

Abilene Firm Awarded School Building Contract

The Board of Trustees of the Cross Plains Independent School District, meeting in called session in the high school study hall at 2:00 p. m. Wednesday of this week, opened contractors bids on the proposed new school building and awarded the building contract to B. F. Horn Co., of Abilene on a bid of \$137,800.00. Including a covered walkway connecting the new structure with the present buildings. Contract terms call for completion of the structure in 195 working days. Vote on the contract awarding was unanimous.

Board members chose cream-colored brick to be used in the construction. The plans and specifications for the new building are said to be of the very latest in design and will provide this community with one of the finest school plants to be found in this area.

The building will house an auditorium with a seating capacity of 766 people, a cafeteria designed to serve 150 students at a time, a new and modern agriculture department with shop and classroom and a music department for the school band.

Estimated figures, reported by Supt. Paul Whitten, place the costs of equipment for the new building at approximately \$22,000.00.

Other Improvements
Also included in the building plans of the board is a complete remodeling program for the gymnasium and needed repairs and modernizing of other buildings.

Local labor will be used on the project, as far as possible, it was said and this will provide a number of people with employment for several months. The building will probably be ready for occupancy about the middle of November, according to the contractor's estimate.

Nephew Of Local Woman Killed In Road Mishap

Sammy Dean Webb, 9, son of Mr. and Mrs. C. L. Webb of Cisco, and nephew of Mrs. Jack Lacy of this city, was killed almost instantly early Tuesday morning of this week when he was struck by an automobile as he waited for a school bus near his home a quarter of a mile west of the Cisco city limits on U. S. Highway 80.

According to investigating officers, the boy was with a group of other children waiting for the school bus beside the highway, some 100 yards south of his home at the time of the accident. One of the girls in the group opened her notebook and a paper blew out across the highway. The Webb boy attempted to retrieve the paper and was struck by the car as he crossed the highway.

The driver of the car was James Stacey Arnold, 18, of Abilene. He told officers he swerved to the right in an attempt to avoid hitting the youth and almost missed him. The car's right fender struck the boy.

Sammy Dean was born in Cisco on December 16, 1945, and had lived there all his life. He was a student of West Ward School.

Funeral services were held at 3 p. m. Wednesday at the First Baptist Church in Cisco with Dr. H. M. Ward, pastor, officiating. Burial was made in the Oakwood cemetery.

Bayou Philosopher Baffled By Government Worker Who Wants Back On Farm To Rest

Editor's note: The Bayou Philosopher on his Johnson grass farm on the Bayou claims he is behind in his work, a point we certainly wouldn't argue about.

Dear editor:
While I was out here yesterday checking up on how far behind I am with my work, there's one thing you can say about a farm, the only way to run out of something to do is to move to town, I walked over to a tree and sat down in the shade and pulled out a newspaper and read a couple of hours to rest my mind. I understand some people claim dreading work is worse than the work itself, but I've never found it to be that way, it's not the thought of work that bothers me, it's going up one row and down another.

At any rate, I got to looking over this paper and ran across an item that struck me as odd.

According to it, a man in Washington had just been fired from his government job and, when some reporters asked him what he was going to do next, meaning what other government job

he would take, he said he was too tired to be thinking of a job and was "going back to my farm."

I tell you, that man was tired than he realized.

Anybody who is too tired to work and decides to go back to the farm, just ain't got the same kind of farm I'm used to. No doubt he needs a rest, but most people, confronted with a similar situation, would figure out the place to rest would be another government job.

I know a lot of government officials work hard, but ordinarily you just don't hear many government workers saying they'd like to swap their swivel chair for a tractor seat. It's not that there's anything wrong with a tractor seat, they make em now with hydraulic springs and foam rubber cushions, but the atmosphere is different. They just ain't equipped with venetian blinds to shut out the sun and half the time the air conditioner won't work.

When government jobs get to the point where they're harder than farming, I aim to hire me a tractor hand. Up to now, though, they're still hard to get.

Yours faithfully,
J. A.

He was carried to the Rising Star Hospital where the fracture was set and placed in a cast.

Jack Webb's chief concern regarding the accident was not how much it hurt or the bothersome task of wearing the cast, but would it keep him from participating in the Little League Baseball schedule here this summer.

CORRECTION

Due to an error made when the list of contributors to the Band Booster Club financial drive was compiled, the names of Mr. and Mrs. W. T. McClure were omitted from the list furnished the Review for publication in last week's edition.

Mrs. Daisy May Moore, 62, wife of Jess Moore, popular residents of this community since 1950, was killed instantly when the car she was driving was involved in a collision with a grain truck on Highway 36, just west of the Jennings Wrecking Yard on the west outskirts of Cross Plains about 11:45 a. m. Tuesday of this week.

She was traveling west on the highway enroute to her home, which is located about four miles west of town, when the accident occurred. The truck was going east. Investigating officers said the two vehicles collided near the center of the highway, and the truck pushed the car down the highway for about 93 feet before coming to a stop.

Driver of the truck, a 1952 GMC and a trailer owned by Yoakum Grain Co. of Yoakum, was Charles Ben Kaiser, 61, of Yoakum.

The car, a 1952 Frazer, was demolished, but the truck sustained only minor damage, it was reported.

Truck Driver Uninjured
Both drivers were alone in their respective vehicles, and the truck driver escaped without injuries.

"As It Looks From Here"

OMAR BURSLESON
Congressman
17th District

Washington, D. C. — Increased Cotton Allotments . . . for the drought disaster areas is occupying the most vigorous attention of many of us at the moment.

Congressman George Mahon and I have introduced Bills which could give relief to the extent of 35 percent increase based on any three consecutive years during the last ten years.

In addition, I expect to introduce legislation which will cover all the six basic commodities and cut the three year period to two, and increase the allowance to 50 percent.

Looking at the possibilities, I believe it will be necessary to include other crops in addition to cotton in order to pass the Bill. This, of course, is not the only reason, because wheat, peanuts and other crops are in the same condition. In other words, we must have the help of those from the great wheat-growing areas in Kansas and those who have special interest in other places to support an effort of this kind.

There is little doubt but that the Department of Agriculture will oppose increased allotments. As a matter of fact, the Department has pretty well proved its attitude by

Miss Velda Crow To Wed Donald Stephens

Mr. and Mrs. Bernard Crow of Rowden are announcing the engagement and approaching marriage of their daughter, Velda, to Donald Stephens. He is the son of Mrs. Linnie Stephens of Abilene and the late C. E. Stephens who resided in the Rowden community. Miss Crow is a senior in the Cross Plains High School. The prospective bridegroom is employed by the Texas Highway Department in Lubbock.

The wedding is scheduled for June 10 in the Rowden Baptist Church.

not having given relief under the present law, which they could have done. Instead of relieving the drought areas and the individual hardship cases, the increased acreage has gone to those places which have been primarily the cause of the surplus, which in turn is the reason for acreage controls.

We hope to get early hearings before the Agriculture Committee of the Congress on these measures.

If the President And His Administration Leaders . . . had promised that the budget would be balanced before any tax cuts were made, the Democrats would not have attempted the \$20 per person allowance. The Republicans promised a tax cut but did not promise that the budget would be balanced before. The Democrats tried to beat them to the "punch", which all means that politics was being played with such a serious thing as taxes and the fiscal welfare of the Government.

President Eisenhower . . . flew down to Augusta, Georgia, this past week for a few days' rest. Some people criticize the President for taking a few days off for golf, fishing, and other recreation, but to see the tremendous strain under which any President must constantly live, it is a wonder any man could last four years at the job.

Incidentally, my wife Ruth flew down to Georgia with the President and went on to visit her two elderly aunts who live at Gordon, Georgia. She tells me by long-distance telephone that it was a very pleasant trip. She had lunch on the plane with Mr. Eisenhower and Mr. Jim Hagerty, Press Secretary to the President.

When they were leaving from the airport here in Washington, the President asked if I were going along. I told him I was not for a number of reasons - but since I was not invited in the first place, the other reasons didn't matter. He laughed and could do nothing else but invite me at the time, but I thought I was too busy to be away.

"What you believe will depend very much on what you are."

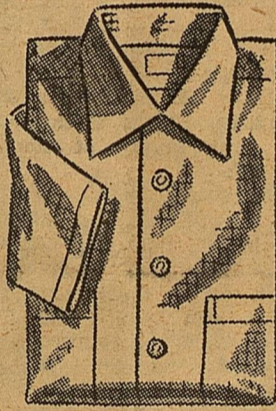

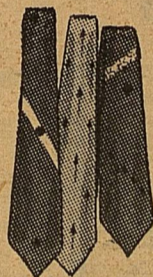

Mrs. Gene Rhodes was an Abilene visitor Monday.

Recent visitors in the home of Mr. and Mrs. M. H. Bains were Mr. and Mrs. E. H. Ward and children of Greenville, Mr. and Mrs. M. H. Bains, Jr., Victoria and Mr. and Mrs. Ocie Pye and children of Sundown.

Cattle and Calves Open Weak

Fort Worth—All classes of cattle and calves were weak to 50 cents lower in the week's opening trade at Fort Worth Monday. Fed cattle were under most pressure and moved in a slow trade at prices 50 cents, or more lower than last week.

The 5,000 head received at Fort Worth was the most since November. Total receipts at the twelve major markets was the largest since January and this had some influence in lowering prices. Also, many of the cattle are off of lush grass pastures, which reduces the dressing percent.

Stockers were about the only kind that sold at steady prices. Choice stocker steer yearlings and stocker steer calves still sell up to \$22. Low grade stockers are slow and hard to move at \$15 and less. Stocker cows brought \$10 to \$12.

Club Yearlings Bring \$25

A few head of choice club yearlings from Motley County sold at \$25, but most good and choice fed steers sold at \$19 to \$23. Some fed steers were as much as 75 cents lower. Fat cows sold at \$11 to \$13 with a few odd head higher. Canners and cutters brought \$7 to \$11. Bulls sold at \$10 to \$14. Good and choice slaughter calves cashed at \$17 to \$21.50. Plainer kinds brought \$12 to \$16.50, while culls sold down to \$10.

Butcher Hogs and Sows Lower

Butcher hogs and sows sold at sharply lower prices. Butcher hogs

If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land. II Chronicles 7:14.

Highlights and Sidelights FROM your State CAPITOL

Austin—Tax plans tallied in the House before adjournment last week-end.

A tight-running team carried the Stanton Stone "fleas to uranium" omnibus tax compromise. But they threw the ball over the head of the receiver. Net result: The House refused to pass the bill at second reading. It had to be revived for further action.

Some members rebelled because they weren't in on the play.

New compromises, with more players and a less taut rein, however, promised an ultimate tax bill. Members have been talking about "\$100 million new taxes," and that was just about what the new compromise plan embraced. It would involve face saving all around.

The four-point plan included: Acceptance of the Stone cut of the gasoline tax to one cent, from two, as originally asked by Governor Shivers. At the same time, one-fourth of its revenue—eight million a year—would be given to cities and counties to buy rights-of-way. One-cent increase on cigarette tax was kept.

Cut-down levies on beer dealers' licenses voted by the House was accepted, but, in deference to strong group demands, \$1 a barrel tax on beer was added.

Natural gas production tax would be frozen at its present 9-cent level. By present law, it would drop to 8 cents in September and 7 cents after September 1, 1956.

As the bill stood when the House refused passage, it would raise forty and one-half million dollars a year. Various changes proposed in the second compromise would push it up to \$50 million a year, thus reaching the "\$100 million" about which members talked.

There still is talk of a special session, should the regular session not be able to iron out differences on where and how to raise the needed revenue.

Other Bills Pass
While the House walked around the tax issue, a number of non-controversial bills were passed.

Voted by the House was concurrence in Senate amendments to a bill banning "lewd and depraved" comic books.

Also voted was a Senate amendment shortening the "cooling off" period in divorce cases. The House has passed a bill setting the time at 90 days. The Senate made it 60.

Two Senate bills calling for mandatory jail sentences in sex offense convictions involving children were approved by the House.

Final passage was given a bill increasing the length limit of trucks from 45 to 50 feet.

In the Senate, 43 local and uncontested bills were passed.

Probe To Continue
Veterans land investigations will proceed in the Senate, despite bitter objections of some members.

Senator Jimmy Phillips said it would be wrong to stop it because "all parties responsible for the gigantic fraud have not been exposed and named."

Senators Dorsey B. Hardeman and Rudolph A. Weinert contended that the probe has established the pattern of fraud and the time has come for trial of persons indicted.

Voting was 19 to 12 to carry the inquiry through May 10.

Last week was the first in a long time when no new criminal charges or indictments or civil forfeiture suits were filed, involving veterans land.

Submission of additional land bonds has been voted by the Veterans Land Board two-to-one with Attorney General John Ben Shepperd voting no. Hearing has been postponed in the Senate on Sen. Geo. Moffett's \$100 million bond plan. A \$200 million resolution was waiting in the House.

Tidelands Again
More trouble looms between the federal government and Texas over the tidelands.

Attorney General Shepperd said he had discovered that the U. S. Interior Department and the Department of Justice will oppose Texas' sale of tidelands oil and gas leases May 3.

Congress restored ownership of the tidelands, out to the 10 1-2 mile limit, after the submerged areas had been claimed by the federal government.

Only three miles of the offshore lands were returned to other states. Now it appears the federal government wants to hold Texas rights to three miles.

Money from sale of the leases goes into the Texas permanent school fund.

New Law Permits Social Security Payments That Were Formerly Denied

Did the breadwinner of your family die after June 30, 1940, and before September 1950?

R. R. Tuley, Jr., manager of the Abilene District Office of the Social Security Administration, states that the 1954 Amendments now provide monthly payments to many people who previously were not eligible to receive Social Security Insurance benefits, if the deceased worker had at least 6 quarters of coverage (1 1-2 years of work covered by the law).

This new insurance provision applies only in death cases, where the worker or a World War II veteran died before September 1950 and did not have sufficient social security credits under the law at that time for payments to be made to his survivors at the time of death. Tuley believes there are several hundred such families in the area of the Abilene office services who do not know of this change.

If the breadwinner of your family died before September 1950 and you are not receiving monthly social security benefits, you should contact your Social Security Office immediately if you are:

1. A widow, age 65, or older, or
2. A widow under age 65 with unmarried children under the age of 18, or
3. A child under the age of 18 and unmarried, or
4. A parent, who was chiefly dependent upon the wage earner at the time of his death, provided the wage earner was not survived by a widow or minor children.

Gay Nell Bryan, Sharon Dye and Carl McCord visited with Charlotte Dye at Hendrick Memorial Hospital in Abilene Saturday night.
