Must Be Brought to Trial at January Term

IN A VERY BAD BOX

Insurance Officials See Long Terms in Penitentiary Starving Them in Face

Special to The Telegram. NEW YORK, Jan. 3.—It is announced by District Attorney Jerome that all of the indictments against insurance officials will be pushed to trial at the January term of the criminal branch of the supreme court.

Frederick A. Burnham, president of the Mutual Reserve Life Association, will be the first to be tried. Burnham's brother, George Burnham Jr., is now serving a three-year term, having been convicted of grand larceny in connection with the conduct of the affairs of the insurance company.

MORE MEN WANTED

The War Department Seeks in Vain for Recruits

WASHINGTON, Jan. 3.—Not in recent years, except in war times, has the army been so badly in need of men as at present. A recent circular addressed to all officers of the recruiting service made public at the war department, calls attention to the fact that recruits are needed in large numbers for the coast artillery, field artillery, white infantry and white cavalry.

RACE ENTRIES CLOSED

Record for Coney Island Jockey Club May Be Broken

NEW YORK, Jan. 3.—Entries for the Suburban handicap and other important stake races for 1907, to be run at the Coney Island Jockey Club, Sheepshead Bay, next summer, closed at midnight last night. A quantity of flimsy list will be issued for several days, the indications are for a very big entry list, and it will occasion no surprise if the record for the big event is reached or broken.

WOMAN WAS JEALOUS

So She Gave Away Location of Counterfeit Coin Factory

MADRID, Jan. 3.—A counterfeit coin factory in the house of a man named Jose Cisneros was raided yesterday by the police. A quantity of coins, dies and machines were seized. A surprising discovery by the police was that seven women, living in as many different apartments, distributed the spurious product. Jealousy on the part of one of the women prompted the information on which the raid was made.

ENGLISH CHARITIES

Special to The Telegram. LONDON, Jan. 3.—English charities have doubled during the year. In 1906 about \$300,000 was distributed for charity. This is double the annual average of the past twenty years. This was derived principally from the offerings of four persons, the chief of whom was Alfred Bell, the co-laborer of Cecil Rhodes in South Africa. He left an immense sum to charity, the details of which have not yet been made public.

HEARINGS WILL BEGIN FRIDAY

Attorneys Refuse to Discuss the Case

By Associated Press. NEW YORK, Jan. 3.—With the beginning of their investigation of the Harriman railroads only two days off, Frank B. Kellogg and C. A. Severance of St. Paul, attorneys for the government, spent the whole day in conference with the legal representatives of the Union Pacific and its allied systems.

The first hearing before the interstate commerce commission will be held in the federal building at 10 o'clock tomorrow morning. Mr. Kellogg said last night that he would make no statement prior to the hearings themselves and the Union Pacific officials were saying nothing yesterday. Ex-Judge Lovett, Mr. Harriman's personal counsel, was at the government attorneys' headquarters most of the day and William Nelson Cromwell, who is expected, will appear for the railroad in the hearing.

AGED ORGANIST DIED THURSDAY

While Fatally Ill He Composed Organ Music

By Associated Press. NEW YORK, Jan. 3.—Professor Albert William Berge, for forty years organist at the Protestant Episcopal church of the Transfiguration, commonly known as "The Little Church Around the Corner," died yesterday at his home here, aged 81 years. Dropsy, from which he suffered and heart disease, caused his death. Professor Berge was a composer and musical critic as well as an organist. His last composition was a Gloria for a "Nunc Dimittis," which was the last work of a composer, Henry Wilson, who died about a quarter of a century ago. Wilson's widow had asked a musical house to publish this "Nunc Dimittis" and the firm asked Professor Berge to write a Gloria for it. The organist did so, the fatality ill.

CUP RACE IN AIR

International Event Slated for Oct. 19 in St. Louis

By Associated Press. NEW YORK, Jan. 3.—Cortlandt Field Bishop, president of the Aero Club of America, announced upon his return to New York last night from St. Louis, that Oct. 19 has been selected for the date of the international race in the city. The Aero Club of America has been demonstrated by tests that gas of the best quality is to be had in practically unlimited quantities.

HAD RIGHT MAN BUT LET HIM GO

Officers Allowed Negro Who Shot Macklin to Escape

By Associated Press. TOPEKA, Kan., Jan. 3.—A negro who is believed to know the name of the negro supposed to be a member of Company C, Twenty-fifth infantry, who shot and seriously wounded Captain Edgar A. Macklin, at the latter's home at Fort Reno, O. T. two weeks ago, is being sought by the authorities. The man was under surveillance here for several days and finally was taken before District Attorney Bone and questioned. Attorney Bone was convinced he was not the man wanted and released the negro, and now the authorities are seeking him in the belief that if he is not the real assailant of Captain Macklin, he knows the name and probably the whereabouts of the man wanted.

BELIEVE CHIEF IS STILL ALIVE

Believe Moslems Will Be Rid of Christians

By Associated Press. NEW YORK, Jan. 3.—A cable dispatch to the Herald from Alexandria, Egypt, says that Saleh el Khalidi, president and delegate of the central committee of the Islamic Union, has arrived here. He declined to divulge the object of his visit, but holds credentials of the head of the Senoussi sect which enabled him to travel thru Tripoli with the greatest facility. He reports that great excitement prevails throughout Cyrenaica owing to the news that the Mahdi, who was believed to have died four years ago, is still alive. The correspondent says that Khalidi showed him the copy of a letter addressed to the head of the sect in which he stated that the head of the sect had been seen recently in the guise of a Dervish in the neighborhood of Abecha, capital of Wadai. The letter sends a message of hope to the Senoussi, adding: "The time is approaching when Moslems will be rid of the Christians. Members of the sect, the correspondent says, are firmly convinced that their chief is still alive and will soon leave Kufra, in the hills north of Egypt, to reconquer Algeria, Tunis and Egypt."

USED MOTOR CAR TO SAVE A LIFE

Machine Utilized in Hot Race Against Death

Special to The Telegram. CHICOPEE, Mass., Jan. 3.—Because of the presence of high walls, which rise on either side of the Chicopee Falls canal here, the peril which a fall into the water would entail has been sufficient to warn pedestrians from walking along the canal. Henry L. Norton, a Brookline contractor, had occasion to mount the wall today. He lost his footing and plunged into the canal, whose waters run swiftly. The barriers on either side made escape impossible, although he considered his position hopeless, he continued swimming to keep his head above water. John Hall of Chicopee was riding in his motor car near the scene when he saw Norton fall. There is a bridge a quarter of a mile below the place where Norton plunged. He called to him, but Norton, slacking only when he came upon half a dozen pedestrians whom he impressed in the work ahead. Before the bridge was reached he told them of a plan to utilize the car. The men alighted at the bridge, one seized the rear of the car, and the others, locking arms and feet, propped over the guard rail of the bridge. Norton was carried toward them by the current and as he approached they shouted words of encouragement. The last "link" of the chain caught him as he swept within reach. Hall, who remained in the car, rowed forward and pulled Norton up. Norton, who had been in the car, was drawn safely upon the bridge.

PIFFLE PAFFLE STOLE PAIR OF SHOESTRINGS

PIFFLE PAFFLE has accomplished what Chief Maddox and others say is the cleverest piece of light fingered thieving they ever heard of. In broad daylight and in the presence of half a hundred people this wonderful dog stole from Manager McFarland of the Majestic theater, the shoe strings Mr. McFarland was wearing. This took place just before the matinee Wednesday afternoon. Mr. McFarland was standing in the lobby of the theater, and the crowds were passing in to see the afternoon performance. Mr. McFarland did not know his shoe strings were gone until a telephone message from the Telegram told him that Piffle Paffle had stolen them. Then he would not believe it until he examined his shoes and saw that the strings were gone.

POTTED HAM

And the festive little "bags of mystery" labeled "frankfurters" we feel better acquainted with since the government investigation and Sinclair's novel, "The Jungle," and like most things one gets close to, our appreciation and appetites have been dulled—even blunted and suspicious of all things in a can. The incident is merely mentioned in passing as an example of the power of printers' ink. Do you realize what a potent factor printers' ink can become in your business? Used judiciously in The Telegram it is the most inexpensive business getter, or salesman, any Fort Worth merchant can employ. It is Fort Worth's home paper.

FORTY-NINE WERE KILLED IN WRECK

Rock Island Accident Proved Worse Than First Reported

By Associated Press. TOPEKA, Kan., Jan. 3.—It is impossible to say just how many persons perished in the Rock Island train wreck at Alma, Kan., yesterday, as a number of bodies of Mexicans were destroyed by the burning of the smoking car. The conductor says there were seventy-six Mexicans on the train and it is feared that forty-four of these were killed, together with four passengers, all men, and the negro train porter, making a total dead of forty-nine. A coroner's inquest will be held at Alma today, when John Lykes, the boy telegraph operator, who is blamed for the collision, will testify. The investigation will be continued at Topeka. So far as known all the women in the train escaped death, and none was even seriously injured. Mrs. Harry Wright of Dalhart, Texas, was held bound for Decatur, Ill., where unburied.

FATHER OF HOPPE RETURNS TROPHY

Says Son Did Not Get Square Deal

By Associated Press. NEW YORK, Jan. 3.—Frank Hoppe, father of Willie Hoppe, the world's ex-champion at 18.1 balk line billiards, returned the diamond trophy emblematic of the championship to its donors yesterday. Notwithstanding this Willie Hoppe yet claims to the title of champion. Mr. Hoppe appears to think that his son received poor support and bad treatment from the followers of billiards in this country. He says that instead of a series of high-class challenge matches, his boy is forced to seek employment for his skill abroad and relinquish the emblem which he won from Vignaux a year ago, and which he subsequently successfully defended against Slosson and Schaefer, who challenged him for it. Willie Hoppe says he will play Putton or any other billiard player three nights for \$10,000 and the championship.

FELLOW-PRIESTS PLOT AGAINST HIM

Father Carones Was Ladies' Favorite Confessor

By Associated Press. LONDON, Jan. 3.—A correspondent of the Daily Express in Rome says that Father Virginio Carones, who is said to be in New York, left Italy to escape intrigues against him. His sudden disappearance from Rome some months ago was a puzzling mystery which has now been solved by the publication of a document he left behind. In it Father Carones says that he was popularly excused the jealousy of fellow priests who schemed for his expulsion. Ex-Queen Marguerite frequently asked him to conduct special services and he became the favorite confessor of many of the most prominent ladies in Rome.

LUMBERMEN MAKE VIGOROUS KICK

Dissatisfaction With Western Weighing Association

By Associated Press. NEW ORLEANS, Jan. 3.—Charges that the Louisiana lumber interests lose approximately \$1,000,000 per year because the methods used by the receivers in weighing lumber shipments today will be laid before the state railroad commission here. The protests were made by the Yellow Pine Lumbermen's Association of Louisiana and the Southern Cypress Dealers' Association. The \$1,000,000 loss is declared to be due to excess weights recorded by the railroads, the following causes being alleged for such errors: The weight of cars is frequently incorrect, the practice being to use the weight stenciled on the cars when they were built, despite subsequent repairs. Much lumber is carried in unseasoned stock cars, in which hardened dirt is added to the weight of the lumber. The same rule of coal cars, the most of which are not cleaned. In gondola flat car shipments the carriers make no allowance for rain increasing the lumber weight, although prior to May 4, 1906, 2,000 pounds per car was allowed, and before being entirely abolished this allowance was placed at 500 pounds. Finally, petitioners object to having the Western Weighing Association of Chicago pass upon weights, the correctness of which is a lumbermen dispute. The petition says: "The Western Weighing Association passes up claims 1,200 miles away from the point of origin of the lumber, and the evidence furnished by the carriers themselves as to weights and tares is satisfactory." The governor's recommendations in regard to the control of corporations are the most drastic and radical ever proposed in the history of the state. The 2-cent fare for passenger transportation will meet with bitter resentment among the railroads, but public sentiment demands its enactment. The law regulating rates to be charged by public service corporations will apply to all street, water and lighting companies as well as railroad, telegraph and telephone corporations. The amendments to the liquor law proposed by Governor Folk will be reaching in their effect, and will involve an entire revision of the dramshop laws of the state. The brewing companies, who are the beneficiaries of numerous drugstuffs who are now saloon keepers' principal competitors. A bill prohibiting common marriages in Missouri and abolishing the marriage of persons afflicted with incurable diseases or without visible means of support has been drafted by Thomas Leonard, an assistant in the office of the house of delegates, and will be presented to the legislature. It requires all applicants for marriage licenses to undergo a physical examination, and that the male candidate for matrimony be able to demonstrate his ability to support a wife. Governor Folk will make special attempt to have a bill providing for the punishment of lobbyists rushed thru the legislature. The law will provide fines of from \$100 to \$500, and imprisonment in county jails for from ten days to twelve months.

HEARST IS TIRED OF ELECTIONS

He Is More Than Ever Interested in League

By Associated Press. NEW YORK, Jan. 3.—William R. Hearst reiterated yesterday at a meeting of the city committee of the Independence League, that he will never again be a candidate for office. Mr. Hearst said: "I myself am not and will not again be a candidate for any office, but I am as much interested as ever—and more interested than ever—in the promotion of the principles of the Independence League. It seems to me that we can all feel satisfaction upon what has been and is being accomplished. And it seems to me that as patriotic citizens we need not care particularly what individuals support those principles and reforms into effect as long as they are actually being accomplished for the benefit of our fellow citizens. "I believe that the league will go forward to further greater achievements and I heartily offer you, my friends, my best services as a fellow worker to those ends."

WARLIKE PREPARATIONS BY THE CUNNING JAPANESE

Special to The Telegram. HONOLULU, Jan. 3.—Japanese in companies of forty are having infantry drill after dark with rifles on the campus of the Japanese school, a quarter of a mile from the capitol building. Two and three nights a week the men gather in the school grounds, and armed with rifles, go thru close and open order drills very quietly, and the manner of sighting and aiming the rifle. The men are not raw recruits, but execute the orders of the drill master with the swing and precision of trained regulars. During the day the rifles are kept locked in the schoolhouse. The Japanese steamship Nippon Maru, which is also a naval reserve cruiser, brought another large number of Japanese to Honolulu last month, nearly all of whom wore models of the Russo-Japanese war. The steamer is manned and officered by naval reserve sailors, and has in her hold the guns which were mounted on her deck while she was a converted cruiser and army transport during the late war.

Senator Bailey's campaign since the movement against him was started has been a series of masterly retreats. He has retreated until he has reached the last resort of the politician, the party whip, and armed with this he is making a last stand against his opponents.

It is quite probable those applications will remain unacted upon in light of new evidence that is being unearthed at Brownsville. The pets of Senator Foraker seem to be up against the real thing.

It is characteristic of the race that when you catch a man in wrongdoing he resorts to the methods of the bully and bulldozer--Petty Enterprise.

Crane has been a great disappointment to his friends, from the fact he has fluked at two important engagements with the enemy. All the world loves a fighter.

The rankest attempt at supplying biased news reports of affairs in the Texas senatorial muddle was given of the DeLeon speaking of Cullen Thomas by the Fort Worth Record in the issue of last Friday.

Judging from the present indications there will be an investigation at Austin when the legislature meets that will awaken Texas. It may result in letting the people know the whole truth why the mighty law-breakers--the trusts--are allowed to do business in Texas with impunity.

If there are persons in Texas who have aided and abetted the trusts while occupying public position, they should be held to a strict accountability. The anti-trust law in Texas should be rigidly enforced.

The average teacher's salary is \$300 a year, while the average salary of a janitor is \$900. This statement was made by H. F. Triplett, superintendent of the Beaumont schools. The statement requires no comment. We indulge in much sentiment regarding the teachers and their work, but when it comes to the showing of the appreciation in a practical way, we are very much lacking.

And the average teacher in Texas is an individual who is following that avocation only as a stepping stone to something better--in other words, teaching for the money there is in it. What Texas needs is professional teachers at salaries sufficient to make the profession remunerative.

For the first time in Texas, the democratic party lash is being cracked over democratic representatives in an effort to make them do something contrary to their ideas of right and their consciences--Marshall Messenger.

There are a few individuals in Texas who are foolish enough to imagine that the people of this state will submit to party bosses. They are trying to build up a machine, but are making very little progress.

Since the Pullman company has been struck by the railway commission to lower the price of berths what will be the outcome? Separate sleepers for whites and negroes or no sleepers in Texas?--Sherman Democrat.

The Pullman company might withdraw all its cars from the state and never run another one across our border, and that would not prove an unbearable calamity. There would still be many sound sleepers left in Texas.

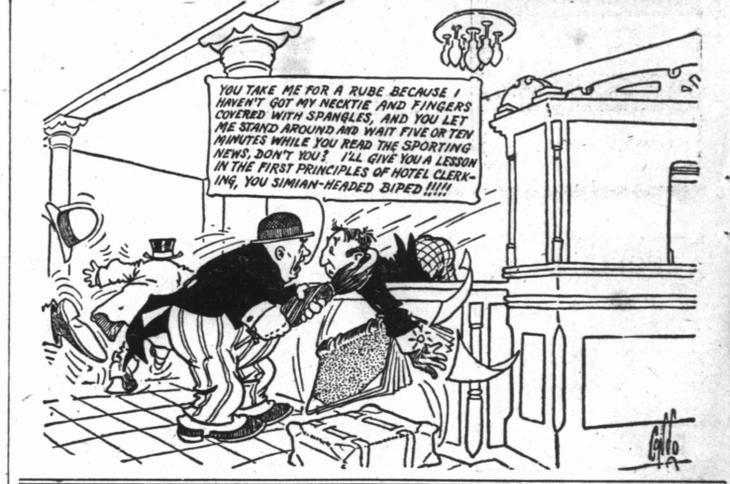

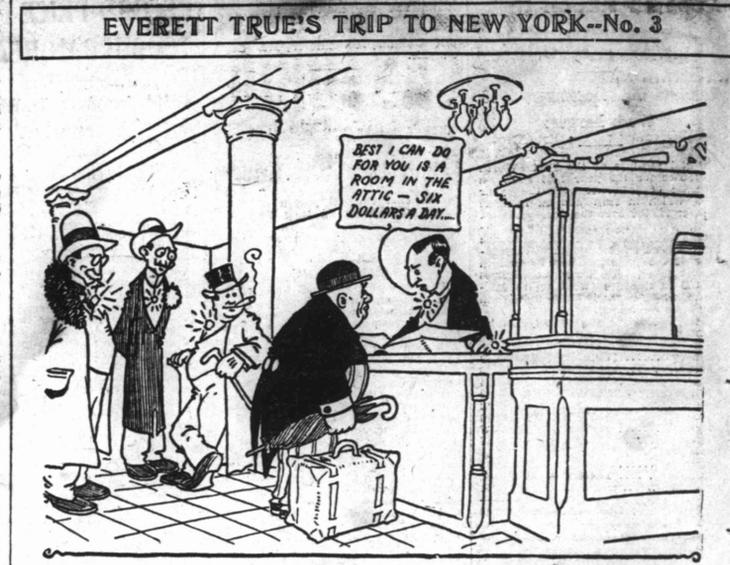

If it is anti-democratic to plead for or demand purity in politics then there must be a few planks in the last few platforms that have been kept from the knowledge of the public--Austin Tribune.

It is not anti-democratic to demand purity in politics. But it is undemocratic for a servant of the people to accept employment at the hands of a public service corporation.

HEROIC After the vote on the salary question never again can the members of the house of representatives be accused of seeking nomination to that august body for the sake of the loaves and fishes--Baltimore American.

OF COURSE NOT There is no reason why the south and the constitution should not live in peace and concord--New York World.

JARRED HIM LOOSE The king of Sweden has notified his minister at Washington, Mr. Glop, to leave himself from the job--Boston Sun.

THE TELEGRAM AND THE TEXAS PRESS

THE FRISCO EXHIBIT CAR The Fort Worth Telegram notes the proposition which Captain Fulton S. White is making to bring the Frisco exhibit car over this branch of the Frisco system, and says that if the other places will show as much interest as Brownwood is manifesting in the visit of the car the trip will be made.

THE NEXT STATE LEGISLATURE

The next state legislature is going to have a very unpleasant duty to perform, no matter which horn of the dilemma it takes in the Bailey matter. If Bailey is defeated the cry of injustice will be raised by his friends, and if he is elected there will be a roar heard from the masses that will shake the capital hill.

CASE OF SENATOR HAWKINS

Senator Hawkins did the only thing an honorable man could do who felt weighted down by instructions that were distasteful to him. He goes before the people and asks them to release him from his burden, and free him from the necessity of doing violence to his conscience.

OF COURSE NOT

There is no reason why the south and the constitution should not live in peace and concord.

ONLY ONE SMART MAN

The Fort Worth Telegram states that if Bailey carries Comanche county it will be heralded as a great victory and a vindication of his fee-taking; if he loses it will be characterized as decisive of nothing.

VERGET THAT RING

SPELLING AND I ARE OUT (With apologies to "Betsy" and her author.) Draw up the papers, Andy, and make 'em good and stout. I'm thru with simplified ragtime--your spelling and I are out; I'm tired of trying to make 'em write missed as if 'twere "mist," And, Uncle, you and Brander will fall when it comes to "kist."

POINTED PARAGRAPHS

The whole world loves to get the laugh on a leaver. Don't hope to please others if you can't please yourself. Marriage isn't apt to be a failure unless you marry your ideal. Beware of the man who is envious of the happiness of others. We are told that man is made of dust--and yet just always settles. Some love affairs end at the altar--but the majority never get that far. Every time a large man shrinks from his duty a small man rises to the occasion. Many a man talks as tho he considered himself chief adviser to the Almighty. Wise men ascertain what is on the other side of the hurdle before jumping at conclusions. One of the things a family man has to be thankful for is that Christmas comes but once a year. If a woman buys her husband a Christmas present it is usually something the whole family can use. There is probably nothing quite so empty in all the world as an empty stocking on Christmas morning. All heroes are good and all villains are bad on the stage, but it is often otherwise in real life. Men guess at a thing and if it happens to come out their way they boast of their good judgment. No, Alonzo, men and hogs are not in the same class. Hogs sometimes know when they have enough. It's a pity that the average woman hasn't half as much patience with her husband as she has with her baby. Most men believe in the honesty of their fellow men until after they have indorsed a few notes for their friends. Put more strenuously in your efforts to resist temptation and you will not have occasion to pray for forgiveness so often. Time may be money, but no barber is willing to accept as payment for the shave the time a man wastes, while awaiting his turn--Chicago News.

A Ship Without A Rudder

Such is a man without money. On the sea of adversity, in the storms of need, he is tossed about on the seething waters of circumstances and driven before the gale of poverty, all because in times of sunshine he has failed to lay aside a little of his earnings as a rudder in times of storm.

IV Explanations
"My love for Anson Durand died at the moment that crimson gleam—of I thought it did. In this spot of blood on the breast of him to whom I had given my heart I could read but one word—guilt—hateful guilt, guilt denied and now brought to light in language that could be seen and read by all men. Why should I stay in such a prison? Had not the inspector himself advised me to go?"

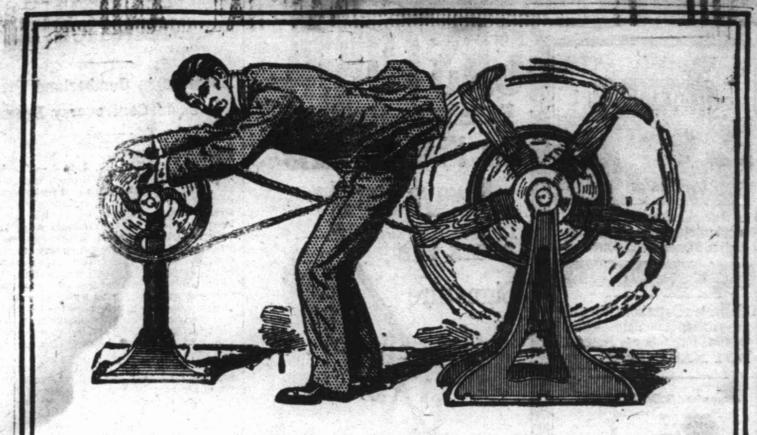

As he stopped, possibly for breath, possibly to judge to what extent I was impressed by his account, the inspector seized the opportunity to ask if Mrs. Fairbrother had been standing any of this time with her back to him. To which he answered yes, while they were in the window.

SCHNAPPS has been advertised in this paper so that every chomper has had an opportunity to get acquainted with the facts and know that drugs are not used to produce the cheering quality found in the famous Piedmont country flue-cured tobacco, and that SCHNAPPS is what he ought to chew.

CONGRESSIONAL GRIND BEGINS

Closing Session to Be Marked by Strenuous Warfare

WILL ATTACK PRESIDENT

Certain Leaders of Republican Party Will Seek to Discredit Roosevelt Administration

Special to The Telegram.

WASHINGTON, Jan. 3.—After a holiday vacation lasting two weeks congress reassembled today to begin the legislative grind that will last without intermission until March 4. Despite the declarations of a few of the sour-visaged solons that the adjournment for Christmas is idiotic folly, most of the legislators have apparently enjoyed their respite from labor and appeared today with beaming faces reflecting pleasant recollections of the Santa Claus season spent in the bosom of their families. Now that the congressional Jack has had the days of play which save him from being a dull boy, the work of the session will begin with a rush.

That the closing session will be marked by a warfare between the President and certain members of his party in the senate is now certain. Senator Foraker of Ohio, the true friend of the trusts, will be the leader of the anti-administration forces and will have the covert assistance of several other members of the senate, including Senator Spooner of Wisconsin. Foraker will open the hostilities by attempting to put thru a resolution containing the following criticism of President Roosevelt for his action in discharging the colored troops engaged in the Brownsville riot in Texas: "The President has not acted in the matter by his great love for the negro as asserted by the friends of the President, who declare that the colored troops were discharged as the result of the enmity of the powerful trusts and corporations whom Roosevelt has antagonized. If Foraker fails to create a stir by his airing of the Brownsville matter it is likely that Spooner will come to the rescue with an attack upon the President because of his treatment of the colored troops engaged in the Brownsville riot in Texas: "The President has not acted in the matter by his great love for the negro as asserted by the friends of the President, who declare that the colored troops were discharged as the result of the enmity of the powerful trusts and corporations whom Roosevelt has antagonized. SAYS THIS RELIEVES BACKACHE

A well known authority says that Backache is often Nature's danger signal which notifies the sufferer that the kidneys are sick.

The following simple home-made mixture is said to relieve backache and cleanse and build up the kidneys, it taken before the stages of Bright's disease: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after meals and at bedtime.

A well known local druggist is authority that these ingredients are mainly of vegetable extraction and harmless to use, and can be obtained at small cost from any good prescription pharmacy. Those who think they have kidney trouble or suffer with lame back or weak bladder, should give this prescription a trial, as no harm can possibly follow its use, and it is said to do wonders for some people.

OFFICERS INSTALLED

Public Installation of Two Lodges of Royal Achates

Two local lodges of Royal Achates, William Barlight lodge No. 35 of the city proper, and Trinity lodge No. 36 of North Fort Worth, held a joint installation of officers of the two lodges at the hall of the Fort Worth lodge Wednesday evening.

The installation was preceded by the initiation of several candidates for membership. The names of the officers installed follow:

TRACKS WERE BLOCKED

Texas and Pacific Wreck More Serious Than Was Supposed

The freight wreck on the Texas and Pacific, reported in the Telegram on Wednesday, was more serious to both east and west than first reported. The track had not been cleared Thursday morning and no trains, either passenger or freight had been able to get thru since the wreck occurred. The nearest detouring point available is at Mineola, and instead of detouring at Mineola, passenger trains were turned back both east and west, the passengers being transferred from one train to another. The track will be cleared today.

DISPLAY HOME GOODS

Board of Trade Has Scheme to Push Home Industries

The Board of Trade is having the cases for the display of articles manufactured in Fort Worth put in place Thursday morning. The new cases will be deep enough and long enough to hold the goods, and the back of the elevator. The purpose is to make a permanent display of all Fort Worth made articles which the members of the Board of Trade rooms and which are of a size that can be displayed in the cases.

WANT SMALL SALARIES

Third Ward Civic League Will Meet Thursday

A meeting of the Third Ward Civic League will be held at the club rooms Thursday evening, at which one of the more prominent topics for discussion will be the question of the salaries for the proposed city commissioners, some of the members of the club objecting strongly to more than \$1,800 per year salary for those officials.

LOCAL POLICE ARE TRANSFERRED

Two Promoted to Detective Department

The rearrangement of the local police force, the addition of eight patrolmen and the installation of mounted police in the residence districts have been formally announced by Chief of Police Maddox with the understanding that the various changes are to be put into execution just as quickly as possible.

The detective feature, which has been strengthened by the addition of two new members, will be subjected to several essential improvements, such as private departments, phones and a desk sergeant.

The promotion to the detective department include J. D. Allgood, formerly night police sergeant, and A. N. Bills, formerly mounted officer at the station, but was satisfied with his present position as desk sergeant, which he has held for the past seven years.

Another promotion is that of John Connelley, night patrol wagon driver, to the position of night sergeant, made vacant by the promotion of Mr. Allgood.

The mounted patrolmen for the residence districts is a feature long since needed by this city, and will be installed just as soon as suitable horses can be secured for those appointed. Four sections of the city have been arranged for this purpose, and a section for each twenty-four hours, the sections arranged as follows:

No. 1—North of the Texas and Pacific railway and east of Main street.

No. 2—North of the Texas and Pacific railway and west of Main street.

No. 3—South of Texas and Pacific and east of Main street.

No. 4—South of Texas and Pacific and west of Main street.

The new arrangement of the police register follows:

Detectives—A. G. Ray, G. T. Talbot, S. F. Maddox, Abner Speight, A. N. Bills and J. D. Allgood.

Mounted officers at station—A. S. Waller, A. L. Bibb, Denny Loyd and W. J. Williams.

Patrolmen—W. J. Turner, N. C. Mann, G. G. Davis, Charles Waggoner, A. J. Casey, S. S. McCreath, Louis Ladd and W. W. Standifer.

Substitutes—John Chapman, Frank Harmon, B. N. Bell, W. W. Perry, W. C. Bryan, J. E. Sang.

Substitutes for night relief—Bob McCuffey, first extra; Reynolds, second extra; Cooper, third extra.

Day sergeant—C. W. Newby.

Night sergeant—John Connelley.

Drivers—Joe Henderson and Ben Pullum.

Guards—George Craig and John Colard.

To Test Tick Damage

Special to The Telegram.

SAN ANTONIO, Texas, Jan. 3.—The tick problem in this city, and the bureau of animal industry, thru the efforts of Dr. J. W. Parker, inspector for the department, who has headed a series of tests to determine just how detrimental ticks are to cattle on the range, will be of profound interest to stockmen in this city.

The test will include weighing at stated periods and the result will be given out in a bulletin issued by the agricultural department. It has been said that some of the pastures down in the sand country where the waters are strongly impregnated with ticks are free of ticks. If this is the case the stockmen among them should place sufficient acreage under the test at the disposal of Dr. Parker so we can have the experiment made here at home.

Stroud Ranch Sold

Special to The Telegram.

ALPINE, Texas, Jan. 3.—"Yes, I have sold my ranch and cattle," said J. A. Stroud in response to an inquiry made by the Telegram. The ranch of Del Rio, and I understand he intends removing his family to the ranch as soon as practicable. There is a good garden and orchard and plenty of water for irrigation. I received for the ranch \$8,000 and for the stock \$10,000. The horses at \$40 per head, about an equal number of stock horses at half that price. No, I have not yet sold my other ranch, fifteen miles from Del Rio, and I have a standing offer for it and can dispose of it at any time. I have not decided on any definite plan for the future, but I don't think I shall buy again in the future.

Railroad Rumbles

Telephones in Caboose

An order for telephones enough to supply all of the cabooses of the Mexican Central has been placed and as soon as the factory can turn them out every freight train running on the whole system will carry a phone and be prepared to telephone to the nearest division point in case of a wreck or accident.

A telephone system now extends over the entire lines of the Central and all division points are connected with telephone communication. In case the telegraph wire goes down there is still a wire over which the train orders can be transmitted. All of the superior cabooses of the Central are supplied with the attachable telephones so that the officials may notify the division point of the details of a wreck which may occur, and personally superintend the clearing of the track.

When all freight trains are equipped with the phone, so the conductor can notify headquarters of a wreck or accident it will facilitate the clearing of the wreckage and will lessen the danger of collisions caused by wrecks and delayed trains.

Many of the roads in the United States have equipped their cabooses with these attachable telephones so that word of any accident may be sent in from the very spot where it occurs by connecting a portable telephone to the wires running along the track. The convenience is a most timely safeguard when in case of danger of collision due to delayed trains and to the roads that have adopted the use of the phones they are considered indispensable.

Coal in Young County

Dr. William B. Phillips of the State University mineral survey, states there are good coal fields in Young county, too remote from the present railway facilities to be profitably worked, but which with better transportation, would probably be profitable, and that during a recent visit to Young county investigating the fields he learned there was a railway project to pass through the coal fields which there is coal. It is evidently the Mineral Wells extension.

General Attorneys in Session

The general attorneys of the railways of Texas are in consultation at the Frisco at Dallas, in connection with the hearing before the commission of the assumption of regulatory authority of the Pullman sleeping car rates by the state railroad commission. The hearing is being held at the Frisco in Texas, vice H. C. Brahm, resigned, and the force of the commission's order.

Reached Plainview

The extension of the Santa Fe from Canyon City southward to Plainview is an accomplished fact and the first locomotive ever seen at that place has reached the city.

Notes and Personal

G. E. Heagler, soliciting freight agent at the Frisco at Dallas, is appointed chief clerk in the office of W. C. Preston, general freight agent of the Frisco in Texas, vice H. C. Brahm, resigned.

C. H. Markle, formerly with the Texas and Pacific at Dallas, is now the secretary of W. C. Preston, general freight agent of the Frisco.

NEWS OF THE TEXAS RANGE

Special to The Telegram.

SAN ANTONIO, Texas, Jan. 3.—One of the finest ranches in the Panhandle of Texas is that of W. S. Norwood, which lies twelve miles south of Shamrock, in Collingsworth county. The neighborhood in which it is located is known as the "Dooler country," and the land thereabouts is particularly productive. The Norwood ranch is composed of 4,160 acres of good grazing land and agricultural soil and has been conducted by the present owner for seven years. A portion of the ranch is rented out to tenants on a share basis, and the remainder is operated by the owner. The ranch is an experienced cattleman, and thoroughly understands how to produce the best results in this business. His stock is conducted on the line of the San Antonio and Aransas Pass railroad, and is registered Red Polled cattle, and it is Mr. Norwood's intention to soon make a trip to Maquoketa, Iowa, where this station is located, to purchase and purchase a carload of thoroughbred Polled cattle, to add to the bunch already on the ranch. This will make the Norwood ranch one of the best of its kind in the Panhandle of Texas, bar none.

One Thousand Cattle on Feed

Special to The Telegram.

SAN ANTONIO, Texas, Jan. 3.—About 1,000 head of cattle are now being fed on the oil mill products, meal and hulls, near town. These cattle when fat will be shipped to the Fort Worth market and sold for beef. Three feed lots are being operated as follows: Walker & Bro., 225; W. L. Bannister, 360; Brown & Taylor, 156. This bunch of steers consume great quantities daily and the wagons are kept busy hauling it from the mill to the feed pens. This mill is a great thing for the stockman because he can buy his feed at home as cheap as he could at the railroad and it is a great thing for the farmer because it makes a home market for cotton seed.

Trouble With Railroads

Special to The Telegram.

ALPINE, Texas, Jan. 3.—Last week Jackson & Harmon had another unpleasant experience with the railroad people. They have shipped five carloads to New Orleans, which were contracted for \$6, but when the cars reached San Antonio the traffic manager wired they could not be shipped to New Orleans but could be sent to St. Louis, otherwise they would be held at San Antonio. The traffic manager thinking it to be the best thing to do under the circumstances, consented to the change of destination, but he may require the railroad to pay damages.

Sales of Jersey Cattle

Special to The Telegram.

GEORGETOWN, Texas, Jan. 3.—J. H. Tom of Concrete Dairy this week sold twenty-six Jersey cows to Tom Palmer of Jonah for \$900. Mr. Tom also sold sixteen young Jerseys to F. W. Carothers, who will pasture them. Tom will retire from the dairy business. J. B. Saylor of Jonah this week bought F. W. Carothers' private herd of Herefords, sixteen in number, and took the cattle out to his Jonah ranch.

Feeding 2,400 Steers

Special to The Telegram.

BROWNWOOD, Texas, Jan. 3.—The Brownwood oil mill is now feeding 2,400 steers at their pens here and will not ship any here until some of these steers are marketed. The cattle are doing well and there has not been a stampede among them this season.

Baby Cradled in Bent Steel Plate

Was Carried 500 Miles Without Injury

Special to The Telegram.

BERLIN, Jan. 3.—Cradled in a bent plate of steel, a baby made a strange voyage in the Nord Deutscher Lloyd liner Kaiser Wilhelm der Grosse after the vessel was wrecked in the British steamer Orinoco off Cherbourg.

When the German ship arrived at Bremerhaven with some of her plates doubled up, the workmen sent to repair her found a small infant safely enclosed in the fold of one bent plate. The baby had been carried 500 miles without injury in its curious cradle, but its mother was one of the victims killed by the violent impact of the colliding ships.

Eldridge of the United States department of agriculture, on "Road Inquiry and Road Economics."

The Kansas Draft Horse Breeders' Association will hold a brief meeting at Agricultural hall late this afternoon. A drill in horse judging will be given by Professor R. J. Kinzer in the morning.

WINTER MANEUVERS

Atlantic Fleet Assembles for Trip to Warmer Waters

Special to The Telegram.

HAMPTON ROADS, Va., Jan. 3.—The Atlantic fleet of fourteen battleships and many cruisers and smaller vessels gathered here today and will sail immediately for Guantanamo, where winter maneuvers will be held. The fleet will remain until the middle of next month, engaging in fleet tactics and evolutions. The maneuvers will be on a far more elaborate and extensive scale than heretofore, and will include the working out of the defense of the South Atlantic and Gulf coasts. Small arms practice on the new range at Guantanamo will be daily features of the exercises. The fleet will return to the Florida coast on March 25 for the annual target practice, and will again assemble here on April 15.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Bladder. Catarrh is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

FEW CONTAGIOUS DISEASES HERE

Dr. Barber Knows of But Six Cases Now

Fort Worth is probably more free from contagious disease at the present time than at any time within the past seven or eight years, there being only six cases of contagious diseases in the city altogether.

There are three cases of scarlet fever at present and three of diphtheria. The record in diphtheria is probably the lowest that Fort Worth has seen in the beginning of the year for a long time, as there are generally many cases of that disease present in December and January. The cause for the scarcity of cases of diphtheria is attributed by Dr. Lyman Barber, city health physician, to the warm weather that Fort Worth has been having. In cold weather, especially when it is damp, as it is likely to be in this season of the year, diphtheria is more likely to flourish.

MANY BUILD SIDEWALKS

Sixth Ward is Ahead of Others in This Respect

Sidewalk building in Fort Worth is in the boom stage and contractors are nearly all behind in their work. The biggest percentage of the work on hand is south of the Texas & Pacific railroad, the Sixth ward being ahead of any other ward in the city in this kind of work.

"I am three weeks behind in my orders for sidewalks," said J. R. Puckett to a Telegram reporter, "and am increasing my force in order to catch up and take care of the work. There will be more sidewalks in Fort Worth in 1907 than during any previous year, and I believe when the year ends there will be more miles in cement sidewalks in Fort Worth than in any other city in the state."
