joe C. Witcher. Tom Snow is well known as an efficient police officer. William M. Rea, the chief deputy, is one of the best known men in Fort Worth, having been in official life for years as city marshal and chief deputy sheriff. At present he is in the employ of the Northern Texas Traction company. Charles Everett and Dock Reeves are new men in the business.

CHANGE OWNERSHIP

More Business at Galveston Than Lines Can Handle

A meeting of the new board of control of the Mallory line of steamers running from New York to Galveston, is to be held in New York Wednesday, when the actual transfer of the property to the Morse interests will probably take place.

So large is the business of the line at Galveston that two of the largest of the Clyde line steamers are to be transferred to the Galveston run.

The Mallory line has eleven steamers which operate between New York city and Galveston, Mobile, Key West and New Brunswick, Ga.

Neither of the domestic steamship lines into Galveston have been able to handle the freight offered recently, and both are to build new ships.

IMPROVEMENTS IN THE INTER-URBAN SERVICE.

In order to accommodate the traveling public, the following improvements will be made in the schedule of the Interurban between Fort Worth and Dallas, beginning Monday, Nov. 12, 1917.

Dallas cars leaving Fort Worth at 7 a. m., 8 a. m., 9 a. m. and 4 p. m., 5 p. m., 6 p. m. and 7 p. m., will run express to Handley. These express cars will be marked "Express to Handley," and will make no stops between Fort Worth and Handley, except to take on passengers who wish to go beyond Handley.

Local Handley cars will leave Fort Worth on the above hours, namely, 7 a. m., 8 a. m., 9 a. m. and 4 p. m., 5 p. m., 6 p. m. and 7 p. m., following the regular Dallas cars, and will take on and let off passengers between Fort Worth and Handley. This does not apply to Saturday and Sunday.

Local passengers are cautioned, therefore, not to get on the Dallas cars, at these hours, but to wait for the local cars.

MANY WILL GO ON TRADE EXCURSION

Route of Trip Has Not Been Selected

Nineteen citizens and companies have signified their intention to accompany the trades excursion which is planned to run from Fort Worth Dec. 3. It will take about fifty to sixty names to make the excursion a success, and it is almost certain that the excursion will be run this fall, as nearly all the people who have been asked to accompany the excursion have stated their intention of so doing.

The plan and route of the excursion will be left to the members of the trip, the only detail which has been settled is the time of departure and return. The section of the country which will be visited has not been decided. Last spring the district north of Fort Worth was taken as the most likely and it is not improbable that the excursion will run in that direction.

Among those who have signified their intention so far are G. C. Mountcastle, B. B. Padlock, Ben O. Smith, D. C. McCaleb, B. F. Bailey, F. M. Rogers, L. S. Harris, Monnie Dry Goods Company, Carter-Hunt Grocery Company, Burton-Peel, Axtell McKee, Texas Sewing Company, Fort Worth National Bank, Stock Yards National Bank, Waples-Platter Grocery Company, N. P. Anderson, Farmers and Mechanic Bank (4) and W. D. Davis.

TIME-TABLE CHANGES

Southbound Katy Express Arrives Earlier Than Formerly

Advice has been received at the headquarters of the railway mail service in this city of the following changes which will take effect in the time table of the passenger trains of the Missouri, Kansas and Texas in this city, operative Sunday, Nov. 11: Train No. 1, the southbound express, will arrive at 4:25 p. m. and leave here at 4:50 p. m., instead of 5:10 p. m. and 5:40 p. m., as formerly.

Train No. 205, southbound fast mail, will arrive at 7:55 p. m., instead of 7:20 p. m., and will leave at 8:25 p. m., instead of 7:45 p. m., as formerly. There will be no change in the other southbound train, No. 3, which will arrive at 7:50 a. m. and leave at 8:30 a. m.

The only change in the northbound trains will be in No. 2, express, which will arrive at the same time as formerly, 10:55 a. m., but will remain here five minutes longer than formerly, leaving at 11:20 a. m., instead of 11:15 a. m.

ALL STEEL POSTAL CARS

Harriman System Anticipates Legislation for Postal Clerks

Responding to an earnest demand on the part of the railway mail clerks and their own sense of responsibility for the safety of those entrusted to its care, the Harriman system has adopted the all-steel mail car. Plans are making for the future construction of that type of cars and as soon as they can be built the steel cars will take the place of the present type of cars on the Harriman lines.

This subject was made the topic of some discussion in congress at the last session, but no legislative action was had. The matter came before congress on the petition of the railway mail clerks. The clerks also petition for the use of electrical lighting of the postal cars instead of the more common lighting by gas or oil, assenting that most of the burning of the mail matter and clerks in accidents is directly attributable to the use of the last named illuminators. Generators attached to the axles of the cars can furnish an independent lighting system for each car, it is claimed.

"There's a Reason," experience proves.

1st. This food is toothsome and delicious.

2d. It is wonderfully easy of digestion, the starchy part having been predigested in the process of manufacture.

4th. This food contains delicate particles of Phosphate of Potash obtained in natural form from field grains.

This element thus highly specialized by Mother Nature, has an affinity for and will unite with albumen and water in the human body.

\$3,000 OF FUND IS SUBSCRIBED

Committee Well Pleased With Result of Day's Work

The proposed \$20,000 fund for securing new industries for Fort Worth has in a single day's canvass reached \$3,000. The committee was on the street Friday and managed to bring the subscriptions up to that amount with little difficulty.

Only two hours were spent in the work Friday, in which time a number of business men were seen, although the larger establishments and the property holders were hardly touched. The committee was in high spirits over the way responses had come in.

When this fund is raised committees will personally solicit prospective manufacturers and jobbers and induce them to visit Fort Worth at the expense of the fund.

The committee intends to keep at the work of raising the fund until the amount shall all be in and the \$20,000 raised, an amount that will undoubtedly aid Fort Worth in her growth.

The special meeting of the city council is called for Monday evening next, at 7:30 o'clock, in the council chamber of the city hall.

PRINCETON BOYS DOGET DRUNK

And Little Willie Holderby Will Stop It All

Special to The Telegram. PRINCETON, N. J., Nov. 10.—Saying that drunkenness has assumed an alarming stage among Princeton students, William Holderby, a freshman in the Princeton Theological Seminary, announces that he will start a crusade against it. He declares that students are drunk the way day after day and are never seen, and that hotel keepers sell to youths of 16 and 17. And he says that this is not all they allow either. Holderby says that if he has to give up his studies for a year, he will regulate the liquor traffic.

Finds a Fine Black Pearl That Is Valuable

Special to The Telegram. NEW YORK, Nov. 10.—Frank Wimmer, a barber of the Bronx, while eating raw clams, found a black pearl as large as an acorn. He knew nothing of its value and took it to a pawnbroker on Third avenue.

"That is a very fine black pearl," said the pawnbroker. "I will give you \$250 for it."

Wimmer refused and today he will sell it to a Maiden Lane jeweler.

RECREATIONS

"The Toast of the Town," with Jane Kennark in the leading role, at Greenwall's last evening, was somewhat of a disappointment to the majority of those who witnessed it. The play is not a strong one and is drawn out to an extent that detracts materially from its interest.

It is on the program as a comedy in four acts, and while there are some amusing situations, still it hardly appears to be a comedy. There were many tears shed during the evening. Miss Kennark's best work is at the end of the third act, when Betty Kingston tries to regain her husband's love. The other women in the cast have no opportunity to act. The men are led by Carl Anthony as the Duke of Malmsbury and Kendall Vernon as Lord Phillips, but they are too noisy and rough for the roles. Some of the scenes are enjoyed by the audience, but it is a good deal to sit thru.

"In Old Kentucky," which will be given at Greenwall's opera house tonight, requires no introduction to players of this city. For more than thirteen years it has been before the American public, which is the best evidence of the worth of this southern drama.

"A Runaway Match" There will be a fun festival and eye test at Greenwall's opera house Monday matinee and Nov. 12, when Webster Cullison's lightning, laughing comedy, with musical interpolations, "A Runaway Match" will be seen. The piece is said to create enough inexplicable complications to send the audience into a hysteria of mirth.

"The Royal Chef" There is no use attempting to account for the certain fascination that military uniforms have for the feminine heart, but there is no denying either that a halo promptly cast about any stalwart youth in a military uniform, the same halo radiates and enshrouns the uniform in the heart of nearly every American maiden who gazes at a soldier in uniform. It is there one who does not? Osborne Clemons, who as Lieutenant Parkes in the "Royal Chef," which appears at Greenwall's opera house Tuesday matinee and night, Nov. 13, has made a distinct hit in the role, is a magnificent specimen of manhood and wears a uniform like a veritable West Pointer.

At the Majestic Probably every one who has visited the Majestic this week, and the houses have been the scene of a fine season, has come away enthusiastic over "Pals," declared by many to be the best one-act vaudeville sketch on the stage. It is an act that stir enthusiasm and those who praise it have good reason for the display of their admiration.

But a week or two ago there appeared at the Majestic a one-act vaudeville sketch called "The Counsel for the Defense," which also caused much enthusiasm and is called by many "the greatest one-act sketch in vaudeville."

The two sketches are widely different, yet those who called them both "greatest" have much cause for their adjective, yet neither is. The one-act sketch is a comedy in the degree by which it claims to be the "greatest" is one in which there will be displayed in properly contrasted proportions all the elements of human emotion—love, hate, fear, grief, joy, and display them in such a manner that no person in the audience hearing the presentation can fail to be touched in some degree by each one of these different emotions. To make all the persons in an audience equally affected by these varying emotions would be impossible. Human nature wasn't built on that plan, but human nature is so constructed that every person who has been affected by a faithful portrayal of any elementary passion (the words emotion and passion are used synonymously in this sense), will be touched in some degree by the picture all best will come most nearly being the "great" one.

In the "Counsel for the Defense" every emotion of the human nature is the preceding paragraph was portrayed with the single exception of hate. The element of revenge did not enter the picture. Love was given a prominent place and the values between fear, grief and joy were nicely balanced. There was a little too much sadness in the telling of the story, and the scene which Mr. and Mrs. Robyn, excellent actors that they are, both recognized, and they tried to inject as much comedy as possible.

In "Pals," love, hate and joy are well mixed. There is a touch of fear in the character of the wife, but no grief any part of the story. A fine scene with the husband, who has discovered his dearest friend a traitor to his home, sitting alone on the stage, stricken with grief over the shattered friendship, would supply this, but it would give the act a sad ending, which nobody would like.

The most serious defect in "Pals" is the brisk action from the start, which keeps the audience laughing continually up to the time the tragic element is introduced. The emotions do not have time for the reaction.

This could be improved by making the play run along as a comedy up to the point where the husband comes rushing in from the city to find his friend ahead of him. Then instead of the buoyant, effusive, enthusiastic greeting he gives, he might shade in something of the pathetic. There is always something to play on the tenderer emotions in a meeting between two men, friends, after a long separation. No man in the audience would fail to be touched were the action of the play at this point made to appear stronger by a bit of the so-called "repression" act.

Then, first greetings over, the rapid action of the play could be resumed. The audience would have been given time to catch up to the scene, and the application of the tragic climax would be keener and stronger.

It is doubtful if any four actors ever seen in Fort Worth in one production have been more uniformly capable than those presenting "Pals."

The act will be one for basing comparisons by during the rest of the season.

BUILD IRON BRIDGE

The Old Wooden Structure Will Not Be Repaired

The city of North Fort Worth will, in a short time, construct a substantial bridge across Marine creek on Exchange avenue.

The present bridge is of wooden materials, and is beginning to need repairs. Instead of repairing the old one, a better one will be erected in its stead, and the grade will also be raised above the high water line.

Nervous Indigestion

The action of digestion is controlled by the nerves leading to the stomach. When they are weak, the stomach is deprived of its energy. It has no power to do its work. If you want permanent relief, you must restore this energy. Dr. Miles' Nerveine restores nervous energy, and gives the organs power to perform their functions.

"For many years I was an acute sufferer from nervous indigestion; at times I was so despondent life seemed almost a burden. I tried all kinds of remedies and various physicians with little or no relief, until one night last summer I saw Dr. Miles' Nerveine and Heart Cure advertised. I resolved to make one more trial, which I did in the purchase of one bottle of Nerveine and one of Heart Cure. In a few days I began to feel better. The Nerveine made me so much that I continued the medicine until I am very much improved in every way; in body, mind and spirits since. I am very much pleased to recommend the medicine, and feel a sincere pleasure in knowing that several persons have been benefited through my recommendations."

HANDS RAW WITH TERRIBLE ECZEMA

Buffered for Ten Years—Spreading to Body and Limbs Despite Efforts of Three Doctors—Another Remarkable and Speedy

CURE BY THE CUTICURA REMEDIES

"I had eczema on my hands for ten years. At first it would break out only in winter. Then it finally came to stay. I had three good doctors to do nothing for me. I had none of the usual any good. I then used one box of Cuticura Ointment and three bottles of Cuticura Resolvent, and was completely cured. My hands were raw all over, inside and out, and I was unable to do anything. I used Cuticura Resolvent, together with the Ointment, my sores were nearly healed over, and by the time I had used the third bottle, I was entirely well. I had a good appetite and was fatter than I ever was. To any one who has any skin or blood disease I would honestly advise them to get the Cuticura Remedies and get well quicker than all the doctors in the State can cure you." Mrs. M. E. Fain, May 19, 1905. Speers Ferry, Va.
