Report of State Revenue Officer Made Public

HOLD OUT FEES

Sheriffs, Too, Have Their Little Graft and Taxpayers Foot the Bills

Special to The Telegram.

AUSTIN, Texas, Dec. 11.—The biennial report of State Revenue Agent F. S. Bell was made public yesterday. Revenue Agent Bell goes after certain county officials and claims that a species of graft has been practiced to no little extent. He says: "During my investigations I discovered defalcations, 'hold-outs,' and culpable irregularities and neglects. I found in a few instances where the prosecuting attorneys became convinced that felony convictions could not be sustained, and instead of continuing the prosecutions, under the felony indictment, for misdemeanors they unconstitutionally dismissed the cases and the same were instituted in the county courts, possibly on the complaints of some friends of the defendants; the records showing judgments for misdemeanors fines; thereby causing the state to lose what she had previously paid in fees to the different officials.

"This occurred after I had commenced my efforts to have such officials remit to the state fees paid them in felony cases which were reduced to misdemeanors.

"Again: During my official investigations I found where reports were made by certain county and district officials showing that certain felony cases had been dismissed, and which reports on their faces entitled said officials to their fees and prevented even a suspicion on the part of the comptroller as to any deception, when the minutes of the district courts evidenced that under such indictments the defendants were convicted of or had plead guilty to misdemeanors, thereby entitling the state to have refunded the fees previously paid in these cases.

"Again: My investigations of such records, when sometimes working with the finance committees, demonstrated, not only clerical errors, but also willful frauds; for example, a defendant charged with a misdemeanor, unable to give bond put up about one hundred dollars in lieu thereof, and on his failure to appear at the proper time a judgment 'nisi' was entered and at the next term of the court, the defendant still being absent, this sum was divided among the officers, in proportion to what amount each one's cost would have been. I, on examination, found numbers of persons pursuing taxable occupations in different counties, notably saloons, doggeries, alias beer saloons and joints, who paid no taxes to the state but had federal liquor licenses, and on being properly notified, in many instances, some of the collectors 'would get busy' and report collections from such persons, which brought into the treasury no little revenue. I, on examination, found where different sheriffs would charge large fees for arresting prisoners and summoning witnesses, alleging that the prisoners were arrested at and many witnesses were brought from a great distance, where on examination the facts appeared that these prisoners were arrested and these witnesses served under the shadows of the court house.

"Continuing Revenue Agent Bell advocates that no licenses should be issued to beer dives, but that all businesses should be placed with the saloons, and that the saloons should be the bearers of many of the ills that curse the community," says the revenue agent.

The report shows that there has been a decrease in the number of lawyers who pay an occupation tax. In 1905 there were 2,734 lawyers who paid a total occupation tax of \$13,670, and this number has decreased to 2,031 in 1906, and the tax paid has correspondingly decreased to \$10,155. "There is really no falling off in the number of lawyers," says Revenue Agent Bell, "but only in the number paying occupation taxes, and this fault is with the tax collectors."

The report shows that there has been a falling off in the amount of taxes paid by merchants in the different classes. In 1905 the total amount paid by these merchants was \$183,963, while in 1906 this sum is reduced to \$171,724.

SHAH DEAD?—YES, NO

Persian Merchant Says True News Is Being Withheld

NEW YORK, Dec. 11.—H. H. Topakyan, a Persian merchant here who at one time was a special commissioner of Persia to this country, announced early today at the Fifth Avenue hotel that he had received reliable information that the shah had been dead three days and that the official announcement would be made public by the Persian government this afternoon thru diplomatic channels.

Mr. Topakyan said there had been reasons for withholding the fact of the shah's death from the Persian people.

WOMAN'S BODY NEST FOR LIVE CHAMELEONS

CHICAGO, Ill., Dec. 11.—A dispatch to the Inter Ocean from Omaha, Neb., says:

As the result of swallowing a live chameleon as an advertisement, Louise Douglas, formerly a well-known comic opera actress, died here yesterday. An hour before her death two chameleons crawled from the woman's mouth and physicians say her body is all, with the little reptiles.

NO CHANGE IN THE BICYCLE RACES

Walthour Is One Lap Behind Others

By Associated Press.

NEW YORK, Dec. 11.—There was no change during the night in the number of teams contesting or their positions in the bicycle race now in progress in Madison Square Garden. Now and again the thousand or so of spectators who remained in the place all night were enlivened by an occasional spurt on the part of the riders, but on the whole the night was uneventful.

A few spills occurred, but none of the riders were seriously hurt, sufficiently to put them out.

Walthour caused some excitement in the early hours especially when he made one desperate attempt to retrieve the lap which he lost when he was compelled to change partners after the accident to Hugh McLean, his original mate.

Try as he would, however, the other riders hung to him and he was compelled for the time to desist. He is confident, however, that he will accomplish this purpose eventually.

BICYCLISTS SPEEDY

Records Promise to Be Broken at Madison Square Garden

By Associated Press.

NEW YORK, Dec. 11.—One of the largest crowds that ever attended a bicycle race filled Madison Square Garden last night, and thousands remained during the early hours today, to watch and cheer the riders. Bobby Walthour, near midnight, made a desperate attempt to gain the lap he had lost because of a change of partners. His sport failed, however, as the other riders were able to follow his terrific pace. Experts say this year's contestants compose the fastest and most evenly matched fields ever brought together in a bicycle race.

At 4 a. m. today all teams had traveled 562 miles and five laps, except Walthour and Bedell, who had lap less to their credit. The record for twenty-eight hours is 586 miles and four laps, made by Elkes and MacFarland in 1900.

BURIED MINERS ALIVE

PHILBIN RESENTS USE OF HIS NAME

Declares Statements Quoted From Mrs. Storer False

Special to The Telegram.

NEW YORK, Dec. 11.—Eugene A. Philbin, former district attorney of New York, was named in one of the letters sent by Mrs. Bellamy Storer to President Roosevelt as having been an emissary to Rome with a request from the President to the pope that Archbishop Farley of this city be raised to the cardinalate. Mr. Philbin was quoted Monday as saying:

"I will not discuss the matter further than to say that the statement is a falsehood. I was never trusted with such an errand, and, indeed, was not in Rome at the time referred to."

The letter in which Mr. Philbin's name occurs is one of Nov. 30, 1905, and is from Mrs. Storer. It is dated from the American embassy at Vienna and is addressed "Dear Theodore."

Archbishop Silent

Special to The Telegram.

NEW YORK, Dec. 11.—Archbishop Ireland, who was a central figure in the correspondence of President Roosevelt and Bellamy Storer, just made public, is in the city at the Murray Hill hotel. When visited by reporters, the archbishop stated that everybody should understand the delicacy of his position and the impropriety of doing any talking in regard to the subject.

The visit of his grace to the city at this time is to attend the annual meeting of the National Civic Federation.

ELECT CITY OFFICERS

National Party Lines Are Generally Observed

By Associated Press.

BOSTON, Dec. 11.—The voters of nineteen Massachusetts cities today elected city officials for the new year and decided the license questions. National political party lines were observed more generally than in the thirteen city elections held last Tuesday, and while in some places little enthusiasm has been shown, other cities, notably Worcester, witnessed vigorous campaigning. The license question is the paramount issue in most municipalities.

BANDIT RAISULI SMOKING AGAIN

Dream of Marching on Tangier and Massacring Christians

By Associated Press.

NEW YORK, Dec. 11.—A times special cable dispatch from Tangier says Raisuli has informed the Moorish officials that after conferring with the mountain tribes, he was prepared to march upon Tangier at the head of 15,000 armed Moors and drive into the sea and massacre every Christian in that place.

OBJECTS TO BONAPARTE

Senator Culberson Calls Attention to Speech

FAVORED TRUSTS

Address in Chicago Would Indicate Lack of Sympathy With Administration

Special to The Telegram.

WASHINGTON, Dec. 11.—Opposition to Charles J. Bonaparte as attorney general prevented the confirmation of William H. Moody as associate justice of the supreme court of the United States when his nomination was called up Monday in executive session of the senate.

The opposition to Mr. Bonaparte was based on the speech made by him in Chicago in September, 1899, before the conference held there to consider the trust question. In that speech Mr. Bonaparte declared that legislative action in regulation or restraint of combinations was undesirable.

When the Moody nomination was reported by the committee Senator Culberson called attention to the fact that the position he is to vacate will be filled by Mr. Bonaparte and he then read extracts from the Chicago speech in support of an argument that Mr. Bonaparte is not qualified to take the responsibility of enforcing anti-trust laws.

Senator Knox, formerly attorney general, said that he had talked with Mr. Bonaparte and had found him thoroughly in sympathy with the administration in breaking up combinations of capital which operate in restraint of trade. He also remarked that possibly there were few men in the senate chamber whose minds had not undergone some decided changes on many great questions since 1899, when conditions were far different from what they are today.

Senator Rayner started to reply to this speech, when Vice President Fairbanks observed that the speaker before the senate was the confirmation of Mr. Moody and not Mr. Bonaparte. This had the effect of curtailing the speechmaking.

But Senator Teller said that it was customary for all nominations to go over one day after being reported from committees and he therefore objected to further consideration.

Nominations Confirmed

A large number of nominations were confirmed. Among them were: Major General Arthur MacArthur, to be lieutenant general; Brigadier General J. M. Schofield, to be major general; Captain John A. Peshing, to be brigadier general; Colonel E. A. Garlington, to be inspector general, with the rank of brigadier general; Colonel C. C. Sniffen, to be paymaster general, with the rank of brigadier general; Colonel Arthur H. Murray, to be chief of artillery, with the rank of brigadier general; General R. M. O'Reilly, to be surgeon general, with the rank of brigadier general.

Texas Property Values

The value of all property in Texas in 1904 was \$2,833,222,000. Four years ago it was \$2,222,151,631, showing an increase in four years of about \$600,000,000.

This and other very interesting data are given in a report made public by the department of commerce and labor Monday on the estimated true value of property for the two years named.

It also gives an estimate of population for the two years named. In 1900 it was 3,048,794, according to the census, and in 1904, 3,373,932, according to the estimate.

Of the aggregate property wealth in 1904, \$1,744,794 in real property and improvements, exclusive of railroads. The livestock figures were placed at \$286,691,860, farm implements and machinery \$37,376,975, manufacturing machinery \$42,462,409, gold and silver coin and bullion \$63,820,940. The value of railroad property was placed at \$227,718,000, and of street railway property at \$69,035,770, all other kinds of property, which includes the products of agriculture and manufactures and mining, \$439,843,656.

PREACHER SHOT BY HIS DAUGHTER

He Had Quarreled With His Wife

By Associated Press.

PHILADELPHIA, Dec. 11.—Miss Mary McAntee last night shot and probably fatally wounded her father, Rev. John Quincy McAntee, at their home here.

The shooting, according to the police officials, followed a quarrel between Rev. Mr. McAntee and his wife, in which the minister, it is asserted, was trying to throw Mrs. McAntee down the cellar stairs. Mrs. McAntee and daughter told the police that the husband and father had been drinking lately and had been quarrelsome.

The McAntee family is widely known. Rev. Mr. McAntee is a member of the Lutheran synod. He was formerly the pastor of the Lutheran Church of Holy Communion in this city, but is now on the retired list.

Report Not Confirmed

LONDON, Dec. 11.—No news has been received here today tending to confirm the report circulated in the United States that the shah of Persia is dead.

Animal Unhorsed King, But He Was Not Hurt

By Associated Press.

LONDON, Dec. 11.—In the course of a wild boar hunt yesterday, a very large and powerful boar charged King Carlos. His majesty was thrown, but was not hurt. His horse, however, was killed by the animal.

The boar then charged other members of the hunting party and inflicted wounds upon Marquis d'Orreaga, Count Molina and several others.

OH TUSH, LISTEN TO MRS. STORER'S STORY

By Associated Press.

CHICAGO, Ill., Dec. 11.—A dispatch to the Record-Herald from Cincinnati, Ohio, says:

"My husband and I created President Roosevelt," says Mrs. Bellamy Storer last night to a reporter of the Commercial Tribune.

"President Roosevelt owes much today to Mr. Storer and myself," she continued. "It was thru my influence that Mr. Roosevelt was made assistant secretary of the navy and it came about in this way: Mr. Storer and I went to Canton to pay the President and Mrs. McKinley a visit. I told the President that I was not sure to ask for anything for my boys, but that it would be a great personal favor if he would make Mr. Roosevelt assistant secretary of the navy. He at once opposed it by saying that Mr. Roosevelt was a great man of a fighter, but eventually granted my request."

SERVICES ARE NOW ILLEGAL

Public Catholic Worship Is No Longer Allowed

TUESDAY'S MASS

Many Bishops Have Removed Private Property From the Residences

By Associated Press.

PARIS, Dec. 11.—This is a historic day for France. The struggle which began in 1880 with the banishment of the Jesuits ended today with the legal rupture of the bond which for practically a thousand uninterrupted years had united the church and the state. By refusing to make the required declarations under the public meeting law of 1881, public Catholic worship, except by schismatic organization tomorrow, becomes illegal. Scenes in some of the churches were extremely touching. Not in years had there been such attendance at mass. The number of women was especially large and was noteworthy as indicating the religious indifference of the male population.

Altho seven-eighths of the inhabitants of this city are nominally Catholics, in no part of the city were the churches crowded. Even at Notre Dame Cathedral, where the solemn high mass was celebrated, the edifice was only half filled. The officiating clergy read the regular offices for the week as usual without referring to their illegal status tomorrow. Nevertheless the depression of the Catholics was manifest, many women emerged from the cathedral with their eyes streaming with tears and lingered on the pavement to discuss what to do when the clergy are turned out of their churches.

But on the eve of the struggle it is becoming more apparent that both the government officials and higher ecclesiastics are resuming the advice of the intemperate Minister of Public Worship Briand announces that "the government cannot be driven into the trap of closing the churches" and Cardinal Richier, archbishop of Paris, has strongly censured the placating of appeals to the clerics to make violent resistance to officials.

Cabinet Met Today

After a meeting of the cabinet ministers today it was announced that on Dec. 14 Premier Clemenceau will ask parliament to suppress the pensions of the clergy to liquidate the public property of Catholics and to disband presbyteries, seminaries, etc. It is also positively stated that the government has decided to expel from France M. Montagn, secretary of the papal nunciature at Paris, who has represented the Vatican here since the recall of the papal nuncio.

Cardinal Richier and many of the bishops have already begun the removal of their private effects from the Episcopal mansions and the clergy are preparing to leave their rectories and move in hired lodgings. It is announced that Paris priests have received very many offers of places in which to hold religious services, but there is not the slightest indication that they intend taking advantage of the sole remaining chance to retain their churches, namely by making the declarations called for by law. The government continues to be apologetic everywhere to assume charge of the sequestered property and three policemen will be stationed tomorrow at the doors of each of the churches to report violations of the law, but as such violations can only be tried in the police courts and as the penalties are only fifteen francs and fifteen days imprisonment with the right of appeal sterner measures may be necessary.

BIG FAIR FOR 1913

Company Formed in San Francisco for the Purpose

By Associated Press.

SAN FRANCISCO, Dec. 11.—Fifteen citizens have formed an incorporation to be known as the Pacific Ocean Exposition Company, which plans to give a mammoth fair in 1913 to commemorate the 40th anniversary of the discovery of the Pacific Ocean by Balboa and the completion of the Panama canal. The joining of the two ideas was the prominent feature of the fair.

The fair is to be held at the isthmus that the navigator first looked on the Pacific.

WICHITA FALLS

OPINION DIVIDED

Meetings for and Against Senator Bailey Held

Special to The Telegram.

WICHITA FALLS, Texas, Dec. 11.—A meeting was called here Monday to take action in the matter of the recent disclosures concerning Senator J. W. Bailey. The call was issued by W. C. Sherrod of the county democratic executive committee and 100 others. A large crowd met at the court house and was called to order by L. H. Mathis, who nominated W. G. Sherrod, list chairman, while R. E. Huff nominated W. J. Bullock. A test of strength came in the first vote, as Sheriff was the nominee of the anti-Bailey men and Bullock of the Bailey adherents. Bullock was elected by a vote of 90 to 74. A resolution was introduced opposing Senator Bailey by Mr. Mathis and a substitute was offered by Mr. Huff endorsing him. Attempts to discuss the resolutions were drowned in the confusion.

The chairman put the vote on the substitute and declared it carried. The anti-Bailey men called for a division, but no division was taken and the meeting broke up.

The substitute which is declared was adopted, was as follows:

Whereas, Hon. J. W. Bailey has faithfully served the people of Texas for six years as senator and no speech or vote of his has ever been questioned as being against the interest of the people; and

Whereas, All charges affecting his character antedate his election as senator and are based to a great extent on records kept by a private individual who stole these records from his employers;

Therefore, We express our confidence in the substitute and declare that the people have already spoken and that our representatives need no further instructions.

After the lights had been turned out and a good many had left the court house, the anti-Bailey men called for a meeting and passed resolutions as follows:

Whereas, J. W. Bailey, junior senator of the United States from Texas, has recently formally admitted that April 25, 1900, and March 6, 1902, a little over ten months, borrowed, apparently out security, a little more than \$13,000 from H. C. Pierce, president both of the old and the new Waters-Pierce Oil Company; and

Whereas, Said \$13,000 was borrowed at the time that said J. W. Bailey so advised and encouraged the redemption of the new Waters-Pierce Oil Company into Texas; and

Whereas, J. W. Bailey formally admits that he later wrote the charter and a mortgage for the Security Oil Company of Texas, for which he decided to receive \$5,000, which was \$2,000 more than any copy of Texas law would have charged for said service; therefore be it resolved by the democrats of Wichita county, Texas, in mass meeting assembled, that we regard the admitted act of said Bailey as sufficient, in our opinion, to render him unfit to serve in the office of senator in the United States senate; and we hereby respectfully and earnestly ask the chairman and members of the democratic executive committee of Wichita county, Texas, to meet and call a primary election between now and Jan. 5, 1907.

SAYS INTERVIEW

WAS DISTORTED

Mrs. Storer Will Not Discuss the Matter

By Associated Press.

CINCINNATI, Ohio, Dec. 11.—A remarkable interview was published here today credited to Mrs. Bellamy Storer, with the statement that she and her husband had "created President Roosevelt."

Mrs. Storer today said that while she had seen a newspaper woman last night, this had not been the woman credited to her, the report as published gave an entirely different complexion to everything said, and that undue prominence had been given to certain incidents related during the interview.

While unable to deny that such an interview had been given she said that it was so incorrect and garbled a report that it did not give her views and she had no chance for recovery. It to be considered as coming from her. Beyond this she refused to discuss the matter.

\$1 TAX FOR SMOKERS

Will Be Charged by Ohio University Professors

By Associated Press.

CHICAGO, Dec. 11.—A dispatch to the Record-Herald from Kenton, Ohio, says:

Professor Albert Edwin Smith of the Ohio Northern university at Ade, has decided to require any student that he discovers to be a smoker to pay \$1 a week for the privilege of being a smoker. In fact all smokers of tobacco in any form, will be taxed \$1 per term more than others in the school. The action is to be a license for the habit.

MORE WAGES WANTED

17,000 Carpenters to Demand an Increase

By Associated Press.

NEW YORK, Dec. 11.—Seventeen thousand members of the United Brotherhood of Carpenters in this city will demand an increase in wages from \$4.30 to \$5 a day. A conference for a readjustment of the scale began yesterday.

George Gaylord, delegate of the brotherhood, said the carpenters considered themselves entitled to an increase in wages on account of higher cost of living and the general prosperity.

The ranch embraces 66,000 acres and the consideration will be \$7 an acre. The land is owned by Charles Schreiner of Kerrville and the estate of the late Meyer Half.

SYRIAN INVASION THREATENED

By Associated Press.

SAN ANTONIO, Texas, Dec. 11.—The Syrian hordes are again threatening the Rio Grande border. This time the immigrants who are refused at New York make their way to Mexico and attempt to slip across the border into Texas. Hundreds are affected with that dread eye disease, trachoma. L. C. Stewart, immigration inspector in charge of the Mexican border, has received information that on Monday sixteen Syrians and one Jew were ordered deported. Of that number seven were affected with trachoma.

The erection of this warehouse has been under discussion for several months, but actual construction did not begin until a few days ago.

COTTON AND MARRIAGE

Many Licenses Issued Following the Big Crop

Special to The Telegram.

WAXAHACHIE, Texas, Dec. 11.—The bountiful crops in Ellis county this year are having a beneficial effect upon the matrimonial market. Now that the big cotton crop has been gathered the young people of the county are turning their thoughts toward matrimony. A greater number of marriage licenses will be issued this month than for the same month last year. Sixteen of these precious documents were sold last Saturday by the county clerk. This exceeds any number ever issued in one day in Ellis county.

A Christmas Present

What'll you give your wife for Christmas? That's the question of the hour! How would you like to give her an assured income of \$250.00, \$500.00, or \$1,000.00 a year? You would like it fine, of course. If you live, you will provide even better for her and the children than such an income would. If you die, the Fort Worth Life Insurance Company will give her such an income, if you will arrange with them for it. It will cost you less than you think for to make such an arrangement. Suppose you ask them about the cost. A postal directed to Fort Worth Life Insurance Company, Fort Worth, Texas, giving your age, occupation and address, will bring you the information.

SALVATION ARMY

TO COLONIZE

National Representatives Will Visit Southwest Texas

Special to The Telegram.

SAN ANTONIO, Texas, Dec. 11.—The national officers of the Salvation Army are planning to establish two big colonies in southwest Texas during next year. Information has been received by the local officers that a committee representing the national organization will visit Texas within a few weeks, to look over the ground and begin negotiations for the purchase of proper sites. The Gulf coast country is favored on account of its climate and diversity of its products.

In each colony it is proposed to settle not less than 1,000 families. The land for the colonies will be purchased by the national officers for cash from the national reserve fund, and will then be sold to deserving members on easy terms. Great care is taken in the selection of the colonists. They must be sober, industrious and ambitious. Healthy robust men and women with large families are selected from the crowded cities and sent to these colonies and given an opportunity to earn money. Great care is taken in the selection of the colonists. They must be sober, industrious and ambitious.

While these colonies are established by the Salvation Army and a general supervision is kept over them, the purchasers conclude their final payments every family must shift for themselves, and when they pay the money due the army the homes become theirs to do with as they like.

MILLERS WANT LOWER RATES

Cannot Now Compete With Kansas City

A special meeting of the executive committee of the Texas Millers' Association was held in this city Tuesday morning for the purpose of taking up the matter of shipments from Texas points to Louisiana cities, rates which are considered to be far above what they should be. The matter was discussed thoroughly and a committee consisting of Frank Kelly of Wichita Falls and J. P. Burrus of McKinney, was appointed to take up the matter, and try to get the rates righted, and if nothing else would prevail to carry the matter before the interstate commerce commission. The rates to Louisiana points, a logical territory for Fort Worth and other cities of Texas, have been so high that most of the business has gone to Kansas City mills, where the rate is even lower than it is from Fort Worth. This one case of rate discrimination is known to have lost a four mill for Fort Worth during the summer, and the action of the millers' association in taking up this matter is all undoubtedly aimed in getting the rates materially reduced.

CHARGED WITH EMBEZZLEMENT

Former Wichita Falls Postmaster Brought Here

Henry T. Canfield, former postmaster of Wichita Falls, was brought to Fort Worth late Monday afternoon by United States Marshal J. M. North to answer to an indictment brought by the federal grand jury charging embezzlement. It is alleged that about Dec. 31, 1924, March 31, 1925, and June 30, 1925, Canfield paid to Everett Hughes, assistant postmaster at Wichita Falls the sum of \$180 each time, when he had been allowed \$250 for the salary of an assistant postmaster, and that Hughes signed receipts for the sum of \$250 each time. Canfield's recognition, in the sum of \$1,000, for his appearance for trial, was taken Monday afternoon. The suit of Mrs. Sarah Corpany et al., to recover damages to the amount of \$50,000 from the Texas & Pacific Railway Company, for the death of her husband, is still on trial before the federal court. There are about thirty witnesses to be called and at adjournment at noon the plaintiffs' lawyers had not finished their part of the witness.

COURT IS HOLDING SECRET SESSION

Says Old Customs Will Be Abandoned

In order that the transaction of county business may be facilitated, County Judge John L. Terrell is holding the session of the commissioners under lock and key. This avoids people coming in and button-holing and even pulling members of the court outside to give them the inside of the case, and helps the commissioners dispatch business more rapidly. Judge Terrell said that there were a lot of old customs under which the court has done business in the past that would be abrogated, and work to do this is now going on; hence the closed doors. At the sessions Monday afternoon and Tuesday morning a large number of reports of road and convict superintendents and overseers were examined and approved as was the report of the county judge for November. Mrs. John W. Swayne filed a petition with the court asking that space be assigned at the courthouse for the farmers' library. The report of District Clerk John A. Martin of delinquent fees collected for 1923 and 1924, and of delinquent fees collected for years prior to 1922, on account of W. D. McVean, was examined and approved. The following orders were made: That \$15,000 be transferred from class 1, as shown by the county treasurer's quarterly report, to class 2, of the road and bridge fund. That the county judge instruct janitors and all officers of the courthouse that no supplies are to be contracted for by them unless on orders No. 84, by Commissioner John A. Hiett or the county judge, and no electric light or plumbing work is to be done unless ordered by the court. That no wagon be allowed to go on the courthouse yard to remove dirt. That all telephone and telegraph bills that are charged be turned over to the county auditor, who will present to the commissioners court bills that are official, and not connected with fees, and all cash bills are to be paid by officials, who will present bills for the same to the commissioners' court.

ARE YOUR KIDNEYS WEAK?

THOUSANDS OF MEN AND WOMEN HAVE KIDNEY TROUBLE AND NEVER SUSPECT IT

To Prove What the Great Kidney Remedy, Swamp-Root, Will Do for YOU, Every Reader of The Telegram May Have a Sample Bottle Sent Absolutely Free by Mail

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone.

Didn't Know I Had Kidney Trouble

I was out of health and run down generally; had no appetite, was dizzy and suffered with headache most of the time. I did not know that my kidneys were the cause of my trouble, but somehow felt that they might be, and I began taking Swamp-Root. There is such a pleasant taste to Swamp-Root, and it goes right to the spot and drives disease out of the system. It has cured me, making me stronger and better in every way, and I gratefully recommend it to all sufferers. Gratefully yours, MRS. A. L. WALKER, 331 East Linden St., Atlanta, Ga.

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue, much suffering and fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; make your head ache and back ache, cause indigestion, stomach and liver trouble, you get a sallow, yellow complexion, make you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

Rev. Boeye Tells OF CONFERENCE

Was Secretary of the Austin Conference

Rev. J. F. Boeye of St. Paul's Methodist church has returned from the Austin conference at Gainesville, of which body he was the recording secretary. The conference session was closed in the morning after a season of great spiritual worth, a rejoicing for the growth of the cause for which the conference has its being, and a meeting that was most profitable, for the reason that the addresses were of the highest character, some of the more prominent heads of boards being at the meeting and speaking on their special topics. Mr. Boeye said that there were some most important transfers made to the conference and those from which the greatest good would result in all human probability, came were the transfers of Rev. D. T. Summerville from Great Bend, Kan., to Fort Worth, that he might be made the presiding elder of the Fort Worth district. In all probability his official residence will be at Fort Worth. His place at Great Bend is taken by Rev. R. L. Seale, former presiding elder of this district. The other transfer from which great good is expected is that of Rev. H. T. Bishop from Ohio to Houston, where he takes charge of the work at Houston, Galveston and San Antonio and some other fields. There is a new district and will hereafter be known as the Gulf district. One of the notable addresses was that of Presiding Bishop Wilson. The most marked improvement was not so much, numerically, as in the financial condition of the church, as in the growth in numbers and also in the number of congregations. Mr. Boeye thinks that there was never in the seven years he has been at the conference a season of greater worth to the Methodist church work in the Austin conference, which includes nearly all of the Texas territory. There were ten transfers of ministers to this conference and in those transfers there were seven states represented, mostly north central. There have been larger meetings of the conference than was at the Gainesville meeting for the reason that every year the laymen meet with the ministers and this year was not the one for the laymen to attend. Next year will be the year for the laymen's attendance. Mr. Boeye was much pleased with the work done and the promises for the future, based on the reports made at the conference.

POPE'S DOCTOR GOT \$50 A MONTH

Physician to Pius X Had No Financial Sinecure

Dr. Giuseppe Laponi, physician of the late Pope Leo and of the present pontiff, is dead from cancer of the stomach. After his graduation from the University of Bologna, Laponi became an assistant professor of astronomy at his alma mater. Within a few years he won great praise for his practical skill and for his professional writings. In 1858 he became the pope's physician and for his labors in this direction received only \$50 a month, a salary which was fixed two centuries ago. Laponi, on account of his close relations to the pope, found his office anything but a sinecure, as he has been for years beset on all sides by interviewers, diplomats and officers high in the church.

BALL MEN TO MEET

National League Leaders Convene in New York

By Associated Press. NEW YORK, Dec. 11.—At the annual meeting of the National League, which begins in the Hotel Victoria today, a president will be elected to administer the affairs of the organization during the season of 1925 and baseball affairs in general will be thrashed out. Practically all of the club leaders and owners were in town last night and from their talk it was gathered that there would be no trouble over the presidency and that Harry Pulliam, the present incumbent, would be re-elected. Besides the election of president, some changes in the rules will be advocated, a new board of directors will be chosen and the question of shortening the schedule will be considered.

ARE YOUR KIDNEYS WEAK?

THOUSANDS OF MEN AND WOMEN HAVE KIDNEY TROUBLE AND NEVER SUSPECT IT

To Prove What the Great Kidney Remedy, Swamp-Root, Will Do for YOU, Every Reader of The Telegram May Have a Sample Bottle Sent Absolutely Free by Mail

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone.

Didn't Know I Had Kidney Trouble

I was out of health and run down generally; had no appetite, was dizzy and suffered with headache most of the time. I did not know that my kidneys were the cause of my trouble, but somehow felt that they might be, and I began taking Swamp-Root. There is such a pleasant taste to Swamp-Root, and it goes right to the spot and drives disease out of the system. It has cured me, making me stronger and better in every way, and I gratefully recommend it to all sufferers. Gratefully yours, MRS. A. L. WALKER, 331 East Linden St., Atlanta, Ga.

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue, much suffering and fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; make your head ache and back ache, cause indigestion, stomach and liver trouble, you get a sallow, yellow complexion, make you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

Rev. Boeye Tells OF CONFERENCE

Was Secretary of the Austin Conference

Rev. J. F. Boeye of St. Paul's Methodist church has returned from the Austin conference at Gainesville, of which body he was the recording secretary. The conference session was closed in the morning after a season of great spiritual worth, a rejoicing for the growth of the cause for which the conference has its being, and a meeting that was most profitable, for the reason that the addresses were of the highest character, some of the more prominent heads of boards being at the meeting and speaking on their special topics. Mr. Boeye said that there were some most important transfers made to the conference and those from which the greatest good would result in all human probability, came were the transfers of Rev. D. T. Summerville from Great Bend, Kan., to Fort Worth, that he might be made the presiding elder of the Fort Worth district. In all probability his official residence will be at Fort Worth. His place at Great Bend is taken by Rev. R. L. Seale, former presiding elder of this district. The other transfer from which great good is expected is that of Rev. H. T. Bishop from Ohio to Houston, where he takes charge of the work at Houston, Galveston and San Antonio and some other fields. There is a new district and will hereafter be known as the Gulf district. One of the notable addresses was that of Presiding Bishop Wilson. The most marked improvement was not so much, numerically, as in the financial condition of the church, as in the growth in numbers and also in the number of congregations. Mr. Boeye thinks that there was never in the seven years he has been at the conference a season of greater worth to the Methodist church work in the Austin conference, which includes nearly all of the Texas territory. There were ten transfers of ministers to this conference and in those transfers there were seven states represented, mostly north central. There have been larger meetings of the conference than was at the Gainesville meeting for the reason that every year the laymen meet with the ministers and this year was not the one for the laymen to attend. Next year will be the year for the laymen's attendance. Mr. Boeye was much pleased with the work done and the promises for the future, based on the reports made at the conference.

POPE'S DOCTOR GOT \$50 A MONTH

Physician to Pius X Had No Financial Sinecure

Dr. Giuseppe Laponi, physician of the late Pope Leo and of the present pontiff, is dead from cancer of the stomach. After his graduation from the University of Bologna, Laponi became an assistant professor of astronomy at his alma mater. Within a few years he won great praise for his practical skill and for his professional writings. In 1858 he became the pope's physician and for his labors in this direction received only \$50 a month, a salary which was fixed two centuries ago. Laponi, on account of his close relations to the pope, found his office anything but a sinecure, as he has been for years beset on all sides by interviewers, diplomats and officers high in the church.

TEXAS CATTLE SUPPLY

There is something very peculiar about the cattle business in Texas at this time, and it is reflected in the decrease in the cattle supply of the state during the past year that is almost unprecedented in the annals of Texas. When it is realized that this decrease amounts to practically three quarters of a million head, it carries the mind back to the days when the animals on the range had no protection from the rigors of winter and died by the hundreds of thousands. But Texas has had no blizzard during the past year sufficient to cause this great falling off in her cattle supply, and its cause must be looked for elsewhere.

Really, there is no secret in this decrease of three-quarters of a million in the Texas range cattle supply. It has been brought about by a diversity of conditions, chief among which is the rapid settlement and development of the country. The lands heretofore devoted to grazing purposes are being rapidly converted into farms and stock farms. Hundreds of thousands of acres that have heretofore produced nothing but grass for the cattle are now producing crops that almost stagger belief when considered in the light of former opinions that have prevailed concerning the range country. Ranch after ranch has gone down in the face of the continued advancement of the man with the hoe, and great colonization and development enterprises are being shaped up that threaten to almost wipe out the ranching business in this state as it has heretofore been conducted.

On all the land that has been converted into farms during the past year there were considerable numbers of cattle. These cattle had to be disposed of as soon as the land changed hands. There was nothing else to do but to rush them off to market, regardless of the condition of the market, and this feature of the situation has done much to keep the great markets of the country in a continued state of demoralization. It has also served to keep the public generally from realizing that the supply of cattle in the range country is growing shorter and shorter. The producers have preached this shortage continually, but in the light of the stream of stuff that has been continually seeking the markets, their assertions of shortage have apparently fallen on deaf ears. The great market centers could not understand just how there could be such a great shortage with no corresponding falling off in market receipts. It is time that market centers report some falling off in receipts, but not in proportion to the claims set up by the producers, but real conditions cannot be much longer concealed. It may be that the large numbers of ranches that are now going on the market under colonization schemes may keep up the influx to market pretty well during the coming year, from the simple fact that the cattle on these ranches must be disposed of, but when the end is reached in that direction it is going to be found that in the great Texas range country there has been such a decrease as the country never heard of before. The three-quarters of a million falling off this year will be a mere bagatelle in comparison with what is due to happen next year if there is no change in the present outlook.

Some of the leading cattlemen of the state are quite apprehensive over the outlook for prices next year on account of the probable number that will have to be marketed. They believe the cattle are going to be forced forward at such a rate as will serve to keep the markets considerably overrun, when if the situation could be held better in hand, the prices hoped and prayed for during the past three or four years would now materialize. They say it is but a combination of continued fortuitous circumstances that threaten to rob them of the legitimate fruits of their toil and long waiting, but there seems to be no remedy in sight. As the lands pass under the dominion of the plow the cattle must go to market and there is no half

way ground. There is no place where they can be held until market conditions improve. All along the line the cattle must be sacrificed to make room for the man with the hoe, and it is not altogether a very pleasing outlook.

The last United States census credited Texas with about 9,000,000 head of cattle, but even at that time the cattlemen of the state contended the government estimate was too high. It is now believed there are barely 6,000,000 head of cattle in the state, and next year will witness a reduction of perhaps another million in the total supply.

UP TO THE STATE LEGISLATURE

The Bailey matter seems to have reached the point where it is generally conceded that it must be passed from the people up to the state legislature, and meetings are being held and in some instances elections ordered in a number of the Texas counties to determine the final instructions that shall be given the members of the state legislature. That body does not meet in regular session until the second Tuesday in January, and while the time is short, still it will afford all the people of the state opportunity to express themselves in a positive and unequivocal manner if they only go about it properly.

In January, 1901, Senator Bailey addressed the state legislature in accepting his nomination for the high and important office of United States senator, and used the following strong language:

"I beg to say, in conclusion, that if the hour shall ever come when I cannot faithfully serve this state without doing violence to my own conscience, I will return my commission to the governor, and let the representatives of the people bestow this office upon some man who can serve the state without betraying himself. I believe that this is a representative government, and that a senator is chosen to represent the people; I believe that if he cannot conscientiously represent them he ought to resign, and allow them to choose some one who can. But as despicable as is the man who will hold the people's office without doing the people's will, he is yet less despicable than the man who will sacrifice his honest convictions rather than to surrender his office. For ten years it has been my boast in that district which has honored me with five consecutive elections to congress, that no man could stand up in the presence of his neighbors and declare that I had ever done what I had promised not to do, or that I had failed to do anything that I had promised should be done. When I come back, as I may, for reelection at your hands, I will stand before the people of every county in this great state and proclaim that same challenge. If any living man can then rise up and prove that I have broken the promise which I have made the people, I will hang my head in bitter shame, and join my countrymen in choosing from their number some worthier man to serve them. Public office is an honor only when honorably sought and honorably filled. The infamy of the public servant who betrays the honor or the interests of his people will outlive his generation. I thank God that it has never been the fate of Texas to honor such, and I pray God that it never shall."

WANT LARGER APPROPRIATION

The conference at Nashville a few days ago between state and federal authorities relative to the fever tick problem, has attracted considerable attention, and there is a strong sentiment in Texas to the effect that the \$250,000 national appropriation asked for the continued work of eradicating the fever tick should be granted by congress.

The losses to cattlemen of this state from the depredations of this parasite annually are very large, and there is nothing that appeals so strongly to the average Texas cowman's heart as a quick trip in the direction of his pocketbook. They know that thousands of cattle annually die in this state from fever caused by the bite of the tick, and they know, too, that if the tick can be wiped out of existence these annual losses can and will be stopped.

There are a few cattlemen who own pastures bordering on the state and federal quarantine line who make light of the quarantine regulations and the present efforts being made in the border counties by agents of the federal government to eradicate the tick. They claim these efforts will prove abortive and the tick will continue to spread until the safe area is wiped out of existence, and assert that cattle with ticks on them are worth at least \$150 more per head than without them. But when the situation is sifted into carefully it will be generally found that there is something of an ax to grind, either in the form of a superabundance of ticks, or a desire to have free access to some convenient shipping point that has been barred from them by virtue of being located above the line.

It has been demonstrated that cattle above the line will contract fever and die in large numbers if exposed to the ravages of the ticks, and there is no doubting the proposition that if border counties now above the line were abandoned to the tick by being placed below the line as is being advocated in some instances, the experiment would be extremely disastrous for all cattle owners whose herds are now free from ticks.

It is for this reason that sentiment among cattlemen located above the line is so strongly in favor of keeping up the fight at the line and if possible go below the line and reclaim some of the territory heretofore abandoned to the tick. It is believed if the federal government will keep up the assistance begun this season for a few years the tick problem can be very effectually solved all over the country.

LIVE STOCK SANITARY BOARD

In the announcement of new state officials appointed to serve under the incoming Campbell administration there is no mention of the new live stock sanitary board that must be appointed, and friends of the present incumbents are hopeful that this means the efficient service of the present board is to be recognized by re-appointment. The present members of the board are W. J. Moore, chairman, San Antonio; R. J. Kieberg, of Corpus Christi, and Judge M. M. Hankins, of Quanah.

As there is no pay connected with service as member of the state live stock sanitary board, the members receiving nothing but their actual expenses while discharging their duties, it is not probable there will be a very active skirmish for the three positions. The stipulations are that two of the three members shall reside below the line, and it is certain that no better men for the position could be found than the present incumbents.

The fact that the present board is entirely familiar with all the work in hand, and has had a great deal of experience in dealing with quarantine matters should be sufficient to insure their reappointment. Chairman Moore has served for a number of years and is one of the representative cattlemen of his section. Robert J. Kieberg is a representative Texas cattleman and former president of the Cattle Raisers' Association of Texas. There is no question as to his fitness

and ability. Judge Hankins, the member appointed from above the line, has held the position ever since the death of W. B. Tullis, his only predecessor, and is a man who has taken a deep and abiding interest in all the work of the board. Much of its efficiency has been due to his tireless efforts, and if Governor Campbell consults the wishes of the people most interested in the matter of these appointments, he will make no change in the personnel of the present board. A leading cattleman in expressing himself on this matter said a great mistake would be made and the state would be the loser unless all three of the present incumbents are re-appointed. They have proved their devotion to the duties of the position amply in the past.

The TEXAS PRESS

The legislature meets here next month, and the minute the solons arrive in town you may depend upon it that something good and active will be doing.—Austin Statesman.

The indications are good for a very exciting session of the state legislature, and unless there is a wonderful change in the situation there will be such a display of political fireworks as Austin has not witnessed for a decade.

Texas should be placed in a position where there will be no question about her ability to meet all her obligations promptly. She cannot afford to be in any other position.—Denton Herald.

Texas must be placed in a position where every just financial obligation can be promptly met. The conditions now prevailing are a standing reflection upon the entire state.

The Dallas News comes square out against Senator Bailey. This is the first time—if our memory serves us well—that Texas' great paper has ever expressed itself editorially in years. The News has always been classed as an independent newspaper, and it was a shock to the people of Texas that the News should express itself on such an important man or issue as Senator Bailey.—McKinney Courier-Gazette.

The News was very slow to act in the matter referred to, but when it did speak it said a plenty.

The slump in the price of cotton during the last few days was entirely unlooked for, but it did little harm to the farmers who had wisely rushed their product on the market when the weather and prices were both good.—Cleburne Enterprise.

Texas farmers will not be badly hurt by a slump in cotton at this stage of the game, for the great bulk of the Texas cotton crop has been safely marketed at good prices.

Texas seems trust ridden. If the public officers whose duty it is to prosecute trusts and illegal combines would quit writing letters and do their duty by prosecution the trusts could be driven from Texas.—Georgetown Commercial.

Texas has ample law to put every trust doing business in the state entirely out of business, and the people should insist on all officers charged with the enforcement of the law doing their sworn duty.

William J. Bryan is still the star-eyed goddess of democracy. No taint of ill-gotten dollars soils his political linen, no cloud of suspicion obscures his integrity. He stands head and shoulders, a veritable Saul among the statesmen of the world, the greatest and the best of them all. He ought to be President.—Comanche Chief.

Bryan is rightfully regarded as one of the strongest men in public life, and in all his public and private career there is nothing but deeds that will always stand to his credit.

Bryan accuses Roosevelt of boldly appropriating democratic doctrines in his annual message to congress. The silver-tongued shouldn't be too severe. Perhaps the President had to incorporate some really live issues in his message.—Austin Tribune.

Imitation is said to be a sincere form of flattery, and Bryan ought to feel that his ideas are good, for the President is said to have not only imitated them, but appropriated all he could lay his hands on.

The Fort Worth Telegram states that by reason of the influx of Japanese into the state of Texas at this time, that it will not be very long until Texans will have another race problem to contend with. The Japanese problem comes to us suddenly. The little brown men have been looking on us with great favor and when we begin to turn them down some wounds must follow.—Cleburne Review.

Japanese are desirable citizens in a certain sense, but when the country is overrun with them and American labor displaced there will be a cry going up against the Japs just as is the case with the heathen Chinese.

OUTBURSTS OF MR. EVERETT TRUE

MOONSHINE & MUSTINGS BY SID BARTON

THE VANITY OF ED SISSON

It was generally agreed by the crowd around the stove that woman was a petty creature of frivolity and vanity, when the grocer himself entered into the discussion.

"It may be so," he said, "but all th' vanity o' th' world ain't 't monopolized by th' women. Reckon none o' you fellers knew Ed Sisson. Used 't run a hotel in Adelphi. Died in '79."

Nobody had known Ed.

"Ed," continued the grocer, "run a farm a mile out of Adelphi before he run th' hotel. 'Round about '72 or '73 he got mixed up in a mower whilst hayin' an' they sent fer two doctors from town, an' th' upshot uv it was th' they chopped off his left leg. A one-legged man didn't have much show on a farm back in them days, when labor-savin' machinery was scarce. Most o' th' machines was o' th' labor-makin' kind. A farmer would shed off sweat enough between May an' October 't rust a fire engine. So Ed, bein' little shy o' beme material, sold 's farm an' bought th' American House in Adelphi.

"Back in them days artificial legs hadn't been much perfected. There was a cork leg made, but it didn't have no joints to it like legs nowadays. It was uv stiff uv these here mission furniture legs an' cost like blue blazes besides, so most o' the one-legged men used one o' them stumps—pegs, they called 'em.

"Ed had a carpenter make one fer him, an' there's where his vanity come out after he took hold o' th' hotel. When he was in th' country he wore jest an ordinary, plain peg, an' th' first thing he done after he got things straightened 'round in th' hotel was 't call in a painter an' have th' peg painted a bright red. He only had th' one peg, an' he was sech an active teller an' he had so much 't th' he couldn't hang it up 't dry an' sit 'round an' wait fer it, so he tacked a sign on it sayin', 'Wet Paint. Don't Touch,' an' worked 'round jets us usual.

"Some uv the guests said they didn't like th' color—thought it was kind o' suggestive, so Ed had it painted green. Well, of course, one o' them pegs gets knocked an' banked 'round a good deal an' inside o' a couple o' weeks Ed's was scuffed up purty bad. It had a kind o' rusty, second-hand look, so Ed had another peg made fer Sunday use. He had th' Sunday leg painted white 't match his Sunday shirt.

"It wasn't long before th' white one got too plain an' he had little green an' blue stripes painted 'round th' top an' bottom. Then after that he had it decorated with flowers, little roses an' forget-me-nots an' mornin' glories. Ev'ry few months he changed th' design an' kept makin' th' peg showier all th' time. At th' end o' a year it had more color on it th'n a brewery calendar. Once th' Masons had a convention in Adelphi, an' natchrally lots o' them stopped at Ed's hotel, so he had a square an' compass painted on th' outside o' th' peg in honor o' th' Masons. He had some other Masonic emblems painted on th' long piece th' run up 't th' hip 't keef it strapped on, an' on th' back, jest below where his knee would've been he'd had one, he had painted th' Mason's war cry. 'In Hoc Signo Vinces.' An' 'round in front was painted, 'Welcome.'

"Mebby some o' you fellers remember whut a craze there was fer walnut furniture in the seventies. Blamed if Ed didn't get it an' when he had it good an' hard he got a cabinet maker 't make 'in a Sunday leg out o' black walnut. It certainly was a fine piece o' work. Th' main part had a nice strip o' burr veneer 'in 'round it an' some nice scroll work in gilt. Th' hip-piece was all hand-carved, an' right up at th' top was a silver plate, put on with silver screws, an' engraved with th' inscription, 'Finner please return 't Ed Sisson, American House, Adelphi.'"

THE MODERN LOCHINVAR

When young Lochinvar rode out from the west He claimed that his automobile was the best; It was painted dark red and it brilliantly shone; He shot over ruts with a zipp and a jar, And people fled madly from young Lochinvar.

With a whirr of his wheels and hum of his cogs He knocked down the children and ran over dogs; He frightened the horses and laughed at their pranks, And men who got angry he looked on as cranks; He gave her the very last notch on the bar, And a cloud of dust followed the gay Lochinvar.

He stayed not at bridges, he stopped not for stone, He calmly took all of the roads as his own, Till he came to a crossing and smashed thru a gate And endeavored to butt thru a trainload of freight; They searched, and at last, lying under a car, They found a few chunks of the bold Lochinvar. —Evening Wisconsin.

LEOPOLD TALKS OF CONGO SCANDAL

King Says He Has No Money Invested

Special to The Telegram. BRUSSELS, Belgium, Dec. 10.—In a sensational interview given personally Monday King Leopold denied categorically reports of atrocities practiced in the Congo. Leopold paid a high tribute to America, especially to Roosevelt, whom he described as "a splendid type of the American nation." He greeted the correspondent by saying he had a great respect for most American newspapers, and said:

"I suppose there is nobody in Europe painted such a monster as I am. Nero, it is said, was a saint compared to me. I am an ogre who delights to torture helpless African negroes. It would be absurd in me to mistreat the blacks, because no state prospers unless its population is happy and increasing. America has shown the truth of this. Many people maligning me are doing so from interested motives. It seems a new trade, that of calumniation, has arisen in the world. Most likely cruelties and even crimes have been committed. Many have been under conviction before the Congo tribunals for these offenses."

The king denied that he was financially interested in the Congo, and says he has not one cent invested in Congo industries.

Mrs. Harvey Burks, Harrisburg, Illinois. Cured by "ZEMO" After Five Years' Torture.

WHY SUFFER THE TORTURE OF ECZEMA OR ANY SKIN DISEASE WHEN THIS GOOD MEDICINE HAS NEVER FAILED TO CURE

ZEMO

HAIRSBURG, ILL., May 12th, 1905.

Dear Sir: Believing that "ZEMO" saved my arms, if not my life, I will gladly tell all sufferers from eczema what good medicine I used. I tried eight different doctors, and every doctor's cure I used made me feel worse. I was in bed for six months, and my arms were so swollen that I could not use them. I began to improve in six weeks and one day the disease had disappeared, and my arms were as good as new. My doctor will show before and after pictures. My arms were so bad that some of my friends wanted me to have them taken off, but I would not agree. I am now well, and I consider my quick recovery by using "ZEMO" nothing short of a miracle. I will gladly answer all inquiries and recommend "ZEMO" to all persons suffering from any itching skin disease.

MINES SOLD FOR FABULOUS SUMS

Denver Experts Examine Nevada Property

Special to The Telegram. DENVER, Colo., Dec. 11.—Denver mining experts who have just returned from investigating the Nevada mining districts, see the end of the mine boom in Nevada. They tell of criminal practices in Tonopah and Goldfield, and they predict that the bubble will burst with a great crash. Properties, they say, have in many instances been "sailed," and other nefarious methods used to induce speculation and investment of foreign capital.

The experts who have been sent to Nevada spent several months making an exhaustive investigation and they report that values have been ridiculously inflated in nearly every instance. Mines are capitalized for many millions and stock is being sold with a rush when actual ore in sight is less than half a million. One Denver expert stated after returning from Goldfield that he had been called upon to examine and report on a \$13,000,000 property and found less than half a million of ore in sight. "My opinion is that the Nevada bubble, mines and stocks is the greatest piece of financial chicanery with little or no backing, that has ever occurred in this country," said the expert.

He further added: "It is but an exemplification of Thomas W. Lawson's story of what was done in the '20s, and follows out his stories of other trusts. Some of the mines that are being sold for fabulous sums are being sold for more than mere prospect holes not down to exceed twenty to sixty feet, and for which prices ranging from \$200,000 to \$1,000,000 are asked. Everything has an inflated value, prices are soaring and what backing there can possibly be is being sold in a fraction of their boasted worth. These conditions cannot last for ever. In Goldfield the residents hoard mines, and sell and hold daily, and the buyer is compelled to draw his check sealed on the dump."

BONAPARTE PLAN ALL ROT, HE SAYS

Pat McCarrren Shies at Election of Political Bosses

Special to The Telegram. NEW YORK, Dec. 11.—Senator Patrick H. McCarrren, leader of the Democratic party in Brooklyn, does not approve of Secretary Bonaparte's scheme for electing political bosses and giving them full power to name public officials. He holds that such a system would give a man dangerous power, even though his actions would have to be ratified every year by the public, and he is against such a proposition cannot be entertained.

He all over the country for his success in completely dominating a great political machine in a community distinguished for its intelligence and independence. The senator nevertheless holds strictly in all his public utterances to the principle that the people should elect the supreme power in choosing men and measures. With his name held up to suspicion through the country by his enemies, he is the cause of the allegation that he is the paid agent of the Standard Oil trust, and he is originally intended for the most despotic and dictatorial of bosses, the senator still insists that autocratic power threatens the welfare of the nation, and that it must not be tolerated.

"I am unalterably opposed to the plan of electing political bosses, but I cannot countenance any such scheme. It would make the leader too autocratic in the exercise of his power. I am very much afraid that in suggesting such a thing the secretary was dreaming of the day when he might wield such power as was exercised by his ancestor, the great Napoleon."

"It was in his little office that Senator McCarrren uttered these words, surrounded by scores of followers eager to confer with him on a great variety of pressing matters that had arisen during the days in which he has been hunting wild geese in Arizona. The senator's office is as strange as is the noted leader himself. It was originally intended for a dressing room for the stage of the meeting room of the Thomas Jefferson building, owned by the Democratic party. The hall is now used for but little besides an infrequent meeting of the county committee, and the drop ceiling, his conference are held in a through which presses upon him on all sides, each member eager for his turn to speak.

"The senator has a habit of speaking in a bantering tone when he is questioned on an important topic about which he is not anxious to talk off-hand, and it was this tone he used in speaking of Secretary Bonaparte. Then suddenly he dropped his voice to a serious level and said:

"Of course, the proposition is all damned rot, and that's all one needs to say about it."

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

SUITS INVOLVES MANY MILLIONS

Elihu Root Is One of the Attorneys

Special to The Telegram. HOUSTON, Texas, Dec. 11.—Over \$6,000,000 are involved in one of the most peculiar suits ever filed in Texas, which was instituted in the federal court here this morning by the Kirby Lumber Company. It is a civil action growing out of the receivership of the Kirby Lumber Company and the Houston Oil Company. These companies are under contract with each other, but the properties are operated by two separate sets of receivers, and for a long time a contention has prevailed regarding the scale of measurement of logs set out in the stumpage contract the oil company has with the lumber company.

The Kirby company claims an exorbitant charge averaging \$20,000 to \$30,000 a month, claimed as right by the oil company, and as the contract has a long period to run, the total involved is nearly ten million dollars. It is now asked that the court construe its own orders by appointing scalers and their duties, thus asking the court to analyze its own previous orders, being a most unusual proceeding.

No mere paper values are involved, as it is known that the Kirby Lumber Company receivers have made more than a million and a half dollars in the last twelve months. Among the names of the leading lawyers of Texas and of the country participating in this suit is that of Elihu Root, now Roosevelt's secretary of state.

Preamble to New State Constitution

Special to The Telegram. GUTHRIE, Okla., Dec. 11.—The standing committee Monday reported the following preamble, which it is safe to say the Oklahoma constitutional convention will adopt:

"We, the people of the state of Oklahoma, invoking the guidance of the supreme ruler of the universe, in order to secure and perpetuate the blessings of civil and religious liberty to secure just and rightful government and to promote our mutual welfare and happiness, do ordain and establish this constitution."

The committee of the whole adopted the preamble according to the terms of the enabling act.

C. N. Haskell, a delegate, submitted a bill to print the journals for \$1,500, which he was not after the printing, but wanted to give the committee of expense some basis to work upon.

Dallas art glass company introduced a proposition for 2-cent railroad fare.

A proposition by President Murray prohibits the leaving of more than \$500 in cash by deceased parent, citing the examples of the colossal fortunes of the Rothschilds, Vanderbilts and Astors.

President Murray also wanted the constitution of the United States amended so the legislature may recall United States senators.

FRISCO SWEEP
BY WILD GALE

At Least \$300,000 Damage at
Golden Gate City

MILE A MINUTE WIND

Ruins Topples Over, Warehouses Are
Wrecked and Shipping Interests
Suffer Heavily

Special to The Telegram.
SAN FRANCISCO, Cal., Dec. 11.—A
southeasterly gale sweeping along the
coast at a registered velocity of forty-
eight miles an hour Monday resulted
in the death of one man in San Fran-
cisco and in the severe injury of sev-
eral others. Shipping in the harbor
was damaged considerably and in all
quarters of the city tottering walls
were hurled to the ground, blockad-
ing streets and interrupting traffic.
Owing to the danger from falling walls,
street car service was entirely sus-
pended.

John R. Hart, a laborer employed at
the corner of Stockton and Broadway,
was caught under a falling wall and
killed. One of his companions was
so severely injured that his life is de-
spaired of.

On the bay the storm was terrific.
The ferry boats, proceeding with ex-
traordinary caution, were tossed
about until scores of passengers were
made sick. The lower decks were
swamped with water, and occasion-
ally a crest of a wave leaped onto the
hurricane deck. What threatened to
result in a serious panic occurred in
the K route boat, San Francisco, when
an unusually large wave struck the
vessel, carrying her leeward. Women
screamed and fainted, men rushed for
the lifeboats and the advice and
command of the cool headed prevented
injury and perhaps loss of life.

Double anchors did not prevent some
of the larger vessels in the harbor from
slipping their moorings. The Chinese
war junk Whand-Ho, which lay south
of the K ferry slips last night, dragged
her anchor until she rested in the
channel immediately in front of the
ferries. The British ship Palgrave
slipped her moorings shortly after 8
o'clock and drifted onto the pier
shore of Alcatraz Island, where for a
time it seemed that she would be
blown to pieces. Two tugs went to
her assistance and towed her into deep
water.

At Least \$300,000 Damage

Three hundred thousand dollars is
the estimated loss of four San Fran-
cisco large firms by reason of the
damage done by the storm. Monday
afternoon the large building at the
corner of Folk and Cass avenues
gave in the fury of the storm and
all the valuable merchandise
housed there was ruined. The build-
ing was occupied by the Mann Trunk
Company, the Hahnemann pharmacy
and the Miesge Art Company. The
loss is said to be in the neighborhood
of \$200,000. The building occupied by
the California Notion Company col-
lapsed just before noon and the larger
portion of the stock was destroyed.
The undershirts and the shirts could
not be saved. The firm will suffer to
the extent of nearly \$100,000.

After the British ship Palgrave,
which went ashore on Alcatraz island,
had been towed out into the stream
again the vessel was a second time
overtaken by an unusually heavy blast,
which carried the boat and two tugs
on the rocks. At a late hour the
Palgrave was still on the rocks. The
tugs have been unable to move her
again.

It will take days, perhaps weeks,
to restore the street car system.

At Point Reyes and at Mare Island
yard the wind reached a velocity of
sixty miles an hour and fears were
entertained for the safety of shipping
along the coast.

case of the state vs. Jack Early, who
was indicted jointly with Harvie Horn
on a charge of murder, growing out
of the killing of George Adams, City
Marshal, at the Calhoun Hotel, Calhoun

called in the district court
yesterday morning at 11 o'clock. The
state announced its readiness for trial
and counsel for defendant asked for
time to prepare a motion for a con-
tinuance. At 1:30 o'clock in the after-
noon the district court filed their
motion, alleging the absence of five
material witnesses. The county attor-
ney asked for a continuance and was
granted until 8:30 o'clock this morn-

One Thousand Bales Are Sold

SANTA ANNA, Texas, Dec. 11.—L.
L. Shield this week disposed of 1,000
bales of cotton to Mr. Ingram for
Cumbel & Co., Dallas. Part of
the cotton was shipped direct to
England. The draft in payment of the
cotton was for over \$50,000 and ex-
change amounted to about \$125,000.

Special to The Telegram.
BROWNWOOD, Texas, Dec. 11.—C.
H. Woodard, manager of the West
Texas Telephone Company, has pur-
chased the George Adams place, com-
prising 560 acres at the southwest
limits of the city. The deal was closed
Friday and the consideration, the pri-
vate, to the Adams family. The
neighborhood of 100,000. It is under-
stood that Mr. Adams recently refused
an offer of \$35 per acre for the prop-
erty, which is a nearly all must, in
fact, the greater portion of it is in
cultivation, and the soil is very rich,
being mostly in the Willis creek val-
ley. The farm is well improved and
has a splendid stone residence on it,
which, the erected twenty-five years
ago, is in a good state of repair. Uncle
George Adams, an old and familiarly
known, purchased this land nearly
forty years ago, paying \$125 per acre
in gold for it.

Rain Damaging Cotton

Special to The Telegram.
SAN ANGELO, Texas, Dec. 11.—The
continued heavy weather is now do-
ing damage to the cotton in the field and
delaying picking, but if it continues much
longer, will cause a serious loss to the
crop. R. C. Sower, inspector, at
Ralph Harris of San Angelo is inter-
ested in a big farm in Coke county and
reports that there are only 75 bales
yet to pick. Only about one-third of
the entire crop has been gathered, and
just at the time when the raiser had
secured a number of pickers the No-
vember rains set in and not a lock has
been picked in two weeks or more.
Many other farmers in Coke county
are in the same condition, as is shown
from the estimate of 8,000 bales to be
ginned at Robert Lee, and only about
half that number handled to date.
What is true of Coke county will ap-
ply to the entire country, and present
weather conditions are hard on the
farmer, merchant and business men
alike.

1931, a commodious brick and stone
structure, a boarding college east of
San Angelo, on the site of the old
some addition to the schools of the
city having been donated for the pur-
pose. Messrs. P. Bell and J. Willis
Johnson tendered the site of the
Catholic school deeds to a tract of
land northeast of the T. P. Bell home-
stead, amounting to something over
fourteen acres. Mr. Bell gave seven
and a fraction acres and Mr. Johnson
a like area.

Six Hundred Pound Hog

Special to The Telegram.
CARNEY, Texas, Dec. 11.—C. L.
Carter, an enterprising farmer living
west of town, killed at Carney, a hog
which tipped the beam at 600 pounds.
At the market price of \$2.25 this hog
is worth \$1,350 and represents more
clear profit for the raiser than the
two bales of cotton. Mr. Carter is
an all-around farmer and has made a
fine cotton crop, besides a variety of
things for home consumption.

Sale Near Big Springs

Special to The Telegram.
BIG SPRINGS, Texas, Dec. 11.—E.
W. Permitter this week sold to George
Harrison and his son, Tom, 160 acres
of land each at \$2,200 for each tract,
the land is situated on the west side
of town. The purchasers formerly re-
sided in Rockwall, but since residing
in West Texas a short while they
have decided that this section is the
best yet.

Cotton Over Bale Per Acre

Special to The Telegram.
SAN SABA, Texas, Dec. 11.—A. L.
Boyd, who farmed at Live Oak, re-
ports that he gathered thirteen bales
of cotton from 12.5 acres and eight
bales from cotton planted in his six-
teen-acre corn field. The corn was
thin and he planted cotton in the
middle.

Midland Commercial Club

Special to The Telegram.
MIDLAND, Texas, Dec. 11.—The
Commercial Club has moved into its
new quarters in the "Commercial
block" and its officers are busy get-
ting the rooms fitted up in club-like
style. It is said that the new club
in the west which has more com-
modious or convenient rooms and
more attractive and particularly
furnishings and appointments all that
could be desired, composed as its
membership is, of the most energetic
and progressive business men of the
old, of the Midland country, its al-
ready successful career being but the
beginning of a still more successful
future. The club is a most impor-
tant nucleus of combined action and in-
terests that spirit of co-operation, with-
out which the progress of a country
will remain small and any communi-
ty be deficient in good fellowship.

More Homes Needed

Special to The Telegram.
SAN ANGELO, Texas, Dec. 11.—The
increasing number of tourists coming
to San Angelo, and the fact that a
number of prospectors and home-
seekers begin to emphasize the neces-
sity for the building of more dwellings
in the city, has caused the city coun-
cil to take steps to encourage the build-
ing of more homes. The city coun-
cil has passed a resolution to the effect
that the city will encourage the build-
ing of more homes by the granting of
special privileges to the builder of
more than one dwelling on a single
lot. The resolution also provides that
the city will encourage the building of
more homes by the granting of special
privileges to the builder of more than
one dwelling on a single lot. The res-
olution also provides that the city will
encourage the building of more homes
by the granting of special privileges to
the builder of more than one dwelling
on a single lot.

FELL FROM HIS SEAT

Wagon Driver Suffers from a Crushed
Foot

John Emmerstey, driver of a trans-
fer wagon, fell from his seat while in
South Main street Tuesday morning,
and striking the ground with his head,
was knocked senseless. He fell in
such a position that his left foot was
directly in front of a wheel of his
wagon, and it was run over, badly
crushing the foot.

The driver of Emmerstey's wagon
was at the time in the street when
his seat was a rut in the street into
which the front wheel dropped, jolting
him off.

Legislative Committee Submits
Report to Governor

Special to The Telegram.
MADISON, Wis., Dec. 11.—The re-
port of the legislative committee ap-
pointed to investigate the affairs of
life insurance companies doing busi-
ness in Wisconsin was submitted to
the governor last night. It embraces
the testimony taken by the committee
last summer, comments upon the evi-
dence and recommends the passage of
a large number of bills amending the
insurance laws of the state in the in-
terests of policy holders.

The committee says the general
examination was confined to three
companies, the Wisconsin Life of
Madison, the Northwestern Mutual Life
of Milwaukee, and the Union Central
of Cincinnati. These companies were
not selected because of any belief
that their affairs were conducted in
any less creditable manner than those
of other companies transacting life in-
surance business in the state.

The evidence developed to the effect that
none of these companies made any
contribution from the companies' funds
to any campaign committees, or have
given in the election of any public
candidate for public office; nor
was there any evidence that they have
engaged directly or indirectly in
any business that has ever been seen in
any officer has any interest in such cor-
porations. There was no evidence of any
corruption of the companies' funds
for the purpose of manipulation of the
companies' business for personal gain,
except by inference.

The evident intention of the
legislature, the committee says,
is to elect trustees in the hands of
policy holders whose personal in-
terests are always in the hands of the
company should be measured by the
policy of insurance of at least \$1-
000. This provision should have been
an efficient suggestion of the im-
propriety of electing men with absolute-
ly no interest in the company to cast
over thirty thousand votes in plac-
ing over thirty thousand votes in the
hands of such men is indefensible.

Powers Almost Plenary

"The trustees select the officers and
fix their salaries. They employ the
assistants and clerks in the home
office and prescribe their compensa-
tion."

"In the judgment of the committee
no plan or system which permits proxy
voting will enable the policy holders
to control the activity of officers and
agents to control the management of a
mutual company.

"The weakness of the proxy system
is strikingly made manifest today by
the strenuous efforts of certain great New
York life insurance companies thru an
army of agents to control proxies in
favor of the election of tickets of dif-
ferent companies."

"To the end that the policy holders
in a mutual life insurance company
may have the opportunity to exercise
the right to participate in the election
of the trustees, we recommend:

"That in all cases the right to
vote by proxy be abolished; that
every member of the company, irrespec-
tive of the amount of insurance
carried by him, be entitled to cast
one vote for each trustee; that all
such mutual insurance companies shall
publish by states and counties in
advance in alphabetical order their
office addresses, the names of all
policy holders residing in such state,
and shall furnish to any policy holder
a printed list of the names and ad-
resses of such policy holders of any state
upon request of such policy holder and
the payment to the company of a sum
not to exceed \$1."

"We recommend the enactment of a
law authorizing the governor to ap-
point one policy holder of each de-
partment company as an additional mem-
ber of the board of trustees of such
company."

San Angelo Wants College

Special to The Telegram.
SAN ANGELO, Texas, Dec. 11.—San
Angelo business men are hard at work
to get the college which the West Texas
conference of the Methodist church
has agreed to establish at San Angelo.
The idea is to revive and enlarge the
training school established by Rev. J. D.
Scott, which was established in 1870.
The school is now in a state of finan-
cial failure. The people think that
with \$40,000 the school can be made a
permanent success.

Land Titles Involved

Special to The Telegram.
EASTLAND, Texas, Dec. 11.—By all
the signs it is probable that a trouble-
some case involving the title to land
involves the title to a large slice of
valuable coal lands in the northeast
part of Eastland county, which
owner's court has been served with
notice that Palo Pinto county has ap-
pointed a surveyor for the purpose of
defining the boundary between the
lines of said county. Palo Pinto coun-
ty makes claim that the south and west
lines as at present constituted are not
sufficiently definite, and a definitely
located upon the ground, and that nec-
essarily exists for relocating and de-
termining the boundary between the
lines of said county. Palo Pinto coun-

ton, inspector.

"The Land of Nod"

"The Land of Nod," one of the lat-
est of the many musical shows pro-
duced the past few years in Chicago,
really an extravaganza. It comes to
Greenwall's opera house Thursday,
matinee and night, Dec. 13, under the
management of the Crusty Amuse-
ment Company. As the title indicates,
the scenes are laid in a mythical coun-
try.

"East Lynne"

To prove the merit of an attraction,
you have only to take its past record
as a standard of judgment. Out of
thirty-one shows played by "East
Lynne" headed by Miss Dorrit Aus-
ton, twenty-nine asked for return
dates, and two gave guarantees of
five times the amount of the first
receipts of the first performance.
Straws indicate which way the wind
blows. "East Lynne" comes to Green-
wall's opera house Saturday, matinee
and night, Dec. 15.

"The Prince of Pilsen"

"The Prince of Pilsen," the tuncful
musical comedy by Frank Pixley and
Gustav Luders, will be Greenwall's
attraction next Monday night, Dec.
17. The evidence of the success of
comedies to survive the vicissitudes
of a half dozen seasons, but "The
Prince of Pilsen" seems to stand in
a class alone in its recurrent visits
serve to add to its popularity.

Kinzo the Great

The management of the Fort Worth
skating rink says: "Kinzo the Great,
Japanese Juggler and skater, opened
at the Fort Worth rink yesterday af-
ternoon and evening, and it is stating
it mildly when we say that his act
was something wonderful and beyond
all expectations. His juggling is ad-
mirable and has never been seen in
Fort Worth, and Kinzo performs while
skating at a rapid pace.

Kinzo appears in his graceful
manner of skating makes his act very
pleasing to see, notwithstanding his
marvelous feat of juggling. We will
not try to describe all his acts, but
will state that the part of his per-
formance with seven cigar boxes, full
of cigars, and a glass lamp and chimney
was better than good. Kinzo takes
the seven cigar boxes and balances
the lamp on top, and while skating rap-
idly in a circle the under box out and
so on until he has nothing left but the
lamp which he balances on his thumb.
The ball balancing act is certainly

PERSONAL

Why shouldn't the spirit of Loughery feel proud, As he finishes his bright polished blade on the wall, And shouts far below to the plebian crowd, Keep your eyes upon Loughery and watch him play ball.

Why shouldn't the spirit of Loughery feel proud, When he looks far below at the man with the hod, And shouts as he points to a fast fleeting cloud, "Climb fast up the ladder, get nearer to God!"

Why shouldn't the spirit of Loughery swell big, As he pushes the red rosy bricks in the wall, And shouts to the men on the corners and twig, "Boys, don't let the Dallas men capture the ball."

Why shouldn't the spirit of Loughery enthrone, When he thinks in his mind of his long-remembered dead, Why shouldn't he fit fits of the sulks or the blues? Is it caused by the sap in his verse-writing head?

Why shouldn't the spirit of Loughery feel proud, When he draws back the curtain that hides the grim past, Revealing his ancestors, each in a shroud, "A rushing the growler from first man to last."
