Associated Press. LOS ANGELES, Dec. 27 .- Colonel H. Maxson, vice president of the Nanal Irrigation congress and secretary if the board of educaton of Reno, Nevada, who has been spending the past few weeks in the state of Sonora, Mexico, arrived here yesterday with a graphic story of a massacre of Mexicans and whites, which occurred at the little town of Lancho late Saturday

According to the statement of Maxhis train stopped an hour at Lanshe. While thert, rumors were received hat the Yaquis were on the war path, and that the few people in the neighorhood of the station and railroad sere in danger. The station master, s man named Thompson, belittled the matter and said he and his wife would main at their post.

The train bearing Colonel Maxson and party had not left the station more than an hour when the Yaquis desided on the little party of Mexicans and Americans and butchered four. lation Agent Thompson and his wife caped by boarding a work train that

# DE RAYLAN WOMAN WAS IN NEW YORK

Formerly Worked There as a Stenographer

Bu Associated Press NEW YORK, Dec. 27.-Hiram O. Hance, a lawyer of 229 Broadway, is convinced that Nicholai de Raylan, the Chicago woman who posed as a man, was employed in the offices of the late Colonel T. C. Campbell in this city ten years ago. The young "man" secured employment as a stenographer under the name of Langel and because of his general appearance and effeminacy there was a disposition to twit Langel, but this disappeared when a tall woman came to the office and was introduced as Langel's wife. Langel was very efficient and there was regret when illness forced "him"

to give up work. Mr. Hance said he had studied the recently published photographs of De Raylan and was impressed with the almost complete identity with the features of Langel. Mr. Hance regards as confirmatory of the conclusion that Langel and De Raylan were one and the same that De Raylan died of tuberculosis, a disease with which Langel was unmistakably affected.

DEATH LIST IS 12

Brutal Murders Characterized the Christmas Riots in Temper County

By Associated Press. NEW ORLEANS, Dec. 27.-That white men with their own bodies have protected the innocent and that every effort is making by the white to punish those "hoodlums" of their own race who are responsible for the Christmas riots in Kemper county, Mississippi is the information in detailed accounts arriving here early today direct from the little towns where were the scenes of the blood-

"A conference has been held," these dispatches say, "between the civil and military authorities, in which evidence was produced that establishes the identity of five white men of good families of the county who took part in the

It is claimed these men also attempted to shoot Deputy Sheriff Alexander. District Attorney Currie made public a statement in which ne says: "I find upon an investigation that the trouwas caused by a lot of hoodlums and outlaws who openly violated the laws of God and man and decency. The four men who were killed Christmas day were not connected with the affair in any manner and I am informed the houses burned were occupied by negroes who were not even in sympathy with any of those who were connected with the outrages. These men will be captured if it is in the power of the state of Mississippi to do so and they will be made to answer for violation of the law of the land." Dispatches say the total death list is probably twelve. The mob element among the whites mostly fled toward the Alabama state line, while the negroes in terror gathered in Scoobs and Wahalak to place themselves under the protection of the troops or citizens. The killing of the negro named Calvin Nicholson referred to as "One of the most brutal which occurred since the days of the reconstruction." Nicholson was a negro of the best

class and unusually well to do. While the posse was searching for a negro named Simpson who had killed a deputy they entered Nicholson's house and several persons began shooting at him. Deputy Sheriff Alexander and two others rushed to the negro, shielding him with their bodies. They protected him until overpowered, after which he was shot and the house burned. District Attorney Currie says he has fixed the blame for the murder upon three men and

will arrest them if they are still in the Governor Vardaman arrived shortly after midnight last night. He was accompanied by Adjutant General Fride and the Jackson military company. After conferring with Colonel Sam McCants, the district attorney, J. H. Currie, and others, the governor announced that it had been determined the three companies of troops might safely be returned to their homes, leaving the situation to be taken care of by the remaining command. The men left for their homes before 7 o'clock this morning. Governor Vardaman said he did not

think there was any danger of a further uprising, whatever the feeling against the negroes in Kemper county might be. He referred to the wounding of Conductor Cooper "by a lot of & drunken negroes" as an atrocious crime; that the whole trouble would be thoroly investigated today and he would then have more to say. The governor left for the interior this morning to investigate affairs there and will return in time to catch the afternoon train for Jackson.

Meeting of Superintendents and Principals

The meeting of the Superintendents and Principals' Association was well attended Thursday morning. The following were elected officers: C. E. Evans of Abilene, president; J. B. Hubbard of Belton, vice president, and W. J. Gayden of Jacksboro, secretary and treasurer. There were 122 votes cast in the election for president, the others being by acclamation. The first paper was read by W. J. Sims of Cameron on "Six or Seven Years in the Lower Grades." It was, in brief, a contention that the length of the course of study depended on the ability of the teachers and the training the teacher had received. Dr. A. C. Ellis of the State University,

discussing the subject, said there was a need for an elastic course of study. J. C. # **NINE SUITS FOR DIVORCE FILED**

One Woman Asks For \$40.00 Alimony

Nine suits for divorce were filed in the district clerk's office Thursday morning before 10 o'clock, the largest filing of divorce suits in any one day

during 1906 so far. Of the suits filed two were abandonment, four for cruel treatment and three for infidelity. One of the suits asked for divorce and \$40 per month alimony pending the trial of the case, and for an injunction restraining the husband from disposing of any of the property accumulated during the married period and from any way interfering with or molesting plaintiff or her children. Judge Mike E, Smith heard the application for an injunction and granted it.

In one case in which infidelity of the wife is the cause of action, the plaintiff alleges in his petition that after he married defendant she bore him three children, and that after the birth of the third child he was tried for and convicted of a felony and sentenced to the penitentiary for a term of seven years. He served his term and when released he discovered that his family had increased from a wife and three children to a wife and six children, three having been born to his wife after he was sent to the penitentiary. Upon learning this he refused to live with his wife and asks to be divorced from her. Following are the suits filed in the district clerk's office:

E. F. King vs. A. R. King, divorce. Carrie Floyd vs. Raford Floyd, di-J. R. Runnels vs. Julia Runnels, di-L. Fisher vs. H. Fisher, divorce. G. E. Morrison vs. Nannie Morrison, divorce.

# RAILROADS MUST FURNISH THE CARS

Order Issued By the State Railroad Commission

Special to The Telegram. AUSTIN, Texas, Dec. 27 .- The railroad commission today issued an order which is intended, in a measure at least, to relieve the car shortage in Texas.

The order was inspired by the fact that many railroads of Texas refused to let their cars go off of their own lines, and many times cars are left on sidings for weeks when application has been made by shippers for cars. The text of the order follows: If any person, firm, company or corporation desiring an empty car or cars to be placed at any station, siding, spur or other point on a railroad in the state of Texas where it is usual and customary for freight to be received and discharged, to be loaded for shipment and transportation from such station, siding, spur or other point to any other point on said line of railway or to a point on any other line of railway in this state, shall make application in writing for such car or cars to the agent of said railway company at the station, siding, spur or other point where it is desired to load such car or cars, or if there be no agent at such point, then to the agent of the railway company at the station to whose agent such application is made, and such railway company is hereby ordered and required to furnish and place, within time pre-

cars so applied for, whether such car r cars are intended, when loaded, for transportation to a point on the line of such railway company or to a point on line of another common carrier in the state of Texas. The order shall take effect the first day of January, 1907.

## DIRECTORS TO MEET

Will Take Action on Resignation of Colonel S. B. Hovey

A meeting of the directors of the Chicago, Rock Island and Gulf Railway Company will be held in this city to take action on the acceptance of the resignation of Colonel S. B. Hovey, vice president and general superintendent of the company, and on the question of the election of his successor. It is probable that the meeting will be held Saturday, but the certainty of the attendance of one of the directors whose presence is necessary has not been ascertained and that brings in the element of doubt as to the exact time for the meeting.

# THOMPSON WILL GET A NEW TRIAL

New Development Bribery Case

A new trial was granted to George W. Thompson by Judge E. R. Meek of the federal court, in this city Wednesday. Thompson was indicted by the grand jury, convicted and sentenced by the court to a fine of \$300 and imprisonment for ten days for attempting to bribe a United States inspector to pass cattle from Wilbarger county to Kansas as not being affected by

Texas fever ticks. His case was tried in the federal court on Dec. 78, the day after the decision was handed down by the about nine thousand miles. Of this | United States supreme court deciding against the right of the government to establish such a line of quarantine. His lawyers immediately telegraphed for a copy of the decision and made the motion for a new trial, setting down in their motion that the law under which he was convicted was unconstitutional.

A stay was granted to John Spencer of this city, who was convicted of a violation of the bankruptcy laws in order to allow him to perfect an appeal. He was sentenced to a term of two years at hard labor.

# MUSEMENTS

Shepard's moving pictures were the attraction for a good sized crowd at Greenwall's Wednesday night. As usual Shepard's pictures set the standard for novelty in their class, the costly colored films being especially Wednesday night's crowd applauded liberally and apparently liked the entertainments very much.

Jane Corcoran

Inasmuch as there is no sentiment in business it must be sheer merit that keeps Jane Corcoran in the lead. Season after season of supplying the amusement public with the very best, has made Miss Corcoran's theater pa-

trons legion. The play is from the pen of Como Gordon Lennox, who wrote the play for Mr. Charles Frohman, and was produced at the Empire theater in Broadway, New York city, where it received a long and extended run. The leading character so pleased Miss Corcoran that her manager, Arthur C. Aiston, was induced to obtain same for her for the road. A capable company has been secured, with James M. Brophy as her chief support, and the entire production is carried and will be used during her engagement at Greenwall's opera house Friday matince and night Dec. 28, presenting at the matinee "A Doll House" and at night "The Freedom of Suzanne."

W. B. Patton "The Slow Poke" is a beautiful western play that will win its way into the hearts of the theater-going public, and while high-class and refined in construction, it is a play for the masses and appeals to all classes. W. B. Patton in "The Slow Poke" at Greenwall's opera house Saturday

Harry Becesford

Harry Beresford, who is starring in "The Woman Hater," tells a funny story of his early days on the stage. "I was cast for the part of a meek looking young man and after the curtain went up on the second act I made my entrance with a rain coat thrown over my arm and loudy called, 'Uncle, uncle.' Before I could proceed with my lines a graceless gallery god sang out at the top of his voice: "'All right, I'm coming. How much do you want on it?" Harry Beresford in "The Woman Hater" at Greenwall's opera house Tuesday (New Year's) matinee and night, Jan. 1.

At the Majestic is one of the single acts on this week's bill at the Majestic theater, and he is all that his name would imply. Many persons after the two shows yesterday were heard to remark that he is positively the best single act they ever saw. His imitations can well be termed great and keep the audience in a continual uproar during the entire time he is on the stage. Del-a-Phone can mimic nearly everything known to the human ear. # **CHRISTMAS KISS** COST KISSER \$20

Justice Decides on Value of Osculation

The kiss that J. N. Jones imprinted on the lips of a married woman against her consent, Christmas, cost him \$10 and the cost of the prosecution added, which made the total about \$20.

The case against Jones was taken up and disposed of by Judge John L. Terrell in the county court Friday morning and on a plea of guilty being entered, coupled with the explanation that the affair grew out of too much Christmas eggnog, the small fine of \$10 only was imposed. Jones had had a talk with the woman he kissed, made all the apologies he could make and as he evidenced the greatest contrition and regret, she agreed that he be let off with the \$10 fine.

# PATRICK MAY BE DRIVEN INSANE

Writes Strange Letters to Governor Higgins

FIGHT FOR HIS LIFE Next Move May Not Only Free Him

But Also Make Him a

Special to The Telegram. NEW YORK, Dec. 27.-That Albert T. Patrick has been driven insane by the terrific strain he has been under during his almost five years in the death house in Sing Sing, and in making the most remarkable fight for his life of any condemned man in modern times, is strongly intimated by Governor Higgins, who has commuted his sentence to imprisonment for life. Many letters, it is asserted, have been written to the governor recently by Patrick, and it is declared that the wording of some of these leaves little or no doubt of the prisoner's insanity. This belief is strengthened by the wild behavior of Patrick when in-

formed that his sentence had been commuted and he strenuously declared that he would not accept conimutation, but wanted a full pardon or "Patrick will have to be careful or

he will be in Mattewan," declared Governor Higgins, "He has lost his head. It has been too much of a strain Today plans are being formulated by

Patrick's counsel and friends to begin a fight to free him entirely. Ex-Judge W. M. K. Olcott, his counsel, it is asserted, is preparing to institute habeas corpus proceedings to compel Warden Johnson of Sing Sing to show cause why Patrick should not be released. This will force the district attorney into the fight and it is expected will reopen the whole case. John T. Milliken, Patrick's millionaire brother-in-law, who is alleged to have spent \$500,000 in the fight for Patrick's life, is declared to be ready to spend as much more to free him. and a remarkable plan of action has

already been decided upon. Not only will the effort be made to prove that Patrick did not kill Millionaire Rice, but evidence will be offered to show that the will of Rice, giving nine-tenths of his estate to Patrick, and which was asserted to have furnished the motive for the alleged murder, was not a forgery, but genuine. If this were sustained it would not only free Patrick, but make him a millionaire.

The Bertillion system of measure ment for measuring finger prints is to be relied upon to prove that the wil making Patrick the heir of Rice was genuine, which would destroy the strongest part of the case against Patrick. Albert H. Hamilton of Auburn an expert in toxicology and in disobtained the handwriting, has evidence which it is expected will free Patrick.

In examining the alleged forged will he found a faint finger print beside the supposed forged signature of Rice. Later he made an examination of checks admittedly signed by Rice, found finger prints on some of the signatures there, and by measurements and microscopical examination found they corresponded exactly with the finger prints on the supposed forged will. As no two men in the world have finger prints alike, it is declared this is proof positive that the disputed will was signed by Rice. Other evidence, it is asserted, has been obtained to support the claim that Rice signed the will in question,

# NO TRAIN FOR WEEKS

Serious Reports of a Car Famine in the Northwest

Special to The Telegram. WASHINGTON, Dec. 27.-Interstate Commerce Commissioner Lane, who has had direct charge of ameliorating the conditions in the northwest, where both coal and car famines have prevailed, is in daily receipt of hundreds of letters from dealers and residents in North Dakota, Minnesota, Wyoming and Idaho, that tell a most interesting story of existing conditions.

Some of the writers go to the extent of saying that in many instances freight trains have not passed railroad stations for a month or six weeks, and that hundreds of thousands of dollars have been lost to the farmers and elevator men, particularly in North Dakota, by reason of their failure to obtain cars to move their wheat and flax. Commissioner Lane today received a etter which is a sample of many from Cheyenne, in which it is stated that on Nov. 26 a car was billed from that point, and that on the 17th instant the car was still on the sidetrack and a freight train had not passed up or

down for weeks. Governor Gooding of Idaho, to whom Commissioner Lane had written for information relative to conditions in that state, says:

"The serious trouble, it seems to me. is the fact that among transportation companies the one important change in their management is toward the securing of dividends without regard to service rendered to the people. The latter consideration is entirely lost

### BIBLE IN THE SCHOOLS Corsicana Case to Come Before Court of Appeals

Special to The Telegram. CORSICANA, Texas, Dec. 27.—Something more than a year ago several citizens of Corsicana petitioned the school board, asking that the reading of the Bible in the city schools be not permitted. The board decided against the petitioners and it was then submitted to the state superintendent, who sustained the local board. The petitioners then filed suit in the district court of Navarro county, applying for a writ of mandamus against the school board, which was denied by the court. From this judgment the petitioners have appealed and the case will be submitted to the court of appeals at Dallas on Jan. 5, the petitioners and school board each having filed thear

Government's Action Expected to Act as Monopoly Bar

Special to The Telegram. PITTSBURG, Pa., Dec. 27.-Under the provisions of the concession granted the Mellon Company of Pittsburg a monopoly of the oil in the southwestern field is forever made impossible. The Mellon Company will construct the \$8,000,000 pipe line over reservation lands from Bartlesville, I. T., to points in Texas, with a view to affording an outlet for the product of Indian Territory-Oklahoma oil fields thru gulf ports.

The government expects, in granting this concession to the independent concern, to shut out the Standard and other present monopolies, as well as future monoplies, from the southwestern field.

The regulations are designated with a view to insuring full and free competition in the sale and transportation of oil in the southwest. They give the secretary of the interior authority to cancel upon ten days' notice the contract of any individual or company in the event that the terms of the regulations are violated. The regulations may be changed at any time at the will of the secretary.

# TRIAL IS POSTPONED

Taber's Examining Tearing is Set for Jan. 2

Special to The Telegram. TEXARKANA, Texas, Dec. 27.-Taber, the man who was brought here by Sheriff Rochelle from San Antonio and who is charged with complicity in the robbery of the Cotton Belt express car near Redwater on Dec. 1, was arraigned before Justice Williams on Wednesday, but owing to the absence of certain witnesses it was agreed to defer the preliminary hearing until Wednesday, Jan. 2.

Taber was taken to the county jail at Boston last night, where he will be confined until the date for the preliminary trial, when he will be returned here. He has retained a firm of lawyers at San Antonio to conduct his defense and they were wired the date set for the hearing.

## 7,000 LAND BIDS IN

Work of Tabulation Is Begun at Washington, D. C.

Special to The Telegram WASHINGTON, D. C., Dec. 27.—Officials in the general land office are preparing to tabulate the bids which have been received for the sale of about 505,000 acres of pastures and wood reserve lands in Kiowa and Comanche counties. Oklahoma. Between the 3d and 15th of this month the land office received 7.261 individual bids, and it is estimated that each bidder has had on an average of thirty tracts, some of the bidders, it is understood, having bid on every one of the tracts, 2.351 in number. On its face, this seems a very simple proposition, but it will necessitate the making and indexing of nearly 250,000 cards, and it is expected to tabulate this tremendous list and will take quite all of three months before the highest bidder on all the tracts can be determined.

Paris Court Holds Her Liable

Special to The Telegram. PARIS, Dec. 27 .- The three remaining suits brought by creditors with the object of making Mme. Gould (formerly Countess de Castellane), jointly responsible with Count Boni for certain claims, were decided Wednesday.

The court found that she was in no way responsible for the claims of M. Ziegler, one of the largest creditors, who claimed that it had been the practice of the Castellanes ever since their marriage to appeal to him to extricate them from financial difficulties, but held her jointly liable for jewels valued at \$24,000, purchased from Mile. Vera Nimidoff of Odessa, who sold the jewels to Count Boni, thru the intermediary of a jeweler.

The court also found that Mme. Gould was jointly liable for the sure of about \$57,000, the balance due to the Hartogs for a jewelry bill amounting to about \$137,000, provided the bil was not paid. Three experts were appointed to appraise the value of the jewels.

Stallard, former cashier of the People's National bank of Sedan, who disappeared Sept. 18, leaving a shortage of between \$20,000 and \$30,000, voluntarily returned home Wednesday. He has been in Dallas since election day working most of the time as a laborer. and did not take the trouble to even adopt an assumed name, Last Thursday Mrs. Stallard received a letter from her husband stating that he was in Dallas and that he would return home if she thought best for him to do so. It was the first intimation she had received of his whereabouts since he mysteriously disappeared in September. Mrs. Stallard went to Dallas last Friday and met her husband. After spending a few days in Texas they re-

turned immediately to Sedan. Stallard says that after closing the bank Sept. 18 he rode to Bartlesville, where he turned his horse loose. He traveled on foot down the Caney river below Tulsa, where he secured work as a laborer. From there he worked his way to Dallas, arriving on election day. He remained there continually until joined by his wife. Stallard says he had but \$125 when he

### WHEN THE TRAIN IS LATE

Ferdinand Honaw, 336 East Houston street

It is exasperating enough to wait for a late train under ordinary circumstances, but to wait for a train that is bulletined one hour late and have the time steadily changed on you every hour until the train finally comes in about six hours benind its schedule time, is simply testing human nature far beyond the point of natural endurance. All over the country a perfect epidemic of late trains has prevailed practically all the fall and winter. When the great systems put on their winter schedule they evidently forgot to stretch the hours long enough, and for the past two weeks the situation has been greatly aggravated by the enormous holiday travel. The people are complaining from one end of Texas to the other of delayed trains and the following from the Brownwood Bulletin is a fair sample of the caustic comment that is being in-

Parents who wish to teach their young children something about the early history of Brownwood take them on their knees and endeavor to explain to them that once upon a time the Santa Fe road ran its westbound trains on what is remembered as a schedule. It is difficult for the children to understand this, for it is not the custom in Brownwood to refer to a time card, but to inquire what time a train will be in, before people go to the Santa Fe station. If the report says "a half hour late," this is multiplied by six and in three hours the traveler starts for the station. At that time the board will probably show that the train is at the station, but the most diligent inquiry will fail to locate the spot at which it has stopped. After another two hours the "Old Sister" will come snorting and puffing around the bend with an ain't-I-a-movin'some sort of an air, and after a half hour idling around the oil tank will drive on up to the station. In from twenty minutes to an hour after that the cheering "allaboard" is heard and again the train starts on its leisurely trip to the west. This may appear to strangers to be ridiculous, but it is about the truth of the matter. There are parties in Brownwood who say that the train, known in railroad circles as No. 77 and along the line as the "Old Sister," because of its decrepit and leisurely movements, has only come into Brownwood twice this year right on time, and the agent of the Houston Chronicle, who meets the train every morning says that since he has been doing this, now three months, the train has never arrived on time and the closest it has been is twenty minutes of the schedule. The great trouble is that the time of the arrival of the train can never be learned in advance. It is no fault of the local people, for they are accommodating and endeavor to give out correct information, but the train keeps losing time all the way from Temple and no one can guess how much time it will lose. The result is that people who travel west often have to spend from one to four or five hours just loitering around the miserable old hovel used as the Santa Fe station, watching for the train to come in. Friday night the writer had to meet the incoming train, due here at 9:30. It was reported at 9 o'clock to be an hour and fifty-five minutes late, but at 11:30 he took the precaution to inquire again and learned it was expected at 12:30. At that hour he went to the station to find about a hundred people there awaiting its arrival. At one time he counted seventy-one people crowded into the stuffy, dirty, smoke laden, ill-smelling little room, which has seating accommodation for jus': thirty-six people and over thirty were walking about outside, preferring the cold night air to the miserable waiting room. The crowd was not there just for pleasure either, at that time of night and most of them had been waiting since just after 11 o'clock. At 1:50 the train came in. About these same conditions exist all along this branch of the Santa Fe. It is not due to the holiday business or to any unusual rush, for conditions have been nearly as bad for months past It is nothing less than an outrage that the public should be treated this way by the Santa Fe road. It is ruinous to the business interests of the town and is a positive, direct loss to every business man who has to use the line. It is crippling the trade of Brownwood. Friday night there were a number of out-of-town shoppers, who expected to get home on that train. These complained in no uncertain terms of the yexatious delay and the inconvenience on that account of shopping in Brownwood. It is about time for the business interests of the town to see if by concerted action the evil cannot be remedied.

There is talk of appealing to the railroad commistion in an effort to have that body promulgate an conclad rule that all passenger trains in Texas shall s run on schedule time. But when information of that and reaches railway managers they only smile and the avenue.—Birmingham Age-Herald.

say if the commission can devise a plan for accomplishing that very much desired result they are smarter people than those who command large salaries and are working continually in that direction. If a member of the commission can find a way to do this thing he can immediately find a position with a rairway company where he will enjoy a sinecure and a saiary

that will be of his own making. Entered at the Postoffice as second-class mail matter. The Telegram believes much of the trouble is owing to the enormity of the traffic of every kind that is now being handled over all the roads. The management has been caught unprepared for this traffic all around, and are doing all in their power to handle it the best they can with the facilities at their command. They must handle this traffic in order to be able to earn revenue, and it is unfair to assume that the trouble is the result of indifference.

But there is one feature of the situation that should be promptly remedied, and that is the false bulletins. It is a mistaken idea that it is a kindness to give the hours of delay to the traveling public in broken doses, for the average traveler would infinitely prefer to know the worst at once. If the train is six hours late, put the fact on the bulletin board as soon as it is ascertained and stop this exasperating system of only giving out one-sixth of the actual facts at a time. That is where the most thoroly exasperating feature of the whole situation lies.

### THE JOHNSON GRASS PROBLEM

There are thousands of acres of fine soil in the state of Texas that have become such masses of Johnson grass as to be practically worthless for any other purpose. And there are thousands of Texas farmers whose places are infested with this grass who regard it as a very doubtful blessing. In many instances whole farms have been abandoned to it and converted into hay farms as the easiest means of solving the problem, but there are some land owners who do not want the grass and are continually fighting it in an effort to stay its further progress. And to such as these the following from the annual report of Secretary Wilson will be welcome information. Secretary Wilson says:

"It is believed that data has been secured which will enable the farmer to control Johnson grass and utilize it in a satisfactory way in crop rotation in the south. The secret of success in this work lies in the fact that in a Johnson grass sod left undisturbed for two or three years the root stocks are found only at the surface. In this connection the pest is easily destroyed by shallow plowing and a little extra cultivation the next summer. This permits Johnson grass to be grown in rotation, such as cotton, corn and cowpeas, winter oats and Johnson grass for two years. Where the pest is allowed to grow on land that is cultivated in cotton or corn the root stocks penetrate into the soil, and eradication is exteremly difficult."

It would seem from this that if any farmer desires to get rid of the Johnson grass that has found an abiding place on his premises all he has to do is to permit the land to remain unbroken for two or three years, and then break it at a shallow depth and keep breaking it often enough to keep the roots exposed. Many farmers in Texas have already worked out the problem for themselves. They break the land shallow, cutting the roots short, and in a short time they break it little deeper exposing more of the roots and afterwards plant the land in cotton, giving it frequent cultivation, In Parker county this plan has been found to work quite successfully, and a great deal of the Johnson grass land has already been reclaimed.

Fort Worth has enjoyed one of the greatest holiday seasons in all her past history. And as a rule the observance was only in such a manner as was most creditable to Fort Worth. There is but little on the holiday pages to bring a blush of shame to a Fort Worth

It is said that Fort Worth remembered all her poor during the holidays and if there was a family within the city limits that did not receive substantial remembrance, it was owing to the fact that it could not be located. ## CRITICISMS OF JUDGES

In one of those parts of his message which have been called sermonettes, President Roosevelt advised the members of the bar to break from their old custom of maintaining silence respecting the bench and to subfect it to sound criticism whenever occasion arises. Some lawyers believe that his remarks on this subject were in a measure made in self-defense, being a reply to attacks on himself due to his snarp criticisms of Judge Humphrey because of the packers' "immunity

Be that as it may, the fact remains that it is much better, as the President says, for serious minded persons to make helpful, deliberate and sane criticisms of judges than for reckless agitators to serve as the sole critics of the bench. Every part of our social life is growing, as the parts of an animal organism grow, Wholesome public opinion is the best means of pruning undesirable growths. That intemperate, ignorant or malicious criticsm of judges might work injury, however, can be readily understood.-Chicago News.

There is no competition for records; no feature of the dull circling progress to stir the blood of the spectators, except the occurrence of the frequent accidents. There is scarcely a pretense of fairness. The teams make money-sharing agreements to block fair gains by opponents. Day after day the plodding procession continues without change. Yet this, the worst show in the city, is the best attended .-

## LEGISLATURES MEET NEXT WEEK

In about another week, according to the almanac as farmers say in speaking of crops, "Legislatures wif be in full bloom." This week will be devoted to cau cuses and getting the machinery in order in the several states. Then the worriment of the people will begin The legislatures of all states are more or less important, but those of Pennsylvania, New Jersey and Delaware are of immense interest to the people hereabouts The actions of the members will bear watching. It is remarkable how attractive the work of the legislature is to the residents of rural sections. This is especially the case in small states, like New Jersey and Delas ware. In Pennsylvania the residents of Philadelphia have for years been compelled to watch the legislator with the eye of a nawk, fearful that some night, while they were asleep, they would be legislated out of bed

The gavel will fall in Pennsylvania at noon on New Year's day. There will be two bombardments from governors. Pennypacker will fire first with his fare. well message, and after two weeks of recuperation the members of the legislature will be drawn up in line to face a broadside from Governor Stuart in the form of an inaugural address. About that time New Jersey and Delaware will be so wrapped up in the fight for United States senators that their legislators will care little for what is going on in the outer world. The story comes from North Jersey that the discarded democratic candidate for speaker, Joseph H. Firth of Warren, will revenge himself on the democrats by refusing to vote for Letheridge for speaker. Firth has also given notice that he does not consider Dryden unfit to represent the state in the United States senate. If Colby, Fake and Ackerman should be firm in their opposition to Dryden Firth's vote would be just what is needed, and would give the forty-one so essential. Ex-Senator Smith may not be averse to seeing Dryden elected if he cannot get the prize himself. But he would not openly countenance Firth's defection. Smith is seeking to propitiate ex-Sheriff Davis, and the two may yet join hands. As matters stand the legislative situation becomes more interesting daily. The republicans seem more confident than ever that Senator Dryden will be re-elected, while State Senator Colby insists that there will be a deadlock.—Philadelphia Ledger.

Five-Story Building Thrown Open For Receptions

**VISITORS SEE** 

LARGE CROWDS ATTEND

NEW Y. M. C. A.

Completeness of Arrangements Excites Prize - Formal Opening to Take Place After New Years

Fort Worth now has a Y. M. C. A. building that is adequate in all ways for the needs of the young men of the city of Fort Worth and as fine as any in the state. The \$49,000 fivestory structure which has been building for some time is now completed and ready for use of the members, actual opening for usage of the building, however, to take place the day after New Year's.

First receptions in the building were held Wednesday and a generous crowd of visitors attended the opening during all hours. The first reception was held in the morning for the boys, lasting from 9 until 10:30 o'clock. Up to that hour boys from 10 to 14 years of age were invited and large numbers attended. From 10:30 o'clock until noon the boys from 14 to 17 years of age were expected and the building was again crowded. A general recep-tion was held for the older people last night and a large number of the members and contributors to the association attended with their wives.

The receptions planned for the building are very comprehensive and a time is alloted for the visiting of the building by eevry person in the city or suburbs. Upon arrival at the building they are met and conducted thruout the entire building and everything of interest shown.

Receptions planned for Thursday afternoon include one for the students of the various institutions of the city and the ministers, members of churches and young people's societies. In the afternoon at 3:30 o'clock a reception will be held for the students of Fort Worth University, Polytechnic College, Medical Coffee and three business colleges, St. Andrew's school and St. Ignatius Academy. In the evening the reception will be especially for the ministers and members of the churches and young people's societies.

Receptions will also be held Friday and will include one in the morning from 9 until 10:30 o'clock for the children attending the Fifth ward school. From 10:30 until 12 o'clock a reception will be given for the children of the First and Third ward schools. In the afternoon a reception will be given to the members of all the ladies' clubs in the city, and in the evening the reception will be for the railroad men of the city and the clerks and office men.

First Men's Meeting

Sunday the first of the men's meetings will be held at 4 o'clock. The stereopticon will be used for an illustrated lecture on "The Life of Christ." which will be delivered by E. B. Travis, boys' secretary

Charge of the work of the Y. M. C. A, in this city is in the hands of a number of men who have experience in the line and who are amply qualified to do the best for the members of the association. L. E. Jones is the head secretary of the association here and he is known to almost every person in Fort Worth by his untiring work for the association. He has had sixteen years of experience in the Y. M. C. A. field and is always ready for any work. He is very popular among the young men of the city, with whom he has a manner of becoming acquainted almost immediately and then keeping in touch with them at all times.

Assistants to Secretary Jones number five, who will have charge of the various departments of the work. W. S. Childs is physical director of the association and is well up on physical training. While young, he has had a great deal of experience in all lines of indoor work and can take care of a class, prescribe for individual work or direct the play of a team engaged in an indoor sport equally well. He is an expert basket ball and indoor baseball player. With the ample equipment of the Y. M. C. A. building it is expected that Mr. Childs will be able to get a great deal of benefit out of for every member who chooses to do work there. He will be assisted in the work by E. B. Jackson, assistant physical director, who is also an expert in gymnasium work and a thoro assistant to the head director, being n harmony with him in ideas. E. B. Travis, who will have charge of the boys' department, has been in Fort Worth for about a month, preparing for the work of his part of the association, and during that time has already met a large number of the boys whom he will have charge of. He has proved of a magnetic personality to all of them and they all feel that they will be carefully looked after. M. L. Hargrove is membership secretary and L. C. Hardie office secretary of the association. Both have had con-

siderable experience in the work. To Reach the Limit Six committees of the Y. M. C. A. are at work at the present time on membership and it is expected that the imit of the association will be reached before the first of the year. The limit set is 1,250 adult members, and of these 1,100 have already been secured. Chairmen of the six committees are M. J. Dowlin, George Hill, J. B. Rawlins, E. H. Johnson, Jacob

Tudor and Oscar Whyte. Officers and directors of the association are: R. P. Smith, president; F. W. Axtell, vice president; W. B. Paddock, recording secretary; Noah Harding, treasurer. Directors are: George Reynolds, D. C. Campbell, William D. Williams, James Harrison, B. A. Rose, Dr. F. D. Boyd, E. G. Rall, Ben O. Smith W. E. Connell.

The entire building has been finished with the exception of the fifth floor, which will have to wait until sufficient funds are provided. There was a doubt for a long time about whether this floor could be built at all, but in the spring, when the subscription was carried on to raise funds for the erection of the fourth floor, enough money was subscribed to warrant the erection of a shell for the fifth floor, which will be finished later on.

Gym on First Floor

The first floor, or basement, is given up to the gmynasium, which covers the back half of the building and extends two floors in height, the bowling alleys and the dressing rooms for the junior members. The floor of the gymnasium is ready for use, Equipment is extensive and includes everything that an up-to-date gymnasium should have. A number of duplicates of every piece of apparatus has been provided in order that there may be no delay when large classes are work-

ing.
The bowling alleys, two in number and regulation size, occupy the north side of the building. The southeast side of the building. The southeast corner is given up to locker rooms and gan, R. M. Logan, Miss V. Logan. shall, Mich.

Hot Springs Doctors Stand Upon This Solid Founda-

Over 300 Home Testimonials Now on File-All Patients Are Boosters. No Incurables Are Acepted

Home testimonials from relatives, neighbors and friends is what inspires confidence in any remedy or method of healing disease. It is these home cures and home testimonials that have given the people of Fort Worth and tho great southwest such unbounded con-ildence in the Hot Springs Doctors that the institute at 960 Houston street is packed with waiting patients all day long every day, and many days Dr. Kinsey is not able to see all, and some are obliged to return a second or third

When the Hot Springs Doctors present a testimonial to the public it is not signed by some mythical "Bill Jones" of Posey county, Indiana, but by an actual resident of Fort Worth or some other place in Texas, with correct name and address, so that unbelievers can find and converse with the person testifying, and thus doubters can be assured of the genuineness of

The Hot Springs Doctors opened their institute in Fort Worth only a few short weeks ago, and already hundreds of cures have been made and voluntary testimonials are being filed

Mrs. W. A. Buchanan of Winnwood, I. T., called at the Hot Springs Insti-tute yesterday and stated that the Hot Springs treatment was making a new woman of her, that all other doctors had failed to relieve, that she now rests at night for the first time in years. Among hundreds of others who are pleased to testify are:

G. D. Fischer of 1828 Jennings avenue, who is able to work again. James Kennedy of 111 East Johnson street, who had not been able to work for weeks until he took Hot Springs treatment, is now at work. W. O. Seaberry of 2018 Main street, North Fort Worth, says he is doing

W. B. Mims of 305 Edwards street, is back on duty as mail carrier No. 7 Hot Springs treatment made him well when he was on crutches. J. R. Binyon of 603 Jones street, who is rapidly being cured of paralysis. Six-year-old Anna May Crosson of

Riverside, paralysis. Johnnie Putnam of 1402 Calhoun street, whose shrunken, shriveled arm is fast growing to normal size under Hot Springs treatment. W. M. Fetterly of 1309 Wallace

street, and hundreds of others whose

names are on file at the Hot Springs Institute at 900 Houston street. The grand free open air entertainnte at Fifth and Taylor street close with a big double bill Saturday evening. The last three performances will be given tonight, tomorrow and Saturday nights. The Great Anselme will give away \$100 worth of the famous Hot Springs remedies at each of these three last performances. After this week the remedies will be on sale at the drug stores at full regular prices. The arrival of several new comedians and dancers will make these last three shows the best of the series given in Fort Worth.

shower baths for the junior members. The gymnasium being two floors in height also takes up part of the second floor. On this floor are included 400 lockers for the adult members of the association and the shower and other baths and also the cold water plunge. An innovation in Y, M. C. A. circles is the setting aside of one corner of this floor for what is to be termed "The Business Men's Club." This is intended to be used as a dressing and lounging room for business men, who shall pay \$25 a year instead of the regulation \$10 a year, and thus be accorded the use of a larger locker and a more private place for dressing and shower bath rooms. This part of the building will be fitted up with a lounge and easy chairs, so that a member belonging to this department can use the room for a resting place and read the magazines, newspapers etc., while there. The main floor of the building, however, is the pride of the entire structure, being handsomely fitted up. With a high ceiling and large double folding doors opening between the various rooms, it makes an admirable place for association purposes. On this floor are located the rooms for reading, writing,

games and other purposes of the Y. Lunch Room on Main Floor The cafetiere where noonday lunch will be served is also on this floor. The rooms for the junior members are here. too, and can be arranged so that the younger members will be entirely cut off from the others by merely closing the doors. In fact, this scheme is carried out everywhere in the building. When the hours for use of the gym and other parts of the building by the boys is at hand a door is locked which leads into the senior quarters and there is no ingress or egress that way. At

other times the door to the junior quarters is locked. On the fourth floor are located the rooms which are rented from \$15 to \$20 a month. They have been handsomely furnished and have already been applied for by large numbers of the young men of the city. A large sitting room for the use of the roomers, with writing table desk lights, etc., is located in the front of the

The fifth floor has not been completely furnished yet, but will be equipped with more rooms for renting and also for the class rooms of the association to be used for educational purposes. As soon as this floor is completed an elevator will be put in in order to carry people up and down. A shaft for the elevator has been left

vacant in the building. The lunch counter plan of the building is an innovation in this city, the plan of allowing everyone to help himself and thus dispense with the services of waiters. A number of regular dishes will be on the menu at all times. while special hot dishes will be served on different days. A counter has been provided upon one corner and everyone wishing anything to eat will step there and select what he wants.

The menu of the cafetiere will include soups and bouillons, relishes in ason, eggs and oysters, cold meats, including chicken, roast beef, pork, ham, etc., breakfast foods, sandwiches, hot drinks, including coffee, tea and cholocate; cold drinks, including milk, buttermilk and tea, and desserts. The cafetiere will not be open until

# MANY BUILDINGS **PLANNED FOR 1907**

Building Contractor Talks to Reporter

"I expect more buildings to be erected in Fort Worth and suburbs during 1907 than were erected during 1906, said one of the leading building contractors to a Telegram reporter Thursday afternoon, "and I expect the principal business house building will be off Main and Houston streets.

"A great deal of vacant property has changed hands within the last few months that has been withdrawn from the market, it was not bought for speculation and therefore is not for sale. There is some property on Main street virtually vacant, for the buildings on it are old unsightly shacks, that cannot be bought at any price for the reason that the owners intend to erect modern business structures on it. Throckmorton, Rusk and the different cross streets will be the scene of the most extensive business house

building during the year. "There are now being planned number of palatial homes for Fort Worth successful business men that will be erected during the year, and men of small means-men who are on salaries have been buying lots this year to build homes on them in 1907, and I expect the building of homes in Fort Worth will be greater in 1907 than during any previous year. And if 1907 proves a good crop year, I believe the building boom will run over into 1908 and probably 1909. The town has a start that promises much in the future and there is no reason why we should not have the largest city in Texas in five years time, and believe we will

# **Charcoal Kills Bad Breath**

Disagreeable Odor Arising From Indigestion or From Any Habit or Indulgence, Can Be Instantly

Sample Package Mailed Free Other people notice your bad breath where you would not notice it at all. It is nauseating to other people to stand before them and while you are talking, give them a whiff or two of your bad breath. It usually comes from food fermenting on your stomach. Sometimes you have it in the morning that awful sour, bilious, bad breath. You can stop that at once by swallowing one or two Stuart Charcoal Lozenges, the most powerful gas and odor absorbers ever prepared.

Sometimes your meals will reveal themselves in your breath to those who talk with you. "You've had onions," or "You've been eating cabbage," and all of a sudden you belch in the face of your friend. Charcoal is a wonderful absorber of odors, as every one knows. That is why Stuart's Charcoal Lozenges are so quick to stop all gases and odors of odorous foods, or gas from indigestion.

Don't use breath perfumes. They never conceal the odor, and never absorb the gas that causes the odor. Besides, the very fact of using them reyeals the reason for their use. Stuart's Charcoal Lozenges in the first place stop for good all sour brash and belching of gas, and make your breath pure. fresh and sweet, just after you've eaten. Then no one will turn his face away from you when you breathe or talk; your breath will be pure and fresh, and besides your food will taste so much better to you at your next meal. Just try it.

Charcoal does other wonderful things, too. It carries away from your stomach and intestines, all the impurities there massed together and which causes the bad breath. Charcoal is a purifier as well as an absorber, Charcoal is now by far the best. most easy and mild laxative known. A whole boxful will do no harm; in fact, the more you take the better. Stuart's Charcoal Lozenges are made of pure willow charcoal and mixed with just a faint flavor of honey to make them palatable for you, but not too sweet. You just chew them like candy. They

are absolutely harmless. Get a new, pure, sweet breath, freshen your stomach for your next meal, and keep the intestines in good working order. These two things are tha secret of good health and long life. You can get all the charcoal necessary to do these wonderful but simple things by getting Stuart's Lozenges. We want you to test these little wonder workers yourself before you buy them. So send us your full name and address for a free sample of Stuart's Charcoal Lozenges. The Officers Caught Eight Wednesday Night

In addition to the usual furniture to be seen at the sheriff's office there was also Thursday morning three policy wheels, which had been brought in by a party of raiding deputy sheriffs Wednesday night. The raiding party was organized Wednesday afternoon and was composed of W. H. Roark, A. S. Higgins, C. . Everett and Al Smyel, deputy sheriffs, and operations began about 7 p m. Wednesday. Tips as to where policy was being played by both negroes

and whites were received and no time was lost in getting on the ground. The first place visited was in Thirteenth street, between Calhoun and Jones, where in a house rented by a negro a policy wheel all ready for business was captured. The negro who run the place and another man were arrested.

From Thirteenth street the raiders went to Calhoun street, between Eighth and Ninth, where in another negro house a second wheel was captured and the man of the house and two others were arrested. From Calhoun street the raiders went to a negro house in Jones street. between Eighth and Ninth streets, and captured another wheel and arrested

seevral persons. Eight men in all were arrested, six of them being negroes, one a Mexican and one a Frenchman, as follows: F. F. de Aurria, Andrew Vilasco, Jim Hudson, Fred Reeves, Henry Thomas, Henry Jackson and two others. The above named six, after being taken to the sheriff's office, made bond, the bonds being signed by W. H. Coon, Sam Grey and S. Boehen. Cotton Sustains Further Loss-Trading Slow and Buyers and Special to The Telegram. Sellers Far Apart

Special to The Telegram. NEW ORLEANS, Dec. 27.-The markets opened at a decline of from 7 to 9 points. There was a general lack of business at the early opening and the conditions were fair for a dull market. The market was also influenced by the bearish tone of the restricted trading to some New York market, which was the principal excuse advanced for the decline. The trading operations were slow and draggy to well up in the session, when some activity was developed. The values gradually advanced on narrow margins, but no sensational feature developed. A light scalping trade kept the market in a trading position, the principal operations being the covering of shorts for early January commitments. The semi-weekly movement in thirteen inland towns of cotton showed the receipts of 132,000 bales against 137,000 bales last week and 58,000 bales last year. Shipments were 128,000 bales against 125,000 last week and 55,000 bales shipped at the same time last year. The stocks have gained 4,860 bales since last Friday, but this is today just as much of a holiday market as it was before Christmas. Neither future or spot people seem to have any desire to do much trading until after the New Year. However, spots sold today show up fairly well, but they include practically everything

done over the holidays. The market remained lifeless, and there was unusually small trading operations, with the outside interests small. The spot buyers and sellers were wide apart and operations were restricted to very narrow lines. New Orleans Cotton NEW ORLEANS, Dec. 27. Open. High. Low. Close. January ... 9.86 9.87 9.79 9.81-82

Market Was Dull and Featureless. Visible Supply Statement Expected to Be Bullish

Special to The Telegram. NEW YORK, Dec. 27.-Futures opened about 4 points down and made | May ...... further declines. The undertone was bearish and trading operations were on a very small scale. There was very little interest manifested by spinners regarding supplies, except for the better grades, but this had no effect on the speculative trade . The majority of the influential operators are yet out of the city and the few locals are moving very cautiously thru the holidays. The market developed a little more strength, however, but the values were kept at a comparatively low ebb thruout the session. All markets were opened today, but on account of the lethargy which follows the close of the exchanges, the traders were slow in getting a line. The statement of the visible supply to be issued tomorrow will compare as follows: American, increase over last year, 123,977 against an increase the year before of 67,537. Other kinds, increase over last year, 93,000 against increase the year before of 30,000. The total increase is 216,977 against 97,537. Spinners' takings last year 188,000, against, in 1904, of 305,000. The statement is expected

to be bullish. The market remained dull and featureless thruout the day. The crowd was waiting to see what will happen tomorrow on the parting of the notices giving the visible supply, and the mar-

CHICAGO, Dec. 27 .- The market opened very quiet, with no special change in the prices of grain. The provision market was some lower, and very weak. There was no outside buying and the demand was very light and the small receipts perhaps Growing wheat was reported to be in good condition, but the erop is by no means safe. At this time it is illogical to figure the growing crop as an influential factor in the present trading operations, for there are many things that may arise to greatly damage, or annihilate the crop altogether before maturity. Bradstreet's report of the available supply of wheat gives an increase, the figures 3,500,000, against 710,000 decrease last year. The market was probably helped some upon Liverpool cables giving a decrease in the Antwerp crop, the Liverpool was quoted at %d lower at the opening. The corn market was generally quiet and uninteresting most of the session with moderate fluctuations. The trade was slow, and mostly local. The undertone was heavy, but professional traders would only sell on best bulges. Oats sold more readily than other grains at a slight decline. The cash demand was good and some trading was done. The proper comparison of the oat crop makes a total of about 100,000,000 bushels smaller than last

Pork opened weak and some lower, but soon recovered and worked higher. Packers were heavy sellers at the opening, but the outside trade came on the market with good buying orders and the values began to increase. The report of packing showed 620,000 medium hogs, against 605,000 packed at this time the year before. Offerings in mess pork were a little more liberal, and the prices improved toward the close.

tin took broader ground than is usual in these perfunctory welcomes and replies, and generally, discussed the value of meetings of the kind and made the assertion that all of the great advances in educational matters in the last twenty years are due to the combined influence of the National Educational Association. Therefore, he was an earnest advocate of the state teachers' meetings and of the free and full discussions which accompanied them. The first of the set papers was that of E. I. Hall of Dublin, who submitted his views on the "Ideal Course of Study," in which he took the ground that there was a course of study which would have the effect not only of developing the mind, but would also be of a practical value to the individual in the future dealings with the world. Beautiful Souvenir One of the best calendars that has come to The Telegram office this year is the production from the printing offices of the Keystone Printing Company of Fort Worth. The fact that it is a home product will no doubt surprise a great many of those who will receive it. It will find a very welcome place on many a wall and is one that cannot afford anyone an excuse for not keeping posted on the day of the month. The figures are two inches in height. Typographically the work is in two colors and is of the usual excellent brand that the Keystone turns out for its customers. It will be a pleasing fact to Fort Worth people to know that such work can now be secured in faeir own town.

# PREDICT PANIC IN JAPAN'S FINANCES

Interview by Baron Shibusawa of Japan

By Associated Press. VICTORIA, B. C. Dec. 27.-In a recent interview Baron Shibusawa, a prominent Japanese economist, predicts a financial panic in Japan as a result of the reaction from the war which has just begun to be felt. He said the bankers were responsible for stimulating a mania for the promotion of new undertakings which had now reached the fever heat. He suggested that in order to prevent the forthcoming panic, the currency be contracted so far as possible and treasury bills to the amount of \$25,000,000 be issued.

Business during the entire fall has been far ahead of the fall of 1905, but the Christmas business everywhere exceeded expectations of almost every merchant of the city. Goods were ordered sent by express in many cases in order to fill up the vacancies caused by the purchase of stock.

At the banks, deposits of merchants of the city were reported as far in excess of the business of the year before, altho it was impossible to state how much ahead they were. It is thought that the increase will run about 331-3 per cent higher than the business of 1905 Christmas holidays, which in itself was considered very

Almost all of the merchants were willing to say on Thursday morning that their business has increased at least a third during the holidays, while many said that it had gone even beyond that. Relief has come to the clerks, altho the bookkeepers are still as busy as ever, if not more so, preparing to send out the monthly state-

Business on Christmas day alone ran into the thousands at these stores which were open. Another sign of the tremendous business done at the stores here is in the bank clearings for the day before Christmas and the day after. There were no big amounts to cause yet the day following Christmas total clearings came near breaking the record, altho a few thousands below the largest's day business. Local Roller Polo Team Defeated on Home Rink Contrary to the highest hopes of the polo fans, the Shreveport quintet cap-

tured the honors from the local five at the Fort Worth rink Wednesday night, altho the third whistle seriously interfered with what promised to be an entirely different story. Captain Kinnard and his cohorts went into the game confident from the victory of the evening previous, but met with such a whirlwind play that the second period had come and

gone before recovery was possible, wherein the local lads could settle down to business. The visitors seemed to be imbued with a do-or-die spirit and the result was their hard accurate driving and clever team work on the part of Stamper and Hack proved a barrier which the locals could not scale. A fair sized audience and a decidedy enthusiastic one lost no opportuni-

lies to encourage the lads in red and black, but as one of the gallery gods expressed it, "fate was again' 'em and it ain't no use to buck bad luck." The features were the hard driving by Stamper of Shreveport and the clever floor work by Kinnard, both of whom exerted themselves as there existed a friendly feeling of jealousy due to the fact that the two stars once

played on the same team. Toward the last of the second period with the score 4 to 1 against them, Kinnard's men pulled themselves together and by dogged exertion and clever team work succeeded in disarranging the draperies for three pret-

ty scores. The third and final period was by far the most exciting, but try as they may Fort Worth was compelled to accept the small end of a score of 6 to 5 in which the fans loudly expressed

their disappointment Inasmuch as each team now has a game to its oredit, the final contest conight will be stubbornly fought out and at 10:30 o'clock, when the first whistle sounds, it is a certainty a good sized audience will be on hand witness the battle.

Managers of skating rinks in several surrounding cities will be present to witness the game and it is quite probable that within a month a Texas roller polo league will have been formed and the fastest indoor game on record will have been begun in

### PYTHIAN ROMANCE

Territory Doctor Wins a Bride in New Orleans

The marriage of Dr. C. H. Howell

of Comanche, I. T., and Miss Hazel Hutchinson of New Orleans at the home of the bride on Canal street, New Orleans, Wednesday, was another step in a romance of the last Pythian encampment held in New Orleans. Last October some of the Uniform Rank, Knights of Pythias, of the Indian territory went to the Crescent City for the occasion and among the number was Dr. Howell. At Dallas he joined the Fort Worth contingent that went over the Texas and Pacific and chummed with them during the stay of the members of Ruby Company No. 65 at New Orleans. Some of the members of the company were dissatisfied with the accommodations afforded at the encampment and sought other quarters. Among the number was Harry Ingrum of the Leader, Fort Worth. Dr. Howell went with them and they found a pleasant boarding place at the residence of Mrs. Hutchinson, who was the widow of a former member of the order. The first evening they changed to Hutchinson home a party was made up for an auto ride over the city, and Miss Hutchinson. was one of the party. Dr. Howell was favorably impressed and so, as it was afterward proven, was with the young woman a mutual affair. He was devoted to her during the week or so of his stay there, continued the acquaintance thru the medium of the mails, and, later returning to New Orleans won the promise of the lady to be his wife and the date was set for Dec. 26. A few days ago Dr. Howell passed thru Fort Worth on his way to New Orleans for the wedding and while here was the guest of Mr. Ingrum. He will come back this way in a few days with Mrs. Howell on their way to the home of the doctor at Comanche.
