REAL WINTER IN TEXAS NOW

Blizzards Reported in West and Panhandle

TRAINS STALLED

No Passengers in on Denver From Trinidad Since Monday Morning

FURTHER reports of snow and sleet storms in West Texas and the Panhandle received by The Telegram Tuesday show the storm of this week the most extensive and damaging thus far the present winter.

Heavy snows have fallen in the Panhandle as far south as Childress and over the greater portion of the Staked Plains country. West of Fort Worth, along the Texas and Pacific, the sleet storm was so severe as to cut off all wire communication west of Baird.

On the other hand the wet weather, despite the cold, will be of much benefit in two particular. Winter wheat in the Panhandle has been needing moisture and this will be supplied by the snow. For the wheat, the snow could not have come at a better time.

Train Service Hampered Snow, sleet and rain have played havoc with railroad traffic. In Texas, the result being trains tied up in snow banks, trains annulled, wires down, light slow running all combining to make trains late from almost every where.

Conditions on the Texas and Pacific west are not so bad, but it makes enough to interfere with communication up to 9 a. m. Tuesday.

RYAN HAS RESIGNED

Says He Cannot Give Proper Attention to Duties

NEW YORK, Nov. 20.—Thomas F. Ryan's announcement yesterday that he had resigned as a director from all the railroad and industrial corporations with which he has been associated, and that he hereafter would retain his official connection only with some of the financial and fiduciary institutions with which he is identified, while a surprise to financial men, it was generally considered by them in line with the action of Jacob Schiff of Kuhn, Loeb & Co. who took similar action recently.

HOPING TO BEAT LAW

SUCKERS BIT BY FRAUD

By Associated Press. NEW YORK, Nov. 20.—A phase of the green goods game was brought to light yesterday in the arrest of Samuel Kraowack, charged with having in his possession paper in imitation of that used in the manufacture of bank notes, according to Chief Flynn of the secret service the scheme is to sell the victim a machine with which to manufacture United States treasury notes.

SAVE PAYNE'S HOME

By Associated Press. NEW YORK, Nov. 20.—The publicity given to the proposal to raise the John Howard Payne "Home, Sweet Home" cottage, in East Hampton, L. I. and build an Episcopalian rectory on the site has resulted in a plan to raise funds to purchase the old homestead, which, it is said, is to be converted into a local museum or library. Several subscriptions to the fund have been received.

HARRY THAW INSANE?

HON. D. M. DELMAS. (To Defend Thaw.) MRS. EVELYN NESBIT THAW. HARRY K. THAW.

Special to The Telegram. NEW YORK, Nov. 20.—That Harry Thaw was insane when he shot Stanford White is the expressed opinion of three alienists who examined the prisoner at the instance of his counsel. Their report to this effect was made to Clifford Hartridge, chief counsel for Thaw, Monday. The report does not say that Thaw is insane at the present time. The unanimous opinion of the experts is that Thaw has always been of a neurotic temperament, and they report that they have found in the history of his life that he, from time to time, suffered spells of emotional insanity.

MEXICAN EDITOR TO BE DEPORTED

Antonio Villareal Will Be Surrendered From El Paso

Special to The Telegram. EL PASO, Nov. 20.—Antonio Villareal, former editor of the Mexican revolutionary paper published in St. Louis, arrested here about a month ago, was Monday ordered deported to Mexico by a board consisting of three members of the local immigration bureau. His deportation was ordered on the ground that he had been convicted of the crime of manslaughter in Monterey in the year 1901. The immigration laws forbid the entry of any citizen from a foreign country who has been convicted of a felony.

KIDNAPED IN ST. LOUIS

Special to The Telegram. ST. LOUIS, Nov. 20.—The mysterious disappearance of Aaron Lopez, a Mexican, 22 years old, from his home 125 Convent street, was solved when it became known that he had been kidnaped. He was secretly arrested by agents of the Mexican consul, M. E. Diebold.

WOMAN ACCUSED OF KILLING STEPDAUGHTER

Special to The Telegram. YOUNGSTOWN, Ohio, Nov. 20.—When Mrs. Jennie Anderson was convicted of manslaughter today and sentenced to a new trial, she collapsed. She is accused of beating to death her 6-year-old stepdaughter.

A GLIMPSE INTO THE FUTURE.

NEGRO TROOPS MUST GO

Delay in Discharge Declared Only Temporary

PRESIDENT IS FIRM

Taft Yields to Protests, But With Provision That Matter Be Referred

NEW YORK, Nov. 20.—Secretary of War Taft got here from New Haven last night and went to the home of his brother, Henry W. Taft. He declined to talk about the delay in carrying out the order for the dishonorable discharge of the negro soldiers. Collier's Weekly has received a dispatch from its correspondent who is traveling with the President, to one of the very heart of military discipline. Had the white troops done the same thing, the reply says, they would have suffered the same penalty.

The others for promises and experiments.

TURKEYS ARE HIGH

By Associated Press. NEW YORK, Nov. 20.—Turkeys for Thanksgiving tables may reach 35 or 40 cents a pound this year. Dealers say they can place no reliance in the supply this year. The wholesale price reached 21 1/2 cents yesterday and the retail price is much higher. A plague known as black head is sweeping the east, killing thousands of turkeys and dealers say this will diminish the supply.

OIL KING BEREAVED

MRS. FRANCES ROCKEFELLER STRONG, oldest daughter of John D. Rockefeller, and wife of Professor Charles A. Strong of Columbia College, who died in France after a lingering illness.

CENTER NOW QUIET

No Further Demonstration Follow the Shooting of Dr. Paul. CENTER, Texas, Nov. 20.—Center is still quiet. Capt. J. B. Jennings and his forty fusiliers seem to have the situation in hand. Last night passed off without any disturbance. Captain Jennings took the negro who killed Dr. Paul from jail last night and guarded him in the court house this was done as a matter of precaution and also for the benefit of the troops as it rained almost all night.

ROADS ADOPT THE MILEAGE SYSTEM

Locomotive Engineers in Session in New York. By Associated Press. NEW YORK, Nov. 20.—The Brotherhood of Locomotive Engineers whose representatives have been in a broad continuous session at the Broadway hotel since October 20 preparing demands for an increase in wages on the great trunk lines of the East, will probably wind up their sessions this week.

MEMBER OF BLACK HAND

Grocer Who Laughed at Threats Was Shot. By Associated Press. NEW YORK, Nov. 20.—Frank Como, who, the police say, is chief of the Black Hand in this vicinity, was arrested in Brooklyn yesterday for alleged connection with the murder of Antonio Costa, a grocer, who laughed at the threats of the Black Hand Society when he refused their demands for \$5,000. A week later Costa was found shot to death in his shop.

THIS MAN IS DOOMED TO A LIFE ON THE SEA

By Associated Press. NEW YORK, Nov. 20.—Charles Kessler, who was brought to port in iron on board the British bark Kentmore after having been refused admission to several countries at which the bark touched, fears that he is doomed to sail the sea forever. Kessler shipped on the Kentmore at Delagoa bay in Portuguese East Africa last spring for East London. Captain Burch of the bark says the man is a self-confessed criminal, and at the same time a fortune teller. Kessler refused permission to land. Kessler claims he is the victim of a lot, but the bureau of immigration here has forbidden him to land. The bark Kentmore is now at the Bayonne docks of the Standard Oil Company to take on a cargo of petroleum. Captain Burch says he will try to land the man in Germany where the man was born.

TALK ABOUT RAILWAYS

Tilt Over Government Ownership of Railways

NOT ON PROGRAM

Secretary Root Accepts the Challenge Thrown out by E. H. Harriman

By Associated Press. KANSAS CITY, Nov. 20.—The most interesting feature of the Commercial Club banquet last night had not been announced before hand, it being Edward H. Harriman's criticism of government regulation of railroads and Secretary Root's vigorous reply. Mr. Harriman in his address said: "I saw in the papers that President Hill of the Great Northern, in an address before the commercial bodies of Chicago, said the country needs 100,000 miles more of railway. I feel sure Mr. Hill was misquoted. Two men now here who heard his speech, confirm me in that belief. As they understood it and as he probably said, the railroads need sidings, terminals and double tracks equal to 100,000 miles of new railway."

In his speech in Harrisburg recently President Roosevelt said that the executive and legislative departments of the government should be given authority to deal with public organizations. "If we are going to continue to prosper the power which President Roosevelt does address to the government, I hope will be added to the other organizations. I hope that some of it will come our way. It is impossible for a railway or large organization to prosper on its business properly if the people are constantly criticizing and suspecting. In the Union Pacific Company no one man says what the company will or will not do. I am untrusting only because I must be on hand to hear confidences and try to bring a body of men to one conclusion. It is not easy if you always have to turn to the legal department to find whether you may or may not do it."

Here Mr. Harriman paused and turned to Secretary Root, who sat two seats away from him. "It is often important to a city or to a country whether we do certain things, whether we develop a territory, whether we continue to expand, or leave it dormant."

"Often we cannot give development to a certain section of the country unless we have a certain people for political prestige. I believe there is to be a change of attitude which soon is to be felt. The country is going to believe in individualism—and that means fair play."

Secretary Root accepted Mr. Harriman's challenge promptly, and prefaced his prepared speech by saying: "Before I begin, may I ask one subject which has been assigned me. I desire to make a few remarks in answer to Mr. Harriman. Mr. Harriman, in his address last night, would have us give more power to the railroads. From the experience I gained from Kansas, my belief is that in the state of Missouri, if similar conditions were met, the railroads themselves if they will only do it. Their power, Mr. Harriman, should be supplemented by governmental control, such that would prevent them from doing wrong."

"It is beyond the case that a railroad by special compensation or special rates can help to build up a bigger and better business. Nevertheless science of government always gives a choice. The privileges of the railroads in discriminating in the matter of special rates and compensations is too often abused, as we have seen."

"It is the common tendency of railroads to give advantage to the wealthy against the weaker or smaller one. It is that tendency so often displayed—a tendency to crush the weak. For this reason, I say that it is necessary, it is essential to freedom and independence, that the railroads should be held under control to prevent discriminating. The right to manage the railroads would gain by more power—the power that Mr. Harriman asks for—would be so greatly offset by the evil his suggestion would not be considered a moment."

FORT WORTH SKATING RINK

MARKET HOUSE DEALS DEAD

Council Refuses the Request of Engineers for ANEIGHT HOUR DAY

Proposed Sidewalk Obstruction Ordinance Discussed, With No Action

The Fort Worth market house proposition is very dead and there is no probability that it will ever be revived again in the form which excited the opposition which led to its demise.

Before any other proceedings were had at the city council meeting Monday night, on motion, Mr. Axtell was permitted to withdraw the proposition and even the original papers were ordered returned to him.

The pay of the waterworks engineers was sought to be advanced, virtually, by establishing an eight hour day. This would necessitate the employment of three more engineers. The motion was lost on a tie, the mayor voting no.

This measure was championed by Alderman Ward and it prompted him to do what he does not do more than a few times a year, make an argumentative speech in favor of the measure, and when that was objected to, urge as a compromise that the pay of the engineers at the waterworks be advanced \$10 per month.

Several of the aldermen raised a warning voice, insisting that it was opening the flood gates and it would be found that there would follow a general raid on the city treasury, which it could not ill stand, for there was but little money in sight and many claims to more than absorb what came in, and no prospect of getting more. The street cleaning force of teamsters, who had their own teams, had their pay advanced 25 cents per day.

The statement was made that the firemen were to ask an advance of \$5 a month; that the police would ask another raise in pay and that there were other city officials in the city hall who had had no advance for years and they were just as much entitled to increased pay as the others.

The council, on recommendation of the finance committee, refused to remit taxes on certain lots belonging to St. Andrew's, and a petition for the exemption of the lots on which the rectory of St. Andrew's stands was referred to the city attorney for an opinion.

The report of the clerk of the corporation court of fines collected for August, \$2,885.84 and for September, \$1,718.25, was found correct by the finance committee.

Bills Are Paid The account of \$756.63 for the Eighth ward horse wagon was ordered paid and the account of \$1,460.00 for building the Eighth ward fire hall was also allowed. Claims for \$12,428.62 were allowed.

The Leversedge claim for extra work in construction of a part of the waterworks was compromised for \$1,500. The claim was for more than \$2,500. The insurance on the waterworks was ordered canceled and the insurance on the new pumping station reduced to \$1,000.

The city electrician is ordered to warn house movers that they must restore city electric lights and fire alarm wires to a perfect condition after moving under them and if they do not do so, the city will be obliged to have the repairs made, send the bill to the house mover and if it is not promptly settled, then to proceed against the house mover under his bond.

The bid of the United States Cast Iron Pipe Company of Birmingham, Ala., was then accepted for 4,400 feet of 16-inch pipe and 8,500 feet of 18-inch pipe at 88 per ton f. o. b. Powell's switch, Fort Worth.

The council allowed the petition of Ralph A. Dykstra for \$18, which expense was incurred by him in burying a baby which had been left on his doorstep and soon afterward died.

The matter of cutting down West Fifth street was held up until such time as the city has money with which to defray the expense.

There are several propositions for the improvement of this street and some of them, in various forms, have been before the city council from time to time. It seems to be a question merely of expense for the merits of the application for the improvement of the street are granted. Sunday bills for the fire department were referred to the claims committee.

The complaint of drainage defects at Eleventh and Harding streets, due to a bad gutter, were ordered corrected, as can be done by the extension of a culvert, which ends on one side of the street across the street to the other side at a cost of \$25.

The city engineer is to remove the obstructions on West Second street. The asked for crossings at Summit avenue and Eleventh street are to be made, the petitioners to pay the cost.

Protect Pedestrians Attention was called to the fact that there was now no way of controlling those who make excavations in the street or look up or part of the sidewalk in the excavations for building operations. An accident had just occurred at Tenth and Main, in which a man was badly hurt by falling into an unexcavated excavation at that place, and it did seem to some of them as if the pedestrians had some rights in the city which should be guarded.

City Attorney Orrick said that the city was liable, in such cases, with recourse against the builder. He is to draft an ordinance which will give the city the authority to properly regulate the excavations. He stated that the owner of the property in this case denied any liability, saying that the contractor had the matter entirely in hand. This led to a general discussion of the proposed sidewalk obstruction ordinance, which is still pending. It was decided that the matter of the

NORTH FORT WORTH PLANS FOR LIVE STOCK BUILDING

Architecture Will Be of Spanish Mission Style

It has been given out that architects are busy with plans and specifications for the proposed exhibition hall for the Breeders' and Feeders' Association, which is to be erected in North Fort Worth near the stock yards.

General Manager W. B. King, of the Stock Yards Company, on his recent visit to Chicago, where he attended the meeting of the directory of the Stock Yards Company, brought the building matter to the attention of the directors, and the plans were ordered drawn. These plans will be ready to be submitted by the middle of December.

The plans, while they will in a general way be drawn from the original plans of the exhibition hall of the International Live Stock Association at Chicago, they will be modified so as to meet the existing conditions in this country, and to adopt the old Spanish mission style in order to harmonize with the present live stock exchange building.

The exposition hall will be located on Exchange avenue west of the exchange building. The site could not be more conveniently located. All the facilities for handling the business of the great fat stock show will be of easy access, and nothing will be lacking to meet the demands and shipping facilities incident to bringing an enterprise of such magnitude here.

Soon as the plans are submitted to the local authorities here, they will be considered in connection with local conditions and surroundings, and any necessary changes will be made to meet local and general demands as nearly as possible. Soon as the plans are adopted it is stated that work on the building will have commenced.

The new building will front the south, on a line with the live stock exchange building, and the premises will be beautified in every possible manner.

The fat stock show takes place in March, and work will now have to be pushed in order to get ready by that date.

TRUST COMPANY Citizens of North Fort Worth Want to Build

Just when the North Fort Worth Commercial Club has on its hands one of the largest celebrations ever attempted in the city, there is little time to look after outside matters. However, there is one important enterprise that the club will make an effort to secure. That enterprise is the organization of a trust company.

By reason of the great packing plants being located in North Fort Worth, and many other manufacturing enterprises, giving employment to hundreds of wage earners, the bulk of the population and loan moderate sums at a valuation from 10 to 20 per cent each year, and conservative business men claim that no safer investments could be made than loans for buildings, placed through the channels of a conservatively managed trust company. Demands for such loans are made almost daily, but just at this time there is no organization that can take care of the matter.

There is a splendid opening in North Fort Worth for a trust company, and the Commercial Club will encourage such an organization.

BRAKEMAN INJURED He Fell Between Cars When Coupling Broke

T. J. Cummins, a brakeman on the Frisco, was painfully injured in a late hour railroad accident. He was standing on a coal car in order to get out of the cold wind, when a jerk of the train broke a coupling between the cars. He was dragged some distance by the brake beam, before the train could be stopped. He was sent to his rooming place at the corner of Fifteenth and Main streets where he received medical attention.

His neck and back was badly wrenched and several severe bruises about the body, but his injuries will not prove serious.

DOG WORTH \$1,000 Morris E. Burney Wants Big Price for Pet Terriers

Whether or not the two long-haired fox terrier dogs were worth \$1,000 to their owner is a question that is now being tried by a jury before Judge Mike E. Smyth in the Southern district court, the case being that of Morris E. Burney vs. C. A. O'Keefe and wife.

The petition in this case alleges that plaintiff was the owner of two long-haired, thoroughbred fox terrier dogs that had a commercial value of \$60 each, but their value to their owner and his wife because of their attachment for the dogs and the dogs' fidelity to plaintiff and his wife was \$500 each. The petition further alleges that said two fox terriers were poisoned, and the plaintiffs ask that they be awarded damages against defendants in the sum of \$1,000 actual and exemplary damages.

POLYTECHNIC

The Polytechnic lodge of Masons did not meet Monday night on account of the inclemency of the weather. There was some degree work, which should have been done at this meeting, but it has been postponed until next week. At the annual conference just closed in Brownwood, Rev. O. F. Sensabaugh was reappointed presiding elder of the Fort Worth district.

Rev. J. H. Stewart, pastor of the Polytechnic Heights Methodist Episcopal church, will be succeeded by the church at Ennis, Texas, and Rev. C. L. Browning is his successor. Rev. Mr. Stewart has been here for the past two years.

J. D. Smith, who lives south of Polytechnic Heights near the Masonic Home, is reported quite ill at his home.

Mrs. Melugin of Polytechnic Heights is entertaining some friends from East Texas this week.

RIVERSIDE

Rev. C. A. Bykley has been appointed to the pastorate of the Riverside Methodist Episcopal church. The present pastor, Rev. Mr. Winfield, and wife will return home Tuesday from Brownwood. Mr. Winfield has been appointed to the church at Joshua, Texas.

Rev. C. A. Bykley, pastor of the Riverside Methodist Episcopal church, is a passenger on a Sunday hunting and shooting party to the churches and private residences is already seen and last Sunday was remarkably quiet in this respect.

VERDICT FOR KURDAR Three Thousand Dollars Damages Awarded Against Frisco

In the case of Louis Kurdar vs. St. Louis, San Francisco and Texas Railroad Company, pending in the Forty-eighth district court, the jury returned a verdict this morning in favor of the plaintiff for \$3,000.

This suit grew out of a wreck occurring the last day of February, 1905, when a Frisco freight train collided with a street car of the Northern Texas Traction Company, on which Kurdar was a passenger, at the crossing of their tracks on North Main street, and was to recover damages for alleged personal injuries sustained by plaintiff. The case was originally brought by Cook & Orr, attorneys for Kurdar, against both the Traction Company and the railway company, but when the evidence was all in the plaintiff dismissed its action against the Traction Company on the ground that the evidence adduced during the trial would not support a verdict against both defendants. The case has been on trial for several days, and the interest has been manifested among the members of the bar on account of the dismissal of one of the defendants.

JURY EMPALEED Trial of Mexican for Murder of Miss Emma Blakeley

BAIRD, Texas, Nov. 20.—A complete jury in the case of the state of Texas vs. Alberto Vargas was impaneled Monday and the first two witnesses were examined before the adjournment of court that day. It is thought that the case will go to the jury late Tuesday afternoon. This is the trial of the defendant for the killing of Miss Emma Blakeley at the Segal hotel in this city on Oct. 19.

JUMPED FROM TRAIN Escaped Federal Prisoner Thought to Be Dead

CHARLESTON, W. Va., Nov. 20.—Will Jarrell, escaped from the federal officers this morning, jumping from a train running at the rate of sixty miles an hour. The train did not stop and it is thought Jarrell may be dead.

COLD AT WACO Small Grain Up, But Not Damaged, Is the Report

WACO, Texas, Nov. 20.—A coat of frozen mist covers everything in Central Texas this morning, with a temperature of 5 degrees below freezing. Not much damage is done in this section. Small grain is up, but will take harder freeze to injure it seriously.

BEGIN VOTING ON CARNIVAL QUEEN

Much Interest Is Taken in the Contest

The voting for the queen of the carnival began Monday, and the first count was made Tuesday at noon. Miss Myrtle Williams leads the list, with Miss Maud Mitchell a close second. The voting started off quite lively, and indications point to a lively campaign. The following is a list of the candidates, with the number of votes received:

- Miss Myrtle Williams.....176
Miss Maud Mitchell.....160
Miss Mamie Kiper.....155
Miss Edith Calloway.....150
Miss Gertrude Smith.....110
Miss Clara Huddleston.....100

New voting boxes were placed today, and the names of several other young ladies have been mentioned by their friends as probable candidates.

The prize that is offered is worth the efforts of any of the young ladies' friends. The queen is to receive a valuable diamond ring, while the one receiving the second highest number of votes will receive a lady's gold watch, while the third will receive a nice umbrella.

The Commercial Club has ordered 10,000 tags, which will be distributed to the carnival people, for the purpose of keeping the fourth anniversary celebration in the minds of the public. These tags may be attached to the buttons, and have appropriate and catchy words on each side.

One or two inquiries have been made in regard to the marriage ceremony on the back of one of the elephants during the carnival, and Mr. Schwan says that the presents proposed include valuable housekeeping presents, and will be worth the while to say nothing of the novelty of such a marriage.

Wholesale dealers have all agreed to give special excursion rates of one and one-third fare for the round trip during the week of festivities, and these rates will obtain within a radius of seventy-five miles from Fort Worth. Men are being sent out to place advertising matter, and everywhere may be seen flaming streamers and posters, telling of the coming event.

The name of the carnival street has not yet been selected, but several have been suggested. It is up to some lady genius to propose a suitable name for the carnival street during the week of festivities. To the one whose name is accepted, two free tickets to all the attractions will be given during the entire week.

A delegation from Waco is expected to arrive during the week of the celebration. They come at the suggestion of the Carnival Company in order to satisfy themselves that the shows are worthy attractions. The Cosmopolitan Amusement Company will go from Fort Worth to Waco.

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak. If the urine scalds, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a mouthful or two. It is a liquid and see what it can and will do for you. Druggists recommend and sell.

DR. SHOOP'S RESTORATIVE

DS CO. 11-13 HOUSTON STREET

BEGIN VOTING ON CARNIVAL QUEEN

Much Interest Is Taken in the Contest

The voting for the queen of the carnival began Monday, and the first count was made Tuesday at noon. Miss Myrtle Williams leads the list, with Miss Maud Mitchell a close second. The voting starts off quite lively, and indications point to a lively campaign.

The following is a list of the candidates, with the number of votes received: Miss Myrtle Williams 170, Miss Maud Mitchell 154, Miss Edith Calloway 150, Miss Gertrude Smith 110, Miss Clara Huddleston 100.

New voting boxes were placed today, and the names of several other young ladies have been mentioned by their friends as probable candidates. The prize that is offered is worth the efforts of any of the young ladies. The queen is to receive a valuable diamond ring, while the one receiving the second highest number of votes will receive a lady's gold watch, while the third will receive a nice umbrella.

The Commercial Club has ordered 10,000 tags, which will be distributed among the people for the purpose of keeping the fourth anniversary celebration in the minds of the public. These tags may be attached to the buttonhole, and have appropriate and catchy words on each side.

One or two inquiries have been made in regard to the marriage ceremony on the back of one of the elephants during the carnival. Jake Schwarz says that the presents proposed include valuable housekeeping presents, and will be worth the while to say nothing of the novelty of such a marriage.

The railroads have all agreed to give special excursion rates of one and one-third fare for the round trip during the week of festivities, and these rates will obtain within a radius of seventy-five miles from Fort Worth. Men are being sent out to place advertising matter, and everywhere may be seen flaming streamers and posters, telling of the coming event.

The name of the carnival street has not yet been selected, but several have been suggested. It is up to some lady genius to propose a suitable name for the carnival street during the week of festivities. To the one whose name is accepted, two free tickets to all the attractions will be given during the entire week.

A delegation from Waco is expected to arrive during the week of the celebration. They come at the suggestion of the Carnival Company in order to satisfy themselves that the show is worthy attractions. The Cosmopolitan Amusement Company will go from Fort Worth to Waco.

Threaten Pope's Life Special to The Telegram. BERLIN, Nov. 20.—The Pope has received personal letters containing threats that he will be assassinated in the Apostolic Palace as a protest against the present organization of society. The anarchists, it is added, are ready to employ every means to destroy all institutions supported by religious or military forces.

Weak Kidneys surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

TIMELY SUGGESTIONS For WEDDING PRESENTS

Pickard's Hand-Painted CHINA

J. Z. WHEAT DEAD IN SAN ANTONIO

Friends Say Life Insurance Is About \$100,000

Joe Z. Wheat, formerly a resident of Fort Worth, but lately of San Antonio, died in that city Tuesday morning after an operation, performed with the hope of relief from some throat trouble. He is survived by Mrs. Wheat and two daughters, one about grown and the other a child of about 3 or 4 years.

Mr. Wheat was the owner of the Wheat building in this city, a building which he took when it was nothing but a big stone warehouse that had been used by a wholesale dry goods company, and remodeled it at lavish expense into one of the finest office buildings in Texas.

Except a brief residence at Cleburne, Mr. Wheat lived all of his eighteen or twenty years of Texas life at Fort Worth. Last fall he moved to San Antonio, for business reasons, spent the summer East, where he was in the city of San Antonio, where he had determined to make his home for the future.

LOWDEN CASE SET FOR WEDNESDAY

Other Cases in United States Court

Wednesday, Nov. 21, is the day set for the hearing of the case of James G. Lowden et al. vs. the United States before the United States circuit court of appeals in this city. This is the case of James G. Lowden and Otto W. Steffens, who were convicted in the lower court on a charge of misappropriating funds of the American National bank of Abilene and were sentenced to five years' imprisonment. They appealed the case to the circuit court of appeals and are now out on bond.

The circuit court of appeals took up the first case on the docket set for Tuesday, that of W. J. Lowe et al. vs. W. A. Wright et al., which was argued and submitted. Other cases set for Tuesday were Edward Connelley et al. vs. Richard Wood et al., International and Great Northern Railroad Company et al. vs. S. C. Hoyle, George W. Saunders vs. Southwestern Telegraph and Telephone Company.

Among the prominent state lawyers who were present at the Tuesday sitting of the court were: T. D. Cobbs, San Antonio; J. D. Guinn, San Antonio; E. D. Henry, San Antonio; W. M. Sleeper, Waco; J. M. Wood, Houston; John N. Nease, Houston, and J. C. Hutchinson, Houston.

U. S. Circuit Court of Appeals Two cases before the United States circuit court of appeals were passed Monday morning to the New Orleans session. These cases were W. T. Carter, Bro. vs. Kirby Lumber Company et al., and Mrs. Ella C. Bragg Ferris et al. vs. Mrs. Virginia A. Gillum et al. The case of St. Louis and Northern Railroad Company vs. John R. McSweeney was submitted by brief and the case of Gaar, Scott & Company vs. Sam Bridges was argued and submitted.

Cases set for Tuesday are: W. J. Lowe et al. vs. W. A. Wright et al.; Edward Connelley et al. vs. Richard Wood et al.; International and Great Northern Railroad Company vs. S. C. Hoyle; George W. Saunders vs. Southwestern Telegraph and Telephone Company.

Seventeenth District Court Judge M. E. Smith failed to get a case on trial in the seventeenth district court Monday, the only business done being the setting of the docket for next week.

Monday, Nov. 20. Cassidy-Southwestern Commission Company vs. Missouri, Kansas & Texas Railway Company. City of Fort Worth vs. Winfield Scott. Robert Murlough vs. Fort Worth & Denver City Railway Company. L. H. Hawes vs. Fort Worth & Denver City Railway Company. W. J. Collier vs. Northern Texas Traction Company.

Tuesday, Nov. 21. C. C. Walker vs. Fort Worth & Denver City Railway Company. Lee Baker (next friend) vs. Shaw Brothers. John A. Kennedy vs. Rose E. Kennedy. W. C. Heath vs. Fort Worth & Denver City Railway Company. John A. Thrasher vs. Northern Texas Traction Company. H. B. Clifton vs. Bob Pylon (Bob Pylon Land Company). T. B. Maddox vs. Northern Texas Traction Company.

SOLDIERS GO TO AID THE SHERIFF

Three Companies Are Protecting Lone Negro

AUSTIN, Texas, Nov. 20.—Governor Lanham today ordered the Beaumont military company to proceed at once to Center to protect Dick Garrett, a negro who was indicted for the murder of Dr. M. M. Frazier.

The soldiers were ordered to Center at the request of Sheriff Booth of Shelby county. It seems that the life of the negro is in great danger from lynching by an angry mob. This makes three companies there to protect the prisoner.

THE TEXAS RANGE Cattle Range Is Suffering From Drouth Reports received at the office of the Cattle Raisers' Association of Texas, from inspectors, for week ending Sunday, Nov. 18, indicate good conditions except on the Closero range, where it is suffering from drouth and in one or two other places, where it was getting dry. Cattle reported in good shape.

Weather changed on the plains county Friday to threatening with cold, slow rain. The number of cars shipped amounted to 255, as per reports. Complaints of shortage of cars are numerous.

Captain John T. Lytle, secretary of the association, is still improving, and expects to be out soon. The reports are as follows: Victoria and Gold—Range and weather good; sixteen cars shipped.—Charles E. Martin, inspector. Cuero—Range getting in bad shape, although cattle are holding up well; weather warm; thirteen cars shipped.—W. M. Choate, inspector.

Kingville and Caesar—Weather fair and clear; good range; good shape. Kingsville and Caesar—Weather fair and clear; good range; good shape. Kingsville and Caesar—Weather fair and clear; good range; good shape.

FOURTEEN WOULD GO

Record Number of Applications on Opening Day The navy enlistment office in this city had fourteen applicants from would-be seamen Monday, the first day that the office was opened, a record number of a first day in this city. Last year about thirty men were enlisted in all from Fort Worth, while at the recent two weeks' visit to San Antonio only fourteen men were taken into the navy.

However it usually takes about three applications for one acceptance, and the navy department will take no applicant who cannot produce a sworn statement from himself as to his age and also from one other party besides, who is qualified to know.

THE BIG DOWNTOWN STORE

CLOSED UP SALOON

President of Brewing Company Closes Objectionable Resort Alderman Cook of the Third ward says there is a debt of gratitude due to President Zane-Cetti of the Texas Brewing Company. Some time ago, but within a couple of weeks, there was a hold-up in a saloon on East Nineteenth street, and other things have occurred there which the citizens of the ward disapproved, and then the location, within about seventy-five yards of the Third ward school building, made it further objectionable. Learning that the Brewing company had some control over the saloon the facts were presented to Mr. Zane-Cetti and the same evening of the hold-up the place was closed and has so remained. Mr. Cook says that the citizens of the ward highly appreciate this action of the president of the brewing company.

\$110,000 CHICAGO FIRE

Panic in a Hotel Early Tuesday Morning—Two Firemen Injured CHICAGO, Nov. 20.—Property valued at \$110,000 was destroyed; two firemen were injured and there was a hotel panic early this morning as the result of a fire in a six story Canal street building. A large number of employees were without work when they arrived this morning.

THE RESULT OF NEGLECT?

Nearly every county in the state of Texas is complaining of a big loss of voting strength in the state election recently held. There are few counties in Texas that will have the same voting strength in future democratic conventions they have enjoyed heretofore, and all as a result of the stay-at-home policy that has become so alarmingly prevalent with Texas voters. Dallas county, for instance, loses nine votes as a result of Dallas county voters remaining away from the polls on election day.

Is this great falling off in democratic strength in Texas the result of neglect? There are many who are of this opinion, and voters are being chided all over the state for their failure to do their duty. The following from the Haskell Free Press is a fair sample of those who remained at home election day:

By not voting in the late election a good many men in Haskell county failed to perform one of the highest duties of a citizen. They voluntarily failed to do that for which the people of nearly every country on earth have struggled for centuries and for which hundreds of thousands have sacrificed their lives and property in bloody revolutions as being of little value without the freedom which comes with the ballot. And they were guilty of the very thing, failure to use the hard earned weapon of liberty, which has cost some nations a re-enslavement to the aristocracy and plutocracy. It is just such lapses of citizenship into indifference and a false idea of security that emboldens the corrupt politician, and the monopolist, and causes them to lose respect for the people, and the one to fail to enact proper legislation and the other to treat just laws with contempt.

The plea that the primary settled who the officers would be in Texas and that it was only here and there, in far isolated cases, that the democratic ticket was in any danger, is a poor, an entirely insufficient, reason for any man to fail to vote in the final election. We might go into details and point out a number of reasons in support of this contention, but suffice it to say now that the people should not fail to express their will and show their strength on any occasion when a vote is called for, and thus show that they are vigilant and on the watch.

The Telegram believes that the fact that this was an off year, when no national issues were before the people had something to do with the heavy slump in the Texas democratic vote, but The Telegram is also of the opinion that another very important factor had to do with the situation that has not as yet been touched upon by the papers criticizing the neglectful voters. The Terrell election law has had a great deal to do with the failure of the people of Texas to exercise the right of suffrage, from the fact that at least half of the voting population is utterly disgusted with its means provisions.

There are thousands of good democrats in Texas who look upon the Terrell election law with so much abhorrence that they declare they had rather forswear the right of suffrage than to be governed by such an obnoxious measure, and they are simply making good. They declare the Terrell law is an obnoxious and repugnant to any of the suffrage laws folded upon the book on the date of its promulgation, and they are not so prepared to surrender the principle that an election law shall become the creature of the people. They believe in the time-honored democratic principle of the election for the people to vote and they are not going to surrender this principle without a mighty struggle.

William E. Horner declares that he will never again be a candidate for public office, and if he sticks to the declaration it will prove he has not learned his lesson in the great struggle he has had. He says he will not be a candidate for office because he could never hope to be elected as an office holder, and Editor Horner is to be commended for his declaration. He says he will not be a candidate for office because he could never hope to be elected as an office holder, and Editor Horner is to be commended for his declaration. He says he will not be a candidate for office because he could never hope to be elected as an office holder, and Editor Horner is to be commended for his declaration.

ment that does not believe in the Turkish innovations Judge Terrell has succeeded in engraving upon the election laws of a free people.

RAILWAY CONSOLIDATION BILLS

The assembling of the state legislature at Austin January promises to witness the usual crop of railway consolidation bills, and some very interesting developments are in prospect. Among those consolidation measures will be one that proposes to merge all the Yoakum interests in the state. A report from San Antonio says:

The principal lines sought to be connected are the Denver road, which is the Texas line of the Colorado and Southern, the Trinity and Brazos Valley properties and the St. Louis, Brownsville and Mexico, commonly known as the Gulf Coast line.

Other properties forming the connection with the Colorado Southern, New Orleans and Pacific, are to be included and in all probability certain tram roads known as the Kirby roads will also be brought in if everything works out per schedule.

It appears, however, that there is an element of doubt as to the outcome in this connection. Should the consolidation bill pass the legislature and reach Governor Campbell, speaking of that executive in advance, there is a possibility that he may set his official foot upon it. The governor-to-be is quoted as saying that he would veto every consolidation bill presented to him, but nevertheless the bill is being drawn.

If lined up as planned the system will be one of the most important in Texas, ranging from Brownsville along the Gulf coast to Galveston, then north thru Houston to Fort Worth and Dallas and thru Fort Worth up the Denver line to connection with the Colorado and Southern properties in Colorado and Wyoming.

From Houston it is planned to operate over the Beaumont, Sour Lake and Western, a Yoakum property in process of construction, to Beaumont, and thence via the Kansas City Southern to De Quincy and the Colorado Southern, New Orleans and Pacific lines. This is made possible by an exchange of trackage with the Kansas City Southern, whereby the latter gets the use of Frisco tracks into Kansas City. This means the Yoakum line will reach New Orleans, giving the system two important gulf ports.

As outlined, the system traverses the regions where freight is most abundant, cattle in the Panhandle and the northwest, cotton in north and central Texas, timber in the eastern part of the state, oil and timber in the southeastern and oil and timber and produce generally from the Brownsville country, and along the southern edge of Texas, making the proposed system one of the most important in the country from a freight traffic point of view.

The Telegram does not know what the result of this proposed railway consolidation will be before the approaching state legislature, but it does know that public sentiment in this state is strongly adverse to any more railway consolidations. There is a feeling among the people that during both the Sayers and Lanham administrations too much of this procedure was permitted, and the time has now come to call a summary halt in these proceedings. There is no disposition to single out the Yoakum interests as an object lesson, for Colonel Yoakum has manifested generally a very commendable desire to conform to the laws of this state. But the people of Texas believe the policy of merging independent and competing lines is hurtful and subversive of the best interests of the state.

There is a feeling in Texas that the state needs all the independent and competing lines that can be obtained and the disposition is to encourage these and discourage that policy which seeks to gather up a big bunch of such lines and convert them into one great system. Texas needs more railroads—not more railroad.

THE AMENDMENTS DEFEATED

The statement is given out that all three of the proposed amendments to the state constitution voted upon at the recent state election were defeated, the suffragists of the state declaring they wanted none of them. Two of the rejected amendments were believed to be possessed of some merit, but the fact that they were caught in bad company doubtless resulted in the good having to go with the bad. The exemption amendment and the jury tax amendment would have both carried had it not been for the legislative salary grab amendment, which the people were so determined to swat that also seem to have taken the time to black the others as showing their disapproval of the work of a very incompetent legislature.

The people of Texas had declared in their state platform that they were opposed to the use of free passes by public officials and demanded that the legislature pass a law eliminating the free pass. That body rose in all the dignity of its unrighteous wrath and fired a constitutional amendment at the people in which they proposed to abandon the use of free passes if the people would grant an increase in the official salary. The proposition was an insult to the people of the state, and they showed their indignation by giving the legislative salary increase proposition such a jolt that it will be a long time recovering. It is to be hoped that the lesson conveyed will not be entirely lost, and that future legislatures will bear the fact in mind that the people of this state are not yet prepared to concede that it is necessary to pay their public servants to be good.

The state of Texas needs a new constitution, there is no doubting or denying that proposition. The system of crazy patchwork that goes on from year to year in attempted amendments is pretty conclusive proof that what the state needs is a new dress of constitutional make that will answer all present and future demands. But the indications are not favorable for such action. The people are fearful that if a constitutional convention is called it would result in the tricksters and grafters getting in the work they have been laboring for years to accomplish, and they think it is far better to endure present ills than to encounter others of perhaps greater magnitude.

The Telegram would be pleased to see the constitution of Texas amended in several particulars. The state constitution should be so amended that the member of the railroad commission or higher judiciary should be permitted to become a candidate for governor until two years shall have elapsed from the time they served in their former position. There should also be an amendment making the term of all state and county officers four years instead of two, and increasing the salary of the governor of Texas to the sum of \$10,000 per annum. The Telegram also believes that candidates for office who are given one term of four years should be rendered ineligible for re-election.

William E. Horner declares that he will never again be a candidate for public office, and if he sticks to the declaration it will prove he has not learned his lesson in the great struggle he has had. He says he will not be a candidate for office because he could never hope to be elected as an office holder, and Editor Horner is to be commended for his declaration. He says he will not be a candidate for office because he could never hope to be elected as an office holder, and Editor Horner is to be commended for his declaration.

loses his mother he generally loses his nearest, best and truest friend, and it is a loss that can never be regained this side of eternity. Senator Bailey was with his mother in her last hours.

Judge Alton B. Parker, late democratic nominee for the Presidency, has become attorney for one of the leading trusts of the country, and this doubtless accounts for the ease with which he supported the republican candidate for governor in New York recently.

The report that Anna Gould will soon marry one of her former admirers is probably but a matter of mere sensational speculation. The little woman will at least want a short breathing spell before she again indulges in a matrimonial entanglement.

The Telegram believes that Fort Worth trade excursion should be composed of representative Fort Worth business men. And Fort Worth business men should not be slow to take advantage of the opportunity.

The proposition is now being suggested that the Pullman Car Company reduce the price of upper berths to \$1 as an incentive to have the Texas railroad commission rescind its contemplated assumption of control over that corporation.

The Dallas fair cleared over \$100,000 this year, and there is great rejoicing over the accomplishment in Dallas, and plans are materializing to make the fair greater and grander next season than ever before.

Mineral Wells is having trouble over her proposed street railway system, and Major Bearsley, the promoter, has asked for more time in which to get matters shaped up.

The Texas Panhandle has been the recipient of another snowstorm, and it will doubtless be the signal for some more highly colored statements of the rigors of winter as experienced in that section.

THE TEXAS PRESS

The Houston Post seems to be of the opinion that there is a lot of Presidential timber down here in Texas. That may be all right enough, but the question is, can we make the other fellows appreciate that fact?—Austin Statesman.

Texas will one day furnish a number of Presidents to this union, but that time has not yet come. All such talk is premature and but a waste of effort.

Texas legislators will be compelled to pay fare this year. Free passes have been abolished. And, by the way, a word to the wise: A majority of the voters of Texas stand for the square deal. Should the lawmakers go beyond the square deal in matters of legislation the people should speak out. The people have rights; capital has rights. The rights of all should be sacredly guarded.—Dallas Times-Herald.

The people of Texas have declared against the use of free passes by their public servants, and in cutting out the legislative passes the railways have but accorded to the popular demand. The people should now see that the railways are protected from retaliatory legislation at the hands of their servants.

Thomas B. Love of Dallas has done the state of Texas a big service. His intangible tax law has been declared constitutional, and is now in operation. This law alone has brought to light the sum of \$31,781,480 upon which the state will hereafter collect taxes. The Dallas statesman should be duly credited.—Sherman Register.

The Telegram may be mistaken, but has long labored under the impression that Judge William D. Williams of this city was the author of the intangible assets law.

Tarrant county is to be congratulated on the statement of its retiring sheriff that there is no gambling going on in Fort Worth. That's the way to put the lid on it. It is to be hoped that his successor in office will be able to say as much at the end of his term.—Denton News.

Tarrant county officers believe in enforcing the laws as they find them upon the statute books, and when officers do that they are living very closely up to their official duties.

Cole Younger is in the state with a show and Frank James is in the Panhandle speculating in land. These men have seen some of the bad side of life in former years, but have reformed and are model citizens.—Sherman Democrat.

And both of these men are living witnesses of the fact that a bad man can reform when he honestly desires to do so.

The coward who goes out armed with his gun to shoot dead any man who is unarmed should receive no mercy at the hands of the courts. Whenever a man is caught "toting a pistol" he should be punished to the full extent of the law.—Vernon Times.

Human life is held too cheaply in Texas, and the man who is bent on shedding human gore should always be made to pay the price.

Even the city of San Francisco, stricken as she was, her people in the midst of one of the most frightful catastrophes of modern times, is made a victim of graft. The funds intended for the relief of the suffering thousands were misapplied and misused by designing men.—Terrell Transcript.

When men can steal in the face of such a great calamity as the San Francisco horror, it is pretty conclusive evidence that that is an age very largely given to graft and corruption. The situation out at the Golden Gate should be sifted to the very bottom.

A Paris dispatch says Mr. Wellman is the only active polar explorer left, and that he expects to make good with the arship he is now building, which has a lifting force of 8,300 kilograms. The last arship Mr. Wellman built had a distributing capacity of 8,300 cablegrams.—Houston Post.

The Wellman expedition to the north pole seems to have been for advertising purposes only. It is a newspaper assignment that will probably remain uncovered.

WANTED! 2000 MEN IN CLARKSON - EASY WORK - GOOD WAGES - ME PER ANUDDER COUNTRY!!

June 1—Hully gee! Dis ain't no place for a man wot want s' t' enjoy a few minutes uv leisure. I won't git over dis shock for a week. Guess I'll be movin' t' some place w'ere people ain't so vulgar dat dey're thinkin' uv work. Me fer St. Paul and Minneapolis on de next train.

THAT REMINDS ME

WHAT MRS. COOPER DID Mrs. Holcomb, who is one of the members of the Howells Club, not infrequently contributed to the pleasure of the meetings by comment or information which is not in any sense literary. "Yes," said Mrs. Holcomb one day, when the conversation had strayed from the latest novel to more domestic topics, "that green girl of Mrs. Cooper's is a fearful trial to her. "Mrs. Cooper went to the kitchen one Sunday morning, when she was expecting some very particular guests to dinner, and she found, to her horror, that the girl had cut her perfectly splendid big turkey all up into pieces, because she supposed from the size of it that it must be a particularly old and tough chicken. She was going to stew it!" "Horrors!" exclaimed Mrs. Bissett, shocked at this indignity thrust upon high-priced turkey. "What in the world did Mrs. Cooper do?" "Why," returned Mrs. Holcomb soberly, "you know how clever she is with her needle? Well, she sewed that bird together again, and when he was roasted you wouldn't have known that anything had happened." "But didn't the seams draw apart?" "No," explained Mrs. Holcomb. "She feathered and tched every one of them with brown silk."

ON THE FIRST TRIP

Among the passengers on an Atlantic liner when she left New York recently was a charming young woman from St. Louis, who was making her first trip abroad. The vessel had not proceeded far when the fair passenger approached the captain and said: "The ship appears to be stopping, captain. Why should we stop here?" "We stop here to let the pilot off," was the reply. "To let the pilot off?" exclaimed the young woman, in a tone of polite incredulity. "Do you mean to say that the pilot doesn't mean to cross the ocean with us and direct the course?" "I mean just that," answered the captain. The fair passenger pondered for a bit. Then smiling as if a bright idea had occurred to her, she added: "Oh, I suppose after he has set the rudder, pointing in the right direction that there's nothing left for him to do, so he goes."

LENGTH OF THE SERMON

When Archbishop Trench was dean of Westminster he delegated Canon Cureton to preach at the abbey on a certain saint's day. On such days the boys of Westminster school attended service and afterward had the rest of the day as a holiday. While Mr. Cureton, on the morning of the day he was to officiate, was looking over his sermon at the breakfast table, his son asked, in a tone vibrating with anxiety: "Father, is yours a long sermon today?" "Father, is yours a long sermon today?" "No, Jimmy, not very." "But how long? Please tell me." "Well, about twenty minutes, I should say. But why are you so anxious to know?" "Because, father, the boys said they would thrash me awfully if you are more than half an hour."

THE TELEGRAM AND THE TEXAS PRESS

NO COMPROMISE IS DESIRED

The attorney general of Texas will please take notice that no compromise will be acceptable to the people of this state in the Waters-Pierce Oil Company cases. That company is either guilty of a flagrant disregard of Texas laws and should be punished according to the enormity of its offense, or the proceedings against it are "scandalous," and it should have proper vindication. Let the majesty of the law be vindicated one way or the other.—Fort Worth Telegram.

HUGHES HEARST?

Lincoln Steffens propounds this conundrum: "Is Hearst Hearst?" A satisfactory answer can probably be found in the latest edition of Hughes' Much—St. Louis Globe-Democrat.

VERBES THAT BRING

WHAT KISSES COST You ask me, darling, what kisses cost In the loves that are won and the loves that are lost Ah, dearest mine, kisses cost kingdoms and crowns, Kisses cost smiles that are smothered in frowns; Kisses cost anguish and kisses cost pain, Kisses cost peace that will come ne'er again; Kisses cost cheeks all the roses they bear, Kisses cost visions that melt in thin air; Kisses cost tears that are briny and hot, Kisses cost listeners for steps that come not, Kisses cost laughter whose echo doth mock, Kisses cost rapture that wounds with its shock; Kisses cost wrinkles on brows that were smooth, Kisses cost aches that no potion can soothe, Kisses cost dreamings that sleep never brought, Kisses cost longings that die when they're sought; Kisses cost sorrow that deadens the soul, Kisses cost heaven ne'er shadowed by shoul; Kisses cost blessings that slip from our clutch, Kisses cost Paradise, lost at the touch; Kisses cost blossoms that fade at their birth, Kisses cost moments too sweet for this earth, Kisses cost bodings that bide and persist, Sweet of my heart, oh, why lengthen the list; Balmly as heaven (the brief as a breath), Kisses cost everything—aye, even death. —New York Herald.

POINTED PARAGRAPHS

Do something for somebody, and do it now. After being sworn in most office holders are sworn at. A man never knows what love is until he has smell-of powder. Emptying the wrong bottle has filled many an untimely grave. No man every got a pain in his back from carrying his neighbor's burden. This scarcity of railway passes must seep passing strange to politicians. Our idea of a modest man is one who can keep his opinion of himself to himself. Few magnifying glasses are powerful enough to enable a man to see his own faults. No man who says just what he thinks is apt to acquire an enviable reputation as a thinker. A girl's idea of a delightful play is one that makes her cry—and order a lobster after it's over. You may have noticed that the more an office holder talks about resigning, the tighter he clings to his job. Nothing pleases a man with a well developed sense of humor so much as setting two chronic bores to boxing each other. Before engaging the parson, young man, it might be advisable to ascertain if you can support the girl in that condition of idleness to which she has been accustomed.—Chicago News.

RESTAURANT NAMES

At Montreal the advertising manager of the Canadian Pacific is a man named Ham, and the city ticket office is in charge of a man named Egg. The two are fast friends, and if both happen to be out of town at once inquiries for Ham and Egg are frequent. By a coincidence, both report to an official named Bacon, whose chief clerk is named Brown. Recently Ham and Egg were both in Bacon's office. The telephone rang and Brown answered. The following conversation took place: "Who is that?" "This is Brown. Do you want Bacon?" "No, I don't want Bacon, Brown or any other way." "Well, Ham and Egg are here. Do you want either of them?" "No, I don't. Central cut that cheap hashhouse off the line."

CHICAGO OF THE FUTURE

The Merchants' Club has made arrangements with D. H. Burnham to prepare a plan for the development of Chicago. It will be like the plans for the improvement of Washington, Manila and San Francisco. It will embody the suggestions of experts. It will be made after consultation with a committee of the Merchants' Club and an advisory board representing the park boards, the art institute, societies of engineers and architects, the drainage board and other civic bodies. Twenty-five thousand dollars will be subscribed at once for the preliminary expenses. Its supporters are men of business capacity and intelligent activity.—Chicago Tribune.

Various small advertisements on the right margin including 'Travel Line', 'DALL', and 'The Farm'.

DR. MILLER

202 Main Street
Fort Worth, Texas
Specialist in Nervous and
Chronic Disease

I do not profess to cure all diseases,
but I do feel that my ability and
experience enable me to treat
all chronic and nervous and
special diseases. The
newly discovered and perfected
methods have been proven, and my
experience with this class of dis-
eases, together with my financial
standing, the permanency of my lo-
cation and the endorsements of the
many whom I have cured and
brought back to health and happi-
ness, have enabled me to establish
a reputation and practice which is
second to none in the city of Fort
Worth.

Kidney Disease

bladder trouble and other urinary
troubles can be cured only by ex-
pert treatment. Chemical and mi-
croscopical examination free.

Stricture

will completely derange the entire
urinary system. I give you the best
treatment to be had. I do not use
the knife.

Piles and Fistula

These diseases cured by painless
methods and with no detention
from business. No acid injections or
ligatures used.

Not a Dollar Need Be Paid Until Cured

I cure with the same guarantee of success all Chronic Diseases of Men,
such as Kidney, Bladder and Urinary Troubles, Drains, Losses, Unnatural
Discharges, Hydrocele, Rupture, Uicera, and Skin Diseases, Contagious
Blood Poison, Eczema, Rheumatism, Catarrhal Affections, Piles and Fis-
tula and all Nervous, Chronic and Private Diseases.

Come to us in the strictest confidence. We have been exclusively
treating Nervous and Chronic Diseases for years, and nothing so quick
and sure as our treatment. We are equipped with the best apparatus
which we use to restore you to health in the shortest length of time possi-
ble in accordance with scientific methods of treatment.

WRITE—Cases not too complicated treated at home. If you cannot
bring for information regarding Home Treatment. Examination and
advice free. Consultation free, either at office or by mail.

Hours—8 to 11:30, 1:30 to 5:30; evening, 6:30 to 8; Sunday, 9 to 11

DR. J. L. MILLER,

he turns him down."—Houston Post.

HEADQUARTERS

Reverend M. Knitz Will Look
After Salaries of Postoffice

Recognition by the postoffice depart-
ment of Fort Worth as the leading
railroad point in the southwest is
shown by the selection of this city
as headquarters of Homer M. Knitz,
assistant superintendent of the division
of salaries and allowances of the post-
office department, who arrived in Fort
Worth Sunday to take up his duties
here. Mr. Knitz reported his arrival
to Postmaster Barkley Monday morn-
ing and was assigned temporary
quarters in the grand jury room of
the Federal court on the second floor
of the building.

The new official in this city will
have charge of work in the states of
Texas, Oklahoma, Louisiana, Okla-
homa and Indian Territory and will
be sent by the department to investi-
gate matters connected with the ren-
ding of quarters for the postoffice in
towns which have no Federal build-
ings and will also have charge of re-
quests for additional service when re-
quested to examine such cases by the
department. In the matter of addi-
tional service, however, the department
usually depends upon the reports and
reports of the postoffice whether such
is necessary, but in the matter of prop-
er rents nothing can be known in
Washington.

STEEL FOR SANTA FE

Road Will Begin Laying Much New
Track

The Santa Fe is bringing in a large
amount of eighty-five pound steel for
use in its tracks, some for relaying
and some for new work which is to be
done. It is the calculation that the
rails imported through Galveston for that
company will aggregate fully two
thousand car loads. And the Santa Fe
has not a monopoly of all the railroad
iron shipments thru that port.

BEGIN CONSTRUCTION

Road Will Run Northwest from Min-
eral Wells

Information from Denver is to the
effect that the Goulds have ordered
the commencement of the construction
of the line which is best known locally
as the extension of the Mineral
Wells road.

LARGER THAN CHIEFS

Much Material Used for Ballast on
Santa Fe

From the office of Chief Engineer
Fell of the Santa Fe Gulf lines comes
the estimate that the quantity of ma-
terial used for ballast on the Santa Fe
system is larger by one-third than
the total contents of the pyramid of
Cheops, generally regarded as the
greatest aggregate of material ever
gathered together by man into one con-
struction.

FURNIER ARRESTED

A New Suspect in the Amarillo Mur-
der

City Marshal J. R. Snyder of Ama-
rillo and Special Agent J. Bolton
of Fort Worth and Denver, ar-
rived in Fort Worth Sunday with a
warrant for Charles Furnier or For-
ner, who is confined in jail here on a
charge of robbery.

M'MURRAY TO BE HERE

Waco and Cleburne May Take Vacant
League Places

Baseball fans of this city will have
a chance again during the coming year
of watching the work of Catcher Mc-
Murray, who was so popular when
playing for the Fort Worth team a
couple of years ago. McMurray played
with the Beaumont team last season,
and that team has made a decision not
to let professional baseball this year,
and is selling the players of the last
season. McMurray has been acquired
by the San Antonio team and will play
there this year.

LOOP COMPLETED

First Cars Over New Line Monday
Morning

The Arlington Heights street car line
is now using the loop and all of the
cars are ready to run. The incoming
cars from Arlington Heights turn out
of Jackson street into Throckmorton
and then on down to Fifteenth street,
and back by way of Ninth street
to the intersection with the main line
at the city hall.

TALK ON INSURANCE

Vice President of Insurance Company
Goes to Kansas City

B. P. Bailey, vice president and
general manager of the Fort Worth
Life Insurance Company, left for Kan-
sas City last night to make an ad-
dress at the annual meeting of the
Commercial Congress, which convened
this morning. W. D. Vandever, insur-
ance commissioner of Missouri, will
make an address of insurance, fol-
lowed by Mr. Bailey.

There's "Go" in Grape-Nuts

"There's a Reason"

"This here vindictiveness against
United States senators is being carried
too far."
"So?"
"Yes, sir. Some people don't want
to give a senator no time off for good
behavior."—Washington Herald.

Blanche—Poor Helen! Had the worst
been told?
Grace—I think not. They're all wait-
ing for your version.—Smart Set.

IS CONTESTED

Contest Is Set for Saturday,
November 24

In the matter of the estate of G.
Hausmann, deceased, whose will is be-
ing contested in the probate court, a
motion has been granted by County
Judge John L. Terrell requiring the
contestant to make a showing of specifi-
cations on which the contest is based.
Morgan Bryan was given until
Wednesday, November 21 to file a
statement on these grounds, and the
hearing of the contest has been set for
Saturday, November 24 at 9 a. m.

Deceased, G. Hausmann, who left a
considerable estate, which he disposed
of by a last will and testament, was
for years a well known citizen of Fort
Worth, having come to this city from
San Antonio in the '80s. For many
years, up to the time of his death, he
was secretary of the Texas Brewing
Company.

OPEN LOCAL OFFICE

President of Company Visited Fort
Worth

Announcement has been made that
the Jesse French Piano and Organ
Company of St. Louis will open an of-
fice for the sale of pianos and organs
in this city on Feb. 1. Lease for the
quarters at present occupied by the
Pacific Express Company on Seventh
street, between Main and Houston, has
been signed thru the Heaton-Bury
Company, and possession will be taken
on the first of February.

This company has had an office in
Dallas for some time and business from
this city and vicinity has been so
great that when the president of the
company made a visit to the Dallas
office and the president of the Dallas
office immediately had an office should
be opened in Fort Worth for the business
here.

Thomas H. Wear, who has been con-
nected with the company as a travel-
ing salesman, will be the manager of
the new Fort Worth branch.

The French company is rated as one
of the largest in the country and has
a number of agencies all thru the
south.

SHORTAGE IN COAL

Some Mines Were Closed Down During
Summer

Spurred up by the scarcity of coal in
different parts of the territory, the rail-
roads are bestirring themselves to re-
lieve the situation as much as possible.
Coal cars are being rushed to the
mines as rapidly as possible, but it
seems that the trouble is not solely in
the scarcity of coal cars, there also being
a shortage of coal at the mines.

There were shut downs at some of
the mines during the summer, the re-
sult being that when the coal season
opens there will be a shortage of coal
on hand either at the mines or with
the dealers. The small stocks have had
to stand the usual winter drain
on them and in some sections the drain
has been so heavy that stocks are ex-
hausted to such an extent that cotton
seed there will be unable to suspend. As
fast as it can be done the roads are
rushing coal to those points where the
coal famine is on, and hope in a few
days to materially relieve the situa-
tion.

EIGHT APPLICATIONS

Youths Hear the Call of the Salt Sea
Wave

Enlistment offices for the naval
service opened Monday morning in the
federal building, received eight appli-
cations up to noon. Lieutenant Cole,
who is in charge of the office, will
not be here until Tuesday, as he was
present Monday at the opening in
Dallas, both offices running simul-
taneously. The party will spend three
days a week in each city, leaving some
one in charge of the vacant office so
that the second office of the office
party in charge of the enlistment bu-
reau is composed of Lieutenant C. W.
Cole, Dr. H. L. Bronson, L. R. Brooks,
chief seaman; P. J. Knowles, chief
machinist; P. F. Cavanaugh, gun cap-
tain; H. E. Reynolds, coxswain; M. J.
Mathers, quartermaster and a class,
and O. H. Funk, hospital apprentice.

TIE ON GOLF LINKS

F. H. Sparrow and Captain Johnson
Make Equal Scores

The golf ball entrance sweepstakes
played at the Country Club Saturday
evening resulted in a tie between
Captain H. J. Johnson of Great Bar-
rington, Miss., who went around in
forty-eight strokes, with a handicap of
8, making a net score of 40, and F. H.
Sparrow of this city, who had a handi-
cap of 10, net 40. Other players in the
competition were W. G. Newby, Morris E.
Berney and E. K. Collett.

The second contest for the I. H. F.
Buney handicap cup will begin Dec.
2, when the qualifying round of eight-
teen holes will be played. The con-
test of this cup call for the playing
of four separate contests and at the
end of these rounds the four winners
will play off for the cup. Harry
Wynne was the winner of the first
contest for the cup.

ICE MEN COME WITH COLDER WEATHER

Jack Frost Gives Visitors a
Cold Reception

Coincident with the arrival of cold
weather the ice men came to town, the
occasion being the thirteenth annual
convention of the Southwestern Ice
Manufacturers' Association.

The late arrival of trains from all
directions delayed the opening of the
convention until 11 o'clock Tuesday
morning. President and Mrs. W. H.
Dawley of Paris, Texas, arrived in the
city Monday night and are guests at
the hotel.

By 9 o'clock Tuesday Chairman
George Diehl of the local reception
committee and a large number of dele-
gates from various parts of the
southwestern territory had assembled
and from then until nearly 11 o'clock
the lobby of the hotel was crowded
with ice manufacturers making new
acquaintances and renewing old ones
and discussing plans for the conven-
tion and prospects for the ensuing
year.

Mr. Diehl is vice president of the
association and has completely in-
charge the program for the two days.
Secretary-Treasurer J. C.
Mitchell of Temple, Texas, arrived
late in the forenoon over the Mis-
souri, Kansas & Texas, the train be-
ing more than an hour late on account
of the bad weather.

Mayor W. D. Harris addressed the
delegation in Imperial hall, welcoming
the visitors on behalf of the city of
Fort Worth. Mr. Diehl followed with
an address of welcome on behalf of
the local ice manufacturers and these
were responded to by President Dawley
of the association.

The unprinted program calls for the
transaction of all business matters
during the first sessions and an effort
will be made to complete the
more important work the first day.
Improvised addresses will be made by
many of the delegates and indications
point to a most successful meeting.

The election of officers for the ensu-
ing year will be held at the last
meeting of the convention Wednesday
afternoon. Much commendation of the
efficient work of the present officers
is heard and considerable interest is
manifested in the new election.

Chairman Diehl has worked diligent-
ly for the past two months, sparing
no time nor expense to make the
thirteenth annual convention the
greatest in the history of the associa-
tion. Several weeks ago, after com-
municating with practically every
member, Mr. Diehl predicted that be-
tween 150 and 200 manufacturers and
many visiting ladies would be in at-
tendance thruout the meeting if the

ICE MEN COME WITH COLDER WEATHER

Jack Frost Gives Visitors a
Cold Reception

In a kitchen bright and neat
A maid in stocking feet
Did tangle with a lot of pots and pans,
She was singing at her task,
Which was more than you would
ask
From one who wore no jewels on her
hands,
Oh, verily was her hair,
And her face was almost fair,
And this she sang as she began to
dance.

CHORUS
He loves me; tho' an ice man, his
heart's to me not cold;
I'd sooner have his love than tons and
tons of gold.
Some day we may be wed (but that is
on the dead);
He loves me, tho' an ice man, for so I
have been told.

Just then there came a thump—
The kettles slid a lump
Of condensed water in upon the floor,
Just one kiss from her lips,
From the book a dozen slips
He snatched, neglecting strangely to
take more.

She slipped him half a pie
As he hid her then "goodby,"
And she warbled as she kidded thru
the door.

CHORUS
Auto Drivers' Strike Ended
Special to The Telegram.
NEW YORK, Nov. 12.—The auto
drivers' strike ended Monday, when
a settlement was reached between the
committee representing the men and
the officials of the New York Trans-
portation company. The men gained
an increase in wages, but the working
day continues at twelve hours.

The Hasbeens
Full many a sport of fame in other
days
The verdant meadows and the corn
fields hide;
Full many a baseball hero gathers in
Your nickel when you take a street
car ride.—Cleveland Press.

Best Tonic of the Age.

Mr. T. M. Dorwin, a prominent citizen of Syracuse, N. Y., says "Duffy's Pure Malt Whiskey is the best tonic of the age and trusts that it will help others as it has helped him."

"I now comply with your request and send you a bottle of my Pure Malt Whiskey and consider it one of the best tonics of the age. As it has helped me I trust it will help others and highly recommend its use to my many friends."—T. M. DORWIN, 101 Woodland Ave., Syracuse, N. Y., July 2nd, 1906.

Duffy's Pure Malt Whiskey

If you wish to keep strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions, and take no other medicine. It is dangerous to fill your system with drugs; they poison the body and depress the tone, while Duffy's Pure Malt Whiskey tones and strengthens the heart action and purifies the entire system. It is a food already digested. It is the only whiskey recognized as a medicine, and contains no fusel oil. This is a guarantee. Duffy's Pure Malt Whiskey has stood severe tests for fifty years and has always been found absolutely pure and to contain great medicinal properties.

CAUTION.—When you ask your druggist or grocer for Duffy's Pure Malt Whiskey, be sure you get the genuine. It's the one and only pure medicinal whiskey and is sold only in pure bottles—never in bulk. Look for the trade-mark, the "Old Chemist," on the label and notice the name in bold letters on the cork in unbroken. Price, \$1.00. Medical booklet and doctor's advice free. Duffy Malt Whiskey Co., Rochester, N. Y.

For sale by H. BRANN & CO., Fourteenth and Main Sts.

KNICKERBOCKER

Bishop, James Campbell, B. R. Bolton and J. G. Putman. The final vote on which the resolution was passed was 124 for and 71 against it.

The hour having arrived for selecting the place for holding the next annual conference, Waco, Abilene, Waxahachie, Brownwood and Amarillo were placed in nomination. Brownwood and Waco were withdrawn and Amarillo won and will entertain the next session.

President Makes New Order for Canal Work Special to The Telegram. NEW YORK, Nov. 20.—A Panama special says that before President Roosevelt called Sunday night he signed an executive order reorganizing the Panama canal work on a basis similar to that of most of the great railroad systems.

Under the new order the building of the canal will be under the management of a chairman, chief engineer, general counsel, chief sanitary officer, purchasing officer, auditor and manager of labor quarters.

The governor of the canal zone will be vested in the general council thru the medium of the local administration.

Such reorganization of the isthmian canal commission as Mr. Roosevelt may decide will be deferred until after his return to Washington.

The orders signed last night affect only the work on the canal.

ALWAYS WAS SICK When a man says he always was sick—troubled with a cough that lasted all winter—what would you think he should say—he never was sick since using Ballard's Horehound Syrup. Such a man exists.

Mr. J. C. Clark, Denver, Colorado, writes: "For years I was troubled with a severe cough that would last all winter. This cough left me in a miserable condition. I tried Ballard's Horehound Syrup and have not had a sick day since. That's what it did for me." Sold by Covey & Martin.

CHARGED WITH AN OLD CRIME

Father of Dead Boy Believes Murderer Is Caught

Sheriff Tom Wood has inaugurated his first week of his administration with a catch that promises to unveil the mystery of a death that occurred over two years ago and which may lead to the exposure of a horrible murder in Fort Worth.

Tuesday morning Sheriff Wood returned from Mineral Wells, bringing with him a prisoner named Tom Thomas, a negro about thirty years old. The negro was lodged in the county jail and the word "murder" written on the prison register opposite his name.

Mineral Wells Monday on a complaint filed there by an old negro Ed Helms and Sheriff Wood was held in custody until the arrest of the great of this negro on a charge of murder, is a sequel to the following facts:

On July 7, 1904, the dead and mangled body of a young negro named Ed Helms was found scattered along the Texas & Pacific railroad track near the wooden viaduct on Hill Street. Justice of the Peace Charles T. Rowland held an inquest on the body, getting all the evidence that could be secured at that time and his verdict was that death resulted from deceased being struck and run over by a Texas Pacific train.

This verdict seemed at the time to be conclusive and no further steps were taken to get any further facts by the officers.

But the father of the dead negro boy did not accept the coroner's verdict as conclusive and went to work to delve into the mysteries of the tragedy and has been working quietly on it ever since. He finally secured evidence which, it is said, furnishes a clew that will lead to proving that his son, Ed Helms, was first murdered and afterward his body was placed on the railroad track in order to divert suspicion and create the belief that the boy was killed by a railroad train.

When the old negro possessed himself of sufficient evidence he went to Deputy Sheriff Tom Wood and laid all the facts before him and received from the sheriff's office instructions as to what further steps to take. All this time he has kept on the trail of the man he says killed his boy, never permitting the suspected man to make a move that he did not know of.

Monday, deeming everything ripe for action, he went to Mineral Wells where he knew his man was located. Ed made an affidavit there against Tom Thomas, charging him with the murder of his son, Ed Helms. The negro Thomas was at once arrested by the Mineral Wells sheriff and taken over to Sheriff Wood on his arrival there Monday evening.

The sheriff's office is in possession of a lot of evidence bearing on this case that it is deemed advisable at this time not to give out, but it is believed that the evidence already in hand makes a strong case.

BISHOP WILSON HERE

ated Divine Addresses Students at University

Bishop Luther B. Wilson of Methodist Episcopal church arrived at Fort Worth Monday night, and is a guest of Mr. and Mrs. F. L. Jaccard. He will remain here several days, and will go to Waco, Tex., on Tuesday at 11:30 o'clock Bishop Wilson delivered an address to the students of Fort Worth University at institution here, but not visited for two years. He has last in Fort Worth just after his return to the bishopric.

Bishop Wilson is a native of Balch Springs, Tex., and is a member of the Los Angeles conference two years ago, receiving over 400 votes when he was not really a candidate for the position. He thought probably that he might receive somewhere about twenty complimentary votes, and was most as much surprised as gratified by his election.

Bishop Wilson is comparatively a new man in the bishopric, and his address has been most pleasingly received. He has been in the bishopric since he was elected in the late conference districts in this country on this trip, he will go to Porto Rico, taking a steamer at Galveston.

OF INTEREST TO WOMEN

THE OLD-FASHIONED EARRING THE RAGE NOW

The women of the smart set today would as soon be seen in public without her shoes as to be caught unawares without her earrings. They are the rage now, and in spite of the universal assertion made some time ago by fashion creators that the reign of the earring would be short, it is increasing in popularity.

The pearl leads as the favorite, but the delicately tinted coral earring comes in a close second. The indications are that the size of the earring will increase until the long pendants of our great-grandmothers' time will soon be considered the proper thing for the up-to-date woman.

SCHOOLGIRL'S NORFOLK

Since the grownup folks are going to wear so many Norfolk this season we may be sure the schoolgirl will not be far behind. That is why I hurry to give a model Norfolk for her—this time crocheted and very easy to make. The plain half stitch is used, ribbed as it is in alppers. It is worked up and down, giving, thru the whole work, a long fine line that is very effective. The picture shows this Norfolk with pleats and belt suitable for a schoolgirl. They are worked separately and put on top of the work with loose stitches. For an older girl it is better to leave them off, transforming the Norfolk into a box coat that is just the thing for a grownup. The band

RATING COMMISSION

Recommendation of Commissioner Clay Finds Favor

Special to The Telegram.

AUSTIN, Texas, Nov. 20.—The creation of a rating commission, as recommended by State Insurance Commissioner Clay in his last annual report to the governor, is causing considerable comment among insurance agents. The idea is heartily approved by both insurance companies and the people generally, as far as can be ascertained here.

It is contended that such a commission, with powers such as are vested in the railroad commission, and whose duties it shall be to investigate into the losses and causes of fires, would be a protection to the fire companies and also to the insured. The commission would adjust the losses with a view to being fair to both parties. It would also make a close investigation as to the cause of fires, which in many instances would have the effect of lessening incendiaries. It is more than likely that the next legislature will look with favor on this recommendation.

CASE IS REOPENED

New Law Will Be Applied in Cattle Raisers' Suit

Special to The Telegram.

WASHINGTON, Nov. 20.—An important decision was announced by the interstate commerce commission concerning the application of the recently enacted railroad rate law to cases previously pending before the commission. The decision particularly affects two cases brought by the Cattle Raisers' Association of Texas. The decision was announced by Commissioner Prouty on motions made by the complainants to reopen two cases with a view to de-

Blankets, Comforts, Flannels, Fleecedowns, Outings and Flannelettes

HONORS FOR A MASON

Galveston Masons Pay Tribute to Col. M. F. Mott

Special to The Telegram.

GALVESTON, Nov. 20.—As the clock chimed the midnight hour the Masons of high degree and friends Sunday night solemnly assembled in the Scottish Rite Cathedral to pay tribute to their departed brother, Col. M. F. Mott. The occasion was a most impressive one, where comic operas such as "Piff, Paff, Puff," and others have been made by the dancing of one set of girls.

Second in interest was the work of the Wells brothers. Additional interest in this act was occasioned by the discovery of a most sound asleep in the front of the house during the song, "I'm so Sleepy." However as the sleepy brother was not discovered he discovered himself to be one of the Wells brothers. The whole thing was done so cleverly that the audience enjoyed a laugh to itself for the rest of the act.

The Apollo quartet presented a college scene, and sang a number of college harmonies that were entirely new to the majority of the audience. The part of "Spider," a college freshman, as played by C. A. Broadring, was most realistic. Others in the cast were Bruce Logan and Al Marentette, as two sophomores, and Sidney Craven as the cad. The original flying Dutchman, introduced his Dutch comedy bounding rope and fell about the rope and recovered easier than most people manage to catch themselves on level ground. Orchestration for this piece fitted in with the acts as they were performed, as well as anything that has been here.

Dottie Wells, caricaturist and crayon artist, drew and sketched crayon pictures before the eyes of the audience with a rapidity that almost took the breath from the onlookers. After sketching a picture it was a picture, whether right side up or down, or whether she turned it upside down.

Tony Ryder's monkeys filled a pleasant twenty minutes. Part of the troupe chased each other up and down the side scenery, while the other part amused the audience with acts of intelligence and training that will be hard to duplicate anywhere. This act can be easily appreciated by young and old.

The program concluded as usual with the Majestograph with its string of fine moving pictures.

WINE DEALERS FIGHT

Western Producers Will Lower Prices After January

By Associated Press.

NEW YORK, Nov. 20.—The Journal of Commerce today says: A great fight for the control of the cheap domestic wine business of the United States is on with the producers of California solidly arrayed on one side and those of the middle west on the other. The business amounts to a very large total annually and millions of dollars are represented in invested capital. The probabilities are that no truce will be reached and that one side or the other will be benefited in any event thru the threshing out of the wine situation. The California Wine Association has decided to materially lower prices after January 1, in order to drive their eastern competitors from the rich wine consuming centers, such as New Orleans and St. Louis, where the easterners were able to secure a strong foothold after the San Francisco disaster of last spring.

THE WORLD'S GREATEST CURE

WHAT THE RAILROADS IN TEXAS ARE DOING

May Change Route
Special to The Telegram.
 HAMLIN, Texas, Nov. 20.—The Texas Central has again taken up construction work at the front which is now about eleven miles west from Hamlin and, while the scarcity of labor is hindering some, the laying of steel gradually goes on. Last week Colonel Charles Hamilton visited the townsite of Rotan and great was his indignation upon hearing that thousands of dollars had been expended upon a large reservoir being built to supply the town water, and upon its completion and after torrents of rain had fallen no water was obtained. It is due to a sand and gravel bottom, Mr. Hamilton, it is reported, came very near giving up the idea of opening the new town under any conditions, and it is further reported that he is now entertaining a proposition from Roby. The Texas Central may yet change its course.

Raise Grade of Road
Special to The Telegram.
 ABILENE, Texas, Nov. 20.—W. J. Harris, contractor for raising the grade of the road in this city, has succeeded in getting a passage way under the track on Cedar creek sufficient for the Abilene and Northern graders to pass thru and has moved his outfit to the location of the new bridge on this side of Clyde, where the Texas and Pacific will make a dam for a reservoir that will hold 250,000 gallons of water. The road is being used by Baird parties for water used there, and it is supposed that this is the reason the contractor is making this tank. The grade raising work here is not complete, and the contractor will return later and finish it, putting in a new and better bridge over Cedar creek.

Railway Promoters
Special to The Telegram.
 SAN SABA, Texas, Nov. 20.—C. L. Scragg and Franklin Landis, business managers of the Santa Fe, and S. M. Scott of Emporia, Kan., were in San Saba Saturday. John Kelley, Joe Kelly, Joe A. Williams and Dr. C. P. Holman met them at the depot Friday morning and accompanied them over the line of the San Saba Valley railroad survey from Antelope Gap to San Saba. Saturday morning they were in San Saba and Ward Holman took them up the valley to Doran. They were greatly pleased with the way the road is being developed. They will consider the railroad proposition and later confer with the directors of the company.

Will Move Junction
Special to The Telegram.
 ROSWELL, N. M., Nov. 20.—A report is current in Roswell that the Santa Fe has decided to move the junction of the Peecos Valley system with the new line of the Santa Fe from Texico to six or seven miles west to a point on the cut-off road that will be a new townsite. The new town will be the division point of the Peecos Valley and the new townsite of Melrose, according to this report. If this change is made, the Peecos Valley system will be built a distance of seven or eight miles from a point this side of Texico to Roswell. The Santa Fe is reported to build the Brownwood, Texas, line in an easterly direction.

Road to Anson
Special to The Telegram.
 ABILENE, Texas, Nov. 20.—There is a forward move all along the line in the construction work on the Abilene and Northwestern. The grade is about finished from the Texas and Pacific track to beyond the city cemetery, and the Peecos Valley bridge and the ungraded gap in the city will be completed to a junction with the grade near Simmons College, and this end will be ready for the heavy traffic to begin. Tracing laying to Anson is finished and cars into that little city will be but a few days.

Branch of Santa Fe
Special to The Telegram.
 WINTERS, Texas, Nov. 20.—A party of surveyors passed thru the southern portion of our city this week, surveying a line for a proposed branch of the Santa Fe. They marked their line at Talpa and made a direct line for this place; from here they intend to go to Lubbock, Texas, thence out to the depot at Boulder, Colorado. This route it seems will be an acceptable one, as it would reach a vast amount of country that is undeveloped and would give it direct passage to the east.

Grade on Both Ends
Special to The Telegram.
 SNYDER, Texas, Nov. 20.—A communication from F. W. James, one of the promoters of the Snyder, Roscoe and Pacific railroad, states that grading will be begun at Roscoe, when the depot grounds and right of way to Snyder county line are turned over to the company, and also that they expect to begin the grading rapidly and with all expedition, and hope to have the trains running into Snyder much earlier than first anticipated. They further state that if all their contracts mature as they expect them to do that Snyder will not have to wait much longer for the railroad. They expect to begin grading at both ends of the line if sufficient labor can be had.

Work on the Orient
Special to The Telegram.
 COLORADO, Texas, Nov. 20.—J. W. Pearson returned Tuesday from a trip to the Orient, where he has been for several days and reports that the Orient railroad is progressing rapidly. Track laying has begun south from Sweetwater and it is expected that trains will be running into San Angelo early in the year.

Work on New Road
Special to The Telegram.
 WICHITA FALLS, Texas, Nov. 20.—There is nothing new to report in the work on the new road from the Wichita Falls and Northwestern, except that the workmen are still piling up the dirt on the grade, severing cuts of men and teams are here and are making rapid progress. The men have had fine weather in which to prosecute their work and the progress they are making is highly satisfactory to all concerned.

Shops Are Busy
Special to The Telegram.
 BIG SPRINGS, Texas, Nov. 20.—New men are being constantly employed at the Texas and Pacific shops to keep up with the repair work, and large numbers of the men are compelled to put in a great amount of overtime. The shops at this point do a tremendous amount of work, and when the new shops have been built the force will be several times as large as at present.

THEATER BURNED
Special to The Telegram.
 ARDMORE, I. T., Nov. 20.—Fire at an early hour Monday destroyed the Bilfou theater and the Bilfou cafe at a loss of \$7,000. The company entered the theater and carried no insurance. The theater has been running only a month and will be rebuilt.

FOR A WOMAN'S VOTE

Federation of Labor Adopts Resolution
Special to The Telegram.
 MINNEAPOLIS, Minn., Nov. 20.—The Federation of Labor in convention yesterday declared for woman's suffrage with only one dissenting vote. The convention adopted a resolution which calls upon the judiciary committee of the house of representatives to report to the house a joint resolution providing for submitting to the legislature amendments to the constitution of the United States allowing women to vote. Other resolutions adopted were as follows: Indorsing and urging passage of the Golden Bill in congress to safeguard passengers on ocean steamers so as to prevent such disasters as the Slocum and Valparaiso; calling on the President of the United States to apply the Chinese exclusion act to shipping season, coastwise, on vessels flying the American flag.

DISCHARGED SOLDIERS
Members of the Twenty-fifth Infantry Seek Work in San Antonio
Special to The Telegram.
 SAN ANTONIO, Nov. 20.—A number of the negro soldiers of the Twenty-fifth infantry, who were discharged by order of President Roosevelt, have come to this city to seek employment. They are offering their services as messengers and are stirring up considerable feeling here. For that reason the white people will not give them work. They are seeking work in other sections if they desire employment.

KILLED ON FIRST RUN
Charles Yeager, of San Antonio, Dies Near Monticello
Special to The Telegram.
 SAN ANTONIO, Nov. 20.—News has been received here of the accidental killing of Charles Yeager, a Santa Antonio boy, while working on a railroad near Monticello. Five coal cars went into the ditch and Yeager went with them. He only left San Antonio a short time ago and was given employment last Thursday as a brakeman. He was killed on his first run.

Advance for Railroad Men
Special to The Telegram.
 CHICAGO, Nov. 20.—The Chicago and Northwestern railroad has voluntarily increased the wages of about 1,100 station agents and 500 telegraphers. The advance in wages was authorized by General Manager W. A. Gardner and will be about \$5 a month.

THEY CURE RHEUMATISM
 A Particularly Painful Form of This Disease Yields to Dr. Williams' Pink Pills.
 Of the many forms which rheumatism takes, that which is popularly known as sciatic rheumatism probably tortures its victim more than any other. That Dr. Williams' Pink Pills have cured this stubborn as well as painful trouble is a fact proven by the following statement, and no sufferer who reads this can afford to let prejudice stand in the way of trying these blood-making pills.
 Rheumatism is now generally recognized as a disease of the blood. Dr. Williams' Pink Pills make—actually make—pure blood. When the blood is pure there can be no rheumatism. Mrs. Thomas Bresham, of 54 Mill street, Watertown, N. Y., says: "I have had some six weeks of this terrible pain and suffering I tried Dr. Williams' Pink Pills and that is the medicine that cured me. After a few boxes the pain was less intense and I could see decided improvement. I continued to take the pills until I was entirely cured and I have never had any return of the trouble."
 All druggists sell Dr. Williams' Pink Pills, or the remedy will be mailed postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams' Medicine Co., Schenectady, N. Y.

What it means to make the Best Cigars

To us it means the utilization of our expert knowledge, wide experience and up-to-date scientific equipment for the public benefit and for our profit—the gratification of sure and legitimate success, and a virtual franchise, based on public preference, to furnish the American nation with cigars.

John D. McCall III

Special to The Telegram. AUSTIN, Texas, Nov. 20.—John D. McCall, president of the Austin Fire Insurance Company, suffered a stroke of paralysis of his left side Sunday night and is in a precarious condition

at his home in this city. He was controller of Texas several years and was chief clerk prior to that time and once was a candidate for the Democratic nomination for governor. He is noted here for his works of charity.

DREAM FORETOLD A SUDDEN DEATH

Coroner's Verdict Was for Accidental Death

After dreaming the night before that he had been killed by an engine on the Ninth street crossing, John Hollander stepped in front of a switch engine in the Denver yards at the Ninth street crossing at 2:10 o'clock Monday afternoon and instantly killed. Hollander had told J. H. Kelly, engine foreman, in the morning, of his dream in which he had been given a Meerschmum pipe and shortly after walked before an engine.

There was but one witness of the accident, the flagman of the crossing, Jim Davis. According to the story told at the inquest by Davis, Hollander had just swung a switch for a switch engine to pass and had then changed the switch for an outgoing freight, stepping back in order to allow the freight to pass. In doing this he failed to see engine No. 54, which was engaged in switching on the next track, and was struck by the footboard of the tender and thrown under the wheels. Hollander was standing about a foot and a half from the rails at the time he was struck.

The inquest over the body was held by Justice of the Peace T. J. Maben, at 8 o'clock Monday night, and the following verdict rendered: "Deceased came to his death by being accidentally struck by a Fort Worth and Denver City engine."

John Hollander was about 35 years of age and resided at 1001 East Twelfth street. He had been a switchman, connected with the Denver, for about two years. The body was taken to the undertaking establishment of L. P. Robertson and the funeral was announced for 2 o'clock Tuesday afternoon, from the late residence.

The engine which ran over Hollander was in charge of Engineer W. H. Haines and Fireman Jim Girtman.

CLEAN THE STANDPIPE

All Risks Attendant Are Duly Assumed by Contractor

The city contract with R. F. Muddell for the repainting of the standpipe on the southern edge of the city calls for the scraping and steel brushing of the inside of the pipe thoroughly, and after that cleaning, it is to be well coated with two coats of pure white lead and oil paint. The sum of \$118 is to be paid for the work. All risks are assumed by the contractor and the work is to be done in a thorough workmanlike manner.
