SIXTY LIVES WERE LOST IN THE FLOOD

Immense Damage in Arizona Town FLOODED CAMP Business Buildings Were Destroyed and the Smelting Plant Wrecked

By Associated Press. DENVER, Colo., Dec. 5.—A special to the News from Phoenix, Ariz., says: Private railroad dispatches received here say that sixty lives were lost at Clifton, Ariz., yesterday in a great flood that swept thru the camp, destroying many business buildings, wrecking the smelting plant of the Arizona Copper Company and tearing out miles of track of the Arizona and Mexico railroads.

Clifton, which has about 3,500 people, lies in a narrow valley near the eastern line of Arizona. The less prosperous of the inhabitants live in Chase Creek canon, a peculiarly dangerous situation in times of high water. Two years ago twelve lives were lost in the canon and immense damage was done by the rise of the San Francisco river.

PHOENIX, Ariz., Dec. 5.—Up to a late hour last night nothing confirmed of the Clifton disaster had been received except private dispatches sent from friends to another. One of these said: "Half Clifton destroyed. I am O. K." Numerous inquiries have been directed to the scene, but they have been unavailing. It is believed here that a disaster has undoubtedly occurred. Clifton is a peculiarly dangerous situation in times of high water. Two years ago twelve lives were lost in the canon and immense damage was done by the rise of the San Francisco river.

CARNEGIE GIVES LAKE TO COLLEGE

By Associated Press. NEW YORK, Dec. 5.—Princeton University will come into possession of Lake Carnegie today, when formal exercises attending the opening of the new body of water will be held in Alexander hall, Princeton.

There has been some discussion as to how the lake would be maintained, as the university does not care to assume the expense. It is expected that Mr. Carnegie will announce his plan in the direction. He has recently had the "Lake Carnegie Association" organized under the laws of New Jersey. It will hold the lake and administer the affairs of the property.

Believes Day for Overtaking Dallas Is Close—Future Size Cannot Be Estimated

INTERESTING, not only because it is particularly friendly to Fort Worth, but also because of its graphic comparisons, is a letter to the Kansas City Star, the first of a series from Texas, by its well known staff writer, Rollins Bingham, who signs himself "The Circuit Rider." The letter was sent to the Star under date of Nov. 19, and is as follows:

Fort Worth, Texas, Nov. 19.—It is no accident that I am writing you so frequently, that a newspaper writer is given an assignment exactly in harmony with his wishes. He is ordered to go somewhere and write this or that and he goes and writes, willingly enough or he would be no worthy writer, for discipline and loyalty to his paper forbid that his own choice or likes and dislikes should be other than subordinate as to subject matter and locality.

THE writer's only uncle was a Texas pioneer who left Missouri in 1834, joined Houston's revolutionary army at old San Felipe, fought as a sergeant in company K, Sherman's regiment, at the battle of San Jacinto, served the balance of that war as captain of a company from Gonzales, was, by a broken rail. Eighteen passengers out of a total of 175 on the train were injured, but nobody was killed, and it is not believed that any of the injured will die.

Union Depot Striking

Is it not rather appalling to think of writing of this big thing with all its variety of inclosures changing and progressing on lines of differentiation every day so that one who reads may comprehend? These rather disconcerting thoughts, akin to those of the man who biff off more than he could chew, are treated with the suggestion that foals rush in where angels fear to tread.

Has Always Been City

The Fort Worth of today claims a population of more than 60,000, and in reality it houses something more than 40,000. Now it has always been here since I first knew it, some twenty-five years ago. It is thorny alive, progressive and growing.

Photographs have been made of finger impressions made on the window pane by the burglar, and a measurement has been made also of the impression of a man's foot on the heavy carpet in the room directly beneath the window through which the thief entered the house.

Sleep And Rest

Every movement of the body consumes energy. So does mental effort. Energy is supplied by the nerves. It follows that physical or mental exhaustion simply means an over-draft on the nerves.

NO MEDICINE

But Change of Food Gave Final Relief

Most diseases start in the alimentary canal—stomach and bowels. And bowels troubles come from eating too much starchy and greasy food. The stomach does not digest any of the starchy food we eat—white bread, pastry, potatoes, oats, etc.—these things are digested in the small intestines, and if we eat too much, as most of us do, the organs that should digest this kind of food are overcome by excess of work, so that fermentation, indigestion and a long train of ailments result.

HENDRICKS TALKS CONCHO COUNTRY

Says Much Cotton Will Not Be Picked

George B. Hendricks of San Angelo, formerly manager of the Fort Worth Main street car line, now in the cattle business in the Concho country, was here Tuesday and said that he had rarely seen so much cotton in the conditions to be better in that part of Texas than at this time.

One thing Mr. Hendricks especially commented on was the wonderful growth of cotton in the Concho valley. He felt assured that more cotton had been grown in that part of Texas than would ever be gathered, but no one would seriously suggest that the cotton would be a great fertilizer and would help the already rich and productive soil.

The two figures in the composition typify the reclamation and reworked country in the blue and gray shaking hands under the flag of the union. It is expected that the casting of the statue will be completed in time for its erection next spring.

MRS. TALIAFERO IS DISINHERITED

Will of Sister Does Not Mention Her

In addition to having a charge of murder hanging over her head, Mrs. Aelo Taliafero, now confined in the county jail, has been disinherited by her sister, Mrs. Annet B. Cree, who died possessed of a small estate a few weeks ago.

The will of Mrs. Cree was filed for probate yesterday afternoon, and provides that after all her debts, if any there be, shall have been paid, her property shall go to the following parties:

To her nephew, Crech Chamber McKinney, the homestead at lot 37, McKinney street, and the residence at block 2, Evans' south addition, on Humboldt street, valued at \$1,500. To her sister, Cora Matthews and her husband, J. W. Matthews, the contents of her property as she owned same at the time of her death.

THE WEALTH OF TEXAS  
The taxable values of the state of Texas have passed the billion dollar mark, amounting in round numbers to \$1,221,159,869, which is an increase of 72.137,119 over the previous years. This is a most gratifying showing, for it indicates the state is making the most wonderful progress in all its history, but the fact remains that we are yet in the infancy of our development. The valuations of the various kinds of property in the state are as follows:  
Land, acres, 351,063,220; town and city lots, 327,562,673; horses and mules, \$49,348,990; cattle, \$2,390,363; sheep, \$3,224,554; jacks and Jennets, \$45,454; goats, \$996,497; hogs, \$2,322,847; dogs, \$330,374; vehicles, all kinds, \$11,371,553; goods and merchandise, \$67,056,219; material and manufactured articles, \$7,246,927; manufactured goods and implements, \$1,490,979; steam engines and boilers, \$6,907,544; money of banks and bankers, \$5,843,538; credit of banks and bankers, \$4,075,809; money of others than banks, etc., \$6,323,165; money on hand, deposit, etc., \$9,018,197; credit others than banks, \$16,242,633; value of bonds and stocks, \$25,722; value of shares of capital stock, \$725,350; value of other property corporations, \$315,849; miscellaneous property, \$30,496,206; national bank shares \$27,927,022; railroads, \$8,184,640; value of rolling stock, \$11,992,119; street railroads, \$2,440,621; telephone and telegraph lines, \$4,609,150; vessels, all kinds, \$1,272,648; franchises and intangible assets, \$31,499,877.

Property assessed by comptroller in unorganized counties:  
Land, \$3,226,458; railroads, \$200,250; rolling stock, \$12,223; telegraph and telephone lines, \$1,052.  
The acreage of land assessed showed an increase of 363,572 acres over last year's roll; horses and mules increased 41,965; cattle decreased 715,567; hogs 212,967; and jacks and Jennets 302; sheep increased 36,329; goats 100,213; dogs 688 and vehicles 9,430. National bank shares also showed an increase in number of 15,529, railroad mileage increase 225, street railroads 41 and telephone and telegraph lines 513. Vessels of all kinds were increased 44 in number. The acreage in unorganized counties assessed by the comptroller showed a decrease of 1,122,631 and railroad mileage similarly assessed increased 35.  
It will be noticed that there appears to be material prosperity in Texas for all interests except the cattle industry. During the past year there has been a decrease of three-quarters of a million in the number of cattle in the state, and this decrease speaks volumes to those who are familiar with the real conditions. The cattlemen of Texas have been up against a losing proposition for several years, and each succeeding year has but appeared to add to the difficulties of the situation. The development of the agricultural possibilities of Texas is rapidly striking down the range cattle industry, for the decrease in number clearly tells the story of the advance of agriculture. And the pity of it is that the majority of those cattle had to be sacrificed by their owners upon declining and demoralized markets. While all other interests have been prosperous in Texas the cattlemen would have been literally ruined but for the benefits that have come his way thru the enhancement of land values.  
Next year the decrease in the number of cattle in the state will be much more marked than at present. The colonization schemes that are on foot in the state are rapidly wiping out the big ranches, and every ranch that is colonized must first get its cattle out of the way. There are several millions of cattle in Texas that will be shoved on the market during the coming year if there is no abatement of the colonizing projects.  
Aside from the cattle interests, all Texas is prosperous. Even the lowly sheepman has gotten his head out of the brush and is again beginning to realize his importance. The number of sheep in the state show a substantial increase, which can always be accepted as a sure indication of prosperity. The probabilities are that the next year will show a considerable increase in the number of sheep, as there is a decided disposition among stockmen to turn in that direction, many of them finding from experience that sheep and cattle

can be successfully run on the same pasture. The wool produced in Texas this year had materially added to the general prosperity and brought prices that were quite satisfactory to the producers.  
The coming years are fraught with great prosperity for Texas. From the infancy of our development we can already see the coming shadows that promise to be within a few years place Texas at the very head of the procession. There is no estimating the pace at which this development will be accomplished, but the indications are that it will be very rapid. Our people are a live and progressive people, and we are getting the very cream of the citizenship of other states annually in increasing numbers. Efforts being made to discourage immigration to Texas from the older states are proving futile, for the glorious opportunities existing in Texas are quite generally understood and appreciated.  
REPRESENTATIVE LANE'S VIEWS  
The Austin Statesman recently sent out letters to all members of the state legislature asking for an expression as to the most important matters of legislation and questioning each member as to pet measures they contemplated introducing. Among the number of replies published we find the following from Representative Lane of this city:  
To the Editor of the Statesman:  
Regarding the most important measure that should occupy the time of the legislature in its 1907 session, have to say that, being a new member, I am not as conversant with the situation as those members who have had previous legislative experience, but with my limited knowledge, I regard revenue and taxation as the most important subject that should occupy the attention of the Thirtieth legislature.  
I am opposed to the saloon business on general principles, but if we are compelled to tolerate this evil, I am in favor of a law so stringent that it will prevent them from violating the law. Especially am I in favor of a law so stringent, that it will prevent their open, willful and flagrant violation of the Sunday law.  
I have no pet measure to foster in the Thirtieth legislature, but expect to vote on every measure presented for consideration as in my judgment will best serve the interest of the whole people of Texas.  
I shall favor a constitutional amendment providing for the establishment and maintenance of a home for indigent Confederate women. Respectfully,  
W. F. LANE, Representative Lane is right in the assumption that there is no more important matter that can come before the next session of the state legislature than that of revenue and taxation. The people of Texas are growing exceedingly weary of the depleted condition of the state treasury, and are sick of the sight of the state's promises to pay being hawked around among the money lenders at Austin by those who are in the state's employ. There is no reason on earth why the men who are working for the state should have to lose a portion of their monthly wages in order to obtain the cash. When we come down to a question of right and justice, if the business of the state has to be conducted on a credit basis the state and not the employe should sustain the loss. Every employe who has been compelled to shave his warrants should be reimbursed by the next legislature.  
But this is not all. The next legislature should exercise the proper care to see that these conditions do not again arise. There must be sufficient taxes levied to provide the state with the revenue necessary to carry on the affairs of government honestly and economically administered. We have had enough of experimental legislation along this line. The state and its employes cannot afford to wait for experimental taxation measures to run the gamut of all the courts in the land. What is wanted is immediate results, and when the treasury has resumed a plenteous condition there may be some experimental measures resorted to if deemed necessary.  
CHRISTMAS BUYING  
Let us remember right now that "peace and good will" may have a place in our Christmas buying as well as in the spirit of Christmas day itself.  
To many people the giving of gifts and the receiving of them is the larger part of the Christmas observance.  
But even they may find peace and express good will in the buying of their gifts—peace for themselves in purchasing and good will not alone to those for whom the gifts are bought, but to that great army of salesmen who are cruelly rushed by the hordes of late Christmas buyers.  
Christmas is only a month away.  
Most of the buying of Christmas presents can be done better three or four weeks in advance of the holiday than it can when the crush has begun.  
Those who do their purchasing now will find a better assortment from which to make their selections. The clerks will have more time to devote to each customer, which is important in helping one to find just what one wants.  
In the crush of business that comes just before the holidays the store managers are helpless to reduce the strain.  
All persons connected with the great retail establishments are worked to the point of exhaustion and beyond.  
Most people are like other animals.  
They flock together and all want to do the same thing at the same time.  
It is amazing how few people look ahead, even a week or two—even to so great an event as Christmas.  
Most of the Christmas buying is done in the last few days of wild rush, just as the people had learned only at the last minute that Christmas is coming.  
But there is a constantly growing number of wiser ones who get in ahead of the mob, makes their purchases leisurely and comfortably and get them delivered promptly and without vexation or damage.  
More such forethought as this would do much to make the approach of Christmas pleasant to everybody.  
PROPOSED NEW TAX LAWS  
Some members of the state legislature are already at work on the matter of framing new taxation measures, and the probabilities are that there will be a plethora of tax measures before the next legislature, some of which will embody some decided innovations. The Strawn Enterprise says:  
Representative-elect Tom Roberson of Erath county is preparing a bill which he will introduce in the next legislature which will be a very just law, should it pass, but it will no doubt be unpopular. It is a bill to require the holder of real estate notes to pay interest on such notes, and the person in whose name the ownership of the real estate is, and who owes part of the purchase price of the same to pay taxes only in proportion to what he owes of it.  
At present a man buys a farm worth \$2,000, and pays only \$200 on it, giving notes and a mortgage for the balance due. From the time the deed passes he has to pay the whole tax on the entire farm, though he really owns only a one-tenth interest in it, and the man who owns the nine-tenths interest in it goes free of taxes. If he should render the notes for taxation, which is rarely ever done, then there would be double taxation on the farm, for the farmer would be paying on the whole, and the note holder on nine-tenths of the same farm.  
So the really just way to make it is just as Mr.

Roberson proposes, and that is for the farmer to pay according to the interest he holds in the farm, and the note holder to pay on the notes he holds, and for which the farm stands as security to him.  
To enforce this law, Mr. Roberson proposes that the tax collector should stamp each note when the taxes are paid on it, and that notes not stamped shall not be connected by law.  
The bill is a just and proper law, and one which is already a law on the state books of some of the states, yet it is certain to develop a great deal of opposition, and Mr. Roberson may expect a rough time in trying to procure its passage.  
The Roberson proposition seems a fair and equitable one, but it will have hard sledding at Austin. The men who own the notes on large land sales usually are not disposed to subject those notes to the tax gatherer. They are generally of a class who seek to evade all taxes possible instead of coming up with their just proportion.  
Commissioner Cockrell of the interstate commerce commission is said to be in such condition physically as to insure the fact that he will never again exercise the duties of his position. And if a change should be necessary in the personnel of the commission it is quite probable that Judge Sam H. Cowan of this city will ultimately receive the appointment.  
Congress is being flooded with the usual number of new bills, and like those that are so far ahead of them, the majority of these will never again be heard from. Any member can introduce a bill, but it very often requires much diplomacy and ability to get a measure beyond the introductory point.  
It is to be hoped that James R. Garfield will make a better secretary of the interior than will be naturally expected of one who made such a signal failure in investigating the beef trust.  
Members of the state legislature are talking of what they intend to do at Austin in January, just as if they had no fear of the executive grindstone.  
At least sixty of the original Tom Campbell men will probably remain intensely loyal to their chief.  
It will be readily noticed that east Texas fared pretty well in the formation of the Campbell cabinet.  
The attorney general of Texas seems to have the "hyena" instinct quite artistically developed.  
On motion of the defense Judge Victor L. Brooks yesterday continued the ouster case brought by the state against the Waters-Pierce Oil Company until the March term of the Travis county district court. Attorney General Davidson and his assistants, representing the state, were ready for trial and so announced. Henry S. Priest and John D. Johnson of St. Louis, the personal attorneys of Henry Clay Pierce, fought for a continuance, and the court granted their appeal. One of the first acts of the Thirtieth legislature, after organization has been completed, should be the appointment of a joint committee of the senate and house for a searching investigation of the readmission of the Waters-Pierce Company. All the facts should be made public, all concerned should be heard and all the evidence spread upon the legislative records. It is up to the Thirtieth legislature.—Dallas Times-Herald.  
And the Thirtieth legislature should not hesitate to do its full duty. Let the investigation be full and sweeping in its every detail, regardless of whose fur may be singed in the operation.  
The farmer, if he only knew it, is a little nearer the kingdom of heaven than anyone else. He is the only man who can fence himself in and live in spite of the rest of mankind. A few cattle and sheep and fowl provide him with food and clothing, while his fields yield him bread and a source of revenue. So generous are these provisions and so common, that hardly one of the republican ticket, A. P. Spohn, county judge; J. Garcia, county and district clerk; M. Garcia, treasurer; A. Trevino, assessor; J. C. McDermott, sheriff and collector. These returns show that the voters are being "voted" just as voters in other places, sometimes by democratic bosses, were voted before we had the present election law. It is a further argument in favor of a rigid investigation of affairs political in this corner of the state by an able-bodied committee of the next legislature.—Dallas News.  
There are conditions prevailing down in the lower Rio Grande country of a political nature that are a disgrace to the state of Texas. And unless something is done to promptly relieve those conditions there is much trouble ahead for the few people in that section who appear to be of a law-abiding inclination.  
That the proper place for legislation to come in of control child labor is the state, and not the general government can be accepted without comment, but that the states as a rule are indifferent to the necessity of such legislation can also be accepted without question. This state has some good laws on the books, placed there thru the members from Bexar county, Chris Callan, when in that body. There is need of putting life into that enactment and making the provisions of that law effective.—San Antonio Light.  
And such action will no doubt be taken by the next legislature. It is a matter of too much importance to remain in a neglected condition.  
That "inevitable war" between the United States and Japan is slow getting under way. For our part, we do not believe it is going to get under way. The Japs are a pretty sensible people.—El Paso Times.  
There is not much danger of war between the United States and Japan, and newspapers that print such suggestions are hard run for something that is sensational.  
There was a romantic wedding in North Fort Worth yesterday. A young couple were married while sitting on the back of an elephant. No telling what a North Fort Worth girl won't do to get married. If that had been a Dallas girl the ceremony would likely have been performed in a lion's cage.—Vernon Hornet.  
Fort Worth girls find the marriage problem an easy one, from the fact they are practical and willing to follow anywhere where love leads the way.

# THE BANK SCRUBLADY OR, THE VOLUNTEER SLEUTHS

"The climax at the bank has come! I wouldn't trust the integrity of my own grandfather after this. Today I found the horrifying evidence of someone's most damning conduct—a ticket to a minstrel show on the floor of the bank. Proudly I took it right to the president so that he might ferret out the guilty party and save the bank from disaster. His face turned purple.  
"Woman," he said, "this is the limit. You are fired! Do you understand? Canned! Git! I myself dropped that ticket, and besides I'm weary of you snuffing around this bank and discovering a mare's nest every time you take a dose of cough syrup. You haven't got brains enough to be a scrub-woman in Gehenna!"  
"True service is never appreciated." (Finis.)

## THE TEXAS PRESS THAT REMINDS ME

THE REVIEWERS  
Jesse Lynch Williams, the noted playwright and author, commiserated the other day with a literary friend whose new book had been harshly criticized by the reviewers.  
"Buck up," said Mr. Williams. "You don't expect the reviewers to be infallible. Why, at luncheon yesterday one of them said to me:  
"I get thru, on an average, fifty books a week."  
"Good gracious!" said I. "How do you manage it? Why, it takes me at least a day to read one book!"  
"I don't read them, sir," he said. "I review them!"

WHY THE CAKE WAS A FAILURE  
Mrs. Tom L. Johnson, discussing the other day the school of household science that she is helping to found in Cleveland, said:  
"No Cleveland girl, after a course in our school, would ever make the mistake that a young bride made last Thanksgiving.  
"This young bride, after serving to her husband a Thanksgiving dinner that was so-so, said, as the dessert of mince pie was brought on:  
"I intended, dear, to have some sponge cake, too, but it has been a total failure!"  
"How was that?" the husband asked in a disappointed tone, for he was fond of sponge cake.  
"The druggist," she explained, "sent me the wrong kind of sponges!"  
♦ ♦ ♦ ♦ ♦  
TO MAKE IT SQUARE  
Edwin Markham, the famous author of "The Man With the Hoe," is a bitter opponent of child labor. Discussing the effort that he is making toward the reform of the child labor laws, Mr. Markham said recently:  
"I would abolish, too, the contemptibly unjust system of fines. What right has an employer to fine a hand an hour's pay for five minutes' lateness? What right has he, because the hand has damaged some goods 2 cents' worth, to fine him a dime?"  
Mr. Markham, after a moment's pause, smiled.  
"I wish to goodness," he said, "that every victim of the despicable fine system had the same story to tell as an actor I heard of yesterday.  
"This actor worked under a manager who was a great finer. For a bad makeup, for lateness, for noise in the wings for a hundred things, the players were blicked from a quarter to \$2. The worst of all the fines was one of 10 cents for failure to return 'properties,' for this was a duty that every one continually forgot.  
"In a financial dragma one night the supply of stage money ran out, and the manager loaned an actor \$3 or \$5 in real bills to use in the next scene.  
"The manager said sternly to the actor the following Saturday:  
"By the way, Booth, you haven't returned that \$3 I gave you in act three Monday night."  
"Never mind," said the actor. 'Just fine me a dime.'"

## VERGES THAT RING

JUST ONCE IN A WHILE  
Just once in a while if we'd think to convey To those who walk with us life's devious way, In glances or words, half the joys that abide In our hearts because loved ones are close by our side, If we'd think but to garb our words' tenderest dress A phrase that were sweet as a mother's caress, Care's road would be shortened by many a mile; If we'd think to be thankful just once in a while.  
Just once in a while if we'd lay down our load Of worry and work by the side of the road, And a bit of the love that we're feeling expend On sister or brother, on parent or friend, In words that would tell them their nearness makes light  
The path which alone we would grope thru the night, How oft we'd be blessed with an answering smile, If we'd think to be thoughtful just once in a while.  
Just once in a while if a hand were but pressed, A shoulder but patted, a word but addressed, That would thankfulness speak to the ones by our side, Would not joy spur the feet to a magical stride, As they wended their way down life's main-traveled road?  
Would not griefs slip away and thus lighten the load? For ourselves and for others we'd shorten each mile, If we'd think to be thankful just once in a while."

OUR NEXT GOVERNOR  
Governor-elect Campbell has sold his stock in the Palestine bank. He is probably raising the cash to buy himself a suit of store clothes for the inauguration. Being governor comes high, but plenty of people are glad to pay the price.—San Antonio Express.  
Colonel Campbell is said to have sold his bank stock for \$40,000, and that sum ought to be sufficient to provide him with several cheap suits of clothing.—Fort Worth Telegram.  
Tom Campbell belongs to the plain people—the man who does not believe pomp, parade and show constitutes the true man. Campbell began life as a poor boy, fought the battles of life, saying "yes" and "no" as the occasion demanded, at all times protecting his honor and integrity. He is the same just, true man with money and honor as he was twenty years ago when he had nothing but an honorable name, a laudable ambition and unimpeachable character. Those who know Tom Campbell best love him most for his true character and honest rugged integrity.—Georgetown Commercial.  
SUGAR TRUST ATTORNEY VOTED FOR HUGHES  
Theodore Roosevelt is today as good a democrat as Alton B. Parker, from the fact he makes no pretensions. He is a republican thoroly imbued with democratic principles, while Parker claims to be a democrat, is a big trust attorney, supports republican candidates for office and must necessarily have a warm admiration for republican principles.—Fort Worth Telegram.  
Can The Telegram point to any word of speech of Judge Parker which would in the least particular indicate that he is not a democrat? Also, can it name any trust for which Judge Parker is or has at any time been attorney? And can it verify its statement that Judge Parker voted for a republican?—Houston Post.  
KICKING AT FORT WORTH BOOZE  
Those Cleburne people who are investing their savings in Fort Worth real estate are acting wisely and with good business judgment. Fort Worth is the fastest growing city in Texas and all Fort Worth property is a good investment at prevailing prices.—Fort Worth Telegram.  
We have no objection to Cleburnites investing money in Fort Worth real estate, but we hate the "divil" to lose so much money on Fort Worth booze. This is an honest admission, but we make no assertion here that we cannot prove.—Cleburne Review.

**AMUSEMENTS**  
**"The Lily and the Prince"**  
There was a good show at Green-  
wall's Tuesday evening, when Mildred  
Holland and her company presented  
"The Lily and the Prince." The com-  
pany as a whole is a good one, and  
the scenery and appointments are ex-  
cellent. Miss Holland, who is quite a  
favorite in the north, said in her lit-  
tle curtain speech that her ambition  
is to win a place in southern hearts, and  
she certainly will do so if she continues  
her good work. Not only is she good  
looking, but she is a graceful actress  
with a pleasing voice.  
The small audience which saw the  
first performance in Fort Worth of this  
company was agreeably surprised, and  
as the same company is here for two  
more performances, it is probable that  
many more will attend Wednesday's  
matinee and night, when the bill is "A  
Paradise of Lies."  
Although the audience was small, it  
was enthusiastic, and Miss Holland  
must not be discouraged by its size.  
**"The Little Duches"**  
One of the most beautiful women on  
the American stage comes to Green-  
wall's opera house Thursday and Fri-  
day nights, matinee Friday, Dec. 6  
and 7, in a magnificent production of  
the musical comedy hit, "The Little  
Duches." This is Countess Olga von  
Hatzfeldt, the popular and clever lit-  
tle star, who appears in the title role.  
She is surrounded by a big company  
of fifty comedians, singers and stage  
beauties and the presentation is beau-  
tifully splendid production of ar-  
tistic scenery and gorgeous costu-  
mes.  
**George Primrose's Minstrels**  
Minstrelsy of the genuine, joyful  
sort brought up to date as to elab-  
orateness of production and artistic  
arrangement, will be the attraction at  
Greenwall's opera house Saturday  
matinee and night, Dec. 8. It will  
signify the engagement of George Prim-  
rose and his big, black-face minstrel  
company in a program that contains  
everything pertaining to negro life on  
a southern plantation.  
The fun will be supplied chiefly by  
George Primrose, the Gorman Bros.,  
Amille Subers, Eddie Haran and James  
Conner.  
The second part will be found a  
long list of clever soft and wooden  
shoe dancers, who led by Mr. Prim-

**CATARH R BLOOD AND SYSTEM DISORDERED**  
Catarrh is not merely an inflammation of the tissues of the head and  
throat, as the symptoms of ringing noises in the ears, mucous dropping back  
into the throat, continual hawking and spitting, etc., would seem to indi-  
cate; it is a blood disease in which the entire circulation and the greater  
part of the system are involved. Catarrh is due to the presence of an excess  
of uric acid in the blood. The Liver, Kidneys and Bowels frequently be-  
come torpid and dull in their action and instead of carrying off the refuse  
and waste of the body, leave it to sour and form uric acid in the system.  
This is taken up by the blood and through its circulation distributed to all  
parts of the system. These impurities in the blood irritate and inflame  
the different membranes and tissues of the body, and the contracting  
of a cold will start the secretions and other disgusting and disagreeable  
symptoms of Catarrh. As the blood goes to all parts of the body the cat-  
arrh poison affects all parts of the system. The head has a tight, full  
feeling, nose continually stopped up, pains above the eyes, slight fever  
comes and goes, the stomach is upset and the entire system disordered and  
affected by this disease. It is a waste of  
time to try to cure Catarrh with sprays,  
washes, inhalations, etc. Such treatment  
does not reach the blood, and can, therefore,  
do nothing more than temporarily relieve  
the discomfort of the trouble. To cure  
Catarrh permanently the blood must be  
thoroughly purified and the system cleansed  
of all poisons, and at the same time  
strengthened and built up. Nothing equals  
S. S. S. for this purpose. It attacks the  
disease at its head, goes down to the very  
bottom of the trouble and makes a complete  
and lasting cure. S. S. S. removes every  
particle of the catarrh poison from the  
blood, making this vital stream pure, fresh  
and healthy. Then the inflamed mem-  
branes begin to heal, the head is loosened  
and cleared, the hawking and spitting cease,  
and the constitution is built up and vigorous health  
restored. S. S. S. also tones up the stomach and digestion and acts as a  
fine tonic to the entire system. If you are suffering with Catarrh begin the  
use of S. S. S. and write us a statement of your case and our physicians will  
send you literature about Catarrh, and give you special medical advice  
without charge. S. S. S. is for sale at all first class drug stores.

**CITY PRIMARY IS FRIENDLY CONTEST**  
Candidates Form Mutual Ad-  
miration Society  
The city primaries for the nomi-  
nation of candidates for city marshal and  
city collector, promise to be an in-  
teresting friendly contest, in which the  
friends of the different candidates are  
going to do some good work for their  
favorites. The campaign up to this  
time has been remarkable, in that it  
has been devoid of even a semblance  
of bitterness. It is said by those who  
ought to know to be the cleanest po-  
litical campaign ever conducted in  
Fort Worth.  
The absence of the usual mud sling-  
ing to be found in most races for of-  
fice is due to the character of the  
men who are candidates; and it ap-  
pears that each candidate for either  
office is trying to outdo the other  
in saying nice things about the  
other. Taking the evidence furnished  
by what one candidate says about the  
other for either office, there can be  
no mistake made by the people in  
making a selection.  
Chief of Police Maddox says if he  
is defeated it will be by a good man,  
and Ed Parsley says that will be the  
case if he is defeated.  
Lem Day, candidate for city collector,  
said to a Telegram reporter:  
"I haven't a word to say against my  
opponent, Mr. Gilvie. He is a square,  
competent man, but as he has held the  
office two terms I think he ought to  
give somebody else a chance. It is if  
the other man is competent."  
The above is a sample of the talk  
to be heard on the streets, where the  
city election is discussed, and in the  
discussions good feeling for every candi-  
date prevails.  
**Cards With Mrs. Brann**  
Mr. and Mrs. H. Brann entertained  
with a musical whist, in honor of W.  
Brann, their son, who has recently re-  
turned to Fort Worth, after an ab-  
sence in Chicago for several years. Be-  
fore cards were begun Mr. and Mrs.  
Brann gave a shorter one to the  
company. William Brann played the  
beautiful "Cavatina," by Raff, and  
Mrs. Brann sang "Thou Art Like Unto  
a Flower."  
Miss Hazel Brann then distributed to  
the men horns of extra length, and  
Erich Brann gave a shorter one to the  
ladies. These horns sounded the  
change of tables, the number of the ta-  
ble being honored by a four part fan-  
fare.  
Miss Flora Weltman had to cut with  
Miss Esther Neumann and Miss Tes-  
sie Mayer for one of the shorter ones.  
Joe Wolfe won a card box.  
A Japanese doll, with the legend, "If you  
can't play cards, play dolls," pinned  
upon it was given to Miss Blanche  
Friedman.  
Bonbons were passed during the  
evening at 8 o'clock and whist, cream  
and cakes were served for re-  
freshments.  
The guests were Misses Weltman,  
Ephraim Hempstead, Mayer of San  
Antonio, Sanger of Waco, Esther and  
Rose Neumann, Levy, Sturman, Pres-  
biter, Bowen, Peart and Ida Brown, Si-  
mon of Tyler, Dr. Jasin; Messrs.  
Brann, Ben and Al Levy, Alexander,  
Neumann, Ben and Mrs. Wolf, Mr.  
and Mrs. Wertheimer, Mr. and Mrs.  
Simon, Mr. and Mrs. Goldgraber, and  
Mr. and Mrs. Brown.  
Mrs. Martha C. Nored has issued in-  
vitations for the marriage of her  
daughter, Lucy, to L. Runnels, Tuesday  
evening, Dec. 11, 1906, at 7 o'clock, Mis-  
souri Avenue Methodist church, Fort  
Worth, Texas.  
The Harmony Club met Wednesday  
afternoon at 8 o'clock with Mrs. J. F.  
Lyon, 1513 Hemphill street.  
The cemetery committee of the City  
Feeling that it is important to im-  
prove in the mayor's office Thurs-  
day afternoon at 3 o'clock.  
**The Penelope Club**  
The Penelope Club met Tuesday for  
a strictly business session. A commit-  
tee was appointed to investigate the  
possibility of having Judge Ben Lind-  
say of Denver, Col., to deliver an ad-  
dress on the juvenile court proposition.  
**Social Personals**  
Mrs. A. M. Johnson left Monday for  
a visit in Dallas.  
Miss Charlie Mae Scot is home after  
a visit in Abilene.  
Miss Frances Shiel was here from  
Dallas Saturday.  
Walter Stewart of Jacksboro spent  
Sunday in Fort Worth.  
Jax Axtell left Monday for Bridge-  
port and Graham, Texas.  
Miss Roberta Maddox left Saturday  
for a visit in Rockport, Texas.  
Mrs. C. E. Spilling of Chickasha, I.  
T., arrived here Tuesday to attend the  
Slaughter-Lott wedding.  
Miss Venita Fitz who has been  
spending a few days in the city, re-  
turned to San Antonio, where she at-  
tends school.  
Mr. and Mrs. Charles D. Reimers re-  
turned last night from their eastern  
trip, and are now located at their new  
home, 1255 Peter Smith street.  
Miss Della Day of Ballinger, Texas,  
arrived here Sunday to be the guest  
of Miss Grace Maxwell for several  
weeks.  
The social event of the week will be  
the marriage of Miss Maybelle  
Slaughter to Francis Edward Lott of  
Kansas City. After the ceremony there  
will be a reception at the Worth for  
about 250 guests.  
It rarely falls to cure rheumatism be-  
cause it supplies the blood with the  
necessary substance to absorb the  
poison of rheumatic-uric acid. That  
is what Hollister's Mountain  
Tea will do. Tea or Tablets, 35 cents.  
J. P. Braashear.

**Reasons Why you should use Cottolene**  
1-**Purity**—The source of COTTOLENE is in striking contrast to the source of lard. Lard is made from hog-fat and COTTOLENE from pure, refined cotton seed oil. Lard contains animal fat and possible impurities; COTTOLENE is essentially a vegetable product; and is pure, wholesome and healthful.  
2-**Palatableness**—COTTOLENE makes more palatable food than lard. It makes food rich, crisp and flaky and at the same time free from that "greasy" taste of lard-soaked food.  
3-**Digestibility**—Hog lard food is greasy and indigestible; COTTOLENE food is easily digested and will agree with the most delicate stomach, as COTTOLENE contains not an ounce of hog-fat.  
4-**Cleanliness**—Lard comes in bulk and insecurely sealed tins, which permit its coming in contact with dirt, dust and contaminating odors. COTTOLENE is sold only in pails with a patent air-tight top which protects it from the air, dirt and odor and insures it reaching the consumer fresh and wholesome.  
5-**Economy**—COTTOLENE being purer than lard or other shortenings, one-third less is required.

# "I WAS AN INVALID." "Doctors Said That I Would Die, Cooper's New Discovery Cured Me."

## YOU WHO SUFFER READ THIS LETTER

The Cooper Medicine Company:

Gentlemen—I write to tell you the wonderful results that I have obtained from the use of the Cooper Medicine. For five years I was an invalid suffering from a severe affection of the bowels. I was operated upon by skilled physicians five times in three years without any success, and was given up to die. My weight dropped from 164 pounds to 100. I had heard so much of Cooper's New Discovery and Quick Relief, but must admit I had but little faith in them. I decided, however, to give them a trial. The result was that in two weeks I was able to be out walking around. I continued the treatment until I was entirely well and now weigh 169 pounds. I cannot thank Mr. Cooper enough for his wonderful medicines.

Signed: ZELMA MURPHY,  
1719 Market St., St. Louis, Mo.

### Stop Suffering and Get Well

A few bottles of these Marvelous Discoveries will strengthen your stomach so that it can properly digest your food. Undigested food ferments and causes gas on the stomach, which poisons the entire system. Cooper's New Discovery makes rich, pure blood. It nourishes and heals every organ of the body.

**START TODAY AND BE WELL A DAY SOONER**

Cooper's New Discovery sells for one dollar per bottle, six for five dollars. Cooper's Quick Relief costs fifty cents. You can get them of

#### PRIZE FIGHTER IS SAID TO BE INSANE

Terrence McGovern Is Sent to Brooklyn Hospital

Special to The Telegram.

NEW YORK, Dec. 5.—Terrence McGovern, the prize fighter, who was matched to fight "Young Corbett" in Baltimore late in January, was taken to an observation ward in the Kings county hospital at Brooklyn today for examination as to his sanity. Accompanied by his wife and step-father, Joseph Kenney, McGovern arrived from Washington today and went to his home in Brooklyn.

According to the police, he acted in such a peculiar manner at his home that Mrs. McGovern was frightened. He then left the house and probed with a stick into ash barrels along the curb. When the wagon came to remove the ashes McGovern is said to have pursued the driver with a stick, but said he was doing it playfully. A policeman stopped him and brought him to the police station, where McGovern was examined by Dr. Howell of Seney hospital, who said the fighter appeared to be insane. McGovern went to the hospital without protest.

Road Planned to Run Thru to Fort Worth

Special to The Telegram.

SOUTH MALESTER, I. T., Dec. 5.—At 9 o'clock yesterday afternoon the citizens of this city closed the business places and held a great mass meeting in the opera house, where they subscribed \$125,000 for the Indian Central railroad proposition, thereby guaranteeing the building of that road, which will run from Kay county, O. T., down to Paris, Texas, and ultimately to Fort Worth, where it will handle the big packing shipments.

The route of the Indian Central will be the shortest route to the gulf by four hundred miles, with Kansas City as its northern terminus. This city is to get the benefit of the road, and is also to be made a division point in exchange for the bonus and not one of the money is to be paid until the cars are running in either from Claremore or Paris, Texas.

#### RECENT DEATHS OF OLD PEOPLE

Youngest Was Over Seventy Years Old

Three residents of Tarrant county have passed away recently, who had more than lived out allotted life of man—three score and ten years—the youngest of the three being 72 years old. Two of the three were women.

Mrs. Fannie Johnson was the youngest and resided near Grapevine, who, the physician's certificate stated, died of old age or inanition and old age.

Mrs. Della Johnson, aged 80 years, also of the Grapevine neighborhood, died recently, the physician's certificate stating the cause of death was simply old age. Mrs. Della Johnson's death, it is said, was as if she had merely gone to sleep and her old kind face showed no sign of pain—a peaceful passing from one world to another.

The third death was that of Ralph Sanford, also an octogenarian, who died on his old homestead near Mansfield, a town named for him, and another old settler. He had come to Tarrant county from South Carolina over half a century ago, and enjoyed robust health all that time with the exception of having a cancer that caused his death. Had it not been for the cancer his life would in all probability have been prolonged to 100 years.

Quicksall Wants the Corn Growers to Organize

Special to The Telegram.

WACO, Texas, Dec. 5.—The organization of local corn growers into a compact form is the hope of J. W. Quicksall, government agent in agricultural matters here. Mr. Quicksall says that when the Texas Corn Growers Association meets here in January he hopes to see interest aroused to such an extent that the local corn growers can be induced to form a working organization. He fears that the success which has attended the raising of cotton in Texas this year and the high prices paid, owing to poor crops in other states, will induce the planting of a great acreage of cotton next year, which will be hurtful all around.

He thinks this would be a great mistake and believes the corn crop should not be lighted, as it is really the foundation of the whole agricultural structure.
