

THE LARGEST CIRCULATION IN FORT WORTH

FORT WORTH'S RECOGNIZED LINER MEDIUM

TWO MILLIONS FOR TEXAS Recommended by General Mackenzie

STREAMS OF STATE Streams to Undergo Extensive Improvements in Near Future

The following is what General Mackenzie recommends for the state of Texas: Cypress Bayou, Red and Trinity rivers \$250,000 Brazos river 225,000 Brazos river at mouth 137,500 Sabine Pass harbor 250,000 Galveston harbor 450,000 Galveston channel 150,000 Galveston ship canal and Buffalo Bayou 300,000

WASHINGTON, Nov. 13.—General Alexander Mackenzie, chief of engineers, has reported to the secretary of war that \$16,952,321 will be required to complete the engineering work upon the fortifications projected by the act of Jan. 31, 1905.

General Mackenzie states that the following amounts stated can be probably expended during the next fiscal year in the principal river and harbor work:

Table listing river and harbor work costs: Brazos river (old Washington to Waco) \$225,000; Brazos river (mouth) 137,500; Trinity river, Cypress Bayou and Red river, above Fulton harbor at Sabine Pass, Texas 510,287; Houston harbor, Texas 450,000; Houston channel (along the wharf front) 150,000; Galveston ship canal and Buffalo Bayou 300,000; Atascosa river and channel to Baltimore 500,000; Atascosa river at Washington, D. C. 250,000; Atascosa river, District of Columbia 200,000; Atascosa river, District of Columbia 200,000; Cape Fear river at and below Wilmington, N. C. 50,000; Savannah river, Georgia 110,000; Harbor at Pensacola, Fla. 100,000; Alabama river at Mobile 100,000; Black Warrior and Tombigbee rivers, Alabama 752,000; Sagououia river, Mississippi 200,000; Southwest Pass, Mississippi, 1,000,000; South Pass, Mississippi river, recommended that annual appropriations for maintenance be increased from \$100,000 to \$1,000,000; Mississippi river between Hannibal and St. Louis, Pa. 400,000; Cumberland river, between Nashville, Tenn., and Kentucky 150,000; Cumberland river above Nashville 250,000; Sandy river, levees and ditches, West Virginia and Kentucky 284,300; Kentucky river 174,000; Ohio river, between Cincinnati and the mouth of the Ohio, with salaries of commission 6,000,000; Improving harbor at Natchez and Vidalia, La. 300,000; Harbor at New Orleans 300,000; During the year the number of guns available for service was increased by the addition of eight mortars, four 12-inch guns, and twenty-four 10-inch guns, so that altogether the status of the armaments for which congress has appropriated funds was \$1,232,123; 123 ten-inch guns, 99 eight-inch guns and 587 rapid fire guns; For continuing the construction of gun and mortar batteries an estimate of \$3,449,000 is submitted for modernizing old armaments \$342,800 and for the control, engineer work, \$1,564,834; For the purchase of sites for fortifications to carry out the plans of defense proposed an estimate of \$3,000,000 is submitted, and for search lights and connections, \$2,967,700; For the preservation and repair of fortifications \$300,000, supplies for seacoast batteries \$40,000, seawalls and embankments, \$236,315; preservation and repair of torpedo structures \$50,000, submarine mines \$1,852,519, construction of batteries in insular possessions \$2,000,000 (\$250,000 going to Guantanamo Bay, \$350,000 to Honolulu and Pearl Harbor, Hawaii; \$344,000 to Subig Bay, P. I., and \$1,255,000 to Manila, P. I.); Fire control at batteries in these stations \$752,380, fortifications sites, Hawaiian Islands, \$176,100, submarine mines, insular possessions \$382,500.

THE GRAND TOTAL OF THE APPROPRIATIONS RECOMMENDED FOR USE IN THE ENTIRE COUNTRY IS \$16,952,321, OF WHICH IT IS SUGGESTED \$2,227,287 BE SPENT IN TEXAS, OR THAT ABOUT ONE-EIGHTH OF THE ENTIRE AMOUNT BE USED FOR RIVERS AND HARBORS IN THIS STATE.

WASHINGTON, Nov. 13.—General Mackenzie, chief of engineers, has reported to the secretary of war that \$16,952,321 will be required to complete the engineering work upon the fortifications projected by the act of Jan. 31, 1905.

Another Great Bargain
300 Yards Silk Poplins, 50c values 33c

Gorgeously beautiful in their fine colorings and exquisite tints, wearing better than silks. Dainty satin dot effects to catch the light as the goods change position on the wearer, making these most desirable for fine shirt waist and evening wear.

EAGER LINEN BUYERS SNAP UP BARGAINS
IN TABLE CLOTHS

The great linen displays drawing crowds and more linens sold than any previous time in this store's history.

BARGAIN LENGTHS OF LINEN

In picking out and preparing for this sale, we came across many short bolts. Some have 1-2, others 2, some 2 yards. These will place on one of the counters. Cut prices will be placed on them that will clear out the lot in the first day's selling.

50c IRISH LINEN TABLE CLOTH—64 inches wide, full bleached, our regular 50c quality. A sale price we could not duplicate at present market price of linen; only one pattern to a customer of this... 43c

75c GERMAN LINEN CREAM DAMASK FOR 50c—Never sold for less than 75c a yard, extra heavy. Think of a double-woven pure linen damask for this price. We limit the sale of this to one pattern to a customer; the yard... 50c

75c SILVER BLEACH LINEN FOR 50c—This is a fine soft satin finished Table Cloth; no need to sell this at the price we do, except our desire to make this the annual event of the year—one long to be remembered. We limit one pattern of this to a customer; sale price... 50c

DEATHS

Enos

Fort Worth Development Company to John C. Ryan and Company, 100 acres of land and other tracts about

PAIN

Pain in the head—pain anywhere, has its cause. Pain in the head—pain in the blood—nothing else usually. As least, so says Dr. Shoop, and to prove it he has created a little pink tablet. This tablet—called Dr. Shoop's Headache Tablets—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

TWO ARE HELD

Louis Richardson Must Face Two Charges of Assault

George Rogers and Louis Richardson, both charged with assault to murder, were arraigned in Justice Charles T. Rowland's court Monday afternoon. Both waived an examining trial and were held for the grand jury in the sum of \$500 in each case.

Rogers is charged with cutting Walter Tanner in a fight that took place at 422 North Main street Sunday night. The injured man is said to be in a dangerous condition.

Louis Richardson, who resides at Rosen Heights, was charged with assaulting his brother. There are two cases against him, his bond being \$500 in each case.

Louis Richardson Must Face Two Charges of Assault

George Rogers and Louis Richardson, both charged with assault to murder, were arraigned in Justice Charles T. Rowland's court Monday afternoon. Both waived an examining trial and were held for the grand jury in the sum of \$500 in each case.

Rogers is charged with cutting Walter Tanner in a fight that took place at 422 North Main street Sunday night. The injured man is said to be in a dangerous condition.

Louis Richardson, who resides at Rosen Heights, was charged with assaulting his brother. There are two cases against him, his bond being \$500 in each case.

COLD IN FLORIDA

Freezing Temperatures in Many Parts of the Country

Freezing temperature as far south as Jacksonville, Fla., shows the extent of the present cold weather. However, as the lowest recorded at Jacksonville is 32 degrees, the orange crop was probably not so badly injured as it is known officially as "killing frost" conditions.

The line marking the extent of freezing weather takes a curious course, starting away up in Montreal and running southwest to below Cincinnati and then curving northward again to Chicago, from where it swings southeast thru Asheville, N. C., down to Jacksonville, and then northwest thru Montgomery, Memphis, Wichita, Kan., and then straight north thru Bismarck. The entire Rocky mountain country and the Pacific coast has a temperature of over 32 degrees.

From the lines on the weather map the freezing condition must have swung across the Gulf, as it did not touch Fort Worth, the lowest here being 37 degrees, which occurred early Monday morning. The minimum temperature for Fort Worth was 7 o'clock Monday night until 11 o'clock Tuesday morning was 40 degrees.

In contrast with the 32 degrees of Jacksonville is the 90 degrees register at Phoenix, Ariz., and the 92 at Los Angeles. If these conditions swing to Fort Worth, as sometimes happens, there will be warmer weather than we have here. However, the weather map this morning forecasts warmer weather for Fort Worth, also not stating that it will be a frost here.</

THE FASTEST GROWING STORE IN THE STATE

W. E. Stripling

THE PRICE IS THE THING.

EVERY DAY

New Coat and Suit Styles

TOMORROW

This Suit

\$12.50

By express we have just received a large assortment of New Coats and Suits from some of the greatest suit makers of the East—styles that were designed in Paris—so new that you will find no duplicates of them anywhere. A superiority in style leadership that the Stripling Store constantly strives for—besides this, you recognize that values offered here are real.

Take this Suit We Offer at

\$12.50

Where can you duplicate it for \$12.50? Elsewhere it would be sold at \$15.00 or \$16.50. Note the nicety of workmanship in the tailoring. In new style plaid, in the fitted back with half-fitted front, trimmed in fancy braid, black velvet and buttons; collar of black velvet; skirt plaited and trimmed on either side of panel front with velvet and braids. Plaids to choose from in rich browns, handsome gray and reds; a Stripling value for \$12.50.

A COAT FOR \$12.50—That should bring \$16.50, and you pay that much in most stores. The assortments are good. Here's a simple picture of good value in a stylish Ladies' Coat. They are made overcoat style, long in length, very mannish and neatly tailored, with patch pockets, velvet collars of different shade cloth in mannish mixtures and favorite new plaids.

\$12.50 COAT FOR \$9.00—Swell style, long lengths, in fancy mixtures and novelty cloths; neat, stylish, double-breasted, with big patch pockets and fancy buttons; collar of dark green velvet, inlaid white cloth, trimmed in black braid, cloths in the very latest patterns; special price of \$9.00.

ANOTHER GREAT BARGAIN

300 Yards Silk Poppins, 50c values 33c

Gorgeously beautiful in their fine colorings and exquisite tints, wearing better than silks. Dainty satin dot effects to catch the light as the goods change position on the wearer, making these most desirable for fine shirt waist and evening wear. This grand bargain we place on sale Wednesday morning; pinks, blues, light or medium, and dark grays.

EAGER LINEN BUYERS SNAP UP BARGAINS

IN TABLE CLOTHS

The great linen displays drawing crowds and more linens sold than any previous time in this store's history.

BARGAIN LENGTHS OF LINEN

In picking out and preparing for this sale, we came across many short bolts. Some have 1-2, others 2, some 3 yards. These we will place on one of the counters. Cut prices will be placed on them that will clear out the lot in the first day's selling. Here one can pick fine Linen Table Cloths at these remarkable prices: 49c, 53c, 75c, \$1.13, \$1.19, \$1.38, \$1.47, and so on through different grades up to \$2.13 for fine damask patterns.

50c IRISH LINEN TABLE CLOTH—64 inches wide, full bleached, our regular 50c quality. A sale price we could not duplicate at present market price of linen; only one pattern to a customer of this... **43c**

75c GERMAN LINEN CREAM DAMASK FOR 50c—Never sold for less than 75c a yard extra heavy. Think of a double woven pure linen damask for this price. We limit the sale of this to one pattern to a customer; the yard... **50c**

75c SILVER BLEACH LINEN FOR 50c—This is a fine soft satin finished Table Cloth; no need to sell this at the price we do, except our desire to make this the annual event of the year—one long to be remembered. We limit one pattern of this to a customer; sale price... **59c**

DEATHS

J. T. Enos of Rosen Heights dropped dead at noon Tuesday, presumably from heart failure, to which he was subject. The death occurred at the residence of Mr. Miller. The late Mr. Enos was the father of four sons and one daughter, who survive him.

Fallon
Robert Vinton Fallon Jr., the engineer of the ill-fated Frisco passenger train which was wrecked west of the city last Sunday morning, died about 4 o'clock Monday afternoon at his residence, 405 Wheeler street, the result of his injuries, received in the wreck.

His body was shipped early Tuesday morning to Brownwood, Texas, by L. P. Robertson, undertaker, for funeral and interment. Mr. Fallon was 25 years of age and is survived by his wife here.

Miller
John Miller, aged 25 years, died late Monday afternoon at a city sanitarium as the result of injuries received in striking his head against the viaduct in Front street while aboard a street car. The body was shipped Monday night by G. L. Gause, undertaker, to his former home at Grapevine, for funeral and interment. He is survived by his wife. His late home was at 302 Bessie street, Glenwood.

Wilkinson
The funeral of Joseph D. Wilkinson, who was fireman on the Frisco passenger train and was killed in the wreck west of the city Sunday morning, was held Tuesday morning at 10 o'clock from the residence, 1003 Railroad avenue, with interment in the new cemetery. He is survived by his wife.

TWO ARE HELD

Louis Richardson Must Face Two Charges of Assault

George Rogers and Louis Richardson, both charged with assault to murder, were arraigned in Justice Charles E. Rowland's court yesterday afternoon. Both waived an examining trial and were held for the grand jury in the sum of \$500 in each case.

Richardson was arrested by Walter Tanner in a fight that took place at 422 Cummings street Sunday night. The injured man is said to be in a dangerous condition.

Louis Richardson, who resides at Rosen Heights, is charged with assaulting his brother. There are two cases against him, his bond being \$500 in each case.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing as usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—takes blood pressure away from pain centers. Its effect is charming, pleasantly delightful. Gentle, though safety, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruse your finger, and you'll see it get red, and swell, and pain your foot of course is done. It's congestion, blood pressure. Don't find it where pain is—always. It's simply Common Sense.

It sells at 25 cents, and cheerfully recommend

SIR THOMAS AGAIN WINS OUT

Is Successful in Arranging for Yacht Race in 1908

Special to The Telegram.
NEW YORK, Nov. 13.—The Herald today says:
According to the latest developments announced last night upon the best of authority, the New York Yacht Club is willing to accept a challenge for a race in 1908 under the new rules of measurement. This announcement shows that Sir Thomas, far from having failed in the object of his visit here has been successful. He came here to arrive at an understanding for another race and he has accomplished the object of his visit.

From the same source of information it has also been ascertained that Sir Thomas' next challenger will be a cutter designed by William Fyfe, the designer of Shamrock III and Shamrock II.

SLAM AT FORT WORTH

Fire and Water Magazine's Figures Inaccurate

In the last issue of the Fire and Water Magazine (No. 10) there is no liquor dealer's organ, some figures regarding the fire departments of various Texas cities are given. Among other things the article makes the following interesting statements: "Fort Worth with not one-third the population of Dallas has 2,000 feet more hose." The figures are based on the statement that Dallas has a population of 85,000, while Fort Worth is credited with 26,688. Other figures regarding Fort Worth's fire department are given in a table accompanying the article as follows: Men in department, 41; combination wagons and steamers, 4; hook and ladder trucks, 2; feet of hose, 8,500; hydrants, 480; value of horses and equipment, \$83,250. The same table gives Dallas equipment worth \$11,000 and Houston equipment worth \$350,000. The last report of the Fort Worth fire department which could have been obtained easily by the Fire and Water writer had asked for it, shows that the department has 54 men, 12,000 feet of hose, 535 hydrants and horses and equipment worth \$120,000. Since this report equipment worth \$1,800 has been added. The entire equipment of Fort Worth has its own fire department, with six men, a chemical engine, hose reel and 2,000 feet of hose. Swift and Armour have been doing a splendid job of equipment and sufficient to handle any ordinary fire.

COLD IN FLORIDA

Freezing Temperatures in Many Parts of the Country

Freezing temperature as far south as Jacksonville, Fla., shows the extent of the present cold weather. However, as the lowest record at Jacksonville is 32 degrees, the orange crop was probably not affected, as it takes a lower degree than that to kill, about 32 is known officially as "killing frost" conditions.

The line marking the extent of freezing weather takes a curious curve, starting at New York, passing through the southwest to below Cincinnati and then curving northward again to Chicago, from where it swings southeast thru Asheville, N. C., down to Jacksonville, and then northward thru Montgomery, Memphis, Wichita, Kan., and then straight north thru Bismarck. The entire Rocky mountain country and the Pacific coast has a temperature of over 32 degrees.

From the lines on the weather map the freezing conditions must have swung across the Gulf, as it did not touch Fort Worth, the lowest here being 37 degrees, which occurred early Monday morning. The minimum temperature for Fort Worth from 7 o'clock Monday night until 7 o'clock Tuesday morning was 40 degrees.

In contrast with the 32 degrees of Jacksonville is the 99 degrees registered at Phoenix, Ariz., and the 92 at Los Angeles. If these conditions swing to Fort Worth, as sometimes happens, there will be much warmer weather here. However, the weather map this morning forecasts warmer weather for Fort Worth, although not stating that it will be "much warmer" than at present.

Texas temperatures are Abilene 64 to 46 degrees, Amarillo 66 to 42 degrees, Corpus Christi 66 to 46 degrees, El Paso 70 to 44 degrees, Fort Worth 55 to 40 degrees, Galveston 58 to 50 degrees, Palestine 62 to 32 degrees, San Antonio missing.

Temperature ranges from other sections of the country are as follows: Atlanta 26 to 40 degrees, Chicago 28 to 38 degrees, Des Moines 16 to 32 degrees, Duluth 28 to 26 degrees, Los Angeles 68 to 92 degrees, Memphis 50 to 44 degrees, New Orleans 40 to 56 degrees, New York 34 to 44 degrees, San Francisco 52 to 74 degrees.

THERE'S NO USE talking, you can't beat Herbine for the liver. The greater regulator ever offered to suffering humanity. If you suffer from liver complaint, if you are bilious and fretful, if your liver, and Herbine will put it in its proper condition. A positive cure for Constipation, Biliousness, Dyspepsia and all ills due to a torpid liver. Try a bottle and you will never use anything else. Sold by Covey & Martin.

THERE IS NO REASON why your baby should be thin and fretful during the night. Worms are the cause of thin, sickly babies. It is natural that a healthy baby should be fat and sleep well. If your baby does not retain its food, don't experiment with colic cures and other medicine, but try a bottle of White's Cream Vermifuge, and you will soon see your baby happy, robust and laugh at its should. Sold by Covey & Martin.

RECORD BROKEN AGAIN

Clearings for the Day Go Near \$2,000,000 Mark

Monday, Nov. 12, was another record day in the Fort Worth clearing house. The total clearings for the day amounted to nearly two million dollars. The previous record which was made here a few weeks ago was broken by over a hundred thousand dollars. Total clearings for the day were \$1,957,786, the highest single day's business in the history of the house.

It is hoped that the Fort Worth clearings for this week will pass the \$10,000,000 for the first time. A week of over \$3,000,000 has been recorded, and if the present rush keeps up the total will go to eight figures for the first time in history.

TARDY UPHOLSTERING

Man Took Chairs Away and Has Not Returned

Mrs. W. Z. Manchester, 624 Henderson street, complains to the police department that about ten days ago a man came to her place and took a pair of chairs to be reupholstered, one of the others leather. They were to be returned promptly, but nothing has been heard from the man or the chairs since. The description she gave of the man causes the police to believe that he can locate him.

NEW MEMBERS TO BOARD OF TRADE

Committees to Continue Work Wednesday Morning

The two-hour canvass for new members for the Board of Trade on Tuesday morning from 10 o'clock until noon secured 140 new members to the board, bringing the total membership to almost 450. This includes the work of all the committees with the exception of its committee, which had not turned in its list. There will probably be from twenty to twenty-five new members on that list, which will bring the total membership secured today to 160 or more.

Not satisfied with the work which was finished this morning nearly every member of every committee promised that they would return for a further canvass on Wednesday morning. The actual results of the canvass on Tuesday morning with its 140 new members is seen in the fact that \$4,200 will be added to the yearly income of the Board of Trade to secure additional factories and concerns for the city.

The committee doing the best work was composed of N. H. Lassiter, W. C. Stripling, J. E. Mitchell, H. B. Cerveny and T. B. Gilliland which turned in a list of thirty new members. Captain B. H. Paddock over the telephone added ten names and J. B. Gilliland added a list of six secured by himself alone, making a total of 140.

When the present active canvass for members to aid in the work was started a couple of months ago there were added 190 names on the membership rolls. Up until this morning about 120 had been added and now comes the addition of 140 names in one day.

The members of the committee this morning were unanimous in their declarations that the work should be continued until every business man in the city is added to the membership and all declared that they were willing to continue in the work and bring the list up to the mark of 1,000, which is being aimed at.

The list of committee with the new names that they turned in is as follows:

Committee of N. H. Lassiter, W. C. Stripling, J. E. Mitchell, H. B. Cerveny, F. B. Gilliland, William A. Rollins, Dr. H. V. Brannon, P. W. Hunt, Smith & Lettimore, F. C. Willis, R. H. McDonald, Updike Grain Company, John M. Scott, J. W. Buchanan, M. B. Harris, Hunter P. Lane & Co., D. S. Hare & Co., Kent Barber, Cook & Covert, A. N. Evans, S. L. Rodick, Morgan Bryan, Ligon, Dickinson & Co., W. H. Ward, R. S. Ragsdale, Nathan Ladon, J. H. Barwise Jr., Colorado Fuel & Iron Company, W. T. Humble, M. E. Berney, B. L. Anderson, Aug. Males, Sterling H. Beaumont, W. C. Mullins.

Committee of G. W. Burroughs, H. A. Judd, R. P. Bailey, Swinney and W. P. Burton; John M. Parker, Bush & Gerts Piano Company, Gussoni & Co., Texas Grain & Elevator Company, Fort Worth Building & Supply Company, G. W. Hayden, B. K. Wedgworth, Hoyle & Barick, Great Atlantic & Pacific Tea Company, B. Z. Friedmann, Gray & Thompson, William H. Cobb, Franklin G. Cates, W. O. Smith, J. J. B. McCullar.

Committee of R. H. Foster, F. S. Boulware, R. G. Montgomery and Leon Grose; W. I. Smith, J. L. Breathitt, S. W. Moore, Wood & Turner, Miller Brewing Company, Fishburn steam

dye house, Eitelman & Son, May Laundry Machine Company of Chicago, John Burke & Co., W. H. Marlow, Mexican Chili Supply Company, City Printing Mill, New Exchange stable, Curtis & Galt, Dr. W. P. Walker, Atwell Cornice Company, R. L. Wilcox & Co., R. E. Maxwell, W. T. Helmscamp, J. A. Lewis, C. W. Pipes, Old Exchange stable, Fort Worth Bottling Works, Ware & Leland, W. E. Hurttmann.

Committee of J. L. Cooper, W. Patterson, L. P. Robertson, D. E. Colip, Prof. J. W. Draughon, H. Braun, Dr. John Wolfe, R. Vickery, Pollock-Malone Co., Charles K. Lee, A. C. Ford, Wood & Wood, Stonestreet & Davis, Crouch Hardware Co., Hunter & Hunter, Dr. J. E. Willson, Sandgard Grocery Co., E. H. Phillips, Brown & Vera, Fort Worth Barber Supply Co., S. Gilbert, W. M. Robinson, I. Mehl, S. Gilbert, Lackey's Pharmacy, Thomas Finn, O. V. Colvin, Street & Roberts, Mehl & Harwitz, C. R. Post.

Committee of W. L. Coleman, George W. Curtis, J. E. Weeden, F. S. Knight, Charles A. Myers, Acme Steam Laundry, Planning Mill, Lewis's drug store, Fort Worth, Telephone, Reeves' Pharmacy, J. L. Sneed, Boone Kirk, E. E. Bewley, Majestic Theater, W. B. Fitzhugh.

Captain B. H. Paddock secured alone: John P. Herd, Economy Acetylene Gas Co., Kuykendall Investment Co., J. G. Willhoit, N. J. Wells, Bowden Tins, Texas Bottling Co. and Candy Works, Fort Worth Machine and Foundry Co., Manning Lumber Co., Clay Sandidge, J. E. Head, A. G. Carter, Boyd Clark.

MACHINERY IN COURT

Damage Suit Against a Local Laundry Company

The Forty-Eighth district court room Tuesday morning heard very much the appearance of a section of a room in a steam laundry, and the proceedings were more than usually interesting.

The case on trial was Joseph Selzer vs. Acme Steam Laundry Company, the suit being for damages alleged to have been sustained by Mrs. Joseph Selzer, one of the laundry employees. Mrs. Selzer, it was alleged in the pleadings, was employed to operate a sheet ironer, and while so engaged one of her hands was caught in the machinery and badly crushed.

To illustrate to the jury the operation of this particular kind of machine at which Mrs. Selzer worked the attorneys for the plaintiff had set up in the court room and in operation during the trial a duplicate of the machine at which Mrs. Selzer worked. This feature of the trial was not only interesting to the jury who will decide the case, but the court judge and spectators were also much entertained by it. This is the first instance of this character of evidence being introduced in the trial of a law suit in Tarrant county. The machine introduced in court would weigh probably a ton, is about four feet high and seven feet long, and is of iron casting except the roller or ironer, which is of burnished steel.

Diplomacy is the graceful art of making other people feel that they know more than you do.

CLUNG TO FAITH; NOW A CORPSE

He Followed Dame's Teachings and Refused Medical Aid

Special to The Telegram.

SAN ANTONIO, Texas, Nov. 12.—Choosing death rather than violation of the tenets of his faith, Emil Ropp died here Monday. He was a member of the Dowle faith and was suffering with consumption. He indignantly refused the offer of medical assistance and stated that if faith would not cure him he would die. He will be buried in Chicago.

The CITY-BRIDE

E. Renfro has gone to Brownwood. Crouch Hardware Co., 1007 Main St. Cut Flowers at Drumm's. Phone 101.

Book's Book Store, 402 Main street. S. M. Hill of Cleburne is in the city today on business.

J. W. Adams & Co., feed, produce, fuel. Phone 530.

W. H. Hortenstein returned Tuesday morning from Wichita Falls.

Fort Worth Viavi Co., 514 Main street. Hours 1 to 4. Phone 1284.

Waples-Painter Co., Central ave. want your lumber business. Phones 1407. Phone 1367, William Cameron & Co., North Ft. Worth, for prices on lumber.

S. B. Burnett has gone to his King county ranch, where he will be for ten days.

Calvin Branch of El Campo, a prominent ranch man of the state, is here today.

W. M. Shoaete of Karnes City, an Inspector of the Texas Cattle Raisers' Association, is in the city on business.

Born, Nov. 12, to Mr. and Mrs. W. B. Martell, 1600 South Main, a daughter, Mr. Martell is the chief assistant to Collector W. J. Gilvin.

Colonel Ike Pryor of San Antonio, president of the Texas Cattle Raisers' Association, arrived Monday afternoon from Mineral Wells, where he has been for the past few days.

Moses Lemon of Waco has been appointed to the Denison and Taylor railway mail route, and James E. Stephens of Wayland has been appointed to the Fort Worth and El Paso route.

A meeting of the directors of the North Driving Club will be held this evening at 7:30 o'clock in the office of Chief of Police Maddox for the purpose of electing a treasurer and secretary for the coming year.

Dr. George E. Adams, who has been in St. Louis and Chicago for the past few weeks, will return home Wednesday. While in Chicago Dr. Adams was the guest of Dr. Nicholas Senn of St. Joseph's Hospital.

The Texas and Pacific telegraph wires on the joint track were made useless Monday morning by the burning of the cotton gin at Menigo, six miles north of Denton. The gin and quite a lot of cotton, baled and loose, were destroyed.

Rheumatism, more painful in this climate than any other affliction, cured by Prescription No. 2851, by Elmer & Amend. For sale by all druggists.

The Fair

Women's Suits \$25.00 **Women's Coats at \$16.50**

The attractiveness of our extensive line of Tailored Suits for women is enhanced today by the addition of some twenty-five fine new Et on blouse models that just reached us by express. These splendid Suits are made of broadcloth in red, green, blue, black, etc. The coats are tastefully trimmed in handsome silk velvets and braids—some with vest effect; the skirts are in the newest Parisian plaited models. Tailored Suits brimful of style, and offered at the moderate price of\$25.00

We offer tomorrow some very attractive numbers in Women's Coats—splendid garments for every day street wear, and dressy enough for most any occasion. These coats are made of meltons, kerseys and wool mixtures in black, tan, castor, green, gray and the new plaids and mixtures, unlined or half satin lined. All the popular new models and lengths, plain tailored or trimmed in velvets, silk braids and fancy buttons; splendid coats, attractively priced for tomorrow's selling, at\$16.50

LABOR TEMPLE NOTES

Meetings of local unions scheduled for Tuesday night at Labor Temple are as follows: Painters, stationary firemen and retail clerks.

The local Machinists' Union held a regular business meeting Monday night with a good attendance.

State Organizer C. W. Woodman of the Typographical Union has returned home from Austin, where he was in conference with the arbitration committees from the several state locals which are out on the eight-hour movement. "We decided on a plan which to my mind will be irresistible and which will close up all differences in the state. The plan will be first submitted to the International Union for final action," said Mr. Woodman Tuesday.

GOOD SUBSCRIPTIONS

One Committee Had Raised \$650 at Noon

PRICKLY PEAR FOR CATTLE

In portions of west Texas and over a great deal of south and southwest Texas the prickly pear has long been regarded as an unmitigated nuisance, altho during season of drouth the ranchmen of those sections have found it a very good cattle feed after the spines are removed by burning. Since the impetus given the making of denatured alcohol, it is claimed that there is a bonanza to be reaped from these cactus lands of Texas as a material for manufacturing alcohol, and at several points in west Texas arrangements are being made to soon begin work with portable stills, which will be moved around in the cactus region as the supply diminishes. Owners of this cactus land are figuring on some big revenue when the alcohol making begins, and it is an experiment that is being watched with much interest throughout the state.

But the feeding of this prickly pear to stock has been given a new impetus in consequence of some experiments that have recently been made and the boost given the idea by the federal authorities at Washington. As a result of careful experiments it has been shown that a ration producing between one and a quarter and one and a half pounds of butter per day costs about 13 cents, when pear, rice, bran and cotton seed meal were fed. Altho prickly pear is low in nutritive value from the chemical standpoint, the steer feeding experiment also shows that there is abundant justification for the practices in vogue of preparing cattle for market upon prickly pear and cotton seed meal. A gain of one and three-quarter pounds per day at an expense of 3 1/2 cents per pound compares favorably with the feeding results obtained from standard feeds.

Two experiments have recently been undertaken, both conducted under the immediate supervision of ranchmen in southern Texas in co-operation with the bureau of plant industry at Washington. The first test was undertaken by Alexander Sinclair of San Antonio. The second was conducted by T. A. Coleman, a well known cattleman, upon his ranch at Enclinal. There are two species of the prickly pear recognized in that portion of Texas where the plant flourishes. One is small and prostrate, and of no special value. The other has at least two forms, one with yellow spines and the other with spines red or brown at the base. There is also another variety found in south Texas and known as the blue pear.

The cows selected for the experiment were secured from the Sinclair herd of about 100 head. They were both Holstein-Jersey stock. During the feeding period the cows were kept in separate pens and under separate sheds and were allowed to remain in the sheds or roam in the pens at will. One load of pear was sufficient for a week's feed and at feeding time the material was placed in a box and chopped with a spade into convenient size for the animals to eat. The grain was invariably fed at milking time, and a ration of roughage, consisting of pear or sorghum or hay, was fed three times a day. Pear was always fed after milking morning and evening, and about midday. It was the purpose during the entire period to feed all the pear the cows would eat.

It has been found impossible at this time to make an estimate that is at all reliable regarding the cost of this item of the ration. The rancher gathers the pear upon his land as he would firewood, hence it costs him nothing. The cost of the other items of the ration is as follows: Cotton seed meal, \$22 per ton; rice bran, \$13 per ton; sorghum hay, \$7 per ton. One man can easily burn pears for 100 cows and in addition thereto he can assist in the milking. He will use ten gallons of gasoline each day in burning the spines off of the cactus, and during the time this experiment was

in progress the price of this commodity was 12 cents per gallon. The cost of a day's rations for each cow while pear without hay was being fed was 13 cents. The conclusion of the authorities at Washington is that the Texas cactus raiser has a very cheap feed at hand if he will only give the matter the proper attention. Many ranchmen in that section of the state have provided themselves with pear burners, as they are called, which can be moved around over the pear producing areas and the spines burned off the plant as it is gathered. The slight scorching given the plant during the spine burning process does not seem to affect the taste of the cattle, for they eat it with avidity and it is very apparent that had it not been for the spines on this plant the cattle would have long since wiped it out of existence.

ECHO OF TURN TEXAS LOOSE

Upon the eve of the convening of the Texas legislature and the assembling of politicians from every section of Texas, comes as timely advice that suggestion of John H. Kirby, made at the Fort Worth Business Men's meeting the early part of the present week, when he said, "Open the gates and extend a welcome to the honest and industrious men of all states and nations." This advice is timely by reason of the fact, as Mr. Kirby says, that the people of this state want progress and they want business in lieu of political hypocrisy, and they want laws passed that will bring into our midst "the man who does things." As he very properly said in his Fort Worth speech, "Corporations are as essential to the business affairs of the people as blood to the human body." Continuing Mr. Kirby said: "The corporation is the only method of assembling the savings of a large number of men for the accomplishment of a large undertaking or the attainment of an important end, whether that undertaking be the building of a factory or a railroad or of establishing a newspaper or magazine or a great school for training the youth of the country."

"If the politicians in Texas who hold and express these views, from constable to governor, and their advocates were put to spitting rails, they would be adding something to the nation's wealth, and I for one would like to see the rail-splitting begin. I could have genuine respect for them as rail splitters. The knowledge that they were adding something to the world's wealth would give them a place in my sincere esteem, but I have absolutely no patience with the cant and hypocrisy, the sophistry and folly of their political pretenses. They already come dangerously near to the doctrine that it is a crime to be prosperous. Happily we have some great men in Texas, some men in high places and others seeking high places, who have no patience with this sort of political pretense, and it is up to us as voters to rid ourselves of the parasites and adventurers who in seeking public office, preach the gospel of discontent, envy and hate."

"Some think that hypocrisy of this kind is demanded to influence the boys at the forks of the creek. There never was a greater mistake. The term 'forks of the creek' is intended to describe the Texas farmer. I know him. He is my father. I know more about him than any of these politicians do. He doesn't want hypocrisy; he wants the truth. He doesn't expect any legislative favors. He knows that no statute can be passed that will make two stalks of corn grow where there is room for but one. What he wants is a market for what he does grow. He wants more men and richer men to buy his products; more factories and more factories to take his raw material; more railroads and better railroads to carry his stuff to the market while it is in season. He knows the government is not going to bestow any special favors on him, and he doesn't want any. What he wants is an equal opportunity for himself and his sons to get the product of his labor to the best market there is in the quickest way. He wants corporations regulated and wants it done honestly and fairly, but he does not share in the fear of the biennial politician that corporations will rule the people, for he knows they can't."

It occurs to The Telegram that Texas is developing just now faster than ever before in the history of the state, the same story of progress and development coming from practically every portion of Texas. And all this progress and development is coming under the existing laws of Texas, which are so often referred to by certain interests as antagonistic toward outside capital. Of course, people who are cognizant of the real situation know there is no truth in this howl that goes up periodically, for the laws of this state are framed and enforced for the proper protection of all interests and every legitimate business enterprise can depend upon the square deal in Texas.

The people of Texas are not antagonistic toward the legitimate corporation, but recognize that institution as a necessary factor in the progress and development of the day. If there is a sentiment against corporations in Texas it is on account of the action of a number of these institutions that have sought to override and defy the laws of this state, and it is a case of the legitimate corporation suffering by virtue of the fact that it is caught in bad company. The Waters-Pierce Oil Company, a foreign corporation, has done more to bring corporations into disrepute in Texas than politicians could accomplish in a life time.

COLONEL BRYAN IS HOPEFUL

William J. Bryan gets considerable satisfaction out of the recent state and congressional elections. He regrets the defeat of Hearst, but fails to see where President Roosevelt can get any comfort out of the result of the contest in the state of New York. He says the President's personal attack on Hearst was in very bad taste and made a very unfavorable impression on the public generally. In commenting on the election results, Colonel Bryan said:

"The election of 1908 indicates a trend in favor of the democratic party. It proves that the democratic party is growing stronger as republican policies are developed. In New York the party has won a signal victory in spite of the tremendous efforts put forth in behalf of the administration. The defeat of Mr. Hearst is explained by facts which rob Mr. Hughes' victory of both glory and political significance. Mr. McCarrren, whom Mr. Hearst denounced as a boss, threw his influence to Hughes and cut down Mr. Hearst's vote in Brooklyn. Mayor McClellan, the legality of whose election Mr. Hearst has denied, used his influence for Mr. Hughes and cut down the Hearst vote in New York. Mr. Jerome, who had also been attacked by Mr. Hearst, supported the republican ticket and his influence was felt in greater New York. Mr. Croker, during the last days of the campaign, made an attack upon Mr. Hearst, which doubtless weakened the democratic candidate among the Tammanyites."

"Mr. Murphy, the head of Tammany, while supporting the ticket, could not put much enthusiasm into the campaign, owing to the personal controversy which he had had with Mr. Hearst. It is evident therefore that Mr. Hughes owes his victory not to republican votes but to democratic votes brought to him by the very men whom he and the republican leaders have been denouncing for years. "President Roosevelt cannot find very much cause for rejoicing in the New York returns. To have his own state go democratic cannot be gratifying to him and to find that his personal attack on Mr. Hearst had little influence on the result compared with the influence exerted by McCarrren, Croker and Murphy will not gladden his Thanksgiving day. The President's personal attack on Mr. Hearst was in bad taste to say the least. "If the trend toward democracy continues as strong for the next two years as it has been for the last two years, New York can be counted among the democratic states in 1910 and Mr. Hearst is in a position to do valiant work in securing a national triumph for progressive democratic ideas. The democratic gain in congress have not been as

great as the party expected, but they have been sufficient to make it probable that the democrats will control the congress to be elected in 1908. In nearly all the legislatures in the middle states the democrats have made decided gains and these promise much for the senatorial contests which take place two years hence.

In Iowa, Kansas and California the democrats made a splendid fight. The reduction of Governor Cummins' majority from more than 70,000 to 20,000 puts Iowa in the doubtful states for two years hence. The victory in Missouri will bring joy to every democratic heart. Oklahoma came in with a rousing democratic majority.

The republicans have had an effective campaign cry in "standing by the President." While the record stood by the President better than the republicans. The admirers of the President very naturally gave weight to his appeal for a republican congress, altho in making the appeal the President put a personal victory above the reform which he has been advocating. Two years from now that appeal will be of no avail, from the fact the President will not be in office after March 4, 1908. Even if he were a candidate—which no friend of his can assume after his repeated declarations—he would have to confront the third term opposition and would say that the issue alone would lose the President enough votes to make his race lost.

It is reported that the negro troops to be dismissed dishonorably from the United States army on account of the record they made in Texas, may be brought back to Brownsville and disbanded there in order that the civil authorities may have an opportunity to deal with them on the spot. Such an act would be entirely in keeping with the proprieties of the occasion.

Those 3,000 Texas democrats who are applying for the forty offices that are to be distributed by Governor Campbell are going to keep that gentleman from feeling the least bit lonesome until after the appointments are announced.

An election law that prevents the people of Texas from knowing the number of votes cast in the state until after the election has become ancient history is an election law that should be summarily wiped out of existence.

Texas has made a big cotton crop this year, in spite of the repeated assertions made to the contrary. And the average Texas farmer is paying his debts and preparing to live at home another year.

Three thousand applicants for the forty positions to be filled by Governor Tom Campbell goes to prove that there is a large bunch of Texas Democrats who have an abiding faith in the Campbell administration.

There is something doing down on the Rio Grande, and the governor of this state should deal with that situation with a very firm hand. There should be no form of temporizing.

The negroes down in Galveston are boycotting the signers of the petition for the Jim Crow law on the street cars by refusing to work for them. And Galveston has a regular servant famine in consequence. Help along that fund that is being raised to bring factories to Fort Worth. It is a movement that means a great deal for this city and should have the co-operation of every live and progressive citizen.

The farmers are estimating the present cotton crop at a little more than 11,000,000 bales, and are still insisting that prices are not as high as they should be.

There is one rift in the cloud that has settled upon the Republican party in Texas. A district judge of that ilk was elected down in the Laredo district.

The goose-neck wing of the republican party in Texas appears to have been completely put out of business.

President Roosevelt will be able to tell congress all about that big ditch when it assembles next month.

THE TELEGRAM AND THE TEXAS PRESS

THE NEXT STATE LEGISLATURE

The real fun is not going to come up between the executive and the legislature. It is going to come up between the membership of the law making body over questions of expediency and the best methods of arriving at certain results. The Telegram believes that the Thirtieth legislature of the state of Texas will be strictly business from start to finish.—Fort Worth Telegram.

The Telegram is very optimistic as to the character of the next legislature. Probably The Telegram thinks they are going to make good and thus rebuke the voters for not increasing their pay.—San Antonio Express.

TEXAS CONGRESSIONAL DELEGATION

Texas sends back an unbroken democratic delegation to congress, and the people are to be congratulated that it is so. Texas has a very able congressional delegation, and they are men who are universally true to the people.—Fort Worth Telegram. And none will be better represented than the Fourth district. Yes, Texas is to be congratulated.—Sherman Register.

POINTED PARAGRAPHS

Being a yellow dog isn't as bad as being called a cur. Sometimes the half-back thinks that he is the whole thing. Marriage isn't a failure unless the parties to the contract are. Misery may love company but company never loves misery. A king may do no wrong and still come within an ace of it. The act of forgiving doesn't always take away the power of memory. Some men consider an ounce of graft worth more than a pound of honesty. The rose soon fades but the thorn continues to do business at the old stand. From the viewpoint of a sensible person imitation is the most disgusting form of flattery. A woman is never really old until she begins to speak of the time when she was a girl. There's no place like home—when you wake up with a drab brown taste in your mouth the next morning. A woman will believe anything good she is told about herself or anything bad that she is told about her neighbors. Eliminate the swear words from the English language and lots of men would be unable to derive any satisfaction from getting angry.—Chicago News.

FROM DIANA'S DIARY or, How Lovelorn Diana Dillpickles Found Romantic Stock Star to Citrus

"HE DISTINCTLY GLANCED AT ME THIS AFT." Today I did another DARING thing. I sent word to Tafteta & Balbriggan's that I was not well enough to come to work, and ducked around to the mat. at the Olyric to see HANDSOME Tremayne Marblebrow in the favorite play of "Lady Audley's Secret," him taking the difficult part of the secret. I wanted to howl my mad note worked on him. Oh, he is such a NOBLE figure, with such a caressing tenderness in his voice, such a flashing eye, such raven, wavy locks. No wonder every miss in town simply RAVES over him. And as for me I feel that I was REWARDED. He distinctly GLANCED at me this aft., and smiled. I am sure that he APPRECIATES my devotion. Of course, he does not know me, BUT THEN all great actors have intuition. (To Be Continued.)

THE TEXAS PRESS VERIFIED THAT RING

Senator Pettus of Alabama, who is 86 years of age, when asked what vocation he would choose if he were again beginning life, replied: "The high calling of a farmer. I would purchase a nicely located farm and settle down to farming as my life work, thus guaranteeing to my loved ones and myself the highest and happiest of hours, with a full crib, a full smokehouse and a full measure of usefulness."—Sherman Democrat.

"Back to the soil" is still the cry, and life on the farm is the only independent life possible. The man who has a good farm well stocked and properly handled is the real sovereign in this boasted free country of ours.

Governor-elect Campbell has sold his stock in the Palestine bank. He is probably raising the cash to buy himself a suit of store clothes for the inauguration. Being governor comes high, but plenty of people are glad to pay the price.—San Antonio Express.

Colonel Campbell is said to have sold his bank stock for \$40,000, and that sum ought to be sufficient to provide him with several cheap suits of clothes.

Mr. Bryan regrets the defeat of Mr. Hearst. He says the defeat is explained by facts that rob Mr. Hughes' victory of both glory and political significance. Mr. Bryan further says: "It is evident, therefore, that Mr. Hughes owes his victory, not to republican votes, but to democratic votes, brought to him by the very men whom he and the republican leaders have been denouncing for years."—Texarkana Courier.

The defeat of Hearst is one of the things the New York democracy cannot point to with much pride. Samson pulled down the temple upon his enemies, but his own name appeared among the number of the slain.

The news from Starr county, where armed republicans took charge of the polling places by force, and kept democrats from voting, and a district judge was assassinated while he slept, recalls the carpet bag days of the Edmund J. Davis reign, and points to what might happen everywhere were the republican party in the ascendancy in Texas. This incident should make every democrat in the state resolve deep down in his heart to never miss another opportunity to vote.—Sherman Register.

The democrats down in Starr county did not vote to any appreciable extent, but suffered themselves to be bluffed out of exercising the right of suffrage by armed republicans. The republicans down in that section seem to be of the real live kind, except the few that have been killed by the state rangers.

There is scarcely a man in all Texas who does not believe that the three rangers now on their way to Rio Grande city are of more value as preservers of the peace than as many companies of state troops. What folly, then, to think of disbanding such a force! The Texas rangers are among the most valuable constabulary bodies in the world. They have behind them a record for bravery and fortitude unequalled. The entire corps as now organized costs less than the sheriff's office of more than one county in Texas, when it should be the best equipped military force on earth.—Corpus Christi Caller.

The efficiency of the Texas ranger service is only called into question by those who do not understand the real situation. The rangers perform a service for the state that is of much value.

The citizens of Texas in the several cities are making a good fight for pure food supplies, and the state legislature could do no better thing than to add to the efficiency of such laws as are now in existence tending to greater care in placing such supplies upon the home markets. There should be intelligence sufficient in the legislature for work.—San Antonio Light.

The people of all Texas should go to work energetically for a pure food law. The entire state suffers from the frauds that are perpetrated by unscrupulous manufacturers.

The report of the superintendent of the penitentiaries shows that these institutions will this year have a surplus of \$150,000, instead of having to apply to the legislature for money to pay shortage. The manufacture of iron has passed beyond the merely self-sustaining basis and gives promise of soon becoming a source of revenue to the state instead of an expense. The superintendent recommends that the state buy more lands upon which to work the convicts.—Columbus Citizen.

The Texas penitentiaries are on a self-sustaining basis, and no money will have to come out of the state treasury during the next year for their maintenance. This is a highly creditable showing for the management.

METHODISTS GO TO CONFERENCE

Several Changes in Local Pastors Scheduled

Pastors and delegates from the various M. E. churches, South, in the city began leaving for the Northwest Texas conference at Brownwood Monday night. Those who did not leave on the Monday train will go out Tuesday night. There will be quite a delegation from Fort Worth and vicinity.

The conference will begin Wednesday morning at 9 o'clock and will last several days. Bishop E. E. Hoss, who lectured at Polytechnic College Monday, will preside over the entire conference. The Northwest Texas conference is one of the largest and most prosperous in the entire district of the Southern Methodist church. This conference has about 75,000 members of the church under its jurisdiction and about 300 Methodist pastors.

There may be several changes in Fort Worth clergy as a result of the conference, but it is impossible to state what churches will have new pastors, excepting the First Methodist, as that matter is still in the hands of the ruling elders. Rev. H. D. Knickerbocker of the Trinity Methodist church of Dallas has been transferred to the Northwest conference and may be sent to the First church in this city.

Among the pastors and others present from Fort Worth at the conference will be: Rev. Frank Neal, president of Polytechnic College and acting pastor of the First Methodist church; Rev. George Slover, pastor of the Mulkey Memorial church; Rev. J. H. Stewart, pastor of Polytechnic College; Rev. J. D. Young, Polytechnic College; Rev. W. M. Moss, pastor of the Central Methodist church; Rev. C. W. Daniel, pastor of the Glenwood Methodist church; Rev. W. M. Lane, pastor of the North Fort Worth Methodist church; Rev. F. P. Mussett, pastor of the West Street Methodist church; Rev. O. P. Sensabaugh, presiding elder, and David Tudor, delegate from the First church.

BASKET BALL LEAGUE

A Meeting to Be Held in Fort Worth Soon

Plans are now being made for the organization of a Texas collegiate basketball league for this winter, which if completed as planned will be the most extensive athletic league that has ever been accomplished in Texas. A meeting of the managers of the various schools will be held in Fort Worth in the near future, and plans drawn up for the league and a constitution adopted for the teams entering the league. A pennant will be awarded to the team making the highest percentage.

Both Polytechnic College and the Fort Worth University are interested in the matter, and it is expected that both will be in the league. The students of Polytechnic College, having been cut off from all forms of intercollegiate contest during the football season, are most enthusiastic about the matter, and if the league is carried through it will be largely due to Polytechnic. Fort Worth University is also interested and anxious to play, although the game Monday night was its first.

At present there are about a dozen colleges of the state interested in the formation of the league. The state university at Austin has promised to aid in the matter, as have also Baylor University, Agricultural and Mechanical College, Texas Baptist College of Dallas and several others.

PLAY THANKSGIVING

Basket Ball Game Arranged by Polytechnic

A basket ball game to be played at Polytechnic College on Thanksgiving day has been arranged between Polytechnic and Texas Baptist College of Dallas. The game promises to be a good one, as the Polytechnic team this year is far faster than that of a year ago, and the visiting team is attracting attention to its speed by its work in Dallas.

Other games are being arranged by the manager of the Polytechnic team, including a game with the Fort Worth University.

Uneasy lies the head that rests on its laurils.

ABSOLUTE SECURITY.

Genuine Carter's Little Liver Pills.

Must Bear Signature of Frank Wilson
See Fac-Simile Wrapper Below.
Very small and as easy to take as sugar.

CURE SICK HEADACHE

No Opium

In Chamberlain's Cough Remedy
This remedy is a favorite with the mothers of small children, as it contains no opium or other harmful substance and may be given to a baby as confidently as to an adult. It is pleasant to take, too, which is of much importance when medicine is to be given to small children. As a cure for bad colds, croup, and whooping cough, it is unequalled and may be depended upon with the utmost confidence. Price 25c.; large size 50c.

SORE AT CLANSMAN

Rival Theatrical Managers Resort Method of Booking

Traveling managers on the southern circuit are grumbling over the enormous business done by "The Clansman." They say they will petition Klav & Erlanger, the heads of the theatrical syndicate, to cancel the play's bookings in order to protect the smaller attractions that visit the south.

"The Clansman" does not interfere with the big musical shows like "Sultan of Sulu," "Comin' Through the Rye," or "Simple Simon Simple," which happens to be played the day before or the day after. In that case it swamps any show, little or big, that is its immediate neighbor.

What the managers feel sore about is the comparatively small patronage bestowed on the second-rate, so-called legitimate attractions, and they are inclined to blame "The Clansman." One of them said yesterday: "The average dramatic shows that go south nowadays, and charge first class prices are suffering. People will not pay \$1.50 to see a costume drama like 'The Clansman' with forty people on the stage, horse big scenic effects, and all the rest of it. Really 'The Clansman' ought to play under canvas with a band parade before the performance, and the manager should show after it. We are going to ask the trust to cut it out of the theatrical circuit and if they won't we shall move ourselves and our plays elsewhere. 'The Clansman' may be the big smoke, but I want a chance to sit within the tepee occasionally and smoke my Havana." "The Clansman" is the big smoke, but I want a chance to sit within the tepee occasionally and smoke my Havana."

MANY ATTEND Y. M. C. A. MEET

Leake Won Eighteen Points, Getting Three Firsts

The indoor meet of the Y. M. C. A., which was given at the Summit avenue rink Monday night was a success, both financially and otherwise. The interest aroused in athletics of this kind was far greater than was anticipated and a crowd of about five hundred was present to watch the different events. Several events were called off toward the end because of a lack of men to fill out the teams. The races called off were the two 1,200-yard relay races and the twenty relay race. One more of the teams in each being short one or two men.

The star of the meet was Leake, formerly of the Chicago University. He captured three firsts and one second out of four events he was in. His hurdling was as pretty as has ever been seen in the south. He took each hurdle with but a half inch to spare and did not touch one of the eight hurdles.

The basket ball game between Polytechnic and Fort Worth University resulted in a rough and tumble match, from which the white suits of the University emerged looking like dust cloths which had been in use on a skating floor.

Children of the University team was the star of the game and in the first half they scored three goals being disallowed on various grounds. The final score was 13 to 7 in favor of Fort Worth University.

The line-up of the basket ball teams was as follows: Fort Worth University—Schubert, right forward; Childs, left forward; Borden, center; Horn, right guard; Payton, left guard. Polytechnic—Neims, right forward; Brewster, left forward; Young, center; Whitworth, right guard; Morton, left guard.

Goals from field, Childs (University) 5; Gordon (University) 1; Young (Polytechnic) 1; goals from foul, Neims (University) 5, Childs (University) 1; score, 13 to 7; fouls committed, University 14, Polytechnic 1; time of halves, 20 minutes; referee, Huffman, Cleburne Y. M. C. A.

Results of the athletic events were as follows: 500-yard hurdle, eight hurdles—Leake, first, Gordon second, Time—0:37. High jump—Bevan first, 5 feet 2 inches; Leake second, 5 feet; Jackson third, 4 feet 10 inches. Fifty-yard dash, ward schools—Odum first, Groves second, Barnett third, Time—0:27. 120-yard dash, open—Leake first, Parker second, Bevan third, Time—0:32. 160-yard run—Bostick first, Lawrence second, Time—4:32. Fifty-yard dash, scholastic—Parker first, Borden second, Jackson third, Time—0:27. Fifty-yard dash, open—Leake first, Parker second, Bevan third, Time—0:25 4-5. 600-yard relay race, ward schools—Ward by Elmer, second, Ward second, Fifth ward third, Time—1:32 2-5.

Individual points scored, first count—Leake 1, second count—Leake 1, Parker 11, Bevan 7, Bostick 5, Odum 5, Gordon 3, Groves 3, Lawrence 3, Borden 3, Jackson 2, Barnett 1.

SADDLE STOLEN TWICE

Frank Wilson Held by Police Charged With Theft

Frank Wilson was arrested by the police Sunday morning and on the blotter he is charged with the theft of a 445 saddle, late Saturday, from the public square. The theft Saturday gives to the same saddle a record of having been stolen twice in less than one week. It was first stolen from the railway station in Denton and brought here by two men and sold in the public square to Judge Morgan of Midlothian, Texas. Before the judge had had time to remove his purchase for shipment to his home it was again stolen and the police are confident that the thief is the same man who stole the saddle was recovered in a barn in lower Houston street.

Anyway when a girl marries a title she knows she will have another chance after she gets her divorce.

COUNCIL TALKS OF WATER SUPPLY

Streets Closed So Cotton Belt Many Build Depot

The city council held a session of about one and a half hours Monday night and did some things of importance, one of the greatest vital concerns to the people being the settled determination of the council to do any and all things that lay within its powers to insure a plentiful supply of pure water.

The petition of the Cotton Belt to close certain streets in the First ward or, the site of the land bought by the Telegram, was granted and the accompanying ordinance closing the streets was passed by a unanimous vote of the city council. The block of land included extends from Fifth to Sixth streets on the north and south and across Elm, Terry, Crump and Harding streets and Dunn's alley east and west.

The matter of crossing over Allen avenue, in the southern end of the Seventh ward, was laid over for the completion of some negotiations now being conducted by the city attorney with the railway companies whose tracks will have to be crossed, to secure from them, if possible, an agreement to pay for the crossing, which involves the construction of a concrete bridge over the Missouri, Kansas and Texas tracks, at an estimated cost of \$2,000.

A proposition from a garbage company was presented. The company wants the city to pass ordinances requiring all refuse and garbage which is to be deposited in cans to be provided by the company, and if the agreed price is not met, the company is to be under no obligation to remove the garbage.

The city is to buy a road roller and scarifier if the company which made the best bid will agree to a slight modification of its bid as to terms of payment. It is practically certain it will do so, for the crop difference is the payment by the city in cash of \$500 now instead of \$1,000 cash, the balance of the payments to be distributed over one, two, and three years.

All were present. All of the aldermen were in their seats when the council was called to order at 7:40 o'clock Monday evening by Mayor W. D. Harris.

A favorable report was received from the street and alley committee on the opening of Allen avenue, giving a connection between the Seventh and Eighth wards, where there is now none in all that stretch from Leuda street to the southern limits of the city.

All were impressed with the necessity for the crossing and Fire Chief Biddeker made an earnest petition for the construction of a crossing for the Eighth ward fire company, which has to respond to regular showers. One of the Seventh ward also, had to make long detours to get to places in the Seventh ward when called, so that all of the engine was will cut thru it; hence the crossing was able to reach the fire.

It was stated that a concrete crossing over the Missouri, Kansas and Texas tracks would be necessary and of the desired width the cost would be at least \$3,000. Alderman Maddox objected to the city rushing into an expense of \$3,000 at this time, when there was such uncertainty about the city's finances, and directed attention to the fact that the city council has to be satisfied with the purchase of a fire hall and the purchase of fire equipment for the Seventh ward.

Further discussion, in which some of the aldermen, the mayor and the city attorney took part, developed the fact that the railroads were under some kind of obligation to provide the crossings where the city required and as the city attorney was now in consultation with them on that subject the matter was laid over that he might report at the next meeting of the council if that is possible.

IMPROVE WATER SUPPLY

The report of the special committee on the Harrold report on needful improvements in the management of the waterworks was considered and some of the debate, generally of a harmonious, is that if the expenditure of even so large an additional sum as \$50,000 is necessary to insure a continuation of the present kind of water supply, pure artesian water, the expense must be met.

The recommendations of the report are in brief, that the old Hokey and Mead pumps be laid aside and new pumps which can do the work with less fuel cost; new line for the conduit so the water will run from the upper wells to the reservoir by gravity flow; the building of a spur track so the coal can be delivered at the works instead of hauled in from the railroad yards, and so on, in some minor details, were approved.

The committee is to advertise for bids for the new pumps for the conduit and other material, a preference being expressed for iron pipe for the conduit, the waterworks superintendent is to get the price of both the iron and vitrified piping.

Alderman Lehane stated that there was a settled conviction in his mind that all of the overhead pipes of the city could be traced to the operations of the waterworks department, and yet if it was needed to spend more money it must be done, for there was any one thing of which the people of the city should be proud it is the quality of water furnished. If an object lesson was needed, let anyone go to Dallas and sample the water they get from the hydrants there.

Alderman Harrold construed some of the remarks to be a reflection on his report, and he wanted to withdraw that report, but the mayor ruled that the only subject before the council was the report of the special committee which the council was then considering.

Alderman Harrold said that he would have another report which would be an eye-opener about the waterworks question.

The city attorney and a city attorney and the street commissioner were directed to remove the obstruction in North Houston street, across the bridge near the Cotton Belt freight depot. The consideration of the budget was made a special order in committee of the whole and the meeting is called for Saturday evening, Nov. 7, at 7:30 o'clock.

DR. PRICE'S CREAM Baking Powder

Made from pure, grape cream of tartar

Makes home baking easy. Nothing can be substituted for it in making, quickly and perfectly, delicate hot biscuit, hot-breads, muffins, cake and pastry. Insures the food against alum.

Pure, Healthful, Reliable

NOTE—If mixtures called baking powder are offered you at lower price than we are, they are mostly made from alum, a metallic acid deleterious to health.

PRICE BAKING POWDER CO. CHICAGO

SEE SHOOTING STARS TONIGHT

General Mix-up of Heavenly Bodies Is Scheduled

The annual fireworks display of the heavens will take place this year on Nov. 14, and the inhabitants of this part as well as other parts of the globe will be enabled to see a large number of meteors or shooting stars that night, as well as the two nights preceding and following. The beginning of the display will be witnessed tonight. The earth is due to pass thru a group of small heavenly bodies which go thru space in a regular course. It is popularly supposed that space empty, but this is not at all true. Innumerable small bodies, dark and cold, traverse that part of space in which the earth now is, in every direction. These small bodies are called meteors or shooting stars.

There are certain nights of the year on which they are more numerous than on other nights, and at that time they come down in regular showers. One of these displays may be looked for on Nov. 14. The earth in her annual flight along her orbit will encounter a meteoric ring and will cut thru it; hence the shower. This shower emanates from the constellation "Leo" and the meteors on that account are called "Leonids."

The sudden flashing out of the meteors is caused by rapid oxidation as they pass thru the atmosphere of the earth and thus get enough oxygen to aid in burning, the actual burning being caused by the rapid motion and friction thereto. Farther away from the earth they cannot get the oxygen that is found in the atmosphere of the earth and consequently are not consumed.

This display of the Leonids is not at all years equally brilliant, the greatest display coming every thirty-third year. This is due to the fact that this meteoric ring has a period of thirty-three years, and also the whole circumference is thickly bespotted with meteors, the main body of them reaches the earth's orbit only once in thirty-three years. The years 1833, 1866 and 1899 recorded the most brilliant displays. The next one of the brilliant years will be 1932, although there will be displays of minor size every year, such as will occur beginning tonight.

MAKE THE ROADS PAY

Local Coal Supply Would Last One Week

"If the railroads would move their freight trains more rapidly, or with fewer delays along the line, their shortage of cars might be reduced to a minimum," said Mr. Ballard of the Ballard Ice and Fuel Company, Tuesday morning, in speaking of his in-

HELP WANTED ADS

Forty-One People Wanted Help in Fort Worth Alone

Demand for labor, as indicated by want ads in daily papers, is still plentiful all over the country. The demand for labor seems to be largest thruout the cities of Texas, where the papers are filled with notices of positions which are open.

In the Telegram one day last week there were forty-one help wanted advertisements. In Denver the Times of the same day had only twenty-two calls for help in its classified column.

Figures obtained from some of the Texas papers on the same day are as follows: El Paso Herald, 18; Beaumont Journal, 6; Waco Times-Herald, 6.

The New Orleans Item of the same date contained ninety advertisements. The Dallas Morning News of Fort-Laud, Maine, had only seventeen.

MAIL CLERK UNINJURED

Some of the Mail was Damaged, But Not Seriously

M. F. Kitchen, mail clerk on the wrecked Frisco train Sunday morning, was not injured, although shaken up considerably, which is very remarkable, as he was the nearest man to the wrecked engine. The forward part of the mail car was telescoped, but the mail was uninjured by the collision. Water and steam from broken pipes came into the car, however, and slightly injured the mail, although nothing was damaged so badly so as to be unable to be forwarded. The front part of the mail half of the car was used as a storage space and consequently had nothing in it of value at the time it was broken up.

A woman has suspicions about her husband because, if she didn't, she might not have anything to worry over.

A Perfect Godsend

Mrs. Bessie Spencer, completely used up, tried doctors and medicine without good results. She states that Duffy's Pure Malt Whiskey helped her from the start and restored her to the best of health in a short time.

Duffy's Pure Malt Whiskey

is an absolutely pure, gentle and invigorating stimulant and tonic, builds up the nerve system, tones up the heart, gives power to the brain, strength and elasticity to the muscles, and richness to the blood. It brings into action the perfect, and enables you to get from the food you eat all the nourishment it contains. It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system, is a promoter of good health, and keeps the young strong. Duffy's is the only whiskey that has been recognized as a medicinal agent by the highest medical authorities. It is guaranteed absolutely free from fusel oil. Seven thousand doctors prescribe and all hospitals use Duffy's Malt Whiskey exclusively.

BEWARE of dangerous imitations and substitutes. They are positively harmful and are sold for profit only by unscrupulous dealers. Look for the trade mark, the "Old Chemist," on the label, and be certain the seal over the cork is unbroken. All druggists and grocers, or direct, \$1.00 a bottle. Doctor's advice and medical booklet free. Duffy Malt Whiskey Co., Rochester, New York.

NEW YORK COTTON

Prices Ranged \$1.50 per Bale After Tactics of Professionals Were in Play—Public Out of Market

NEW YORK, Nov. 13.—And it came to pass today that while Old King Cotton sat upon his gilded throne, the enemies and friends of the staple kicked up considerable racket. It was spectacular to behold the manner in which the bulls and bears wielded their weapons.

The bears shouldered their guns and rushed eager for battle, and forced prices of futures down \$1 per bale below yesterday's close. This, upon an oversold market, struck awe into the breast of the unprotected.

But even the bulls had gone heavily long in anticipation of an unfavorable market. After the aggressive gunning of the bears, the other side quickly selected the proper moment for a spurt back to yesterday's close and continued buying in large quantities until prices had gained 17 points over yesterday's closing.

The rather wide range of fluctuations was the result of quick changes in sentiment, the inability of bears to quickly secure the support of the chib from the shoulder of the enemies of the staple by the boosters of prices.

December option opened at 8.69, slipped to 8.50, advanced to 9.78, and then declined by 1.30 to 9.73.

WRECK CAUSED BY COAL THIEVES?

The latest theory in regard to the wreck Sunday morning on the Frisco near the city limits is that it was run to the point of the wreck by some negroes with the intention of stealing the coal from the tender.

Those who advance this theory say the engine was taken from the yards with no intention of causing a wreck and that the negroes probably knew nothing of the approach of the passenger train. The fact that the engine was stopped in a cut where it could not be easily observed while the coal was removed adds weight to the theory.

THE WEATHER

By Associated Press.

NEW ORLEANS, Nov. 13.—Weather indications for the southwest are as follows:

East Texas (north)—Tonight increasing cloudiness and warmer; Wednesday partly cloudy.

East Texas (south)—Tonight increasing cloudiness and warmer; Wednesday partly cloudy; light to fresh southerly winds on the coast.

Arkansas—Tonight and Wednesday partly cloudy and warmer.

Oklahoma and Indian Territory—Tonight partly cloudy and warmer; Wednesday partly cloudy and colder in west portion.

Forecast until 7 p. m. Wednesday for Fort Worth and vicinity (issued at New Orleans today):

Tonight and Wednesday partly cloudy weather; warmer tonight.

East Texas: Tonight increasing cloudiness, warmer; Wednesday partly cloudy weather.

BURNED \$97,000

Tarrant County Bonds Destroyed Tuesday Morning

The spectacle of \$97,000 in bonds being destroyed by fire was witnessed in Belknap street, just north of the north entrance to the court house, Tuesday morning at 11 o'clock.

The bonds were ninety-seven in number, each one being for \$1,000.

These bonds were issued by Tarrant county at different times for bridges built and for the court house building. They were burned by order of the county commissioner and the bonds were witness of Judge Robert F. Milam of the county court and the four county commissioners, besides a few spectators.

The bonds had been in the court house since they were issued, and were old, dating away back to the time when Tarrant county began to emerge from the wooden bridge period.

The commissioner and the county judge in destroying these bonds kept a close watch on the situation while the bonfire was in progress. A barrel was procured and the bonds after being opened wide and then crumpled up, were dumped into the barrel and a match applied. If the flame appeared not to burn lively enough the contents was stirred up and Commissioner Sweet, in attempting to hasten the burning, singled his hands by grabbing hold of the chime of the barrel and shaking it. Commissioner Purvis, who watched the fire from first to last, heaved a sigh when the barrel was turned sadly away with the remark: "It's a shame to burn money that way!"

SUSPECT UNKNOWN HERE

Dutch Bader Has Local Charges Pending

Gus, alias Dutch, Bader, whose arrest at Hereford, Texas, has complicated in the murder of the boy, Dockery, near Amarillo, is well known in Fort Worth, and he has figured often as the central figure in criminal cases in the Fort Worth courts.

There is now pending against him in the Forty-eighth district court two felony indictments, the trial of which were continued until the next term of the court.

One of the charges against Bader in the courts here is for the murder of L. (Kid) Barnett, who was killed in a Chinese restaurant back of the Silver Dollar saloon on the night of Feb. 18, 1904. Bader was indicted for this murder, but his case was continued at different terms of the court. He is under bond in this case, and the present county attorney, being disqualified, Judge Irby Dunkin appointed Jordan Y. Cummings to represent the state in the case.

Bader is also under indictment for alleged assault to murder Tim Irvin, Okla., was a shipper of a load of good hogs today.

R. L. Tate of Kingland, Texas, was at the stock yards today with a load of large hogs. The prices received were a little better than he expected, and he was well pleased with the result.

A. M. Jackson of Byers, I. T., and A. L. Pannell of Minco, I. T., had large shipments of hogs on the market today.

BE CHARITABLE

to your horses as well as to yourself. You need not suffer from pains of any sort—your horses need not suffer. Try a bottle of Ballard's Snow Liniment. It cures all pains. J. M. Roberts, Barkersfield, Mo., writes: "I have used your Liniment for ten years and find it to be the best. The horse used for man or beast." Sold by Covey & Martin.

LETTER WRITER MAY BE GUILTY

Frisco Offers Reward of \$500 for Reworkers

There are but few developments in the matter of the Frisco wreck near the western city limits Sunday morning, which caused the loss of the lives of two of the employees of the company and the destruction of some of the company's property.

The whole affair is hidden in mystery, for the men were both popular and there is no assignable reason that the wreck should be designed, as it undoubtedly was.

The engineer, Robert Vinton Fallon Jr., died late Monday afternoon, lingering for nearly thirty-six hours after his injuries were inflicted.

The body was shipped to Brownwood for interment Tuesday morning. There is surviving him his widow and a babe only a few weeks of age. The funeral of the fireman, Joseph D. Wilkinson, who died Sunday afternoon, occurred Tuesday morning at 10 o'clock from his late residence, 1008 Ballinger street.

\$500 Reward Offered

A reward has been offered by the Frisco for the names of those who caused the wreck in the following circular, which is posted at the offices and a copy of which was sent to the police and the sheriff's office.

FORT WORTH, Texas, Nov. 12.—The Fort Worth and Rio Grande Railway Company will pay \$500 as a reward for information leading to the arrest and conviction of the party or parties whose acts are responsible for the collision between train 12, engine 51 and the passenger train, No. 1121, Nov. 11, 1906, causing the death of two of its employees.

W. B. DRAKE, V. P. and G. S.

There is a rumor in circulation which works and it is, at least, a promise, but no arrests have been made in the case.

Curve and Cut As Shield

The most careful investigation of the facts surrounding the wreck make it practically certain that the dead engine was moved to where it was when the incoming passenger train struck it, and the location of the engine on the tracks plainly indicates a great familiarity with the movements of the trains and the circumstances which would make the wreck a certainty. A high fence shields the part of the track from the view of the incoming train crew; there is a cut and a rather deep cut to further complicate matters.

The statement is made in the Frisco office that some threatening letters have been received at the office, but the protest therein was against the disturbing effects of the whistling of the incoming engines. Nor far from the site of the wreck there is a crossing, and the statutes of Texas make the sounding of a warning whistle obligatory.

The skillful disposition of the dead engine proves a measure of familiarity with the handling of an engine to get it where it was left and to stop it just where it was at the time of the wreck, after it was delivered there. It was evidently a bit of pure malice, and for the reason that anyone so familiar with all the surroundings as were those who caused the wreck, would know that the train would come in over that track at a relatively slow speed and that there was but little if any probability of the wrecking of the train so that robbery could be afterward successfully perpetrated.

It was a manifestation of that same spirit as was breathed in the anonymous letter.

a month. Draughon's Practical Busi-
ness College, Fourteenth and Main.
Phone 868. Call phone or write for
catalogue. It will convince you that
Draughon's is the best.

MAIL CARRIERS
MAY STRIKE

They Don't Like Delivering
Mail on the Sabbath

Special to The Telegram.

DENVER, Colo., Nov. 13.—Trouble
clouds are hovering over the Federa-
l building in Denver, where a strike of the
mail carriers may occur at any time
if they are again ordered to deliver
their routes next Sunday. Last Sun-
day they had to work all day. Car-
riers say that it was the first time in
the history of Denver that they were
ordered to deliver mail Sunday after-
noon, and that it will be the last. Cam-
paign literature was the cause. The
Letter Carriers' Association is prepar-
ing to take action against the govern-
ment to prevent such a thing. The at-
tempt is made again to send the men
out, the carriers will undoubtedly re-
fuse to oblige, and will place their
troubles before the postoffice depart-
ment at Washington by telegraph.
A similar attempt was recently made
in St. Louis. The carriers went out
on a strike. They were upheld by the
postoffice department.

The carriers in Denver work every
Sunday morning at the postoffice when
mail is distributed from 10 to 11
o'clock. They maintain that their Sun-
days are broken up bad enough with-
out having to work all day making
deliveries.

Railroad Rumblings

MAY COLLECT NOW

Attorneys for Interstate Commerce
Commission Make Discovery

Special to The Telegram.

WASHINGTON, D. C., Nov. 13.—
Attorneys representing the interstate
commerce commission, who have been
investigating the recent Harriman
merger of railroad lines, have discov-
ered authority that will compel an
abandonment of Mr. Harriman's
plans. After making a research of
legislation bearing on the postoffice, they
discovered that the government has
almost forgotten provisions of the
charter under which the Union Pacific
was authorized to have been uncer-
tain, or to show that the government
has ample authority to deal in the most
drastic fashion with this combine. Under
this charter the company was given
an enormous piece of land in the pub-
lic domain and a huge government
subsidy. The refund to the government
provided for never was fully paid and
after many efforts congress has refused
to accept the lump sum very much
less than what was due the govern-
ment under the charter. Since that
time there has been no govern-
ment interference with the operations
of this road. Those who have studied
this law say there is no question that
it is still in full effect. It is declared
by the experts of the commission that
the earnings of the system have long
since passed the mark at which govern-
ment control should be effective under
the provisions of the charter.

NO MORE LAND AGENTS

Ruling Interferes with Development
of Southwest

Renewing a ruling heretofore made
by the interstate commerce commis-
sion, all kinds of reduced rates for
transportation of immigrants and
Chinese and other laborers for the
same class of employes is forbidden.
This means that about fifty thousand
land agents of the many lines of rail-
ways of the western country will soon
find themselves out of any connection
with that branch of railway develop-
ment.
The Rock Island alone has been
sending south fully ten thousand per-
sons every two weeks, and most of
that flood of immigration is directly
traceable to the work of the land and
immigration agents. A few of the
men may be kept on salaries, but the
construction of the new lines in Ohio
seriously retard the increase of the
population of the southwest.

NEW GALVESTON ROAD

Cincinnati Capitalists Are Behind New
Enterprise

Articles of incorporation have been
filed at Pierre, S. D., for another north
and south railroad to extend from
Texas to the Gulf of Mexico. It is
and to be known as the Yankton and
Southern Railway Company.
A group of Cincinnati capitalists is
behind the movement, and the plan
to comply with a state requirement, the
nominal headquarters of the company
is in Yankton, there is a business office
in Cincinnati, Ohio. The directors
and seven of the nine directors are
Cincinnati people.

Piles

Seattle Gentleman Cured With Less
Than a Box of The Pyramid
Pile Cure.

Anyone Can Easily Test It and Prove
It, for a Free Sample is Sent
by Mail to All

Seven, out of ten readers of this paper
are tortured with piles or some
form of rectal disease. You are, or
you would not be reading this article.
Thirty years ago a certain man had
a lancet in their vest pocket and bled
people for all sorts of diseases and
bled them hard—sometimes a quart
at a time. He was the famous "Doc"
that is changed nowadays and a doctor
with a lancet would be considered a
curiosity.

Five years ago doctors "cut out"
Piles wherever they got the chance.
All that has been changed since the
marvelous, soothing, healing and curative
properties of Pyramid Pile Cure
have become known.

By every mail we get letters like
this:
"Wishing to give credit where credit
is due, I feel it my duty to humanity—
as well as myself—to write you re-
garding your Pyramid Pile Cure. I
had not finished my first box and am now well.
After the first treatment of Pyramid
Pile Cure, the soreness went, and the
chirping and itching stopped. I had
used your pills and am feeling like my-
self again. Thanking you kindly, I
am, yours truly, C. Crowley, 179 9th
Ave., Seattle, Wash.

If you want positive proof of the
curative value of this remedy send
to the Pyramid Drug Company, 41 Pyra-
mid Building, Marshall, Mich. You will
receive a free trial package by return
mail. Try it, then go straight to your
druggist, get a 98c box and get well.

BOMB THROWER
SHOT TO DEATH

Is Killed By Man Whose Life
He Sought

Special to The Telegram.

MOSCOW, Nov. 13.—A bomb was
thrown at Mayor Reinbot on Tver
street Monday morning. Reinbot, who
was not hurt, quickly pulled out his
revolver and shot and killed the man
who threw the bomb.

WANT HIGHER WAGES

Demands Are Made on Forty-Seven
Railway Companies

The International Brotherhood of
Railway Engineers has submitted to
forty-seven railway companies west of
Chicago a demand for shorter hours,
higher pay and different working con-
ditions and they are given until Dec-
ember 1 to accept the demand. The
story is sent out from Cleveland, Ohio,
the home of Grand Chief Engineer Warren
M. Stone, and that official, with others
in charge of the union, are now in New
York in conference with railway officials
regarding the situation.

WINCHELL DENIES

Many Stories of Sale of Mexican Cen-
tral

A story sent out from El Paso lately
told of a deal between the Rock Island
and the Mexican Central by which the
former entered on the ownership of the
latter. The Mexican road has been
the central theme of a number of
railroad stories lately and all of them
ended as to the Rock Island story.
Of that President Winchell says:
"There is no semblance of truth in the
report that the Rock Island has bought
the Mexican Central or that it even
had any such plan in contemplation.
It is equally untrue that the Rock
Island has under construction or in
contemplation of construction the El
Paso which is to connect with the
Mexican Central."
Secretary of Finance Linnmontur
of the Mexican Republic made the oc-
casion to deny that the Federal govern-
ment of Mexico was trying to buy the
Mexican Central.

Railroad Notes

The Rock Island had on the Texas
end Monday and Tuesday 425 car loads
of grain en route, many of which have
been tied up behind or in blockades.
The Pennsylvania added 1 per cent
to the usual 6 per cent annual dividend
for the year ending in money for the
capitalization of the company is
\$305,000,000.

The Southern Pacific and the Santa
Fe have announced that when they
unite their lines they will charge a
rate of 20 cents or more per
ton will be made in order to comply
with the law which forbids discrimina-
tion.

The Texas Central's extension from
Stamford westward to Rotan, forty-
three miles, is finished.

The total number of railway ties used
in the United States during the past
year was 21,500,000. Included in this
figure are ten million for the electric
railways. Nearly 10 per cent were
used for new construction. These
statements are based on the forest
service reports just issued.

Giving pay for "rest day" costs the
railways of France between \$5,000,000
and \$6,000,000 each year. The law mak-
ing "rest day" in France once a
week exempts the railways, but the
management of the roads decided they
would try the experiment with the
"rest day" in 1906.

A Wisconsin court decision makes it
unlawful for a labor union to boycott.

The officers of the Wichita Falls and
Northwestern are J. A. Kemp, presi-
dent; W. C. Fordyce and Frank Kell,
vice presidents, and Wiley Blair, sec-
retary-treasurer, all of Wichita Falls,
where the headquarters of the company
are located. J. W. Field is the chief
engineer in charge of construction. The
contracts for the two-hundred-mile
road from Wichita Falls to Red River have
been let and the work according to
President Kemp, is making fine progress.

The Atchison, Topeka and Santa Fe
has ordered 500 additional refrigerator
cars, 500 steel underframe stock and
coke cars, and ten steel underframe
baggage cars.

The St. Louis and San Francisco has
ordered five hundred forty-four box
cars, ten hopper cars, thirty-eight coal
cars, twenty-six box cars and fifteen
freight cars.

Supports Removed
Was the Cause of Fatal Collapse at
Long Beach

Special to The Telegram.

LONG BEACH, Cal., Nov. 13.—The
concrete jury investigating the cause
of the collapse of the Hotel Bixby last
Friday, which resulted in the death of
ten men and the injury to many, has
announced a verdict finding that the
accident was caused by the prema-
ture removal of the supports of the
fifth floor and proceeding with the con-
struction of the roof before the sup-
porting cement had time to harden suf-
ficiently. The jury decided that the
removal was criminal.
Contractor Spalding said that the ex-
act cause of the collapse had not been
disclosed. He declined to say what in
his opinion was the cause of the accident.
The construction of the floors and
beams for the floors were faultless
and had nothing to do with the col-
lapse of the building. They were sup-
ported by Kahn & Co. of Detroit, as
were the computation of strain on the
floors, but these features did not in any
way contribute to the accident.
The Detroit firm had nothing else to
do with the construction of the build-
ing.

CROSS AT FORT WORTH

Notice of Hearing for Nov. 27 is-
sued

Special to The Telegram.

AUSTIN, Texas, Nov. 13.—Notice of
hearing is issued by the railroad
commission for Nov. 27, to consider
the petition of the Wichita Falls and
Northwestern for a hearing for an
order allowing that line to cross at
grade the tracks of the Fort Worth
and Denver City and the Wichita Falls
and Oklahoma railways at Wichita
Falls.

When a man is hugg'd a girl she
would scream much louder if she
wasn't afraid some one would hear.
Fate is the scapegoat on which we
blame our shortcomings.

CASTORIA

The Kind You Have Always Bought, and which has been
in use for over 30 years, has borne the signature of
and has been made under his personal
supervision since its infancy.
Allow no one to deceive you in this.
All Counterfeits, Imitations and "Just-as-good" are but
Experiments that trifle with and endanger the health of
Infants and Children—Experience against Experiment.

What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Pare-
goric, Drops and Soothing Syrups. It is Pleasant. It
contains neither Opium, Morphine nor other Narcotic
substance. Its age is its guarantee. It destroys Worms
and allays Feverishness. It cures Diarrhoea and Wind
Colic. It relieves Teething Troubles, cures Constipation
and Flatulency. It assimilates the Food, regulates the
Stomach and Bowels, giving healthy and natural sleep.
The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
The Kind You Have Always Bought
In Use For Over 30 Years.

THE CASTORIA COMPANY, 71 BUNNY STREET, NEW YORK CITY

\$21.40—ST. LOUIS and return, Nov. 13, and 14.
\$28.80—INDIANAPOLIS and return, Nov. 11, 12, 13.
\$25.60—DENVER and return, Nov. 10, 12, 13.
\$35.20—CHICAGO and return, Nov. 13 and 27.
\$19.35—KANSAS CITY and return, Nov. 13 and 27.

SELECT SCARBOROUGH
He Will Be Field Secretary for Baptists
in the Future

Special to The Telegram.

WACO, Texas, Nov. 13.—In his report
the Baptist education commission
recommends for field secretary of the
body Rev. Lee B. Scarborough of Abilene,
widely known in Baptist circles.
This is the plan of the board of S. P.
Brooks of Baylor University until
his resignation, he having taken it only
until a supply could be made for the
very important place.

SHEPPARD IN DALLAS
Talking River Improvement to Engi-
near Wooten

Special to The Telegram.

DALLAS, Texas, Nov. 13.—Congress-
man Morris Sheppard of Texarkana is
in the city today in conference with
Captain Wooten, government engineer,
relative to the improvement of the Red
and Sulphur rivers and Cypress Bayou.

First Tramp—It's a grand thing,
after all, to have no employer and to
be your own boss.
Second Tramp—That's all very well,
but it's damned annoying not to be
able to exercise the right to strike
they're talking about such a lot just
now.—Cri de Paris.

THEY CURE ANEMIA
Dr. Williams' Pink Pills the Most
Successful Remedy for All
Forms of Debility.

Anemia, whether it results from ac-
tual loss of blood, from lack of nutrition
due to stomach trouble, or whatever its
cause, is simply a deficiency of the vital
fluid. Dr. Williams' Pink Pills actually
make the blood, and they do that one
thing and they do it well.
"As a girl," says Mrs. Jessie Fink, of
180 East Mill street, Akron, Ohio, "I
suffered from nervous indigestion and
when I was eighteen years old I was
reduced in weight to 98 pounds. I was
anemic, nervous, couldn't eat or sleep,
was short of breath after the least exer-
cise, and had headaches almost con-
stantly. I had a doctor, of course, but he
might as well have taken such much water
for all the good his medicine did me.
Finally my vitality and strength were
so reduced that I had to take to my
bed for several weeks at a time. I
could not digest any solid food and for
weeks I did not take any other nourish-
ment than a cup of tea or beef broth.
"While I was sick in bed I read of
Dr. Williams' Pink Pills and I stopped
all other medicine and began to take the
pills. Soon my improvement was very
noticeable. My strength began to re-
turn, my stomach gave me no pain and
I gained in weight. Dr. Williams' Pink
Pills certainly saved my life. I am now
perfectly well, have regained my normal
weight of 120 pounds and I think Dr.
Williams' Pink Pills are a wonderful
medicine."

WEST TEXAS
Is fast becoming the
fruit, vegetable
grain and cotton
country of the
southwest. It will
say you to investigate
right now.
